I Asked the FBI How to Stop the Irrelevant Messages

By ELEANOR ROOSEVELT

HYDE PARK, Thursday—I am having a most spectacular experience. Several letters have come to me lately enquiring about mons communications which were received by my correspondents.

In these communications they were told not to subscribe to the drives for funds for the Metropolitan Opera, the New York Philharmonic or the stadium concerts, and that they can find out from me that I am opposed to these organizations because they present legitimate artists from singing.

In each case, of course, I have had to write back that there is not a word of truth in the statement. As a matter of fact, I would urge people to contribute to all of these organizations.

YESTERDAY the ceremonies for Memorial Day were held in the rose garden as usual and Bryn Mawr made the main speech. It was a most interesting speech, and I was grateful to the Senator for coming up.

A great many old friends were among the crowd that stood along the path inside the high hemlock hedge and joined in the services. I can never hear Taps blown as is always done after the laying of the wreath by the Roosevelt Home Club without a tightening of the throat. It makes me think of all the many men who have given their lives for their country and who lie in far off cemeteries. I order that this land and its people may live in peace and liberty.
