Indices of the New York Office disclosed that on 3/9/51, SA WALTER P. GAVIN made inquiry at the General Register Corporation at 43-01 22nd St., NYC. This inquiry was made since a business card of this corporation was found among the effects of JULIUS ROSENBERG, who was subsequently convicted of Conspiracy to Commit Espionage in behalf of the Soviet Union, and was executed for this offense in 1953.

Mr. SAUL HAMMER, Secretary of the General Register Corporation, explained at that time that in connection with the manufacture of several thousand coin operated machines, which automatically issued transfers, the Pitt Machine Products, Inc., 300 E. Houston St., NYC, made a few parts for General Register. Mr. HAMMER produced records which reflected a total of eight transactions between the two concerns in June and July, 1948. HAMMER said that he saw ROSENBERG who operated the Pitt Machine Products, Inc., at the

General Register Corporation on two occasions, but never had any conversations with him. HAMMER said that ALFRED QUITTNER, Project Engineer for General Register Corporation, had discussed the purchases of the aforementioned parts from Pitt Machine Products with ROSENBERG.

Mr. RICHARD WEINHART, Chairman of the Board of the General Register Corporation, then advised that Pitt Machine Products, Inc., had been recommended to him for the purpose of making certain parts by one Mr. LIFTON, who was described as the New York representative of the National Slug Rejector Company of 5100 San Francisco Avenue, St. Louis, Missouri.

Mr. ALFRED QUITTNER, Project Engineer for the General Register Corporation, then advised SA GAVIN that he had spoken to JULIUS ROSENBERG on three or four occasions at the General Register Corporation plant in connection with the aforementioned purchase of parts. No further information was obtained at that time and it is not known if ALFRED QUITTNER of the General Register Corporation is possibly identical with captioned subject.
