grenade to the office and that when he pulled the pin he would get attention. [redacted] has spoken to Clark on several occasions and is familiar with him. [redacted] telephoned Congressman Jones' Greenville, North Carolina office to advise the staff there of the telephone call. Clark was already talking on the telephone to the Greenville staff and said he was going to take the hand grenade to Washington on Monday, June 26, 1995. b6 b7C

Detective [redacted] stated the uniformed police officers at the Capitol Police Department are familiar with Clark and have denied him entrance to the capitol on at least two occasions between March and May of this year.

On June 30, 1995, Detective [redacted] of the New Bern Police Department was contacted. [redacted] stated that Donald Clark lives at 301 Ellington Street, New Bern, North Carolina. [redacted] drove by Clark's house to determine if he was at home. [redacted] could not tell if Clark was there and did not knock on his door because Clark becomes agitated and reports to the local media that he is being harassed by the police.

Detective [redacted] stated that Clark enjoys attention and recently tied himself to a wooden cross in his front yard so area news crews would film him. On Memorial Day, Clark stated he would poor gasoline on himself and light it as a form of protest.

On June 26, 1995, [redacted] County Service Officer, New Bern, North Carolina, was contacted and advised of Clark's actions. [redacted] said she has dealt with Clark many times in the past. He telephoned her office Friday, June 23, 1995, around 2:30 and politely requested a letter from his file. [redacted] telephoned Clark and determined he was at his home in New Bern at the present time. [redacted] told Clark that she was returning his call from Friday regarding the letter and did not ask him about telephone calls to Congressman Jones. [redacted] stated she did not believe Clark would follow through on his threats. In the past, Clark has made threats but never carried them out. She stated he is supposed to take 5 milligrams of valium eight times a day but the drug is to keep him calm due to a heart condition and not for a mental condition. b6 b7C

[redacted] advised she had a letter dated June 6, 1995, indicating that Congressman Jones had recently been working with the Veteran's Administration and American Legion to get Clark more disability pay. The decision would probably be favorable to Clark but the final decision would take up to six weeks.

[redacted] said Clark was very excited about being interviewed twice by FBI Agents when he threatened to shoot the Supreme Court Justices in April, 1995. She said he would enjoy being arrested so he could get more attention. [redacted] also stated that after the last incident with Clark, the American Legion representative who drove Clark to the train station said he would no longer try to help Clark or drive him anywhere.

AUSA [redacted] United States Attorney's Office, Raleigh, North Carolina, was contacted regarding this matter on June 23, 1995 and again on June 28, 1995. AUSA [redacted] advised that her office would decline prosecution in this matter. b6 b7C

It is requested that this case be placed in a closed status as all investigation has been completed. The file has been reviewed to insure, where appropriate, submission of FD-515s/R-84s disposition of evidence, completion of indexing requirements, and updating of NCIC entry information if necessary.
