The comming of Socialism. IT is the perfect way to live. All who think and act to the contrary are greedy and selfish persons, who do not deserve any consideration. "To fight for what is right is the greatest sport the world affords."

A WHILE BACK YOU SPOKE ABOUT GETTING NEWS PUT IN THE SOVIET UNIONS PAPERS. IF WE GET THEM TO DO A WRITE UP ON TIFLER + THE NAZI MOVEMENT IN THIS U.S. + SEND IT ALL OVER EUROPE IT MAY CAUSE SOME ANTI U.S. FEELING + ANTI NAZI

From: Jack
Subject: Self Analysis.

Although I don't have feelings that I can recognize in the form of racism, I do recognize that when a strong disagreement comes, I speak stronger and harsher to black people and by this I recognize my shortcomings.

Male chauvinism, an area where I have made some progress, but here again there are at least two ways I can recognize it in myself. One, the time between my name being called by a male and a female for me to answer, it takes long to answer a female. Two, when using a similar argument to a female as a male, I will argue with less respect and louder voice to a female.

Future Considerations Peanuts

5. The 2 center spikes will be used on the spring loaded cultivator for covering seed.

6. They 2 ridgers set 3 Feet apart will be used to cover peanut plants after plants flower well at least a second covering pass.

Tolerance toward Youth is very Low. I have a difficult Time allowing them the right not to have Known things which I feel they should have Known. Nor the ability to see and do things through a learning period long enough To be trained. I am very impatient.

although I am able to lead to Work, getting things started and even Try to complete them by pushing, I find myself figuring ways to Keep from getting too tired or from working too long or too hard. I use other lighter work load activities To get out of hard work. Such as school preparations or researching work problems at Times when I feel I should be working at top physical labor.

Sexual attraction, I feel has been reduced considerably during my stay here in Grayona, partly because of abstinance and partly to age.

Regardless of this condition I still like the idea of a companion and I am waiting for Inez Wagner to get here. We have a loose agreement for companionship to each other but nothing tighter or exclusive.

I do not recall ever having had any sexual thoughts involving you Dad.

In regard to hostility to you, I recently wrote you a note about the P.A. system interfering with school hours and also I have felt the need for quiet near bed time; just to collect my own thoughts. Also I have built up hostilities during meal times when quite often it is the only times I get to talk to some people and I cannot talk because we are listening to the P.A. I know these hostilities over.

My reason for voteing the wrong way is that I knew Jerry had work till 6 30 then ate and shower so I thought maybe you was going to listen and maybe I would be wrong.

Dear Dad, I am one of the ones who asked where the meat was that was to be in the rice. I didn't make a big scene. I thought maybe the rice hadn't been stirred enough. On my plate was two pieces about the size of my little finger, and I didn't see how that was going to supply protein that we are in need of.

I am sorry that I asked about it. When I think about it I know that I am willing to make what ever sacrifice is needed to obtain our goal So it doesn't make any difference if I had meat or not.

A write up on the Russian Movie and the, Day of the Jackal.
The Russian movies showed the great deal of progress made since the Revolution. In thecase of the Men who started as ordinary circumstances, with thier own effort and training could be a leader in 1. Steel production items, 2. Laying railroad track in very trying circumstances and taught crews to work together with close harmony to accomplish the impossible. Also the heavy construction unit crew le ader who helped to build at least three construction jobs which rank on the world scale. The air force pilot who wound up growing wheat in super large quantities and ran a freindly competition with a Manchurian who was a Family friend and celibrated together. The Women who were also members of the Soviet Government, even when they keep thier jobs in the factory or as a writer. They do not have to come from the right families or the money families in order to get the responsibility of government.

The people in the parades appeared to be well fed and very high spirited. There was a close tie between their heroes and the people in the side lines as shown by passing out their flowers.

Day of the Jackal. The killer was definitely dedicated to his work. Even if he had no obligation to complete his assinment he did so anyhow. It took a lot of planning and a great deal of body skills as well as know how to accomplish his feet. Super secrecy was the big asset which allowed him time to do it at his own time. The purpose of the contract seemed to be more of revenge than to bring about change, because the polit ical damage had been done and at this time could not very well be reversed. He was very cold bloodedin all his efforts which allowed him to accomplish his purpose.

Guilt.

I am guilty of losing my job at Masonite too soon befor I came to Guyana. I could have saved 150 dollars from unemployment. I also lost church money by making unecessary purchases while at the Ranch.

I am especially guilty of not doing what I feel should be a good days work, only on very rare ocassion have I been properly satisfied that I did a full days work. I also feel very guilty about being too Pollyanish with reports and I do not properly face the adverse side of asituation needing my attention.

How i ~~[illegible]~~ feel about Socialism & belief
It is something man can not
face do to the fact it dose away
with capitalism and it was of
only it greadyness and always
putting down middle class people
and third world people of all
races. I feel go about it because
it is each according to his
ability and he according to his need
because there you are not put
down because you don't know
how to do something socialism help
you up to your ability and need.
I feel it has help a lot of people
to the fact that they are not
starving and they are cloth and
the Gov is in the people hand
so everyone can give his own
opinion (not like on are tow people
make the decision) everyone make it in
a socialism Gov. I feel the
world would be a better place
for everyone. And when we have
a leader like father that give
us the dictation of the protebriation
and how it work and how it does
away with with self in the
capitalist society and there greadyness
and no consideration for people
of different races and color. This is
all done away with when you have
a leader to teach us the war

Mark Bowtts

of know you brother or sister
even if he his a different color or
race. It teach us that a had
full of people can chance the
world if you believe and know
the meaning of it and see the
futher of it and how it can
help people who are apress By the
Capitalist society and there Racin
Gov and all thy to destroy
courtier to gain wealth and
money and Produce so they can
own everything. And when a Capit-
ail society own everything it can
cut you money off, food, housing
the freedom of speech + press etc,
I feel when a person can't work
as hard as someone he no turning he
do the work as he it able and so if
a good person is I that truth
hurt people and a lot of people
can't take that way socialism is so
strong and it because of how
it share among people all
over the world and when you
Stand strong no one can brake
you want. If feel go to be a
Socialist and no a capitalist so
I can fight for something that can save
baby and children of the world so they
won't have to grow up in a Society
that had Rasism + fascism + where they would
not worry about concentration camp + tourture

Dad,

I dont know how important this are but Harold and I were talking about different things and the crises came up we discussed Theo Williams and different seniors then a little later he said a lot of things are going around in the States about here things that made him pained and depressed. He wouldnt tell me what it is. said he wants to forget it all and put it behind him. Anyhow right after this he said out of the blue I remember when the monks sat down in a group and burned them selves. He didnt think it would be effective and would give the enemys a chance to say you had just brought us all over here to die. I was wondering where he heard about us burning ourselves. Its not a usual topic of conversation. Also he has told me on several occasions when John ~~[illegible]~~ has been very friendly & kind to him. Also he said he didnt bring any guns with him. He gave his last one to Sandy B in S7. I asked about the classes in exercises he took he said it was a Jr College class & cost $125 to enroll. I dont get a chance to talk to him much. my schedule is fairly set and due to a younger ~~brake~~ breakdown I've been putting extra hours in the laundry. (I dont want my ~~[illegible]~~ work schedul changed. I enjoy every thing I do.) He's been comming home & spending his lunch hour here. I saw him try to talk to Denise. He thinks Teena is cold to him. wonders why. He seems to enjoy working in Laura's crew. talks proudly of his bliaters and being able to keep up with the rest. said being he older he was afraid he couldnt keep up with the rest of the crew. He sort of hates to go to work. He said he would like to work a while on each crew because he is supposed to do an analis (cant spell that word) on each crew & the work they do. He hasnt asked me any more about security. He keps having headaches every day I told him as soon as the impurity go out of his system they will go away. today he talked about being a communist in practice. How we are working for change. How he liked being a part of what is happening here. He sounds elated about the different things we are striving to do to make a go of it here. He is always positive. I was talking about some one taking 3 pair of socks of the line he told me. It takes time for people to change. but they will.

Dad I didnt mean to pressure you to bring him on the floor. I can take this indifinately. He is being kind to me & to the children here in the cottage when I said I might have to go to a house supervisors meeting for the girls he asked if he could go to. after all he is a child supervisor. I frankly, was surprised

It sounded like you might want to bring him up because of the way you were talking. I am ready at any time. I didnt understand when Anne

~~[illegible]~~ EE1AB19A

said Carolyn said no, dont do it then later said do it but easy, mild light or some thing like that. I didnt understand and either did she. If I could have a guideline of what you want me to do I can do it, I'm not at all hesitant to do it. I dont want to mess up is all.

I deeply appericate your allowing me to be over here I love it and I thank You for showing me the way to face myself in the dieing situation.

I've faced the fact I'll very likly die here and feel very proud that I can die for what I believe in. I dont have any problems with burning myself except I might not be able to sit still. I'm not sure I could complete cutting my throat all the way accross, but I could enough to get the job done. I could put a knife in my chest easy. I feel uncomfortable with ~~drowning~~ drowning because of my fear of water but I could do that also. Nothing else except the babys bothers me. But I could do that also. I also thank you that all my children including my adopted child are strong and not afraid of death as far as I can tell. I know this is due to your great love for all of us. I appericate your telling us you love us over the P.A. every day. I've seen so many ~~[illegible]~~ smiles when you tell us that I thank You Lad.

This is Wesley Bridenback and I've heard my brother is now suddenly interested in me, I think its Harlan. He never was concerned before, that makes me sick. The only time he saw me is when I went to see him. I know he dosent approve of my association with Blacks because I married a black women and he didn't like it - Well I don't care & I don't like him either because I love my wife. I think hes tied in with those punks who were in the press conference in front of the S.F Temple. He never tried to contact me before - never! I know he's used a lot of dope and drinks a lot too. I don't trust him - anyone who wants to tear this down is a sadist, criminal or a neo-Nazi, they have gotta be out of their minds. Listen - I am preparing to go to college and there are all kinds of opportunities for me here, and I don't want it messed up by him or anyone else. I'm not going anywhere! ~~Anyone reading this might be interested enough to come here and see for yourselves what we're doing. A lot of my friends who were really messed up in San Francisco - I mean guys who had no prospect for anything in their lives - are finding another life here, a place where they can learn skills, and help build a better world. I've learned mechanics, and I'm now driving a tractor & cultivating several large tracts of land. We grow crops all year round so there is plenty of discing, irrigating and plenty to do. I really like this job and couldn't ask for anything else.~~ As far as I'm concerned, he should leave me and my mom & sister alone.

Father,

The reasons that you brought us to this place of safety are.

1. The effect of the destruction that the nuction bomb will cause
2. also the buz bomb
3. From the earthquakes and famine & water shortage.
4. The result of Senate bill 14-27 that took the place of senate bill no. 1.
5. Because of the genocide treaty: a treaty to kill all black people. U.S. South Africa, Chile would not sign.
6. Because of Saudi Arabia and Iran who are going to try to control the economy of the world
7. Concentration camps
8. Nazi
9. The bill that would allow children of 14 to be subject to the death penalty.
10. Nuclear war
11. Cleometric theory. Madeleine Brooks
12. The division of the U.S. into a black and white nation.
13. Bakke decision.

Father,
We left the U.S. because we wanted to be free. We came here to be safe from all earthquakes, and to free from concentation camps. I came here to be free from senate Bill. 1427.. Here I am safe from genocide. I came here because they would kill all black people and would have put in slavery. Nancy Clay.

Dear Pastor,

I am a regular listner to your radio broadcast and I found it to be very interesting and helpful, so I had to write to you for your help and guidance. I am 26 years of age and I feel as if the entire world is coming in on me with problems. 1st I was an alcoholic but I was able to control this problem. 2nd I was married and my marriage end up in a divorce we have a daughter 9 years old which is likely to join her mother in the United States. 3rd I was a victim of tuberculosis at the age of 22 but I cant overcome the survey of my illness, because of the illiteracy of my parents and fellow work mates, they usually come and say a lot of ill things about me, and because of this I was forced to leave my job and run, finally I sold every thing I had home, car etc. and end up in Canada. I have spent 3 years and 7 months in Canada I was getting on fine until I asked my girlfriend passage to join me in Canada both of us was illegal, until a friend decide to help us, I loved my much that I allowed her to get married, and the two of us lived together as man and wife until she was granted landed status and get her divorce so we can be married and be free from the law, but instead of trying to help me, she has jilted me and reported me to immigration and I am sent home. Now that I am home I feel so ashamed and embarass because of gossips, I just feel like ending my life and I am thinking very serious about it, because since I came back 2 months ago, I cant get a job and I started to drink and my relationship with my parents are the same as before, I do not have a proper place to stay and some one to cater for my every day needs food, washing etc. there is so much I could write that it may probably take forget explain. Pastor I heard on your broadcast about Jesus Town, but I dont know if it is possible for me to be a member of your organization, so that I could live and work with your community at Jesus Town.

To-day, I over-heard Vincent talking to Erma Wingfey. His question to her was, "Did you get any of the bacon they sent you?" Erma answered (in a very frustrated tone), "Why no, they have not given me one slice of bacon."

I felt this to be extremely cruel and inhumane. I do not understand what kind of game Vincent is playing because Selika said he also made ugly remarks to other Seniors, such as:

1. To Crean Poplin: "How tall are you?" Upon answering that she

didn't know, Vincent continued, "The woodshop wants to know so they can know how long to make your casket."

2. To Mary Ellen Cook (a cripple): "The only thing you need now is a broom because you certainly look like a witch."

Dear Father,

Thank you for giving me the chance to be here. Seeing all this, plus the experiences of the past months of crisis, have brought me such a sense of the profound beauty of socialism — of collective and even personal fulfillment, more fulfillment than I have ever known in life and really more than any one person deserves. Even during the portion of the crisis we faced in San Francisco, the moments of trust between comrades committed to stand, the true basis for human relationships you have given us — There is nothing more on earth I could ask for than to be your follower, to learn principle and learn to live by it, to be part of this Communist revolution.

Thank you.

I did Not turn in My News Article. There is so much Noise Around here that I cannot concentrate. The morning Starts out with the double talk from the Radio (That seems to be taking A break Now) There is Always music or talking over the speakers All day Long And by the End of the day My ears Feel like AN Atomic bomb has been exploded in them. if the music is played Between 8:15 A.m - 11:30 A.M. the Children does Not concentrate on their lesson, they pop their Fingers. Naomi Johnson does Not want to teach on monday, says She can't be ready by monday. So far I've only let her teach spelling And math. The First week She was with me She Slept in Class, I gave her All Kind of Advice on looking over the children's lesson before coming to Class. For two weeks She taught the children how to do math, division, wrong. I thought She was just Nervous And would improve. She Still grades the children's paper wrong. She wont Ask Questions when She doesn't Know. I think She has A Very Good organized mind but I don't think She is Alert enough to teach our Age level. She is Not doing Any better Now than When She First Started. It's Causing me A lot of frustration And the children. She does Not Know enough And will Not study.

EETAB40A

oh yes some teachers plays the record player in the morning. I could get Something out of the News

But After a while, having to listen All day it just becomes Noise. I think that I must still have slow motor reflexes Because when I'm sitting and concentrating I miss a lot of the things you say.

: One other thing is I Know that I can Rebel Against A thing Forever/even a person. And until I heard Lee talk, And saw your concern For Peter, I hated you because I did Not See Any goodness in your Character. I could see you being courageous And bold, but goodness I had Not Seen. It's awful that life has to be this way- After seeing this I don't mind becoming more like you-because I believe more of ~~what~~ The things you say (I Know Now that I Based my commitment on You + Not Pr) I thought that I would live A long time because I don't care whether I die or Not, plus I thought if I died I wouldn't have to suffer or have pains Any more. Dying would just be too good For me.

DEAR FATHER,

SORRY FOR THE LONG ABSENCE WITHOUT A LINE TO YOU BUT HAVE BEEN TRYING TO SEE THAT THINGS MOVE ALONG KNOWING WELL THAT THE MORALE OF THE PEOPLE IS VERY IMPORTANT. AM HAPPY TO REPORT THAT MORALE IS HIGH. EVETYONE TO A MORE OR LESSER DEGREE,(THE WORKERS) ARE FEELING THE IMPORTANCE OF CARRYING ON TO OUR FINAL GOAL.

I HAVE JUST RETURNED FROM THE EAST COAST ALSO ALL OF THE LITTLE CITIES SURROUNDING THE GULF OF MIXICO IN SEARCH OF OUR DESPERATELY NEEDED BARGE AND VESSEL. NEEDLESS TO SAY, ON BEING ABLE TO OBSERVE THE COUNTRY AND TRYING TO FIND WHAT WE NEED, ALL OF YOUR PREDICTIONS AND EVERYTHING THAT YOU HAVE TOLD US IS VASTLY COMING TO A POINT OF NO RETURN. CERTAINLY AMERICA IS PLUNGING AT A FAST RATE TO THE PROVERBIAL "HELL IN A HANDBASKET". I FOUND VAST MISREPRESENTATIONS ABOUT THE BARGE THAT GENE AND I HAD CONCLUDED HAD ALL OF THE VARIOUS DIMENSIONS AND EQUIPMENT THAT WE NEEDED FOR OUR OPERATIONS IN THE P.L. UPON INVESTIGATING THE VESSEL WE TRIED TO FIND THE CAPTAIN THAT HAD DONE THE ORIGINAL SURVEY. THE SURVEY IS SUPPOSED TO GIVE AN ACCURATE ACCOUNT OF THE CONDITION OF THE VESSEL. RICHARD AND I FOUND OUT THAT NONE OF THE REAL BASIC THINGS HAD BEEN CHECKED, SUCH AS AUDIO TEST AND ALSO ELECTROLYSIS TEST. THE AUDIO IS A TEST TO DETERMINE HOW MUCH OF THE BOTTOM AND SIDES HAVE BEEN EATEN AWAY THRU CORROSION OR THRU SCRAPING THE BOTTOM OF THE VESSEL. THE ELECTROLYSIS TEST IS TO DETERMINE THE WELDED SEAMS OF THE VESSEL. WE CONTACTED OTHER SURVEYORS AND WERE ADVISED TO MAKE THIS OFFER. THAT WE WOULD PUT THE VESSEL IN DRY DOCK AND IF THESE TESTS PROVED GOOD,

EE1AB42a

(ELECTROLYSIS AND AUDIO) THAT WE WOULD PAY FOR THE DRYDOCKING BECAUSE THE MOTORS AND OTHER THINGS HAD TO BE INSTALLED AND WE WERE AWARE OF THAT AND ALSO THERE WAS A GREAT ACCUMULATION OF BARNACLES BELOW THE WATER LINE. WE KNEW TO GET THE PROPER TESTS AND EVEN TO MAKE FOR GOOD PRESERVATION OF THE VESSEL THE BOTTOM NEEDED TO BE SANDBLASTED SO YOU COULD GET DOWN TO THE REAL METAL AND SEE IF IT WAS ADEQUATE. I CALLED THE OWNER OF THE VESSEL AND TOLD HIM WE WOULD PUT IT IN DRY DOCK BUT IF IT PROVED TO PASS THE TEST WE WOULD PAY FOR IT, IF NOT HE WOULD PAY FOR IT. UPON THIS HE PROTESTED LOUDLY AND SAID NOT TO PUT IT IN DRY DOCK. I THEN OFFERED HIM 8 CENTS A POUND FOR THE SCRAP IT OFFERED. HE TURNED ME DOWN FLAT AND TOLD ME HE HAD OTHER PEOPLE INTERESTED. I TOLD HIM I'D TRAVELLED ACROSS COUNTRY ON HIS RECOMMENDATION THAT IT WAS A GOOD VESSEL AND I HAD FALLEN OVER THE LINE TRYING TO GET TO HIS VESSEL ALL THE WAY FROM CALIFORNIA. HAH HAH !!! NOW THE SURVEYOR MR. WOOD THAT WE CONTACTED SUGGESTED MANY PLACES IN NEW ORLEANS WHERE WE WOULD FIND A MORE CONCENTRATED NUMBER OF BARGES. I HAVE LOOKED AT MANY BARGES AND FOUND OUT THAT GETTING A BARGE WOULD BE NO PROBLEM, BUT TO OUR SPECIFICATIONS AND OUR NEEDS A REAL PROBLEM INDEED. THE SELF PROPELLED TYPES WITH A CRANE AND CREW QUARTERS ARE FEW AND FAR BETWEEN. NO DOUBT RICHARD HAS INFORMED YOU OF THIS. I CONTACTED MANY SHIP YARDS ONE OF WHICH SUGGESTED THAT WE BUILD OUR OWN AND INFORMED ME THAT HE WAS IMPORTING STEEL FROM BRAZIL. HE SAID THE STEEL WAS OF THE SAME QUALITY THAT WE PRODUCE HERE IN THE UNITED STATES AT ONE THIRD CHEAPER THAN IT WOULD COST HERE. I PHONED THIS INFORMATION BACK SO THAT IT COULD BE RELATED TO YOU. I DON'T KNOW WHETHER YOU GOT THE INFORMATION. HE INFORMED ME THAT IT WOULDN'T COST TOO MUCH TO GET A

EE1A8426

MARINE ARCHITECT TO DRAW THE PLANS FOR SUCH A VESSEL. SINCE BEING BACK HOME I UNDERSTAND THAT RICHARD PARR AND KEN NORTON HAVE BEEN KICKING AROUND THE IDEA OF MAYBE BUILDING DOWN THERE A WOODEN BARGE OUT OF OUR WOOD, BUT THERE IS A TREMEMDOUS STRAIN ON EVEN METAL BARGES AND IN MY OPINION AND FROM WHAT I HAVE OBSERVED IT WOULD NOT BE TO OUR BEST INTERESTS TO TAKE ALL OF THE TIME AND EFFORT FOR A PROJECT THAT WOULD NEED CONSTANT REPAIR FOR SUCH HEAVY LOADS AS WOULD BE REQUIED TO HAUL.

THE SURVEYOR THAT WE WERE TALKING TO ADVISED THAT I LOOK INTO THESE DIFFERENT SHIP COMPNIES IN NEW ORLEANS WHICH I DID. AS I CONTACTED MANY OF THEM I RAN INTO THE SAME OLD PROBLEM OF PEOPLE WANTING TO SELL OFF JUNK THAT HAD THE LIFE USED OUT OF IT (THE BARGES I MEAN). ON CONTACTING ONE OF THE SHIP YARDS A MAN ASKED ME IF I'D HEARD OF THE MARINE EXCHANGE CORPORATION ? I TOLD HIM I HADN'T AND HE GAVE ME ONE OF THEIR BOOKS. I PROMPTLY CALLED THEM BECAUSE I SAW SEVERAL THINGS IN IT I THOUGHT I OUGHT TO LOOK INTO FOR US. WHEN I INFORMED HIM WHO WE WERE (VALLEY ENTERPRISES) HE INFORMED ME THAT THEY DON'T DO BUSINESS WITH ANYONE NOT LISTED WITH THEM. THAT EVERYBODY THAT REGISTERS ANYTHING FOR SALE WITH THEM HAS TO BE INVESTIGATED AND THEIR VESSELS OR WHATEVER THEY ARE SELLING HAS TO BE IN USEABLE CONDITION. ALSO THAT THIRD PARTIES ARE CUT OUT AND THERE IS NO MISREPRESENTATION AND ALL OF THE VARIOUS THINGS THAT I HAD RUN INTO WITH THAT OTHER S.O.B. IN ST. PETERSBURG. IN THE PUBLICATION THAT WE ARE GETTING ON THE MAILING LIST FOR, IS A COUPLE OF UTILITY SHIPS 100 FEET LONG AND 30 FEET WIDE AND THE PRICE IS BETWEEN 75 and 80 THOUSAND DOLLARS. THERE IS ADEQUATE SPACE TO HAUL QUITE A BIT OF FREIGHT AND ALSO QUITE A FEW PEOPLE. NOW THESE VESSELS ARE LOCATED HERE ON THE WEST COAST AND AS SOON AS WE GET OUR MEMBERSHIP CARD BACK THEY WILL INFORM ME ON HOW I CAN CONTACT THESE PEOPLE AND THEY WILL SEND ME ADEQUATE INFORMATION TO SEE IF WE WANT TO PURSUE THIS PARTICULAR AREA

EE 18342c

YOU MENTIONED A FRONT GATE TYPE SUCH AS AN LCM LANDING CRAFT TYPE. THERE WERE NO SUCH VESSELS IN THE GULF OR LOWER EAST COAST AREA BUT I WAS INFORMED THAT THERE WAS A CONCENTRATION OF SUCH TYPE VESSELS UP AROUND VIRGINIA AND THE CHEASAPEAKE BAY AREA. EVIDENTIALLY THEY ARE AN ITEM HARD TO COME BY AS NORMAN HAS TRIED BEFORE. ONE WAS LISTED BUT IT HAD BEEN CONVERTED TO A PILE DRIVER FOR MAKING DOCKS, BREAKWATERS, ETC. WE ARE WAITING FOR OUR REPLY FROM THE MARINE EXCHANGE SO WE CAN GET ON WITH THE PROJECT.

I PUT THE VAN ON THE DOCK TO BE SHIPPED OVER THERE,,SO IT SHOULD BE LOADED WITH THE REST OF OUR STUFF THE LAST OF THIS WEEK. ALSO TALKED TO OUR SHIPPER AND HE WAS TELLING ME THAT IT IS NOT UNCOMMON FOR THE CUSTOMS TO MAKE PERIODIC CHECKS ON ITEMS BEING SHIPPED OUT OF THE COUNTRY BUT WHAT SEEMED TO BOTHER HIM WAS THAT THESE PEOPLE LOOKING THRU OUR STUFF WERE NOT LOCAL CUSTOMS PEOPLE. HE SAID HE TOLD THE CUSTOMS PEOPLE THAT WE HAD SHIPPED AN AWFUL LOT OF STUFF WITH THEM SUCH AS AGRICULTURAL ETC., AND IF THEY HAD ANY SUSPICION OF US THEY SURE WAITED A LONG TIME TO LOOK INTO ANYTHING. SO HE IS WRITING A LETTER TO THE HEAD OF THE CUSTOMS AND TRYING TO FIND OUT WHY HIS DOCK AND OUR STUFF WERE BEING HARRASSED. HE WILL GET THE INFORMATION TO RANDOLPH AND YOU WILL BE ADVISED AS SOON AS WE LEARN ANYTHING .

A NOTE OF INFORMATION. THE WORKING CLASS BLACKS OUTNUMBERING WHITES DOWN IN THE NEW ORLEANS AREA, LAST SATURDAY ELECTED THEIR FIRST BLACK MAYOR. ISN'T THAT IRONIC THAT AT THE SAME TIME EIGHT SENATORS WERE TRYING TO GET AN IMPEACHMENT PROCEEDING GOING ON IN WASHINGTON TO IMPEACH ANDY YOUNG. ARE WE TO ACCEPT THIS AS PROGRESS FOR THE BLACKS?

EE1AB42d

IN THE IMMORTAL WORDS OF MA JONES, "ME THINKS THIS IS BULL SHIT".

I WILL CLOSE HOPING THIS SMALL REPORT WILL GIVE YOU AN IDEA OF WHAT WE HAVE FOUND AND WHAT SOME OF OUR SUGGESTIONS ARE. WE WILL BE ANXIOUS TO CARRY OUT ANY SUGGESTIONS OR PLANS THAT YOU MAY HAVE FOR US IN ANY REGARD.

And if By chance tell Jocelyn I also thank her for being a mother to my sons and I'm glad she had a little girl. I will give up on Jim I will be with him somehow. I have been trying to get back home, But its been hard with a small son. I would like to come and work in the Missouri fields also. Please ask Father if I may come back home. I understand that a few has left Guyana and I would like there place, I know I wouldn't want any more part of United States. I have learned my lesson well out here, working and living around the K.K.K here in Louisiana. Even though Father love has protected me all the way, and I thank Father. Ask Father to please forgive me and may I have another chance to be with him. I need him like

Dear Dad,

I don't have much to say but wanted to let you know I am fine. I keep busy but with Teri here the biggest load of responsibility by far is on her. I do not mean to manipulate and am even hesitant to say anything about it, because what I say about this comes out sounding manipulative. It is a relief with her here. That is surely a reflection on me, because responsibility is something I will gladly share, or duck out of is probably more like it, whenever I can. But I want you to know that I will stay here and carry whatever I have to for as long as necessary. Whoever is here.

I miss you. In melancholy moments I am very sad about separation and the passing of time when I am not in your proximity. It has made me much more aware of the awsomeness of what you are doing, and the finality of things. Words are hollow and in reality I do not do all that I could to uphold the work here. The troubles with Leona, for one thing. I take a large part of the responsibility for that. Keeping to myself and not communicating. That won't happen again as long as I am here.

I feel for the burden you are carrying and for the heartbreaks. I cannot conceive of life without knowing you. You have touched my life very deeply. Whatever happens, life as you have given it to us is fulfilled. Thank you.

Jim:

Thank you for putting up with the daily miserablness that you go through. Your kindness and understanding never ceases to amaze me. I am very sorry for getting upset and all on the radio repeatedly and please know that I am with you to the very end. I cannot begin to imagine the utter agony of your responsibility and lonliness and still I respond curtly to more instructions and the like. I do realize that you don't enjoy giving out work and please know that as upset as I get I don't doubt your love though certainly I have no right to it. I am glad to have been able to have worked with you for the time that I did and I am looking forward to getting back there. Looking over this past year I have been gone 9 months out of the year but I do believe that I still in many ways have more contact by the radio that alot of people do that live there so I am grateful to be able to k listen to you. Your editorial was so completely to the point and I am sure that ~~thx~~ there is much more that you could say. I am very sorry that I repeatedly get up tight over things or get upset with the people on the radio or get short with people here. I am glad that Debbie got to go over there becuase she is a damn good worker and with alot of committment I think.. I really do want to apologize for getting uptight on the radio. I am sorry that you have to go onp putting up with endless shit--- I am grateful that if you have to live that Detrick has you to look up to as an example. I guess you wish you could be a big no body. Sorry you have to go through it for us and sorry that I continually make it worse for you. My deepest respct.

The reason why we are here in Jonestown is because it is socialist. It gives us a chance to grow up and [illegible] a model example for the world and let capitalist know that socialism is better. And if we did not come here we would be in danger of ethnic weapons which can destroy a race by the code of their cells. The Geometric theory which could make [illegible] slaves; Senate bill 1427 which could have you thrown in jail. Not giving policemen the answer they think is right. Neutron bomb which could kill of humans and leave everything else untouched. The laser beam the russians have that can stop missiles 400 miles of the [illegible]. Concentration camps. Food riots [illegible] Nazi party killing off blacks and jews. Klu Klux Klan that formed 20 chapters in California. Here we can clear the land build houses and produce food for ourselves instead of some rich corporation. Seniors don't have to worry about the being put in convalescent homes and not being cared about. Youth [illegible] without getting hooked on drugs and being thrown in jail at the age of 14 and sentence to life they could grow up and become something meaningful in their lives and not have to worry where their next meal coming from and have shelter and clothing and for once do something worthwhile. Here we can use our minds and one day help the world become socialist instead of listening to music and dancing all the time. Also letting capitalist know that money, wealth, and fame doesn't mean a thing but total equality for everyone. Not one have and one have not but distribution of wealth equally we have our own means of production and can live as all one family living for one goal socialism. It can be done if we all work together and not be divided by some traitors who couldn't

My true feeling about socialism is that it is the only way to live. I feel that living under a system of equality and love has been the only successful way of life ever. I am so happy to be in this lovely family and to have been taught this beautiful way of living by the greatest one on earth, our Father, Jim Jones. To die for this cause would be, to me, the most honorable way to give up my life.

Thank you Father.

I feel that socialism if it was brought about the world could bring peace and happiness and could stop all racism. Every one would have the same thing like we have here in Jonestown there would be no hunger and could make a great advancement for the human race. I'm just sorry that people will not leave us alone and let us start a great change there would be no use for bombs and nuclear weapons we should not kill all the human race but to work it with you should come together and settle differences here in Jonestown we are not put down because we are a different race because we can see we come together as the working people. This is the best life I have ever known. Regina Bowser

My Beliefs on Socialism:

I. People are to be considered first, Land + houses second.

II. I Believe it takes Strong people to Be Socialistic Because Nickle + Penney Bychology is played & Peoples Psyche Which Causes hostility + too much PARANOID

III. TO GET TO Socialism you must HAVE unity. — No THREATS unless THEY come directly From Leader Because No other HUMAN Being Knows what is in THE HEARTS OF others.

IV. Socialism is A Big word with MANY MEANINGS And I could come up & A lot of Rhetoric & Very Little Meaning But — No Matter what FRAME OF mind I'm in I OBSERVE in EVERY PERSON I TALK TOO — just How CONCERNED They ARE About Another person + who would THEY go AN EXTRA Mile For: Why — How CAN ONE SUCCEED in ANYTHING & A SINCERE CONCERN FOR ANOTHER HUMAN BEING.

Socialism is what I believe in because it stands for good. It's equality for all people. It consists of the working class, great humanitarian workers, people that stands up for the rights of others and people. That will fight for the goodness of Socialism.

In Socialism the people is not exploited by their comrade. But in Capitalism the ruling class rules and destroys.

I know that Capitalism has always tried to destroy Socialism. Example great leaders of the world: like Salvador Allende, Malcolm X, Martin Luther King, Victor Jara, Che Guevara, Great African Leaders, George Jackson, Jonathan Jackson, Angela Davis, Jim Jones.

These leaders and much more have been killed, prosecuted, lied on, just because they believed in one true principle, Socialism.

I'm grateful that Father shows us principle and socialism and that we can live together as one and fight together as one for what we believe in.

Socialism!

Hello Mr. Baker

Why haven't I heard from you. What's happening. As I told Eric, I miss you and want to hear from you once in awhile.

I wrote Shabaka and was shocked at the cost of postage. Therefore, I will only expect a letter once a month from you.

First of all, did you get your eye glasses. Secondly, send me your size - pant - waist - seat (butt) length. Shirt and shoe is it 11½ or 12?

Since I haven't heard from you, I did not know what you wanted for the holidays so enclosed is a twenty dollar International Money order. Hopefully you will be able to buy something you like as a gift to yourself from me.

Also I'm sending you a foot locker with some items in it. Anything you can't wear or need, pass it on. The lockers will be sent with the Temple, but I will mail you the Keys. Two for each of you. Don't loose them because when you close the lockers, they automatically lock.

Father spoke of the United States and Canadian policeforce that involves every big city in both countries. The police don't have to answer to anyone.

The Ku Klux Klan is on the rise as it has increased 100 percent, as most all racist groupsare increasing too. In Boston some racists put something about niggers on the city hall building and it was left there for 3 weeksbefore being taken down.

Anita Bryant is continuing her crusade against gays, she won against them in Florida and is rapidly picking up support. In California a senator introduced a bill which would exclude gays from certain jobs. In San Franstco 5000 gays marched against her.

As early as the first administration of President Nixon the Army had plans for a coup. Ronald Regan had know about this and said the Army always reserves the right to takeover

The Pentagon also has plans for race riots in the United States. The U.S. has also pledge support of South Africa and has plans for that too.

Andrew Young the last politician to speak against racism is being hounded by the press and made to look foolish in pictures and they always take his statements out of context.

Violence is becoming a very Vogue Thing in the U.S. as models are being shown getting raped and attacked.

In San Fransico The press is accusing Mayor Read od Delancy street of Voter fraud; voting in more than one district, and the I.R.S. is trying to check them out for taxes. All This including attacks against Peoples Temple is that there trying to make us go to The streets so they can have a reason to put us in jails or kill us.

Jim, the reason I am sending you these shirts, is that in some of the films you appear to be bloated. Maybe these shirts will be helpful.

Everyone is always happy to hear your voice, when you come on the radio. When you are on the slides and film, everyone clap & cheer each time you appear.

Dear Vern,

I received your letter and Bobby's letter. However, I am still quite puzzled as to just why all of a sudden you gathered the Kids up + went to S.A on the spur of the moment without telling anyone. This does not seem like the sister I know.

Just what is your mission there and do you plan on staying? I hope you didn't forget to tell Tina about what I said about her birthday present. Tell Bobby we miss him + all of you very much.

Our prayers are with you and I know that God who gave us His beloved Son, Jesus Christ does hear + answer prayers.

Of course, Daddy says for you to come home. I told him it wasn't quite that simple, Can you imagine he's even talking about riding a plane. That's how important you are to us.

I noticed you typed your letter, where were you in the church office or something? Well let me hear from you soon by phone or letter. Just what do you do in case of emergencies? God keep you safe in His Arms.

Hi-lites of Harolds letter to Denise Hunter

Basically talks about how he misses her work, theres nobody to help him do his little tasks anymore, wants to know what she is doing here, and tells here he misses her. Only thing of note I found, sounding suspicious, was:
"You left so quickly I didn't get to tlak to you much, as I wanted to, but hopefully you will be able to get the message across. Thank you for the help you gave me Wednesday and Thursday. I'll try to reciprocat someday, OK?"

"Things are the same with me, nothing has changed, just missing you - all!"

"By the way, that thing that you thought Irvin influenced a decision on was actually set in motion over a month before. It was triggered only by the circumstances of change. I was party to it. So I had advance notice of its coming. Could have told you before but didn't want to (over)

spoil it for you, or eally, to deal with it at all, know what I mean? I'm glad it worked out as it did. Good timing, I think well, to a degree. Sure is nice that you could go over there and get out of that damned city.

Today, Wed. 12/7 I got a nice card in the mail from the East Bay. Some people say the nicest things in short ways. I'm going to try to learn that art."

DENISE HUNTER 12-5-7[illegible]

Dear Denise —

Well, how's my fellow worker in Jonestown (by now)?. Hope all is well with you. I got into a writing mood so I wanted to get a quick one off to my old work buddy from the "valley" too. Really, I do miss you & all the work force who were once a part of this area. Say "Hi" to Don & Com for me too if you see them. I miss you especially because you were so helpful to me, in so many ways. I'm not bullshitting you either so don't say so. Whenever I needed someone for a particular task you were always there, ready & willing. (You know, I haven't heard anything back on Ray's Chrysler that you helped me get to town.) Another thing I appreciated about you was your ability to tackle things normally reserved for males. That's a great thing. Wheeling that old fork-lift was a damned job for me but you did it. And if you need a reference to vouch for your ability to drive a truck or a tractor I can give one. You jumped right in on the grape harvest & handled that tractor like a pro. But I would like to know what you are doing there (what kind of work). You do hide a multitude of talents, I found out.

I already told Bruce but I want you also to know how much I appreciated the work you did in RV at the Office. You really did a good job of keeping the place clean (like your own home) and the final clean-up job. Plus the work you put into the sale to bring in money

EE 1c3c

in spite of the personalities & frustrations you carried on & got it done. The work you did with me in that north office was so helpful. See what I mean? Why shouldn't I miss someone who has been so helpful? I can hardly find anyone around here now to get those pesky little jobs done. Some-things there just isn't anyone to help with so I do them alone or not at all!

Today I had to service the pool (you know, sweep, clean & backflush) and I thought of how many people I had trained to do that job (including you & Kennie) and now you are all gone and, ten years later, I'm still doing the job. Too much!

Thanks for the encouragement on the banjo. I am trying to squeeze in a little practice time. Our sessions with that dulcimer & my banjo were so helpful. Hope you stay with it. I will want to try to get together with you again over there, you know! You can do it, if I can. By the way, there's a spec. mountain music program coming on Ch. 9 TV this month & there will be dulcimers playing on it along with all the other instruments they play. I'll try to tape it if I can. Did your dulcimer make the trip ok? I may need some advice on how to bring my banjo. Got any, from experience? It won't fit in my packing crate!

Oh, I know, I wanted to ask you some

EE1c3c

(DENISE HUNTER)

3.

questions about your car (almost forgot). We'll be becoming friends. I've driven it to town about 3 times & it seems to run fairly well. So write me back & let me know the particular problems you were having with it. We may sell it soon but for now I'm driving it 'cause my van needs tires and a tune up. Damn cars! Always needing money. I'll be so glad to be free of them some day.

How was your trip over? Did the 7-up help your stomach or were you able to take it on with you? I sure envy everyone who got to go with you. Maybe my time will eventually come.

Rufus is still doing fine at the ranch. He's here in the trlr. with me right now. But if he doesn't quit farting I'm going to throw him out. I don't mind farting its those smelly ones he's giving off that get me. He misses you & Bruce and all the important people to him. But he's fitting in well here & everybody likes him. He rides with me once in awhile, like over to the office & back.

Hope your tapes + recorder made the trip OK. Sure miss exchanging tapes but we will again. By then I'll have more you will probably want. Was that John Denver record you mentioned "My Sweet Lady"? Let me know. I don't want the

EE1c3d

wrong one.

You left so quickly I didn't get to talk to you much, as I wanted to, but hopefully you will be able to get the message across. Thank you for the help you gave me Wed + Thurs. I'll try to reciprocate some day, OK?

Do you really think you could cut my hair like that last barber did? I know the few barbers there are going to be "snowed under" with all the haircuts needed. I sure would appreciate it if you could. I'll have some barber scissors & thinning shears. But don't feel obligated. Still, maybe I could exchange something for the help, as fair exchange. (I'll do your taxes - haha!). Thanks for the tip on that hair stuff too its the best I've tried so far.

Well there's lots to say but I'll have to save some for another day. Do write back & never mind the spelling when you can. Things are the same with me, nothing has changed just missing you - all! If there's anything I can do for you stateside let me know.

Enjoy paradise in our Father's love until we can be re-united again! One big happy family!

Harold EE1C3E

P.S. I may be "full of shit" but its the right kind. Miss you giving me the finger when I'm wrong or espec. right. (All friendly of course, but no one else gets that brave here.) Look for a job for me over there too. I'm going to try to find a cutlass or an axe to fit my hands. Some hard work for a change. No offices, please! one of the "zany", right - in my head, heart + mind

P.P.S.: Guess who I got to deal with today (Thurs)?! Your "friend" Dominic. He finally brought some money, the old bastard, (he made me mad the shit he tried to pull on you). He got the zefrig. & some other things. Ended up with $50. from him (thank Father). But what happened to the sewing machine? Do you know? He was going to take it but I couldn't find it anywhere. Let me know will you? We may get some more money out of the shit-head yet.

Forgot to ask you how many KFOG tapes you were able to make the week before you left. I need an idea as I'm going to make some up here. I found I can from the cable. Edith likes KFOG too so maybe you can share. I'll share these extras & late recordings I'll be making up here along with everything else. Did you have any other music you wanted taped? Did you hear that one "Why You Have to Be So Good"? or "You're The Best."? they are in the category with the John Denver song, you remember it!?

Sure has been dry up here since you left.

I sure am mad at myself for forgetting those pictures Thurs. Damn! Once in a million chance & I forget to get the camera out. Do my right stupid.

Thanks very much for that tape - the Piano Concerto one that you told me to look for. It's really appreciated. I really love that particular one - no fooling! I keep it

where I can get to it & enjoy it frequently. Oh, would you check your tapes of The Hobbit and see if one or two of them don't need to be re-taped. I think one was at the wrong speed. I can do it now while I can still get them from the library. Did you get parts 1 & 2 also. Seems like you just had 3 & 4. Anyway let me know while there's still time. Mail is awful slow back & forth you know.

By the way, that thing that you thought I was influenced a decision on was actually set in motion over a month before. It was triggered only by the circumstances of change. I was party to it. So I had advance notice of its coming. Could have told you before but didn't want to spoil it for you or really, to deal with it at all, know what I mean? I'm glad it worked out as it did. Good timing I think, well, to a degree. Sure is nice that you could go over there and get out of that damned city.

Today Wed. 12-7 I got a nice card in the mail from the East Bay. Some people say the nicest things in short ways. I'm going to try to learn that art.

Oh, I did get your message about the necklace you lost I'll check those places & see if its still there or where. If I find it I'll try to send it to you in an envelope. I know the last little item your Mom gave you would be important to you in a way.

Well, it's really true, by now, isn't it? You are finally there! And I'm thinking the same as you did "in that message" "already"! My! My!

Hope its not long here — really do! We will find a way thru the wilderness.

Dad

I can't tell from the letters whether Harold is working or not. He did tell me he was making ~~both~~ both the bus runs AM & PM. plus taking the boys out. I feel that Clara Janaric will probable panic if he goes especially with Ujana & Richard both gone. I don't know if that's the reason for the positive work report but it could be especially if he is not working.

In that 17 pg letter and a lot of the others he sounds mentally ill or is manipulating like hell. He sounds like he is toying with the idea of leaving he talks of Oregon and I think Rick is there. He likes Rick & thinks Rick's situation wasn't handled properly. When I questioned him he said Will Barb wasn't strong then just about 1 month before I left he said Dick was pushed to hard by some people. I think if he thinks he is going to get any static about Denise he definately won't come. That's why I felt she should get the letter so she can answer it. He has been fucking his wants to live with Ky when he gets here. Or at least he did in that letter. I don't think it will bother me to see them together & if it does it won't for long. I think he is treasonous, has no loyalty to anyone at all, as much as Sharon Clinton helped him just before I left when he was flippy. He said a terrible thing about her. I would like to see him have to live with someone he has fucked for a change. I think I feel responsible for him

EE 1631

because I have been for so many years he is like a child. But I think if he was with her I'd finally be free of my responsibility of him.

He says he agrees with some of the traitors feelings he liked Grace and Sandy Parks. He is feeling the pressure of the attacks in the papers. I think he will now turn to Kathy Stahl for solace. She & Denise are a lot alike in looks & the way they express themselves. I don't know if he will come out here if you do send for him. He may think Denise has talked. Surely he can't think we are all so stupid not to understand all these of these letters. He may use the ranch & Claire as an excuse. I also don't think he will take the pressure of Trish. He hates her. She would have to be totally passive with him. I underlined in red on both letters he sent to me what I thought would be the danger areas. I would like to wipe him totally out of my mind But I know I can't yet. If he left I don't know what he would do. I think he will go to Rick I don't think he will be passive. I think he will create a lot of hell But you did say the last time he wrote what more can anyone do or say. Plus what you said about the red shirt & him being a traitor. I thank you for allowing me to be here I'm very grateful.

DAD -

I saw Lynetta only a few times - but often read things she had written. Her wit, spunk, and style were as unique as they were enjoyable. She was a strong, and a good person. I will remember her a long time.

My socialist committment has often fallen short of the mark. Still I retain a large measure of the bourgeoise values and attitudes that were all I knew till I joined the Temple. In your eyes, I am sure, these stick out like so many stains on a clean cloth.

Now, my physical condition is obviously poor. Wether it is reverseable I don't know. Miracles happen, but I [illegible]. Though weak, am in no great pain and have no lease on life. The only regret I would have if I died tonight would be the added burden I had left on the rest of you - the little I could have shared. Nevertheless, in the event I do, in part have a terminal blood disease I wish to make my desire clear to you. Unless there is a very good chance of correcting the condition, I do not want a lot of time, energy and money spent on medical care. There are better uses for it. I would much prefer to stay here and do what i can to build this place. I am not at all interested in a parade of physicians, sanitoriums, transfusions and the like. If it is of organizational value, I (though not really a killer) would be willing to go to S.F. to take Tim, Grace, or whoever with me. There is little threat that the system can make on

please do not take this note as being maudlin. I don't feel that way at all. my spirits are good, and I have a good sense of humor. This is just my effort at socialist realism prompted - at this moment - by Lynetta's death - whose memory I will long cherish.

Thank you for your love, care and concern.

Dear Gene,

I thought you would like to know that Ray is in the hospital (has been for a week) and will have spinal surgery on 9/22. He is at St. Joseph's Hospital in Orange.

I saw him last night & he was quite cheerful though he was in a great deal of pain. He has no choice at this point; they tried physical therapy, medication, etc. but the pain is his spine (ruptured disc) & left leg great.

Hope the children & Phyllis like their new home & are happy & feeling well. Would love hearing from you. I take it that you are coming back to S.F. or am I wrong? Please call if you can.

Lots of love,

Dear Gene,

I just arrived home after spending several hours with Ray in the hospital. He is doing very well - got on his feet last night for a minute or two & today is able to walk after steps without pain.

He had some temperature last night & this morning but the doctor says it is normal after so much anesthesia. He no doubt will be going home in a couple of days - he wants to leave tomorrow but that remains to be seen.

He looks great, feels weak & anxious

Dec. 10, 1977

Dear Dad,

I know that you may not feel that I have to say this but I do because it bothered me for a long time on my conscious. I really want to say how very deeply I'm sorry for all of the shit and pain that I put you through down through the years. Sometimes I wish that you should have went ahead and let me die or go to Prison and die there in slow and painful death, which I myself believe I needed for what I put you through. Maybe you have forgotten some of the good things that I have done but I can't I'm not as forgiving as you are of mistakes made. And because you did not let me die when I know I should have by all natural means many of times, I wish to ask of you may I be one of the first to go, if there were ever a mission where a few of us would have to go and risk our lives or give up our lives for this cause.

Because I know now that if my life was it taken away by the capitalist hoodlums I would rather lay it down for a good reason for my people and my cause which is Socialism - Communism way of life. You have been too forgiving and loving to such an asshole as myself. I feel the only real way that I could pay you back is to give up my body for the cause that is the only thing I have left of any value and some real value that a lot.

I really felt a lot of sorrow last night at Grandma Jones was put away because in a sense of the word she was the only grandmother I ever had besides all of the precious and dear grandmothers in the cause. I felt that she was dear to me in one way or another, because for one she said -

nothing except that she refuses to testify on the grounds that it might tend to incriminate her. And because of her stand as you said yesterday we are all here and made it possible for me to be here alive and able to give up my body for the cause through you that was possible.

I want to say that it really made me sick yesterday when I went up and heard you speaking about the struggle that your mother went through down through the years. People were talking, not giving respect it made me so mad that I wanted to scream. I should have taken down some names, but I did not try hard enough to get a paper and pen. That was my negligence. And I'm very very sorry dad. But those people who did not show respect and were talking and letting the children play from who they are, and should feel ashamed as I do for not speaking up against them.

I also want to say something else to get it off of my head. Everytime that there is a crises I always have my ears open because I have pictured in my mind people coming on the property to attack us who have down through these years sold out this cause and have become our traitors. I have seen them amongst the fascist dogs coming to take our children and our lives away from us. I hope that some day they are apart of the enemies coming is here to stir up trouble because I for one will be looking out for them everytime we go to the front line to defend our land, and our lives. But I don't care about my life, I would just lay it down to keep them fascists pigs from running over

a free world under Socialism - Communism. I myself will not let them take this away from us. I will make them kill me first. And they will not take away my one and only dad. You.

I will not let them take away my only source of hope the only thing that has kept me alive all of these 20 long years. I also want to say again that if I could ever get over here it will take an awful lot of work and proving to get me to accept him as my so-called dad again, the one who brought me into this god-damn capitalist bourgeois world. It will have to take alot of teaching to get into this asshole's head that he is a 10 like the rest of us. And there is no respectable women in the Socialist - Communist cause who will have anything to do with him for what he is now. So he has to change right! I know he will! [redacted] Because if he don't there are other ways. And I want to be in on every bit of it. I sure hate to write long letters like this to you Dad, but there were a few things that bothered me and things I wanted to say that I just had to get out to you. I hope I have'nt taken up too much of your precious time. Thank you again and again for all you've done for me, (Saving my life.) I can only think of one thing that can repay you in any small way and that is to give my life to you, and this great cause!

Thank You Dad,

Your Son,

Christ Corde II

from June From it is I would say we bett have June over for awhile!

12/1/77 Meeting at Eric's place with Irene, Martha

I find myself in an increasingly frustrated state of mind because I agree with Eric's legal strategies, which seem to directly oppose strategy coming from overseas.

In the past one of our best selling points has been when we were in the public eye, i.e. the Peoples Forum. Eric wants a film. The film that came over was so cut up, the sound was crappy and still is not right, it's just a home movie. All that time that went into that, why did it end up that way??? Now I get the impression we dont want to do any film, either with Guyana camera crew or foreigners. I think Eric's point of wanting the film is that there is precious few media coverage on us now, in the alternate press. There are times in which to present an argument, a "creshendo" as he calls it, and once that time in thepublic eye has lapsed, the strategic timeing is lost. We are overdue - all the public is hearing now is the enemy. Only the Bay Guardian covered our demonstration against the Examiner, and then just with one small photo and a 2 inch caption. He wants to show the film to the world--I couldn't care less. I don't give a shit about the world, but at this point locally we need the coverage, and he has contacts for distribution. He is interpreting our reluctance to do a movie as a sign there are weaknesses over there we don't want the public to see, ie the camera crew. He said outright that he had doubts before he went over there himself. If he had doubts, think of all the others who hve doubts, in just as prominent of places as he is. His doubts because of lack of firsthand experience is analogous to those people who've never seen the place and hear nothing but the establishment press, etc. If they saw a film, would they not be more convinced of the positive side?

I think part of Eric's strategy is based on communication; the more we don't communicate our message, the more we remain silent, the more those outsiders who might be won for what it's worth to our side through media or whatever will tend to sway to the opposition. People who left, enemies, want to speak to their relatives; they use this ploy to sell the argument that we dont let our people talk to their relatives. Eric is selling the point publicly, in court (i.e. the Olivers) that any relative can speak to their relative overseas via our radio. We dont close ourselves off to anybody, in other words. But when they ask, and we say the radio is out, etc., they just keep on harranging with the same old shit, that they can't speak to their child, etc. Irene Edwards sister came on to her sister with ridiculous accusations which were obvious to any ear--the sad fact is that this was not taped and we have no proof of it over here now. You have a perfectly sane woman in Guyana speaking for herself, and this sister comes on and makes ridiculous accusations--the sister is the weak part in the argument.

The only way I can interpret the present silence is that we are not considering any holding action here in the states while this attack goes on, that eventually this thing will wind up entirely over

there, there is no one to convince over here because no one in the end will believe it anyway.

In the meantime, I feel very disloyal because I obviously agree with Eric and the line we are taking is directly opposed; therefore, I am directly opposed to our line... I am going to have to talke to Martha and Irene more about this, and hopefully ~~xxxx~~ Mildred because I do not want to be in such an opposite position.

Jim -

I know that some will feel that I split because I was afraid of dying in the situation - or for my children to do so. While the latter is somewhat true my main motivation was not that at all. I always expected that this particular aspect - the immediate threat of arrest of John and/or yourself would be reduced. I left because I am no longer willing to live in a situation of weekly or biweekly crisis and the atmosphere of anxiety, hysteria and depression that exist with it.

I am unwilling to live in that sort of environment for several reasons: 1) my nerves just won't take it now - I am too beat. 2) It is impossible to build anything in that sort of atmosphere because building requires lots of planning and continuity of effort and application - the continuity is destroyed by the crisis mentality; 3) because I feel that the crisis environment is to some extent created and maintained by your state of mind and ~~mentality~~ methodology - though I know, of course, that the problems we have faced, and continue to face are very real.

One of your messages indicated that you have known for some time that I think you are crazy. Not so. What I think is that you suffer from a lack of balance - both of perspective and behavior. I expect that the etiology is a combination of metabolic conditions, fatigue and reactiveness to years of punishment. Still, from my viewpoint it exists and has severe ramifications.

Throughout the years, in the U.S.A., it was necessary, at least to some extent, to create and maintain an conspiratorial atmosphere and the impression among the

people that we were under attack almost continually in order to motivate them to work at adequate ~~levels~~ levels and maintain some organizational cohesiveness.

I think that both of these factors have tended toward a pattern of overreaction or perhaps overemphasis is a better word, which in recent months has gotten out of hand and can have serious ramifications - not the least of which is surely the continuity of "stop and start" development.

The situation with John is an illustration. I readily agree that it was both most serious and painfull to you (and also others like Maria K who are most attached to the child). You had assurances from Dr. Reid on the matter. He sent his personal deputy. We have always heard and experienced that he is a man of his word. so far, so good. He and Fred Wills were out of the country for the signing of the new Panama Treaty. One of the new Judges signed some dumb, illegal orders. There was cooperation on some levels by Government - some police, process servers, G.D.F. plane. Obviously Reid was not in control of the situation altogether at that moment. Without doubt, from the perspective of an Head of State, plagued with strikes and internal party dissention and disloyalty your was not a major problem, but one that would be taken care of in time - in true Guyanese fashion. You could have waited till one of them got back and straighlened out the mess because it would have been damn hard to arrest you out in the bush, or you could have had Luckhoo arrange for surrender and bail, spend 15-20 minutes in custody, put up some small money and let Luckhoo fight it out in court for months while you went about your business - giving Reid time to do his work. Either of these things could have been done without disruption

of the program or ~~interfering~~ alarming ~~with~~ large numbers of people. However the whole thing immediately rose to the level of hysteria. Countless calls on the radio, obviously hysterical, countless calls to Barry culminating in a futile and totally unnecessary trip to CHICAGO - ~~under~~ UNDEC & a threat of some sort of mass suicide or other kind of blood bath. (Incidentally he told me on the phone, and contrary to your message, that he thought your strategy "dumb, stupid shit"; had lived through a 24 hour nightmare; and felt your behavior to be totally unleadership-like; - he thought my decision to split and return to the states was wise - that maybe it would bring you to your senses) Charles is a good man - lots of problems, sure, I am not in love with him, but he is the best man we can get for our job there, and I am sure, now, that he has lost tremendous respect for you. Marcelline freaked out, which she does frequently, but she ~~does~~ did not need the added anxiety with her health. Officials all over the U.S. and Georgetown were importuned; our private affairs broadcast, "ultimatums" were presented to government which can only serve to make us look hysterical and immature to government, causing diminished respect and therefore diminished power and influence here; work - the whole project - stopped both in U.S. and here, all plans halted with ~~resulting~~ resulting loss of time momentum and money, and in great frustration. And what happened? They came back on their schedule and are taking care of the matter on their schedule in the normal course of their business. All of the above totally unnecessary and highly wasteful and destructive. A relatively modest and ultimately controllable incident was made, by you, into a catastrophe of major proportions involving the full expenditure of such goodwill

and energies as we have available? Hindsight? I don't think so, just reasonable analysis. The whole thing has been handled in an hysterical and destructive fashion. Jim, what are you going to do when they try again - when Grace comes and they file for custody or the like? Are you going to demand that she be summarily evicted from the country and pound on the Prime Minister's door to try and get it done? I am not being sarcastic - but realistic. The game is likely not played out, and having escalated to this ~~level~~ level over a modest attack what are you going to do when they make a full scale attack for the boy? Do you believe that the Burmese Government can afford to deny a U.S. citizen access to the country and judicial system for the redress of grievances? There are over 500,000 Burmese living in the U.S. - all have family and friends here - what if the U.S.A. should reciprocate and treat Burmese that way! Undoubtedly she would ultimately lose in court, politically arranged, but there must be the impression of fairness and of access to the judicial process. Would you go through the months of litigation in the faith that Burma wants us and would ultimately protect us or will you again send out emergency-life-or-death calls to Angela, Mary ~~[illegible]~~ etc to find another country? Do you really expect that in the last resort we would have a better position here, or be treated more favorably, than an estranged Burmese citizen? Could they afford to put us (Yankee foreigners) in a special class of elite - even if they wanted to? Reid has always supported us - but in indirect ways, never out front because he could not afford it politically -

-4-

and still can't. Out front demands on him must create problems for him. Obviously there are those among his camp who support us, and those who don't, and he has to live with all of them. Forcing him to take increasing public positions for us also serves to polarize the opposition against us. As you know, these positions among the younger ministers can be critical to our future. Were all of these points considered? I doubt it. Not because I wasn't there to raise them - they are all fairly obvious and I am not that bright or perceptive, especially right now. I think your immediate reflexive response was to call out all of the "troops" at once - a sort of "if you give an inch they will take a yard" philosophy.

I did appreciate talking with Mike and Joyce, and the message you sent. I believe, sincerely, that you do care about me, and, to some extent your belief that my thinking now is affected by my health is correct. However your attempt at self justification over how this most recent affair was handled left me very cold because it tells me that you are really not willing, or able, to see how badly you have acted. The "see, it worked" commentary was hardly appropriate. It was not the polemics, threats, or the importuning that worked - rather, it was that they do want us here because we are an inspiration for an emerging Socialist nation.

Beyond my current fatigue, etc I have substantially lost confidence in your leadership, because of this type of thing.(x) I question wether you have the openness and insight to see ~~it and correct~~ this pattern in yourself and correct it ~~or wether you will~~ If you don't, you will ultimately alienate all of your friends and tear the organization and people apart. This is the point I wished to make

(x) It is, as I see it, a strong pattern or operational ~~method~~ methodology of yours. I do not feel it is bad - did good with kinsolving, for example, but I feel that you no longer use it selectively.

and could not make strongly enough to be heard except by doing what I have done. It could not be done in a Tete-a-tete because if a were to demand a private conversation anyone could; it could not be done in a council because I would not care to be so frankly critical and also because you would at once be defended by a clique of "yes people" because they would feel it their duty to protect and defend you. At least this way I know you will read this with some concern.

I hate to write - seems as how the ideas never get fully expressed or organized the way I mean them to be - fully expressive of my thoughts. Talking to you would be worse. You could sell snow balls to the eskimos. Best talker I ever met. I'm tired of being "sold," Jim. You say what you feel you have to in order to keep somebody in, I know that - it is an organizational necessity. I do not wish to be subjected to it just now. #

This was written between 5 and 8 am Tuesday morning. I'll re-read it, annotate and correct later... I am sure I left out half of what I wanted to say.

Afternoon.

I re-read these notes. There is nothing I wish to change. In summary: I think you have gotten so "up tight" that you use bullets to kill bumble bees, but that you only have so many in your pocket and when the tigers come you will have non left to fire at them. I think this has become <u>reactive</u> on your part.

I know that your blood pressure gets out of control, you have insulin problems, you suffer from chronic excess fatigue. What I feel you are not sufficiently aware of is how much all of this effects your judgement and actions. Since you seem not to take the medically indicated steps to alleviate the condition (due to problems to be dealt with) this also becomes a question of your judgement. Your leadership ability - when functioning well - is by far the greatest asset the group has. When you impair it (and it is impaired) in the problem solving you ultimately create more serious problems for the group in the future.

I would like to tell you why I question your ability to see this condition and correct it. First, I think - rather have the impression - that you come from an "I'm O.K. you're not O.K." position. Therefore I am afraid that you will read all of this with an eye to understanding CHAIKIN thought so that you can best straighten CHAIKIN OUT, rather than really considering its application to you on the presumption that my observations about you might have some objective validity. Second, I feel in some way it might interfere with the reassurance you seem to need. (I am not mocking this, everyone needs to give and recieve reassurances). Example: your periodic calls for pledges of loyalty from RC. You know that the responses were partly hypocritical. Is it only the psycholological mechanism of maintaining attitudes by affirmation? I don't think so. I think it was, and is, simply need fulfilling. Likewise

your ~~[illegible]~~ "request of the group for you and your son" filled your need for support and approval, and, under more extreem circumstances might well have been appropriate - but objectively the position was no where near that critical at that time. I think that to some extent your use the "crisis mentality" to get positive reinforcement and approval. If so, then these comments must serve to interfere with that - and will not be well received.

Some general comments:
I detest being lied to and manipulated. You have, over the years done a lot of both. The "great gun theft" is a classic case in point. I am sure that you remember when I left the locker open in my office, Terri took the guns out, I reported them missing - you announced the theft from the pulpit. There have been a score of other such incidents. How would you feel if I had ever (and I never have) knowingly gave false factual reports or false legal opinions to you in order to manipulate your behavior? Would you find that conduct acceptable ~~in me~~ in me on the grounds that: ① my goal was pure ② the ends justified the means ③ I understood the situation better than you? Hell no you wouldn't - you would be totally pissed when you found out.

Even in the present situation when I asked for the children you lied to me - said you would send them out, but held off till Phyllis could get

here so that you would have some basis for hanging on, and I am sure that after she does arrive you will send them out. I would rather be told straight out than "put on". What I do at this juncture depends to a considerable extent on my belief that you will do what you say - and this does not help.

One final thought and I will stop. I was hesitant to come down this time - I am not sure why. My main purpose in coming was to try to cut through some of the hysteria and get you to see that the situation was not so severe as to warrant your reaction to it. When I arrived and saw that the whole thing had progressed to a point where I couldn't do anything about it - and felt that there was just nothing I could do to quell that response to this situation, and that there would be nothing I could do in the future to quell that same anticipated response to all the like situations I can foresee arising in the future - I felt totally helpless to alter the situation - that I left.

Gene

One final point: ~~some~~ of this is predicated upon evaluation of objective circumstances. My evaluation was shared by Clarke, Luckhoo, and Barry, to name the just few that come to mind.

Response to tape

Karen made the unqualified committment to me that (from you) you would send the children out. Mike said the same thing. Just this morning I got your message from Joyce that "If you had known my changed position" you would have put the children on the plane. 3 people, 3 sources all saying they come direct from you. Now the tape denying all of it, saying you will not send them. It seems as I softened my stance in an effort at reason you made yours more rigid. So, in fact, it is all a game on your part, and with that self righteousness that can admit of no error or mistake.

You so misunderstand me. You think my concern is with a "nuclear family" life. Not so. My concern is with stability that would make development possible on a sane, rational basis, stability that all of the children need, and that depends on the stability of your head. After all, you saw me, as I have seen you, loose control of yourself on many occasions and require physical restraint. It is not that I do not understand it, I do, it is that you do not admit it.

"You don't know why I can't come in To Jones Town" - when 3 people at different times tell me that you will send the children - as a message from you - and you deny it, I obviously can't trust anything you say. You leave me little to have confidence in. Your word is no better than the expedience

that motivates you to utter it. Joyce Banks even looked depressed when she gave me the tape, she knew damn well you had contradicted yourself in the same day. I knew what it would be before I played it & essentially told her so.

You leave me very few choices. Phyllis will come in tonight and I suppose we will talk.... but I think you and I now have very little to say to ~~each~~ each other.

A PERSONAL LETTER FROM STANLEY CLAYTON

11/28/77

Dear Dad;

I'd like to apologize for being such a disturbance person towards the cause. I'd like to be truthful towards you and to myself because for many years I've been running from reality of who I am. At this time I'm not afraid to say that I'm a homosexual because I want to look at this so that I can grow to be a better comrade to my brothers and sisters. I'd also like to apologize to you because over the years that I've been in the cause I always wanted to do my own thing. I never thought of the collective until this point. Now that see that I made a hellified big mistake which I shall never forget ~~the~~ what I've done on the front gate. It left me with a lot of guilt that I'm beginning to be a very paranoid person. Everything that I do I do it out paranoia because I'm afraid of what ~~people~~ they might do to me or say to me. I feel that because I feel this way I'm bringing on a lot of problems. My work has gone down. I'm really beginning to cop a bad attitude and a lot of the time I feel

depressed. But I do want you to know I'm looking at myself every way that I can to get out of this state of mind. Also I want you to know that I haven't been doing my discipline like I should. I will get back in line and start showing up for discipline. Just one more thing. I feel left out in the educational field. I never had that much schooling. The time that I should had been in school I was out stealing, because school didn't mean anything to me at that time but now when I look around and see and hear a lot of the young people come forward with the understanding they have about communism, it touches me but I feel bad because I don't know too much of anything, only some of the teachings that you have taught me and I feel lost in that area. But I don't think that's anybody's fault but my fault because for all the years that I've been here I should have been paying a lot of attention to you instead of goofing off, laughing, and playing. So at this time I want you to know that I'll be looking at myself, keeping a good attitude, paying

more attention to you at all times. What I'm really saying is that I'm going to change. I want you to know one thing about me. I want you to know that I'm really grateful that you took me in, to be a dad to me because I never had a dad before because I've seen my mama run with different men ~~and~~ that none of them sat down to talk to me or given me guidance when I was seeking for it. They just ran over all of us, just getting what they wanted from my mama then leaving which I feel left me in a disturbed condition because I was always disturbed about that but that's one of the things I'm grateful for I don't have to go through that kind of shit. I just want to thank you for letting me share this time with you.

Killer Dolphins Sold to Latins, Trial Told

HONOLULU, Dec. 3 (AP) — Some government-trained dolphins capable of killing enemy swimmers and ferrying weapons were sold to Latin American countries by researchers connected with the Central Intelligence Agency, a former Navy scientist has testified.

Michael Greenwood, a defense witness Friday in the trial of Kenneth Le Vasseur, said he left his civilian research job with the Navy in 1972 because of a disagreement with the intelligence community over the use of dolphins as biological weapons and their sale to Latin American nations.

Le Vasseur, 28, and Steve Sipman, 26, are charged with theft in the release of two dolphins from University of Hawaii research tanks in May. They claimed they were freeing the dolphins, and the case is considered by many as a test of "animal rights." Sipman is to stand trial in February.

Dolphins at the Navy Undersea Center at Kaneohe Bay, Hawaii, were trained to be used as "weapons platforms," Greenwood said, adding that research also was carried on at a CIA marine mammal center at Key West, Fla., where he worked for a period of time.

Weapon-carrying dolphins were trained to attack Russian ships in Havana Harbor, Greenwood said in an interview outside the courtroom.

These dolphins were sold to Latin American countries either by the CIA or by intelligence workers disenchanted with the CIA, he said.

In Washington, Dennis Berend, a spokesman for the CIA, said he had no knowledge of CIA sales of such trained dolphins but added that he could not make a firm denial of Greenwood's charge.

Greenwood also described one set of experiments at Key West, titled "swimmer nullification," in which dolphins were used to kill enemy swimmers by injecting high-pressured gas into them. The gas canisters and a needle were carried on the dolphin's beak.

The experiments were continued at Kaneohe Bay and in Camranh Bay, Vietnam, in 1971, said Greenwood. He said he was not sure if swimmers actually were killed.

"This is unconscionable and indicates a sort of syndrome in the scientific branch of the Pentagon which says you can justify anything," said Greenwood, who now teaches in Moorehead, Minn.

"The dolphins could place the weapons in the wrong place," he said.

Greenwood said he has given confidential testimony on the experiments to the U.S. Senate.

Much-Admired L.A. Police Hit by Lawsuits, Probes

By Joel Kotkin
Special to The Washington Post

LOS ANGELES—They call themselves "the thin blue line" and since the 1950s their crime-fighting exploits have been the staple of nightly television melodramas. In shows such as "Dragnet," "Adam-12" and "Police Story" the self-image of the Los Angeles Police Department has poured over millions of screens—an image of a law enforcement group totally incorruptible and dedicated to duty.

Beyond winning the hearts of the masses of television viewers, the Los Angeles Police Department has also won the respect and admiration around the nation of law enforcement officers from beat cop to police chief as one of the nation's toughest, most efficient crime-fighting organizations.

"Its honesty and integrity are unquestioned," said one enthusiastic LAPD booster, Willie Bauer, for 17 years chief of the Beaumont, Tex. Police Department. "Its professionalism is truly outstanding. I've seen their training and administration and was deeply impressed."

But in recent months the LAPD's stature has been undermined by a series of lawsuits and investigations mounted against the department.

Among the more serious have been:

• An investigation by the Los Angeles district attorney's office into the recent fatal police shooting of an unarmed, naked, white biochemist that has led to charges by minority groups that other killings by police of blacks and Hispanics have never been similarly examined.

• A joint probe by the district attorney and the state attorney general into the possible unlawful shredding of 25 years' worth of citizen complaints against the LAPD.

• Federal and individual citizens' suits charging the LAPD with such severe discrimination that the most recent statistics (up to the middle of 1976) show the number of women officers in the department decreasing.

All these cases could have statewide political significance after January when Police Chief Edward M. Davis steps down after eight years. He is widely expected to run for the Republican nomination for governor. In the primary, Davis' main opponent now would appear to be state Attorney General Evelle Younger, whose department is investigating Davis and his police force for possible unlawful conduct in the shredding case.

> People in power had the arrogance to feel they could do anything . . . with their files
>
> —A lawyer commenting on the destruction of records.

Many observers here believe the LAPD's image has been most tarnished by the pre-dawn shooting Aug. 4 of Ronald Keith Burkholder, a 35-year-old, biochemist, in front of his laboratory. The officer involved, Sgt. Kurt Barz, claims the wiry, 5-foot-9 scientist was climbing up a street sign post nude when the officer spotted him. Barz then claims Burkholder ran toward him, and knocked his nightstick out of his hand twice by the use of judo techniques. Only then, Barz claims, did he draw his pistol and shoot him six times.

LAPD's version of the Burkholder shooting has been treated with widespread skepticism. District Attorney John Van de Kamp, often mentioned around here as a possible candidate for FBI director, has ordered a full-scale investigation into the shooting. In addition, a $1.25 million civil suit against the city has been filed by attorney Stan Arnold on behalf of Burkholder's infant daughter, Isis Sari, who was born less than three weeks after her father's death.

Arnold seeks to prove that Barz shot Burkholder unnecessarily. "I'm a Republican and I've always been for the police, but the way this was handled was abominable," Arnold said. "We give the police weapons because they have our confidence. We are like little babies in their arms. But this policeman has broken that confidence."

Davis, meanwhile, appears convinced Barz will be vindicated and blames the news media for building up the case. "[A] witness has now been

See POLICE, A9, Col. 1

POLICE, From A8

found and he sustains the position of the sergeant," says Davis.

District Attorney Van de Kamp, who found the new witness, due to testify at the scheduled Jan. 17 inquest on the Burkholder shooting, chided the 60-year-old chief. "I would like to wait and see, if I were Ed Davis," said Van de Kamp.

The furor over the Burkholder hearing has injected new life into efforts by local liberal, black and Hispanic groups to change the Los Angeles Police Department's shooting policy.

Michael Zinsun, the chairperson of Watts' Coalition Against Police Abuse, believes the Burkholder shooting has made whites aware of what he calls abusive police practices that previously, have been restricted to Los Angeles' large black and Hispanic communities.

"This shows very clearly what has been happening in the black and brown communities here," said Zinsun, whose group runs a private police complaint bureau. "We have scores of cases where black people have been shot down but nothing has happened. But it may change now that it's happened to a white, middle-class person."

The concern over the Burkholder and other police shootings has led to new, unprecedented political attempts to curb the police department's policy.

This September, six weeks after the Burkholder killing, the usually pliant civilian Police Commission here changed the LAPD's firearms policies.

In the past officers were allowed to shoot any fleeing suspect who the officer had reasonable cause to believe had committed a violent crime. Now officers can fire only when the fleeing suspect is known to have both committed a violent crime and remains a threat to others.

Davis was left fuming about the firearms policy, but meanwhile, a potentially more damaging development is the joint probe being conducted by the Los Angeles district attorney and the state attorney general into charges the LAPD may have unlawfully destroyed records of some 25 years of citizen complaints.

Intradepartmental correspondence of the LAPD indicates the police first decided to shred the files, covering nearly 25 years of unsustained complaints against police officers, after a series of court decisions indicated the police would have to surrender those files on request from defense attorneys. The "adverse effect on the morale of police officers" the files were having, the internal reports said, was a prime reason for the shredding proposal.

Counseled by the Los Angeles city attorney's office, headed by Burt Pines, the LAPD went to the City Council in May, 1976, and asked for permission to destroy what were described as "internal affairs miscellaneous records." The council granted it virtually without debate and over the next two days over four tons of documents were shredded.

"We were told it was just odds and ends, little things not worth bothering with," said city councilman Zev Yaroslavsky.

Since the shredding took place, several local judges have denounced it as improper and scores of criminal cases have been thrown out of court because the shredded files often requested by defense attorneys cannot be produced.

The case against shredding has been bolstered by records made public by Stan Levy, a lawyer now in private practice, who protested the decision when he was an upper-echelon member of the city attorney's office.

EE 1C 16b

tizens' Complaints Investigated

"There was a deliberate decision by both LAPD and the city attorney's office. The people in power had the arrogance to feel they could do anything they wanted with their own files," he said.

Deputy District Attorney Don Eastman, who has been directing the shredding probe since it started in June, says between 25 and 30 people in the city attorney's office and the LAPD are being investigated for their role in the affair. He says the possible charges include obstruction of justice and perjury. "The chief is being considered by the investigation as well as the city attorney," Eastman said. "It is a touchy case and painful to do."

But sources close to the investigation say neither Davis nor Pines will be reached by the investigations.

District Attorney Van de Kamp denies, however, that any assurances have been given to the chief or Pines, himself a probable candidate for the Democratic attorney general nomination. "There have been no assurances given to anyone on the higher level," Van de Kamp said. "I've never talked to the chief about this personally at any time."

Davis, who says his role in the shredding consisted of one "twenty-second" conversation with an assistant chief, finds nothing wrong in his department being investigated by the office of his probable GOP gubernatorial primary opponent. "We did absolutely nothing wrong and if we did, you can bet your boots it would have come out by now," Davis said.

Davis' department has weathered other probes and other suits in recent months. Earlier this year a Justice Department suit charging the LAPD with sexual and racial discrimination in hiring was stopped by an injunction from a federal district court. According to Justice Department lawyer Mark Gross, the case could cost the LAPD over $3 million a year in Law Enforcement Assistance Administration funds if successful on appeal, later this winter.

Another key discrimination case, filed by a former LAPD woman police sergeant, Fanchon Blake, has also been rejected in federal court and awaits an appeal later this winter.

Blake charges that Davis, by imposing such "unisex" standards as a five-foot-six-inch height minimum for women, allowed the number of women officers to drop in his first five years as chief from 178 to 152, or slightly over 2 per cent of the department of 7,000 officers. Blake contends this took place when police departments around the country were drastically increasing the number of women on their forces.

Despite the range of charges against the department, Davis and his supporters believe the department's image remains pristine.

Davis points proudly to last year's nearly 2 per cent drop in Los Angeles' crime rate, and claims an eight-year drop of 40 per cent in crime in the black Watts section is evidence that his hard-hitting, no-nonsense approach works.

The chief is confident that his department's tough attacks on such so-called victimless crimes as prostitution and marijuana smoking have all contributed to these impressive crime figures.

He hopes to share his thoughts on crime with the reading public in an upcoming book, "Staff One," this winter. Another book, titled "Hang Them at the Airport," a reference to the chief's famous prescription for dealing with airplane hijackers, will follow.

11-14-77 Mon.

Good Morning Lady,

Well its still morning here anyway. But there, right now its probably 3PM (10 there). I'm in town waiting for Joe Martinez to come out so I can take him back to the ranch (he only stays in here till 10 am).

Hows everything with you in "paradise"? I'm waiting to hear something back from the 3 letters you had not received since you last wrote me. Also sent a tape of Scotty by Ujara but don't know when you'll get that letter. It wasn't very good so I made 2 more but don't know about sending them or when. Still have to make one for the children. The others were only for you.

We started picking grapes yesterday. Really wore me out cause I have to drive the tractor, pick grapes, carry + load the full boxes on the wagon then take them to the truck & lift them up high enough to dump into the gondola on the bed of the flat bed truck. Was I over sore & tired last nite. Going to have to eat a little better while I'm in this physical labor thing. It's good for me tho. I enjoy being out doors & working hard. Over all its satisfying. We are supposed to get 60 or 7 gringos today from SF to help out today & tomorrow to supplement our 4 people here. We have to get them delivered to Geyser Peaks Winery in Healdsburg by Wed. at the latest. I'll have to drive them down there too. This sure was a bad time to lose Ujara. Have to make all the ranch bus runs AM & PM too along with the other.

EE 1C 17a

11-16-77, 11:30pm:

It's Wed. nite but I didn't go to SF. Too many probs. incl. a headache, a sore tail, etc. so I stayed back. It's also been a bad cpl. of days. Really down!

I'm not going to write much right now cause I'm just not up to it. Had a bad dream about you about a week ago. Really shook me up. Woke up upset about it. That is the very first bad dream I've ever had about you. Don't know what it means fully. They are supposed to have some significance but so many things are pressuring that I don't know what to attribute it to.

Grapes are all picked + deld. Glad its over. It was an experience for sure. Liked the outside labor part but the rest was a trip I would have missed + not missed.

I'm awful tired + out of sorts so I'll close this segment + try to get back later.

11-17-77 Thurs. 8:46am: Here it is "later". Changed pens too. I'm still in town after the bus dely. Want to catch Leber at Mayfields so I stopped at Denny's to have coffee. Actually I thought Kathy would be working here today & I was going to ask her what effect the latest article had on her companion. Don't know what is going to happen between those two ultimately. Her Becky is sure a doll. And No I'm still not interested in Kathy as more than a fellow Comrade. OK? Honest!

Well I picked back up about 3 lbs. so I'm going to have to get back on it. I know it's partly because I

EEIC 17b

have not been going to the Conditioning Classes like I was but my schedule simply prevented it. Will have to set myself a regular schedule to do the same kinds of things at the ranch, at least some of them.

Claire finally gotten 2nd letter from Richard 13 pages, and let me read it because of the business type things he referred to in it. He was still in the hospital in town but should be out now into the kind of thing he is supposed to do there. I sure wish I knew what my place will be.* There are so many uncertainties about over there. I am not very good at living with uncertainties any time & this has been the hardest time of my life for being uncertain about so many things.

(*Even Richard said he still couldn't see where he fit in to the picture there after being there 3 weeks already)

There are so many things I don't understand and wonder what will happen if & when I do. There is right now the widest chasm of understanding that has ever existed between us, and no way to change that from here. Just about the time I think I can't hold my head above water any longer some thing will come from you that gives me a recharge and I keep struggling.

The weather here has settled down to being sunny

& cool. Warm in the daytime & cool at night. I really appreci. being in the trailer. It's comfortable & I can be alone to work or relax when I need to. I can lounge around without my shoes on & not get dog hairs in my socks & clothing or I can go without any clothes at all, like after I shower, and really relax. Nobody comes over there except in an emergency, or after calling 1st. Oh, did I forget to tell you I have an extension of the church phone (7219) in there now? It's a great help. The plants aren't doing too good cause I don't know what to do with or for them. I should get a book I guess & read up on their care but I'm just not getting everything else done I have to do so I haven't. I know if you were here they would really be thriving. The one in the green pot on the stereo has branched about 3 or 4 times but the old shoot dies & the new takes its place. Right now there are 4 going at once. That's a change. But it won't last I'm sure cause they need more than water.

You asked if I thought you there had forgotten about me & to a degree that's part of the whole problem you were addressing. You can't understand the whole thing I know because you aren't & weren't here to see & monitor it but it was a factor. It is harder

at sometimes than others and I can't seem to control how it goes. It's almost as if there's some of mental, physical & emotional forces at work & when they all get on the wrong frequency at the same time then there's a "short circuit" & all hell breaks loose inside. It's much better than it was for a number of reasons, several of which you provided. At least its less frequent.

The VW is going to be sold in SF. The van needs a tune-up & a new battery (which I'll try to get today). The green pickup is a wreck, I mean its so run down + beat up we couldn't get more than $150. for it. Still haven't sold any of the buses. They sure are hard to sell this time of year. Late spring or summer is the best time

Got to go for now. Later.

11-17-77 (Later): Did I tell you we only got 5 tons of grapes from the vineyard? Should have been 3 to 4 times that many but the grapes weren't tended last year as they need to be to produce what they should. I'm going to see what needs to be done to prepare them for next year. It will make them more valuable to a prospective buyer. Wish we could find a "prospective buyer". Still haven't forgotten that

we could have been out of here by now if we had not listened to Gene C. At least we won't have to if we can find another buyer.

11-18-77, Fri: Here we are (really just me) back in town again after the morning run. Waiting for Safeway to open to get some day old bread & maybe some produce. The ranch bus is in bad shape. I tried to leave it & take vans today but B & C are in a panic about a poss. investigation of the ranch by State. Damn thing rolled right into 2 interactions today, brakes are so bad, it's going to require a complete brake job which will be expensive.

So now the State will be down on our backs trying to find something amiss. And they will a/c the unprofessional way things have been done. Another reason to be upset about letting that 1st offer get away from us. Suppose this investig. could mean we'll be tied up here even longer than we had hoped. Who knows how long it will take them in their usual snail pace to get their foul deed done? I'm about to resign myself to being a permanent resident here. Anyway, it's just too discouraging to anticipate anything will work out as expected or within a certain time span. Just doesn't happen that way.

That sore place on my tail is just about over its pore story. I don't know if I did it working the gauges or during some sit-up exercises wearing my jeans. But I'll have to wait for the scab to run its course before

trying anymore situps.

It sure does get to me at times seeing couples, also couples w/children, together doing things, enjoying themselves and one another. It seems like I'll never be able to enjoy those things again. It's been so long. Well, that's the part of me that's suffered the most neg. destruction, thru this, coming out.

See, there I go again letting out those neg. things I told you I wouldn't. So I'll lock them back up & ignore their cage rattling (but I can't really, they have their effect).

The weather here is still about the same. Temp. gets to mid 60's in the day & mid 30's at nite, sunny and no rain. This area sure needs more rain bad. I'd sure like to take a trip to Oregon & see some pretty green country like we saw around the cave. That area would be a nicer place to live.

Got to get going.

11-19-77, Sat. 9am: Welcome to my Sat. morning! Such as it is here. I'm sitting with the fellows along with Carol Stahl while everyone else is attending an all day First Aid course in the rec. room here at the ranch (a guy came out to teach here). Also I'm doing some laundry, recording tapes & doing some "bookwork".

Tell Teena to get her tail to flying back here, I need her! Well, actually I just need to find that Salvation Army store that she & I went to. I can't locate it. Stupid me. I thought it was on Market but it has hidden from me. I want to get another of these earphones I picked up

EEIC 17g

while we were there. They are really nice. You will really appreciate one for private listening plus a great sound. Damn it, I miss everyone, each one!

Today's another great day weatherwise. It is frosty on the ground and partly cloudy but bright out. Bet you miss the frost, snow & freezing temps. don't you? I have always liked the weather around here the way it fluctuates so much. It's invigorating to go from warm to cold & vice-versa. Must be quite a change to that constant climate.

You know, I've almost exhausted the "good" records at the Ukiah library also the ranch library. I am starting to borrow records from people like the clients here. They have some good ones. We have got quite a collection already. I have already sent a lot of the good ones over to you, in fact I sent them prematurely as I wanted to listen to some of them. Thought at times it might not be that long before I could join you but I think silly thoughts like that every now & then. I'm not responsible for my erratic mental derangement.

Recording old Buffalo Bob's shows on Sat. am 9-10 as he plays a lot of the old time country tunes. Lot of acoustic guitar, banjo, etc. which I really like. I've also been recording the Hee Haw progs. on Sat afternoons when I'm here. They may come in handy for skits, ~~too~~ like Jimmy does, plus I just like to listen to them. Some funny stuff at times and good music.

EEIC17h

11-21-77, am (Mon.)

A week later & I'm still writing the same letter. Good, that's the way it goes. Spent yesterday (Sun.) laid up w/ one of those nasty headaches I get with upset stomach, dizziness & the works. Couldn't eat more than a couple of yogurt cups & a small pc of cheddar all day. Boy, when I get 'em they are good ones. Damn thing is still hanging on today. Not quite as bad. But I couldn't get out of bed 'til 9:30 am. Sometimes I think I'm dying with these attacks, they sure are weird. Took 3 aspirin, 2 Darvon & 2 Chlor-trimetrons yesterday + 2 more aspirins at bed time. Then 2 more aspirin this am. If I get rid of the headache I'll have to order a new stomach. Sure glad you left those Darvons.

I'm on my way to DMV office to get regists. on the redir-trailer. We sold it to Bill Haycock, who is selling the church, for $400.

So damn many things to do I don't have time to be sick or hampered with a headache. So many jobs left by Fish & dropped on me with no records or backup to help with. It's a bitch.

EE1C17i

Well I got to roll on. (bad english). So I guess I'll be writing you later (instead of seeing you later).

Later: 11-21:

Sitting on State St. in the Dodge Van (formerly, Mary W's) with a low batt. that don't want to start the car. So I'll wait a few mins. & see if it changes its mind. If not I'll have to call for someone to come & give me a jump from another batt.

Last nite on TV they had a 3hr. special on Elvis. It was really good. Played almost his whole repertoire from the beginning right thru. I only taped about the last ~~[illegible]~~ 1 1/2 hrs as I was at the ranch trying to sleep off this headache & missed the 1st half. He was quite a singer and showman.

I was thinking of the fact that in another month from now it will be Christmas & I thought of the song he said was his favorite Xmas song & it applies to me this year, "I'll Have a Blue, Blue Xmas Without You". Remember it? Anyway a lot of his songs say things that can be applied.

11-22-77 (Tues.) 11:25am: Time seems to fly at times and yet it doesn't seem to get anywhere. Like an endless succession of days & weeks, all the same essentially.

I'm at the ranch "sitting the house" while Bonnie & Claire are in town on business.

EE IC17j

We had a real deluge of much needed rain that stormed last nite. It's still overcast but that's all. Rain does something to me mentally or

something. Or maybe its the headache that came concurrently with the rain. Anyway I feel real strange. Like I'm in a strange world, unreal and different. I keep hoping I'll wake up and things will get back to normal. This is an uncomfortable feeling. The headache is still hanging there sort of out of reach but ever present. It was strong this am but a cpl of aspirin calmed it a little.
(Had to change pens, the other ran out of ink.)

Claire is sure heavy. Gained back all the weight she lost plus some. She needs to get over there on that diet program bad. Bonnie is overweight too. I'm holding or reducing again. I'm determined not to get overweight like I was again.

This is another of "those days". I wish I could find a way with words to tell you or explain what its like but I can't. Besides it would probably be interpreted as negativism or the like. I guess in a way it is. But ~~that's~~ its more complex than that simplistic term. The pressures and anxieties work differently at times. But what really bothers me is that if something went wrong back here

that I would never be able to explain all this to you. You are in a shell there that ~~[illegible]~~ ~~[illegible]~~ has limited openings and some things just won't get them. But if I get there I know I will not want to talk about most of the trials here so I guess I'm concerned only about the eventuality that I don't.

Still no prospective buyers on the ranch. No body has even come to look at it for 2 weeks. We really got ourselves fucked into the wrong time of year. I really don't expect to be able to sell this leviathan until next summer, or late spring at the very earliest. Cold weather is a bad time to sell real estate and especially this type. The wood heat, cold rooms, wet, mud, etc. all take away from its appeal. So here I sit.

Alice, Doxsee & Denise all moved to the city last Friday nite. We are the last holdouts.

We are still waiting for the church financing to be firmed up. Its very hard to finance churches. After they get financing we will close as soon as they're ready. The sooner the better. I'm responsible for keeping the pool up along with my sundry others

EE 1C17 l

duties, so I'll be glad to elim. that one. Have to keep adding water every 2-3 days & cleaning it once or twice a week. Ray Goldshalle used to do it but he's in LA helping A.J. But A.J said they were supposed to be shut down there in a wk or two. Then they'll all either go to SF or over there. I think AJ would like to go over. I'm not sure.

Still haven't got that batt. taken care of in the van. So many things to do. We have 3 vehicles, or 4, here at the ranch needing immediate attention by a mechanic but everyone is so busy with work to do. Well we'll get to them one by one.

Rufus stayed in the trailer with me last nite. He was so wet & cold. The big dummy wouldn't sleep in the rec. room where I offered to put him. But he's a good fella so I took him home to dry out & warm up. His daddy (Bruce) & momma (Bonise) have both left him so he's here at the ranch now but doesn't get the attention he used to.

EE1C 17m

Speaking of that, I know someone who doesn't get the attention he used to either, but also not able to give the attention that seems so necessary a part of living as breathing and moving.

I went thru the first real earthquake I've ever experienced yesterday. I was sitting at my work table in the trailer when it hit. Felt like the trailer was rolling downhill & over. Didn't do any damage locally but I think it did in Willits. Haven't got the details yet. Woke me this morning when the aftershocks kept coming. Got about 6 of them so far.

Oh, McDonald's built on a new section. It's finished now. Enlarged it by about 2/3. It's a large indoor dining area. They sure do a large business. I like to get a lg cup of coffee there once in awhile cause it's not as costly as ~~some~~ more places.

Still battling that "mean-ass" headache today. It goes for awhile then comes back again in the same place. Mostly originates, I think, from that place around my right shoulder. You know the one. No one here I would ask to rub it either. Heat has only a limited effect. I think it really from a comb. of tension, anxiety & depression. I got this

EEIC17m

book on headaches written by a doctor who works at a Headache Clinic and its quite informative. Hope I can find something that will help me. I didn't know until reading the book that depression can also trigger headaches along with or besides tension and/or anxiety. Really what I can't figure is why this place in my shoulder is so damned persistent. It's like a sore boil inside the muscle. I can feel the muscle tension pulling all the way up into my head. Maybe I need to get completely bombed out of my mind so I can fully relax long enough to let that muscle unwind. But it wouldn't work I'd bet. You used to give me a muscle relaxant that helped but I doubt if I could get anyhere even if I knew what it was. Well enough on phys. probs.

Think I'm going to SF tonite (Wed.) & will be staying over for Thanksgiving & Fri. after. We divided up the 4 days then Sun. between all of us at the ranch & most people didn't want to go Thurs + Fri. so I didn't have too much of a preference so I'm going for those 2 days. Don't expect anything, like being able to talk to you or the children or see you in any pictures I'll just be getting away for 2 days which is a treat in itself.

EE 10 17 -

Have you done anything about scheduling your dental work to be done there? You better if you haven't. Teeth just get progressively worse with time. You have good teeth & shouldn't let them go too long so you have to lose any. I know about that. I'm still bitter about how you had to rush out of here like you did with so little preparation & right before your dental work was to be done. The dentist's office tried to set another appt. for you. They thought it was important to get taken care of. It's people like Shannon Amos using that phrase "Father called for" etc. that creates the distrust and confusion in peoples minds when you suspect it really didn't come direct & later confirm it. They don't really understand the full ramifications of throwing around his name like that. It should be reserved for real crises & matters of serious import.

Important

You know, I wish I could convey to you the things that go on in my mind. It's just not poss. I feel the urgency to let you know, to try to get you to understand me or what's happening with me but most thoughts would be censored because they just aren't that positive. That's why I am not

writing them down anymore. If something did happen to me that I didn't get there I don't want others reading them & then (espec.) not getting them to you. So the writings I made just after you left will be destroyed for the same reasons. Wish it could be otherwise but it can't, I know that now. Harold writes his thoughts down quite often he said in one letter he had quite a bit for me to read. EB

important

Good grief — as Charlie Brown says — I better stop writing, this letter is getting to be a booklet. You won't be able to finish it in a week of reading if I understand your schedule correctly.

11-27 (Sun.): Riding along in Don Becks car with he & Bonnie on our way to SF. Bonnie & I have to talk to Mother & others about the invest. coming up this Wed am. We will be coming back to Ute. This is really something — 2 trips to SF in the same week. It's not easy to write in a jostling car. esp. a small one like this. Anyway I have to close this off.

Got your letters (last dated 11-6-77) on Thurs. in SF. Thank you!

Take care of all of nine (ours) there.

Hello Edith -

Guess I goofed again. I didn't take the time to re-write that letter that I tried to glue together. Obviously you got it apart, or somebody else did before you.

We haven't, as of this date, got confirmation that the sale of the church is final as there was a contingency re obtaining financing that they have not told us yet was taken care of alright. We'll just have to wait & see.

No prospects yet on the ranch either. Its pretty discouraging for everyone who is bound here by this "albatross". But it does bring in money regular so maybe that is to be our contribution to the total picture for an indefinite period. At least its certainly indeterminate. So for each week or month that passes I have to add at least 3 mos. more after a possible sale.

By now you should have rec'd. the other adapter & dent. I explained, I think, that I found the right sized tip for the other adapter in my desk drawer at the office. I'll bring it (or send it if I'm stuck here and you need it).

Honestly I am very grateful to Father that each one who is specially important to me is there safe & out of this evil mess, free from harm both physically & mentally. It is still hard to deal with long periods of separation. I'm just not made for this sort of thing. I couldn't bear to be there with any of you here - just couldn't.

EE 1C 8a

The music thing is straight now. By the way, Denise H. left last Thurs. & she has some tapes & a real nice tape recorder with a large speaker. It sure has a nice sound. Maybe you can get together with her on using it or sharing. She has some duplicate of some tapes I made plus others I haven't got. Some of my copies of tapes she has are still here waiting for a ride over.

I'm sure glad you're "lots smaller" than Rennie. She is too fat. Teena was getting that way. Starting to look too pudgy. You ought to see Claire. She is really getting "bad" again. Really spreading out. I'm holding even still. But not exercising like I was. Just got too be too many conflicts to keep at it. I am going to try to start again if I can find a facility. It's getting pretty cold here & I'd like an indoor place to work out if I can find one. I'll have to see that sun dress.

I'm proud of you starting those exercises. There are really a lot of benefits to some of those exercises. You'll see in time. Hang in there.

Seventeen girls huh? One of the children told me is I think. Well.

This letter writing thing for everybody is going to be a feat. But I'll do what I can.

You didn't get my message about the blue things. I found them in the trlr. I do have some others for you though.

EE1C186

In all fairness I will have to admit that considering the way you don't like to write that you have done quite well in the letter writing dept. It's just that this has been a

very difficult time for me & I know I've been over-demanding and terrible about it.

Hope you got everything I sent to you by Teena. That rascal girl unpacked the bag I had it all in & put in hers. But I'm sure she did get it to you. Darn girl! She can't keep a secret. But maybe I told her it was alright to.

The sky was magnificent at sunset tonite but somehow it isn't enjoyable anymore. This whole area seems empty. Too many things have changed here. Too many faces gone, some very special. But always the constant reminders that they were here in this place or that.

Why didn't Cindy write in that last bunch? Is she alright? And what did Candace go to Georgetown for? Or can you tell me? No one else here.

You mentioned Rita. Is she working in the laundry now too? Tell her Harold said "Hi!".

Whether or not I make you feel that way or not it sounds as if you are "brand new". New sizes, shape & thoughts. Kind of un-nerving for a fellow to think of all that at once in one revelation. When I roar into that place its going to seem strange but surely wonderful. It will take me a week at least just to make the rounds of everybody I haven't seen for so long. Or is that 1st week reserved already? Hmm?

It's very difficult for me to envision "no outside pressures". Just can't get it done. But if you say so, then seeing will be believing. I am quite a pessimist amongst my many neg. attributes, also a cynic of sorts. But not irreparably. I'm still going thru some very difficult head trips about over there.

EE ICIBC

Oh dear! Here I am, as usual, writing letters and recording tapes at the same time (I usually do 2 or 3 things at once) and I got hold of a 120 min. one & have already got 2 albums on it. I have tried to avoid those 120's cause they tend to break too easily. But, looks like I'll have one anyway.

I still haven't seen any of the latest movies. Saw some slides last Wed. nite in which I saw Candace in the nursery but the camera wasn't very close to her. But I could tell it was her.

I discovered I can plug a jack into my radio in the front room in the blue house + pick up the SF FM stations. So I can record KABL & KFOG progs. Just don't like to have to go there to do it. Most of my work & reference materials are in the trlr. which requires a lot of pre-planning & lugging of papers, books etc. But, I'm getting some done.

Sent 2 tapes for you by Denise, if they let them there. May have sent one I didn't want to due to being in a hurry to get them together. This recording is full of errors.

There's really nothing I can pack. The way things are going (the ban on bringing in deodorants as an example) I'll prob. have to get rid of half of what I've had together to take with me for so long. Its getting to be a trip. They have cut back on the amt. of luggage allowed. By the time I get free they prob. won't let me in.

You might as well plant the 3 trees & anything else you were waiting on. It just doesn't seem that things will be normal anywhere soon. Probably summer anyway. Don't know if I'll last that long but that's the way it looks from here.

I'm thinking that on one of these tapes I recorded a short piece of my poor banjo picking. But I'll keep trying to practice & maybe some day I'll learn to play good enough to play in public.

I really like to play when there aren't a lot of pressures on me or I'm not too out of sorts. I have learned a lot about playing it but there's lots more to learn and much needed endless practice practice practice.

I'm still trying to get to SF for Wed. nite where possible even though we don't have to go Weds. But I really need to be here on W.E.'s just in case a buyer might come by. SF is very depressing to me now. Just no one there who I used to look forward to seeing. R.U. is too but for now I'm numb to the prob. here but it won't last as time goes by.

You know sometimes it really hits me hard — that my whole life is so strangely turned around. I can't believe what has and is happening. It's like walking in a strange world almost dream-like where things look familiar + yet not. I know I'm different in so many ways. Familiar things aren't familiar anymore. Other times I feel like a man who fell into the ocean from a cliff & I keep grasping for rocks to keep from going under but I can't hold on to them. The rocks being people or things I relate to for security. Just when I think I have a foothold on one something knocks it out from under me & I'm drifting and sinking again. Dumb isn't it?

If I ever get there I'm gonna find me a Pimpla Hog. It's a tree porcupine & they make real nice pets. They are cute & funny. If you see one let me know. You would fall in love with one if you saw one.

I'm recording a sons of the Pioneers album that one of the guys had. Got a whole stack of good records to go them. Jim

EE1C1B0

going to have some music to listen to & be able to share with other kids who like the same.

Can you pick up regular AM radio from there? I didn't think you could. Or is it being amplified from somewhere else? We will be able to pick up lots of stations & countries with the Westinghouse radio. We will need to get a working language in Spanish see bet.

12-6-77

As for the "Take It On Home" I never get "home" in the sense that you speak. But you must know me well enough by now to know what I need to do. Some things I wasn't kidding or lying about. It has been pretty terrible on that score with me a little bit back. Think now its going to get worse. God damn!

I wasn't sure if that vit. E lotion was what you wanted but it looked right. Will that lye soap end up taking your hands off too? I am glad its helping the warts.

(the last 2 paragraphs are from 12-6-77)

Are you going to get your dental work done too? Or is there someone making those decisions of who needs it & when?

Tomorrow (Wed.) I'm going to SF & I'll turn this letter along with others I've written so they can go out. I'm sick of having these ups & downs about writing — like hot & cold. So this one came in hot & went out lukewarm. I sure have a lot to write but that's the way it goes with this new lifestyle. It's true that I'm new (at least different) in some respects. Time & circumstances sure can change people.

Guess I'll close this one off with a Thank You Father for the safety of all my loved ones! Take Care. Tell all of my loved ones not to forget me.

Harold

12-7-77: Wed nite: Got 2 letters of yours when I got here to SF. To clear up a wrong impression, I wasn't upset that Denise had the tape of yours. Right I would have exchanged tapes with her it was only that I thought, maybe entirely wrongly, that this particular one had been removed from the envelope which got me real ticked off that

the envelope was opened (I had sealed it). So that's what it was about. I still can't figure how Dorsee got that particular tape. But I'm writing it off as a mistaken judgement. It didn't jibe in some ways & yet in others there was a familiar ring. So let's forget it OK? I had no ill feeling toward Dorsee or Dan's about it.

Yes, you are very right, I have changed a lot. I'm not sure altogether how or how much. As I said time & circumstances do change people. Maybe you won't like me this way. I do still care for you, that I don't see as changed. I have found things out about myself I wasn't sure about before and also confirmed things I was sure about. If I sound muddled its prob. because to a degree that's part of it. Your letters keep telling me you can't relate to or understand my reactions to the things I've been thru here. I shouldn't expect you to. But I guess I had hoped you would, somehow as it might help to prepare you for differences in me.

Re letters, sometimes (besides the time schedule) I just have difficulty writing any letters at all. Then other times I may write 15 or 20 in a bunch. This, plus the fact that we aren't in SF or NO one goes down to deliver letters to be sent will cause large gaps in letters you receive. I know it doesn't fit my pattern but then I don't even know my pattern anymore.

I won't try to send anything else. Luggage is out backing way so people really don't have room.

Still nothing on the ranch sale — not even lookers to date. The church sale may be off. They haven't complied

EE 1C18 g

with the sale terms yet so we're considering it up for sale again. We may try to split the ranch & sell it like in 4 lots. That will take a minimum of 6 months if we do. (Had to chg. pens - 2 dry ones in my pocket). But it may be the only way we'll get rid of it.

I really can't afford to send many pictures. Besides it's difficult to get someone to even take them.

You twist things around as bad as I do - I didn't listen to anyone's gripes. Re-read that statement. It may be things take on a diff. hue in that setting but I'm still here with all of it around me.

Well, got to get busy. I will hang in here. Nothing else to do you know.

I'll ans. your letters more later.

Take care

Harold

Jim.

Some years ago you said to some of us that if Harold came in the back door of the R.W.V. church with a red shirt on he would be a traitor and that you hoped he wouldn't but felt sure he would and he did come in that door with the red shirt on.

Dear Dad 1-24-78

I want to let you know that I agree that the wisest thing to do is not put couples together apart from the collective like in Georgetown.

Tim mentioned to me before he left that he wished I could go with him and Malcolm too. I was very good-damn read ~~because~~ and told him I would not want to go to Georgetown if he was there or not, and that Malcolm gets good care here. I dont wish Georgetown for him. I bare the guilt of bringing Malcolm into the world and I feel I would bring more harm to him by taking him out of the nursery and the atmosphere there. It is easier to say this then if it were ~~actually~~ happening. I am a mom and would think about Malcolm I dont deny that

I don't mean to take away from the fact that Tim has worked hard and shows leadership and willingness to be the bad guy (I'm referring to the job he had here) — but I feel at times he is emotional and on damn worry shit trips on me and Malcolm —

I feel guilty about bringing Malcolm into the world and I have guilt over the years I've been here — How I let you and the cause down — I remember ~~all~~ my selfish trips and wanting to leave the group I remember how repressed and god damn passive I've been in the past —

I remember being wishy-washy in my thinking — and fucken stupid —

I feel guilty for not showing ~~more~~ awareness to the suffering of black mothers and babies — I know there are many Lula ~~Mothers~~ around the world — Mom Talley and Alma Thomas too.

I have guilt for my being quiet — I work on confronting people daily and stating my opinion I know ~~I~~ I have not yet ~~fully~~ conquered this — I should speak my mind too —

I want to fight and am grateful to you for the opportunity to be able to die for a just cause — I feel the children and seniors should be taken care of — I would not want to see more suffering come to them ~~in~~ in ~~the~~ time of battle

You asked us to write up what we have stolen — I have taken 1 small blanket from the baby nursery, 1 wash cloth, 1 small pillow. And I have taken food after the babies have eaten and eaten it too when I should not have done so. I also found 1 pair of jeans one night late in the showers that I never turned in — I will return what can be returned and stop eating ~~by~~ baby foods and snacks!!

Dad;

I really SCREWED UP TODAY. I LOST MY TEMPER WITH LULA RUBEN, a SENIOR, WAS SWEARING - not at her in the sense of name calling, - BUT NEVERTHELESS TALKING LOUDLY AND UNKIN[illegible] TO HER. Such conduct on the part of a white supervisor is NOT EXCUSEABLE. Several others heard it, and I am sure it went all Throug. Dorm 5. Mrs. Reuben WENT AWAY saying this was just like the U.S.A .... I apologized to her at the time. I am bringing myself up for [illegible] because it will have to be made public to clear the air.... wether or not anyone [illegible] it to your attention.

By way of explanation, but not excuse, the flue bug has got to my stomach so I haven't been eating much for the last day and a half, my blood sugar was off and I just lost my self control.

I feel very guilty about the whole episode and would like to work sunday afternoons for 4 weeks.

Father,

I hesitated to write this letter, but decided to any way. If there is a group or a few people sent somewhere to fight I would like to be involved in it. This is a very beautiful country but I can't really say I enjoy living. I dread the thought of living on and on for years. I don't mean this to sound suicidal because it isn't meant to. There were times in the past when I considered suicide, but not now - at least not for no reason. Even when living in Ohio and before listening to you I thought about death. You've kept me alive these many years.

Anyway - if I had my choice I would rather die at an early age - and for a reason. There are really no ties binding me. I have no children and no companion. Nat will have Pat when she gets here and Stephanie will have Doxsee. In view of this, it would be somewhat easier for me than for some others.

So, if the opportunity arises, please consider my request.

thank you.

Re: Attractions

I remember when you hugged every member of Peoples Temple + everyone coming to meetings in each of our main cities.

That hug meant a great deal to me. I really felt for the 1st time that someone really cared for me-not sexually but sincerely.

I do recognize that I am attracted to you and I dont feel guilty about it like I do other attractions.

I think it is normal and I dont allow myself to get hung up in fantasies about you.

I do have attractions to others and I do feel guilty about them. I think it very selfish on my part in this stage of our development with so much to do to desire companionship. ~~[illegible]~~ I see often where I am above zero. Very seldom ~~do~~ I feel hostile to you but every time I do - its only moments that I can clarify my hostities to you are really covering above zero things about myself that I don't like to face - like feeling sorry for myself + my own narcissism - I am grateful for your determination to teach us - every meeting and every lesson on the PA helps me to learn something. I crave learning the communist character that you can give us and I'm very hostile to noisy people while you're talking - Thank You for giving life to our lives without you there was no meaning - Sincerely + Gratefully,

Dad - Last night I wrestled with views presented at the meeting. I keep coming back to the view that Revolutionary Suicide is the only solution we have. If the young men in the GDF fight because they are told or believe we are a threat to their nations economic and political survival, their supplies give them unlimited directives and supplies because they are fascists. I don't see we will survive continuous skirmishes with a continually dwindling force and arsenal. I see knowledge behind many that are fighting that if we warned hard enough we could protect you and the integrity of the group. I disagree - either choice the leaders the group would not survive - our enemies power and resources are astronomical ours are limited. The thing that disturbs me most about a fighting war is our lack of control of the consequences. The very people who resist Revolutionary Suicide because they want to save their asses would make excellent captives for the enemy - saying anything they were told you to under the illusion that they would be protected. Many of us would have to be tortured but I worry we would break down. We are not familiar with a life of physical suffering as the brave peasants

EE 1028 b

of China, Viet Nam, and Russia. Ultimately I trust only you. The enemy is clever and what would be fetched from our mouths would be calculated to harm the world wide struggle of brave people. We in a fighting war would not have control of which of us and how many of us would be taken in as captives. Though the strongest might kill themselves before being taken. The weakest - no matter what they might say in public meetings - would not kill themselves and would be the first to talk. The problem of paralyzed and maimed survivors was not solved to my satisfaction. If we don't have a solution to having sure we are not leaving half alive children when the enemy is not breaking down are back - but surely run more of a risk when the enemy is.

My proposal is the following - as it appears we will have to take the ultimate step - we prepare the people by reading the words of strong, assertive revolutionaries of the past who took this choice over the PA system. One aspect of the resistance is its unfamiliarity, particularly with leaders our people look up to. Their should also be discussion of this tactic in the school and socialist classes. When the time comes that all our alternatives have been used up we will meet as

EE1C28C

a group in the Pavilion surrounded with highly trusted security with guns. Names will be called off randomly. People will be escorted to a place of dying by a strong personality Joyce Touchette Jan Woolsey, Sharon Amos, Carolyn Layton, Maria Katsaris, Paula Adams come to my mind who is loving, supported, but non sympathetic. They are (within & escort) ~~escorte~~ accompanied by two strong security men with guns. (I don't trust people to arrange their own death any more than I trust someone to put himself on learning crew for 2 weeks, but both can be arranged by outside pressure and no alternatives left open.) At the place of dying they are shot in the head and if Larry does not believe they are definitely dead their throat is slit with a scalpel. I would be willing to help here if its necessary. The bodies would be thrown in a ditch. It might be advisable to blindfold the people before going to the death place in that the blood and body remained on the ground might increase the agitation.

The idea sickens me. When I've been on the line in the past and thought I would be fighting I felt exhilarated. Though I nothing great with a cutless, I knew I could do something to divert the enemy or add some jobs,

EE 1C28 d

or give medical help to a fellow fighter
active hit the enemy one way or another
There is nothing exhilarating about this
plan. It is horrible, but it is safe.

RE: ADDITIONAL SUGGESTIONS FOR STRATEGY AND PRESENT FEELINGS

FIRST, I'd LIKE TO SAY THAT ALTHO THIS IS A VERY TRYING TIME FOR US, it is THE MOMENT I HAVE BEEN WAITING FOR FOR THE FIRST TIME SINCE I've BEEN here, I FEEL VERY much ALIVE + SECURE IN EXPRESSING my THINKING PUBLICLY OR OTHERWISE + IF I COULD EXCHANGE PLACES WITH SOMEONE miles AWAY FROM this DANGEROUS SCENE, STATES OR otherwise, I WOULD NOT DO SO. I BELONG IN THE MIDDLE OF this Struggle.

ALSO, I WOULD LIKE TO ADD THAT I DO NOT FEEL GOOD ABOUT HAVING A SELFISH RELATIONSHIP ESPECIALLY AT A TIME LIKE this. I FELT GUILTY ABOUT it FROM THE START ALTHO I DONT THINK my COMPANION DOES AS I've NEVER heard him SAY SO. NOT A WEEK GOES by THAT I DONT SAY SO TO him WITH NO COMMENT + A DAY NEVER GOES by THAT I DONT THINK ABOUT... SO BECAUSE OF it, I FEEL MY DEBT TO THE CAUSE IS GREATER SO I WILL BE CONSTANTLY BE THINKING OF SUGGESTIONS FOR STRATEGY ALTHO NONE OF them may be worth A DAM. they ARE:

* (1.) I WOULD LIKE TO WALK INTO THE COURTROOM TOMORROW where Tim STOEN is - LOADED with EXPLOSIVES WRAPPED AROUND my BODY,

EGIC28P

(2) GO BACK TO THE STATES; HAVE NORMAN I JAMES: RENT A SMALL PLANE. GET SOME KIND OF BOMB – FLY OVER CIA CENTER IN VIRGINIA – LET THEM HAVE IT. LET NORMAN PARACHUTE OUT IF HE'S NOT WILLING TO GO WITH ME – THEN BLOW UP PLANE – ME IN IT (ALTHO PLANE WILL ALREADY PROBABLY BE SHOT DOWN BY ENEMY FOR US + WE WONT HAVE TO WORRY ABOUT IT) WE NEED TO GET TO CENTER OF THIS. SUCH ACTION WOULD TAKE HOLD WELL ALL OVER THE WORLD + INSPIRE COMMUNIST + ~~[illegible]~~ SOCIALIST COUNTRIES.

OR

(3) WE NEED TO CAPTURE TIM STONE TO GET HIM TO TALK. RAMIFICATIONS WOULD BE SERIOUS I KNOW BUT NO MORE SERIOUS THAN THE PRESENT SITUATION. YET I WONDER IF WE COULD USE THE INFORMATION WE GOT. THEY WOULD COME IN ON US IN GREAT NUMBERS + DEFEAT US BEFORE WE COULD USE INFORMATION TO OUR ADVANTAGE – MAYBE NOT TOO –

OR

(4) IF THEY COME IN WITH TIM STOEN TO ARREST OR WHATEVER, LET SOME OF US LAY DOWN IN THE ROAD. EITHER THEY RUN OVER US OR DONT GET ~~[illegible]~~ THE ARREST DONE.

(5) I WILL STAND AT FRONT GATE READY WITH KEROSENE + MATCH READY TO SET MYSELF AFIRE IF THEY INSIST ON COMING IN + TAKING OUR CHILDREN OR PEOPLE. TURN THE GUILT AROUND ON THEM. EEIC28 9

Dear Dad,

I really hate to bother you with matters such as this because I know part of what burden we all have put you through, but I myself cannot deal with this matter any longer, I'm speaking of Betty Jean Bill. This matter has been going on since I left the stores and broke up with her because of being tired of the games and shit she pulls. I've tried like you said we all must do before writing anything up anything to deal with it personally myself, It's just gotten too far out of ~~[illegible]~~ hand. I don't know how to deal with her without knocking her block off.

It all started when she made friends with Charles Westley, because she knew he and I were good friends. She started telling Charles how much she liked me and that she wanted me back, and for him to try and help her get me back. Then the next thing I knew she was jealous because I was talking, quote unquote, with Alida Santiago - She started a whole new thing then telling Charles, Kenny Reed, and Acquanita Robinson, that she wishes me and Alida would stay out of her face because Alida lived next door to her. So when that kind of calmed down she started it up again saying she wants me back. So I wrote her a little note because all of these gossipers around here were telling my mom and a few other people that I was trying to go back with Betty Jean. So I wrote this note which said in so many words that I didn't want anymore to do with her, to leave me alone, and stop telling others about how you want me and so on. I told her that I only wanted to be left alone from her because I'm trying to be a good Socialist worker-fighter in this cause.

And so now just a few days ago she comes and tells Charles that she is no longer pregnant that the Doctor and three nurses can verify that fact. She said also that this means she is free now and she wanted Charles to help her get me back for her

EE 10 29a

When Charles told me this new "News" I decided this is the last straw. If I can't get through to her maybe you can dad. I don't want anything to do with this immature little girl any longer. I want her to leave me alone so that I can properly do my duties. If there was anyone you would be the first to know. Dad I don't want to go with anyone or marry anyone unless I'm positively sure I want them. I'm not and I'm determined not to make the same mistake as Harold.

I hope that this will be able to be dealt with tonight. Because I don't want another day to go by with her trying this shit. I don't want her and that's all there is to it and that's all I want to say to her. Maybe you can help get it through her stubborn ignorant, capitalistic, bourgeois mind.

Thank You Dad,
Your Son
Chris Cordell

P.S. I thought about what you told me to think about. I still want to do it. Even more now that worse comes to worse, and they Assassinated Chris Lewis. This makes my mind more and more determined. All I want to do is go down knowing I gave my life for a Socialistic cause. Where others might live in Peace, Freedom and Equality. Happy as one people. Thats all I want is to know that I contributed in some small way to bring this about.

NOTES OUT OF THE BOOK COINTELPRO:

Cointelpro is the code name for Counter Intelligence Program. A program run by the FBI (Federal Bureau of Investigation). It is called the FBI'S secret war on Political Freedom. As a political police for the government of the U.S. The FBI was assigned the job of determining what's for the American people to hear and what is not. Socialism in their opinion, is not fair. The ruling class of America say that socialism is a subversive idea, because it is impossible for the people as a whole to own all the resources and wealth and use them for their own welfare.

In the early 60's Socialism was winning a good portion of the ballot. But the FBI had to intervene and cause disruption, disruption, and confusion, amongst the American people to bring down the cause of Socialism. Harassment, letter threats, and at times in many cases assassinations of political leaders such as John F. Kennedy, Malcolm X, Martin Luther King, and Fred Hampton, and George and Jonathan Jackson.

As an example of some of the harassments to Black Political leaders and others. In 1964 the first Black man to run for president of the U.S. nominated by the SWP, was Clifton DeBerry. The FBI tried time after time to downgrade him in the press and it didn't work because their lies could not be proved true. Then Malcolm X publicly announced his break from the Nation of Islam, on March 12, 1964. He said that he was going to support local civil rights actions in the South and elsewhere. He also said to the people — We should peaceful, law abiding, but the time has come for the Blacks to fight back in self defense whenever and wherever he is unjustly and unlawfully attacked. Then he turned around and challenged the government and said: If the government thinks I am wrong for saying this, then let them start doing their job. The government did think he was wrong, and the FBI did a job for them. (continued on back side)

EE1C30a

A job to quiet one great Political Black Leader. In which a job they fulfilled on February 21, 1965 in Harlem, New York, 3 men gunned him down in cold blood. Malcolm X was assassinated by the FBI program.

Another job which they (the FBI) called a good show, was the murder of Fred Hampton of the BPP. A man whose name is William O'Neal was an FBI infiltrator, and was Hampton's personal body guard, and the chief of Panther security. O'Neal gave the information of the floor plan where Hampton was staying to a local agent. Roy Mitchell who in turn turned it into the State Attorney's office just before the attack on Hampton's apartment. Along with this information was a report of two illegal shotguns, most likely put there by O'Neal. The police knew just where he was (Hampton) and shot only in the corner of the room where Hampton and Clark were sleeping. This is proof of the Gestapo style Assassination which they carried out. For O'Neal's services he was paid over $10,000 from January 1962 thru July 1970.

Some other movements which have been attacked and harassed by Cointelpro are the SWP, YSA, NAACP, BPP, and the CP, and many others too countless to name. Not to mention our movement which we have proof of down through the years that they had to have connection with some of our conspiracies, too. And if we were still in the U.S. they would finally find a way to destroy us as they have many, many other great men and movements.

Thank You Dad for bringing all of our people out of this type of harassments and destruction that would have most likely happened to us also.

Thank You Dad

Your Son,

Chris CORDELL

1) I Think That us children should be trained as the Jr Sat Just like China has little red Guards. We Could carry messages and fight to defend Our LAnd.
2) Sence Guyana Want's this Part of the land I Think We Should threaten to be Venezuelans and maybe they Will do anything to keep us here and then We Could ask for a treaty saying that they Will leave us alone.

3) maybe when the enemies are having a meeting some of us could go in thier and go CRAZY on them. Get gasoline wikies and throw it in on them

4) we could have a big group of people go out during the night sometime and break up into groups of 3 and go to different enemies houses and kill them in a way that they can suffer.

5) Im not afraid of dealth, because you have brought me from the States which was dealth anyway Im willing to do ANYTHING that is needed to bring Communism: Set myself on fire, Put a bomb on me and run in to some honkeys: or even fight for our land that you have got us.

Dear,

I believe in Revolutionary Suicide. I will take care of Kayuwan and Mark and Isaac if I'm needed to and if the need arises.

I know that it is not easy to do but under those circumstances that would be arising then. Would make it easier to do and fast due to getting this job done.

I figure if any of our where here at that time the wouldn't come out until they thought it was over with.

I was thinking of cutting myself on my leg, ~~for~~ so that the blood could throw them off, Playing dead, when they enter to kill them.

My first Idea to kill them was with a gun, but they are very scarce so maybe some sort of bomb or grenade (I hear JAIR BAKER KNOWS how To MAKE them) could be use to blow them and me up. EE 1034

This ~~could~~ plan could ?

be used for those of us who are imobile at the time, but the places would have to be places example; Radio Room, Office, Community Building etc.

As for Georgetown I agree that at some point for survival some of us may have to go in an put ourselves afire.

I think it have more emphasis if there were 3 and they were integrated and ranged age wise.

I am willing to go and do this. I know ~~for~~ after you have diesel on you and it is lit you ~~would feel too much~~ It would be over soon.
