FBI—Eleanor Detective Agency

[illegible] to have [illegible] Mrs. Roosevelt's report has looked and looked and [illegible] to find any of the Eleanor Clubs, which report [illegible] by Mrs. Roosevelt among Negro-serving [illegible]. Now isn't that dumb. The FBI boys with nothing more to do than hunt spies, saboteurs, seditionists, counterfeiters, air-raiders, deserters, bogus army officers, draft dodgers, unregistered aliens, bandits and Indian bootleggers, take time off to search the kitchens of Florida, Mississippi, North Carolina and Alabama for Eealnor Clubs.

We hope the wind never blows Mrs. Roosevelt's hat in the Potomac because we need our navy elsewhere.
