From Mary Wotherspoon.
He went to Ukiah to sue the Mendocino Grapevine - clear his name & regain his job in the DAs office
Could we hit him c̄ a smear campaign playing up the transvestite or unusual aspect or quirks of his character (Alot of testimonies could be gotten together)
At least this would destroy his reputation or make people wonder about him & not trust him.
Give him no money. Or make it seem as if he is still with us.
Comming out with shit to find out who our enemies are. As long as the conspiracy is with him we can only work on making them mistrust him. Let him know we are still around. BO-31-a-257

I think tim Stoen is not interested in the money. He is in such a mess and too chicken to take his own life. And he knows you are so loving you won't doing any thing. Dad I feel there should be no money given because he's a part of the conspiracy and regardless if the money was given or not we are such threat that the conspirators are devoted to are destruction because of what we represent. Tim Stone should be confronted face to face because a person who has sold out under pressure value his own life more than money. So there's a limit he can be reach on being he spinless & weak. I also feel we will have to stand sooner or later. So less not give him shit. I would be more than willing to do anything and any task for the cause. Here are some of my ideas. I see the achilles heel of Stoen is
his drunk narcacism and dreds
to be around anyone who might have
power. I remember when we were still

blab to a reporter because he
flattered him. When he met Gene's

The natural way for him to go

Tim Stone Situation 20-12-74

To Dad:

I think that the REASON FOR Tim Stones' action to black mail the Cause is that he sold out before he LEFT Jonestown and know he had to go claim What he would have been given by the Captalist, and being that he still was caring For Grace more than the cause he thought that IF he sold out with the that she would take him back. but it didn't work that way and he has no money to go any where because IF he stays ther too much longer he knows that since he killed Teddy Bear he would be next so the only thing that he could do was to try to black mail us. I Feel that We should ignore him. because the M.F. is already loosing his mind or he wouldn't have came up with this shit From the gate. so without or letters or anything else he will get so Paranoid about Killing Teddy until his own conscious will Fuck him up IF We do any thing to help this action the law will try to hold us responsible. So I say Fuck him Wait it out and be Ready For action.

Dad - Comrade Leader Marlene Wheeler

My suggestion about Tim So. concerned the group you mentioned. I remembered you saying they offered their help before. I think they should be contacted & should pay a visit to Stoen. He is spineless himself & would know they have no fear of white mail by him so they can't be manipulated. They are the only outside people I'd trust in the U.S. If they won't do it, they could give us a lead on a reliable paid assassin. Both sides can play that game & it would be justice that Stoen die by the hand of a capitalist mercenary-type. Our money would be best spent on this then trying to keep his mouth shut. I do think all potential targets, our members, be removed from the situation especially Marceline. I think they also want to "worry you to death" Grace always played on your heart trouble & is increasing pressure on you. Once we get our people out whatever they print won't probably change to many minds about us those with a Socialist consci-

DD-31-a-274

ousness would still see the conspiracy
those against us just justify their feelings
+ others are indifferent. If our people are held
they can't touch us legally + if they come
in fighting we'll be ready to fight to the
death. The reason I was thinking of a paid
assassin is he would hardly be able to
turn traitor or states evidence, if he had
other "cases" behind him, he wouldn't
talk. If they know we'll go to these
lengths Grace + others might take a second
thought, it could be a convenient
accident but they would know. We must
be direct + decisive with these people
they have accused us of everything
under the sun + should be dealt with
in the ultimate revolutionary manner!

I would be very willing to co-operate in any plan to this end. I have often been devisive in the group, caused problems + been an ass but I believe in the revolutionary principle of communism + when the shit comes down I'm ready to fight. I would be willing to return to the states to help bring

BB-31-2-275

To Dad From: Chris Pryphe

In this specific case dealing with Tim Stoen there seems to be but two real choices open for us. One is to ignore him and the other is to teach him a lesson.

To ignore him will do nothing but cause him to want to follow through with his plans. I think that he has no true realization of what we will do. A person who has never suffered does not look for suffering. Also he does not think that we will go very far. On the other hand he may get worried but I do not think that this will stop him.

To teach him a lesson on the other hand whether it be killing him or just kicking him around a bit will have a definite effect upon the traitors as well as him. A strange accident will score all the traitors. To kill him however, I believe is a little bit too far if we are to get our people out. This is what the enemy wants. However, to beat the living shit out of him would have 3 positive points. It would certainly score him enough to want to leave us alone. Fear of death drives a person to extreme positions. A much more so than money or reputation. It would also score the traitors who would certainly find out. Chris is the one who they

BB-31-a-276

were afraid of. We can give them someone else to be afraid of. In addition it will prove to the traitor that we are willing to do something.

To have him have a mysterious accident would have the same result also. I would like to see his brakes fail on a hill or him have a heart attack or have his gas filled house blow up when he turns on the lighter to have his car catch on fire and burn up. None of these would ensure him being hurt but there would be a great possibility.

Personally, I would love to go back to see to it that this happened. I could push him down a flight of stairs that would kill him.

What I think is best is that he has a strange accident one day and when he drags his lame body home I beat the shit out of him and destroy his house. This would give him something to think about and would let him know that we could kill him without any chance of it being traced to us.

Dad BP-31-a-284 Marlene Wheeler

I thought it was time I wrote & let you know where my head's at & where I want it to be. You have made reference to me at times & I want to explain how I analyze & evaluate that. When I first hear something that sounds like me I at first almost don't hear it, not wanting to recognize myself. I think what a bitch or that's really selfish I wouldn't do that or I'm not like that. The "shoe" doesn't seem to fit. I rationalize that if the offenses are similar my motives are better or slightly different so it's not so bad as "that person". Later still I compare myself with this "person" & see more of myself & the situations become more familiar & clearer. The next step is to evaluate if I can slide by & not face any consequence. This works for about a week. Then I begin to evaluate if I want to take steps to change myself, do I want to change out of fear, intimidation, that mercy time is running out, or from guilt or from a socialist consciousness. I battle this out for weeks. Then it's how much do I want to give up, what action would make me feel less guilty & produce more of a communist consciousness, and what would keep me off the floor. The major fear is a loss of public image which is funny because people see you for what you are anyway. I know though that the best way to change & growth is to smash the facade of ego so a true communist consciousness can grow. Then there is no need to "protect" the make-believe socialist.

I know the trouble I have caused you & the family in the past & recently. I do get very selfish & self-centered & have acted out badly. That side of me I even detest. I would rather be honest to you about my feelings. I feel we have always communicated through an indirect medium. I would voice my discontent to others it would get to you & come back to me in placating me. This urked me because it wasn't direct & I became very hostile. You have however given me chances to grow by giving me warnings pretty directly & time to make change. I have a long long way to go I realize. My worst fault besides thinking I'm good looking most of the time is opening my mouth at the wrong time. I know I criticize too much & cause division. It's really counter-revolutionary & I will learn to control this. I would like to offer positive criticism & some

solutions for more efficiency. Sometimes I question procedures because I am looking for easier + faster ways of doing things. Other times I am frustrated + hostile because time + energy is needlessly wasted. I would like to maintain a discipline of not speaking in the fields about anything but principle of work + gratitudes or singing socialist songs. This is harder than silence for me because I must think + evaluate what I say more. I will do this for no less than 3 weeks because it takes that long to break old habits + establish new ones. I will be turning in extra things that I have to the warehouse as soon as I can get things together by Sunday night or Monday morning. I tend to give up things in degrees sort of as the ship is sinking. I lighten the load. I feel terrible about what I've put you through and I respect you as my leader. I don't want to follow you because of emotional dependence however or because of intimidation. I want to follow you because I see your committment to a communist principle. What you have accomplished can't be compared to anyone there is no doubt. I only hope I can help in some small way to build a collective community. Although I believe in only using as much force as necessary to produce change, I will defend our homeland to the death whenever necessary. I have no sympathy for the capitalist class + could easily use violence at any moment. I am not a pacifist when it comes to a fight.

Jim

justice for Chris' death. If someone could infiltrate their group "turn traitor" and leak some of their plans it would be ideal but they would be very wary right now about that. I would be a likely candidate for this because I have been seen as a traitor so to speak for years. They wouldn't know I've been here & would think I just wanted my children back. I don't believe Tim S. needs the money as you say it's a small amount, he can get money from rich parents or practicing law etc, he made it low enough to be a possibility but not enough to sustain him for long. He wants some ego satisfaction to make him feel more equal to you if you give in to his demands. Also they know these blows one after the other can throw you into insulin reaction stroke or heart attacks. They know they can't reach you physically so they want to weaken you through emotional turmoil + anxiety for the family. This would be a surer killer than the assassins they try to send in, that hasn't worked. So they're going at it

BD-31-2-286

this way. They have stepped this up since the last physical attempt. We must get our people out so we can stop this "psychological warfare. Grace + the Myrtle's would work this way, Tim is too sheepish alone + they would just turn over the information if they just wanted to get you legally. It is much more valuable as a psychological weapon this way. They may draw this threat out for awhile to get the full effect. The one that threatened Marcelines life could have been sent by them so it looks more like things are coming from all directions causing even more worry. Someone who doesn't seem connected to them would be more of a threat then if they said it because they can't get directly involved in that kind of threats. It is mind warfare now + we need to put them on "pins + needles" through an outside organization that is know for it's intimidation + decisiveness + will make them nervous.

Tim Stein Suggestions

① Just tell him NO and nothing more about the bribe - this will leave the pressure of decision on him and if we cannot compromise with his past there is not too much we can do without violence

② He only asked for a single amount of money which seems like one of his weird quirks or just an arbitrary amount because his aim could be to just cost us time and production on top of what the rest of the conspiracy is doing. They may want to attack us on so many fronts as to divide our forces into so many areas that it will wear us down so they can hit us with something real big at the right time.

③ If Stein wants to hurt

[redacted]

us he knows his best bet is to do it before we all get here so I don't think it will be long before we get more pressure from him

④ Almost all educated professionals are most afraid of physical violence and since Chris is out of it Steen and others will push more — We need to show we have more Chris Lewis's among us and be sure they see them.

⑤ The enemy's all know I left the group at one time and don't know I'm back so I could go among them to get information or enter through Mexico as a US citizen and Kill any of them or all of them if circumstances permit. I could outline the way it could be done if you feel it is needed.

from Don Jackson.

Dear Dad,

Now that it has become absolutely clear that our enemies will go to any means to obtain their ends, we must weigh the risk that is run by letting them survive against the [illegible] destroying them.

Now that one of us has fallen in the battle we should all consider it our only reasonable sacrifice to be willing to lay down our lives when strategy demands.

I have concluded that Tim Stone in his weak, sick, sellout mentality is calling our bluff. We must not allow him to win.

I believe that no choice is left us but to take his life or that of one of the other main conspirators.

I am sure that when one of them is picked off the others will panic.

BB-31-a-291

I do not believe that this can be done until our people are ready to risk their lives to bring it about. In other words those who cannot stand up under such pressure must be evacuated now and brought over here. Those who are able to stand can remain with a plan of escape when the moment dictates.

I don't believe that we can depend upon anyone but ourselves to carry out this plan of attack (the paper it's on should be eaten at once after read

I believe that some of us from here must go in on this mission with a well laid plan as well as a well laid plan of either escape and or revolutionary suicide as a last end.

I think that all the weapons transportation money and plan of attack or orders should be waiting for him when he hits the United States. I suggest a bomb as the weapon.

BR-31-2-292

The plan should not be revealed until the day it is to occur. And either his escape or suicide should be finalized that same day. The bomb should be put into a capsule or tin can that can be thrown through the window of their car. while it is moving. this will give the person a jump on his get away and in heavy traffic they could also be in an unmarked car moving along side them. This will allow them to make good their getaway.

They could also move along side the car and fire on them with a high calibre pistol "magnum" with a silencer in heavy traffic. Possibly nobody will even notice the incident if the cover the pistol with a cloth or something. One of us with a disguise could ride around them all day and they would never know it.

BB-31-c-293

The person executing the plan should move in after the area and moves of the enemy has been well checked out. They should move in quickly strike quickly and be on a plane to a well protected place within the same hour.

If they are caught they should be ready to take arsenic pill and give up the ~~gobbet~~. or some other drug. If the person is caught the evacuation plan should be implemented at once.

Thank. you Dad.

Don Jackson

P.S. If the incident goes unseen and there is no witnesses then the person should remain in the city and go under ground. a second car should possibly be in the area to investigate if there are any witnesses

I hope we can get some garlic soon, so I can get back on job.
I am now making pillows so they can be sold.
I like rice + Ettoo better than noodles. I am on a saltfree diet now to get the swelling in legs, which are better since I've put me on it, + before I met you, I was on it from 1952 until about 3 years ago. I give up lunch, so you can have things you need. I am losing weight also.
Thanks bad for Everything.
Your Child,

Because of my past involvement with the Myrtle girl, and the fact that I almost destroyed this whole cause, and especially the hell I put you through, the least I could do would be to give my life for this cause. It would be easy to write you that I'd be willing to do a dramatic thing to help save the cause, But all I'm going to say is if anything goes down please count me in. If there is anything you need me to do please count me as very willing. If I can really be a help I'm ready.

Jim: I think we should have another person to step in and take on the image of Chris Lewis, possibly Jim Mc Elvane - Let him go with a couple of others and shake up the Mertles and Tim Stoen, Gary Lambrev and others, If they feel secure in the fact that Chris is no longer around they need to know that there are others who aernt afraid. If they do anything to prevent the rest of the people from getting here I think the rest of us should return and make arrangements to meet with all of the traitors possibly at the church and let us all be bombed. First all of their throats could be worked on -

Dear Dad,

I am really sick of Jim Stone and all the other traders of this cause. I really agree with you when you say they are all pricks. These people should be dealt with.

I remember the story of the assination of President Kennedy. I could be wrong, or I could have this story mixed up with another story. If I'm not mistaken all the witnesses of the incident were killed, but the way they died appeared to be due to health problems or accidents.

I think some died of heart attacks, strokes, cancer, and some died in their sleep. There were so many ways these people were killed. If I'm not mistaken they were injected with these disease.

I wish that I had kept the article so I could express what I'm talking about better. If this plan could be used I suggest all the traders be killed like that

Re: Jan Brown's poisoning

Whats interesting about Jan B getting poisoned is that this is now, the 2nd time.

The first time was the night that fat-John Smith came to the SF Temple & the police came to our gate - a "search warrant" or something like that. They came in to look for him, but he had been hidden away.

That night, when Jan B was taking him to the SF terminal to get him on a plane back to LA she became "high" and started hallucinating. She was really sick for several hours.

We never knew from what she got sick, but I felt it

told Jan at the time that I thought it was Lelly.

She is crazy too; & it would be conceivable for her to slip this shit to Bugsy so close and not get noticed.

I may be very paranoid, but she would be an interesting inside link for the conspiracy to pull information from.

Re: Steen confrontation

When Tom and I met Steen it was underneath the street in the parking lot down at the Court house.

He was exceedingly cold & calculating. His appearance was odd, for example his face was tight and make-up looking - had a transparent type glow to it.
His hair had been dyed darker & was longer & thick. It was combed straight back & was real split looking, as tho it had had alot of former treatment done on it.

When we approached him he was startled at first & stopped, but when he realized who we were he was mean. He told us to leave him alone →
