The Attorney General

September 12, 1961

Director, FBI

ANTHONY SALERNO

With a copy of this letter I am forwarding to Assistant Attorney General Herbert J. Miller, Jr., a special summary report on Salerno who is one of the hoodlums selected as special targets for prosecution. The report contains information as to Salerno's background, associates, arrest records, interests in legitimate enterprises and criminal activities.

Salerno is reported to be one of the principal hoodlums in the New York City area as well as being active in the Miami, Florida, area. Included among his associates are other equally notorious members of the criminal underworld. He is particularly associated with the notorious Michael "Trigger Mike" Coppola.

Salerno is reported to have been associated with jukebox distribution and garment manufacturing businesses in New York City. He reportedly is the most dominant single figure in the numbers racket in the Borough of Manhattan in that City. An associate by the name of Alfred Cupola is said to handle Salerno's numbers racket business while the latter is in Florida.

In addition to his other interests, information has been developed concerning several pieces of property purchased and resold by Salerno in New York and Florida. Also, it has been determined that he has maintained a mistress for approximately ten years and has had an apartment in New York City, the expenses for the occupancy of which may be hidden behind the "front" of an associate. Details concerning Salerno's participation in the promotion of a heavyweight boxing championship match are also contained in the report.

The special summary report on Salerno contains the results of intensive investigation we have conducted to establish the basis for a violation for which this individual may be made the subject of prosecution.

- 1 - Mr. Byron R. White
Deputy Attorney General
- 1 - Assistant Attorney General
Herbert J. Miller, Jr.

DATE: 9/12/61

FROM : C. A. Evans *CAE*SUBJECT: ANTHONY SALERNO
ANTI-RACKETEERING*AD 9-9-*

26 A prosecutive-type summary report has been prepared containing comprehensive information concerning the criminal activities, background and associates of Anthony Salerno, one of the prominent individuals in the criminal underworld of New York City. Enclosed is a letter to the Attorney General advising him of the submission of the report.

In addition to background, associates and criminal activities, the report contains information concerning Salerno's interests in legitimate businesses and property presently owned as well as some bought and sold in the past.

Salerno is a native of New York City, and he has continued to reside there a considerable period of the time, although for the past few years he has spent part of each year in the Miami, Florida, area where he owns a home.

Investigation has shown that Salerno has had past and possibly present interests in the jukebox and garment manufacturing businesses. He has purchased and sold property in both New York and Florida. Information has also been developed as to the identity of a mistress of Salerno in connection with whose maintenance Salerno has incurred considerable expense for approximately ten years. *CA*

The report also contains information concerning Salerno having been the controlling figure behind the scenes in one of the heavyweight boxing championship matches in which Johansson and Patterson participated.

In view of this information it appears that it may be possible to establish an income tax violation for which Salerno can be prosecuted.

As set forth in referenced report, information has been received from [redacted] that Alexander Rosato, New York City Police Department B # 114210 is known in East Harlem, New York City, as a right-hand man for Anthony Salerno and Mike Coppola. This informant further advised that Rosato handles Coppola and Salerno's policy interests in East Harlem, New York City, and reportedly travels between New York City and Florida by airplane carrying large amounts of cash to Salerno and Coppola.

If not already done you should immediately institute an ITAR investigation on Rosato to fully develop this information. You should carefully plan your investigation and give full consideration to the conspiracy aspects presented in the event it can be shown that Rosato or confederates are traveling from New York to Florida to furnish Coppola and Salerno with the proceeds of an illegal gambling operation being carried on in New York.

This matter is to be given special priority because of the potential for implicating Salerno, a special target for early prosecution, and Coppola, a notorious racketeer of national prominence, as principals in this operation.
