Meeting with the Mr. McCoy from the US embassy, on 2 ~~XXXXX~~/ Sept. 1977-----

Laura Johnston

Issue- McCoy wanted to meet with me because my "mom" had written to the US Ambassador to Guyana and asked what was going on with me, and would they check on my health, general wellbeing.

McCoy's statementw:

If there was an unofficial inquiry about someonw with PT in Guyana, He'd call the Georgetown office to confirm that they live here.

If there was an official inquiry from the Washington office, then he'll have to visit the person himself.

He recommended in his reprot to Washington that he visit every 6 months, since so many US citizens are there, and plans for his next trip in February, '78.

He said that he was very impressed with the hard work that has been done there, but that it isn't the life for him. He said that it was too isolated-- he couldn't jump in a car and move around if there, and on the other hand, ~~there was too~~-- he couldn't do his own thing there. He said that he is comfortable, and didn't like privations, tho he has been through some, like the marines for 4 years, and the Korean war, and he has chosen Guyana because he can work as a free agent here, in his own office and doing things his way-- not like some of the big embassies which have alot of supervision. He said that the US almost broke relations with Guyana last October, and he was the Charge'de Affairs, and at that time was tied to his desk. His predecessor had had some problem, and he had been training 2 other staff, and he hadn't been able to visit when he would have liked to.

He said that the custody problems and the inquiry problems would continue, because for a group getting started in Guyana, not in the well-known parts of the world, parents got alarmed over not having more information. He said that Jim may or may not lose over the custody of John Stoen.

From McCoy to JIM---- McCoy told Washington that he had visited, and that he was impressed with Jonestown. He wrote them that everyone was free to come and go. People were happy, healthy and that even in his short visit, he saw that no one was fearful, and there were no armed guards. He wrote that much work had been done in 3 years, and that altho he couldn't know everything in just 2 1/2 hrs., none were ther involuntarily. Everything was in the open. He wrote tthat everyone was free to come and go, as with Broussard, who went to Fort Kaituma, to Matthews Ridge, and then into Georgetown, and is now awaiting travel arrangements home(In other words, he didn't know that Leon had left already.) He said that he couldn't state categorically that no one was beaten, but his own observations show that he couldn't categorically say that they were. THIS WAS HIS REPORT

He said that in with his regular visits every 6 mos. he'd take care of registering babies (must be done with in the first 5 years ofage), of seeing personally those getting social security-- requirement that they be seen yearly; and he'll notify us ahead of time when he plans to visit so we can organize that part. Also, we must notify him of any deaths.

He has 7000 applications for visas to US, out of a country of 85000-10% he pointed out.

P.1. P.1.6

He said that he asked Carolyn Looman if she wanted to go, when they were in private, and he had his vehicle right there, and she said no. he said that he included this in a report.

He said that the Embassy could be helpful to us if we had a medical emergency and needed GDF to get someone out, or if someone had an emergency in the US that they had to go back for, or if someone had to go to Trinidad for a medical problem, etc. He said that the Embassy didn't just look into people's lives, that it would be helpful.

He said that Jim was very, very upset about the custody contacts, and the inquiries, and said that McCoy's own feelings were that he wouldn't investigate custody unless officially asked to because he felt that if we were able to get passports for the children, that obviously the parents had participated in that.

He said that if a lawyer, or a private investigator asked him to extradite someone on a charge, or for investigation, he would not, only if an "official court" sent him word would he turn the matter into the Guyanese officials for returning a person to the US.

A man from the US has called him, and talked to him since he's returned fromfrom J/tn. When McCoy told him that he'd been impressed, the man didn't want to hear that. He said that the man had given him a list of names, he couldn't place the letter right then, but he wasn't too worried about it, of children that were problems with custody. He said that he'd told the man his honest opinion.

McCoy said that he didn't like J/tn for himself because he didn't like cooperative living for himself. /KE/

He mentioned Joyce several times- not by her name, but as the medical practitioner. He mentioned in the context of the help the embassy could be-- that he'd noticed alot of seniors there, and also alot of children.

-Said they gave Rockerfeller the Red Carpet treatment when he came to Russia
-Said Chase Manhattan Bank and Pepsi Cola was also in Russia
-He said, in so many words that it didn't really matter what type of Govt. as long as there was private interprise, or the U.S. could invest in the country relations would be better
-Said the U.S. had putbalot of funds in this area with no returns
-(ref. to Jonestown) parents think people are being held against there will. He said Jeff Hass didn't understand why Dick didn't act on his behalf

McCoy 2/4/78

-he said that at the State Dept they had asked about the decision and McCoy's Ambassador had said that we can't speculate on that as the case is in court and the attorneys are reputable
-he said the Judge Bishop is a hard nosed reputable judge so there is no problem
-he said they had just asked because if the case goes on and on they want to know how to answer
-Elizabeth Powers will be leaving to go to Saudia Arabia in May and Jack Beneke will replace her (McCoy doesn't know James Beneke)
-[illegible] he had told the State Dept about Jonestown and how people were held against their will and no people were taken etc, he said he had done so in great detail and we would be getting his first report under the freedom of info
-I asked about the second report and he said you have to apply again under the freedom of info act for each report
-he said he went so far as to tell the State dept (and he said we could quote him on this) that he didn't feel there was any use of an checking they were someone was held against their will and the US embassy checking on it as any more of this checking and it could charge them with harassment as he took courtesy people seriously and talked to them

-he said what he has gone thru with us is not unusual (in terms of people being worried about their children), he said he went thru the same thing in Israel when the war was on and American parents were worried they'd get hurt, and in Turkey and Yugoslavia/ young people travel and don't notify their parents for months - in fact he said he went thru "triple" what I went thru with you
-he said that they have to check somewhat because there was a TV documentary called "Passport to the unknown" which showed that the govt was not active in looking for people

AMERICAN INVOLVEMENT
-he said it was only justified when it's discrimination simply because some one is an American
-or it's a criminal case and there is physical brutality
-he said there has been a problem in certain countries (not Guyana) where there is the Napoleonic law (where someone is guilty until proven innocent) and the accusit in jail for 1 or 2 years (in no trial) (France, Belgium and Senator) - drug smugglers are often the ones charged but he felt they still should have a right to a trial

-when questioned by the State Dept he would say "I'm not in a position to say what we'd do in this decision", the State Dept would [illegible] that will keep them

90 CONGRESSMEN WHO STUDY NOTES AND WHICH ONES ARE MIA EXPERTS IN THE CASE AND NOTES
-interest didn't mean they were pro or con but they inquired
-Hyakawa wouldn't touch it, he said it's a case for the courts to deal with (we should write him our thanks for his objectivity, and it was this is impressive to McCoy because Hyakawa he thinks was admirable for taking on their school system (said he had guts) when it was out of hand
-Hatfield expressed an interest as did McClosky
-Lugar from Indiana expressed interest
-but most of those Congressmen who write (actually their staff also responded) not the congressmen themselves
-Clarke from Iowa, Church from Idaho (Senators), Cranston, Hart, Dole, Ryan, the Congressman from Oregon (?) didn't know the names, possibly Vice President Mondale but he isn't more about that

P-1-A-3c

-he said that even if the Amer. govt interceded on the part of ~~xxxxx~~ us, no-one could prove political intervention (I thought this was suspect tho I thought he said intervened on Stoen's part - and I don't think they would intervene on our part anyway), but I objected to this stating we'd know if they intervened on Stoen's part because we have people who are progressive who would tell us (he said you couldn't prove it either way
-we said in the outside waiting room what we were to say about the fact that it seemed they were trying (Amer. Embassy) but we didn't think they had enough administrative power (or whatever the wording would have me) but we'd probably have to die anyway/ Mike and Debbie forgot the instruction and when I sat down after our appt to get my stuff together and saw that, he said "can't we discuss this in the car" but Marcie picked up on it (he didn't leave us alone in his office so we couldn't say it there, and will probably have to do it again)

Luckhoo (3/4/76 Sharon, Mike, Marcie)
-re arrest order/ the judge still hasn't written the decision/ Luckho asked the judge
-the arrest order is applicable until the orders are rescinded/ there could still be a need to bring JJ to court (until the order is rescinded) ~~xxx~~
-re the immigration thing and their being told not to let the child leave the country, he said that legally there would be no problem in the child leaving/ he doesn't know of any statement to immigration that he shouldn't leave
-re precedent McCoy told us about to keep the child where it is, he said the child takes the domicile of his father (Stoen is the legal father), old English law
-the child is not nationalized Guyanese so that doesn't apply ~~xxxxxx~~ ~~xxxxxxxxxxxxx~~
-no restriction on John traveling

Abandonment is there a good case as McCoy said
-nothing can be done till the judge makes his decision on the basis of procedure/ all Grace has to do is say she wants her child back and it isn't considered abandonment ~~xx~~ (tho this doesn't mean Grace has a good case), but if abandonment was asserted, JJ would have to come in and make the case

-Luckho still thinks we have an excellent case but still asserts that he doesn't think we will win before this judge but will win in people
-re Guyana not going to the mill over the child and get saying that JJ or Joyce wouldn't be arrested/ he said McCoy hasn't a clue about the case, said we shouldn't go to a million people when we have an attorney (Luckho), we said McCoy had volunteered this info
-he said that McCoy should then convey to the PM this view
-he said Chief Justice Bollers was very impressed with our brow and that Bollers sympathies are with us
-he said we (Luckho said) we shouldn't lobby, this month he feels we will get a decision
-I asked if the judge had mentioned the letters ~~xx~~ that Stoens wrote to the judge and he said no
-Luckho hasn't talked to the PM about visiting Jonestown

McCoy 2/4/78 pg 2 P.I.A. 3 d

-Stoen claims the court order (Calif) is not being observed but McCoy told him that Calif. law is not even observed in Nevada or in another State and he pointed this out to Hawes who demanded that McCoy go in and take the child out
-he almost came to blows with Hawes and told him, "I'm not your employee, I'm not your agent"
-Hawes threatened McCoy and said he'd bring Congressmen in, McCoy said, "you can bring in the whole House of Representatives if you want to"

-some countries will make an agreement called "letters rogatory" to honor the laws from another country as binding, but that usually relates to criminal activity (like terrorism)

re the precedent of other countries not giving custody to someone in the US if the child lived in this country
-he said Israel never gave ~~xx~~ custody back because it meant another Israeli soldier, he didn't want to be quoted on this but it was only Hungary that gave the child back

-McCoy is going to replace Frank Tuminis
-Tuminis sent a file to McCoy with our letters in it (Laura Johnstons) etc
-after his Washington job, he'll go to Yugoslavia or Poland

YUGOSLAVIA
-he said it was a beautiful country, people are real nice "I never met a real communist there" (he feels the system of self-management in Yugoslavia is close to capitalism even tho the people there call themselves socialists
-some people live in big apts and drive Mercedes and have boats and there is a wealthy class and a poor class and ~~xxxxxxxxxxx~~ there is unemployment (but the Yugoslavians claim the people are lazy) and theire is welfare system
-low unemployment
-there is private ownership of housing/ they allow for free expression
-McCoy is very impressed with the Yugoslavians/ however he did say the police was oppressive
-and if you say anything against Tito you can be arrested for 2 yrs, Tito's wife is on house arrest for meddling with some group
-he said the US has a lot of joint investments in Yugoslavia, has 3 nuclear reactors there
-Dow Chemical has a joint venture with US, 600 million
-W in Yugoslavia there is even a US Chamber of Commerce
-US gives military aid to Yugoslavia and thinks of it as very important to our Eastern European policy as they are mavericks and are non-aligned

Bollers (Supreme Ct Judge) told McCoy that what's best for the child will be the decision
-however if you want to prove abandonment it's up to Joyce Bouchette because since she was awarded custody, she is the primary defendant and will one day have to appear in court to testify about the abandonment

re Guyana going to the wall on this case
-he can't see where any country would be involvedin a foreign policy dispute (where none of their own people were involved)
-I asked if this could be a "foreign policy dispute" and he said he doesn't think it would be a foreign policy dispute if we don't pressure and the ~~dexi~~ pressure all comes from their side (Stoen's lobbying) but I'm not sure about this
-he said that he and his ambassador have repeated and repeated to people that ~~they~~ it is American citizens on both sides
-only if it were a blatent denial of rights would there be a problem

Ms. Mary Murphy

Dear Ms. Murphy:

On behalf of Secretary Vance, I want to thank you for your communication concerning the custody case of John Victor Stoen, which is currently in the courts in Guyana.

All the parties to this case are American citizens. The parents of the child are on one side and the People's Temple, a California religious organization that also operates in Guyana, on the other.

Our Ambassador and his staff in Guyana have taken an interest in the case, but have emphasized that the interest of the United States is confined to assuring that the matter is fairly and impartially adjudicated in the courts strictly on its merits and without outside interference from any quarter. Consistent with this position, the Embassy has avoided taking any sides in what is essentially a civil dispute between two groups of Americans. Nor has any pressure been brought by the Embassy on the Government of Guyana or its courts, which have yet to rule on the matter, in favor of one side or the other.

The inquiries made by the American Embassy on behalf of the child's parents were normal protective services that any American citizen abroad could expect to receive from his government. The inquiries were not attempts to interfere in the internal affairs of Guyana and, indeed, have not been interpreted as such.

P.I.A-46

While we in the Department of State sympathize very much with Mr. and Mrs. Stoen in their efforts to regain custody of their son, regrettably there is little we can do to be of assistance. Neither the Department of State nor the courts of the State of California have the authority to enforce a U.S. court decision concerning the custody of John Victor as long as he is physically located outside of the United States. Child custody orders issued in the United States are normally not accepted for enforcement in another country on the basis of comity. While any American custody decision might be given evidentiary weight in the Guyanese proceeding, by no means will it be binding on that court.

Since the initiation of the custody suit in Georgetown, the Department of State and our Embassy in Guyana have been in close contact with the Stoens and their attorneys, both American and Guyanese. The Embassy has attended all court proceedings, when permitted to attend, and has assisted the Stoens in gaining access to Guyanese Government officials. The Embassy has regularly had conversations with the opposing attorneys and has spoken with Mr. Jim Jones, the head of the People's Temple. As Mr. Jones is also an American citizen and entitled to the same rights and protection as Mr. and Mrs. Stoen, the Embassy has been careful to avoid prejudicing the outcome of the dispute. It is the Embassy's responsibility to seek to ensure that the judicial outcome of the dispute results from a fair and impartial determination of the merits of the case, and all of our efforts are so directed.

Sincerely,

William D. Blair

Your representative, Mr. McCoy, came to check on me thru the interference of one of my relatives. I am 34, and am very happy on our Peoples Temple Agricultural Project and told him so. During Mr. McCoys visit myself and others on the project were told that the American Embassy took a neutral position on custody issues, and we later found out that the assistant to Mr. McCoy was directly supportive an attorney and taking sides in a specific custody case. I question this kind of involvement by the Embassy and I would like to see that the Embassy does keep a neutral course regarding custody matters. I feel it's inappropriate for such an agency to behave in this way and hope it will be corrected.

Dear Pop. P.1.B.1a

I was glad we talked the other night by phone patch because I hoped it would relieve some of your concern for me. I hope you can understand that from my perspective (being that I am 24 years old), it seems somewhat unfair for you to be making all kinds of demands, which seemed to me threats, especially when I told you the first time we talked that I alrea had plans to be in Venezuela with my fiancee at the time you said you were going to come to Georgetown. I guess I didn't explain myself that well, be over the airways, I was a little embarrased to go int a detailed explanation when you insisted on coming to s me in Venezuela where I would be with my boyfre I trust that now you see that I wanted to be al with him — not that I didn't want to see you. I told you the other night, if you want to come i Georgetown in a few weeks, fine. I'll see you.

However, there is one thing that really bothers and I think its best to say it now to kind of clear the air. I heard you came to the church San Francisco after I called you the other night and some of the things you said there, don't corre to what you told me on the phone patch. You mentioned that while in Washington, you had gone to see several congresspeople about me, and th is the opposite of what you told me on the ph patch when I asked you. Also — and what really bothers me, is that you said you had contacted that guy, Mayor, a man who is part of the con spiracy against the church. He has a criminal

record and is bent on destroying the church and everything liberals stand for - which is everything I stand for as well. Then there was something about you threatening to go to detectives. Maybe I got it wrong. I certainly hope so, because that kind of thing does not make for good relations between us.

I certainly do not want any bad feelings between us, and neither does the church. In fact, they thought it was my duty to reconcile differences and misunderstandings I have had with you - past and present. But I do want you to accept that as an adult, I have a right to be my own person, and make decisions about my life - including my travel plans, etc. You want us to have a relationship of trust, and so do I. You expect me to trust you about your illness, but at the same time you make, what appears to me to be threats and demands. I don't think your motivation was bad - you were probably just worried - but please try to see it from my side as well. Anyone my age, would react, I think, negatively when a parent makes those kinds of demands and seems to not understand that their child has a life of their own to lead.

Well, take care until I see you here when you and I can work out a convinient time. I'll talk to you on the radio - I know its awkward but its the fastest means of communication.

Love,
Maria

Dear Mary Lou -

How are you? I hope you found everything o.k. when you arrived. Our chief concern is your safety, so I can assure you that we are watching every minute and your Uncle Joe has his attorney also in the act. George Moscone, Treitus and many people here are also very interested. You see, I was absolutely floored when I read the papers. That is not my concern — your safety is!

It would be to Jimmy Jones advantage to send Mary Lou Clancy home.

Take care -

Love from

Dear Sir,

Sept. 14, 1977

A.C.

My name is Marylou Clancy and I am currently living at Peoples Temple Agricultural Mission in Guyana, S.A. I recieved recently a letter from my aunt, Mrs. Joseph P. Mizzone in which your name was mentioned and it may be of interest to you. (copy enclosed)

I wish to state that I am 23 yrs. old, I have been married for the past 4 yrs. and I would greatly appreciate it if my aunt would stop attempting to interfere with my personal life. This letter is an example of the same type of harassment that has been aimed towards Jim Jones and Peoples Temple in recent months.

I lived previously in Ukiah, California and worked there at the Ukiah Health Dept. as a Community Health Aide for 3 yrs. I have found great fulfillment here at the Agricultural Mission and I have no intentions of leaving in the near future.

Thank you for your time and attention.

Sincerely
Marylou Clancy

P-1-C

Dick McCoy 19/1/78 P.I.C. 1a

-he said there is no case, he discussed the situation with Tim Stoen and Tim is leaving tomorrow

-Tim admitted he did what we said he did at the airport, that he jabbed (verbally) at our members and that he has no reason to make a complaint against us

-Tim will come back for the next hearing but said he had to go back and make some money as he is running out of money

-the Commissioner told Dick that Tim made a report but there is no way to substantiate what Tim claimed our people did, they just entered Tim's complaint in the book, Tim Swinney's name was mentioned

-Tim can't substantiate that his life was threatened so the Commissioner wouldn't investigate it, he told Tim if he wanted, he could take it up with his local attorney

Peoples Temple?

P.I.C.I.G

SAN FRANCISCO (UPI) — Attorney Charles Garry, charging there is a government conspiracy to "destroy" the controversial Peoples Temple Church of San Francisco, said Thursday the Temple's pastor has been shot at twice in the past four days at the church's South American agricultural mission.

Garry revealed the attempted shootings at a news conference at which Indian leader Dennis Banks said a man claiming to be a government agent

In a sworn statement given to reporters, Banks said: "Conn said he was working with the U.S. Treasury Department, with an IRS agent and with two men from the San Francisco Police Department."

Banks, who said the church also provided food for the Indian community, charged that Conn "read material disparaging to Jim Jones ...

"He said that my association with Peoples Temple could reflect very badly on my extradition. He then asked

Dick McCoy telephone call 19/1/78

-has warned Tim Stoen not to do anything but abide by the court decision, he was warned there is a penalty if he does not (like kidnapping the child) M.C.I.C

-first when mentioned about the article about Tim Stoen in Berlin, he said people had free speech but when mentioned that he could disrupt relations between Guyana and US and do it just to exploit it for his own career and headlines, he said "Well he is working to try to discredit your organization"

-interestingly enough Dick McCoy, Mingo and Wills all made reference to these type of words "discredit your organization", don't know if they talked together or just all came out with the same conclusions

-Dick wanted to know what kind of article we were expecting to have in the paper of the Working People's Vangard, I thought he meant about the prior article and said well it just shows you because of the way they think / he said they were radical/ I agreed and said that's why they wrote against us/ he said he was wondering, and curious about what they would say

-since the next article is supposed to be positive or objective of us to present the other side as we protested, it might be a good idea to explain to Dick that the 2nd article was only as a result of the protest we made (hope the article won't be too radical for McCoy and others)

P.I.C. 2a

Dick McCoy 7/5/78 (Terri J, [redacted], DebBie B, Sharon)

-regarding Lela Murphy's passport they cancelled it today
-told him about the research company (Milly slipped andm mentioned the name, but I don't know that he picked up on it as he was reading some other paper at the time)
-told him that we were told by a high official that they may come for JJ not Wanda as Wanda is already being used as a pawn to get JJ to go to the US

-he said that courts will almost always rule in favor of the national even if not a citizen except once in Hungary andpossibly once in Yugoslavia but he didn't stay around to find out how the case came out in Yugoslavia
-our lawyere at one time questioned the right of Haas to represet Grace because Haas went into Jonestown with the court marshall but the judge ruled it was legal
-in the rule to enjoin Joyce to the case, our lawyer wanted it/ the opposition felt it was diffusing the issue/ the judge said it wasn't diffusing it because she had a legal paper (Joyce did)
-the longer the case goes on the more it become a cloudy issue/ he hasn't heard a word

-he said that the judge was a member of the HM's law firm at one time
-he said this kind of case where there is so much contention is not even a cut and dry case even in the US (they often have to do an investigation of the chid's situation)
-we asked if that was being done (an investigation) - Terri said would that be done in the US (to get background) - he said possibly but he hasn't been told and he thinks he would be told about it
-McCoy said that in terms of his objectivity in the case, he has even resisted the State Dept. from hurrying the decision up because people would say they influenced the case either way it came out (one side of the other would say that)
-regarding his replacement, his replacement and he will overlap so we have a chance to get to know him before McCoy leaves
-his new job, McCoy's, will be to replace Tuminia (this is a horizontal move, not upward) - I said "well you will be still working on our case" but he said "No I'll be out of the firing line in this job" - the only thing he'll have to decide is how to respond to Stoen and the Congressmen in terms of their questions
-he said that there has been a lot of pressure in this case but it hadn't done any good/ this judge is a first class professional, no-one will move him
-the longer the case takes, the more favorable to us/ in the beginning, the Stoens had a strong arguement, the birth certificate they had of John/ he said forgetting [redacted] (which I had mentioned bedause of the tragedy of John being put with such a person), he said that they had a strong case at first/ also they left the child only 8 mos. without one or the other of them as it was Feb or March 1977 when Tim left and this doesn't show parental neglect
-I asked what would have changed the judge's mind lately (if it was changed) and he said he doesn't know unless it was the govt.
-Terry J. said how she felt about it, with John being Lew's brother and the tragedy it would be as John is so happy here etc
-I asked if something should be done to get stronger arguements in or whether someone should talk to Lionel/ he said "No We don't have to explain to Lionel, he knows what he's doing."
-I asked what he could do (if he thought the case was unbalanced in the arguments being stronger for Stoens) - he said if the people on the other side were Guyanese, he could have gone further but said that's why he asked Lionel if the argumenents were given
(OVER)

b7C

P.1.C.2

-he said not only to Lionel but to others in the church at the time, his concern about someone going to court (Joyce or JJ) to make these arguments
-someone told Eddie Luckhoo about JJ being the real father but Eddie said "that won't sell" (that argument has no weight)
-when we stressed the great tragedy for John, he said "I have no reason to doubt what you tell me"

(by the way the Russians reported that they saw a man following them when we went to pick them up at the airport and drove home wih them/ Debbie Blakey said she reqognized the man downtown that was following the Russians, I went up to him and said he looked familiar to me (fri and he said his name was John Mirez and he worked at Geddes Grant/ he looked Portuguese rather than black or East Indian, was a rathe large man)

Sharon Amos

P.I.C. J

McCoy 5/78 Sharon, Debbie BX B, Terri Jones
(around 6/5/78)

-regarding the arrest order, he said he didn't see why there would be a problem for JJ as he is out of it/ Joyce is the legal guardian here/ the document left John in her custody
-when they rule about it, the judge will rule whether the child will be brought to court and turned over the the parents or Joyce will get the child, or there will be a decision on the arrest order
-regarding JJ coming to Georgetown (he suggested it might be safer if there was some plan Stoen has to get him (through the Research Association) (we didn't give the name Eureka) - I said that he couldn't come to Georgetown because of the arrest order and he said in terms of that they could arrest JJ in Jonestown just as much as in Georgetown
-anyway, he said, it is not a criminal charge, only for him to appear in court, not criminal like robbery etc.
-I said we'd rather die than have him arrested (Debbie B. objected to my statement, she said it should only be used when the whole project was threatened. I said this statement that JJ might have to be arrested would threaten the whole project (McCoy was reading something when we said this) - she said that McCoy wasn't giving his opinions but just stating facts that might happen
-he said that California Court orders are not enforceable here (Terri J asked him about this) tho they can be admitted as evidence
-he said that a 2nd order for arrest is pending now, with the judge on contempt (that's one of the things the judge is considering)
-if JJ deliberately avoids service, he would be obstructing justice/ Dick feels he ought to appear in court to state his side of the case but I asked if Joyce is the one now considered the legal guardian why would JJ have to come at all and he didn't know
-the attorney said it was a dead issue about the arrest (Luckhoo and even Stoen's attorney)
-he said that no matter what happens, the case is appealable, sometimes they pick up the child before the appeal, sometimes they don't (I asked about that)
-in Guyana normally the parents get the child/ I told him about how grevious this would be for John, the suicide etc., his being used as a pawn, he said he agrees it would be bad for John to be shuttled around (especially before the appeal is settled)
-he is not sure the judge is aware of the suicide tendencies of John when he is with Grace/ he got the impression Lionel didn't get it across/ one hearing the Judge said you have until Tuesdays to get further arguments in/ at that time there was only the presentation of the California ruling etc. not much for the case of JJ/ Dick doesn't know but doesn't think Lionel got the arguments in
-Dick McCoy said that Tim Stoen stated in his mailagram that JJ's political influence on this country was what affected this case/ he realizes this isn't true and he said he feels there is an independent judiciary tho all people have certain pressures
-this judge is known as a maverick judge, hard nosed independent judge

(by the way an addition to the paper on Fabian, the PR man for GDF and Peoples Militia and Info Ministry) - he told us that you are required to attend church every week in the military)

McCoy report by Tony Walker3~~2~~8/78
(Maria K, Tony W, Sharon A)

-we told McCoy about the press not giving us equal coverage and about the Chronicle wanting to maintain an image instead of printing our side and he seemed to be bored with hearing this. When we told him about the accusations that were made that we threatened a DA in LA, he said that if we had really done that, there would have been criminal proceedings and since there are no criminal proceedings, we have nothing to worry about. On the other hand Doug Ellis, them new counsel, seemed interested and willing to hear what we had to say

-we told him about TOS representing himself as an international socialist and TOS telling Bonnie Mann that JJ was a fascist. McCoy then got up and excused himself saying he doesn't get into politics and left us there talking to Doug. Doug seemed interested in hearing what was being said

-we asked Nick if he knew about the National Enquirer and he said yes that they had visit him and he refused to talk to them and told them of his comment (he made the comments to the State Dept and they see a matter of public record. Doug asked why we didn't let the Enquirer in and Maria told him we first knew of them after the plane incident that caused a lady to have a heart attack and that Sharon told them that Guyana was the one that had the preporters leave after one day because they were taking pictures of a military base

-we asked McCoy if he thinks Congress would be brought in against PT And he laughed and also Doug laughed at the question. Acted like it was stupid that the congress would get involved in our case because of amagazine. Well the question was posed to him later because I felt he misunderstood me the first time and he commented that he didn't think so because he is sure TOS and others have probably contacted Congress before and if they were going to do something they would have done it by now.

-Laxidazical attitude on the part of both is -y opinion. McCoy also said if they wanted to look into our case they could do this. McCoy seemed uninterested in the comme about the woman govt. official visiting Guyana andleaving her 3 children/ Doug also had the same attitude

Dick McCoy 3/8/78 (Maria K, Toni W., Wharon A)

-Dick introduced us to the new Consul ~~Daniel~~ Doug Eliis. he's a rather pudgy, youngish looking man, younger than Dick, maybe early 30's or late 20's, wears a moustache and beard and may be Jewish/ he used the expression "schlepp" - he smokes a pipe and looks like he wants to appear to be somewhat of a liberal

-seemed very interested in us, said he wanted to get to know more about us/ I'm sure we must be a fascinating thing to inherit. Listened intently when we explained about Jim being the father of John and the whole situation with Grace. When Dick wasn't there I told him that Dick had been very accessable to us when we needed to talk (thought that might condition him to what he'll have to go thru with us so he'll think he has to compete with Dick in being accessable)

-Maria asked if there was an airline strike, Dick said that there was a possible "kick out" at Timeri - and this was a CCWU strike/ that's the group that had a strike right after May Day and were 24 hr protest against the problems of the blackout, food etc. It isn't Pam Am or anything but if CCWU does strike it prevents unloading

-Toni told about the woman government official from the US who has been visiting in Jonestown and left her teenage children/ McCoy asked right away for her name and Maria said she worked for Disaster Relief

-~~Daniel~~ Doug said he was kind of concerned with the responsibility of so many people/ he said that if there was a national disaster or a war he'd be responsible to help all of us and he didn't know if he could do that with so many

-he was in the past in Europe mostly/ just came from Luxenbourg

-he said that he knows there's quite a bit of confusion with situations like this/ he said that in Europe there's similar situations, relatives get alarmed when children go abroad and the people abroad don't always help because they don't always write their parents and the distance always aggravates the situtiion also

-he said that he is concerned about births and deaths because that is his responsibility and it is a problem (if the man in the area isn't available)

-Maria gave him the passport of Chlotile Butler/ he asked again for the death certificate of Emmett Griffith and Maria explained that Herbie Thomas was supposed to make a duplicate / Dick was a bit upset that this wasn't completed before he left

-Maria asked if he knows any more about the National Enquirer. He said he didn't and he never did like that paper but when he goes back to the states (sounds like he was going to say he'd use it for toilee paper but he said about it not being very well thought of in the US anyway. He said he was mad at the National Enquirer Reporter and told him that too. He said they'd probably write him up badly as they felt he wasn't competent to say whether people were held against their will

-he turned to Tony (McCoy did) and said "are they breaking you in" meaning Maria and I

-I told about the National Enquirer reporters violating air space of Guyana and mentioned how McCoy had even advised them not to do this when they talked to him about flying from Guyana to Venezuela but stopping off to Jonestown and he said that they'd have to go along with whatever flight plan they filed.

-McCoy agreed he warned them about this but said it would be the pilot that would be penalized for this. He said it's not a restricted area (North West) but they have to file a flight plan

-his words about the National enquirer was "it's hardlon our most prestigious journal"

-Daniel said that he didn't know too much about us but he had heard we were controvercial. McCoy said that Daniel could read our file

-the matter of the custody case came up and Maria and I explained the background

of how John was born, how JJ had related to Grace at Marcie's request to save an interracial group/ the pain it caused him even a heart attack because Grace was so unstable/ [redacted] How Grace left John with JJ and once when she visited John she threw John at J saying "you keep him" - Maria told of the trauma to John, the sex in the other room while JOhn was locked up.

-the new man didn't say anything but listened intently with no criticism or no emotion, just interest.

-McCoy gave a overview of the legal situation, how Joyce Touchette was given a paper giving her legal right to have John in Guyana/ that usually in a case like this in terms of legal grounds, the Stoens would be on good ground, unless a man has acknowledged paternity legally. Usually the court has no choice but to give the child to the legal parents/ but he said in this case it is complicated

-he said Guyana law can accept a California Court order as evidence only as there is no agreement with the US about accepting US court orders

-he said that in regards to whether TOS is the natural father/ McCoy said that TOS told him, McCoy, he was the natural father but TOS told someone in the State Dept. that he was the spiritual father.

-he ~~told Daniel Ellis that Dick had thought of~~ inviting Lionel Luckhoo to meet Daniel/ Dick said to Daniel, "you ought to meet him" - to get more background

-Daniel wears wedding ring by the way

--regarding the case McCoy told Daniel that "you have to remember in this case that there are Americans on both sides"

-we were talking about what a tragedy it would be if John would have to return to Grace/ McCoy said that in eithercase (if either one wins) it would probably mean appeals. Daniel said "well if you win you'll hve to surrender the child" (I didn't know if we should mentioned we'd die first since it was his first meeting and McCoy's last one) - but we went into what a tragedy it would be forJohn and that he would be just used as a pawn in this case as neither parents were interested in John and if TOS cared so much for him why did he leave John in Guyana and go off. we told what a brilliant child John is and how he feels about Grace -

-in regards to the Nations Enquirer, McCoy said he never consents to talk to the press. He started by saying "I hve no faith in" but he didn't complete it. He said he feels he doesn't have to talk to them, especially not on the phone. He said the National Enquirer contacted the State Dept. the Bureau of Consular Affairs

-I showed him the articles again and asked if he'd put his comments on it/ he got irritated and said that he had told me he would give me his comments which is a lie. He was very adament about this and said it would do no good as he already wrote his official opinion which CHarles Garry could use whatever why he wants to and there is no point in writing anything further. He said that he wrote that people told him they were not being held againsttheir will and mcCoy gave them the opportunity to leave with him if they wished to but they didn't wish to/ that there was electricity, doctor, medical care, all the people were housed,

-he said he did say people were doing heavy labor but on a farm people do heavy labor so he saw nothing unusual about that

-he laughed about us sueing TOS for 50 million dollars and when we talked about TOS representing himself as an International Socialist and saying we weren't socialist enough and telling Bonnie Mann JJ is a fascist/ he got up and walked around/ didn't want to hear all that.

-regarding the trotskyites saying we threatened the LA DA - he said that if there was no criminal chargesh brought there were no threats as if we had made such threats there would be charges

-regarding the National Enquirer he said he would-ntt pay good money forit

-he said you have to prove there is something wrong, not just say we did something wrong

P.C.CG

-told him about Kathy Hunter (told Daniel this) and how she attacked Guyana and said that there was a picture of chair man Mao next to the PM/ Daniel said "well I did notice he had a Maoist jacket on" - told him how it was so unobjective that she didn't check out her material and that she had said the PM made a profit sellling the property to us

-talked about the racist lies,/ Kathy saying 2 black men raped her and forced liquor down her throat and how absurd this was as she is an alcoholic and certainly no black men would risk going into a racist community just to rape an old crippled alcoholic and I said that Bonnie Mann had told us that he had talked to a newspaper reporter who admitted Kathy was an alcoholic but he was going to print the article anyway and how this is what sensational press does, just to get attention as that is a typical ploy and they must have thought it was a dramatic story

-and said how Kathy Hunter had said "that in her heart she felt it was Peoples Temple who raped her" and how she accused u s of being involved in the fire incident at the Pegasus and we had been proven innocent of that according to Skip Roberts asst commissioner of police

-Daniel seemed amused at the Kathy Hunter story (her saying she was raped by two black men and that she had liquor poured down her throat) - he sort of nodded his head when I said that was a typical racial slur etc.

-Daniel and McCoy couldn't come out to Jonestown because of the plane not being able to land in Port Kaituma / and also there is some problem with the Guysuko plane and it may have to be brought to the US to be repaired

-Daniel may have to go to Mathews Ridge when he goes and then make the trip to Jonestown from there /

-regarding Congressional Pressure / could "they" get congress against us/ he said that he didn't see what more they could do/ TOS already contacted every senator. He said that there's very little Congressional pressure to do anything about Jonestown and he didn't think there would be/ he said "we certainly are not going to fight a war over John Stoen"

-When we said goodbye, Dick gave me a hug, pulled me close / Doug kind of stared as if he wondered if that was part of the job I had the feeling he was watching Dick to see how to model his realtionship with us but as I said before he was more interested at least in this first meeting.

-He was very surprised when I said I had a 21 year old daughter/ said I only looked 26 myself

McCoy Appt. 14/6/78 (Anita, Tim J, Sharon)

-we were chatting about people visiting us and it came up that it would be nice if we had a plane, he said we should get a plane as it would be far more convenient
-he mentioned that Maria K. was a pilot/ as Anita said she was a pilot and her brother is a pilot
-he was concerned about Herbie Thomas coming to PT as Herbie is supposed to come and McCoy is concerned about the births etc not being registered/ I said we were too
-he said Dick Dwyer took some pictures when he was up there in Jonestown and would show us the pictures
-he said he saw that our school was approved and that was good
-I told him about the case of Rozynko and what Vit said in his letter to Chris that McCoy had told him if Chris wanted to "run off" to the US, McCoy said he'd help him etc. (I didn't use the names but McCoy mentioned them as Vit had written him too)
-I asked if this was impartiality for him to tell Vit he'd help him etc,/ he said that Vit's words were unfortunate and it hadn't happened like that/ Vit had asked McCoy if his sons came to McCoy would McCoy help him get to the US/ McCoy said he'd help anyone get to the US if they requested to go and regarding the thing Vit said about McCoy not telling PT, McCoy said there is a privacy act that works both ways/ he doesn't tell people about PT and if people ask that PT not be told about their business like Vit or one of his sons if they were to come in, he has to equally respect that
-he said that many people have contacted the Embassy to get them to take some kind of judicial action against PT but the Embassy is not a "cop" the work is normal consular work and so the Embassy has always refused to do anything else even if people have accused them of protecting PT which people have done
-Chris and Mike signed the privacy act
-he said that there is no way forhim to force any American citizen to meet someone else but if they were to come in to him requesting help, he would have to do so if they asked him to assist them to go to the US
-but he didn't like Vit's choice of words "help you get out"
-he said that he avoids talking to anyone who talks bad about PT
-I asked then why did he sit with Debbie B. in the plane - he said "don't worry about that, I was only with her a few minutes, she sat in the back of the plane and I sat in the front." He said Debbie claimed at the Embassy that she was not going to get involved in any bad press against PT and didn't want to discuss PT
-I said that there were little barbs against PT in the press and I wondered if the American Embassy and State Dept. wanted to remain neutral, why did they deny the report that they wrote saying people could move around freely and appeared to be happy, why did they deny that and say it was taken out of context when it was mentioned to the press
-he said he didn't know that the State Dept did deny that, he said that he has written 50 times to the State Dept. that no-one is being held against their will and that everyone looks healthy and happy.
-I said we appreciated that but why couldn't he reply to actual lies that he knows are lies, making us look like we have barbed wire and that we have monitoring of all people by closed circuit TV etc. He said he knows this kind of thing they say is rediculous but he doesn't know what more he can do and it's just sensational journalism which sells paper
-I said I know that but the American system is based on principles of justice, and honesty and if we all don't work to see that these values persevere than how can we call ourselves good Americans (pretty heavy trip on him, huh?)
-he said that he could respond only if they first contacted him, and that for the same reason that we have problems with the press, he doesn't talk directly to the press. He said he talked to the man at the State Dept. that deals with the press and he thought he oriented the man to how to deal with us

USSR Cde. Kramarenko (Sharon, Sandy J) 13/6/78

-asked if they got any answers back about one of our leaders going to the USSR for medical care, he said they hadn't gotten enough information to submit that we only had told him about the diagnosis and he had asked for treatment that had been given and the entire history but hadn't received it and when he did receive it he would request immediately for an answer about treatment in the USSR
-I asked if he had heard about the answers on a delegation going to the USSR or answers from Moscow to our questions and he said that there was no answer to anything yet even when I asked about the reply to our sending letters to pen pals but he said that might take some time to assign the penpals etc.
-I asked him about exodus but he doesn't know anything about that and we really have to talk to the charge de affairs so I made an appointment but the day we got there, Wednesday 14/6/78 the charge de affairs Kathenko he said was sick and we'd have to make a new appt. or maybe meet with the Ambassador
-I said we'd like to meet with the Ambassador would that be possible, he said yes and told me to call back Monday 19/6. I did so and he told me the Ambassador wouldn't be able to meet with us but the Charge De Affairs would. (when they missed their appt. because the charge de affairs was ill, they didn't bother to notify us about it)

22/6/78 meeting with Charge De Affairs Kachinka and Cde. Sitcoff (Marcie, Anita, Sharon)
-we first showed them the written material of JJ's health/ they both read it intently and said they would submit it right away
-then showed him the attached written material which they both read intently, but they said they could not speculate on what the answer would be,

-that man is Mr. Henneke and he saw all of McCoy's reports so he would be able to respond to ~~the~~ any press inquiry
-I said it was ~~a~~ injust for the ~~p~~ State Dept to say the report~~s~~ was ~~j~~ used by us out of context because the context that was used was true and conveyed the report completely and didn't distort it and he said that was true and did seem unfair to him also
-regarding guns (when the message ~~that~~ was to tell him that they are saying we have guns and that's rediculous) - I told him all our crates have been inspected and there is no way we could have military equipment, he said he ~~h~~ never has reported that we have guns or any such~~xxxx~~ thing and that he told the police office that the US embassy had no knowledge of any wrong doing on the part of PT
-he said that any inquiry from people should be answered the way the State Dept answered Congressmen after they wrote, after Stoen wrote them~~xxxxxxxxxxxxxxxx~~ and the State Dept said some of what Stoen ~~xxxxxxxxxxxxxxx~~ said wasn't accurate
(with McCoy was a Mr. Holmes who is assisting him)

-Mr. Holmes laughed because when McCoy went out of the room he Mr. Holmes said,"don't you think you're being hard on Mr. McCoy?" I said "No, I don't - I said He doesn't think we need any defense and so he doesn't either." (He laughed at that)
-I said when we left,"Well you certainly couldn't say we were brain-washed as you can see we have our own minds" - they laughed at that too and McCoy put his hand on my shoulder
-McCoy said something about not getting his eggs and we said we were ~~xx~~ sorry, joking again, I said "well we don't get refreshments when we come here"and McCoy said "Next time you ~~g~~ come~~xxxxxx~~ I'll serve you a pepsi." (He offerred us one then but we had to go)
-regarding the news articles, he said if we bring ~~t~~him the article of lies he'll put his comments on it
-he also said that the material he has written, is going to our attorney as we had a released for information and we could publish it if we wish/ we said the problem is they don't publish what we say but we ~~w~~ will try/ and we have tried repeatedly but with no avail - ~~h~~e agrred that what is sensational ~~s~~ells
-said that the reason he won't talk to the press himself is that he knows how they splice you and tape you and don't print it carefully)
-he said that the paper he wrote to Charles Garry that we can publish mentions our concern about the conspiracy and his response to what he saw up there
-he said we should make an invitation to several reporters and he said he would concent to be interviewed by them
-McCoy recently talked to Bishop Aubrey and Bishop is going to be going on a long leave/ they were talking about football and Aubrey ~~w~~as in the US/ I asked if they talked about the Stoen case but he ~~s~~aid no
-he said PT should bring it to the State Dept's attention that we are not getting just coverage
-when he said he'd put his comments on the Chronicle article, he said he'd do it but said "it's like punching ~~xxx~~ air" (in other words trying to get the truth across to the American public is impossible)
-he is going to Trinidad Weds. 21/6/78, ~~m~~ake an appt to see us Tues 20/6

NOTES FROM THE LAST FRONTIER BY DICK TROPP

P.I.C. Da

[illegible] then on the [illegible] the days when Sir Walter [illegible] the [illegible] golden city. [illegible]

[illegible] Region of Guyana has a tropical climate, but it's [illegible] pleasant, tempered by trade winds. Even in the [illegible] more than two hours of rain a day. Though not a [illegible] sunshine, thanks to the trades and the 40-50% cloud cover, the heat [illegible] oppressive. Nights are in the upper 60's, cool enough for a light [illegible] I couldn't begin to describe the natural beauty of the wilderness, the still [illegible] that you can almost hear. The people in the capitol (Georgetown, about [illegible] miles away), actually call this part of the world "paradise."

The community I live in is located on one of the world's last frontiers: [illegible] forests near the Venezuela-Guyana border. Here, on seve[illegible] of virgin jungle allotted by the Guyana government in 1973, a gr[illegible] has been building an agricultural project. Already over a th[illegible] have been converted into cropland and pasture. Bananas, cassava, [illegible] vegetables, and beans of many varieties are being cultivated. [illegible] chickens, pigs, cattle, goats, ducks and rabbits. The community is the [illegible] of extensive experimentation with the aim of developing a continuously cropped [illegible] varied array of foodstuffs that will not only feed its nearly 1,000 [illegible] but will help boost the productivity of the surrounding region.

Perhaps more remarkable than the hundreds and hundreds of acres of tropical forest that are now producing food; more remarkable than the development of this lovely community out of virgin jungle, the housing construction, street [illegible] electric lighting, sanitary facilities, fruit trees planted everywhere, is the population of Jonestown. Almost one thousand people are here in 'Jonestown' and more come in every week. There are people here from every race, [illegible] background. Our farm supervisorial staff, for example, includes a Pomo Indian woman, a young man from Northunberland who grew up on a farm in the shadow of Roman ruins, a former county attorney from Northern California, a young man from the Philadelphia ghetto who, through the inspiration and help of Jim Jones, studied agronomy at Cal State, a young woman from rural Mississippi, a 55 year old farmer chemical engineer from a prominent family in Delaware, and an ex Mormon dairy farmer from Shasta County.

250 senior citizens, mostly black, mostly ghetto-dwellers who suffered from hypertension, are here finding a place of peace and beauty, a new lease on [illegible] The same goes for the over 200 teenagers and young adults who were unable to find the handle for their lives in the big cities. Here they have found something to put themselves into,a community to build, a challenging environment in a black nation.

The children have a future here. They are not, to use Paul Goodman's phrase, "growing up absurd." The world here makes sense. People are now part of a community, on land that is theirs, part of a purpose that is not confined to this community, but which is the pulse of the "third world." Here we have joined hearts, hands and minds with the Guyanese people in a massive effort to build a new society, based on the foundations of love and work, co-operation and equality.

P.1.C.P.G

The Peoples Temple Agricultural Project has become a model cooperation. Guyana has been trying to get her people to settle the rich interior here, to develop local resources, to move towards self-sufficiency and economic independence. We are doing just that out here, and in the process, as Americans, are building a kind of good will between the Caribbean peoples and our native United States. Government officials have praised our work highly. American officials have come and have been impressed. One of Guyana's highest ranking ministers, a man who has traveled the world as a spokesman for a non-aligned nations, and who has addressed the U.N. General Assembly on several occasions, was moved to tears by what has been accomplished here, by the total absence of racism, sexism, and 'ageism,' and the place of honor given to senior citizens and children, the meticulous care of our medical staff, the happy faces, friendly and open people who have taken Guyana, and her people and her goals to heart. Visitors are chartering planes to come here, to see this group of Americans who defy the stereotypes.

My main task in coming here was to organize a high school program for about 90 youngsters. Besides several levels of instruction in language skills, math, and social studies, we have put together a "community development institute" that embodies practical study and training in all areas of building this entirely "home-made" community. The students are involved directly in learning about every aspect of agriculture, sanitation, mechanics, construction, food processing, composting, power plant technology, even some civil engineering and surveying, and more. The development of the community is the "open air school that brings study and practical application together. Since the school program merges with the life-style here, there is no such thing as "irrelevance."

It has been the most exciting, challenging, and rewarding educational experience of my life.

The students include local (Amerindian) teenagers along with the American settlers. We have dramatic proof out here in the jungles that social and environmental conditions determine what children will be like, and can bring about profound characterological changes that are almost unbelievable.

I have seen "street" kids who craved only junk food, television and cars transformed, into gardeners, builders, scientists, leaders ... involved in constructive activity, regaining their health, eating and liking the natural foods here, developing confidence, responsibility, maturity. It is awe-inspiring to see them responding to the challenges of work and study in a culture, an environment that they can relate to. Some of the young people here were literally given up on by everyone -- even the juvenile authorities didn't want to deal with them.

I'd note that quite a few of them -- had they remained on the streets of San Francisco -- would have added hundreds of thousands, perhaps millions of dollars to what is being spent on programs for rehabilitation, and for the repair of vandalized property. Some of them were hell raisers and they would have no doubt helped to heat up the inner city.

I have also been working on a program for the senior citizens who have come h[illegible] to retire. The oldest, a woman whose parents were slaves in Virginia. [illegible] here in January. She took the up-river trip in our fishing boat, [illegible] to this beautiful, enchanting place. She will be 108 years old in [illegible] Another fellow here, who came three years ago when the original

P.I.G 8d

jungle acreage was being cleared, is 102. He remains active, by his own [illegible] making furniture in his own shop.

We just cannot get the old folks here to "retire". The place turns them on, makes them forget they're old. Their wealth of experience has helped in numerous ways to find some tried-and-true, home-made solutions to problems that the younger folks never knew about. We have now set up a kind of high school program for those adults and seniors who didn't receive the advantages of an education (many grew up as children of tenant farmers and migrants, and had practically no schooling). It is moving to see people in their 70's and 80's diligently studying. They have also organized their own handicrafts and art classes. Their work has been displayed for the many visitors who come to the community, already famous and highly-regarded throughout the country.

Visitors stream in here. Guyana officials, as well as Americans, such as California's Lt. Governor Merv Dymally, anxious to see what has been termed by the Guyanese as a "model of co-operation."

The amazing thing to practically all who come is not only the co-operative spirit, the comprehensive planning and management that has gone into the project (with no outside funding), but the total lack of racism here: blacks, whites, Amerindians, latinos, Orientals, everyone working together like a big family. We know it has been precisely this level of human co-operation that has made the project such a success.

I wanted to also remark on the extensive medical services we have been able to bring to the region. Our clinic has saved lives, and is doing wonders in preventing and controlling parasite-caused illnessed common to the tropics, such as gastroeneuritis.

The level of health care among residents here is very high -- higher than it was previously. The climate, diet, and peaceful, pressure-free surroundings have practically eliminated hypertension problems, kidney ailments, even heart problems among the elderly. A group of specialists and naturalists in the community have been working on herbal medicines, and we've had many successes - for example, with papaya, in healing sores.

I took a leave from the college for one year. I didn't know what I was going to do when the year was up. I cannot see anything in front of me now but to continue with the work that is going on here. I will doubtless return to the States at some time in the future, but now, that is far from my mind.

The beauty here; the sense of the unexplored; the challenges of building a new community; the children who today have a new lease on life; the older people who can finally live in peace, in a place that is in real sense theirs, where they can have a voice, a dignity; these are all compelling reasons for me to remain.

While it may seem that this jungle is a place of excape, a retreat from the modern world, it is quite the opposite: here all is growth, all is rebirth, new horizons, becoming, development, a future.

R[illegible]t? Here in the South American jungle, we are stepping forward into the challenge of finding a future for mankind.

P.I.C. 9.

--He had someone who is working there as temporary vice-counsel, Arland Holmes ~~xxx~~ sit in. I think he has people sit in now on our meetings as a witness, becuase last time I went in he had Dan Weber sit in.
--Depending on whether or not the GuySuco plane is repaired, he will be coming on Aug. 1 with the person who is going to replace him, Douglas Ellis. Will probably be able to take 1-3 people withhim if we want
--There are no social security situations that he needs to look in to, but does want to see Marshall Farris and one other person who's name he couldn't remember. He says it is no big deal, just routine enquiries that have been made (or so he says).
--He said that the National Enquirer is going to do an asticle on us, thatx it is already written and will probably be out in the next 2 or 3 issues. They had already ~~xxx~~ talked to Katsaris and written a story. (why can't we send them my lie detector test, and say I heard they talked to him, and put them on somekind of notice if they print anything. Of course that would only take care of Katsaris, and they still have everything else to write about. But at least it would be something.) He said that he did not say anything to them, and that not only did he not want to, but could not because of the privacy act. ~~X~~ He said the guy probably wants to kick himself because he had been in his office and had not mentioned anything about PT. McCoy said he would not have anyway because of the privacy act. The writer and the photographer had come in to see if McCoy could help get ~~xxxx~~ their stay extended since they had already gone through the normal channels and had been refused. They had been given only 24 hours. He told them there was nothing ~~xx~~ he could do and ~~xxxxx~~ besides that, the writer, Gorden Lindsey, was ~~x~~ British. (The photographer is American). McCoy told them to go to the British High Command. We asked him if he could do anything about the situation with the plane of course he said no. He ~~d~~ said the plane is from Trinidad, and the responsibility would be on the pilot, not the people who hired him. Also, he said that the International Civil Aeronautics Code is very lax and ~~xx~~ rarely enforced here. ~~xxxxx~~Planes in this part of the world often fly through each other airspace without filing a flight plan and that it is not as uptight a situation as say planes flying between east and western Europe. ~~M~~ He said the story would probably be a smear, but that it didn't make anydiffernce since it was just a rag.
--McCoy said that if he were ~~xx~~ asked to comment about Jonestown, he could tell ~~x~~ people things like there is electricty, there is a communal kitchen. He said he could say that he is free to move around and that it does not appear that people are being held against theri will. He said that he could not comment about situations like mine, because it is not something tangible that you can prove, just a psychological opinion. Also he said he would have to say that a person is not being held against their will if that is what they told him. It would make no difference if he beleived it or not, he would still have to say it.
--He would not put his comment on the bottom of either the Hunter or the Layton articles. We kept handing them to him and he kept saying he didn't have anything to say. (we will talk to him with the new instructions) He said it was untrue that Debbie ~~xxxxx~~ came in secretly, but that Dan Weber did give her a ride~~xx~~to the airport.
--Says that JJ and PT are often the subject of conversation at cocktail parties and around town. He said Guyanese talk a lot. There are people who like what ~~x~~ we are doing and then there are those who ask him things like is it true that JJ is wanted for murder in the US?, and if the rumors about the Pegasus are true, etc.

Meeting with the Mr. McCoy from the US embassy, on 2 ~~August~~ Sept. 1977-----

Laura Johnston

Issue- McCoy wanted to meet with me because my "mom" had written to the US Ambassador to Guyana and asked what was going on with me, and would they check on my health, general wellbeing.

McCoy's statements:

If there was an unofficial inquiry about someonw with PT in Guyana, He'd call the Georgetown office to confirm that they live here.

If there was an official inquiry from the Washington office, then he'll have to visit the person himself.

He recommended in his reprot to Washington that he visit every 6 months, since so many US citizens are there, and plans for his next trip in February, '78.

He said that he was very impressed with the hard work that has been done there, but that it isn't the life for him. He said that it was too isolated-- he couldn't jump in a car and move around if there, and on the other hand, ~~there was too~~-- he couldn't do his own thing there. He said that he is comfortable, and didn't like privations, tho he has been through some, like the marines for 4 years, and the Korean war, and he has chosen Guyana because he can work as a free agent here, in his own office and doing things his way-- not like some of the big embassies which have alot of supervision. He said that the US almost broke relations with Guyana last October, and he was the Charge'de Affairs, and at that time was tied to his desk. His predeccesor had had some problem, and he had been training 2 other staff, and he hadn't been able to visit when he would have liked to.

He said that the custody problems and the inquiry problems would continue, because for a group getting started in Guyana, not in the well-known parts of the world, parents got alarmed over not having more information. He said that Jim may or may not lose over the custody of John Stoen.

From McCoy to JIM---- McCoy told Washington that he had visited, and that he was impressed with Jonestown. He wrote them that everyone was free to come and go. People were happy, healthy and that even in his short visit, he saw that no one was fearful, and there were no armed guards. He wrote that much work had been done in 3 years, and that altho he couldn't know everything in just 2 1/2 hrs., none were ther involuntarily. Everything was in the open. He wrote tthat everyone was free to come and go, as with Broussard, who went to Fort Kaituma, to Matthews Ridge, and then into Georgetown, and is now awaiting travel arrangements home(In other words, he didn't know that Leon had left already.) He said that he couldn't state categorically that no one was beaten, but his own observations show that he couldn't categorically say that they were. THIS WAS HIS REPORT

He said that in with his regular visits every 6 mos. he'd take care of registering babies (must be done with in the first 5 years ofage), of seeing personally those getting social security-- requirement that they be seen yearly; and he'll notify us ahead of time when he plans to visit so we can organize that part. Also, we must notify him of any deaths.

He has 7000 applications for visas to US, out of a country of 88000- 10% he pointed out.

He said that he asked Carolyn Looman if she wanted to go, when they were in private, and he had his vehicle right there, and she said no. He said that he included this in a report.

P.1.C.106

He said that the Embassy could be helpful to us if we had a medical emergency and needed GDF to get someone out, or if someone had an emergency in the US that they had to go back for, or if someone had to go to Trinidad for a medical problem, etc. He said that the Embassy didn't just look into people's lives, that it would be helpful.

He said that Jim was very, very upset about the custody contacts, and the inquiries, and said that McCoy's own feelings were that he wouldn't investigate custody unless officially asked to because he felt that if we were able to get passports for the children, that obviously the parents had participated in that.

He said that if a lawyer, or a private investigator asked him to extradite someone on a charge, or for investigation, he would not, only if an "official court" sent him word would he turn the matter into the Guyanese officials for returning a person to the US.

A man from the US has called him, and talked to him since he's returned fromfrom J/tn. When McCoy told him that he'd been impressed, the man didn't want to hear that. He said that the man had given him a list of names, he couldn't place the letter right then, but he wasnt too worried about it, of children that were problems with custody. He said that he'd told the man his honest opinion.

McCoy said that he didn't like J/tn for himself because he didn't like cooperative living for himself. /He/

He mentioned Joyce several times- not by her name, but as the medical practitioner. He mentioned in the context of the help the embassy could be-- that he'd noticed alot of seniors there, and also alot of children.

McCoy 2/4/78 P.I.C. 11a

-he said that at the State Dept they had asked about the decision and McCoy's Ambassador had said that we can't speculate on that as the case is in court and the attorneys are reputable
-he said the Judge Bishop is a hard nosed reputable judge so there is no problem
-he said they had just asked becuase if the case goes on and on they want to know how to answer
-Elizabeth Powers will be leaving to go to Saudia Arabia in May and James Heneke will replace her (McCoy doesn't know James Heneke)
-I asked if he had told the State Dept about Jonestown and how no-one was held against their will and how people were happy etc, he said he had done so in great detail and we would be getting his first report (thru the freedom of inf)
-I asked about the 2nd report and he said you have to apply again under the freedom of info act for each report
-he said he went so far as to tell the State dppt (and he said we could quote him on this) that he didn't feel there was any use of anyone saying someone was was held against their will and the US embassy checking on it as any more of this checking, and PT could charge them with harassment as he took countless people aside and talked to them

-he said what he has gone thru with us is not unusual (in terms of people being worried about their children), he said he went thru the same thing in Israel when the war was on and American parents were worried they'd get hurt, and in turkey and Yugoslavia/ young people travel and don't notify their parents for months - in fact he said he went thru "triple" what I went thru with you
-he said that they have to check somewhat because there was a TV documentary called "Passport to the unknown" which showed that the govt was not active in looking for people

AMERICAN INVOLVEMENT
-he said it was only justified when it's discrimination simply because someone is an American
-or it's a criminal case and there is physical brutality
-he said there has been a problem in certain countries (not Guyana) where there is the Mnopolianic law (where someone is guilty until proven innocent) and they can sit in jail for 1 or 2 years with no trial (like France, Bolitiva and Ecuador) - drug smugglers are often the ones charged but he felt they still should have a right to a trial

-when questioned by the State Dept he would say "I'm not in a position to say what we'd do in this decision", /the State Dept wants to know what will happen too/ this is strange

90 CONGRESSMAN WHO STOEN WROTE AND WHICH ONES WERE "INTERESTED" IN THE CASE AND WROTE
-interest didn't mean they were pro or con but they inquired
-Hyakawa wouldn't touch it, he said it's a case for the courts to deal with (we should write him our thanks for his objectivity, and I'M sure this im impressive to McCoy because Hyakawa he thinks was admirable for taking on them school system (said he had guts) when it was out of hand
-Hatfield expressed an interest as did McCloskey
-Lugar from Indiana expressed interest
-but most of these Congressmen who wrote (actually their staff aids responded) not the congressmen themselves
-Clarke from Iowa, Church from Idaho (Senator), Cranston, Max Dellums, Ryan, the Congressman from Oregon (He didn't know the name), possibly Vice President Mondale, but he isn't sure about that

 P.I.C.//c

-Stoen claims the court order (Calif) is not being observed but McCoy told him that Calif. law is not even observed in Nevada or in another State and he pointed this out to Hawes who demanded that McCoy go in and take the child out
-he almost came to blows wigh Hawes and told him, "I'm not your employee, I'M not your agent"
-Hawes threatened McCoy and said he'd bring Congressmen in, McCoy said, "you can bring in the whole House of Representatives if you want to"

-some countries will make an agreement called "lutters Rogatory " to honor the laws from another country as binding, but that usually relates to criminal activity (like terrorism)

re the precedent of other countries not giving custody to someone in the US if the child lived in this country
-he said Israel never gave xx custody back because it meant another Israeli soldier, he didn't want to be quoted on this but it was only Hungary that gave the child back

McCoy is going to replace Frank Tuminia
-Tuminia sent a file to McCoy with our letters in it (Laura Johnstons)etc
-after his Washington job, he'll go to Yugoslavia or Poland

YUGOSLAVIA
-he said it was a beautiful country, people are real nice "I never met a real communist there" (he feels the system of self-management in Yugoslavia is close to capitalism even tho the people there call themselves socialists
-some people live in big apts and drive Mercedes and have boats and there is a wealthy class and a poor class and xxxxxxxxxxxx xx there is unemployment (but the Yugoslavians claim the people are lazy) and theire is welfare system
-16% unemployment
-there is private ownership of housing/ they allow for free expression
-McCoy is very impressed with the Yugoslavians/ however he did say the police was oppressive
-and if you say anything against Tito you can be arrested for 2 yrs, Tito's wife is on house arrest for meddling with some group
-he said the US has a lot of joint investments in Yugoslavia, has 3 nuclear reactors there
-Dow Chemical has a joint venture with US, 600 million
-H in Yugoslavka there is even a US Chamber of Commerce
-US gives military aid to Yugoslavia and thinks of it as very important to our Eastern European policy as they are mavericks and are non-alligned

Bollers (Supreme Ct Judge) told McCoy that what's best for the child will be the decision
-however if you want to prove abandonment it's up to Joyce Touchette because since she was awarded custody, she is the primary defendant and will one day have to appear in court to testify about the abandonment

re Guyana going to the wall on this case
-he can't see where any country would be involvedin a foreign policy dispute (where none of their own people were involved)
-I asked if this would be a "foreign policy dispute" and he said he doesn't think it would be a foreign policy dispute if we don't pressure and the kxxi pressure all comes from their side (Stoen's lobbying) but I'm not sure about this
-he said that he and his ambassador have repeated and repeated to people that thxxkxk it is American citizens on both sides
-only if it were a blatent denial of rightsx would there be a problem

-he said that even if the Amer. govt interceeded on the part of us no-one could prove political intervention (I thought this was suspect tho I thought he said intervened on Stoen's part - and I don't think they would intervene on our part anyway), but I objected to this stating we'd know if they intervened on Stoen's part because we have people who are progressive who would tell us (he said you couldn't prove it either way)
-we said in the outside waiting room what we were to say about the fact that it seemed they were trying (Amer. Embassy) but we didn't think they had enough administrative power (or whatever the wording Paula gave me) but we'd probably have to die anyway/ Mike and Debbie forgot the instruction and when I sat down after our appt to get my stuff together and say that, they said "can't we discuss this in the car" but Marcie picked up on it (he didn't leave us alone in his office so we couldn't say it there, and will probably have to do it again)

Luckhoo (3/4/78 Sharon, Mike, Marcie) (he only could give us 5 minutes - had to leave to
-re arrest order/ the judge still hasn't written the decision/ Luckho asked the judge
-the arrest order is applicable until the orders are rescinded/ there co still be a need to bring JJ to court (until the order is rescinded)
-re the immigration thing and their being told not to let the child leav the country, he said that legally there would be no problem with the child leaving/ he doesn't know of any statement to immigration that he shouldn't leave
-re precedent McCoy told us about to keep the child where it is, he said the child takes the domicile of his father (Stoen is the legal father), Old English law
-the child is not nationalized Guyanese so that doesn't apply
-no restriction on John traveling

Abandonment Is there a good case as McCoy said
-nothing can be done till the judge makes his decision on the basis of proceedure/ all Grace had to do is say she wants her child back and it isn't considered abandonment (tho this doesn't mean Grace has a good case), but if abandonment was asserted, JJ would have to come in and make the case

-Luckho still thinks we have an excellent case but still asserts that he doesn't think we will win before this judge but will win in appeals
-re Guyana not going to the wall over the child and yet saying that JJ or Joyce wouldn't be arrested/ he said McCoy hasn't a clue about the case, said we shouldn't go to a million people when we have an attorney (Luckho), we said mc Coy had volunteered this info
-he said that McCoy should then convey to the PM his views
-he said Chief Justice Bollers was very impressed with our show and that Bollers sympathies are with us
-he said we (Luckho said) we shouldn't lobby, this month he feels we will get a decision
-I asked if the judge had mentioned the letters that Stoens wrote to the judge and he said no
-Luckho hasn't talked to the PM about visiting Jonestown

Appt. with Dick McCoy
Friday May 10,
Terry and Debbie.

P.1.C.12

When I got there Debbie was waiting for me inside the Embassy, she had supposedly been doing Carolyns tax clearance. We went in and I gave him the bottle of whiskey and he declined saying he didn't drink because of stomach problems, I said we'll make you something he said no, no need to, I said "Well we appreciate you staying netral in these times. He said "I'm only doing my job, there have been times in the past when you haven't liked what I did and there will be times in the future I'm sure. We then took care of Lisa's divorce papers and picked up Sandys passport. Then I started talking about the mercenary situation trying to get him to talk about what he said before about the guns, his whole attitude was differnt he was cooler he approached the whole thing differnily by quoting alot of rules and regulations he said we would have to depend on the protectionof the police in Matthews Ridge or get on the radio and call for help. We continued like this fro a bit and he wasn't even getting warm to the subject of us protection ourselves so I said well Dick you know what, I've been thinking about what you said and he said very quickly "I know what your speaking of forget about it, I only said it in jest because I didn't take the situation seriously forget about it you can't do that. At that point I jest eased out of it and talked of something general like the fact he will be able to see his kids and the muddy road in Jonestown. He looked at my purse several times. When we got out of there I told Debbie it seemed like he knew exactly why I went in there, she said it was obvious that he did because of how he responeded to you. I asked here why didn't you say anything she shrugged her shoulders and said I didn't have anything to say. It kept bugging me because he was so totally differnt I felt like I must be really unpolished and I totally blew it. Now I'm sure, or I think it is a very good likelyhood that Debbie told him what I was coming in there for since she had spent the whole day there getting her passport.

BLACKAN AND MC COY(with Marcie)

-Blackan had McCoy sit in when Blackan saw Marcie

-Blackan said he was leaving soon and later Dick McCoy will be leaving/ the Ambassador Burke will be picking out new replacements right now in Washington

-when we said about the Stoen case that it would kill JJ if John was taken from him and returned to that horrible environment, Blackan said you have to weighx the whole group against John/ Marcie and I cried, burst out in tears and said we couldn't sadrifice this child - on moral grounds/ to his certain death

-he Blackan said he could understand our emotional feelings but US couldn't do anytihgng about that/ they have to stay out of it either way

-Blackan was pleased to hear our people (and JJ) had heard him on the radio and that Jim praised him for getting the Ripkin award

-he said he and the Embassy were here to help, but had to help all Americans regardless of what side they were on and if there is a violation (like with the Stoens being ousted) they have to help but they can do ~~xx~~ no more than that

-we told him no-one would replace him with us, and Dick too

DEAR FRIENDS:

The enclosed letter is sent to you from the stateside office of Peoples Temple Disciples of Christ and Bishop Jim Jones. Our church is, as you may already know, currently building a highly successful agricultural cooperative in Guyana's Northwest Region.

We have enclosed, for your information, an article written by our attorney, Charles Garry, about his first-hand impressions of the agricultral mission from his recent visit there. Mr. Garry is considered to be the greatest U.S. civil rights attorney and has helped a great number of especially black and minority defendants and political prisoners throughout his brilliant career. He was extremely impressed with everything he saw: with the country of Guyana, the many government leaders he met, and with the amazing progress of the Peoples Temple agricultural project under the direction of Bishop Jones.

Enclosed, also, is a statement by a highly trained social worker who has chosen to move to Guyana from the United States, Ms. Sharon Amos. Ms. Amos has three children in the Jonestown project and now resides there herself. As her report will show, she raves about the fullness and security of the cooperative lifestyle there.

Thirdly, and probably most important, we wanted to share with you a copy of the letter which the Lieutenant Governor of the State of California, Mr. Mervyn Dymally, sent to Prime Minister Forbes Burnham. The letter will speak for itself. It deals with the terrible realities of a conspiracy, a politically motivated attempt on the part of reactionary forces within the U.S. to render ineffective the progressive, socialist teachings and example of the Bishop Jim Jones. We are not the only ones to have suffered this kind of persecution. Martin Luther King, Malcolm X, John and Robert Kennedy, Black Panther Party leader Huey Newton, American Indian Movement leader Dennis Banks -- even as far back as Sacco and Vanzetti and the Rosenbergs-- people who have espoused progressive and collectivist views in this country have been subject to the extremes of harassment and in some cases even death.

McCoy phone converastion (before the resolution after we talked to him about it being unfair for JJ to have an arrest order and Tim stoen allowed to be free to be in Guyana and why didn't he do something about it

-he said that he realized after we talked to him that we were not completely satisfied after we left
-he said that the Embassy is not against you
-Nick told the Ambassador that it would be a good idea if he met with us
-he is sorry he didn't do more about J's arrest order, he wasn't as active in Sept., still was feeling his way in his job. he does understand our feelings, can't explain why he did not become more active in that
-congressmen haven't corresponded directly to the US Embassy in Guyana but it was the State Dept that wrote 2 telegrams asking if Guyana will intervene against the Stoens
-Haas is a lunatic, will immediately try to get the US to take a stand if there is a loss/ Haas won't accept a loss
-Haas told Dick that PT has people in its pocket, Dick said "prove it", Haas didn't give specifics. He said that PT dropped money to people who were influential to get to the judge
-Dick is trying to convince congressmen that PT isn't holding people against their will
-said the affidavit Tim SToen signed, our attorney should try to get it in court according to the ambassador/ Stoens have appeared to be the aggreived party up to now but Dick says this puts a different light on it
-he said he'd make a report on this to Washington (tims affidavit)
-he'll also put it in his file and will show it to the Ambassador
-Haas said it is not the influence of PT but the influence of the govt of Guyana that is the problem in the Stoen case (this appears to be a contradiction to his saying we are paying off people)
-The telegram from the State Dept says that they are apprehensive that Grace Stoen won't get a fair hearing in Guyana
-it was mentioned to him that Tim Stoen is trying to disrupt US/Guyanese relations/ the article about East Berlin was mentioned and how he tries to get headlines this way.
-Dick said he is fed up with this whole case too, he agreed it was not fair when we told him that Hass is pushing and gets all these contacts and starts all the trouble
-Nick said that when Nick first arrived here he had an appt with Wills and Haas was there and Wills did say he agreed with Haas that the child should be with the mother but said Wills has changed his mind since then
-Clarence Hewes, the Stoen's attorney says now, he made a statement that he was satisfied with the judge and feels the trial wouldn't be open to Govt. Interference (Dick talked to him to be sure about this)
-if Haas tries to create a big stink about govt. interference, Nick can mentioned this statement of Hewes, and that 's why he talked to hewes
-he said Haas is a lobbyist and he is not sure the Amer. Ambassador would go along with any attempts of his to pressure
-when they got a telegram about Dana Griffith, Dick called the State Dept and they wanted McCoy to send Dana back. But Nick said he couldn't do that, he said the child would have to have come in legally to get a passport and that you can't deal with this peejudicishly. His Ambassador agreed with this. The Ambassador went to the US Xmas and talked to the Director, OFFICER OF CARIBBEAN AFFAIRS (he thinks the name is Toddman) - he's a low level bureaucrat
-Nick said his ambassador is a "career diplomat", he does have to reply to Congressional Inquiries

CALL TO DICK MC COY ABOUT BRINDLEY BEN AND THE ARTICLE IN THE WORKING PEOPLES VANDGARD 21/1/78

-we asked him how he knew an article was coming out in the vandgard and he said someother Embassy Officer had told him, said it was just a rumour/claimed
-he didn't remember which officer
-said he does know Benn well, his son and daughter are in the US and he's come to Dick for visas etc.
-said Brindly is a radical closely allighed with the Chinese
-said Brindley used to be in the PPP and broke with it 14 years ago, he was the Minister of Health in Jagan's govt.
-know Brindley has a farm and grows pigs and chickens
-Brindley is allighned with U.C. Kwayuna and the Rampersard Defense Committee which is an alliance of black and East Indians (Rampersard was accused of killing a policeman on Quarantee Rd, was declared on guilty)
-also is alligned with the Working Peoples Alliance and people that united for the Boxside strike
-people working with Benn are Malcolm Rodriquest a priest, and Walter Rodney a former teacher (Paula met someone who knows Walter Rodney well and talked at length to this man
-Benn was in the Dryclean trial which involved the fact that his newspaper is not legal in Guyana but he publishes it anyway, the govt dropped the charges, also with him on this was Thelma Reese
-he said that Benn's paper and the PPP paper all have a funny way of distorting things
-he suggested we contact Carl Backmon of the Guyana Chronicle and ask if we can print a retraction in the Chronicle
-Benn always criticizes the US for it's policy of aid to Guyana (not enough money)
-he said the PPP paper the Mirror comes up with charges and say they want police to investigate but someone has to make a complaint, can't investigate otherwise
-we said he did go in and talked to the Commissioner, Nick said the commissioner told Nick when Nick called him that he'd always be glad to talk to us
--Nick says Benn claims to have 10,000 people around the country of Guyana (support) but Nick doubts it
-Nick says Interpol is just an international police. farfetched about them being out to get anyone, they are just a clearing house located or prior were located in Paris
-said the Interpol has no enforcement authority, says they are just designed to help countries and protect them from international terrorism, said that even USSR, Cuba, VEnezuela. Turkey, US, middle east, Yugoslavia use it (Tim said that most of the funding is from the US and they can disseminate false info and that it was started in Nazi Germany by Goebbels), Nick said that maybe so but organizations can change
-Nick said he never heard any reference to us in Interpol, and if there were any law enforcemtn agencies in the US actively pursuing investigation or warrents out for us he would have heard of us and he didn't
-I asked if he had contacted Foreign Affairs about his neutrality, he said he talked to Minister Wills and told him that Nick was neutral on the Stoen case and Wills agreed
-he reminded us of our appt. with the amer. Ambassador Monday at 3:30/ said it was just a chanee to get acquainted, said the Ambassador was bright and hard-nosed
-re Benn being willing to use the CIA, he said Benn would use anyone he could. that's why US has contact with China etc. not because they are alligned
-Ben's group (not necessarily him personally) once came to the Amer. Embassy and asked for CIA assistance to help overthrow the govt. of Guyana

DICK MC COY appt with Marcie, Tim, Sharon, Terri, ~~Jocyln~~ Mon 20/2/78

-he said that in relation to Hoyt that care in Guyana, health care, is a big scandle and that Hoyt or certain govt elements might feel that if we appear to be the only ones doing anything it culd be used by the PPP to hammer the govt.
-Hoyt he said has a good reputation for being an honest man, Blacken knows him, he is one of the better ministers
-He said that in terms of the US, the US built the Gangi River Bridge (but at the appt with Blacken where Dick McCoy was present he said the bridge was a joing venture with the Guyanese) / he said that the US didn't get any credit for the Gangi River Bridge
-he said that Guyana is newly independent and is very jealous of anyone's ability to do things - whether black or whiate Americans are intimidating
-he said the Guyanese are very sensitive in this regard, they are happy to have us here because of our disciplined production but we are not the same as Guyanase to them (he was generalizing here, any American is not the same)
-he said even Americans who are close friends x of the PM, are still thought of as Americans / he said they are not going to throw you out

-we asked for his suggestions as we want to improve/ he said that there is a man Victor Forsythe who is in the Ministry of Info and Culture who maybe could help us know what to say in news releases etc.
-he said that people think we are crazy to leave the US, they can't understand why a grpup of Americans would leave the comforts of US to live in the jungle/we mentioned our desire to help and that we thought Guyana has potentialities/ it was kind of surprising to me but he said, "We of the US Govt think Guyana has a great future also. There's room to grow here." (room because it isn't crowded and needs more population)
-he mentioned again in regards the article in the paper and Hoyt's reaction that he (McCoy) had heard us say we build the best houses in Guyana (I said that couldn't have been said) but McCoy still thinks he heard it/ but he referred again to us saying we have a medical facility that serves allof the Northwest.
-he said that our group is looked at as a communal organization that is socialistic I said well it's not in political terms, we base our group on the acts of the Apostles where all shared w what they have. He said "yes, I could say it was like an Israeli Kibbutz too" but it is ~~xxxxxxxx~~ seen as a socialmist structure and no x just the typical religious organization
-he said that even in Parliament this could come up and does the subject of Americans (and our claims for what we're doing)
-but he felt that Hoyt was obviously angry at Carl Blackmon for letting it go in, the govt. is on shaky economic grounds/ there are all kinds of rumors going aroun and the govt. is very sensitive/ it's not the master of it's own house. and knows it's not doing all it can for the people/ atrocious medical facilities in the Nort West. The govt. wants to intimate it can take care of the people & yet people ar starving. He knows for a fact from people in the North West (or that know the Northwest that there is not a lot of food going into the Northwest. And there is the problem of Guyanese people being redeployed
-he said that John obviously resembles JJ/ he said nobody knows yet how the Stoen case will come out. Several weeks ago he talked to Stoen's attorney and the attorney seemed to understand that the Judge's calendar was just full
-He said that in Guyan ese law the father who is not married to the mother has no claim to the child. A father who wants to bring a child to the US (who isn't legally married to the mother) has to adopt the child (Infancy act). If the moth and father are not married, the father has no claim to the child
-however he said when he was in Israel and Yugoslavia and there was a parent or relative with a child w and someone from another country wanted the child returned (like the USO they couldn't get the child out because the relative or parent with the child would say that the child was there in the country and the child was a citizen/ most countries like to think a child is better off in their country

Jones named Outstanding Clergyman

Pastor Jim V. Jones of Peoples Temple Christian Church was recently named one of the 100 most outstanding clergymen in the nation by "Religion In America", an inter-faith organization

The award was made in recognition of Pastor Jones' guidance and inspiration in establishing the many humanitarian programs and facilities in Peoples Temple that attempt to meet every type of human need.

PASTOR JIM JONES

Peoples Temple extends throughout California with members in virtually every large city, who travel in the church's fleet of Greyhound-type buses to worship services at the Temples in Los Angeles, San Francisco, and the local facility in Redwood Valley.

The ministry is known for responding to both public and private appeals for assistance, giving strong support particularly to the local school system and law enforcement.

The Temple has rehabilitated over 175 young people from hard-line drug habits and educated many local residents through its college program.

Ronald Crawford is one young man who grew up in Ukiah and had to be rescued from the drug world. His rehabilitation by the Temple was so successful that he is now on the dean's list in law school. His living expenses and education are fully sponsored by the inter-racial church.

A young woman, Paula Adams, who was reared locally as a Lutheran and still holds her faith precious, saw Peoples Temple as a means of human service and is now helping to coordinate its agricultural mission in South America. During a recent visit home, she talked with her Lutheran pastor about her appreciation of the fine background she had in his church where the emphasis on Christ and the teachings of service prepared her for the inter-faith mission that Peoples Temple is operating.

Pastor Jones was also honored this month by a full page article in a large newspaper where he was born and reared in the midwest, and served all of his life before coming to California.

The story gave a history of Peoples Temple, detailing its wide-ranging program, and also related an amusing incident that happened when Pastor Jones was a child. In 1938, when Jim Jones was just six-years old, he and his mother encountered a ragged-looking tramp, who told the child, "Son I don't have a friend in the world — I'm ready to give up." The boy responded firmly "What do you mean mister? God's your friend. I'm your friend. And Mom will find you a job."

That's one story Mrs. Lynetta Jones, who still lives with her son in Redwood Valley, will never forget, because that's just what she ended up doing.

than to be removed/ xonly in Hungary when he was there did a child get sent back to the US

-McCoy when we mentioned all the difficult situations for John when he was with Grace said, "I admit as a father xit's a strange situation" (For John to be with Grace)

-he talked to the Chief Justice of the Supreme Court and a couple of other justices to see how the case was proceeing and they said they couldn't say but it would be decided on what is best for the child

-he said that they are taking pains not to show they are baised (all he talked to in the legal field) but they will say the number of years the child has been where he is / he said that there is no precedent for this kind of case / it's a question of the "legal" parents versus what's best for the child and if the first presumption of the legality of the parents to have the child is presumed not to be in the best interest than that might be the answer

-he said that Bentley Benn was involved x in the Bauxite Workers strike in Nov. 1976 and he said that all thex groups were there to embarrass the govt. and there was tear gassing and all/ the workers there were all black x so it was a bad situation to have the strikers striking and causing difficulty and the workers being all black / McCoy said we ought to ignore him (we said we were doing so)

-he said the govt. is very sensitive right now because of economics and lay offs

-he tried to probe us/ asked if any other Embassys had visited us, like the Canadians, the Cubans, the Russians (I said No they hadn't) and he went on about how the Canadians were doing a project with forestry (apparently they are helping the govt of Guyana with this) but apparently Dick is either watching us at the Russian and Cuban Embassy which wills told us they were or monitoring our radio which Wills said they do (I noticed a radio antenae at x the American Embassy)

How FBI Harassed Bay Area

From Page 23

reports to Washington on the strike were based on daily newspaper reports of the trouble.

FBI director J. Edgar Hoover himself vetoed a suggestion by the San Francisco office to print and distribute 40,000 leaflets to sow anger and confusion between the New Mobilization Committee to End the War and the Socialist Workers party, sponsors of the huge anti-war rally and march from downtown San Francisco to Golden Gate Park.

In turning down the proposal, Hoover expressed fear that the pamphlets might be traced to the FBI. Washington did not give approval to a scaled-down plan that called for mailing anonymous letters to local activists claiming the Socialist Workers were frozen out of the planning for the rally and march.

Another letter, aimed at dividing white and black activists, was drafted by FBI agents and sent to the Black Panther party newspaper. In part, the letter read:

"What's this bullshit SDS outfit? I'll tell you what they has finally showed there true color *WHITE* (sic). They are just like the commies and all the other white radical groups that suck up to the blacks and use us."

A covering note from Bates to Washington said, "This letter contains numerous errors, both grammatical as well as typographical. It is felt the editors of this newspaper will accept this letter as being legitimate and from one of their own kind."

The documents, which cover the period 1968 to 1971, say the FBI fed anti-left material to a source at the Examiner on a regular basis. The name of that person was deleted from the files by the FBI.

"It is recommended that a copy of the enclosed be furnished to (name deleted) for the San Francisco 'Examiner' who is an established source of the San Francisco Office and has been used on prior occasions under COINTELPRO," Bates wrote in a memo to Hoover on June 15, 1970.

The subject of the memo was the Institute for Policy Studies, a liberal think tank in Washington, and its San Francisco affiliate, the Bay Area Institute, which has offices at 604 Mission street in San Francisco.

Hoover approved providing the material, which linked the institutes to left-wing organizations, but it appears a story was not published. Explained Bates in a later memo:

"They felt that it would be more proper to wait until they engaged in some activity which would make this article newsworthy. It would also make it easier for them to ask more direct and embarrassing questions. They are interested, will retain the material and advise when it is used."

Bates indicated he had better luck a year earlier, reporting that he provided the information that led to an Examiner story linking former Stanford professor H. BruceFranklin with a Maoist group at Stanford.

Before the article appeared in March, 1969, the professor's connections with the group had been secret. Bates said the story "sent shock waves through the group's executive board."

Ed Montgomery, a retired investigative reporter for the Examiner, filed a $750,000 libel suit against the weekly Bay Guardian in May in connection with an article it published entitled "How the FBI 'Nailed H. Bruce Franklin.'"

The suit claimed that the article characterized Montgomery as a "conduit for the FBI to plant stories in the Examiner." Montgomery denied yesterday that the FBI supplied him with any inside dope about Franklin.

According to FBI records in Washington, the San Francisco FBI office paid $390 to an employee of the Express Times, who was also a member of SDS, to attend and report on a meeting of the underground press held in Madison, Wis., from Nov. 28 to Dec. 1, 1968.

According to FBI records, the informant chose to fly to the conference because he feared his colleagues planning to drive would be "smoking marijuana and frequently have accidents or are arrested en route over long distances."

In October, 1968, the FBI became aware of a radical plan to hijack a truck delivering military munitions in the Bay Area, according to the bureau's internal documents.

The agents knew who was behind the plot, but instead of taking action aginst the conspirators, the FBI suggested to Washington that the Army plant a story in area newspapers to let the radicals know authorities were on to them.

Such a story, the FBI surmised, "would help delay these hijacking plans or possibly convince these individuals that such a hijacking would be foolish."

The San Francisco office heralded the success Young Republicans and the Young Americans for Freedom were having in countering left-wing activity at Stanford and recommended that Washington try to encourage similar activities around the nation. Hoover did so.

Hoover's high regard for COINTELPRO was demonstrated by an incident involving Yippie Jerry Rubin. Rubin was flying from Chicago to San Francisco on a student airline ticket even though he was not a student at the time.

-he said he talked to the Ambassador of US (Burke) about his impressions of Jonestown and said that no-one is held against their will. He has talked also to Govt. officiials like Normal Adams and the consulate is now convinced that no-one is being held against their will.

-however, McCoy feels that no doubt people are influenced to come to Jonestown (we said that it doesn't take much to influence people to leave the Ghetto where they could barely survive and can't pay rents and their children don't get proper schooling) - he didn't argue that too much altho he did say that Guyaha is considered a "hardship post-" for him as he could live much better in the US

-he went into a discussion of schools and why he sends his sons to military academy tho some of his friends say he 's making little fascists of them, he said he's sent them to Christian schools also as their is a new trend in Christian schools to use physical punishment and go back to the old phonetic type reading teaching

MC COY (his response after he and his embassy protested the expulsion of Stoens on 14/1/78 and they were allowed to stay

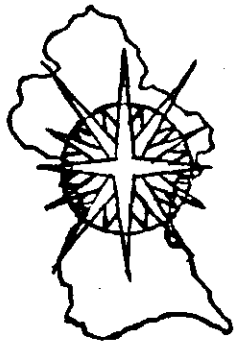
P.I.C. 18a

-the Stoens didn't violate law so they should be allowed to stay, it was stupid on the govt's part to throw them out
-the Stoens are involved in litigation-the judge has reserved his decision to give it in writing so they should be able to stay and see what the decision is
-McCoy said, "you shouldn't' get invoxlved in this'
-McCoy claims he has taken care of a lot of people transportation (Suzanne)
-said we should incorporate as a cooperative so we wouldn't have to pay duty
-he said he is writing to the director of International operations
-he is hammered by them on one side and us on ther other side
-said by the way that he has a new form for Larry Schact to report our births and deaths
-John Blacken talked to the Ministry of Foreign affairs last nite (around 4-6pm) and a note today was sent to the official of foreign affairs relaying the info this morning, and then they changed the order

-he said that this could have turned into an international incident, foreign policy issue between US and Guyana
-said Hass is complaining to Frank Timenia who is in charge of Guyanese affairs in Washington
-when asked why he had taken sides on this, said "I'm a professional I don't take sides.'
-he said it was an Embassy protest, Ministry of Foreign Affairs made the change at 11:30am, and then McCoy found out the expulsion order was cancelled
-he'd even help an American who was a communist if that was the same issue (expulsion)
-if a Guyanese was involved in courts in the US, they should have the same consideration and would by the US
-judge gave no indication of when the decisions would be
-wait till the 19th would have made more sense by the Guyanese govt., then the US would have had no arguement as that was what was on their passports
-McCoy called the Brickdam police and ound there was no real order or anything just that they were to carry this out, Stoens were notified to leave

aFTER MCCoy's visit to Jonestown, he said the following
-he will report the facts and report what people told him (in Jonestown)
-there will always be allegations against JJ but McCoy is prepared to say that people are not held against their will and do not live in a state of fear
-said he'd report this to the Ambassador and to the State Dept.
-he doesn't now credit certain rumours such as a young man having had his head shaved
-he didn't go as far as he liked, but talked to a lot of pepple
-problem with the death report on Emmett Griffith, Norman Adams said someone else did it. Jonestown said a whole bunch of people came out and someone did it, but Norman Adams is the only one that can do registry work
-can't process social security application without death report
-whoever came in and did it shouldn't have done it
-found an obvious cooperativeness in Jonestown
-will now go up every 3 mos.
-needs to have the privacy act rleases so he can release info right away
-people were spontaneous, would have stayed longer, would have played baseball
-talked to many alone.
-found that there wasn't much of a view of the hierarchy of Jonestown, hard to say who does what. there were 60 US govt checks sitting on the bench and no-one picked them up. no-one would say who handles the money
-maybe even needs more of a hierarchy
(I explained things were done by committee and he said that's how it was done in the Israeli Kibbutz)
-even his vice counsels want to come up to Jonestown so next time maybe one (or more ?) of them will come up but McCoy had to go this time
-said Wills is a good friend of his
-felt that even if they did shave heads in Jonestown he could understand it as you have to have certain mores but didn't see that, he wouldn't feel that was cruel

P.I.C.186



"For I was an hungered and ye gave me meat;
I was thirsty and ye gave me drink;"

"I was a stranger and ye took me in;
Naked, and ye clothed me;"

"I was sick and ye visited me;
I was in prison, and ye came unto me."

"Verily I say unto you,
Inasmuch as ye have done it
Unto one of the least of these...
Ye have done it unto me."

Matthew 25:35-40

Best wishes to you and your loved ones from Pastor Jim Jones and the members of Peoples Temple Christian Church of the two million Disciples of Christ denomination in the United States and from the Peoples Temple Agricultural Mission in the North West Region of Guyana.

On this sacred occasion it should be remembered that various parts of the world are suffering from massive starvation and at this very moment two out of three of the worlds' babies are going to bed hungry. Peoples Temple has reached out to help those in need and has aided in relieving every type of human suffering through the many extensive programs designed to meet those needs.

Support has been given to various worthy programs in many ways. Only a few days ago a senior citizen's escort service in California which provided protection, assistance, and companionship to the elderly was being threatened with termination due to a budget cut. Pastor Jones heard of the plight of these senior citizens and acted immediately, contributing funds which will carry them for several months. A health clinic serving critical needs was endangered with closure because of a large financial deficit and a lack of funds to carry on. Upon being informed of the circumstances, Pastor Jones pledged the entire amount of the deficit and a substantial monthly donation will be given from Peoples Temple.

It is not surprising that Pastor Jones has again been recognized as one of the most "outstanding clergymen" by an interfaith organization, Religion in American Life. One of the largest Black-owned newspapers in the United States also hailed him as "This Nation's Greatest Humanitarian". His dedication to serving Jesus Christ in tangible ways follows the teachings in Matthew 25.

It was through this scripture that the agricultural mission was seen as a necessary means for combatting the growing food shortage affecting so many parts of the world. The beautiful hinterland of the Cooperative Republic of Guyana has provided an ideal setting for the agricultural mission. Rich fertile soils, a friendly cooperative atmosphere, and a dedicated workforce of persons from the United States and Guyana have served to help make this program a success. Hundreds

of acres have been planted in crops such as yams, corn, sweet potatoes, citrus, and avocado.

In addition to the agricultural and livestock programs is extensive community development. Three houses, a workshop, an equipment maintenance station, a warehouse, a shoe repair shop, and a church/community center have been built by the Peoples Temple mission workers. The cooperation and assistance given by this fine government's agricultural advisors, as well as from many other government departments, has been invaluable.

Pastor Jones extends his gratitude to all of our Guyanese brothers and sisters for their interest and encouragement. Although he hasn't much time for travel because of his busy and hectic schedule ministering to the three large United States based churches, he does enjoy hearing from you and gives every letter he receives personal attention.

May God Bless You.

VISIT TO MCCOY BY CL

-seen on his desk: a telegram from Jan's father which states something to the effect that he received an anomyous letter stating that his daughter was in danger and also stating his intention to come down here and check things out. Unfortunately I did not see any date on the telegram.
-McCoy asked me if Jan had called her father, and I said yes, she did a phone patch. He asked me if she intented to return to see her mother and I said that I did not think so. He said that her father said the mother was to have surgery to determine if the growth was malignant or not. He said that the father said if it were serious he wanted Jan to return. McCoy said maybe it isnot serious or mumbled something to that effect.
-He then mentioned that he had sent some SSA checks out to Kaituma. (paula will call and try to have them sent to the PO box.) He said that once a year they must come out and check on the person, to make sure they are still alive. He also said any person who is a "representative payee" would also have to be investigated. I said that I didn't know that we had any person who was a representative payee. I said we may have some powers of attorney so that someone may deposit the check for another person. He said they would send someone out to us when it came time to check out the SSA thing. He also said it took 3 months to get the checks changed to here.
-I mentioned something about the seniors and said we had an EKG machine in customs and he asked me if it had been approved and said that it was good we had one with all the older people we had. I said it had been approved but that there was some bureaucratic red tape in getting it out of customes. He said he would mention it to the head of customs who he said was a friend of his. I said that would be OK, tho I in no way reflected badly on customs. You never know what he will say to someone as he is so dual, but I thot since he seemed to express that it was a good idea that it wouldn't hurt.
-I mentioned how well the health of the Seniors was monitored also. At this time I mentioned that we had one older person with a terminal disease tho I did not mentioned the name. I thot I had better do this to prepare him in case someone did pass so that they wouldn't start a rumor. I say that everything had been done medically that could be, and now he was with hiswife and family there. I said it could be several months. He said that if anyone did die, and wanted to receive insurance for the family, he would have to be notified and submit some official document which was apparently routine. He also said that if a family wanted to send the remains back to the US it would cost the family about $$2,000. I siad that would be unlikely in this case since the entire family was out there.
-In regard to parents contacting him--he alluded to Carolyn Looman again and said it was routine. I said something to the effect that parents just can't seem to relate to the idea that a younger person might want to live outside the US and mentioned that I had studied in France, etc.i.e. my parents thot this. he added and also the negative press has caused additional concern of parents or something to that effect. I said I suppose that is true, but how absurd it was and how satisfied people were there and happy.
-he did not mention Margaret or her father or John Stoen at all.

-since Wills definitely said he was a CIA attache in the past I tried to be very guarded in what I said but at the same time trying to find out any pertinent information Icould that would help us.

-he remembered me from out there and actually did not try to pump me much, probably thinking it was hopeless anyway.

-I also met twirpy Reese who looks about 19 and not that bright. He is a perfect baby egg of a McCoy and given 10 years will be a replica. He said I couldn't come into the building and sit down and wait because they had all these files out. What a dope. I think he is rather dull, but a perfect CIA protege type anyway.

over

after reading most of the material on McCoy's desk I can say that he appears to be a most meddlesome type. He reported in a letter on one lady's application for a visa to the US that she had lied on her form because she had applied before but did not indicate that on her form. Why not just deny it or something, but instead he seemed to be making a nasty thing out of it? He had a stack of applications for visas to the US on his desk. I would like to have looked thru more but no way to do it and be safe. I think he is a real snake and as we know from the Examiner article and other things he has been meddling in our business.

At this point there is little he can do about us, but I am sure he would not hesitate to try.

One good thing is that he didn't give any indication that he would not let us have our social security which was a relief.

-regarding the message we gave him about channel 7 (not a horrible coverage) but that Kastsaris had lied about stating that Maria had always to be accompanied by two people Mann and McCoy and we wanted him to correct it with channel 7

-he said that it was Mann who had arranged the whole thing with Kasaaris and it was Maria's dad who asked that Dick McCoy be present / he said "you have to talk to the Guyanese about this"

-he said he couldnt understand why Maria had wanted Eddie Luckhoo present in the first place/ he did understand why she wanted a woman present because of what she had gone thru with her dad, but couldn't understand why she had wanted Eddie Luckhoo when she had Mann and Dick McCoy present

-Mann had also asked that Dick McCoy be present (as well as Maria's dad asking it)

-said if we wanted a correction someone in California should ask that it be clarified

-McCoy has to go to the State Dept and say we brought this to his attention, if channel 7 comes to the state dept "we'll clarify it" - Dick said he's not allowed to say anything without the Ambassador clearing it

-the person in Calif should demand they clatify the statement because Dick agreed that it was inaccurate to say that Maria couldn't travel around alone without some of us because he did travel alone with her and she did come in alone to see him on a couple of occasions and he is willing to clarify that part of it

-he said he'd even do a written statement if they demanded it and the Channel requested it (he and Mike had a disagreement about what things on TV should be clarified, he said that if someone was discussing something on TV, it wouldn't necessarily have a retraction or clatification, but just the person should have a chance to reply, Prokes felt that the station was responsible)

ROZYNKO BROTHERS

-Dick received a letter from the staff assistant of John Burton/ Rozynko's father wants to meet with the two boys/ Dick wrote back to the father and said "fine, but we can't force the boys legally or officially to do it" (Dick said he would prefer for the meeting to take place tho as it would cause less ramifications - with a dissatisfied parent etc.)

-he said that (when asked) that the staff Assistant didn't express his own opinion except to ask if Dick could assist in this and said it would be reassuring to the father if he could see his sons

-he showed me the letter from the staff assiwtant (for a brief moment and took it back) but wouldn't show the letter from Rozynko/ I asked to see it and it was attached to the other letter/ he said he'd show it to one of the sons if they came and talked to him. Or the sons could write their father at 1537 Kennewick Drive, Sunnyvale, California 94087 and tell him that they learned of his interest in seeing them thru the American Counsel and they want to know more about it

-when I mentioned that one of our members had said they'd rather die than be hounded he said he understood it being demoralizing (I mentioned about Patrick Henry's statemennt "Give me liberty or give me death."

-he said he couldnt understand why Maria had wanted Eddie Luckhoo present in the first place/ he did understand why she wanted a woman present because of what she had gone thru with her dad, but couldn't understand why she had wanted Eddie Luckhoo when she had Mann and Dick McCoy present

-Mann had also asked that Dick McCoy be present (as well as Maria's dad asking it)

-said if we wanted a correction someone in California should ask that it be clarified

-McCoy has to go to the State Dept and say we brought this to his attention, if channel 7 comes to the state dept "we'll clarify it" - Dick said he's not allowed to say anything without the Ambassador clearing it

-the person in Calif should demand they clarify the statement because Dick agreed that it was inaccurate to say that Maria couldn't travel around alone without some of us because he did travel alone with her and she did come in alone to see him on a couple of occasions and he is willing to clarify that part of it

-he said he'd even do a written statement if they demanded it and the Channel requested it (he and Mike had a disagreement about what things on TV should be clarified, he said that if someone was discussing something on TV, it wouldn't necessarily have a retraction or clarification, but just the person should have a chance to reply, Prokes felt that the station was responsible)

ROZYNKO BROTHERS

-Dick received a letter from the staff assistant of John Burton/ Rozynko's father wants to meet with the two boys/ Dick wrote back to the father and said "fine, but we can't force the boys legally or officially to do it" (Dick said he would prefer for the meeting to take place tho as it would cause less ramifications - with a disaatisfied parent etc.)

-he said that (when asked) that the staff Assistant didn't express his own opinion except to ask if Dick could assist in this and said it would be reassuring to the father if he could see his sons

-he showed me the letter from the staff assiwtant (for a brief moment and took it back) but wouldn't show the letter from Rozynko/ I asked to see it and it was attached to the other letter/ he said he'd show it to one of the sons if they came and talked to him. Or the sons could write their father at 1537 Kennewick Drive, Sunnyvale, California 94087 and tell him that they learned of his interest in seeing them thru the American Counsel and they want to know more about it

-when I mentioned that one of our members had said they'd rather die than be bounded he said he understood it being demoralizing (I mentioned about Patrick Henry's statemennt "Give me liberty or give me death."

-We talked to him about the misinformation that was given by
-Maria's dad, we asked him to clarify that Maria had visited
-his office on bussiness alone on occassion ect.
-Mc Coy said I'm sorry Debbie, but Maria gave me the impression
-she did not want to meet alone with her dad.
-Deb-told him Maria's father is saying she can never be alone
-Dick agreed that he would contact the state dept in Wash.
-If channel seven ask for clarification only then would he
-speak on channel seven and he would have to get clarification
-from the state dept. for that.
-he said we should get our people to demand they clarify that
-statement with the Embassy here.
-If they want to confirm that Maria doesn't travel alone, they
-should contact us, check out the facts. Although I will say
-this, if its a talk show on T.V. and Maria's father is asked
-his feelings, then they're not liable for what is said.
-Mike Prokes said, "Dick, you're forgetting my feild is telivision.
-and they are responsible
-Dick said Congressman John Burton had been written by the
-Rozynko boy's father, he wants to meet the boys in calif.
-Mc Coy said o.k., but legaly there is no way we can make
-them. said he always prefered families to meet, but it's up
-to them.
-Sharon took the letter off the desk tolook at it and Dick
-grabbed it back, If we want the sons to see the letter, they
-will have to meet with him, Dick would show letter to sons
-He asked we tell sons to write their father;

1537 Kennewick Drive
Sunnyvail Calif.
94087

-Dick mentioned a couple of times he didn't understand why
-Maria had asked Ted Luckhoo to come to the meeting with
-her own father, said this had really upset the father and
-frankly he was very supprised. Said he could understand
-if she had wanted to have girls there, as someone to understand
-like his wife, when she has a problem, she'll see Dr. Sarjoon
-(woman doctor), someone you could share your problem and they
-would understand it better, but Ted Luckhoo, and man, a man,
-he couldn't understand.
-Mike pointed out, Maria had asked Carolyn for that reason &
-Sharon said as an American citizen, didn't she have that right
-after what her father had done to her.
-Mc Coy said, well if her father did what you say, and I realize
-these things happen, but she was represented, I was there,
-Bunnie Mann was there, ...

-he needs Lela Murphy's passport so he can xxxxxx cancell it out

-he was talking of mercenaries with us/ he said we should read the "DOgs of War" and Mentioned Day of the Jackal— said that if a person recruits mercenaries it is a federal crime and they are now jailing Cuban exiles (???) because of this -said that Dogs of War talks about the\ verthrow of Burma (my notes got rained on because the window x was open so these notes aren't quite clear???) and said the mercenaries were arrested
-I asked if xxxx it it would be conspiracy for these people to get together and plan to hire mercenaries/ he said conspiracy is the hardest thingx to prove, but said that it would take FBI and attorneys to prove it if it could be done in a court of law unless it was in writing/ I mentioned that several had singed something - he said ifx it related to hiring mercenaries that could be used to prove conspiracy

-he said that he is worried about the effect of mercenaries on Guyana (as we stressed how bad it wouldbe) and he said that it could xxx create problems even on the Surinamese border as it is axlready a "hot" situation there. He said that Surinamese are in the right but he can understand Guyanese reaction because x when they fish, in retaliation Surinamese come with expensive motor boats and surround the Guyanese boats and take them in, the Guyanese often swims away but the boats are lost. He said that the Surinamese have rights to the water tho in the first place and Guyana shouldn't have started a problem there in the 1st place.

-he told us to consult with Guyanese authorities on the x mercenaries situation and we said we had reported the whole thing. He took a copy of the article mentioning mercenaries and said he wanted to send it to the State Dept.

RE US/USSR
-he said that USSR wants their fishing shimps to fish off Guyana coast but they are indiscriminate fishermen and with their equipment, they would wipe out all the fish as they have done before in countries
-he said they had announced theire would be a loan from USSR to Guyana but the amount wasn't announced and the rate of 4% is more than the US would charge
-he said that US loans to Guyana are for special projects only/ INter American Devt. Bank helped Guyana on a rice project
-US loan to the East Coast Rd, Airport Timari was US project, Linden Highway
-they can't give money directly to help in the import situation or in the balance of payments because they are accused in being involved in the internal situation of Guyana
RE IMF
-he said the PM says no in terms of it but he may not have a choice (because of people's consumer demands)
-he said that he has talked to the USSR officers at great length and they are not anxious to help Guyana
-he said that he knows X Guyana is against devaluation because in the end it x costs them more to purchase things
-he said Guyana won't allow foreign investment tho xxxx this country would be good for foreign investment/ Guyana was supposed to come out with a code (Private Investment Code) but they haven't. He used the words there is a "climate" for foreign investment here
-he said even USSR has US investments, Pampsi Cola, Fiat, Chase Manhattan office in USSR and when Rockerfeller comes there, he said, they roll out the carpet for him
-he said he understands there is some chickanerie among the multinationals/ agreed that the oil shortage was artificial to raise prices/ said that US was stockpiling oil for future use
(over)

-said US gets oil not only from Saudia Arabia and Iran but from Nigeria and VEnezuela as well (sounds just like the book I just read, "Crash of 79")
-said the multinationals are completely independent of US govt policy because that is how business is, it doesn't deal in moral codes/ said that Shell Oil even helps support the regime of Angola along with the USSR merely for business purposes
-agrees that US sells arms to both sides of a war conflice, Arab Israeli
-but says he invests in one of the corporations he diagrees in, because there policies are unscrupulous, but just because of this they make money so he invests in them

Re following of Cheddi Jagan (he called him Cheddi)
-he said I wou'dn't follow Cheddi to the toilet
-said Cheddi is disorganized and lost his position with the govt. at one time, and wasn't able to organize the takeover in the past so he couldn't do it now
-re other kind of take over, extreme right wing or extreme radical, he said "who'd want to take it over" - he said nobody is that organized that they could or would want to take it over. No individual or groups of people have it that organized to do it. He said that the army is black and would follow the PM and so that makes it unlikely.

Re mercenaries again
-he said that it would be very bad for the Embassy for mercenaries to come, he said if they came in and tried to get into Jonestown and someone got shot, "where would that leave the Embassy"
-he said that he sent our booklet (Model Community Jonestown) to Washington
-he said that if Steve Katsaris contacted him, he would tell him that Maria came to see him by herself and would said that he doesn't believe that people are being held against their will
-he said that in the Griffeth case, he got a crazy telegram and he said a woman claimed to be Dana's mother but he had no way of knowing if she was really Dana's mother and he said he talked to Mary Griffeth and he said "I know that woman wasn't lying" (he said that with conviction). He said he talked to her. He said that when he has been asked he says "there is no way to take someone by force, this is a sovereign nation" - he said "I won't even carry a summons" into Jonestown
-he said that it is an austire life in Jonestown ~~the people appear to be happy~~
-he said that there is a problem, not just with Jonestown, but he found it true it Israel and other countries where he worked. He said that at first the parents are happy that their youth are with PT because they are not on drugs and he said than later they may not here from them. He says his son never writes him and he knows how it feels. He said that then they read all the press reports about slave camps etc and they get all upset.
-he said it would help if parents can visit the child because often the child will say they don't want to see the parent and then often there is a problem (we explained about Mrs. Davis visiting now and the Moores etc.)
-he said that they could say it was force or brain control, that it isn't but that could be the worry of some who hear the news articles
-he said that people who have had problems seeing their children can make these charges like Olivers and Katsaris

THE MESSAGE WE GAVE HIM WAS THAT MARIA'S DAD SAID THAT AFTER HE WENT TO THE AIRPORT, HE RECEIVED A CALL FROM DICK MC COY AND MC COY TOLD HIM THAT BOTH BUNNY MANN AND HE DICK WERE DISTURBED BY THE MEETING AND BELIEVED SOMETHING WAS HAPPEN AND HE COULDN'T SEE THE REASON PT SHOULD TAKE THIS ATTITUDE TOWARD MARIA'S DAD/ FIRST WE WERE T (ASK HIM IF HE SAID THIS
-he claimed that it was Maria's dad who called him not he that called Maria's dad/ he said that he admits he was disturbed by the meeting but claimed he was also disturbed for Maria, because of what her father

P.1.D. 3c

had done to her
-he said that he talks to anyone, that'shis policy
-he said he has discussed a lot of things with us and he keeps those things confidential from the other side and he has to keep things confidential £ with them too but claims he didn't call Maria's father
-he said that he was disturbed Maria brought a lawyer
(we said, well now you see why Maria brought a lawyer, this mercenary k thing, you can see the kind of irresponsible thing that some of these parents are willing to do, tho most of the parents get along fine with PT etc etc)

—he said that he has to protect US citizens regardless, even Stoen right or wrong, he had to stop Stoen from being thrown out as he hadn't broken Guyanese law

-he said that Guyana has some impressive people/ that a 4 men team from the US (doctors) came to check the electricity situation and to look into disease control and they were very impressed with some of the Guyanese, they felt they were bright and knowledgable

-we mentioned the Dr. coming in to visit Dr. Thane and all his qualifications

—regarding Naciamento, he said the reason that Naciamento went to NY was because his wife was very ill (Wills had told us about his wife being very ill and he wanting to go to the US), / he said Nciamento is a very good man,every efficient, and that's why the PM trusted him with some high level jobs, to do with development in certain areas like projects (such as some project he mentioned to do with roads or something like that)
-he said it is temporary that Naciamento is out of the country

Dear Mrs. Adams:

Thank you for your letter of July 30, 1974 enclosing the registration cards of members of your group.

I very much enjoyed my visiting with members of your group during my recent trip to Matthews Ridge. Tomatoes were talked of as an addition to your kitchen garden. Enclosed are some seeds which I am assured are blight resistant.

Mr. Munoz left the country on July 29 for reassignment to Madrid, Spain.

If I can be of any assistance to members of the group, please do not hesitate to contact me.

Sincerely yours,

Miss Daniels;

These are the priorities for the equipment needed by the Peoples Temple to be transported on the Pakeira to Port Kaituma at the first available date.

1. 25 Aluminum sheets
2. 1 Marvel tree cutter (brush cutter)
3. 1 Disc harrow
4. 1 Petter generator (5' X 9' X 5' at approx. 1½ton)
5. 1 International harvester tractor
6. 1 Land rover (there are still a couple of things which need to be taken care of on the land rover and if they should be completed before any of the other items have been transported to Kaituma, we would like to move the land rover to the top of the list)

We would like to have Mr. G.B. Matthews' tractor put before any of our ~~xxxx~~ equipment as it will serve our own interests to get his tractor up there.

(we said, well now you see why Maria brought a lawyer, this mercenary k thing, you can see the kind of irresponsible thing that some of these parents are willing to do, tho most of the parents get along fine with PT etc etc)

--he said that he has to protect US citizens regardless, even Stoen right or wrong, he had to stop Stoen from being thrown out as he hadn't broken Guyanese law

-he said that Guyana has some impressive people/ that a 4 man team from the US (doctors) came to check the electricity situation and to look into disease control and they were very impressed with some of the Guyanese, they felt they were bright and knowledgable

-we mentioned the Dr. coming in to visit Dr. Thane and all his qualifications

--regarding Maciamento, he said the reason that Maciamento went to NY was because his wife was very ill (Wills had told us about his wife being very ill and he wanting to go to the US), / he said Mciamento is a very good man,every efficient, and that's why the PM trusted him with some high level jobs, to do with development in certain areas like projects (such as some project he mentioned to do with roads or something like that)
-he said it is temporary that Maciamento is out of the country

P.1.A.17a

1) DICK MC COY/AMERICAN EMBASSY; Visited by Sharon, Deb, Probes, Marceline...
- People from the Embassy thought the Cultural show was very good.
- Dan Lebble mentioned assanation attempts were mentioned in the speech, was surprised to say - but to a group of Guyanese, in that you are a foreign country..to talk of Pres Kennedy's assanation. Dan took it in a political sense, our political stand.
- Dan thought the show was very professional, but long.
- Dan mentioned that part of speechthat said the Embassy had been helpful in defending the peoples Temple, but he was puzzled that there was a great deal of politics.
- He said from Jim's explanation it sounded as if we were practically expelling why we were forced out of the United States. Why did you do that? he asked.
- Mike Probes said yes, but it's due to the fact that we were asked to explain, to let people know because there was so much crap going around.
- Dan Lebble was in the Peace Corp in Afghanistan befor he came to Guyana.
- Dan mentioned Ellis will be replacing McCoy, has a young officer, Dick said very fine officer, he served in Luxemburg, then Manilla, has a little girl.
- Sharon told him that Shirly Field-Ridley said we practiced for hours, she wish some of her people could have been there to see the example, they have trouble with this, also mentioned Jim Kennard had praised us.
- McCoy said it went on and on and on. They could be a pretty tough audiance here, he did a Russian group performed and they were really third class, they were bad, he left at intermission, he had to apologise to Cheddi Jagen, and even Cheddi was upset by the performance.
- Sharon asked him if he knew Cheddi; McCoy-were on speaking basis, sure I know him, his daughter went to a moscow university and couldn't stand it, she now living in the states. Mr. Jagen spends most of his time in the states. He's a communist, but every time he wants to go, he had to go through this office.
- Sharon mentioned to Marceline that Dick said his sons were young faciest. Dick agreed. Yes, their young faciest. they go to a school run by a baptist church but it's clearly fascist military-run by military circlum.
- (ref. to Stone issue) Dick said, all this about a chief courtoodder is a strancous issue. Both sides have reputable attorneys, he tells people, Jim Jones is hard nosed and independent, no one is going it influence him. Dick said people in power want to get from him what they can give as answers back there.
- Sharon asked to see newspaper on us. Dick said thry were getting it, it was on it's way. Sharon asked to see his copy. Dick said it was a classified document and he couldn't just give it out. To see the more recent reports he would have to apply again, each time a new one comes out.
- Dick said he told State Dept. he didn't feel it was any further use to explain the peoples that people in Jonestown were not being held against their will. the Embassy could be charged with harrasment. When they get inquiries about their children, well we will check it out when we go up there.
- As soon as all this presscam out in the U.S., enquires about you were inevaitable, Dick said. He told us of a situation in Equador and Israel when people inquired about there children, certinly three times more than they did about the P.P.L.
- Dick said basically the only time the U.S. will interfer is 1)if a person is being discriminated against soley bec use he is American. 2)if a person has been subject to physical brutality. 3)people can be put in prison for years and years without knowing what they are being tried for, before they even have strial.
- Dick tells those that pressure him, I'm not in a position to say what they will do, State dept. keeps pressuring them to tell them what the Guyana Government

1.10.76

will do. Dick -he didn't want to commit himself. He said Stoen contacted
ninty congres men. Hyacewa was not interested in this, said it was a case for
the courts.
-Dick said he did impressed w/Hyacewa, he had done alot for the school system.
-McClusky has shown interest for Tim Stone, an Interstate Foreign Congressman
in the United States, friend of Dick's said mostly all staffaids respond to
Tim Stones letters.
-Stoen is saying this court order is not being observed, theres no basis for
this in National Law. Dick said Hase didn't understand why Dick wouldn't
take John and give him to Hase to fly to the U.S. Dick said he didn't mind
a man being aggressive for his job, but he started throwing threats
-Dick-we don't have (letters regatory)when one court makes a decission based
on another courts decission-doesn't apply in Guyana.
-Dick said three people showed interest for Stoen: Bellens, Bryon, Burton, Phillip,
and John, one didn't care, the other showed interest for stoen, he couldn't
remember which one it was.; Rayon, Grenston, McClusky, Church, Lugin
-they showed him alot of things on filein Washington. Frank Borrini showed
-him. Dick is taking Frank Dominion's job. Frank speaks surinbolrosh.
-Dick-Yugoslavia-Lacconittlitmian fact, they have alot of theory, but drive
mercedes benz, there are some in upperclass, so Dick used to live there,
not everyone has jobs, depends on the republic, about 16 unemployment. They
have a welfare system theoretically. Have free medical care, some are good
facilities, some arent, but there system is better than some because they
allow for some freedom ofexpression, they're tough people, he was very impressed
with them. theres a certain oppressive police system, couldn't live there all
his life. In terms of criminal law, thats different, but in terms of politics,
-they are much tighter. Dick said there were three nuculer reactors in
-Yugoslavia from the U.S. also Petro state Chemicle, and American Co. in Hungrey
-as well. We have a certain amount of military systems in Yugoslavia. He
mentioned something about Tito as one of the three leaders of the non-aligned
policy, -they were the corner stone of our Eastern-Policy...I didn't quite
understand this part...
-Sharon asked what he though thedecision would be. Dick-Stoen ask me that,
everybody ask me the outcome. It was mentioned that Cheif Justice Holders
was at our program. Dick said he knew.
-Dick-I think it is up to Joyce Touchette, one of these guys shes going to have
to appear in court and testify. Dick said "Sharon, I don't see there any
country would go against it's foreign policy in a dispute where none of it's
citizens were involved. To them,(Guyana) it's a single case of four or five
people. If we don't pressure them, and it comesfrom this side, don't forget
the government has enemies here too. We as the U.S. cant go to the Guyanese
Govt. and say, hey, we want that child to be given back to it's parents.
Suppose Touchette has custody and Stoens go bizark, how does the Embassy prove
that the Embassy didn't have political intervension. He told Stoen to send
him something in writting.
FOREIGN MINISTRY/CDR. JOE & CDR. LEE...Visited by Sharon, Deb T., Marcelline,
Ziva, Mike S, Kim Yoon Ai,...Cdr. Lee mentioned to Marcelline, "you said the
U.S. Embassy had given assistance to you", in what way?
-Marcelline-only in that they visited our project and when families asked about
the welfare of our children, they kept us from any harm in this way.
-Lee asked about project location, how close to water, they said they would like
to travel together with us to Upcam, they offered to take the tapes to our
children in Quito and Bogota, they said our car was crowded.

P.1.A.17c

-Leesaid they may go up in May or June, Lee thought Jim had strong asiatic features. He asked Kim to come next time with her husband, and that Lew come with wife and child. Wanted photos of Jim Jones, family & sons, Kim's children and husband. Asked ge of Stephen, told him another son was married to Sandy, Avas sister.

-Lee wanted to know the educational level, all could read and write?

-Do we have primary and secondary schools, did we intend to establish a college?

-Would we send our children to the U. . colleges or a school here? or in another Socialist Countr

-Asked if we were self sufficient in food. Weexplained we have enough, but all is not producing yet.

-What do we sell on the market?

-Sharon said were sorry we didn't introduce Marceline to your Embassador.

-Lee said the Embassador was engaged and would see us another time.

-Asked if we've performed at another place besides the Chinese Dragon.

-He said their natural resources were-gold,zinc,copper,magnisum, in abundance and they had over three hundred minerals in Korea, they are refered to as the "Sample of Minerals".

-they showed us a couple of films on Korea, as we left, the Embassador came agreeted Marceline and all of us good by, sent good wishes to Gde, Jim Jones in his endeavors.

-We talked to him about the misinformation that was given by
-Maria's dad, we asked him to clarify that Maria had visited
-his office on bussiness alone on occassion ect.
-Mc Coy said I'm sorry Debbie, but Maria gave me the impression
-she did not want to meet alone with her dad.
-Deb-told him Maria's father is saying she can never be alone
-Dick agreed that he would contact the state dept in Wash.
-If channel seven ask for clarification only then would he
-speak on channel seven and he would have to get clarification
-from the state dept. for that.
-he said we should get our people to demand they clarify that
-statement with the Embassy here.
-If they want to confirm that Maria doesn't contact alone, they
-should contact the check out the facts. Although I will say
-this, if its a talk show on T.V. and Maria's father is asked
-his feelings, then they're not liable for what is said.
-Mike Prokes said, "Dick, youfre forgetting my feild idotelivision.
-and they are responsible
-Dick said Congressman John Burton had been written by the
-Rozynko boy's father, he wants to meet the boys in calif.
-Mc Coy said o.k., but legaly there is no way we can make
-them. said he always prefered families to meet, but it's up
-to them.
-Sharon took the letter off the desk tolook at it and Dick
-grabbed it back, If we want the sons to see the letter, they
-will have to meet with him, Dick would show letter to sons
-He asked we tell sons to write their father;

1537 Kennewick Drive
Sunnyvaile Calif.

-Dick mentioned a couple of times he didn't understand why
-Maria had asked Ted Luckhoo to come to the meeting with
-her own father, said this had really upset the father and
-frankly he was very supprised. Said he could understand
-if she had wanted to have girls there, as someone to understand
-like his wife, when she has a problem, she'll see Dr. Sarjoon
-(woman doctor), someone you could share your problem and they
-would understand it better, but Ted Luckhoo, and man, ahman,
-he couldn't understand.
-Mike pointed out, Maria had asked Carolyn for that reason &
-Sharon said as an American citizen, didn't she have that right
-after what her father had done to her.
-Mc Coy said, well if her father did what you say, and I realize
-these things happen, but she was represented, I was there,
-Bunnie Mann was there, ...

I also appreciate your kind words concerning our interest in the People's Temple agricultural cooperative here in Guyana. My staff and I are always interested in the welfare of Americans in Guyana, and we are particularly pleased that your project is making such good progress, both at the site and in its public image in Guyana.

I hope that your co-workers here will feel free to stop in to see me from time to time to let me know how things are going or to discuss any problems they are having, and if I can be of any assistance to you, please contact me.

1). We represent PTCC, Dis of Christ denomination - near 4 mil. members. Former Pres L.B. Johnson, Ronald Reagan, FBI Captain Clarence Kelley. Our President Karl Irvin, No. Calif / Nevada. 2 of our trustees on the Regional Board - Tim Stern, Assist Dist Atty. for County.

2) We are interested in establishing a practical Christian ministry. Have been gripped by starvation in Subsahra and other places in world. We have already sent food there ~ also... Doing what we can to help educate children ~ have taken a Biafran Chiefs daughter, sponsored her in our church colley program.

3) Guyana can help serve as a breadbasket for world. Seems to have good relations with the U.S. What we would like to ask may be too difficult to answer: but ¶ are you able to determine whether Guyana is on a stable democratic course?

4). From what we can attain, there is no chance for Jagan to come back into power. He is a poor administrator / politician, as shown by his hurting himself by not taking his seat in the legislature ~ he has lost ground.

5). We are considering investing in land for missionary purposes of our human service type ministry - We dont want to see it go down the drain. Dont want to risk in any way that the gov't would in any way break good relations w/ U.S. or take a radical or anti-American stand.

6). Mr. Brohr, Israeli, who met with us last evening thinks the country has no chance of going Communist. He was w/ US in Matthews Ridge, went over our land with us - seems to think

P.1.A.216

~~it is a promising~~ highly project. He has been so helpful to us. friendly to our Pastor; will be coming to visit us in the U.S. in May when his tour ends here. He has spoken well of you and an AID official, Mr. Hammer ~ agreed you knew alot about Guyana

We have heard from several friends - both here + in U.S. — tha the present P.M. is on a good course, that he shows a level of sophistication + stability that Jagan could not match.

7). We would like your opinion - if it is not compromising you - we will not quote it - if Guyana would in any way break good relations w/ U.S. Tim Shoen - Rotarian - met w/ local group of pro. American businessmen - that there is no chance of break in relations.

8). Why here? We are an interracial ~~group~~ church) no language, barrier, potential for development to help world food shortage. FCH program fits our practical mission intentions. Guyana's nonalignment.

9). We believe it is the responsibility of the church to do something to forestall Communism + totalitarianism in world
