5 July, 1978

Dear Friend;

We have appreciated that you have been sensitive to Peoples Temple and thus we are sending you these articles from the Sun Reporter about the work of Peoples Temple so you can put in perspective some of the opposition that Peoples Temple has faced. If you have received any negative articles about Peoples Temple lately they represent only a small segment of the United States and are only sensational small town rags.

Of course, one knows from a religious perspective that if you are doing the work, you will face persecutions. Whether you are religious or not, you can evaluate the facts for yourself. Peoples Temple is a group that has for thirty years devoted its energies to racial and economic equality, a goal that has taken the toll of many lives such as Martin Luther King, Jr. Peoples Temple, out of a deep commitment to its principles, has chosen to live in Guyana, a third world nation. There are those who are racist and reactionary who do not want anyone to survive and be successful in exemplifying these ideals, if they are in any way a living proof that an interracial egalitarian lifestyle can survive. You can see for yourself when you visit Jonestown, and we welcome guests daily, that Jonestown is an interracial egalitarian socialist community.

There are a few individuals, and we in no way feel that these people exemplify those progressive individuals in the United States who have been most supportive of Peoples Temple, that have attempted to dishonor this project. There were those who attempted to do the same thing to Martin Luther King, Jr. after his death when they publicized that he indulged in sexual orgies, a rather difficult thing to believe since he spent his out in the streets with the people day after day facing racial attacks and was far too busy and dedicated to "indulge" in hardly anything even the most normal type of relaxation. However, it is an obvious tactic of racists and reactionaries to discredit a person through this kind of unproven innuendo rather than to come to grips with their dedicated efforts to improve the human condition. There has never in history been anyone who [illegible] to assist humanity, even in the slightest way, that hasn't f[illegible] [illegible]sent that is anti-humanitarian and threatened by any [illegible]nge th[illegible] benefits other than himself.

We thank you for your attention to these articles. We welcome objective criticism and beg you to contact us directly if you find any area in our

ANSWERS TO STEVE DAVIS' QUESTIONS ---

1. What is the status of the "concerned relatives" that came?

   Ans: The so-called "concerned relatives", as far as we know, are in Georgetown.

2. Will they have access to Jonestown? What is the reaction of relatives in Jonestown to their "concerned relatives?"

   Because the announced intention of the group of individuals calling themselves "concerned relatives" is to destroy Jonestown, and because none of their relatives wishes to see them under these circumstances, none will be welcomed into our community. ~~This is our home, and~~ Like anyone else, we are not inclined to admit stridently hostile persons into our home. We add that many relatives and friends of residents of Jonestown have come and gone, and our community is open to visitors. If these individuals came as friends, we would welcome them, but because their purpose is to destroy us, their relatives do not care to see them in that frame of mind. From the viewpoint of the "concerned relatives" this is decidedly not a 'live and let live' situation.

3. ~~Sixty days ago the press~~
   Will the press that came go into Jonestown?

   Some sixty days ago, the Jonestown community invited media reprsentatives from both the Chronicle and Examiner to come to see our community. Both newspapers refused to send anyone. However, today, at the behests of the group of "concerned relatives" that is out to destroy Jonestown, we find representatives of both newspapers, as well as other media, seeking to come in. Under these circumstances, we can only assume that ~~their purpose~~, because they came at the request of our adversaires but not at our request, they are biased in favor of these "concerned relatives." Under these conditions we have no intention of admitting them. We reiterate that this is not to be construed as a rejection of media: ~~because~~ we invited them here ourselves two months ago. When they can again demonstrate some degree of impartiality, we might be willing to admit them here, but not under these circumstances.

4. Has Charles Garry arrived? Charles Garry was unable to come to Guyana. However, attorney Mark Lane of the Citizens Commission of Inquiry, ~~which~~ which has investigated the lies and slanders about Jonestown ~~and~~ being circulated by the "concerned relatives" and has found them to be precisely that -- lies --, plans to come in and ~~to~~ accompany Congressman Ryan and his aides. We are welcoming into our community Mrs. Nadyne Houston, ~~grandmother~~ whose daughter in law and two grandchildren are residing in Jonestown. Though she came in the company of the "concerned relatives group" we have good evidence that her intentions are honorable, and she is coming out of a genuine desire to see her loved ones. This is definitely not thecase with the other "concerned relatives."

NOTE: PLEASE POLISH UP. I AM GUESSING ON SOME OF THIS INFORMATION. DO WE ALSO WANT TO GIVE THEM A STATEMENT ABOUT RYAN. THAT WE HAVE INVITED HIM. (Is he going to come? Will Lane accompany him? ~~XXXX~~ Who else?)

PRESS STATEMENT

Congressman Leo Ryan (Democrat-California) has arrived in Guyana to visit Jonestown. His visit is being made in conjunction with a group of mostly former members of Peoples Temple who have been engaged in a campaign of slander and gross misportrayal of Jonestown. It is evident that this group has enlisted the support of Congressman Ryan (and representatives of the establishment media) in order to surround their malicious purposes with an air of legitimacy.

Peoples Temple and the Jonestown community reserve the right not to entertain Congressman Ryan (and others in his company), especially under these dubious circumstances. However, we feel that whatever Mr. Ryan may have been told, if he is an honest and objective person, he will easily see through the gross misportrayals, lies and false charges about Jonestown when he visits here. We are, however, somewhat mystified at why the testimony of U.S. State Department officials, who have visited Jonestown on several occasions, and who have conducted dozens of interviews with residents here, are not sufficient to expose the utter falsity of the charges against this community, and set the Congressman's mind at rest.

It has been substantiated by independent investigators Mark LANE And Donald Freed of the Citizens Commission of Inquiry, in extended visits to Jonestown in recent weeks, that there is a massive conspiracy to destroy the community here. It is also evident that, whether they know it or not, Mr. Ryan and others are being used by this conspiracy, which is pitting former members of Peoples Temple against present members.

Literally hundreds of visitors, including ~~Guyana~~ officials, relatives of members, ~~as well as~~ dignitaries and interested persons from ~~all~~ ~~Guyana~~ this country and many others have ~~seen~~ stayed in Jonestown and ~~commended the people~~ praised the lifestyle and ~~contributions made by~~ accomplishments of the ~~people~~ co-operative community.

Should Liane stay in Kamaka since her dad is in there? Sharon wants to know. Jim said to send her home.

Ask Dr. DeSilva to send eye glass cases out.

Guyana press is calling the house wanting to know our position and if Ryan is coming in.

Appts. today are with Bunny Mann and Min. Jackson 2:30 PM.

Joyce, look into prices of hospitals in Venezuela, it's impt.

--Should Paula be around Bunny Mann if he meets with any of these people? Sarah says until she hears otherwise, no. Relayed to G-town.

--Tell Maria when she calls that Christine L. says she needs to tell Clara J. that Christine will be out of school for a few days.

--Clear with Jim-- Nedra going alone to Caracus. They will take her, but can't take the other patients.

--Ruby said the clothes she sent in for the show won't fit anyone.

--What did Demmerra Radio news have to say:

Those who came in on the plane are: Wayne P, Sherwin Harris, Olivers, Mick

E-3-A-2(9)

Touchette, Grace and Tim Stoen, Jim Cobb, Katsaris and son, Bonnie Burnham, Ryan, Robert Houston Sr. and Carol Boyd, the children's aunt.

Relayed message about Ryan to Dyer at US Embassy. He wants to know if some people could meet with Ryan's aid Mr. Scabbert to talk about the visit out here on Friday. She told him it would have to be a meeting without media or any of the others. Any instructions?

Ann met a man, Edwin James, from the North Korean Embassy. He's friends with Min. Durant and the TUC. He said he could get TUC to make a statement of support for PT in regards to this situation with Ryan. He also works for Chilean refugees so he was supportive of us because Ryan supported Pinochet. He said he'd talk to some people for us. Ann gave him a statement.

ANS TO ANN: Try to get him to do everything for us.

Luckhoo called and said Ron Jarves was not allowed to land reporter from Chronicle. I told her to find out why not.

Johnny called in from the front gate and said he talked to the Sargent at Matthews Ridge and he's going to have 3 constables at the airstrip in Port Kaituma to tell the people they can't come to Jonestown when they get off the plane. Kaituma won't give them any transportation. If they won't go back on the plane they will have to use other methods. He explained that the people who we didn't want to come in were from the states. The only person that could come in was a Guyanese Marshall. But if we're going to have any GDF flights out here or let Ryan out on Friday we will have to tell them in advance or otherwise no one gets in.

Dr. DaSilva doesn't have to come out. Versie and Mike T. are going in to bargain down the bill. Corlis will send the bill in and figure the bill up again because there was a $100. mistake on Danny Katulas's glasses.

Mrs. Montoya said there was no doubt that Ryan is a set up. He wasn't pushy for Emmet. Mr. Nakamura pushed for that now that thery're here why not make a good thing out jof a bad thing. He was not in favor of Dewey. Ryan was a front to bring Emmet. He didn't know that all of them were coming. He said to Mr. Peltier he wanted to get the names of the people to him. He felt theere would be a confrontation and wanted GAC and all transportation checked. Mrs. Montoya got got the impression from Mr. Peltier that he didn't want to do anything about them. Mrs. Montoya said the way he reacted on the phone, Jeanette wasn't supportive and she thingks they may not be telling him much because of Mrs. Montoya. (because of the smear possibility involving Bunny and Paula)--Paula as agent. Mrs. Montoya got the impression that they were both of them saying this is a goddamn mess that we got ourselves into this. Driscol feels that Ann doesn't listen to others points of view and isn't willing to negotiate. Bunnie likes Carolyn better because she at least acknowledges his suggestions. He is irritated with Ann.

Lucy says Ann seemed really upset after she talked with her husband this morning.

CONGRESSMAN LEO RYAN - A FACT SHEET - eleventh district, Democrat

53 years old; born in Lincoln Nebraska; career as high school teacher and principal

Does not list his religion as most other Congressmen do

Hisdistrict is suburban, white collar, white; a generally Republican district, but not very Reagan-like conservatives. Before Ryan, liberal Republican Pete McCloskey represented Ryan's area (San Bruno). His district went for Ford 53-47 in the election of 1976.

He was elected in 1976 by a solid 68-32 majority, though in 1974 he won by a whopping 78-22, so he is quite popular.

His is very 'tight' with Andrew Young, who was the keynote speaker at his big testimonial which some of us attended in 1976. He is considered a liberal, and his voting record, with only a few exceptions, is straight liberal, as follows:

FOR defense spending cuts

FOR Chrome ban on Rhodesia

FOR delay of B-1 bomber

FOR Consumer protection agency

AGAINST construction of nuclear carriers

FOR Cuts to Korea (South) in military aid

AGAINST private production of uranium technology

AGAINST delaying implementation of tough anti-pollution measures (he is very strong environmentalist)

He is supposedly interested in liberalizing the US policy with regard to South Africa, and worked with Andy Young in that regard.

He voted for military aid to Pinochet, and was against opening up the House assassination investigations. (King and JFK assassinations).

NOTE The decision to keep military aid going to Chile passed the House 266-139, and most people voted for it because US was giving aid to "even more repressive regimes" (!).

From what Phyllis Houston told me, Ryan is in this thing because of Bob Houston's father, who knows him, and apparently Ryan was the principal of the high school Houston graduated from.

Committees: International Relations (he is a member of two subcommitteed of that committee, International O erations and International Organizations). He is also on the Post Office and Civil Service committee. He serves on the Postal Operations and Services subcommittee of the main committee.

He is very friendly with the Bay Area liberals like the Burtons, etc. Willie Brown's endorsement of us probably had a strong effect on him.

SUGGESTION: PHOTOS OF RYAN BE TAKEN (posed with Dad, if possible), and the film be sent back to the U.S. for immediate porcessing, duplication, and release to the media, along with our own story, which we can radio in to Georgetown or transmit via morse code to the USA. This should include a statement from Ryan about Jonestown.

Nov 15 - Unc

Two carloads of Ryan's entourage showed up at our house this afternoon. They got out, took some pictures and came to the gate asking to see someone. We told them not at this time and asked them to leave which they did after a couple of minutes. G/town instructed to call Mingo and report it. (notes on other page).

-- ANN saw Jackson today and as she was leaving saw Ryan drive up. She asked to be present as we were the subject of discussion and Jackson said no-- they were just going to discuss his work(Foreign Affairs.)
-- Barnwell said that Clarence Hughes and Luckhoo talked to Bollers about getting the John ase assigned to another judge. This was a few days ago.
--The Chron reporter who got jailed awas, according to Jackson, very insulting to the Guyanese immigration officers.

Ryan's aide called and said he read the letter that Ryan wrote to Guy Young in May for the first time and he can thus understand our concern. He wants to get things straightened out and will come with Ryan only with Mark on Friday. Sharon told about her children and situation and the guy agreed things were getting out of hand. He said that they didnt know all the background of the people involved and he agreed it was getting out of hand. Wanted to meet as soon as possible. Said Ryan had the plane till Thursday, but Sharon said you can see why we'd want Mark along, and he said he'd see what they could do about working it out. He said he would work on it. Sharon told him about the people who came to the house, taking pictures and everything and how upsetting it was at this time, and he said he could understand that and was concerned about it.. Dick Dwyer showed him the letter Ryan wrote in May. He said he would talk to the Ryan and will call back in a half hour. He said he would rather talk in person and asked if he could come over tonite.
Bollers said he had talked to a few people-- Skip and Barnwell and showed him that letter and Barnwell said it didnt sound very object ive. Nobody has contacted him- didnt know they werein toen.
Talked to Luckhoo who said were ready-- if they try anything, well handle it. He said he'd talk to Skip again about what happened this afternoon.
-- Jackson-- seemed to be interested on what level the conspiracy is.
I told him he could meet with Mark when he's in town.
Seems generally to be quite a bit of support from the pple we talked to. Talked to Harry Harewood and he was very symapthetic and wants to come again.

--From LUCY - Jackson-- wated to know why we wouldnt let the woman aide to Ryan in.
--RYANS AIDE CALLED-- said having problem getting a plane Fri. Embassy will only let him have the plane through Thursday. We said we'd help them get a GDF plane for Friday. Said Ryan would like to talk to us on radio and Jim-- misunderstanding etc. Would like to communicateetc. We said Jim ill, glad to talk with him Friday, welcome him out here then-- etc. etc. and we won't eat him. Ryans aide said Willie Brown gave us a glowing report.

GEORGETOWN FEEDBACK Nov 15th - Wed.

-- NBC : the Guyana govt needs ananswer right away on NBC filming. The govt would like to write a contract with NBC sett ng conditiond that any film would be put in the conte xt of what JT really is. They have to really portray it accurayely-- Another condition is that they will send an executive from the Minisyery of Info to accompany to be sure that what they film is not a mud hole. Truly reprssebttaive of JT. They would be filmining simultatenously to make sure there is a duplicate film to make sure nothin gtaken out of context, and whe NBC film is sent to states a duplicate is sent to gUyana gov and us If any misrepresentation is made the govt will make a formal complaint to NBC president and no media will be allowed to come in the futre because it will be considered a breach of professional ethics etc. This message is from Ambassador Mann and he suggests that if NBC distorted when we have the copy and so does the Guyana govt of the film in context then if we would turn that over to Sixty munites it would expose distortion. The propsal was made by the govt and was conveyed by Ambassador Mann-- don t know if thi has been propsed to NBC yet, they want an answer this evening. NBC IS JUST sitting in their hotel room and cant do anything until sonce they went through all of this to get cleanevce and now they cant do anything.
UPI- said the Washington Post sent a representative here--here and some guy with a British passport (Gordon Lindsay).
--
-- new press statement needs to be isuued that is more up to date.

--Clifford to make several placks for the tournament/ from Lee// for basketball tournament// one large one for first place// anothersmaller one for 2nd place// smaller one yet for all tournament players// 5 of these smallest ones// make them tastefully, creative shape// need them inside of 2 weeks.//

Sharon called Doug Ellice and he's going to have the producer call her.
--Tell them Jim is very pleased with them, and also to make sure there is no confrontation with anyone. Stay away from them. Stay out of harms way.

--NBC- Don Harris. Producer. Head of the team. Actual film could run one an half to eight minutes-- standard news coverage.He said it doesnt look like the issues are that complex-- he said jokingly "It certainly looks like you are no crsis to the Republic." he said that he had an agreement with Mark and Garry-- wont promise favorable, or negative-- but will let Mark know ahead of time how its going to turn out.He didnt think he could film in a day and because he uses electronic cameras and tempermental in high humidity. ays you cant work in the rain , and when he takes a fligtho they have to pack up and unpack etc. As far as he's concerned he's not going to make a judgment based on Leo Ryans view-- his own judgmen He said Leo Ryan always does what he says he will do. e said that Leo Ryan does not want an atagonistic situation -- didnt want press at first visit to GT or JT. He said thre is a Washington P st reporter in town. e wanted to know who the liason person assigned to him in GT. Ann asked if the govt had talked to him at all and they had assigned him a liadon person to help him charter a plane into JT and be with him. He wasnt pushy about it but wanted to know if he could meet the plane when Mark arrives-- to discuss it with him then. 5 crew plus liadon man. Color video tape. No problem of accomodations -- will make out with whatever.
--
Edwin ames wants to meet ark at the airport--
--Leo Ryan-- concerned about cleaning up and putting on for guests.

He said the one question

Nov 15th - Wed.

RYAN -- said at least if he had accessibility, it would stop on a congressional and federal level. He came in and saw the team and met Steve. He just came walking right in. Mark Cordell met him at entrance He said it must be more comfortable in G/town then in J/town. Everyone said that wasn't true. He said "Well I'm a city boy." When Sharon suggested that he call next time: He said when you get to know me you find I'm a person of my word. Sharon said we didn't know him yet. He told Sharon that he heard something bad about her and wanted to get her side of the story--privately. He didn't remeber writing the letter to Guy Young, he said. Sharon told him about how "concerned" Sherwin Harris was by not contacting his kids all these years. Ruyan responded by saying that he would like to just see things for himself and talk with people alone-- such as Brian Bouquette. Said he didn't want to do a lot of negotiating with Mark Lane. He just wants to see the place and talk with some people alone. Steven Thought he was a politician.

passed to G/town: Write confidential on each page of Bunnie's letter to Rashleigh Jackson. Tell Jackson: We do not want to be quoted on anything to do with our political power because it could jeopardize our tax status.

passed Tell Bunnie: We had to do stuff for him re: the Inquirer article, to keep his name out of it. Can't he do something to keep NBC from coming in here. We must pull back our whole ~~xxxx~~ work force because they tried kidnapping before and will do it again. ~~Xxxx~~ They ~~xxxx~~ (NBC) will do a disservice to the whole nation if they get in.

passed to G/town: People in G-town and in Venezuela should find out as soon as possible what types of milk are available for babies. We want powered whole milk with vitamins and minerals if possible. Passed to G-town.

passed they need to rent a car. Jim said ok. Told G-town.
" Jim said Mac and Ann only to go to airport. Passed by KL to Robin.

Joyce Parks called. The hosp. she is working from cannot take any of our patients except for Nedra Yates. The rest will have to wait# until the 1st of January. She will check into alternative hosp. care that is costly, and get us the prices.
Ray Godshalk is coming home Saturday. He does not need chemo-therapy or radiation, only an ointment. This ointment we are ordering from the states. It's called Fluoruracil, or #5FU. Ray does have an enlarged liver. They # feel there is nothing more they can do for him. He can come back in January if he needs to.

Jarvis and Ruatauhn are in NY, asking for entry. Paula thinks they will just come ahead. Jarvis is a friend of Ruatauhn, and Ruatauhn works for the Examiner

Paula wants to know if she should go with Sharon tonight. She doesn't know if she will have time, but she could try.

Margaret Ackman is upset that we are being bothered, and she will talk to Mingo. That letter we gave her -- she knew about Hoyt. She was very concerned and took it very seriously. She knows how Bunny treats women, and knows he's very violent. He's been voilent # with women before Paula, she said. She knows he gambles. We said we were very concerned about Paula and we said we thought Paula would take risks to see Burnham. She is going to call Mingo to try to stop Mingo.

Don Freed is not coming. Lane is still coming Thurs.
Claire coming next week.. → Sat

--Bunny Mann is going to try to get an appt. with Burnham.
--Sharon is suppose to call H. Green at 2 PM today.

--Sharon called Mingo who was upset at being interrupted in the middle of a meeting. He said NCB and Ryan have been cleared but whether this means clearnace to come into the interior when we do not welcome them has to be answered by the Minister of Interior--DeRush. Mingo said he was doing what he could in regards to the others. If NBC is cleared to travel within the country, they must be accompanied by a rep. from the Ministry of Info, at all times. Someone, according to Rashleigh Jackson, is supposed to contact us from the U.S. Embassy to ask if we will see the NBC team and Ryan. If we say no; Jackson said it is up to Mingo whether they can come into the interior, However, Mingo said it is up to the Minister of Interior who Ann is trying to reach.

--The charter can come in tormorrow between 3:30 and 4:00 which is too late. Emergency medical flight. Gransalt said he couldn't take them to Venezuela or Trinidad and neither can In Air. Debbie thinks there is one more which she will try. (Those coming tomorrow to pick up the people would be GDF)

HAMILTON GREEN

Green talked to Mingo and Rashleigh Jackson. Said he knows Ryan is right wing, // we explained why we weren't going to see Ryan, and he said that is your right. He said you insist on your own conditions, that is fair. Sharon asked him what could be done about the others coming, and he said he would have to check on that. But he said we could bring him the names tomorrow morning. But at first before he said it's your choice, he said it might be a problem. He said let our conditions be known loud and clear, and he said he would see what he could do too

At first he was saying it might be a plus because they could see for themselves. She got emotional and cried. But when we explained what their whole purpose was, and we didn't think Ryan had the right to make a judgment, We said we were concerned about what they might try to do to John John, and he said take every precaution, and we gave him the statement Dick wrote and the letter Ryan wrote. He said we could call him after 2 tomorrow. Said he would leave any messages for us with his secretary. But he said he would try to do what he could. He seemed to be one of the few who took it very seriously. Said he would look into it seeing what he could do. He tends to be more of a person of action than talk. She mentioned she was concerned that PT might not be able to see Guyana anymore and he said that he did not think that would happen. He did not think Guyana would be that weak. We were worried that Ryan might try to see Shahabadeen. He did not think that would be likely, because he didn't think Shahabadeen would see him.

Sharon asked him if he knew about a reception for Ryan, he said he didn't think so but sometimes when congressmen come, things are done for protocol. He said not too many people had much respect for Ryan.

Skip Roberts:
Starting tomorrow he would find people to help in GT. and he said that for someone to come to our area he would call the ones responsible for getting people out here- (police) He said if they take any phographs, to let him know because he would like to see them. He could dnt see them ahead o: time it would have to b after.He did not want to see any bad pictures - just like before. He said thatis private property he will let people in this area and that they could be charged if they insist. Another thing that was said by Greene - He said that if they contact the press that couldbe to help them to see JT- that maybe he could do something abo ut it. She mentioned that they might go door to door and he said thtat if they pass out papers He said that we could talk to if they pass out statements to Guyana but he said there is really nothing that we could about that. He wanted to know where they are going to be staying. He wants the list and she said that she would give ti to him tomorrow. He said to be very low key and not like the last time. He told us what kind of lawyer we could contact if needed in terms of writing things and if in case of slander. He said to be very low key and not obvious. So that we dont get into a situation that we dont get provoked. He said that he might even let them go to the interiorbut if they try to come near us then we should contact the proper authorities. But that we should ignore it unless something very offensive is done.

MINGO:
She asked him ja about the one day thing or about turning them back and he said that he would have to discuss it with the people who work with him in that area. He was very irritable and said that we say the same ol things every time and meet with him on the same things.. Said that we would have to talk to Barker for help in his area but Skip Roberts said that it wasnt nesessary toa write for it but to just ask and Mingo said let him take care of things and stop bugging himg for answers. He really didn't want to talk

E-3-A-2 (18)

He said that he had more to do than just take care of us. andJackson would know more abo ut it.

--Soviets: said we have our own home and we are renting it, and no one can enter unless we invite them. We can't dictate to Guyana what to do but we can make our appeal stronger on that basis. We should contact Mohammed Shahabadeen. Ann told him that Ryan would see him. He said you should write him a letter and hand deliver it marked urgent. So he could be forwarned. USA feels strongly about private property and Guyana feels the same way they do. He asked who are our best friends. The following articles disappeared from Viola & Godshalk's duffle bags. Viola & Ray came to Jonestown on the plane and their luggage was sent from Georgetown later:

a bathrobe

Almond Roca box with sewing equipment, including white & black thread, needles, box of pins, tape measure, 3 pr. scizzors, safety pins, buttons in a coffee jar, writing paper (pink & yellow), tablet of white paper, lined; ball point pens, approx. a dozen in a coffee jar, rubber bands, insect repellant, Chantilly cologne in about ca 10" bottle; about 6 bars of Irish Spring soap, 3 bottles of shampoo in a Faberge bottle about 10" high, 3 toothbrushes in cases, 2 white ~~po~~ porcelain cups

Ray Godshalk missed the following items from his duffle bags:

[illegible] (over)

Appear but GT says check

Jenny Check

jewelers' screw-driver set
small metric socket sets
flashlight
personal papers
hammer
small wire-cutters

Viola and Ray had 2 green duffle bags apiece, padlocked, with their names on them. In San Francisco Jennie Cheek helped them pack and closed up the bags. Viola saw them just before they left.

After the bags arrived in Jonestown Rinny Rice opened them in their presence and took out a few things but did not go through the bags thoroughly. They were locked in Ray & Viola's presence and the keys given to Ray. Above items were missed when they unpacked.

Submitted through Edith Roller.

--[illegible] WILL PAY FOR ICE AND FISH IN [illegible] // DOES NOT HAVE TO TELL..

--Paula thinks she should get the lie detector tests over with so she can get home.

--Paula said Bunny said we were like a govt. within a govt. And Hoyt said the same thing. So it is interesting that they both said the same thing, and neither have visited. Bunny said he had heard it elsewhere also, and when Paula asked where, he said Paula didn't need to know where. Paula said if she hears that feedback, she will know it came from him and nobody else.

--Tell Carter not to say anything to anyone about anything he's heard passed

--[illegible] should say this to the Soviets: Madeline ~~[illegible]~~. We are [illegible] by the ~~[illegible]~~ which could easily lead to expulsion from the Delaware School. So we are prepared to put up the Madeline and all money. This is the end of us. We cannot and will not surrender the Gilbert and money buys anything in this country at Zuoni. ~~#Then???~~

--Sharon has not been asking Paula to do anything, but she did ask her to do one thing, visit The Council of Churches.

--Tim Carter will be coming in tomorrow, and might have to stay overnight in the ridge// as the train leaves the ridge between 9 and 10 AM Mon. morning, so he might have to wait for the train on Tues, unless he can catch a landrover.

--Tim Carter said they are very concerned about MacElvane. ~~***~~ They said that Mac was introduced to the Board of Education

--Tim Stoen and Mertles said Kathy Hunter was a friend of PT's until she ~~***~~ came to Guyana, and Guyana reacted so badly. They laugh about that.

They are kind of counting on Helen to do the same thing with // they are counting on Jim overacting with Leo Ryan and acting the same way. Tim Stoen and his friends have kind of a two pronged stragedy. That is, if Leo Ryan can't see JJ and Jonestown, then the press won't be very friendly and will tell all about what is going on.

They figure if Leo Ryan does get in here, then at least one of the PT people will want to leave with Leo Ryan. And then that person can talk to the press, and it will put more pressure on Jim to let people out of Jonestown.

E-3-A-2 (25)

So their idea, is no matter what, they will be able to break up PT, whether or not they get to visit here.

--Tim Carter was invited to a party tomorrow night at the airport, in Tim Carter got invited to a coming home party. TOS and relatives and big celebration victory party at Stoen's relatives house where Tim C visited.

--Sharon called Skip Roberts and ###### he said tomorrow is soon enough. Going to see him at 4:00.

--Will see Soviets at 8:30, then try to see Barnewell, Margaret Ackman, and Skip Roberts.

--Walter Duncan said everybody here, and all the kids, looked scared.

--Debbie Blakey was concerned ## about Laura Johnson getting beat up, and lots of people are asking about that.

--Should they tell Bunny Mann about all the people coming. They just told about Ryan and the press.

--Sharon didn't think it was that strange because Guy made the appt. and it was Sunday.

Joyce got the radio list yesterday from Jean Brown and they have to contact operators in Venezuela.

—Tell Sylvia and Larry that next Wed. they will be picking up Clarence's evaluation, which will state exactly what was done with him.

—Ray has had complete tests of all kinds, and next Tues. he goes for reevaluation. Clarence is to have only B1 for 3 mos., 3 times a day. Ray's brown slacks and brown dress boots should be sent to him. Also, Ray would like to know if she has heard anything about their dau. coming.

—Joyce has an appt. with the Tropical Disease Center this week.

—She also wants a list of lab things still needed.

—Joyce sent in some information with CI about equipment, and Joyce wants immediate feedback so she can get these things.

—Rev L. is falling apart. Wants him here.

—John needs houseslippers, robe and gown. Get from warehouse.

—Marion needs 2 gowns and a robe. Have someone make these things quickly.

—Carolyn Young has to renew her passport, and she hasn't been thru immigration. So maybe they all ought to delay and go together. She can't go until she gets it.

—Letters to NDC: for Dick: they have return addresses in Georgetown, but the instructions are to send them to the states to be mailed from there. Sharon says it doesn't make sense.

Send them ALL immediately to the States + have them mailed from there.

—Steve put a padlock on the outside storage door. Where did he put the key?

on key ring

—There is going to be a reception, and it's going to be given by PNC

—Two of our enemies met with the Examiner. One of them ?

—TOS and his friends feel that PNC has been very cooperative. But they feel that Jim must have something on Mingo, some influence or money. TOS have done everything they could to come to Jonestown, but haven't been able to. Mike Cartmell said the Mertles are the head of the group. There are 2 groups. The groups have a purpose, a broad purpose, against Moon group- type of thing. Anti-Jones.. But actually most of the people are more connected in the past with PT, except for maybe a couple.

The Mertles are the ones who are trying to destroy PT, they are the ones who are doing the most, according to Mike Cartmell.

Sharon talked to Hamilton Green about the situation, and he will call her back. He thought it would be good for them to come, but Sharon said it wasn't good, as they aren't open minded and aren't coming for truth.

— Sharon said that she will try and contact the Russians in the morning. She hasn't been able to contact them.

— The dentist will be coming out on December 2nd.

—Phyllis Houston, coming in tomorrow night at 8:35 on Air France, #361, flight 361. They should have immediate plants to have her sent down here.

—Aurora Rodriquez needs help in the kitchen. They have the whole basketball team. Wants Ruby Neal Johnson to help her cook. Ruby Neal is in there to get her tooth pulled.

Before Debbie Blakey went to Washington, she and Grace met with ~~Mr.~~ JCO, and JCO was very friendly and sympathetic to them. They protray Jim as a monster. Steve R. is helping pay ~~th~~ Brian's mother's ~~way.~~ ~~##~~ .. They are going to check on Sharon Hisslingberry also. (Brian's mother is.) TOS and his friends claim that they have gotten a message from Agnes that she wanted to go back to the states. Leo Ryan will be especially interested in the following people: Wesley Friedenbach; Tommy Rice because they heard he was unhappy thru Debbie Blakey. // also Nicky T. thinks she can persuade Mike T. into going with her.

✓Soviets aren't answering at 10 AM. this morning.

--Is boat leaving ~~this~~ tomorrow for Georgetown. They need to know, so they can get it fueled (get an appt.) and get the fish.

Sharon will call Soviets tomorrow.
Sharon wasn't very successful in getting thru to the media today.
She tried to get the Mirror but couldn't, and she doesn't have a home ph.

GDR-- Sharon talked to 2 of the GDR. They want to visit. They want to visit between Xmas and New Years. They want to come by boat and go back by plane. GDR talked to Steve Marine and arranged that GDR can train a couple of our young men in mechanics and electrical work that relates to mechanics, like for trucks and catepillars. It could start in December free but no pay either. Would be training with some GDR mechanics. Can last a few months or less. Would like to know right away.

--Terri Carter should phone patch her dad and say he should tell anyone who calls that Jim is travelling and he doesn't know where.

--Mark wrote Leo Ryan. Someone from Ryan's called Garry. Garry lives in Ryan's district and likes to look good to him. Ryan's rep. said they got a letter from Mark saying he was our attorney. Garry called Jean. He was pissed. Jean said she didn't know anything. Garry met with Ryan's rep. for 2 hrs. without us. Garry said it would go bad for us. Evidentally quit us. (Said his "former client") // Ryan gave a 4 page response to Mark's letter that was hostile to Mark. In Mark's letter he mentioned that some people had to leave the USA because of racism etc, conspiracy etc. and that that would be embarrassing to the US who would like to see PT etc. Ryan said no conspiracy and if people left the USA would have to be doing something wrong and if these other countries are hostile to USA, then why is PT in Guyana. Does PT no longer care for Guyana. Ryan sent his letter to Burnham and the ministers.

--Garry accused PT of stabbing him in the back, using Mark to do it and was embarrassed. Garry feels he's sold down the river. Will only continue with PT if we completely withdraw Marks letter and denie that Mark acted on behalf of PT. Ryan gave the letter to 2 SF Examiner and Chronicle and Garry wants to say letter was not attorney and that Garry is the official attorney and anything Mark does has to come through Garry and that Ryan, Guyana, Mark and SF Ex. and Chron. know that it was unauthorized. Only then will Garry continue to help with our case. He won't participate in press conference on Mon., unless he gets the letter. Tim is bringing the letter when he comes tonight.

TELL ANN AND LUCY THAT: Freeman, Pinto, Ludlow, Wong

The visitors coming are going to spread all kinds of bizarre, negative shit about us to everyone. Thus we must get in there first with even more bizarrre, negative shit about theMSo to Bolllers, Barnwell, Mingo, Jackson etc. give some back ground on each of these creeps: TOS-- tranvestite, Berlin Wall thing etc, Deanna-- sex pleasure from imagining children being tortured. Jim Cobb-- sadistic , terrorist--making ammunition etc. expell ed from church. How he treated Joyce Parks etc. Mike Cartmell-- declared he admired H Hitler-- openly admired fascist milktary. Olivers-- bookie, dope, sells illegal weapons, tried to have his own son killed because the boy had been raped as a child. Wayne Pietla-- terrorist stuff-- expelled-- was going to blow up bridges.
Sue Cartmell(Jones) adopted daughter-- give background of adoption-- now she says J tried to rape her(or did do so, it varies) being paid. Loves capitalism.
Remind them that just when Clarence Hughes is saying he's going to try to get TOS to drip the case-- we hear via our informant/ infiltrator that he's been paid another ~~$25,000~~ n $ 25,000. Brians mother-- Catholic rt wing tried to get Catholic Standard to help her. We are fearful because they are all a bunch of fascists-- united by their hatred for socialism and Guyana-- openly admire the USA and policies in Africa etc.
All know of Ryans support for P nochet, and all ~~[illegible]~~ positively about the CIA etc. Say they have to be firmly disc uraged or more will come.
They are counting on raising hell--Our infiltrator says they plan to go from door to door, camps out in govt offices etc. talk to waiters, taxi-drivers etc. A,so said they plan to try to kidnap John. If you can get these people out of here quickly we will make it up to you.

Bunny Mann called this morning and he would like to talk to Dad on the radio ~~either~~ sometime today maybe even 7PM we need to know a time to set it up.

Stephanie, Christa, Marten were invited to see Margaret Ackman's granddaughters party.

✓ The basketball team has game with one of the Nat. Teams today at 2 PM at the Sports Hall —

Should they go ahead c̄ Nedra going to Venezuela since there's a hold up c̄ Marion

✓ Tell Marty they are getting 100 buckets today

~~Sold Broker~~

Maryann said Ray told her that Jenny Clack didn't pack all of ~~her~~ their things so this list has to go to the states

ask Broker to write up something for PNC

— Do they have Donna Stanfield's passport. Eugene will send us a form for her to fill out.

—Send Night Letter to Laytons: Dear Family: I am very sorry to have to tell you that Mother passed away here in Jonestown last week. You'll be happy to know, however, that she said that her final weeks and months here were some of the happiestdays of her life, and indeed those days were rich and rewarding. We appreciated more than words can say her indom adomonible spirit and dedication. Of course the cause of death was ~~[illegible]~~ alveolar cell carcinoma diagnosed in the states and further evaluated in Georgetown. As soon as I obtain a Death Certificate from the Guyanese govt. I will mail it to you for whatever need it may serve. Larry.

—Clear with Jim about Marion Campbell going to Venezuela. Tell her to hold off for Medra.

—Linda Mitchel is all dried up. Dawn Carney is going to help Linda.

—Tournament thing is still going to go on in December, with basketball team.

—My opinion(Joan) is that they shoould not going out money procuring while or after the hostile relatives arrive. There will be too many people around GT that will be bombarding them with all kinds of questions and I dont think that anyone except someone with a lot of experience will know how to handle it. I think that Georgetown is dried up as far as procurement is concerned and I dont think it would be a good idea to send them to another city because I think that someone with more experience would be able to get much more done in another city. New Amsterdam and Rose Hall can be done again because it has been quite some time since someone has been there. And I think 800.00 to 900.00 dollars can be gotten. I think Liane could do it but she would have to have a good partner, and one that would be personable, complementary to the people they are procuring from and able to handle heavy and strenuous questions, that one often gets bombarded with. And in order to make a lot of money you have to separate a lot and procure individually. Like one on each side of the street.

—Marianne overheard a conversation of Merilee Bogues that was on the telephone, in which Merileee insisted that the person give her some food. Merilee implied that the food was sub-standard.- our food. Talk to Merilee.

—I think that we ought to notify the newspapers and radio stations about these fuck heads that are coming on Tuesday and tell them that they are going to discredit Guyana, etc. -Joan

—We need this medicine for JJ- Dimercatol. Shoud come with the next people coming out. Told Mike Carter

—basketball team leaves everyday to go practice. They are practicing at the Sports hall right now, and have everyday this week. Reds arranged it for them. He's been there 3 times this week.

Sandi - November 11th, Saturday

--TELL ANN FIRST THING IN THE MORNING:

1) Ask Monroe if he could take Darlene and her little one in a hurry. Explain about Apton and Co. (Mrs. Fenwick and & Mr. McGlory's visit)

--Tell Freeman and Wong about Mrs. Fenwick and Mr. McGlory coming// give background on visit. Also tell that Mr. McGlory said that Wong's employees were incompetant. Warn them that Apton and them are coming to try to pressure and interfere with Wong's own business, and that they can bully because Curtis is a little guy.

--Ann, also ask Mrs. Hopkins on suggested ways to go about helping Wendell's brother. (helping Perez move.) Antonio and friends were told that Perez would not be allowed to be taken out of the class. This bars Mrs. Fernandes but it also restricts Antonio.

Tell Mrs. Hopkins that there is another ticket that could be used of someone who looks a lot like the little girl.

--If Maria calls, tell her to look for Lisa Layton's will, and also a paper she signed that states she didn't want her other family notified of her death.

--Ask Jim: Cleo DeSilva (the boat man) wants to come to Jonestown in the next couple of weeks for an overnight stay before he goes to the US for medical care. He has been a good friend for years, and we've tried for years to get him to come up here. (he's the man who helped us on our boat trip to Florida that time.) Can he come up?

Tell Ann to pursue inviting guests to the play at the music camp.
Wait on this. When is she to invite these people this weekend what.
--Ask Georgetown again for the specifics of Marion Campbell's case, and why she needs to go to Venezuela, and clear this with Jim.

Joan suggests letting the media know about these fuckers coming and tell them they are going to try to discredit Guyana.

(Sandi - Sharon is to see Skip Roberts today, and to call Mingo, besides seeing Bollers and Barnewell, just for your own information.)

(Sandi - boat left at 7 PM last night, will stop for an hour or two in Kamaka, and then be in tonight. I told Albert already, and he knows to have truck prepared for Ruby Johnson.)

--They said Dawn Godfrey is going to be helping Linda Mitchel in procuring. (money) (until we send someone else in to town.) Does Jim think this is ok, or should we stop this until we can get someone else to do procurement. We need people procuring who can answer questions, etc.

OPHTHAMOLOGY REPORT

RE: Prices of the glasses

On my previous report I stated that the Optometrist would not give me any report on the price of the glasses he stated that he would handle the financial aspect of the matter with Laura Johnston in Georgetown . Also when Patty tried to find the prices he said the same thing. Yesterday, I contacted Laura and I've come to find out that Maryann has been dioing most of the talking. Anyway, Maryann said that the prices would be as follows;

Frames	$55.00
Exams	$10.00
Lenses	according to the lens

She also stated that he would give us an automatic 10% discount off of the total price. Then he said that he would discuss comming down further. The Doctor would like to come back out here this weekend for one day to fit the glasses and to discuss the priceses. I am now trying to find out if he will charge us for the fitting. Joe Wilson and Paulette Jackson can take care of this if he is going to charge. Maryann thinks it would be easier to talk down the price if he were here. If not, who should handle the negotiationing in town. All together there were 148 people seen. the pricing goes as follows;

Frames	57 people	$3,135
Exams	148 people	$1,480
Lens	83 people	$unknown at this poin

I need to know if the Dr. should come here to discuss the prices, or if not who should handle it in town.?

Thank Dad

Tell Joyce Parks:

That she is the best one for the job that she is doing. 77 says to go ahead and get that job. She should find a ham operator that can contact us in Georgetown so that she can talk to us that way. What she is doing is deeply appreciated etc.

Clarence medicine A.C.I.H. Park supply left. Must carry w/ the next person coming Clarence.

8 tangerines for a dollar -

Patti got the message that Karen tried to give her from Kaituma today.

Damon broke down. Rheaviana and Liane in Norawhanna and will be picked up by Cudjoe on the way back.

Sandi - November 8th, Wednesday
Georgetown

Ask MaryAnn if she got hold of Dr. DeSilva about the cost of # adjusting the glasses, so we will know if we want him to come out this weekend or not. she'll answer later
No cost, should become Fri & leave Sat

Sandi - the boat won't be leaving until 4 PM on Thursday, not Wed., so they will have time to get the fish on and Kay's project on. Told to JJ and he cleared it. However, tell G-town to try to get hold of Julain Roberts at the ridge or whereever he is and ask him if we can pick up his load for him. Tell them to # let people know down the river that our boat won't be in until Thurs night or Friday, whenever they expect it to be. Tell the people down the river we had to get the boat fixed on dry dock and that's why the delay.

Ann was suppose to try her best to get hold of Patty this morning. Please make sure someone at the house does and lets her know what Thomas' friend "Clarke" had to say. (Clarke is code for Speaker of House Sase Marine who told Sharon last night that ~~Patty~~ ~~has~~ her store are going to be investigated for selling American goods (imported.) Be Extremely careful when you talk on the phone about this. (and radio)

Will we for sure be able to get 5,000 lbs. of fish and 1,000 lbs. of pork on the boat?
Evelyn going to get fish find out poundage later, yes on pork

Tell Rob Gieg and Jan that Carolyn and Clarence will not be coming in to the ridge today because the plane too crowded. Rob going to meet the chickens at the ridge and Jan is going to buy corn. They are going by train, so call Rob to the radio room and tell him this 1st thing in the morning before he leaves. Told Jan

Sandi for your information only: Sharon has an appt. with the East Germans at 9 and with the Soviets at 10 AM. She was going to have to change one of the appts. as they are too close together, and both way across town from another.

If Jim calls up, ask him if we want to # replace Joyce Parks with anyone. Ray Godshalk # has to stay there for another month, and if we send Nedra Yates there and Marion Campbell (who has a pelvic mass and needs surgery and is a poor surgical risk so they don't want to do her surgery in town.), it might be a long time before Joyce gets out of there. Joyce # suggests sending someone there who can speak the language. I only know of Laura Johnson and Joan who can speak the language. Anita is probably less needed here than Joyce is. Should we consider having her trade with Joyce Parks? I would suggest Judi go because Anita doesn't have good f/u or medical knowledge which I think is needed.

Call Gene Chaikin in and have them tell Georgetown what to do with Lisa Layton's will.

Ask Sharon if she gave Lisa's passport to Doug Ellice. She thinks she gave it to Ms See. He's checking and so is Ann

Please give Johnny his copy of the feedback.

Remind Ken Norton to get Shavanie Walker (Andreas baby) and Martin Smith (Eugene Smith's baby) pictures done. Ask what for?

Give the message on yellow paper to Sharon in morning for her appts with Foreign Min. jackson (code Ludlow) and Mr. Pinto (Mingo) // you can give it to MaryAnn or Mary if Sharon isn't there, and you can pretty much give it without coding it much. (Just don't say enemy of socialism, but rather say "enemy of Mr. Gibly."

Ask Georggetown the ages of the Bowmans. Do they have any medical problems we need to know ahead of time. Please write their ages down and put in Ava's box for her.

Has Reds called to let us know if the karate expert is coming on Saturday.
They will ask

E3-A-2 (m)

From Julia and Ann: meeting w/ Bunny They definitely don not want NBC. They are aware that NBC just plans to drop in. And they may planto explain to her that she can't be admitted to the hospital (Jonestown?) . However, they do not want Mr. Alton... has been given to the hospital and they want only Mr. Alton, and someone from Gabriel's house who is respected and someone from Harry's clinic. If we wanted to have anyone, we can have them at the same time. They don't want Fred inmvolved in it anyway (press). They would lay down the groundwork of the surgery before Mr. Alton would go in for his surgery. They want Mr. Alton to see the physical layout. He wouldn't necessarily have to talk with any specific individual or they can even f refuse. They would ~~mm~~ insure a secure situation for M F.T. and Alton. They do not like Alton. They do not share Alton's political beliefs. They don't trust Alton, however, they feel under these guidelines Alton couldn't tell untruths because their person would refute. If Apton did go in and told untruths they could refuse future people like him. We explained out conditions but Bunny wanted to convey this as their (government's?) proposal. They wouldn't accept Norman, it is a very complicated procedure to do, However, if an individual came with Pamela they would just go through the normal procedure. Of course the guest roster would probably have an effect on that.

ask Jim Carter about Eddie Washington escrow papers.

E-3-A-2(45)

From Ann + Julie: They don't want NBC aware that they (NBC) just want to drop in. They plan to explain that NBC won't be allowed into J/Town. (the hospital) ~~Have~~ However, they do not want Mr. Elton has been given admission to the hospital.

Sandi -- call Joan in in when you hear that Doug Ellice is coming down the road. He won't be in here until at least 10:30, and she's planning on coming in at 11 anyway. But if you hear he's coming down the road, call her in.

~~Tell G-town early that Ruby Johnson should have priority over Jimmy, if there has to be a choice, though of course it's fine for Jimmy to come if they can both come. Maria has to come out.~~ Ruby is coming Thurs or Fri on GDF w/ Anita Jimmy is in today & leaving today

Ask them to try to put off Reds and the Karate Champion until Sat. morning thru Mon. morning. Tell Reds I will be gone down river helping buy some fruit or something, and I won't be back until Sat. morning. Tell him I would hate to miss him. Also, they could say we won't have any housing until Sat because we have guests here now.

Georgetown wants a cargo list for the boat - what's on it. Call Albert and anyone who might know so we can tell them.

Ask if they found out the price on cheese yet. Told [redacted]

Find out if Stephanie Day or Tommy Rochelle know what dentist Ruby Johnson should go to. Go to Jagan

Let Georgetown know that a truck will be prepared to pick up Ruby Johnson today, with matress and everything, and we have a bed ready for her in SCU. Double check with Albert so he knows to pick up Ruby Johnson. Doug Ellice (tell Albert) will probably be picked up and brought in in a landrover.

Yes, of course we want fish on the boat, as much as possible. (Sandi- double check with Joyce T. This message was from Jim, but we had better make sure with Joyce T. that we have enough storage space in our freezers or whatever. 5,000 lbs Joyce said yes

Check with medical dept. or Joe Wilson to make sure he sent in Tim Knight's eyeglass frames. Joe put them in Sharon's Briefcase

Corlis wants G-town to get hold of Dr. DeSilva and ask him when the glasses will be finished. How much will they cost. (this was never clarified out here.)

Does anyone know here when the Cudjoe should be coming back out? Ask Albert. ASAP after it's loaded

Remind G-town to send out Evyonne Hayden's xrays on the plane. Already gone to late

Take both pilots a nice gift (pilots who came out here.)

(Doug Ellice's plane is suppose to leave Ogle Airport at 8:30 AM, and depart from Kaituma at 5:30 PM.)

Ask whoever is going to Kaituma today to call the Ridge and try to find out which school class wants to visit here. We got a letter from a school in the Ridge that wanted to come; however someone lost it. No one went to Kaituma only to get to meet landrover

Eddie Washington's escrow papers were sent in to town for Tim Carter to work on. Jann G. sent them in. Someone else should be assigned to work on these. Hold on to them Sarah will give instructions in a complicated process

Feedback on guests reaction from G/town: Everybody was very positive about their visit here. Dr. Singh said he had a wonderful time, particularly at the dance. He said it was paradise— like something out of a storybook (Brokes heard him say this to Margaret Ackman's son when they were walking home from the dance). Singh said he hasn't had a vacation in four years and wants to come in January for a week so he can appreciate it more. He was bubbling even in G/town. Called Jonestown beautiful. He said Larry is a very fine doctor. Dr. Gupta said it was lovely. He appreciated the children here and how they are treated. Either he or his wife said their child (who is crippled) never warmed up to anyone like he did the folks here. Gupta would like Larry to come in and train more in anesthetics with him. Mrs. Gupta liked the rest she got. She said it was cooler than in Georgetown. She was given some clothes and toys for her child. The snakeman wants to come back and also wants to help us with purchasing of medicine in G/town. He invited us over to his place anytime. Margaret Ackman's driver (who didn't come with her) said in G/town that he wants to join (based on what she told him about her visit). He said he wants to send more of her staff her to visit. The pilot's said it was beautiful— they were "pleased, positive and friendly."

One of the pilots who came to pick up the pilots who visited us said he would live and die a capitalist. He made the remark to Martin Amos. The guy has never been to Jonestown and we don't know what prompted the remark. They will ask Martin in the morning.

Jimmy will come in on flight tomrrow for the day and then go back out. Ruby Johnson will come with Anita on a flight Thurs. or Friday into Port Kaituma.

Tell Georgetown to keep all prices and expenses cut down. Watch cost in G-town. Funds getting so low. Tell people of orphan food other children we've taken in. Tell of boy with snake bite, poisonous laboria snake. We've spent hundreds of dollars in snake anit-venom. Taken into our homes for months at a time different Guyanese who were recieiving - medical care in G-town, or who's children were receiving medical care in G-town. Paid for all their food and transportation, lodging, etc. Medicines, everything. Tell of several we've done this with, many many times. Passed to Mary

Got to get a good radio on our Albatros

Get a list of things for Eeloise Hall to talk about when she goes in to town. about what is going on in States. ask Tripp

Ann - give to Reed and Burnham's secretaries our position about visitors. We wouldn't object to a cross section but not them alone. Guyana being attached up and down America. Calling it a dictatorship (San Jose Mercury was last one). Shows bias.

Reid - we know why we are here. We know there are not enough real Marxists in the country to shake a stick at, but we want you to know we'll do whatever you want.

Ask Eugene if he was able to pick up Renee's package. Taken care of

G-town - call Ridge and find out which class school wants to come visit.

Are GDF pilots coming in here too. yes

Eddie Washington's escrow papers were sent in to town for Tim Carter to work on. Jann G. sent them in. Someone else should be assigned to work on them.

Tell MaryAnn that Alice never got razor blades

Maria will be flying into G-town tomorrow

Joan said Tim and Linda should not go to New Amsterdam. Told MARY

Ask Jim if we can work half day tomorrow, or what he wants to do. Johnnie asked us to ask.

Ask Jim if it's ok for Paul McCann and Chuck K. to go into G-town. Then we are deciding for Liane to go to town, and Rosie Ruggerio to take her place at the store. Full day

[illegible]

Have they heard from Joyce Parks? Richard or Charlie? - No they haven't heard

Have they found any snake venom?

Have they found another dentist to come out? When is Ny-Ka-Fook coming? - Two Wks.

Has Ann seen Robt. Williams?

Did we ever get that letter from Erick Clarke - No - Sherow will have to go in & talk on it

Ask Eugene exactly what Donna Stanfield has in G-town and tell Donna. She keeps asking.

Balwant Singh seems very open minded and sympathetic to what we have gone thru. He understands the problem with US.

Sharon asked Margaret Ackman about Balwant Singh coming; she knows him and said when it comes to health care, politics doesn't enter in to it. She's glad he's coming.

E-3-A-2 (65)

Sharon talked to Doug. He called Washington and found out group (NBC) did want to come with Congressman Ryan. He said NBC was coming at Ryan's request. Ann said it wasn't true. Dryer told Bunnie Mann we were refusing and we got back to Ellis that we weren't refusing and we just wanted certain conditions. Ellice said he would pass it on to Dwyer.

Doug Ellice just said that Leo Ryan wants to come with 2 of his staff members and 2 of his House International Relations Committee as part of their job bec. we are being discussed in their committee. We told Doug to politely tell Leo Rayn that that's very nice, but unless Mark Lane comes and no media, and a delegation that we choose who we consider more sympathetic to Third World Prolbems, then they won't come. Sorry.

JJ Aaron Hendricks and Bruce Turner asked one night could they go for a bike ride. Left at 8 PM and got back at 1 AM. Bruce is very productive. Aaron has been too. They are pushing to go for another ride, however. They had actually went to the show. At first Bruce was ok to get along with. Now he's defensive and hostile and uptight. They told him he couldn't go for a bike ride. He's upset. Aaron gets hostile if you keep on him. They always want to go places together, bad combination. Counseling with Bruce while Marcie was there. She should fill in Jim on this. Mary told him he could go to the show last night with the others // he finally went but he wasn't hostile about it.

DEAR DAD

I fully UNDERSTAND AND ACCEPT the fact that the decision ~~as~~ to whether OR NOT I go BACK to the U.S. is NOT MINE to MAKE. FACTORS INVOLVED: 1) INCOME FROM ~~job~~ outside job $700/month clear plus CAR, CAR EXPENSES AND 50-80% of REMAINING dental WORK COVERED by INSURANCE. 2) Duties AND Responsibilities IN SAN FRANCISCO 3) I think that outside job will be jeopardized if I stay AWAY for MORE than 2½ WEEKS ON the OUTSIDE. 4) REMAINING bus drivers IN US: Doksee SWANEY, IRVIN PERKINS, JAMES EVANS, JERRY WILSON, J. RANDOLPH and HUE FORTSON) I KNOW that the OVER-ALL good of P.T. is the PRIME CONCERN HERE.

I got the IMPRESSION ~~that~~ IN GEORGETOWN that I will BE EXPECTED to LIVE with D. KUTOLAS. SINCE I WAS THE ONE who destroyed his life BEFORE, I could UNDERSTAND A DECISION by JONESTOWN COUNCIL REQUIRING this, but if I have A choice IN this MATTER, I will choose NOT to live with him.

If the decision is MADE that I REMAIN IN JONESTOWN, I would like to TAKE ON the Responsibility of COORDINATING the IMMIGRATION, PASSPORTS, AND People TRAVELING PAPER WORK SO AS TO MAINTAIN CONTINUITY between U.S. AND GUYANA ON this PART of the OPERATION AS people ROTATE IN and out of GEORGETOWN. ALONG these SAME LINES it might be something I could do to compile STATISTICAL DATA ON US which could be later INTERFACED with the SF files when they are shipped HERE.

MESSAGES TO PASS TO GEORGETOWN FROM JONESTOWN
Nov. 2, 1978

Sandi - [illegible]
[illegible]

✓ [illegible] Sharon not to name the man who talked about killing Burnham (this is to Foreign Mrs. Jackson) Say Dr. Reid knows and another one who is assigned to the cabinet knows, and if they aren't worried, neither are we.

✓ --Someone should get hold of the man who bought the apts. in Los Angeles, and tell him (not on the phone) -- his name is Kanoman, and that we have received an additional offer on the ranch but that we have not entirely forgotten that he was interested in purchasing it. That the situation may be clarified in about 3 weeks, and if he is still interested we will come back and discuss it by that time, if there is anything to discuss. (In other words, let him know there may be a possibility he could buy it.) Definitely do not do this on ph.

✓ --Look for portable stove and refrigerator that can be used out here. Also tell [illegible] -- can look when she goes into town.

✓ --What happened to the razor blades. They didn't come in on the boat.

✓ --Russian Dr. said tea to get in Russia helps with sleep // can they get it for Jim // please ask

--Give Tues's traffic as Laura lost it

✓ --Ask Doug Ellice how we go about voting when you are overseas. Ask quick.

✓ --Estimated amt. of lumber needed for proposed diagnostic clinic:
2 x 8 equals 2200 board feet
2 x 4 equals 6250 board feet
[illegible] minum equals 6,000 sq. feet
[illegible] wood equals 2850 sq. feet.
plus 10,000 board feet of lap siding.

Given to Guy [illegible]

✓ --Tell the lady at the Trent Hotel: We've been offered another property a a very good price that is to our liking, and is not in town.

✓ --Check with telecomms about getting a phone out here to do long distance calls.

✓ --Ask Anita what is the name of the orange pill that Tommy L. came out with // MaryAnn was going to ask Anita. Did she get an answer. No - can't get it.

✓ --Need Sodium Flouride tablets urgently. More of that baby cough syrup that they always procure. Kaolin powder to mix to make liquid (only if it is for oral use -- make sure Anita knows it is for oral use). Look for more pethidine. From Medical Dept.

✓ --Tell Trent Hotel lady that we will take the other property if she doesn't want to accept our offer.

✓ ~~--Sharon [illegible] and see Bunny tonight:~~ get hold of Kingo tomorrow. Tell them that 2 congressmen are coming, supposedly by the invitation of the Guyanese govt. // ask Harriet what their positions are - one of them supported Chilean aid and the other is the most vicious anti-socialists in the country. They should do their profile. We don't want them here. We will not take that kind of balance. That is one sided and we don't [illegible] here. They could get some others like Cong. Diggs and some people like Andrew Young. Fine, Fine. Your foolish if you bring in this kind of ranks because they are going to dirty your name. You should look at their profile and you will not like what you see. We will not be scrutinized by the right wing. Our left wing friends will be infuriated. Get it across that these people have been anti-African liberation, anti-Chilean liberation, pro-Pinochet.

✓ --Sandy should tell Bunny that their voting record is absolutely anti-Socialist. [illegible] liberation, supported the Pinochet regime in Chile, supports [illegible],

✓ --Tell Harriet to include in her message to the us that these people [illegible] not been positive to Socialism.

E-3-A2 (71)

Tell Bunny all how these men have voted etc. We have the choice of being investigated by a biased committee who supported the Pinochet regeime and the Ian Smith regeime We are aware that politicians have to make compromises but these two have been on the wrong side of every political issue.

We urge you and ask you for balance if you would come. We've adopted many children [illegible] serve medical clinic // we live cooperatively// but we are not Anti-American. We are not allowed with any other nationality or ideal or any other state.

Tell Mingo and Bunny Mann: Mark Lane says that Leo Rayna is bringing NBC television with them, to interview all the Guyanese govt. officials and Mark Lane said he has talked to the NBC man and has said that Leo Ryan's trip - purpose in comming- is no doubt to make charges against the Guyanese govt. and Jonestown.

Coming down to smear us all on public television. and that Mark Lane is assisting that

Mark Lane said it's absolutely certain that the whole purpose of the trip is for Leo Ryan to be able to make all the charges again on Public Television, to be able to lay the charges out all over gainst us only on NBC TV. That is the sole purpose of the trip. They are not going to be fair. Tell them we prefer death to this kind of harrassment. They are making a grave mistake if they let them in. Mark Lane just talked to the NBC guy and that's how we know this.

Tell Mingo that you'd better tell Burnham some of Em encouraging these doings, bec. it certainly is not in the interests of Socialism that he has done this.

tell them that they were trying to make issue of us to get us thrown out// put cameras on the street asking passerbyers what they think of pt

Bunny can go but not sponser the dinner. KL - tell Jim - explain

E-3-A-2 (74)

For Paula - to get to Burnham (anyone else?)

given by KL to Sharon

This is in regard to a visit to Jonestown by two U.S. Congressmen, Leo Ryan and Edward Derwinski. Our position is that we are not interested in having these men visit, particularly Rep. Derwinski. We are outlining the reasons why. We will be submitting to you very soon photostats of detailed information about each of these Congressmen that will substantiate and complete the picture. Our information about these two Congressmen is taken from an authoritative research document, THE ALMANAC OF AMERICAN POLITICS, 1978, ed. by Barone, Ujifusa, and Matthews.

Mr. Derwinski, according to the Almanac, is "a conservative proudly in the Goldwater mold." He favors "a hard line anti-communist policy." He represents a totally suburban district with virtually no blacks. His voting record:

Against delay of B-1 bomber
For arms sales to fascist Chile
For building of nuclear carriers
Against military cuts to fascist Park regime of South Korea
Against the chrome ban to Rhodesia
Against defense budget cuts

He is on the International Organizations subcommittee of the House Committee on International Relations.

Serving on this subcommittee with Derwinski is Rep. Leo Ryan, a moderate democrat who has given some assistance to efforts by Mr. Timothy Stoen against the Temple. Ryan is also from a practically all-white, well to do area. He was the most pro-Vietnam War hawk of all San Francisco Bay Area congressmen. He was also criticized for junketeering in 1976, according to the Almanac. It appears that his trip to Guyana is in this category. His voting record, though better than Rep. Derwinskiis, is hardly compatible with what we regard as principled stands. He voted for aid to the Pinochet regime (military aid).

Incidentally, the House rejected by a 2-1 margin the granting of military aid to Pinochet. Both Ryan and Derwinski were on the right-wing end of this critical issue.

We would normally not be opposed to being visited by U.S. government representatives. We would be accepting of their visit if they were accompanied by other more principled representatives on the same House committee, such as black representatives Charles Diggs or Cardiss Collins. The extreme reactionary views of Congressman Derwinski, in particular, render him persona non grata in Jonestown on purely moral grounds. We have nothing to say to individuals who advocate arming fascist dictators like General Pinochet. We also speculate that Guyana would be similarly reluctant to entertain such an obviously staunch foe of liberation and socialism.

Sharon hasn't been able ti get hold of Libya// calls and calls but can't get through. Yugoslavians say yes, but never come. Yugoslavians are pretty close to US, and that might be why she doesn't come. US Embassy, Dick McCoy, absolutely loves Yugoslavia.

Paula is being pleasant to Sharon. Paula asked if she could put off going to Venezuela until the 15th

--Eugene is taking his own shoe repair kit out of a duffle bag. He will mark it off on the inventory. They are keeping the bags locked up in the garrage now, so no one can get in them. Told JJ

--Barnewell came over tonight: also Sharon and Guy went by earlier. Asked if Burnham knew about the paper and he said no, but no problems. It a court matter and Burnham leaves that alone. He told Sharon that Burnham was empathetic to Jim and didn't want Jim harrassed, but ~~[illegible]~~ Barnewell said before he had talked to Burnham, he thought he should talk to him because of the significense of it, of US and Guyana. Did say that Burnham is sympathetic and certainly not adverse. ~~[illegible]~~ Barnewell said he had heard that Reid was sympathetic, to JJ. He said that Bollers was satisfied with the paper.

He said the paper did not apply a decision. Barnewell came to dinner tonight, he was very prompt. Gave Sharon a big hug in his office even tho Guy was there. Spent about 3 hrs. for dinner.

Told JJ

Reds talked about JT tonight on the radio. He mentioned the basketball team. The discipline was great like the early days of GNS and Kimbia, the the initial enthusiasm. How great the team was. Telax: from Leo Ryan: In recent months my office has been visited by constitents who are relatives of members of your church and who expressed anxiety about mothers and fathers, sons and daus, bros and sis. We have elected to assist you (they - relatives) in the development of your settlement in Guyana. I have listened to others who have said that these peoples concerns are exaggerated. They have been supportive of your church and your work, your efforts involving so many Americans from a single georgraphical area in the US is unique. // In an effort to be responsive to these constituents with differing perspectives and to learn more about your church and it's work, I intend to visit Guyana and talk with the appropriate govt. officials. I do so as a part of my assigned responsibilities as a member of the house committee on international relations. It mentions the name of that person who was going to accompany him, and staff members are going to accompany me (Leo Ryan). While we are in Guyana I have asked our Ambassador, Don Burch, to make arrangements for transportation to visit your church and agricultural station in Jonestown. It goes without saying that I am most interested in a visit to Jonestown and would appreciate what ever courtesies you can extend to our Congressional delegation. Please consider this letter to be an open and honest request to you for information about your work which has been the center of your life and purpose for so many years. In the interest of simplifying communications, it will only be necessary for you to respond to Ambassador John R. Burke, at the American Embassy in G-town. Since the details of our schedule are still being arranged, I am sure the Ambassador and staff will be able to keep you informed. I look forward to talking to you either in G-town or Jonestown. Sincerely yours, Leo Ryan, member of Congress

-Sharon wants to know that if Margaret Ackman comes Sunday, can she come in to, just for the day? Ackman has asked her to and she could bring in some reports etc.

F EEDBACK FROM GTOWN TO GIVE TO JIM
Oct. 31

Nov 1st - Sandi
Please pass to
Jim: yesterday's
feedback.

--Big lumber order being loaded tomorrow. 60,000 board measurement which will be coming in here, leaving town in a day or two.
Clarify w/ G-town if it's really 60,000 BM. Not coming (EMH) next Wed.

--Albatros being loaded tomorrow too. Will be ready to leave Thurs.
Cudjoe left today for Wainai to get wood. (not sure how much)

--They have gotten 100 bags of bran at 8. dollars a bag (thinks bags are 100 lbs. but MaryAnn is not sure.)

--Rosanna Dickerson is coming into G-town tonight. Bringing a couple of grandkids with her. Sharon went to help her pick them up.

--A letter came in today from Dr. Baird to Dr. Schacht: Dr. Baird wants Larry to come into town and discuss his internship with him as soon as possible. He also wants to discuss several subjects with Larry (think in relation to a letter we wrote to Baird, but not sure) about 1) management and follow-up of TB patients in Guyana 2) X-ray services in Guyana, 3) request for medications to treat TB patients, 4) blood banks in Guyana 5) talk about certain medications in Guyana that we wish to use. I think Larry should reply to Baird that he insists on talking to Mrs. Green about his situation. M.P. Sandi - pass to Dad 4 poss.

--Little boy with snake bite is doing fine. He's bearing weight on his leg. Don't know results of his x-rays. If there's nothing wrong with his x-rays, he'll be discharged next week. Anita will find out and tell us.

--Ruby Johnson will be discharged next week. Anita would like# her to fly in# and she'll come with her##### since Versie will be## taking her place. She thinks Ruby should## fly in. She discussed this with Marcie. She thinks## the boat will be too much for her.

--Marilyn Pursley, Cynthia Pursley, Joan P. and Diane L. are flying in on GAC ##### tomorrow (Nov. 1.) // our truck is going to# the ridge to# meet them and also to pick up the chicks off the plane (we have 800 broilers coming in.) and also we# will give the Danish film # maker, Peter, a ridg to the plane, as he has to leave.

--Tell Jim we got Reds to do a good radio broadcast for us out here

--Tell Jim that Peter, the man from Denmark, who also happens by the# way to have a PHD in psychology, is not going to stay at our house in G-town, as he has already paid in advance to stay at a hostel place on Middle st. He is leaving G-town on Thursday. # told Sharon and PR people to go by and see him.

--Reds called our house when he got back to G-town and left a message for Karen that he was really impressed with Jonestown and was sorry he couldn't have stayed longer.

--Tell Jim that Reds P. told Karen that Shirley F. Ridley is resigning as of Jan. 1st, so she can stay at home with her children. He works under# her ministry. He doesn't have any idea who will replace her (likely not Reds as he's not even a member of# the party, tho Reds said they might form a new Ministry called the Ministry of Sport which he would be Minister for, but he was likely just bullshiting about this, trying to act impt.)

--Have they gotten any new paper pickups. Can they still get paper at GNS (since we got them that part?)
--Are we having someone stay with Mrs. Boilers everyday or does she want this?

Prokes --They want to know ifthey should go ahead and get# another 1000 lbs. of pork parts since it isgoing to be low around Xmas; they are working on getting the price down from $2.25 to about $1.90. Also should they get meat as it becomes available. Prokes checking on this.

--Ask D. Tropp how Mazor's tape is going

--Ask Ruby Carroll if she could make three shirt jackets for Guy M. He is the same size as Lee Ingram. Guy doesn't have appropriate clothing for type of PR he's## doing. Has flowered shirts, and patterns, but needs solid shirt jacket, tailored nice looking. Same with Eugene Smith. (Eugene is similar in size to Greg W only little smaller)

ok --Tell Prokes to be sure to mark Red Perrera's tape well when it goes to G-town so it doesn't get mixed up with other things.

--Ask Prokes if the Danish man Peter needs a place to# stay in G-town. Ask when his# flight is out of G-town. Our people should pick# him up and let him stay with us until he# leaves (I would think.) Check with Prokes. He's leaving Thurs. out of G-town + is staying at the Le Grille on Middle St until he leaves. Will take a taxi home so we don't have to pick him up. They should go by + visit him. He has a PHD in psychology, by the way. Seems very nice, humble.

November 1, 1978
Georgetown Traffic for Sandi

Most of the following are follow-ups?

--Is Margaret Ackman (code- Louise) coming out Sunday? Mary W. doesn't know
--Is there a GDF flight coming out Sunday to bring the doctor
Sandi - ask Jim if he ##### wants this Dr. to come out# on Sunday. Balwant Singh. He's East Indian, works at Persauds Hosp., is friends of Dr. DeCosta, the dentist, and is very positive to PT (think he likes Americans.) He seems to criticize the govt (at least he did to Karen about medical care in Guyana #### and bureaucy) Bridley Bean wrote a positive article in his paper before about this Dr. He does, however, seem to be very positive and has been helpful to us. Has seen 2 patients Karen knows of for free, and came to our house free to see Gladys Roberts the Guyanese woman who was so upset when her baby died.
Perhaps Jim would like Sharon to feel him out more about his politics before we ask him to come. He has wanted to visit# here for a long## time. He does do surgery and probably could be quite helpful to our medical dept.

--Did G-town ever find the shirt we sent in for Mingo?
No they didn't

--Ask Sharon how Doug Ellice responded to the message about Larry coming in to talk to him (re: Lisa.)

--(Ask Annie M. if Jim got the write up on Nedra Yates' ear.) We have# got to decide whether to bring her home or send her out of the## country or something.

—Guy was able to reach Chancellor Haynes, and he's very interested in coming to dinner next Thurs, when Margaret Ackman comes. Margaret might be interested in coming out next Fri with Brig Price// will try to arrange it// she wants to see the Dr. here She wants Jim to help a friend of hers, who stays in Canada. He would like to see USA, and she would PT to help. #### Her friend is in not in an illegal situation He was born in Guyana and grew up in Guyana, but visited Canada. But she did say that this is confidential ##/ he doesn't want to do anything illegal// he wants to see US but not do anything illegal. He has relative in US.

Also, ~~she told~~ Sharon told her about a family who needs some clothes.// Margaret A. asked if we needed some clothes, so Sharon is going to give her sizes.

—They weren't able to get a GDF flight out here tomorrow to bring out the doctor surgeon who is a nun// might be able to get a GDF next Sun. but she might have to work. She talked to another Dr. who can come out Sun. — Balwant Singh. Hope Capt. of GDF will stay // he wants to come out anyway. He's done surgeries / he took a conservative view of Yvonne's situation, and did not think she should be operated on.

—Dr. DeSilva the eye doctor is going to be on our broadcast tomorrow, and he wants suggestions of questions. Broadcast on Monday. — Pookes

—Balwant Singh was helpful in Bobby's situation, and explained a lot, was very sincere He's been very positive towards us. He's a very good friend of M. Ali. He's good friend of Dr. Decosta, & Bridley Benn wrote a positive article about Dr Singh before.

—Sharon and Guy went to see US Embassy.. The visit went well, better than the day before. He is expecting to come Nov. 7. // She said this might not be convenient because of the guests coming out here. He said he could change it, but he'd rather not, bec. he has changed it several times before. He said we had wanted him to come when Garry was here, he said he would not be in the way // he'd just take the 10 people aside and would make the point of being very unobtrusive and low keyed. He said he's always wanted to meet Dick Gregory // said he voted for him as a write-in candidate in 1968. Sharon joked and said wasn't he too much of an activist for you, and he said I wasn't always like this. He almost ###

Ask Jim if Jim would like to be in charge?

—She talked to Joyce tonight ., Clarence looks better; he is not getting worse. He's gaining weight. Giving him a lot of snacks to gain weight. He can stand now, but can't walk. They just started him on the medicine Kathy R. brought in, so don't know it's effect yet. Ray G. -- his care will not cost at all. And he will have chemo-therapy plus radiation therapy. It has spread - skin CA has spread - but not sure if it's maligant yet or not. Doing biopsies and lab work, and there is no charge for his treatment.

Joyce said she can get a job to help while she is there. She can work as a private duty nurse for some English speaking people - in people's home. Tell Margaret she has not used any funds so far but she may when she starts getting the medicines. She has not bought any medicines yet. Apparently she was to go ahead with the medicines but to keep a count.

—Kathy R. coming in tonight about 11:30 to G-town. Arrived.

—Joyce tried to find a ham radio operator so we could talk that way, but it's against the law there for her to call out (for them to call out)

E-3-A-2(94)

but if she can give us a call #, then maybe we can try to call her. We sent message back to her that this was ridiculous, not true.

Doug Ellice: Said he almost got arrested in high school// somebody, a black, had been kicked out of a housing project and several were concerned about it.. Sharon said she didn't think the communication helped the other day, so this appt. gave us a chance to communicate more, given to J. by Larry

Also saw the Bollers yesterday. They were very friendly.

Paula does not know where we stand with Guyana. BM said that 50,000 or 60,000 came with BM. And R. Jackson and Burnham were so concerned about the cash that they were waiting for the 50,000// they had to ask BM for his money /// Paula has some papers to give to Sharon- reports on BM -- but she doesn't know anything about Guyana. Paula had company and couldn't really talk. Sharon told Bunny about Paula's father and BM said the father could call there where they are; or Bunny could come over to our house and talk to him on the phone.

He's more impressed by PT since Lane and Garry but he was critical ofLane being so critical of CIA and US. He brought this up to Marcie, once to Sharon also and alsoto Paula. Feels Mark Lane is taking on too much.

Sh is being very solitious, and bought Paula alot of luxery items. Wants hertogo to london

Joyce talked to Sharon. She is pricing the medicines and getting a job on a daily basis. Joyce wrote us a letter - He received his 1st injection and immediately started improving/ this would havebeen nightbefore last. He's looking better in the face. Joyce is taking highcalorie snacks to him and sunken look in hisface is better. Today he was able to stand with help// he can't walk yet but he can standwith a wheel chair behind him// his speech is slurred bec. he cannot use his musclesin his jaws very well but he is maintainingwell. His attitude is beautiful and the boys in the hosp. with him are teaching him Spanish//

Lady Joyce is staying w/ is very helpful. Ray is getting started w/ his treatment// he's going to a hosp. thatdealswith nothing but CA and they willnot charge for his treatment. Medical catholic hosp. On Wed. he will be biopsied from head to toe// feels that bec. of yrs. this CA has persisted, that he needs chemo-therapy as well as radiation. Skin lesions have broken out all over his body// Joyce didn't know if it wasbec. ofhumidity of bec. ofsystemic staff infection. He's had a temp for 2 days. His right ear lobe is swollenand red. The Dr. gave him anti-biotics and ointment which he has been using painfully. He seems to be improved today and his temp. is down. He was very helpful around house before leaving G-town.
Radio thing just passed 2 months ago /' but she doesn't knowist hand, is just what she was told.

Ray's treatment will take 6 to 8 weeks they think/ they had to get a visa to cover their time there formedical reasons. She's getting alot of medicines together.

Russian can see us at 5 P.M.// tonight

Tell MaryAnn we want 100 bags of bran only for now, and 200 bags of brown rice per month.

Betty Jean Coty mentioned going back to states. Asked how much ticket cost. Then she said she wanted to see her sister. She's a little flirty and there were several men interested in her. She's immature She's glad her child is here. Wouldn't take her dau back. Knows this is the best place for her.

Kathy R. wants to come out on the boat// has sweet attitude

given --Karen, don't forget to give the PR corrections to Sharon TODAY. or Prokes, you can tell Sharon ############ if she is there.

Corrections on reports when talking to people in PR from Jim

1) # When talking to people about Jim being stuck out here, Jim said it is too strong to put as a civil rights# violation to most people. It reflects too badly on Guyana with most, so generally don't say this.

2) Explain Tim Carter's mistake to whole house. Just use the word Socialism when referring to us, don't use the word Marxist-Leninist in referring to us, as most people don't relate to this. This of course doesn't apply to Dr. Sharma or people like him in the PPP or the Soviets unless Jim instructs this. Most don't have enough judgment when to say this and when not to (Marxist-Leninist) so basically just don't use it and you will be pretty safe. Sharon of course knows better when to use discretion on this.

PR corrections for Sharon

3) When they talk about the tradegy for all of us here and Jim's children that he is stuck out here, always include his wife in that. Talk about his wife many times in PR. Tell everyone to mention her often, especially with the lies that have been said.

Albatross not expected to leave until Thurs.
Bruce Turner's time is up next Thurs. Who is his replacement

Kathy Richardson did come into G-town last night

--The fruit should be unpacked as soon as possible, and the ripe ones sorted out.

--Guy needs 3 shirt jackets/ check and see if anything available// colors brown, green, black or blue// 15½ size//
--Eugene size 15

Albatros- they have a commitment to take rice Thurs. or Friday, 350 tons with them// they also are in the process of negotiating a return cargo, so will know Mon. or Wed. about that.

--Joyce said that about 100 lbs of fish spoiled. Said they should have packed the fish with more ice. Said she got a half a bag of fruit for every bag because of spoilage. Told G-town, and they were upset and wanted to know if this was exact information. Need to know so next time they can pick the fruit when it's more green.

MaryAnn is checking on reservations for CL, Mata out of country. Esther M and one other.

Coming on steamer tomorrow are Andrea, Versie C., Chuck K., maybe Mark B, and Robin. Told MaryAnn.

Send in tools with Chuck to fix electrical things around the house.

--Ruby said the shirt for Mingo was navy blue white checkered dashiki and there was a letter in the shirt pocket to Ruby Johnson from Ruby C. There is a trim around the bottem of it which matches the sleeves. Told MaryAnn.

--Paula wants Monique sent in to see her for a few days. Have Monique during the day, and have her stay at the house at night. Paula wants to know if she can tell Bunny about the lie detector tests she is# getting. She wasn't sure if the message was for her parents or f#or him. Sharon spent a little time over there and seemed to enjoy the company. Paula wrote a note about it, and put pros and cons, mentioned that her life might be more restricted, and he might not want to have# children around him.

CL-Maria
--ask CL or Maria -- 2 file folders of purchase orders and 2 file folders of finance evaluations. AL told CL

--Paula wrote this to JJ: cons of marriage:
She is not giving him the encouragement he is putting out feelers for and she really dones't know what to say, to encourage or be indifferent. Right now I am maintaining the position that I didn't think it possible and thus didn't think about it. Please advise. He's constantly putting down his wife, and asking if she would move to Wash. if he got rid of his wife. And Paula said that is between you and your girlfriend and I wouldn't want to be in the middle. She told him that was his decision to make. This is her analysis. Cons: not allowed to go anywhere except approved by him. No long distance or overseas calls. Severance of activities with PT, jealous possiveness, non-acceptance of# the child, not allowed to travel without him, put# up with irrational temper tantrums, possible child (his own). Pros: contacts with Guyana and US - their govt. ; also PT might be benefitted because of it;

By the way, he now thinks more positively of PT and talks of Paula & PT

TRAFFIC PASSED TO GEORGETOWN

Mark Boutee wants the following picked up for him and sent out on the plane tomorrow. A pair of black Wallabee shoes upstairs in G-town on the balcony. 1 pair jeans and 1 grey shirt, 1 pair sox and 1 pair shorts. Shirts are in the boys room closet hanging with a sugar bag covering them. Green duffle bag and blue grip is underneath the bed. Stuff everything in the blue grip. The green bag is too full." Sharon is to go back to the man who talked to us and told us that the US Embassy people had been talking about us// tape him this time.

Georgetown is not sending out all of the things we ordered. For instance, we ordered 6 cases of ketsup and only got 3 cases and 6 bottles. We asked MaryAnn about this, and she doesn't know where it went, but has an idea. She thinks Helen is taking things that are suppose to come out here, and putting them on the Albatros without checking with anyone. For # instance, she definitely did do this withsome detergent. MaryAnn wants to talk to Marty about this and find out how to handle it. Karen told MaryAnn to get on top of this, and that# anytime they have a# need for something, they have to mark it on the inventory that they removed such and such from a certain order.

Alice said she cannot wait on the keys in the morning to open the duffle bags and crates; MaryAnn said she doesn't agree with this, and feels this should be a collective decision.

Asked G-town if they got the shirt for Mingo. MaryAnn said no, as far as she knows no. But she will ask Mary when she gets back from church, as Mary might# have gotten it.

--Robin, Versie and Andrea coming in on steamer tomorrow.

--Dr. Lee, Chinese, from Guyana // he ########### wanted to operate on Yvonne Hayden, when she didn't need it. Sharon was told to find out about his politics. He is a surgeon at Public Hosp. He thinks Guyana has messed things up a lot. He is not particularly connected with the ################### church; not anti-religious, but just does not go to church. He took our articles and read them carefully. He seemed to feel that PT is productive. He is not a socialist, but kind of admired us because we are producive. In other words, he basically likes England. He reminds her of the dentist who came out here. He spent time talking with us. He is willing to come out.

--GDF Monday bringing out 4 people, hopefully. Mary/Ann will check again in the morning. Also, she will check if we have any places out on the plane. CL wants to go out maybe.

US Embassy D. Ellice
10/26/78

He did get the letter from Doris Lewis. He said it was helpful becasue it was worded right. Sharon mentinned the name of the person who said that some of the people in the Embassy had said negative things about PT and Ellice said he would look ihto it. But he said he wouldnt let us knmow what he did about it. He did make the distinction between like if you were talking to your Wife aor you were talking in public and Sharon said these people were on their job more less. He said it may have been a careless and inappropiate remark. Sharon mentioned that one of the statemnets was something about us living in a concenbration camp and that was nto an idel remark to her. She told him about Gary T. phone patch to his parents and he couldnt remember the situation.

Told him about the situation with the person comeing over the radio and saying all the slanderous things , and Doug E. said we need tostart keeping a logue of it so he can see it.
He said if Dick McCoy wants to write anything he can, and that we might not like what he writes either. As long as he's writing to his boss, he can write whatever he wants. Sharon said well doesn't it have to be true, and he said well it's up to my boss to decide if it's true. Sharon said he could come to whatever conclusion he wanted, as long as he had the facts. But Ellice played some kind of a verbal game. Sharon said she did feel people should have a conscience about it, and she did not understand him writing a report in total contradiction to what they said. Sharon said that some of US Embassy people act like they are friends but talk like they are enemies evidentally. He's planning to come here in 2 to 3 weeks. Sharon told him about the woman who was hostile and wouldn't talk to her and Jimmy, that quoted the US Embassy to Tim and Marilee, and he said he had no time to chase rumors unless he had a particular name. Sharon said it might be good for him to check out things that are said that shouldn't be said.

Not given

Sharon said we do want to get along with you and your name hasn't been mentioned, but it does seem time and time again that people are talking about us negatively, and he said no, that we are suttle, and if we wanted to say something about you, we'd say it to the press, and then you'd really have problems. She mentioned Mazor and how he had checked everything out. The man who was with Ellice seemed surprised about Mazor when Sharon told them how he had been out in the bush washing us and that we certainly could not have put on a show for him then. (Sharon didn't go into details because she didn't know what they knew.)

When we give them names, he said he will chck on it.

Paula said that Bunny really liked Marcie. He said she was one of the nicest people he had ever met. And Paula thinks he will do a lot for her, he had a lot of admiration for her. She was helpful to him medically. She wasn't feeling too well at the time. And he is willing to be a sponser of a dinner for us in SF. He has to check with his boss but he's willing to do that.

Bunny Mann was mad that none of our people met him at the airport.

Man who Sharon and Guy talked to today mentioned he had read a negative article about us that we take old people's money. Said he would bring

Saw Bollers tonight. Both very very friendly. He wants someone to stay with her tomorrow so someone is going to go over there. It was good they went by their house, bec. he is worried about her health. They were very very warm. Said come anytime, come tomrrow, please come tomorrow. Like a very very good friend.

She showed him that paper of Barnewell. First he said what more do you want; he was kind of joking. We said we were very happy, and were so pleased bec. you were the one who arranged the appt. He was very nice about that. She asked him if he had talked to Barnewell, and he said he had, but # Barnewell had decided to keep the"goodies" for himself, guess referring to Sharon?

Paula is going to see Paula tomorrow.

Sharon is suppose to talk to someone about adopting Neil, some lawyer. Eric Clarke is gone for the whole month. Who should Sharn see about this. VERY IMPORTANT... # Might have to talk to Soviets about him going?? Harriet has answer.

not good

Sharon is to see a doctor tomorrow to ask him questions?

Kathy Richardson called Sharon, and was upset because she hadn't gotten contact with Joyce, and no one met Kathy at the airport, so Sharon gave her #'s of Joyce. Sharon has not heard from her again so she hopes it has worked.

--prokes, G-town wants you to get the bunk bed frames and platforms built here and send in, and they will assemble them there. Please act on this.

--Prokes, clear with Albert and then tell the woodshop to make the crates for the films, one for G-town and one for Jonestown, so we can send them back and forth protected and properly marked.

--Did they get a dental appt. for Chuck B. and Rhevenia for Friday?

--Any more up to date report from Eugene on Customs. He certainly seems like he's doing a fine job.

--Tim Carter, for G-town information, is still in Idaho, wants to get his teeth fixed there so his dad will pay for it. Then he has to head back to SF for a few days before coming back.

--Ask Dick T. how Mazor's tape transcript is coming?

--Tell states that 25 people can be accomodated here in next 5 weeks, but not seniors Tell Jim this as he asked me to find out. They wanted to send 5 people a week for next 5 weeks to get supplies down here, etc, but Ava said we can't house seniors. Talk to Jim about the situation, and ask the states who they want to send.

--Carolyn or Maria -- did you get the list of cleared people -- people who are cleared to come in, to Guyana from states. Mary said it was sent out here.

##########

--Tell G-town to send a copy of this cleared list to SF right away, so they know who they can send down.

--Double check with Jim if he wants the Cudjoe to wait and bring Marcie in on Friday, and Paula too.

- Tell Freeze Dry Maryann needs a list of spices to get. I gave this last wk C3A-2(12)

--Ask Michelle Wagner if she would be interested in helping with the dolls are night. Can she sew. Jim really appreciated her very sweet request to do more, and he appreciates her very sweet attitude since she's been here. He loves her very much and is so glad she is with us here, right where she belongs.

--Beverly Mitchel needs badly to talk to Guy Mitchel. Please make sure this is arranged today for them to talk. Very important.

--How is Guy doing? How is everybody at house doing How are attitudes? (get Mary or MaryAnn alone to ask them this)

--Tell Chaikin that Terri Carter said the telegram he asked about was sent to a bank in Pacifica by Debbie Touchette, but they didn't get a copy to send to Tom. So, he should get the details together and pass on to Tom so he knows where to go, what to say, whoever maiden's name, or code they use or whatever. (This is in reference to a question Gene asked about whether or not a message had been sent to a bank in states, and a copy sent to Tom so he could pick something up at the bank.)

--What did Mingo have to say about Burnham having our file on his desk, about lady who made racist remarks who is high in party, about man who talked about killing Burnham (code carefully)

--Ask Jim if the band should get booked at the Pegassas and churches while they are in town for the Dec. Xmas show. I passed this message to them before, however, they told Shanda got on the radio later and said not to do this. Was this a message from Jim or what, as I thought he always liked them to get other engagements while they are in there. Anyway, they have made no attempts because of Shanda's message which they just happened to mention to me when I asked them what they had booked. (from Karen) Tell Jimmy Jones the answer.

--Joyce T. would like a 100 boxes or more of cheese if they have it in country, real onions and garlic, lots lots. Are these in the country? Please send on boat if possible. Also, please send pepper and chili powder on boat if possible.

--Should Sharon talk to Luckhoo about what Barnewell put in writing.

--Joan, send out the snake tape on the boat in briefcase. Jim appreciated her getting this very much. Very clever.

--Are they pretty sure Ny-Ka Cook, the dentist, will be coming in 2 weeks? Do they have any other prospective dentists who can come?

--Tell Carolyn that G-town wants the lists of dates again that people are suppose to go back in.

--How does Betty Jean Coty(Byrd) seem? Make sure no one in room when ask this.

--Call Reds and make sure he gets a reservation out here on Monday. Ask him if he is going to make the reservation

--Take Capt. Baker another gift. Thank him profusely.

--Joyce Parks called. Ray is in the CA therapy center. They will decide Thurs. on his therapy. Clarence had a spinal tap. He is scheduled for a brain scan. No results yet. He is no better or no worse.

--Soviets: No answer on the entertainment but he will give our band tape to Soviets. He is somewhat positive about Guyana. In terms of Guyana taking some progressive position. He thinks Burnham is progressive
He ########################### thinks that some of the PNC might be unprogressive or eneducated

He could not answer the questions that CL gave her. He wants the questions in writing so he can get answers, that are accurate. He was a little frustrated by the misinformation ###### that was given. He wants to know if correct information ######### because when he asked Soviet U. about it, it was misinformation and ########### it complicated things badly. He wants the questions in writing because the answer he got back from the Soviets was that he didn't understand about money in US, and he (she said ## or US money) said it sounded like misinformation to Russia.
The name CL gave her was the wrong one. He wants accuraete percise questions. CL mentioned that it could be completed in Nov, but she didn't say at the end or the beginning. She wants everything percise.

Most questions CL asked, he just doesn't know the answer to it. About the letter we gave him, he said he was very sorry -- he was trying to be humorous. He was very sorry, said Sharon tends to be too pessimistic. When he anslyzes the whole situation, he thinks Guyana is doing ok. Sharon got emotional and explained that he was in a different position and probably doesn't understand, and he acted like he was very concerned and said he tries to understand how Jim feels. Sharon told him ### that he is in a different situation, because Soviet U. is strong, a more permanent # home base; and we dont have one.

Venezuela is not going to make any change; Venezuela agreed to this that there would be no change (think she means border change.) (Sharon didn't know this until Fedor told her this.)

Sharon told him that he just doesn't give any answers(when ## she was emotional) She cried. (She's tired and doesn't feel well anyway.) She said if we don't get any answers after awhile, we will interrupt it as a no. He said not to do that, and was very concerned, as he said the Soviet Union is giving a great deal of thought to this matter. He said don't interrupt this that way, as Soviet Union is doing a lot of thinking on this. Fedor said he will tell us if it's a no, but don't interrupt it as a no. He said he would be very upset himself if it was no. He said they were concerned, the Soviet Union was concerned, about babies and seniors too. He thinks Guyana is taking some pr[illegible] positions in the United Nations. He said that Guyana is pretty strong [illegible] Africa and that the man Sharon talked to who sposedly is connected with the PPP, Dr. Sharma, who was worried about death for himself and a friend, ~~and he (Dr. Sharma) mentioned some concern~~
Fedor said that Dr. Sharma is not directly connected with the PPP but is supportive. He kind of indicated that Dr. Sharma may be a little more agressive than the PPP in technique and that is why he might be worried about death.

Russia (Fedor) said Barnewell's statement was quite good. Said it was quite an achievement. He wants Jim to come in to a birthday celebration for the Soviets.

Georgetown Feedback 10/14/78

BOLLERS — He came over for dinner tonight. Two main things came out of the conversation. We think we succeeded in convincing him of the necessity of writing. They talked about it for some time. He said he was going to talk to Registrar Barnewell again and have a word with him. He implied he's going to try to convince Barnewell to do it. When they first started talking to him this evening, he didn't seem to see the necessity of having it in writing that Jim could go out of country and not be arrested. After talking awhile, he agreed it should be in writing, seemed convinced of it himself, and when he left he said he would be seeing Registrar Barnewell. He said if he didn't hear from Clarence Hughes himself in 2 weeks, that he would go and do something about it himself. He said that if (Bollers) doesn't hear from Hughes in 2 weeks, he's going to appoint a judge to handle the case and get it resolved quickly. He's waiting to hear from Hughes because he thinks he might drop the case.

Luckhoo should have done something that he didn't. he should have appealed to Judge Bishop to change the arrest order. Bollers said he would call Luckhoo and talk to him about this appeal, and tell him he could do that. He thinks this could be a solution.

He'd have to make the application in Bishop's court. He kept on saying that there was nothing to worry about, and we kept on saying that it wasn't. This is the most in depth conversation on this subject we have had with him. He seemed to act like he was hearing alot of this information for the first time, and was obviously hearing what was being said, and said that's terrible at appropriate times, etc.

When we talked about the money that TOS gave to Hughes, he said that must be an exageration and we said no, that is for sure, and he was really effected by this. He brought it up 10 minutes again after we had changed the subject. Again he said that must be an eggageration, and we said no it wasn't. He seem to really be astounded by this.

When we explained to him how TOS had given so much money, he said it must be some organization behind this. We showed him the Sun Reporter article, and he seemed impressed by it. (Bollers is extremely infatuated by US.) His wife is ill and couldn't come. Would say overall, he's extremely positive, extremely friendly, and sympathetic. He's sympathetic but if he was totally symp. we would not have had to convince him that we need it in writing. He definitely is sympathetic, however.

He asked us if we had ever talked to Burnham about this, and we said no, but we would be happy to if someone could arrange it for us. He said he might be able to do that. He implied he might contact him. (But Bollers doesn't give the impression that he is all that much in love with Burnham, Tim C. feels. Tim says he is pretty sure that Bollers isn't that crazy about Burnham — Tim has thought that for a long time.)

Maryan made the call she did not get a hold of Joyce but the lady at the hotel said that Kathy came and her and Joyce left together in a taxi.

Maran wants to know if a GDF flight comes out here today or tomorrow should she get Marcie and her parents on it? yes

She said she was never told if she could arrange a flight for the surgeon and the anithesiologist on Sunday. At the time it was mentioned Dad said fine let the lady come I don't know what was said about the man. I told her as far as I knew it was ok to get the flight for them out on Sunday and back in Sunday afternoon. If you know anything different pliease tell her.

Ask Georgetown about the Cudjoe. ....The Cudjoe is still there and it want leave until 5:00 O'Clock. Delayed till Sat. when Clifford arrives. because auto pilot is broken.

Shirely Gieg wants to ask Jimmy if it isalright for Juilus to take picture instead of her she says the Guyanese like him a lot and she thinks more important for Juilus picture than hers.

See update Marcie says that she doesn't think that her Dad will be able to make it on the Cudjoe today She is very worried about his health situation. His heart rate is very fast. If the boat was going to wait a day she would take it but it is chancing it to take him at this time. She is very anxious to come home and would rather come on the boat she likes it better. She doesnt mind waiting over night in M.R. if they have to she wouldnt leave until next week if she went GAC. Maryann told her that there may be a flight Sunday for the Dr.s and we wouldnt have to pay. She said if his health situation changes before the boat she will come on it.

Passed to MA

Tell 8rl to call US Embassy right away and tell them about Lisa. Say her son is here with his wife and Lisa made him the sole heir. Make it clear that Lisa is legally divorced. Larry is her next of kin. So if anyone elseis to be notified that would be left up to the Embassy. She was in the hospital in Georgetown but preferred to be here at home and this is where she wantedto be buried. She didn't want anything to do with any other relatives after they supported Debbie when she left here and stole her (lisa's) money. Tell them we have papers we can show them. If you have any questio how well she was cared for, you can talk with Dr. Carlton Goodlett, MD and Newspaper publisher, Mark Lane and Dr. Donald Freed, all of whom visited with her when they were here recently. Dr. Freed even read to her though she said she didn't want to take up his busy schedule, he said it was his joy to do so. He is an author and playwrite. So if anyone tries to give you any difficulty about her, we want it nipped in the bud. We've had all the difficulties we're going to take. It's bad enough when you feel you have to take pictures of the body to show that she was well cared for. She had been bed ridden for some time and yet she doesn't have one bedsore. We gave her private duty nursing attention around the clock. Lisa was angered by her daughter for what she did. She said Debbie would steal and lie all the time and she hoped she would quit it. But she got involved in drinking and drugs.. In fact, Lisa thught Debbie was using drugs the last time she talked with her on the radio. Lisa said her voice sounded as if she was using drugs. She said it sounded like her when she was using drugs. We don't know how she sounded but Lisa said she knew. We did know she was smoking and drinking and had a pile of prophylactics which we tossed away. Aske if we have to send her personal effects into Georgetown since her next of kin is out here.

Boat will not go until tomorrow because Clifford didn't get on the plane and the boat cannot go without him since the auto pilot is broken. Clifford will try to get on tormorrow's flight.
They will get more ice at 7am tommorrow morning.
Marcie doesn't think her parents have the means with them to hire a private charter. She said their income just covers their expenses with little to spare, so she didn't think they could write a check. She is also concerned about where they will be living so I said we would check to see what arrangements Ava has made. She would like for them to live near her so she could attend to her dad who is a bit sickly. Ava said they will live in Trooke 5.

Joan said that Doug Ellice said no reason for Lisa's things to be sent in, although he does want to talk to Larry. Mon or Wed. or Thurs or Friday // Tues. is a holiday. // he said that in this particular case there may be a problem with the other relatives in this case. Said usually the oldest is the 1st heir, but didn't know then that she had a will.

Reds plans to come to come Monday on GAC, or GDF in morning. Will know definitely on Saturday, which plane.

Boat left at 6:30 Fri. Jim Nite + Mark Boute went w/ it to help steer cuz auto pilot broke.

passed Maryann says both doctors can only come on Sunday and they must return on Sunday. This f of course necessitates a GDF flight. If we get it we would have to bring the pilots in also to entertain them so they could take the doctors backto Georgetown later in theday. If she can arrange this, should we delay the five people we have GAC reservations for on Saturday, so they can come on the same flight with the doctos on Sunday and thus save money. yes, proceed

When is Kathy Richardson supposed to be arriving. G/Town got three different messages.

passed If Richard doesn't go to Trinidad it will probably mean that Charlie will have to fly there ahead of the boat (as Richard planned to do) to make arrangements. The plan was also for Richard to stay on after the boat leaves back to G/town inorder to complete purchases. In light of this, should Richard still not go, or go to deal with boat matters only. Richard not going Daughter not well.

Did bill get dropped for last GDF flight? yes

Passed Tell our boat to pick up polaroid camera that Patti took to Kamaka. Tell her we've got to be using it here for a project and we absolutely have to have it. This comes from Carolyn.

JR will check Does GDF fly to Trinidad. If so can we fly Charlie and Helen.

passed all Patti and ask her if she has any contacts in Trinidad.

Passed Gave message forthose going to Trinidad to save as much money as possible. Take buses, not taxis. Don't buy food unless absolutely necessary. If you must, buy from groceries not restaurants. Try to eat on the boat. Find someone we can stay with by asking our contacts in G/town etc. Tell how J lived in dumpy places and ate cooked rats to save mmney. It was this kind of sacrifice that built this org. Tell Hellen this is one of the things J appreciates about her-- her frugality.

Messages Passed to Georgetown// October 25

JJ agrees about waiting before giving Barnewell's statement to Mingo or Burnham. Just tell Mingo that a friend of his who is high up in the govt made a statement. See Mingo's reaction to this. Don't tell Burnham.

JJ said to show Bollers - the statement that Barnewell gave us and see what he thinks.

--Show Barnswell's statement to Luckhoo. See what he thinks. When was the last time he heard that we were in good standing. Tell him we like him and are loyal and any trouble he has in the future will be our trouble That's just the way we are. Tell him how people like Goodlett, Garry, came her pro Jagan and left pro PNC from what they heard from US.

Tell Jimmy yes, they are to book the band and other entertainers in as many places as possible. But each group that goes in is to have a person in charge of their group. Someone who is not in entertainment. Told Rhonda and she will take care of it.

JJ --JJ wants 8R1 to push on the letters for McElvaine. But Sharon needs instructions on what to write. JJ said this was impobant if anything happened to Mac he'd go back. She thinks the people in G-town have written. Is that what he wants or does he want people in Gt. in community to write. Need clarification

Jim wants the states given names and addresses of people in Guyana who have been helpful to us, so we can write them from the states.

Dad said to tell Charlie that he has faith in his judgment and he wants Charlie to pack the Cudjoe with things.

Told to get medical crates on boat.

JJ wants Joan's mom to only be out 3 days. out here.

OK for Joyce to buy drugs but keep strict accounting of expenses. Keep list to clear with Hamilton Green. Tell Joyce to ask lady she is staying with if she knows anyone with amateur radio so we can communicate with her

They have to put a tracer on Betty Jean Coty's luggage from their end in G-town. States can't do it from their end, Pan Am said so.

Prokes will get Charlie's passbook and immunization card for trip to Trinidad.

Go ahead and load the boat and bring it on home on Thurs. after getting it loaded. (Jim has the feedback at his house on why this needs to be done. Maria, Karen, Mike P. had to make the decision (and Lee) because of problem with power failures, and if they wait till Fri, they might not be able to get the fish and ice, if they could even get an appt. for Fri. which they aren't sure of. If they couldn't get an appt. for Fri, or had a power failure as they have had for last 3 days, then they would have to wait until Mon. to load the boat. So can't wait for Marcie and her parents. Fish and ice won't wait (last) overnight. Sat. is half day and cant load on a Sat.)

tell Jim

(1) SANDI-- OCTOBER 25, WED., GEORGETOWN

Paula coming in to G-town tonite at 6:40 PM. Be sure to pick her up.

--Joyce Parks wants to know (Ask Maria or Carolyn or Jim) if she can call G-town to clear purchases. She was told to clear all purchases, but was also told not to be making phone calls.

They said the Cudjoe should be leaving today between 4 and 6 PM. Ask them if that's still the case this morning. Check w. Jim if he wants it to wait for Marine Tell Jim if so. What was the total cost of the repairs on the Cudjoe? What kind of shape is in in now?

--They never told us whether we were suppose to order life rafts or depth finder from the states. Why haven't they given us some feedback on this, or do they know the answer yet?

--Did they find a radio for the Cudjoe? If so, how much? Do they want to get it or what?

--Ask Jim again today if Sharon should give Barnewell's statement to Mingo. He didn't know for sure last night. (Harriet thinks it might be better to wait so that's it's produced at a time when it might be needed in case there's any question whether or not the guy had jurisdiction to give it to us.)

Harriet and Karen think that perhaps Sharon should take Barnewell's statement back to Bollers and see what he thinks of it. She could ask him just who knows about it, such as the Prime Minister, and ask him if it could ever be questioned in any way. What does Jim think about doing this. Yes - do this

Sandi - Pass to Ava Jones

Marilyn Pursley, Cynthia Pursley and Betty Daniels and 3 children were suppose to have come in last night. Get the names and ages of all new people, and please pass them on to AVA Jones today. I think Betty Jean Byrd (Coty) and dau are in G-town too, and will probably be coming in the the Cudjoe besides Betty Daniels and kids

Marilyn and Cynthia won't be coming out for a few days, just for Ava's information. Cynthia is staying to live in Jonestown, but Marilyn is just visiting for a few days. Cynthia is Mongoloid for Ava's information and has to have supervision. Edith Bogue use to care for her in her home. Cynthia is very sweet, and we will have to find her a place to stay and something for her to do. Joan P. might be able to offer some suggestions of things Cynthia would like to do or be capable of doing. We should ask Joan on the radio what she thinks.

Tell Joyce Touchette that they can't get 1000 lbs. of pork on the boat because they can't get it frozen in time to bring in on Cudjoe. There will be 5,000 lbs. of fish on the boat, and over 1,000 lbs. of other meat.

told

Sandi, for your information, Reds Perrera, National Sports Director, can't come out here until Monday and will stay till Wed. I told Joyce Touchette and Eddie Crenshaw and he said he would tell Albert. Mike T. I also told.

Tell G-town Mike Prokes found Kay's purse at the ridge and gave it to her. However, the film crate was not there. We still have not been able to locate the film crate that was lost. Very sorry.

Film was found but also

--Joyce Parks: Clarence needs a special injectible medicine / they don't have any in Caracus// he has Gidion Berret disease / it effects the central nervous system / Dale and Larry know about it// he does not have a brain tumor// he does not need surgery// he needs this medicine right away // medicine ACTH/ it's 80 milligrams per cc / 5 amps are needed right away// we might have it here, or it will have to be flown from the states. Could she meet the plane from States at airport?

Muscles in his throat and chest are being affected. He can hardly talk // this is a cortizone medicine // the medicine will help to maintain his respirations which are ok now, but the Dr. is pretty hopeful that with the medicine it will be ok. It's a matter of grave immediacy. Could use eventually maybe up to 20 amps.

MINGO -- He liked hearing Guy talk about the livestock. (Guy is very sincere. Willing at a minute's notice to get dressed and go somewhere last night. Mingo really liked hearing him talk.) He seemed a bit irritated at first, but warmed up towards the last. Sharon asked him if she had done anything to irritate him. He thought the chickens sounded good and thought that would be helpful bec. there is a shortage of chickens in this area. He said that Guyana has had some problems economically and that is propably what PT is feeling. He didn't think that the US Embassy could cause us any troubles here in terms of PT having to go back to US or anything like that. He read articles on us that are good. He read them carefully. He said we have a lot of friends but he says that Guyana does not. She explained that PT speaks highly of Guyana to the press and helps in that area too. He said it would be real good if M. Ali came. He said that the only thing is that PT must be sure to tow the line in G-town. Cause no problems, and not get in any trouble, obey laws. Just keep on keep on like we are. Said we should be very careful.

In terms of America he had mentioned some Americans who had lived in Guyana a few yrs. ago who [illegible] picked them out.

Right after that he asked about Tim's situation. Asked if we had heard anything, and we said no, but Tim had talked to Eric Clarke about it, and was trying to get the money back. (Sharon has to make an appt. (Eric Clarke did say he ans. Gene C. letter and sent it in mail. We haven't gotten it yet tho.) (this was a couple days ago - sometimes mail is slow).

~~[illegible]~~

Some Socialist countries had invited PT to live with them, Sharon said. Mingo said that would let him and Reid down if we moved out of Guyana, bec of all the work put in to it. Mingo said he still has a soft spot in his heart for PT, but Guyana is only 12 yrs. old since revolution and Britian has tried to impose a lot on Guyana in terms of ideas and things, and that's why Guyana has old fashioned ideas in some ways. PNC doesn't have as much control of Guyana as would liketo. And Guyana needs to have more education, he said, and it takes time. He said that

Call to Mingo's wife is done

--They picked up the land lease. They need a copy made downtown bec. it's a large piece of paper. But copy machine in town has been broken// it is fixed now. Copy made and given to Russians. Will send land lease out to us.

--Vincent Hines talked against govt.// should we put him on the list? (list of people trying to hurt govt.) No

--Mingo: in regards to our giving him that name of the man who talked against Mingo, He said that Burnham had probably talked to Reid about it # but he didn't have any feedback. He said it was a good thing we had mentioned it, and he had talked to Reid about it himself. He said Reid didn't say anything about it to him, but probably Reid talked to Burnham about it, but he himself doesn't # talk to Burnham that much. He said Reid didn't have anything to say about it.

--We asked Mingo about Venezuela, and he said he wasn't involved in those discussions and didn't know what happened in them.

--He said he won't be available on Sat. because he has ########## other things to do on weekends. He is very very busy, and Sharn thinks we will have to bare with him on this. His sec. gave us an appt. for Nov. 9th. He has assignments on weekends now. It's hard for him to coordinate things together when he gets overwhelmed, Sharon thin . He is more accessible than most govt. officials, and thus has more people bothering him.

--Sharon said one of his friends kind of high up made a statement in # writing, so Sharon didn't ## go into it because he didn't know about it.

When he said he had a soft spot in his heart for PT, he said that PT had been brought up at a meeting recently he was at. It was a small issue that was mentioned, and we weren't mentioned negatively. He said Hoyt turned to him when PT was mentioned, and said Oh, that's Min. Mingo friends. (he said this jokingly.) He said that everybody knows that Mingo is PT's friend. Nothing negative at all said about PT by Hoyt or anyone. It was a good hearted experience.

He said he wasn't trying to imply anything by talking about this. He seems to feel people just have to know some things and need to do more research on things before they act.

--He can understand our worry with John bec. that's taken so long. Asked him if he knew any more about that, and he said no.

--She dropped in with Guy to see Barnewell, and she asked him and chatted for a while. She mentioned a statement about her health, and she explained how she had to have some one with her. Guy went out # for a second, and he said that Sharon is very well protected (meaning Guy.) Sharon said what do you mean, and he said she was just very well protected. He had to change the time of the dinner, bec. he couldn't come Fri, so they changed it (dinner) to Wed.

--Sharon called Mingo's wife tonight and told her about the miscommunication over the radio. /What was meant to say was that we have been offered cultural exhhanges and we had no intention of going anywhere else, etc. etc. His wife was friendly and said she would pass on the message. Mingo was not home.

--Soviet feedback - continued from yesterday: doesn't think that just bec. Guyana accepts the IMF, that Guyana won't still go along socialist course. He and Mingo (Fedor and Mingo) sounded similiar in some of their analysis, in that they are both are saying that Guyana will take a long time to change, and is under a lot of pressure.

Sharon did ask for 6 or 7 tickets, and he mentioned one for Jim, and he will give us about 8 for this event coming up (written about in her last report.)

He didn't think it was good for PT to have a lot of visitors, because CIA might try to get in. He said when PT goes to Russia, # we might take along someone from the CIA with us. Sharon said is that was is bothering the Soviet Union, is that an issue, and he said,"no" -- it has nothing to do with it. But he said "how would you know if you did?" And Sharon said well Jim could check and so could they. Sharon said that the S. U. has a lot of visitors anyway, and certainly the CIA could come with them. And he said well, that's just a visitor. But he said again, it wasn't an issue.

University Hosp, that's why it is free.

--They went ### to see a man who had met Marilee and Tim. He gave Sharon a couple of names of people connected with the Embassy who had been negative about PT. He's a doctor. He was friendly, and wants to visit. He's not a socialist. He likes England and British ways, and he doesn't like US. He thinks Britian is little more sensible, little less capitalistic than US. Sharon gave him some background, but he didn't seem towant to read too much. She explained to him some of problems in US with PT and that PT lived a certain way bec. it was helpful to people, but that US didn't like our lifestyle. She said it didn't involve the Pres, and showed him a pict. of Mrs. Carter# and Jim.

CUDJOE --4 reasons why it shouldn't be held up. Insects on the boat are out of hand, crew is having hard time sleeping on it. Needs to be fumigated. Don't think new people should be coming on it. It's too bad.

--They are scheduled to get the fish and ice in morning. They can schedule it for Friday -- but if there is a power failure we won't be able to get fish or ice, and Sat. is only half day and can't do it on Sat -- takes too long -- so if there is a power failure Friday like there has been the last 3 days, then we will have to wait until Monday.

We could load it tomorrow and keep it there overnight, but fish doesn't hold up well, and neither does ice, so this is chancy.

--We don't know what appts they have for Fri, so we aren't even sure we can get them to do it Friday// no guarantee//

--Paula will be in town for 10 days to 2 weeks, and so will Bunny. She seems fine. Sharon called her last night.

She mentioned in Wash that she ~~heard from an~~ talked to an Ambassor from Guyana to US in Los Angeles that he had read some negative things about PT and mentioned them to Burnham, and Burnham had stuck up for us, and said we were really doing well, and he didn't want him talking against us.

This person had talked to US Embassy, and the US Embassy had said how PT was OK, he had seen PT alot and there were no problems. He talked to Dick McCoy in Wash. and he said we were fine, and not like some people say. But this man saw a report which Dick McCoy had written and it had some things in it which weren't that nice and this person said to McCoy how come you wrote that when you told me everything was ok, and he just shrugged his shoulders.

—Told G-town to tell Joyce to keep an accounting of all money and clear purchases.

G-town 2 corrections on reports when talking to people in PR:
—When talking to people about Jim being stuck out here, Jim said it is too strong to put as a civil rights violation.

G-town Explain Tim Carter's mistake to whole house. Just use the word Socialism, don't use the word Marxist-Leninist, as most people don't know this. This doesn't apply to Dr. Sharma or people like him in the PPP or the Soviets, unless Jim instructs this. Most people don't relate to Marxist-Leninist, and most don't have enough judgment when to say this and when not to. So basically just don't use it and you will be pretty safe.

G-town —When they talk about the tradegy for all of us here and Jim's children that he is stuck out here, always include his wife in that. Talk about his wife many times. Tell everyone to mention her, esp. with the lies that have been said.

Tell Luckhoo it's not a matter of not trusting him or the govt. We just don't want to give the opposition something to use against the present administration and furthermore going home, some of them (meaning like Lane) have have a change of mind of Jim's leaving. For the same reason we don't mistrust the govt. but it would be our luck the opposition would make some big deal out of it.

Tell Mingo it makes us feel like 2¢ when he keeps cancelling his appts. This has happened several times on a Saturday // we would appreciate you not building up our hopes that we can talk to you on Saturday when you evidentally know that you aren't going to be there.

Write a short letter to Mingo, Reid and Burnham. We sent you a letter telling you about a man who said if he had the equipment he would personally kill PM Burnham, and he is in an impt. position in this country. We've had no response to this. We've offered to give you the name //it makes us all so apprehensive when there is no response on something so impt. as this, when it sounded like the man had a venomous hatred of the PM.

We want to put Laura Johnston in Evelyn's spot, and send someone else to do what she is doing. What is she doing? Is this possible?

Was the telegram sent from Town. Also from Terri C. - telegram was sent to a bank in Bartica by Debbie To but didn't get a copy to Sharon or Tom.

Today Sharon dropped a note off for Burnham and talked to his secretary. Sharon told her that she (Sharon) had called a week ago to say that M. Ali would be coming. The secretary said oh, maybe that's why Burnham has the PT file on his desk right now. Sharon said oh, but I called last week, so why would he have our file on his desk today. She then said she didn't know why then, but he did have the PT file on his desk.

Letter Mingo, Reid and Burnham// There's a woman high in the party here who says blacks are lazy here and in America and that's why they doesn't get ahead. She's older but, by instinct. We feel you should know about it because she could be speaking on yourbehalf anytime. She critizized Reid for adopting # AmerIndian children that he adopted. Said they would leave him because they are like animals. She reminded us of someone in the Klux Klux Klan. She thinks the white man has achieved more because of his superiority. Its really a strange thing because she's not white. If you want the name just contact and we will let you know. We can't get accustomed to this kind of thing. It blows our mind. We expected this in the USA as painful as it was to receive from white racists but this makes us feel like it is futile. How many people must think like this woman. Again this woman has been very nice to us. She's been very nice. To us. She made distinctions between different shades of blacks, and said the blacks here don't work as hard as the East Indians. It would take 5 pages to fill all the junk she said. You ought to send her to the Guyana Consul in NY so she can get a taste of what American racism is like. And yet he wander the streets.

She said that instinct makes the difference in people and environment doesn't have anything to do with it. She can't be much # of a socialist if she believes that environment doesn't have much to do with it.

Luckhoo: Sharon saw him this morning. Luckhoo said Bollers is 101% behind FT. Bollers told Luckhoo that he had treated his wife and he was very grateful. Luckhoo was irritated that Jim hadn't gotten his medical care as if it was our fault. It shows no confidence in Garry, Luckhoo and Lane, he said, because they all said it would be alright for Jim to come into town. Luckhoo said he is not going to charge us any fees. Sharon said we are waiting to see what Hughes is going to do to see if he wants to drop it, but he said he won't because TOS paid Hughes $25,000. Luckhoo apparently hadn't heard what Barnewell had said, because he said we apparently don't have confidence in what he tells us, he said, when we asked about putting it in writing that Jim could leave the country. He seemed irritated about that. Sharon didn't mention Barnewell to him other than to ask him if he had heard from Barnewell and he said no, he hadn't.

Barnewell put it in writing that Jim could go out of the country. Sharon is sending the draft out with Sony Ogle. It is better than what we thought it would be, and he said we could make changes and corrections and he would try to put them in. Sharon told him we were sending it out here for Jim to check, and he said ok, and he would sign it on Monday.

Sharon wanted to know if she should go over and see him by herself or what. He seemed dissapointed that she came over today with Jimmy and Guy. He mentioned she brought reinforcements.

Mingo is out of town. His secretary said to call him back on Monday.

Barnewell is coming to dinner on Friday. Marcie should be there then.

Luckhoo: he is waiting for a date to start the case over again. Then he will enter a motion to dismiss the arrest order. He said Bollers might handle the case himself, or if he doesn't, he's sure any judge it was assigned to would see how ridiculous the arrest order is and dismiss it.

Joan taped the snake expert on a subject of snakes. He has over 100 snakes of all kinds at his house, and has been working with them for 15 years. He takes out venom and sends it abroad. The tape is about one whole side.

Joan saw the little boy who got bit // he's doing ok and they are giving him anti-venom and anti-biotics.

Joan made $100. today. by herself.

On blue van Laura is hard on gears// she's not careful either, and is only to drive in emergencies. Laura has been procuring food and assisting with medical.

Get Clifford James some clothes. He's very thin. (Told Beverly)

Marvin They need to have a film crate made for the films to slide down individually. There should be 2, one for G-town to send films out and one for Jonestown to send films in. In duffle bags the films get marked up badly. Also if it rains they get messed up. Marvin is suppose to follow up

Dentist, Ky-ka-Pook said he will come out in two weeks.

—Reds Ferrera is asking to come out here in a couple weeks. He said he wished we would have asked him before. (How long do we want him to stay. He probably could come on the ~~GDF tomorrow~~ and go back on Wed., but that ~~might~~ be too long?) O.K. Tomorrow - East House.

—Passed to G-town for Joyce Parks: 3990 RN, Sick Nurse Dispenser Receipt # 339541
—Terick Baker should be getting here soon //(he's here)

—Very very impt. that there is a massive hunt looking for that film crate. Someone lost a film before and was charged $3600. "The Case of the Murder" -- we could be charged the same amt. as the other person. Man is terribly upset over it, and in ill health. The man's last comment was, he doesn't want to talk about us paying for it. Just find it." He told this to Charlie and Richard.

—They are making curtains there. Hoping they are making the beds here so they can come out on first return trip. Beds were cleared. Need badly. 7 tripples and 5 single beds (regular). Ask Terri C. if they are getting on to that.

—Barnewell - said at first that he could not do the paper. Explained in detail why it was not necessary. He showed Sharon place in law book that supported the position that it didn't need to be put in writing. We said we had total faith in him, but if someone else took over it could be a problem for us. Then he said that he would be visiting next week at the ridge. This is when he said he couldn't put it in writing. Said he could talk to Jim directly about it then and tell Jim the same thing. Then he said maybe he could talk to Bollers and find if there is a way of wording it, bec. he can't really put something in writing directly, bec. it's not his jurisdiction or something. If the court hasn't said something particular then it's difficult. Going to talk to Bollers and see if there's some way he can word it. Sharon said he could definitely visit, and maybe Brig. Price could help out. But he doesn't like to be away overnight. He said Sharon can call him Friday. He was very warm and friendly. He said in a way it would be better if it starts over completely, and there would be no arrest order. That depends on what Stoen does.
MS. FROM JIM IS AS FOLLOWS: (passed to Sharon by KL)
—Ask Mingo what he thinks about him coming out. Tell Mingo there would be all kinds of bedlam if he tried to do anything.
—Barnewell was critical of Judge Bishop. He said the arrest order had been a mistake but he said the judge had done it, so it would have to be shown to be wrong. He said there is no judge right now, and that's why there is no problem, bec. there's no judge assigned to it. Bollers is the one who will assign it to a judge, so since there is no judge right now, nothing can be done against Jim. He did say it was not legal in the first place. It's only Bollers who can do something in the first place, but that nothing could be served unless he did it himself anyway, which he won't. He was very patient, explained things, showed us law books, made himself assesible in terms of talking to him Fri. He was very friendly. He wasn't at all irritated. We had a slight disagreement with him over US, and he did not have to bother with us at all. (really not a disagreement and not much difference.) He did say that Luckhoo should have moved to have the arrest order set aside bec. there is no judge.

Jim: should we tell Luckhoo about this? We don't know if he would get offended. Should we tell Luckhoo we talked to Barnewell

Answer from Jim - given to Sharon by Karen: Tell Luckhoo that Bollers suggested we talk to Barnwell and that Bollers suggested that he would not look unfavorable upon an application to vacate the arrest order and that it might be a good idea to try it.

E-3-A-2-(155)

MaryAnn said this about the chicks: they had a very rough ride to the airport// had several hrs. wait bec. air freight was held back bec. of visitor who came in today.
We had to beg and cry to get them to put them on. Tell chickory. Some vet told us that chicks go into stress with just plane old travelling. There's a couple of things we can do to help them along. One thing is to do is to check and seperate the ones who look the worse, and feed them extra. Galamycin antiboitic should be put in all the chicks water. Best kind is the kind to put in the water. All chicks should get it for at least 3 to 5 days. Reason is they already have bacteria in their system, and travelling causes it to spread thruout system, so every chick that travels should get it. Chickory should be prepared for them when they get here.

They keep calling Sony Ogle, but can't reach him. Tried this morning, and today and this evening. Can't be reached.

One of things that Barnewell seemed to respond to was that if Ali came here it would look bad for Guyana if Jim couldn't come in and meet him// Sharon did tell him a little about John and Grace, and TOS was with CIA and Mazor had told us that. TOS attempts were against Guyana as well as PT. No mention of Mazor's name. Also mentioned that there was a likelihood that TOS might loose his job. He listened to everything. Sharon gave him the articles // When he talked to Mark Lane, Luckhoo was with him. He did say something strange tho, he said that somebody from US Embassy had come to talk to him and surprisingly he was in favor of PT// first he thought it might have been McCoy's boss -- said it was an older man-- but we asked him if it could be Dick McCoy and he said it could be. He said the man wanted to be sure nothing happened to JJ, and Sharon said are you sure, and he said yes, it surprised him too. He did say he is a friend of Clarence Hughes, but he said they all get along. He said C. Hughes wants to do what he can for TOS because that's his job. Sharon said she wanted to invite him for dinner but didn't know if that would be a problem. He said at first word does get around, but in regards to Clarence Hughes - he didn't think it would be noticed all that much. He was really friendly. He tell jokes and smiles alot, and apologized to us for the informality of his office.

He's certainly no communist, kind of old fashioned in some ways, and think he likes England// he's not as rigid as Luckhoo and is more flexible and easier going but is old fashioned in some ways. He has a pleasant personality. Very friendly to both Jimmy and her. He said if Bollers had another judge pick up the case, he might say that this situation has nothing to do with him, and want to start completely over. And that would be good bec. then the whole thing would start order and there would be no arrest order. The judge can make a determination, but it takes a marshall like Barnewell to serve the warrent. But he did say that the judge might tell him to fulfill it. But he was saying it would probably have to be the same judge or if it was going to be another judge, it would be up to Bollers to decide which judge. And Sharon said what if you are gone, and then he said well, then it would be up to Bollers to decide what goes on. He tried to call Bollers why we were there. And then he was saying if there was some way it could be worded, and said sometimes you have to bend a little backwards, meaning himself. But he said that Burnham had talked to him and told him not to deal with the arrest order. Sharon asked if he said that to him directly, and he said yes, he did. Sharon said why can't Burnham write the letter, and he said well he can't because he the PM, not in judicial. And Burnham likes to maintain the independence of the different judges and he can't interfere. And he said it was important for appearance, although Burnham favors PT; there was a time when a person's word was enough. He said that's not the way it is anymore but later on he understood why it was impt. to have it in writing. It wasn't bec. of him ...

Corbin
Percival--Told him if there was any problem with the IMF or if PT any embarrassment to Guyana, please let us know.

(A) The following information was passed to us by Tim Night in his report recently. Several follow-ups need to be done on this.

(1) On 3/10/78 Tim and Marilee spoke to a lady (they don't know her name but they know where she lives) who said that Tim Stoen couldn't get his child from Jonestown. She said she got this information from the American Embassy and that we were supporting the referendum.
(Go back and visit her and get her name and address. Show her new news articles on the conspiracy, and also old articles that were good. Say we never supported the referendum -- we aren't even citizens and can't even vote. We can't support anything-that's ridiculous. Try to win her.) She was very hostile.
Then go back and tell the Embassy what she said, and give her name and address, and say that she said that she had gotten her information from them.

(2) --on 8/10/78 they visited a M.N. Ezekiel, Lot 2, Belaii, Homende Greater. He asked about the conspiracy and barb wire fences and Mark Lane and Don Freed. Said he would like to come to Jonestown. He gave $15.00. He had a good attitude. Give him a plack and explain some about us.

(3) --On 13/10/78 George Persaude (wood company) no address or name of company. He said that he would give wood material or equipment for medical dept. Doesn't want to give money. Very nice. CONTACT HIM and give him a wooden placek.. Tell him how we are building a

a small wooden hospital and need the wood. Don't give this until Johnny Jones gives the measurements of hospital. He should have it by 6PM very important!

(4) 13/10/78 Dr. Arjoon, Lot 60, Zinnia Ave. (sp?), Belair Park, PH: 68517.
Says he works with people at American Embassy, no names spoken of. He just said that people speak of Jonestown being a prison camp. Said people can't go as they wish. They said JJ had a record in the US so came to Guyana to settle. They say people from the Embassy come to Jonestown but can't get in. He said that he would like to visit to see for himself. He could only come and leave on Sunday. Good attitude.

Tell the Embassy about him, give name and so on, and say what he told you they said.

(5) Cosmopolitan Trading Co, 32 High Street, gave us $50. He gives often. Good attitude. Take him a gift and good articles.

(6) On 11/10/78 saw Harry Shadood, he didn't have time to talk but had a good attitude and gave $50. Fashion Galley Taylor. Take him a gift and show good articles, etc.

Georgetown Feedback
October 17, 1978

You might want to pass on that Margaret Ackman is very religious.

Margaret Ackman — Some Guyanese have talked about her, and it has upset her. Some even said she might be connected with # Min. of Trade King. It was because of the time that the referendum was going on, and Margaret was visiting USA, and it was her vacation. Forbes Burnham had to call her when she was in the US — it had something to do with the referendum. She said she wanted some money or (something?) because her trip was interrupted because she had to come back to Guyana and she would have to go back to the US. He said sure, she could have some money for the trip back. Then it was mentioned # that she was living above the people

Both Burnham and Reid told her not to worry about it, but she still did. So Sharon took the opportunity after she said that to tell her about what Jim had been thru and the rumors. Told her about John, etc. And Sharon explained why Jim was stuck here and couldn't leave. Gave hold background of TOS, and court, Grace and what ## she did to John, etc. And Margaret said Grace sounded like a horrible person, and was very sympathetic about John and what he had been thru, and about Jim and what he had been thru. And she said that she wanted a letter with the Dr's report, and the one study that shows the cells. # First she suggested Sharon write Mohammed Shahabadeen, Min. of Justice, and then she said she would talk to him herself if she got the letter First she said that Jim is too good a man to go without proper health care. Sharon told her earlier that Jim would do anything for her, and that if anything happened Jim and others would do anything we could to help her out# // Sharon told her how we had picketed the Examiner once before. She said she knew that Jim cared about her.

She told ## about the two guests who would be coming, Dick Gregory and M. Ali. She wants to ask one of them to help her with a project concerning money. She idolizes M. Ali. She wants to meet him. She's heard of Dick Gregory, but not too much though. Since she offered to talk to the the Min. of Justice, Sharon told her how he was (JIM WAS) just going to stay out here and die. This really upset her. Sharon told her about the good publicity. Margaret said Jim # was too good just to stay out here and die. She says she wants to visit and Sharon said maybe Brigadeer Price could help her. She said the first thing to do is get the letter, and she wants to get that straightened out with Min. of Justice. Anyway, she said she would visit here, very eager to visit, and she would talk to Brigadeer Price. She gave Sharon a hug when she came, and a hug when she left. She asked if Sharon had seen Chancellor Haynes, and Sharon said we had wanted to, but he had been sick. Sharon said she would like to get together with both of them, and maybe take them out; She was very happy to. Wants ###### us to call her next week to get together with her and them or whatever.

Brigadeer Price - We saw him today - dropped in to see him at his office. He said he had been very busy lately with Venezuela. Venezuela is visiting in Guyana. He said anytime Margaret Ackman wants to come he will bring her. Sharon said she wanted him to come too and he said he would like to also. Said he will make sure Margaret A. gets a ride up here. He talked to Mingo ###### to ask him why Mingo hadn't visited, bec. he knows we see Mingo a lot, and Mingo told him he was quite busy now since his job had changed, but told him he would come eventually.

E-3-A-2-(166)

Assistant to the PM Rashid: They saw him today // talked to him about Mark Lane and he wondered why the press hadn't said more about Mark Lane and Sharon told him we were shocked too and we had been told that the press wasn't going to say anything much and it surprised us a lot when the press in US said alot, but Guyana didn't. And that the Carribean had done a lot of press on us. Showed him 3 press articles from US on us, one was the Sun Reporter front page coverage, and Sharon explained a little about Goodlett and how he had recently visited here, and he said that he thought that if Burnham had known about him, that he would have wanted to meet him. Sharon told him about Mark Lane and Goodlett and Freed, how they use to be in favor of the PNC, but now they were changed and supported Burnham. Sharon said she wasn't sure the PM had wanted to meet him because the Min. of Foreign Affairs, Jackson, wouldn't give him VIP treatment when he came into the country. Rashid seemed surprised about this. Told Sharon she should have called the secretary of the PM, and gave her the name and number to call for next time. Anyway, Sharon told him about the guests who were coming soon and that one said it would be very good - for M. Ali to come.
He was really enthusiastic about that. Sharon said the only trouble with that person coming is that he's going to expect to see Jim in town as well as out here, and then she told him the whole situation, about the courts and Jim's being kept here. Sharon said some of the guests coming here couldn't understand why Jim couldn't get medical care and they didn't understand, and felt something wasn't being handled right.
And they had even mentioned human rights, but we defended Guyana very strongly but if the film company came, everybody would look at us as an interesting social experiment and it would be extremely bad if Jim died and no medical treatment happened. Sharon showed a lot of emotion.
He couldn't believe Burnham knew about it and he said he was going to talk to Burnham about it. (Joan said Rashid saw Burnham everyday). Sharon said why it was impt. to get it in writing in case Jim had to leave the country and wanted to come back so he wouldn't be arrested and // Sharon told him about what happened before when Reid and others were away. Sharon said that certainly would not have happened if Reid and Burnham and Kingo had been here. Sharon said she knew they were supportive. He said he certainly knows that Reid is supportive, but it seemed like he hadn't talked to Burnham that much about it, because he didn't think Burnham knew that much about it.
Sharon gave him all the press articles, and he said he would get back in touch with us and took our number. He wants to visit here for a week. Said he has a 2 week leave and wants to spend a week of it here. Probably soon, before the end of the month.

Joyce stayed with Mrs. Bollers today, and it's a shame she's leaving, because Joyce was very very good for her. Joyce found a couple of things medically that were very impt. too. She did have a problem with pneumonia and may have a hormone imbalance.
She hasn't had good medical care and Joyce found some things. They were overwhelmed by Joyce and they couldn't stop thanking her. Anita is supposed to go tomorrow but Mrs. Bollers really liked Joyce's manner, and said she was very assuring. Joyce told her she wasn't taking the right kind of medication. He was beginning to think that it was all in her mind, but Joyce found that it was Physical distress. She was referred for psychiatric care when actually she has physical problems, which Joyce found.

Anyway, they were very grateful.

Bollers said an arrest order in dispute could be acted upon, though it could be appealed. He said Luckhoo could make a motion to dismiss it in the event it were acted upon.
He talked to Registrar Barnewell and Reg. Barnewell said there is absolutely no problem. It was absolutely no necessary to put it in writing, tho Bollers talked to him about it. Sharon asked Bollers if Barnewell would talk to us, and he said yes, anytime. We already knew how he felt about putting it in writing, so Bollers said he would set it up for us to see him, maybe tomorrow, and when we talk to him, maybe we can change his mind.

Georgetown Feedback
Oct. 16

Minister of State and Min. of National Development Robert Corbin

Talked about the IMF and how it will effect Guyana. PMG thinks it's a necessity. He goes along with that, but he thinks that Burnham can help alot too because he's very strong and won't let the IMF control Guyana. But Corbin thinks Guyana would stand up to Venezuela and not let Venezuela take over. Spent about 3 hrs. talking to him, almost 4. Seemed to be comfortable. Had a little bit to drink and was just relaxing. He seemed to like Joyce. He came by himself. He asked some good questions about PT, not probing but more just interested. He seems to be somebody who has searched quite a bit trying to find out what to believe in and at the end, he was pretty much asking how PT manages to motivate her people, etc. We told him about Ali coming, and Dick Gregory, and he was interested in that. Told him about Lane, Freed and Goodlett.

We talked about a hands off policy with the press and he was surprised. He seemed a little bit shocked about it. He was certainly surprised. Said if the US wasn't bothered by it, why would Guyana be. He didn't give too many opinions on that. Sharon mentioned about the man who took over Carmichael's job, Durant, and we mentioned his visit and he said he had heard about it. He read it in a letter that we had written Burnham (that had written to Burnham.) Think he was a little embarrassed that he had said that, that he had read that in a little we had written to Burnham.

He said he would give us a write-up he has about the IMF. We talked alot about how Jim had helped people change who use to favor the IMF like Lane and Goodlett. He listened. He doesn't make a lot of comments unless you are talking about a subject like IMF where he likes to be educational. He didn't like our placks that much, but liked Nancy Sines' picture of the mother and child.

He didn't mention anything he had heard about PT from anyone. Sharon asked him how Guyana looked at us, esp. in regards to the IMF, but he was somewhat non-commital. He just didn't think that IMF could interfere with Guyana or in regards to PT.

He seemed really sure that he would be visiting before December, might be this month or sometime. He thought that if Guyana had to deal with Venezuela, he thought Guyana would have some friends that would assist Guyana, but he wouldn't say who. And he didn't think Venezuela would be able to get away with too much, and he didn't think world opinion would support Venezuela. It happened once when Venezuela started to be too pushy in a section, but Venezuela didn't get far and was backed off. World opinion didn't approve, so Venezuela just didn't do it.

We mostly talked alot about our program and medical clinic, cooperative and it seemed interesting that he was so interested, and sat for so long listening about it. Sharon thought maybe Nancy could make him something like that woman and child.

Bollers called tonight. His wife hasn't been feeling well and when he was over the other night, we said if we could be of help let us know. So he called tonight and asked if someone could come over to his house every day to be with his wife from 1 to 4.

October 12, 1978 —Sony Ogle might be coming out Monday. on GDF
Georgetown

—Bollers - saw him today and his wife. Went to see them and took a gift. Took cookies and plack. He asked about Jim. He asked how Jim was, and we said she still hasn't gotten her medical taken care of. He said there's no reason he shouldn't have gotten it, because it was cleared for him too, and Sharon said that's true, but we still don't have it in writing, and she told them what happened last time Mingo and Reid were out of the country.

They discussed it, and he said certainly no judges would do anything to harm Jim, and she said but before a couple of others took advantage when Reid and Mingo were gone. Bollers (He) said the person Registrar Barnewell should be called, and he said he would call Barnewell and tell him that Sharon would be talking to him. He discussed the situatio n he was dealing with that was very much like John's situation, but he said he might have to do the same thing and start all over just like on this one. But the people live in Guyana, but the mother use to live in US; He said it's difficult bec. no matter what he does no one will be happy, so he doesn't know what to do.

He doesn't understand why Jim is worried because he said there's perfectly no problem. They are waiting for Hughes to talk to TOS, to see if TOS wants to drop the whole matter. Hughes mentioned it was a possibility. He's not going to assign it to another judge until he finds out that TOS isn't going to pursue it. Tim said that Lane said when he talked to Barnewell and had a letter in his desk it was obviously a very strong decision not to mail the letter, and Barnewell had no intention of serving the arrest order.

Should she contact Registrar Barnewell like Bollers suggested. Sharon does wonder since so many people said there's no problem around Jim coming in. Sharon doesn't know if it's valid or not. Russia said to get it in writing, but she doesn't know how much they know.

Tim said Barnewell is definitely friendly, no question about that. But it's a touchy question whether or not we should get hold of him. He might find it an insult if we ask him to put anything in writing. Someone else who knows him should ask him.

I told her to ask Bollers + Luckhoo if the validity an arrest order is the subject of an action, can those orders be acted upon while the issue is still not resolved by the court. —Sarah

—Sony Ogle might be coming out on Monday on GDF // Tim would like to come out with him then if possible. / he was promoted to a permanent position in charge of the Cultural Center. He received our message favorable about bringing our band in just for him.

However, don't know where he is now. Haven't talked to him since referendum. It was kind of interesting. He told Tim that PT has been sending things to Caribbean Council of Churches all over Caribbean (from states) but that we had never sent anything to him. He was told to explain to the Caribbean Council of Churches more about PT, but couldn't bec. he didn't know. He definitely isn't as friendly to us now as was before the referendum, but not hostile. He was invited to come over and meet Mark Lane, but he didn't come. Father Morrison said he wasn't with the press, but somebody told us he was. Tim is going to see him tomorrow night. His influence is all over the Caribbean. We are going to a dinner tomorrow night for the Council of Churches.

They did not see the Russians yesterday because shethought she should wait a day or 2 to make sure he has answers, saw him last week Friday and it hasn't been a week over and they didn't set the appt. for Tue. It was just weekly. She would rather gowhen they have the answers. They want that musical tape. She thinks that she should wait a week unless dad wants her to make it earlier.-Given to OJ.

C. Tell Sharon that someone else is to sign Mary's name to the letter. Someoen e who isn't there very much.-there will also be an addition.

Medical Rept Oct 18

Given — Clarence - today they tried to walk him but he fell twice. He has no coordination much in his legs. When he fell, he was passing some urine unvoluntary. Doesn't look too good. We are giving him milkshakes every couple hours and hedoes keep those down, but has no appetites whatsoever. He is having terrible headaches.

Given — Ray has a very good andvery sweet attitude. Has been very helpful around the house and in other ways.

—Sharon called on Barnewell today. Spent an hour in his office, her and Jimmy. He was very warm and very friendly.

Given — —Ray Godshalk - using papaya on his ear. Seems to be healing up. Also using papaya on other parts, and looking better. But more breaking out on his chin. Has 3 more new lesions. It is CA of skin, but not medastatic, not spread any place except to the skin. If they did operation to take care of it, it would be too disfiguring so that is why he has to have radiation.

Given — Nedra Yates--She has arthritic changes in back, but no nerve involvement. No pinched nerve shows up on x-rays. Does have arthritic spurs. Dr. gave her some medicine for that. She saw Dr. Lee, a Korean Dr., very conscientious, who took Dr. Ali's place. He is the one that did Tommy's arm. We will see if Dr. Sarjoo will reconsider operating on her ear, bec. no one else will touch the case bec. they are not specialists. No way we could do surgry here in Jonestown so

Given — —Barbara Davis —She will be coming home on flight Friday. Her x-rays were fine. There's a GDF coming out Friday. 7 people can come back on it. X-Rays of GI tract were negative. Her vascular problem — she's had a lot of nylon grafts in her arteries but nothing we can do anything about.

Given — Steven George— He's coming home on flight Friday. He's much better. Breathing problem stopped when his mother went home. Now he's eating and doing fine. It's a possibility his mother is some of his problem. His genetial defect — no one will attempt to do anything about it. So there's no sense in staying there for that. Tim Knight wants the child very badly. He washes the diapers and goes to hosp. and feeds him and everything Baby in Public Hosp. now. Sharon thinks the baby will do ok if he has someone who loves him and takes a lot of interest in him.

Given — Al Bell - he's getting tests tomorrow from urologist, and he wants him to come home. He's been working on the cars and doing very well.

—Send in medicine on Fri for MaryAnn Joyce.

Given — Tommy Beikman —He's doing well. He's gotten some drainage from his incision on his arm and Joyce cleaned it and put dressings on it, but Tommy's going to see his doctor tomorrow to make sure there's no infection there. He's getting his stitches out next week. No fever. Drainage is bloody but doesn't look like pus. He's home now. He's doing real well. Has incision on his hip too so he's on crutches. But he takes short walks.

Given — Bobby S. - going to see his Dr. tomorrow and coming on flight Friday. But Ava needs to be told so he has to have some place close to stay, into center of town, bec. in wheelchair and crutches. We are renting his wheelchair for $5.00 a month. He's real anxious to get home. Has pain in his leg and he gets medication for it.

Yvonne Hayden — Dr. wanted her to have barium study done because of chronic stomach pain. She did have it done. Joyce did not go to the appt. She said that the Dr. wanted to go surgery right away bec. of her condition. She said he said she was obstructed and had piloric stenosis. Joyce looked at x-rays and passed to us what she saw, and Joyce told Larry that she didn't think anyone at her age could have piloric stenosis that could be relieved with an operation. Larry sent word to Joyce not to get operation, to treat with a tube here. Joyce took x-rays to lady doctor today, and this doctor was appalled at the thought of doing any surgery, said her bowel was absolutely normal. Said if anyone did surgery on her it could ruin her the rest of her life.

We want to write and thank him for that, so let me know to give to the states. Yes it is.

Mingo + others ✓Dick Gregory is coming down and he is a friend of Prime Minister Burnham, admires him as a good friend, and Dick is a supporter of us. M. Ali is also a friend. We have converted them 100%, and now they even are mentioning retiring here. All 3 of them. Dr. Goodlett, Freed and Lane are going to be using Guyana as a lecturing subject all across the nation. They are already doing it. Read to Mary W. We have can said this more than once

G/town Feedback

[redacted]

--By the way, LeFlora Townes doesn't know how to cook for large numbers of people Do we have any alternatives/ she's nice/ she's willing to help with other things like with the wash// Anita can cook for PR guests, but wanted us to note this.
Evidentally she wouldn't feel bad to have a cook come in and she could help out in other ways.

--Had dinner [redacted] with Richard Parr, about 8 of them. Ran into Doug Ellis US Embassy. He was there too. And as they walked by he said hello. He did something later which was a little unusual. He came over to our table and brought his wife when he was about to leave. She's darling, Chinese. Really friendly. Seemed kind of uneffected and a little bit nieve, seemed sincere and innocent. Sharon was telling her about Bobby [redacted] and mostly Daisey, and how she's a teacher, and teaches Chinese. Sharon mentioned a phrase, and she said [redacted] it was a little different than what she knows. There is a difference -Chinese talk one way and Daisey talks a little different// she seemed to want to chat, very very friendly. Reminded her a little of Daisey, like she wanted to be around you and talk. She thought it was great about Lew and Daisey being here. She sounded just fascinated. He was friendly and kind of laughed; Sharon introduced him to everybody. Sharon made joke about mental block in names, and he [redacted] laughed. He was relaxed. He seemed surprised to see us in that setting at Pegassas.
Jack was there, Christine Cobb, LeFlora Townes, Jean Brown, Joyce Parks, Sharon Amos Richard Parr, Ricard Janaro. 8 of them.

--Today they went over to get something from Embassy and they didn't have it [redacted] ready, Doug Ellis. Checks.

--When she and CL, and Jimmy saw Doug Ellis - she wants to add something to that: He was talking about Mazor. He said if Mazor is not out to get us, then we don't have anything to worry about. When Mazor first came and talked to him, Mazor was certainly an adversary of PT, and Jim, tho he said he had been invited by Jim to see him.
But he said when Mazor came back, he said that Mazor said that Jim was everything he said he was (Jim everything Jim said he was) / he said at first he (Mazor) was kind of surrounded and had people around, but he said it was mostly initial enthusiam to show him around, etc. and that when he mentioned that to Jim about people being around him too much, Jim even stopped that and he was (Mazor was) able to talk to whoever he wanted. And he said he was able to wander around where he wanted and talk to whomever he wanted [redacted] to alone.

--Today they saw a couple of people — Jimmy and Sharon. One of them is [redacted] from Africa[redacted]. [redacted] from Ethopedia. We have been meaning to see him. He's not a Communist.
He's similar to Moores, like a liberal. He works with the United Nations.
He's hasn't been to Ethopedia in a couple of years. When last saw Ethopedia, it was before the Oct. [redacted] Anniversary of the Russian Anniversary last year. U.K. Tries to stay away from fascist and Communists. Tries to deal more on a business level, or particular area. This person is somewhat Socialist with sort of qualification to it. This guy has been in United Nations for [redacted] long time.
People who seem to [redacted] work with UN seem to be involved with UN. The Two Sharon has met are like that (two who work with [redacted] UN). They talked alot about Jim
He had heard about Jim and was very interested, and had heard one negative thing he had read it in the press, in Newsweek. But they talked to him about Mark Lane and and showed him what Goodlett said - Sun Reporter article - // we told him we would get him a copy. He said he would be interested in reading anything like that.
He had thought of visiting here. This man studied in the UN. quite a while. Said he learned alot about ideas in the US, Socialism. He went to college in the states.
He kind of followed Billy Graham for awhile, kind of interested in him.

E-3-A-2(198)

He can relate to Socialism, but has all kinds of contradictions. He thinks he should be lowed key. He didn't criticize Billy Grahman. He feels there's freedom in US. He's sort of like a big mixture, many viewpoints in his head and not seeing them as contradictory.

He was very interested in Jim, and we tried to give him some background. She tri to give him a description of Jim not being like a Communist. He could relate to more like a liberal, so Sharon try to protray Jim more like a liberal, but not at all like a Communist, but more like a Yugoslavian. He said he lived in Yugoslavia for a while

He said Russia has punished it's people, such as dissends and he thinks it's better to educate people, not physically harm them. Sharon did mention that that is what Allende tried to do but it is a dilimia, and he didn't argue. She said Jim has always believed in education too, and he agrees it would be a delimmia like with Chile. Sharon asked him — what do you do? You wouldn't want the Chile regeime to hurt anyone, so if you don't take a firm stand, they might take over and hurt people, so what do you do.

Talked alot about Jim. Gave a description. (Jimmy thought it was a worthwhile visit, and so did Sharon. Sharon said Jimmy is the easiest person she's ever worked with. He sort of feels his way out before he speaks, and tries to be appropriate.) He is really sweet, and he and Sharon talk around alot and joke alot.)

She talked about some of the things that Jim has invented, etc. He was very interested and listened alot. He wanted more about Jim even before they talked so he would know what they were talking about. He said that when he's gone to different functions he said the subject of PT comes up alot, but he said that people feel that PT is very productive. Said some might have thought we were somewhat controversial at one time, but he doesn't hear that anymore. But he may have just been diplomatic, she doesn't know. He didn't know there was flights out here. He thought it was difficult to visit here. He was thinking of maybe even getting a charter, putting some of people from the UN in it and coming out. He made it clear that he did not want us to talk to the press about what he said. He said that's against UN rules to give any statements to the press about the UN. He is interested in visiting though.

—ERIC CLARK - asked him about IDF; he was pretty objective. Didn't say one way or another in terms of our problem. Most of Guyana people think that IDF only one around, and that no help would come from Russia or any Socialist countries. Russia said that's not true, said that a couple of times. So Sharon really wonders whether there's a reason why Guyana keeps saying that. Sharon asked about that oral agreement vs. written: said it should be in writing in re: to land purchase. Any agreement which comes into effect one year after writing the initial agreement must be in writing. Also any agreement which has to do with a person's liability must be in writing too. These three things must be in writing. Other agreements can be oral if you can prove the agreement was made. (if you loan someone money and you can show from your bank book that you took out that much money, and the other person's bank book shows that money of that amt. was entered on that date, then this doesn't have to be in writing.) Letter from Eric Clark in response to Gene's letter won't be ready until Monday.

—Jim, Karen misunderstood about Richard and Jean B. leaving. It wasn't Richard Janaro - he hasn't gone to Trinidad yet. It was Richard Parr.

They want to know if Lee can contact Lt. Thomas to see if we can usehis bond if something happens to the Kankoo 72 tons Given to Lee

Appt w/Doug Ellis, He let them look at a couple of letters and they all spelt his name wrong and all dated on the same day, they had the same format, praising PT and Jim and complaining about the press and the negative thigs were not true. If pt thought would be offensiv it only aggravated him. and people in S F dont have anything to do with him down there. If some one is pushing make it stop. It was not clear to them who were talking about, Sharah said she understood and never askexd Thomas since there was not any contact they did not know what they are talking about, He didnt think Jimshould have to do anything like writing those people and it wouldnt be appropeate. They wrote on apper about the rumor and he said he handt heard but he thought Gabriel might be more interested rather than the USA. They asked who in Guyana he might be referring he didnt allud to it. He was very aware of the problems Guyana is having especially in this area and the lack of medical care and in this area so he said maybe some Guyanese are juealous of us. Dharon and Crolyn though it was a techinque to turn things around. on Guyana and put himself on a offensive position. They felt they came out ahead in terms of the situation with the press conferance in terms of the dialogue they felt they got some good points in. They said too complicated to go into detail Carolyn feels he is totally differnt person than McCoy, and he over-reacted to the letters, she feels he cant be totally objective, he is more stragiht doen the line type of person rather than rolling with the punches. They did have a fee for signing of the affadivits Carolyn said quite a bit. He did metnion he had misplaced his calendar (I think this means bugging device)He also said if it was bugged and something got around that was siad in his office he would not be responsible. It wasnt directly mentioned but he did allude that then they could be sued. this was not directly mentioned, Carolyn will explain it better detail, there was no problem will be better explained when she gets here was difficult.

He like very much and was in favor in our medical care, the CIA or FBI wouldnt be interested but maybe the IRS. why?

Pass to the medical department that a heart difibulator machine came in and is in Customs

Tim said to tell Dr. Ali that someone told us who came from Jamica that the Communists everywhere were going to take the country over. Say this humorously, (but maybe it will effect him.) Passed to Mary & Sharon

I told Tim last night, but you can tell them again that Laura J. is coming in to help out, and LeFlora Townes is coming in to cook. Told M.C.

Ask Don Fitch if he knows where the key to the blue van is// G-town asked this yesterday. - There was only one key - now that was lost.

Jimmy said yesterday that he wants to talk to Maria about purchasing

Ask Annie Moore again if she wants them to send in the iron and eye drops on the plane on Monday, and send someone to the ridge to pick them up (they might have to stay overnight in ridge and come back Tues.) or does she want to wait and come on boat. I think she would rather they wait and come on the boat, so if so, we need to tell G-town to send them out on the boat instead of sending them on the plane. - ok to wait for the boat

Tell them to remind Dr. DeSilva again (next time they talk to him) to be sure not to forget to bring sunglasses and sunglass clipons and the kind that fits on cataract glasses. Told. M.C. Sun. a.m.

Tell Mary ARD that Tom Grubbs is sending in some forms for her he filled out// also he said he got her box of educational supplies in good order. Thanks. Told M.C Sun. A.M

Ask Jim: they want to know if it's ok to take out small portions of big orders that are gotten for here, so they can have some things for themselves. Like a shoe order is coming in and they said some in town need shoes. I thought it was ok as long as they keep track of it, and one person was in charge of it - the coordinator -- and nobody abused the privilege. yes as long as coordinator does it

—We need to tell the shop here that Sharon needs a table to work on, 25 to 27 inches tall

E-3-A-2 (208)

Jim: This traffic came in Oct. 6th and forgot to pass to you, as I didn't think I should bother you with it, but perhaps I should ask:

In G-town thru mail a letter came in for Ruby Carroll - or Ruby Carroll's mom. "Notice of hearing on final account" In the matter of the estate of Jessie Williams. Ruby is required to appear in court and show cause if any thereby why said acct. should not be approved. This is final settlement of a case for someone who has deceased. This is 29th of Aug, just received yesterday. Said court date should be 29th of Aug. at 10 AM. (Jann Gurvich said all this means is that this person has a will that will be accepted as is, unless it's contested on Aug. 29th)// should we tell Ruby? / Have Jim take care of it.

Has the tarp been gotten out of Customs yet? - No, Feedback sheet explains

Tim is to talk to Vincent Hines about gold (and Sharon?) passed to Jim

Is Tim's gun license still holding the same status, or has it progressed. Passed to Mary for Shirley to check

Terri - I don't think I ever gave Jim the feedback on Tim's gun license, that it was stuck in Ministry. They do not recommend the approval of this license, the Kaituma Police don't. Bec. Tim is already licensed for another. It's been there since July 6th and they haven't gotten the papers on it. Told Anne to pass it on to J.

G-town knows to forget about trying to arrange a charter for Wed don't they, since our people are coming in on the boat. Passed to Mary W.

How is Bobby S. doing? - Feedback Sheet

What happened with Al Bell's appt? Gladys Roberts? Feedback Sheet

Terri- Joan is going to help with G-town radio, as I will be doing mostly stateside while Harriet is gone. We can all work out hours together. Joan prefers to work nights, which is probably better for you, if you want to work in here during the day, if you want to work in her at all. We can talk about it again today.

— Mary Ann wants to know about when Tarik is going to have to reutunr we think it is another week Mary W. was concerned about his school he is doing fine.

Georgetown - October 7, 1978 Saturday
TRAFFIC PASSED TO GEORGETOWN

Make a reservation for Jean Brown to catch the flight out
We want her to try to fly out Fri. morning of ridge and take plane out of G-town Fri evening or whatever.

Jimmy should be told Dad trusts him, and is having a hard time to find someone he can depend on and trust as much as Jimmy to replace him, and he's been sick.

Ask Eric Clarke to send out an example of a simple will which has been subscribed. Ask him if holographic wills are permitted, and if so, what specific rules exist. Ask him if there is any required registration or filing for a will, if such must be notarized or signed in front of some particular official. As to content, ask if it is necessary to specifically name any close family that one might wish to disinherit (children or grandchildren)// ask if bonds are required for representatives and if they may be waived in a will. Ask if there are any applicable mortmaign laws, and if so, what are the applicable rules. Ask if there are special rules that apply to small estates, say of $1,000 or under. from Gene C.

Tell Anita that Leon Perry is putting his dentures back in now. he will contact her again if she has any problem.

Tim Carter told to come home this evening

Try to talk Russia into giving us the Anti-Mao movies. Don't press, but see if it can be done. Ask on Tuesday.

Tell Min. H. Green to help us out on some of the stuff. Newsman hands off, the policy We knowpeople try to divide and conquer, age old tactic. Just want to know why. Man who wants us to do cultural show -- give him a gift.)// See if he can get us to see Green // Tell Green we will check back and see if we can get permission to tell you about the man who told us about the news policy. We wouldn't tell anybody else what you told us.

Tell Mingo -- call tonite -- very important --tell all about Tim Carter getting stopped with money. Nothing he did was illegal. he was honest. They called the bank and bank said it was ok to do that since we were on ligitimate PT business.

Call Comm. of Lands and try to get us a copy of our land lease

Tell Hamilton Green that // tell about law suit against the govt. Could sue and win, but won't // we don't want to bring pressure on Guyana// although it could help Guyana as we could get 40 million easy out of the lawsuit// another organization got a large settlement out of court and we have a much stronger case than they did.

Explain Freedom of Information Act to Green, and how agencies refuse to reveal documents to show conspiracy and how people have to go to court and sue to get these documents. Say how 2 conspirators stepped forward and told how they had lied on us for the conspiracy and told us what had been doing to us by agencies. Say that they were fearful of losing their jobs bec. they worked for govt. agencies.. We said if they lost their jobs we would sue the agencies. Tell them all the positive news, how KGC is listened to by 80% of Bay Area, etc.

lid on things. Please do something because Jim says you are his only laison wi th reality.

Persons high up in news here told us that the U.S. State Dept. ~~xxxxxxx~~ wanted to get us kicked out of Guyana and approached the gov't to do that. While there were elements in Guyana who wanted to see this happen, an agreement was reahced on a hands off policy. So we feel like strangers in a far off country. No reason for it because we even got a favorable article in a right wing country. (Tell him Spain if he asks.) All tell him that Dick Gregory and Muhammad Ali are coming.

Tell Mingo, Reid, Hamilton Green, Burnham// we have all shaved off our beards and moustaches// praised by socialist countries all over, but one thought we were hippie, peace loving community but sort of reminded them of hippies. ~~xxx~~ Some of the men wore them because they wanted to save on razors, but nonetheless, all those who had them have now shaved them off. Feedback From Georgetown
October 7, 1978 Saturday

Jimmy will stay in town. He says he misses everybody and to take care

They need empty foot lockers in town None here

Tell Maria they need the external account passbook in GT

Send PR placks in

Tell Al that Xray developer and envelopes came in.

A heart difibulator machine came in to G-town, and is in Customs

They will have to call Antilles Insurance Co. and ask if Tommy would be covered in Surinam. They will do this.

Dr. Ali going to Jamica but said he would try to do the surgery before he left. Come in Monday, and he will do the operation Tuesday. He will also see Helen Monday morning.

Jim said tell Dr. Ali that someone told us who came from Jamica that the Communists everywhere were going to take the country over. Say this humorously.

Mingo will not be available today. His secretary cancelled our appt. Said call back Monday for another appt.
Jim said to congratulate Mingo. Drop something by his house. Don't say anything, but congratulate. Never been so pleased.

Mingo, Jackson and Teekah are all now our senior ministers. Jim said to congratulate them all, good leaders, represent best. (passed to G-town)

They need a cook in town. Tommy was helping grocery shop// Beverly was helping out with food and procuring but she will be having tests Monday morning. Dr. Sharma is her doctor. They need someone there to procure. Would like two people.

Helen S. wants to talk to CL and like T// has to do with Cleve and work he's doing Helen is concerned that there is nobody to do the wash that won't mess up the machine. They really don't have someone who can do a good job on the wash.

They did the diversion letter to Mingo. Mingo thought it was rude. It short circuited the instructions he gave to Sharon. Said there are some things you just have to face. She said there is nothing you can do. He said forget it. He said he couldn't talk to them Mon, he talked to them 3 or 4 times last week. She said she tried to go thru channels and got no answer. He said you have your opinion and I have mine. Sharon said it's just a shame in re: to Jim situations in that he's stuck, he said maybe you want him stuck. he seemed kind of nasty. She thinks he's irritated bec. he's the one who we talk to, and he doesn't have the answers. Said let Jim come. They will blind their eyes to it-- that's all they can do.

Jimmy doing a good job/ good natured

Sharon said they both, Mary and Mary Ann, work very late and have to be up at 6. They work their asses off all day long, Sharon Amos said. Sharon said most nights one or both stay up to 3 or 4 and have to be up at 6. Sharon said they don't have a moment tho MaryAnn is willing to learn. Can't take even a nap. Mary handling money and people ask her all day long. This is all Sharon's opinion.

E-3-A-2 (214)

Anita talked to someone today who Sharon thinks is friendly to Jagan. This is ~~somebody~~ Dr. Sharma. he spent about an hour asking Anita and Beverly questions. Some of them were about general situations in relation to US, and how US treats people, etc. he does not like Audrey. He said he was a Marxist-Leninist. In PNP. he works with Jagan. he said that he thought that Guyana was becoming Fascist. and he thought that Jim knew that before he came to Guyana. he thought PT was associated with CIA. Sharon suggestion is for him to talk to Jagan again. he's not a real warm person. Kind of cook, tho sometimes has concern. Is shrew. He's 30ish. Arrogant pretty much. // he said that people should get out of ministry profession, and he thought Jim was like that. When ~~that~~ they said Jim was a humanist, he seemed surprised. He should probably be told about the Soviets coming out. Ask Jim. Maybe we could mention it without mentioning the doctor coming out, so the Soviets being upset. Anita told him about Mark Lane and giving press coverage, and he said that he knew of Mark. Seems he has a little chip on his shoulder. He knew the Mirror had met with Mark Lane, and he talked about the PPP and his party. he asked why Jim didn't speak out against the referendum. She said she couldn't speak for Jim

He's very disturbed about IMF, and Anita agreed she was too. He knew she was avoiding the situation of referendum. We should tell him about how we don't have citizenship .

He mentioned how CIA had helped Burnham get elected. He feels that US is going to get a lot more involved in medicine. He said US is going to be helping on building and engineering. He resents all US interference. He wanted to know also how PT had such a lot of land, how we got it. /Anita said we worked it out with the govt. to get the land. Wanted to know what race Jim was, what race most of our people were, etc. he wasn't questioning that so much, just interested. They talked about Dennis Banks. He agreed with Mark Lane what the CIA has done to several people.

Anita was playing it safe to find out how to handle him.

Tim and Marilee said they met someone who said they had talked to the Embassy, US, and they told her something really negative about us. She also said she had been in contact with press and that's where she got her opinion. She's wealthy, E. Indian.

—They had a big talk with Tim and Marillee who are not ~~[illegible]~~ getting their quota. today—$100
yesterday - $100
Thurs. - $180.
They are doing better now bec. they have gotten some contacts.
Wed. - $50.00

—The lady they met said she heard TOS had a problem with John and couldn't get John back// Marilee said John wasn't here. Karen told Sharon to give them a briefing. Marilee offered to send someone to talk to her, and she said no, she had her information from the US Embassy. US press. She said they wouldn't lie. Marilee said Mark Lane had spoken, and woman said she hadn't heard it.

—Michele Wagner talked to her husband. She wants him to be here. She wants to be here but she wants him to be here too. She told him on the ph. that Guyana was much more developed than they thought. Guess he's thinking of coming. She has a big boy 19 months.

—Sharon called about the adoption matter, and the lady there said put it in writing that it's cannelled and why. Didn't talk to the same lady as before.

~~Tell Jim the problem of hitsy bobbers~~

—Sending in boat. Get aluminum and fish on. Get it out by Monday night

—Leola L. Clark - her son wrote her // Willits Carsery - 213-733-9983// gave a message to Rita to have her write him

RU*SSIANS* - He's going to ask about the 25. Didn't know any problems. He did not want to hear the description of the musical equipment. He said in regard to Georgetown money (getting it out) it wouldn't be possible unless in external account. He could make an appt. for next week, a friend of his who could help on gettingus medical equipment and agricultural equipment. We need specifics. A list, amount of each item or parts. It would have to go thru Customs and that would have to be worked out. He is going to contact Russia right away on entertainment. He wants us to take the whole program and write a short description of the dances like the soul steppers. He didn't think it would be a problem unless Russia made a replacement when Guyana turned Russia down recently.

Russian doctor - he cannot do the work at all. His visit very special ### for Jim. (against the law). He thinks he could be kicked out of the country.

--Russia would like to see the article in Yugoslavia press calling us hippies because he didn't want USSR to pick it up, bec. Yugos and USSR sometimes cooperate.

LOCRELIA FINLEY AND DOLLY SCOTT (to get the 7 medical crates out)

Also need statements from Renie Kice signed Corrine Kice to pick up her good
Also need statements from Parr and Stanfield for Tim Jones or Eugene Smith to pick up their things.

A medical machine came in// Eugene is not sure what he will find out by mid-afternoon

Eugene Smith needs to talk to Lee about shoe repair supplies

On the broilers, Jack was depending on making a roof with the aluminum coming in so they could have space. Since they did not get the aluminum, they guess the chicks will have to stay where they are? Probably with other chickens. Jack was in here talking with Johnnie and Lee when they found out about the aluminum. I heard this (Sandi) so I suggested it to the administrators. Sandy said she thinks it is personally hard to administrate business when you've had no background.

The matter with Luckhoo was to set a date. No date was fixed. Even though that was what the letter was about. He said he would check on it and call us back.

No appts. today. Calling Green and Clarke. Harriet gave her 4 letters to go out.

Eric Clarke doesn't think Tim will have problems in terms of returning. But Tim should see him as soon as he returns and Clarke will write a letter to Min. Hope and hope can grant that the rule dispensed with since Tim didn't know. Then Clarke will ask if Tim could get the money back. Sharon's view is that in view of this we should not write about this to Mingo and the others until we go through this procedure. See what happens before we bother them with this. (JIM AGREES)

Mazor's transcript - who should it go to: ?? Skip Roberts, Mingo, Reid, Green, anybody in press, Bollers. She's going to retype it. It is dealing with when Mazor came here, the white nights, what he saw, what he was told and saw 2 different things, etc.

Send Jim in w/ it on plane

Transcript of Luckhoo's to give Skip Roberts. Why does he want this. Tells about Luckhoo's viewpoints - political one. It's follow up and Sharon doesn't understand it. (Neither does Karen. I, Karen, think this is a mistake.)

What Dr. should Tommy see in Surinam. Told to get a Surinam phone book

Permanent Sec. of Home Affairs Mr. Baird called and wanted the number of our people here in Jonestown: We gave them the number of 997 total.

They received a letter today from the adoption board. It was addressed to Terri and Lew asking them to come in Oct. 12 at 10 AM, Min. of Labor, in connection with an application to adopt a child, John. They said to bring in his birth and their marriage certificate. What should they do.

Answer from JIM: he said they should try to adopt another child such as Gabriella. Harriet said she doesn't think they can do this. They made the application for her so they would have to go thru a whole new application procedure.

GDF went out at 9:40 AM to look for the Cudjoe.

Sharon just talked to Dr. Ali/ he's going to Jamica // we were thinking of sending Tommy to Surinam, but Sharon asked him if he could follow up on it in Jamica. He said he could if we gave him a week or two to get settled. He said that we could write him there and he gave us the address. He thought that surgery there at the University Hosp. would be free or at minor cost. We should check further to be sure but if so maybe he could finish up the cases he was working on: Bobby, Tommy, Helen, Kim Eye. BE SURE TO SEND IN TOMMY"S PASSPORT ON CUDJOE / Univ. They did the Mitzy letters and Jimmy Jones took them over to Reid, Green and Mingo. Very stupid bec. of Mitzy

Sharon delivered Letter to Russia

Russia feels we should not talk to them unless it's emergency more than once a week. Sharon feels this strongly, if he thinks we don't pay attention to what he says. We have dropped off notes 2 days in row, and saw him besides, so doesn't think we should do it.

~~[illegible]~~

--They called Yugoslavia and invited her to come out. Jimmy did this on his own. They have had several appts. with them. Said yes, they would come. We've invited them several times and always say they will come. They didn't tell them about Russia's visit. Should she? Should she seem them.

Sharon talked to someone from East Germany today. They are having some visitors from E. Germany so Sharon called and invited them, but they said they were too busy. East Germany said maybe they could come sometime tho, to visit here.

talked about them; Press write up. - Ambassador from E. Germany here in G-town.

She talked to US Embassy today: she didn't ask him when he was going to visit. He was very friendly though. He said whatever she wanted to call him she could. They joked about it. She got all the answers to him about the questions he was asking. (related to Vivian)

Government in a small measure, to feed, clothe, and house its people, and at the same time to further the human service goals that have characterized Peoples Temple for many years. The government allotted 3,824 acres in the North West District near Port Kaituma to the project. In October of 1974 the first ground was cleared -- a 30 acre plot that fell by hand and by machine, near the spot where 11 were housed in a bark cottage.

Three hundred acres are now cleared; 282 acres are under cultivation and housing for 500-700 people has been constructed, the last of the housing being constructed with our own pre-fabricated siding. The homemade sawmill operates 24 hours a day. Other inventions include a cassava processer, a planter, and a hammermill temporarily in operation until the government mill in Port Kaituma starts into operation. We've acquired 9 vehicles, including 2 caterpillar tractors, a dump truck, a crane, 3 large farm tractors, a small garden tractor and a pick-up truck.

The agricultural experimenters are learning by trial and error how to produce nutritious crops that, in some cases, have never been tried on jungle soil, and the settlers are learning the art of cooperative living in a wholesome, satisfying and challenging environment. Realistically, we can now expect that the farm will become self-sufficient within three to five years. In the meantime, Peoples Temple members in the U.S.A. are contributing to keep the settlement going through these initial years. We are cooperating fully with the government's plan to buy local products, and we have begun producing our own clothing in accordance with this plan.

The agricultural results are especially heartening to those who have put their "labor of love" into the project during these first few years. Other programs now under way are equally exciting. An educational program provides a balanced curriculum for over 135 children, ages 3 to 18 years of age. Some youngsters who were said to have learning disabilities in the U.S.A. are quick and willing learners in this cooperative environment. Many of the most extensive projects are supervised by young people whose talents never had the opportunity to develop before. Seniors who were wanting for something to do are now engaged in satisfying programs that enhance their sense of accomplishment in their later years. The cooperative kitchen, which serves three meals a day, produces nutritious and delicious recipes using homegrown foods. It also provides two snacks a day for nearly 300 people.

Guyana's healthy climate, the wholesome atmosphere created by the PNC government, and the constructive life style offered by this pioneering project have impressed us deeply with the role Guyana has to play in the future of the Caribbean and the rest of the developing third world. We are deeply pleased to be able to participate. The expectations of Bishop Jones and this government are stimulating a project to be a success of many dimensions.

October 4, 1978 GEORGETOWN

—Our scheduled appt. with the Russians is 10 AM Thursday

—Radio broadcast tomorrow// Sharon needs notes from Prokes about this

—Sharon is going to give Russians a copy of the Act of Parliament and a copy of the lease

—G-town said they got a telegraph from Jann Gurvich's mom which said, "Hugh died 1 PM Sunday, October 1st." Tell Jann and tell her to write a letter to condolence, and photocopy in G-town/ tell Jann not to seal it

—Boat pulled out at 6:30 today

—All the medicnes were gotten except the ones that they need a signed order for.

—Sharon sent telegram for Donna Stanfield, but the information she has to be radioed to the states, she wants us to do, as we have better copy with them. Ask Maria or CL what the information is.

—Mary — 14750211
Joan — 926362

—Report from Eugene: Tarp will be out next day or tomorrow
X-Ray equipment not out yet.
Big order in Customs, won't be out for at least 2 weeks/ big bunch of stuff/ Gene doing paper work on it now.

—injectible valium-- not available / Anita will keep asking but at this present time, they do not have it

—Bosmdon -- 20 ampules coming on boat.

—Gravol— got gravol suppositories/ got 12 boxes of 10 in each box// they could get more of this if we want it / do we want more // might use cotton with it to keep it in

—Morphine, Kaolin with morphine need seperate orders, signed by Dr. Schacht, and all the other orders

Tommy Katulas is now in hospital// Dr. Ali, who recently did his surgery, is gone. His secretary said he's no longer seeing patients, he's only tieing up loose ends. He's leaving the country. His patients are being transferred to other doctors.
Anita went to Admin. Office to see who would be doing Tom's surgery, and at first they acted like they didn't want to tell her // Dr. Lee was the name she was given.
Another Dr. who saw Tommy today - Dr. Jamora //
Does our medical dept. here have any suggestions on who we could use...

Admin. Office secfetary told Anita that Tommy was not being released until the surgery was done. They have patients sign their names for consent for surgery before it even states what kind of surgery they are getting.

—Charlie said guy coming in works behind counter at Massey Ferguson/ treats Charlie well, so Charlie doesn't have to wait in line/ he's East Indian.

Copied to Medical Dept.

Lynn George's baby/ saw Dr. Chin today/ goes back next Wed./ going to do tests then Thinks the baby is definitely a boy.

Judge Bollers is there. He wants Geary's address. 1256 Market St., SF 94102.

Tim called and is fine.

Marilee and Tim got $50. yesterday, and $100. today.

Get back to H. Green on Don Fields and Larry cases. We don't want Don to have to go in in October. Mention how Dr. Walter Thain, an eminent cytologist, said Larry was one of 5,000 that could recognize a CA cell without special training. He never saw a Dr. so bright. Also mention Carlton Goodlett's praises of Larry and mention Don knows the Guyanese terminology for all drugs and is desperately needed here, etc. Try to get them out of this.

Ask if 25 can go to Russian. They would like to bring their own guitars, small things, bass, and only big thing is Congo drums and the special portable piano, that folds up and you carry it like a suitcase.

—Went to PNC tonite.

Bollers- friendly and chatting/ asked about Jim and Marcie, how were they// he said that 2 persons told him that Jim was going to be coming to town to seek medical help (two people who had visited here.) Asked how farm doing, etc. talked a little about agricultural.

Tim made a little mistake - had to do with money. Lucy told him to have $200. and apparently / US dollars// said money would have to rest// he didn't have time to find a bank./ Customs took his money / Tim went on but they said he would have to deal with it

Send Tommy Katulas to Surinam to get operation. Go by himself. He can have phone contact with us. // we need to send in his passport

He was only using it for expenses to get in and get back. No one repeat that again. Make sure they go thru the normal procedures. Talk to Green too. we take medical people in. Talk to Mingo and Eric Clark. We had to get a boat part. They would not send it, they said they had mailed it but it never came. We waited. He's the only person who has ever carried any money. He just went out to get a part. And he didn't have time to get to a bank, and we need that part, so our boat could help the Lamon. It's overloaded. We take medical patients in nearly every week, bec. we can't do surgeries and certain types of orthodonic work out here.

—Ask Richard where the land lease is.

—Who do they give the transcript of Mazor to? Skip Roberts, Russians, Mingo.

Tell Hamilton Greene about the hands off policy of the press. Say we are never able to see his wife.

— Want to know who authorized Vernon Anderson death

The guy at the funeral home in the states called us and told us about cremated. Tim asked how didhe know he was the husband and the guy said he had no proof so Tim told him that he would have to work it out through the embassy and that we were staying out of it. The husband also wante six copies of the death cerificate. Tim told the people at the embassy a nd they said ok-- no problem. Tim told them bothe that we only knew about the sister-- the husband was a surprise opus. The guy at the embassy said he needs the name of the 2 sisters foe his report. Tim has appointment with them tomorrow at 10 to set up some standard guidelines for such situations in the future. Tim asked the funeral guy how the family had been notified and he said a woman by the name of Vee had called and told them. Embassy needs death cerificate ASAP.

Terry, Debbie, Joan, Ch ck scehduled to com back this week. Tim ne ds to stay anpther week because of customs.

Tim says if Mingo relays Reid's words in as distorted a fashion as he delivers our messages, then there's really no telling what Reid said. Tim doesn't think Mingo does it deliberately-- he just thinks Mingo is slow.

Tim met a Chronicle reporter last night who told Tim that he had written a favorable article about us and one of the editors Smith killed it without even reading it, saying there was no reader interest. According, to the reporter, Smith has done this before. The reporter said he thought the decision came from above which is quite possible since Harry Harewood of Radio Demarrara also had his story on us killed. Shirley Field Ridly was out of the country and the guy who took her place was called by Mingo and the guy said he didn't know anything about this. So as of now we don't know where this is coming from. The reporter who gave Tim the info. is Hugh Vandeyear.

--send briefcases in to town.

Last night theywent to a party : given by TUC. Met a lot of people. In particular Russianinvolved in trade unions. Had met him once before. He approached us and was very very friendly-- talked for about two hours. Very very well informed. Had heard very much about us from Soviets.(from Timofeyev) he lives in Russia. The Chronicle issue that had Marks story in it, also carried a story about him. Extremenly well informed. Named some peple that we know in common like Archie Brown, Mike Davidow, knows , Hongisto-- who he met in the Soviet Union. He called Hongisto a liberal, said he would never become a socialist, alhopgh Hongisto admitted that hebhad studied Marxism and even had some books in his house on it. He said Hongisto admitted that Marxism was the best thing, but he wasnt willing to sacrifice etc. Yugoslavia-- and Soviets have said some things about us in their national press, also Polish press--he has actually seen the stuff--that we were pretty well known by those folks-- Yugoslavia said we were kind of like hippies--lived together communally, shred things, tried to be equal-- socialist etc. This guy saidYugolsavia tries to be "objective" e said Russia understood why USA saying shit about us in the press sounded like some of those things had been repeated in Soviet press, but put in the context of political persecution. Sounded like Yugoslavia

E-3-A-2 (229)

had not put things in context as much. (((they are having luch with the guy tomoorow) Pt well known,fconsidered controversial, and therefore some questi but for the most part Soviets understood(he said that 3 or 4 times) Ti will find out which papers and so gan give some stuff to them. Tim gave some background to the guy about the conspiracy-- told him about Mark Lane etc. This guy was genuinely friendly--he approached us.Hes a Communist-- ve y strong Marxist-Leninist. Timmade it quite clear that we were too, and he said he knew that already. He's going to be visiting with some people inSf in November-- Tim said we had some freinds there and invited him to come to church and he said he wanted to very much. and speak if we wanted to. Hes not very impressed with Guyana. He said Guyana very materialistic, and not concerned really about socialism. He thought Guana goi g down hill. Definatley not interested in religion at all-- cannot relate , atheist. He appreciated how Jim used religion to bring peole out of it. Very curious about it. He was telling us how somebosy he knew was quoting the Bible in regard to Usa and Russia reltions and he called it bullshit. When they started talking about Pt he said he'd like to give up what he is doing and join. Tim will send in details. He talked a lot about USSR He also said that AP and Newsweek go to Yugoslvavia

Talked with Hamilton Green : extremeley frendly. He said he will be busy till end of October and the one time we were talking to som someone else he came up and said What are you doing with good people like this to the person we were talking to. He came up to Debbie and Terry, they were talking to somebody else. He was rather drunk, and flirted with Debbie and Terri.

Edward James-- a good friend of the TUC, a socialist. Been freindly to us. Hewas the one who invited us to the North Korean thing. Very Friendly. He said Guyana was going to be a big conference in Italy about fascism-- politcal prisoners. Guyana wanted to invite one of us to go to that. In a couple of months. He also said that Jagan was critizing him publi cly because of his f iendship with North Korea-- he criticzes anybidy who had anything t do with North Korea esp that one affair that we were invited to. Be ause Jagan says N. K is fr ends ith China which is not accurate.

Joe Pollydore: we introduced ourselves to hij and he was extremely friendly. At the end of the evening when tim was walking to the Soviet he said "My its good to see you and theRussians standing together"

Ken Denny - very positive.

E-3-A-2 (230)

Karen: Back on at at 6:50. Tell them to be careful when carrying it. Hide it.

Thomas thinks what happened in Mingo's office is indicative of the kind of help we can expect. At one time Mingo said Reid didn't know that much about the case. Now he ssays he does which seems to make little difference for us as far as anything being done.

Mingo said Jim would have to be examined here first before he could go to another country to get a medical exam.

They saw Price at the reception at Burnham's house last night, he said that they are still looking for the children, very nice everything went OK

Last night at Burnhams house Jimmy and Kay talked to Burnham and invited him out he said he would come out in a month, very friendly, they also saw Norman McLean, and Gregory Gaskin, He gave them a ride home.

Cudjoe will be leaving tomoorow morning to get fuel and will be returning Monday. It will fuel at She 1 at 7am to get 8-10,00 gal of fuel.

Make reservations for Russians out on Monday- Ujara went to PK to do it.

Since Bruce is there to do the truck should Chuck come back home he has been there for a while, but Bruce has to wait until Phillip goes in becuase he is on the Albatross until Phillip returns. Joan has been there a while is she coming home? Also Debbie has been there 5 weeks.

Ask Dad should there be clinic tomorrow morning? since Larry, Diane, and Joyce will be with the Dr. It could be cancled. If there will be clinic Would it be alright to have Diane, Larry, and Joyce participate. Yes have clinic they can take turns. I'll tell Phyllis

Tell 8R1 that Elaine George and her baby are coming in on Cudjoe they have to make an appt. for the baby to see Dr. Chin to check the baby's genitals. Contact again at 2PM Also Chin has seen the baby for it's respritory problem and knows the baby will be coming for genitals. They will be staying at our house.

Always: He talked to Reid re: John. Reid said a verbal o.k. would be given. He said it didn't mean anything. Mingo said a verbal assurance was all that was necessary and since Reid gave his word, it would be good. Told him about two people affiliated with World Peace Council who wanted to come and stay with us and Mingo cautioned against it, saying you never know about some people. Told him we had assisted others like that in the past. He said it's one thing to assist, and another thing to take people in. He said you've had enough experiences with people like Meredith that you should learn from them.

They asked Mingo what was taking so long for Jim's case to be resolved and couldn't he do anything about it. He said "No" it wasn't in his dept. He said something about Jim playing hide-and-seek if he came to town. In other words he should exercise caution. Our folks (Debbie, Terri, Tim and Jimmy) got upset at that point. They asked him who could do something and he said it was Bollers dept. He said Bollers has been on top of the case all along even though we said he had just been brought into it. He said a little pressure from Bollers would have gotten a decision. He said, "What's Bollers doing for you now?" Situation seems at a standstill. Seems obvious Mingo isn't going to do anything for us.

Told them how Stoen was always in CIA and John was planned as a way of disrupting our org, Mingo said Reid was very much aware of the case, moreso than he (Mingo) expected. This disturbed our people, because if Reid is so much aware, you think he would give more than verbal assurances if he really supported us and knew the gravity of the situation

Tim talked to Harry Harewood and he said that he did talk about the issue of Mark, he did a piece on it-- He did a thing for AP also (he and Carl Blackmon both work for AP) BUT even so, he admitted that he had been staying away from PT-- that its been a policy to stay away from PT-- he was advised not to play it up (quote) He said that he didnt think it was an anti-PT thing just a play down policy. He said I exactly know how to put this its sort of a "hands off policy" He said tha he knew that AP jad picked it up then he said that he had seen things that Hamaludin had done, and he was a little concerned because Hamaludin didnt talk about th lawsuit at all and thats what Mark talked about most of all. They talked about the conspiracy but didnt talk about our lawsuit--he and Hamaludin had led off their copy by talking about the lawsuit but it was cut out. Tim said he wouldn t quote him and didnt ask for names. So we have it from 2 different sources that news about us is being censored. HareWood was very freindly .
