1. That in 1974 JONES had put out an appeal for all unregistered weapons his people could acquire.

One of those attending the meeting stated she had over 170 of those weapons in her house until January 1976 when they were transferred to the church's San Francisco location.

2. That the weapons were subsequently taken to Guiana via chartered aircraft out of Miami.

3. That funds in excess of $200,000 and $300,000 were seen in cash in one member's home.

4. These monies are normally shipped via mail c/o of Paula Adams at the mission in Guiana.

5. That JONES is an active supporter of both the Black Muslim and Black Panther organizations.

6. That JONES had considerable political power, both in Mendocino and San Francisco Counties.

7. That JONES had aspirations toward a political appointment to Guiana, possibly an Ambassadorship.

8. That JONES was seen throwing tear gas into a demonstration in Guiana in 1975.

9. That JONES would like to become a "factor" in the Guiana government or power structure.

10. That he has upward of 27,000 acres in Guiana approximately 50 miles up river from Georgetown, whereupon he has his Agricultural Mission.

11. That he surrounded himself with a para-military type of bodyguard known as the Apostolic Guardians. Surveillance at the Redwood Valley, CA, Temple verified the presence of an armed patrol around the compound.

12. That he had had an agreement with the Guianese government whereby all shipments to the Agricultural Mission would be labeled as "farm implements" or "used clothing," and would not be inspected by local officials.

13. JONES communicates from Guiana to San Francisco in code by short wave radio.

As a result of this action, a continuing series of magazine, newspaper, radio and television articles and coverage has been given to JONES and the Church. Subsequently, investigations have been initiated by San Francisco and Mendocino counties.

JONES has retreated to Guiana and is apparently selling all property here and urging his people to come to the "Promised Land."

Lookouts have been posted at Miami, Houston, and New Orleans for shipments destined to the mission in Guiana.

Included as Collective Exhibit 1 is a preponderance of the material printed since July 16, 1977, on this matter.

Because investigation disclosed allegations that JONES intends to establish political power base in Guiana, and that he may currently have several hundred firearms in that country, the above information is furnished to

[redacted]: I used to use cocain, smoke a joint about 2,3 yrs ago.

[redacted]: I called the cops last yr on the next door neighbor, he was selling dope using, using dope and they was stealing peoples things and I was seeing it.

[redacted] girl stole a taperecorder, [redacted] she stole it from the glass room. The police asked me about it and I told them t that she had stole it.

[redacted]: I called the police on my so-called daddy, cause I had been out with a man and did'nt bring home any money and at the time I was pregnant. And he would'nt let me have any dinner and he swung at me and hit me in the stomach, so I called the police. The police put me in the car and drove me around for awhile, but nothing was ever done aboutit. I once called the police on my husband, he took my son to his girlfriends house and the 2 yr old baby told off on him and the man slapped him in the face. And so I called the police. this was about 13 yrs ago.

1972- I found out that a girl named [redacted] was trying to ruin me, so I could not work by lying on me. I found I was being followed and my life seemed threatened (visible) she was selling cocaine, tickets etc. to I called on her. She still lies on me when ever I come across her.

I called her and ask her to stop - I have to hate for her - but her reason was because someone she cares for cared for me.

HELPED FIND BOMB

(Times Photo)

Deputy Sheriff Damon Brazell of San Mateo County and his dog "Baron" joined the search today in Oakland to find an unexploded bomb. "Baron" was called into action when other methods failed. He pinpointed the bomb area when the air conditioning was turned off. He has sniffed out other bombs with dynamite contained in them in the past.

I heard recently that we were to report any relatives in the police

Somehow I missed the request.

I have a sister married to a Redwood City policeman.

He has a dog that he's trained to sniff out bombs. The dog is an award-winner & is called out often in bomb scares.
