kept their girl friends. These experiences were America to him.

At a party, Jagan met a slim, athletic blonde named Janet Rosenberg and later married her, despite the objections of both their families. Janet was an active radical. She grew up on Chicago's South Side and in Detroit, and went to Michigan State, Detroit and Wayne universities. When Jagan met her, she was attending the Cook County School of Nursing. Officials still argue over whether she belonged to the Young Communist League. The Anglican archbishop of British Guiana, who respects the Jagans, says flatly that she did. Just as flatly, Mrs. Jagan denies it. "I never held a party card," she says.

Jagan and his wife bought second-hand dental equipment and sailed to British Guiana in 1943. They believed that capitalism and colonialism were evil. In Georgetown, their beliefs became important. Jagan started a militant labor movement, and in 1947, his wife organized the colony's first modern election campaign in the villages. Her voting in foreign elections cost Mrs. Jagan her U. S. citizenship.

By 1953, they had organized the People's Progressive Party and controlled the limited native government. He was the theoretician, the charismatic leader; she, the practical organizer. After Jagan had been in office four months, the British Governor, fearing "a Communist take-over," called for help. The constitution was suspended, troops were brought in, and Jagan was confined to the city. When he defiantly broke that restriction, he was imprisoned for six months; two days before he was to be released, his wife was jailed.

Jagan, a charming, handsome man, was by now the leader of the Indian-descended population, who make up the majority of the colony's 560,000 people. Mrs. Jagan, as Minister of Health, was widely admired for her work for sanitation and disease prevention.

Last year, when the colony was granted internal self-government, Jagan became its first Premier. In the August 21 election, he was opposed by the People's National Congress, led by Socialist Negro lawyer Forbes Burnham, once his closest disciple, and the smaller United Force, led

by Portuguese-descended conservative Peter d'Aguiar. The heavy popular vote, divided chiefly on racial lines, was close, but Jagan won 20 of the legislature's 35 seats and the premiership.

Jagan visited President Kennedy last October and asked for loans to help British Guiana develop state-owned industries and open its vast, unused lands for farming. The colony today lives by exporting sugar, controlled by the British-owned Booker Group, and bauxite, which is extracted chiefly by Aluminium Limited and Reynolds Metals. Both sugar and bauxite are in oversupply in the world market. About 18 per cent of the colony's labor force is unemployed, and the government has virtually exhausted its cash reserves.

Jagan left Washington, as he says, without a single penny. The Administration would promise only to send a mission to study his economic plans. This study was finished in June. "I was mad as hell," he says of his Washington visit. "I have been surveyed to death."

In February, Jagan's efforts to raise funds by taxing his own people—and racial tension continually stirred by Negro leaders—erupted into riots. Twenty thousand people demonstrated and destroyed property in Georgetown. The police killed several, and Jagan himself had to call for the British Army. At the same time, trouble broke out in Jagan's party, threatening his government. In mid-June, he threw Balram Singh Rai, his able, relatively moderate Home Affairs Minister, out of the cabinet and the party, thereby weakening his majority in the legislature.

Behind the U. S. delay in aiding British Guiana was fear that Jagan, once the colony gained its independence, would slip into the Communist bloc. Jagan says candidly that he is a Marxist, but denies vehemently that he is controlled by the international Communist movement. He says, "I am a Socialist. I believe people must own the means of production. I don't see much sense in foreign investment coming in and making 20 per cent profit."

He sees British Guiana becoming a Marxist model for the world. He has started a program by which farmers lease land for 25 years at nominal rents, but do not own the land individually. He has arranged to buy the Canadian-owned power company. He has begun to take over the church schools, which until recently have formed the colony's only educational system. He has twice visited Castro and made a deal to sell Cuba rice. He has arranged for scholarships to Moscow, one of which was turned down by his 17-year-old niece Rita, who wants to be a radiologist. (The U. S. had none to offer her.) He has obtained offers from Poland, East Germany and Czechoslovakia to build factories and from Cuba to build a hydroelectric complex.

Says Jagan, "It is a revolution—not a bloody revolution. To change the plantation system to a cooperative one is revolutionary."

He believes that economic socialism can be joined with political democracy. He points out that he gained power legitimately: "Our intentions are very clear. We intend to have elections. We intend to follow the rules prescribed by democracy. But you can be democratic and not a capitalist. Capitalism is not synonymous with democracy."

Jagan says he will accept help from anyone: "We have said clearly that we will not allow our country to be used as a military base for one side against the other. We want economic assistance, technical assistance from anywhere. If Nehru accepts aid from both sides, no one objects about that. I don't see that America can have a double standard: one for Nehru and one for me. I don't want to be dominated by anyone—either bloc—but I have to solve my problems."

Premier Cheddi Jagan talks with wives of cane cutters on a sugar plantation on the west bank of the Demerara River.

Fowler Hamilton, chief of the U. S. foreign-aid program, who met with Jagan in Washington, says, "The fact that a government is building a Socialist economy does not exclude it from aid. The standard is independence, not acquiescence to our view."

When Jagan is asked if he is a Communist, he always answers with a question: What do you mean by Communist? During last year's campaign, Jagan wrote: "The difference between socialism and communism is that in socialism there are still not enough goods produced. . . . Socialists have learned from experience that if they are to pass from the Socialist stage—from each according to his ability, to each according to his work—to the higher stage—from each according to his ability, to each according to his need—then production must be tremendously increased." Jagan concludes, "People talk of communism and think of guns. But there is another aspect of communism—Christ communism—sharing with others, real equality."

Washington officials wonder whether Jagan is "a Communist sleeper." Most believe he is primarily an anticolonial nationalist trying to lead his people out of despair and poverty. The British governor, Sir Ralph Grey, agrees: "Whether he is a Communist or whatever you call him, Dr. Jagan is a sincere nationalist who believes he is destined to lead his country, to the betterment of his people."

There are three forces that could influence Cheddi Jagan. One is the pragmatic need to solve his economic problems after independence. A second is the Indian population itself, which, since malaria was wiped out in 1949, has been growing rapidly. Increasingly, the Indians are rice farmers and new Water Street businessmen struggling for middle-class status. The third force is the United States and Great Britain. In May, Sir Jock Campbell, chairman of the Booker Group, echoed Jagan's pleas that the British give the colony more help.

U. S. efforts to influence Jagan have been marred by a series of blunders. We have vacillated on aid, except for about $1.3 million in technical assistance. While Jagan was climbing to power, the Eisenhower Administration closed our consulate for four years, leaving only a team of chicken-breeding specialists from the University of Maryland. For two years, until last winter, the USIA had no full-time representative in the colony. When Jagan admired Adlai Stevenson's UN speech on Angola last year, his rare desire to praise the U. S. was frustrated because his request for a copy was lost in red tape.

The dilemma Jagan presents to us is one of the toughest questions we face: How do we deal with the leftist, neutralist new nations? If we help Jagan, we help build a Marxist state in South America. If we turn him away, we push him into Moscow's bear hug.

Jagan's tragedy is that he might have found other answers, if he had not become convinced—in Chicago, Washington and New York—that our way was not his. At the heart of our problem today is our willingness to gamble that a leader like Cheddi Jagan can be salvaged. Says Everett Melby, the top American official in British Guiana, "If you don't accept that, the battle is lost before you begin." END

HE ADVISED THAT FOLLOWING A SUIT BY THE CHARLES GARRY LAW FIRM (WHICH REPRESENTS THE PT) TO DISSOLVE THE PT CORPORATION, THE CALIFORNIA SECRETARY OF STATE'S (CSS) OFFICE REJECTED THE SUIT AS THE BOARD OF DIRECTORS OF THE PT ARE DECEASED. RECENTLY, THE PT ELECTED A NEW BOARD OF DIRECTORS AND WILL INITIATE A NEW SUIT TO DISSOLVE THE CORPORATION. IT SHOULD BE NOTED THAT CHARLES GARRY IS OUT OF TOWN SOMEWHERE IN THE MONTEREY, CALIFORNIA, AREA AND THIS INFORMATION CANNOT BE VERIFIED. IN FACT, IT IS UNKNOWN IF GARRY IS AWARE OF THESE ELECTIONS OR THE CSS REJECTION. [redacted]
