Honorable J. Edgar Hoover Director, Federal Bursau of Investigation Washington 25, D. C.

Attention: Mr. orin Team Assistant Director Identification Division

Dear Mr. Hoover:

We are pleased to receive your letter approving the training of our police in practical shooting at the Federal Bureau of Investigation Academy in Quantico, Virginia. It has been arranged for the training to begin during the month of February, 1957.

Inasmuch as we purchase ammunition in much smaller quantities than your organization does and at a greater cost, would it be possible for you to issue ammunition and bill us for its use.

SUBJECT:

Cliffe Palmer came to my office on December 12. He had a letter from John They, Clerk of the Supreme Court, pointing out Winterrowd Tele, Room that in connection with the relocation activities that the situation had Holloman . Gandy developed with the Court whereby they had to have clearance to receive information from the Executive branch. Re.y, therefore, requested the Justice Department to have such investigations made as would be necessary to supply this need.

Rogers had originally written a memorandum requesting that we make investigations and then told Palmer to take the matter up first with us to see how it should be handled. I told Palmer that, of course, if it was the desire of the Department that we investigate the four named employees of the Court referred to in Fay's letter, it would appear proper to first have the request come from the Chief Justice because certainly we could not initiate investigation of members of the Court without the request of the Court itself. He stated that he thought this was sound and that he would talk to Rogers further and get in touch with John T. Fey and have the request come from the Chief Justice. Our reports would be submitted to the Department.

Palmer is then confronted with the problem of getting someone to issue the clearance and I told him this was a policy matter and it was for the Department to decide. He thought this was something that should be handled through National Security Council.

The four employees whom Fey requested be investigated are \checkmark as follow: (1) Marshal (2) and (4) John T. Fay, Clerk. cc - Mr. Boardman cc - Mr. Belmont cc - Mr. Rosen

Mr. Clive Palmer of the Department discussed Mr. Michels a request which he had received from John T. Fey, Clark of the Supreme Court, requesting that an investigation be made of Mr. Fey and three other employees of the Court in order

that a clearance procedure might be worked out to give these employees access to classified information in connection with the relocation program of the Court in the event of an emergency,

Mr. Palmer was advised that M it was the Donartment's desire, the Moreau would, of course, undertake the investigation of fibers ampleybes but that it was felt that this should not be done until much time as either the Department or the Bureau was in sossession of a direct request from the Chief Justice of the Court to avoid any possible crificism of an executive agency investigating Court employees It is falt that no investigations of Court employees should be made will after the Chief Justice has made such a request.

Mr. Mason stated "President Roosevelt's example was followed by President Truman, so that today a majority of the members of the Court are socially and politically minded instead of being legally experienced and judicially inclined. We therefore have Court decisions today based upon the social, economic, and political convictions of the Justices rather than upon legal precedents or constitutional grounds." Congressman Forrester, (D) Georgia, complimented Mr. Mason on his speech. The reference to the FEI, contained in Mr. Forrester's remarks, was set forth in a memorandum prepared earlier this date.

Dear Mr. Hoover:

As you may know, we law clerks to the Justices of the Supreme Court have occasional luncheons to which we invite men of achievement in government or other endeavors. The purpose is to give us a chance to learn about our guest, his work, his views. Informal conversation and not speeches is the order.

On behalf of the clerks, I would like to invite you to be our guest soon. The week beginning Monday, February 18, would be ideal for us, but if this is too short notice or otherwise inconvenient for you, I hope we can fix on a definite later date now. I would be happy to discuss arrangements with someone from your office.

My dear Mr. Hoover:

Enclosed is my official check covering the cost of ammunition used by our Police Force during their training period at Quantico, Virginia.

May I take this opportunity to express my personal appreciation to you and your staff at the Academy for the many courtesies extended to us. The helpful assistance and generous cooperation of the instructors during the three week period merits special recognition.

Throughout the different phases of the training program they were constantly giving individual attention and aid to our officers. The benefit of their experience is reflected in the very gratifying results obtained by all those who attended the Academy.

called. He was just wondering if any consideration had ever been given to running a check on the law clerks of the justices on both the Circuit Court of Appeals and the Supreme Court. He stated he was bringing this up because he had been told there is a ring of left-wing law clerks who have pretty well established a hierarchy in certain instances.

He then related that

has been told that this whole crowd is a group of left-wingers.

He further related that, when Judge Minton was confirmed on the Supreme Court, Senator McCarran had reviewed all of his opinions as a circuit court judge. They were sound and solid; but as soon as he went on the Supreme Court and started having the succession of law clerks, his opinions "stunk."

thought it might be a good idea for someone to get a Idiscreet line on the law clerks of few of the other judges as it might disclose revealing information. I told him, of course, that this was not a matter in which we could take any part as it would be improper for the Bureau to launch such an investigation; however, if in any inquiriés he made there were any indications of subversive activities, we would certainly like to know about it.

Election to Supreme Court Suggested as Power Brake

By DAVID LAWRENCE

WASHINGTON, June 19.—Now that the Supreme Court has traisformed itself into what is being termed "another legislative body," a movement has started to bring about the election of the high court justices by the people. It would require a Constitutional amendment. The idea, of course, is not novel. This happens to be the custom in the several states with few exceptions. Thirty-six states elect their highest court judges at the polls, four states elect their top judges by vote of the state legislatures, and only eight states follow the Federal custom of appointment by the

the Federal custom of appointment by the executive with the consent of the legislature.

Since the Supreme Court of the United States has set itself up as having the right to tell Congress how to run its committees and the Executive departments that they must retain employees they don't like, the question of how the Supreme Court itself shall be held accountable for its acts has arisen. This has happened several times before in American history.

The late President Employees

Lawrence though the answer to an arbitrary or capricious court was to increase the number of judices so he could appoint those who would decide cases as he thought they should be decided. This scheme was called "court-packing." It required legislation and was frowned upon by Congress in 1837. Former President Theodore Roosevelt, as a candigue of "recall of judicial decisions."

Whatever has been intended, this court also has generated a impression that regard for precedents and authorities is obsolete, tht words no longer mean what they have always meant to the profession, that the law knows no fixed principles.

Today the Supreme Court of the United States has rendered so many conflicting and confusing decisions that many lawyers throughout the country are perplexed and bewildered. The issue was succinctly stated by a member of the Supreme Court itself, the late bust of the late bust o member of the Supreme Court itself, the late Justice Robert H. Jackson, who, in the course of an opinion in 1953, wrote:

"Rightly or wrongly, the belief is widely held by the practicing profession that this court." Rightly or wrongly, the be-lief is widely held by the prac-ticing profession that this court tution and to the enduring prin-

Criticism Growing

Criticism of the Supreme Court is mounting. Unfortunately, it is a criticism that attributes political or ideological motives to the justices. Many Republicans and Democrats, moreover, are blaming President Eisenhower for the peculiar attitude that Chief Justice Warren has taken since being on the high court. "Why was Warren ever appointed?" is asked repeatedly in political circles. He was known as a middle-of-the-roader for many years. Mr. Eisenhower, however, is reported to be as much surprised as the general public that Mr. Warren has become enamored of the Douglas-Black philosophy and consistently follows the radical line without the slightest show of independence. Justice Black wrote extensively

Justice Black wrote extensively on the rights of Congressional investigating committees when he was a United States Senator, and so did Justice Frankfurter before he came to the court. They both thought investigating committees shouldn't be restricted in gathering information and in browbeating recalcitrant witnesses. They wrote approvingly of the harassment of the business men of those days. But when the harassment now turns to persons who have had "past associations" with Communists and who conceal their connections, both Justices Frankfurter and Black seem to become champions of the very individual rights which they once urged should be denied as business men sought to exercise them against the vitch-hunting and fishing expeditions of Congressional committees.

So, since it is all so obviously political, there are many persons here in Congress who are coming reluctantly to the conclusion that election of judges for fixed terms, with the right to run for re-election, is the only way out of the political dilemma which the present court has created by its "legislative" decisions.

Office Memorandum • UNITED STATES GOVERNMENT

TO: The Director

DATE: (- 2-c - 5]

FROM: J. P. Mohr

SUBJECT: The Congressional Record

Pages A4851-A4852 Senator Jenner, (R) Indiana, extended his remarks to include an article entitled "Court Ruling Called Blow to Congressional Inquiries," written by David Lawrence, and published in the New York Herald Tribune of June 19, 1957. Mr. Lawrence stated "The Supreme Court of the United States has crippled the effectiveness of Congressional investigations. By one sweeping decision the Court has opened the way to Communists, traitors, disloyal citizens and crooks of all kinds - in business and in labor - to refuse to answer any questions which the witness arbitrarily decides for himself are not pertinent to a legislative purpose."

(7-77585-V NOT REDUNDED 44 JUN 27 1957

In the original of a memorandum captioned and dated as above, the Congressional Record for was reviewed and pertinent items were marked for the Director's attention. This form has been prepared in order that portions of a copy of the original memorandum may be clipped, mounted, and placed in appropriate Bureau case or subject matter files.

Mr. John Edgar Hoover,
Director, Federal Bureau of Investigation,
Washington, D.C.

Dear Mr. Hoover :

The attached copy of my letter to Senator, William Jenner, Rep. of Indiana, is for your information as to how I feel about the deplorable situation our politican Supreme Court Judges have created.

I say political because a number of them have not served on the bench as judges for years. but have been in engaged in politics, yet they were elevated to Judges of the Supreme Court.

A STATE OF THE STA

Senator, William Jenner, Rep. of Indiana Senate Office Building Mashington, 9.0

Dear Senator, Jenner

There was a news from in the los ingeles Ernelner of June 17th, in which you taken issue on the crasy set of giving jet fighter plants to Yougoslavia's Distator fito.

Our Constitution never was set up to protect enumies of our sountry, yet our political Supreme Court Judges has given them and all other criminals the green light to go shead and destroy our free form of government. Congress should do something about this deplorable condition and damn guick, before its too late.

Any one eaven though they be an American of high or low rank, who gives aid and comfort to an enemy of our government has committed an act of treason, just as much as that of Benedict Arnold . Our Constitution under Article 3Judical Department, Section 3, Treason Defined. Also Section 3 of Amendment 14, makes no provisions excluding any one.

Any person eaven though they be an American acting as a spy or agent for an enemy of your government is committing an act of treason and should be handled accordingly. There are provisions in the Constitution for dealing with foreign spies both in tome of peace and war

Such Supreme Court Judges who has given aid and comfort to the Communist who in fact is an enemy of our government seaking to destroy it. As they have protected such agents and spies togather with dope pedlers and other lawlessnes it is probable they could be disqualified for public office, and it may be possable to try them for treason under our Constitution, Amendment 14 Section 3, Disqualification for Public Office.

My God soon grant the day when we Americans through the Battle of the Ballot Box will be able weed out all left wing and weak mindes element from public office in our government. Getting back to government by the Constitution, of the people and for the people. Then and only then will we be able to hold our heads up in pride instead of having to hang them in shame as we do today.

66,626

Yours truly.

ENCLOSURE Huntington Park, California.

Dear

The Congressional Record

Senator Thurmond, (D) South Carolina, extended his remarks to include an editorial which appeared in the June 19, 1957, issue of the State, a newspaper published in Columbia, South Carolina, entitled Supreme Court Must Be Curbed." Mr. Thurmond stated "I am convinced the people of this country are more concerned generally about the trend of recent decisions of the Supreme Court than at any time in our history. They have reasons to be concerned because the Court has usurped the constitutional authority of the Congress, and, in effect, has itself employed the legislative power through judicial decree." It is stated in the editorial "The Court ha usurped the power of the Congress, the State appellate courts and the juries of the States. In the exercise of dictatorial powers the difference between the Kremlin and the Supreme Court is that the Kremlin is composed of 11 men and the Supreme Court only 9."

Dear Mr. Hoover:

Washington, D. C.

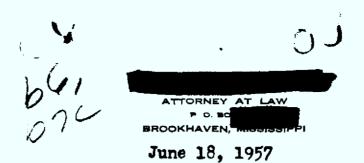

66, boc towns I should like to congratulate you for the manner in which you have conducted yourself as head of such an organization as you do head. I would like to call your attention to the following facts with which I know you are familiar:

1. "In the case of Julius and Ethel Rosenberg, decided June 19, 1953, reported in 346 U.S. 273, Supreme Court Justice Douglas granted an order to stay the execution of said Pussian spies. This stay order was granted by Justice Douglas on the intervention of a stranger to said Posenbergs, and to their case, which intervention, was even opposed by the Posenberg Counsel of Record. Said stranger who was thus accomodated by Douglas was an irresponsible character whose conviction as a dissolute person by the State of California 32 had been affirmed by the United States Supreme Court, with the same Associate Justice Douglas dissenting, less than six months previously in the case of Eddleman Vs. the State of California 344 U.S. Reports 357." I quote from a Resolution requesting the impeachment of six members of the United States Supreme Court which was adopted by the General Assembly of the State of Georgia on February 22, 1957. That in said decision, Justices Frankfurter and Black supported the unlawful action of Justice Douglas, thereby using their judicial offices to give aid and comfort to the communist enemy, in violation of Section 3 of the Fourteenth Amendment of the United States Constitution. The Constitution of the United States Constitution. The United States of the United States involving Communist Party organizers in the United States, decided

Thereby said Justices Reed and Frankfurter used their high judicial offices to give aid and comford to the Communication. the Communist enemy, in violation of Section 3 of the Fourteents?

- 3. "In the case of Pennsylvania V. Nelson, decided April 2, 1956, reported in 350 U. S. 497, Justices of the Supreme Court Warren, Black, Frankfurter, Douglas and Clark legislated, held and adjudged, contrary to the Constitution and the plain intendment of the applicable Act of Congress and in violation of Article IV, Section 2 of the United States Constitution, specifically recognizing the power and right of the States to prosecute for treason, felony or other crime, that the State of Pennsylvania could not prosecute the defendant Communist for sedition under state law, and nullified all state laws against treason and sedition, which had been enacted by Legislatures under express constitutional reservations and within their inherent police powers to impose regulations for the security, peace and good order in the State, and thereby said Justices unlawfully used their official positions to give aid and comfort to the enemy in violation of Article III, Section 3, Article IV, Section 2, and Section 3 of the 14th Amendment."
- 4. "In the case entitled, Slochower V. Board of Higher Education of the City of New York, decided April 9, 1956, reported in 350 U. S. 551, Justices Clark, Warren, Black, Douglas and Frankfurter held that the City of New York had violated the Constitution of the United States by the summary discharge of a public employee who had refused to answer questions relative to his communistic activities and claimed the benefit of the fifth amendment to the constitution in so doing."
- 5. "In Quinn Vs. United States, 349 U. S. 155, Emspak Vs. United States, 349 U. S. 190, and Bart Vs. United States, 349 U. S. 219, Chief Justice Warren, Justices Black, Frankfurter, Douglas and Clark held that the Congress of the United States in the exercise of investigative powers is powerless to obtain information from Communists who claim the privilege against self-incrimination as set forth in the Fifth Amendment, although such Fifth Amendment privilege was specifically limited to "criminal cases" in the First Congress for the reason that traitors had claimed the privilege against self-incrimination before congressional committees of the Continental Congress during the American Revolution (See American Bar Association Journal Vol. 42, p 509, 589 et seq.). In so holding said Justices, under color of their high offices, harrassed the Congress and in the words of dissenting Justice Harlan added, "Another means for interference and delay in investigations and trials, without adding to the protection of the constitutional right of freedom from self-incrimination.", the effect of said decisions by said Justices was to amend the 5th Amendment by striking therefrom the words "in any criminal case," thus depriving the Congress of a power specifically reserved to it for the purpose of exposing treason. The only efficient purpose of said

Juhe 18, 1957

Mr. Hoover-Page 3

decisions was to shield and protect communists in their endeavors to subvert the Constitution. Said conduct on the part of said Justides constitutes high crime, misconduct and misbehavior within the meaning of applicable impeachment provisions of the Constitution."

6. Today over my teletype news comes the following stories:

"The Nation's highest tribunal has freed five of 14 convicted California Communists on grounds of insufficient evidence that they plotted to advocate the violent overthrow of the Government. The Court ordered new trials for the other nine on grounds that part of their indictment was barred because of a three year statute of limitations."

The Justices also reversed the contempt of Congress conviction of Illionis Labor Leader John Watkins. He balked at telling House Investigators about other people's past communist activities."

"The high bench has set aside the 1951 disloyalty firing of career diplomat John Stewart Service, who has been fighting to clear his name and get his state department job back. However, the Court did not rule of the disloyalty question, itself."

Mr. Hoover, these decisions are most disturbing to loyal Americans and there is an air of insecurity abroad in the land. I know it must be disturbing to the Justice Department also. I mention these facts to you for whatever they may be worth and for no other purpose.

Sincerely yours,

TB/dh

DEAR SIR:

Zapa-in- Court-

I take the liberty to transmit to you the copy of a letter to the Hon.Richard Nixon, Vice-President of the United States which is self-explanatory and might be of interest to you.

In all my contacts with the members of your staff, I can only praise them as courteous, efficient and giving the prospected accused even a very fair deal.

Instead of weakening the power of the FBI, it actually should be expanded. Aliens and naturalized citizens convicted of communistic associations should be deported immediately and wi out delay to their native country. Such deportations should in clude criminals, without sentiments and long litigations.

DEAR IN. YICE-PRESIDENT:

I thank you for your letter of june 13, 1937, in maply to my jetter of june 2, 1937. But, you failed to convince me, my family and friends that Hodern Republicanism is not an expended form of the infamous New and Pair Deals. If you read attached letters of Senator Knowland (many more I could present of other congressmen) and read their voting recerds on the floor you come to the conclusion that a breakfast at the white House alone softens their descionce toward their responsibility towards Your country and kine. The majority of congressmen of both parties are just serving their own professional interests, or the interests of a certain segment of our mation or a particular grown money greaty constituents.

In 1947 as soon as UNESCO and MERRA got in action I resigned my permanent position in our foreign Service after 27 years of faithful services because I could not bear to go along with the Washington bureaucrats to waste the taxes of our hard working citizens all over the world. I naw the waste in the government even after my return to the U.S. right here, when I worked for 5 years on other government assignments. It is a fact that the majority of high government efficials and legislater start as poor men in effice and leave it as well to do or risk men.

I secommend that Congress set saids a sum of \$ 5,000.00 to

"THE GREAT GIVEAUAY" by Rugene W.Castle and make it mandatory for every high government official and ALL members of both houses to read it. If thereafter there are still legislators who vote for any FORBIGM ALB MEATSONYER they are either crocks or mentally defected and not fit for office.

I furthermore take the liberty to suggest that at least 6 of the 9 wise guys mitting in the U.S. Supreme Court(two or three even appointees of President Riseshower) being IMPRACHED for underming the existence of our nation and adding support to our beloved communists by their recent decisions to open FBI files and setting communists free, It is a tragidy to see a beautiful and great retion to be handed without a shot on a silver plate by spendthrifts and nitwits to Moscow. Patriotism is a Cherished gift of the poor

Thanking you for having permitted me to express my personal views, I wish you the best of health and remain very sincerely yours

CONTROVERSIAL COURT

Manhattan: The recent Supreme Court ruling which threw out the cases against several American Communists was a good ruling for all Americans who believe in freedom of speech, decency, honesty and the Bill of Rights. The Supreme Court was interested in FACTS not in hysterical and lying propaganda. Except for the evidence of paid informers and professional witnesses the Government didn't have a single shred of evidence that these Communists advocated any violence against our Government. The morons who believe screaming headlines against American Communists sincerely believe that the Communists not only advocated but actually done terrible things against the American Government. When you ask these birdbrains for facts they are stumped. AL SILVERSTEIN.

Manhattan: The recent Supreme Court decisions represent a bright ray of sanity through the noxious miasma of a decade of Congressional inquisition, witch-hunt hysteria and character assassination. Generation of Americans to come will remember June 17, 1957, as a great day for democracy and as a palinode for Mc-Carthyism.

ARNOLD M. GALLUB.

Brooklyn: I note that a certain self-portrayed "ex-Communist" editorialist, who once devoted some 400 words to the "nightmare in Hungary" without ever using the word Communism, was one of the first to applaud the Supreme Court decisions which gave American Communists a field day. LENSMAN.

Brooklyn: Leave unions alone, says John L. Lewis. So what if the leaders are stealing from their suckers? Leave the traitors free, says Earl Warren. So what if they do steal our secrets and give them to their friends? I say the people elected Congress to make the laws and the rules. Who elected John L. Lewis and the Supreme Court?

JOE SMOKOVICH.

62-27585-71

RATS vs. CONGRESSMENT Manhattan: The gall of Congressman Rayburn! While slave-holder and hangman Khrushchev gets unrestricted use of television facilities in the U. S. A., Rayburn demands that the House committee investigating un-American activities stop televising these rats who would overthrow our Government. Maybe Rayburn doesn't want the American people to know too much about the Communist-conspiracy, hmmm?

Greetings:

fan 10-1

You have the confidence and loyalty of millions of American patriotic citizens. You also have the power to save them from the domination and slavery of communism by defying our pro-communist Supreme Court by refusing to surrender any secret information that you and your staff have harvested against subversive traitors to our country.

Your offer of resignation would awake the people to the peril they are being lulled into. Our Supreme Court has brought forth and created a greater turmoil and unrest within the past two years than the communists have done in the past twenty years. You can curb them f you will. All patriotic citizens will ever be grateful to you. You have their destiny in your actions.

Personally speaking, if I had the finances I would hire the power to have those pro-communist Supreme Court justices resign or give them in custody to the undertakers.

The columns were written by David Lawrence. It is pointed out in the first column "It will be news to many people that the Supreme Court Justices are dependent to some extent on their law clerks in writing their opinions. For years it has been an open secret around Washington that the big eastern law schools selected their top scholars for a year's service as law clerks to Supreme Court Justices. Today. when so-called liberalism amounts almost to a fanaticism, some of the law-school professors engage in active campaigns to advance publicly the views with which they indoctrinate their students." In reference to the civil rights issue, the second column states 'It involves not solely a means of assuring voting rights - for many Negroes do vote in the South and several have been elected to city councils there - but a question of reaching into the whole social order in the South with laws authorizing the use of military power to secure obedience to the Supreme Court's decision on school integration. Yet the Court itself admitted in the same decision that it was influenced primarily by sociological doctrines rather than constitutional precedents. "

I want to take this opportunity to express my appreciation and that of my associates for your thoughtful comments concerning the problems facing law enforcement in your Editor's Report entitled 'Must Safeguard FBI Files," appearing in the June 30 edition of the "New York Journal-American."

Your statements regarding the urgent necessity for legislation to clarify the application of the Supreme Court's ruling in the Jencks case are particularly welcome. It is my earnest hope that your words will have the effect of alerting your readers to the dangers to our Nation's security which can follow from a loose interpretation of the doctrine enunciated by the court in this case.

STATEMENT BY SENATOR JENNE.

Mr. Chairman, I am grateful for this opportunity to appear and testify in behalf of my bill S. 2646, to limit the appellate jurisdiction , 670 of the Supreme Court in certain cases.

As the committee knows, I discussed this bill and the reasons back of it at considerable length in a speech on the floor of the Senate. should like to ask that the text of that speech be included in this hearing record.

To epitomize, Mr. Chairman, legislation along the lines which I have proposed is necessary because a number of recent decisions of the Supreme Court, lacking solid foundation in either legal principles or common sense, have challenged the constitutional powers of the Congress, the constitutionally-reserved powers of the States, and the power of the Federal Government itself to protect its very existence against subversive conspiracy.

The Committee on Communist Strategy and Tactics of the American Bar Association recently reported on the current Communist first four items it listed were AUG 13 1957

Repeal or weaken the anti-Communist legislation on the

books, especially the Smith Act, the Internal Security Act, and the Subversive Activities Control Act.

- 12. Discredit and hamper the Senate Internal Security
 Subcommittee, the House Un-American Activities Committee and
 State officials investigating Communism.
- "3. Weaken the effectiveness of the F.B.I. and reveal its sources of information.
 - "4. Destroy the Federal security system."

All of those purposes have been well served by the recent decisions of the United States Supreme Court, to which I refer. I think it would be helpful, Mr. Chairman, if this report of the American Bar Association's committee could be included in our hearing record.

of two ways. One way would be by constitutional amendment. But, Mr.

Chairman, not only is that route slow and uncertain, but to take it would imply that some change in the Constitution is necessary in order to protect the country against the Supreme Court. I cannot say, Mr. Chairman, that I would disapprove a proposed Constitutional amendment, if such an amendment

could be drawn, which would have the effect of curbing the power of the Supreme Court to amend the Constitution or change its meaning by judicial fiat. Certainly it is true, as I pointed out in my speech on the floor of the Senate, that the Supreme Court has the practical power to change the Constitution nunc pro tunc, while the Congress can never, by statutory enactment, completely overcome the effect of such a change by the judges. Laws made by the legislature can be effective only from and after the date of their enactment; but laws made by the judges can and do have retroactive effect. If there is a cure for this, it will lie in some form of constitutional amendment; and I hope the committee will give thought to this problem.

But, Mr. Chairman, for the more immediate protection of the constitutional rights of the States and the constitutional rights of the Executive branch of the Congress and the constitutional rights of the Executive branch of the Government, all of which have been improperly invaded by the Supreme Court, we do not need a constitutional amendment. These are rights which are protected by the Constitution as it stands; and, as I pointed out in my speech on the Senate floor, with regard to this subject matter, the Congress

has been given, by the Constitution, power to curtail or limit the appellate jurisdiction of the Supreme Court. This is the approach which is embodied in my bill S. 2646.

The right of appeal to the Supreme Court is not a constitutional right. No man has a constitutional right to more than one trial. Due process does not require the judgment of more than one court. Any appeal procedure is a matter of grace, not of right. Congress has conveyed upon the Supreme Court the appellate power which it has, and Congress can curtail or limit that power.

My bill proposes to limit the appellate power of the Supreme Court in five respects. These limitations are set forth in the bill in five subparagraphs, beginning on page 2. Let me discuss each of them briefly, and refer briefly to the area in which each is expected to operate, with particular reference to the recent Supreme Court decisions which in my judgment make these limitations necessary.

The subparagraph numbered (1) involves the investigative power of the Congress. The Supreme Court has presumed to set itself up as what

Mr. Justice Clark called "the grand inquisitor and supervisor of congressional

investigations." The Court had no right to do this, and the Court's effort to do this should be curbed. The first subparagraph of my bill would accomplish this result by taking away from the Court appellate jurisdiction of such matters.

The subparagraph numbered (2) of my bill would take from the Court its appellate jurisdiction over the Government's security program. When the Supreme Court has reached the point where it will hold, as it held in the Service case, that a regulation by the Department of State can destroy a statutory right to remove from Government service an employee deemed by the head of the agency to be a security risk; and when the Supreme Court has become so befuddled as to hold, as it held a year ago in the case of Cole v. Young, that a spy in a Government department is not dangerous unless he is occupying a position which has been specifically classified as "sensitive"; when these things have come to pass, Mr. Chairman, it is time to curtail the appellate jurisdiction of the Supreme Court in this field.

The subparagraph numbered (3) of my bill is designed to protect the rights of the people to protect themselves, through their duly-elected State governments, from subversive activity at the State level. The Supreme Court

of the United States, in the case of <u>Pennsylvania</u> v. <u>Nelson</u>, decided a year ago, and in the case of <u>Sweezy</u> v. <u>New Hampshire</u>, decided in June of this year, has effectively blocked all State action in this field. This is reason enough for withdrawing the appellate jurisdiction of the Supreme Court over State laws for the purpose of controlling subversive activities.

The subparagraph numbered (4) of my bill is designed to preserve home rule over our schools. This is a basically important principle to which the Supreme Court did great violence in its decision in the Slochower case, last year, when it denied New York City the right to discharge a teacher for willfully refusing to answer questions about his participation in subversive activity.

Control over our schools must be kept at the local level, and when the Supreme Court is ready and willing to deny to any community the right to determine the kind of teachers it wants to instruct the children of that community, and the terms and conditions under which those teachers may continue to teach, then it is time to take away from the Supreme Court appellate jurisdiction of cases in this field.

The fifth numbered subparagraph in my bill is designed to protect

the freedom of States to determine the qualifications for admission to the practice of lew. This is essentially and particularly a local matter, which each State must be permitted to decide for itself. Yet the Supreme Court of the United States, in the recent Schware and Konigsberg cases, affecting applicants for the bar in New Mexico and California, respectively, denied the right of a State to require an applicant for admission to the bar, in the course of being examined as to his character and fitness to practice law, to answer questions designed to elicit information about past connections and associations with Communists and Communist organizations, and denied the right of a State Supreme Court to find that the long-time association of an applicant with the Communist Party, as a member of such party, was a proper factor to be considered in determining the character and fitness of the applicant.

In the words of the resolution offered by Chief Justice Norman F.

Arterburn of the Supreme Court of Indiana, at the recent meeting of the Chief

Justices of the State Supreme Courts;

"The United States Supreme Court has transgressed sound legal principles, and in particular, usurped fact-finding functions. . .

Moreover, the United States Supreme Court has encroached upon the jurisdiction of the State courts . . .

". . . although the United States Supreme Court has the authority to fix its own standards of character and fitness to practice in the Federal courts, we do not recognize nor concede that it may do so for the courts of the several States of this Union."

Ir. Chairman, it may be there are other areas in which the appellate jurisdiction of the Supreme Court should be restricted or with respect to which such jurisdiction should be withdrawn. I hope the committee will consider this matter carefully and if in the judgment of the committee there should be additions to this bill, I hope the committee will make them.

Incidentally, Mr. Chairman, the decisions of the Supreme Court to which I have referred are not readily available. The decisions handed down in June of this year have not yet been printed in the bound volumes, and the slip copies are in extremely short supply. I think it would be helpful if the texts of these decisions should be printed as an appendix

to these hearings. I make this request, Mr. Chairman--and I refer particularly to the decisions and opinions of the Supreme Court in the <u>lencks</u>, <u>Watkins</u>, <u>Service</u>, <u>Yates</u>, <u>Sweezy</u>, <u>Melson</u>, and <u>Cole</u> cases.

Senator James O. Eastland, Chairman of the Senate Internal

Security Subcommittee, announced today that Senator Jenner's bill, S.264
has been reported out of the Internal Security Subcommittee to the full

Senate Judiciary Committee.

The bill provides for the limitation on the appellate jurisdiction of the Supreme Court in certain cases. The complete text of the bill follows:

"A BILL To limit the appellate jurisdiction or the Supreme Court in certain cases.

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) chapter 81 of title 28 of the United States Code is amended by adding at the end thereof the following new section:

"\$1258. Limitation on appellate jurisdiction of the Supreme Court.

"Notwithstanding the provisions of sections 1253, 1254, and 1257 of this chapter, the Supreme Court shall have no jurisdiction to review, either by appeal, writ of certiorari, or otherwise, any case where there is drawn into question the validity of--

"(1) any function or practice of, or the jurisdiction of, any committee or subcommittee of the United States Congress, or any action or proceeding against a witness charged with contempt of Congress;

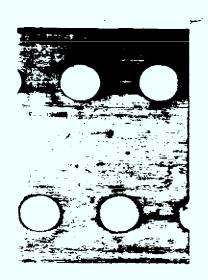

officer or agency of the executive branch of the Federal Government in the administration of any program established pursuant to an Act of Congress or otherwise for the elimination from service as employees in the executive branch of individuals whose retention may impair the security of the United States Government;

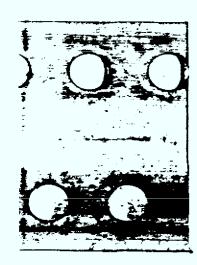

"(3) any statute or executive regulation of any State the Gral 1867 purpose of which is to control subversive activities within such State:

"(4) any rule, bylaw, or regulation adopted by a school bend, board of education, board of trustees, or similar body, concerning and activities in its teaching body; and

bar examiners, or similar body, or of any State, or of any board of bar examiners, or similar body, or of any action or proceeding taken pursuant to any such law, rule, or regulation pertaining to the admission of persons to the practice of law within such State.

6 0 AV6,26,1952 analysis of such chapter is amended by adding at the end thereof the following new item: 1258. Limitation on the appellate jurisdiction of the Supreme Court."

COMMITTEE ON FINANCE

August 2, 1957

Enclosed is a copy of a bill (S. 2646) which I have recently introduced, to meet the problems created by recent Supreme Court decisions relating to Communism.

This bill invokes Article III, Section 2 of the Constitution, which gives Congress the power to make regulations concerning appellate jurisdiction of the Supreme Court. It would end the right of the Supreme Court to hear appeals in five types of cases -- the functions of Congressional committees, programs for dealing with subversion in the executive branch, State laws and regulations dealing with subversion, acts and policies of boards of education designed to deal with subversion, and acts of state courts and boards of bar examiners concerning admission to the practice of law in their state.

This measure would obviously not alter the effect of past decisions, but would give to Congress, the executive branch, the states, the school authorities and the bar, the means to protect themselves and the country against subversive attack.

I hope we can have prompt consideration of this measure, designed to reestablish the laws, so carefully worked out by Congress and the states, to cope with subversive forces in accordance with our legal principles.

WILLIAM E. JENNER

Sinderely yours
