'Bombers' Framed, Officials Charge

The recent unpleasant happenings in Atlanta have caused the NATIONAL STATES' RIGHTS PARTY to issue the following statement, dated October 17:

This party is opposed to violence of any kind. We condemn recent bombings of schools and synagogues. At the same time we are absolutely convinced of the innocence of members Chester Griffin, George Bright, and Wallace Allen, held in Atlanta, Ga. We understand that lie detector tests have been given. They will prove these men innocent. We will stand by them until they are completely exonerated. In our opinion, this smear has been created to keep the National States' Rights Party off the ballot in 1960.

Officials of the new party believe that this incident will make it possible to begin a nationwide crackdown on Rightist groups. They also believe that great sums of money will be spent to convict these innocent men. If convicted, they can be made to pay with their lives. National Organizer Matt Koehl says, "The real issue at stake is one of civil rights and freedom. Apparently these apply to all, regardless of race, color or creed unless one happens to be a conscious White man."

The DEFEND AMERICA FUND has been established. This Fund is to be used at the discretion of Admiral John G. Crommelin, Trustee, for legal expenses in this and other cases. The address of the Fund is P.O. Box 441, Wetumpka, Alabama.

Northern League Office Opened

Falling in step with other "realistic idealists" located all around the world, the first North American office of THE NORTHERN LEAGUE has been established at Sausalito, California.

The object of THE NORTHERN LEAGUE is cultural: to create better relations between White people of all nations. In this way the mutual misunderstandings will be eliminated which have so far resulted in two terrible world wars and which now weaken the resistance of Christendom in its fight for survival.

The emphasis of THE NORTHERN LEAGUE is scientific and forward-looking. It is recognized that

PETER ZENGER IS DEAD . . . BUT WE AREN'T!

In RIGHT-36, page 1, we warned that alien elements were beginning a campaign to put across "group libel" legislation. This would bar any factual criticism of the subversive activities of certain well-known anti-American organizations.

A different way has been dug up to accomplish the same end. Since it is obvious that the promoters of such legislation would have a hard time getting it through Congress, they have instead persuaded the Post Office Department to "investigate" the possibility of simply barring "hate publications" from the mails and then letting the Soo-preme Co'ht decide if they have a right to do so or not! This information is contained in an October 22 dispatch from the New York *Herald-Tribune*. Since an article in the same paper on October 6 defines RIGHT as a "hate publication," you can see where we fit in.

The excuse is that these "hate publications" are responsible for inciting the bombing of schools and synagogues. Since no one has yet been convicted of any bombing, except a Communist named "Carl Braden," who recently bombed a Negro home in a White neighborhood in Louisville, it seems as if the Post Office is jumping the gun.

Here is something that all Americans who love truth must fight tooth and toenail. Should the promoters be successful in this, the next step would be to quash all criticism, even the mildest, of unpleasant and unhealthy political and social trends.

Our ruling elite, the press and radio never tire of

lling us of our freedom of the press. Peter Zenger nd all the other dead heroes are dug up each year, nd their stories are repeated over and over. Well, ow is the time for our "free press" to begin to put s money where its mouth is. How much do we really elieve in freedom? Is it more than a pleasant refrain o give lip service to or are we willing to subscribe to he doctrine when truth and not platitude is at stake?

And isn't it odd how these mysterious bombings re playing right into the hands of the pressure roups?

HOSE SOUTHERN BOMBINGS

As yet there is no proof about who is responsible or the southern synagogue bombings. It may well be hat it is the work of the Zionists or the Communists hemselves, who know it will stir up further sympathy or the "oppressed minorities" in the South and furher hatred for the "barbarous segregationists."

On the other hand, it would not be too surprising f this is actually the work of southerners who feel esperately frustrated, betrayed and abandoned. This ould very well be another confirmation of the sociological theorem that White people cannot be forced o obey laws they contemn. Apparently all intelligent Americans except nine Supreme Court appointees have earned this from the failure of Prohibition.

Only one thing seems sure. Although the Zionist-NAACP-AFL-CIO Power Bloc Coalition has all of he federal force and money on its side, and is armed vith the eager favor of the press, radio, movies, chools and churches, it will meet an increasingly trong wall of resistance from White people everyhere who realize that this bloody business is not of heir own doing, and who do not mean to back down, ow that they clearly perceive—behind the smiling ace and pentomic troops of Mr. Eisenhower—the Zionist objective of unlimited federal power, permaent minority control and racial and cultural suicide or all Whites.

When faced with heavy odds the reaction of strongilled people is to fight all the harder, regardless of onsequences. This fight is sure to find a growing umber of supporters North of Mason-Dixon.

SCIENCE

AN ITEM ON SCIENCE AND SEGREGATION

By ROBERT KUTTNER

A very complicated mythology has developed on the integration-segregation controversy. Without even a decent hesitation for reflection, a large majority of sociologists and psychologists would claim if questioned that racially separate schools are harmful and that the greater the contact of racial minorities with the prevailing majority culture, the better the mental well-being of the minority group. These views have received too wide and too persistent a dissemination to allow any doubts on the subject from entering the minds of the public. The credit for this effective work goes to those liberal journalists and commentators who have hammered the integration gospel into every home and every head.

The Supreme Court, for instance, was informed that segregated schooling damages the personalities of Negro children. It was further told that the barrier of insulation between the Negro sub-culture and the white majority culture contributes to the social and psychological maladjustment of the Negro. All kinds of assurances were given that science had the final answers to this problem. Research has continued, however, and the new facts are not always in agreement with the unshakeable views of the radical reformers.

It is worthless to reinvestigate the situation in the American Southland today since normal conditions have been disturbed by a too aggressively pushed program of integration. The emotion-charged atmosphere of a battlefield is not suited for a quiet detached study. New facts must come from a far-off place, from a land free from turmoil. Preferably it must deal with a minority race willing to be studied without the overly militant chaperonage of organizations like the NAACP, the ACLU, or other Negro and liberal action groups. One report fulfilling the above neutral criteria has recently become available.

Dr. R. Walters (University of Toronto) published in *The Journal of Abnormal and Social Psychology* (July, 1958) a paper entitled "The Intelligence Test Performances of Maori Children." The Maori students examined in this report were of course members of a native Polynesian minority long resident in New Zealand. This study is especially valuable in that its purpose had nothing to do with the ticklish subject of integration but was an attempt to predict the school success of Maori children from a battery of psychological tests. These test scores are what interest us.

Besides a control group of White children, three groups of Maori children were involved, the two which concern us being called the "country Maori" and the "city Maori." The "country Maori" went to special native schools designed to meet the educational problems of the natives. Maori living in the city were under the supervision of local education authorities and not the Department of Maori Schools. Naturally, the urban Maori had the advantage of intense contact with European culture.

Insofar as intelligence tests could show, the "country Maori," deprived of the stimulation of city life and attending largely segregated schools, equalled the Intelligence Quotient (IQ) scores of urban whites. The "city Maori" with all their presumed benefits averaged 5 IQ points below their country cousins. Now this is embarrassing indeed for does not everyone know that when an American Negro or other minority member emigrates to the industrial north and attends an integrated school he automatically improves his performance on IQ tests? At least this is what we are told to believe. Odd, is it not, that it works just the opposite for the Maori in remote New Zealand?

Perhaps we have oversimplified. We should not pretend that one report or even 50 reports can solve this issue. One more gun in the conservative artillery will not be decisive. But this duel is not being fought by intelligent people to promote segregation or integration. The matter at stake is what is the best arrangement for both Negro and White. Can anyone say with 100% certainty that there is no other course but bayonet-point integration and the total collapse of a regional way-of-life held to by forty million White Americans? And if all the evidence is not in, as our one citation from the scientific literature suggests, does this not call for caution?

Who can believe that the Negro of his own initiative wishes to force himself into a society which would resent his intrusion? Rather than undertake such an unwelcome and desperate excursion, would not the Negro be satisfied if made available to him were an adequately-financed school system, properly staffed, and specially designed to meet his educational needs of the moment? Whether there is an alternate path we shall never know unless the squadrons of uncompromising partisan agitators are withdrawn from the scene and saner men are allowed to deliberate on these matters.

ECONOMICS

THE WOMAN I LOVE

By LAMBERT SCHUYLER

The talk is of more price inflation, of a still cheaper dollar. The stock market behaves as though it were sure it is coming. As though to clinch the argument, the building business is greatly improved, in new homes especially.

But anyone who has ever played the stock market knows two things very well: that when public opinion reaches a popular conclusion on any matter it is time to take the opposite stand; and, second, that when a market becomes overbought on margin it will not resume a steady upward trend until there has been a vigorous shake-out of many of the weak holders.

If the public is always wrong, according to the old Wall Street adage, then some millions of shaky holders of heavily attached property like homes and cars are still in for a rough time. Unless the rules of cause and effect have been rewritten by government spending, a great big shake-out is overdue.

And I, for one, regard the present rate of government spending, monstrous as it is, quite inadequate to the job.

All Americans are familiar with the post-war housing developments scattered across the land with row after row of well spaced and heavily indebted homes, in summertime every street swarming with children of tricycle age and each place crammed with down-payment wares. Those houses were sold on terms so liberal that many occupants have not yet acquired enough equity to cover the agents' commissions and the contractors' profits. In short, the buyers now own exactly nothing; and those who try to sell out find to their astonishment that their equities are non-existent and that the over-all prices they can get for their homes are far less than what they still owe. It is commonly rumored, in fact, that a great many of these "owners" have no intention of ever paying out on their contracts but are prepared to walk out when things get a little worse and go back to live with the old folks in the still ample home where they were born.

Yet new home building is again on the upgrade and newly married couples are again making $500 down payments with the immediate and happy intent of breeding a new flock of tricycle riders. They are also buying new cars on time and filling their dream homes with installment purchases without end. Are we to believe, then, that this crazy system actually does work if only because there is always a new crop of eager-to-be debtors entering the market? Or are we to believe that this is a pipe dream that comes true because modern money is so designed and controlled that it loses value just fast enough to prevent debtors from ever being embarrassed or shaken out of their heavily margined positions; that inflation, coupled with wage-escalator clauses, will keep America always prosperous, like a drunk on a perpetual binge? Or does that which went up still finally come down again, whatever its orbit?

If you are a good American with a properly washed brain you should, if you don't, believe in this Age of Credit in which we luxuriate. You should believe, as in a sort of economic Doxology, that borrowing at the usual installment loan rate of 18% enables the debtor to put it over on the lender in a rather clever way because thusly does he have more of the good things of life, and sooner, than if he paid cash. The stupid lender, on the other hand, gets enormously rich but it doesn't do him any good really, you believe, because he worries so over how to collect all that is owed to him. Like Liberace, he cries all the way to the bank. And the debtor wins in the end when he walks out on the deal and goes back to help Pop with the chores.

Speak not harshly, you say, of the woman I love. This is capitalism which you, Schuyler, are making fun of. Rather, this situation calls for Faith, Confidence and a Deathless Devotion to the mortgage principle. Certainly inflation is coming; and anyone who intimates that instead we are headed for deflation and a shakeout foresees, wickedly as it were, row upon row of dwellings standing empty and in the hands of the Bank which does not like owning empty dwellings; or else in the hands of Uncle Sam who insured the mortgages and who is now in no shape financially to underwrite disaster. Should we not, actually, thank Providence for inflation and regard it not as evil but as the standing miracle of our time? As the value of the dollar sloughs away, look at the bright vision of the future!

Our oath of allegiance, as revised, puts our nation under God. In my mind's eye, our God, then, must in this scene hold in his right hand the ancient 3-ball emblem of the pawn shop.

As a matter of history, both our economy and our religion stem from the Jews. And like one of those new Buicks, even heaven, on approval of credit, may be had with a small down payment and on easy terms.

What a philosophy!

PHILOSOPHY

A NEW UNDERSTANDING OF HISTORY

By BYRAM CAMPBELL

In ancient Egypt lived the Pharaoh Ikunaton (1375-1358 B.C.) who conceived of the sun as a god, and worshipped it alone. Such was a basically new idea for it claimed supremacy for oneness. The Jews maintained this claim of supremacy for oneness in their conception of Jehovah.

Several centuries before the birth of Christ, Greek philosophers tried to discover a single unifying principle which would provide a basis for understanding nature.

In these quests the explorers were, from the point of view of this writer, projecting a demand of their inner natures on the outer world. They belonged to a breed apart—men of unstable natures, in need of an *absolute* to quiet doubt and inner turmoil. This demand could only be met through faith in a final reality—a reality based on oneness. We shall therefore name them *monists*, worshippers of oneness. In spite of or possibly because of their restricted outlooks, monists have proved to be effective propagandists. They set in motion forces which, if need be, carry on independent of monistic minds. In this writer's opinion it was such a process which brought about the Dark Ages.

During the Dark Ages men lived in an atmosphere conducive to peace of mind for the monist. An almost complete intellectual vacuum prevailed. Facts were condemned as pagan. In this way questions that might disturb the darkness of oneness were not raised.

Finally the sane members of society rejected this unquestioning attitude, and the Renaissance was born.

During the Renaissance, light flooded the land. Horizons opened in all directions. New continents were found. Men were set free to discover facts and, finally, during the *Enlightenment* to make deductions from them. These projects which were stimulating to normal men were having an opposite effect on monists, who longed for a new comprehensive belief that would take possession of the minds of men and again make them all as one. But first they must stop the progress of reason. During the *Romantic Age*, which followed the *Enlightenment*, a start was made toward ending the reign of reason. Not only was doubt thrown on the worth of reason, but the emotions were declared to be the only proper guide to the solution of social problems.

Collectivism means the supremacy of the whole over the parts. In this conception monistic minds can find a congenial belief, a refuge from reality in an all-enveloping oneness.

The French philosopher and social theorist, Auguste Comte, believed that humanity forms a single organism and that the individual is but an abstraction. To the normal man the opposite is true, but it is the whole which is the abstraction. Comte was for a time insane, and it is my belief that intense monists are all tinged with paranoia. Marx believed that socialism (communism) would end differences and that a classless, self-directing society would spring into being. Obviously, to such minds, even natural divisions of mankind such as those of race and nation are wrong, for they challenge the supremacy of totality.

The rulers of Communistic Russia and China suffer from a mania for unity—a characteristic of the monistic mentality. To further "unity" they have liquidated millions of dissenters. When Mao Tse-Tung could no longer escape the fact that demands for unity were but further disrupting his land, he called for "a hundred roses to bloom in a hundred gardens." But Mao could not for long tolerate diversity. Being a monist, such negated the very basis for his conception of society.

American monists have developed great programs. To further drive men into oneness the *world* must be made into one. America has been assigned the task of leading the "free world" into the collectivistic concept of One World. Though internationalism has cost America beyond all reckoning our monists are not concerned, for they have made tremendous progress in pursuit of the phantom, One World, this being borne out by the fact that the majority of Americans no longer resist projects based on internationalism. Today, in ever widening areas monistic minds, through the agency of various collectivistic concepts are creating a world dominated by oneness. Let us liken this to a natural phenomenon.

We are witnessing a vast whirlpool which would drag us into the depths of a new darkness. Many currents are streaming into the swirl, though they end in one. Can the whirlpool be stopped? The forces of darkness have been routed in the past and they can be again. But to accomplish this we must understand the force that would again enslave us. It is found in the minds of men—a group trembling on the brink of irrationality.

SCIENCE

Dr. Austin J. App, a recognized authority on Germany and the Allied-Russian occupation of Europe, has a few of his books and pamphlets reviewed in this issue's "Books" section.

RUSSIAN SUPREMACY, A FRUIT OF FALSEHOOD

By AUSTIN J. APP, Ph.D.

During the war, the American people were flooded with propaganda to the effect that the National Socialist government of Germany not only forced the Einsteins to emigrate but also so clamped down on scholars and researchers that science and learning were as dead in Germany as the Dresden art museums after the Allied blitz. When therefore after the Soviets fired the first Sputnik it came out that it was German scientists whom the Soviets had captured (under the rules of the Yalta pact) as slave laborers who organized Sputnik, everybody was taken by surprise. One was surprised to learn such incidental facts as that "Prof. Otto Hahn (was) the physicist who first described atomic fission in 1939" (*Newsweek*, June 23, 1958), which was right when, according to

propaganda, German science had been exiled from Germany with Einstein!

The September 1 issue of *Newsweek* reports that Soviet Russia, roused into action by the U. S. nuclear sub that negotiated the polar route, "has begun a recruiting campaign for East German scientists and former U-boat experts." It is offering them as much as $1500.00 a month with food and living quarters. Note here that these former U-boat captains were developed during a period when presumably all German science had been crushed by governmental Horst Wessel singing!!

But the crowning tribute to German wartime science came recently from no other than former Defense Secretary Charles E. Wilson. In an interview he questioned the value of shooting a rocket to the moon. And according to *Newsweek* (Aug. 29, 1958):

"Mr. Wilson also expressed some reservations about other recent scientific achievements:

"On the race to launch an earth satellite (he said): 'The real competition was between two bunches of German scientists, those with the Russians and those with us.'"

Surely, if the supposedly suppressed German wartime science could produce such startling achievements, one is justified in questioning the validity of our wartime propaganda, not only with regard to German science from 1934 to 1945, but also with regard to everything else.

It is high time for the suppressed facts about these and many other crucial matters to be dug out and placed in the light of day, so that all men may see them. A non-partisan *Survival Commission* (as for example such as that proposed in RIGHT No. 28) would appear to be necessary to ferret out all the facts because both political parties are more or less responsible for creating and maintaining our present predicament and both are to a greater or lesser degree controlled or influenced by leftist or Morgenthauistic forces.

FOREIGN POLICY

OUR FOREIGN POLICY IS OUTDATED

By WILLIS A. CARTO

In spite of the fact that Mr. Nixon believes that anyone who says that the Russians are ahead of the United States in military preparedness is doing our Nation a disfavor, truth is still better than falsehood and facing facts is better than ignoring them. We have not yet attained a state of supine and suicidal faith in the veracity of the transient words of gilded politicians. When we do, let us forever abandon all pretense of being a free people and admit that self-government is a failure.

The hard fact is that the USSR is clearly and unquestionably ahead of the US in many vital fields of arms and that her lead is growing each day. This fact is pointed up by numerous military men and others in an unusual position to know. To ignore it is the height of irresponsibility.

The full impact of the military superiority of the Soviets has been lessened by our recent public relations feat of firing a missile towards the moon, sending a nuclear sub under the North Pole and the success of our Sidewinder air-to-air missile against the Chinese Reds over Quemoy.

These things, plus the apparent—or anyway, a temporary—end of Soviet braggadocio, have contributed to a dangerous apathy which threatens to undermine the healthy alarm and fear that was recently beginning to make some Americans ask a few questions about how our leaders allowed us to fall into the position of military second-rater.

To begin with, we must grant the unchallenged superiority of the Central Asian bloc in ground troops. No responsible official claims that we can hope to beat Russia and her tens of millions of cannon-fodder on the ground. And practically everyone admits the obvious fact that NATO is incapable of even seriously delaying the Russian troops if they are given marching orders. It is recognized that our hope of victory in an all-out war lies in the field of technology. We must pit our superior industrial and technical skill against the masses of enemy infantry. Such is the concept.

Therefore, in the all-important technological field, one would assume that our leaders have spared nothing to assure us of superiority. But such is not the case. Ever since before the end of the war, and in spite of complete knowledge of the facts, the Roosevelt, Truman and Eisenhower administrations have done perhaps irreparable harm to our military position through bungling and stupid decisions.

For example, these decisions have:

(1) Turned over to the Russians after the war a fully-intact V-1 and V-2 factory at Nordhausen.

(2) Allowed almost the entire team of German scientists at Peenemunde and the Peenemunde base itself to slip through its fingers to the Reds.

(3) Allowed the Reds to kidnap over 2,000 top-notch German scientists and made conditions so difficult for German technicians, engineers, designers, etc., who wanted to work for the West that at least 250,000 of these highly skilled specialists have worked for Russia at one time or another.

(4) Allowed the Reds to make off with enough of our secrets to enable them to explode their first atomic bomb in 1949, years before our "experts" said they could, and to detonate the world's first true H-Bomb in mid-1953—seven months before we did.

(5) Refused to heed the abundant warnings of many prominent people and intelligence reports which have warned for years that the USSR was ahead of us in the development of missiles and aircraft, and then expressed surprise at the forewarned event.

(6) Allowed the Reds to get a perhaps fatal lead on us with an operational ICBM.

Now that this water has gone over the dam we find ourselves in the following predicament:

(1) In 1960, the Reds are expected to have 100 ICBM's, the US, 30. In 1961, USSR 500, USA 70. In 1962, USSR 1,000, USA 130. In 1963, USSR 1,500, USA 130. These years are called "the gap" by the Pentagon. What are the years after 1963 called? "American subjugation," perhaps?

(2) There is nothing in prospect to alter this balance except a few score of the Navy's sub-borne Polaris missiles, which will be operational not before 1962. The much-touted Minuteman missile will not be operational at least until 1963 or 1964.

(3) Our SAC force, recognized as our main line of defense, which carries our power of "massive retaliation" is becoming obsolescent. With the coming transition to missile warfare, the US will be made progressively helpless beginning in a year.

(4) The Reds are even ahead of us in conventional aircraft. According to the New York *Daily News* they have a 5,000-plane edge in combat jet aircraft. Says the *News*, "We and the British are eight years behind the Russians in both long range bombers and transports."

(5) Recognizing all these facts, Lt. Gen. James M. Gavin, an honest soldier, resigned from his post of command. He has charged:

"Errors in our military policy portend trouble for the United States, for they bring into question our very ability to wage war . . . we are in mortal danger."

(6) Gavin's successor, Lt. Gen. Arthur Trudeau, has charged that Russia's gains are due more to successful espionage than scientific prowess, and went on to say, *"I don't believe our situation has ever been so critical, even just after Pearl Harbor."*

The recent news that the Pentagon was making a study of military surrender has seemed to many informed persons to be quite in order with the pattern of decline and demoralization outlined above. It is reported that Mr. Eisenhower was angry when he was told of the matter. But apparently his anger was because news of the study had "leaked."

The facts indicate that unless some radical steps are at once taken, or unless some completely new and unexpected quantity—such as a miracle—comes into the picture, only the most serious consequences are in view. A housecleaning is needed from the very top down, and the people who have not only brought this to pass but who are yet guiding our still suicidal policies must be thrown out.

One of the most important matters is that of foreign policy. A successful foreign policy must be based on reality. Surely the facts indicate that, at best, a thorough re-examination of our foreign policy is in order. Can we continue to attempt to defend the rest of the world with our rapidly-deteriorating military capability? Obviously, we have drastically over-extended ourselves. Changes must be made before the errors of yesterday become the debacles of tomorrow.

TRADE POLICY COMMITTEE

WASHINGTON 4, D. C.

EUGENE COWLES POMEROY
CHAIRMAN

GEORGE W. MALONE
RESEARCH DIRECTOR

February, 1960

Dear American:

QUESTION: How can we stop the internationalists?
ANSWER: Take the PROFIT out of internationalism!

Above is a brief dialog which I would like to shout into the ear of every patriot. It reveals a truth which is of capital importance. This truth is that we are where we are because the clever schemers behind the scenes are getting rich promoting it all!

This is the secret explanation why there are so many millionaire socialists, communists and politicians. This is why the internationalists are so strong.

I say that the biggest lie of the century is that the leftists are proletarian reformers. They are not. They are cunning, ruthless, immensely wealthy conspirators who know how to tap hidden human drives of weakness: greed, hatred, envy, ambition, gullibility and even misplaced idealism. Then they take these elements and mix them in a witches' brew of political power to protect and add to their wealth.

Now the way to beat these subverters is to take the profit out of their subversion. The way to take the profit out of their subversion is to make it unprofitable to be an internationalist. . . . And the way to make it unprofitable to be an internationalist is to raise the tariff.

This is the main reason why we selected the tariff issue as the one for the LIBERTY LOBBY to seize to begin its Washington operations.

WE'VE LEARNED A LOT

Since selecting this issue, we have learned a lot. Now we understand why the issue of tariff is the central one of this moment. After close study we have discovered an appalling fact:

This fact is that unless present trends are reversed, within three or four years we will be--irretrievably and inevitably--in world government!

I say that even if we were to withdraw from the UN tomorrow (and I include the World Court in this) we are still heading for world government unless we immediately reverse our present trade policies.

There are two reasons for this, either one of which is bad enough and together they are the answer to Khrushchev's dreams. One, the network of trade agreements which our government has committed us to—and the ones planned for us--have the effect of subjecting our national economy to foreign interests and overruling our sovereignty. Two, vast sectors of American business are becoming increasingly committed to the safety and profitability of billions of dollars of overseas investments. The well-being and security of America's economic base is grievously jeopardized.

You will read little if anything about this imminent peril in your internationalist-controlled "Free Press" newspapers and magazines.

LIBERTY LOBBY AT WORK NOW

The LIBERTY LOBBY has embarked upon a large-scale campaign to reverse this disastrous trend. We are staking our future on the success of this campaign. To start with, we have set up the Trade Policy Committee as an "arm" of the LIBERTY LOBBY. The purpose of the TPC is sole and specific. It is to pass the Mason-Bailey Bill, H.R. 10181.

This is the former Malone Bill, developed by America's foremost expert on the subject, Senator George W. Malone--who is now serving as our Research Director.

The LIBERTY LOBBY will fight on this issue--through the Trade Policy Committee--until we win. And we will win!

Already we have had remarkable success. We have had the old Malone Bill re-introduced, with the bi-partisan leadership of outstanding congressmen. We have the pledged cooperation of hundreds of congressmen, senators, columnists, trade associations, patriotic magazines, papers and groups. We have set up a special Washington office in the National Press Building for the Trade Policy Committee. We have the beginning of a large mailing list which will ultimately reach every daily and weekly newspaper in the country, as well as tens of thousands of influential Americans. We already have gotten some fine publicity. We will get more. Speeches have been made on the floor of Congress in support of H.R. 10181.

We will do all we can to help the backers of H.R. 10181 move it through hearings in committee and to the floor for a vote. They need grass-roots support if they are to pass the bill. Stirring up public awareness of the need for H.R. 10181 is a large part of our job.

Please note that we are taking the offensive. Our side can never win if it persists in fighting defensively. So we are moving forward all the time.

THE ODDS WE FIGHT

The quicker we pass H.R. 10181, the quicker the LIBERTY LOBBY can move on to some other vital issue--and win that one, too. But we are fighting against billions of dollars of entrenched, selfish, special-interest pressure groups. They will spend money like water to prevent their special privileges from being taken away. This is all part of the reason why your financial support is needed . . . adequately and promptly.

Already we have spent $4500 or more. It took us almost three years to raise this. Soon, our "nest egg" will be all gone. Yet we are committed to spending a lot more. We need your help. Won't you contribute to the best of your ability to this SUCCESSFUL and aggressive campaign?

Again I insist--we will be victorious if you do your part, but without your help we cannot hope to win. Please make out a check for a generous amount and mail it in the enclosed envelope. Perhaps you can make a regular pledge. If so, we will send you a reminder and an envelope every month.

Please let us hear from you at once. Yours, for VICTORY,

Eugene C. Pomeroy

rise, so as to create a larger market in their countries.

This is the wise measure developed by Sen. George W. Malone after years of study and exhaustive research. The conscientious legislators who have introduced it in the 86th Congress need every bit of grass-roots support they can get if they are to pass this bill.

WHAT IS THE TRADE POLICY COMMITTEE? The TPC has been set up by a group of Americans specifically to promote passage of the Mason-Bailey Bill. The Committee is *not* interested in perpetuating itself. It wants *action*. It is registered as a lobby and that is what it is. But it is a *different* kind of lobby. It is for the national interest and the general welfare of *all* Americans, and not for any special, limited interest.

HOW CAN VOTERS HELP PASS H.R. 10181?

* Write your congressman and senators. Ask them to support H.R. 10181. Advise them frankly that *their attitude* on this vital question will greatly influence *your attitude* when they come up for re-election and ask your vote.

* Tell your friends about the work of the TRADE POLICY COMMITTEE and seek their help and letters to Washington. Send us their names and addresses for our mailing lists.

* Send a contribution to the TRADE POLICY COMMITTEE. This work must be financed by working people and small investors. They are most hurt of all. They cannot transfer their work and capital overseas. Their livelihood—and their country—is at stake.

A Brief Analysis of a Serious Condition . . . And What Can Still Be Done About It . . .

HISTORY. In 1791 the Founding Fathers laid down a basic principle of American government, and spelled it out plainly in Article I, Section 8 of the Constitution. That principle was that Congress and Congress alone had the responsibility to regulate trade with foreign lands.

Article II, Section 2 gave the Executive branch the duty of administering our foreign policy.

Under this wise and typically American principle of separation of powers, the United States prospered as no country ever had in human history.

From the beginning, Congress set tariffs. In fact, the first act of Congress—after an organizing bill—was a tariff law to protect the industries of the new Nation. Throughout the years, Congress raised or lowered the tariff as conditions changed. The aim was to equalize the costs of production here and abroad. This assured fair competition. It made the American economy strong.

PROGRESS REVERSED. In 1934 there was an abrupt reversal of the progressive principle of separation of powers. Congress passed the Trade Agreement Act (misnamed "reciprocal trade").

The 1934 law clothed the Executive with the power to regulate foreign trade and the national economy. *In effect, this put the State Department in control of American industry.*

President Roosevelt said that this was only a "temporary" measure, to expire with the end of the "emergency" then existing. It expired but was renewed . . . again and again and again.

THE RESULT HAS BEEN CHAOS. Under the cloak of seeking "allies" and "friends," the starry-eyed reformers in the State Department have arrogantly issued death sentences on *thousands* of American industries. For the first time since 1876, thanks to them, we have an unfavorable balance of trade, and our gold reserve—supposedly the backing for our currency—is *almost all gone.* Irresponsibly, they have made us dependent on far-away sources for the critical raw materials we need for peace and war. The wreckage which has been caused by the 1934 law is appalling . . . incredible . . . but fully documented by the Research Division of the TRADE POLICY COMMITTEE.

THE ROAD AHEAD. A continuance of the present policy means these things:

(1) Probable defeat in war, for we will be isolated from our sources of raw materials by 600 Russian submarines known to be afloat.

(2) An increasing bleeding of American capital overseas and the closing of American factories as more and more businessmen transfer their plants abroad. This, while temporarily profitable for some businessmen, will irreparably cripple our domestic economy and national defense.

(3) Gradual, ever-tightening control over the economy and political structure of the Nation by a world super-authority heedless of the rights and needs of Americans.

(4) The steady lowering of the American standard of living to a common denominator with the rest of the world.

THE CURE IS SIMPLE BUT TAKES IMMEDIATE ACTION. Strip the State Department of its authority over the national economy by passing H.R. 10181, the Mason-Bailey Bill.

The Mason-Bailey Bill provides that the Tariff Commission — an agency of Congress established in 1916 — shall again establish and adjust flexible tariffs after proper hearings on the principle of developing the whole country alike. The bill will equalize the cost of production of American products with imported ones.

The Mason-Bailey Bill takes the profit out of sweatshop labor at the water's edge. It will encourage exploiters of low-wage workers to allow wages in their countries to

Tariff Revival Urged To Protect U.S. Jobs

By PETER ANDREWS

Hearst Headline Service Special to N. Y. Journal-American

WASHINGTON, Feb. 5.—Rep. Noah Mason (R.-Ill.) has introduced a bill designed to "take the profit out of sweatshop labor" in foreign markets and re-establish a system of flexible duties and tariffs.

Rep. Mason, a longtime advocate of protective tariffs and ranking minority member of the powerful House Ways and Means Committee, said the bill provides the Tariff Commission can again establish tariffs.

The bill, referred to the Ways and Means Committee, is a duplicate of a measure introduced last year in the Senate by former Sen. George Malone (R.-Nev.).

"I believe it is now time for Congress to reassert its rightful authority over foreign trade and the national economy," Rep. Mason said. "We must recognize there have been some basic and far-reaching changes in the world economy, and we must catch up with these changes because our national survival depends on keeping abreast of them."

Rep. Mason scored the policy of large-scale American expenditures abroad while we import mass-produced items from foreign markets by spending our gold reserves overseas. Our gold stocks are at a "frighteningly low level," Rep. Mason said.

"No longer can we irresponsibly and ruinously assume the American worker and taxpayer can forever support the rest of the world," he said. "To do so will result in the complete destruction of our economy and industry."

Rep. Mason said several men and women in his district have lost jobs because of unfair labor practices in other countries.

The protective tariff bill will "not only halt the bleeding of American jobs, capital and industry to foreign lands, Rep. Mason said, "it will also encourage exploiters of low-wage workers overseas to allow wages in their countries to rise, so as to create a larger market in their countries."

The Mason bill specifically amends the 1930 Tariff Act by striking out the 1934 Trade Agreements Act amendment, which took away the authority of the commission and set up the reciprocal trade system.

The Illinois Republican also accused the State Department of usurping authority over tariffs, charging that, "duly elected Congressmen and not diplomats have the proper responsibility to oversee the health of the American economy."

We may pride ourselves on being men of open mind, unclouded by the phobias and "isms" that are so common, but if one has spent much leisure time browsing in the bookshops of Edinburgh, London, Amsterdam or elsewhere, one becomes convinced that in the bookselling business there is a subtle and insidious game afoot. It seems as though some agency exists to buy up whatever the price all possible titles relating to what some might call the Radical Right. There is a codex expurgatorius which after its fashion secures the withdrawal of all works on 'Heroic Vitalism', nationalist philosophy and any racial topics which belong to the "separatist" school.

If for example one was inclined to buy **"Essai sur l'inegalite des races humaine"** by Count Arthur Gobineau. **"The Foundations of the Nineteenth Century"** by Houston Stewart Chamberlain or any of the prose works of Richard Wagner, the greatest difficulty would be experienced in obtaining them despite the fact that considerable editions of these works were produced from time to time. The works of the well known anthropologists in America, Madison Grant and Lothrop Stoddard whose important books **"The Passing of the Great Race"** and **"The Revolt against Civilisation"** caused such a stir and were produced in vast numbers are now well nigh unobtainable.

Of particular interest in this connection is the work of Anthony M. Ludovici whose recent guest article in that up and coming paper "Right" caused a tide of interest recently amongst right-thinking people. Of his considerable published works in Britain, devoted as they were to the interests of eugenic improvement, aristocracy in its original concept, and the security of the White world, nothing remains to be bought.

H. F. K Gunther, the celebrated German anthropologist, whose post-war books **"Lebensgeschichte des Romischen Volkes"** and **"Lebensgeschichte des Hellenischen Volkes"** have caused quite a sensation in Germany, is another whose works mysteriously cannot be found. His English translation by Methuen of **"The Racial Elements of European History"** is as scarce as snow in Hell, and what a pity too, for that book is a masterly study of the European people and their ways. Under the stimulus of 'displaced' professors from the continent and others of alien origin, often, the anthropological faculties of English and American Universities spend all their energy and talented young men on considering the sex life of the Mende or thumb sucking in the Polynesian Islands, the purpose of which would seem to keep the attention of students away from an interested study of native Europeans.

The purposely neglected study of eugenics is another subject about which a curtain has been drawn. There is a bibliographical black-out about such names as C.B. Davenport, K. Dunlap, E. S. Gosney, P. Popenoe, R. R. Gates, H. P. Fairfield, H. R. Hunt, S. J. Holmes, H. S. Jennings. Wm. Macdougall, W. S. Thomson, and A. E. Wiggan. Yet the purchase of any of their works, wherever they can be found, will save them for a grateful posterity.

Books well-nigh **unobtainable** nowadays are the political works of the great neo-classical thinker, recently deceased, Wyndham Lewis. From time to time copies of his novels are for sale, but such works are **"The Art of Being Ruled"** and **"Time and Western Man"** are whisked away from view whenever they appear for sale. Much the same can be said of the philosophical and political works of D. H. Lawrence and the great American poet Ezra Pound. Alexis Carrel, the noted French bio-Chemist, whose electrifying pre-war book **"Man the Unknown"** did so much to attack the accumulated decadence of British and France before the Second War, is another author who appears to have been subjected to the unwelcome interests of these unknown enemies of European civilisation.

As the struggle for the soul of Europe deepens, we of true European descent must seek to organise our armoury of literature. In preparation for the total ideological war which we have to face, it behoves us all to acquaint ourselves with these books and to buy wherever possible any second hand copies to ensure they are not lost or deliberately destroyed. There is appended a book list which the writer hopes will serve as a guide to the vast literature which exists in English for people proud of their inheritance and keen to build for the future.

WHO CARES ?

HYDRA X) HYBRIDIENSIS

HANNIBAL ANTE PORTAS . . WHO CARES?!

The West now has entered the Era in which the end of the politics of Mind and Money draws near, as had been the case with every other Culture before the historyless phase began!

From here on, people will manage with the situation as it is. . . . and the **foreign** powers that be! Even a Toynbee has to admit this – whether he likes it or not.

We shed torrents of blood that reddened the battlefields on which whites fought whites. Now, that we have spiritually at least annihilated each other, it is time that the Barbarian takes over. Meaning the man who inwardly does not belong to our Western Culture.

And so, it hardly surprises us when we now see our "Spirit-Lifters" mount the platform of our Statesmen of long ago, when they shout at our masses that they conceive from

tion bore their fundamental form onward to a common goal. These Nations were usually most unlike amongst themselves. It is scarcely possible to conceive of a sharper contrast than that between Athenians and Spartans, Germans and French, etc. But the moment that a people alien to a particular Culture made an appearance in the field of History (as we witness it today in the appearance of all colored peoples under a Red Leadership against the Western Man) there always awoke in **all** the peoples belonging to the threatened Culture an overpowering feeling of **spiritual** relationship to each other. The notions of the Culture-Alien Barbarian **was always clear cut!** But not so today! Not only do we deliver whole Brother-Nations into the Orbit of the Barbarian, we go further. We **arm** the Barbarian! One hundred and seventy five thousand German technicians and specialists-the best in the world – we have forced into the Red Orbit! Ten thousand Chinese students we permit today to learn the metier at the technical High Schools and Universities of Eastern Germany! But that is not all. For now November

The headquarters of the NORTHERN LEAGUE, in Scotland, extends a special invitation to them to join hands with their kinsmen around the world to preserve our common racial heritage. Offices of the NORTHERN LEAGUE are now established in most North European countries, and in other parts of the world where members of this family are to be found.

THE LEAGUE IS SOMETHING YOU CANNOT OVERLOOK IF YOU WISH TO SEE YOUR NORTH EUROPEAN HERITAGE PRESERVED

JOIN THE NORTHERN LEAGUE

Perhaps the most far reaching political trend in the history of the European peoples in the second millenium has been the divorce of nationality and race. Up to the end of the first millenium it was customary amongst our forefathers in Europe to speak of people rather than states, and the elected monarchs were known as Kings *of the English*, Kings *of the Danes* or Kings *of the Franks* rather than King of England, of Denmark or of France. With feudalism, however, there came a rupture with this ancient idea of race-nations, and monarchs were no longer thought of as the father of their people (*King-cyning* or "father"). Instead they became territorial lords, who leased out the lands they held to tenants in return for fealty and service, and the common peoples became tied to the land on which they were born, mere chattels of the monarchs. Kinship receded into the background as the basis of national ties, and land ownership became all-important. Nationality came to be determined not by descent, not by the common blood ties of a shared biological heritage, but by the accident of geographical location.

At first this seemed merely a step forwards toward more efficient administration, and since the very fact of feudalism prevented persons from moving freely from one district to another, or from the realms of one lord to those of another, so kinship and territorial overlordship went hand in hand. Eventually, however, the essential divorce which had taken place began to have its effect. Territories became amalgamated or divided by marriages or deaths of the rulers; populations began to migrate, changing their allegiance or "nationality" as they went, and as modern economic forces destroyed feudalism, citizenship and nationality ceased to have anything to do with race, and place of birth became more important in determining the nationality of the child than race or heritage. This meant racial chaos.

What we have to learn, and learn quickly, if we as Europeans are not to be annihilated as a species, is to begin to think in terms of ethnic identity, and pan-national concepts. What we must do is develop a world-wide bond between our own kind, and to avoid being misled into more fratricidal wars. For the past thousand years we have been busy destroying our own kind, while those of other races sit back and laugh at us. When are we going to begin to think in terms of ethnic and racial identity?

The only way to begin is to educate ourselves in those subjects regarding biology and the biological interpretation of history which have been left out of our school syllabus—left out not accidentally but intentionally. Towards this end the successful 40 page bi-monthly journal of North European friendship, *Northern World* (for persons of North European descent *throughout* the world), was launched two years ago. Now, encouraged by their progress, the supporters of this journal have launched THE NORTHERN LEAGUE, which is a cultural and educational institution aimed at so educating North Europeans. Membership is only $3 per annum, and entitles members to free copies of the League's monthly news review of race matters throughout the world entitled *The Northlander*; free specimens of all League leaflets (and an unlimited supply of these on request for free circulation to friends); and also the cooperation and advice of the League Secretary in all matters relating to the progress of North European friendship throughout the world.

The League, with its moderate membership fees, is a sure step towards preventing the internecine strife which has torn our people in the past, and also of stopping the threatened annihilation of our kind by assimilation into other and larger groups. And not only is it a cheap way of helping the cause, but its free literature service to members is something which no one interested in White European survival can afford to miss.

A JOURNAL OF FORWARD-LOOKING AMERICAN NATIONALISM

'Bombers' Framed, Officials Charge

The recent unpleasant happenings in Atlanta have caused the NATIONAL STATES' RIGHTS PARTY to issue the following statement, dated October 17:

This party is opposed to violence of any kind. We condemn recent bombings of schools and synagogues. At the same time we are absolutely convinced of the innocence of members Chester Griffin, George Bright, and Wallace Allen, held in Atlanta, Ga. We understand that lie detector tests have been given. They will prove these men innocent. We will stand by them until they are completely exonerated. In our opinion, this smear has been created to keep the National States' Rights Party off the ballot in 1960.

Officials of the new party believe that this incident will make it possible to begin a nationwide crackdown on Rightist groups. They also believe that great sums of money will be spent to convict these innocent men. If convicted, they can be made to pay with their lives. National Organizer Matt Koehl says, "The real issue at stake is one of civil rights and freedom. Apparently these apply to all, regardless of race, color or creed unless one happens to be a conscious White man."

The DEFEND AMERICA FUND has been established. This Fund is to be used at the discretion of Admiral John G. Crommelin, Trustee, for legal expenses in this and other cases. The address of the Fund is P.O. Box 441, Wetumpka, Alabama.

Northern League Office Opened

Falling in step with other "realistic idealists" located all around the world, the first North American office of THE NORTHERN LEAGUE has been established at Sausalito, California.

The object of THE NORTHERN LEAGUE is cultural: to create better relations between White people of all nations. In this way the mutual misunderstandings will be eliminated which have so far resulted in two terrible world wars and which now weaken the resistance of Christendom in its fight for survival.

The emphasis of THE NORTHERN LEAGUE is scientific and forward-looking. It is recognized that

THE RIGHT LINE

(Editorials)

PETER ZENGER IS DEAD . . . BUT WE AREN'T!

In RIGHT 36, page 1, we warned that alien elements were beginning a campaign to put across "group libel" legislation. This would bar any factual criticism of the subversive activities of certain well-known anti-American organizations.

A different way has been dug up to accomplish the same end. Since it is obvious that the promoters of such legislation would have a hard time getting it through Congress, they have instead persuaded the Post Office Department to "investigate" the possibility of simply barring "hate publications" from the mails and then letting the Soo-preme Co'ht decide if they have a right to do so or not! This information is contained in an October 22 dispatch from the New York *Herald-Tribune*. Since an article in the same paper on October 6 defines RIGHT as a "hate publication," you can see where we fit in.

The excuse is that these "hate publications" are responsible for inciting the bombing of schools and synagogues. Since no one has yet been convicted of any bombing, except a Communist named "Carl Braden," who recently bombed a Negro home in a White neighborhood in Louisville, it seems as if the Post Office is jumping the gun.

Here is something that all Americans who love truth must fight tooth and toenail. Should the promoters be successful in this, the next step would be to quash all criticism, even the mildest, of unpleasant and unhealthy political and social trends.

Our ruling elite, the press and radio never tire of

telling us of our freedom of the press. Peter Zenger and all the other dead heroes are dug up each year, and their stories are repeated over and over. Well, now is the time for our "free press" to begin to put its money where its mouth is. How much do we really believe in freedom? Is it more than a pleasant refrain to give lip service to or are we willing to subscribe to the doctrine when truth and not platitude is at stake?

And isn't it odd how these mysterious bombings are playing right into the hands of the pressure groups?

THOSE SOUTHERN BOMBINGS

As yet there is no proof about who is responsible for the southern synagogue bombings. It may well be that it is the work of the Zionists or the Communists themselves, who know it will stir up further sympathy for the "oppressed minorities" in the South and further hatred for the "barbarous segregationists."

On the other hand, it would not be too surprising if this is actually the work of southerners who feel desperately frustrated, betrayed and abandoned. This could very well be another confirmation of the sociological theorem that White people cannot be forced to obey laws they contemn. Apparently all intelligent Americans except nine Supreme Court appointees have learned this from the failure of Prohibition.

Only one thing seems sure. Although the Zionist-NAACP-AFL-CIO Power Bloc Coalition has all of the federal force and money on its side, and is armed with the eager favor of the press, radio, movies, schools and churches, it will meet an increasingly strong wall of resistance from White people everywhere who realize that this bloody business is not of their own doing, and who do not mean to back down, now that they clearly perceive—behind the smiling face and pentomic troops of Mr. Eisenhower—the Zionist objective of unlimited federal power, permanent minority control and racial and cultural suicide for all Whites.

When faced with heavy odds the reaction of strong-willed people is to fight all the harder, regardless of consequences. This fight is sure to find a growing number of supporters North of Mason-Dixon.

SCIENCE

AN ITEM ON SCIENCE AND SEGREGATION

By ROBERT KUTTNER

A very complicated mythology has developed on the integration-segregation controversy. Without even a decent hesitation for reflection, a large majority of sociologists and psychologists would claim if questioned that racially separate schools are harmful and that the greater the contact of racial minorities with the prevailing majority culture, the better the mental well-being of the minority group. These views have received too wide and too persistent a dissemination to allow any doubts on the subject from entering the minds of the public. The credit for this effective work goes to those liberal journalists and commentators who have hammered the integration gospel into every home and every head.

The Supreme Court, for instance, was informed that segregated schooling damages the personalities of Negro children. It was further told that the barrier of insulation between the Negro sub-culture and the white majority culture contributes to the social and psychological maladjustment of the Negro. All kinds of assurances were given that science had the final answers to this problem. Research has continued, however, and the new facts are not always in agreement with the unshakeable views of the radical reformers.

It is worthless to reinvestigate the situation in the American Southland today since normal conditions have been disturbed by a too aggressively pushed program of integration. The emotion-charged atmosphere of a battlefield is not suited for a quiet detached study. New facts must come from a far-off place, from a land free from turmoil. Preferably it must deal with a minority race willing to be studied without the overly militant chaperonage of organizations like the NAACP, the ACLU, or other Negro and liberal action groups. One report fulfilling the above neutral criteria has recently become available.

Dr. R. Walters (University of Toronto) published in *The Journal of Abnormal and Social Psychology* (July, 1958) a paper entitled "The Intelligence Test Performances of Maori Children." The Maori students examined in this report were of course members of a native Polynesian minority long resident in New Zealand. This study is especially valuable in that its purpose had nothing to do with the ticklish subject of integration but was an attempt to predict the school success of Maori children from a battery of psychological tests. These test scores are what interest us.

Besides a control group of White children, three groups of Maori children were involved, the two which concern us being called the "country Maori" and the "city Maori." The "country Maori" went to special native schools designed to meet the educational problems of the natives. Maori living in the city were under the supervision of local education authorities and not the Department of Maori Schools. Naturally, the urban Maori had the advantage of intense contact with European culture.

Insofar as intelligence tests could show, the "country Maori," deprived of the stimulation of city life and attending largely segregated schools, equalled the Intelligence Quotient (IQ) scores of urban whites. The "city Maori" with all their presumed benefits averaged 5 IQ points below their country cousins. Now this is embarrassing indeed for does not everyone know that when an American Negro or other minority member emigrates to the industrial north and attends an integrated school he automatically improves his performance on IQ tests? At least this is what we are told to believe. Odd, is it not, that it works just the opposite for the Maori in remote New Zealand?

Perhaps we have oversimplified. We should not pretend that one report or even 50 reports can solve this issue. One more gun in the conservative artillery will not be decisive. But this duel is not being fought by intelligent people to promote segregation or integration. The matter at stake is what is the best arrangement for both Negro and White. Can anyone say with 100% certainty that there is no other course but bayonet-point integration and the total collapse of a regional way of life held to by forty million White Americans? And if all the evidence is not in, as our one citation from the scientific literature suggests, does this not call for caution?

Who can believe that the Negro of his own initiative wishes to force himself into a society which would resent his intrusion? Rather than undertake such an unwelcome and desperate excursion, would not the Negro be satisfied if made available to him were an adequately-financed school system, properly staffed, and specially designed to meet his educational needs of the moment? Whether there is an alternate path we shall never know unless the squadrons of uncompromising partisan agitators are withdrawn from the scene and saner men are allowed to deliberate on these matters.

ECONOMICS

THE WOMAN I LOVE

By LAMBERT SCHUYLER

The talk is of more price inflation, of a still cheaper dollar. The stock market behaves as though it were sure it is coming. As though to clinch the argument, the building business is greatly improved, in new homes especially.

But anyone who has ever played the stock market knows two things very well: that when public opinion reaches a popular conclusion on any matter it is time to take the opposite stand; and, second, that when a market becomes overbought on margin it will not resume a steady upward trend until there has been a vigorous shake-out of many of the weak holders.

If the public is always wrong, according to the old Wall Street adage, then some millions of shaky holders of heavily attached property like homes and cars are still in for a rough time. Unless the rules of cause and effect have been rewritten by government spending, a great big shake-out is overdue.

And I, for one, regard the present rate of government spending, monstrous as it is, quite inadequate to the job.

All Americans are familiar with the post-war housing developments scattered across the land with row after row of well spaced and heavily indebted homes, in summertime every street swarming with children of tricycle age and each place crammed with down-payment wares. Those houses were sold on terms so liberal that many occupants have not yet acquired enough equity to cover the agents' commissions and the contractors' profits. In short, the buyers now own exactly nothing; and those who try to sell out find to their astonishment that their equities are non-existent and that the over-all prices they can get for their homes are far less than what they still owe. It is commonly rumored, in fact, that a great many of these "owners" have no intention of ever paying out on their contracts but are prepared to walk out when things get a little worse and go back to live with the old folks in the still ample home where they were born.

Yet new home building is again on the upgrade and newly married couples are again making $500 down payments with the immediate and happy intent of breeding a new flock of tricycle riders. They are also buying new cars on time and filling their dream homes with installment purchases without end. Are we to believe, then, that this crazy system actually does work if only because there is always a new crop of eager-to-be debtors entering the market? Or are we to believe that this is a pipe dream that comes true because modern money is so designed and controlled that it loses value just fast enough to prevent debtors from ever being embarrassed or shaken out of their heavily margined positions; that inflation, coupled with wage-escalator clauses, will keep America always prosperous, like a drunk on a perpetual binge? Or does that which went up still finally come down again, whatever its orbit?

If you are a good American with a properly washed brain you should, if you don't, believe in this Age of Credit in which we luxuriate. You should believe, as in a sort of economic Doxology, that borrowing at the usual installment loan rate of 18% enables the debtor to put it over on the lender in a rather clever way because thusly does he have more of the good things of life, and sooner, than if he paid cash. The stupid lender, on the other hand, gets enormously rich but it doesn't do him any good really, you believe, because he worries so over how to collect all that is owed to him. Like Liberace, he cries all the way to the bank. And the debtor wins in the end when he walks out on the deal and goes back to help Pop with the chores.

Speak not harshly, you say, of the woman I love. This is capitalism which you, Schuyler, are making fun of. Rather, this situation calls for Faith, Confidence and a Deathless Devotion to the mortgage principle. Certainly inflation is coming: and anyone who intimates that instead we are headed for deflation and a shakeout foresees, wickedly as it were, row upon row of dwellings standing empty and in the hands of the Bank which does not like owning empty dwellings; or else in the hands of Uncle Sam who insured the mortgages and who is now in no shape financially to underwrite disaster. Should we not, actually, thank Providence for inflation and regard it not as evil but as the standing miracle of our time? As the value of the dollar sloughs away, look at the bright vision of the future!

Our oath of allegiance, as revised, puts our nation under God. In my mind's eye, our God, then, must in this scene hold in his right hand the ancient 3-ball emblem of the pawn shop.

As a matter of history, both our economy and our religion stem from the Jews. And like one of those new Buicks, even heaven, on approval of credit, may be had with a small down payment and on easy terms.

What a philosophy!

PHILOSOPHY

A NEW UNDERSTANDING OF HISTORY

By BYRAM CAMPBELL

In ancient Egypt lived the Pharaoh Ikunaton (1375-1358 B.C.) who conceived of the sun as a god, and worshipped it alone. Such was a basically new idea for it claimed supremacy for oneness. The Jews maintained this claim of supremacy for oneness in their conception of Jehovah.

Several centuries before the birth of Christ, Greek philosophers tried to discover a single unifying principle which would provide a basis for understanding nature.

In these quests the explorers were, from the point of view of this writer, projecting a demand of their inner natures on the outer world. They belonged to a breed apart—men of unstable natures, in need of an *absolute* to quiet doubt and inner turmoil. This demand could only be met through faith in a final reality—a reality based on oneness. We shall therefore name them *monists*, worshippers of oneness. In spite of or possibly because of their restricted outlooks, monists have proved to be effective propagandists. They set in motion forces which, if need be, carry on independent of monistic minds. In this writer's opinion it was such a process which brought about the Dark Ages.

During the Dark Ages men lived in an atmosphere conducive to peace of mind for the monist. An almost complete intellectual vacuum prevailed. Facts were condemned as pagan. In this way questions that might disturb the darkness of oneness were not raised.

Finally the sane members of society rejected this unquestioning attitude, and the Renaissance was born.

During the Renaissance, light flooded the land. Horizons opened in all directions. New continents were found. Men were set free to discover facts and, finally, during the *Enlightenment* to make deductions from them. These projects which were stimulating to normal men were having an opposite effect on monists, who longed for a new comprehensive belief that would take possession of the minds of men and again make them all as one. But first they must stop the progress of reason. During the *Romantic Age*, which followed the *Enlightenment*, a start was made toward ending the reign of reason. Not only was doubt thrown on the worth of reason, but the emotions were declared to be the only proper guide to the solution of social problems.

Collectivism means the supremacy of the whole over the parts. In this conception monistic minds can find a congenial belief, a refuge from reality in an all-enveloping oneness.

The French philosopher and social theorist, Auguste Comte, believed that humanity forms a single organism and that the individual is but an abstraction. To the normal man the opposite is true, but it is the whole which is the abstraction. Comte was for a time insane, and it is my belief that intense monists are all tinged with paranoia. Marx believed that socialism (communism) would end differences and that a classless, self-directing society would spring into being. Obviously, to such minds, even natural divisions of mankind such as those of race and nation are wrong, for they challenge the supremacy of totality.

The rulers of Communistic Russia and China suffer from a mania for unity—a characteristic of the monistic mentality. To further "unity" they have liquidated millions of dissenters. When Mao Tse-Tung could no longer escape the fact that demands for unity were but further disrupting his land, he called for "a hundred roses to bloom in a hundred gardens." But Mao could not for long tolerate diversity. Being a monist, such negated the very basis for his conception of society.

American monists have developed great programs. To further drive men into oneness the *world* must be made into one. America has been assigned the task of leading the "free world" into the collectivistic concept of One World. Though internationalism has cost America beyond all reckoning our monists are not concerned, for they have made tremendous progress in pursuit of the phantom, One World, this being borne out by the fact that the majority of Americans no longer resist projects based on internationalism. Today, in ever widening areas monistic minds, through the agency of various collectivistic concepts are creating a world dominated by oneness. Let us liken this to a natural phenomenon.

We are witnessing a vast whirlpool which would drag us into the depths of a new darkness. Many currents are stemming into the swirl, though they end in one. Can the whirlpool be stopped? The forces of darkness have been routed in the past and they can be again. But to accomplish this we must understand the force that would again enslave us. It is found in the minds of men—a group trembling on the brink of irrationality.

SCIENCE

Dr. Austin J. App, a recognized authority on Germany and the Allied-Russian occupation of Europe, has a few of his books and pamphlets reviewed in this issue's "Books" section.

RUSSIAN SUPREMACY, A FRUIT OF FALSEHOOD

By AUSTIN J. APP, Ph.D.

During the war, the American people were flooded with propaganda to the effect that the National Socialist government of Germany not only forced the Einsteins to emigrate, but also so clamped down on scholars and researchers that science and learning were as dead in Germany as the Dresden art museums after the Allied blitz. When therefore after the Soviets fired the first Sputnik it came out that it was German scientists whom the Soviets had captured (under the rules of the Yalta pact) as slave laborers who organized Sputnik, everybody was taken by surprise. One was surprised to learn such incidental facts as that "Prof. Otto Hahn (was) the physicist who first described atomic fission in 1939" (*Newsweek*, June 23, 1958), which was right when, according to

propaganda, German science had been exiled from Germany with Einstein!

The September 1 issue of *Newsweek* reports that Soviet Russia, roused into action by the U. S. nuclear sub that negotiated the polar route, "has begun a recruiting campaign for East German scientists and former U-boat experts." It is offering them as much as $1500.00 a month with food and living quarters. Note here that these former U-boat captains were developed during a period when presumably all German science had been crushed by governmental Horst Wessel singing!

But the crowning tribute to German wartime science came recently from no other than former Defense Secretary Charles E. Wilson. In an interview he questioned the value of shooting a rocket to the moon. And according to *Newsweek* (Aug. 29, 1958):

"Mr. Wilson also expressed some reservations about other recent scientific achievements:

"On the race to launch an earth satellite (he said): 'The real competition was between two bunches of German scientists, those with the Russians and those with us.'"

Surely, if the supposedly suppressed German wartime science could produce such startling achievements, one is justified in questioning the validity of our wartime propaganda, not only with regard to German science from 1934 to 1945, but also with regard to everything else.

It is high time for the suppressed facts about these and many other crucial matters to be dug out and placed in the light of day, so that all men may see them. A non-partisan *Survival Commission* (as for example such as that proposed in RIGHT No. 28) would appear to be necessary to ferret out all the facts because both political parties are more or less responsible for creating and maintaining our present predicament and both are to a greater or lesser degree controlled or influenced by leftist or Morgenthauistic forces.

FOREIGN POLICY

OUR FOREIGN POLICY IS OUTDATED

By WILLIS A. CARTO

In spite of the fact that Mr. Nixon believes that anyone who says that the Russians are ahead of the United States in military-preparedness is doing our Nation a disfavor, truth is still better than falsehood and facing facts is better than ignoring them. We have not yet attained a state of supine and suicidal faith in the veracity of the transient words of gilded politicians. When we do, let us forever abandon all pretense of being a free people and admit that self-government is a failure.

The hard fact is that the USSR is clearly and unquestionably ahead of the US in many vital fields of arms and that her lead is growing each day. This fact is pointed up by numerous military men and others in an unusual position to know. To ignore it is the height of irresponsibility.

The full impact of the military superiority of the Soviets has been lessened by our recent public relations feat of firing a missile towards the moon, sending a nuclear sub under the North Pole and the success of our Sidewinder air-to-air missile against the Chinese Reds over Quemoy.

These things, plus the apparent—or anyway, a temporary—end of Soviet braggadocio, have contributed to a dangerous apathy which threatens to undermine the healthy alarm and fear that was recently beginning to make some Americans ask a few questions about how our leaders allowed us to fall into the position of military second-rater.

To begin with, we must grant the unchallenged superiority of the Central Asian bloc in ground troops. No responsible official claims that we can hope to beat Russia and her tens of millions of cannon-fodder on the ground. And practically everyone admits the obvious fact that NATO is incapable of even seriously delaying the Russian troops if they are given marching orders. It is recognized that our hope of victory in an all-out war lies in the field of technology. We must pit our superior industrial and technical skill against the masses of enemy infantry. Such is the concept.

Therefore, in the all-important technological field, one would assume that our leaders have spared nothing to assure us of superiority. But such is not the case. Ever since before the end of the war, and in spite of complete knowledge of the facts, the Roosevelt, Truman and Eisenhower Administrations have done perhaps irreparable harm to our military position through bungling and stupid decisions.

For example, these decisions have:

(1) Turned over to the Russians after the war a fully-intact V-1 and V-2 factory at Nordhausen.

(2) Allowed almost the entire team of German scientists at Peenemunde and the Peenemunde base itself to slip through its fingers to the Reds.

(3) Allowed the Reds to kidnap over 2,000 top-notch German scientists and made conditions so difficult for German technicians, engineers, designers, etc., who wanted to work for the West that at least 250,000 of these highly skilled specialists have worked for Russia at one time or another.

(4) Allowed the Reds to make off with enough of our secrets to enable them to explode their first atomic bomb in 1949, years before our "experts" said they could, and to detonate the world's first true H-Bomb in mid-1953—seven months before we did.

(5) Refused to heed the abundant warnings of many prominent people and intelligence reports which have warned for years that the USSR was ahead of us in the development of missiles and aircraft, and then expressed surprise at the forewarned event.

(6) Allowed the Reds to get a perhaps fatal lead on us with an operational ICBM.

Now that this water has gone over the dam we find ourselves in the following predicament:

(1) In 1960, the Reds are expected to have 100 ICBM's, the US 50. In 1961, USSR 500, USA 70. In 1962, USSR 1,000, USA 130. In 1963, USSR 1,500, USA 130. These years are called "the gap" by the Pentagon. What are the years after 1963 called? "American subjugation," perhaps?

(2) There is nothing in prospect to alter this balance except a few score of the Navy's sub-borne Polaris missiles, which will be operational not before 1962. The much-touted Minuteman missile will not be operational at least until 1963 or 1964.

(3) Our SAC force, recognized as our main line of defense, which carries our power of "massive retaliation" is becoming obsolescent. With the coming transition to missile warfare, the US will be made progressively helpless beginning in a year.

(4) The Reds are even ahead of us in conventional aircraft. According to the New York *Daily News* they have a 5,000 plane edge in combat jet aircraft. Says the *News*: "We and the British are eight years behind the Russians in both long-range bombers and transports."

(5) Recognizing all these facts, Lt. Gen. James M. Gavin, an honest soldier, resigned from his post of command. He has charged:

"Errors in our military policy portend trouble for the United States, for they bring into question our very ability to wage war . . . we are in mortal danger."

(6) Gavin's successor, Lt. Gen. Arthur Trudeau, has charged that Russia's gains are due more to successful espionage than scientific prowess, and went on to say, *"I don't believe our situation has ever been so critical, even just after Pearl Harbor."*

The recent news that the Pentagon was making a study of military surrender has seemed to many informed persons to be quite in order with the pattern of decline and demoralization outlined above. It is reported that Mr. Eisenhower was angry when he was told of the matter. But apparently his anger was because news of the study had "leaked."

The facts indicate that unless some radical steps are at once taken, or unless some completely new and unexpected quantity—such as a miracle—comes into the picture, only the most serious consequences are in view. A housecleaning is needed from the very top down, and the people who have not only brought this to pass but who are yet guiding our still suicidal policies must be thrown out.

One of the most important matters is that of foreign policy. A successful foreign policy must be based on reality. Surely the facts indicate that, at best, a thorough re-examination of our foreign policy is in order. Can we continue to attempt to defend the rest of the world with our rapidly deteriorating military capability? Obviously, we have drastically overextended ourselves. Changes must be made before the errors of yesterday become the debacles of tomorrow.

AIMS AND PRINCIPLES

of the

NORTHERN LEAGUE

FOR PAN-NORDIC FRIENDSHIP

California Office
P. O. Box 67
Sausalito
California, U.S.A.

Head Office
23, Rolland Street
Dunfermline
Scotland

PRINCIPLES

The Northern League believes in . . .

Heredity

The laws of biological inheritance apply to human beings as well as to the animal and plant kingdoms.

North European Kinship

The keltic, Teutonic, Scandinavian and Slav peoples of North European descent are the present day representatives of the great Indo-European family—the creators of the classic civilisations of antiquity as well as of the benefits of modern technology.

Human Progress

Furher human progress can only be sustained if the biological heritage is preserved, and a cultural decline must inevitably follow any decay in the biological heritage or falling-off of genetic quality.

AIMS

The Northern League accordingly aims . . .

To foster North European friendship throughout the world

Internecine warfare must be abandoned if a common front is to be created amongst our peoples to resist the threat of 'annihilation by assimilation' which today faces us in all quarters of the globe.

To oppose the levelling forces of Communistic and Cosmopolitan philosophy.

Both our biological and our cultural identity are threatened by the forces of Communism and Cosmopolitanism, backed as they are by ever-increasing numbers and influence.

To combat cultural and biological decay

Even should the threat from external forces be thwarted, our biological and cultural heritage faces a still more severe threat *from within*. The immigration of alien peoples into our homelands and the rapid diffusion of degenerate cultural influences, mostly through the world of entertainment, but also at intellectual levels, can itself within only a few generations result in the annihilation of our race and the obliteration of our cultural heritage.

The white folk of North America, the descendents of the gallant pioneers who carved a great nation out of the wilderness, are members of the North European racial family. The Northern League extends a spacial invitation to them to join hands with their kinsmen around the World to preserve our racial heritage.

re: WILLIS A. CARTO
INFORMATION CONCERNING

The February 1956 issue, No. 5 of the publication "Right," self-described as a monthly newspaper of, by and for the American Rightwing, which lists C. W. THOMAS, editor, 448 Ellis Street, San Francisco 2, California, contains an item entitled "Open Letter to President Eisenhower," which includes a number of highly defamatory questions directed to the President. The following information concerns the background of "Right":

In November 1955 an informant who has furnished reliable information in the past submitted a letter dated October 14, 1955, on the stationery of the organization "Liberty and Property," P. O. Box 180, San Francisco, California, which was signed by [redacted] b6 b7C
Another source who has furnished reliable information in the past disclosed that P. O. Box 180 was listed in July 1954 to "Liberty and Property, Inc., W. A. CARTO. Two other names were given as authorized to receive mail: [redacted] The letter itself indicated an attempt to coordinate the activity of rightists' movements in the United States and mentioned the publication of the "First National Directory of Rightist Groups" and the beginning of the publication of "Right," a new monthly bulletin. The first issue of this periodical was also furnished by the informant and listed CHARLES W. THOMAS as editor.

A pamphlet entitled "Freedom of Choice" by ALBERICH BLAKE, 269 Cypress Drive, Laguna Beach, California, was submitted by the same informant in September 1954. The contents of this pamphlet supported segregation and opposed Communism. BLAKE indicated that he was the head of the organization "America Plus."

Another pamphlet by ALBERICH BLAKE entitled "The Job Can Be Done" was submitted by the informant in October 1954. In this publication BLAKE indicated that "Liberty and Property" was the successor to "America Plus" and that the administration of this organization was being taken over by WILLIS CARTO of San Francisco. The address of "Liberty and Property" was listed as P. O. Box 180, San Francisco, California. The following background information concerning CARTO appeared in this pamphlet:

Re: WILLIS A. CARTO

"Young CARTO was a combat veteran in World War II, serving as an infantryman. He was wounded on Cebu (P.I.) and wears the Purple Heart. Following the war he completed a pre-law course at Denison University in Ohio and then went into the advertising department of a large business concern. Recently, one of his articles 'Washington's Farewell' appeared in the 'National Republic' published in Washington, D.C. He is a member of Toastmasters International, of the San Francisco Chamber of Commerce, and of the Congregational Church and is active in the American Legion."

In April 1955 the informant provided a pamphlet and program pertaining to the "Congress of Freedom." This informant stated that in his opinion some of the individuals listed as members of the National Advisory Committee and Board of Directors of this organization were known to him and he considered them to be at least semi-fascistic. In this regard he pointed out KENDIN K. HART, a member of the National Advisory Committee, and WILLIS A. CARTO on the Board of Directors. The informant added that CARTO was listed on the program as convention chairman of the organization's convention scheduled for April 25-30, 1955, in San Francisco.

In August 1955 the informant submitted a communication under the letterhead of "Liberty and Property" which listed National Committee Advisors as follows: THOMAS CHEICH, FRANK CUNNINGHAM, Gen. P. A. DEL VALLE, JAMES P. GIFFEN, SR., RALPH GWINN, WILLIS E. STONE. An enclosure to this communication is a copy of a letter addressed to Mr. BLAKE and signed by WILLIS CARTO describing a trip allegedly taken by the latter to contact people concerning "Liberty and Property."

In November 1955 another informant who has furnished reliable information in the past provided a leaflet indicating that the San Francisco Libertarian Forum was presenting a speech by WILLIS CARTO entitled "Treason and Bankrupt Foreign Policy" on October 28, 1955, in San Francisco. CARTO was allegedly to provide the names of the real war criminals who are still holding high office.

Another informant who has furnished reliable information in the past furnished the information in November 1955 that WILLIS CARTO founded the organization "Liberty and Property" and that he had recently been in contact with Nationalist leaders throughout the United States.

Re: WILLIS CARTER

In January 1967 an informant mentioned previously ordered a copy of the "First National Directory of 'Rightist' Groups, Publications, and Some Individuals in the United States and Some Foreign Countries" (Second Edition) from an unknown individual at 148 Ellis Street, San Francisco. The unknown individual stated that he printed this material for WILLIS CARTER of "Liberty and Property." The informant subsequently received the booklet through the mail. A foreword to this publication indicates that being listed in the directory does not imply acceptance or concurrence of the publisher with the viewpoint of the individual, organization, or publication listed. All those listed allegedly represent a protest to "prevailing 'leftist' political and/or social trends." Organizations, individuals, and publications listed are extremely varied and include not only conservative and anti-Communist organizations but also organizations and individuals who, to judge from their writings and publications, are of racist, anti-Semitic, and extremist orientation.

Another item furnished by the informant was a mimeographed letter from Liberty and Property, Inc., Post Office Box 180, San Francisco, dated August 1, 1956, entitled "Progress Report No. 7" and addressed to all enrollees and good friends of Liberty and Property. This letter, which has been made an exhibit in the file (105-3824-1A (18), contains the following paragraph:

"The RECORD OF LIBERTY AND PROPERTY

"We believe that to date L and P has the most outstanding record of success of any patriotic organization. For instance, the Directory of "Rightest" groups that we publish has had a tremendous impact on the thinking of the American Rightwing. It has started innumerable thousands thinking about the mutual problems of the patriotic forces of our land as a whole, instead of as isolated groups. Consequently, it has achieved its goal of bringing all "a little closer together." Our publication "Right," has also been a terrific success in this way. Especially in view of the very severe shortage of money with which all this has been accomplished, we think that our record is hard to equal."

The letter was signed by BRUCE HOLMAN, Secretary, and WILLIS CARTO, Executive Director.

WILLIS A. CARTO;
LIBERTY LOBBY

A source, who has furnished reliable information in the past, made available on September 11, 1957, a copy of the September issue of "Right," which is edited by BRADFORD MARTIN, P. O. Box 180, San Francisco, California, and which describes itself as a monthly newsletter of, by and for the American Rightwing.

This issue carries a special article captioned, "A Liberty Lobby is Needed," by WILLIS A. CARTO, P. O. Box 5311, San Francisco, California. The actual article is prefaced with background data on CARTO, which described him, among other things, as Corresponding Secretary for the Liberty Lobby, a new concept which is attracting attention of patriots from coast to coast. It is scheduled to open in Washington July 4, 1958, or before if its budget is met earlier.

CARTO's guest article is quoted as follows:

"Washington, D. C. is an occupied city. It has been captured by an aggressive coalition of minority special interest pressure groups. The federal government is the obedient servant of its captors, which band together as the occasion demands to manipulate government force in order to pry from the majority of Americans special privilege and power.

"There are economic, religious, racial and foreign pressure groups set up in Washington, all of them extremely well-organized and well financed. Although not all of these

minority special interest pressure groups are consistently inimical to American interests, in principle the system is bad. The entire system needs to be thrown out and a truly libertarian system re-established which will be in the interest of all the people, not just some.

"The Augean Stables need to be cleaned. A Second American Revolution is needed. But this presents many problems, the main one being simply that our side is not yet nearly strong enough nor well-organized enough.

"In the meantime, how can we cope with these grasping pressure groups? We must compete with them. We must compete with them on their own terms until such time as the entire pressure group system can be eliminated and government re-established in consistency with American traditions.

"Such a strategy requires the establishment of a beachhead on the battleground of Washington; an actual office must be set up, ready, willing and able to lock horns with the minority special interest pressure groups. Such an office must be backed up by thousands of voters. It will contact legislators on matters deemed vital to America by speaking for the citizen's whole and long-range interest, rather than his limited and shortsighted temporary interest. It will be a lobby for liberty and national sovereignty: a LIBERTY LOBBY!

"At present there are a few offices and individuals in Washington which do good work insofar as their limited activities allow. But a much larger and truly coordinated effort is needed, one which will utilize the cooperative effort of all of our big patriotic groups. With the backing of the membership of the biggest dozen or so groups a LIBERTY LOBBY will be in a position to speak out firmly for the right.

"A LIBERTY LOBBY will complement and supplement the grass-roots work of the various new party groups and political action groups. Far from there being any conflict

between the two types of operations, the LOBBY will work at the 'top'--right at the seat of federal power -- while the grass-roots groups will continue their essential work at the 'bottom' -- at the precinct and district level. Each type of operation will benefit the other. And together they will be far stronger than alone.

"A LIBERTY LOBBY will also bring Northern and Southern groups together for political action. This will pave the way for the long-overdue formal coalition of conservative forces which is so desperately needed.

"United, the patriotic forces in America can outstrip even the most aggressive and vocal of the minority special interest pressure groups. This is because every patriot-member of the LIBERTY LOBBY will be an active and outspoken member. Such is by no means the case with the much-feared labor lobby, or teachers' lobby, or the racial lobbies. Most individual members of these lobbies are themselves too good Americans to want special favors and hand-outs at government expense. In spite of their bombast, the minority special interest pressure group bosses do not speak for all of their members.

"Now is the time for Americans to organize together in order to accomplish what we cannot accomplish alone. Now is the time for a LIBERTY LOBBY!"

CARTO FILE

STATEMENT BEFORE THE FOREIGN POLICY SUBCOMMITTEE ON RESOLUTIONS, REPUBLICAN NATIONAL CONVENTION, AUGUST 15, 1956.

I am Willis A. Carto and I represent WE, THE PEOPLE, a national political-action group, and the CONSERVATIVE REPUBLICAN HEADQUARTERS, which is located at 1263 Market Street here in San Francisco for the convenience of conservative Republicans visiting this Convention as delegates or spectators. The former group has just secured the signatures of 100,000 persons on this Petition I hold in my hand. It will be presented to the Convention as a whole. It is for these 100,000 voters, as well as for the estimated 2000 persons who will visit our Headquarters and register there, that I present this statement:

Billions of dollars of taxpayers' money have been and are still being given away to foreign countries. Two effects of this has been to prop up socialist governments and to prevent the balancing of our own budget. Another effect apparently has been the purchase of dozens of American firms by aliens who somehow divert our "aid" money for this purpose. Furthur foreign spending should be confined to strictly essential military purposes which are in the interests of the United States, instead of/opposed to them. Obviously, this would rule out the insane aid to Red Yugoslavia by the present Administration; aid which--if I recall the words of Republican Senator Jenner correctly--"border on treason."

For years our foreign policy has been opposed to the vital interests of the United States and the present Administration has continued this New Deal policy. Embroiling ourselves in the ancient hatreds and strifes of the world, our foreign policy is the sole cause of the horrifying rise of the Godless Communist Powers. At the present time, our meddling only seems to fit into the plans of these Powers for furthur world conquest.

To start with, we must immediately withdraw from the impotent but subversive United Nations and all of its related organizations, and all UN property, employees and spies must be removed from American soil.

We support a Bricker Amendment with teeth in it and deeply regret the present Administration's bitter opposition to this sensible protective measure.

The "Status of Forces" Treaty, which denies the protection of the Constitution to American servicement who are presumably fighting for that Constitution, must cease to receive support from the present Administration and must be rescinded.

We are opposed to fighting anybody's wars in the Mid-East.

[redacted] The family came to Mansfield, Ohio, about 1943 from Fort Wayne, Indiana. At the time, subject was a senior in high school and remained in Fort Wayne to graduate. b6 b7C

After high school, the subject entered the United States Army and served in numerous campaigns in the Far East. He reportedly was wounded and received the Purple Heart. After his military service, he attended Dennison College. The source did not recall as to whether he graduated. After this, he was affiliated with Proctor and Gamble, Cincinnati, Ohio. He later terminated this position, and around 1950 or 1951, he went to Florida for a couple of months and "knocked around." During this brief period of time, he was believed to have bellhopped at a hotel in Florida, possibly Miami or Miami Beach. Subsequent to this, he gained employment with the Household Finance Company, city unknown, and later transferred with the company to their San Francisco Office. He later ceased this employment and commenced his own printing concern which she understands to be the printing of leaflets, folders, etc., for others. He continues in this latter line.

The source reported the subject has never spent any time in Mansfield except for visits and vacations during the time he was attending school. During contacts with him and with the family, she has never had any reason to question his loyalty. She noted the subject appears very independent and apparently "lives within himself." He is possessed of a good personality and is likable. She mentioned the subject is very ambitious. During November, 1958, he married a German girl who has possibly been in this country a short period of time. She is in San Francisco, California, and employed. Her name is unknown. The marriage occurred in Las Vegas, Nevada. According to the source, the CARTO family was very much surprised when learning of the marriage, not having known of the girl beforehand.

The source added the CARTO family is of excellent character and reputation. [redacted] b7D

[redacted] she has always considered them to be loyal Americans. She concluded by stating she knew of no unfavorable information concerning the subject or members of his immediate family. b7D

Re letter from Chicago dated 1/29/59.

The title of this case is being marked "changed" to add the nickname "Al" by which WILLIS ALLISON CARTO was known in high school.

On 2/5/59, Mrs. JANE FREIBURGER, Clerk, Records Bureau, Fort Wayne, Indiana Police Department, advised she could find no references to WILLIS ALLISON CARTO.

On the same date [redacted] Pennsylvania Railroad, Fort Wayne, advised that his office had furnished its only information on CARTO to the railroad's police office in Chicago, Illinois, when an inquiry by the FBI was made there. [redacted] said CARTO would have been only 17 years old when he was fingerprinted as an applicant in 1943 and this should be the reason he was not hired. [redacted] also stated it is not unusual for an applicant not to show up for work after being fingerprinted. b6 b7C

The 1944 Fort Wayne City Directory reflects a WILLIS F. CARTO at 4707 South Calhoun Street; no WILLIS CARTO is currently listed.

Mrs. HULDA HAGERFELD, Credit Bureau of Fort Wayne, Inc., advised that her records reflected that a WILLIS F. CARTO, who represents the Chatfield Paper Company, moved his family, consisting of a wife and two children, from Fort Wayne to Mansfield, Ohio, in about 1944.

Mrs. HAGERFELD said the family is still in Mansfield, as reflected by a credit inquiry made 2/3/59. She does not know subject's whereabouts. Mrs. HAGERFELD was contacted on 2/5/59.

DAYTON MUSSELMAN, attendance officer for Fort Wayne Community Schools, advised CARTO graduated from South Side High School in 1944. MUSSELMAN said CARTO rated high in his class from the standpoint of intelligence but his scholastic record was only available at South Side High School. MUSSELMAN was contacted on 2/5/59.

R. NELSON SNIDER, principal of South Side High School, advised on 2/5/59, that he recalled CARTO as a youth who had ability but who was lazy as his average, between 78 and 79%, showed.

SNIDER said CARTO had not been in any trouble in high school and engaged in few activities. The yearbook refers to him as "Al" CARTO. SNIDER said his file contains a note from CARTO's mother in 1946 in which she stated the boy had obtained entrance to Denison University, Granville, Ohio, by an aptitude test. SNIDER said he did not know what CARTO did between his high school graduation and college matriculation.

SNIDER said he knows ROBERT CARTO, brother of the subject's father, who is a well-known real estate dealer in Fort Wayne, but he does not remember anybody in the subject's family except the subject.

In view of the fact the subject apparently did not spend any of his adult life in Fort Wayne, no further investigation is being conducted in this division.

All the above interviews were conducted by SA DUDLEY S. HORTH.

On 3/20/59 CARTO was interviewed by the writer and SA FRANK S. PERRONE at his office, 1615 Polk St., San Francisco, relative to any information he might have concerning the possible identity of the subject of 100-44746, who is known to the Bureau only as "The Patriot." CARTO advised that inasmuch as most of the persons who engage in rightist activities do not attempt to conceal their identity, he himself had wondered who "The Patriot" might be. He stated that he had received some literature of an anti-Semitic nature with the pen name of "The Patriot" from various places in the country. He stated that he had not saved any of this literature. CARTO advised that he also had no knowledge of the present whereabouts of FRANCIS PARKER YOCKEY and had assumed that he was dead.

CARTO stated that his segment of those engaged in rightist activities does not indulge in hate activity, nor does it believe in engaging in any activity of an illegal nature. CARTO stated that he could not make a living with his rightist activity and was employed part time.

Any Agent contacting CARTO in the future should be aware of CARTO's extreme interest in the jurisdiction of the FBI insofar as its investigation of hate groups is concerned.

II. ACTIVITIES

On October 1, 1954, San Francisco T-3 furnished a pamphlet entitled "The Job Can Be Done" which stated that Liberty and Property was the successor to "Action Plus" and that the administration of this organization was being taken over by WILLIS CARTO. This pamphlet also indicated that Liberty and Property favors segregation, opposes communism and the United Nations. The address was listed as P.O. Box 180, San Francisco.

The pamphlet described CARTO as follows:

"Young CARTO was a combat veteran in World War II serving as an infantryman. He was wounded on Cebu (PI) and wears the Purple Heart. Following the war, he completed a pre-law course at Dennison University in Ohio and then went into the advertising department of a large business concern. Recently, one of his articles 'Washington's Farewell Address' appeared in the 'National Newspaper' published in Washington, D.C. He is a member of Toastmasters International, of the San Francisco Junior Chamber of Commerce and of the Congregational Church and is active in the American Legion."

On January 20, 1959, San Francisco T-4 advised that P.O. Box 180, is assigned to Liberty and Property, Inc., W. A. CARTO and was rented in July, 1954. CARTO's address at that time was 1312 Jackson Street, San Francisco, and the nature of his business was shown as "mail order."

The Articles of Incorporation filed by Liberty and Property, Inc. with the California Secretary of State, Sacramento, California, were examined on July 20, 1956. These articles, under #289632, asserted that the name of the corporation shall be Liberty and Property, Inc., whose stated purposes include the following:

> "The initial business to be transacted by the corporation is formation of groups and committees for the purpose of exploring public grievances, and for the purpose of general public education on political, economic and social subjects.
>
> "To do research in, and prepare model constitutional amendments and legislative enactments designed to inform the various citizens and members of a means of proper action for the preservation or restoration of personal liberties and property rights.
>
> "To formulate, develop, and promote public interest and education in basic democratic principles, civil rights, and property rights through dissemination of information by all types of printed publications, radio, television and other means of dissemination of information....."

Other stated purposes generally state that it was provided for the corporation to receive, hold, and develop by prescribed means real and personal property for benefit of the corporation, to borrow money and incur indebtedness and to enter into contracts to further its objects.

These articles show that tax exemption as a civic league was granted to Liberty and Property.

The original Articles of Incorporation filed by Liberty and Property July 30, 1954 lists the following as officers:

WILLIS A. CARTO, 1312 Jackson Street, San Francisco, California; ROBERT R. HOBART, 122 Graham Avenue, San Jose, California; MARY T. FALKNER, 2939 Broderick Street, San Francisco, California.

On January 30, 1956, according to Articles of Incorporation, Liberty and Property entered a change regarding its officers, which listed WILLIS A. CARTO as both President and Treasurer, and BRUCE HOLMAN as Secretary. The address was shown as P.O. Box 180, San Francisco, California, and 1615 Polk Street, Room 6, San Francisco.

On November 1, 1955, SF T-3 furnished Progress Report #5 on the letterhead of Liberty and Property, P.O. Box 180, San Francisco. This report is dated October 14, 1955 and is addressed "To All Enrollees and Good Friends of Liberty and Property." This report in part stated as follows:

> "It is necessary to create a means whereby all new developments and new--as well as tried and true ideas can be expressed. L&P, being outspokenly pro-Capitalistic, believes that through the honest competition of ideas just as through the honest competition of goods the best of the lot will eventually prevail, and so result in the general welfare.
>
> "Consequently, we are proud to announce that this marks the beginning of publication of 'Right', a new monthly bulletin, of, by, and for the American Patriotic Movement.....

> "In order to be effective, 'Right' intends to report, without bias or favoritism, all significant activity of the American Right Wing. As we define it, this means any organization or group which is interested primarily in one or two basic essentials qualifies for such matter. Because of the vast scope of the ideals envisioned by the groups concerned, these two criteria are necessarily negative. The two negative criteria are Anti-Marxism and Anti-Internationalism. Taken together, these two principles come close to meaning Americanism in our book."

This report identified the publication office of "Right" as 418 Ellis Street, San Francisco, and the Editor as CHARLES W. THOMAS.

This same report, under a caption "Growth of L&P", states as follows:

> "In the few short months of the existence of L&P, an amazing amount of progress has been made. Step by step, our Organization Plan is being completed. New services were added constantly, all designed to build and strengthen the 'American Underground'."

On November 7, 1955, [redacted] San Francisco, a businessman, furnished the San Francisco Office with a leaflet which states it was issued by Liberty and Property, P.O. Box 180, San Francisco. This leaflet advertizes "The Second Edition of the New Enlarged First National Directory of 'Rightest' Groups, Publications and Some Individuals in the United States (and Some Foreign Countries)." This was identified

as a special service of Liberty and Property and listed the following as a partial group of attractions:

Anti-Internationalist groups!
Libertarian groups!
Anti-Communist and Anti-Socialist groups!
States' Rights groups!
Right to Work groups!
Anti-Fluoridation groups!
Religious groups!

On November 14, 1955, San Francisco T-5 furnished a copy of a mimeograph letter written by WILLIS CARTO, which stated that he had made a trip throughout the United States and contacted numerous Rightist Nationalist organizations and individuals. This letter also stated that CARTO was contacting groups which were against communism, against communist infiltrated state governments, the Supreme Court decision on segregation. This letter further states that he had also contacted groups called the Citizens Councils of the Southern States, which are against desegregation. The letter stated that the purpose of his trip was to contact people concerning Liberty and Property with the end of gaining some important support for it. The letter indicated he had been successful in getting this support.

The February, 1956 issue of "Right", listing C. W. THOMAS as Editor, was set up in the form of an open letter to President EISENHOWER and directed numerous questions to the President. The following were included among these questions:

"Is it true that you and you alone are responsible for the surrender of Berlin to the Russians?"

"Did you cut off General Patton's gasoline so that he was unable to take the Balkans, as he was in the process of doing?"

"Did you and Harry Dexter White, who was then known to be a communist spy, hatch the Morganthau Plan in your London headquarters?"

"Were you responsible for turning over to the Russians some 70,000 highly-trained German scientists while we received only a few hundred? Are these men responsible for building Russia to a point of aerial and atomic superiority to us?"

"Mr. President, are you responsible for the murder of some two to five million anti-Communist Russians, Poles, Balts, and Balkanese?"

On June 29, 1956, San Francisco T-6 furnished a communication on the letterhead of Liberty and Property, P.O. Box 180, San Francisco, dated June 15, 1956, which was generally circulated to the enrollees of Liberty and Property, which contained in part the following descriptive information:

"Liberty and Property, Incorporated, is lots of things, primarily it is another one of the dozens of Right Wing political action groups. Consequently, we officially favor only our 10 proposed amendments to the Federal Constitution, called the Second Bill of Rights..... The point is that 'Right' is certainly not the official L&P publication at all. 'Right' stands staunchly on its own legs under the able leadership of its editor, Bradford Martin. Moreover, our National Committee advisors are even further removed from 'Right' because each one of these leaders is con-

> cerned only with their own particular amendment, which is one of the 10 in the Second Bill of Rights. So you can see although L&P publishes 'Right' as a service to the American Right Wing, it is not in any way an official publication but speaks only for itself."

Records of Dun and Bradstreet, San Francisco, checked on October 31, 1958, by IC [redacted] contain a report dated April 9, 1956 on Liberty and Property, Inc., newsletter publisher, 418 Ellis Street, San Francisco. This report lists WILLIS A. CARTO as President and states that Liberty and Property has no capital stock. The report also states that numerous attempts to interview CARTO, the President and reported principal, have been unsuccessful. It also states that the 418 Ellis Street address is only a mail-box on the premises of 420 Ellis Street, the Ace Printing Company. Connection between the Ace Printing Company and Liberty and Property was unknown. The report states that inquiry was made at this company and that the inquirer was referred only to CARTO.

According to Dun and Bradstreet, this business consists of publishing a monthly political newsletter, but details regarding the publication and distribution were unknown to Dun and Bradstreet.

On October 1, 1956, SF T-3 furnished literature dated September 25, 1956 stating that the mailing address of "Right" was changed from 418 Ellis Street, San Francisco to P.O. Box 180, San Francisco.

On April 20, 1959, SF T-2 furnished a leaflet received by SF T-2 in August, 1956, which stated in part as follows:

"San Francisco Conservative Republican Headquarters, 1263 Market Street, San Francisco, California. Phone: Prospect 6-2896. Welcome! Greetings to you from your hosts." The leaflet then listed various individuals and their assignments and included WILLIS CARTO as coordinator.

The leaflet also reflected that "The San Francisco Conservative Republican Headquarters is a temporary service organism established for conservative Republicans to make their voices heard at the 1956 Republican National convention. It is sponsored by the officers, directors and friends of Liberty and Property, Inc., many of whom are listed above."

The leaflet further states that all mail should be sent to P.O. Box 180, San Francisco, until August 17, when the headquarters would open.

On August 10, 1956, San Francisco T-7 furnished an announcement captioned "San Francisco Conservative Republican Headquarters, P.O. Box 180, San Francisco." This announcement, which is dated August 3, 1956, stated that Conservative Republican Headquarters would be opened August 17, 1956 at 1263 Market Street and closed one week later on August 23, 1956. The announcement further stated that this downtown location would enable "us" to put on the kind of performance fitting for a movement which encompasses millions of patriots from coast to coast. It also stated that "we" would be able to put on a "show" in direct competition with other Market Street political headquarters "all of which are, of course, liberal."

The August 10, 1956 edition of the "San Francisco Chronicle", a San Francisco daily newspaper, page 6, contains an article entitled "Rightist Republicans to Open Headquarters at Convention Here." The article states that WILLIS CARTO, Executive Director of Liberty and Property, Inc., "a group which appears to be composed of ultra right-wing Republicans" made this announcement.

This article states that CARTO said he was not for EISENHOWER for President and that while his group had taken "no stand" on the nomination, Senators JENNER and MC CARTHY or Governor LEE of Utah are men who fit the program of his organization.

The August 24, 1956 edition of the "San Francisco Chronicle" published an article entitled "Governor LEE vs. The Income Tax." This article described "Conservative Republican Headquarters" as a vacant store at 1263 Market Street rented during the convention to serve as "a focal point for strategy in opposition to the schemes of the liberals" and "a nerve center for fast, organized action in case the unexpected happens." The article stated that among those present at a press conference was "WILLIE CARTO, the young executive director of an organization known as 'Liberty and Property' (which is footing the bill for the headquarters) who feels the U.S. should 'immediately withdraw from the impotent and subversive United Nations'."

The September 7, 1956 issue of the "San Francisco Chronicle" printed a letter to the editor from WILLIS CARTO, Executive Director, Liberty and Property, San Francisco. CARTO stated that the "Chronicle" had misquoted him in printing that CARTO stated the United Nations was "impotent and subversive" CARTO stated that what he really said was that the United Nations was "impotent but subversive. Impotent for the purpose we created it, ie, to stop war, but subversive because of the haven it is for spies and because of its anti-national propaganda and activities which are designated to throw the American people unknowingly into a world government."

On August 23, 1956, San Francisco T-8 advised that on that day [redacted] b7D At this time, CARTO said that he was not against labor as labor but was against the abuses perpetrated by the officials of labor unions and the injustices that they practice on the rank and file of the

union, the general public and the employers. According to SF T-8, CARTO was against foreign aid. He said that most bankers in the United States are against this give-away program. The only bankers who are for the aid program are those who, for one reason or another, are getting some of their money back through their banks or as individuals. CARTO said he was opposed to taking part in any war in the Middle East. He said it was best for the United States to keep out of any private throat-cutting in the Middle East or any other involvements. SF T-8 further advised that CARTO also stated that they do not consider the Jews as a whole as being good Americans or capable of being good Americans. CARTO stated that they do not intend to support the Arabs either.

On August 22, 1956, WILLIAM GILCHRIST, Manager, Cliff Hotel, San Francisco, furnished a leaflet entitled "Convention News" dated August, 1956, Special Republican Convention Edition #1. Page 2 of this leaflet reflected that "Convention News" was published singularly by the Non-Partisan League for Decency in Political Candidates, P.O. Box 1076, San Francisco.

On August 23, 1956, SF T-4 advised that P.O. Box 1076 was registered to Non-Partisan League for Decency in Political Candidates ("Convention News"), NPL, address c/o "Right" newsletter, 418 Ellis Street, San Francisco. The box was rented August 8, 1956.

On April 15, 1959, SF T-4 advised the above box was discontinued July, 1957.

On October 23, 1958, San Francisco T-9 furnished the following leaflet:

SF 105-4222
ZJ/af

"STATEMENT BEFORE THE FOREIGN POLICY SUBCOMMITTEE ON RESOLUTIONS, REPUBLICAN NATIONAL CONVENTION, AUGUST 15, 1956.

"I am WILLIS A. CARTO and I represent WE, THE PEOPLE, a national political-action group, and the CONSERVATIVE REPUBLICAN HEADQUARTERS, which is located at 1263 Market Street here in San Francisco for the convenience of conservative Republicans visiting this Convention as delegates or spectators. The former group has just secured the signatures of 100,000 persons on this Petition I hold in my hand. It will be presented to the Convention as a whole. It is for these 100,000 voters, as well as for the estimated 2000 persons who will visit our Headquarters and register there, that I present this statement.

"Billions of dollars of taxpayers' money have been and are still being given away to foreign countries. Two effects of this has been to prop up socialist governments and to prevent the balancing of our own budget. Another effect apparently has been the purchase of dozens of American firms by aliens who somehow divert our 'aid' money for this purpose. Furthur foreign spending should be confined to strictly essential military purposes which are in the interests of the United States, instead of opposed to them. Obviously, this would rule out the insane aid to Red Yugoslavia by the present Administration; aid which--if I recall the words of Republican Senator JENNER correctly--'border on treason.'

"For years our foreign policy has been opposed to the vital interests of the United States and the present Administration has continued this New Deal policy. Embroiling ourselves in the ancient hatreds and strifes of the world, our foreign policy is the sole cause of the horrifying rise of the Godless Communist Powers. At the present time, our meddling only seems to fit into the plans of these Powers for further world conquest.

"To start with, we must immediately withdraw from the impotent and subversive United Nations and all of its related organizations, and all UN property, employees and spies must be removed from American soil.

"We support a Bricker Amendment with teeth in it and deeply regret the present Administration's bitter opposition to this sensible protective measure.

"The 'Status of Forces' Treaty, which denies the protection of the Constitution to American servicement who are presumably fighting for that Constitution, must cease to receive support from the present Administration and must be rescinded.

"We are opposed to fighting anybody's wars in the Mid-East."

On April 20, 1959, SF T-2 furnished a leaflet received by SF T-2 in January, 1956 entitled "Liberty and Property, P.O. Box 180, San Francisco, California. This leaflet was dated January 10, 1955, although SF T-2 advised that from the contents of the leaflet it appeared to be mis-dated and should be dated January 10, 1956. The leaflet was addressed to "Dear Bay Area Patriot" and stated in part as follows:

"Remember the We the People convention in Chicago about three months ago? It was called for political action and patriots from coast to coast attended. There were over 600 of them there. In three days they worked out an organizational foundation upon which a National movement could be built.

"Well the time has come for bay area action on that foundation.

"Mr. WILLIS E. STONE, Western Director of We the People and President of the American Progressive Foundation of Los Angeles, is coming to the bay area next

week. While here, Mr. STONE plans to work with local patriots to establish an effective organization of all who want to help the American cause in the crucial election battle ahead."

This leaflet is signed BRUCE HOLMAN, Secretary, and WILLIS CARTO, Executive Director.

On September 11, 1957, SF T-3 furnished a copy of the September, 1957 issue of "Right" edited by BRADFORD MARTIN, P.O. Box 180, San Francisco. This issue carried a special article captioned "A Liberty Lobby is Needed" by WILLIS A. CARTO, P.O. Box 5311, San Francisco, which is quoted as follows:

"SPECIAL GUEST ARTICLE

"WILLIS A. CARTO's past responsibilities incude being Executive Director of LIBERTY & PROPERTY, Inc., a Regional Vice-President of WE, THE PEOPLE, and Secretary for the CONGRESS OF FREEDOM. During the San Francisco Republican Convention he set up and directed the CONSERVATIVE REPUBLICAN HEADQUARTERS, which was visited by many hundreds of delegates and visitors. He is also the originator of the First National DIRECTORY of 'Rightist' Groups, which is going into its Third Edition at this time.

"He is now Corresponding Secretary for the LIBERTY LOBBY, a new concept which is attracting attention of patriots from coast to coast. It is scheduled to open in Washington July 4, 1958, or before if its budget is met earlier.

"Washington, D.C. is an occupied city. It has been captured by an aggressive coalition of minority special interest pressure groups. The federal government is the obedient servant of its captors, which band together as the occasion demands to manipulate government force in order to pry from the majority of Americans special privilege and power.

"There are economic, religious, racial and foreign pressure groups set up in Washington, all of them extremely well-organized and well-financed. Although not all of these minority special interest pressure groups are consistently inimical to American interests, in principle the system is bad. The entire system needs to be thrown out and a truly libertarian system re-established which will be in the interests of all the people, not just some.

"The Augean Stables need to be cleaned. A Second American Revolution is needed. But this presents many problems, the main one being simply that our side is not yet nearly strong enough nor well-organized enough.

"In the meantime, how can we cope with these grasping pressure groups? We must compete with them. We must compete with them on their own terms until such time as the entire pressure group system can be eliminated and government re-established in consistency with American traditions.

"Such a strategy requires the establishment of a beachhead on the battleground of Washington; an actual office must be set up, ready, willing and able to lock horns with the minority special interest pressure groups. Such an office must be backed up by thousands of voters. It will contact legislators on matters deemed vital to America by speaking for the citizen's whole and long-range interest, rather than his limited and shortsighted temporary interest. It will be a lobby for liberty and national sovereignty; a LIBERTY LOBBY!

SF 105-4222

"At present there are a few offices and individuals in Washington which do good work insofar as their limited activities allow. But a much larger and truly coordinated effort is needed, one which will utilize the cooperative effort of all of our big patriotic groups. With the backing of the membership of the biggest dozen or so of groups a LIBERTY LOBBY will be in a position to speak out firmly for the right.

"A LIBERTY LOBBY will complement and supplement the grass-roots work of the various new party groups and political action groups. Far from there being any conflict between the two types of operations, the LOBBY will work at the 'top' - right at the seat of federal power - while the grass-roots groups will continue their essential work at the 'bottom' - at the precinct and district level. Each type of operation will benefit the other. And together they will be far stronger than alone.

"A LIBERTY LOBBY will also bring Northern and Southern groups together for political action. This will pave the way for the long-overdue formal coalition of conservative forces which is so desperately needed.

"United, the patriotic forces in America can outstrip even the most aggressive and vocal of the minority special interest pressure groups. This is because every patriot-member of the LIBERTY LOBBY will be an active and outspoken member. Such is by no means the case with the much-feared labor lobby, or teachers' lobby, or the racial lobbies. Most individual members of these lobbies are themselves too good Americans to want special favors and hand-outs at government expense. In spite of their bombast, the minority special interest pressure group bosses do not speak for all of their members.

"Now is the time for Americans to organize together in order to accomplish what we cannot accomplish alone. Now is the time for a LIBERTY LOBBY!"

On April 22, 1955, SF T-3 furnished a leaflet on "The Congress of Freedom Convention" to be held April 25 through 30, 1955 at Veteran's War Memorial Auditorium, San Francisco. This leaflet described the Congress of Freedom as "a coalition of patriotic American organizations which are concerned with increasing tendencies towards internationalism through the United Nations." The name WILLIS A. CARTO was one of 24 names listed under Board of Directors.

The April 21, 1955 issue of the "San Francisco Chronicle",page 7, column 1, reflects that according to ROBERT T. LE FEVRE, the Congress of Freedom, which was to meet in San Francisco in the coming week, was set up about five years ago as a "coalition of what are known in modern parlance talk as right-wing organizations", about 500 of them in all. The article reflected that as LE FEVRE answered questions, it developed that the Congress does not consist of organizations at all, but of 500 individuals who are affiliated with various organizations. These individuals may or may not be official representatives of those organizations, according to the article. The article also stated that LE FEVRE conceded that if you eliminate local chapters of national organizations, then maybe only 100 or so organizations are involved. The article further identified Liberty and Property, Inc. as one of the organizations to be represented officially, according to LE FEVRE.

The article stated that LE FEVRE appeared in San Francisco the day before at the helm of the Congress of Freedom.

The May 1, 1955 issue of the "San Francisco Chronicle", page 14, column 2, reflects an article entitled "'Congress of Freedom' Ends with Clash on Religious Issue." This article stated in part that "the 'Congress of Freedom', a 'coalition of right-wing forces' concluded its week long meeting here yesterday with a series of resolutions, blasting the United Nations, its agencies and its supporters in the United States.

"Before the resolutions were approved, however, the 80 to 100 voting delegates beatdown two attempts to change language so as to avoid offending non-Christians."

On September 18, 1957, SF T-3 furnished the first National directory, third edition, which is self-described as a directory of "Rightist" Groups, Publications, and some Individuals in the United States (and Some Foreign Countries.) This directory included Liberty Lobby, Box 5311, San Francisco, California, WILLIS A. CARTO, Corresponding Secretary.

On January 20, 1959, SF T-4 advised that P.O. Box 5311 was rented July, 1957 and is assigned to W. A. CARTO. His business was indicated as "Publicity."

On October 31, 1958, SF T-6 furnished the November, 1958 issue of "Right", from which resumes of several articles are set out as follows:

One article entitled "Northern League Office Opened" reflected that the first North American Office of the Northern League had been established in Sausalito, California. The article stated that "the object of the Northern League is cultural; to create better relations between 'white' people of all nations. In this way, the mutual misunderstandings will be eliminated, which have so far resulted in two terrible world wars and which now weaken the resistance of Christendom in its fight for survival."

The article further stated that "N.B. HOLT, Sausalito resident, has been named local organizing secretary of the branch. Dr. E. L. ANDERSON, brilliant retired professor and author whose articles have often appeared in 'Right' will assist in organizational work.

"Mailing address is P.O. Box 67, Sausalito, California. Dues are $3 per year. Members are placed

on the mailing list of 'The Northlander', monthly news review of Pan-Nordic Affairs, and receive free league literature and consultations."

Another article entitled "Our Foreign Policy is Outdated" was written by WILLIS A. CARTO. In this article, CARTO criticized President EISENHOWER and Vice-President NIXON for allowing the Russians to get so far ahead of the United States in many military projects, and also, for allowing the USSR to steal many of the military secrets of the U.S. military forces.

On October 31, 1958, SF T-6 furnished a leaflet on the aims and principles of the Northern League. This leaflet reflects the California Office to be P.O. Box 67, Sausalito, California, USA and the head office to be 23, Rolland Square, Dunfermline, Scotland.

On December 30, 1958, San Francisco T-10 advised that the CARTO family consists of the Subject, WILLIS ALLISON CARTO, who is also referred to as AL CARTO, his father, WILLIS F. CARTO, his mother, LOUISE CARTO [redacted] The parents reside at 495 South Russell Road, Mansfield, Ohio. The Subject's family went to Mansfield, Ohio, in about 1943 from Fort Wayne, Indiana. At that time, the Subject was a senior in high school and remained in Fort Wayne to graduate. After high school the Subject entered the U.S. Army and served in numerous campaigns in the Far East. He reportedly was wounded and received the Purple Heart. After his military service, he attended Dennison College. After this he was affiliated with Proctor and Gamble, Cincinnati, Ohio. He later terminated this position and around 1950 or 1951 he went to Florida for a couple of months and "knocked around." During this brief period of time, he was believed to have been bell-hopping at a hotel in Florida, possibly Miami or Miami Beach. Subsequent to this, he gained employment with the Household Finance Company, city unknown to SF T-10, and later transferred with the company to their San Francisco Office. He later ceased this employment and commenced his own printing concern, which SF T-10 understands to be the printing of leaflets, folders, and so forth for others. SF T-10 added that during November, 1958 the Subject married a German girl who had been in this country only a short time.

On April 20, 1959, SF T-2 advised that CARTO was a World War II veteran and that CARTO endeavored to secure an appointment to the Subversive Activities Commission of the California Department of the American Legion in 1957 and was quite bitter over an alleged broken promise for the District Commander's recommendation. The Subversive Activities Commission turned down his appeal to them as not falling within their jurisdiction.

On March 20, 1959, the Subject was interviewed by SAs [redacted] and FRANK S. PERRONE, at which time the Subject advised that he had received some literature of an anti-Semitic nature from various places in the country, from an individual with the pen name of "The Patriot." He stated he wondered who "The Patriot" might be inasmuch as most persons who engage in Rightist activities do not attempt to conceal their identities. He stated he had not saved any of this literature. He further advised that his segment of those engaged in Rightist activities does not indulge in hate activity nor does it believe in engaging in any activity of an illegal nature. b6 b7C

From a review of this case it is not apparent that there is sufficient probable cause to justify an active investigation. Investigations of this type are generally limited to individuals or organizations concerning whom there is some clear indication of advocating, condoning or inciting violence for the purpose of denying others their constitutional rights. In the absence of information indicating that Carto has a potential for violence under these standards, investigation should be discontinued and auxiliary offices should be advised that the case has been closed administratively.

If your office is in possession of information indicating that Carto has a potential for violence, the Bureau should be immediately advised in full detail.

RACIAL MATTER

On this date [redacted] b6 b7C came to the office to report information regarding subject. He said he first met subject recently in connection with his interest in the organization known as the Christian Anti-Communism Crusade, which [redacted] considers a legitimate organization. He said that after his first meeting with CARTO, he received some literature in the mail directed to him by CARTO, and he considers that some of the items received "are anything but legitimate and are definitely un-American". He said he feels that CARTO uses his connection with the Christian Anti-Communism Crusade to gain the confidence of people and then feeds "this stuff" about "racial hatred". He made available the following four items which he does not want returned:

1. Post card to [redacted] from CARTO. (received in mail by [redacted] b6 b7C
2. Application blank for Christian Anti-Communism Crusade (rec'd in mail by [redacted]
3. Printed sheet headed "Who Cares?" (sent to [redacted] from Carto)

[redacted] pointed out that he had been the one to underline the items in red.

MEMORANDUM

To: [redacted]

From: [redacted]

Date: 7 April 1960

My local contact called me to share the following:

The Northern League has two headquarters. One is in Scotland and the American Branch is at Box 67, Sausalito, California. The reputed American leader of this group is one Willis Carto, Box 186, San Francisco, California.

The Northern League creates two publications. One, for European use, is called The Northlander and is published in Calcutta, India. The other publication is called The Northern World and lists 569 Boyd Street, Chase City, Virginia, as its office. [redacted] Both of these rascals are now affiliated with The Northern World and [redacted] They are not, as previously reported, real estate salesmen .... or at least not licensed to sell real estate. They apparently place customers for desirable industrial property in touch with persons selling industrial property and receive a commission as brokers. No license is required for this activity.

The fact that [redacted] mailed NSRP material with Northern World material makes better sense now.

Regards.

Progress Report #7, dated August 1, 1956, on the letterhead of Liberty and Property, Inc., Post Office Box 180, San Francisco, California, identified WILLIS CARTO as Executive Director of Liberty and Property.

A communication dated June 15, 1956, on the letterhead of Liberty and Property, Inc., Post Office Box 180, San Francisco, described Liberty and Property, Inc., as primarily "another one of the dozens of Right Wing political action groups."

A photostat copy of a letter written by WILLIS CARTO in 1955 reflected he had made a trip throughout the United States and contacted numerous Rightist Nationalist organizations and individuals. This letter also stated that CARTO was contacting groups which were against communism, against communist infiltrated state governments, the Supreme Court decision on segregation, and the letter further stated that he had also contacted groups called the "Citizens Councils of the Southern States," which were against desegregation. The letter stated that the purpose of his trip was to contact people concerning Liberty and Property, Inc., with the end of gaining some important support for it. Religious groups.

Progress Report #5, dated October 14, 1955, on the letterhead of Liberty and Property, Inc., Post Office Box 180, San Francisco, reflected that it was necessary to create a means whereby all new developments and new, as well as tried and true, ideas could be expressed, and consequently, "We are proud to announce that this marks the beginning of publication of 'Right,' a new monthly bulletin of, by, and for the American Patriotic Movement. In order to be effective, 'Right' intends to report, without bias or favoritism, all significant activity of the American Right Wing. As we define it, this means any organization or group, which is interested primarily in one or two basic essentials, qualifies for such matter. Because of the vast scope of the ideals envisioned by the groups concerned, these two criteria are necessarily negative. The two negative criteria are Anti-Marxism and Anti-Internationalism. Taken together, these two principles come close to meaning Americanism in our book."

The September 1960 issue of "Right" was self-described as the last issue of "Right."

The October 31, 1958, issue of "Right" contains an article entitled, "Northern League Office Opened," which article reflects that the first North American Office of the Northern League had been established in Sausalito, California. The article stated that, "The object of the Northern League is cultural; to create better relations between 'white' people of all nations. In this way, the mutual misunderstandings will be eliminated, which have so far resulted in two terrible world wars and which now weaken the resistance of Christendom in its fight for survival."

The article further stated that, " N. B. HOLT, Sausalito resident, has been named local organizing secretary of the branch. Dr. E. L. ANDERSON, brilliant retired professor and author, whose articles have often appeared in 'Right,' will assist in organizational work. Mailing address is P. O. Box 67, Sausalito, California. Dues are $3.00 per year. Members are placed on the mailing list of 'The Northlander,' monthly news review of Pan-Nordic Affairs, and receive free league literature and consultations."

On December 17, 1958, [redacted] advised that he had determined, through conversations with WILLIS A. CARTO, that WILLIS CARTO, who published "Right," used the pen name Professor E. L. ANDERSON. [redacted] stated that

material written under the pen name of Professor E. L. Anderson by WILLIS CARTO had appeared in various editions of the newsletter, "Right." [redacted] further stated that in the past he had been requested by WILLIS CARTO [redacted] for an organization known as the "Northern League." Gentlemen:

I wish to inform you that there is an organization at 201A - 11th Street, known as Liberty Lobby. The P.O. Box # is 5311, S.F.

I do have suspicions that this is a German organization and is collecting funds from all over the U.S. presumably for lobbying, but merely as a cover - up for more nefarious activities.

Mail is received there under the name of [redacted] and most of the people on the mailing lists are German sounding. Also the people whose names they submit are german sounding. b6 b7C

The secretary told me personally she wished that Hitler had won the war, etc. etc.

At night, some German chap comes in here to work and enclosed is a circular that he sends out.

There are pictures of the Kaiser on the wall, many german books around , 'Faubus for President' placards.

A newspaper called the Independent comes here daily. It is published in New York, and comes here under the name of [redacted] also. b6 b7C

This lobbyist's name is Willis Carto, and the Washington DC address is 998 National Press Building, Washington, 4 D.C.

Please pardon this hastily typed note.

EUROPA AND THE BULL

A recent issue of postage stamps on the continent symbolises the new De Gaulle-Adenauer movement towards a united Europe by a picture of the maiden Europa riding on a bull.

This false allegory illustrates the cultural ignorance of those who lead Europe today. The mythological story of the rape of Europe, although retold in the Iliad, bringing in the name of Zeus, was derived from non-European sources, and the similarity between the name Europe and that of the maiden Europa is entirely coincidental.

Europa was the daughter of the Phoenecian King Agenor, and the bull is the bull of Anu, a Semitic God, which, having induced the maiden Europa by a show of tameness to climb upon its back, swam off through the sea with her to the island of Crete, where she bore three children to her assailant.

The eldest of the three children was Minos, who annually caused seven Athenian youths and seven Athenian maidens to be thrown alive to the Minatour, until the latter was finally killed by the Nordic-Greek hero Hercules.

There is nothing inspiring, pleasant or even European about the story (except the slaying of the Minotaur by the European hero Hercules) and the mere similarity of names should not mislead us into adopting an alien and revolting legend to symbolise a resurgent Europe. Ironically an Adenauer-De Gaulle victory would indeed result in the raping of a captive Europe by the bull Anu!

and by public confession to be taught so as to achieve a purely political end — the destruction of the racial type of the German nation.

Germany Under The Equalitarian Jackboot

"LIBERALS" PLOT THE END OF A TEUTONIC NATION

GERMANY is now truly under attack from both external and internal forces. Paralysed as Germany is by partition and the Communist giant on her borders, "liberals" are now taking advantage of the international position to de-racialise the country both intellectually and practically.

At least, the liberals are **trying** to do this.

But the **Northlander** believes their efforts will have just the reverse effect, for there is something in every Teutonic heart which invariably cries out against repression. Although there is already much submissive non-Teutonic blood in Germany, the Teutonic element is still strong, and will resist the equalitarian jackboot as it has always resisted slavery and oppression.

LIBERAL PLANS

To destroy the German people racially, the liberals are now urging the admission of Asian and African workers into Germany, ostensibly "to aid the German economy." Yet they know that in the long run nothing would destroy the German economy more effectively than the destruction of the entire German race by intermarriage with the alien immigrants which are now being planted on German soil.

The latest scheme is the importation of 10,000 Pakistani labourers! These, added to the numerous half Negro children left behind by American Negro troops during the occupation, would have an enormous effect on the character of the German population within just two generations.

BRAINWASHING CHILDREN

On the intellectual side, the destruction of the Nordic race in Germany is to be aided by brainwashing the children in the schools, **and even the universities!** Freedom of intellectual life in educational institutions is to come to an end.

To achieve this brainwashing, a "Commission of Enquiry on Civil Liberties" has been formed, consisting of twelve men, for the express purpose of limiting the civil rights of freedom of speech and thought in places of higher education. This Commission will advise the Government on teaching in schools and colleges as a means of combatting "religious intolerance" and "racial prejudice." What could be more intolerant or even more prejudiced than this latter aim?

History in Germany is now openly

EAST GERMANY

1. Facts.

Figures are now available on the number of farmers and farm-workers who have fled the Soviet zone of Germany during this year. The final compulsory phase of collectivisation was instituted in the first months of this year and in this time 2,715 farmers who formerly owned and operaed farms in Central Germany fled to the West. This amount shows an increase of 296 per cent over the same period in 1959. Since January 1954 a total of 17,676 farmers and 10,625 members of their families have abandoned their homes and sought refuge in the Federal Republic. In addition some 49,126 farm-workers have also fled to the West during this period.

2. Farce.

An outrage was discovered by the Folk Art section of the Soviet Zone Communist Party's Cultural Affairs Board recently. There was consternation when it was found that a school text book for teaching the recorder contained music that was rife with "reactionary bourgeois aesthetic and rank chauvinism"! There were only three tunes of "proletarian nature" while some twenty-five were all historic folk-songs written long before Karl Marx formulated his inferiority complex. Worse still, it was found that the editor of the book had expressed a notion about "art for art's sake" when it is well known that this theory only serves the purposes of "decadent capitalism" and that art is for the party's sake alone!

The Future of our Race — 8

THE RACIAL FUTURE IN AMERICA

By Edward Langford

WITH two great powers, Russia, and the United States of America, dominating the world today, the attitude of both these countries to our Race is of the utmost significance. Although in the recent Olympic sports in Rome, Russia was represented mainly by Nordic-Slav competitors, and the United States to a considerable extent by Negroes, the fact remains that at the present time the Government of the Soviet Union still follows Communist race-mixing theories — even to the extent of pretending that the biological heritage is totally insignificant in human affairs — while the United States still contains a majority population of Nordic or North European descent, and so might be expected to work loyally for the preservation of our white race.

What is popularly called the "White Race" is, of course, primarily of "Nordic" or North European origin, for it was the British, Germanic and Scandinavian peoples who established the old kingdoms of France, Italy and even once dominated the Spanish scene. It was the British, Germanic and Scandinavian family of nations, also, who pioneered the establishment of the "White" peoples in North America, and who by demanding their ancient Nordic rights of individual freedom and self-government, won freedom for the United States of America and also for the now independent dominion of Canada, in just the same way that their Saxon and Viking ancestors in Britain had won freedom from their continental kindred in Europe after migrating to Britain from the European mainland across the North Sea.

RISE OF GANGSTERISM

The United States was always Nordic in character from the time of the first pioneer settlements in North America until the second half of the nineteenth century, when many migrants began to enter the United States from southern Italy, Sicily, southern Portugal and Spain, and new slums began to appear, which later produced the famous gangsters of the 1920s, and which still produce the overwhelming majority of rackateers and professional criminals, if one discounts for a moment the generous contribution of the coloured peoples to these undesirable classes. It has been one of the most marked factors of American history, that the Nordic people — that is to say those whose forefathers came from the North European countries — have engaged themselves with the pioneer work of cultivating the wilderness, and establishing industry and science, building railways and roads in this rich new continent, and have contributed but little to the vice and sordid crime which lurk everywhere in the backstreets of the great cities which have arisen in this fair land. New York and Washington, which are amongst the leading crime centres of the U.S.A., have some of the lowest percentages of Nordic true-white American citizenship.

BECOMING A MINORITY

The Immigration Act of 1924 officially restricted immigration from non-Nordic countries to about 12 per cent, but unfortunately it failed to prevent illegal immigration, it failed to prevent subsequent special legislation to permit non-Nordic immigration under special acts, and it failed to prevent the inequality of birth rate between the Nordic people of America of English, Scots, German, Scandinavian ancestry, and those of southern European, Negro and Chinese origin. As a result the true-Whites in America are fast becoming a minority group — however astonishing or disturbing that fact may seem.

The remedies would appear to be easy. Africa, for instance, could easily absorb the relatively sophisticated American Negro population, and possibly benefit by that very sophistication. Liberia was formed for the very purpose of acting as a home for American Negroes. A state aided programme could ship the entire Negro population back to Africa, each with a handsome grant to assist in resettlement in the newly independent African continent, at much less cost than America spends on foreign aid. Similar arrangements could be made for other non-White groups, and such migration would undoubtedly in the long run greatly benefit the migrants. As the total population of these groups increases in America, then the U.S.A. herself will otherwise be faced with increasing taxes to provide social services and aid, and will find herself priced out of world markets.

EFFECT OF SLUMP

In the ensuing slump, it is the Negro, Mexican and Puerto Ricans, etc. who will suffer the most. Their comfortable stay in the U.S.A. will, of necessity, merely bring about economic conditions equivalent to those of the homelands they have left, and instead of bringing about a permanent improvement in their own standard of living, merely bring down the present high American standard in the direction of their level.

This of course could not happen if their numbers were to remain small, but as the world knows, the percentage of coloured and half-coloured people in America is increasing year by year. The hard fact is that the true-Whites have only small families; while the non-Whites have usually three to five children in a family, not counting the large numbers of illegitimate chidren which they also produce outside of wedlock.

But unfortunately Government opinion in the U.S.A. appears to be pressurised by economic and political factions which see the coloured vote as a means to controlling the country, and the coloured workman as a source of cheap labour. As a result the general government policy follows the false and blind "melting-pot" ideal, oblivious to the fact that the melting-pot race-mixing factor is precisely the same factor which has destroyed almost every great civilisation of the past, from Ancient Egypt, to Ancient Greece, Rome, India and Persia. There is only one

EURASIONS MIGRATING TO AMERICA

Holland's population of **"Indo's,"** half-Indonesian and half-Dutch people, are rapidly migrating to the United States of America, according to recent reports in the Dutch press. Six thousand have already been admitted to the U.S.A. under the American Fugitives Act, and another nine thousand under the Walter Pastore Act, specially created for this community. This latter law has been extended, and within two further years a total of twenty-five thousand Indonesian-Dutch mixed bloods will have migrated from Holland to America.

CLIMATE TOO COLD

Possibly the entire community would migrate, but for the restrictions upon their entry into the States. They report that they like neither the cold damp climate of Holland nor the settled ways of the Dutch people.

This migration, however, carries with it little relief for the Dutch people. A small nation, they have a total of a quarter of a million **"Indo's"** living in their small and hitherto outstandingly Nordic country. This coloured community breeds so rapidly that it is estimated there will be one million coloureds in Holland, before the close of the century. Into the bargain, their number is being continually reinforced by other **Indo's** who had formerly elected to adopt Indonesian nationality and remain in the country of their birth. Fifty-thousand more of such **spytoptanten** are shortly to be admitted to Holland. A **spytoptant** is an **Indo** who formerly chose Indonesian nationality but now regrets this **(spyt** = regret) and now "opts" (opteert) to migrate to Holland.

Thus it seems that Indonesia is getting rid of its mixed bloods, at the expense of the Nordic race. But the heaviest guilt lies with the Dutch Governor General Coen who encouraged such intermarriage in the first place.

The **Wereld Kroniek,** reporting earlier this year, claimed that **Indos** normally married amongst people of their own community; but those who live in Holland state that **Indo** males are normally to be seen accompanied by Nordic women, and the Dutch press has done its best to encourage intermarriage. Add to the fact that **Indo** families normally average five children, there has been a vast influx of West Indians who are also to be seen in Dutch cities today, and one realises that unless drastic action is taken in the near future, Holland will soon be lost to our race.

TEXANS OPPOSE INTEGRATION

Houston, more than any other part of Texas, has fallen under the heel of capitalist-liberal domination, yet still the Texan people of that great city have succeeded in rejecting a carefully prepared campaign to integrate Houston schools.

Supported though this plot was by big-business of non-Texan ownership, voters rejected the proposal by two to one. The only localities which favoured the proposal, in fact, were those comprised entirely of Negro voters.

NEGROES FAVOUR SEGREGATION

While Negroes generally seek integration as a means to "social improvement," when they achieve integration by migration into the northern towns they tend of their own accord to resegregate in their own communities.

There is nothing wrong or demeaning about this, it is a natural and entirely proper function. So real, also, is this tendency, that were it not for the interim harm caused to both committees by the transitional period of integration one might feel that it were better to remove all restrictions and merely encourage the various races in America to follow their own inclinations.

'RIGHT' Resuming Publication

Despite the announcement which appeared in the sixtieth issue of **Right** magazine in September, it is now understood that editors Dr. Anderson and Edward Vargas have decided to continue the publication of **Right** after only a brief interval of rest. It is understood that they felt they had no other course, after the heavy mail they received following the announcement of their intention to suspend activity.

Right is a stimulating monthly news publication for Americans (and indeed readers throughout the world) who are interested in the race question. Smartly printed, and containing some 4,000 words per issue, plus photographs, it costs $3.00 per annum only, and those who are anxious to join its reading list for a trial period should send their subscription to P.O. Box 180 San Francisco 1, California, U.S.A.

The new **Right,** it is rumoured, will also include some new surprise features.

INTERNATIONAL SOCIALISM

THE COMMUNIST IDEAL

Inaugerating the All-India conference of the Revolutionary Communist Party of India, Mr. S. Tagore stated that only "International Socialism" could completely remove the causes of war.

It is interesting to hear Communists come out into the open and take hands with their "liberal" fellow travellers. We can then see more clearly the common goal to which their efforts are both jointly and severally aimed—world dictatorship.

World-wide Communist domination would doubtless bring with it "peace," but do our fine preachers, who would presume to teach Nordics the art of fair and just rule, realise that this would be the peace of death to untold millions of every race and nation or do they, like so many of our own "liberal" friends, merely snuggle back comfortably into their armchairs, and imagine fond dreams of their new world order, in which they see themselves sitting, like dung, on top of the ant-heap?

Our Peoples and Culture — 7

NORDIC AMERICA

By EDWARD LANGFORD

AMERICA was first discovered by the Viking Leif Ericsson, centuries before North Italian Columbus reached the West Indies. Viking settlements were made on the coast of New England, but appear to have survived barely a generation. The settlers did not number more than a few dozen, and as Indian attacks are recorded, it is presumed that, as with the Greenland settlements, the earliest pioneers must have been annihilated by hostile Indians.

Then in the seventeenth and eighteenth centuries the Anglo-Saxon and Frankish peoples began to colonise and develope North America on a major scale. In time, the Frankish settlements in Canada and Louisiana fell under Anglo-Saxon control, and then in the nineteenth century the Anglo-Saxon settlers were reinforced by large-scale migrations of Teutons, or continental Saxons from Holland and North Germany. The Declaration of Independence was a restatement of the traditional rights of Nordic freemen — but, even at that time; people like Abraham Lincoln never intended that the state should include men of all races. Instead, Lincoln and Grant both supported schemes for the re-transfer of American Negroes back to their own homeland in Africa, and Liberia was established especially for this purpose.

Unfortunately these plans were not fulfilled, and in the latter part of the nineteenth century economic conditions in southern and central Europe caused a mass migration of non-Nordic peoples into North America, who, ever since have continued to produce larger families than the original Nordic settlers. The result has been that their numerical importance has grown vastly.

Under the influence, largely, of author Madison Grant (**The Passing of the Great Race**) and Lothrop Stoddard (**The Rising Tide of Colour**) — both names deprecated by the modern powers-that-be in America — the Immigration Act of 1924 was passed, which limited official Non-Nordic immigration to 12 per cent. But it was too late. The damage was done, with a large non-Nordic population reproducing at more than twice the rate of the Nordic pioneers, and wholesale illegal and semi-legal immigration of Mexicans and Puerto Ricans, plus special relaxations in favour of refugees from Germany and other European countries.

True Nordics today are strong in the mid-West, and in the old South. But New England and most of the larger cities have large alien populations, and the Negro problem is not the only one in the modern U.S. Worst of all, the film industry, large sections of the press, the entire "entertainment" world, a great deal of banking, and most political influence, has fallen into the hands of non-Nordics.

These non-Nordic elements have no genuine feeling for the Delaration of Rights or other historic documents, as their own way of life shows, when contrasted to that of the law-abiding Nordic true-American elements, but these, and any other handles to political power, are ruthlessly used to subvert the Nordic backbone of the nation. Those who did not know the courage with which individual Nordics in America are resisting present degrading influences resulting from alien political and financial influence, especially the "defence in depth" by loyal Nordic-Americans in the administration, gain a very false impression of the true America from Hollywood films. It is unfortunate, however, that it is just the same "American" films and so-called "American" entertainers and writers whose voice is most widely heard abroad. All true-White patriots throughout the world join in wishing their true kinsmen in America every success in the battle against decadence and race-mixing in the United States . . . a battle which is of the greatest significance in view of the enormous influence the U.S.A. today wields over the rest of the western world.

word of advice that the American people should offer their leaders in the present Presidential campaign: recollect the warnings of the founders of the nation!

Yes! Thomas Jefferson said: "Nothing is more certainly written in the book of fate than that these people (the Negroes) are to be free, nor is it less certain that the two races, equally free, cannot live under the same government." Even Abraham Lincoln also warned: "There is a physical difference between the white and black races which I believe will forever forbid the two races living together on terms of social and political equality." While Madison Grant openly declared: "If the purity of the two races is to be maintained, they cannot continue to live side by side, and this is a problem from which there can be no escape."

The racial issue in America is as simple as that — and the fate of the true-White people everywhere will be heavily influenced by whatever direction the trend of events in America follows.

On March 17, 1961, [redacted] was interviewed by SAs [redacted] and ZAVEN JARDARIAN. b6 b7C

She advised she was employed by [redacted] She is currently moving out of her apartment and is going to [redacted] She advised that, as employees of [redacted] she and another girl were called upon to work in the office of WILLIS CARTO, 201-A 11th Street, San Francisco, for approximately three weeks in February 1961. She related the woman in charge of CARTO's office, Mrs. JOSEPHINE ROBINSON, was responsible for engaging the girls. CARTO was in Washington, D.C., all this time and consequently the girls never saw him. b6 b7C

[redacted] continued that, when Mrs. ROBINSON talked to CARTO on the phone one day and mentioned the extra help she had hired, evidently CARTO did not approve because [redacted] and the other girl were dismissed the next day. She said their work in the office consisted of stuffing envelopes with literature and form letter requests for donations. She stated the literature came mainly from England, and that the "Northlander," a copy of which she had previously submitted to this office, was typical. She said the form letter contained 32 questions such as, "Are you against the UN; are you against urban redevelopment; are you against Communism," etc. The letter, which was on the letterhead of Liberty Lobby, asked for donations and/or names of five other people to mail literature. She said that many contributions were mailed in, including donations as high as $100.00. She commented that obviously the response was greater than Mrs. ROBINSON had expected. b6 b7C

[redacted] said she noted that the Kaiser's picture was on the wall; that there were signs of "Faubus for President" on the wall, and that the literature mailed out seemed pro-Nazi b6 b7C

and pro-racial supremacy. She said that for this reason she wanted to notify the FBI. She also said that Mrs. ROBISON also made statements such as it would not have been bad if HITLER had won the war because now we have to worry about the Russians. She further stated the office, in which they worked, had some men's clothing "hanging around," which made [redacted] think that someone lived there. She said that Mrs. ROBINSON was the only regular employee there, and that CARTO's wife dropped in after 5:00 p.m. on occasion. She related that CARTO's wife worked at a regular job elsewhere. She related that at night a young man, possibly a teen-ager, would come to the office and mail out pamphlets. She said this individual was German. She also stated that one of the suitcases in the office had the name [redacted] on it, but she did not know if it was CARTO's suitcase. Mrs. ROBINSON told her that CARTO was French, but she did not know if this were true. She also mentioned that Mrs. ROBINSON had an old Hudson, in which she drove to work, and that Mrs. ROBINSON also banked the donations received.

It is noted that [redacted] submitted to this office the October 1960 issue of "The Northlander," Vol. 3, No. 9, which has been filed as 105-4222-81. This newsletter describes itself as "a monthly review of Pan-Nordic Affairs." It also reflects the following:

b6
b7C

The Northlander, Editor - EDWARD LANGFORD.
Assoc. Editors - DAVID FORDYCE, RONALD BRYDEN.
Editorial Offices - P.O. Box 444, Clarendon Cross, London W. 11.
Subscription rates per annum: U.K. and Europe 8s. od., USA and Dollar Area $2.00.
Published by Northern World, P.O. Box 444, Clarendon Cross, London W. 11.
Published by Clair Press, 111-A Westbourne Grove W.W.

A review of this issue reflects that it concerns itself with articles favorable to "nordic" race, as well as anti-integration and anti-communist articles. This issue also reflects that it is understood that editors Dr. ANDERSON and EDWARD VARGAS have decided to continue the publication of "Right." (It is noted that Dr. ANDERSON is an alias for CARTO.) "Right" is described as a stimulating monthly news publication for Americans and others interested in the race question.

The above information from [redacted] is not to be made public except in a usual proceeding following the issuance of a subpoena.

On March 20, 1961, [redacted] advised that nonpublished phone #UN 1-0624 is listed to W. A. CARTO at 201A 11th Street, San Francisco. b7D

On March 24, 1961, CARTO was observed by SA JARDARIAN entering a car, an old Dodge, brown, bearing Ohio license plate #VW 659. A review of CARTO's file reflects he had a 1949 Dodge; this may be the same car.

On March 28, 1961, the same car, Ohio license VW 659, was noted to be parked in a parking lot across the street from CARTO's office. The lot is on the southwest corner of 11th Street and Howard.

A copy of this memo is being placed in the file of the John Birch Society for information.

RECOMMENDATION: It is suggested that a file be opened on [redacted] to consolidate references on him and to obtain background information on him. b6 b7C

[redacted] DOuglas 2-2650, telephonically contacted the writer and stated that his firms services the typewriter for the Liberty Lobby. He said that his repair man stated that there was considerable literature and pictures around on the walls, and that he thought that perhaps the Liberty Lobby was some sort of "commis outfit." The repair man said that he didn't want to go back there for any work if it was.

He said that the Liberty Lobby is located at 201-A 11th St., S.F.

[redacted] wished to know if the FBI would tell him whether the Liberty Lobby was a communist outfit or not, and if not, what was it. b6 b7C

[redacted] was advised by the writer that the FBI could not furnish such information to him, and neither could they tell him whether or not he should continue to repair or cease repairing the business machines at that office. [redacted] stated that he understood our position and did not want to put the FBI in a compromising position.

It should be noted that the LIBERTY LOBBY is run by WILLIS A. CARTO, an avowed "rightist", formerly connected with "RIGHT", published by Liberty & Property, Inc.

The following article appeared: NORTHERN LEAGUE NOTES
by E. L. ANDERSON, Ph.D.
P.O. Box 67, Sausalito, Calif.

Organization of NORTHERN LEAGUE branches in most White nations of the world is proceeding forward at a good clip. The sole group formally organized in the US to date is in California. But some other localities soon expect to have a branch.

In England, members have conducted a poll in all sections of the country on the question of public re-action to immigration of Negroes from the outlying Commonwealth. The results show that 84% of White Britons are opposed to continued unrestricted immigration.

Northern World Diaries are available to LEAGUE members for $1. These diaries contain notes of timely interest for White men.

Copies of the newly-published booklet, Eugenics & Race, are now available to LEAGUE members for $1. This is a compilation of some of the notable articles which have appeared in Northern World magazine, written by Roger Pearson, Central Organizer of the LEAGUE.

File # 105-3824-1A (69) (continued) Ident

The first world-wide gathering of NORTHERN LEAGUE members is set for July. Nationalists from all White nations will be in attendance. It will be held in the Teutoberger Forest, in Germany. This is where Herman (Arminius) fought and defeated the Roman Legions of Varus, in 9 A.D. and thereby prevented the Latinizaion of northern Europe and Britain. Called the Teutoberger Moot, all LEAGUE members from America are invited to attend.

that there would be a BAFPCC meeting on 5/3/61, at 150 Golden Gate, San Francisco, between 8:00 P.M. and 10:00 P.M.

The writer was in attendance at this meeting which started at 8:20 P.M. and ended at 10:04 P.M. The meeting was held in the second floor auditorium of the ILWU, 150 Golden Gate, San Francisco, and about 60-70 were in attendance.

The following persons were identified by the writer as being in attendance at this meeting:

[redacted] [redacted] [redacted] b6 b7C

[redacted]

WILLIS GARTO

[redacted]

[redacted] who introduced himself as Chairman of the BAFPCC, started the meeting with a re-cap of BAFPCC activities during the past few weeks. He said the rally on 4/19/61 was put on by the Student Ad Hoc Committee to Oppose U. S. Intervention in Cuba and they were assisted by the BAFPCC. [redacted] said that just because the recent invasion attempt was a failure the BAFPCC must not ease up on the work to educate the American people and to prevent intervention in Cuba. He said that in view of the phony story CIA came up with about the Cuban "defectors" that caused the air raids on Havana, it is quite possible that there might be another air raid by planes with Cuban Air Force markings on the U. S. Navy Base in Cuba or CIA might come up with another "USS Maine" to give the U. S. an excuse to invade Cuba with the Marines. He said that the primary goal of FPCC is to prevent intervention in Cuba and allow the Cubans b6 b7C

to solve their own problems in their own way. He stated that the purpose of this meeting was to raise more money and to get more committees working on the BAFPCC. He said the Executive Committee, with seven members, was too small of a group to carry on all of the work. He introduced [redacted] of the BAFPCC. b6 b7C

[redacted] gave the financial report. He stated that the BAFPCC had $359.00 as of a few days ago but had sent $150 to the National FPCC which left $209 as a present balance. He said the [redacted] tour made the BAFPCC about $300 over expenses and the 4/26/61 newspaper ad which had cost $2200 has been almost paid for by contributions. He said a few individuals who loaned money for the ad still remain unpaid but it doesn't represent much money. He said that books would be distributed for collections and each book had 10 receipts for contributions to the FPCC.

[redacted] who was introduced as [redacted] of the BAFPCC, talked about the organization of the BAFPCC and stated that there are now about 1600 on the mailing list in the Bay Area with about 500 of these paid up members of the FPCC. He said there is an active group in the East Bay which has collected quite a large sum of money for the BAFPCC and also a group in Marin County ([redacted] announced at this meeting that he had collected $218 for the BAFPCC from Marin County. [redacted] announced that his group in the East Bay had collected money for the BAFPCC principally through a telephone campaign and distribution of the contribution books. [redacted] stated that an active member in the East Bay was [redacted]) b6 b7C

[redacted] reported that an ad had also been placed in the classified section of the "San Francisco Chronicle" regarding the furnishing of speakers for Cuba. He said they had received 12 inquiries and planned to place another similar ad in the future. He said they would also place another large ad after fund drive is over like the 4/26/61 ad. b6 b7C

[redacted] announced that the BAFPCC Executive Board had appointed the following members to the BAFPCC speaker's bureau: HAYDEN PERRY, TOM SANDERS, IRENE PAULL. He requested additional volunteers from different sections of the Bay Area and one of those raising their hands was [redacted] who would represent the peninsula.

WIL:DAS
SF 97-347

It is noted that later in the meeting [redacted] made a long-winded talk against the "international banking conspirators" and "monopoly capitalists" that was so radical that [redacted] finally told him to sit down as his time had expired. He remarked that he had returned from Cuba due to doctor's orders and suffered greatly from arthritis, etc. He also stated he had a brother-in-law who was a multi-millionaire and consequently he knew all about the evils of capitalism. b6 b7C

[redacted] stated that the Student Ad Hoc Committee Against Intervention in Cuba had formed on 4/17/61, and had a seven man Executive Committee, which, except for one man, were all members of the FPCC. He named the seven as: [redacted] He said that last week two members of this Executive Committee contacted the BAFPCC Executive Committee and asked if they could have representation on the BAFPCC Executive Committee. He said they told him they wanted to work with the BAFPCC and coordinate their activities with the BAFPCC. [redacted] recommended that their seven man Executive Board be added to the Executive Board of the BAFPCC and the audience approved by unanimous voice vote. (It is noted that this Student Ad Hoc Committee also is known as the Bay Area Student Committee to Oppose U. S. Intervention in Cuba.) [redacted] stated that this student committee had representatives on the campuses of most of the colleges in the Bay Area. b6 b7C

Several unidentified people requested that the Executive Committee consider contacting a lawyer regarding the filing of an injunction against further use of tax monies to finance the Cuban counter-revolutionaries and [redacted] agreed that this would be done. It was also mentioned that perhaps the abortive invasion may be a violation of the Neutrality Statute and this also should be looked into by a lawyer. b6 b7C

WILLIS CARTO, who had been quietly sitting in the back of the room, then stood up and said, "I'm not a member of the committee but I came here tonight to see if you people are sincere. Are you against intervention per se or are you just opposed to intervention when the victim is a communist satellite? If you are sincerely against intervention then you should go on record against the intervention by China into Tibet." [redacted] stated that certainly there were many examples of intervention but that b6 b7C

the FPCC had been formed to object to intervention in Cuba and the committee wasn't large enough to take on all the ills of the world. CARTO left shortly after someone in the crowd said "if you don't like it why don't you leave?" (It is noted that CARTO is a member of the BAFPCC under the name of WALLACE OLDEMEIER.)

[redacted] announced that the members who are members of unions should get the support of their unions for FPCC. He said the ILWU was the only union which had gone on record against the intervention in Cuba. He told them that they should not be discouraged just because the union leaders won't give the support as many of the rank and file would support such a plan. b6 b7C

(FNU) (possibly [redacted] (phonetic) announced that he was a folk singer specializing in songs of Cuba in case anyone present had need of such an artist in the future. b6 b7C

Volunteers for a social committee to plan a fund-raising party were picked and the following will be on this committee: [redacted]

[redacted] announced that a friend from Berkeley had heard from someone in Havana about a new film on the Cuban revolution that might be obtained for a future function. He will look into it further as he's not sure the Postal authorities will let it into the country. b6 b7C

[redacted] announced that [redacted] of the FPCC, is considering a trip to San Francisco in the future on behalf of the FPCC and a rally would be held at that time to hear him speak.

[redacted], high school student, announced that she knew about 30-40 high school students, principally from the East Bay Area, who were interested in the FPCC and had participated in some of the recent demonstrations. She suggested that these students also be given representation on the BAFPCC Executive Board. b6 b7C

[redacted] that if the students formed their own organization and elected a representative he was sure that the representative would be given a seat on the Executive Board.

WLL:DAS
SF 97-347

[redacted] told [redacted] that [redacted] was trying to get in touch with him and to call him after the meeting was over. b6 b7C

[redacted] remarked that the interest the FPCC was getting from the students was very stimulating and he hadn't seen such enthusiasm over one issue for years. He said one example of this was evident during the 4/22/61 rally at Civic Center Plaza, when a graduate student from UC, [redacted] who [redacted] had never seen before, asked to read to the audience a letter he had sent to ADLAI STEVENSON protesting our intervention in Cuba. [redacted] said that [redacted] was so emotionally affected that he actually trembled when asking for permission to take the platform to read his letter.

ACTION: Open case to identify [redacted] who has been identified as [redacted] the East Bay group of the BAFPCC. Assign to East Bay Agent. b6 b7C

Re New York letter dated 6/13/61 to Bureau.

Relet set out the names and addresses of approximately 187 persons in the San Francisco Division maintained on addressograph plates in the headquarters of the National Fair Play for Cuba Committee, New York. These were furnished by NY 3245-S* on 5/21 and 22/61.

It is noted that one of the names on this list is the Burlingame Public Library, Burlingame, California. A source at this library advised the writer on 7/3/61, that the library receives about every two weeks a pamphlet entitled "Fair Play" from the FPCC in New York City. She said that this publication was unsolicited and no bills have been received from the FPCC for this pamphlet.

It is further noted that the pamphlet "Fair Play" is the official publication of the FPCC and although each paid up member of the FPCC is mailed a copy of this pamphlet it is possible for anyone to mail $5 to the FPCC for the pamphlet without becoming a member of the FPCC.

Birch Prize for Warren Ouster

TULSA, Okla., Aug. 5 (UPI)—The John Birch Society has announced a $2500 essay contest on "Grounds for the Impeachment of Supreme Court Justice Earl Warren."

Robert Welch, founder of the society, made the announcement at the opening of the third annual Christian Crusade convention here, where he was keynote speaker.

Witnesses to the San Francisco riots during the House un-American activities committee hearing here were to speak today.

Reliable sources said they may make statements implicating another "liberal" member of the high court.

Willis Carto, founder of the Liberty Lobby, and Dr. G. Archer Weniger, a Baptist pastor, both from the San Francisco area, were to give personal observations about the riots.

The convention is sponsored by a radio evangelist, Billy James Hargis, who has led bitter attacks on the National Council of Churches for alleged Communist infiltration.

Re New York letter to Bureau dated 12/4/61 (SF 97-347-971).

Relet set out the names and addresses of approximately 315 persons in the San Francisco Division maintained on addressograph plates in the headquarters of the Fair Play for Cuba Committee, room 329, 799 Broadway, New York City, New York. These were furnished by NY 3245-S* on 9/24/61 and 9/25/61.

Persons are able to be placed on the mailing list of the FPCC by a payment of $5.00 (less for students) which entitles them to receive a year's subscription to "Fair Play", the official publication of the FPCC, but permits them to designate whether or not they wish to be considered a member of the FPCC. The code letters A62, B62, C62 and D62 after the person's name indicates what quarter of the year their membership or subscription comes up for renewal, and those names not followed by this code designation were up for renewal on 8/28/61. It would also appear that some of these names that are not followed by a code designation are complimentary mailings and those persons did not in fact ever send $5.00 to the FPCC.

IMPERIUM

The Noontide Press, Post Office Box 713, Sausalito, California, is distributing copies of a second edition of "Imperium" which was written originally in 1948 by FRANCIS PARKER YOCKEY under the nom de plume of ULICK VARANGE. This edition was copyrighted in 1962 and published by The Truth Seeker Company, 38 Park Row, New York, New York.

Publicity issued by The Noontide Press in connection with this edition alleged that "Imperium" was suppressed by enemies of western civilization, that the author was hounded for years, that he was held unconstitutionally under the enormous bail of $50,000 although no charges were placed against him, and that he committed suicide because of continued harassment. The book originally appeared in two volumes and the second edition has been combined into a single volume of over six hundred pages with a thirty-five page introduction by W. A. CARTO.

The introduction by CARTO declares that YOCKEY was a gifted writer who studied languages and became a linguist but that it was as a philosopher that he reached the summit. CARTO noted that YOCKEY practiced law in Illinois and in Detroit as an Assistant County Attorney for Wayne County, after receiving an honorable medical discharge from the Army in 1942. CARTO alleges that YOCKEY never lost a case as a lawyer.

CARTO points out in his introduction that YOCKEY went to Europe after receiving a job with the War Crimes Tribunal and that he concluded that the entire procedure of these war crime trials was serving the interest of international communism.

CARTO declares that YOCKEY prepared reports for the war crime trials for eleven months and terminated the employment because a superior advised him these reports had the wrong slant and that he would have to rewrite the reports to conform with "official viewpoint".

CARTO alleges that the only crime of YOCKEY was to write a book, "Imperium" and that for this he had to die.

CARTO alleges that the State Department in 1952 refused to renew the passport of YOCKEY and that a game then developed between the FBI and YOCKEY because the FBI had received instructions to keep YOCKEY under surveillance at all times. When YOCKEY's whereabouts was known, the FBI watched him night and day, according to CARTO. When he dropped temporarily from sight, as he did frequently, his friends, relatives and contacts allegedly were interrogated constantly by agents who kept repeating they just wanted to talk to him.

CARTO concludes that the spectacle of a man being persecuted, framed and driven to his death simply because he wrote a book is not one which could be expected in the 20th Century in the land of the free and the home of the brave. CARTO asks, however, whether people in the United States are free when a person whose only crime was to write a book is denied a passport, when a citizen can be arrested without a warrant and held in jail without charges and under fantastic bail, when "free press" vultures can heap scorn upon his head, when a sensitive genius can be held in the filthiest of jails with Negro and white criminals, and when a judge can rule that a prisoner is not to have a speedy and public trial by an impartial jury?

CARTO emphasizes that YOCKEY was neither pro-Russian nor anti-Russian, although "certain of his captors" called him "anti-American and pro-Russian". He also alleges that accusations of "anti-Semitism" should be interpreted on the same level.

CARTO declares that some weeks after YOCKEY's death by suicide the man who had been charged with railroading him, the United States Attorney, suddenly and without explanation resigned from his job, left his wife and children, and joined a monastery.

A source advised on March 4, 1963, that mailed copies of the book "Imperium" enclosed a reprint of an article from "Right", #9, August, 1960, which contained an article entitled "Creative Genius Driven to Suicide". This article alleged that YOCKEY's doom was sealed from the moment "Imperium" was published. The Anti-Defamation League reportedly began a world-wide persecution of YOCKEY and the United States allegedly questioned hundreds of people at a cost of thousands of dollars because he was "suspected of heading an international conspiracy against the Government." The article alleged that these persecutions caused YOCKEY to utilize false names and passports as a result of which he was arrested in Oakland on June 6, 1960, with three passports and held for $50,000 bail. The article alleged that YOCKEY then suffered the following illegalities and civil rights violations:

1. The FBI arrested him without a warrant in violation of the Fourth Amendment.

2. His bail was set at $50,000 by Judge JOSEPH KARESH, an Ordained Rabbi.

3. He suffered cruel and unusual punishment in the City Jail.

4. The papers misquoted YOCKEY and whipped up public hatred against him.

5. He was denied interviews with friends.

The article concluded that YOCKEY learned that no jury trial was to be allowed and that he lost hope, causing him to commit suicide. His death, however, has made him a martyr for ideas - ideas that will not die with a thousand Anti-Defamation Leagues.

A letter accompanying mail orders of the second edition of "Imperium" publicizes the availability of another book by YOCKEY, allegedly written and given to a few close friends a few months before his death and published in July, 1961. This booklet is identified as "The World in Flames" and reportedly deals with the approaching war between Russia and the West.

Also enclosed with the mail copy of the book "Imperium" was a list of other books available through the Noontide Press which included the "First National Directory of 'Rightist Groups', 4th Edition", "American Race Theorist", "The World of Oneness", "Race and Social Revolution", "Race and Reason", "Origin of Races", and "The Hybrid Race Doctrine."

A second source advised that Post Office Box 713 is rented to the Northern League, which rental was arranged by W. A. CARTO. The Noontide Press also receives mail at this box. [redacted] b6 b7C

[redacted] on October 23, 1958, was reported by a third source to have white racist ideas and to be extremely anti-Semitic. He reportedly has spent considerable funds in mailing out hate literature and doing some writing on his own on this subject.

[redacted] on November 3, 1958, advised a Special Agent of the FBI that he was opposed to integration and believed in white supremacy although he did not favor physical violence. b6 b7C

A fourth source on November 25, 1952, advised that a letter dated November 6, 1952, from The Noontide Press and advertising the book "Imperium" appeared over the purported signature of [redacted]

[redacted] on February 25, 1958, was identified by a fifth source as a subscriber to the "People's World" newspaper, a west coast communist weekly publication, in 1950. In 1960, he was active in campaigns to abolish the House Committee on Un-American Activities.

WILLIS ALLISON CARTO was born July 17, 1923 at Fort Wayne, Indiana, according to the records of the Passport Office, United States Department of State, 375 O'Farrell Street, San Francisco. He identified his father as WILLIS FRANK CARTO and his mother as DOROTHY LOUISE CARTO. CARTO advised

that he was married November 15, 1958, to [redacted] b6 b7C

WILLIS A. CARTO was listed as one of three persons in the original articles of incorporation filed by Liberty and Property, Incorporated, on July 30, 1954. Liberty and Property, Incorporated, was described by a communication dated June 15, 1956, on one of its letterheads as primarily "another one of dozens of right-wing political action groups."

A sixth source in 1955 identified WILLIS CARTO as an individual who had made a trip throughout the United States and contacted numerous rightist nationalist organizations and individuals. CARTO reportedly contacted groups which were against communism, against communist-infiltrated state governments and against the Supreme Court decision on integration. b7D

A Liberty and Property, Incorporated, Progress Report dated October 14, 1955, announced the creation of a new publication entitled "Right," which purportedly intended to report, without bias or favoritism, all significant activities of the American right wing.

The September, 1960, issue of "Right" was described as the last issue of that publication.

The November, 1958, issue of "Right" contained an article entitled "Northern League Office Opened," which noted that an office of that league had been established in Sausalito, California. The article stated that the object of the Northern League was cultural to create better relations between "white people" of all nations.

On December 17, 1958, [redacted] advised that WILLIS CARTO, publisher of "Right," utilized the pen name of Professor E. L. ANDERSON for various articles which appeared in various editions of the newsletter, "Right." b6 b7C

It should be noted YOCKEY was apprehended on June 19, 1950 for a violation of the Selective Service Act by FBI Agents. Upon arrest he refused to identify himself or to explain why he possessed four passports from different countries under different names.

July 1, 1963

Dear Sir,

As you know I have only been in command of the [redacted] Under my leadership there has been more progress in Southren California than in the past 2 1/2 years. As could be expected there was some jealousy and some resentment in some quarters. [redacted] tried to carry out a small mutiny with the intent of stealing the Party. Within two days I crushed this rebellion. Everyone who was connected with the Party here prior to my assumption of command has now sworn to and signed an oath of allegiance to myself and the Commander. b6 b7C

Forseeing the possibility of a small coup on the part of [redacted] I systematically went through the mailing list and through personal contact organized a completely new Party which I kept isolated from and unknown to the "old guard" here. I now am firmly in command of the unit which I inherited two months ago AND an entirely fresh uncontaminated Party. b6 b7C

[redacted] stole over $200.00 from the Party treasury including $175.00 of B.C.'s which had been ear-marked for Hall rental and nothing else(Incidently, [redacted] was tickled pink when I told him I had met you. I am sure he would like to hear from you.). [redacted] was party to [redacted] theft of Party funds. [redacted] also managed to ferret out the place of business of an anonymous contributer and threatened to expose him if he did not support his and [redacted] rebellion. b6 b7C

We have suffered a prestige loss from all the stink, but for the first time I am truly confident that what I have out here is truly solid. I should like very much to hear from you soon, and

On April 1, 1964, [redacted] advised that an individual using the name, W. A. CARTO, and the address P. O. Box 1622, Washington, D. C., and P. O. Box 5311, San Francisco, California, had an account at his bank and that deposits to this account were in the nature of large stacks of $2 and $3 checks. b6 b7C b7D

CARTO operating under the trade name of Liberty Lobby, described his occupation as "dissemination of information", and has aroused [redacted] interest, as he will not furnish any other address other than the post office box. [redacted] noted that the charges to the account are limited, business expenses, such as printing and stamps, and from time to time, CARTO will withdraw $2,000 from the account noting that this amount is to cover out-of-the pocket business expenses. b6 b7C b7D

[redacted] advised that he was making the above information available because he thought CARTO and his activities would be a possible interest to the FBI. b6 b7C b7D

In view of the extensive inquiry that has previously been made concerning CARTO, there appears to be no basis for further action at this time, and therefore [redacted] information is being made a matter of record.

WILLIS ALLISON CARTO

On November 14, 1966, a confidential source who is a [redacted] advised that CARTO is an admirer of the John Birch Society and in his conversation definitely is "anti-semitic, anti-communist, and right-wing extremist oriented". The source stated that during the Summer of 1966, CARTO diligently attempted to get an author of prominence to do a ghost story in the form of fiction, but based on events of real life. The story, to be about 2,000 to 2,500 words in length and to be published in paperback, would require a review of newspaper morgues and interviews with individuals in Northern California who could give information about a politician who allegedly was elevated to riches and power by the "invisible government". This person reportedly would be EARL WARREN, Chief Justice of the United States Supreme Court. The story would deal with the murder of EARL WARREN's elderly father, and the inference to be drawn from individuals interviewed and from newspaper morgues was that EARL WARREN, in a fit of rage, murdered his father. The date was probably in 1936 or 1937 and reportedly is available in the newspaper morgues.

b7D

CARTO was initially said to be willing to pay $200 for a rough draft of the story, but subsequently raised this amount to $500. CARTO was said to be an official of Liberty Lobby and the owner of the publication "Western Destiny", the "Noon Tide Press", Post Office Box 713, Sausalito, California, and the "American Mercury", Post Office Box 7213, Houston, Texas.

The source further stated that CARTO had reported during the Fall of 1964 that he was moving his base of operations of Liberty Lobby from San Francisco to Post Office Box 1622, Washington, D.C. He was also to set up a base for Liberty Lobby at Post Office Box 76062, Los Angeles, California 90005, and at Post Office Box 36132, Los Angeles, California 90036. The source said that it was his belief that any author of prominence would not prepare a ghost-type fictional story of the type CARTO wanted because of the ulterior use that may be made of

it. However, CARTO reportedly would be in Washington, D.C., during most of the Fall months of 1966 and will again attempt to get something going on the story some time in January, 1967, when he returns to the West Coast.

b6
b7C

According to the plan of CARTO, the author would go to the Oakland Tribune newspaper morgue, Oakland, California, and there review news articles regarding the death of EARL WARREN's elderly father. CARTO was interested in ascertaining if EARL WARREN gained any money through his father's death. He would see [redacted] telephone number [redacted], said to be the [redacted] who reportedly has names of people who should be contacted. CARTO said the name of [redacted] should be kept very confidential. He would contact a former police officer in Bakersfield, California, by the name of [redacted] who later was reportedly connected with the Veterans Administration, but may now be deceased, and a former police officer by the name of [redacted] who is known to [redacted] and who would be able to tell how EARL WARREN handled the local police at the time. CARTO said that WARREN was then the Attorney General of California and not District Attorney, as commonly supposed. The author would then check the morgue of the "Kern County Press", Bakersfield, California. CARTO said that the documents compiled by the "Kern County Press" of the murder of EARL WARREN's father may now be destroyed. An individual located in the northwest corner of the Haberfield Building, who is now an oil driller and who was a former investigator for the House Committee on un-American Activities, was reportedly well acquainted with "old man WARREN" and according to CARTO, he will talk a lot. According to CARTO, the name of this individual can be secured from a [redacted] CARTO claimed that EARL WARREN was attending a meeting in Fresno, California, the night before EARL WARREN's father was murdered early the following morning. EARL WARREN had not been seen since that meeting, but could have returned to his father's residence. CARTO implied that EARL WARREN argued all night with his father and in a fit of rage murdered him.

CARTO stated that the "Fresno Bee" had a reporter by the name of [redacted] and the author should check with [redacted] and review the "Fresno Bee" newspaper morgue in Fresno, California.

CARTO claimed "The California", a newspaper in Bakersfield, California, had photographs of the murder scene. He claimed that two hours after the murder of EARL WARREN's father, EARL WARREN had his own investigators on the job. The editor of "The California" was said to be WALTER KANE, who reportedly was in the area at the time of the murder.

Set forth below is descriptive data regarding CARTO as furnished by the source:

WILLIS ALLISON CARTO

On November 17, 1966, Mr. ROBERT DALE BAKER, News Director, Radio Station KSRO, Santa Rosa, California, advised he had written a letter to Chief Justice EARL WARREN, U. S. Supreme Court, because he had received information that some author was planning on writing a fictional story with fictional characters, but based on events in the early private life of WARREN. BAKER stated that the book was supposedly to be pure fiction, but it was to be slanted in such a way that everyone would be aware that it was about WARREN who would be the central character. BAKER advised that his reason for writing the letter to WARREN was that he wanted him to be aware of this "smear", but he did not desire to put enough information in his letter so that his source would be divulged. Mr. BAKER said that the person who allegedly is interested in having a book of this nature published possibly lives in Los Angeles, California. Columnist DREW PEARSON reportedly is aware of the plans for such a book, but BAKER advised he had no way of knowing how much information PEARSON actually possessed.

BAKER advised that he would not disclose the identity of his source of this information.

Neo-Nazi Movement On the Loose in U.S.

Drew Pearson

Today's Column is by Drew Pearson and Jack Anderson

THIS column has now penetrated the mafia-like secrecy of a sinister, neo-Nazi movement that seeks to overthrow the United States government. Already it directs an $850,000-a-year lobbying campaign on Capitol Hill, publishes one of America's famous old magazines, operates a publishing house, controls a dozen front organizations and last year handed out $90,000 to candidates for Congress.

Members of this organization are not goose-stepping storm troopers like the late George Lincoln Rockwell's motley misfits, but doctors, lawyers, writers and businessmen from America's upper middle class. They belong to secret cells where they are known only by code names.

★ ★ ★

THEY call their subterranean society the Francis Parker Yockey Movement, named for a neo-Nazi philosopher who committed suicide in a San Francisco jail cell in 1960. But they take their credo, as Yockey did, from Adolf Hitler whose birthday they plan to celebrate with secret rites on Sunday.

They seek the overthrow of democracy in the United States, the unification of western Europe under a neo-Nazi dictatorship and an Armageddon with Russia. Just as Hitler boldly set forth his aims in "Mein Kampf," Yockey outlined his strategy for resurrecting Naziism in a pseudo-philosophical book called "Imperium." This has become the "Mein Kampf" of the new movement.

Yockey declared in his book that a massive attack upon Russia across the plains of Europe was the "only solution."

The Francis Parker Yockey Movement was formed after his suicide by the last man to see him alive, Willis A. Carto, founder of the Liberty Lobby, who has written that the United States made a mistake in going to war against Hitler.

★ ★ ★

CARTO'S secret quest for political power has had astonishing success. While he recruited true believers into the Francis Parker Yockey Movement, he exercised political power through a network of front organizations.

The most powerful front is the Liberty Lobby which, say insiders, raised $850,000 last year. Through the Liberty Lobby, Carto furnished research and wrote speeches for a dozen members of Congress.

Carto has also purchased control of the American Mercury, a magazine whose name was once a household word in America. His Moontide Press in Sausalito, Calif., publishes pseudo-intellectual, neo-Nazi books. The latest, "The Myth of the Six Million," seeks to prove that Hitler's massacre of 6 million Jews was all a Jewish myth.

True to his word, Willis Carto has captured enormous political power. If the Communists had ever been as successful on Capitol Hill the scandal would have rocked the nation.

'Nazis' Take Over Youth for Wallace

Drew Pearson

Today's column is by Drew Pearson and Jack Anderson

GEORGE WALLACE, the ex-Governor of Alabama and ex-candidate for President, doesn't know about it, but his former youth organization has turned into a budding Hitler youth movement.

It happened almost without anyone knowing about it, in the ways things happen where Nazis are concerned.

The founders of "Youth for Wallace" had every intention of keeping the organization intact under a new name, National Youth Alliance. However, they made the mistake of getting obligated financially to Willis Carto, founder of the Liberty Lobby and mastermind of the new neo-Nazi movement in the United States.

* * *

THE takeover of the Wallace youth movement was clinched at a regional National Youth Alliance leadership conference, January 25, at Conley's Motel outside Monroeville, Pa. Carto sent Curtis B. Dall, figurehead president of Liberty Lobby, a neo-Nazi front, to address the morning session.

The evening session was taken over by the Francis Parker Yockey movement, with Carto himself as the guest of honor. The late Yockey, whose book "Imperium" has become the new "Mein Kampf," is the patron saint of the neo-Nazi movement.

The Conley's Motel meeting on January 25 was attended by doctors, lawyers and businessmen from the Pennsylvania-New York area, who were identified only by code names but were disciples of Yockey.

Most of the National Youth Alliance leaders were patriotic conservatives. They were stunned when they found their meeting room hung with Nazi banners. The assembled neo-Nazis even showed off their collection of Nazi war relics.

The meeting began with the singing of the Nazi anthem, Horst Wessel Lied, followed by a series of strident speeches.

★ ★ ★

AFTER this frenzied evening, the national youth leaders tried to cut loose from Carto. He refused to be severed. First, he demanded that they turn over to him all the organization's assets. He claimed that National Youth Alliance was a branch of Action Associates, one of the many front groups he controlled.

This was followed by brief legal maneuvering. The National Youth Alliance leaders, however, couldn't raise the funds to continue the fight. They resigned en masse after sending a letter to local alliance leaders, dated March 24, explaining their action.

After their walkout, the National Youth Alliance fell under the complete control of the neo-Nazi Francis Parker Yockey movement and Willis Carto.

'Political Aims'

Editor — Although I am reluctant to dignify Drew Pearson by refuting his politically motivated attacks against me by comment thereon, the reason for his timing is now clear and deserves notice.

For the past few weeks Pearson and his associate, Jack Anderson, have been attacking me as a "Nazi" or worse. Of course, neither they nor their confederates are interested in me or any organization with which I may be associated; their intent is to defeat President Nixon's vitally important "Safeguard" anti-ballistic missile plan, as well as his nomination of a highly qualified and experienced security officer to the Subversive Activities Control Board.

By trying to identify me as a "Nazi" and the guiding force behind some voluntary citizens' efforts to defend our nation from Soviet missiles, as well as a backer of internal security, they hope to show "guilt by association," and to accomplish their political aim.

It should go without saying that the accusations of Pearson and Anderson are a fabric of falsehood such as these two are famous for. I am certainly not a Nazi, and never have been.

I am a member of Liberty Lobby and, as all members, have had to sign a Loyalty Oath that reads: (1) I certify that I do not advocate nor do I belong to any group which advocates the violent overthrow of the government of the United States; (2) I believe in the Constitution; (3) I place my allegiance to the Republic of the United States above that which I give to any other temporal power, party, or faction . . .

Dodd Wins Round Over Columnists

WASHINGTON (AP) — A federal judge has ruled columnists Drew Pearson and Jack Anderson are liable for damages for using files stolen from the office of Sen. Thomas J. Dodd, D-Conn.

The summary judgment against the columnists was made yesterday at Dodd's request in U.S. District Court. But Judge Alexander Holtzoff said the question of damages would have to be settled at a later trial.

Dodd is suing Pearson and Anderson for $1 million.

The columnists have conceded writing articles based on material allegedly taken from Dodd's files by several of the senator's employees. The articles dealt largely with the Connecticut Democrat's finances.

Dodd was censured by the Senate June 22 for using political funds to pay personal bills.

Holtzoff said his ruling concerned only whether a person is liable for damages if he receives purloined documents and uses the information they contain.

The judge rejected Dodd's contention that his rights to privacy were violated, citing the public nature of his office.

b6

I had a better case against these phonies than even Senator Dodd. Sen. Dodd's case had two flaws. He IS a public figure. And (according to some accounts) he was poorly represented.

Had I been in Washington I would have gone all out to expose these phonies.

Conservatives Plan Big Victory Party

SAN FRANCISCO CHRONICLE

Drew Pearson

Today's column is by Drew Pearson and Jack Anderson

AN IMPORTANT "Conference of Conservatives" is to be held in Washington this winter to celebrate the promised victories of Ronald Reagan in California, Lurleen Wallace in Alabama, Brigadier General Harrison Thyng in New Hampshire, Claude Kirk in Florida, and other right-wing candidates whom the Liberty Lobby and extremist groups are backing.

To arrange for the convention, Curtis B. Dall, ex-son-in-law of Franklin D. Roosevelt, dropped into Liberty Lobby headquarters the other day to sign a letter to members asking them to vote on who should call on President Johnson to present right-wing views.

* * *

THOUGH MEMBERS of right-wing X groups don't like to have their operations reported in the press, this column can reveal that an argument took place between Dall and Willis A. Carto, founder of the Liberty Lobby, as to whether Kenneth Goff should be on the delegation to see the President. X

Goff is a former Communist who later teamed up with rabble-rousing, anti-Se-X mitic Gerald L. K. Smith and is now a member of the secret board which controls the Liberty Lobby. Dall, who is chairman of the Liberty Lobby's board of policy, argued that Goff was too controversial to be on the civilian delegation to call at the White House.

Dallas Dall, since divorced by Mina [illegible], only daughter of the late President [illegible], has been engaged in business in [illegible] and has been a front [illegible] Lobby. He has also been active in the Constitution Party which urges American withdrawal from the United Nations, the repeal of Federal income and State inheritance taxes.

Whether President Johnson chooses to see the delegation of conservatives or not, we believe that the public is entitled to know something of their operation.

The Liberty Lobby office is located at 132 Third street, S.E., in Washington and has a working relationship with the United Republicans of America under Bruce Evans, whose goal is to have the conservatives take over the Republican party.

* * *

CHIEF FUNDS for the Liberty Lobby are raised from individual subscribers and from periodic mail appeals to a list of right-wing sympathizers. One week's mailing in August brought in approximately $100,000. (***)

Among its more generous contributors have been Conrad Chapman of Boston, J. M. Pew of the Sun Oil Co. in Philadelphia, Mrs. Evelyn Beels of Alamo, Calif., E. M. Meffler of Shafter, Calif. X

Most important and vicious contribution which the Liberty Lobby has made to the political picture—at least monetarily—was the six-page smear sheet called "LBJ: A Political Biography," of which about 1 million copies were circulated throughout the United States during the 1964 presidential election.

Despite this, the Liberty Lobby demands a chance to send a delegation to see President Johnson during the "Conference of Conservatives."

(***) Good question: What was the "take" the month following the above free publicity? "Non-profit"???

X The article of Feb. 17th, 1967 is a sequel to the above. By inferance and innuendo, Holt is hinted to be associated with ex-Communists, anti-Semites, "vicious contributions" and secretive companions.

Another pertinent question: What secret pipe-line or connivance or conspiracy or infiltration or bug may have been the instrument of the authors?

The word "Liberty" is used in the above article TEN times. It is excellent "pledge" bait.

PEARSON-ANDERSON

Today's column is by Dre[illegible]
(S.F. Chronicle)(2/17/67)

ONE OF THE [illegible] interesting groups [illegible] to lobby against the So[illegible] American consular treaty is the Liberty Lobby, whose founder, Willis Carto [illegible] "Hitler's defeat was the defeat of Europe; and America."

Senator Karl Mundt (Rep.-S.D.), the most vigorous opponent of treaty ratification who has been insistent that the Liberty Lobby lobby, once appeared on the Liberty Lobby's radio series. "Congress [illegible]" featuring him on this series were [illegible] Dirksen (Rep.-Ill.) and [illegible] (Dem.-Ohio), both members of the Senate Foreign Relations Committee and both critics of the pact.

These senators may not be fully aware of the Liberty Lobby's background; therefore should be interested in certain private correspondence exchanged between the top Liberty Lobbyists. (#)

☆ ☆(*)☆

IN ONE LETTER to [illegible] a right-wing leader of Sausalito, Calif., Carto wrote: "There are 600 million Chinese and about 200 million Russians. All united in a determination to destroy the West. And we have been so misled that we live in a dream world — far away from reality. Hitler's defeat was the defeat of Europe and America.

"How could we have been so blind? The blows, [illegible] at the door of the international Jews . . ."(%)

According to the Liberty Lobby, the Johnson Administration does not want to win the war in Vietnam and is part of a Russian conspiracy not to win.

☆ ☆ ☆

"LIBERTY [illegible] supplied [illegible] to Liberty Lobby people," recently [illegible] to the Liberty: "The government does not want to win . . . Liberty Lobby has in its possession a report on the existence of a secret agreement between the Washington regime and the Kremlin which has never been ratified by the Senate — and which indeed is not even known to the vast majority of officials in Washington, but which explains perfectly the reason why we cannot win."

These are some of the nice people (V) which Senators Mundt, Dirksen, and Lausche indirectly supported when they appeared on the Liberty Lobby's radio program.

Liberty Lobby also liable???

MORE FREE NATIONWIDE PUBLICITY

Wonder what the "take" was this time?
Here again, mysterious seeming "open sesame" and easy access to whatever information the authors desire.

Carto: professional fund raiser and organizer of "non-profit" lobbying groups. The appealing word "Liberty" is usually in the title or slogan. For instance: Liberty & Property, Liberty Lobby, Liberty Letter. Note: in the two articles, the word "Liberty" is used TWENTY TIMES.

If Liberty Lobby had actually been damaged by the two "attacks", an immediate law-suit would seem to have been justified. On the contrary, the free publicity was probably very rewarding to Liberty Lobby coffers.

(X) Inference & innuendo again. See article dated 10/18/66.
This alleged letter was not received. There was no "exchange".

(#) Holt is NOT a member. He belongs to no such group, right, left or conservative.

(*) Holt's name appears here. Holt has NEVER had even one follower, so he is NOT a "right-wing leader".
This alleged letter was NOT received by Holt.
Was it "PURLOINED" from Liberty Lobby? If it did exist, it was, in fact, the property of Liberty Lobby.

The Lobby files contain hundreds of letters EXCHANGED with important pledges. How come this fabulous letter re a non-member, non-pledger, non-participating nonentity is the one to be "borrowed"---or purloined???

(%) more inference and implied association as in the previous article of 10/18/66.

Question: How many syndicated outlets printed this libel-fable?

Holt has never been a member or "pledger".
Holt has never made any "contribution" what-so-ever, as could be suspected---by a casual reader.

(Z) Speaking of secrets, wonder what secret modus is in use to infiltrate Liberty Lobby two times within four months?

How soon is more free publicity due?
Wonder what the "take" was this time?

(V) "nice people". Sarcasm or more innuendo?

Again: Holt belongs to no groups, is not a "leader" is not a public figure and has never held any public office of any kind. Holt was NEVER a confident of Carto's.

The late Fred Allen and Jack Benney pretended to be feuding and achieved nationwide free publicity. It is common for prize fighters and wrestlers to pretend to be mortal enemies to enliven otherwise tame publicity buildups.

The three non-pareil gladiators (Carte, Pearson-Anderson) have milked this ancient ploy dry and still they suck on the teats of the public credulity bag for a few more drops of free publicity pap.

Pearson-Anderson seem to have been given a skeleton key to the Liberty Lehlelly inner sancta and started sucking with two contrived "knocks" and "revelations" meant L.L. (10/18/66 and 2/17/67). A well calculated "knock" from them is a boost, as Lib. Leb. fared handsomely in the "pledge" department.

In fact, the capers worked so well the same device has now been reprised and three more "knocks" published by the 225 syndicated P-A smear outlets. Each time, the columnists get credit for a scoop. Liberty Lehlelly gets nationwide free publicity and extra "pledges" chip into the Lib. Leb. kitty.

The free loading, super-patriot, ring master of L.L., realizing that he has ever worked this tired old cow, now changes tactics and demands (and gets) free time to denounce his denouncers via a Letter to the Editor of the San Francisco Chronicle, an underground smear sheet, posing as a "straight" champion of Liberty, Democracy, etc. The kindly Chron. Editor ran every word of his indignant expose of P-A when he renounces in lordly manner. (How can he be so ungrateful, after all the 450 syndicated blurbs they have donated to him?)

Correction: P-A have repeated this act at least THREE times in 1969 syndicated fairy tales. That adds up to about 5 times 225 publications. About 1125 free blurbs---right???

Now all 225 outlets will, no doubt, grant P-A free time to again denounce Lib. Leb. and Bro. Carte. That charade can last forever.

The Chronicle is the alter ego to The Berkeley Barb---except for the 4 letter words. Like Bro. Carte, The patriotic Chron. denounces communism at every opportunity---The Soviet brand, that is. But these semantic dice are loaded in favor of Viet Cong, 3rd World Liberation Groups, S.D.S., etc.

Super-patriot ceasely damns U.S.S.R. communism but is strangely silent about the Chinese-African brands. (WHY BE HALF SAFE???) Perhaps this may help explain the nationwide buildup of this phoney feud and the resulting free publicity so readily granted by the patriotic Chron and all the other 224 blurb outlets? Such free buildups are dear to the free-loading hearts of all demagogues.

Strange bedfellows? Not so strange, once one analyzes the situation and the mickey mouse grand-standers in center stage and in the welcome glare of the free spotlights of 225 demagogic opportunists.

'Political Aims'

Editor — Although I am reluctant to dignify Drew Pearson by refuting his politically motivated attacks against me by comment thereon, the reason for his timing is now clear and deserves notice.

For the past few weeks Pearson and his associate, Jack Anderson, have been attacking me as a "Nazi" or worse. Of course, neither they nor their confederates are interested in me or any organization with which I may be associated; their intent is to defeat President Nixon's vitally important "Safeguard" anti-ballistic missile plan, as well as his nomination of a highly qualified and experienced security officer to the Subversive Activities Control Board.

By trying to identify me as a "Nazi" and the guiding force behind some voluntary citizens' efforts to defend our nation from Soviet missiles as well as a backer of internal security, they hope to show "guilt by association," and to accomplish their political aim.

It should go without saying that the accusations of Pearson and Anderson are a fabric of falsehood such as these two are famous for. I am certainly not a Nazi, and never have been.

I am a member of Liberty Lobby and, as all members, have had to sign a Loyalty Oath that reads: (1) I certify that I do not advocate nor do I belong to any group which advocates the violent overthrow of the government of the United States; (2) I believe in the Constitution; (3) I place my allegiance to the Republic of the United States above that which I give to any other temporal power, party, or faction . . .

Pearson's New Hitler

Drew (Ananias) Pearson is attempting to create a new Hitler and foment a World War III. This newsmonthly has shown and proven time and again that Pearson, the biggest liar since Ananias, is not only Russia's leading propagandist in this country but is its leading military spy. We have shown instances where he has used his subversive "column" to transmit to the Communist military classified military information stolen from the Pentagon by unfortunate persons whom Pearson has both bribed and blackmailed into betraying their country. And just recently (see May CAPSULE NEWS, Page 7) he has used his "column" to destroy the U.S. defenses against an enemy missile attack.

Taking a new tack, he is trying to create a Hitler movement reminiscent of the late 1930's. He has recently been shadow boxing with his secret ally, Willis A. (Tim Cup) Carto who has put begging by mail fraud on an assembly line basis. In the last few years Carto has taken in over a million dollars in from 20 to 30 "fronts" for his main racket--Liberty Lobby. He has gathered a master sucker list and has "reloaded" this from 20 to 30 times. He has a number of different aliases, mail drops, front men and bag men. He recently sent out a letter to the list, intimating that he was the Republican Party. His report to the Clerk of the House of Representatives said he had taken in $474,000 on this racket alone.

Hitler Hokum---Pearson helps Carto with his rackets in two ways. First, by pretending to pan the Liberty Loblolly "movement" and its perpetrator. This makes all decent people think Liberty Loblolly is alright, since they don't know that the "feud" between Pearson and Carto is a fake one. Secondly, all totalitarian cuckoos want to tie up with Carto. The trouble is that the "National Youth Alliance", that Pearson pretends to clapperclaw, is something else again and nothing like the phoney picture that Pearson paints.

In February CN showed that Carto was collecting money (thru the US mails, with no interference by the postal inspectors) from any and all who would fall for it, on the promise to wipe out the narcotics traffic on the campuses---if the people would just come thru with enough "contributions". This is something 568 professional narcotics agents, working full time, have been unable to do in 50 years. He hooked a famous woman writer (Taylor Caldwell) into lending her name as a "front". When she found out what she was mixed up in, she ordered her name withdrawn. Carto then put one of his bagmen (John Acord) up front. Soon Acord and Carto fell out over division of the loot and Acord is now blowing the whistle on Carto to everyone who will listen. Pearson is one of these.

Name Changed Four Times---Because CN circulates well in Georgia Carto laid an egg at his bring-your-check-book rally at Georgia Tech. Altho he hooked Gov. Maddox into being the main speaker, only four suckers showed up. They were augmented by 23 students half of whom walked out when Carto began his pitch for money. Next, Carto changed its name to Dangerous Drugs, Inc. and promised to wipe out the traffic in marijuana in the high schools---if worried parents would come thru with enough money for Carto's bank account. He signed the name of a non-existent medic to this letter (H. S. Whitaker, MD). This gimmick flopped.

Apparently slap happy by this time, Carto changed its name to Sex Education Foundation and promised to stop the teaching of what is generally known as the facts of life in the schools. That is, if deluded parents would come across with enough loot. Getting away off the track he changed it to American Education Lobby and overnight became a race relations "expert". He begged for $1,000 "contributions to help young people learn the facts about race relations".

Pearson Consistent---While Carto was jumping from pillar to post on this mail fraud racket, Pearson has been consistent. He has continued to call this 4-pronged swindle the "National Youth Alliance" in which he claims Carto is a self-appointed Hitler and is hoping to lead the "youth of America" into taking over the government at Washington. The only question to be resolved is, "Who is the biggest liar, Pearson or Carto?"

TO: SAC, SAN FRANCISCO (105-4222) DATE: 6/30/69

FROM: SA [redacted] b6 b7C

SUBJECT: WILLIS ALLISON CARTO, aka
INFORMATION CONCERNING

This case was reopened in view of an article by DREW PEARSON appearing in the "San Francisco Chronicle" newspaper 4/17/69. This column was devoted to WILLIS CARTO and liberty lobby and in this article there is mention made of the Moontide Press in Sausalito. This is an obvious typographical error and should be the Noontide Press.

The Noontide Press in the past maintained a Post Office Box 713 at the Sausalito, California, Post Office. On 5/15/69, [redacted] Postmaster, advised that the Noontide Press, which press formerly held P. O. Box 713, had closed this box on 7/1/67, and left a forwarding address of Post Office Box of 76062, Los Angeles, California. b6 b7C

In this connection it is to be noted that the "San Francisco Chronicle" of 5/26/69, carried an article concerning the Noontide Press and listed the address for the Noontide Press as Torrence, California.

An examination of the Marin County Telephone Directories and Street Address Directories failed to disclose any listing for the Noontide Press in Marin County.

On 5/15/69, and on 6/23/69, [redacted] was contacted in connection with WILLIS CARTO. [redacted] for a group called the Northern League and for the Noontide Press, stated that he has not had anything to do with WILLIS CARTO for years. He stated that he does not belong to the Liberty Lobby or anyother group with which CARTO is associated. In fact, he stated it is his opinion that WILLIS CARTO is a phony and he believes that the information printed in PEARSON's column was furnished to PEARSON by CARTO. b6 b7C

[redacted] advised that to the best of his knowledge the Noontide Press is not active in the Northern California area and he believes that it probably has an address in Southern California. b6 b7C

On 6/23/69, [redacted] made available four photostatic copies of articles concerning WILLIS CARTO and his comments concerning CARTO and these are being made a part of CARTO's file.

The 6/12/69, edition of the "San Francisco Chronicle" newspaper on page 42 contained under the section of Letters to the Editor a letter from WILLIS A. CARTO of Washington, D. C. In this article CARTO makes reference to the article concerning himself by DREW PEARSON and signs himself as the Treasurer of the Liberty Lobby.

In view of the foregoing, it is apparent that the Noontide Press and the Liberty Lobby and WILLIS A. CARTO are not active in the Northern California area and that the activity of CARTO and his group presently is centered in Washington, D. C., and for this reason it is recommended that this case be closed, subject to reopening in the event of further information concerning activity of CARTO in this area.
