Reference Butel to all SACs dated 7/30/76 and Buairtel to all SACs dated 8/6/76.

By referenced communications, a list of the subjects in the investigation and trial of Ethel and Julius Rosenberg was furnished each field office. Also furnished each field office was a list of the names on the Government's Witness List relating to the investigation and trial of Julius and Ethel Rosenberg. The list of subjects and individuals appearing on the Government's Witness List will therefore not be repeated in this communication.

For your information captioned FOIA suit has been in litigation for approximately two years. During the course of this litigation, on 8/1/75, the Court issued an Order that no documents maintained by the FBI be destroyed. Due to the file destruction moratorium then in effect, that Court Order was not brought to your attention in 1975. Due to the continuing litigation and current discussion regarding reinstitution of a file destruction program in the near future, you are hereby being advised of the Order of the Court in this matter. Accordingly, no files maintained in your office (origin or auxiliary office) relating to any of the main subjects or individuals appearing on the Government's Witness List should be destroyed. These files must

3-29-61 Photostat made of portion of report furnished by [redacted] [redacted] b7D

On April 23, 1958, WF T-19 advised that I. F. STONE was the featured speaker at an open meeting of the Democratic Socialist Forum of Chicago which was held on April 18, 1958, at Roosevelt University, 430 South Michigan Avenue, Chicago, Illinois, at 8:30 p.m. Informant stated that STONE was introduced as a famous Washington publicist and author of "The Hidden History of the Korean War". Informant stated that STONE described himself as a left wing liberal, and spoke on his impression of Russia. According to WF T-19, STONE was critical of Russian culture, because it was too mid-Victorian. STONE pointed out that the subway in Russia was too ornate and mentioned that the Russian people needed more adequate housing.

Commenting on Russian journalism, STONE stated that the Russian newspapers do not really say anything, and that they all seem to be written by the same person. Informant mentioned that STONE commented on the Russian legal setup by stating that although it is reformed once in a while, the changes are kept secret. STONE stated that Russia is a Socialist Country, because there is no private property there. He predicted that Socialism would come to the United States, and that radicals must face up to the problems of maintaining democracy and nationalizing property.

On April 23, 1958, WF T-20, [redacted] security information in the Chicago, Illinois area, made available information reflecting that I. F. STONE was the featured speaker at a meeting of the Democratic Socialist Forum held on April 18, 1958, at Roosevelt University, Chicago, Illinois. According to WF T-20, STONE was introduced as the publisher of "I. F. Stone's Weekly", described as a "left wing publication." Informant stated that STONE's topic was "An Analysis of Russia Today", and he described his recent trip to Soviet Russia. Informant stated that STONE was highly critical of the present Soviet system, and described Moscow as the dirtiest city he had seen in a long time. He attacked the Soviet press and stated that the Soviet paper, "Pravda", was one of three in the Soviet Union, adding that if you read one you have read the three of them. Informant mentioned that STONE had stated that the Soviets did not allow any foreign newspapers in Russia, and that when publications printed in the United States are available in Russia it is only when they contain articles which praised or gave favorable facts about the Soviet Union. Informant also advised that STONE had attacked the Soviet legal system, stating that it was impossible to receive a fair trial, as the court is under the jurisdiction of the Soviet Police as it has been since the days of the Czar. Informant advised that STONE concluded his speech stating that neither communism or socialism will succeed in Russia until they see fit to give the people democracy along with it.

On April 21, 1958, WF T-21 advised that I. F. STONE had delivered a lecture on April 18, 1958, in Chicago, Illinois, which was sponsored by the Politics Club, University of Chicago.

Informant stated the lecture was held in the Social Science Building at the University of Chicago, and STONE's topic was "Teller, Testing and New Nuclear Perils". Informant stated that STONE claimed that the Atomic Energy Commission had only made available a handful of cases regarding the danger of radiation fallout.

On September 24, 1957, WF T-17 advised that I. F. STONE, of Washington, D. C., was one of the speakers at an open meeting of the Eugene V. Debs Forum of Chicago held on September 20, 1957, at Curtiss Hall, 410 South Michigan Avenue, Chicago, Illinois. Informant stated that STONE's topic was "Will Mankind Destroy Himself?", and concerned the use of atomic and nuclear energy usage in war. According to informant, STONE, in his talk, stated that damage due to fall-out is dangerous to mankind, and that the United States Government should cease nuclear tests. Informant advised that STONE deplored the idea of the United States handing out nuclear weapons all over Europe, especially to countries surrounding Russia, because he felt these countries could use these bombs to set the world afire.

Dear Mr. Webster:

We should like to advise the Bureau that a Soviet defector [redacted] made absurd charges against us in the attached press clipping suggesting that representatives of our organization and other groups interested in disarmament, such as SANE, had come to him for "instructions" while he was in Moscow. b6 b7C

We gather that the most informed Government circles consider this defector to be "extremely unreliable" and we should like to add our heartfelt agreement. Please have this information and denial placed in any files kept on this defector and, for that matter, on our distinguished organization, to the extent that such exist.

Please note that by phone we mentioned our outrage about this on June 28 to Agent [redacted] and invited a representative of the Bureau to meet with us to discuss [redacted] behavior but we have received no response. b6 b7C

Sincerely,

Conservative club hears Soviet defector

By Solveig Eggerz
Packet Staff Writer

The Soviet Union has a well defined strategy for world domination, is seeking the unilateral disarmament of the U.S. through a so-called "peace" movement, is now making plans for a nuclear attack against the U.S., a top Soviet defector told the Alexandria Conservative Club.

The speaker was Igor Glagolev, who served as chief of the section on disarmament of the Institute of World Economy and International Relations of the Academy of Sciences of the U.S.S.R. He was also a consultant to Soviet officials concerned with International Security Arms Control Negotiations and prepared working papers for the chief Soviet negotiators for SALT I.

Dr. Glagolev defected to the U.S. in 1976 and now is director of the Association for the Cooperation of Democratic Countries.

Dr. Glagolev painted a bleak picture of the prospects for peace by describing the Soviets as eminently aggressive.

"Most Soviet leaders are experts in nuclear war," he said. "They are already planning a nuclear attack on the U.S. Their main strategy was announced last year at the 26th Congress of the Communist Party in Moscow. The main point is would domination and the main method is armed struggle."

This and the fact that all long range Soviet weapons are aimed at the U.S., Glagolev feels, has been concelaed from Americans (by the media he says.) So have the statistics that reveal Soviet superiority in nuclear weapons.

"The Salt I treaty called for Soviet superiority, but the Russian leaders speak only of 'equality' and those in the West echo their words," Glagolev noted.

He indicated that the Soviets are now six times as strong as the West in nuclear weapons, and eight times stronger in chemical weapons. Moscow has 12,000 anti-aircraft strategic missiles while the U.S. has none, he said.

Complimenting President Reagan for understanding the nature of growing Soviet strength, Glagolev warned that the U.S. must recognize its weakness if it is ever to restore military equality, much less superiority.

He scoffed at the idea that nuclear was is "unwinnable."

"First of all, any nuclear power can win a war against any non-nuclear power. Remember the U.S. and Japan? Secondly, a strong nuclear power can defeat a weak nuclear power. Consider the Soviet Union in a war against Israel."

Although the Soviet Union is currently able to destroy the bulk of U.S. weapons and although new Soviet technology is making U.S. submarines vulnerable, the situation can still be turned around, he said.

Glagolev would like to see the U.S. restore strategic equality and stop providing credits and advanced technology to the Communist world. He also called for U.S. aid to those fighting Communist agression, such as the freedom fighters in Afghanistan and Jonas Savimbi's UNITA forces in Angola.

He harshly criticized the peace movement in the U.S. and Europe and the campaign for a nuclear freeze as being "manipulated from Moscow through the Soviet-created World Peace Council."

While he was still working for the Soviet government, Glagolev recalled, "Leaders of your 'peace' groups, such as SANE and the Federation of American Scientists, came to Moscow for instructions. I met all of them there.

"Once when I was visiting in New York, a representative of the Federation of American Scientists came to me for instructions.

"The Communist Party of the Soviet Union appoints all members of the World Peace Council and controls all of these movements. They want the unilateral disarmament of the West, and the 'nuclear freeze' movement is aiming at that result."

He would like to see the Voice of America and Radio Free Europe used far more effectively in the battle for the minds of the Russian people.

"Once I recall in Moscow, the VOA announced that there would be a non-Communist art exhibition in a private apartment. When I went there, thousands of people lined the street waiting to get in. The VOA announcement was the only publicity that exhibit received," Glagolev related.

The majority of the Russian people, he said, hate Communism.

"They are our best allies and we should do everything to help them rather than continuing to assist the governments which enslave them."

To change the Soviet system Glagolev cited the need to stop providing the Soviet leadership with credits and technological transfers.

[redacted] is characterized as having furnished reliable information in the past.

A review of the Chicago files concerning this individual reveals no derogatory information which would reflect upon his reputation, loyalty or credibility, and, in the past, he has expressed his willingness to testify in open court or before administrative hearing boards.

Inasmuch as this former source is presently residing in the [redacted] it is requested that the [redacted] advise the Bureau and WFO whether or not there is any information known to [redacted] which would reflect adversely upon this individual's credibility if utilized as a witness, and of his willingness to testify. b6 b7C b7D

For the information of the [redacted], the Defense Department letter advised that that office has for consideration the access authorization case of JEREMY JUDAH STONE, who was born at New York, New York, on 11/25/35, and who is the son of ISIDOR FEINSTEIN STONE (WFO security subject). JEREMY STONE is an employee of the Rand Corporation, Santa Monica, California. b6 b7C b7D

The Defense Department advised that it was preparing a case for an eventual personal appearance proceeding, and advised that it desired that the FBI advise it as to the availability and willingness to testify at a personal appearance proceeding of informants WF T-1 through WF T-37, as set out in a report on ISIDOR FEINSTEIN STONE. The Defense Department apparently refers to report of SA [redacted] dated 5/7/59, at Washington, D.C. The Defense Department desired the complete identity and address of each informant who was available and willing to testify together with any pertinent information indicating the potential worth of each as a witness. b6 b7C

The Defense Department further stated that in the cases of those informants who are either unavailable or unwilling to testify, that it be advised in each case the reasons therefor, and that they be furnished an assessment of the reliability of each one.

The Defense Department letter further stated that when it became apparent that the informants having knowledge relating to key issues are available and willing to testify, it will not be necessary to contact others whose information duplicates that already obtained.

The Bureau has advised that this matter be handled in an expeditious manner in order that the Department of Defense can be advised at the earliest possible date.

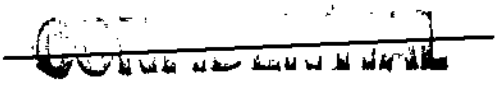
and advised as follows:

She would entertain the possibility of appearing as a Government witness if the successful prosecution of the instant case hinged upon her testimony. She feels that her appearance as a witness would probably be detrimental to her professionally and socially, [redacted] b6 b7C b7D the above-mentioned employment if she did appear as a Government witness; therefore, she is extremely reluctant to do so, and the Philadelphia Office recommends her services not be utilized.

[redacted] b6 b7C b7D and advised as follows:

[redacted] b6 b7C b7D He felt the disclosure at the present time of the fact he had assisted the FBI would be detrimental to him professionally and socially, and for this reason he does not desire to testify as a witness for the Government concerning his knowledge of subversive activities.

It should be noted that the meeting of the ECLC on 4/16/55, which was attended by [redacted] was in New York City, and the New York Office would be in a more logical position to furnish possible witnesses for this meeting than the Philadelphia Office. Copies of instant letter are being submitted to New York for a determination by that office whether it might be able to furnish the names of any possible witnesses for testimony concerning I. F. STONE's remark at this meeting. (U) b6 b7C b7D



It is also noted that in both of the conferences sponsored by the ECLC, respectively, in New York City on 4/16/55 and in Philadelphia on 6/11/55, I. F. STONE was a moderator in a forum entitled, "The Politics of Fear," and former Senator WILLIAM LANGER from North Dakota, who was a chairman at that time of the U. S. Senate Judiciary Subcommittee on Constitutional Rights, was a speaker to the conferences as a whole. It would appear that any testimony as to I. F. STONE's activities in the course of these conferences would be somewhat negated because of former Senator LANGER's participation in the same conferences.

A review of the files of the Philadelphia Office failed to disclose any other persons who might be utilized as witnesses concerning the ECLC conference in Philadelphia on 6/11/55. Some of the people who furnished information to the Philadelphia Office concerning this conference are currently paid Security Informants and thus are not available for testimony; and other people who attended this conference are not available for testimony for a variety of reasons.

CONFIDENTIAL

A review of the NYO file pertaining to ISIDORE FEINSTEIN STONE disclosed that NYO does not possess a copy of the above-mentioned rep of SA [redacted] dated 5/7/59. Accordingly this office does not know just what information concerning remarks made by I.F. STONE at the ECLC conference of 4/16/55 was attributed to [redacted] in SA [redacted] rep of 5/7/59. (C)

The following information attributable to [redacted] concerning the meeting of 4/16/55 in NYC was located in [redacted] and unless WFO advises to the contrary, it will be assumed that the data set forth in SA [redacted] rep of 5/7/59, as having been furnished by [redacted] is substantially similar to the following. (The above condition has been made in view of the fact that re Philadelphia letter suggests that NYO find witness for certain remarks by I.F. STONE at the 5/7/59 meeting, which were set forth in a rep which apparently is not in the possession of the NYO.) (C)

NYO files reflect that [redacted] telephonically contacted SA [redacted] on 4/16/55, and advised that he had attended the afternoon session of the ECLC conference held at Carnegie Hall, NYC, on 4/16/55, consisting of a symposium of moderators of morning forums and an address by Senator WILLIAM LANGER. I.F. STONE, the first speaker, reported on conditions in this country and stated there were signs of rebirth of freedom here. He said that he believes this country is moving in the correct direction concerning civil liberties and that there now is less to fear. (C)

NYO files also contain a letter from Philadelphia, dated 6/30/55, captioned "ECLC-IS-C" (100-107419-387), containing details of a written report furnished on 4/18/55, by [redacted] (original maintained in Philadelphia file [redacted] [redacted] concerning the meeting of 4/16/55. [redacted] reported that I.F. STONE was first speaker at the afternoon meeting held in the main auditorium of Carnegie Hall. In addition to information (C)

CONFIDENTIAL

furnished orally as set forth in above, [redacted] in this written report advised that STONE stated that MATUSOW had succeeded in deflating the informers, and as a result the FBI was frantic. STONE also suggested that the people of NY hold a Judas Escariot Day. (U)

b6

b7D

A review of the NYO file pertaining to the ECLC (100-107419) and other files of this office disclosed that the ECLC conference held 4/16/55 was attended, in addition to [redacted] by the following: (U)

b6
b7C
b7D

[redacted] and [redacted]

Of these, the records disclose that only [redacted] and [redacted] attended sessions at which I.F. STONE was a speaker. It is to be noted that the report of [redacted] dated 9/20/55, at NY, concerning the ECLC (100-107417-454) points out with respect to the conference of 4/16/55, that there were five simultaneous forums scheduled to be held during the morning of that date in nearby halls and a general session in Carnegie Hall during the afternoon and that I.F. STONE was listed as moderator of forum # 5, entitled "Politics of Fear". Other sources who attended the conference, according to the reports they furnished to this office, did not attend those portions of the conference at which STONE was a speaker. [redacted] for example, attended the afternoon conference for a brief time while [redacted] was speaking, and saw I.F. STONE on the dias, but did not hear him speak. [redacted] written report concerning his attendance reflects his coverage of forum # 2 held during the morning, but there is no indication that he attended the afternoon conference at which STONE was a speaker. (U)

[redacted]

b6
b7C
b7D

NYO files reflect that [redacted] on 5/16/55 furnished a typewritten report [redacted] concerning the ECLC conference of 4/16/55 at Carnegie Hall. (U)

It is to be noted that [redacted] in his report attributed to I.F. STONE the statement "The Party is worried". [redacted] orally advised the NYO that he was certain that he heard STONE make this remark but that he did not know if STONE was referring at the time to the Communist Party or to a major political party. (U)

b6
b7C
b7D

[redacted] reported that I.F. STONE, Editor of I.F. Stone's Weekly, was among members of the panel seated at the speakers table at a conference held from 2:00 to 4:30 p.m. in Carnegie Hall. He reported that the following statements were made by STONE: "The informer must be depicted as a cheap person, not a hero". "We must campaign the teachers not to be informers". "The Party is worried". (U)

Enclosed herewith for the Bureau is the original and four copies and for the Boston Office, two copies of a LHM, dated and captioned as above.

The confidential source mentioned in the body of the LHM is a source whose documentation is anonymous and whose identity cannot be revealed under any circumstances.

The LHM is classified "~~Confidential~~" since it reflects investigative coverage of a foreign diplomatic establishment.

For the information of the Boston Office, a review of the NYO indices reflects that one JEREMY JUDAH STONE, who was the subject of an AEAA investigation in 1952 regarding Air Force clearance for access to top secret material, may be identical to the writer of the communication.

Indices of the NYO further reflect that [redacted] Hudson Institute, in his report regarding his trip to the [redacted] advised that [redacted] a lengthy discussion of the background and activities of JEREMY STONE and [redacted] suggested that while he, STONE, was young, he would be a good one for the Soviets to carry on further discussions relative to disarmament.

NYO indices further reflect that ISIDOR FEINSTEIN STONE, father of JEREMY JUDAH STONE, was a CP member in the mid 1930's and was still active in the CP in 1945. He was editor and publisher of the "I. F. Stone Weekly," and in the past has been critical of the FBI and its investigation (Bureau file 100-37078, New York file 100-90640).

For the aid of the Boston Office, the communication is set forth in its entirety as follows:

It is on stationery entitled "Harvard University Center for International Affairs," and is addressed to [redacted] and dated April 20, 1966. [redacted] b6 b7C

"I received today your letter of April 11 with its very thoughtful suggestion that you might be able to forward several copies of my book on my behalf, to interested persons in the Soviet Union. This is most kind and I would like to avail myself of this opportunity. I have already mailed copies of this book to the following persons interested in disarmament whom I have met; Academicians [redacted] I have also written to a [redacted] who, by chance, had quoted my father's views on strategy. If you would, at your discretion, choose six other persons to whom the attached copies might usefully be sent, I should be very happy. In the event that I later send still further copies to the USSR, I shall assume that Academician [redacted] whom you mention, have already received one. b6 b7C

"Since we spoke at Harvard University, my interest in sending these books to the USSR has grown because of my decision to attend the International Congress of Mathematics in August - you may have noticed that mathematics is my profession. It is my hope that it will be possible in August, not only to observe the Congress, but also to discuss those important questions of disarmament of which I have written. My wife, who is a student of the Russian language as well as a Doctor of Mathematics, will accompany me. We

b3
b7E

will be in Moscow from August 14 to August 30 at least; if, in fact, it seems likely to be possible to discuss questions of disarmament and if your government permits us a longer visa we may stay until September 5. As you know, I am a non-governmental student of these matters. My comments would reflect only my personal opinions but I am no less eager to exchange views for that. Therefore, if it is possible, and convenient, for you to signify my interest in discussions tothose persons to whom these books are sent I should be especially indebted.

"Thank you again for your assistance and, especially for reading my book; this is what authors most require.

"With best regards,

"Sincerely

"Jeremy J. Stone"

The NYO has summarized the above letter in the LHM in an effort to further conceal the confidential source.

Boston is requested to ascertain if the writer of this communication is identical to the son of the long-time CP member, ISIDOR FEINSTEIN STONE. If identical, Boston should handle in accordance with instructions contained in Section 105K of the Manual of Instructions.

Boston should also be alerted to the fact that the Soviet Intelligence Service is especially interested in cultivating and using persons of STONE's caliber. It is extremely possible that if STONE is the son of the long-time CP member, the KGB may be aware of this and could possibly utilize some way to approach STONE while he is in Moscow.

On April 22, 1966, a confidential source, who has furnished reliable information in the past, advised that Jeremy J. Stone, of Harvard University, advised [redacted] that he was sending several copies of his book for forwarding to interested persons in the Soviet Union. Stone indicated to [redacted] that he had already mailed copies of his book to several persons in the Soviet Union who are interested in disarmament.

The source advised that Stone intended to attend the International Congress of Mathematics in Moscow, Union of Soviet Socialist Republics, and would be in Moscow with his wife, a student of the Russian language, as well as a Doctor of Mathematics, from August 14 to August 30, 1966. Stone indicated to Kutakov that if it were possible to discuss questions of disarmament with persons to whom his book had been sent, he and his wife could stay until September 5, 1966. Stone further indicated, according to the source, that his comments would reflect only his personal opinions, but this in no way would make him less eager to exchange views on the question of disarmament.

Regarding I. F. Stone on June 26, 1950 a third source advised that in the mid 1930's I. F. Stone became a member of the Communist Party (CP). According to the source Stone assisted the CP in the preparation of attacks on enemies of the CP.

In connection with another matter Jeremy Stone on January 27, 1959 was interviewed by representatives of another government agency. Certain questions were asked of him regarding his father's affiliations with the CP. Although Jeremy Stone was not too informative he did advise his father did not control his thinking; and that his (Jeremy Stone's) political views are his own. He stated in the interview that he thought Communism as practiced in Russia posed a definite military and economic threat to the United States. (S) [illegible]

MEMORANDUM FOR FILE:

Re: Interview with Dr. Jeremy J. Stone

In response to Dr. Stone's letter to [redacted] a copy of which is attached, I called Dr. Stone on January 7, and arranged to meet with him on January 8 at 2:30 p.m. in my office. [redacted] was present during most of the meeting. b6 b7C

In response to our inquiry, Dr. Stone described the Federation of American Scientists as a nonprofit organization interested in legislative action with respect to issues affecting science and society. With respect to himself, Dr. Stone stated that he held a doctorate in mathematics, although he was not actively pursuing that discipline at this time. He indicated that he had recently written on political subjects, and that his current activity was directed toward political and social problems.

Dr. Stone stated that he was interested in our procedures for handling national security and other authorized wiretapping. He was told that we had specific procedures for handling court-ordered wiretapping which we would outline for him, but that we would not discuss national security wiretapping and that this aspect of the subject should properly be discussed with the Federal agencies involved.

Dr. Stone expressed dissatisfaction with our refusal to discuss national security wiretapping; he stated that one of his concerns is that uncontrolled cooperation between the "bureaucracies" of the Telephone Company and the F.B.I. was a distinct possibility and would impose a real hazard to the legitimate privacy of individuals. He expressed a strong feeling that this area was a legitimate concern for organizations such as his, and that a refusal to discuss the subject was unwarranted.

We repeated that we would not discuss national security wiretapping, and that anything that was said did not apply to this area. With respect to court-ordered wiretapping, we stated that our practice was that an employee of the Company would inspect the court order to determine that it was valid on its face before any cooperation was given. Dr. Stone asked to see the form on which a record of such inspection was made. He stated that the procedure for inspection would undoubtedly require a form and he appeared skeptical of our statements with respect to our practice. He continued to talk of the action of the F.B.I. and

100-38620-85

FBI — WASH. F.O.

appeared to be ignoring the distinction between national security and other lawful interceptions. We again pointed out that we were discussing only procedures in court-ordered interceptions, and further told him that the assistance provided in such cases was ordinarily limited to cable and pair information, and that additional assistance was only provided under unusual circumstances. We stated that, to our knowledge, additional assistance in no case had included the actual connection of the tap by employees of our Company.

Dr. Stone inquired about our handling of requests for line checks by subscribers who suspect a tap. We told him that a check would be made, and that the customer would be advised whether or not evidence of tampering was found. Taps would be reported to law enforcement agencies to determine if they were court-ordered and to afford opportunity for investigation if unlawful, but that the customer would be advised in any event.

Dr. Stone asserted that our statements were inconsistent with testimony by Bell System witnesses at Congressional hearings. He indicated that he was referring to testimony before the Long Committee, and we pointed out that the policy we were discussing was formulated to implement the provisions of the Omnibus Crime Control Bill of 1968 and that the practices were not necessarily applicable prior to that time. Dr. Stone requested the number of such inquiries from subscribers, and the results of our investigations. We indicated that we would see what information was available. He asked if reports of such activities were made to the F.C.C., and we said that we did not know whether any such reports were required, but that if required, they were undoubtedly made. Dr. Stone remarked that there was some conflict in testimony he had read concerning whether or not such reports were made.

Discussing the handling of customer complaints, we pointed out that a report to the suspect was required by the law within a short period following termination of the interception; Dr. Stone later indicated that he was not aware of this provision.

Dr. Stone asked how we would feel about impersonation of Company employees by law enforcement officials engaged in interceptions. He was told that we would not like such a practice. Dr. Stone asserted that such action was wide spread and shouldn't something be done by the Company about it. We replied that we had no knowledge of such impersonations, and since our employees were not in uniform it was difficult to distinguish between a Company employee and other craftsmen wearing tool belts. Dr. Stone again asserted that the practice was wide spread; that our craftsmen knew all about it; and that the Company should investigate the matter.

Dr. Stone asked if our statements reflected policy throughout the Bell System: He was told that we were speaking only for our particular Company, and that practices might or might not vary to some extent among other companies; this was a national problem as to which there had been discussions among the System companies, but the practices adopted by this Company reflected its view of proper procedures in the light of its particular situation.

Dr. Stone questioned whether the design of our plant facilitated unlawful tapping, and referred to some purported instance in New York where private lines had been wired with the connivance of craftsmen to permit dialing in on "thousands of lines." I indicated that I had no knowledge of the particular instances to which he referred, and stated that the technical aspects were beyond my competence. Dr. Stone indicated that his organization had the capacity to develop information in this area.

Dr. Stone indicated that he would like to pursue this subject further with employees in the security organization actually administering our practices and with linemen actually working in the City. I did not encourage him to believe that we would comply, but indicated we would consider this request and his request for information concerning the number of requests for line checks and the results of our investigations.

Dear [redacted]:

As I explained to you when you were kind enough to grant me an interview with yourself and [redacted] b6 b7C the Federation of American Scientists is looking into the question of privacy of communications with a view to informing our members. I have left you with three requests. I wanted to know the number of persons who had asked C & P to check their lines with a view to possible evesdropping. I wanted to speak to the management of the security department that conducts such checks. And I wanted the privilege of interviewing some of the men who deal directly with customers in installing and checking phones. I appreciate your willingness to consider these requests and I look forward to your response.

As I mentioned to you over the telephone, I am still confused about certain questions and wonder if, for the sake of precision, I might write you about them. The fact of the matter is that I have received conflicting reports on some of these questions.

1. As far as is known to C & P, representatives of other Government agencies do not a) own trucks [redacted] that are designed to give the impression that they are telephone company trucks; b) send their personnel into homes along with C & P personnel (whether with Government warrants or otherwise) in such a way as to create the illusion that both are repair men c) otherwise represent themselves directly or indirectly, as telephone company personnel. Is this correct?

2. As far as is known to C & P, has any telephone company employee ever been disciplined or fired for electronic evesdropping whether authorized or unauthorized. How common is this?

3. You have advised me that the telephone company does not "place the taps" that may be authorized by court order. Does it, however, a) lease lines for that purpose b) supervise the placing of the taps c) otherwise cooperate in the placing of the tap. In the case of court-ordered evesdropping that may use the telephone lines, does the telephone company cooperate with law-enforcement officials whose warrant is to evesdrop electronically on conversations not taking place over the phone, but who wish to use the telephone on the premises (or its lines) for evesdropping purposes. Does it, for example, supervise the placement of suitable devices on telephones?

4. You have advised me that, apart from national security evesdropping, the telephone company advises persons on whose lines evesdropping devices are found that such devices have been found, even if the devices were placed by court order. You said that this is done after the Department of justice is notified. May I see a blank copy of a form advising a private party that evesdropping had been going on on his line? How many persons were advised that such devices had been found over the last few years? How many devices have been found? How many persons issued requests for inspection of their lines? Are reports of these statistics made to the F.C.C.?

5. Does the telephone company have written procedures for verifying and handling requests of the Federal Government for cooperation in national security evesdropping cases? Is it satisfied that all requests made to it, in this regard, by the Justice Department, military intelligence agencies and/or the CIA were personally authorized by the Attorney General acting for the President?

6. Has the telephone company found evidence of wiretapping by Soviet or Eastern European agents?

7. Has the telephone company ever uncovered a bugging device in the office, or at the home, of a Congressman or Senator? I do not wish to know particulars of a private nature, of course.

Let me thank you in advance for helping me with these questions. As you know, a sizable number of persons seriously question the security of their telephone lines. A complete and full answer to these questions would, I am sure, allay many of the anxieties my members feel.

I look forward to hearing from you.

Sincerely,

Jeremy J. Stone

Dear [redacted]:

I am writing to you as Director of the Federation of American Scientists to request an interview to discuss certain aspects of telephone company involvement in bugging and wire tapping. The Federation is interested in such matters with a view to encouraging appropriate congressional action. If you or one of your associates could discuss these sensitive questions with me, it would be most helpful.

Sincerely,
