SUBJECT: Suicide of Protest

1. This is perhaps unrealistic romanticism. However a possible drastic (in effect only) move to draw attention to our position regarding political sanctuary would be for one person (me) to jump off of a high building in a public place in Georgetown; leaving a suicide note stating it was a "suicide of protest" for a political conspiracy by the C.I.A., U.S. Treasury, etc., and framed harassments including child abduction charges, etc. and finally calling for understanding and sanctions from the conspiracy.

2. This may get us the opposite result, I realize, and would only see it's effectiveness as a possibility as a final act before another final act if it didn't get any results.

3. I readily volunteer for the suicide protest. My familiarity with the Guyanese people would give more exposure to us. It would also release me from the hell of living if it be approved.

4. Don't worry, I would not take such a matter into my own hands. I am not contemplating suicide; only wishing I was dead. It makes me creative, if not realistic.

SUBJ: SELF EVALUATION

If something were to happen to you, I know that I would act emotionally at first and try to locate who did it and try to get revenge by tortuching them. But after careful thought I know that the protection of the collective is the thing that must be taken care of. I would want to declare martial law and set up tight internal and external security. I would find out how we stand in the food, medical, and fuel situation. The people that know about ~~know~~ ~~of~~ the connections we have in the government should use them for our protection. If necessary we should prepare to board our boat and leave to go to the Soviet Union or Cuba, or move ~~off~~ our whole population into the jungle for defense. Whatever moves we make we have got to show solidarity and stay in the struggle for Socialist change.

In my sexual life I have many homosexual desires. I have strong feelings for Rickey Johnson, Greg Watkins, Chuck Kirkendall and Albert Touchette. I have not had a homosexual relationship since being a child and my feelings aren't strong enough at this time to get into one. I still have a lot of desire to go with several women at once. I have feelings for my companion Dorothy Sanders, for Margarita Romano, Jackie Rochelle (her work production

turns me off), and Paulette Jackson. I would desire a relationship with any of these. I also have sexual feelings for some of the young teenagers, Anita March, Yvette Muldrow, Lisa Wright and one other adult, Dorothy Rollins. I have a hangup about being possessed by someone or belonging to them. I am still insecure about women's feelings toward me and I have hurt many because of it. I am trying to deal with my present situation about who I want for a companion and I believe that I will stick with my companion Dorothy Sanders. The only sexual life I have had in the past five months is to jack-off. This creates no problems and keeps me out of trouble. Even though I have an extra big ego I still don't want to hurt anybody so this is going to create another problem with Margarita. I would rather end up hurt than to hurt Margarita or Dorothy though it will be hard to prevent. I have kissed Margarita a lot more than I have kissed Dorothy since I've been here and almost all of my feelings toward Margarita are sexual even though we can communicate on a heavy level. There is very little communication between Dorothy and me but because she leaves me alone is why I care for her. I would feel a lot of guilt about leaving her after all the mess I put her through for years.

My feeling about death is that I would rather be dead than go through life. Death is easy but living and working until death is hell. I would like to see

12-5

you dead also than to suffer all this hell of living for us. I know that dying for a cause is honorable and it means that it is not necessary to repeat this life cycle.

My fears are few. I have a fear of the feeling of fear I also fear getting into any trouble or getting written up for something really bad. On my job I fear climbing tall poles

I really like guns and they represent a penis symbol for me. I really get a feeling of power when I have one. I also have a lot of respect for guns. I like to keep them clean and operating properly and try to follow the safety rules that govern them. If I accidently shot someone I couldn't get over the guilt and pain especially if it was one of our socialist family members. I would really like to go out with Steven and target practice or hunt but I try not to let it show.

The things I miss about the States is my privacy, getting high by smoking marijuana, going to the beach, and buying new things. I also miss my daughter and son Angela & Marshall Sanders. I miss a lot of the modern conveniences like washing machines and I miss cooking for myself.

If it became my duty to kill anyone for the cause to continue I would not hesitate to do so. Before I came into the cause I was going to be a small time hit-man and I ~~don't~~ know that I could kill ~~anyone~~ anyone

5-22

even my wife or child if it becomes necessary. Death also ends suffering and if a loved one or anyone else were suffering unbearable I could also do mercy killing knowing that they would be better off. Also if I had to kill someone to keep them from talking too much or being tortured, I would rather kill them. Revolution is tough and to defeat capitalism I would do anything.

Socialism is my life and is what I want to die for. It means equal opportunity of education for all, the best of medical care from people that care and it is all free. It means receiving the full benefits of our labor and total cooperation with labor and supervision. Socialism means that nobody goes hungry or without equal clothing. Socialism is the only way for the world to survive and without it we are just animals. I will die for it because it is the only thing worth living for.

On the subject of things I miss from the States, my privacy is very selfish because our children need all the time we can spend with them. The drugs are put on the young people to keep them from rebelling from the capitalist rule. Burying new things when Blacks and Brown children are starving is insensitive and counter-revolutionary.

The main danger to us in the States are the traitors, the news media, and the F.B.I. The traitors

5-2-5

Can be taken care of by assasination on the streets. A .32 calibre weapon with silencer hidden under a coat could do it. Also a silenced weapon made to fire from a brief case could knock one out in the middle of a crowd. Explosives wired into the electrical system of their car is a fast and easy method. If their meeting place could be found I could conceal a small but powerful explosive to myself and take out as many as I can along with myself.

Some of the news of last week was that the Soviet Union warned the US again about the neutron bomb and the Soviets anounced they have a super weapon to counteract any missels coming their way. The Soviet also announced that they may have to manufacture a neutron bomb. Mexico is protesting against the U.S. using the KKK as border patrol. The Black liberation fighters in Zimbawe have closed off all main arteries of supplies to the major cities and are winning even though they have to fight against Ian Smith's air force.

Dear Dad,

I, Pauline Simon, would like to thank you for the awareness and sensitivity that you are developing in us from your constant talks you give us. I also that you for taking away the ignorance that had left us blind for so many years, and without courage. I am very glad that you are motivating us to be prepared for anything and everything to bring about a badly needed social change.

This has give me purpose to my life and courage. I am willing to live or die, which ever is deemed necessary to get the oppressed free so we will or at least our children, will be able to live in a world of justice and equality for all.

I will go where ever communism sends me and do what ever is required of me for the wiping out of facism which has tortured and killed so many people. I dedicate my life to this worthy cause and nothing matters to me now but the victory of communism all over this earth.

Again I thank you for showing us the way and giving our lives purpose. I'm willing to take liberty or death. I will fight until either is attained.

Sexual attractions: my capacity to sublimate is proven to me in that I could go for over 4 years without sex because of my sexual attraction to you and the cause. I am attracted to you stronger than to anyone even though you are older you still look good. I am more attracted to your capacity to love & the phenomenal amount of love you have given me. I am sexual attracted to medicine & there is a lot of sublimation in it especially dealing with women. I am superficially attracted to many black women in the church Shirley Mitchell, Shirley Robinson, they are just examples. I am sexually attracted to many black men who I have seen as patients. I could list many here. I can feel an attraction toward older men like Claude Goodspeed because of his positive attitude. I was sexually attracted to the men who kissed Jair Baker in the People's Rally. I feel attracted to Mike Proker, Lee Ingram, Johnny Jones but it is more comradery than just the way they took, though they do look good. I am attracted to Sharon Amos, she is my sister-mother, am attracted to Carolyn Layton though I feel far away from her. I was very moved by the socialist team work when we delivered the baby & feel attracted to the medical staff. Individuals who are more sexually attractive to me are Judy Jtames, Anita K., Tim Carter, I am sexually attracted to Becky Flowers & it was distracting when I worked closely with her some weeks ago. But I realized that I would never give up my deep attraction for you, my work as a doctor & the cause for any relationship based on the appearance of a person. I felt deep emotions (shame?) when I went to Emmett JR's & Gloria's room & saw their high school diplomas displayed, & how much that meant to them & how glad I feel that I can give to the people who have been deprived the benefit of the education you gave me. I have thought a lot that I was destined to go the way of other "professionals", Tim Stoer, Chaiken, Mike Cartwell (he is not as good an example of the syndrome as the first two) but I realized that I went to medical school because you sent me & were with me by letters, phone calls & the inspiration of your love for me & the multiple times you got me into schools & out of schools. I was not educated in a purely capitalistic frame of reference at all & I am not destined to follow any ones pattern except yours. I have to work on rooting out the elitest part of my self that identifies with professionals like Stone & Chaikan. I realize that this part of me is not trustworthy. I realize that there is a lot of sublimation in being a doctor, I get a pleasure from understanding the body & the mechanisms. Through your example I have learning that people like Lynetta can't starve to death 25-1-5-33

even though their Sodium Renal is Right. I am glad that a drug combination we worked out has given Emmett Sr. much relief from pain & has permitted us to stretch out our narcotics. I do get sexual feelings from working with people but I get a higher degree of gratification from accurately diagnosing & treating their problem. I could never do anything for a woman with my body or personality but I am quite able to accurately diagnose and treat many gynecological problems and that is a productive way of sublimating sexual feelings for woman. I am not often attracted to a woman's genitals & do not recall normal characteristics, the odors, discharge & the care I must exercise to be thorough & not cause discomfort make it a lot less pleasant than examining the eyes. Examining eyes (except for the diseased or operated-on eyes of the elderly) is pleasant. Even though during my day I may examine a woman who is sexually attractive to me & will most often fantasize about fucking - or Rather being fucked by Sharon A. (wishing she or whatever woman I fantasize about had a dick I could suck or have in my ass), or a woman with strength & concern for me. I am still not fully aware of myself but a lot closer than before & really regret the need to take your time reading this, I want political awareness.

Cases I'm concerned about -

① Billy Jones - Right index finger, may not regain ability to bend the finger. Most of the fault lies with me partly due to lack of knowledge & I have taken too long to consult with you about it. HAS NOT been managed well although the original treatment was good, 11/8/77 I am considering sending him to Georgetown to see what can be done to restore more function to the index finger.

I was angry at Sharon Cobb & Don fields for putting our supplie of Polio Vaccine in the Kitchen serving area freezer, accessible to who ever came by & might knock it down & break it. I voiced my disapproval & it was locked up in the kitchen freezer. Last night found they (Don fields & nurses not sure which ones) had put our Blood typing serum in the freezer again could have been broken easily. I moved it But the point is that so much of our money & future health was jepardized by this carelessness. I Request that the Refrigerator in the nurses office be put in the Doctors office so that I can watch carefully the materials that need to be Refrigerated. There is much expensive microbiology equipment in the freezer in the serving area now & needs to be under lock control. I agree with their point that Freezing preserves it longer but not if it is open to being taken or broken by anyone who comes heedlessly by.

Dear Council: This afternoon I found Tom Grubbs fly swatter on the back porch of A-1. I took it to him on the way to a medical meeting, to the book depository. As I approached him, he waved his arms and smiled. I didn't understand at first what he meant. Then he said for me to keep it, that he didn't want it. I told him that I didn't want it either (and I wasn't sure if he was serious or not.) I held it out to him again, and he said he didn't want it. I told him that I thought he should take it since I had brought it to him. With this I started to lay it down on the steps of the book depository. He then grabbed it and started yelling at me and said he'd show me what to do with it and in a big loud mouthed tantrum he broke the fly swatter over his knee saying, You are very hard to convince." He then went stomping in a dramatic display to the garbage can where he threw it in and slammed the lid down. This fly swatter was a hand made one, really nice. I feel especially upset because I have a problem communicating with Tom anyway and was trying to be nice to him. He is ruthless at times with his explosions and I think he needs to get himself under control. When I talked to

B-1-5-36

Joyce Touchette about it, she said she had heard about it from three other people... [redacted] she said they said I "Wouldn't leave him alone". I wanted to tell her my side of it and she said she didn't want to hear it. I told her that Dale Parks said it was going to be dealt with in the mens meeting and she said it shouldn't be dealt with there because he can't tell his side of it. I feel very upset and degraded by him and he thinks he has the authority to talk to me in a [redacted] demeaning manner whenever he wants to. I wasn't being rude or unkind to Tom and I don't understand why he didn't want his fly swatter. I especially don't understand why he broke it and threw it in the garbage can. [redacted]

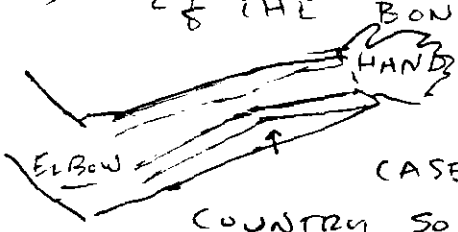
I swore not to put down other Doctors (the Hippocratic oath) which I have broken, so far. I won't do it except to you in the future. I won't say anymore because Joyce P. talked to people in medical staff about Lisa W's scan & it will get to her.

Martin Amos has a kink in his right ureter at the level of 4th lumbar vertebra there is none but the most minimal if any, evidence of back pressure on the kidney. Urine ~~[illegible]~~ fills as fully above as below the kink but the amount of obstruction is hard to know.

Tommy Beikman has an angular deformity of the bones of his forearm.



May need to be reset & plated. If this is the case I recommend another country so it doesn't have to be done again later.

Helen Swinney - Hope it heals but may not. In 6 weeks should know. If doesn't then operation would be indicated. Again I suggest another country. Needs grafting at that point. Conceivably

Also the baby that died did so ~~most likely~~ because of an electrolyte or acid-base disturbance. We must be able to measure these if we are to save lives scientifically. An electrolyte disturbance can be easily fatal. Could have been important in that case.

Eleanor Beam should be seen by GYN (Skinner) & would like opinion about abnormal cervix.

Marion Campbell - has pelvic mass, will follow up. L.L.

Medical Report

To Mr. Ogbie

Oad: [redacted]

Self evaluation: From Sylvia Grubbs Smith
I do not work as hard as I could. I am a very paranoid personality with a martyr complex. For example when I do work hard I feel sorry for myself and tend to complain on how hard I worked. I consistantly feel that I have to prove my dedication to this work in so doing always feel inferior to anyone that works harder or recieves more recognition than myself.

I dont feel secure in my work on the medical team and wont either because in medicine one is always learning and just as sure as one becomes satisfied mistakes happen. The field of medicine requires perfection from everyone on the team and I am far from that.

Regarding my sexual fantasies: At 39 years old I dont cantiously have them as I use to. They still exist regarding Tim however we are not indulging because he wants his cake and eat it too as he stated in his own words: I said No we go to the commitee as everyone else or Nothing at all. Its nothing at all!!! We had a talk before he left out this

EE-1-5-40

trip [redacted] I told him how I feel used and after 4 years of standing by his ass deserved more honesty. He left pissed. But rules are rules and besides if I let him use me I'm not worth shit!!! I have found after arriving here that those things that seemed so important in the past no longer exist here! or seem important.

In regards to my sexual fantasies to you they were on a continuous level long ago but over the years I have learned to fear and respect you. I look at you as more than a physical human being, because no plain human could endure the pains and grief you have had to go through and be the years! and still get people here and maintain our base in the states. This home is more than I can comprehend even now that I am here for myself. There are things that I am hostile at a rule or something you've said but its always because what you are saying is hitting me where its suppose to.

I still feel alot of guilt for becoming so ill in the states. I'm

Dad:

In Reference to our New years people Rally and you asking us who stood up with having had sex without going to the committee: it was with Tim - we havn't had it since the boat in Georgetown but that wasn't cleared. We havn't done it since.

After he had fucked he said he didn't wish to have a relationship. I told him off for not having enough respect to talk first. He agreed was in defensive. Said he didn't want to go before the committee.

He continued to play games I was warned that if we didn't go before the Committee we would go to the Learning Crew. I told him - he said shit - as long as I'm not fucking you its okay. I said no no that's not so!!! He said I was trying to manipulate him so I said see you! We are no exception to the Rule - if he wish to play then he's going to accept the Responsibility or nothing at all.

He's changed - quiet - depressed and snappy on the boat. Yuyana said if he's not better this trip he's going to write up Tim's depression or whatever it is. He

can't learn to do the boat unless he tell's
Yuyana what to do. When I told him
Xmas day I heard he was leaving he
said it make me sick to my stomach to
know I have to take that damne boat
out again.

I've seen him take other privileges
like going to the kitchen and getting
coffee and sandwiches. It just seems
he's having trouble getting used to having
everyone here. He said when I first arrived
be patient with me I have been a
hermit for 3 years and don't know how
to cope. I'm not pushing him now have I.
If he wishes not to follow Rules that's his
problem I had my say.

[illegible]

[illegible]

grateful that I'm walking and doing as well as I am but can understand your grief in me to let myself get to the point of not being able to cope because it makes a potentially dangerous member when one can't cope. I'm sorry for that and that part of my reason for pushing now quit.

I have never been happier than I am now. This country is more than I ever expected. the beauty is breath-taking. I was so unhappy in Capitalism and wanted to fight or die rather [redacted] after [redacted] in my sons having gone through the crisis they learned to live completely without me. I felt good because a mom always likes to know that her children can live without depending upon her. Mim can here. Kevan is such a fine young man and if you hadn't taken him under your wing and sent him here we might not have him. I can NEVER Thank you enough bad for what

SA-5

you have done for him and all of us were happy living here working here and dying here if we have to- its nice to have my self intact and a true reason for dying!!!

I have felt Resentment for Larry School because he has been so sinicle - and uncaring but since you talked to him he has turned completely around I do agree with his methods now, and that is that everything is brought to him. For example I have talked behind his back to the other Nurses stating that they and all of us better not do anything without his knowledge or we will be written up [redacted]

I told him that we were not going to be pressured by anyone again about anything because they think they have such and such or so and so (They try to manipulate) I will keep my mouth shut from now on and say everything in our Peer meetings that is what we have them for to bring each other in shape.

Thanks Dad For Everything

b7C My Hostilities and My sexual feelings for you..plus the people I have had sexual feelings for: By [redacted]

Dear Dad: I have great fear and hostility towards you. One of the reasons that I was able to quit drinking was because of my fear of you. I could picture myself in a bar and your calling me there and telling me to get home! On the day that I started working on the Learning Crew I said in my mind, "I hate you, I hate you!" This is the first time that I have ever expressed this feeling conciously. But then when this feeling passed, I thought of how ridiculous of me to feel this way, when you are the only person on the earth who gets onto people to make them be good and I could see the beauty in this, and I kept my mind on all these things the rest of the day. I thought mostly on the people in Angola that had to run after the garbage trucks...this was so terrible to me...and this helped me get through the day. I thought also on the people imprisoned and I was glad for this opportunity to know somewhat how they feel to lose their rights. This Learning Experience helped me with my feelings Dad. I do hate the discipline, Dad, and I always have but I understand the great need for it.

I know that I couldn't have made it without the discipline...without the structure that you provided for me and I know that I willingly submitted myself to the discipline and I think that the people who submit to the Experience get through it better and quicker. It is so humbling and it is so frightening to see what a terrible condition physically so many of us are in.

It is hard for me to face my sexual feelings for you, Dad...you have been through so much pain. Sometimes I fantasize you making love to Marceline and I wonder also who all you have had sex with and I try to relate to this. The way that I think about it is your willingness to have sex to a person to make them feel worthwhile and to turn them around for Socialism. I can see the beauty in this. And it makes me cry to think of your having to have sex with Tim Stoen or others like him, to appease them or whatever. I think about Marcelines pain and her loneliness and I do get upset when she is here and she lives in one place and you another. I don't understand this. Also, Dad, and I hate to admit these things that go through my mind, because I try to not question you...I have wondered if you and Maria were companions. And in this I saw something sweet and loving if it were so...that she has felt so bad about herself. I then corrected myself on this and felt guilty for this thought. Then when you mentioned that we should have Communal sex, I couldn't relate to this...and I wondered if you had communal sex with Maria, Carolyn and whoever. I tried to understand this in my mind. But upon thinking this over, I was pissed at myself and thought of their hard work and I really don't believe that their minds are on sex or that they would put you through all that kind of shit, though I do believe that Carolyn did at one time. I only know that she is a hardworker and a grand socialist. Sometimes I wonder what your penus looks like. I try to imagine if it's as big as you say it is and I have often thought about how uncomfortable this must be and I wondered how Marcie could stand having sex with someone with such a huge penus. Then I think this throggh and I decide that I don't believe you at all. I think that you are really just a nice, normal man, who is trying to cut down these guys who are so hung up on their Dicks. But when one considers Communal sex, Dad, I can relate to it when I consider the lonely people that have no one and need personal attention. The problem is, Dad, that I don't know how to care that much for others yet. I have been hurt so by sex and men, that it's hard for me to relate to just anyone. I wish that I could, so that I could help comfort the people. It's hard to learn to care about others, Dad. Like today, when you read about Linda Arteberries life, I stood at the window and I cried. I understaod what it was like to have children taken away and to have to do a lot of things to survive and I understood her happiness here...yesterday, I judged her because I was

pissed because she doesn't pay more attention to her children..however, I didn't understand yesterday, but you provided me with this understanding today...and I could see the beauty in her and the pain (somewhat)that she has suffered. I understand what its like to be tired and to need help with children....for when I came to you, I was so tired and you took me in, Dad and you provided care for my poor neglected children. My debt is so great to you. And I thought that maybe I could help Linda raise her children, as others helped me...only because of you, Dad. And I thought of all the children that you have provided me, Dad, and the ability to help them, Dad, heals so much pain inside of me. The pain was so great that at times I thought that I would die. All of my life, I adored children and it was my dream as a child to grow up and have lots of children someday. Well, Dad, I sure have them now, of all ages. Sometimes its a really hard job and I don't ~~thik~~ think that I can make it...and sometimes I lose track of what I'm doing... but when I see the people graduate, it is so worthwhile. I am so afraid that I ~~say or do the wrong thing, Dad~~ will say or do the wrong thing, Dad...

Yes, Dad, I do have sexual feelings for you. But they are combined with ~~this~~ having you put your arms around me and holding me. When I fantasize about having sex with you, I shudder, because it is horrible to me, to expect anything of you in this way because you have been through so much. I always think about the problems that you have had with your bladder and kidneys and I ~~thikx~~ think about your going to the Urologist and having that tube put up your penus without anything for pain. And I can picture in my mind your having to have sex with Tim Stoen and your vomiting on his back. I hate him for this. He ~~always~~ always came off so dammed good, the fucker. I was hostile about getting put on the Learning Crew because I didn't think that I deserved it, but I was glad to get off the floor and to sit down and just rest ~~and~~ as I was really tired. It wasn't clear in my mind as to what the hell I had done...but then I never think I deserve what I am getting and like to defend myself all the way. I did deserve getting on the crew for numerous reasons continually committed. Selfishness, greed, manipulations, bad mouthing, and all kinds of shit too many to name. Jealousy, nosiness, over eating, stealing, lying, phoniness, being a snob, buttering up people.

People that I have and have had sexual feelings for: Terry Carter, Dough the electrician, Andy Silver, Jim Jones, Johnny Cobb Jones, Marthia Hicks, Russell ~~Ma~~ Moton, Johnny Jones, Jack Barron (years ago)but I still think about how kind Jack can be, Jim McIlvane, Al Simon, Tom Kice, Nat Swinney, and I can't think of anymore.

Thank you, Dad,

Cyanide is one of the most rapidly acting poisons. I had some misgivings about its effectiveness but from further research I have gained more confidence in it, at least theoretically. I would like to give about two grams to a large pig to see how effective our batch is to be sure we don't get stuck with a disaster like would occurr if we used thousands of pills to sedate the people and then the cyanide was not good enough to do the job. I also want to order antedotes just in case we may need to reverse the poisoning process on people. Eli Lilly Co. puts out a kit or we could buy the chemicals

1) Sodium nitrite
2) sodium thiosulfate both for Intravenous administration.

We should get enough for about two hundred people.

Cyanide may take up to three hours to kill but usually is is within minutes. If it had to be reversed it could be without significant damage to the central nervous system. Symptoms of cyanide poisoning are Increase of respiratory rate at first and then depression, blue color, Headache, loss of consciousness, asphyxia and seizures which precede death (often).

An article I want from S.F. Naughton M. Acute cyanide poisoning. Ansesth Intensive care 2:551, 1974. We could say that a child was brought in to our free medical clinic who had ingested rat poison containing cyanide and we want this article on the subject.

Sorry I said " I would like to kill Debbie Blakey" In front of Jeff C. He was not asking or prying, I was thinking out loud and forgot that you had not informed the collective.. I will be damn careful in the future.

I think all workers in Georgetown should be required to have a good political understanding and be sensitive to the world struggle. Obviously some have talents which make them valuble in the city but with out the political enlightment they are dangerous. Information could be taken to them or they could be required to hand in five pages each two weeks about a book they are reading on communism, or the black liberation effort and you could get a good idea about where their committment to the theoretical (and apparently essential) aspects of our movement.

Is and just how they relate to the cause. The more I hear and learn about the real events in the world the less I tend to be Illusionary about life. Thank you for pointing out that I am holding on to life too much.

I think we should kill debbie B. even though this is not pragmatic and in fact could drive suicidal people into traitorous acts just to elicit a vengeful murderous act from the group. Leaving People's Temple is a form of suicide. It is suicide.

I was grateful that I was included in the plan the other night as I was able to help out with Lillies water retention and urological disorder. I would not have minded taking the full responsibility for that therapeutic recommendation and that is one disease I feel morally responsible to cure.

I have some radio consultations I would like to get taken care of soon. I have requested to do so but apparently there has been not opportunity.

Dad, There is a good chance I can develope germicidal means, botulism + staphylococci in process now. But with time pressing in my confidence level is low; my expertise is lacking in this area.
I am quite capable of organising the suicide aspect + will follow through + try to convey concern + warmth throughout the ordeal. Have told the rest of the team this + Joyce P. + myself will commit suicide last after graduating our adult comrades on the team. If possible I will seek to fight.

I think Gene Chaiken is bright but he is a provocateur - how he suggested we have shot guns at the gates. + Lee Ingram backed this up. I really am not legally oriented + have difficulty with strategy, I will kick in more information as time permits.
We do need to obtain - cyanide tablets (potassium or sodium cyanide)
jars for canning vegetables so botulism can be produced. Joyce T. says we have none.

We can also ask for mace from the States. Tear gas commissions + gas masks - army supplies store free to anyone. The tear gas + mace comes in cartridges + with a gun.
We will need empty gelatin capsules #3 at least 1000 of them.
If immediate action required we could use chloral hydrate + alcohol to sedate key soldiers between us and the weapons.
My thought is that we align ourselves

EE-1-5-57

with the PPP & their Pro-Soviet

The concept that protein is useful to you comes from the fact that glucose is produced from protein (called Gluconeogenesis) AND I THINK THAT when you eat Carbohydrate (CH_2O abbreviated) INSULIN is called forth in an uncontrollable manner + causes wide swings in Blood Sugar. Low Blood Sugar calls forth epinephrine (adrenaline) + this CAUSES nervousness, sweating, rapid heart rate. IT May be that too much Sugar is eaten to try to get out of hypoglycemic Reaction + this causes Release of greater amount of INSULIN + causes further hypoglycemia. Gluconeogenesis (Protein + fat to glucose) provides a "back-door" gradual way of providing glucose, the only fuel Substance the Nervous system can use, and prevents the wide erratic swings.

I will need accurate information.

Daily food intake time quantity quality (protein fat carbohydrate)

SC-1-S-59

& medical records of Glucose tolerance test and we can do our own here. I can tell much more by the test results

IN morning fast —
Blood sugar tested -
TAKE 100 gm Carbohydrate (GLUCOSE)
Blood Sugar tested at 30, 60, 90, 120 + 180 minutes. 240 minutes, 300 min 360 minutes. 420 minutes

TO START we can check single Blood Sugar 2 hours after eating meal. Then follow the above TEST.

Dear Father,

A couple of weeks ago, Rheanna Beam told me that she talks to Jack on the radio "Every week".

Today she came to Dorm #1 with a large hand washing. First of all I smelled bleach + I wondered how in the hell she managed to get some for herself. Then I smelled something else with a sweet flagrence. I didnt want to get into a Rheanna Beam - mouth fight, so I said something about smelling something good - Rheanna said it was disinfectant + that

she was "having a problem". I asked her if she was having a reaction to the soap - and she said no - that she had had dysenteria + doesn't think its good to wash different peoples clothes together. She said "I've lived alone too long". I told her that I thought she'd always lived with people. She said - that she had always done for herself.

I'd like to know who in the hell she thinks she is + where she got the damned disinfectant!

This is a bad night for me. Looked foolish to the Dr. on the Radio. I really made an assumption & I was incorrect. I am very discouraged about myself But will keep on Going. Analytically I accomplished nothing today about the charts but I Think Phyllis gets the message that greater organization is needed.
27/1/78

I am in a bad position because I have been so narcissistic & elitest that I have permitted myself the privilege of making ASSumptions. I assumed that glaucoma was a logical result from chemical injury - In any case I explained the problems brother Mercer has in this way. I have really fucked up in a Serious way & am really disappointed in myself. It doesn't fit together but I have really taken unfair advantage & am not even functioning well. I feel guilty about Scores of people here undiagnosed & untreated because of my lack of experience knowlege & time. There are a few people I've helped in a most definite way. My selfishness is awful. Actually The mental process I'm using is "I'm no good so I will have to be Replaced by a Competent Doctor, etc" But I have really not seen people who do have the degree of Committment I do have & who would come & Serve here. I'll do more Research.

I am very sorry about my indulgence & I will be trustworthy from today forewards. It's not me to go that way. I went 4 years alone & kept myself together. The point is that I have need to get on the Radio more & realize how arrogant I am & correct this but I felt Bad that I did not look

good for the organization. I did learn something & I should prepare my questions in advance & be humble about it & could be a useful tool for me to do better work here.

to: Jim fr: Jann G. JOHNNY SPAIN

I want to apologize to you. I never knew until last night that you had offered Johnny a place here through Charles Garry. I didn't know that you had done that and I am very very appreciative.

I feel some personal guilt that he did not accept. If I had told him about you when I visited and wrote him, maybe he would've said yes when you made your offer. But I didn't mention u because everything we ever said or wrote (except notes Charles passed between us during court) was monitored by the pigs. I wanted very much to tell him about you but I hesitated and now I regret it.

Yesterday, before you read the news, I had been thinking about Johnny, wondering if there were any way he could get here. I felt strongly that there is no one I ever knew that deserved to be with you more than Johnny. I do not understand fate. I do not understand how it is that I, priviledged all my life and white, should be able to know you and live here a free person while Johnny is tortured psychologically, emotionally, and sometimes physically in prison. It is 11 yrs now that he has been there.

I have nothing but admiration for him. I am only surprised that he was able to endure 29 long yrs of one tragedy after another. Born a Black child to a white mother (he never knew his dad), he watched as his white racist step-father tried to beat him up when he was barely able to walk. From birth, he witnessed his mother taking the beatings meant for Johnny--his step-dad wanted to beat him because he was Black. When his mother took him to town w/ his other brothers and sisters the people of Mississippi in 1949 pointed at Johnny and called him "a freak". When it was time to go to school, the KKK called his mother and let her know that 'that nigger ain't going to school here'. So when he was 6 yrs old, his mother bid him good-bye for a lifetime. She put him on a train for L.A. where some Black relatives of his dad would take care of him. As Johnny relates it, he will never never forget what it was like to hold tightly to his mother as she had to tell her baby that he was only going for a short while and he would be back. Johnny knew then that he was being sent from his mother who was the only human being in the world that loved him. He had more pain in his first 6 yrs of life than anyone should ever have to experience for a lifetime.

At 17, he was convicted of killing a white cop (~~in a Black ghetto~~). In August, 1976, he was convicted (actually he was convicted of being George Jackson's best friend) of 2 counts of Murder/ I and conspiracy/ trying to escape from San Quentin. When the Cal Dept of Corrections

EE - 1 - 5 - 67

Corrections, the LAPD, the CIA, and the FBI set up George and got a total of 6 people killed on August 21, 1971, they had to pin it on someone. Johnny got the brunt of it.

He spent about 7 yrs in the Adjustment Center in San Quentin where he was isolated form other prisoners and had to be chained and escorted everytime he went to take a shower. He saw the light of day in the court yard for ½ hr daily and that was by court order. (It was in Johnny's name and other of the San Quentin 6 brothers that a federal court finally ordered that neck chains could no longer be used. That was in 1974.) In order to get any work done in his cell, he had to wait 'til 1.00 am when the screaming of other prisoners died down. This was every day. During the rest of the time, he had to keep the water in the small wash basin in his cell running constantly to drown out the pitiable sounds of men suffering in prison. He stuffed cotton in his ears too. I remember because once when I visited him, he had forgotten to take the cotton out and he removed it in front of me.

* * *

Last week I read excerpts from The Question by Henri Alleg which details the day to day torture he received at the hands of the Algerian govt during the time of the revolution. As I read, I thought I must read this and come to know what it is like so that when I am tortured I will know what to expect and I will have fixed strongly in my mind how other revolutionaries held out without ever giving in.

Today I have the example of Johnny Spain. It is harder I think to be tortured for 11 yrs than to take the electro shock and immersion for several months. Could I have held out like Johnny when all he'd have had to do was to give state's evidence on 1 revolutionary brother? Johnny could have come out if he sold out brothers like many would have in his case. All I have for him is admiration.

What happened to Johnny affects me very intensely. Now, I do not want to smile. I don't even want to talk. I just want to think about it. I know I cannot continue to be like this. The challenge and the difficulty is to translate grief into a plan of action. Take your pain and make it into revolutionary committment. It is not something you can talk about, you can only do it.

******

There is 1 thing I want if it is possible. Can I write to him? If it would cause trouble for us or for him, I do not even want that.

Again, Dad, thank you from the depths of my heart for trying to free him.

I HAVE A LOT OF GUILT FEELINGS BECAUSE OF SOME OF THE THINGS I DID IN SAN FRANCISCO. THE MAIN THING IS THAT I WAS LIVING IN AN APOSTOLIC HOME AND I HELD BACK SEVERAL CHECKS FOR MY OWN SELFISH REASONS. I WAS ON A SUPER ELITEIST TRIP AND ALWAYS WANTED MORE AND BETTER MATERIALISTIC THINGS THAN EVERYONE ELSE. I DIDN'T EVEN THINK THAT AT THAT TIME I WAS ROBBING FOOD AND HOUSING FROM OUR PRECIOUS BABIES. IT ALSO SHOWS THAT I WAS NOT SENSITIVE TO THE SUFFERING OF OUR THIRD WORLD COMRADES THROUGHOUT THE WORLD. I DESERVE NO MORE THAN WHAT THEY HAVE AND I REQUEST TO GO TO THE TEACHING CREW FOR MY ACTIONS. I ALSO SHOULD WORK EXTRA HOURS TO MAKE UP FOR THE MONEY THAT I SELFISHLY HELD BACK.

DAD, I AM TRYING TO BECOME A SOCIALIST AND NOW THAT I CAN START TO GET THESE CAPITALIST WAYS OUT OF MY MIND I KNOW THAT I CAN MAKE IT. IT IS A ROUGH ~~[illegible]~~ ROAD TO SOCIALISM BUT ALL THE WAY UP THE ROAD I WANT TO THANK YOU FOR GIVING ME THE CHANCE TO TRAVEL THIS JOURNEY.

Dear Jim,

Sorry I didn't write sooner. I am now writing what I've stolen. I shall begin with Jonestown then Georgetown. I took a pen from the depository book room because I didn't have any pens - once I had one I lend it out never got it back. plus a marker I took from court 3 where I used to live at because I didn't have a marker. Before we had security at the banana house me and Bob took a couple of bananas. Sometimes nights I get bread ends from the kitchen because I was hungry - ~~sometimes the~~ ~~was there~~ Also I took a top at cottage 15 (where I used to live) ~~Joan~~ because I liked the style. Joan and Liane ~~were the~~ saw me took it - I told wanted it. I must confess what I took in Georgetown too. I took some ~~oranges~~, mangos & ~~of~~ 5 fingers ~~one~~ on the window where Helen put them. The coconuts were taken from the back yard and the garage and the oranges from the porch I did~~th~~ this with people ~~at time~~ at times and alone. I ~~di~~ stole ~~bec~~ out of hunger. Oh, I haven't been getting any more bread ends.

After being confronted on the floor I looked at myself I realized I am

manupulative - I've been ever since
I will a child. At the I'm being
manupulative it is subconcious - only
after I know. I ~~will stop~~ was manupulative
I will stop. Thankyou for giving me
a chance to correct myself and for
all you've done. I am feeling better
I stop thinking about myself. I also
understand that attuide has an affect
on health. The ~~#~~ 31¢ I found while
cleaning my room.

Thankyou ~~Dat~~ Jim,

tonite. I feel very sick about how I voted
Was a subconscious hostile act. No one is
more merciful than you are, I know. I thought
today about your sermon & it fit me well.
I am a terrible human being & I did vote
for leniency because I want to cover my own
ass But I do not care about anyone except
myself. I am a evil bastard & that action
tonight was an end product of a very negative
train of thought that I indulged in today.
Thought about how many times I've felt
alienated. And it was only because I was so
grossly unappreciative of you, and so demanding.
It is true that there was an element of antici-
pation that you would give Jair another chance
because he came to the meeting late before
the statement about one more was made But
NO way could I convince myself it was not an act
of hosticity & was treasonous. I DO NOT TRUST
myself, I've seen to many "white" Jews,
educated Scum, hauty, narcissitic, weak BASTARDS
NOT TO fear that very same pattern in myself. The
only way I can avoid it is to CHANGE.
I want to take back what I said above —
I do care about People, I Do care about the Cause
No way like you do But I Refuse to be a
fascist! I should Really Be disciplined, PAY FOR
my crime. That is Probably why I voted so because
I AM AN enemy (at times) of The collective Good. I
am delinquent AS A Thief or when I am unkind
to the people. I AM elitest & deserve hell Ca-

attitude. I felt hostile because I could tell that others knew I had taken drugs & after all I'm the criminal not you, I'm the selfish bastard not you. You were merciful not to tell the entire collective & you told me NOT TO do that. I felt enough guilt that I would have done just that, I think.

I should be on the learning crew indefinitely. I should not think I'm indispensible. It really shows how weak my committment is that I get hostile if my "trustworthiness" is questioned & how fucking ridiculously untrustworthy I really AM.

Self degradation is also not productive, I'll be more conscious of your position & know full well that you are what you say you are. The MOST JUST Person alive.

I'm not sure what you meant when you told me I would get used to it? If you meant the pace of committment to a Revolution I hope I do get used to it. The best I see tonight is tremendous, especially mine. Especially after all the time, love, backing & consideration you have given me.

What I stole in Jonstown

I took 4 bananas one night about 3 months ago. Also I had some special privileges for instance extra egg sandwiches & extra coffee while on security. I felt guilty about this and also guilty about not working more during the day. That is why I went off of night security. I know this still goes on with security. I don't know how the others can stand the guilt of these privileges and also not working more.

This is elation and I am trying to overcome but it is very hard. But living to principle (Jim Jones is principle) will help me overcome this my fault.

(1)

DEAR DAD,

I'LL TRY TO ANSWER THE QUESTIONS GIVEN, BUT I CAN ONLY TRUST THAT MY ANSWERS ARE WHAT I WOULD DO. I HAVE ALWAYS TAKEN SUCH THOUGHTS AS OUT OF THE PICTURE NOW, MAYBE TOMORROW.

1. WHAT WOULD I DO IF DAD WOULD BE KILLED? IT WOULD BE LIKE A BIG ROCK I WAS LEANING ON, SUDDENLY ROLLED AWAY. I WOULD BE SUDDENLY IN POSITION TO STAND UP WITHOUT THAT SUPPORT. I AM CONVINCED THAT I WILL BE WITH THIS MOVEMENT WHEATHER IT SINKS, OR SWIMS.

I AM SURE THAT IF YOU WERE KILLED, THE JOB OF SECURITY WOULD INCREASE FOR A GOOD WHILE TO THE POINT OF BEING IRON HANDED GUARDS. THIS MIGHT BE THE CASE UNTILL THE TROUBLE MAKERS WITHIN ARE WEEDED OUT, AND THE PEOPLE COME TO OUR SENSES. I KNOW THERE WOULD BE ORGINIZED SUICIDE MISSIONS. I KNOW THERE WOULD BE SOLEMN MOURNING, AND I KNOW THERE WOULD BE THOSE PEOPLE ~~WHOM~~ WHO WOULD TRY TO LEAVE, AND CAUSE TROUBLE, OR EVEN TRY TO CAUSE SPLITTING WITHIN.

25-1-5-86 OVER →

I DON'T THINK THEY WOULD HAVE SUCCESS WITHIN, BECAUSE FOLKS WOULD BE MORE ON GUARD, BUT I THINK THEY WOULD STILL TRY.

I WOULD BE READY TO DO WHAT I HAVE TO. I WOULD BE OUT TO KILL TROUBLE MAKERS, OR ESCAPING FOOLS. I WOULD BE A HIT MAN, A SNIPER, OR AN INVENTOR. I KNOW THAT I DON'T HAVE ANYPLACE ELSE TO GO. I KNOW THERE ARE TOO MANY CHILDREN HERE THAT NEED THIS GROUP TOGETHER AND STRONG WHILE THEY GROW UP ENOUGH TO CARRY ON THIS WORK.

2. <u>WHAT I MISS IN THE US.</u>

THE THINGS I MISS IN THE US. ARE THE AVALIABLE SOURCE OF PARTS, AND SUPPLIES FOR THINGS I WANT TO BUILD.

THE OTHER THING IS HAVING COFFEE ANY TIME I WANT IT. I REALLY CAN'T THINK OF ANYTHING I LEFT BEHIND THAT WE CAN'T DO HERE.

S-87

DON FITCH

(3)

3. WHAT I FEEL WHILE I HOLD A FIREARM.
I FEEL PROUD TO HAVE BEEN CHOSEN TO HELP PROTECT JONESTOWN. I FEEL EQUIPED TO DO MY PART. I DO FEEL THAT A WEAPONT IS A TOOL THAT IS CLEANED, AND POLISHED, AND INTRESTING TO LOOK AT, BUT ISN'T USED. I HOPE WE NEVER HAVE TO USE THEM BECAUSE I HAVE SEEN THE RESULT OF WAR. I HAVE SEEN CHILDREN WOUNDED, SCARED, AND KILLED. I DON'T LIKE A WEAPON FOR THAT REASON. I DON'T LIKE BEING A SOLDIER. I'M AN INVENTOR AND BUILDER, BUT I CAN SHOOT, AND DO REMAIN CALM ENOUGH TO FUNCTIONL IN COMBAT. I KNOW THAT I WANT TO STOP ANYONE FROM COMING IN HERE TO DO US HARM. I WILL USE THIS TOOL OR ANY OTHER NEEDED FOR THE JOB. AS FAR AS SEXUAL FEELINGS, A RIFLE DOESN'T DO IT TO ME. I WOULD GET MORE OUT OF A WELL BUILT MACHINE, A STRONG ENGINE, OR A WELL EQUIPED TOOL BOX. I WOULD REALLY RATHER HANG ON TO SOME WELL FORMED, FINE TEXTURED DARK BROWN LEGS, OR KISS A INTRESTING PAIR OF BREASTS.

5-4-88

4. HOW DO I FEEL ABOUT DEATH?
I REALLY DON'T KNOW.
I KNOW THAT I HAVE BEEN VERY CLOSE TO IT SEVERAL TIMES. THE WORST THING WAS WAITING TO SEE IF IT WAS GOING TO HAPPEN, AND HOPING I DIDN'T END UP AS A VEGTABLE.
I SAW A GOOD SHARE OF DEATH IN VIET NAM. I WAS UNDER MORTAR ATTACK WATCHING THE ROUNDS WALK THEIR WAY ~~TOWARDS~~ TO ME. I WAS SCARED SHITLESS THAT TIME. THE NEXT ROUND TO FALL WAS SPAGED TO HIT ABOUT THE SPOT I WAS, BUT IT DIDN'T COME IN. THIS TYPE OF THING HAPPENED TO ME OVER & OVER AGAIN THE WHOLE TIME I WAS IN NAM. AT THE TIME I BEGAN TO BELIEVE I HAD SOME SORT OF LUCK AND IT COULDN'T HAPPEN TO ME. I USED TO HAVE A SAYING, "ONLY THE GOOD GUYS GET IT." I WASN'T A GOOD GUY FOR SURE, AND DIDN'T WORRY ABOUT DEATH.
I DON'T THINK MY FEAR OF DEATH HAS GROWN ANY THESE DAYS.

S.A.T PERSONAL REPORTS

JERRY LIVINGSTON : Is getting to the point where he does not give a darn about living or dying or anything. He fears the idea of being tortured or one of the family being torured, but as you said, you can take so much then pass out. If anything would happen to you there would be a lot of crazy people here and we or I would have to organize to snuff out traitors. Would kill his wife or child.
SEX: His desires are still geared toward females who are attractive to it is too much hassel and little to be gained by fucking. Most of the time he is turned off to sex, it is repulsive and jacking off takes care of the need. He thinks of a blow job occassionally but he does not want to be fucked in the ass as he is not a masochist. He is glad that he does not have much of a sex drive. He carried a weapon one time about 2 months ago and felt very uncomfortable and self-conscious about it. He patrolled behind the dorms and was glad he didn't have to carry it around a lot of people. He has jealous and paranoid, posessive thoughts about his companion but he has seen it was all in his head.
SOCIALISM: Means one day we will be able to feel secure that therw won't be thievery and that all needs will be taken care of. No more racism, sexism, wars elitism, poverty and where children can grown to their highest potential to make a perfect society.
STATES: he misses going to a cornor store or restaurant and getting a hamburger coke and candy sometimes but has adjusted.

AMONDO GRIFFITH: Feels bad about spending money on things that he did not need like clothes, shoes rings and a lot of different things. He did not spend enough time at the church like he should have, did not come to meetings.
DEATH: Used to feel that death was something that he never wanted to go thru, when he took the drink he knew that this is it and it felt so good, he feels that death is peace.

KILLING FAMILY: If any of them turned traitor he would kill them with a smile.

States : Misses clothes, cars, our people back there, shows but would kill himself before going back

While there he wasted too much money, while communal he received money that should have been turned in. Stole. Played around and brought a baby here that caused you to use your power to save the mother and child. Is very grateful.

DEATH: Not afraid, when on the line was with you most of the time and you showed him how dying was so easy. His only thought when he saw you crying was to kill the ones that caused this pain to you. He learned from you that dying for the cause is his duty. He would be glad to die fighting. Beleives in white nights as for real.

SEX: Is attracted to men and women both, not to children.

TIM JONES Night

DEATH: Does not care if he dies for this cause in serving a good reason like dying for the children to get enemies. Fears being shot and crippled. Feels that he could kill anyone in his family who hurt the cause without feeling hurt taking the life of one is better than taking the lives of thousands.

IF SOMETHING HAPPENED TO JJ He would remain in the cause and try to help fulfil whatever there is for him to do by wo is in leadership.

STATES: Misses clothes, cars, going places but it is not worth turning against the cause

SEX He feels that he has broken himself of running around trying to fuck every thing in sight. Wouldn't let sex come first in his life. A gun makes him feel secure but he is sure of himself that just by carrying a gun it would not lead to getting a fuck.

ENEMIES: Thinks it would be too much if one of our people got caught trying to get an enemy, thinks someone's gang in the states could get the enemies.

MARK CORDELL NATHAN Was a total fuck off in the states. Put you in a bad spot by stealing. When he first came to Jonestown he wanted to go back to the US the first few weeks, but after he helped build the place he never wants to go back even tho he does have a taste for hamburgers, ect. Has gossiped about S.A.T. Resents that they tell people what to do and write people up for the same

MARK NATHAR Cont.

things that they are guilty of themselves.

DEATH: Is not afraid of death due to what you and stephen have taught him, being close to Steve has taght him a great deal about de-th. Grateful to have Steve as a brother and you as a father.

KARL BARNETT

STATES: Hates the damn facist system and never wants to return, would die here being free before going back to that shit.

DEATH: Prepared to die anytime, you have to be able to fight to be strong, ei Vietnam, Angola, USSR

GUILT: The way he carried on in SF, never gave a damn about anyone but himself, he wasted money that could have been used here.

SEBASTIAN MONURRI:

DEATH: Does not mind dying because he is going to die sooner or later anyway. Once he was stealing some tires off a car and a white man caught him and had a shotgun pointed at his head. He had no where to run and when the man pulled the trigger his finger froze, Sebastian ran all the way home and when he thought of how close he came to death he stopped stealing. Until his mother got a letter saying that she had gotten too much money on the last check so she was not getting any for the coming month. She was crying. He tried to get a job but could not so he remembered when he stole for fun and how close he came to death. So he went out not knowing if he would come back, he knew he was not going to live forever but he didn't care because he knew what he had to do. So he does not mind dying for freedom, socialisim. He is afraid of closed in places and heighths. He would kill his companion or his child rather than to let them be tourtured.

JJ If something happen to you he would die taking all the mother fucking assholes who try to harm this movement.

SEX: Knows he is a homosexual becuase he had sex with his uncle when he was about 14. Sometimes thinks about having sex with a cow or a horse. When he was small

five

he had sex with a dog and it felt good.

SOCIALISM: MEANS SHARING, free medicine, housing and not worrying where your next meal comes from and the children can grown up with opportunity.

AL TOUCHETTE:

Has made comments about S.A.T. about the hours they have the light on the roof, they do not have it on during all the hours of darkness. He has said that the S.A.T. rovers spend more time in the Pavillion watching movies than roving at night when most everyone was in bed. Disagreed with the handling of weapons because so few have had experience with them.

USA: Does not want to return unless it is for the cause, hates the racism and facism. Does miss the food but does not want to return.

GUILT: Does not always work hardest during work hours, does not take on leadership. Feels guilt being white for the years of oppression white people have forced on black people. Feels guilt for the money he has wasted here on movies and indulgences.

DANNY MOTEN:

JJ: If we lost you there would be no hope for the people and children, would have no hope to live.

DEATH Fears torture, and during a serious incidnet where his life is on the line he worries. He is nervous about holding a gun becasue he does not trust himself.

SEX: Past relationships have hurt him which has made him strong, has a lot of sexual feelings to females, if his companion turned against the cause he would kill her without hesitation.

STATES: Misses his car, going to the store and getting what he wants.

ENEMIES: Would strap a bomb around himself and go to where the enemy was.

SOCIALISM No racism, all people working for a common good for everyone, being secure medically and having something to live and die for.

S.A.T. SIX

AL TOUCHETTE:

DEATH: At this time he is not afraid to die. Looks forward to the time, but is also glad to be able to be productive to build this cause.

FEARS: Bugs crawling on him, especially cockroaches.

ENEMIES: Would try to get them all together and blow up the building and if that were not possible would try to shoot off as many as possible.

JJ: If his death were caused by an assasination he would do his best to get revenge, on second thought that does not sound practical, the best thing would be to stay here and continue to develope ourselfves, he would stay in the movement

RELATIVES: He is prepared to kill relatives if they turned traitor, he would have trouble with Muggs.

STATES: The only thing he misses is the food, but it is not worth the saccrifice to obtain it.

SEX: Knows he is a homosexual. Has had fantasies about screwing animals & children. Also about having an affair with a male.

GUN: At first his ego was blown way up. Now it still is but not nearly so much, now it is more a pain in the ass.

SOCIALISM: Means a chance to change the fascist system. A chance to build a place for black seniors to get away from the white oppressor.

THREATS: In the US right now it is the conspiracy. Also any of our people being killed by racists. Here it is the eternal division that keeps coming up and the unstable activity of the government.

TONY WALKER:

DEATH: Had never actually thought of laying down his life before coming here But after seeing the beauty of Jonestown and understanding more of what it means to us and mainly the children he feels it is his duty to lay down his life. He used to be afraid of wild animals.

JJ: If anything happened to you it would rip him up inside, he would like to

say fuck it and go to the US and find the director of the CIA and blow his ass away, also the FBI director too, if he failed he would jump at the people trying to get him and force them to kill him. He would follow the chosen leadership. Would kill wife or child if they turned, or to prevent them from being captured.

SEX: He had a homosexual relationship with his cousin at the age of 14. Is attracted to females

STATES: Still craves food but it is not worth selling out for.

SANDI JONES

FEARS: That the children will be left alive when and if we have a violent reaction here and or in the states.

JJ: If anything happened to you I would die, either fighting the element that killed him, or just die, like with cancer. She would be totally confused because no one loves like he does. Would kill any member of her family who turned and would like to personally take care of the ones who have.

STATES: The only thing she misses is Mona and people in the cause..

SEX: Is unimportant, especially because she has had a recent traumatic experience dealing with sex. Tried to do what she feels her mate wants and needs does not really enjoy it that much. Wouldn't want and will not have sex with anybody unless she knows that they have a committment to you and communism. Is attracted to males

ENEMIES: Suggests bombings, car accidents over cliffs, fires, shooting them in a crowd, Poisone, kidnap and death

SOCIALISM IS a society where the means of production are in the hands of the people

Major Threats: T.O.S. Lazy people, cia, Weather, Facism, takeover, accidents, being caught up in capitalism. Guyana the committment of the leaders here seems uncertain, internaal security, .

about the division, what Tim didn't understand, I was the one who said it because

I know the boat off loading crew thinks security is lazy and everyone tends to hang together. Cleveland agreed.

CLEVELAND NEWELL

GUILT: Feels bad that he expected to come here and find everything plush. In the States he did not give all that he could have, held back on money and did not give time to the cause nor did he take on responsibility

DEATH: When he was on the front line he didn't know what the fuck was going on, was scared and did not want to die, was thinking of running, hiding, that he was too young to die. Then he thought what the fuck, he wouldhave been dead anyway in the states. You healed him when he should have died

Feb., 21-1978

Self Criticism

I tend to get very bitchy I'm an aleatest I don't like to take orders I don't like responsibility I sit back & let others (anyone) be the bad guy I like to look good I can find fault in others quickly but very very slow to look or find fault in myself I am still fucking off lots of the time that I should be ~~usely~~ using for production I am stubborn I don't take criticism like to give it out but not take it. I'm not willing to take things as they are like facing reality, I'm selfish, hostile show favortism.

Dear Father:

I want to say I'm sorry for not following through when I knew what should have been done. I will be more aggressive from now on and see that things are done right. I will be very concentrating in my work in the kitchen and also help the others that are assigned to checking the pigs food.

I'm sorry Father

Thank you Father

Some of the reasons we are here in Jonestown are because of the Cleometric theory and the food riots that would happen if the drought continues and the Senate Bill 1437 that says you can be arrested just for not answering an officer with the answer he wants to [illegible]. Also the Laser missiles that are fired at tree top level. There also is the nuclear bomb that can be dropped and kill all the people and not even move a [illegible] paper next to it. Also the Genocide of people by putting poison in their food. Also the Earthquakes that are overdue in California.

The most important reason is that we are here to build a Marxist society with freedom for all of our children & seniors to live in peace and equality. This is a home where we can learn to grow to be good socialists and try to be like Father.

Thank you Father

Re: Homosexual Feelings + Act's
From: Scott Thomas, Jr.

About 3 wks ago - me or Marvin Janard engage in a Homosexual act. I suck his dick + he suck mine. We was going to do it in the boy's shower. But somebody came in - so we went to the boy's shower by the cottages. There thats when Dale Parks came in + wrote it up.

In the counciling session it was explain to me that what we did was anarchist. Even though I already knew about the rules. I am doing 3 months with Linda Sadler at the same time this happen. A decision wasn't made if I should tell Linda Sadler what I did. So they told me to write it up and ask you.

Every so often I get this (urge) feeling to have an affair with a guy. I just want to have sex with the person (man) to release the sperm. Also to experience that "good feeling" before a person get's ready to sperm. [So-called Good Feeling]

About 3 or 4 days ago I have jack off in my bed. I know if I really wanted to; I don't have to be going through these changes every time I get the feeling to do it with some guy. I am going to work on it.

Thank You Dad!

BOBBY STROUD: He is very frustrated with his relationship with Daisy, he finds it difficult to communicate with her and feels they have nothing in common. It is a pattern for him to fool himself, he has nothing to offer women, he does not like these types of relationships. He is disgusted with sex. He says that he has not said anything to her about it because he is not sure how she will react. The fact is that he is no good, he does not want any relationship with anyone. He feels it was all based on infatuation. Daisy told him that she had thought about breaking off the relationship because they had so little in common. (he says he did not tell Daisy but Daisy came home and said they Bobby and her had broken off, Daisy is so out of touch with her emotions that MaryLou and Christine do not know how she is taking it in reality.

Dad,

I don't want to [illegible] from you. [illegible] I know you know. This is on my mind and I must tell you.

Tue and I became very fond of one another in the States. I've always had a guilt feeling about our relationship because of Khonda and Ishi. He told me when we stopped off that him and Khonda were on bad terms and that they had made the agreement to do as they wish or something to that order. I brought it to his attention that I felt guilty. He told me he understood my reasons and I didn't have to feel like I did. I felt [illegible] because I didn't want Khonda to be hurt or take him from his [illegible].

EE-1-5-107

at the time we started our relationship we both needed someone.

We did the best we could to be it from being known to the congregation. Because he is to set exam for your people there.

I conceived of a child in this relationship and discontinued it with each others approval because it would have given some of our brothers or sisters a reason to do things. By them looking up to Here, we didn't want to do anything to give any of them an excuse to quit or hurt this cause in any way.

I never was sure if Here really wanted to let Rhonda go, so I discussed it with him again, and I told him I didn't want to be the cause of keeping

him and his family of [illegible]. Before I left he came to me and said he would see what happens when he got here and stopped our relationship at this point. I was very hurt and I felt then for sure that he would for sure want to be with his family when he got here and I didn't want to get in the way of that. I would never want to hurt one of my sisters intentionally so I was willing to give him up. I will always be fond of him.

Before I left I started a relationship with Eric Upshaw because we seemed to have a lot of things in common and he seemed to understand my situation and my hurt. S-109

Dad when I left I was really confused and I still am.

I'm fond of Eric also and I'll always have feelings for Tim. Very dug ones.

It's kind of hard for me to explain this whole thing in writing so if you would like to talk to me I would [illegible] do it that way if you [illegible] questions.

Thank You

I wasted a lot of time dreaming which could have served the cause.

I spent about $6.00 on sex magazines in late winter & spring '77. I have a voyeuristic tendency. Is somewhat of this in medicine & is far easier to serve a young person than a senior. I have a pattern of deviating as you know but do know when to call it off apparently. I don't expect that even a minute of deviation is permitted to a truly trustworthy person & believe that I was not considered trustworthy to remain in my internship bullshit & after Stoen, Cartmell, Crawford, etc etc etc I am grateful that you have as much faith in me as you do. I do still have sexual desires but am satisfied to be able to sublimate this into medical care. I have a arrogant attitude & it is easier for me to criticize myself than to take it from others. This still allows me to keep face. I wasted money on soft drinks & food (beyond the essentials) while in school & my time was not completely used for school work. I slept my share & more, beat my meat with fantasies about women that were entirely exploitive & still are nothing more than that. I am very hostile at times & bitch about how much I have on me. You were right though I am getting used to it. I want you to help me in telling me how I need to be to assure myself being loyal.

Suggestion for making money:

By the way I could do vasectomies & make $ for the cause. It is a simple procedure & we could charge for it.

Sorry I'm so late in writing. I wrote it & weeks ago & have misplaced it. (Because I held out) I never really do get honest & I'm not sure just how honest I can or will be. On any case I'm grateful to be here, grateful to have faced death, grateful to be aware that although I think I have attraction to people sexually that I would never

gain one thousandth the satisfaction from A relationship as I do being a worker here. I do feel guilty about the luxury of our lives, the good food + houses, the provisions, the opportunity to consult on the Radio + the Truth you teach. I wish to help more people.
Thank you for the political teachings
I am very grateful as this has always been a GAP in my life.
I do tend to excuse myself from the guilt of self indulgence. I drink a lot of coffee. I get worried that I am too weak. ~~+ speak to loss~~. I feel bad about not using the Rest of this Paper ~~but~~ and will fill it.
Sex is a key issue + I know I really haven't faced it. ~~But~~ The fact that I was nothing before you saved me ~~seem~~ is not ~~to be~~ thought of enough. I want to clean it up. Enough

Thank you.
Larry Schacht

P.S. all this stuff seems to be beyond the point, beside the point.
I'm still attracted to black women but I've never seen yet enough character & physical appearance together to ~~[illegible]~~ warrant serious thoughts. This is ego because I'm NOTHING myself -- + where sex is the OBJECT. The claim that a simultaneous search for character is bullshit (at least is bull shit for me to say).
Why I delay handing in these notes is because I really think you would feel better about me if you did not know my failings, but you do know, + you always make my life better when you are told.
- SHOULD TRUST YOU absolutely. 5-113 Larry Schacht

I owe you some honesty.

① I delay handing you write ups because I want to keep you from affecting change in my life, trying to bullshit you.

I am a prick to people, those I work with & often those I see as patients. I am down-right cold to some people. I hurt your efforts by this because people look to me for verification that they are all right physically & that since you gave me the education and support me to the fullest I do more & more see my deep responsibility. An example, - Burger Lee Dem. I have had no rapport with when ever I see her but a couple of mornings ago I got nasty with her when she said she wished, she had some buttermilk for her leg cramps (calcium lack?). I made it out by implying she was criticizing the project for lack of buttermilk but I do this to people & it could be handled kindly. I do know what it is to want to die. facing a chain of People with complaints about their bodies many that can not be solved & taking up time from more genuine illnesses & my life I see ain't nothing, but I do, daily, see successes & I am a friend to people - my work shows that you are a friend to people. I will be kind & solve problems faster. A main worry during a work day is how behind I get. I don't want to keep people waiting but everyday this occurs. Some people get seen 2 or more hours after there appt. & often get bumped for an emergency. This make me feel guilty. On the other hand it is only fair to devote as much time to each person as needed to help them.

EE-1-5-114

This is all Bull Shit & words are no means of truth because I never do get straight with you.

I was an Real Shithead today. My attitude was too much! Felt trapped by the people who came in the Land Rover took me hours to Dx & Treat them. Woman was pissed because her husband had the CLAP & she was told she had to follow up Cervical Erosion in Georgetown. IT is GOOD TO Be of help to others but it is the END of my personal existence. I do wish I could get some exercise. I DO NOT deserve what I have. I really wished I could have watched the dentist work I could have learned to do the extracting.

I can't explain myself I always get off the track in these notes. I'll keep on working & be less moody & control my mouth.

I mouthed off to Loretta Chavez about how Wanda Swinney was Sadistic because she brought 3 people over to see me today & I was already seeing one & I mouthed off to Anita Kelly about how I have had enough of people's problems. I was curt & defensive with mother when she brought Detrick to me Again today I did complete exam & checked his urine last night & Told Terry about the Negative Results. This makes me sick because she is the second best human being I've met in my life & she meant well. I was paranoid today & feel the pressure too much. I always feel that Phyllis writes me up for some small point when I really do get little out of life. L. Schmit

To Dad:

I have guilt for all the money I wasted in the states because I charged so many gas receipts and spent the money until I can't even estimate the amount of money wasted. I also lost 2 of my checks which I remember one was $80 and the other was $226. The last one I spent most of it on my sister's children. I also wasted coming over here on the plane. Because some of my needs money I had lost I bought perfume ear rings and food.

Why are we going to Bangkok? I see you wanted this person to go on because the Bangkoese can see how complete Socialism is working. Most of the officials have been to visit and have seen total equality in housing, medicine, and food. If they see how well we all get along and present ourselves this may cause them to make changes in their government.

I know I have much improvement to make on myself

I am so happy you are
my Dad and hope I will be
the Socialist I should be.

How do I feel about death — when I was younger I had no fear of death then when I got of high school I got a fear of dying because I was doing my own thing had a car a job little money and I wanted to go and do different things that I couldn't do when I didn't have any money. Then when I married and we had then kids I felt the live of my kid meant more than mine. I had a fear of dying because I felt since I helped bring them in the world I felt I couldn't die since they were so little. Then we met you and then I knew you would always care for my children or any child. then my fear of dying slowly left. Now I have no fear of dying. Also I feel all the children here should have a right to live to carry on.

My fears I have — the only fear I have is of I lost a leg or arm or crippled or paralyzed then I would be a burden to some one.

What would I do if anything happened To Dad — first of all I think all hell would break loose in our group. I feel that I would try to reorganize with a few whom I feel would be committed enough to carry on. I feel that I would try to organize or fill some one in order to bring order back in the immediate community. I feel that there is no one who will come close to your capability to lead people, or having your knowledge. We would then become a fighting force. I mean with weapons. Instead of the way you operate now. I will try to carry on the cause even though my capabilities are limited.

Prepared to kill wife or children if they turned traitor — I know you are preparing us if the time should ever come, I feel I can do this because there is always that touch of hate toward our immediate family. The turning of traitor would then trigger the hate factor making it possible to kill with no remorse.

What do I miss about the States — are they worth it. — the thing I miss most is the mountains and the coast line I think these things are very nice. I always went to one or the other to get away from people.

I've always hated being around a large group of people.
I just disliked people all along.

SEXUAL FEELING - I always PREFFERED the female for a sex partner. But the homosexuality in me always deeply admired the male who had a well developed muscular development of his body.

How do I feel ABOUT CARRIING A GUN - it give me a feeling of power to control people or animal whichever I'm confronting. I know when I some one with a gun makes me a little cautious towards this person. I feel guns should be carried only a certain time. Also I feel a person should be throughly trained in handling a gun.

This WEEKS NEWS - You told us about the talk between USSR. + U.S. about the nuclear talk. of Russia saying they will make the neutron BOMB to relaliate if they have to. Also their laser beam. the bring out of the Artichoke plan - which was based on controlling the mind. the kidnap of the leader of Italy by the red front, talk about anita Bryant how much money she was paid and who is behind her. About goodyear rubber leasing land for six cents an acre. About the U.S. imperialism in south Africa.

Sophia Loren trafficking money out of Italy. arrested.

U.S. SAC team on alert over Samolun efforts.

Forces now in Capital of Samalia. 30 cubans fighter murdered. Edi Amin turning pro U.S. The hanging of a black 14 year old boy. the U.S. miner strike. the Panicaemia ~~talk~~ bill and how it will fail.

Socialism to ME - means here in our town which is the highest in the world. free health care, no taxes, no worrys about food always wanting to help others. always giving more than receiving.

5-119

MAJOR THREAT to OUR PEOPLE HERE + THERE - the major threat there now is through the IRS which is taking affect after the first of next month. the chance of being arrested on false charges. Stoen and his group will always be a threat to us here and there.

the chance of them cutting off of our funds coming from U.S. the threat of C.I.A. in this government toward us here. The threat of kidnapping or assassination.

I'm I afraid of dying.

Thing that were said & How I feel about the security force - the thing about the white night mentioned by Tom to me. If I thought about it to much did make this thought in my mind. But after hearing what you said and going over it in my mind, made me see that you wouldn't do this to us. Thats all that was said. After listening to your teaching I'm not now afraid of dying.

The Things I miss most is the mountain and the coast line. I like these places most.

Thank Dad

S-120

Al Simon

To Dad

My feelings about dying are that I don't mind the idea of dying for what we believe and for what we have built here but I would like to be able to die fighting or at least to be able to kill some of those bastards first. I think revolutionary suicide would be a possible necessity for the children and the seniors and having 3 small children that was hard for me to accept at first but now I can see that it may become necessary to save them from any torture which would be worse than death.

As for our security that we have now I think basically it is very good. I am glad to be a part of the security because it is something very necessary for your protection and the protection of this beautiful family. I have felt that because of chauvinism sisters have been held back from being as involved as we could be. Several of us have asked to be trained in weapons and no response has ever been given. I think there are times during crisis that we should have weapons. I don't want to be armed with a weapon that I don't know how to use but I don't think it would take that much to teach us. If I were to carry a weapon it would be with the thought to get the person out there before he could harm one of our people in here.

If anything were to happen to you Dad the first thing I would want to do is kill those responsible. I would hope that others here could step up and take over to keep us together here on our land. I would want to stay here and keep on working for our socialist home ~~I thought~~ If it were not possible to stay here for some reason I would try to go to another country where they are fighting for freedom.

As far as fears I do have a fear that we will be forced to commit revolutionary suicide before we get to kill some of the traitors and harrassers. I also have a fear about myself and how well I could stand up to pain such as torture. I don't have much confidence in myself on this point.

I really don't miss anything in the states at all except a few relatives that I hope will be here soon. They are mostly young children and I hate to see them suffer because their Dad can't make up his mind to follow you. There is nothing in the states worth going back for and I never want to go there again.

I think that I would be able to kill my companion or one of my children if they were a traitor because if they did anything to hurt this cause I would have enough hate for them just as I do now against Stoen and the other traitors.

I have never had sexual feelings for anyone except men. Right now I am trying to not need sex. I have gone about 7 months now and for the first 6 months it didn't bother me at all but now once in awhile I do want it but I know it would be the same unsatisfying experience as it has been in the past.

The major threats for our people there are the CIA and the IRS. Also that the country is getting closer to economic collapse and nuclear war and we need our people out before this happens.

Some threats here are the cutting off of our checks and the kidnap threats against our people. Also the conspirators such as Stoen which are a threat here and in the states.

Socialism means that we can all live equally and interracially and work for ourselves not some capitalist like in the states.

Some of the news I get are that Eldridge Cleaver has gone religious and joined the Moslems. He said to leave politics to the politicians. Also Margaret Thatcher Prime Minister of England wants all people of color to leave the country.

Flint the publisher of hustler magazine was assassinated after offering $1 million reward for information on Kennedy + King's assassination.

Thank You Dad

Dear Jim:

My haealth is improving greatly. I no longser have a mass but a lump. Thankyou. Last week I went down the river with Patty; Patty asked me to talk to a man named Persaid, who is a huster and works for the London Air Force. He is a windower-his wife didd 7 years ago. He has 2 children a boy 7years old Terry and a girl 6 years old Jonnie. He also stated that he goes to French Guyana once week and down the river every 2 weeks. Persaid wants us to adopt his children ; if we don't he will send them to the opphanage. He wants the best for them-education and home. Because he is constantly travelling, he doesn't wants to take them along. He wants them to be adopted within 2or3 months. At the present time, they are living with their relatives. He plans to remarry in the future. I asked why can't his take them in he said she will not love them like her own. I don't know how true this is-he said that he has a gold mine down the river. But he doesn't have the right equipment to dig. If in couple months he still doesn't have them, he will return to England to work.

Carolyn Layton -

Dear Carolyn,

Just a quickie to say hi and thanks for the letter. I appreciate your taking the time to write. I know from the work that is going on at this end, and sometimes sitting in the radio room, that you are all extremely busy at that end. I really enjoyed talking with you on the radio. I know that Dad is constantly thinking of us back here. That is his way. It is wonderful how much has been done in spite of what some have tried to do to stop it.

I got some pictures of Richmond + Bonnie. They look healthy and happy. Bonnie tells me she is in third grade now. Do I told you when we

EE-1-5 124 (over)

were talking, teaching in the public schools has really made me appreciate what Dad has provided for our children. I have the most difficult class I have ever had. Even the principal has to admit that several of them are tough cases. It is sad to see 5 + 6 year olds having such severe problems that they are a constant disruption.

We are all fine here. Two bus loads left Fri. night, so the family down there will soon be quite a bit bigger. It is amazing that no matter how many go over, our services seem to have a room full of people. I guess some are coming back who have not been around for awhile. Say hi to Annie for me. We found a good home for Willie. The man was very pleased with him. He needed a dog that would bark and keep the deer out of his garden.

Love

Now you know that is right up Willie's alley. He loved to fork at birds and deer.. He has a 100 foot run for him. I did not meet the man, but Claire thought he would be good to him.

Here Kelly is not a lot to write about, but I'll try to drop you a line now and then. I went to see my dad yesterday. He is very supportive as are others. I thought it a good idea to keep in contact just in case TOS should decide to contact some of them there. Must drop a quick note to Scott Thomas about [illegible]. We are about out and [illegible] supposed to let me know if the machine on your end has been fixed yet. Until next time

2. BLACKS BEING PUT OUT OF CERTAIN TOWNS IN STATES.

3. BLACK NOT BEING WANTED IN CANADA & IN THE UNITED KINGDOM.

4. EVERYONE IN NEAR FUTURE MUST CARRY AT ALL TIMES A IDENTAFICATION CARD AT ALL TIMES. THE CARDS WHERE FEED INTO COMPUTORS GIVES LIFE HISTORY TO PRESENT TIME. EVEN WHERE YOU WORK, CHURCH ORGANIZATION

5. A LAW IS TO BE PASSED WHERE AS BLACK CHILDREN & ADULTS WILL BE SENT TO HOMES OF NORMEN TO WORK

6. HOMOSEXUAL RIGHTS ARE BEING TAKEN AWAY IN STATES

7. HOMOSEXUALS MARCHED IN S.F. IN PROTEST OF THEIR RIGHT BEING TAKEN AWAY

8. RACE WAR WILL BREAK OUT IN STATES SAID BY MANY BLACK LEADERS

9. KKK'S MEMBERSHIP WAS INCREASED BY 100%.

THIS IS ALL I COULD REMEMBER ON THE PAPER CLIPPINGS. AS WE WENT ON IN THE MEETING TWO HARD HATS ASKED TO COME OF THEIR DISPLINE IT WAS SAID THAT THEY HAD TO GIVE A BOOK REPORT. THE OLDEST GAVE HIS BOOK REPORT A LITTLE BETTER THAN THE YOUNGER ONE DID. IT WAS SAID THAT THE BOOK BEING READ MIGHT BE A LITTLE HARDER FOR ONE TO UNDERSTAND THAN THE OTHER. SO A BOOK REPORT MUST BE GIVEN ON A PERSONS LEVEL OF COMPREHENSION. EACH ACCORDING TO HIS OR HER ABILITY EACH ACCORDING TO HIS OR HER NEEDS. THE PROBLEMS OF 450 PEOPLE COMING HERE AND NOT REALLY PREPARED FOR THIS AMOUNT AS OF YET WERE TAKEN OVER.

Dear Dad,

I'm not much good at putting my feelings in writing but I want to try.

I have been very happy since I arrived here in Aug. Al and I have had our fights and disagreements but I think that will work out. I got off to a bad start when I came trying to be friends with everybody even to the point of flirting with others men. I realized that this wasn't the way to be and I would only get myself in trouble. I'm really watching myself now trying to see myself as others see me. I have alot of improving to do and I hope by analysing myself it will help me in working toward the goal of being a Zero someday.

I want to express to you the joy I feel when I see our fields growing. During my roving shift on SAT I have had an opportunity to see food being planted one day and just a few days later see the green plants coming up. This makes my heart swell with joy and makes me so grateful that I am here in Jonestown

I WOULD PERSONALLY BE ABLE TO ASASINATE TIM IN THE STATES AND MAKE SURE IT WON'T BE TRACED TO US. IN THE SERVICE I LEARNED TO FIRE MANY DIFFERENT TYPES OF WEAPONS AND TO MOVE IN THE DARK AND NOT BE SEEN. I ALSO LEARNED ABOUT VARIOUS TYPES OF DETONATION DEVICES FOR EXPLOSIVES BUT NOT HOW TO MAKE THE EXPLOSIVES. I KNOW MANY PEOPLE FROM THE STREETS THAT I COULD HIDE OUT WITH UNTIL I GOT AWAY FROM THE STATES. I WOULD GIVE UP THIS LIFE FOR OUR COMRADES EVEN THOUGH I KNOW I'LL BE SCARED MY MIND WILL MAKE ME FOLLOW THROUGH.

IF TIM'S HOUSE WAS TO BE TORN UP OR HE WAS TO BE BEATEN SEVERLY I CAN DO THAT ALSO. THERE COULD BE A MEATING PLACE SET UP FOR US TO NEGOTIATE OVER THE MONEY OR I COULD PLAN AND TAKE HIM BY SURPRISE.

HIS HOUSE OR CAR COULD BE BLOWN UP EASILY AND USED JUST TO SCARE HIM OR I COULD THROW A GASOLINE BOMB AT HIS BACK DOOR AND WAIT FOR HIM TO COME OUT THE FRONT WHILE I HIDE WITH A RIFLE IN MY HAND

SUNDAY -

1/1/78 - Your question about the microscope was answered quickly but yes I had not been doing my best to keep the case dry. Corrected this. Last night. Was not as nice to the national with cut finger, he was intoxicated & uncooperative. But I was condescending & spoke too firmly to him to gain control. I tend to look down on others - working with Russell M. Thought him to damn passive & worthless in our attempt to diagnose plant disease. But he came up with point that explained our difficulty & we will work it out. I am a pisser when I wake up, hate to face an "onslaught" of human needs; spoke today (only to Ruby Johnson who has heard it too much before) about wishing I could blow my brains out. Told her I was just seeking out of my responsibility But usually I settle down rapidly & get to work concentrating on someone's health problem. Still there is no reason why I can not arise and cheerfully face my duty without these outbursts. Felt hypocrytical talking to you some time later & being calm at that time. I am quickly given in to Paranoia & am very disorganized in my paper work. Last few weeks was working usual full day (usually at least 15, 16 hours) & knocking myself out with Valium. Was very bad because I was losing those few daily minutes of research before sleep that make the difference between a conscientious doctor & a wreckless one - though the extra sleep helped my temperament. Now appreciate clarity of mind over sedation. Damn good that I went through school & with clear mind -. Noticed about myself that will laugh at my own jokes but not others. Feel sorry for myself I get little physical work, outdoors but am lazy (??) as hell at times. I am basically a nasty mouthed gossipy, back biting son-of-a-bitch & physically ugly, with unresolved continual mental drops into heterosexual sado-masochistic (actually just wish to be passive partner c̄ aggressive ♀) fantasy with definite racistic undertones. Why else would I prefer black woman, except to identify stronger with third world. Still am not really honest, few people are trustworthy, I clearly see when it comes to sex. I do not know my sexual potential but through my considerable ability to sublimate am at the point I am. Larry Schaeffer

30/12/77 FRIDAY

DAD, The medical staff had a constructive meeting today. We will be posting our Regulations & will be more and more concerned with merging principles & with action. We are seeking to have solid principles behind each Regulations & to review the Regulations currently decided upon before each work period. These will be forethcoming.

I fucked up - when giving Don Fields a limited supply of Phenobarbital put 60 mg TABS in a Bottle marked 30 mg. Caught my own mistake & confessed my error & waste of medication to the entire staff, while I criticized others for waste. Several people received double doses however & I won't let it happen AGAIN. No harm was DONE THANKfully. Joyce Kosynko treated a woman for seven days with anti fungal vaginal cream when the woman said she had trichomonas. The Rule was Re emphasized that only I prescribe & I will seek more involvement in the sore treatment program until the problem is under control. ALSO MUST BE SAID THAT ALL LACERATIONS Be evaluated By me Before suturing. I am not dealing with Lois (She was not there today by the way). I wish she was not in the medical dept. for example it is possible that Melanie Simon is A Breech delivery. This is not definite, by any means but I can not let Lois have ~~ac~~ access to the Chart because she will scare Melanie when it is not called for, but I still have to record accurately to provide for her health care. I lied to her & am keeping the chart in my file. This is indefensible except I feel concern for my sister. I emphasized many times in our meeting THAT we are in the medical staff to demonstrate your concern for the health care of the people. We will dictate preventative medical care; we will emphasize that our purpose is to keep the productive work force healthy. It was pointed out again how we have to receive feeling of satisfaction from seeing our Comrades

get Better. EACH WOUND or SORE MUST Be followed by the same OBSERVER.

I criticized Joyce Parks for not doing what she knew about clamping Lela's catheter. I have not criticized Annie, but still feel she was nonchalant about the amount of urine backed up in Lela's system & she, as a nurse was aware of this kind of thing & did not move on that knowledge. She was not in the meeting today or I would have done so. She is very snappy & I don't feel would do much good to say it to her except in a meeting. I realize she will confess to you but still has a [illegible] attitude about Everyone else in Staff.

[illegible]

I AM likely Responsible for the Arrogant attitudes of those I work with. AM learning to dislike gossip & one-to-one conversations AS counterproductive because I've done it so much & SEEN so little come from it. I will correct this terrible blockage I have with Lois P. HAVE BEEN unkind to her lately. She has been correct enough to try to get Lela catheterized. She has been correct AT TIMES but has become universally ignored even when correct. She turned in Earl Mackniguts urine & it was infected. I TREATED HIM. This was Good.

There's A discrepancy as to what I'm suppose to be doing. Sandy told me that I had been teaching long enough to take over the whole class, it was my understanding that I was to be an aid. Sandy said she thought I was to take over the class because she would be going full time in the medical field. Sandy doesnt have any time for lesson planning so I said I would go ahead and do it. The only time I talk to her is in class. Tom said I was suppose to be an aid. at this point I dont know what I'm suppose to be doing and I dont know how to solve the situation. plus I'm concerned about the lesson plans.

Please note the following points: 1/1/78

(1) The medical staff wastes too much paper, should write from margin to margin. Don't put just one word on a line. Use slash marks to separate ideas. Write from top to bottom may skip 1 inch for staple at top. / (2) Each wound or medical problem should be seen by the same medical person at least once each day for maximal evaluation of improvement or failure to improve. / (3) No medications (other than the few discussed) to be given except by prescription of Doctor or Practitioner with consultation if doubt exists, with Doctor or Pharmacist. / (4) No lacerations especially of the hand wrist, foot or face to be repaired until Doctor has evaluated the degree of injury. /

What is worse to me is that I could spend all this time writing the preceding bull shit when could be using mental energy for concerning ways of advancing the cause through medicine, defense, agriculture, nutrition research, herbal cores & just plain checking up on Lela M. Kwase T., etc. etc. I see this as true self centeredness. & will attempt to write up constructive thought in these areas to advance the cause.

One thing I am doing which is really not good is cutting corners on some patient evaluations. Am spread too thin I'm not entirely sure if I am cutting corners or have just learned when I do not have to do extra study.

But on second thought I am not following through, due to over extention, on additional examinations that may turn up something not expected.

Should not have taken your time with this. But, feel like I'm holding back if I don't hand it in.

Reference to Situation with Annie, I was hostile because she was continuously on Don fields case, I felt excessively, makes me paranoid. I like Annie with you in my concepts of your trusted workers but I spoke to her after that problem & worked it out with her. Phyllis acts without consulting, thinks she is the decision maker to hand in endorsement without weighing the consequences. Is now pressing for a confrontation with Joe Ponts. I really want to get Joe out of the medical dept. & wish to do it subtly. I have tremendous gratitude to Annie for storing the valuable medical equipment in her house when I was in G.T., she noticed that Vincent was eyeing it & Joyce P. & Phyllis (who confessed she was too passive in the matter) were quite willing to leave it outside under a tarp. Fuck them on that score. I thought it was straightened out with Annie until the criticisms from days ago were read back. rite. I always seem to be hearing & saying criticisms of folks to other folks & see that I am trying to keep the other members of the medical staff divided (??) or maybe I know some won't respond to criticism & I get it off my chest by saying it behind their back. I don't think I want consciously to see division - but the will to death is in me. Joe Ponts & D.F. are open targets, Sharon Cobb (Jones) - (& when her name was changed I noticed a change in my feeling of freeness to criticize her) is not a pediatrician. Neither she nor Joyce have to assume the full responsibility for a person's health & I see that as my job. I was very mad when I had lost the glaucoma eye chart, & Joyce, Tim Carter. No one gave a shit until I made a public announcement & Tim Carter ran up there then. So Sharon will not do total physicals on ill children, just routine well check-ups. Joyce has missed pelvic exams twice & I recheck each of her exams as the occasion arises. But I am aware that it would be easier on me to cover my future errors (which I will keep to a minimum) & to lay off those who have had less training so they'll lay off me but I

will assume my responsibility & take what ever hostility they have toward me to maintain the health standard.

This letter is not very honest — I still have not really got to the point that I really fear my loyalty is based on positive reinforcement, but then I really do have concern for peoples. People? People who I minalize as less fortunate than me. That is condescension at a deep level. For example I felt like crying when I looked at archie (the father of the twin that went to Georgetown & died) at the PNC building yesterday, so lonely his life must be. A few minutes later he came up to me & ask for medicine he could take the morning after to prevent V.D. No loyalty to his wife even with the death of their child. OR maybe a type of loyalty to prevent her from infection he would get screwing around. ??

I DO NOT KNOW IF THIS IS WORTH CONSIDERING but that you might want to discuss it now.

I WAS LOOKING AT THE BACKSIDE OF THE HILL ON THE SOUTH WEST SIDE OF THE COTTAGES. IT SEEMED TO ME THAT IT WOULD BE AN IDEAL PLACE TO BUILD A MILITARY-TYPE BUNKER. THIS BUNKER COULD BE POSITIONED SO THAT IT COULD HAVE A CLEAR VIEW OF OUR BACKSIDE AND COULD BE ESPECIALLY USEFUL IN CASE OF AN ALERT. ELECTRICITY COULD BE RUN TO IT FROM THE NEARBY POWER LINES AND ONE OF THE BRIGHT POWER BEAM LIGHTS COULD BE PERMANENTLY INSTALLED. THIS BUNKER WILL BE ON THE HIGHEST HILL IN THE COMPOUND AND WOULD HAVE A DISTINCT MILITARY ADVANTAGE. IT SHOULD BE BUILT PARTIALLY INTO THE GROUND AND SANDBAGS OR BAGS OF DIRT PILED AROUND SO THAT THE ONLY OPENINGS LEFT ARE FOR OBSERVING THE AREA AND FOR FIREING A RIFLE OR ANY OTHER WEAPON NECESSARY FOR DEFENDING OUR REAR. SINCE AN EMPHASIS WON'T BE PLACED ON BEAUTY IT CAN BE BUILT OUT OF SCRAP WOOD AND OTHER PARTS.

Dear Sister Rose,

Today is Saturday. Truly, it has been a busy week. The Eagle is still stirring the nest causing the eaglets to "mount up" and take flight. Now you see them - now you dont. Dad doesn't play. He is taking care of business on the western and eastern fronts. When he moves - he moves for he has p o o o w w e e r w w! The "gates" of hell cannot prevail successfully against him. Hallelujah!

For a number of years, I have missed certain events for they were held on our meeting nights. This has changed for quite some time now. Dad has given the word - I've been invited to participate with others to represent the household of the faith at number of gathering. The latest was an address given by M.J.K. Nyerere, the president of the United Republic

of Tanzania. He spoke for approximately forty-five minutes. Sister Rose, would you believe it? Everything he said we already knew for Dad keeps us well informed. He spares no pains or price. He lectures for hours and hours and hours. Dad obtains expensive and oftimes unavailable movies to graphically get "over" his message. No matter what the world may do or say, I'm going to "stick" with my Dad. Truly, we are blessed beyond measure!

Our meetings are well attended. We sit in joyful anticipation hopefully listening for the Voice of Love-Truth. Oft times we hear it — O! what joy and thanksgiving.

Take care! Know ye — "we are hanging on in there."

Peace & love,
Your Brother Wesley!

Dear Rose, my sister,

We are blessed by our Saviour day by day. Thank you, Saviour!

Do you remember the song— "Good news the chariot's coming. Good news the chariot's coming. Good news the chariot's coming. Coming for to carry me home." Well, we sang that song for years; however, the chariot never did arrive. Things are different now. Our Saviour promised to send the chariot and that he is doing (just what he said he would do). There is an atmosphere of joyous anticipation as we wonder who will be next.

On last Sunday, our guests, Banks, Milk and company, arrived as promised. During their talks, they made it unmistakingly clear that come what may they and their house would support Principle!

EE-1-S-168

Another highlight of the morning program was the rendition a song by Brother Banks and company. This song is most sacred being sung only on solemn occasions with full religious ceremony. Brother Banks said, that he felt that rendering this most sacred song was the highest tribute he could pay to his friend (our Saviour) and his family. They mounted the platform and surrounded a huge drum. Those next to the drum sat. As they beat upon the drum they sang. To me it sounded more like a chant. It was simply beautiful.

Since I have been writing this letter, a phone call from Sister Watson interrupted me. She wanted to see me. It was urgent. She was scared to death. She wanted my advice. I told her she would have to talk to at least three of us She said, she want to talk only to me. I told her, come hell or high water I will be there! I will not be moved. Then I hung up.

Sister Rose, believe it when I tell you, some of members of the "household" i.e. not the "household of faith" are becoming because they are dealing in "garbage". They a lowering their vibrations. They are separating themselves from Principle. It comes down to — Is you is or is you aint! Well, I'm is!

Our services are "out of sight". The vibrations are high for the spirit of the consciousness of the presence of God is ever apparent. He said, he would never leave us alone. Only truth proceeds from his mouth. As I make my visitations I see his handy work — miracle after miracle. I wonder why he loves us so. I know I'm not worry.

Peace and love,
Brother Wesley!

chaiken this way. would love to see Stoen but can't get to him. I THINK Chaiken would like to embrace Stoen if he could, he came for his medication during this last crisis, yesterday I mean. I have thought of going to Georgetown to murder Stoen but then you said he is leaving.

I need a good Book on <u>forensic</u> <u>medicine</u> - tells many different ways People are actually killed. There are extensive TEXTS written on THIS SUBJECT. I recall seeing a book in the STATES with color photographs. John harris could be assigned to get such books on forensic medicine or pathology, he felt neglected that I did not respond to his proposition to set up a Pathology lab here. Probably better not to assign this task to him anyway.

(3) I would like to say to put it short I'm always picking out some one who don't give a dam about me on the whole, or some one who as it appears usually to only want me so they can use me. This I recognize as a weakness in myself that I have tendency to project. I've always felt bad about those people who seem to misjudge my kindness for weakness; because they are leaving a level of thought on they're part, open to me, this I keep is a silent weapon, in the quiet for use to my advantage when the occassion presents itself in argumentive confrontation. Back to Mary

My reason for what I said about her is the fact that it's taking so long for her to get here and the fact that I believe that in the mean time I feel and think she's not twiddling her fingers is the perfect opening excuse I use to mess around. Out of natural weakness I do have a urge for sex very strongly and I'm very interested in fannie she turns me on. I've boldly told her too that I'm attracted to her. I likewise she may or may not be likewise interested in me we get along alright as associates so far even though she's mary's friend I've also told her I'm still interested.

I have tendency to down myself in areas where I have a blind side to my where I have strength and respect from others I will work hard on these things. I'm always willing to take criticism from any one as long as it's constructive then I'll [illegible] otherwise I'll argue.

(4) I'm always quick to apologize after a disagreement and will give a explanation on my part of why I spoke as I did whatever it's about. I'm sorry to say people seldom do me like use of course I know I'm shit anyway so who am I to look for anything respectful from anyone I've shown any amount of respect to sometimes the other person is the one whose wrong I do this because it sometimes holds a person back from doing something for me when a very serious situation may arise that vital to others as well as myself... At times I've even fallen out with seniors I try not to do so. Because here everyone who has been turned off by others and discriminated against most their lives can have a word to say and does so why not! I'm most of all very easily embarrased I can actually feel my self turning some kind of color what that would be, "I don't know" but I know one thing I prespire like all get out then.

I'm sorry dad to write so much but this is all I could think of and cover for you thanks for reading this cause I know how busy you are.

I still call my good friends nigger and talk not often but on astrology I'm working on this too and Simpson reminds me totally, I mean totally of my real father and I hate my real father

Thank you Don't scream dad it's only me Tobi' dad for reading this [illegible]

Progress Report:

Have prepared cultures - make medium carefully and have 21 different tubes. Also learned in the process that there are worm larva in the soil, we wear shoes anyway, so no problem.
Also accidently found I have a culture growing of a fungus which can be a very serious pathogenic agent in a person whose immunological system is depressed with steroids, this could be an effective way to deal with internal enemies. The medication to treat this is very toxic + hard to get here.
As soon as the crisis was over Joyce T. stopped helping. I will get with it everyday now + continue with Sandy.
Phyllis C. just asked me how many patients I've seen in the last 24 hours so she could fill

out her production report to you. I think she would like to portray me as negligent or lazy & also keep me tied up with continual flow of health problems so I can't get this other job done. I have come to realize that I am critical that if I don't watch it our supplies are wasted, etc. Anyway she must be kind of sadistic to ask me how many patients I've seen in the last 24 hours.

Disseminating the germs I did is important because I can infect someone & it will look very legitimately like death from meningitis. Outline of plan. To start them on steroids, they will feel great, almost euphoric. Then 2 or 3 weeks later infect them by I.V. route or directly into the spinal fluid. I would like to do Gene

Hello Bobby,

How are you? Fine, I hope. And the hand – I hope you have not been hurting it, and so on – How is your beloved Toanstown? – I bet you must be enjoying yourself immensely.

Guess what? – Yesterday I listened to the People's Temple's programme – and I heard your Pastor Jones talking all about Walter, and his accident. Also right now, there are two people from your place in our ward.

Oh! Incidentally – Do you know what you said when you were back from surgery? – Aha! – I'll tease you the very next time I see you about it x x x x x

I think it was very nice of you to 'phone that morning – I am fine, now, – thank God – But it was miserable for those few days – Our examination is Saturday 29th. – I am very apprehensive about it, but I want to get over with it and done.

Are you still coming on November 3, for your appointment with Mr. Seamon? – I am really looking forward to seeing you, and

Hi - -

It was good talking to you today - You sounded like you feel good - I am glad you are feeling OK. and doing the things you like - I remember at one time you were thinking that you would never get to use the new tools you bought in the States - the tools you said you always wanted but never could afford - tools you thought some one else would get to use - But look at you now, working long hours and feeling good - You can certainly give Father all the thanks - because if it were not for him some one else would be using those tools, now. Huh?

Well since I am back in the kitchen it keeps one busy, gives one less time to think - The evenings are bad - after dinner I leave the kitchen for some one else to do dishes, nothing to do except go to the bed room, read - or play "ole sol" your game - I dont stay with it like you did - I play a couple times and if I dont win, I quit. I just finished a book - I dont have any more to read - I am sending all the books that I have read back - so give them to Joyce - tell her

EE-1-5-183

if she lose any more good one's
send them to me - Looks like I
am here for the duration -
I know how you must have felt
back in the states all alone with none of
the our kids around and some gone -
Because I never knew I could be
so lonesome - I don't care what
they say there is no one can take the
place of your own Kids and wife or
husband. - There is no one you
can talk to or confide in - Sometimes
I get the feeling (like you said you
had when I left you back in the states)
just taking off, but that wouldn't be
fair to you would it? I won't take
off so don't worry - Seems I have
made my bed so I will lay in it -
happy or unhappy for better or worse I guess I
get so depressed because I hate people -
This house has been full for over
two weeks with the same people -
This woman and her four sons
are the lazy est people I have ever
been around - Her two oldest boys
are 16 yrs old and they have decided they
want to go back to the States so as far

as I know they are going back - they are waiting on their dad to send them the money for plane fare - The boat is leaving tomorrow and they say they are staying here until their plane ticket arrives - (if it does) I resent feeding and washing for lazy ass holes - O well enough of my negative feelings -

Cleone I would like to know what kind of a ~~mess~~ mess you found our things in - you never told me where you were staying, there's a lot I would like to know, but I cant ask you on the radio - - no ~~privacy~~ privacy -

I sure appreciate you sending the aerator it sure helps my feet - you dont need to try to find anything else to send to me - I will just do with what I have - It fits my mood's -

Well I will close -- like I said the boat is suppose to leave tomorrow, but you know how that goes -

miss you a lot -

B.B.

Sure enough here it is Friday 25th the boat is still here. They might make it today - maby - - There is another bunch of people comeing in tonight - See ya later

Re: Tim Steen situation

Jim:

From our children, baby as John was when he was having crying tantrums. There has had to be discipline to make any definite influence.

Chris is out of their Way

I think we need to put something in their way to make an influence.

They figure you can't go - you aren't of character to give up anyone - They are playing their cards you're on eggs to save everyone + everything you can.

My Suggestion is: Everyone except a few (Mother Jan Bron + Terri) that have left this land have been weak + wishy washy people.

My past reputation when they were all in the Temple could fit into this catagory besides I was known as being mouthy, resentful of structure + discipline + you always had to end up dealing with me because I refused to follow structure of Counsel + refused to work with or through them;

I ended up working or having contact with alot of the factors - Grace, Deanna, Jackie, Sudy, Rick, Neva, Birdie,

I particularly hate all of them for Personal reasons.

This reputation may be reason for them to seek me out to use me.

Suggested plan might include one or more of us leave - going back to do our own thing like Yolanda, Ron + Rosemary ass Williams did's ignoring PT + sending me into area where one of these ego's would want to use me to impression on the other

traitors by discovering person whose left + could have info direct from P.L.

I suggest myself because scary as the seriousness is I want to.

I don't like living but know I must for the good of future of this + that only if I can sacrifice my life to further or protect well I get out honestly; This could be revolutionary suicide + could be the answer to my selfish desire.

I don't really know our internal stategy to give any info that would hurt if there were any slip ups + big time info tactics were used before we expected.

Even at that I could take at least one dead with me to make the influence we need on them.

And if all went well a bunch of them - Would be glory for me; When I was so fucked up - each I have name fucked me over - some way Jim. So making the sacrifice of one or even a few for the good of the majority would be justified + called for.

I wouldn't go expecting to be hit out + then be saved dad - Id plan to go all the way — this would startle any other plans till you could have more time to complete your ~~strategies~~. Stradagies.

EE-15-188

I have had more happiness; security; beauty, peace + pleasure

in being a part of your vision in action and seeing what our children lives will be like in the future and especially getting to know you for real has made my life complete.

I never expected to see all this goodness real in my life – in the lives of my children to remove the terrible guilt I had over them. Thank you – I know they are in the right place & I could be free to do the likes of this now.

Legally they have been deserted and as far as me being used against P+ as a good person destroyed when it was over. I can leave lots of info to prove I wasn't and that you were taking care to try + rehabilitate me & care for my children that I wasn't capable of. Because I was suicidal, a thief, liar + a lesbian that I had fende trouble all my female relatives have & had a god mother + Aunt blow her brains out over the depression of it.

Now as for as following through to kill myself that is questionable! But I'm "Crazy" enough to cause enough havoc killing <u>them</u> to get myself killed + surely could swallow a pill. Which I think safer than getting taken into custody where they might use any means to get to P.T. They would figure something to use against us.

I do think 2 or 3 people could do more extensive job + get info back to you - But one could be enough for an influence lesson + I would get as much feed back as possible.

Jim from one extreme to the other I know you now to know you aren't into using or losing your people in this way - But times are more + more serious as we find out each crisis ; that our time of revolution is stepping up more + more.

I believe you not only saved us - But saved the whole country of Guyana when all those officials were out of the country + they tried to do us in,

I think the plan could have included get the Jones done in + the CIA could take this land + do a dictator ship on it like they are so terrible at.

I can'in to this world a misfit - I didn't have awareness in anything when you adopted me - I appreciate what you have taught me and the good feeling I've gotten from it - to Know I am a Communist + somebody + that my life is important + I must give it in a responsible way now.

I'm old for my age Jim + hurt enough I really believed could follow through with this plan because of my own selfish reasons.

Thank You for me, (Don Deime, Angelique + Sophia)

Maryann Casanova

Baccus and his brother made a visit to Jones town. While there Baccus from the saw mill told Charlie he wanted to talk to him in private. He asked Charlie to make a deal for 100,000.00. The same as what he had with me. Charlie and Joyce told him they didn't know what he was talking about. That anything I did was on my own. That they had turned all these property and money into the church when the came in. Joyce said that when she came in where Charlie and Baccus were talking she felt that she was unwelcome. Charlie said Baccus could not keep his hands off of him. And that is the reason Joyce felt what she did. They both said Baccus left in a good humor. Was not angry at being turned down. I think he has definatly got something going for Charlie. Charlie and Joyce both think so too. They gave this information to Paula.

Letter from Hondo Swinney

Father,

Some of the reasons we left the U.S were because; It is a Capitalistic nation and we are Socialists, and trying to learn more of Socialism. The U.S. survives on its fascist/racism where white supremacy rules. The longest undeclared war ever known is the one that America has carried on with the Blacks for over 200 years. Recently they came out with the Clo-Mates system where a leading economist, ~~[illegible]~~, stated that the US economy is failing to such a degree that it couldn't exist much longer with the present trends of bankruptcy it now has. His theory was that there was going to have to be a ruling, elite class and a slave class to do all the work & produce whatever needed. This racist also stated that since the Blacks & other minorities were of lower intelligence than white they should be put back into slavery and that slavery was the place they were truely happy. Dr Kinnu, came out against the fascist/racist regime in America and stated that the US was fastly approaching a race war when the Blacks & minorities on one side & the whites on the other. He was imprisoned for this and died there for his beliefs and statements.

Continuing with the racial genocide in America is the fact that every American city has a ghetto with the poorest & most wretched housing. The housing projects can easily be roped off & turned into concentration camps. Entire sections of cities can be closed off and guarded by the racist police. The police & armed forces are so racist that they have much provisions to control the Blacks on this focus & get rid of them when trouble comes. One of the ethnic weapons used against minorities & poor whites is food & water chemical poisons. They have studied the chemical make-up of minorities & can put chemicals in food & water that will kill off whatever ethnic group they want & save phase the rich white ruling

over

class. The water & food supplies ~~are~~ could be easily tapped & they have even practiced or tried out their throws in some areas. The facist gov't has not only prepared the ghettos into ready-made concentration camps, but have large-scale ones constructed such as Santa Rita, and the one outside of Bakersfield. The McCarthy Act has never been repealed so they can use this at any time to round-up aliens & any minority, & put them into these concentration camps. It is a known fact that train box cars are strategicly located, just waiting the signal for when people will be ~~by~~ herded like animals into these camps. The facist Gov't recently passed S.B. #1427 which allows the police to arrest anyone they so choose for not answering a question in the manner they think is right. The police can drum up any charge they so like, framing you, & make it all legal, minorities don't have a chance with this law. The police already had the "No-Knock" law where they can break & enter your property & home without your permission to seize property & arrest you. It also lowered the death penalty to 14 years.

Another racist law passed, was the DeBocchi Decision which bars all Blacks & other minorities from attending college. This means there wouldn't be any Blacks allowed to be doctors, lawyers, teachers, business men. It is a general attempts by the white supremists to keep Blacks down as slaves.

The neutron bomb is one of the latest ethnic weapons that the U.S has come out with. This bomb can be controlled to such a degree of yardage & feet that it can be used inside cities to kill whatever minority group they wanted. It will not do property damage, even so much that it won't move a book or shake a glass of water off a table. Right along with this bomb & the chemical poisons, they also have nerve gases that will kill only minorities.

Nuclear war is a constant threat also, & here in Socialist Guyana we are safe from the radiation fall-out if war does break out. The U.S., Brazil, and the Union of South Africa are the only countries that

have refused to sign a Ethnic Ban Treaty. In fact the U.S & England got together & gave the Union of So. Africa a nuclear reactor so now they can make a bomb and it is greatly feared that they do have one now. The Soviet union has a laser beam that will stop all bombs fired & it looks like they will have to use it. It is also feared that the US has missiles in satellite circling the earth that can be fired. China has prepared for nuclear war by building under-ground cities that are safe from the bomb that will protect all of the Chinese population. In America, there are only bomb shelters for a few of the most important white Govt officials & rich white pigs.

The economy of fascist capitalist America is very unstable & could go at anytime. Just a couple of weeks ago the value of the American dollar was dropped on the world stock exchange.

We are also in danger of earthquakes that would drop entire portions of San Francisco & Los Angeles into the ocean. There is a drought that you state would last for several more years that is causing a tremendous water & consequent food shortage. Here in Guyana we will never have to worry about water & we can grow our own food.

Since you, precious Father, have provided a place for us here in Socialist Guyana, there is no limit to what we can do if we follow your teachings and put them into practice. Not only can we have a Socialist Jonestown but we will someday be able to reach out to assist other impoverished countries that need food, medical aid, etc as they get their start in Socialism.

Thank you Father for the privilege of being here with you.

Wanda Swinney

Dear Ron, Debby + Nancy:

This is the first letter I have written since high school. I am writing to tell you I love you and miss you. It has been such a long time since we have been together.

I talked to your Mother a few weeks ago and she told me Ron + Nancy are in South America, and that Debby would be joining you soon. I am sure your mission will be a success and a great experience for you. Please write and tell us about it.

It has been so long that I don't know if you know about the new additions to my family. Kathy and I now have two daughters. Christine Kay is five + three-fourths years old, and in kindergarden. Charlein Rose Marie is eighteen months old. Kathy and the children have been a blessing to me. You should see Kathy since she has lost over a hundred pounds, she really looks good. The amazing part is she has done it all on her own. I am very proud of her. I am still working for Dick Bosman but I helped deliver an addition of his own, we are now members of the teamsters union.

We now have full medical benifits, nine holidays, sick pay, small yearly raises and a grievance procedure, of course we also have monthly union dues. I was never in favor of unions because a few leaders set the contract policy for the apathetic union members. I still ~~fact~~ believe that, but they have helped me.

I can't tell you too much about the rest of our old friends because we don't keep in touch. But in case you hadn't heard Tony + Karen have married and have a two month old boy named Joseph; Mike + Janel Yochem have a two months old girl Michelle Lynn; Jim and Madylin Williams moved to Lake Tahoe and back to Orange County in a year; Mike Barry married Irene. George and Barney I have no idea. Do you remember Harold Unruh; he is an engineer for the L.A. County, close to finishing his requirements for a masters, owns a house and apartments.

I feel better for writting to you, please write soon.

God Bless You

Dearest Larry,

Paula just called me* to read your letter over the phone while I'm at the office. What joyous news! I had to stop all work to dash off this note to you. Dad is still in Texas, but is due back in town any day now. He was supposed to call you, but if he tried he didn't say, since I spoke with him long distance last night, (the 5th). He will be so happy when I get the news to him, unless you have ~~already~~ meanwhile written to Houston yourself. And so will Dan.

Congratulations and may your future be full of good news always. Am anxious to hurry home after work and see your picture which Paula told me about. Please tell us the details about your new assignment. And thanks for the marvelous birthday gifts for all of us, except of course Paula's which is on Jan. 11th.

My new job is exciting and at the same time I'm still enjoying the city. Saw the free show of "The Three Penny Opera" in Central Park and it was one of the best things I've seen this year; also, the new exhibit from Bulgaria at the Metropolitan Art Museum of fascinating riches from finds of Tracian pottery, jewelry, articles of use, etc. from 4,000 B.C. upwards. The Museum is open til 8:45 on Tuesdays so I dashed over after work last night. The recreation office is closed for the summer, so I have to find my own entertainment. The last thing they had to offer was tickets to the N.Y. City Ballet. last Sat. mat. Lovely.

Feeling great and Paula is doing fine. Learning to drive via professional driver's school personnel and is thinking of getting a better job which has been offered her, plus schooling, higher salary, etc.

① What would life be like to me if Jim ~~did~~ died? - I feel that I would try and stay here and keep going on, ~~but~~ I don't have no where else to go, know one back there except my father, and don't no his number, I know, I could not survie in living in town, In less it was a small group thing if the government would let us stay - I feel, If I did stay here in no time at all there would be devidion amongst the family, people myself would snap back into racial conflict & work class difference I think life would be a living hell.

② What are you afraid of? - I can't say really, it would have to be a on the moment thing I feel, I know if I fare a tiger or sake, or gun, I would have fear, I don't think I afraid of snake in the ~~jonke~~ bush I careful and move out of the way. more or less I would have to be caught off Guard; If I know what I am about to face, I can't prepare my self. By not thinking of the issues, I know for a fact the second time on the line I was scare to death the more you talk about it, I I don't deal with the fact of death, I psyche myself like I be glad to get kill no more worry of like, or it be quick, or if I get shot, a little old hole aint nothing compare to other pain I delt with - I feel thought I can not when I think about it, be tourche to death or pain in way as getting wire attach to my ball and pull, ~~&~~ even ~~the~~ thought I have had my finger nail come off from being slam in door, I don't think I can deal with them being pull off one by one, or other tourche I ~~[illegible]~~ have head of -

(3) are you prepare to kill your own family? - I don't think of thing like that, just sitting here, I say I don't thing I could live with my self, If I had to, far as michael, wee the closest, Because were all in this family and I don't relate to them as doing tractor thing, which I need to train my mind in that way, I never kill or be that pre pose to, I feel I can do it though -

(4) what method would you use to kill an emeny? - that depend on the situation at hand, if they have gun, then I would like to have equal chance, one on one a knife or beat to death, outside (Hight figure) pick them of with high power silence rifle, or explode with dymite, which I have no skill eighter way.

(5) what type of sexual felling do you feel? looking at a naked body, I feel to Insircure to ask a girl for some pussy, Because I have a small one, and don't no how to approach them, shy more or less at the subject

AM very attracted sexually to Leslie's Breast, my mother had Big Boob's. A very basic internal force in me leads me to a hard on without Romantic illusions. She has promise helping me with the very many gynecological problems I see but doesn't yet have the theoretical grasp of medicine (essential it seems) that Carlis Bonte has. Leslie still wants to do this job.

The image of a black (very black skin) woman I have held up in my mind is deceptive because it is still fuck & no great Romantic commitment to another human being. I am moving hopefully toward communist concern for people & is a strong sexual drive in my work.

I would fuck Renee MacHarry (shat in the neck), Peter W. for the cause, and if I had been a communist instead of a self involved beourgeose medical student I would have fucked Steve Buckmaster as it could have brought him through.

The fact is my right hand & imagination are sexual release enough for me. The idea of romance because of recent experience is deader than before. Thought about telling Janice J. she was still a dear comrade & not to feel I was hostile at her

but this could be an overture. Should be said to relieve some guilt.

I see myself as antithetical to Joe Wilson!

~~Becomes evident that I see woman as mothers, little girls & fellow workers.~~

Even though I've always wanted to fuck a woman with large breasts, at this point I could take it or leave it. But I will do it if it will help her. Emotionally I don't KNOW how much I would be INTO it. I have the capacity to Be kind (as well as a dick head). To show homosexual mechanisms in myself the MOST exitment I got out of doing a pelvic exam was Vernetta Christian, not so much because she was slightly flirtations but Because she had a relaxed uterus which came down in her vagina & felt like a large Penis.

If I was to Reserve myself (shows how NARCISSISTIC I AM) for other women, later on like the Janice J. (Looking like her NOT THINKING like her), Patsy Johnson - A real trip that would be, & others, it would be because I believe in "Romance" & NOT committment. But to turn Hslie Down for someone later who looked more appropriate (or more masculine?) would also be unprincipled as she has the need & I AM NOTHING ANYWAY. Larry Schacht

POINTS ABOUT THE NEUTRON BOMB.

- FROM SOVIET PUBLICATIONS — ABSTRACTED.

Summary from Stop the Neutron Madness.

Pointed out that by Reviewing the events of HIROSHIMA + NAGASAKI AUG 6th & 9th 1945 Respectively, that the type of A-BOMB dropped on HIROSHIMA was only ½ the yield (power) of the one on NAGASAKI But THAT IT EMITTED A great amount of NEUTRONS small particles within the atom without an electric charge which permits them to travel great distances. The Hiroshima Bomb emitted greater 4 to 5 times the amount of Neutron ~~that~~ than the Nagasaki BOMB did.

IN HIROSHIMA 78,000 were killed Right at the time of the BLAST + 10's of THOUSANDS, who came to look for dead relatives & friends, died later. Even though the hiroshima BOMB was only ½ strength it killed 5 times as many people.

The Neutron is NOT "humane" as the USA claims. People die from Bone marrow failure 20 to 40 days after the Blast, this means no blood cells can be formed to carry oxygen + to protect against disease. There is loss of hair, bruising. IN hiroshima were 200 % more mouth ulcerations + 300 % more bleeding, fevers + necrosis (rotting) of the gums.

The neutron radiation caused 20 times more leukemia IN the hiroshima area and cancers of the stomach, liver + breast are quite common. If people do not die

They suffer the rest of their lives from.
Fear, anxiety psychic + ~~physical~~ physical weakness
all those within 4 miles get cataracts
+ 10% of those further away get cataracts.

Pregnant women exposed within FIRST TRIMESTER even if they feel no sickness themselves will have only 25% chance of having a healthy child. 75% of BABIES are born with small heads.

Neutron BOMB 10 to 30 times more inhumane than other Nuclear weapons
The above from: P. RAMZAYEV, D.Sc. (Medicine) Member of Committee of the INTERNATIONAL Radiation association.

in the Netherlands 700,000 Signed anti Neutron Bomb petition. Also done in ASIA + Africa.

The Neutron bomb although 1000 times smaller than some of the megaton hydrogen Bombs is very dangerous because it makes it seem feasible to the capitalist world powers that this type of weapon could be used ~~and not~~ INSTEAD of the larger ones. However all agreement among the rest of the world states that once the neutron bomb is deployed there will definitely follow full scale Thermo-Nuclear war.

Part of the soviet publication has statements by NINO PASTI an ITALIAN SENATOR who points out THAT THE USA could well use ITALY AS A LAUNCHING SITE for NEUTRON BOMBS BECAUSE ITALY already has the military capacity to do this. The type of missiles +

~~THE LANCE MISSILE~~

launchers are in ITALY, 7,000 million LIRE were recently demanded of the ITALIAN TAXPAYERS (TO SUPPORT THE NEUTRON BOMB. THE fact pointed out was THAT THE USA may use ITALY TO launch THE weapons But would lead to the total destruction of ITALY when the Soviets retaliated. The state monopoly capitalists could care less of course about their European lackeys. The concept that the Neutron bomb would be useful as an invading tool because it would allow the army to advance through preserved terrain Rather than the burning Rubble of THERMO-Nuclear devices was mentioned. Even though the USA states it would be a good weapon to prevent tank advance across Europe that this is NOT feasible because of the great distance possible between traveling TANKS.

The main difference between neutron Bomb + atom-Bomb is that it is less destructive in force alone but the lethal Radiation is greater. The Bomb can be launched through lance missile or 7 inch artillery shells.

By the description of Physical effects of the Bomb it is definitely not "clean" as the US claims.

S-201

HISTORY of BOMBS creation.

"hatched in Livermore California. This Lab was formerly under U.C. Berkeley. The

The idea for the W-70 neutron Bomb model 3 for the lance missile originated in the Sunday corporation a subsidiary of Western electric.

The Blueprints went to:

① Rockwell International in L.A. makers of mass destructive weapons, including plans for the B-1 Bomber.

② Monsanto nuclear-chemical TRUST, in St. Louis.

③ Bendix - makers of aerospace - electric equipment N.Y.

All three of these are supported by Dupont, Morgan & Mellon + The components of Bombs & warheads made at these 3 industrial firms go to amarillo Texas for final assembly.

STRATEGY : (1)

what about posturing that we have allegiance to the U.S.? I put this out but don't think it is a good idea, unless could be used as A scare tactic could BACK FIRE.

We should prepare general News paper articles about our STAND here that could be submitted TO local papers NOW or we could tell the PM that we will Be forced to submit these if we can't get our demands. That similar articles are in the hands of our people in the U.S.A. articles could imply lack of commitment to Marxist-Leninism by the government's neglect to control post-colonial beaurocrats. We could submitt arial photographs of our project Taken at low altitude, These would Be quite effective if showing

SE-1-3-2#

our entire population. I think that we need to have group photographs that demonstrate our NUMBERS, they could be done properly & be ready to release when appropriate for whatever historical value they may have. & Public Relations also. I want to try out some alcohol + valium or mild sedative to find the dose it would take to put down a young person like a soldier would not our do. The article should contain our "hunger STRIKE IN NORTH WEST DISTRICT" + contain demands about the release of political prisoners in other countries + the U.S.A. we could say we protest un-marxist lack of support of what Dr. Fernandez called the ideal socialist community. This would be a reasonable point. In fact I think A hunger STRIKE, well

(3)

NOT necessarily during ALPHA so it may have a more offensive appeal + NOT just Defensive tactic during a crisis, would be STRATEGIC.
IT may NOT be productive however but could counter some BAD PRESS (except they may say you are STARVING the group), it would ~~sho~~ let the 3rd world KNOW we were here + we may attract some of the Marxist from Northern Brazil.
We should have some of our relatively loyal people infiltrate the police Dept (this is outRAGEOUS, I imagine, looking at the lack of loyalty people display) or ~~Pro~~ AREAS of Guyanese Society we have not penetrated enough the army, press, etc Harry Schacht

Infected Meat

Cancer infected meat was sold to many restaurants and hamburger joints and to baby food manufactures for .15¢ a lb. Over 300,000 cattle and two million chickens were poisoned with a chemical [fire retardant] that was mixed with the commerical feed. Instead of destroying the animals they were slaughtered and sold. Long tearm effects of the chemical are unknown, but some short tearm effects are memory loss, headaches etc. A few million people may be effected. A farmer studied last his tools and tractor daily, a working man had to quit his job he forgot how to go to work. This is one of the USA major environ-mental destroyers as of now.

A man who assumed the name of the Jackel was a paid assassin. He was paid a quarter of a million dollars to kill Charles De Guall the President of Italy. He made careful plans and assumed many identities. He always worked alone and never told any one of his full plan. He met people and used them for his own purpose. After accepting the money it seemed that he also had ~~a~~ a personal reason for wanting De Guall dead. Although when he had his time to shoot he missed.

I AM TOO QUICK TO GIVE A SHARP INCOMPLETE ANSWER TO THOSE WHO ASK ME ABOUT ANY ART PROJECT I MAY BE WORKING ON. I DON'T LIKE TO ANSWER THEIR QUESTIONS AND EXPLAIN WHAT I'M DOING AND I RECOGNIZE THIS AS ELITISM. I AM VERY SARCASTIC IN MY CONVERSATIONS, AND I KNOW THIS IS HOSTILITY. I ALSO TAKE PRIVELIDGE IN NOT TAKING TIME TO TALK TO PEOPLE THAT COME UP TO ME THAT I DON'T LIKE. I HAVE A TENDENCY TO MAKE DECISIONS TOO QUICKLY IN MY SUPERVISION OF THE BANANA CREW, OR ANYTHING ELSE I MAY BE SUPERVISING. BECAUSE OF THIS I SOME-TIMES CHOOSE WRONGLY. MY QUICK DECISIONS ARE MADE PRIMARILY BECAUSE I JUST WANT TO GET OVER WITH THE PROBLEM I HAVE TO DEAL WITH, AND I THINK BASED ON LAZYNESS. I ALSO PUT OFF ONFRONTING PEOPLE FOR THE SAME REASON. I AM TOO PASSIVE IN MY ROLE AS CO-SUPERVISOR OF THE BANANA CREW. I DON'T PUSH LIKE I SHOULD FOR PRODUCTION. I ALSO GET MAD AT DANNY KUHLS, MY SUPERVISOR, IN FRON OF MY CO-WORKERS AN SOMETIMES VELL BACK INSTEAD OF CONFRONTING HIM PRIVATELY. I think death would be nice. Might be uncomfortable getting there but nice. I have been shot once so that to me would be the best way to go. I have a fear of being cut. To me that would be a hard way to die. Also water drowning. Especially salt water and sharks. I have what I think is the plane to get our enemies. If someone were to be put in isolation and completely programed no matter how long it takes. I don't mean one week I mean if it takes a month then O.K. Then that person or persons could go back and at a time or release word could do it to our enemies. I would volunteer for that. I don't think I have done all I could for

EE-1-5-445

this family. Things you have ~~told me~~ asked me to do such as with Smitty. All of that probably could have been avoided if I had done or tried harder. Whenever something comes up about Groce or Tim I feel extremly bad about it. So I will volunter for that. I really believe that is the only way to get them. Because if someone goes up there to do this to our enemies. I believe without programing there might be to much emotion or what ever and that might cause a hasty shot or premature blast or whatever.

If anything happened to Jad and a leader did not come up such as Steve or someone God chose it would be time to die

any way possible. If any of my blood relatives turned traitor I would kill them on the spot. I think about every thing I used to do back in the states. I miss R.C. ~~cola~~ cola and taco chips most of all. If I could get some for everyone here then I would do so. I have did without for so long until it doesn't bother me any more. I believe my sexual preference of late has been women. In the past it has been men children and women. I am so inadequate in my screwing that fucking of actually does me better than anything other than a blow job.

When I am carrying a gun

I feel more secure. I ~~think~~ believe it most certainly is a penis symbol. With me it is anyway. I get to feeling bad about ~~th~~ it sometime and wonder if I should carry a gun at all. I get to feeling like someone (When I am carrying a gun) thinks I might try to shoot you and that make me feel like a peice of shit. I ~~wod~~ would if I could tear legs arms and what ever else off of anyone I caught trying to kill you and watch them bled to death. I ain't much but I do have a good leader and I would not like to lose him.

Socialism to me is a stepping stone to Communism. Necessary I think. News this wk. Natives 500 porading, The crowd throwing

I talked to Kevon about the news last night on the way to the boat, and this is what I got. Threats for our people in the states. First threat are the traitors and the stuff they get started

That is getting people put into custody I cant remember the name for it. Saying they dont know what they are doing so on. Fascism dictatorship concentration camps, arrest orders for most people here. We should obtain the film EXECUTIVE ACTION . Is is of the same quality and realism as The day of the Jackal and Z. It shows how the Corporate elite murdered kennedy in Dallas. The film is exstremly well done. If we could procure or rip it off it would be worth having.

The chest X Ray you had done revealed a normal heart size no abnormalities of the soft tissues or skeletal structures. The lung fields are clear but a few prominent vascular markings are noted in the right lower lung; very likely a normal variant and I will check here the next opportunity.

Corlis Beute has scoliosis and had X ray studies done throught the time she was growing. the brace was taken off at 17 and she was told to have follow up x ray in Oct 77. We did one here and I calculated the angle of deformity and was quite surprized to find 3 degrees of improvement. I would certainly expect some degeneration or at best no change but improvement I would attribute to the paranormal. But this is not uncommon here.

I evaluated Ernst Thomas and discovered that not only does he have diabetic retinopathy (disease of the retina secondary to diabetes) but fould he has protein 3+ in his urine and a blood pressure that yesterday was ranging 220/110+ . Researching this situation I learned that protein in the urine precedes diabetic renal failure by sometimes as little as five years. I started medications to control his bp and am aware that he needs close attention. It would certainly Have been missed if he had not come to Jonestown.

To answer your question How I am dealing with living with uncertainty, I am nat sure but can see that it is really the healthiest way to live. Will think about it more.

Father,

I believe in Socialism & Communism as the only true way to live where all people are equal in all facts, and all properties and means of production are owned by the people, where there is no racism, no economic or educational division, but all are on an equal basis. I hate capitalism and all the hatred, fascism, racism, & poverty & suffering that goes along with that wicked system where only the very rich & elite people have what they need, & they live off the oppression of the minorities like blacks. I hate the wars & all the evil weapons that the Capitalists use on the minorities.

EE-1-5-236 Father you have taught me the ~~[illegible]~~ beauty (an)

of Socialism of loving, sharing & helping each other. I am tired of running from these bastards & could go & want to stay here & fight & ~~to~~ die if necessary. If there is a chance in another country where our children & all minorities can be free, I want to fight for that too.

I am ashamed of my color & estate, & have been every since you gave me the awareness of racism, etc. I love you & this family so very much, my very life & that of my sons. Because I am white, if there is any way my life can be used to save the family, I beg you to let me do so. Thank you Precious Father,

Father.

The reasons that we are here is because, You are saving us from the Neutron bomb, that destroys people but not poperty. We are safe from the Bokki decision that keeps blacks from the Colleges.

The Genocide treaty, that all but three Country signed stating they would not kill black people.

You are keeping us from earthquakes and famin, the buzz bomb, that America thought would stop the Lazn beam.

We are safe from Concetration camps, and Senate Bill 4, 27 that took the place of senate bill. Where if you didn't answer a police man like he thought you should he could have you imprisoned. also the death penelty bill that put minors in jail. (14 yrs)

The, nucular war, the Nazi and the The decision between the Shaw of Iran and the Sauda of Arabia to make oil the

media of exchange. also the Cliometric decision. this was to make slaves out of some of the population. (blacks)

I feel it my duty to write and let you know some of the things that have happened to me the last 2 wks.

I do not know if this is because I had the wrong Thyroid medicine and it's throwing my whole system off or not.

If I did not feel it so strongly I would not trouble you at all.

I feel my whole personality has changed (I feel like a stranger walking around in the same old body.) I don't feel like the same Rita at all. I feel like a stranger to my

vion self.

I did feel I would hurt or even kill someone (because of whatever charge my body has gone through.)

The medication has helped "Cover" this up but I don't like taking it cause it makes you sleep all the time and I don't produce them; and I feel guilty.

I am so serious that I feel I must speak.

I have gone back to my childhood and thought about things I had forgotten.

Even felt I had been in a Espionage ring at one time and had blown up the Enemies camps

Thoughts of how I would

Plant myself in ~~[illegible]~~ enemies camp and get information and destroy it. I felt as if I had been there before.

But most of all I just don't feel like the same person. I watch myself closely to see what new change will come.

I am not superstitious and believe in nothing but You and Communism. (one in the same.)

Most of these thoughts come at night as I sleep.

Except when I am up I feel like a stranger walking down the pathway. (This feels strange - so strange)

[redacted]

I don't feel crazy and feel my mind is ok.

I feel this is something that must be watched – too drastic of a change in me. Feel it my Communistic duty to inform you of such a change.

One thing I know I would be "one Hell of a Fighter on the Front Line now" but I know it must be controlled for now some how.

I am not sure what to do about it all.

I feel like I could almost write a book about what has happened to me.

P.S. One night late I felt like I should go to the radio room – just sit on the floor by you, just as if you were my only help; but I did not, cause I would not bother you. Over

I did not want to talk or you talk to ~~me~~ it was just a "feeling" that I needed to be close to "The Body" and you know that is just the opposite from me (I generally try to stay out of your way.)

I tell you this so I am not hiding the change that seems to have occurred.

Pita

P.S. I did not take any medicine ~~medicine~~ today, feel nervous, but hate the sleepiness it causes. C

Can't forget what happened to Chaiken so I want a good look taken at this sudden change. I want nothing but to be a Communist

Sunday ①

Dad;

Last night I spent 2 hours with Christine and Zaretta Langston and her sister studying news. She did not say anything negative but I think that is because she knows I will report her. After that I was with her on the crew that makes night workers sandwiches with a few other people but that was just work + not much talking. I think it will take awhile before she would say something I might report.

I will keep you posted on what goes on from now because we have a study group
