Reurairtel dated 6/13/95.

The Investigative Support Unit (ISU), Critical Incident Support Group (CIRG), has reviewed each of the questions posed by reairtel, and the following provides a response to most issues raised. However, it is not possible to answer, with specificity, several of the questions posed, in view of the absence of physical evidence or evidence of the offender's behavior necessary for interpretation or analysis. Speculation as to possible reasons for the UNABOM subject's behavior could be counter-productive to the investigation and negatively impact on an expeditious identification and apprehension of the subject.

assumed that was his intent. It should also be considered that the changes and/or modifications the UNABOM subject has made to his devices over the years is likely his way of "customizing" his devices for a specific victim based on his personal feelings toward that victim.

QUESTION #8 - Eugene O'Neill Stamps

The Eugene O'Neill stamp has importance and meaning to the UNABOM subject. However, within the realm of possibilities, no one can say with certainty, what this significance or importance might be. Without any forensic evidence or specific behavior on which to base an analysis, drawing a specific connection between Eugene O'Neill's anarchist views and the UNABOM subject's goals would be speculative at this point. The only person who knows the reason or reasons these stamps are important is the UNABOM subject, himself.

It is not uncommon in a serial investigation for investigators to be perplexed by some aspect of the case or the offender's behavior. However, there are not always answers to these puzzles, until such time as the offender is interviewed and provides the explanation. In some cases, "puzzles" to which investigators attach some significance or special meaning, in fact, were determined to have no particular meaning to the offender.

(For additional analysis of possible connections with Eugene O'Neill, UTF should refer to CIRG airtel dated 7/26/95.)

QUESTION #9 - Survey of Serial Bombing Cases

As UTF is aware, ASAC Terchie, Acting SSA [redacted], and SA [redacted] participated in the 5/11/95, UNABOM conference at Quantico, facilitated by ISU personnel at the request of San Francisco. Also in attendance were representatives from FBI Headquarters; the Department of Justice; Bureau of Alcohol, Tobacco, and Firearms; and Postal Inspection Service. Different style serial bombing cases were the subject of this meeting and several cases were exhaustively discussed throughout the day. All significant material was disseminated at that time to UTF personnel, and everyone was encouraged to take notes. Therefore, unless UTF advises that providing a written summary of this survey is critical to the ongoing investigation, one will not be provided at this time.
