Dear Hazel,

Please excuse and forgive me for not writing as soon as I returned, but business matters were pressing and the time simply flew by. Actually, I apologize for the light paper, that my secretary is gone and I can't find any personal stationery anywhere. However, on the bright side, I received your lovely letter today and it had a very pleasurable effect and my dear, it increased my eye, which is big already, but I do thank you lovely lady, for the compliments, even though they are not true. They say that behind every successful man is a woman pumping up his ego and speaking of charming people - You also Hazel, are a very charming and lovely lady and I miss you.

It is now 12:45 am and in about an hour I have to take a team into Chinatown (Boss Alley) on a little surveillance of some gambling. Our client's son has been losing his money similarly and his father feels he is being taken by some professionals and may be in debt heavily. So we will watch the illegal gambling action for a few hours and see if Sonny is a patron of the establishment.

I spoke with Jim at the Temple in S.F. tonight and by now, you probably know that I am going to Europe next week on business and have decided to include Timothy O. Stoen's activities in my London schedule. Also, ABC has agreed to furnish a camera to document what I might find at the banks and elsewhere. Hopefully, I will

EEHF

hit the jackpot Vegas style and bring back enough material to indict him with, or at least, disbar him.

Although I enjoyed our several conversations on the radio, I am truly sorry that we didn't spend more time together when I was in Jonestown and with your permission and approval, I shall remedy that matter when I return in late October or early November. Then I may be spending several days in training the people for security and hopefully make up for the initially short visit.

He again, just got back from the surveillance and it is now 5:15 am. Everything went according to plan and sonny boy did show up and dropped a very healthy hunk of cash in the game. Our team simply walked in and escorted Sonny out and home to Daddy for what ever - I didn't stay for the parential confrontation. Anyway, he will find another game particularly if he is addicted.

Karen, I deeply appreciate your concerns for my wellbeing and I assure you, I am carefull in my work; but also remember, it is the danger that makes the work interesting; but I will be extra careful for you. Now lovely lady, I am going to close and address this so that it gets into the mail today, then to bed, until 8:30 am, when my first appointment arrives.

Please take care of yourself too, I want to see a happy healthy lady when I arrive in Jonestown. Say hello to everyone for me and be good.

Love

Joseph

October [illegible]

Dear Joseph:

Thanks so much for your lovely letter. I am sitting here in the radio room now, and I just finished passing some medical traffic to Georgetown about a poor little 9 yr. old Guyanese boy who was brought in tonight to get emergency medical care. He had been bitten 2 days before by a poisonous laboria snake. His parents brought him here from down river in a canoe, and his leg was just awful. His foot was all black and his leg was swollen and very painful. Fortunately, gangrene had not set in, and we treated him with anti-venom and anti-biotics. His temperature was 105, and we got that to come down a few degrees. He is doing much better, and we are flying him into Georgetown tomorrow so he can be hospitalized. The pain was terrible, and he was so brave I couldn't help but cry. I hope he can stay with us when his better — his parents said they'd like him to go to school here.

I can't say how much I enjoyed your letter — if I succeeded in boosting your ego, you helped mine as well. Seriously, it gave me a real lift, although with your work and opportunities, I have suspected you'd forgotten me already.

I loved your description of "Sonny Boy" — I just hope you will be careful when you do those things. You don't take enough concern for your own welfare. Though I know you say you'll take care of yourself, I think you like the danger and excitement and won't be half careful enough. I'd hate to loose your friendship before I've gotten

EE4F

(2)

a chance to really get to know you — as well as I want to — so no obituaries please! Hate to sound like a nagging wife about it, so I will say no more.

By this time I guess you are back from Europe where I hope everything went well, and I hope you have gotten something that will help Mr. Timothy Stoen get his just rewards. I never could stand a hypocrite and he takes the cake in that department.

Both you and I, Joseph, seem to be globe-trotters. In the next couple of months I am going to be doing some purchasing for the clinic here. The episode tonight with the snake bite just pointed up once again the tremendous expense we take on for medicines, anti-biotics and other kinds of medical supplies. I guess you could say we literally poured anti-biotics and anti-venom into that little boy's leg tonight, and believe me, those things are very hard to get. I'm hoping that I will be able to find some good sources in Brazil, and possibly Venezuela. I'm afraid one of the disadvantages of living in a jungle is the lack of a nearby pharmaceutical supply house. Maybe you know of some persons I may contact in those two countries that could help out. If you do, please let me know. One of our nurse-practitioners is taking a patient to Venezuela tomorrow for some very specialized care and I hope she will be able to find out some information. I sure don't relish being a stranger in a strange land [illegible]king for

Spanish. Oh well, I'll manage. But promise me you won't visit us while I'm gone. I'm not very good at expressing myself in letters, but I am counting on your making up for the very little time you spent with me while you were here last. From the short time we spent together, and from our few conversations I find I have grown very fond of you.

You must take care of yourself, and promise me you will not allow your thirst for excitement blind you to the fact that someone here cares for you very much, and would be deeply hurt if anything happened to you!

Love,

Karen

Dear family,

Well it has been some time since I heard from you and I am beginning to wonder why you dont write, I wrote a Combination letter to all of you like this one will be.

Richard & family spent a few days with us at Christmas time We really enjoyed having them.

Their house was robbed while they were here I dont know what all they took except some Christmas presents.

We sure have had a lot of rain & of course snow in the mountains which is really needed.

a lady has been staying with me since the 1st of the month but will move the last of the month. EE4q

Jeanette & the baby were over Sunday or Sat. before christmas

and took me to lunch. We all exchanged gifts and had a real nice visit.

The baby talks a blue streak. When we would say good by to people, the would say have a nice christmas", and people would be surprised at grown up talk coming from such a little girl. Michelle talks like that too, no baby talk at all, as their parents dont go for it and I dont either.

Tomorrow is Richards birthday 28 years old I think or maybe 30 come to think of it I think he was born in 1948.

Tommy & Kathleen will be parents in may or June. They are happy about it.

Mavis's parents are coming for a visit in april. hope they get to see the new baby. Gotta sign off for now. Write some time,

My dear Jann-

At long last, I recieved your note, and a lucky thing too. I was just waiting for your father to come back from Atlanta and we would have been down there. I was getting a little frantic. I know you're 24 years old and you think you lead a charmed life, but that angel who watches over you has more than it can do. Also you did not answere any of my questions - ARE YOU Coming home for Christmas.

EE4L

I do hope you plan too. Elsie misses you so, we all do, and it was terrible of you to run off without seeing those who love you so much. You just never know what might happen until it's too late. then you spend the rest of your life regretting all the things you left undone. Please give this some thought.

Have you received any of your father's letters and the check he sent to you. He's very concerned about you. He used the Jonestown address of the Peoples Temple. Are you

living in Jonestown or Georgetown. And where is this school located you teach in. (Bad structure in that sentence, I know) Just don't grade this. — Louis is in exams now and I do hope he will finally graduate (maybe I should say finish since there will be no graduating exercise for several months) at last. He is working part time as a law clerk now, and Leonard King mentioned he would like to have him in his office when he has time. I don't think he takes the "bar" til Jan. or Feb. Wish him luck

EETH

cause it's time he got out of school. — Don't know if I told you Eloise had an operation Nov 14th (I think). She had had a mass in her stomach and they were not sure what it might be. No cancer there, thank goodness and she is doing very well. But poor Eddie is not. Guess I told you he has a pacemaker now, but that doesn't help Congestive Heart Failure. He gets much better when they put him in the hospital but as soon as he gets out he's in trouble again. I'm afraid he won't make it much

longer. He just looks gray all over and has some Edema too. I went up for E. operation and it was a terrible shock to see him. Jimmy seems to be getting along pretty well tho. Course he takes it easy, which is his way anyway. But poor Eddie can't take this inaction. He's like Bertie was, eager to have a clean house with everything in order, but living with Jimmy that's impossible. — Elsie doesn't look well either. She is just getting so feeble. It's

EE4N

Sad to have to watch loved ones grow old. Please try to come home for her sake if nothing else. — Please answers this right away so I will know what to expect. As for the typewriter you could buy one for what the postage would cost, and what about the duty you would have to pay. I'll look into it but I doubt it can be done. Surely there must be typewrites down there. You check that out. Don't forget, answers this right away

I miss you and I love you

Dear Jann

I haven't heard from you since you wrote Jan 10th. Course I realize that you did write to Elsie and I'm very glad you did. She misses you so. — Your father has been quite ill in Houston. Bad cardiograms and something like the flu. It seems that he may not get enough oxygen to his heart. He's better now and back in N.O. but whether he has to look forward to a heart by-pass or not, I just don't know. I do think under these conditions a visit home from you is in order. Maybe it wouldn't be as awful to see us as you think it would.

EGHE

Eloise, Maggie and Carolyn are here visiting me for a few days. Sorry to say they are leaving Sat. I would have enjoyed having them stay a bit longer. Carolyn has to go back to school on Monday tho'.

Lanis has finished law school and already taken the "Bar." Won't know how that came out til April. That's about six weeks later. He's now working full time in the attorneys offices, making money at last!!! Still doesn't have a regular girl friend to replace Gail. Sometimes wonder if his idea of a truly great girlfriend even exists. Keep telling him he expects too much

Ken, was all but killed in an auto accident. Severed his aorta but fortunately it happened near Oschner Hospital and police were chasing the car that hit him and they were able to rush him right over. 10 broken ribs, a cracked pelvis and hip, I think. He's coming along tho. — How are things with you. Do hope you are well. Did you receive the rain poncho. Let me hear from you — I worry when you don't write. Take good care of yourself for me —

I miss you and I love you

AREA I DEVELOPMENTAL DISABILITIES BOARD

March 15, 1978

TO: Area I Regional Center and Area Board Friends & Associates

FROM: David R. Singleton and the North Coast Coordinating Council Ad-Hoc Committee on Organization

Establishment of Regional Center Priorities for 1978/79: Community Participation

The North Coast Coordinating Council and the Area I Developmentl Disabilities Board have agreed to undertake a joint study of 1978/79 priorities for the Regional Center. Our purpose is to establish a firm, practical guideline that will assist the Council in deciding how to allocate its resources. Review and adjustment can be undertaken each year.

Firm recommendations must be presented to the Council at its next meeting during the latter part of May. Our recommendations will be based upon opinion and information received from individuals and groups in the community. There are different methods of collecting such data, but we believe personal contact and the opportunity for every individual to participate are vital. Therefore, given the time allowed, we have decided to mail a survey form to everyone involved and are scheduling meeting with groups such as parent associations, vendors, agency boards, staff and clients.

As a start, we have enclosed a questionnaire that lists all of the services now offered by Regional Center. A self-addressed, stamped envelope is provided for easy return. We have tried to avoid duplication but, if more than one letter arrives, please return just one response.

In thinking about priorities, remember, at this point, we are interested in community needs that can reasonably be met. What do you need now or in the near future that can or is being provided?

EE4 J

215 W. STANDLEY AVENUE / UKIAH • CALIFORNIA • 95482 / (707) 462-0518

At a later date we will tackle the problem of long-term, unmet needs which should be addressed in our area.

We want to encourage as much participation as possible. In addition to the questionnaire, we hope people will attend our group meetings and also feel free to call or write with any comments.

Meetings with UVAH and the Del Norte Association are scheduled for March 20th and April 12th respectively. During the next two weeks, arrangements will be made to speak with others between now and the end of April. We welcome an invitation to any group meetings that people may wish to organize themselves.

Below, are listed staff who can be contacted with questions, suggestions or requests for assistance. Please be assured that the results and recommendations will be announced to the community at the conclusion of the project.

We look forward to hearing from you.

Dear Patty Cartmell;

I purchased for you today an inexpensive ICE CRUSHER which you said you needed so much. It is hand operated and cost $14.83.

I will continue to search for a better model. I can't remember now as to whether you wanted an electric model or not. Polla just told me that there are models which operate by hand or electricity.

I do not know of a satisfactory way to get it to you at this time since I have been stoped from making DIRECT DONATIONS to Jonestown.

I suggest that you give this letter to Dad.

Patty please acknowledge receipt of this letter or I continue to send you copies.

I have begun to check the local dept stores for real bargains which you can use.

Hi Sis:

I received your letter and was so glad to hear from you and the family. I'm happy that you are enjoying the country because my girlfriend, Faith, always said how beautiful it is over there. Her husband's name is [redacted]). They are temporarily separated but don't say anything about it to him.

Celena is doing fine. She will be 12 on July 8 and of course I will be 32 years "young" on the 12th of July. L.G. says to tell you hello and he hopes to meet you one day. He has met the whole family except for you and is looking forward to it.

We are going to Jeff's graduation on May 21, 1978 and will be driving home. Kay is coming also and will come back to Connecticut with us. I really enjoyed her company when she was here Christmas. She is quite different from when she lived at home. I guess you might say she has "matured".

Janie has another baby now. This makes Number "4". His name is Curtis Lamont Smith, and he is just as cute as he can be. She started working at the Post Office and they hope to be able to buy a home soon. Berta and Paul are doing fine and have a lovely home. Rosie is so big now I'm sure you wouldn't recognize her. Naomi is staying here with Berta for now but I think she really wants to move back to Indiana.

Celena is doing well in school (except for her bad attitude) which is a true Flowers. She joined the soft-ball team and is in the choir. She still takes piano lessons and plays quite well.

When do you think you will be coming back this way? I know I will never get over there so send me some pictures. We hope to go to California this summer for vacation and spend some time with Judy.

I am enclosing some snapshots of me and Celena.

Love,

Wanda

Dear Charles, the reason for the long delay. We were all housebound by the blizzard. You know it was bad when even the banks closed. We were so glad to hear from you but sorry you didn't tell more of your family.

Evelyn is still ~~[illegible]~~ unmarried. Phyllis is working as checkout girl part time at Krogers. The little girl is a beauty. Kyle, looks just like your father & as mischievous. Tom II has become quite a little man. Plays on Pee Wee baseball team. They are living in their new home.

Shirley & Charles brick still are at Cloverdale. Lisa & her new husband are expecting a new baby besides supporting his four children by his former marraige.

Laura and Tom are still in Springfield. They have two children Annissa the oldest. Victor Andrew is built like a block house. He is very hard to control.

Spring is here now so we can get out more. The Forsythia tulips and daffodils are in bloom. I saw my first robin and baby squirrel this week.

You would find our minister interesting. He is a Dr. of medicine as well as Dr of Divinity. He has been around the world

Do you ever hear from Micky?

Julia and Joe still progress in their work. Joe is supervisor at Avionics Julia very V.I.P. at the bank. She is head of her dept. and has about ten girls under her.

They already have their tickets for the "500". We still have the five cats.

Mom she just plugs along. Still won't slep much. Believe it or not I don't like to cook & don't enjoy my food. Still read everything I can lay my hands on. T.V. knit & crochet.

Dear Joyce Parks;

Your beautiful and informative letter enjoyed and appreciated by the Parrs (S).

The important missions of the Parr house, as directed by the Principle, are recorded only in the Akashic record.

All material resources of the Parr family, present and future, are fully and previously allocated. I am not at liberty to change the sequence.

I suggest that you use the gifts, talents and techniques that you have displayed in your letter, in a letter to the Ford Foundation. That foundation gives away millions every year to worthy causes.

I have experienced an almost unsurmountable problem of getting money, needed materials and letters to Jonestown. This fact, in no way, encourages the Parr House to be helpful.

I seriously doubt that you will ever receive this letter. To this letter I have attached a two dollar bill (US), the number of which is L 08320877 A.

In the meantime, please write again. Only HE knows when the ember at the end of the tunnel will flicker and burst into flame.

Love and Best Wishes,

In addition to the money, needed materials and important letters, I have also sent hundreds of medical related items.

I have not received one single word of evidence that you have received just one of the items.

I AM NOT INTERESTED IN THANK YOU LETTERS.

Dear Claudia & Brian,

Have you got a phone yet? I hope all is well.

Read the enclosed article. I found it very interesting. Whether Jim Jones is telling the truth, or Tim Stoen I couldn't respect Jones - operating like that! I can't imagine an attorney being foolish enough to sign a blank piece of paper like that, which could incriminate him. On the other hand, if Jones is sleeping with other people's wives, whatever the reason, it's pretty gross! Keep an open mind! I'm worried about both of you because I feel that you're being grossly misled. Have you read All God's Children yet? Please do. Read all of it. It's mostly about Moonies but I see a definite parallel. I love you both, and want you to have a good life, making free choices, without anyone influencing you.

Thanks for your letter - Write and tell me what you think of this article, please.

Have to run!

I love you,

Dear Comrade

With fair and pleasent Greetings extend to you and all members of the People's Temple Agricultural Mission as on this occasion I ask to inform you that I am all engaged in keeping along with my sick stricken relatives who are suffering grave illness yes brother who is effected with parallia, suffering with a crippled right hand so grave his condition is that I had was to have my time taken up in keeping alongside him to nurse his condition. To which I am some how relief in mind as he is some how improving. To this due to position of his illness I find myself gravely frustrated with the necessities of life but with the honest trust and faith in the love of Christ name. I am striving with all hopes to live my course through with the sincere thinking and trust in the consoling sayings with the true faith in Christ words that in hope he the good Creator would be with me even unto the end. Please may I kindly ask that should it suit you to favour me with the coming year 1978 calender which I would be truly grateful as I may also have it known that due to the fearful burnt out that the people suffered at the Lazne Avenue. I had was simple under thinking of the destitute position that they were placed in I could of done anything else than to meet up this requireing with the good parcel of clothes that I had received from the two Good Ladies that had brought it fairly safe to me which I could see that it turn to serve a pretty helpful purpose.

Dear Sis:

I thought I should take this opportunity to at least acknowledge receipt of your two very nice letters.

Celena and L.G. said to tell you, Eileen, Bob, Barb, Becky and Barb's husband hello. I have some pictures that I am enclosing and will send you more. We took some nice ones when we were all home for Jeff's graduation and I told Melba or mother to send them to you.

Faith should be coming there in September, I certainly hope you and she can meet. I know you will like her and maybe she can show you some places you have not had a chance to see.

Celena is visiting in Indiana for 4 weeks with Melba and mother (which gives me a much-needed rest). Melba thinks she is very much like me (which could prove to be disastrous later in life - smiles). Terri is still heavy but cute. Brian has the cutest son, Jamaal Rasheen, who will be 1 year old on Aug. 11, 1978. Melba has pictures of him I told her to send to you.

I talk to Carolyn all the time and she said to tell you hello. Drop her a line sometime (2305 N. 25th Street, Lafayette, IND. 47904). Her son and Celena are the same age (1 month apart). Ruthie is still the same. They live outside of Peru on a farm now. Her family is so large that this is the least inexpensive way of living for them (5 kids). They are both back in church now and seem to be doing very well.

Next week I start my vacation and will probably go to Nashville and Memphis, Tennessee. Some of L.G's friends invited us to go with them to a family reunion.

I would like very much to see some pictures of Guyana and where you live and work. It does sound very beautiful, but too far away.

Janie and Berta are doing fine. Janie has a new baby boy and is just as handsome as he can be (best looking one). I asked her whose baby was this(smiles).

Naioma is visiting Mike and Patty then she will be going to Hawaii to stay with Lois for a while.

Tell Barb her son called me a couple of weeks ago and we had the nicest conversation. He sounded so mature and grown up. Says he is going to law school and enjoys his job. He also told me I reminded him of Lola Falana and that is why he called me (joke).

Lena calls me on a regular basis. Misses her mother very much and sounds

EEYW

like they haven't talked in quite some time. Barb should write to her and at least let her know she and Becky are doing o.k.

How does Eileen like going to school there? Has her mouth quited down any? She, Merri-Jo and Celena make a good three-some(smiles). Celena will be in 7th grade this school year. She is starting to get interested in boys somewhat, but it only the talking on the telepone stage (thank goodness).

Your writing has improved 100% from when you were in High School and mine has gotten so poor that I resort to typing.

Thanks for keeping in touch and I will drop you a few lines again soon.

I really enjoyed getting your letter & the pictures. Thanks a lot. Milton and Norine liked them too and remarked at how nice you looked since losing weight.

Your yard really looked nice & green and of course it is.

No news around here only the eternal hot weather. I thought I had forgotten how to sweat, but not so.

I spent last week down Long Beach with Jeanette and Jafar & the baby. They are doing O.K. Just as hot there as anywhere else.

He didnt last too long after he was stricken, which was a blessing.

After the weather cools off I will go to ariz for a change.

Richard & Sharon have invited me for christmas and I hope to make it.

Dear Angela,

Hello Comrade! I am a member of Jonestown. I am 17 years of age and in High School. I have listened to you speak at the San Francisco Temple and have read your book. I enjoyed your speaches and appreciated hearing you speak about Black Liberation and for the Peoples Freedom. All my life I have wondered if there would be any place in the world where Blacks, Indians, or minority people could go and really be free. Well, I never found the place until I came to Jonestown, Guyana. Because, in the states all I saw was young people going to drugs or jail and even being killed. But here in Jonestown there is none of that. It is a very beautiful community and I would like to tell you just a little bit about it.

In Jonestown we have 5 large buildings which we call dorms, about 60 cottages, a large kitchen and a main dining area where we all eat together. Surrounding Jonestown is miles and miles of jungle. It is so beautiful to look out and see nature as it should be, not infiltrated with smog and pollution - much less racism and fascism. We have about 50 dogs, 3 beautiful birds, 2 small monkeys - plus Mr Muggs (the chimpanzee), 2 horses, 16 cows, 100 pigs, 2000 chickens, 1 anteater and many others. We serve 3 meals a day also 3 midtime meals (snacks). And many 100's of acres of food planted: Bananas, fruits, eddoes, papayas, lettuce, carrots, cucumbers, sweet potatoes, just so many for me to even think of. We also have a large Cassava Mill, Piggery, Chicken House, Sawmill, Tent, Mechanic Shop and other productive things.

We also have a very beautiful nursery - for the babies. There are three different rooms: one room is for babies 0-8 months, the next room is for 8-18 months, and the last room is 18 mths. to

(over)

"Are not five sparrows sold for two farthings, and not one of them is forgotten before God?"
Luke 12:6

EE42

three years. The parents can leave their babies in the nursery if they want to while they go out to work. All of the babies here are very healthy. As a matter of fact - in Jonestown a community of around 900 citizens we only have maybe a couple of people that are not to their best of health. The climate is nice and warm but there is always a cool breeze blowing. No money in the world could ever pay for this kind of a life. Many people coming from the states that are here, did not know anything about agriculture, including myself. But, we have caught on and learned, that we really love working in the warm sun; Planting, weeding and picking the food. Which really makes me feel good because, I know that I am doing it for myself and I can actually see what I have produced it and eat it! Jonestown is undescribly beautiful. Thanks to my leader, Jim Jones, who paid my way over here, I can now live with comrades that care for me. I work in the nursery with the babies, 0-8 months and enjoy it very much. I hope that you will write us back in response to our letters. We are determined to keep our land free and committed to defending our land. We really have a beautiful land to defend and we're not going to let the Capitalists come in and take over our land.

Dear Angela Davis,

My name is Keith Newsome and I think you are a good comrade. Jonestown is a socialist community and we share with one another, work together, live together, and eat together. Jonestown is a 27 thousand acre place. I am a good worker and I work in the Cassava field. And part-time I go to school, and school here is not a drag like it is back states. I go to high school and I am thirteen yrs. old. In school we learn about Guyana history and socialism and how to be a socialist. We learn proper English, First Aid, Biology, and math. All my Teacher are Harriet Tropp, Shirley Robinson, Lois Pante, and Don Bowen. We take cold showers because the medical doctor says it is good for your health. We have agricultural meetings to discuss land. And the water and food is pure, clean, and good. I love it here and I am planning on never leaving Jonestown, and the weather here is not to hot or never to cold. And there is no kind of racism here. And it is so beautiful here in Jonestown, Guyana. Keep on struggling for you belief and maybe I will see you out here someday.

Dear Comrade Angela,

My names is willie Thomas and I'm a youth of Peoples Temple. I've be in this Organization for over 6 yrs. And every since the first day I came here my whole life change from worst to better. Before I came to Peoples Temple my life didn't mean any thing. I didn't care about nobody not even my self. All I wanted to do was Party all night long.

But I'm very appreciative to Jim Jones for changing my life for I could have something to look forward to. My goal in life is to be a Lab technician. Now that I'm in Jonestown High school I really enjoy

taking training from our real medical staff

Here in Jonestown we have a medical building and I work partime in the medical building I really enjoy working there because I learn different things about medicine + diseases. Today for the first time since I know when - Poco was taken in the Boys Bathroom and given a Bath. That's Right - A Bath!! Poco didn't want to stay in the warm water. He kept on jumping out. After his bath, I had soap all over me. It seem like I was taking a Bath and not Poco. Ha! Ha! Ha! Tomorrow I am going to buy him a Flea Collar. He sure in the Hell need's one. Last week before your post card came; Poco was taken to Pet's Unlimited. He had his Nail's trim because they was to long. Also they took X-Ray of his right Hind Leg to see

My job there kept me from much of the fellowship of the family & the reinforcement that people with like beliefs & values can give one another & especially from the inspiration of our leader, Jim Jones. Now that emptiness has been made so full — I feel so good to know I am living my life with purpose & meaning for the forgotten & neglected of the world — the poor.

There is no hope for America - Proposition 13 is just one more step ...

I can honestly say that I have no regrets in leaving there except that I am concerned for Temple members still remaining & I am concerned for you & your future. I will always feel guilt over becoming involved with you, knowing I would be leaving & that you did not seem to have the same vision or goals as I. I hope that you can understand that my leaving you was not rejection of you but a way to prevent many, many little Harold's of the world from experiencing the pain you have had.

You have Jean & Sandy's # if you need it - they are very, very understanding.

Marshall Farris is well & happy! I never saw him with such a big smile & such pep in his step. Take care of yourself. Love B.

ECVAB

that gives one a messed up self-image.

I am so grateful to Jim Jones for his years of sweat & dedication to make this community possible. Lives are being transformed. Seniors have no fear of being forgotten in abusive nursing homes. Young people facing a life of drugs or "prison" terms in the States are free to begin life again with real meaning & purpose. This project is considered a model community in Guyana & many government officials visit. We are doing crop experimentation that will greatly benefit the Guyanese people in an effort to develop their country after recently gaining independence. It is amazing, like two different worlds - here we are highly respected but in the States we were scorned for being a harmonious, inter-racial group that took a stand for equality & justice. And that's a "Christian" nation??

This is really all repetition of what I told you it was — but now I'm here, actually experiencing it — and that makes a big difference.

(1) Phil's immigration status is null and void. He cannot reenter the U.S. until he has applied for a new visa. ← This is his travel restrictions; nothing to do with immigration.

(2) For his immigration, Debbie will have to do the following.

a) Go to the immigration services and file an I-130 petition for a new immigration card for Philip, with his Guyana address.

b) It will then be sent to the London office (she estimated it will take 6 weeks); and they will in turn notify Philip here and he will have to, from there, file a petition to transfer the file to Guyana. Philip will then have to go for an interview at the Guyana Consulate for the U.S.

(3) I told the man, a Mr. Rankiberger, that Phil had told his wife to file the immigration papers last year and didn't find out until

EE4AD

he asked her to do so again that she had neglected to do so last year. Ms. Rarriberger said that he should have gotten a "re-entry permit" if he was going to be gone longer. I told Ms. R. that Phil didn't know he was going to be gone longer than a year. No excuse according to him. Ms. Rarriberger said that it is likely that Phil will have more trouble reapplying and that his wife should go down and talk to the immigration authorities and explain the circumstances. Ms. Rarriberger was most helpful and sympathetic.

(4) Anything else I can do from this end, let me know.

Miss you, and especially your assistance,

To increase production & cut down hours, I was thinking that each crew could have certain goals that have to be done by Sunday. Do this every week. They can work their eight hours everyday but if they haven't done all the work that was suppose to be done that week, the whole crew can finish everything on Sunday until they get finish. Even if they have to work all day

Re: Situation reported to me regarding Larry Schait

On Wednesday of this week I was approached by Karen Layton who said she had something to tell me to be held in the strictest of confidence. She said to me "you know Larry is really freaked out over you. He's freaked out over a lot of other women too, Judy Jones for one. She made it sound as if he was woman crazy. She said he has weird fantasies about me. She then said let him know that you don't have an interest in him. He's not in a relationship with anyone. I just wanted to let you know about it.

I don't know what this woman's angle is but I wanted to report the incident because I have noticed that she spends a lot of time with Larry and I don't want her to go nuts because she thinks I'm pursuing someone she has interest in because I have no interest in Larry at all. I say go nuts because after she talked to me she is hesitant to speak when we pass. She is not as friendly and has a funny expression on her face when she sees me.

Another statement she made was "he's a good doctor but he has his problems".

Thank You

EEOAL

Dear Mom and Dad,

I didn't get a reply to my last letter but decided to surprise you with another letter. I just arrived in Georgetown for a couple of weeks. Much to your amazement, I was able to be pulled out of my lovely cottage in the jungle so I could see some of my Guyanese friends in the capital. They come into the hinterlands to see me regularly but their invitations of reciprocity were getting a bit overdue so I decided to make the trip.

My daughter, who is now in her 2's, is doing fine and blossoming butter-ball. She has a penchant for bananas and peanut-butter fudge which I have a mother-in-law habit of indulging her in. (I told you I adopted a little girl over a year ago.) She is in our toddler day-care program and has made great strides in learning that never cease to amaze me. She goes on field-trips around the farm and at two years old can identify crops we are growing and livestock we are raising. Because my work is secretarial, she, at two, is more knowledgable about the farm than I am.

I am fine and, ~~and~~ with great self-discipline, am not a butterball. I have an appetite which is that of an 18 year old male so have to constantly keep it in check. I have stayed at an average of 115 lbs and don't want to gain or lose. I sent pictures last year, which I am not sure if you got because I never got a letter back. I look the same only my hair is longer.

The farm itself is a lovely community of cottages and cultural and industrial buildings. Our school is used as an example by the the Guyana educational system because

EE 4 AM

of the high academic standard and practical approach of demonstrating to students how knowledge can be used to develop a community. This is something that educators across the nation are trying to implement. Our success in that area is attributable to the harmony and peace amongst all the residents in our community. We are an egalitarian society in every sense of the word, racially, socially, and economically, so we have no petty jealousies that have plagued so many who have also tried what we have accomplished. Success at anything is the basis of all jealousies and so it goes with the lies and malicious attacks we've gotten in California. I can assure you positively, there isn't an ounce of truth to any of the lies you've read.

I talk to Tom frequently and he said he sees his parents at least once a month. They go to museums, the zoo, cultural exhibitions in the Bay area with him.

Susan and Jimmy should either be through high school or close to it. What are their plans for the future. Knowing the Neustel syndrome, Susan has a boyfriend and wants to get married.

Maya is taking Macrodantin qid and 500 mg Vit C qid. because of Chronic bacturinia. She was suppose to stay on it for four months (she's been on them 2 months) then have her urine checked. The doctor said she may need to be on it as long as a year. You can do whatever you think is best. Take care of my "baby" for me. I'll send more of her medicine next time someone goes. The pharmacy only had 50 tabs & it was too late for me to try to get it elsewhere.

Dear Son,

How are you doing? What is happening over there I cannot hear from you. I haven't heard from you since the middle of march. This is my fifth letter to you. Write me Son, so I will know what is going on. You have been gone long enough to be back home by now.

I went down to the church to talk to your two assistant pastors Ren Brown & Ry Joerster. They promised me they would get you to write. I have heard nothing. Take a few minutes Son & let me know what is going on. I hope everything is fine. I'll close now, waiting to hear from you. If I don't hear from you soon, I am going to have to see what can be done.

P.S. Did you get the pictures that Pumpkin sent you?

DEAR ANNIE,

Just time in this mess for a short note to say "hi". I know you will enjoy seeing Kimo for a while. Be sure he takes his vitamins and watch his throat. He has been around several people who have bad sore throats so he may need to see a Dr. if symptoms occur.

Maria is bringing your dress for you. I packed a few cosmetic things for you and Terri or whoever needs them. This place has been a total chaotic mess as I am sure Jim will tell you with reporters, interviews, etc. I know things aren't all roses there either, but at least you have the greatest potential there to have some peace.

I have not yet turned in your resignation because I wasn't sure of your permamence there. You can let me know by radio if that is necessary. I don't know what is going to happen yet. Just let me know. I imagine you could get the job back if you wanted to whatever.

I tried to think of what you would need and I have pretty much cleaned out your stuff exeept for some things from your shelf.

Say Hello to little Chiaoke and also Jocelyn's little one. I bet you are enjoying the babies--they are sweet and definitely can't exactly talk back yet.

I miss you all and send all my love. I will have to write mom and dad, and I have talked to them on the phone. Send a letter to them but have it cleared first by JJ or whatever.

Love,

Carolyn

Anne,

I have been trying to contact Dr's Ali, Sarjo, Searwar & the lab tech at Mercy. Up until this hour I have been successful in talking with the lab tech at Mercy & Dr. Sarjoo briefly. The following info I have obtained. #1 As soon as the cultures arrive here today, I will take them to Mercy & gram stain them to find out if the problem is fungal or bacterial (the complete growth will take 2 day) but at least we would know to keep him on meds for fungal or bacterial type infection. #2 Dr. Sarjoo said to keep him on the Erythromycin anyway until the culture comes back. I will keep trying the other Drs. until I talk with them today & let you know by radio what their ideas are. #3 I am also sending actifed tab. 3x daily for 7 days to try and resolve pressure in the middle ear which will hopefully decongest the tubes giving some relief from the pain. #4 Regarding the ear syringe - I was only able to buy a bulb syringe for irrigation - not a suction type instrument. I'm against any water being put into the ear if the drum is ruptured - only small amt of ear drops or swab for cleaning & drying canal. The reason I feel ~~strong~~ strongly about this is because if the drum is open one can push bacteria or fungas

back up the tubes thus predisposing him to meningitis. The idea of suctioning the canal is good however, we have no suction machine or small catheters (they have been ordered on Emergency list.) The swabbing with cotton gently was my only other alternative. If the drums are ruptured they will heal with time after the infection clears. When I find out the results of the gram stain I will send out any medication we do not have there by plane (someone will have to meet it.) But I'll let you know today. Please tell Father that I'm sorry he's going thru so much pain & that I will get all opinions about the condition and let you know.

Judy & James sent a note via Ruth that Mia James has a chronic urinary tract bacterimia and has been taking Macrodantin 4 x daily & Vit. C 200 mg qid. She is to continue for 2 mo. & then be cultured again. Would you please look in her suitcase and see if the medicine came with her. I have called about 10 drugstores and cannot locate macrodantin. I will have to have them send it from the States if she doesn't have any with her. We do have the vit C.

Also I was told that Jason Greg has a milk allergy and cannot eat any ~~from~~ form of dairy products. I know in S.F he was always congested & had runny nose I do not know his medical history ~~however~~ well enough to give any recommendations

Dear Son,

How are you today? Fine I hope. Pumpkin + the baby came down on the week-end. The baby is still growing. I put her on the floor + she was crawling + going every place. I bought a few things for her Friday. If I could find a nice baby sitter, I would keep her for awhile. I am still going to keep her one week or two.

I am going to Monterey, Calif this Friday night + stay until Monday morning. When are you coming back this way? I really miss you Mon. I am glad you are getting plenty of food. I ask Rev. Brown how you look, he said you lost a couple of pounds + getting some muscles. He said you were fine. Send me a picture of you. I guess I'll close for now, will write again the latter part of this week.

Love + miss you,

Mr. Hamilton Green
Director of Health Services
Republic of Guyana

Dear Mr. Green;

As you are no doubt aware, the project of Peoples Temple was visited recently by two distinguished investigative reports from the United States, Don Freed and Mark Lane.

They have apparently done some of the work in uncovering a conspiracy aimed at undermining the outstanding work of Peoples Temple. I'm glad to see this exposé come to light. Guyana has won my admiration. Very few nations, in my opinion, would have the courage to stand with a group that has been the brunt of such vicious attacks.

The health care provided at the project for the members and Guyanese people reflects the great concern for the well-being of all people by the group's leader, Jim Jones.

Praise to the nation of Guyana!

Jim, I would like to know if Annalisa and Ray Valentine ever came to Georgetown and tried to see me.

Lisa.

Or, just what is the situation?

EE4A4

Dear Lisa,
Hi, how are you doing? I'm not too good at writing letters- I guess that is quite obvious. But it doesn't mean that I haven't thought about you alot. I always enjoyed talking with you. And you know me... I would usually rather sit alone than talk to someone, but you were always one of my favorite people.

You could fill me in on all the good books that you had read, so I didn't have to even read them! There are some good ones on the shelf waiting to be sent over, but there has not been alot of room in bags to get them out. Mike Klingman picked out some good used pocketbooks, and I know they are needed there. It is difficult to get enough supplies out with people that go because their baggage allotment is limited by the airlines, and that is the only way we have of getting everything there, except for surface shipments, and they take a long time.

I am hoping to be able to get over there sometime in the near future, but there are a couple of things that I have to finish up here first. I am looking forward to seeing you again, and all the beauty of Jonestown. I have loved it since I first saw it several years ago. I was astonished from the first trip to the second, I know I will not be able to believe what I see this time. Pam has told me about some of the new additions add hanging plants and all. Tell her I said hello if you see her, I hear she is doing well. I am glad, after all her growing pains she finally got responsible.

The people that come back here that have visited are really very impressed. They just don't believe that anything like that could be done. Lots of people have requested to go (not members) so we already have a waiting list of people to come by.

Mark Lane and Daniel Ellsberg talked here at church last Sunday. It was really good for our people to hear about the conspiracy and that finally things are going to be turned around a bit. And of course, people were so happy to see Marcie! Her coming back was a surprise, and they were thrilled. We still have a considerable crowd here in S.F. and 2 busses came up from L.A. for the occasion.

It seems funny to have Paula here again. She'll be around for a short time. Always glad to have her, tho I know that she would rather be elsewhere! And Terry Buford too. Guess Jean will be coming back soon. I know she enjoyed herself, too bad she couldn't have stayed longer. June hated to come back, but she is badly needed for our 'legal dept.' here. And Leona and Frances will be working on faising money for the peoples needs.

Well, there is not alot of worth to mention that is going on here. Just trying to get supplies and keep the front together. Things are ok. here and people are anxious to get over there. We really miss our leader, and everybody there.
Take care and I do hope to get in the neighborhood to see you soon.
Much love to you Lisa,

Sandy

the good thing about doing medicine is that you can practice it anywhere. So you can really choose where you want to live.

I'm glad you're church work is going well and you are satisfied with it. I guess you aren't playing the piano in Guyana, are you?? I know the steel drum sound, and am picking up some Latin rhythms, etc., from my piano teacher, who leads a salsa band.

Well, I bet you're surprised to get this. Maybe you'll even get another one!!! Love, Becky

Dear Annie, Sounds like you are having a worthwhile time in Guyana - and enjoying it too. The best kind of experience, right? I hope you'll be back in U.S. of A. by August, since I'll be visiting Mom + Dad then; if not, I may have to go off to Guyana to see you.

Well by now you know I got laid off my stupid financial analysis job. I didn't like it. On the other hand, I didn't like getting canned, either. But it just was not meant to be. I am back working part time at Circle Graphics, part-time on TelVISIONS magazine, + part-time on starting up a little company with two other women. We have high hopes, and low capital, but things should start developing once we get ourselves organized.

Yesterday I got back from a little trip to Chincoteague, an island in Virginia where they have a wildlife refuge. We saw lots of birds and wild ponies on the marshy, swampland. I tried to go surfing, but it was mid-tide, and the waves didn't roll in - they just crashed on the sand. So I wiped out alot, to say the least.

Are you getting married or something? Mom mentioned a medical student you'd been seeing - she didn't think you were getting hitched? just going to live together. Are you planning to practice tropical medicine in South America or back here in the plain old South? You probably saw the way plenty of North Americans live the time you + Dad + Mom drove through the South. Oddly

Hi T 'J'

It sure was good talking to you the other night. I know I was suppose to write you the next day but I've been working such long hours and days, that all I want to do when I get home at night is go to bed.

You sounded so happy, it really makes me feel good. You should be happy cause you have had so much unhappiness.

Theres not much to tell about things here. Al's graduating in June and so is Scottie.

Marvaline had a boy, named it Marlin. They have the home ~~at~~ up for sale since Al, Scott & Teri wont be living with them anymore.

Elvis moved right down the street from me. He's really been very good to me. He said you looked so happy on the picture. Told me to tell you hi and that he misses you.

EEYAZ

He still wants to get married. So maybe we will. Anyway he thinks I should come over there in Oct. I told him that I might like it so much that I wouldn't come back. He felt that that was all the more ~~reason~~ reason I should go.

Maybe I'll wait untill you have a babay. I'd like to be there when you have it.

Well anyway the kids should be over sometime in July. They get out of school on June the 25th so it'll be a good couple of weeks before ~~they~~ they'll be ready to leave.

At first when I heard you had gotten married I was sort of hurt cause Pappa found out before I did and told the kids and the kids told me. Guess I wanted to be the first to know. Anyway I am happy for you.

Gonna close now so I can write your Grandma. Glad you are in school. Tell anybody hi

Love You
Mom EE4A2

Hi Poncho

I'm still trying to get used to the idea that my little girl has her own man. Well anyway I'm sure she couldn't have made a better choice. I know that you got the best when you got her. Anyway I know you two well be happy together. You couldnt be in a better place to be happy.

Looking foward to seeing and hearing ~~you~~ the group sing. If all goes well I'll be there before the year is up.

Just wanted to write you ~~a~~ a short note. Take care of each other.

See ya soon

Hi Mam

I felt so alone when you left. But I really was glad because if anybody needed to go it was you. the kids and I went to see Peppa a couple of weeks ago. He had just gotten back from Vegas with Clarence, Tina, Gloria & Brother.

He suppose to have surgery on his eye on the 6th of June. ~~Other~~ Other than that I guess he's fine. In fact I certainly wouldn't think of rushing back here if I were you. Better yet you should stay there as long as there's a downtown. Like forever.

Nothing much happening here. I've been off from work for a couple of days. the doctor has me on semi bed rest. He wants to do a hysterectomy. (Can't spell) There's a large mass on my right ovary and ~~[illegible]~~ a smaller one ~~[illegible]~~ on the left. Anyway I will go to the hospital on Tuesday for some test. It's funny but I'm really not worried about it. For all I know I might have ~~[illegible]~~ terminal CA, but I just don't believe it. EE4AY

I'll keep you informed. The kids are really looking foward to comming. So am I.

Bet you look good since you lost weight, not that you didn't look good fat :).

Elvis asked about you all the time. He really likes you. I think he's hoping I'm as smart as you. Poor thing hope he won't be too disappointed with me. He lives right down the street from me. She socked it too him $400.00. $250.00 for her and $150.00 for his little girl. The son is 18. She is entitled to ½ his retirement for life. Oh well what can I say.

As I said before not much going on here. Working 11 hours a day and 6 to 7 days a week. Don't know if I'm comming or going. The drive to Burbank and home is a bitch. Going to stop as soon as I can get the kids away from here. Anyway mom write. I still didn't get any more letters from you. Wish I could get Elvis to come over there. I really don't want to leave him. He's really been one of the nicest things

Hey Mom write Please. Tell me about some of the people there. You don't have to try and convince me how great it is there. Course I know that. Just trying to say that you don't have to try and sell me. Even Nature & Poncho sounded like used car salesman. There are other tactics to use when trying to win someone over to your way of life. Please just be your same old ~~self~~ self with me. Its works much better. I know you love me and want me to enjoy the life you have, but please don't write as if you were advertising for some vacation spot. I'm still Nell, I do believe that what our friend has done exceeds all the wonders of the world and more. Oh by the way I did know what FIY meant and stilts means. Enjoy your new life.

Dear

Will inclose answer to others last letter, with yours. See that she gets it and reads it. Had letter from Pat C. Will answer it, later. Hope this finds you feeling fine and everything going well for all. Reaping souls has always been a rugged vocation, I think. 'Tis said John the Baptist even howled in the wilderness. But maybe he just felt more effective among the four footed creatures, as I always have. Ha! Ha! Then to be may have had a few Archies and Beefies in his midst. What? Very little to write about here. Was amused by a joke I was reading. A Hollywood writer "requested" that his body be cremated and 10% of his ashes flung in the face of his agent." Another: A teenage boy asked to list his hobbies named "skin diving, skiing, a hot rod and Elizabeth." Tell me, do you still like the Toyota? Do not let anyone get hooks on that battery in the Vauxhall. They might run a switch on us. That is a damn good battery for a small car, when operated often enough to keep it "up". I sure like that Vaux and hope it doesn't rust through on that fender. However, do not let Walter at it. He had a wild idea of how to safeguard it against rusting further. Marvin is the one who knows that car. He put it in excellent condition for me before. See that the Cartmells + others do not use it. They always had an eye on it.

I get so aggravated at his and her damn clutter and she retaliates in kind when I urge her to store it, share it up, or set fire to it before it strangles us to death. But there is humor, still, in the controversy. She tells Bud how her cats worship her and swears the moment he goes that the damn skits hasn't known she was living since I came. It is so amusing that she can not get as mad as she would like to, when she grabs either cat up to love it, it whipsaws around as it can still look at me. She asks me how I do I explain this and

EE4AAA

I tell her it is because I am much prettier in a feline sort of way. Jim F, caught with a broken arm and an expired insurance on his house loan cursed out the bank personnel for failure to notify him. Sis has a house loan at the same bank & I have accounts there. So we nosed into Jim's story. They had sent the reminder. Sis figured this cleared the bank of all responsibility. I still figured the bank was guilty of "negligence" in so far as they hadn't persisted and by failure to do so had endangered their own position, as well as his.

By the way both Jim F and Sis insist that anyone who drives a car should have a mortgage on their property as judgments can not be obtained on mortgaged property. You are in good position on legal aid to quiz an attorney about this. Do it and let me know what you learn. Driving has really gotten to be one hellova risk you know. If there are any such safeguards we should avail ourselves of them.

Sis (fiddling with incinerator just now) flung sawdust in it and lost all of her eyebrows eyelashes and substantial percentage of her new permanent + dye job. Said I, ecstatically, as she shrieked and anointed herself with oil "Eh! If THAT had happened to me, I could have saved the price of a hair cut."

"Hass shit!" she roared "I'd be the last to doubt that you would have profited -- somehow -- Eh! Yes! If you was flung in a vat of pure dung you would emerge with both fists full of money ... etc"

She had insisted she was losing weight but last evening when she tried to get in her evening gown for a lodge function I had to set my foot in the small of her back while she layed on the floor and close her zipper with a pair of pliers. That is the God's truth. "Boy" wheezed I "That 15 lbs you lost must have gotten lodged in this damn zipper." I never let on -- that she's sponsored a wild claim but never miss a trick -- by way of establishing the "truth of the matter." Ha! Ha!

Run some figures on the "E" bonds. Think it probably cost me $2000 in interest (if held in bank) to be "patriotic". How's that for a scream! It was conservative est.

Lots of Love -- Ava. soon -- mom.

On the trusts you need only present my death certificate to draw the money, I am told.

Hoped to break through for Soldiers pension. They decided to count Soc. Sec. as income and the limitation is $1800 per annum. My Soc. Sec. will be well within that limit but I'd have to put everything in "trust" and disclaim the income from the trusts on the grounds that I expect to return it to the trusts when Soc Sec. is paid. Maybe that will work and maybe not especially as regards the income but I am a sucker for trying -- so I dreamed up the latter notion about the "income" but haven't sprung it on them yet. Guess if that fails I will scream for posthumous review of his claim in effort to get "service connection" in which event the income limitation would not apply. I took a crack at that sometime ago. The Board of appeals claimed they local board would have to refer the thing to them & forwarded my request to Local Board, Indianapolis (where I first filed my claim). Indianapolis took refuge in "silence" but you know the powers of my trusty pen (and I) - we can break their silence, sure but have to play it cagey so they can also snatch my tax (proptax) exemption which is worth something like $100.00 per annum to me.

Now how doned you like to gamble on a sure win and set up 22½ thousand dollar trust fund for me? What?

Dear Mike and Chris,

I'm writing to you Mike - but I expect that you'll show the letter to Chris. -

Things are changing a little here - Jane, I and Vitali are moving to Menlo Park - this is where Vitali goes to School (he's 6 yrs old now) and where I work. Finally, it's a place that we're satisfied with and we'll stay there as long as we live in the Bay Area.

I resigned from being Director of the Program last October - which this means is that I work more with people and less with paper - harder work in many ways but so far infinitely more satisfying. I hope to start a part-time private practice as soon as we get to Menlo Park - (around February)

Sandy and I see each other every 6 months or so. - I celebrated my 50th birthday on October 1st. - Half a century - quite a lot of experience - I feel very wise in some ways and very naive in others - funny - learning never stops - Thank God! At any rate we had a very good time - Perhaps you and Chris will be present on my fifty first birthday -

This letter will reach you via Leo Ryan - a local representative. - I hope it finds you well and feeling good. - Again, remember you are welcome here at any time - both of you - I'll be happy to help you financially - at least temporarily, until you get started - and help you with the plane fare if needed. - Write - let me know what's going on in your life -

Sincerely
Your Dad.

Valentine's Day
1974

Dearest Jim,

I wanted to send you a Valentine but searched in vain for one I could relate to. I thought of writing my deep sentimental feelings I have for you but decided that was selfish since you might feel it required some response from you. So, I decided the things I most want you to know was:

BE HAPPY

1. How much I appreciate what I've learned about life by knowing you.

2. Even though I have a strong personal attachment to you, if some fate should separate us forever I will lend what strength I have to defend the defenseless and oppressed.

3. You have been my only love and there shall never be another. I enjoyed our intimate times together and face the rest of my life, happily, just remembering those moments. I loved you before you were 'God' and will always be sentimental about those years when I thought us lovers.

4. My love for you, today, wishes for you peace, rest and the fulfillment of your dream of a better world.

Happy Valentine's Day.

Marchine.

Dear Paula,

I have just today received a most gratifying letter from you U.S.A. H.Q. I think it was the nicest thing one has done for me for a long time, in that you took the trouble to report my helpfulness to your organization. You need not have done this for this is my normal attitude to anyone of our customers who might be in urgent need for our services. However, please know that I am indeed very grateful to you for going so far to express your gratitude for the service rendered, and I shall indeed be happy to be of service at anytime. Please feel free to contact me again at any time, for any assistance.

Michelle,

How is everything going (do me a favor and not answer that question as the answer will not make any sense without context)?

I am forwarding this nice note on to you from one of our cohorts from the O.R. Who has a gap between their front two teeth (which was my only retaliation)? My return note had only two words, "Buzz off".

I would like to know if you have filed any of the receipts I left for you. Do what you can with them because I will have a new big pile for you next week. It is important that all of these things get caught up to date.

Daisy, the Georgetown addition to our family who is also a rice mongrel, sends her greetings. She has mange bad so the guys are supposed to get some old oil to soak her in. I yell at her when she scratches because on one leg the first layer of skin is scratched off. It's really bad and she can't sleep at night it bothers her so much.

All for now. Affectionately, Paula

Hello Wanda Kay,

I hope by the time that you receive this letter it will find you and the kids doing well and blessed with the finest treasure of life (Good Health) Wanda before I say anything I want you to know that I have more and my new room number is 3160 but my B-number is the same B-86368 it is not B-86883 which was wrote on the envelope. I dont know how you got that confused and mix up. Anyway the only change is my room number. You think that you got it mean Wanda Kay (smile) come on and smile be alright I am still smile Wanda Kay, can you dig it.

Well Wanda I must say that you have a way of saying hello and bye at the same time HuH. Wanda was it that you didn't think I merit the opportunity to see the kids before you left or what? I had no idea that you would just leave without saying something, but as I always say, you never know what people will do but life is full of surprises, you know what I mean Wanda? But I can deal with it because it is reality some people try to run from reality other try to hide from it. I wish could you away from something because then I would think of myself as a coward, so that is for sure a no-- no. with Stephen B. and to try and hide from reality, I would have to be a fake and you can't fake on yourself because that little thing that they call your conscious will tap you on your shoulder every chance it get and at times it can really make you feel bad. Well so much for that Wanda Kay, let me move on with this letter.

EE4AAP

Wanda I really cant speak on it because I am not there to see for myself but it seems kind of strange to me that the people, doing all the talking and accusing Jim Jones of doing such things as forcing them to sale there property with fear and keeping people from leaving South America, or Jones Town, are people that was member of the People's Temple for many years but as I said I can't speak on it and rather then judge a man I will try to understand him, but if it is true what they are saying about Jim Jones time will tell thats for sure because what you do in the dark will come to the light for sure but I'm more than sure that you know that better than most people right Wanda Kay.

Well Wanda I might as well let you know that the Berkleys are having a family reunion in Chicago at my aunt house she is my father sister and from what Sophia told me all the Berkleys from California and everywhere els will be there that is all but me but I will see them in time I know its going to be a lots of Berkleys in town this month. (Huh) Wanda how is your mother? I know that she is probable happy that you are there with her "huh" anyway tell her that I said hello and to take care of herself. Wanda your father writes me all the time you know you really hurt him when you took the kids away from him he is like I am he just can't understand you doing something like that and we are not by are self it is a whole lot of people that can't understand that.

P.S. the thing that you said you was going to send me befor you left I got them, thank you for thinking about it anyway. Wanda if it is not to much trouble will you send me some of those picture that you have, I never did get a picture of yoland and my mother that you said you was going to send. Write soon. As always have Stephen B. Eckart

E

Wanda you know after my mother pass away and then your sudden move everybody was real concern about how all that madness was going to effect Stephen B. they was looking for me to mit up or either do something real stupid or beyond reasoning, but I did the extreme opposite of all that and to know that I got myself together in the middle of all this madness and mental confusing makes me fel real good. You see Wanda I know now that it is not where you are that determine if you are happy and peace, and it is not the environment either it is your intention, your goals, your pride, your selfrespect, your morals, your principle and if these are low you can't get around doing stupid thing and doing things that you will regret the rest of life and you can't solve your problem by running or trying to evade them, because you are your problem and until you change the problem will be with you until the end

Wanda you know it is a shame that you are not here to share any of this with me, because it is a must that I have a Mrs. Berkley in this operation but that will come in time I guess, I am in no hurry at this point, but you can be assured that they are after Stephen B. they know that it is very rare to find a man that is not only handsome (smile) but thinking to, and under these condition that I am leaving under but like I said I am in no hurry, I have made it thro gh the worst part of this madness I can see the end now real clear, and there is no way that Stephen B. is going to allow himself to do anything stupid. My good friend Karen, is always telling me that I have one thing that might hurt me if I dont change my outlook about women because all women are not the same, and she is right in a way

EE 4AAF

Wanda I dont know how much the government grant will be, but I do know that I will ask for two hundred thousand and most likely will get half of that, but that wont take place until I am release. By the way speaking of money I wrote the attorney Donald Cohen concerning the settlement that I had filed with his law firm, he answer my letter informing me that he had mail a check to you and the way that I have figure it out the check should have arrive about the time that you move to San Francisco from Pittsburg, anyway the check was made out for 1,300.00 one thousand three hundred dollars. Wanda it is hard for me to believe that you would take all of the money and not send me a few dall-dollars, but if you did, so be it just let me know if you got the check plase.

Wanda there is quite a bit of controversy over here about Jim Jones and his move to South America, it has been on the television and in all the news papers and the people that are talking about Jim Jones are people that was members of the peoples temple one man was real high in the People Temple staff his name is Timothy O. Stone and a lady who name is Kathy Gunter wife of the Ukiah Daily Journal newspaper they had artical in the Times news paper L. A couple sue religious leader Jim Jones the artical was wrote by the Times religion writer Russell Chandler and on channel (2) two news they had some people from the Peoples Temple saying that they had turned there property over to Jim Jones and they were crying because they could not see there people in South America or any money from there property. Wanda this man Timothy O. Stone was in South America with Jim Jones long before you got there but left because he and Jim Jones had a disagreement.

EEYAAF

D

Wanda remember when I use to talk about starting a community project you know Operation Deal with It and For The have of all. smile) Well Wanda I have finally put one together and it is a winner baby. Wanda it has took off on a remarkable good start. I am in the process of answering letters that I have received from other programs and school of higher learning such as colleges and university they have two (2) school of that nature right here in San Luis Obispo and we have establish a good reputation with both of them, just (2) two weeks ago two (2) of our member went out to give a lecture to some students that was about to receive their diploma to teach school, and the report that they brought back to me was outstanding. I have a a winner baby and as soon as I get my custody change I will be going out on lecture myself and that not to far away.

Wanda Stephen B. has put a project together that will supersede all other, Narcept is unquil there is not another project or program that is equivalent to Narcept, all aspect of it is positive and it is register in Washington D.C. so they can't take this away from Mr. Stephen Cecil Berkley Sr. I got it together this time baby and everybody that help me so devotedly on the outside such as Omal and his wife Karen my sisters Barbara, Sophia, my Uncle Tom and his daughter Gale, my brother Granton and my number one man Stephen Jr. these are people that didnt turn their backs on Steve these are people that didn't tell me one thing and do another these are people that didn't say the hell with him let him make the best way that he can these people are for real people, and I thank who ever is up there that I found out in time who is with me and who is not. with me EEUAAF

Well Wanda I guess that you can tell from letter that I didn't die, but I am not going to lie I went through hell and there were times that I almost wish that I was dead. I lost a lot of weight but I will pick it back up soon. It was a combination of things that help aggravate my health loosing my mother was one then right after that you decide to take me on a cold trip and to this day Wanda I wonder what could I have did to you, for you to do me that way at a time like that maybe one day you will let me know huh Wanda, anyway I am doing alright other than I keep a lot of tension on me but I know what that is from no sex, it would also help if I had a woman to talk to once in while I might have to learn how to make love again when I get out of here (smile) but you can bet I am not going to be in no hurry about it because I am going to keep my morals, principle and self respect I dont give a dam what happens that just the way Stephen B. is anybody can't have my body.

Wanda I am playing a eight track tape by Nancy Wilson Kaleidoscope remember that one? I'll get alone some how is playing now, by the way Stephen Jr. and Denise gave me a Panasonic F.M./A.M.-8 track player for Father Day they also sent me a lot of tapes you know Wanda its something you know they remember what kind of music I like, speaking of music what happen to the rest of my album? that you told me you pick up from Best house, is it possible that I can have them pick up or what? Wanda I would like to get them if it is anyway possible it would be highly appreciated if you will let me know something about them soon like yesterday (smile) EE4AAF

Well Wanda how are things going for you in South America? Other than it's beautiful and like a dream, as you said in your letter. What is happening with Wanda? And what is Wanda doing with Wanda? You know it is more to life than just living at peace and feeling good as you stated in your letter, and if you recall you told me quite a few things of that same nature before you left, but we won't go into that will we, because we both know (right --- right)

Wanda how is Olivia and Yolanda doing? I am real concern about them, and how this move is going to effect their life later on when they start to question certain thing. Have you ever thought about what kind of answer you are going to give them to something to think about? You know what I mean Wanda because as they get older and obtain the ability to think, they are not going to accept just anything for and answer. Like still till for now (right)

Wanda I disagree with you about they are getting the best education, because it is a fact that the best education is obtain in the United States of America and Russia or maybe you want the best education that is available then by arguing tell them that I said hi and to try and learn as much as they can and to be good, give them a kiss for me and let them know that I haven't forgotten about them and that I love them more than ever, and let them know that one day that they will look up and see their father, I swear on someone that was very dear to me my mother that I will be there to see them, that will be my first move when they let me go, and that's not to far away.

To Jim Jones:
Dear Father:

I am still here & looking toward to joining you one day in the promise land of the Free. Jim I am fine & able to work for this cause. I would still like to stay here a while & work on this job, that my Son helped me to get through the Civil Service department. I know it was made possible only through you. I want you to know I have become very disgusted & I can see how people leave this cause. Not because of you but because of people you have as your leaders back here.

First, I write "Council" because I didn't like the idea of a white person having the key to get our mail. There are (3) blacks here & I feel we are capable of doing for our selves as this is the old rule a white has to be in charge. this has been 3 months or more before I ever started working. I have been ignored. My mail has been missing, my 1st check when I began working. Judy Mairman gets the mail. a letter was put under my door. I did not get it. I had know other alternative, so I had my mail sent to my Son's. I knew you knew this, so you proved it to me EE4AAG by sending me

a letter there. Thank You Father". I still know you are the greatest + the light of the world. I shall stand like a tree even I am very disatisfied.

My Brother has begun to come back to Church now. The first night he come, Service was nearly over before they would let him in. Leona, called me very rudely over the mike + said Lorine Davis I want to see you + right now. She questeon me, also Alice + husband, about how my brother got to Service on a tuesday night. I told them he called me + I told him. My brother gave his home + every thing he had, they have been sleeping on the floor all winter. My brother wanted to talk to Leona + she would not talk to him. I think this was rude to call me out in the manner she did. I ask Council that she apolizize to me at the wed. night meeting or if I had done any thing to let the family know about it. I was ignored again. I feel this is to much + that Leona feels she is to important to be wrong.

I went up stairs to Sandy + ask her if Council got the letter, since I gave it to her, she said yes. I told her I never herd from it. Sandy said every one she showed it to, thought it was OK. due to Leona working so hard in the cause. I ask her if this ment any one working hard in the cause, were allowed to treat people in just + get by, she said she did

EE4 AAG

not say that. This is what she implied. Then Sandy told me that she had nothing further to talk to me about. I told her if it happens again I would take care of it in Service.

It seems now, you just take what ever happens. I see there is no need to write Council. I dont feel like being bored with the ass holes here that dont seem to know what you are about. I have not turned my work pay in to them for I dont feel they are worthy.

Vernell Henderson, is responsible for Judy having the mail box Kee. I feel Vernell is of the Uncle Tom or Aunt Jane type. I have missed Church a few times recently as I dont feel those acting as your disciples are of justice.

I shall always remember you as my "Leader" even if I am not in Church. I will always remember that you are truth, justice + Love. hope to see you in the body later. Love to Mother.

Peace + Love
Lorine Davis

P.S.
Father, Leona refuses to speak. To me she feels guilty.

October 26 - 1977 - Late in the evening -

Dear Christine - I have been putting out of my mind the writing to you - until finally there is no more room to hide it away. That sounds pretty awful. I do love you - that is true and all the rest isn't as important - but they are certainly complicated, all these feelings I have had for so long. I shall try to simplify and say that somewhere back there I lost my trust and have been fearful of being hurt so have barricaded myself with a cool-new and if that seems like an un-caring I am sorry.

I feel you are reaching out for two reasons the first is that you are so far from "home" or familiar territory - the other that you need to reassure us about the temple and your life + to soothe everyone after all the negative press, etc. The main thing that I'm concerned about is that you are living where you are and doing what you are doing only because you want to and that you have complete freedom to change your mind + views + exercise that freedom at will - yours - and even to leave there if you want to. The recent negative press actually has had little impact on my feelings - they were born many years ago and time ~~and~~ events have molded them not press releases. Christine, from your

description of your life there - what could be more interesting + colorful. Somehow only part of me believes its that perfect - I wouldn't mind finding out for myself - at least viewing you in your environment (and I really don't mean your physical as much as all else) - However the jungle sounds fantastic - and your work in the school seems perfect for you - + fun ~~for~~ If ever you need help from me - be direct just ask -

How much is air fare to Guyana? Maybe someday or days of saving and you're still there ....

I hope this hasn't seemed too heavy + gloomy - mostly I have the feeling you are doing what you want and need to do - In order to assure that you get this before another eon I'll seal it up - and write again soon - Affectionately + with love -

Dear Mr Lane,

Your ~~vast~~ visit to Jonestown was certainly something the people here are still talking about. In fact my 4 year old son & his friends play a game called Mark Lane & Jim Jones. ~~One of them~~ One of them will pretend he is you & another is Jim Jones & the others are servers & they serve dinner to the guests. Its really cute. ~~Its really~~ Words could not express how much your visit meant ~~what~~ & we all feel such a ~~great~~ warmth towards your kindness & sensitivity. Friends like you are few & far between & Jonestown is an even better place because of your visit. We feel good to know we have a friend in you who is willing to help ~~in our~~ crack the ~~bom~~ conspiracy ~~we face~~ facing us. I was especially anxious for your visit Mr. Lane, because you were a great influence ~~on~~ ~~turning~~ on my life. I first heard about you when I was in high school. Two friends of mine had been to see your speak in Berkeley, on the conspiracy to ~~assa~~ assassinate John F. Kennedy. I was intrigued with what they said & found myself believing what you had spoken about. I feel that that was when I started becoming politicized & realizing that ~~America had~~ had lied to me. You have inspired many, and I'm glad that I am one of the many. I teach in the Jonestown Community School, and can verify that our children were inspired by your visit & have an ~~even~~ even greater interest in learning more about conspiracies. Thank-you again Mr. Lane. ~~Plea~~ Please come again soon.

Sincerely yours,

Dear Muhammed Ali -

I'm writing to you from Jonestown, Guyana in the beautiful lush green jungle of So-America. I came here over a year ago so my 4 yr-old son could grow up in an inter-racial environment without the tense competitive ~~[illegible]~~ we felt in the US. You would enjoy a visit to Jonestown. Your comments about world peace have inspired us & we feel you would appreciate a community such as Jonestown. Our community is made up of seniors ~~who were left to middle age~~ who are living happy & productive lives. Our children play under pollution free skies & enjoy all kinds of sports activities and attend a school rich in practical as well as academic skills. They would be thrilled with a visit from you. You would be impressed with our many of our young people who were lost on the US, into drugs, & crime, but now are helping to build this fantastic community. Upon one of our Jonestown schoolteachers & I am overwhelmed at what our children are achieving. We would be honored to have you visit. It's an experience that would really touch your heart. We sincerely hope to see you soon. Yours truly,

Debby Jensen

Dear Dick Gregory,

My first introduction to you came when I was back in high school & I read your book Nigger. Needless to say, I was impressed & have followed up on your work ever since then. That was a year ago, my 4 year old son & I moved here to Jonestown in the beautiful jungle of Guyana, So-America. We wanted to live in a pollution free inter-racial environment, without the tenseness & competitiveness we felt in the U.S. This would be an unforgetable experience for you Mr. Gregory to visit Jonestown. The beauty is overwhelming. The skies are blue with clouds like you've never seen before. The deep lush green vegetation is fantastic. The sunrises & sunsets are filled with colors I never saw in the US and at night I never knew there were so many stars. The people of Jonestown are hard-working, peace-loving, friendly folks that are anxiously awaiting your visit. It's a trip you will never forget.

Sincerely yours,

Debby Jensen
