17 Jan - T

I got more sleep than I thought I had, as I was not awakened by the serving of bkfst - it was about 5 00 Eastern time when we landed at John F. Kennedy Airport.

We th the airport bus to the Pan Am terminal. The temp remained about 24° all day, it was slippery underfoot & a light snow was falling.

At the Pan Am terminal we put our luggage in one place - we find we wd have to pay $1.25 to check one suitcase w/ corresponding rates for other items & decided not to check anything - at least one pers stayed w/ the luggage.

Only a snack bar was open for bkfst - the charges were excessive & the food unappetizing - I had Sanka, ham & an Eng muffin which cost about $2.50

The others spent some time sleeping - Harold had [illegible] he was going to study tax law but I don't think he made much prog - I rd the nsps I had brot along - tried to make some notes for my jnl but cdn't concentrate -

tates in the day I started to read Psychic Discoveries behind the Iron Curtain by - I had been riding this sev yrs ago on a Te trip to Chic but I lost it at a mtng & had not had a copy since, until I find one at the Te recently

Mid - morning I walked over to the other terminals. It was cold & slippery & the paths for foot traffic were inadequate - my purp was to see whether other terminals had better fails for eating - I find they were all much alike, exc that Eastern had an obviously expensive rest., which was not open, however - the airport was almost deserted & most planes did not take off until aft - I had a brief convers w/a couple from Ind who were going to Morocco for a vacation

I had 2 cups of Sanka during the day & lunch of roast chicken & green beans w/a glass of beer - we had been given $10 for food & I had about a dollar left.

We had moved our luggage twice, first, to be in a better lounge & second, to be nearer to our gate - Roosevelt Turner & the two Simon girls did not

carry their share - the girls sulked all day & late in the aft Jewel expressed her opin to them about their uncooperativeness

Harold was worried about the amt of luggage we had ↓ - on the second plane we were limited to one piece - an hr 11 ↓ (as Barb. & Marcie had brot num. items)

bef flight time he checked w/ the airline officials - they th the extra pieces in the luggage compartm but made an additional chge - Harold & Jewel were busy on the arrangements until almost the last minute & I was afraid they weren't going to be able to board

The second flight left at 3 00 - the plane was crowded - we had to queue up to take off & were at least a half hr late

My seating companion was a business-man going to Trinidad - I replied to his questions about my destination by saying I was going to Guyana on a teaching mission for my church, P.T. Dis of Chr - he did not seem to recogn

I had beef stroganoff on my dinner

I rd Psychic Research - I cd not get to sleep when I tried

My seating compan left the plane at Trinidad about 8 or oclock when we landed

We landed at Georgetown about midnight - our grp went through the formalities w/ no diffic, but clearing our lge no of footlockers was time-consuming - I fnd that one for Norman James had been checked on my ticket, & I did not have the key - two others contained small tools & fixtures & off supplies

Sev people from our Georgetown installation met us - two vans were loaded with our effects by a friendly airport crew & we

were transported to the Te house in Georgetown - it was over an his ride

A staff of twenty or so are based in Georgetown - among them are the Carter yng people: Tim, Terry & Mike; Helen Swinney who does the cooking; Pauline Smith; Sharon Amos, who is coordinator; Richard Janaro; Shawndra Oliver (formerly James)

We had mattresses on the floor - I cd not get to sleep for a long time - Camille wd not settle down at first & Marcie was reluctant to discipline her - I finally shouted at her & she went to sleep - then mosquitoes buzzed around & dogs barked

I lay down on the couch but didn't sleep.

For dinner we had fish.

We had a meeting after dinner - new-comers told of their last stay in states which made them glad to be here - we discussed the tasks which shd be done - Saundra will take stool tests in to the Health Off - Sharon will work w/ sick people & she & others will be on the radio - other jobs which were assigned were: cleaning the garage, cleaning & watering the yd, sweeping & buffing the floors, cooking & washing dishes, watching the children, putting provisions on the boat.

A film had been obtained which we saw, "On Day You Can See Forever" w/ Barbra Streisand & Yves Montand - we had coffee, Pepsi & fried sweet cassava which is like potato chips.

19 Jan – Th

At 10 00 we were taken to the Immigration Off by Shawndra – we were briefed how to respond to questions – we went through in short order after a long wait in line – we had no diffic.

On the way home our driver's remarks showed him to be pro-Brit. & an admirer of the U.S. – he was opposed to the pol. of Guy – Terry argued w/him

We were told to get ready to be on the Coat Tom for Jonestown about 4 30 – many provisions have to go & there will not be room for our footlockers – I opened mine & th out items most needed

The men th provisions to the boat & loaded them – they later loaded the footlockers too in spite of the earlier decision – then we were informed that the boat wd not be until S

Ind Psychic Discoveries

We rcvd much enjoym from watching the children, Camille & Monique – the latter is the grandchild of a woman now in Jonestown – the mother of the child abused her – the Te is now taking care of her – she is about 2 yrs old, intel & active – much time is spent on toilet training

Washed my hair
I peeled endives & sweet cassava w/ Pauline Simon - she arrvd in Dec, is staying in Georgetown for med tests - she has a blood cond.
Sharon & others explnd to us that govt officials have an easy-going attit - a phrase which everyone uses, a cause of much laughter, is "just now" which means the next day, next wk, or next mo, anything but "now"
New arrivals were taken to see the Botanical Gardens & the Zoo in the early aft. - Jewel & Roosevelt didn't go - the 2 babies were taken & gave us trble because they got tired & were thirsty - water was easily available tho we were finally [illegible] some - we saw some distinctive [illegible] [illegible] colored birds & some [illegible] monkeys - the zoo also has a [illegible] an elephant & sev other animals - we were shown where the manatee is in the pond but it did not surface

Had a disastrous day

At lkpt endured a 1½ hr wait for my medication

As a result of my oral rpt to Marcy about what Helen Love had told me concerning a woman in her dorm who gave handouts of ripe papaya, I find that Marcy had conducted an investig. - both Helen & the accused woman, who may wh at the veg shed, were angry w/me - apparently the papaya was given to only one other pers., Juleika & who also spoke to me - the latter however was not upset, sd she was constipated & needed it - Bro. Bridgewater, when I went to get my usual plantain, asked me if I had a right to it, revealing that Marcy may have gone into the role of the veg. shed in the matter - I decided that unless the incident was brot on the floor ton as an instance of sp priv, I wd write a rpt to Marcy confessing my own procurem. of plantains

I obtained an almanac from the sch off & contd wh on notes on African ctys

Ate lunch

At my adult class I had increased attendance, I think partly because we so seldom have adult eve. classes & partly because Barbara has discontinued her adult classes, or some of them, & a few of her students

Wh'd some more w/ the almanac until class time

At the beginning of my first class I began a broadcast - I had had some significant comments on our agric. produc. which is lower than that of Guy. farmers raising the same crops although we have advantages such as fertilizer & machinery - most of the blame I put on our pulling out agric supervisors bcs they have had time to get effer & wanted this to end - he then made some remarks on details concerning our power sit - I insisted the class [illegible] most of my mem - on music [illegible] a few comments of his own [illegible] remain quiet during the broadcast - they put their heads down [illegible]

The weather was cool w/a nice breeze - there was no rain

Went for an hr & a half walk w/one of the Simon twins - we went in an out-of-town direction - came to sev dead-ends, crossed small canals, then came to a big canal - we sat on the bank for some time - the Simon twins are not related to Pauline Simon's family - they are grand-daughters of Bro. & Hutchinson, the frail-lking man J brot back to life sev yrs ago - he wants to go to Guyana but the grandmother doesnt

The house was cleaned up in prospect of a visit of a brigadier invited by Sharon Amos

Much food was brot in today; liver, fruit & vegs - for dinner we had liver fried, a veg mixture w/okra, squash, onions tomatoes & oranges w/coconut

Procurement jobs continued - Richard Janaro told me they were making pr... in getting meat - the boat might be able to lv in a couple of days

A contretemps this place over shrimp cleaning - Jewel Wilson disapproved of the way Davis & I had done it yesterday & said we had to do it over - she also objected to several other things we were doing every minute & it was the object of her scrutiny - since other people were occupied w/ cleaning a new batch & Jewel objected to various elements of the op - the Simon twins joined in vehemently & complained, as I later learned, because Bobby Strand was not required to help

The result was a meeting called by Sharon Amos - she explained that all the permanent residents had assigned jobs - Bobby Strand & Joan Pursley walk all over town raising money for the cause, as much as $300 a day - Terry Carter is on the radio most of the time - Tim Swiney works on customs w/ the Foreign Minister trying to get our crates out of customs - Evelyn drives a car - Richard Jenero is taking on procurement - all are effective & hard working - the Simon twins & anyone else who complained was rebuked while Jewel was praised for jumping in & working so vigorously in the kitchen - it did not seem to be the time to say that I won't object to working if every move I made was

I cleaned more shrimps, tho w/some help, but Jewel did not miss a chance to point out the slightest error I made

I started to rd Cities without Crisis by Mike Davidow, an account of present-day Soviet Russia - I had find it in Bobby Stroud's rm

In the evening, aft dinner 3 guests, prob Guy. officials, actually did come - they conversed w/ the workers who described the agric. mission to them - then Richard Janow showed a film, "The Outfit," which he had obtained - it was a gangster film which I ad not follow because the sound was bad - Davis made fudge for every-body - we all had a Pepsi-Cola

Evelyn went to the airport to meet Norman Jaimes who was coming in

I made my bed inside until the guests left, then moved outside

26 Jan - Th

We were told to have our bags packed, to be taken to the boat, at 9 oclock - the van went back & forth loading the boat all morning

Three hundred half-grown pigs were loaded

I was chg'd for some time w/watching the 2 little girls & making them clean up their plates at lunch - I was not very good at it

We had a late lunch

We were taken to the boat at 3 - the journey started at 4 - besides our own party who came from the States (Roosevelt has been wking on the boat) the others going to Jonestown were Sharon Amos, Norman Hyames, Debbie Touchette, Tim Swinney, Pauline Simon, Lenore P — N, Rich and Janaro

Ujara Sly was at the controls of the boat, Tim Swinney & Davis Solomon helping him - we steered out to the ocean & went along the coast

I went to bed about 8 - my blanket was in the hold so I used a pr. of overalls of Roosevelt for cover & the rest

The motion in the top bunk was extreme & I began to feel sick - I went out on deck & stayed for a while & fell at night the rest of the night - slept well

Got up at 5^or to go to the bathrm, again at 7^or - slept until 8^or

Got up just bef we came to the mouth of the river - Rich. & Tim were up - Ujara explnd the route we wd take

At 9^30 we stopped at Moro Hanne^s Village to register w/police - we were on the Moro River

For bkpt we had coffee, pancakes & syrup

The day was cloudy w/c little rain & we lkd at the jungle growth along the river, occas. saw Amerind huts & people

About 2^or those who wished helped thmslves to a cheese sandwich

We arrvd at Port Kaitoume^s at 3^or having made excel time - we were so early that Te people were not there to meet us - Davis started to walk but met the tractor on the way - the tractor pulled a trailer to carry us & all that came off the boat

Personnel were unloaded from the boat first - some of the luggage [illegible] w/us - then it was decided to send the rest of it later & we were taken to Jonestown - it is 7 mi. to the central pt of the mission

Went to dinner which is served from about 5^30 to 7^00 o'clock

A People's Rally was at 8^00 in the main pavilion - J on the loudspkr gave us some remarks - Shirley Hicks was in chge of some entertainm items - the kindergarten did a socialist version of The Three Little Pigs - John Stoen was a member of the grp - he is now called John Jones & hovered near J on the platform

J spoke of the sit in the U.S. where NAACP is compromising w/ the establishm & spking of big govt, big labor, big indus & a big minority - Huey Newton is hopeless - J also spoke of recent actions of the conspiracy agst us - they made an attempt to have Debbie Touchette & Mike Clark extradited for a crime they didn't commit - the Guy Govt refused to do so - Tim Stoen is now in Georgetown - J had sent Sharon Amos to demand of the Govt that they get him off our neck - they complied & shipped him out - Stoen had sd he wd have John to ret to his mother by Jan 1 - it is now almost the first of Feb & he doesn't have him

I rd aloud a Herb Caen article devoted to P.T. - tho superficially harmful he wrote it to do us good - Caen accepted that I was the father of John, that Tim Stoen had asked in the most flamboyant terms for I to give Grace a child, ostensibly his, & that Tim was a transvestite despised by Grace - Caen also 3 times slipped in a remark to the effect that I had been cleared of all chges of investig of the authors - Caen implied that Stoen was sterile, whereas (he sd) I had fathered a child since the birth of John

Patty Cartmill gave a hilarious acct of the actions of Pheavinia, Tommy Johnston & hers going up the river to sell contrib'd items & procure citrus fruit for us - these 3 are regularly engaged in this

I spoke poignantly of having to send Sharon Amos to Hank & Norman Tjames back to the States where they did not want to be, because he cd count on them to carry out his orders - he referred to those who cdn't be depended on & even got in table or were lazy here

The mtng was over about midnight I ret'd to the cottage & went to bed

I pd a visit to Bates - she lives in an area nr the nurses' off where many of the snrs who have hitch probs are - Bates told me she had had some illnesses - she is in chge of crews who keep watch over the generators & over the banana shed - the bananas which hang in plain view are a temptation - she told me Gene Chaiken had given a gr deal of trble, apparently while still in the States, & had tried to take his child, out - I spose at this time he was assigned to the plant nursery

Coincidentally, I saw Gene on the way home - he was putting earth arnd plants - he was not very cordial to me - didn't remember giving me any msg on the radio - I inquired who was doing leg wh for the Te here now that he was in the nursery - he sd that Harriet Tropp did what law wh was nec. & that the Te has attorneys in Georgetown

Got up at 7 00 + had bkpt
Tk a shower, did pers chores
Went to lunch at 12 00

Sat in on h.s. Eng classes, the first conducted by Jann & Tom, the Basic grp - then observed the Adv. grp taught by Dick Tripp

At 3 00 attended reg. h.s. Eng. tchrs' mtng - the classes were dscrb'd for me & the shortage of bks + supplies ✓ I suggested that we send a request by radio that travelers coming to Jonestown bring them, as we brot med supplies ✓ none of them shipped from the States have arrv'd - most are tied up in customs in Georgetown - there was some disc on methods of teaching, leading to the probl of whether to teach Standard Eng, Black Eng or a combination - Tripp's opin prevailed: encour. use of Bl Eng for ordin. conversn, learn stand Eng for other purposes.

The topic of how to use me in the h.s. Eng prog was approached - I realized w/ [illegible] already set up that they didn't have much need for another Eng teacher - I proposed that I teach a course in Eng for adults & wk individually w/adv. students - this was agreed on

I stayed in the central area - had a convers. at dinner w/ Mary Wotherspoon - she manages the cassava mill

At the mtng J directed that names be taken of those who were late - some of the topics discussed were: (1) Anthony + head of the chicken op. was resp. for 75 baby chicks being killed; (2) all must put in time in the fields, at least one whole day every mo. wking in agric - all must get in a sched. of their daily activs (3) complaints were heard about Marie Lawrence, that she was not on the job as hd of the Landscape + Poison Coms. - the 7 children who had died + been saved by J just by my arrival had been poisoned by insecticides which was left aund, I gathered, by Mike Lund (Rozynko) - there was much rise of the proper disposal of such poisons + further provisions which [illegible] made by Marie's com. (4) detailed [illegible] from those in charge of pigs, cows, chickens - proposals were made for making a pond to raise ducks + fish (5) there was communication by radio w/ S. 4 Apr. - T

Had bkfst & pursued usual morn. routine
Made jnl entries
Look'd over class papers - cdnt make much of what remed. class did & decided to start over w/lists of African ctys
Went for lunch at 11:30
Attendance at my adult rdng class was good - the students seem to be making prog.
I made an announcement that the U.S. has adopted a boycott pol., denying oil to Guy - Georgetown is w/o power - our oil supplies will be affected & stringent measures will have to be taken to cope w/the shortage; one of these will be cutting down the use of lights
I stayed at the Libr. & listed the African ctys alphabetically, using the recent atlas
Tk my shower
Did Africa a short while
Met my 4th oclock class - started by having the students give news items - some were good - [illegible] & Greatha made no contrib
With the 4:45 class I started w/news items - my a few had contribs - the class decided to test me by various means of inattention & mild disturbance & I demanded better behav., specifying what I did not [illegible] - I expln'd the intensive study we were going to make of the African nations, starting w/them because events were [illegible]

(over) C-2-A-2 (21)

in that pt of the world - I wrote on the
11½ & I told them I wd rpt them to tchrs
mtng if they gave trble
board the alphabetical list of the countries,
which they copied

I had asked Emma Hill to attend the 2nd
period class, as I tho't she cd learn what
she had not been able to get by hers, but
for some reason she cd not & I told her
to see me when I had my night class

I ate dinner - retd to the cottage & prepr'd
for my eve class

The attendance was good at the eve class -
we listened to J as he gave the news - then
I expln'd the plan to have a class out S at
noon - I then started to review metaphors

The Steering Com had just begun its mtng
in the rice tent next to us when we heard
J's voice calling on a traitor named
Richardel Perkins to come to the rice tent
for a confrontation - the place was soon
chngd to the pavilion & all the membership
was called to attend, so we broke off the
class mtng.

Richardel turned out to be a woman,
mother of sev boys & a girl - 2 of the boys,
Jerome & Maurice Anderson, I have in
my remed class - Jerome, tho talkative,
is liked by most people & often does
secur, at the front gate - Maurice is quiet,
dull, & somebody had told me had

(cont) C-2-A-2 (22

suffered badly from drugs - the complaint agst R. was that she had sd she wdn't have come to Jonestown if she had known wd have to do w/o lights; she sd she knew "they" wd take yr (Jerome's apparently) music away from you - it seemed as if Jerome had rptd the remarks - in the ensuing discussion it was developed that she had deprived the children of basic needs = they had to come to the Te for a meal = in favor of her husb, who had even had sex w/her when she was recovering from a hysterectomy; she also had sex w/her husb's brother, tho she claimed unconvincingly that she was raped - her husb is now serving time on a murder chge but she had been urging Te efforts to get him out of jail & bring him to Jonestown - she had slept w/her boys tho denying she had sex relations w/them

Her attd. was bad & Rose Shelton, angered by the pain caused to J. lest upon her followed by others - J told secure to limit those getting through to her to sms & to control the attack carefully - [illegible] out R. or l.c.

Jerry Parks was put on the floor again because he was still saying he didn't like it here - he had also claimed he cdn't wh because of a mental cond - J told of Mao's giving the inmates of a mental hosp

(over)

C-2-A-2 (23)

the choice of wking or being shot - Jempha - sized that we don't bel in mental illness - he told Jerry, "you're going to make it" - 2 angered members beat on Jerry too - he went to 11 2 no one was living until all our people are here!

l.c. also

Magdalene Lylos was neft on the floor - she is the mother of Gloria Rosa, compan of Santiago - she had insisted on sp. treatm for her newest grand child, supported by Gloria & Santiago th the floor ago she went to loc.

Stanley Clayton & Ellen Kling man were observed spending the night tog - Stanley's companion, a yng bl woman, is w/the musicians in Sev town - Ellen works in the bakery where she was rptd giving tracts to her men frnds in the guise of testing food samples - Stanley admitted he felt no attraction for Ellen & Ellen sa she was not sure of Mike Kling man's affection for her - they were put on l.c. a substitute fnd for Ellen in the bakery - I rd that no one is indispensable

Michaleen Brady's attit & behavior, aft her effer in isolation, is still reprehensible. she th a cutlass to one of the secur. officers - aft berating her, I ordered her to smile

I had suggested sev snr women whom the guards ad let through to pummel wrong -

(cont) C-2-A-2 (24)

doers - to get white representation he called upon Edith Cordell & then "Professor Roller" - Rose started to hit Michaelson, joined by Lu Ester Lewis, & then I went up & struck her - I was criticized by sev onlookers for not striking her hard enough

Nancy Jones was next on the floor

J, who was in very bad phys. cond., had to take nitroglycerin ton - he was very angry at having our actions, incl his own, interrupted by the necess of constantly dealing w/ offenders - he explnd the serious sit caused by the oil boycott of Guyana - a restriction on use of electricity was annd - our efforts shd be directed at sending some of our people to Africa to help the Ays there obtain their freedom - this is the first time I have heard J refer to the idea, which is similar to the one I had written to him at the time of the last "white night" proposing our yng people shd help socialists in Africa

So that the Steering Com[illegible] had to suffer from not being [illegible] take [illegible] its agenda, J went through the items, seeking info & making quick decisions on the basis of cost

The mtng was ended at 12 15

Ind for a few mins. after getting in

(over) C-2 A-2 (25)

waiting for others to come in - Inez was in - Ann was talking to men friends outside - Versie & Anita had not come in - I turned off the light - Versie arrived & turned on the light & Ann came in - they began to talk 3 - I knew Inez who had gone to bed, wished for quiet - I made a demand that the light be turned off & convers. cease - it was 1 o'clock if there was an instance of such inconsideration again I was going to write it up & we all go to counseling on it - I referred to Tina's neglect of her child - she reacted hostilely

11 3 Inez told me in the morn that Anita had been present too altho I didn't know it at the time //

I was a long time going to sleep

5 Apr - W

Inez thot I made a mist spking to our cottage mates as I did last night - she thid they wd bullheadly behave worse than bef - later in the sch. of she told me she had heard counseling was schedld for our house - hold too but I heard nothing more about this all day

Aft bkfst I waited for my medication an hr & a half - the med of is dispensing medications in the dining rm area, & today they gave out numbered slips, but they got the nos. mixed up - I usually write while waiting for med. but in this setting dif. people sat down & waited for me, & I did get a chance to rd the news items which are posted on the wall of one of the bldgs.

My watch wont run at all today - I have been having trble w/it

At home made gest's jnl entry

We didnt have lunch today since the community was two hrs late tho I had got up not much later than usual

Went to my rding class at 12 15 - a lge no. came & did well - I rd a few phonetic rhymes to the class at the end

Took my shower

Finished my jnl entry - then [illegible] for my classes - [illegible] having trble [illegible] [illegible] in order - [illegible] to my records [illegible] [illegible] h.s. & [illegible] class [illegible] [illegible] [illegible]

all students have p[illegible]ared, as they have no place to keep it - these & all supplies (paper, pencils, chalkboard eraser, chalk & so on) are in my top crate

In my first period class I talked w/them about my reason for concentrating on Africa at the present time, reminding them of Jo's remark on the possibil. we might send some yng people there to help in liberation movements - it seemed to me Jerome was depressed over last night's confrontation w/his mother - Maurice reacts duly to all stimuli, so I cdn't tell about his mood - Jerome questioned me about last night's altercation w/my cottage mates - he is, I think, a fnd of Andrea's - he sd I shdnt have charged Ann w/"dumping" her child - I replied merely that it was true - I had the class list all the African ctys they cd remember! Ronnie Dennis, who had been absent, came at the end of the class & told me he had had to get ready to unload the boat

I started the 2nd period class w/news items, - most did not have any but Mary Griffith astonished me by explaining an item in detail & w/emotion - I then let the students choose sides & the two teams th turns putting the names of African countries on the board - they seemed to be enjoying the contest - somewhere half way through the class a rumor spread through the sch. tent that the class period was over & most of my students left

Tropp annc'd a h.s. tchrs' mtng for 6 - I quickly got my dinner & ate it

Tropp wants a wkly quiz in all classes - grades are also desirable - we are to be firm w/students w/regard to behav. & class wh - the tchrs rptd any unusual behav - I mistakenly that it had been Kenny Reed who had taken off to prep. for going to the boat & so rep. ted studs., who were subj. to questioning, had to appear one by one, & Kenny was one of them - he of course sd it had been Ronnie - Tropp warned me not to make such errors

"I well & seemed to show no resentment tow me"

I retd to the cottage & did cooks and for attending the soc. tchrs' mtng

The tchrs & co-tchrs' attended the mtng along w/sev visitors - we th notes as various people volunteered news items - questions, explanations, & comments were given - we then volunteered items on the general topic of 'guilt' as raised by Jon S - he had asked us to [illegible] the understanding of what he [illegible] - [illegible] we had cons. discuss [illegible]

for understanding soc but that some imaginative techniques must be used to supplement the bk - the class lasted from 7 to about 10 or - I spent 15 more mins explaining to Vern Gosney the conflict involving Ethiopia & Somalia

I just had time to get to bed bef. 11 or when I expected the lights to be put off - I dont know whether they were or not - only Inez was home

When the others came home an hr or so later, I was aware of them, but they did not turn on the light nor talk loudly -

Went to lunch

rably, Billie Jones was helping w/incoming supplies in the tent - I lk'd for the atlas we had been using = it was prob in use - tried to find elem geog bks but there don't seem to be any - I did find some bks on recent events in Africa, but on short notice I didn't know how to use them in this remedial grp - consequently I just allowed them to converse - Nahwandha Darnes has been taking an int. in this class (it seems) sd she liked to learn about Africa, so I told her she cd stay - for med reasons she is not attending sch.

Rain started up again as the second hr class began - class members who had been in Geo. town were present today - the class was consequently lge & somewhat unruly - I had to sph sharply to them again - I told them they wd have a writing lesson on current events tom & each was to bring in one they understood or one they did not understand - we then played the game they had yest., naming all the countries of Africa - as a class they did quite well, even those who had missed prev. wh on Africa

Tropp anncd a tchrs' mtng for 6 00 - I got my dinner & ate it

It home made yests' [illegible] entry -

[illegible] some [illegible] for my [illegible] - [illegible] checked out a 1978 almanac early - the other teachers, esp. Tropp, have been getting them first, also the recent atlas, w/ the result that I have nothing from which to teach my remedial class.

No lunch was served - at 12^15 I met the adult riding class - some were late as [illegible] was conducting her adult exercise class at the beginning of our school - the class members [illegible] trying hard, some [illegible] consid odds, esp. [illegible] writing

people were sleepy - I used the almanac & we started learning some facts on the dif. African countries - some members of the class showed an interest & learned

I moved the second period class to the pavilion where I had them write on a news item - I gave them a choice on giving details on one they understood or asking questions on one they didn't understand - some students finished early & I let them go to the library & rd.

We had no rain today

I rd African a short while

Political Enlightenment classes were at 7.15 - Don Jackson, etc for taking roll & votes & so on, let me conduct the class - we intended to spend the first half having the class members disc individually the talk J. gave on 5 night on guilt & responsibility, & the second half on news items - however, by the time each pers. spoke we had no more time left - the attit. of the class was good - we were out at 8.45 // I handed back the class's papers & gave the correct answers //

I climbed on my bed & rd African an hr - Jim, his news broadcasts has been emphasizing the study of Africa, as in his talks at the rallies, & has even touched on early African history - Inez was asleep - I went to bed at 10.30 - when the others came in at 11.00 there was a little comers. - at 1.00 the p.c. system woke me calling Ann

My bowels were loose today - I have had nearly normal movements lately

I was late getting to the central area - I was too late to eat lunch bef my class

I hastily gathered some ref bks & a few rding bks - I intended to show the class the resources of the library - about ten people came, half from my daytime rding class & half from the evening adult class

I had invited Shirley Fields, as she had stated that she felt now was a time she shd become involved in some other activ. - she kept moving in & running out - I cdnt make out whether she was bored or had other things she had to do - I started discussing the categories of lang. arts studies & the diff. btwn teaching adults & child. how to read - I am afraid I hadnt touched upon much that partic. interested them when I started to rd the news - they had to go back to wh when he was finished

I th my shower

Moved my foot lockers out & rearranged some of the contents so as to be more rm for my sch materials & jnl in the top one - I then typed my jnl, starting w/the 13 Aug 1944 entry, the first

I made since starting to keep it again - this is the first effort I have made to type up the record - I realize finding time to do it is going to be difficult plus the probl of lack of privacy - I intend to talk the proj. over w/ Carolyn Layton at a later time & find out whether she wants to arrange for storage of the completed sections & to dispose of waste paper

I typed from about 2^00 to 5^00 - I typed also a memo to J. on some of my thots on music - what I preferred & the names of some works which dealt w/ liberation & revolution

It lkd like rain & Anitra, who was going to help prepare chickens for dinner tom, asked if she cd borrow my rain coat - she sd she wd ret it so that I cd go to dinner - she did not, however, & I wore my shower cap to the rally

I went to eat at 4^00 – today we had fried chicken, a biscuit, rice, & sweet potatoes – I had a leg & back, an excellent piece

On Sundays Dr. Schacht sees patients from Pt. Kaitumo – we were told that 10 were here today – they were served dinner & some did not eat much – their plates were left on the table & Jerry^N Ray & others ate the chicken from them – Joyce Touchette warned them they were risking diseases we dont have

I went to the pavilion to wait for Jann, whom I was supposed to see at 6^00 – the band was playing & I cant concentrate on my rding, so I moved to the library which was almost deserted – I rd Africa for an hr or so

I thot I saw Jann going tow her living quarters & tried to find her – someone told me she had gone up river w/ Patty Cartmell & party – I knew she had seen the Job Change Com

Not finding Jann, I retd to my cottage – talked a while w/ Inez who was there alone – she referred to Michelle who is still in the States – she sd Michelle was very eager not "to lose" her second baby, as she did her first, Danielle – D., her child by Ben Fitch, was raised by Barbara Cordell – Dont know whether Inez meant that Michelle wd object to the nursery prog – the parents have the child. in the eve. & on Sun. afternoons

Had a disastrous day

Aft lkpt endured a 1½ hr wait for my medication

As a result of my oral rpt to Marcy about what Helen Love had told me concerning a woman in her dorm who gave handouts of ripe papaya, I find that Marcy had conducted an investig. - both Helen & the accused woman, who may wh at the veg shed, were angry w/me - apparently the papaya was given to only one other pers., Juliette & who also spoke to me - the latter however was not upset, sd she was constipated & needed it - Bro. Bridgewater, when I went to get my usual plantain, asked me if I had a right to it, revealing that Marcy may have gone into the role of the veg. shed in the matter - I decided that unless the incident was brot on the floor ton as an instance of sp priv, I wd write a rpt to Marcy confessing my own procurem. of plantains

I obtained an almanac from the sch op & contd wh on notes on African ctys

Ate lunch

At my adult class I had increased attendance, I think partly because we so seldom have adult eve. classes & partly because Barbara has discontinued her adult classes, or some of them, & a few of her students

have come over to my class - I decided because of J's emphasis on polit. & geog. study & because some of these new students have at least a basic knowl of reading & writing to give a little of such information each day - the students liked that

Wh'd some more w/ the almanac until class time

At the beginning of my first class I began a broadcast - I had had some significant comments on our agric. produc. which is lower than that of Guy's farmers raising the same crops although we have advantages such as fertilizer & machinery - most of the blame I put on our pulling out agric. supervisors bec they have had time to get effer & wanted this to end - he then made some remarks on details concerning our power sit - I insisted the class "A" he rd most of my memo on music, adding a few comments of his own " remain quiet during the broadcast - they put their heads down on the table & prob slept

During my second class I cont'd w/ the broadcast but we went ahead w/ the material on Zaire I had prepared - I had left beh the pencils to give the studs so I wrote the info on the board & discussed it - some were interested but others were inattentive

I had dinner, then went to the cottage & chng'd clothes for the rally [illegible] to wear

pants & socks to all eve mtngs, esp. in the pavilion where the floor is dusty, to protect my legs & feet from insects

J's broadcast on the news, agric. produc. & so on had been taped & was played as many of the gathering aud. stood in front of the maps of Africa, Guyana & So. Amer. looking at the places he mentioned

J, when he entered, was distressed at the inattention he had observed, esp of the leadership - many had been late, many were playing & joking - his own health is in a precarious state - his blood pressure was very high & he had an excruciating pain in his head - the doctor says he had small strokes in his head - he mispronounces some wds

J named sev who held positions of trust & had not pd attention during the news - Carol Kerns & Jocelyn Brown were among them - J ascertained their lack of knowl. about current events - he questioned Jocelyn on her behav in Geo'town where she had not followed instructs & was resp. for an accident - J conducted an oral examination on the news - some, incl. child, had followed his broadcasts carefully - Joe Bean was one who rcvd praise for his knowl, altho he cannot walk & his body is wracked w/pain - Joe sat bes. me on

I remarked that another man was intrid in Janice Johnson, had her come up & he told her who it was - in a few mins he revealed to the aud that it was the doctor - I called upon Stanley asking whether he was surprised that Janice no longer felt bound to him - he admitted that he was - I sd, "You have learned what life is like"

A yng woman Mcintyre who had been placed recently on the secur force had participated in a mtng discussing what shd be done in cert. emergency sits - she had disc'd the info w/ sev people - recom. of the individ to the post was at fault - J. allowed the appt'd snrs, incl myself, to pummel her

A yng man, of age, had violated a 12 yr old girl & she had screamed - counselors had exercised gr. care to ensure she was not psychologically damaged - J. permitted her to strike her molestor

Laura Johnson was put back on l.c. - she whs slowly & talks too much - Willie Malone was on the floor for serious flaunting of author & had even argued w/ Mother - aft he was firmly [illegible] manded by J., Johnny Jones & others an effort was made to convince him

Michaeleen Brady is back "in the box" - [illegible] Walker is also in the box - no details were given about the latter - I had heard that one of her classes [illegible]

Jos Tom Partack wanted to change his name to Tom Smith & he [illegible] to stay here

At abt this point one of the guards [illegible] to see what I was writing - I [illegible] him the notes I had been taking - I don't know whether this was because of the unusual sensitivity of the notes involving the secur. breach or whether because J. had directed it be done - I heard nothing more about it

Had bkfst & followed my morn. routine

When I ret'd to the cottage, I typed the memo on Ann's behav, not only that she entertained men in the cottage but that she & others talked late w/o cons. for others ✓

I ate lunch - I turned in the memo on the papaya at Mary's cottage which is near the medical & kitchen area - she was not there

// ✓ I also wrote an acct on the papaya incident, telling of my own acceptance of plantain & sharing them w/ Helen Love //

A cons. no of people attended the adult ording class today & were grateful for the instruction

I had a shower

Made yesto jrnl entry

I have had trble lately keeping the correct time, as my watch doesn't wk well, & the dining area clock is erratic - today because my clock was slow I was late to my first period class - I was firm w/ the students however, gave them some mater on Africa which I put on the board for them to copy

I talked to the second period class regarding their respons. & mine, considering our leader's state of health, the priv. we have in being permitted to study

and attend classes - they all listened + were well-behaved for the rest of the period

We had a tchr's mtng after classes while eating - Jann told me about it but did not come - people in the pavilion were clustered around the map while a tape of the first pt of last night's rally was played - Dick sd he planned a tchr's conf on Th - students wd be sent to their project areas - the object is a serious eval of all the studs.

I'th all the plates back to the kitchen - retd to my cottage

Tom we had a mandatory mtng of all women 12 and over from 7 or to 8 or - Marcy + Anita Kelly presided - Debbie Jensen told about a few famous women in U.S. hist, both white + bl + the Jr High girls sang "Rebel Girl" by Joe Hill - there 11 the name of the org is to be Women's Revolutionary Socialist Movement 11

was disc on what we wanted to accomplish - various sphrs indicated that the purpose is to give all our women a sense of their own worth so that they won't measure themselves by their relationship to a man - those who have a problem of any kind were asked to turn them in to certain people by next wk + we will disc them next wk

Had bkfst & went through my morn. routine - it th'ans hr. for me to get my medication

When I retd home I decided to spend all available free time typing my jnl - I went to have a conf shortly w/ Carolyn Layton on the subj of my jnl, the secur. aspect plus pos. storage by the Te & I'd like to get some of it in final form - bes, if I am going to do it, I want to begin to catch up - this section on which I have notes begins on 14th Aug 1977 - I pushed out my 2 crates, using them for a desk & typed until I went to lunch

Met my adult rding class - because of the increased size of the group, the fact that most of them already can write, & the desirabil. of giving them some polit. & geographical knowl. so as to better understand jo talks, I have decided to drop the teaching of writing; give half the time to rding & the other half to politics & geog - the class was agreeable to this arrangement

I retd to the cottage & cont'd typing in my jnl - I had some difficulties - the left hand margin wd not remain firm & I made mistakes in indentation - I decided not to try to correct such details

About 3^30 as I was preparing to put my equipm. away & lo for clars an [illegible] came over the p.c. system - I put on pants & socks, the water, my clipboard & clock, & my pillow & went to the pavilion I was fortunate to get a good seat w/a back & quite nr the front - I tk no notes

X I stated that sev. problems had arisen - the quest of our doctors & pharmacists' certif was still not settled & they were requested to rpt for a hearing on a cert. date - "they are not going" - this demand seems to be linked to a tougher line being followed by the govt - our sch as a part of the Guy. system is to be approved as of the 21st of this mo. & this may be endangered

Prime Minis. Burnham w/sev of his govt. has gone to Sov. Rus. - Reid who is our best fund, is seriously ill - some of Burnhams party, the P.N.C., are disapproving of the trip to Rus & there is sd to be an attempt to adopt a new constit & policies which wd be inimical to our grp - the [illegible] of a merger which Rus desired, btwn the P.N.C. & the P.P.P. - the latters [illegible] Jagan - Jagan was sd to be [illegible]

The U.S. is back of this dific. - the Intern. Monetary Fund, to which Guy had applied for a loan, under the control of the U.S., had put unacceptable conditions on the giving of the loan in order to secure favorable treatm for capitalist bus. interests - Guy had refused - pressure!

Radio commun broke down & representatives on the tractor were sent to Pt. Kaituma to use the teleph link

Dinner was served in the pavilion

Disc on various points was carried on all night - we will put up as much resistance as pos. to any invasion but we don't have the weapons to prevail in the end - we regret to have to fight Guy's Cdiers, but the Guy army is not sufficiently politicized not to follow fascist orders.

I was up at 10^00

I did some laundry & hung it up

Went for Whpt

The mtng in the pavilion was resumed at 12^00 - I again had a good seat

I sd the sit. had improved - the doctor's certif. had been approved - Cuba had agreed to our grp settling there if nec. - I had formerly approved purch. of a boat which wd go that far & it would hold all our people & provisions nec

The Sov. Union stated that they did not bel the Guy govt will go to the right - they are cautious in their support for us, because they fear the outbreak of nuclear war - The Tass (Sov. news org) rep in this area of the world will be coming to visit us

As it developed, time on the floor was divided thru those who spoke on the question of going to Cuba and those who made proposals about what to do about our enemies - I started by asking the aud to vote on whether they thot we shd accept the Cuban invitation - he explnd that they might interview us & not take every individ, for instance those w/a crimin. record, snrs who bled in God - they do not lk w/favor on the pract. of homosex -

As for taking measures agst our enemies in the States, J sd he had rcvd few volunteers - he did receive more in the course of the mtng

Planning cont'd on countering the demonstration planned in L.A. by relatives of Te members - the loyalty & talents of our members in L.A. were commented on - I sent up a note about Beulah Pendleton, as I did not want to upset Willie Malone in case she has lost int. in coming to Guy - Michelle Davis, Inez Wagner's dghter, was mentioned - she is the compan. of L.C. Davis & has a baby - sev people thd she may not come, as she has a liking for bourgeois comforts - L.C. was quoted as saying that he wd come only if he cd wk for an airline in Georgetown - Michelle is spsd to come in 2 wks but her departure may be speeded up to ensure getting her here - Inez was questioned & tho she admitted Michelle's shortcomings, she was rather defensive

Brking up the opponents' demonstr. physically seemed to be contemplated, tho the lawyers warned of the risks of all of them

We had a brk at 6 or for dinner & rest, were told not to go to the cottage area - dinner was good, w/some excel. greens & a fruit salad of banana, pine-apple & papaya - aft eating, I offered to relieve Teresa King in the library where she watched to see that people did not walk off w/the bks nor child. get out of order the bks on the shelves - when Teresa retd I rd African, sitting on a table at the end of the pavilion - the sunset was partic. beautiful this eve.

We reassembled at 7 30 - I had the same seat but on one side was Chlotile Batten, who is fussy about everything & she was discontented all through the mtng about the rm I was taking, altho she had a bag bes her

didn't want to go anywhere where he wd not be the leader — he told the members that it was because of such sns as she that he wd not go to Cuba unless they cd go, but it was the very answers she gave which might exclude her — he stated that if one of his sns was excluded he would not accept residence in Cuba tho others cd enter; he & the excluded ones wd sail on the boat until they died

Realizing that his remarks wd be overwhelmingly influential in persuading the crowd not to favor Cuba at all I stated that we shd nego. for admittance of all, but that I blvd there were certain advs. of going to Cuba: (1) our leader wd have more scope for his tremen. talents in the field of intern. Communism; our yng people wd have more oppor. to serve in some of the struggles for freedom in Africa, as an example — I mentioned that the necess. of learning Span might be hard on some — I did not hear my complete statement as he was conferring w/ somebody — Jean Gurvich had apparently not listened to me — aft wisely pointing out there wd be nationalism & jealousy to prev. from using his abils, she argued as if I

had spoken of educ. & profes. opports. for the youth - I'th another vote & a very few favored going to Cuba - it was not pointed out then that the alternative might be the putting to sleep of all of our child. w/concomitant damage to world communism

With regard to our action on the Te demonstration, all methods of breaking it up seemed to have been rejected - there had been much sd about the crimes & deviations of various "concerned" parents & relatives - for inst., Marie Katsaris had been freq'ly molested by her father; Mark Wagner had pists of his father w/nude women; Liz Forman had had sex w/a minor in her custody; Tim Stern is a transvestite; Vicki Moore had had sex w/her son as seen by her other son

I sent up a suggestion that a leaflet be printed listing these crimes & deviations to be distributed at the mtng & made available to the TV cameras - making use of this type of mater had obviously already been considered as I sd there will of course be placards - a decis. on other kind of action was not annoc'd of made

I called on all those whose relatives were on the steps (of the SF Te) to

Those who had testified as to misdeeds of their relatives were asked by the Radio Rm to give in the info, so I presume these were to be made use of

We were dismissed at 1 30

The morning sched. started 2 hrs late
I had bkfst & performed my usual morn. routine
As usual when the morn. sched. is compressed, the Medical Dept. had trble fitting in all treatm & medications & altho I registered early, I waited 2 hrs to get my Premarin pill
No lunch was served, so I wkd on my jrnl until 12⁰⁰

Classes had been dismissed & students sent to wh projects, but I met my adult rding class as usual - for half the time I continued w/ the phonetic rding exercises - then I talked to them about the polit. crisis in Guyanese politics, explaining how we were involved w/ relations btwn Guyana, the U.S., & the Sov. Union

11 I lent my African bk to Marian Campbell, a snr who takes a gr deal of int. in the news - she wanted to prep an assignm for pol. enlightenm class //

An anncement was made by J during the aft, which I did not clearly hear, concerning Cottage 48, but Rita told me what was sd - it was in resp to my memo but did not mention my name - the cottage was given a warning, which means all residents cd be on the floor for another infraction of rules - 3 main pts were made: men shd not be entertained in women's cottages & vice versa - sheets are $15 apiece & shd not be used as curtains - residents shd be consid. & not disturb older people - Anitra anwd half an hr aft the anncement & th the sheets down

Socialist tchrs met for an hr + a half beginning at 7 - Bob Chr. presided w/ Dick + Jann giving demonstrations of partic. portions - I gave instruct to concentrate on the Sov Union w/ the expectation that the Tass repr will visit the classes - Trupp gave infor on the hist. + developm of the Sov Union w/ contribs from various class members - we then turned to the role of the Sov. Union in various liberation struggles in Cuba + Africa - Jann gave a summary of some of these at the board

While we were mtng we were informed on the P.A. system that some of the relatives of members here were organizing an invasion by mercenaries to "take" these members dead or alive - Donna Ponts' father + the parents of the Olivers were specifically named - the entire area was put under strict secur. controls, some of the snrs were gathering in the pavilion + Vern Gosney, w/ whom I walked home, sd it was a pre-alert sit - I expected that we might have an alert tonight

- left bkfst & my morn. routine, I spent the morn. making out my inventory - went through all my possessions & listed them - then got out my typewriter & typed the list up - Versie & Inez had done theirs last night - I don't know if & when the others did theirs - I turned mine in on the way to lunch at 12 15 & was complimented by Bev Livingstone for its good appearance

I had lunch - did not attempt to hold my class, as preparations were being made for the visit of the Tass repr

Worked on my jnl - I had fallen beh on it during the crisis

During the day I learned that when our boat lvs, tom Carolyn Layton, Dick Tropp, Tom Grubbs, & Harriet Tropp are going in for an educational seminar in connection w/ our sch's acceptance as part of the Guy. sch system

elections - it was annd that Sov. Rus, where Burnham has arrvd, will give econ. assistance to Guy - they have already supplied a generator so that the lights & water crisis in Geo'town is over.

I tried to take an hrs nap but only succeeded in dozing a bit

Went for dinner at 6 oo - the sched. for the Tass repr's visit & evening activ's had not been clear - finally I annd that an hr aft the arrival of the guests was annd we wd have our pol. enlightenment classes - bef that the band wd give a concert - if the guests had not arrvd by 9 oo, pol. enlightenm. classes wd be held tom

I went to the pavilion - Jerry Brady, who has some author over seating, asked me to help integrate in the row beh the one reserved for guests - I went home for my socialist class material, then sat in the spot assigned to me next to Jean Lucas & rd Africa which Marcia had given back to me

The band rehearsal was interesting but I did not care for the concert itself which started when the guests arrvd - it was an hr or so bef they were brot

At the end of the concert we were told to go home quietly - directly thereafter we rcvd wd not to go to bed but to be prepared to ret.

// Movies were also shown in the dining tent & I went down for a while to see a film showing African animals, but it had not started when the guests arrvd //

I lay down - at about an hr we had to ret to the pavilion - we were cautioned to ✓

The matter of Bruce Jackson (Oliver) had to be dealt with, his paranoia regarding his companion, Shawuda, while he was in Geo'town - he had blod unfounded rumors about her & Tim Jones - in the meantime he had been unfaithful w/Carol Lindo - Shawuda had broken off their relationship - Bruce's chauvinistic & immature attit about women was revealed - his mother had encouraged his child -

Bruce's bro, Billy, sd that Bruce had accepted expensive gifts from their mother while he, Billy, refused them – Billy was praised by J for having as a companion Cynthia x who had been a Lesbian

Tho J thot it was too much, Bruce proposed for h'self a 3-mo ban on any sex relationships – this was agreed upon

The regulations regarding sex came up for review – Daisy Stroud has moved from quarters she occupied w/Bobby Stroud, altho they are continuing sex relations – she may be pregnant – J was dubious whether such an arrangement was conducive to good child rearing – tho, ideally, complete freedom of sex activ shd be allowed, the Russians reported that when they experimented w/it, it disrupted family life

The subject was open to debate & sex arguments for allowing relationships tho the parties lived in different quarters were heard – the diffic. of enforcing birth control measures was an issue – sd J: "we simply cannot afford any more babies now" –

J asked all those who had been violating the three - month ban on sex to confess & receive amnesty; if they did not, they wd suffer a severe penalty when found out - as far as I cd see, no one confessed exc Shirley Ann Edwards & Amando Griffith, who were already known

I sd he was sorely displsd by the piggery area during the Tass repr's visit - there was disorder, junk & mudholes - the pig areas were dirty - the chickery lk'd good - there was further testimony on offensive compost pits, flies swarming - the hogs & cows were not shown to good effect - the Tass man was not impressed - he was, however, overwhelm by the medical services, partic. by "all those Guyanese getting treatm" - J. wanted an inspection com. to go over the piggery

I sd also that the staff left him high & dry at a crucial pt. in the talks w/ the Tass man on the black plight in the U.S. - I brot up their int in sex - "many of you guys want sex w/o responsibil."

This was an extremely hard day for me

We were on a 2 hrs late schedule, went straight through until 7 or w/o lunch

I waited again a long time aft bkfst waiting for my foot treatment - Magnolia finally realized I shd have priority as a teacher aft field workers & bef seniors - I whd on my jrnl while waiting but had diffic because people are so concern about their assigned news item paper that they sought all kinds of help: the writing itself, paper, pencils

For the second time someone stole the news items which had been typed up & posted on one of the dining area bldgs - when I left the area I went to Christians cottage to see whether I cd get a copy or rd a copy of the news which she types - she was not home but I saw her on the path - she told me Inez had a copy & was making more - I went to the Ah Depository & rd the copy Inez had, making notes for use in my adult class - arrangements were made for paper to be obtained from the agric. of.

I scrubbed the cottage floor, having borrowed a bucket from Ruby Carroll's housekeeping unit - I used soap & then rinsed

Th a shower, washed my hair & put it up

Typed up my own paper to turn in at the polit. enlightenment class - as a teacher I may not have had to write one, but I wanted to - as required, I included as well as a page of news items w/ comments, a page on the Soviet movies & a page on what I want to do for the cause - in the latter I emphasized teaching Eng to yng & old, writing my own memoirs & other material, perh for sale & a few other actions, & expressed a willingness to die for the cause shd it prove nec

Started to rev & take notes from Teaching as a Subversive Activ, so that I can turn the bk in

Over the loudspkr came a call for a tchrs mtng at 3^or – Dick Tropp gave us a rpt on the happenings in Geo'town regarding the acceptance of our sch into the Guy sys – we are subj to their requirems which are very precise – we have to follow the objectives adopted & present reg rpts as to how they are being implemented – our studs will take Guy tests – they will not pass into a new class nor grad if wk not successful – attendance rules are strict – we have to keep careful records our arrangem of classes will fit into Guy forms – a mtng w/studs was proposed & adopted

For their first class at 4^or studs came to the pavilion & Dick afflnd the new regs & answered questions – some of the tchrs, starting w/ Harriet, Shirley & Jann, spoke, taking a hard line, which I thot threatening, about indiscipline & lofty affectations for the future

The tchrs then met their second period classes – I personally moved a heavy bench w/no one offering help so as to provide more seating – then I asked for help in moving another but no one heard me = the class was noisy & persisted in its disorder for fifteen minutes – I complained about being given no

some of Teresa's news items were still on the board & the class members were copying them - in the time we had left, I explnd a few more items & put details on the board

Th my shower

× Copied the ltr to my sisters, made one carbon - will copy it again w/another carbon

My first hr class beh avd well - we wh'd on news items

The second hr class was unruly - the trble seemed to be that they resented having me assigned as their teacher, Jann having been assigned in the first place & we got to wh on news items & their attit improved

I got my plate - the main dish was a pastry cocked w/a filling topped by a pineapple sauce

Jann & I lkd for Dick, as were spsd to have a tchr's mtng w/him every day at 5^45 - we didn't find him - I mentioned the attit of my 2nd period class to Jann - told her they resented being assigned to me but that this was prob an excuse - they are [illegible] adolescents seeking an excuse to complain of adults - we agreed that switching classes had not wh'd well - [illegible] I went to the sch off & fnd Dick there - told him [illegible] having trble with 2nd period class

Went to my cottage & chng'd clothes

I was putting great emphasis on news broadcasts - he has been mentioning that those who fail the test will have to attend my class & if they fail a second test then will be put on L.C. - I saw Dick Tropp & turned over my class attendance to him - went to the cottage & checked in w/Versie

There was a women's mtng at 7^45 - it was sped to last for an hr, at which Steering Com wd meet - Harriet Tropp gave a talk on women's role in the discovery (she called it "revolution") of agric. - I then came in & demanded a hearing & action on the "bitches" who had disrupted his leadership so that he did not have a single bl male he cd send to S.F. - "your women will not follow a woman, you know you won't" - he withdrew - Ava Jones got on the floor, & w/Marcy, made vehement accusations agst sev women who had led Johnny Jones on to think he was a romantic hero, to neglect his Te duties & his child, - two of those named were Yvonne Hayden &

it wd not be given at that hr - I walked down to the dining area w/ Mary Castillo & saw that the news items typed up by Vernette Christian were posted - it was too dark to read them, but I intended to lk at them in the morn.

I'd a very few mins bef going to bed - I was very tired

C-2-A-2 (133)

Dr. DuCosta 27 Apr – Th Julius Evans

Had a very difficult day

Apt bhpt got my foot treatm – Dale Parks told me I didn't need to ret. – the blister is healed & the itching has stopped

Intended to copy the news from the wall but it had been taken away, no doubt stolen for someone's pers adv – numerous people were handicapped w –

I didn't get any writing done in my jnl – made corrections on my ltr to my sisters & Lor, addrs'd envelopes

Went for lunch

Met the adult class – a huge no of people came seeking help for Tom's test – the test had been rig planned for F but because the dentist is coming, the test had to be taken Tom

I hoped to type up a few cc of news events to distrb in such a way as to benefit the most people pos. & I got a couple of pieces of carbon paper from Joyce Touchette –

As soon as a heavy rain was over, I th a shower

Rushed to the Med Off where I had been asked to give an hr's talk on the news at 2 or – the bldg is still being repaired & rearranged so the dept mental mtng was held in the dining pavilion it was very hard to talk w/hammering going on & at the same time a heavy rain fell – I pointed out the chief areas of conflict btwn the capitalist & communist forces & reviewed the main event which had happened the past wh or so – the ll also, other grps were talking arnd us

(over) C-2-A-2 (134)

response to my talk was good but not as enthusiastic as the adult class

I prepared for my cpt classes - I had hoped to do some typing on the news events but didn't get time - Shawnda James (Oliver) asked if she cd use my t.w. & I let her use it in the cottage

My first period behaved satisfactorily exc for Billy Jones who had to be individualistic I cont'd wh on the news events

The second period class was again obstreperous - I started on the news at their request because of the test ton - I was writing items on the board & going into the Bhyrud when they saw Jann lecturing on the news & deserted me for her

The high sch classes have their daily soc class at 5^{30} & as they gathered for that, I saw Stephanie pummeling her bro, Billy on a table - I told them it was very undignified - I asked them if it wd not be bad if a Guyanese offic. walked in at that moment, saying to Billy that he behaved as if he owned the place

I got my dinner

We had tchrs mtng & discussed probls incl. mine w/ Steph & Billie - Dick called in Steph to sph to her, possibly because she's a teaching asst. - she shed some light on my class's attit. - she sd Jann gave the

news faster than I did - she indicated the students resented having me for a tchr. aft they had been scheduled to have Jann

I went home & made preps for the mtng of the soc tchrs in the sch. tent at 7 pm - w/ Bob Christian as ch'man, questions were drafted for the test on the news. - they are to be turned over to J for any revisions he cares to make - in the midst of a gr deal of tumult we suggested 15 questions for those under 65 and 15 for those over 65 - we finished just bef 8 o'clock when the socialist mtngs were to start

J dictated the questions, given them from the two categories alternately - he (used [illegible] tchrs' questions but varied them slightly & giving explanations that made them easier) - however he rd them rather fast - people cd answer questions from both categories & gain extra credit - those who cd not write were to give their answers to the monitors who wrote them down, but I heard later this didn't wh very well as the monitors cd not cope w/ the no who needed help. [illegible] the questions [illegible] aft J was through [illegible] questions [illegible] to ans. num. inquiries about specific questions

(over) C-2-A-2 (136)

I took the tests over to Christian in the pavilion – there I find Willie Malone who had not been able to write the answers nor find anyone willing to do it for him – he cd either take test tom w/those who had been working ton or get me to do it – altho I was very tired and doubtful how much Willie knew, I consented to do it – I find that he did know a surprising amt & understood some events very well –

Went home about 10⁰⁰ walking w/ Lisa

Rd for a few mins – a convers. w/ Inez & Laura interrupted me

Went to bed at 11³⁰

C2-A-2 (137)

28 Apr - F

Met my adult class at noon - a lge no came

Washed my hair

In the first hr class I gave a spelling + vocab. lesson from an eighth grade spelling text - Willie did well on the meaning of wds

The attit. of the 2nd hr class was not good when they entered - the noise of the band rehearsing for Georgetown appearances made speaking + hearing extremely diffic. - I decided to put the terms used in intel. on the board - some of the studs questioned why they were learning these - I remember particly an almost hostile tone of Donna Ponts + Anita Greene - the gen feeling was not cooperative; others kept silent, but I did worried - I decided to abandon the CIA topic gave the class an assignment from the spelling bk used in the former class - they consented to this

Got my dinner

The tchrs met w/ Dick Tropp - aft determ. of who was to get praises or reprimands. I told Tropp that I had had trbl w/ the second period class, that I thot basically they were upset by being made to feel as second class citizens when we decided to switch classes - Tr decided to go into the class M + find out what was wrong - he sd I cd go into his class

Emb as a public relations gesture & also to help in securing more Sov films, incl. full-length feature films - a list of names was prepared & requested to meet w/us ton at 7 oc & some jr high studs have already written such papers - Jean & others had 11½ to view the films & draft their papers 11 reservations on the amt of time all this wd require

The community was waiting for a rally to start w/the arrival of guests from Georgetown - the dentist, Da Costa, came w/members of his family - they were fed dinner

I went to bed & slept from 11^{00} to 1^{00}

At that time we were awakened to attend the rally

I went down to the bakery w/ Kaye to see whether we cd get our candy - they didn't have any left out - Kaye whs in the kitchen nights - she told me the yng men in secur take sp privs getting extra food, at night from the kitchen & Pancho (Gary) Johnson is the worst & he has wt probl - I suspect this may be true

Aft bkfst I went to the sch off & copied news from lists prepared for tchrs by Ben Arsot - Jney had told me about them

X Had a little on my jrnl - I had gotten bck the last few days - I am not up to date yet

Had lunch

Met w/ the adult class, a lge grp concerned w/ passing the second news events test & many are afraid they failed the last one - I tried to show them the line - up of socialist vs. capitalist - fascist countries in Africa & So. & Central Amer.

Th a shower

Prepard for my afternoon class (I expected to observe Shirley in class she shares w/ Tropp) - I was concerned about the talk Tropp was to have w/ the Interm. class & what decisions wd be made about my teaching, relationship w/ class members & so on

The first period I spent on news events & let [illegible] at the board items given by the others - some participated & others rd other bks or stared vacantly but did not give any Tbble

I had not thot of the class switch each wk btwn Jann & me - Tropp told me

(over) C-2-A-3 (2)

to take the Adv. class - he & Jann
counselled the Inter. grp - I gave the
Adv. grp the Bkdown in soc/fascist align-
ment in the world - attention was good -
Got my dinner - Jann, Dick & I met
in the rah tent - Tr got the usual rpts
from Jann & me - then Jann suggested the
results of the session w/ the Intermed. grp be
given me & she started - the way I presented
material came in for some criticism - my
impatience was mentioned - they had brot up
to my detrim the episode involving moving the
benches - however criticism seems to have
been [illegible] - Tr frowned on Jann's using
[illegible] as such [illegible] so many sessions the
the soc & polit events of the world cd & shd

2 May - T

Aft bkfst went over the news items in the sch off

Made plans for my classes, trying in each case to have a really organized approach

Wrote a little in my jrnl

Went to lunch

Alge no attended my adult class: my plan went smoothly

J on the p.a. system spoke extremely seriously about everyone's effort & attit in order to build up our commun - he also spoke bitterly about the crimes of our enemies - he alluded to his own hlth = high blood pressure & low blood sugar = as he has been doing often

When I ret'd to the cottage, Henri Buford, just getting up, inquired what J had sd, & specifically about his own condition - I did not realize that he had had any different emphasis than by, but I cd see that she was worried.

Visitors were expected today & sp provisions made, but heavy rains fell, & the visitors didn't come

Aft my shower, I wh'd on my jrnl

Using my lesson plan wh'd very effectively w/ the first period grp & sev

(over) C-2-A-3 (7)

showed an increase in understanding world events, partic'ly Willie - I told ↓

In the second period class, I had fairly good luck, was able to go farther w/ the same meter than w/ the adults or the remedial grp, as a basis for an essay to be written tom - some were talkative though - I was on the p.a. system the entire time, & tho classes do not have to pay attention, it is hard to make one's self heard over his voice - I uneffectedly annc'd a rally for tom

I rpt'd on my classes to Tropp, recommended praises for them

11 ↓ them I was pls'd w/ them & wd recommend them for praises //

I had started to rd an acct of a man who had been in a Chilean Concentration camp after Allende's overthrow - he rd sev chapters while I ate dinner & went home to change clothes for the rally

The rally was at 7 15 - the tape I had just made was played again while all were to listen & pass a test on it

1 M 2 May - T - 2 2 hr 45 min.
Rally on Chile

J had [illegible] put on tape pt. of a rpt. from a former polit prisoner Carasco in Chile when Allende was overthrown - he had it played again at the beginning of the rally, told us we wd have to write on it & to take notes - aft wds he had sev songs by Victor Jara played - Peter Motherspoon translated them

J spoke of gaining sensitivity & knowl. - his condition 2 - grow up! - offer to go w/him - rejected exc 1 - I: help him - he named: learn - combat ignorance - behav. problems - Jerry Brady: someone read for him? - ans: possibly but most don't have that sensitivity - show suffic. feeling

The worst thing that can happen to me wd be to see my mission come to an end

Conspiracy - probl back there - we have some evidence of plot killing Chris Lewis - names given last night. Tried in

3 "T. child who doesnt know anything "You people like you are killing me" - Tim Stoen resp. for my death - Thurlett says she combs her hair in class, never listens - Marcy says deal w/all students who don't pay attention in class - J infuriated w/her - puts her on l.c.

J: People not taking enough respon. running the place - mentions Steering Com.

J: Ought to deal severely w/those who cause table any place - in classrms, everywhere - put them in jail, not therapy

Henry Mercer thinks all shd have respons for learning - J says he does better w/o sight
