There I ran - the night was not as cold as F night was tho I got a little chilly, not having anything but my coat to cover me

I didn't sleep on the rest of the journey

We arrived at SF at 1 30 - bus 10 dropped people at 2 communes & at the Te - people from 1029 Geary came off other buses, & we were taken to our bldg - Bates had just got in - my suitcase had been unloaded - Bates and I talked about the disagreeableness of many of the sms - she told me of the argument which had occurred just before I boarded bus 12

I went to bed at 3 00 but it was s'time before I fell asleep

10 Jan - M

I bot a filler for my thermos in the drugstore in the East Bay Terminal - obtained hot water from the Bechtel cafet. & made my Sanka morn. & aft.

At 8^30 there was a mtng of the secret'l & clerical staff of the Leg & Ins Dept - chief purp was to introd the staff to the new personnel eval. forms which have to be filled out by supervisors on each employee yearly - they are to be discussed & seen by the employee - most of the staff were very new about the proced. - another issue causing hard feeling was access to the Mag Cd A & W in the ins. section - a few other matters came up

Marc hurt a finger playing football w/her bro; it may be broken, & she left for appt ment w/doctor at 4^30

In spite of her injured finger, Marc contd to wh on ATS, as did Dor, & I had quite to do - later in the day I rcvd 2 equal oppor. act items to put on Mag Cd for Butler's off

Ate lunch inside

Went directly to the Te aft wh - dinner

Went home on the bus w/ Hazel Dashiell

Did my exercises

Bates got home about 7^00 - she had been to see Millie Callahan, who is doing well & cd talk to her - Vera, Talley was w/ Bates & wk'd on her hair

I wk'd on my jnl from 7^30 to 10^30

Sewed a button on my coat & some other mending

Finished the nap & lk'd back over Freedom at Midnight - had some toast w/ margarine & apricot - pine-apple preserve

11 Jan - T

Neither Marc nor I had any wh to do this morn, while Dor whd on the ATS - the doctor sd Marc's finger was not broken but he advised her not to use her hand for a few days - she saw Betty who sd she cd take such lv in adv. or wh cd be fnd for her which did not req. her to use her hand

I did some wh on my jnl

Then Marc started to tell me about her sister who behaves in a deranged manner - she really seemed to need a more experienced pers to listen to her & proffer a little advice

Dor came over, obviously irritated, but instd of saying our talking interfered w/her wh or telling us she now had assignments for us, she seemed to blame us for not wking

I reacted angrily as I had not been given any wh to do & had not done anything on ATS since bef Christmas - I had last F quietly & tactfully asked for assignment to the ATS - she repeated what she has sd bef, that all

(over)

C-2-A-5(63)

the wh was urgent & I was slow — this made me even angrier as my production wd be satisf if I got some pract. — she that I exaggerated — I told her if my wh was so poor I that she shdn't have me in the off — as I was not making any prog. w/her I mentioned I was going to talk to Betty Vasil — this remark made her more conciliatory — I that I got an agreem that she wd let us know what wk comes into the off so that I won't have the feeling I am just a flankey

Dor went to talk to Betty & Mary saw Betty also — Dor sd another mtg of the three of us w/Betty wd be arrang'd

During the argument w/Dor I was late going to lunch & missed the first pt of a film called "Ski the Volcano" made at Mt Hood, Ore. — I ate my lunch while lking at the rest of the film

Dor gave me an ATS assignment of a rpt on secrecy agreements for Maggie — Dor gives directions badly,

Went to bed at 12^30

12 Jan - W

Dor told us what wh was to be done in the off early in the day, altho she did not keep us informed as new items came in - I wh'd most of the day on the Secrecy Agreement rpt & did fairly well as the routine became established - Dor showed a poorly disguised hostility to me when I asked questions - she was warmer to Marc - she gave Marc some wh on the reports she hers. is supposed to do, as M. cd wh on them w/o hurting her hand. Dor hers. appeared to be typing a rpt or a ltr, the subj. of which she did not tell us

At lunchtime I th my lunch to the assembly rm where I saw the videotape on the Pinto Valley project, a copper processing plant in Ariz.x

I finished the first secrecy agreem. rpt about 3:30, talked to a few people around the departm & prepared pencils & paper for note-taking ton, before coming back to the computer & starting

I spoke on the enthus of blacks for "Roots" - we can't effect anything helpful to come out of a big TV network - the series will end as an affirmation of the bl effort in Amer, just wait & sa - it will be shown how foolish it is to revolt - the author, Alex Haley, is a sell-out - it th money to go back to Africa to learn about his ancestors. I isn't interested in where he came from - Haley refused to commit him. aft Malcolm X was killed, he wanted to be impartial - the slave cabins lk like luxury housing

I spoke on the dif. btwn the sentences rcvd by those who steal bread to feed their families & the sentences given to violators of anti-trust regs. & wealthy evaders of income tax

I described the Housing Com mtng

He expressed much disapproval of some of the interests of our yng members, rock records & so on - "All you talk about is shit - soc doesn't come out of yr mouths" - the day of retribution is coming for those who take sp privs."

At 10 00 the screen was set up & the installment of "Roots" was shown - in this episode the young dghter of

Bob O'Neill is ill & Garb had brot his shorthand notes to Betty Vasil to find someone to decipher them (Garb doesn't deal directly w/Dor; she is aware of his unfriendly feelings & reciprocates them — there is no love lost btwn them) — she inquired whether I cd do it — tho it tth me some time I transcribed them, exc. for a few wds which Garb filled in, tho at th a long time — there were two memos, fortunately rather short

Dor & Marc wh'd on more notes from the seminar

At lunch time I heard a lecture by Harold Wong, a Bechtel engr, on "Industrial Proj. in the People's

In the agt I had to type on the Ishload for Garb's unit - Dor had done pt of it

Marc was transcribing notes of teleph conversations, which Jim Hartt records, on labor relations cases, & she fnd these very diffic - Dor & I both felt we had had some "oddball" assignments today

He gave revelations from J

Everyone was to come up & touch the blue cloth rcvd last night to the altar - those who didn't get a blue cloth were to get one now

The mtng was over at 3:15

I intended to go home directly, so as not to have the trble I had last wk, but I let Helen Love persuade me to stay & eat - she was going home afterwds & not ret'ning as she didn't want to see "Roots" - we got seats at the sns' table but space was extremely limited & I gave my seat to Lucille Bayneys - there was no indic of [illegible] we might be served so I decided to go home aft all.

I was delayed further because Verdella Duncan sd her husband was coming for her & wd give me a ride - however, something went wrong & he didn't come - Verdella told me Mom Taylor sd food was being served to [illegible] in Gold Run - I went to check on this but no one was there -

Marcy spoke of the desire to close the LA Te, held back by some of the L.A. people who don't want to give up their luxur. existence

Marcy th a quick offering - she gave J's revelations

Cl came to the altar to touch it w/ their blue cloths - the cong was let out early at 8 15 so that we cd go home & see the concluding installm of Roots

However, I decided to spend the time getting my income tax records in order to turn over to the Te acting off - I wh'd an hr on these & find everything I need exc that the Coop has not sent me a statem of interest on my certif.

the prog was a disc w/ Marshall Kilduff & Phil Tracy's, authors of the New West article, who were answering questions from the radio aud. - the moderator of the show was a woman who seemed to encourage hostility to the Te - many of the callers claimed to be former members who told of "beatings," being coerced into giving up property, & so on - Deanna & Mert Mertle, giving false names, called in - some Te members got through - Phyllis Houston tried from the downstairs phone but did not succeed - she came up, & we all listened until 12 or when the prog ended

Wanda had come in & gone to bed

Spent most of the day trying to enter the File Index meter from the Mag Cds into the computer - I got some instrucs from Susan Wintersteen at the Computer Ctr - some adjustments have to be made - this aft I entered all the cards & ordered a print-out, from which I can make changes tom

Susan was over to confer w/ Virginia Duncan & told Mara & me she was making recommendations for the Legal Dept's computer & typewriter needs - this will take sev wks to act on so it is unlikely job assignments will be rearranged very soon

At lunchtime I saw a film, "Tomorrow's Saudi Arabia," in the employees' series - it was a BBC production, about 50 mins long & covered many up to of the changing life in that city

No wh came into the off

Went to the Te aft wk to eat

I had written up Viola Godshalk's needs as well as my own but forgot to turn them in - I got home & had to turn arnd & come back to the Te

Wanda again seemed to be offended w/me add - I had made up my mind to remind her that I am nearly 62, an holding down a full-time job which has much pressure, & that many people expect me to do as much extra wk as a younger pers. - however, I never got an opportunity

Virginia had gone to the hoop for an ap., but retd today, saying it turned out not to be nec

I didn't exercise but cleaned out & rearranged the items on the floor of the pantry - some of them are

For the third time this wk I overkept or got up late & so didn't have bkfst

The off. was in a state of bedlam most of the day - both computers were busy all day & sev people came in to put dist on ATS - Dor th Kate Walker to task for using the computer for correspondence - Kate has diffic w/ some office procedures & I bel didn't know how she cd have used MagCd instd - there was no mtng of the minds btwn the two & Dor referred her to Betty Vail whom Kate did consult - Betty came down to talk over the matter w/ Dor but I don't know the outcome

Maggie brot corrections for the powers of atty doc but Dor had me wait to do that, as I was assigned first a long memo from Phil Bernel, on a revision of a ~~[illegible]~~ form - while I was waiting to get instructions on that, I balanced my checkbk

Bernel's memo was a revision of a draft & was in very haphazard form - // to be put on MagCd //

Cover 1 C-2-A-7(14)

I spent most of the morn. on it & during the aft had to make corrections & revisions in it which involved techniques I had not sufficiently mastered - I became nervous trying to get it done by closing time & a little irritated w/ Dor's instructions

In addition to wking hrs overtime, agst Betty's wishes Dor takes a self-sacrificing attd which I find unnecessary & harmful - she eats lunch at her desk, never goes out, & I find doesn't even go to the bathrm when she needs to - late in the aft her feet began to swell, a condition she acknowledged was prob brot on by not going to the bathrm

I was most annoyed when she pushed me to finish Beckel's memo, even if I had to stay overtime - I was finally allowed to stop only when B's secrty informed us the memo wd not be prepared for distrb anyway

I was most disturbed because I did not have time to learn the new MagCd techniques & no time for a break in order to do a few pers tasks - I did eat lunch at my old desk & I put my peanut plant which Lor had given me in a pot lent

I finished Bob O'Neill's contract

Joined the girls at 11.45 and we walked up to Orsi's on Bush Street - it is an Italian restaurant, was very crowded - the others had cocktails; I had a glass of wine - for dinner I ordered oysters but did not think them exceptional - with them had spinach and rice

Norma works for Fred Abbott, Gail for Ron Hartsough - both said their bosses treat them very badly, are inconsiderate and demanding - Gail had wanted Valita's job which Annie Malang is getting and she was bitter about this, resentful of Annie - Valita told about Barney Johnson's treatment of her - apparently he gives her no consideration and she finally decided to quit

We were late getting served, but when I got back Dorothy was not unhappy with me

I felt well today

I had considerable work all day. I did some memos for Maggie on MagCard - in the afternoon had a tape to transcribe for Charles Smith, an analysis of a contract about living quarters for workers at a project in Rock Springs, Wyoming

At lunchtime wnet to the PG&E building to hear the San Francisco State Univ. lecture in the xIssues and Answers series. The speaker was Ray Miller, who had talked before on subsidies and regulations - today he spoke on "Inflation" - his talk was very well-organized and clear - at the end he answered questions - some of the points made were the tremendous extent of military expenditures in the world, the ability of huge corporations to create demands by advertising, and the demand of the underdeveloped countries aa greater share of material benefits - though he mentioned the possibility of problems getting out of hand and breakdowns which might result in nuclear war, he did not think disastrous changes were inevitable - he admitted to being worried about the economic situation in Italy

I had my lunch during the talk

I asked Dor. if her reference to Hartsough's being a "playboy" implied that he might have expected sexual favors from Gail, she said she did not consider this likely, if only because he couldn't get away with it

17 March - W - 3

p.1. at 11.00 last night - "our bodies are still in the jet stream" - all the people in the country are socialists, united, with no differences between them, such as backing China or Soviet Russia - among our own group, there i socialist class every Tuesday - no one is sick amongst them - Guyana denies admission to anyone who's been in So. Africa, even if a sports or movie star; they are faithful to principle - the CIA has been trying to interfere with them but has not succeeded

Progress in our mission has been phenomenal - dorms have been built for our students so that they can live and eat together - there is a mattress provided for almost every member, & clothing, sheets - all supplies are inventoried - $300,000 wotth of food and clothing is ready - J. got on the radio and revealed the infamy of the CIA to the entire socialist world - they had had three days of catharsis during his stay - Pop Jackson built walkway to and from our installations to protect our feet against mud - "Let's get there, why don't we?" - he indignantly inveighed against those who were too proud to ask people for money

He took another offering, during which gave an amusing account of how his party had been loaded down with so many spare parts and other equipment which was needed immediately that the plane could barely get off the ground - his serious point was to convince us if he would risk the lives of his people and have enough faith to know that the plane would not be in danger, then we should venture out to bring in more money

He gave several commendations - among them was William Klingman who was praised by his teacher - Cornelius Truss and Mark Sly had done good work - Lee Ethel Young lost the most weight this month -

J. mentioned a "white bitch" who had gone out and done some harm to the Te while he was gone - he said he was meditating on her

One disciplinary case was handled - a young girl, 12 years old, impeded a teacher in a hallway and when confronted had called the teacher a "bitch" - she was asked what she should get - she suggested 35 swats (as a clever compromise between the 25 and 50 people were suggesting, which J. said showed how bright she was) and raising $100 in 2 months

J. mentioned that he met the vice-president, "which they say was an honor"

J. is to receive his appointment to the Human Rights Commission tomorrow - he was not flattered by the appointment, which was not as good a one as he was led to think he would get from Moscone

After performing one healing, J. dismissed the meeting at 12.00
