to have another appointment when she gets it
I went up to the classroom to wait for my
first period class - we had had some
rain & there was an atmosphere of unrest -
I had expected great seriousness aft. Tonight's
announcement on J's health & last night's news of
attempts to kill J - there was, not the usual
announcement about the start of classes, as
I was riding more from Cuban Prisoners of
War - some of the members of the first class
gathered - I went to the sch. off. to get the
composition that my friends were all
missing when I got there - I had planned to
give the class practice in writing news vents -
I had to leave then write - the performance
was disappointing - Kenny & Rennie had been
working at the book, came in late, as did
Willie, who had been in a car w/ Horrie
H. & so I was late starting the class!

The second period class came in morning,
their restlessness increased as they realized
they had to do written work - there was a
raft - up of the compos. hrs - I had some of
Jenny's & I did not find Julie Haveres &

Tehrs had to make a decision.

I went to the office to get my pl. night -
exam folder, and to the thing spec. Teachers
& co-Teachers were chosen, incl. Jenn

We drafted the tests for the runs & those
under 65 - we made the tests harder
than last time, giving each gyp 10 ques-
tions w/c short answers, 5 essay questions, &
5 review questions from the Old Test -
Mike Touchette & Pat Christ conducted the
mtg, which was disorderly w/ people yking
at the same time. They had decided
we would have the spec class for those who
failed the first test immmed. gyps. The second
test that some felt it was a bad time
for runs to have to think - no other time
is available - those who have to take the
second class are to be divided into gyps &
volunteers were asked to teach. The gyps -
I was relieved I did not have to teach them
all, altho Teresa King thought it wd be better
if I did - I was glad that at the
moment at least it seems there will be
only one session ~~for the gyps~~ to teach
these gyps in a spec. session every wh -
I was the first to volunteer - the final
decis. was that all Tehrs who did not
have another gyp ment wd take a spec. gyp

I go home at this mtg about 10¹⁵

Ray was not kind - Ann & Anita
had just started reviewing for the

I finally requested them to do so, telling
them I had had a very bad day - faced
another one - they could talk &
argued when I told them to stop - then
we have studied in the library one during
noon - I started to cry - I think they
11³⁰ Marie had gone to the library to study

went out - I got up & went to the bathroom,
saw Ellie Beem making her secret rounds.
I did not mention Ann & Anita to her but
did spk to her about the noise at 11⁰⁰ -
she is very loud here.

I went to sleep some time after 12⁰⁰

There was heavy rain during the night & continued rain during the day.

Had sleep

Had as my goal

Went to lunch

At my class there as many as usual attended. I gave a review, asking the class members to ask questions. I knew the test questions, I didn't want to be in a position to reveal any. I had arranged for Jenn to come in & explain the Chinese Third World Doctrine, which she did. I wanted her to be more for my sake, as I was not sure I understood what she was telling us. Jenn gave her usual full treatment to the matter, faster & a bit more difficult, more than I had ever heard.

Took my shower

Went to the Red, Big & Small group. He talked to them for a while about the who's news, again asking for confidence. He did not breach confidence.

Prepared for classes

In the first period class I gave them a review of the most important in the who's news. Jenn suggested we put our second period class by for a review of the news, which she conducted very competently. I appended a few of the statements.

I had dinner

The h.s. Tehran met - students who had been carrying rifle were called to appear & be questioned

We expected to give the Test paper & last night to our point, enlightenment classes & 7th - but instead I announced that a rally was near, & said he wd give the Test in the rally

Disc then made a problem of off loading

boat workers say the damage is caused by
having to carry everything in the trucker & the
condition of the fruit when loaded in the trucker -

the house was full to make crates to
carry things - Betty Lintell - Jack Bear were

We got up in the morning at 11:30
I had a cup of tea, brush
my teeth, got the letter from my news
written up for the paper, sometimes talk to
people for an hour or giving or getting
info. then in the evening I go to the
bathroom - my bowel movements are fairly
reg.

the same I go out to wait for medicine -
then I go to bed.

Started with the enlightenment test for
tobacco - I think it - I think 4/5 on one side
will be enough for a single page holds
a good deal - I think the news items
into and out of the world
leading to a better understanding of the world
much more.

A life of the world class today
The I had a very good lesson - I had
who are going to take care of
3 categories of the world - I write
those who are going to read
fairly well - I think for this
lesson I tried to give notes which might
interest all 3 groups - at the end of the class

need help & offered to give her services -
she was very cooperative in the

as they have their Fri riding period -

Had dinner & then my plate to the school
where the h.s. teachers met w/ Dick Trapp -
we had a long mtg - he emphasized striving
for riding ability. Based on his literacy drive I
he made it plain that the instrum. can
be based on news, it should not be a mere
dict. & writing down of news items - when
disc turned to behavior probs & class manage-
ment, he said that it was pos. to awaken
motivation by various means, that their
effort in H.S. & television had reduced
attention span - Liane Harris attended

very strict, even to the pt of calling S.A.T. to
deal with an obnoxious student - One of the com-
plaints came from Betty Finch in her math

be ready for the rainy season - I had to go

I got a lot of news all day -
I had some things to be played by

but I did gather
that some of the things I did 3 times -
Libya had some news in a strike in

Another item of news concerning our own

10 May - W -

At lunch, at my student reading class, I
went to evaluations of papers I had told to
come to my class - I tested for understanding
of news events - one woman, an elderly 1st,
I find knew very little about Martin Luther
King - she thought he was a "revolutionary"
but did not know what he was struggling
for - from the questioning I could not tell
what led her to the TA unless it was econ-
omic self-int. - she is able to read, at
least simple Eng - I tested several others on
reading & find they were at least able to read
from a children's text bk

The first period class went to read
about space stations for a textbk, prob
about 4th grade level

In the second period class, I read the
papers I marked & graded in the morn. -
some students inquired about specific comments -
I started a disc on coordinate & subordinate
clauses by reading a good set from Patricia
Houston's paper, then taking Regine Bower's
paper which ~~was a combination of~~ short
sentences, although well written, I wrote
them on the board, asking the students to
combine them when pos.

At my plate & went to Tehra's mtg - students
agst whom any tchr had a complaint were
called in to disc the matter - in these cases

When I got home, I found I had
swept out the cottage - she had gone to

because people had not picked up all their
belongings nor swept under all the beds -
she had the clothing being sent to the warehouse,
altho some things to Ruth Levin, who
top it really felt a great bed.

I checked the cottage - which was class

see whether they were picked out for enough

Had a very busy day at the end of which I felt completely demoralized

Joanston was in readiness for visitors - arrived 12 o'clock the parents of Carolyn Layton & Annie Moore (he is a little minister) arrived for a few days' stay

In the morn. I did a my girl & did some class prep

Had lunch

Then I started my adult class I was asked if I could deliver the course when the visitors arrived, as it is usual for them to be exercising in front of the parishioners - I had intended to make some more people to know of current events, but decided just to have the members read - we read a story in the old testament - several elderly women read very well - among them was Nancy Day, who as I remembered didn't read a line when she started in my class (Bill Troy says she just once did read & forget) - then it came back to her - she said she had been forgotten in the house - we were interrupted by the arrival of the visitors half way through the class & resumed ten minutes or so afterwards - I was held up for a time answering questions as well as I had written on the board & other matters

as I think I might have to go to the
Teha class after the session class

The first period class was well behaved like
the other was late & Kenney was not to be on,
the boat; I later find this was not true - well

Leane Harris, who has been assigned to
monitor the h.s. classes, was present at
the beginning of the second period - they
entered in a rowdy mood - tho I had
come early & put material on the board,
which was had prepared yesterday, some acted
as if they had no idea what to do w/ it &
would give me a chance to explain - they
were bored & incoherent - while Leane was
still there I, very embarrassed, spoke
indignantly of their attitude - some, perhaps a
majority, quietly tried to do the work but
the rest were uncooperative - I was very
distressed, knowing the sit would be presented
bef. Tr & the Teachers

But I my master to the school & got my
dinner plate - we had watermelon

At Teha meeting Leane spoke, in not too
caustic terms, her impression of my class -
Tr said they were testing to see who was
going to control the class, a common sit.
here - when he faced the prob, he shouted
at them until they quieted down - I studied

Spent the day doing the more of our time,
in the wait for Shirley, who takes
care of toddlers in addition to her respon-
sibilities.

I got away only at 9⁰⁰ - find that I had
not seen that the announcement that there
was a soc. dance meeting at 6³⁰ - noted to
the cottage & was barely able to make the
soc. dance in time.

Don Johnson the first of the dance &
the second.

I had not even that there would be the
after soc. dance this was because of the
visitors - however, Bob Penkin informed
me that he & I were to meet w/ the
assigned to the after dance in the dining
hall - we moved to the second side
tent & from there to the first side tent -
X some - people attended, mostly adults,
many were some of the high school - we
listened to the dances they had in learning
the moves & other suggestions - someone
asked I lost the list of those who were
required to attend - Willie Malone & a
few others attended who were not required
to do so - we dismissed the dance

either my clock or my pillow which I

Then to lunch & noticed there were a
larger no. of people than usual - I had not
heard any announcement but they Cesanova
told me all the field workers had been
told to come in for lunch, which she said
was a signal that there would be a card-
discuss. This wife who didn't confirm
it, but other people that this was the

That I might have time to do my laundry
so I started it & had to stop by I missed

may have been no way to cancel the

Long discussions on the microphone followed -

13 May - 5-2

There was a great deal of discussion was given to
getting our people in the boat we are per-
suing & trying to go to Cuba but there
are some obstacles & most do not want
to go anyway - there was no enthusiasm
for expressing to our Plan - our brand of com-
munist is too advanced for either of
these cities & we almost certainly will not
and will go under the leadership of J.F.
The Guyanese got is turning to the right -
the ~~land~~ is more passive of the present
repression which will result in control
rule by the P.N.C. - a soc device, will
likely be established & oppressiveness from Guy
& the US this will be all we can expect
in Jonestown, a rejection of the pure Communism
we now enforce

Statements in tape were made so as to
attempt to reach the world's press as to the
reasons we resorted to rev. suicide - I
participated in this because I intended
to abide to whatever decision was made,
not to ~~be a~~ ~~long~~ ~~to~~ encourage other anti-
fascists throughout the world, although
I did not approve of the action

Dinner was served to us

There was continued disc & votes
were taken - at all times those in favor
of rev. suicide were in the major, however
(over)

C-2-A-3 (65)

I felt that these were strongly implied by
his advocacy - few young people expressed
any opinion - the most of those opposed
grew, as thoughtful statements were made -
one by Jenn Hurvich was outstanding - I
mentioned the world it which seemed to
be turning in favor of liberation movements,
against the U.S. & might result in war,
which could be helpful to us

Heavy rain came & it was hard to
hear & I had no rest for a while, but I
couldn't get to sleep sitting up

Then we ^{reconsidered} ~~decided~~ these, ^{opposed} to the proposed
suicide & in favor of carrying it out then
seemed more determined & I became con-
vinced by the tired eyes of Sharon Amos that
I would be wrong to persist - I should be alone
who commit suicide

There were only a few more opposed
when the question of what to do about our
members in New Town (a large number
have just arrived); down the river & in
S.F. was brought up - as for S.F., all were
adults & knew what to do - it was at
last decided to delay until others outside
could be brought in

At first it seemed to be decided that our guests
would be sent out earlier than planned while we
were under tight security

We went home & to bed about 6⁰⁰ - we were
to get up at 12⁰⁰

14 May 68
I got up at 10:00. Finished moving the laundry I started yesterday to the kitchen - we didn't have our usual good breakfast for us - instead we had a bare lunch consisting of a piece of butter sandwich - I stood in line with the bus for tea, then field workers were given precedence & I've have had another long wait as I didn't get any.

I did more laundry.
I on last night, some noted rep, gave us a lecture - ~~in the morning~~ - she had stayed w/CIA only until Trinidad - went to Caracas where her intel report is in Holiday Inn motel, has not heard of her enemy, who enjoying him (very highly "on our money, no doubt") - enjoys from us we got to tell him his relatives had come in New Town - no imminent danger that hit us.

Perk this the reason the Lyster - have relatives still refuse - heard later they living M as planned.

Heavy rain fell at intervals & I didn't get all my laundry done.

Made up my actor's school which she have been turned in this morning.

Had on girl - decided to make brief notes on yerts' events.

The work crews were finishing at 6:30 - I went to get dinner at 6:40 - we had

(over) C2-A3 (67)

fried chicken - I traded plates w/ someone
so as to get the leg & dark meat which I
prefer - but rather had been prepared & I
had some of that

At Joyce Land I went to see the film,
The Hunt is a Lonely Hunter, from the Caran
the Callers etc, w/ Alan Arkin in a leading part -
in addition there was a talented young woman,
whose name I did not catch - Joyce had
made a nice - looking map of Africa by
tracing & at the wall make me one & I
brought her paper - she is studying all the maps
of Africa

During the day I conversed w/ Rita Lennin
Doc. Brewer & Ben Crowl on yester's events,
getting slightly diff. pts of view. Peter listened
to & conversed with Dr. J. Wagner & Gene Johnson -
from these I got a better idea of what I
may have been trying to do in the White
Night

Was home around 10⁰⁰ - rd Man O'War a
short while

Have been sent for my classes
11½ On returning from Hesper, I stayed in the
library & the typewriter in Brett &
Shakespeare to give the advanced class
in language etc.

Ate lunch

I am holding my adult reading class on
a new subject. As to accommodate those
who don't want to attend lunch in -
I am teaching the class at 10 on M & W &
at 12 on T and Th, both 12 & 10 on F -
however, I am going to 12 and 10 if
they wish. I have a list of the 466
words most commonly used in Eng. lent to
me by Mary Castello - she got it from Tom
Brett. I am putting 5 on the board every
day for recognition & spelling - I evaluated
the children in their current events of
Lou O. Parris, who is very good a help-
ing me with my work, or the -
she, however, is fairly & doesn't under-
stand the news - she didn't know what
the White Night was about; furthermore,
I find a good proportion of the rest of the
class did not either, so I explained it to
them.

In the afternoon I read the same
we list which is arranged alphabetically
having the studies in turn what I find
on the board all these were present &
fairly orderly.

In the 2nd period, all etc. perhaps two
studies were presented - I read a
poem of Brecht's - told the story of
novels of the same theme & of Brecht's life

The 3rd period - it was mostly about the
behaviour of the students - I went to
get my dinner as there would be a rally
then & when I came back the gym was looking
at Suzanne & the girls which we call
chance

Went home & changed clothes - went to the

In my first period class, I had decided to recruit some of my efforts abroad, as Jerome used say. To ask me to do - the class, all of whom were present etc for Billy Jones, did not seem very eager, but they became more interested in my tales of guerrilla warfare in Greece - I spent much of the time on Greece, little on the Phil. & India - one heading was that this class does not know where any of these things is.

The 2nd period class entered w/ disorderly attitude - when I had taken the roll, I got their attention & explained I was going to read extracts from Aeschylus, Kallias & Gyges - they have very little int. in these poets - when I told them we were to have Shakespeare too they protested - if there were any who did not agree, they did not make themselves heard - I agreed to let them sit from the poets too.

Troop told us we were not to have a tutor meeting if none of us had any problems. He had a big dinner, w/ a piece of roast pork.

When I got home, I found that Versie was suggesting we have a house meeting w/ Betty Morris, who has been giving trouble - she wanted being put again under the supervision of Laure Johnston - she is rebellious w/ all the girls in the college; is suspected of having stolen cosmetics from Ann, from

her whereabouts at night is often not known,

Terri Byard has been gone for several days - no doubt she is one who has been sent to Caracas to talk to the defector

Had 4th

Brought my girl up to date

Wrote 2 memos for J - one was in reply to a demand that all write on ways of making or saving money - I told of my aim to write many articles if I had some free time, & made a record that people having dishes in their residences etc be furnished by sentencing to the L.C. (now to be called the "new brigade"), as people have time & thus production when they have to wait for food & drink - I also wrote a report on a conversation w/ Juan Lucas who yesterday told me she was lovely, liked cities, had expected to live independently in New Town, hadn't known when she gave her money & jewelry to the Tz that she can't get it back & she is a poor, seems well educated, is not likely to try to be the area, but we have orders to get all neg. comments

Went to lunch

In the adult class I evaluated the knowl. of a sum on the imp news of the day - it was nil - I spent the period trying to effect the 2

the Arabian Peninsula & I reminded the

vision of radioactive fell - over Ethiopia -
I then went into the Conf throu Israel & the
Arabs

Th a shower

Michaelson Brady had been rpt'd miss-
ing (see his ltr) & I alerted SAT to make a
thorough search & she was found asleep in
the jungle - 2 people, one the crew member
had heard her threaten to run away -
I the whole aft exhorted supervisors to rpt
immed when a pers under their supervision
was late & he warned the comm. again
& again of the futil of trying to escape - he
also insisted on rptg anyone who makes
negative remarks

For classes, the present reg are to be
enforced more strictly - any pers late to
the first period & 4 hr was to be sent to
the Radio Rm to give an explanation -

During the first period I conducted a
disc on which I had told the class yesterday - to
my surprise sev of the students remembered
a good deal of what I had said - Haine was

The first two hours also had shown

The second period class was disappointing -
they had done no planning & were behaving
disinterestedly, some eating some seeds or
nuts - some throughout the period while
on homework for other classes - some lks
of Black poetry were obtained from the
lib & 5 or 6 of the class th turned rdng

be heard that a class

We had a h.s. techs mtg - the theme

of us must use more varied methods
to keep the students involved - to agree -
the they shd be more stud partn & less
from the tech - Barbara Heller had crit.
comments about my class - my
studs, she says, come to class & complain
they can't understand me - she teaches
at 1st also - at some time on the extremely
low level of understanding of some of the
adults, I decided I shd teach at 12 or
13 to the field to Bert at 1st, that the studs
shd be told they can join any class they

Laura wakes Patty up in the morn. b/c she has had P. goes back to sleep - I called her again when I got up at 7:30 - left the cottage at 7:45 & she went up yet - Annie B. told me later she went up to the loft & called her half an hr later but that she left by Patty did - I saw P. leaving her bldg at 8:45 & told her she was late to Ingham which starts at 8:30 - she said "Peter (Wothergorn) knows where I am" - she said she had registered for her medication

Did not my girl

We had the biggest rain we have had since my arr - it rained heavily most of the day - I have never had my raincoat - have my rain hat & boots & wore a piece of plastic and my shoulders - if my head & feet are dry, I don't care if I get wet on other pts of my body but clothing is hard to dry in that weather

Had lunch & went to adult class at 12:15 - attendance was down on acct of the weather no doubt - I commented on what I had learned ~~the night~~ ~~the night~~ and attending my class that they prefer Barber's because I told them to go to my class - I told them to attend the one they preferred & that I just wd give my class only at 12:00, as Barb teaches at 12:00 - I plan to give them a written unsigned guest welcome too

The remainder of the period we played a Rhbd game concerning Fred. in phthalic (over) C-2-A-3 (85)

counselors placed ins on this for her rehab
so I put some pressure on her - Lore Bernin,
who usually helps me pen the paper & pencils,
was not present today - I was late bring the

Rtd to the cottage - didn't have time for
my shower so went to the Rad Dept & gave
them a briefing on the news - they were very
big & not so many attended, but I did
make myself heard - I was also better organ-
ized & covered only 3 items thoroughly, 3 or
4 others in less depth

Th my shower - I had lost my flannel, so
my clothes got wet

Th the rain subsided, I did not mind my
first period class in the new tent, which
leaks - we met in the pavilion - I gave them
a spelling test on some of the 405 most
frequently used words, apt time for study

I also moved the 2nd period class, the Adv.
Lang into app. to the pavilion as I planned to
tell w/ them about yester's experiment & it is
too noisy in the sub tent - The class & I
agreed and those who really enjoyed & partici-
pated in yester's bl poetry riding - but I did
not engender much disc from those who
did homework for other classes or put no

We had a meeting of the polit. enlightenment tutors - I had told us to draft another test to include the sov films, "The Hunt Is a Lonely Hunter" & the news - there was some conflict about the meeting time, the usual arguments & lack of order in drawing up the questions, & intensified bad feeling between Fish & Bob Christian, but we finally succeeded in writing ten questions for those under 65 & modifications of the questions for seniors

I had been trying for several days to get from Vernette Christian another list of those who have to take the second pol. enlightenment class after the reg one, as Bob Rankin & I lost the list we have kept who - I accompanied Chr. home to get it

Here brief

Prepared a questionnaire to give the adult class on what they needed & wanted from the class

Typed, making 2 carbons, the list of the people who are requested to take the afternooon class

Went to lunch

Had the adult class at 12:15 & gave them the questionnaire - all the questions could be answered w/ yes or no or a one word answer & the last in which I asked for their criticisms of the class, any improvements they suggested, etc. - I asked them not to sign their names - Raye Profar & Lore Davis helped me

At about 1:00 when I stopped reading the news I went to the microphone in the Radio Room & read the names of those who had to take the afternooon class - I arrived while I was doing this, & I had the Angers. He was displeased, probably because he wanted to use the mic. & was in pain, as he is always

I stayed just 1st to let people finish their papers - some had not finished & I told them they could finish later

Then a shower

Put through the adult class quiz - most of the answers made in answer to the last question were extremely laudatory, though there were some suggestions made

I had my first period Eng class in the previous

not there - I brot. in dig ridng left the from

h'self - then I had them rd aloud to me a
few paragraphs so that I cd see how they do -
the bks were approx. 9th grade level & all
made many errors - Marcus had the most table

The 3rd period class was to have a day for
free ridng in the libr. - however, James gave
a sp. briefing on the news because of the test
ton & most attended this session

I ate dinner

There was no Eng. Tutoring

Went to the cottage & prepd for polit. enlighten
class at 7³⁰ - the questions were rd by J -
he made few changes - he rd the questions
very fast & it mght have been hard to write
the answers - I was writing the questions down -
Don Jackson wrote them at the board - I had
the help sev. seniors who cd not write & re
some of the questions again - at the end of the
test J came on the microphone w/ an accusa-
tion that cases of cheating had been un-
covered - the seniors went to mat w/ Johnny
Jones, br & go into these chgs - in the
meantime, I opt'd to go to the 1st & 2nd floor
vch to conduct the after soc. class - this
was in the rice tent, while the hearing on
the cheating went on in the red tent - I left
the latter for a while but decided to attend the
after class - the people accused of cheating
were mostly high sch studs, but it was not

questions - I expected to teach a small
group of the other class & many were waiting
for me, but scores of persons were attracted
by curiosity & the group was not broken down -
Jann, helped by Lee, gave one of her intellectual
presentations & I got some of the same who
could not get much help in this way

The class was out at 10⁰⁰ - I went home
very tired - went to bed - May was disturbed
by a severe night of hammering on the wind-
mill & platform being built at the end of
the last row of cottages (and now) - it is
part of a children's playground but I hear that
it is really a camouflaged watch tower & that
children will be allowed there only under
supervision and/or to impress guests - I went
to sleep in spite of the hammering

Wrote to Lloyd

Laure told me Betty was being assigned to Room 1 to help w/ child. on the New Brigade

Annie B. Washington missed some of her belongings yesterday - Ann had gone through her luggage - Ann had borrowed her rain-coat w/o saying anything to her about it - she saw some young woman in the cottage visiting Ann - Jay, Verne & I discussed the matter & decided we should have a house mtg - we set it for 5a night at 7⁰⁰

X Borrowed Rita's pile and did my laundry - put gear on the line bch the cottage - altho there were a few showers during the day, the sun came out sufficiently to dry everything

I made notes for my girl entry

Had the adult class questionnaires

Had lunch at 12⁰⁰

Troop had called for a mtg of the Eng. Troop from 1⁰⁰ to 3⁰⁰ today for arrival planning - I thought he said it was to be in the pavilion & I went there at 1⁰⁰ - found no trace of Tr there, & he not in sets to. I on rice tent - inquired at Radio Room & they didn't know where he was

Gay, who he made much of in asking
me to dinner

24 May - W

We rose & had bkyd 2 hrs late
this morn. - heavy rain fell most of
the day

The sched. was changed for the jr high
sch; because they had the space & I
did hold my adult class

Christina Young had come for the class -
I invited her to walk home w/me & join
about the class - I told her my usual pro-
cedure, described the class to her, & showed
her the result of my questionnaire - when
I told her that I had decided keeping the
rule she agreed to do that as one of her
tasks - I agreed she wd attend the rest
of the wk & see what other way she cd
most satisfactorily help - Christine told
me about attending Angela Davis's class &
if that just by she came over here - it
was decided she shd teach "Feminism" as
the most exp topic - her appearances were
largely freed of all kinds of restrictions -
most amazingly there were only 3 black
studs in the class

I wrote in my jnl & made prep. for
my classes

In the first period class I managed to get the
space in the journal at the chalkboard -
I decided to spend the hr on the definition
of certain terms starting w/socialism &
communism - I told that class that under
perfect communism there wd be no milit,
no police & no laws but some of the studs

(over)

disagreed w/me - an argument developed
then Jerome & Willie & I seeing Lee, Ingram,
I called him in to agree the terms -
he that it unrealistic to expect a soc.
w/no laws & no police

Most of the class were passive listeners,
if that, was Billy Jones"

Peter Hetherington came into my second
period class today & rd poetry to them - it
was modern poetry & he tried hard to appeal
to their interests but they showed little
enthusiasm

Yesterday I had been prevented from taking
my place to the pervious for the Tribes mtg
because of the new rules, so Dick James &
I ate on the steps of the rule off & discussed
a little business

There was a sisters' mtg at 7³⁰ -
brothers met at 8⁰⁰ in the dining pavilion.
I spent a half the time at the mtg -
Dorothy Collins was on the floor again for
persisting in her att. two Sebastian &
num. other unmanipulated females followed
her inc. Centre there - Ave, who conduct-
ed the session, complained that women were
still building up John Jones' ego - the worst
offenders were put on the n. d. & some were
required to wear an ugly sack dress w/
sign "I oppress women" - I went into some
detail describing how the homosexual male
goes from woman to woman because he
really hates women, told what he had had

to do the make men fight their own home -
separately

The Inting was finally dismissed at about
12⁰⁰ but before I got out of the yard we were
called back from about

A crisis of unknown proportions had
occurred because Lord Collins & Jean
Brown in SP had told Albert & Helen, a
pro - longed group, about the Guyanese
go to letter to West Cathy Hunter -
Helen had called the South Coast Press
Democrat which employs her & suggested
they send a more sympathetic reporter -
The result was apparently to embarrass the
Guyanese just & the other forces which per-
suaded Guy. officials to ground the plane
which was to visit Mrs Hunter - moreover,
4 of our people who were conducting a sur-
veillance of the Hunter - Terry Carter,
Dobbie Touchette, Don Casanova & Daisy Lee -
were interrogated by the local Govt then
John & I were taken to the others held out
and admitting they had signed
a doc & I do not remember what she
had signed - she does not feel any well &
we were intimidated - The police threatened to
arrest them all & so they were come back
later on - They had not in good ratio - I
had ordered they all be taken into
custody - for as he we had not even consent
to let any of our people subjected to court

france - on money was also removed -
the danger is that police may be
ordered to search our premises in Jona-
town - if they try, it will mean war,
for which we must be prepared - a
hunger strike was mentioned as a method
of signifying our commitment to our in-
terest - Bobb Trapp & Carolyn Lomax were
instructed to draw up a statement to this effect,
& when it was ready, all, 16 & over, filed
out to sign it.

At one pt in the eve Jean Poplin arrived -
she was preceded by info that she had
given talk not only in Georgetown but an
arrival in Jona-town - she was not eat
the food offered her, wanted a brand of
cereal called "Milk-o-maid" - she wore
diamond ring and wore a money belt, both
of which she refused to turn over - she was
dressed in the fashion displayed in San Fran-
cisco

I had her up on the floor & much dis-
cussion ~~the point was~~ - mentioned
pieces of property I left cars, argument &
other forms of persuasion she finally
accepted the rules, & being more agreeable

As I had worn boots in acid of the
weather, my foot was giving me a great deal
of trouble & I had to do the ~~the~~ of during the 2
interviews, I was afraid the boots would be worse.
We were dismissed at about 5:00 as instructing
the Trappin had until 4:00, have stayed & red to the parking.

25 May - Th

We got up & had breakfast at 11³⁰ - then we set it to the pavilion for further disc. of our sit.

A new method of res. suicide was tested in case we did not have time to use the piston alone - we wd push ourselves into piston blades & these blades wd be blown up - the demolition material was tested

The windmill which is being erected as a watchtower was disc'd - it is intended to lk like part of a children's playground, & whether this intention was carried out was guaranteed - J. suggested some changes - the device actually generates some electricity - whether the structure could also be taken as a radar device from the air was decided but it was decided that no one fam'd. w/ radar wd be so deceived

Many people were put on the floor, incl some referred from the women's & men's things - sev. were put on feet ~~the ground~~

Mention was made of Norman James, who was going to get a pilot's commission which wd allow him to visit Jonestown occasionally - instd he has turned down a Gov't town job, has flown other routes & a good salary, we have not seen any of his money, & he is rptd to be involved in

romantic affairs.

On the basis of many rpts, incl one written by me, Louis Jean Lucas was put on the floor - she is a seemingly well-educated, regal black woman whom I had heard declare her loneliness & lack of int. in Jonestown - she is a barber & had hoped to find her profession in Georgetown - she sd she had effected to travel - she didn't know she was turning over her property & jewelry to the T.O. I didn't get that bit - testimony from many others revealed her background as a model for movie stars - she had then taken care of an old man whom she neglected - she stole some of his retirement checks & a diamond pin - her house was filthy & her animals neglected, & govt. action was even threatened - she admitted these facts only aft I reminded the questioners she described the same tract as the other senior (Jean Pophin) had read last night, & it was given to her & it was demanded she use her talents as a barber for the community.

Proposals were made that preparations for jungle warfare begin - there will be no dress - I asked for anyone who had suggestions to get on the floor - among those who did was Annie B. Washington who had been a follower of Martin Luther King; but

had never blood in prison - she had
carried a loaded firearm w/ her

In the evening I gave an hr & a half
for dinner & read - I ate and rd the
news on the blackboard in the library -
I had been sitting during the mtg w/ my
toes off, & my feet were much better

When the mtg was resumed, I told us
contact had been made w/ Home Affairs
Minister King who had been mtg w/ others
in the govt. - they had ~~concluded~~ - they
may have called off the arrests & may
inform us in the morn.

We were dismissed at 12⁰⁰

26 May - F.

Annie B. Washington moved today to
a dormitory (called "apartment" now) so
that she did not have to walk so far
to work, meals, shower & so on.

During my blind trip to the central area,
I took care of a number of errands - stopped
at the warehouse, got shampoo & a sweater
as I have been a little chilly sitting on my
feet in the cottage - at the mending room
11 1/2 the only one they had is a little too big
for me - I lost the one I got just by
leaving the USA.

Alma Thomas measured me preparatory to
making a rain coat for me out of a plastic
bag I brought w/ me from the States.

My foot is feeling much

The weather was clear in the early part
of the day.

Marshall Dennis made & installed a
shoe rack on our cottage porch, which will
help keep the porch & consequently the house
cleaner.

I took my shower before lunch today, so
that I could have my foot treated directly
after my usual class.

I had planned to take up some material
for my second period class but before I went
to lunch there was an announcement that
h.s. classes did not meet today - h.s.
students were to work on their projects
in order to bring produce up.

Had lunch
The day should start at 1:00 - Christine
going but not come - I gave some phones
the first - then started to define some of
the terms I had put emphasis on in giving
the new policy

Had a Margaret James at the pavilion
for treatment of my toes - she used Irish
wine

Wrote a note to J on a strategy matter
I had that of in connection w/ guerrilla
fighting

Had a Peter meeting at 4:00, h.s. w/
Jim High & also with teachers - Tom Shubbs
talked to us about lesson plans - Jim High
& also with teachers have to make them up
weekly for all classes - he showed the
form & discussed it - Tom has ordered
600 forms from the States - Tr decided
we had begun to use the forms in the
h.s.

We broke for dinner - aft we ate, h.s.
then out to the park. - It was decided
we would have a picnic every wk

I announced that we had finally made
connection w/ the Guy group - the plan to
arrest our people was rescinded, & those
who had conceived the idea (a small
fascist group in the police) had been
identified & would be punished - They had

CIA contacts - the plot was definitely that of the CIA & Brennan made a strong denunciation of it & of the U.S. pol. class - he rejected all IMF aid w/ its unacceptable requirements - I told us that meanwhile the sit in the world had become very serious, pointing more & more to nuclear war - the US has concluded an agreement w/ China abandoning its protection of Taiwan, has attempted to force the USSR to desert Cuba - the so-called "free" world is making a concerted attack on Angola, while they continue their efforts to keep control of the assets of Zaire

X I didn't go home as we were to have polit. enlightenment classes in the pavilion at 8:00 - I had my clip board & paper w/ me & had a little at my girl

I suddenly announced that he was giving out the names of the traitors who had left our ranks - it was Debbie Blekey - she had ^{been} proved to have taken an active roll in the conspiracy - she had five socialist relatives: her mother Lin Layton, brother Larry Layton (recently arrived), & husband Philip Blekey, all of whom showed an admirable attitude.

John Marwick conducted the pol. enlight.

not visible very far back - her material
which was on Communist theory, definitions
& examples of the terms used & examples,
& an aspect of the conflict in Zaire as it
is related to Communist theory - she
talked very fast which drew some protests -
& circulated through the aud & made com-
ments & there were other remarks & ques-
tions from the floor

The meeting lasted until 11:00

Our college ~~with~~ the class took a long time to
settle down - I did not go to sleep
until aft. 12:00

11th I told us the Epameiro had run a story
that Mrs. Hunter had been held in for the
the custody whereas the truth was that
she had been drunk the whole time -
Guyana knew she had entered the city
under false pretenses - she sd we threatened
her, whereas she threatened us - Guy did
not bow to U.S. demands - the incident con-
cerning our four people who were detained
were caused by a small ~~small~~ ~~small~~ gap in
the police who have CIA contacts - Mr. Mingo,
who is head of Home Affairs & Immigration,
helped us - he sd this was an attack on soc.
& all the citys - he acknowledged this was
a conspiracy!!

Yest. Patty had asked me to lend her some sewing materials - I had just climbed up on my bunk & didn't want to get down & open my crate - I may have later left my crate open w/ the lock & key on it - & when I came home last night I noticed my sewing materials seemed jumbled, but that I may have done it myself - it was late & I was tired - This morning I arranged my sewing materials & missed my card of needles - I immediately suspected Patty, went to the lock to investigate - on cursory exam I did not find the needles but did find a spool of thread which was mine - I & Patty told me, as if she had just noticed it, that I had left my key on the bed - I & I had also both noticed that Patty when she came in yest had inquired "Eva?" as when her curtain is drawn, one cannot see if true or false.

I then for Patty & myself questioned her - she denied taking the needles or the thread - I arranged w/ hands learned to meet w/ them both at the cottage when Patty finished at 4:00

I did my hand laundry, using Pat's pile - standing in the damp grass on the benches at the water faucet. Smell another blister to appear on my foot.

I did on my final
Had lunch

Took a shower

The elem, jr & sen high school teachers
met at 2:00 in the sch tent - Tom Shubbs
talked about the learning process - it was
abstract tho interesting - I had to be
a little by 4:00 to meet Tw/Petty & Laura

Petty had come home early - she went
through her belongings as Laura & I watched -
she admitted nothing tho I told of the
evidence, pointing out that she cd have
hidden the stolen needles - Laura found another
spool of thread among her belongings - she
remembered seeing the needles & jerking my
key in the loop & Petty cried but denied
guilt - Laura reminded her that Harriet
had also missed blouse which she later
saw Petty wearing

// I ² th note in the days I had missed my key,
intended to hunt for it when I got home

I was sped to talk w/ Annie C. about
articles she had packed from her luggage
but I didn't have time - I went to dinner
& my ret told the others in the cottage
of the episode involving Petty - Harriet
that she was suffering from a bad cold
& when I wrote my report up I
suggested counseling for her - I gave it to
Sharon Ames, and asked the lead of the counselors -
she, however, said she might be going down to New Town

mentioned last night, as I had previously
also told him I that I'd get back my job

The weather was clear early in the day
but there was a big shower at 2:00 - Jenn

go at 2:00 - I had hoped to go & typing in

apparently individuals can obtain prices for them

I could not rd Man Cried until I went to

29 May - M

Rain fell almost all day, & times furiously.
After having slept & following my morning routine, I wrote up lesson plans for the wk for my 1 Language Arts classes - in the remedial group I plan to cont. the work on polit. definitions & intensive cgrs & to deal w/ Senate Bill 1437, interspersed w/ some spelling lessons - in the advanced group which I will have this wk, I plan a wk's work on metaphors & diag. types.

Did a little work on my quilt.
Went to lunch - I was a little late & there was a long line prob because wd had got around there was some rot. left over - it was gone by I got to the window, but I got some very good soup.

One of the older women told me she had seen my lost raincoat - a woman who works in the Price that has it - my name & cottage no was on it but the woman whose name is Martha Turner had made an effort to rid it - later Mary Costello told me that Martha had told her she had it & to let me know - she apparently became concerned I wd know who had it.

I held my adult class from 12⁰⁰ to 2⁰⁰ - the major by students stayed for both sessions & Ith held each time - I whid on phonics the first pt of the period & on polit. definitions - prob on acct of the rain, prob on acct of Lore not being there to help me at first, the class was noisier than usual.

Th my shower

Met my aft classes in the pavilion - I managed to get a table & benches & a blackboard - in the

(over)

C-2-A-3 (129)

first period I went ahead w/ polit. definitions -
Marx made some thoughtful comments - I
introduced the subject of metaphor to the
2nd period class, then turned the class over
to Anita as chairperson - she was to have
the class members give proverbs and explain
them while I recorded & evaluated the pro-
ceedings - the class showed some interest but
these gen. att. for me was not good

At dinner

Attended h.s. Tetro meeting in the pavilion -
Tetro told me that Peter Hothergorn wd be
teaching the advanced stage Arts class taking
over from me, as he understood I had
expressed disinterest w/ the studies to Peter - I
did have argued the same but was really
relieved to be free of the respons. - I accepted
the arrangement as I can devote more time
to the studies - James will teach the inter-
mediate gyp - the math classes were also
reorganized - I showed my lesson plans
to Tetro & they pleased him - we discussed
the sch. comp. the sit. - many are being
lost or stolen - a method of passing new
books & making Tetro responsible for them who
adopted - Tetro had surveyed the list of h.s.
studies & found sev who were not taking the
right classes - David Gardner, who was
not in the socialism class, was lost by
the gyp - he had also been caught obviously
trying to steal a comp. the

At home I wrote good entries up to date, then
as then cried about can be

Went to bed at 11⁰⁰ but had a hard time going -
the sleep, as there was much noise outside, & I was a little

troubled by losing the advanced class

30 May - T

Patty is still living in the cottage - I had that like was her staying in one of the aptos to help w/ the New Brigade - she still fails to get up & go to school on time - this morn we spoke of some hot wds & I told her angrily she had better red my needles - what makes me especially angry is that the card contained my needle - thread & with my weak eyes I find it very difficult to thread a needle w/ it - settlement in the college is that Patty needs more supervision & that she should be moved

At 8:30 I went in the library can know or collecting the w/ samples of metaphors for my second period class - Rhonda Parks, one of Teresa's assistants opened the cans and helped me find some of the bks - all bks are locked up now, since there has been so much theft & she saved the bks for me until class time

I saw Martha Turner in the rice tent - I expressed myself rather firmly, that it was removed out of her mind to see that I got ^{my} ~~it~~ back, since my name & cottage no were on it - she told I was lucky she had saved it, the she made no effort to red it when the rainy season came

I stayed at Ruby Cornell's cottage where the seamstresses who, hoping to get some scraps of meter for curtains & to make some little cloth bags for containers of my cosmetics & sewing materials - I am using nylon (over)

C-2-A-3 (131)

by which break - I was told my college
notes got water through a "misunderstand-
ing" - Ruby was black & I'd had to ask her

The book got in early this morn. having
been delayed by the rain - Robin Tschelt
& Edelle the Coll arrived as it for the
state, plus several other members from this town!!

Made my girl entry
Had to lunch

Taught the adult class at 12⁰⁰ - I gave
some spelling words & had a few people show
their abils. In the afternoon - I gave the class again
astonished me by making no errors -
Then gave the dicta on (LB 1437) which I
sd to emphasize in all classes - Annie Gray
& Th a shown

Only a few were present in my first
period class - I again gave them the meter
on LB 1437

In the second period I presented the
material on metaphor, reading to the class
from diff types of lit, & discussing the
metaphors found in them - the class does
interested esp. in revolutionary sources &
pd fairly gd attention, though not perfect
Had dinner

We were to have a Tehra' meeting but
it never got under way & I went home
Laura had asked if she cd borrow
my t w again - I was reluctant, tho I
told her she cd but she'd have to wait
until I got home - by the time I got

30 May 1978 - 2

Went to the rally - got a good seat

Type of news played

The Ingram made announcements

Test (1) Dist of an impersonal statement 5

Hearing on what was held - up for tractor to
leave - Charlie T. says fixing up the tractor
so that it was suitable - Of ad it was
going to be costly to make up in presents
for this country - I kept asking for
hurry - up, he never got any response - Dick
Barnett had been busy for getting the tractor
ready but he had to get Shirley Brandon back in
dye & give back to his cottage - it was
11 1/2 to the college, I must have missed her!!
11 3. move by - I had been very sleepy &
tho I heard it, I forgot it - I wrote sth thing
about discom then the rail & poor; (2)
main pts of HR 1437 - I wrote all I had
time for; (3) move I had given today - of
the new road just given, I had forgotten,
much but remembered enough to write
until time was called - I then had to help
a senior who had table writing!!

11 4 All apt I kept hearing on the floor after
about a day. Defense House plane which was
coming in from Matthews Ridge to take 6 of
our people to Gov't town - some were patients
& nurses - by the Carter was going in the take
dye of radio tapes - Mary was going in
to talk to good friends. & apt' mental had
been made for her - later comments from
(over) (2-A-3 (133))

I, becoming more & more urgent showed
that the tractor was not being made,
ready to leave on time, & finally that it
did not leave & the metal plane flew out,
not taking our passengers - I was indig-
nent, as these H.D. flights are a favor,
very costly, & no charge made to us. I
did not clear to me why Hedley couldn't finish
on time - no body gave him time & the
other passengers any explanation as to what
was wrong - when Harry came to see what
was the matter Hedley seemed annoyed to her -
Harry made it clear that she could have
been made w/ the orig equip & I emphasized
that he she be kept fully informed at all
times of problems that came up -

H.D. truck was not present when the matter was
first first up but appeared later

H.D. did not come today - later I saw her - she
said she had been ill but we came to it

X Aggie yts were given briefly

Praises were given, people taken off &
assigned to the new Brigade

The rally was dismissed at about 1,00

11:30 A.M. just within by Shirley Hicks, and
and offer in the town & 2 other towns was
not - some members had behaved ungraciously -
Shirley spoke of rivalry, lack of coop from
the sister Martha Hicks & Diane Hiltner -
also that this many of her accepted & let her
beverage & home of. They national who enter-
tained them the fully enjoyed reluctantly - only
Carol & Jimmy Jones were seen as waiters but
not waiters should for them

31 May - W
Rising & left at the usual time
Had had to tell w/Patty Cornell about
getting cloth for curtains - she said those
which had been obtained previously had been
given it w/o authorization, inspectors would
take it away from them - on my way home
I stopped at the place that where the sewing
project is conducted - they gave me some small
scraps of material for my little bags

The day was mostly clear
Clearer in my hope to come across
my needles but I can't find them
Had on a good entry

Went to lecture
Tangents the usual class & w/ - gave a
phonetic lesson first - then we had a dis-
cussion on the American Treatment of Blacks,
based on an article about apartheid in the
Atlantic Monthly which I had started reading
to the class some time ago
& the shower - on my way saw Patty
Cornell - she mentioned Lisa Leyton that
she did not want to mention
Debbie Blakey's question - she had an idea
Lisa didn't want to talk about it - she told
me Debbie had acted strangely in New Town &
she should have been suspicious - she had
remarked to Debbie that she seemed to be
gaining wt & Debbie's reaction was hostile

(over)

C-2-A-3 (135)

I had told us in the rally that Debbie was pregnant - she had been influenced by the attentions of an outsider who probably was assigned to persuade her to leave the cause - I warned all that any of us, male or female, could be the objects of such a purpose & I thought I'd better have a rain coat & later I met up my mind I'd let her have the one Alma Thomas made for me, but I then didn't wish her

// I stayed at the nice tent & got my rain coat from Martha Turner - she didn't admit any feeling in others in keeping it so long, the idea I'd have easily found me!

In the first period class we discussed Marxist - Leninist terms - all were present like Billie & Willie - they were fairly cooperative

In the second period, I gave illustrations from the I had assembled of metaphors taken from different types of art - the class seemed fairly interested - I explained what we were doing

Pineapple was on our dinner plates
Today's meeting was at 6:00 - Ellie Bean had asked to make a complaint against Corbin Bontle - she didn't learn math in her class she said & wanted to be transferred - no other studs, incl. Gove Logan, spoke against Ellie - he they think causes trouble in the classroom - the others

C-2-A-3 (936)

3/18/68 - 2
had trouble getting to the bottom of her complaint -
she seems to be suffering from heart trouble -
we advised she get help & stay where she
is

There were movies and counseling
too - Inez + Vernice have been off at
counselors

Bette ret'd my needles - she had appar-
ently been contacted by Sharon Amos & at
that Sharon was requesting me to say out
more about the incident & I agreed

Inez had borrowed my Singer one 2 days
ago & had not yet ret'd them - I had
wanted to sew on my legs

At 8:30 rd news on the bus, so
as to be prepared for talking at the kid off
at the warehouse for some rope & a
piece of string on which to put my keys
to my crates so that they'll be kept
from others & from loss

Did some more research in the lib-
in books to be used in teaching metaphors
to my second hr class

Had an great dinner

We had a heavy lunch: greens, soup & a
peanut butter sandwich - I was not very
hungry today, so I took the p. b. s. home, &
kept it in the fridge

Took my shower - had to hurry to get to
the bus stop in time for my usual th
talk at 2:30

They were so busy that instead of my
talking to the group I gave through the
items for Sylvia Briggs & she took notes
to distribute to the others

I rode to the cottage to get my material
for my classes

The first period class was late in assembling.
The news was being given on the p. c. system,
so that Trapp could not make any announcement -
some were late which I noted - I gave the
class a spelling lesson - I thought it was time
to demand better behavior from this group of
students - their demeanor in class has

(over)

C-2-A-4(2)

Improved, but they still interrupt me w/
during their breaks, talk to each other
during class, play w/ objects during class, and
pass over my books & w/ words of class
ask irrelevant questions continually. I
told them this behavior had to stop - a few
did well in the spelling test, the others did
badly.

In the second period class, I told the student
I was going to have them do the metaphor project
on a class rather than individ. basis - I
put the obs & mags I had for from the lit
on the table & told them to share them &
help each other - most of the class whid heard;
I got questions from some, a few didn't try -
occasionally a teenage sense of humor was
displayed in a pertic. metaphor.

At dinner we again had a good meal:
rice w/ gravy & chicken gizzards, sweet potatoes,
a veg. I didn't take a bun.

I missed the Talm's mtry - went home

At 9:30 the eve Talm. met w/ instructs. to
prepare a test for pers. use - Rob Christian
was not there, nor Vernetta - Bud Jackson
presided - Betty Jensen had info on point
I wanted included - we kept our voices
low & watched recur. over the test questions
diligently - we each made suggestions &
turns then went to Tish to type up - we then
discussed teaching methods w/ reg. to senior
particly, tho we did not know how the other
classes were to be handled - Jane who was

Teaching a sp. less at 8:00 send was asking
for help - 3 of us volunteered

Her people were in the cottage when I
arrived - Elsie was "gossiping" Ann's hair of
the hot iron - Inez was making & putting up
her curtains - Inez was sick w/ a virus
perk which a number of people have had -
Estelle McCall invited us - where Inez and
dave - she may move in - she hasn't
ret'd to 1029. Mary - she sd Jossie Charablin
had long fingers & that John was expect-
ing to come of her son's baby arrives

Betty Dennis has been moved to a home
I finished Inez's quilt but went through
the quilt & patch, went to read the ending
again

Went to bed at 11:00

2 June - F

I corrected the first period spelling tests
& made plans for today - read the papers on
metaphor from the second period class - they
had done well on the whole

Made notes for girl entries
Went to lunch

Stopped at the library, looked up more
notes for the second period class

At 1, or met the adult class - we had a
phonics lesson - I then discussed a few
news events to help the class pass the test
if there was to be one too

Th. my shower

During the first period spent the time on
definitions of Marxist - Leninist terms

I told a part of the second period class
that I would be turning the class over
to Peter - I read some of the metaphors from
some of the papers - did not have time to
give any other notes which I had planned -
I talked to a few students who did not have
the idea & to those who had not turned
papers in: Sha James Harris (Christine
Jones' sister) & Harry Jones - they were
showing much int. in lessons - they look
upset, not very good, saying they had
had links to work with, indicating a con-
nection on the part of others - this may be true

of this class but they can have asked
me for help

Had dinner

We had Thurs' mtg - Dick th down
absences - we discussed students' behavior
& recommended some for praises - I was
Peter of the studs who didn't get their wk
in - Tracy mentioned that Brown plans
had been suggested - it was agreed that we
with Thurs we met & were cooperative on
them a 5 & 30 to 50

I went home

Swedish dinner met in the pavilion - I
located a seat but had to give it up, as I
socialist Thurs had to monitor the test - I
asked the questions, all of which were
essay type - Jerome Anderson asked me to
write his answers as he can't write
well enough - the test was difficult &
given very fast, the people were allowed
to go back over it - Jerome did only fair -
I, after the papers were collected, had the
answers given on the pass system - he said
the Thurs we take the test from at the
rely

Joan was assigned to teach the after class
to be given to those who had failed pre-
vious tests - I asked her if she needed
help, as I had volunteered the night - she
obviously didn't want me - Pauline Simon taught

The entire class

A large group of freshmen is going to see
of the Indians in the Northwest Region to
be in Bureau of Tom - Venice & I were
nervous - they needed their clothing &
backpack - then they were told Tom Grant,
who has been overworked, was told not to
come to work, & the problem of coming to
school came up.

I had borrowed 2 of my (former) books from
the library: Collected Poems by W.B. Yeats &
The Identity of Yeats by Richard Ellman &
I read them for an hour while waiting for
Venice & I to finish their work.

Went to bed at 13:00; very tired from the
days' events, esp. being on my feet so long
during the day.

These things

Find that they didn't go to the P.N.C. meeting, as Tom was out

Borrowed a pile from they & did my laundry, hanging it over on the third area, as our line was filled up - the weather was clear in the morning but rain fell every now & then in the aft., & my clothes did not get dry. Had a little work and my girl had lunch.

Deby Beikman had had plans to meet in the pavilion - she wanted some help on the news - the Eng Tehs were to meet at 3:00 & when they and lesson plans - neither Deby nor the Tehs came, probably because of very heavy rain - I didn't have anything to read, so just watched the rain for some time.

I was very tired from last night & didn't feel well all day. Went to dinner.

I decided not to have a rally today as a large no. of people were out at Papaya for the P.N.C. meeting.

4 June - Sun

For lunch we had dog meat & coffee.
Washed my hair.

Started to rain in my yard but the power
went off, so I didn't do much else.

The rain came to an end, and
the residents were in the center
& they have been working on it.
The young people who have moved in are
not very neat - leave their clothes on the
floor, some do not wash their hands
and take off their shoes when they
come in - they tried to find a house
where I could not be present - I went
and complained to the manager about
being dirty dishes around - for some
reason, Elsie seems to have become
independent too me, remarked -
having my bed disturbed -
that why to the sound of
her at the table with the bottle
of water & glass -
no improvements.

I spent some time today working on my
notebook.
I ate about 5³⁰ - tried to trade w/ Martin Smith

chair - getting of the news, which was
everybody's mind these days, she saw a lot
of people were sitting in the quarters of
Ruth Lowrie, who is crippled & finds it
hard to get to a place where she can
hear the news - she invited me

I sat in the pavilion until time to go to
Ruth's - invited Joyce Clark & Dery
Castillo to accompany me - among those
assembled were some who were well
informed & as a result I learned more
than I was able to give - they had heard!

We went to the rally at 7:30

I began w/ comments on the news & c.
made notes

A good number of people is going to Caracas,
Venezuela for a meeting - we will be able
to get some material, such as maps, &
medical, & other things - a lot of people are
there - I will be able to get a lot of
such & turn the lists in

Rising & bright since 2 hrs late
the moon.

Worked on lesson plans for adults class
(first) & remedial class - in gen. for
the adults I am planning to spend a
pt of each hr on phonics or reading &
pt on news items - Today I want to try
with the news some time on disc & writing
(for those who are able to write) - w/ the
remedial class I am so much that I intend
to be a bit strict behav. demands &
make a determined effort to teach the stud-
ents to read & write - at least those who
have the intell.

On my way to see Mrs. Christ
Ginger. She has been sick for sev days but
is well at now - I gave her my latest
class book for the adults class, asked her
to draw up an alphabetical list - we
will add to it during the wk & then
put it in perm. form - I told Christine
my plan for the class today & suggested
she might like to take the writing gap

Got a new supply of pencils from day
The adults class had assembled - how-
ever a lot of chickens had been
brought up for cleaning & most of my class
members usually do this wk & since
it was neces. to save the chickens from
starving, I had to dismiss the class

Made notes for my girl & what and
long arts class records so as to be
able to turn them over to Jenn & Peter

Rested a little - I have not been feeling
very well for several days - had little
appetite, my stomach felt uneasy, & I was
very tired, esp in my legs - I may have
just been feeling the effects of standing, and
my fat so long of night - today I felt better
but still don't have much energy!

I was taking roll in the long arts class -
some were late as usual - Shirley Hiko
as an observer approached, noted the
tardiness, sit & also a few samples of
unacceptable behavior - she spoke sharply
to the students & I followed w/ my
already planned demands for better order
& attitude & explanation of what we're going to
do this week - told the students we will
start diagnostic testing tomorrow - I then
discussed w/ them the student of Ham & Kumpochie
& had them begin a written summary
of it when the period ended - At the end
of the period Trapp came around to suggest
more activity for this class - I told him of
my present plans

Went home & got what I needed for the
ev.

Had my dinner - we were to have
Tehrs sitting in the pavilion, but a

heavy downpour came which prevented us from moving for some time - Becky Beisman went discussing insect life - she says more dif. kinds of insects in Guy than anywhere else in the world - she described the early days of the proj. - I hadn't realized the first contingent had lived in Jost housing on Pt. Kaituma for 8 to 10 mos while the road was built & a clearing made - the Te had to borrow a bulldozer from the govt - Becky showed me where the first clearing & the first bldgs were: very near to where we were standing in the dining pavilion

When there was a slight lull in the rain I went to the pavilion & claimed a seat - re The Identity of Guts until the movie was shown & we saw "9" again - it is still interesting to me, altho I have seen it sev. times - all were required to attend - I commented on it throughout

one copy of a sixth grade test

Had lunch

~~Had my adult class from 12 to 1~~

relig, mysticism & related topics, trying in
the major histor. and developments w/ the
prevailing faith, going on to the danger of
being caught up in either tradit. relig. or
such obscurisms as space travel & space

of cinema in "Z" - they all gathered
in the school with the teachers - a short
section of the film was shown & discussed
in detail - students were expected to take
notes - most of the students were intensely
interested & showed keen observation but
many of their comments revealed little
understanding of the polit. sit.

I stayed to watch the same procedure
with the 445 classes - some of them were
more astute but on the whole they displayed
more boredom.

Had dinner & attended Tehri meeting
in the pavilion & saw the identity
of guests
At 7:30 the alien & go big school students
had an open house to show their work
wh & actors to their parents & other
members of the community - there was
much very attractive hand-made
material.

The film "I am from the Madras State"
from the bh by Thomas Hardy web shows -
the chief actors were Peter Finch, Alan
Bates & Julie Christie - altho it had
some fascinating local color & spots
scenes, the human relations seemed
stilted, esp. to socialist - the acting
was jerky. It gave the community
more fun of the sit. than the other.

I was a little late for church & there was a long time & some newly prepared fruit preserves, apt being approved by I & a rally was aimed & I suppose this drew more people than usual or, perhaps people the larger helpings. The kitchen had run out of biscuits & had to make more & there were no preserves by the time I got to the windows.

I typed in my paper for a half - Ellie Beane, who sleeps in the daytime, afterwards asked me to type every day - I did not but was not to then, as I intended to try to make more prog as my girl - she said it disturbed her & I later told her about the incident, who said the housing day workers & day sleepers in cottages of Beane. Ellie rather has an effort to have consid. w/ Newtown center because of her dad. Jack Beane.

on the grading of the last test - Chr was

He broke up the 1st. enlightenment classes
and - Chr. rd the test questions - I was
exhausted - I wrote the questions on paper, &
Don Jackson wrote them on the board -
Students wrote the questions down, and then
later - I gave a story to help people who
didn't write - this proved to be a tiring
chore, as I had to move to each one to
hear the story privately & write it down -
There were about eight men & 2 children

for the teachers to read had been erased I
talked to the teachers about the papers and
grading the papers - went by Christens' house &
got the answers from Rite

Borrowed Rite's tape & did the laundry
that had accumulated since I did it. I
had a conversation with Don Fields - he was asking
what I thought about the Day, referendum to be
held in July - we talked about Day politics
in general I told him I had very little knowledge
not even being acquainted with the personalities
nor issues involved even through the maps

Conversed with Rite - she is still urging
me to tell Ruby Carroll that Day & I like
have taken ~~hundreds~~ of ~~hundreds~~ songs to make
clothes for themselves - we both believe this
is irresponsible as money can be made for
the community by making articles to sell -
Rite furthermore has less int - When I

idea of the individuals' knowledge of news
events of the wk

Went to lunch

Saved for a good part of the aft. - started
to make another key from the meter which
was found to be about Betty's - it was
in a box which was ret'd from her house &

18 June - Sun

A horse check was made again around 5⁰⁰
lights turned on & speaking in a loud voice -
that I only dozed until time to get up, &
for breakfast we had pancakes w/ syrup - some
mango butter was given to each on an experi-
mental basis - we also had coffee

Typed in my journal from 9⁰⁰ until 12⁰⁰ pri-
vately 6⁰⁰ again - I & the another half did on
so I wrote a 2-page memo to J proposing
a teaching unit & a testing program in
phys. enlightenment in the case of those who
cannot write based on my offer of the
first few, who - Ellie is still at the Public
School & the other residents were
putting in their half day

When some of them began to get home I
took my shower & washed my hair

Joy & Jane did some work in the yard &
cleaned up the cottage - they did a good
bit of the apt decorating their areas - they
cont'd to disc the sewing they planned for
the fabric scraps they have obtained - Joy
seems to be on good terms again, &
his companion

I spent most of the apt sewing on the
bags I am making

I went to dinner at 4:30 - we had a grilled
cheese sandwich, mixed potatoes, m. fed vegs,
& a mango

At dinner "Lemon Street" was put on the

audiotepe machine for children - then
the documentary on Castro was to be shown
a later a comedy film

I took it to the college - I left my clip-
board in the truck, went back for it &
learned someone took it & turn into the
Radio Room - I made notes for my journal

During an announcement that I had made
the Castro film mandatory, I went to the
parking, I stopped at the Radio Room but
didn't get the clipboard - had trouble finding
a seat for the film but finally got one right
to the front - treats were being given
out, today popcorn balls made w/ fudge

The film was an interview w/ Fidel
Castro by Barbara Walters - I understood
a disc apt' was - he had been obviously
disturbed by the lack of seriousness he had
seen, making me the mandatory showing
& his remarks following it - Some people
had been dis'g'd that he want show
them to dance on the dirt floor which
kicks up dirt bad for their lungs - also
someone close to him on his steps had
demanded sex relations w/ him - he made
references to a person, white, given and
ed. by him & connected these charac-
teristics w/ sev. who had become traitors
incl. Kefauver - he that white connected
people, unless they had suffered unusually,

were particularly vulnerable to Treason - Debbie
Bleby had not wanted to study Marxism -
Leninism - he dwelt upon the unwilling-
ness of many to make sacrifices - When
all our people are safe here, we will
have more freedom

I made comments & answered questions
on the Castro interview - Though he had
questioned some Castro practices, such
as wearing an offensive watch, he admired
him for his devotion to & promotion of
communism

wanted people to see the comedy film,

A particularly heavy rain fell during the night, awakening both Jay & myself - water was coming in the window & the wind yanked the latch off when I tried to close it.

After breakfast I wrote an lesson plan for my classes.

Upon further convers w/ Rita on the big bags of material which Jay & I are planning to make up for their pers. use, I sent Ruby Carroll about the matter - she said she was thick on it, but she'd have to wait for Subike, as she had to have an inspection w/ her - later on the p.a. system we were informed some Amer. Management would be visiting, & the inspectors had to see that all was in order, so Ruby apparently had to postpone her investigation.

I then turned over to Ruby my iron, which Harriet had given back to me - everyone in the college had been borrowing it for pers. use - I was dismayed to find that it had been used too hot on material which melted on the sur. of the iron.

Heavy rain started up during my class, & we had to move further in - the number was small today - I had some stories from 3 bks of African folk tales - some class members went to sleep.

I took a shower

Going to my first period class, I met
Bernie & Billie Jones. who said they
were going to take a shower after their
period - they were at least 15 mins
late - the class I met in the pavilion -
I was viewing a film & conversing w/ members
of his staff as they came up to Ann: Harriet,
Terri & others I we did not have a table -
w/ 3 of my class absent (Willie is still not
attending as his school had not been
adjusted to the danger of disturbing J, I
decided to watch w/ the class the TV
prog, which was a documentary on the
Palestinian Arab refugees - Ronnie & Billie
had come in - Dick Trapp came by
was annoyed, finding Ronnie asleep &
hearing that he & Billie were late - he
said it was a warning that I was
late & they were late - I was
happy to get the whole prob solved
out - I told the class we would find
another place to meet soon

For dinner we had fish cake, rice, sweet
potatoes & vegs

There was no Texas meeting

I went home - worked on great entries

residents were out - I had gone to see

We have a couple of cats wandering in
& out of the cottage & although the red has been
killed from poison as far as I know & has not
been caught in the trap & they say she saw
him last night, some of the commotion has
subsided

Left "breakfast" & spent some time gathering
 news, which I needed for my adult class,
 because the community may be tested too
 at the rally - I intended first to read
 the meter, typed up by these four Jo's p.c.
 accounts but it had been stolen - I wrote
 down some other items that she had put
 on the chalkboard from the meter prepared
 by Vernetta, and posted at the cottage - this
 letter is hard to read & it is uncomfortable
 to stand in the sun to get it
 Made some girl entries & did lesson
 plans

The lines for lunch were very long -
the servers ~~were~~^{took} out of dishes & we had
to wait - 2 young men got dishes from
people who had been served from
got served ~~and~~ waited to
eat & not let them - When we finally did
get lunch, we had a very good bean soup,
but they must have run out of it because
there was no more in line got bread pudding - I
was told

I was 40 mins late to my ^{11:00} adult class -
I didn't do any ~~things~~ ^{work} but spent all the
time (Cover) C-2-A-40

Time on the Xerox - the class was huge -
just people sitting who had been used
to sitting outside.

The very shaver

I brought my approach in my memo
to go on the testing plan, thinking I had not
noted what a remarkable achievement had
already been made in teaching a huge
classroom, to pay attention to intellectual
matter. - also, my memo was too long, so
I intend to rewrite it.

All my students in the h.s. class were
present today - I moved them from the
pavilion to the school where we found
an empty space w/c table - I gave them
the first of the diagnostic reading tests I
had been planning - they did not have
much diffc w/ it & what I heard.

Went home of my class & noted w/ what
I needed this week.

Ate dinner

Went to the pavilion where the h.s. sec.
classes were viewing a TV prog on the Rosen-
berg spy case while I watched.

A no of sons were gathering as usual in
the pavilion to claim seats for the rally -
they did not get the tickets, where they had been
placed for the TV showing, but the crew,
arranging them for the rally, insisted on every-
one's getting up until they were through &
this is the common procedure for every
rally & is expected of all concerned. I
was disturbed that my wh was interrupted.

I came in - enquired if we listened to the news as it was played in the pavilion - damaged, when told we could not be because of the noise, and we should have protested - had it played again - stayed in middle to reveal the intel. as members of Comm who talk favourably of USSR or fail to speak of princ. of Communism

for the rep arriving in July to disc the episode - enquired about G. Belders health - ready moments notice to provide med. help

San Banks who afraid to say anything about Green - now his file being given to the oppos. white man - has won't be recruited in spite of his caution

I borrowed notes from Marie Penkin, as the whisperer about who right to play the tape, & gave the news from last 2 days

Mary made announcement on milk supply for toddlers who weren't getting any - she asked cutbacks - many receiving much will also be cut back - many adults have been receiving milk - some for med. reasons, nursing mothers will cont. to get some milk & M. at the lists of those who get milk & snacks - to make any changes a comm. will decide

Mary going to the 'town to perform sp. tasks for - she will meet Emb officials among others

filling warehouses or getting things considered -
180 people from States - J. Gray thinks we
have until end of Sept - no indictments will

kind of info - she has offered her. as a
gov witness - because of harm she has
done we have to sell property & get less
for it - if priority has to be given to making
money

Johnny Jones - shall we have to have for
growing crops - a barge, a vessel to bring
shell material - 300 to 400 tons - then \$24 -
44,000 - purchasing barge here is the quest - may
be Sept & more economical to contract
for it

Quiet will be enforced while news is
being kept away - statements will
be enforced

Richard Carter fell, miraculously saved - who
was responsible for his falling? - mother was taking him

Stopped at the Coordinator's office & saw Joyce Touchette, speaking to her about the scope of material that I & I've have, so I don't know when Ruby is going to be interested - since Mary Lou left this morn., I don't mentioned the question of food theft from the kitchen - she did not want it to reach the floor, as I was going to eat, as he has in the past - she said she would be into any degree I need

I will do final entries & lesson plans for next week, announced last night on testing & evaluation - instructions, free - abandoned my plan to write a memo to J on the subject - I will save my notes & see whether I will have comments later

Had Bliss

Because I had to give a summary of the news before the Red Days, a day before the next socialism test, I spent an hour or two catching up on news of the week. I read the blackboards on which Teresa had written some of the news items, borrowed her notebooks in which she keeps news from the tapes, & went up to the cottage area to ~~check~~ the taped news on the board.

Did a little work on my journal & wrote lesson plans

Have dinner

For my class I tried some measures to promote concentration on sound, asking beginning students, seem slow to learn to associate the right sound with a letter - I used "Eden Harko the Turtle" for the "t" and those came from Phonics by - I devoted the rest of the period to an item about the guitar, learned by H.E.B. in Bois - gave the class a few more items

I told her about the Marie Katooris taking care of her father & all actions of Debbie

I in as to question about Chinese people want to be there is no morality - he used Debbie as example of convincing others, there is no moral standard

It began to be apparent I wasn't going to test the question - he wanted people for an answer.

I drew out the reason for China's attitude. Growing discouraged & replies he said, cop from the young, he had to see others for some reason. Then he called some names. Then he was called for some reason - Bob Kise admitted he should have told a remark Tom Kise made to him

I presented the following and I gave the
which class had watched of those who turned
their faces in, the majority did very well
I presented the abrogation and given to
presented by the class - they did
better than I expected

Went to dinner, then home to prep for the

We all gathered in the parlour, expecting
a test
The first of the evening was the pre-arranged
announced that we had to evacuate immed.
all 200 of the people still in the States -
they were all threatened w/going to jail -
he called all coordinators to meet on
housing plans, which we have to be speeded
up - Peter he announced that, sur-
prisingly, we would be able to take care of
all the new arrivals in the housing we
had available now

Meanwhile, "Shots" was shown for all
those who cared to watch it - some of
it had been shown over the last
few nights, as the present showing started
where the prev. one had broken off

Tony called for all the writers to meet
in the nice tent - my name was on the
list - Tony wanted 40 or 50 letters to Thomas
Flanning, publisher of the San-Reporter, in SF,
thanking him for his favorable editorial - I
wrote my drop quickly so that I had seen

the "Route" episodes - I had seen only
2 or 3 of them - I came into the pavilion
in time to see the end of a first I had
seen: the rape of Higg - I was most
interested in the and, reaction to the
defiance or submission of the characters -
the entire videotape was shown - it ended
about 1:30

I went to bed about 2⁰⁰ - the cottage
was dark & I got ready for bed w/ turn -

15 June - Sat

For the first time doughnuts, rice & gravy
I prepared to type in my jail but
the power was off & there were no
and no water was being pumped
out of typing. I've now typed up my
jail & indicated corrections to be made -
I then cleaned out & rearranged the contents
of my top crate in which I keep the most
valued items in my daily life - the
supplies for my clothes, jail folder, pens, care
& sewing materials, writing materials
the 2nd & 3rd crates

Song & Evans, daughter of Julius Evans of the Red
Dirt & a good singer, who occupies the bunk
below Ellie, had 2 little girls as guests today -
she is about 11 & usually very shy. - but her
guests, perhaps her guests' sisters, were talka-
tive & when up Harriet & then Ruth & Ellie,
all daytime sleepers - Harriet was angry in
Ellie scolded Song & told the little girls to
go home

The other residents arrived home - day but
after Danielle, daughter of Michelle & Don Felt -
I've obtained garden tools which in the yard -
there was much talk about how they over the
back of crop of others - they paid little attention
to me & I had the feeling they were deliberately
trying not to talk to me - They had heard
the Harriet no longer had the iron & may
know that I gave it away

Everybody's plans changed because we can't
take showers until the water went on again
at 4:00 - I had intended to wash my hair
but started to rain - I got handled and
little boy I had made

Went to dinner at 4:30 - we had fried
rice w/ chicken

Then showered & shampooed my hair
listened to a short play at the pavilion incl.
dancing by the Soul Sisters

Got my treat - a film "Tom, Tom, Tom"
was shown but I didn't want to see it

Then to the top of my list to Tom
Fleming while I had left a sign by hand

Went home & read a letter - they were cool to me all
evening - went to bed at 11:00

finished correcting my h.s. class
diagnostic tests

Went to church - Mr. Gibbs spoke to me
about a creek literacy prog. I want to
conduct in Jonestown - Gibbs is to lead
it up & asked me questions about my
class - I said I want to take
30th students - finally decided on the non-
resistant students. I told him I was not
having very good luck - the flowers come
tom to my class & take the non-readers

In my adult class I reviewed news for the skit scheduled for Tom - many were asking us questions but the attendance was fairly good anyway

At shower

In the h.s. class I also gave the
students some prep for the text - I spent most
of the time on W. E. B. Du Bois who has

I, on entering, began the test - ques-
tions were the same for every body - He
had used a few of the items on paper,
had pressed from the techs' suggestions,
but in gen. it was a diff. test - he asked
mainly essay questions, 5 of them & then
5 bonus questions & people seemed on a
list previously were opposed to help those
who can't write (not finishing their own
tests) but there weren't enough so all the
techs had to help as well - When the test
was over & as the rally cont'd, those opp'd
to grade the papers went to the side of
the pencil & started to work, not finishing
until the rally was nearly over - They
distributed the papers & John gave the
answers - We were to make allowances
for the age of the person - I had per senior
11 & I was in this group
in my group, some of whom did very well - I
had a fairly good range of questions I plan to
include - & I agree some can't really finish
that many & the poor light was unable to
make them out & I had to ask for help.

In the rally going on at the same time,
agrie qts were given first - then a no. of
behav probles were taken up - I did not follow
them closely while I was grading papers - the
first concerned the relationship of Thayer (Byne)
Reed w/ her companion Cordell & I had

Tommy Bogues was then in the floor for
cont'd (bed) below - he is already I
think on the PSU for stealing & he
remains a source of grief to his family
& the community.

The case of a young girl accused of stealing a pair of Thomas shoes was then the only one of a long ~~agitation~~ ^{agitation} - all the evidence seemed conclusively against her; - she ^{was} whose name I do not remember had been seen scrubbing the shoes vigorously (to get mud off, she claimed), wth the purp. of rubbing out another girl's name - she persistently denied stealing the shoes & aft. a long, long hearing, I had to believe her, altho she had not used his energy to discern the truth.

fast to get all our people out

(Pearson) - The other day an unidentified plane flew low over Jonestown - most people came out to observe it - Rose was seen running for cover, afraid it would bomb the area - she was chided^s for taking so much trouble for her personal safety - she said she was protecting child. - "Then, why," she was asked, "was she running ahead of the children?" which brought a good laugh!!

We finished grading the papers & retired to the auditorium by the rally was over

29 June - Th

As I had a couple of hrs or so
was gathering in prep for my appearance
the Dec. 1st. I felt, certainly, close
I was in a good mood for the day
Made up lesson plans.

The my schedule by going to lunch
as the Cpts. co. through it had.

Up lunch I met w/ my adult class -
I made sure to, as Jerome
was quite to the point, I
planned to have a disc w/ him concerning
his goals - he did not come, however,
as to look in the past, w/ other
Security - the attendance was quite low -
Ith the rule, as to get a feeling
of names coming from the interest of
more of the students to be accurate
but I found that some wished
to be counted present while actually
attending Barbara Walker's class left to
mine - I am choosing my lecture on
teaching reading, as the Dexter
approach has now proved very fruitful &
I want to involve all students in reading
improvement. - I spent the last pt of the
period on a list of African countries w/
some of the imp facts concerning them - I
started w/ Angola & Chad & was astounded
that no one knew their former relationships
w/ European etc. and facts concerning

them most, tho they have been in the
news for weeks.

I was a little late arriving at the house
tho they were later gathering
than me & only a few attended the meeting.
I spent the time mostly on a rather detailed
list of items - I left about 3:30

In my high sch. class I gave the last
of the diagnostic tests which the entire
period - most of them seemed to enjoy
the actual & were well behaved, except for
Billie, who was quiet but acted like an
oppressed animal. Billie was absent - I saw
him later & he said he was sick & I gathered
he had had some sort of thought of his
belongings.

I went home, picked up what I would need
later - on the way back a heavy rain
started up & tho I had on my raincoat
& boots, I got some of my body drenched &
the boots filled w/ water & I didn't get dry
the entire eve.

Ate dinner

Went to the pavilion to claim a seat -
~~the pavilion was full of people~~ until the first
enlightenment tests met at 9 in the new
tent - Debbie was in charge, but Ann was
present - D. had the scores of those who
thru the test - those who failed & perhaps
those who made "Fair" are to meet in
spec. classes, while those who made Excellent
plus the Good "are to be in the pavilion." - I

named our ~~five~~ ^{selected} teachers in the pencil. who to be chosen - we were to select teachers for those needing extra help - Teachers are to be monitored so that the qual of instrns will be improved - we decided on 7 gyps of about 20, w/ 2 teachers for each class - we got volunteers for the 14 teachers, I among them

My son had been asked for the showing of "The Battle of Algiers" - I commented on the film - it was required that all see it

At the film I went down to the dining room area to get water - when I came back I was standing in front of the Radio Room talking to the community on the loud speaker system - a day or so ago he had requested that depts get in any kind of requests they had for supplies from the States & as the conspiracy may tie up our funds in suits & a com was asked to coordinate the requests - for I had the orders totalled much more than we wd have available & we have to be pared down - he went ahead to say that in future we will not be able to get anything at all from the U.S. & we shd plan ahead in Soc. Chgs or in Eng. we can order what we need

I remember on the increasing intensity of the lies being told about us & to the Edge that a black man had attacked Mrs.

one of the main instructors in this plot -
The real aim of all this is to make it
impos for us to sell our properties in the
States - I understand we still own the
ranch in Redwood Valley, the church in the
Valley, the apto in L.A., & the church in SF
The sec techs met a no of us cont'd
to disc turn night's ggs mtngs & to wh up a

I did not get home until 12⁰⁰

Because my feet are usually tired
& sometimes tingled (caused, I suppose, by
my being on my feet so much & by
my restless habits), Joyce Lund sug-
gested I elevate my feet 2 hrs a day -
as that was practical w/ my school I
am trying to keep my feet up at night
by putting a pile of clothing under my
mattress on the bottom end - this does
serve as a pillow for my head when I
am reading & the system may have

Today Dr. Hight did a girl entrance &
Bessie Jones

she said she had a plane - I sat
it was a photograph plane owned by the

she ran the plane to the front, the

had quite enlightening classes too, I spent

up, like yesterday. This time I waited it out
I did not want to be wet all eve. -
consequently I was late for dinner & the
main test was very crowded

Announcement seemed to indicate that all
the people present for polit. enlightenment courses in
the pavilion & that of those those who failed
the test we attend 2 hr spec. classes

I went to the pavilion to get a seat - glad
that the early episodes of "Roots" were
being shown for the h.s. soc. class - how-
ever, I found the tutors were having a meeting
& I joined them - Betty, Shirley & James. She
had a gr. many complaints of students for
various kinds of unruliness - students who
reg'ly are called by the tutors into the
main entrance of the lot today
was I never Buehler who failed to show
any regard for James, but with tutor, &
could disrespectfully to depend here, by reach
the tutors

As the polit. enlightenment class time approached
to read the names of tutors of the spec. classes,
the list of people assigned to each, &
all the people gathered in the tent w/ their
tutors - ~~the tutors were again in the~~
pavilion - I suppose the had clarified
the matter w/ J

Don & I were glad to have 21 studs
accord. to Vernette who distributed lists
for consid. more people attended - Don
Jackson had set up the overhead projector
