Thank you. I must insist that any information you obtain be placed in an EC and serialized to the case as soon as possible. If this came from [redacted] I would ask them if they will be adding it to their case, so that we can reserialize.

Also, I don't understand why this information is not going to [redacted] directly.

USCP bomb techs on the scene believed the mason jars and rags were components for Molotov cocktails. Coffman later informed FBI personnel on scene that the mason jars were filled with a mixture of melted Styrofoam and gasoline. FBI ERT and HERT remain on scene processing the truck and weapons.
