Dear Sir,

Please be advised that I am available to work for the F.B.I. in various capacities in the future if you perceive that the genesis of my proposition is viable.

It is imperative to recognize that I have come to recognize that due to the fact that I am a physician with U.S. Nationality who has taken the time to pursue various overseas initiatives,I have been welcomed in cordially not just by many government officials,but also by the general population in many countries. It is for the aaforementioned reason that I am in a posture to work effectively with the F.B.I. in dealing with various serious crimes being perpetruated between the United States and overseas.

Certainly,insofar as government officials are concerned in many instances I have been fortunate to have had the opportunity to have discussions regarding future professional and business interests with true diplomats from such countries as The Peoples' Republic of China,The Soviet Union,Singapore,Taiwan,and Israel. However,it has become clear that in spite of the trust that appears to have developed some of the individuals I spoke with may have been directed to pursue more than diplomacy in the respective Embassies where I spoke with them. It is my assumption that I am still in an optimal position to gain entry to the alluded to and other government offices to pursue whatever initiatives we may perceive of as necessarry due to the information you have gahtered and wish to continue gathering about the activities of various individuals involved.

Also,I am one hundred percent positive that if placed in the Middle East I will be able to place myself in an optimal position to ascertain where certain terrorrist groups are located. Again,as a casually mannered American physician simply taking in the sights in Israel,I have noted in the past that Palestinian groups have invited me to join them for discussions and coffee. If religion ever became an issue I simply stated I was not Jewish,and more trust developed. I was in fact pursuing my own professional interests,as Israeli authorities were aware of,but I could not resist the opportunity to accept the hospitality offered by many Palestinian groups,which lead me naturally to begin to assess there political orientation,there feelings about terrorrism and future wars in the region,and whehter they themselves would actively engage in any activity. I certainly di not feel safe asking about weapons while alone. Therefor,I am in a position to return to the Middle East and work on eradicating various terrorrist groups,which the entire public is learning is effecting every facet of American and European life.

Finally,there is the prospects of also being in a position to infiltrate illicit drug organizations in China,the Middle East,or elswhere due to the fact that I am a physician who feels comfortable taking the initiative to ascertain where such drug traffic is coming from. I am fully cognizant of the actual risks involved in such a capacity;however,there are such risks in any worthwhile career pursuit.

Please keep me in mind for the aforemtioned offer of cooperation with the F.B.I. and have an agent discuss the alluded to with me in more depth at a time of your convenience if you decide to work on my proposition(s) further.

Sincerely,

[redacted]

Congressman Nancy Pelosi

Dear Congressman Pelosi,

Pursuant to our conversation this morning I would like to request an investigation of illegal wiretapping of my premises by the F.B.I.. The F.B.I. has also been responsible for illegally interfering in my professional,business,and personal interests.

The alluded to escalated in scope secondary to an illegal entry upon my premises by two F.B.I. agents in Washington,D.C. while President Reagan was in office. I was forced to sign papers under duress and without my legal rights being given to me. I recognized that shortly therafter one of the agents wrote in several lines on a form which had nothing to do with any statements made by me. I was than told I would be better off residing in China or Central America and asked to leave the United States.

As a New York and California licensed physician I am in a position to work abroad,and I therefor ascertained that it would be easier to actually work abroad than to confront the federal government in court. I proceeded to China to pursue my career goals,which have been viable for me due to close associations I have within the Chinese government. However,upon encountering financial difficulties I returned to New York State and than California only to be confronted with similar harrassment by the federal government.

Insofar as ascertaining the motives for the actions of the federal government,it is clear that there are political ramifications to the actions directed by various administrations,due to a desire to avoid an investigation and press coverage of illegal activities perpetruated upon me by the parties alluded to herein. It is therefor significant to note that I have been recognized in correspondence directed to me as a potential political candidate by Dianne Feinstein and Senator Inouye.

Synopsis: Request case be opened.

Details: On Wednesday January 19, 2005, Stansfield Turner, former Director of the CIA was carjacked by two black males. Turner was purchasing gas at Martin Luther King and Portland Streets SE, WDC at approximately 3:00 p.m. Turner advised as he was removing the nozzle from his car, that two subjects appeared on his left and right. The subject on Turner's right stated, "Give me the keys". Turner was hit in the face by one of the subjects and he fell to the ground. After standing up the subjects took his wallet and his keys. Turner felt something hard like metal against the back of his head and he then heard a click, like the trigger of a gun. The subject on the right then drove Turner's 2001 Cadillac away from the gas station. Turner's vehicle was found approximately an hour later in the First District.

WFO is working with 7D Detectives that includes tracking credit card purchases, attempting to obtain video surveillance, interviewing witnesses, analyzing other carjackings and robberies, reviewing recent arrests for carjacking and working with Sources.

Recounting of an Incident
January 19, 2005

This recounting was written at 9:30 PM on 19 January.

At about 2:45 this afternoon I was returning by car, alone, from Annapolis to Washington. I was on Route 295 when I turned off at the Howard Street exit. I was very low on gas and was looking for a gas station.

It took some time to find one, an Exxon station on Martin Luther King Highway and Portland Street. I inserted my credit card. The screen told me to insert my zip code. I had never seen this before. I typed in the zip code at my office in D.C. and nothing happened. I went over to the attendant/cashier who was inside the station with the door locked. He was a Latino in his 40's or 50's and unintelligible between accent and the glass in cashier's window. I could not understand what he suggested I do. I took out a $20 bill and gave it to him. He asked me how much I wanted. I said $20 worth and went back to the pump. I put the nozzle in the tank, but no gas came out. The attendant motioned for me to press the "start" button. I did several times to no avail. I went over to the window 2-3 times asking him to correct this.

I finally suggested I move the car from pump #3 to pump #1 and see if it would work there. The attendant indicated that would be fine. We then went through the same routine, that is there was no gas. After 1-2 more trips to the attendant's window and my pressing the Start button the gas did flow. I got back in the car in part because it was cold, in part because I noted 3-4 young black boys hanging around the gas station. I locked the doors, but when the pump read $19.90 I got out to disengage the hose when it hit $20.00. As I was about to do that there was a tall (perhaps 6'2") black man of perhaps 18 on my right and another, not quite as tall on my left. They were both dressed in black leather coats. I

26A-WF-230982
RAC 2/15/05 - 77

did not notice their trousers. The one on my left had a scarf wrapped across his face. The one on my right did not have a scarf and had a thin face. Thus, I was boxed in with the car in front of me, the gas pump behind me and a man on each side.

The man on the right said something I did not understand. I asked him to repeat. He said, "Give me the keys." Hoping to stall for time in the expectation that the attendant might intervene I said something like, "Well, why don't I give you some money instead. I reached in my left hand pants pocket and took out my wallet. I had only $22 in it. I handed the $20 bill to the right hand assailant. He took it and insisted again on the keys. I was holding the key (just one) in my right hand and my wallet in the left. I struggled with the man on my left who was trying to take the wallet. He reached back with his right fist, swung, and struck my left cheek. (This resulted in swelling and a small cut on the outside and abrasions on the inside – and, somehow, in this scuffle my right ear lobe was cut also – not seriously.)

I feel to the ground, or rather my knees just crumpled under me. On the ground I said to them something like "Help me up so I can give you the key." When I managed to get up the man on my left pushed something hard against the back of my head and there was a sound like the click of the trigger on an empty gun. I did not see any gun. I gave the wallet to the man on my left and the key to the man on my right. The assailant with the key pushed passed me and jumped in the driver's seat. I didn't see what the other man did. The car took off to the right down M. L. King.

I rushed over to the attendant's window and said something like, "Look what's happened to me right in your gas station. Let me use the phone." The man said "no." He serviced a customer for candy bars and I pleaded with him that I needed help. He said he did not have a phone. I could not see one. After another customer or two, I pleaded with him again, to no avail.

I walked across the street and went into a check-cashing store. The lady behind the window there was very helpful. She called the police and relayed my answers to their questions. The police told her they would be right there. In about 10 minutes two squad cars drove slowly by the store and stopped down the street a ways. I went out and waved to

them and one car backed up into a driveway. Office [redacted] got out and listened to my story. The officer from the other squad car came over. They believed that there had been two incidents, a car jacking and a robbery. I told them it was all one and the other officer left. b6 b7C

Officer [redacted] and I went in his car to the Exxon station. [redacted] quizzed the attendant. While he was doing that I saw a phone on a counter. The attendant said it did not work. I picked it up and it did not. I noted, however, that the cord connecting the phone to the base was disconnected at the phone. I plugged it back in and got a dial tone. I showed this to the attendant. I must have turned away momentarily. When I turned back the attendant said, "It doesn't work." I picked up the receiver and it was dead. I quickly noticed that the phone line to the base was now disconnected at the base. I plugged that in, immediately had a dial tone and called my wife.

As it turns out, my wife had been calling me on our OnStar phone system in the car, as I was well overdue to be home. It is possible that her several calls either alerted the assailants to the fact there was an OnStar locating system, as well as phone, or just frightened them into abandoning the car.

Officer [redacted] and I left the gas station and went to Police Station #70 (I believe that is the designation.) Officer [redacted] took more data from me. I phoned my wife again and she recommended employing my car's OnStar navigation system. I phoned OnStar and they began a search for the car about 4:00. Someone in the police station mentioned that I was bleeding a bit. I put my handkerchief to my cheek but there was no blood on the handkerchief. When I get home there was a fair amount of dried blood stretching from the lower part of my cheek to the corner of my mouth, a swath about ½ inch wide and 3" long. I speculate that it was so cold that the blood dried quickly. b6 b7C

Office [redacted] ordered a cab for me. It came in about half an hour. It was now about 4:30. The cab got me home to Arlington about 6:00. b6 b7C

MPD 1 Officer [redacted] called at 5:20 and confirmed the car was in the mobile crime lab but would not be inspected until Tuesday. On Thursday I learned the car had been found at about 4:45.

Case # 3367

[redacted] b6 b7C

[redacted] phoned the credit card and ATM companies to cancel my cards. Visa had already been calling us because of having noted a sudden rush of charges. SunTrust said someone had attempted to withdraw money from an ATM, but it was not authorized. On Thursday we located the attempted use of the SunTrust card as at a Shell gas station at 4321 Manny Helen Road.

THE BLUNT LETTER

TO THE AMERICAN AND SOVIET PEOPLE.

"The sacrifice of innocents(I'd rather say not fully informed - V.S.)in the name of an abstract principle of legality ~~power~~ of nuclear power is inadmissible."
A.MORO.

For him this realization,perhaps and in any way,is too late.He is only stirring speculation that an underworld power struggle might be under way.

I am the incarnation of all kingdoms,most of all - of Russia and England.Though I could call myself the incarnated son of Stalin - in the Soviet Union I didn't receive official recognition,but was twice jailed,first - in 1960.In 1974,I was forced to leave the country and was deprived of soviet citizenship,because the KGB thought that here it would be easy to kill me.Already at that period of time I did exercise a great influence over the Soviet Union policy.I had friends everywhere,especially in the Army.For conspiracy reasons,however,none of them can take such open steps as I did and do,until the full victory - proclamation me the head of state.

I had no choice but to leave the Soviet Union and win the recognition of the American people.Mr.Carter won the Presidency only because he applied the program formulated by me.His interview in "Playboy",his inauguration speech - is my interview and my speech.I was the Creator,he only spoke.

I do not see much difference between American and Soviet peliticians and people,and more,actually here and there - people are governed by Mafia, equipped with nuclear power.The nuclear rascals,the KGB and CIA (as their only tools of "Oswald's" - for dirty tricks and betrayal) are conducting a racial war against their own citizens.This racial war is being conducted through modern technological weapons,including:nuclear computer of brainwashing techniques with eaves-droppings of all man's thoughts(bugging of all - nuclear telepathy of "hsi nao"),producing man-made earthquakes and change of the weather,floods, etc.And for it I was and I am still able to exercise my intellectual superiority over the heads of brass.

They themselves are killing people through "microwave ovens" of nuclear plants - thus producing cancer,heart attacks,auto-accidents,but through Remarks and other "brilliant" minds they are making people passive and agressively resistant to any attempt to clear the way.Because then - You are the coming "murderer - Jesus Christ".They killed Gagarin,because according to their theory such people as Gagarins - are apes and must be killed,but they blame for that - the coming Jesus.But Jesus had never left us,and any one who raises the sword - ~~will perish from~~ from the sword will perish.

Do You disagree? Not - ~~n~~ in public,for it You like that the sword will be one-~~sided~~ edged,only in your hands.This is the reason why Jewish Mafia always despised kings.The best example of this final degradation is "Kalki" by Gore Vidal.He in fullfilling social order of nuclear Mafia is trying to make people believe that all kings are dead and those alive are worth only to be in circus.With such tricks they only unmask their first racial lie about Christ,as though he came only to be killed,as though there wasn't struggle,as though he didn't die in war for all.Not in racial war,not in war against Jews,but in war against Jewish Mafia.Kings as others and as Greek gods - can be overcome and die also.

Physicists are trying to hide from people knowledge that these weapons and tools they had received from God.Instead,this is a basic for their unwritten racism,allegedly "Star Wars",war with their former Teacher and Father.Yes,we are living in times of racial war of scientific Mafia against all others.For atrocities of World Wars,for Civil War in Russia,for allegedly "Nature's" disasters - they are responsible,not Hitler and Stalin...

And they know for sure the reasons of events,thus they make us believe though that we are living in a inevitably tragic world.Why?! Because they are fighting with God,at the same time they are a part of God's world. They understand all futility of this struggle,though justification for it they are finding in social role of Masters and its privileges.The God,the other world is structurally related to our - in one.Hamlet's remark "the

time is out of joint" - is referred exactly to this fact,to disproportions in relations between these two worlds.There is - no one,number one doesn't exist in Nature at all,but two compound one.And this is time.

The God - the world of other civilization is around us,everywhere,the world of other part of materiality,invisible to our visible,but related to our in the same manner as plus to minus.Physicists are calling it vaccuum,void, ether.In 18th century in France there were a lot of discussion about it.

Mafia openly induce in public such racial myths as "Animal Farm" of Orwell and make people believe - as though others are going to kill them. They make people to be afraid of coming Jesus as though He is going to kill all sinners and witches.But Jesus never was out.He was always with us through the kings.But kings were not able to realize that.Their mission was to govern by wisdom,not applied science.Mafia did,but who was responsible in this world"out of joint" - Stalin,that means Jesus?The meaning of the second Jesus is nothing more,than time when one of the Kings,the Lord comes to the realization that God is the other civilization of ours and helps people to live not as slaves,but as masters of their own lives.

There is no one in the world who could claim to be President of both countries as I can and as I already am.Because I am the last in the long generation of Kings,including King Tut,first victim of "neutron" radiation of "serpents" and as a result transforming him almost to a woman,and all of Jesus Christ's forefathers.This is the reason why the Bible is stressing not so much the Father as the long list of Kings,whom Jesus claimed to be his ancestors.

The American people made their choice whom they wanted to be their President.It's me.But the Mafia through its planted agents everywhere,including the highest ranking officials in the KGB and CIA and with help of street gangsters,at a la "one Oswald", - desperately are trying to kill me as they killed Kennedy.But,if Kennedy vacillated as though he didn't want to defend himself and we,that means God,had no choice - but permit the crime to occur ,I have no such mistakes and no one can defeat me.Similarly was ousted Nixon,where the collaboration of traitors in both coun-

tries had already appeared in the most sinistrous,cynical and open way of outrageous lie.

Thus the Goverments,first of all their KGB and CIA with FBI,are becoming the most dangerous terrorists in the world.For each derailed freight train,especially with liquid phosphorus and other poisonous gas,~~they~~ in the USA - the CIA and FBI are responsible.Lo the movies:"Gauntlet","Melinda", "Coma","Demon seeds","Fury","Telefon".But,despite these movies about me,no one could believe in such conspiracy and there is no way for any other one to find the answer and solve the problem of no one decade of centuries back

Kissinger sold Vietnam to Andropov.The last is selling the ~~XXXXX~~ Soviet people to the CIA,which AN agent he ~~is~~ was of since 1954.Their goal - not order and happiness for people in USSR and USA,but to preserve the status quo of ~~[illegible]~~ Mafia.The question of social order interested them at least.That's why Ford and Carter have such different ~~[illegible]~~ views about Poland,but have common the principle:we accept any dominance,including soviets,as long as this dominance preserves our racists' supremacy over all others.

Why so gloom about ours governers?Because the sin of Adam and Eve - is a sin of "neutron bomb".The "neutron bomb" issue is a question of nuclear radiation unleashed by nuclear "physicists" of various kind and time toward all others,thus paving the way for world Mafia.But they aren't trained to be the Army as well the Judge.

Some of them - realized it and would like to give the Control of these weapons - to the best,to me.But evidently for political reasons they are unable to do so.That's why I am speaking through both:Carter and Brezhnev,and some others.The physicists are killing me with neutron laser,though — God not permit.For it they are coming to the realization of God,but not in a manner as it has to be:"We've come to realize there is a limit to our powers"..

The U.S. and U.S.S.R. governments display indecision and inconsistency and ~~looks~~ look back at circles of Mafia,of Sakharovs and Kissingers,which were against this agreement of God - of Detente from the very beginning.

These circles provoked the second World War and we are heading toward the "thermonuclear catastrophe".Know,Hitler and Stalin weren't able to prevent the war,though they wanted to.And if the people wouldn't be able to put me in the position where I am de facto - we'll face more than just nuclear war, because Brezhnev and Carter aren't worth a dime and don't lift a finger by themselves.

I have no prejudice to any witch and saint.My rule is based:L I V E B Y T H E C O D E , O R D I E .I did not invent 'the code',according to which the atomic physicists are giving themselves rights to kill others,but they did.The movie about me-"Serpent's egg" tells us about the transformation of those serpents of biblical times.I only transformed this racial war into Civil War.That's why in the U.S.A. the crime is down.And with me are Jews. As I'm Lithuanian,Russian,American,Irish,so I am - Sionist,too.My demands are demands of : H O N O R , C O U N T R Y , D U T Y .

They are playing even more dangerous games with our children.The movie "Appel's game".Allegedly "cloning" and the biological engineering are as old as human civilization : a friend of Hercules was a man with a horse's body, a centaur.Already then it was said : QUT LICET JOVI NOT LICET BOVI(What is permitted for God it isn't for a man).It was said exactly to those scientists who without wisdom of God tried to apply some of God's techniques - for generations to come.

But I ask them who are You to make such Judgements?!What difference is there between You and street gangsters ?! There is none ! Perhaps,the mobster will win this moral competition.Modern science is a big crime syndicate with pretense of an angel face,because it's concept of cosmos is much more primitive for the need of a conscious lie,than that of a pygmy,not to mention myths of Greeks.Tremendous progress of science - and a conscious lie.

The truth today isn't simply permitted,worldwide.And who is seeking it? They are saying that only I.Thus they call me with contempt - Promethean.And here lurks the vampire of a vicious circle:to break it God used to mani-

pulate these rats from and not of God,thus permitting them to kill each other allegedly for their contribution and a new word,a case of Lenin,and they quicl -ly formed the theory : the fighters for New,Ideals and People - have no reward in this world,but loneliness,unhappiness and early death and equated it to the deaths of "innocents".But the life according to principles - already is a reward,and ~~xxxxxxxxxxxx~~ "innocent" children deaths - very often are the results of your fault and ~~xxxxx~~ wrong engineering.

They are taking away from me every job I had,and finally not giving me work at all,so - no money.At the same time I am conducting the job of messrs. Brezhnev and Carter,the world policy - creating philosophy for it.They know it,but they instigate people,who couldn't understand the real situation,- to accuse me of droning.I do the most of all and I not only deprived the results of my work,not only forced to live in constant assasination,including:food poisoning,putting gas in my living room,chemicals on my clothes,wordly assault everywhere,booming sounds to disturb my hearing and so on.Shortly,there was no one in the world,who has gone through such torture as I had and as I still am going through,needly to mention "neutron bomb" constant radiation.And I am a drone?!This I've heard first from the KGB agents and was referred to as though I have chosen a wrong job,not a manual labour,despite my master degree. I,who made my living since I was eleven and had a regular job since seventeen. They,our governers,lost not only their conscience,but all likeness of human beings.

My personality and way of life is being discussed in such movies(more than 100)as: "PAFNUCIO SANTO","PADRE,PADRONE","MIDNIGHT COWBOY","THE BOYS IN COMPANY C","ORPHANS","ROCKY","TAXI DRIVER","THE BETSY","1900","JENNIFER", "JULIA","ORKA","THE ROLLING THUNDER","ANNIE HALL","DERSU USALA","CLOSE ENCOUNTERS OF THE THIRD KIND","THE MAN WHO LOVED WOMEN","TODO MODO",AND SO ON...

When I was one year old I was paralyzed by atomic murderers and during a year of ordeal almost died.But Leningrad who raised and fed such monsters and gave them power was punished immidiately - through 900 days of German blockade.Whom Leningrad had to blame - me,or those whom God can't stand and peo-

ple too!??

For the terror of Government there is a terror of God,the terror of Nature and Universe : "The suicide' must not be a prerogative exclusive to the Baader-Meinhof group".

And for God it is enough to transform any part of visible structure into invisible and any buildings will fall apart,as in case of collapsing of the Hartford Civic Center's roof.As long as the civilization exists,so long it is followed by various holocausts.Only people were never informed - why? what are the reasons for tragedies? Ignorance and treachery.Our governers,the rats from and not of God, imagined over their sovereignty as equal to God and do not want to acknowledge their own fault,because they expect to survive the fight with God.But as long as God is using them as his own tools against their racists supremacy,so long they are alive.That's why they are living in a tragic world.But be for the people - not against them and You will have no tragedy.

The other world isn't against ours,but against Mafia and wanted us to realize its existence.When I was forced to accept your reality of murderers with saint's faces,your "code",- I resisted,treating You as myself,openly warning You before imposing my death sentences,if... I was and am not afraid to accept responsibility - to execute,because I am The Judge with wisdom and I am only The Punishment.For those who are imposing on society a crime as a way of living and are daily killing our people and children.

Before I strike,after being assasinated,I'm warning.I'm warning and say "stop".After second attempt to raise the sword - I strike.And strike as God - devastatingly.All You with your power and money - zeros !! because You don't love people !! and You have no rights to be their governers.

I challenge You W.Webster and Adm.S.Turner !! Defend me,your President, country and people.Otherwise,I'm going to kill You,exactly in a manner You killed Kennedy.You owe me already two-year salary.It is also a slaying...So and the business can't expect something else than trouble if You won't pay your President.And remember,when I strike,if and for You it would be too late.

then will perish your circle of relatives and friends.

You were first to threaten me - to kill my son and my family.But your hands are short : You threaten - I warn,You wish to kill - I do and execute.

And I'm only smiling,when You are putting Air Force division around my house - to block the "communication"with the world.At first block mice of mine - in the White House.And find out that the Capital of the world is there where is the King.If KGB and Andropov are fond of betraying the country in hands of Mafia,so be the same with the CIA and FBI ?! You think so,don't You?! If don't - than support a King.Because without a King the Mafia can't be defeated,only perished ...with all around.

My fathers,Stalin and Sevruk,You killed,but Here and There was,is and always will be a King,who contemplates,who as Jesus Christ,will make people closer and closer to the realization of God,of reality - where we have to be Masters,not slaves.For it the possibility of a new world-wide flood still remains.Though rather - we're opening the door in the eternal world and life.

I'm declaring amnesty for all participants in this Civil World War.Exept for such traitors as Andropov and Kissinger...But and for them I'm saying : Don't be afraid of death in life,but fear - a cosmogonic death.

N.B. Fight with me have no sense but suicide.I'm history and I'm people, indefeasible and imminent.People of white and black,of blue and red.I'm East and I'm West.And I'm Nature with its animal world.I'm Godfather.

On the Easter's day,1978.

A fast for freedom ends in quiet LI home

By MIKE HUREWITZ

In a quiet house in Jamaica, a Lithuanian-born Marxist ~~and atheist~~ has been fasting for the past 28 days to secure religious freedom for his countrymen.

Vaclovas Sevrukas, a Soviet dissident, emigrated from Russia last May, began his hunger strike at the Rome Food Conference Nov. 12 and is to end it today.

"It was rether difficult to starve until the 15th day, but afterwards, I didn't seem to require food as much. I still get dizzy when I wake up, and for the last few days—on the advice of friends—I've been having citrus juices," he said through the aid of an interpreter.

Assuming his yoga position that he says helped him keep fit during the fast, Sevrukas explained the views that prompted Soviet officials twice to send him to an insane asylum.

* * *

HIS DISSENT began ~~shortly after~~ before graduating in Russian literature from the University of Vilnius.

"I found I couldn't express myself under the system, and since I couldn't understand why, I started to study sociology and philosophy," he said. The latter led to a job teaching Marxism-Leninism in a Leningrad institute and work as a sociologist in a Vilnius factory. From these experiences a deep discontent welled within him.

He began to feel that the Soviet Union ~~was not truly Marxist, but instead~~ was a country practicing state capitalism and totalitarianism.

Marxism, he said, is grounded in reality and practicality; it assumes people will naturally find different ways to interpret experience, just as people have many different languages. Marxists can and should respect these other philosophies and co-exist with them, he preached. The only philosophies which should not be tolerated are those which go against "universal human rights."

Christ was trying to build communism in the minds of men and Marx geared a similar effort among its societal forms, according to Sevrukas' philosophy.

* * *

SEVRUKAS also believes that Soviet Jews ~~not only~~ have the right to emigrate, ~~he is the only since they are not allowed to worship freely~~.

He said that anti-Semitism is rampant amongst the Russians, and cited an incident that he called typical.

"Once a person who I later found out was a Jew was leading a child to her home. He was a neighbor of the child. But a group of people attacked him and dragged him to the headquarters of the local militia because they felt that he wanted to kidnap the child. Such assumptions are some of the expressions of anti-Semitism."

Sevrukas also believes that the 3 million people who live near the Baltic Sea in the Republic of Lithuania have a right to self-determination. It has been occupied and absorbed into the Soviet Union since Stalin ordered it invaded in 1940.

He said there were crimes committed there by Soviet leaders that violate the Russian constitution. Absolution can only begin, he said, with a Nuremberg-type process to which people are held accountable.

* * *

WITH VIEWS like this, it is little wonder Sevrukas clashed with Soviet officialdom.

He established contact with the underground press in Lithuania and Moscow. He wrote for and disseminated forbidden literature and collaborated with the Committee for Human Rights of Russian dissident physicist Andre Sakharov.

He was arrested and, after almost 11 months of interrogation, was placed in an insane asylum. A smile flitted across Sevrukas' hunger-hollowed cheeks as he recalled the diagnosis—"mania for Marxism and search of truth."

Sevrukas intends to further cultivate this "disease" here by learning English, attending Harvard and eventually teaching philosophy.

Employee To Fast Six Days For 3 Soviet Dissidents

By HARLAN GREENMAN

A Butler Library employee will start a six-day hunger strike today to protest the Soviet Union's use of psychiatry to silence political dissidents.

Vacys Sevrukas said yesterday that the goal of the fast is to obtain the release of Leonid Plusch, Mindavgas Tamonis, and Zinovii Krasivskii, dissidents being held in Soviet insane asylums. Sevrukas, who was recently expelled from the Soviet Union and now works in the Butler Inter-Library Loan Department, will wear a sign proclaiming his purpose while he works in the library during his fast.

According to Sevrukas, Krasivskii is confined because he is a leader of the Ukranian National Front, a dissident group associated with the Democratic National Movement. The movement, whose members include Soviet physicist Andrei Sakarov, is partly underground, but publishes newspapers and magazines openly throughout the USSR.

Vacys Sevrukas

Tamonis and Plusch, Sevrukas said, are also confined because their political views are unacceptable to Soviet officials.

Sevrukas, who himself was jailed once and twice sent to a psychiatric hospital, was put in prison because he wrote a manuscript about his views on why he was sent to the asylum. He said the doctor at the asylum diagnosed Sevrukas's illness as a "mania for Marxism and delusory search of truth."

Sevrukas said that he believes there are about 10,000 political prisoners in Soviet prisons, labor camps, and psychiatric hospitals, and added that he thinks many of them have been forcibly drugged.

The library employee, whose hunger strike will end on the anniversary of the United Nations Declaration of Human Rights, said of relations between the American and Soviet peoples, "we must shake hands not only in space, but in the struggle for human rights" as well.

Sevrukas staged a 29-day hunger strike at last year's [redacted]. He has also been active in working for a release of scholar Vitali Rubin, who has been offered a post at Columbia, but refused an exit visa.

THE BULLET OF 1960 TOWARD MY HEART

Jefferson in his first Inaugural Address 176 years ago: "If there be any among us who would wish to dissolve this Union or to change its republican form, let them stand undisturbed as monuments of the safety with which error of opinion may be tolerated where reason is left free to combat it."

"The Soviets have long been convinced they were winning the struggle with the West without having to resort to all-out war.

They want to undermine everything we believe in." **W. A. Harriman**

Over two years ago, I was expelled from the Soviet Union after having been jailed (in 1972) and twice sent to a psychiatric hospital for dissident activity (1960 and 1973).

The Soviet society's use of psychiatry to eliminate political dissidents is based in thought that judges any "deviation" from conformity with state-oriented ideas and behavior is either a crime or a disease. My own comprehension of Communist theory was evaluated as a disease.

No Longer a Marxist

Today I no longer call myself a Marxist, which I swashbuckingly professed to be during most of my presence in the U. S. When I came here, I sincerely intended to return to my homeland in Lithuania. I wanted only to enrich myself through studying the West's experience. However, KGB, through their "ombudsmen," made my life in the United States exactly

Dissidents and Compulsion

Leonid Brezhnev has said that his country has few dissidents and they do not represent Soviet society. Maybe this is the compulsive ritual of men in power. Gerald Ford said of S. Moore and L. Fromme and other "gun-carrying" persons: "They do not represent us." No matter whether or not Brezhnev and Ford are right, what concerns me is how dissidents are treated and how they treat society.

The shots taken at the U. S. A. President remind me of the "compulsion" I

Toward the end of 1897 Paukstis had an acrimonious falling out with Father Bu. a over financial matters in the local parish. They became enemies. Pursuit of Happiness

If we compare our model of reality to traditional religious models, we have to admit that not one God, but a whole host of gods, must be examined, composed and evaluated. If we compose the gods of totalitarism with the gods of supernatural belief, we must likewise examine and evaluate it by our own life experience.

The pursuit of happiness cannot consist only in external things such as higher social status, changing society, and shootings. Nor can it entirely consist of the internal: spiritual aspirations. By being concerned with ourselves and expressing the process of our change we may reconstruct society and summon up those reforms for which it is ripe . . .

The First Step

The time has come to reform society's use of mental hospitals. My Soviet Doctor Lunts seems to agree. At the Serbsky Institute, when I was about to be sent away, I tried to stake a deal with him.

I said, "No doubt you know about the Kuznetsov Commission (Kuznetsov investigated mental hospitals after the XXth party congress) the results of which were pretty hard on your Institute. Though nothing has been done since then, that doesn't mean there won't be a trial someday where you figure as an accomplice . . ."

To judge from his demeanor and words, Lunts was listening carefully. It was clear that he considered the trial a serious possiblity. Maybe he thought it was still a long way off. He must be proven wrong.

The use of psychiatry to quell political dissidence is a crime against mankind.

Aren't our present-day Lunts also murderers? They are killing not men but their thoughts. It is strange how some people confuse this with a cure of all society.

wanted only to enrich myself through studying the West's experience. However, KGB, through their "ombudsmen," made my life in the United States exactly the same as what Patricia Hearst was saying about herself. During this difficult time I received help and advice from my new American friends. My knowledge increased tremendously and I could oppose the KGB "silent treatment." Their joke was: "You will feel like a man in limbo being free here!" I met this not only calmly, but with smiles because of the support I felt and am feeling constantly. Step by step, I started to consider myself as an American and realized in full accordance with my inner self that the most effective modern social theory has to be not Marxism, but Humanism.

A Humanist Today

Today I am a Humanist and I share in these views with millions of Americans as I do with many Soviet people, too. Today the line between world adversaries is no longer between the West and East, but between Humanism and Totalitarianism. I had almost reached this point back in the Soviet Union.

Communists and Marxism

The Soviet Union has been more disgraced by its scandals than by those forced to leave it. I had frequently heard Communist officials declare that my understanding of Marxism was an obsession. The same officials stated unofficially: "You are only a cog in a wheel; it is none of your business to concern yourself with socialist theory and practice." Others concurred by maintaining that they had the same opinion regarding most of the things I was saying, but they did not translate them into action.

Earnest physicians considered my thought as a "mania for Marxism" and a "delusory search for truth." One political scientist consulted by the KGB was more cautious:

"If he is mad, he is too smart for this sort of sickness. If he is healthy, he is very harmful and dangerous to the Soviet state." In uttering this statement, the political scientist was accepting the quelling of thought by closing his eyes to the "smartness" and fearing only the presumed "harmfulness."

society.

The shots taken at the U. S. A. President remind me of the "compulsion" once experienced to kill Lazutka, the Vice Rector of Vilnius University, in Lithuania, my former homeland. I never real planned to kill him; I mention this on because I know what it is to feel th almost overpowering urge of revenge For me, there was no opportunity t express myself such as I witnessed stu dents at Columbia University had whe they could declare: "McGILL RENEGE ON COMMITMENT TO LATINS," whe they were outraged by their president Reading this leaflet on the campus o Columbia University, I noticed that it wa signed by the Latin-American Studen Organization, as if it invited people t participate in their endeavors. Therefore "Moore" and "Fromme" should hav known that no one's business begins a the White House. Each must have his ow "McGill" or "Lazutka," who called m once to his office. At the time (1962) I wa a second year student and had chided th university for inattentiveness to the fin ancial needs of classmates, and I ha made some unpopular remarks about th program for the XXIInd Party Congress.

As I sat before Lazutka, I knew h must have learned of my backgroun from the KGB. Each industrial enter prise, every cell of society, has its KG representative.

Lazutka's Bullet

Lazutka was friendly to me; his who manner seemed to show that he admire my scholastic ability and my courage f daring to express myself:

"Your opinions and demands are abs lutely justified and right, but it is t early to carry them out. Among th students you are a black sheep (whi crow). You remind me of don Quixote."

I didn't try to justify my opinions, b only to explain them.

"You were in the army before you cam here. Weren't you placed there in psychiatric hospital?"

I told Lazutka I had joined the arm after six and a half years at the Suvoro Military Academy, and that my exper ence there, plus a readings-commitmen

From this situation, my 'incorrect views' and that of the audience became obvious.

Moreover, the staff was dealing with me illegally, denying me leave, saying leave was a special favor. So I sent a report up the chain of command, demanding that the rules either specify leave to be the right of any soldier, not a favor (which was later carried out), or that they publicly explain any special case that might arise. To support this demand I went on a three-day hunger strike. A day later I was sent to the psychiatric hospital.

"My Bloody Heart"

On [redacted] way there, a medic told me I would probably get an early discharge from the army. But Krivoi told my father that by sending me there they were trying to keep me from being brought to trial for my political views.

Entering the hospital, I did not feel harrassed, but bewildered as if I had just awakened on the moon. I talked sincerely with doctors, and was interested by this new place, where I stood among patients-soldiers awaiting diagnosis.

One soldier I met was "mistakenly" declared healthy enough to go back into the army. A week later he was back in the hospital, unable to recognize anyone around him. How could it be, I wondered, that a week ago he was "healthy" and now he was "insane?" *Who was responsible for that change, or is it possible that man's natur[redacted]f can be changed?*

I spent my time chatting with patients and reading; and when it was my turn to be diagnosed and authorities asked me why I had not continued my hunger strike in the hospital, I replied bitterly: "I can read freely here—why should I continue the hunger strike?"

Two months later I was sent back to the garrison under the care of a friend, who read me the doctors' diagnosis: "mania for Marxism and delusory search for truth."

Lazutka's Bullet Strikes

Vice-Rector Lazutka told me that he understood me and regretted what had happened, and he wanted to help me by riding me before another psychiatric panel. I heard admiration in his v[illegible] mistake. To justify this "mistake"—he cited, as its cause, the huge costs in Lithuanian lives allegedly lost in the resistance movement—the "partisan war." This was an outright lie. Resistant partisans had little to do with the disaster of the collective farms. The organizers of the collective farms failed to do a job and simply blamed the resistance movement.

If a foreign army invades a country, and begins a "social revolution," taking away the peasants' property and forcing them to work on state farms, and if those peasants have no chance to complain to anyone, but see every sixth Lithuanian sent to Siberia and see only force, what [illegible] of totalitarian thought.

Judgment?

Yet I, an offspring of that "Communist" society, could not believe its judgment, but only its heresy. Dissent, in my time, was unheard-of, as it still is to many. Therefore, among those of totalitarian mediocrity, my dissent caused me to ponder whether my real existence—my thought—was a disease or an illusion.

Since I did not want to go to the psychiatric hospital, I could not express my "delusory" self. And yet, since I did want to live, I had to express myself. I had to keep walking on the edge of the cliff: neither to stop thinking and become [illegible] hotel, the Senegalese had already surrendered the petition to the KGB. *I was used to the fearfulness of Soviet citizens, but it saddened me that a man from abroad had acted the same way.*

I felt the painful fact of the bullet again. At a Komsomol Conference the next week it was on the agenda to expel me from the delegation. This did not wound me: the audience had the right to do what it wanted. What did wound me was the Party official's decision not to discuss openly my second expulsion, now from the Komsomol: "because of his disease."

Parodox

I didn't give a damn that someone had called me insane, not even if he was someone whom I respected. When I worked at the Elfa Factory, as sociologist, a vicedirector of economics, an intellectual, whose suggestions on social planning had been voted down in favor of mine, had used the same defamatory libel as his argument.

The libel, this sticky bramble, could not in itself needle me. But it blocked the way (as my thwarted expulsion from the Komsomol) to dissent from mediocre "sanity."

The "sane" society likes to use a certain surface paradox common among some "liberals": "They have been spoken freely, but haven't changed anything."

The paradox implies that everyone "knows" enough to make the right decisions for society. But if everyone could implement his own "correct" decision, society would be chaos.

In the light of this paradox, even Stalin and Hitler are justified; they too claimed that they had all the answers.

This paradox is rooted in modern logic's belief that only one concept of the world can be correct. But the modern logic is formal logic, which has no jurisdiction in the question of value. Social ideas, it seems to me, must be judged by a higher criterion of wisdom. The formal logical approach implies that only its own concept of the world is correct. The result is that, today, we are threatened by that who asserts that, for every man of good will there is the tyrant whose own world plan necessarily excludes all others.

The two notes together as described in enclosed LHM contain direct threats against Charles L. Brown, Lt. General Robert Barrow and ADmiral Stansfield Turner. Threats against the other individuals mentioned is at best by innuendo and, of course, there are indications that the author of these notes is [redacted] b6 b7C The title change, therefore, includes only those individuals who are directly threatened.

As noted in the enclosed LHM none of the threatened disruption of services has occurred at C & P Telephone Company and there is a distinct lack of an extortionate demand on the part of the subject as well as any interstate character to the transmission of the threatening notes. These factors, of course, raise jurisdictional questions under the Federal extortion statute and Hobbs Act. However, with the inclusion of multiple "death threats", Baltimore is continuing its investigation to identify all persons mentioned in the note with the objective of notifying them of the C & P incidents and determining if some connection between the victims can be established which will help identify the subject.

UACB, victim contact will be limited to civilian personnel ie. other than U.S. Government personnel inasmuch as these widely known personalities are likely to have been selected as random representatives of institutions which obviously occupy some disheveled corner of the author's mind. The only possible exception to this is General Barrow who is unknown to Baltimore. Accordingly, the LHM dissemination at Headquarters level has been requested.

For information of New York and WFO, both notes have been sent to the FBI Laboratory for examination.
