New Years Day - We went to service at
12^{oo} - Tables were set in the
auditorium as on Christmas & we had
dinner and a program. Later the children
read their gifts

2 Jan - M

I spent all day from 9^{oo} at the Te. working on
the list of books we are requesting from the
Hill - I tried to use the IBM to do it in the
law of. but had difficulty so from an IBM
Expo in the catalog of which was satisfied - I did
all day, finishing the pages, cataloging but not
getting to the library in the afternoon. only cataloged

I wrote & got

I rec'd Denise at the office - she
is returning from Japan & I want to tell
you just to say goodbye & bring back my
belongings

Denise was at the D. - A. office
yesterday - we had a conference, & I told her
to tell Te - she is now commandant -
she said it is just her money & her car &
to do with whatever she pleases

And to the office and H. T. there was
still no word from Japan - Betty said
she had in - one of the ins. men made a
remark which made me think Mrs. Storkley
had resigned - the other secretaries
that this was just her answer to the
letter written this morning.

C. I. P. L. T. made her bed -
T. D. - you will want to see

and Betty, etc.
I am to the cables - we are established &

Woke up about 8^{AM}

Had grapefruit & oatmeal

Green hat she is leaving today - I
found the TC to transportation at the
airport - & told her she could take the
airport bus by just going down O'Farrell St,
but she said Marcy told the TC to come
to give her transportation

Rain was heavy all day

I went to the State Vehicle with a 3rd
St. bus to get a California drivers license -
had to pay \$1.00 it comes at 10^{AM} - I
came out \$1.25

I went to 7-Eleven and got a
hot dog & some chips - I also
bought a soft drink

I ice cream cones & chicken strips -
I ate the TC last
and home at 1:45 - I was
home & had dinner with the TC - I had
chicken strips & chips
I put out 1st - when we were eating
the TC

The - At 6:30 as I was sleeping
I woke up the TC -
I had some chicken - 10th floor
ice cream & salad - when she
came back

Went to Te serv. at 8⁰⁰ - it was a
very short serv which was dismissed
at 9³⁰ by Harry

I spoke to Dennis Allen - he & Lee
told by Jim Randolph to get 2 wooden
crates from him for packing.

Read The Silent Language by Edward
T. Hall & ate a snack

Went to bed at 12³⁰

It was about 7³⁰

I got up at 6:30 a.m. & went

out twice heavily

Had fruit, toast & eggs

The train to Winona took 6 hr.
and about 10²⁰ - I am worried -
about getting a room when
I return - the cost here is 2⁰⁰.
I will take a walk &
try me a cup of coffee -

2⁰⁰

... not having much

To do in Winona - got myself a
cigarettes & a little of Concord wine -

A few matches & a flashlight
tissues & bulbs - got 2 cigarettes &
the train on my way

Arrived to Winona at the 7⁰⁰ -
Kaiser & got my tickets - cost of the
train about 6⁰⁰ cost

Sandy Bradshaw called me to ask whether I'd go for Jonestown or M instead of W - I told her it would be difficult but I agreed I'd go

I talked her into going to W on my choice of address - since Tom learned I was leaving the country they said I would have to come in first
I plan to do this at the opening the on M

Later Sandy called & said they were returning to the obig date
for the 6th of J. 26. They wanted to come for a last visit

We were alone - we had dinner & talked

I slept in the room at 5th & 1/2 - on the stairs

7 Jan - 5

I was up at 5⁰⁰ - I or did not get up until 6 hrs later approx.

I read a science section from the ^{from} newspaper which contained stories involving extra-sensory perception which the editor said were scarce, as people did not want to deal with the possibilities of this subj.

When I got up we had orange juice & toast

I gave Ior the chick representative Dorothy's gift which she wanted Ior to keep for me in case I needed it in the future - it was \$62 and Ior said she wd add it to the account in which she already has \$50 & gave her to give me the

Ior & I talked, esp. about Ioris fear of him

At 7⁰⁰ I went w/ Ior to the bus & we said a last goodbye

"I West Portal" made some fun noise in the stores

At home at 4⁰⁰ Ioris mom had been acting nervous wondering where I was - she told me both Ioris & I in needed new dentures b/c they can be so tight

I went out to get a Te paper & also
bought some oranges & carrots

Prepared a thing to eat

Went to the Te B - I saw Chris Kise
& told her that when Mandie, Josie
& Virg will be alone

Darry was not in the meeting - He
presided - there will be another Te
meeting on T - offerings were taken -
Stone Collier had the Congreg come to the
altar at closing

On getting home I did the nap & ate
some snacks

8 Jan - Su

I was up at 8 AM

Bathed

Had for bkh grapefruit, pancakes, an egg & sausage

Went to the Te serv - bkt some extra towels for Barber Hoyer - Marcy was not in the serv - as usual when she is not here diff in rising the required amount of money in the offering was encrd - the mny ended about 2³⁰ of the congre. coming to the altar

I went home at the bkh - had broiled chicken, carrots & a salad

The a nap

Returning to the Te, I bkt leftover items for the kitchen and some mixed nuts for the people in the Acting Off & Publications - I attended what I effected to be my last serv. in S.F. - there were musical & dance nos & a demonsr of karate by the children's grp - I helped take offering - Viola told Marcy we're to Hwy which I had thought - the cong. Hwy. filed the latest issue of the Te nap, making quick work of the job - we went to the after on dismissal \$ 9³⁰

Marva was given money to buy articles -
Be Beam

had naps, ate a snack

9 Jan - M

Went to the Soc Sec office to tell them
of my residence to Guy - intended
to move at 8:30 as P.A. said we'd be in
the short air until just at 9:00 as of
then - I had to wait about an hour
the number filled in the form for me

The bus down waited - went to the
post & fed stamps in order write this
& send the Te Toronto map to my sister.

Then went to the Cebtel & I saw
John V. who had not been there when
I last time & so goodbye to him -
Renise told me she phoned this morn.
as she was coming in - her bus again
was yet, - the phone I have had a
concerning the ^{startups} registration up to
either Mon or Tues - I checked the next
announcements on the bulletin board for the
meeting in a second-hand store

Went to the bank & withdrew the \$100
my dad loving only enough to put
the check I gave her to cover the
gift to me

The bus up to town & stopped at a
thrift shop - I bit most of what

- still need : slip, sandals, a ch.
purse, a brightly colored woven nice for
sun protection, 2 plain ch - shirts

Coming home, I had some lunch
Then took the bus to the Gap where I
had an ice cream cone

Went to Cat - Plus & got an Ind. hoodie,
2 tank sleeves, an tin. bag &
a wall mirror

Went back to The Abounding & had
some their food

Went home

Over the nyp & had a snack

10 Jan - T

Danice, who is scheduled to be
here wh following my departure, has
been packing & cleaning up the apt - she
cleaned out Estelle's closet, in which
I have been keeping some of my clothes -
she threw or gave away some of my
belongings, incl. a sweater I wanted to
take & a velvet vest which Dor had me
to dress up a blouse as we had been
told to take some nice clothes for
parties & public rel. affairs - I checked
w/Judy who had taken some items from
our apt but she can't find these 2 -
Danice went w/me to the Salvation Army
& I selected another sweater, for which
she pd - it was on sale - I got it for
75¢

I packed all day - I had cleaned
out my shelves in the pent. &
box in the room - I gave 2 for Danice
to Vila & saved the rest for Judy -
at one pt I became quite annoyed w/
Judy as she asked for specific items
I filled a suitcase to take w/m
under my seat, 2 of the Te - constructed

written boxes which are to go in the luggage compartment of the plane - to get by surface transp I packed my steamer trunk & plan to put more items in 2 suitcases, clear off by surface

~~1/14/50 Te~~ I went to meet a haberdash w/Phyllis Houston - she told me to give the P.O. box in Georgetown as my address to identify & finds us Octo's daughter, whose moving to the Te shortly

Phyllis told me to ask one of the men to take my luggage to the Te by 5 o'clock & check in myself at the station no later than 6 o'clock

Wrote at the Te 1/14

Saw Elihu Dennis, who is married to Edith Cordell's adopted daughter, & asked him to pick up my luggage tom - he agreed - he asked me to call him to be T/T back from the second & last March which is scheduled by the Te tom

The bath and the last car bath expected to take in this at Rd naps & had a snack

11 Jan - W

Went to town again to finish my shopping - as I think I didn't have much to buy. I didn't take a shopping bag.

On account of a fire on Hwy 10 the bus to & off route. I turned on to Highway 1 at 2nd St which was handy for me - I went to the off. supplies store where I bought my t. w. & g. 3 & w ribbons - I saw a self service station on the same street & bought a package of tw paper of second grade on which to make bags & soon - I then went to Kermills' & took a few of items, such as clothesline, moth killer, the hydrogen peroxide the Te wants us to bring - Then th the bus to Kiplans where I purchased my shoes, got a light rain poncho w/hood

Late some lunch

I have not been able to get into my airline luggage all I had intended to take for immediate use so I had to unpack most of what was in the smaller crates - I transferred to my surface luggage a few of items, mostly articles

of clothing - by use of my tote bag
I was able to put everything in, tho'
I can't take a pillow nor my thermos
bottle

I phoned Elihu at about 9³⁰ - the
marsh, the second of the two, had
been called off - Judy told me the
one on M had been subjected to some
harassment - Elihu had hung up
before I could give him my # & he
had had some diffc finding it

I went in to the Te at 10⁵⁰ after
to check in for the trip but found that
it was the day instead of W - I had not
personally been informed of a change tho'
I was there - I don't believe anyone
did - I didn't think of it - I was not
disappointed, as I can use the extra time
esp. in getting good entries done - I
learned my traveling companions are
Harold Kendall & Roosevelt Turner -
Judy told me Jackie D'Antonio had
requested that Turner be sent over -
Father consented -

so tired, however, they I asked to be
excused from going taking

The serv. was I distinctly disturbed by
much singing - it was concluded about
10th o'clock - The engy came to the
star & there was a sp. treat for
child, which was a swan

I didn't take my suitcase - I had
some folded items in my tote bag & a
sheet in my sleeping bag which I am
giving to Handa

I ate the soup & ate some dates &
walnuts - I saved some for the trip
& left some for Handa

I went to sleep at 12 or

Rain, after heavy all day

Didn't eat any ^{breakfast} ~~break~~

Went down to Vicks to see whether
I could borrow a needle & thimble to do
some mending - she proposed we have
some ~~lunch~~ ^{more} tea & biscuits - we have
2 blocks down on Henry - she & Ray
then eat there - she said it was quite
inexpensive

We went about 12³⁰ - I had eggs,
ham, bush brown potatoes, toast & tankard.
Vicks wanted to pay, but I didn't let
her

She had 2 chs from Ray in L.A.
which she has me read aloud -
she & I am asked to drive up to
Redwood Valley this weekend - to see if he
will be might not go down to L.A.
again - the 1st which Archie's crew
has been doing and house given to the
Temple is almost finished - Ray & Vick
have 3 daughters, 2 of whom are in

the L.A. area - Ray finds it hard to say goodbye to them - he seems closer to them than Viola is

I offered to take Viola to see a motion picture, The Turning Point, which Dorothy had recommended to me - she accepted - I thought we should leave about 2³⁰ for the show, which started at 3²⁰.

I had about an hr - I repeated all the articles I had w/me in the tote bag & counted the money I had left - Then several buttons on my coat - I didn't find the dates & pins I had saved for the trip & wasted much time looking for them - Mandie ret'd & she did not know where they were either.

It is tiring to walk w/Viola because of her crippled comb. & it was worse because of the rain & the heavy bag. I was carrying - we waited in line for a Grey Bus & it was about 3⁴⁵ bef we got one - I knew we would be late which made me nervous.

The first bus had been out about ten mins when we arrived - it was a story about ballet, which is not one of

my favorite acts & I did not go to
the theater in the evening - after the
performances were over I saw the
Lion & White Marimba band
starring violin & the violinist believed
artist Mikhail Baryshnikov - I made his
video - video liked the first very much,
but never did relay completely.

I was going to be at the theater
tonight but it's a little late - we had
the theater about 6:10 - I got some
free passes at a drug store - the
rain was still coming down.

The rain stopped at about 6:30
so I went the creating room & took up
& the people around it was all
that the party had off I then bought
two bags of Cheddaart chips & then
I went to the theater - I
got what I wanted & the C. Ten was delayed

I had no problem - I was actually
glad to get some more time to catch
up on my ths & girl

Viola was there ^{to take us home} & Viola offered to
buy us all hamburgers as we had
missed dinner - we spent some for 99¢
at a rest. on Geary

Viola had told me that in the
neighborhood in which she lived as a child
one had to resort to prostitution to get
enough to eat - her mother did housework
for a dollar a day - her mother had told
her if the customary way men had inter-
course w/women the first time she
prostituted herself. She was mine, she was
shocked because the man, her mother's
employer, had her "such him off" - he
gave her 50 \$, which means food on the
stalls - she sd she was in this cause ✓

Viola sd her father had been a gambler
her mother a dancer - her father later
got a job at Lockheed & was fairly prosper-
ous until the end of the Viet Nam War -

I had another 8 hrs sleep
It rained all day

In the morning I phoned my friend
Not a draft or a letter to senators &
representatives about the Te for Mandel's
signature, as I have already sent a
similar one in my name

Went to the Te for lunch - took my
cart

Saw Patti Chastain & Barbara Dwyer
Went to the Haight Food Store for
fruit, dates, eggs (items needed for the
next few days) - took a bus back to
the Te - then brought my suitcase & groceries
home in the cart

Saw Laurie Egan whose mother is
visiting her now - she is staying at a
hotel downtown, having told Laurie: "Don't
worry about housing me, I have reached
that period in life where comfort is imp., &
I have reserved a room in a hotel down-
town." - Laurie said she could use some
help in entertaining her

Did the wash & had a snack

Went to bed at 12^{oo} - at first I was very
sleepy - Then I couldn't sleep - there was a

brawl outside among the patrons of a
bar - it lasted a long time - men were
knocking each other down on the wet
pavement - finally the police came - I
got to sleep on the floor 3rd + 4th until I finally

In addition to our own luggage we had
additional chests added plus cash and
a req for materials to take for the Te
which were to be checked on our ticket.
among those briefing & serving us were
Jim Randolph, Chris Kue, Phyllis Houston,
Alice Dugraham, Robin Trichette⁵ & the
wives, one of whom is John Henneke⁵.

I got more sleep than I thought I had, as I was first awakened by the serving of breakfast - it was about 5⁰⁰ Eastern time when we landed at John F. Kennedy Airport.

We took the bus to the Pan Am terminal. The temp remained about 24° all day, it was slippery underfoot & a light rain was falling.

At the Pan Am terminal we put our luggage in one place - we find we'd have to pay \$12⁵⁰ to check our suitcase w/ corresponding rates for other items & decided not to check anything - at least one person stayed w/ the luggage.

None of our checked bags were given for flight - the charges were excessive & the people unhelpful - David Banks, from an Eng. company which cost about \$2⁵⁰.

The others spent some time sleeping - Harold had no time as he was going back to New York and I don't think he made much progress - I read the maps & had fruit along - tried to make some notes for my girl but don't concentrate -

not had a copy since, until I found one
at the Te library

At 1st - morning I walked over to the
other terminals - it was cold & slippery
& the paths for foot traffic were inadequate -
my purp was to see whether other
terminals had better facil for eating - I
find they were all much alike, esp the
Eastern had an obviously expensive rest.,
which was not open, however - the
airport was almost deserted & ^{most} planes did
not take off until 4pm - I had a brief
conver w/a couple from Sthl who were
going to Moscow for vacation

I had 2 cups of coffee during the
day & lunch of roast chicken & ham
beans w/a glass of beer - we had been
given \$10 for food & I had about a
dollar left.

We had moved our luggage twice,
first to be in a better lounge & second
to be nearer to our gate - Roosevelt
Turner & the two blond girls did not

carry their share - the girls packed
all day & late in the afternoon Jewel expressed
her opinion to them about their uncoopera-
tiveness

Harold was worried about the cost of
luggage we had - on the second plane
we were limited to one piece - in the
1/2 (as Barb. & Marie had lot more
items)

bef flight time he checked w/ the airline
officials - they th the extra pieces in the
luggage compartment to made an additional
charge - Harold & Jewel were busy at the
arrangements until almost the last minute
& I was afraid they wouldn't be
able to board

The second flight left at 3⁰⁰ - the plane
was crowded - we had to queue up to
take off & we at last c. they be late

My seating companion was a man
from England to Trinidad - I replied to
his questions about my destination by
saying I was going to Guyana on a
Teaching mission for my church, P.T. Dis
of Chor & he did not seem to recognize

described its actions & personnel - he said
the events features in the news about
engl. that the govt intel agencies & his
govt were caused by the attempt of the
FBI, CIA & Interpol to disc derive info
or them to cover up their own drug
traffic - Scientology is suing the FBI for large sum
I had been staying at my dinner
at Psychic Research - I ca not
get to sleep when I tried

My setting compass when we landed
Trinidad about 8 or o'clock

We landed at Georgetown about mid -
night - our gyp went through the for -
milities w/ no diffc, but clearing our
baggage of footlockers was time - consuming -
I find that one for Norman James had
been checked on my ticket, so I did not
have the key - two others contained
small tools & fixtures & off supplies

Several people from our Georgetown installa -
tion met us - two vans were loaded with
our effects by a friendly airport crew & we

were transported to the Tk house in Georgetown - it was over on his side

A staff of twenty or so are based in Georgetown - among them are the Carter young people : Tim, Terry & tribe; Helen Swinney who does the cooking; Pauline Smith; Sharon Amos, who is coordinator; Richard Johnson; Shawndra Oliver (formerly Jones)

We had matresses on the floor - I could not get sleep for a long time - Camille would not settle down at first & Karie was reluctant to discipline her - I finally shouted at her & she went to sleep - then mosquitoes buzzed around & dogs barked

I lay down on the couch but didn't

For dinner we had fish.

We had a meeting after dinner - members
told of their last stay in States
which made them glad to be here - we
discussed the tasks which shall be done -
Sandra will take stool tests in to the
Health Office - Sharon will mind wifery
people & she & others will be on the
radio - other jobs which were assigned
were: cleaning the garage, cleaning & painting
the gd, sweeping & helping the floors, &
cooking & washing dishes. Watching the child,
putting provisions on the boat

Adrian had been obtained which we
saw, "A Day You Can See Forever" w/
Barbra Streisand & was brilliant - we
had coffee, Pepsi, & fried sweet cassava
which is like potato chips

19 Jan - Th

At 10 am we were taken to the registration of by Shawndra - we were required to respond to questions - we went through in short order & a long wait in line - we had no diffi.

On the way home our driver's remark showed him to be pro-Brit. & an admirer of the U.S. - he was opposed to the pol. of Guy - Terry agreed w/ him

We were told to get ready to be on the first train for Jonestown about 4:30 - many provisions have to go, there will not be room for our footlockers - I packed mine & the out items most needed

The men in provisions to the last & loaded them - they later loaded the footlockers too in spite of the earlier decision - then we were informed that the last was not to until 5

In Psychic Discourses

We used much enjoyment from watching the children, Camille & Monique - the latter is the grandchild of a woman now in Jonestown - the mother of the child abused her - the Te is now taking care of her - she is about 2 yrs old, is 16 - active - much time is spent on toilet training

All the household came in - I heard and for the radio so he who in the field

Took a walk

Had bath

I helped w/the dishes - Jewel & I have taken charge of the kitchen since Mrs. Brinley broke her arm - I always argue w/her as she is very domineering. Washed my hair.

I boiled endives & sweet cassava w/Patricia Simon - she arrived in Dec., is staying in Georgetown for medical tests - she has the blood disease.

Hann & others explained to us that our officials have an easy-going attitude - a phrase which everyone uses (at some or much length) is "just now" which means the next day, next week, or next month, anything but "now."

Few arrivals were taken to see the Botanical Gardens & the Zoo in the early AM - Jewel & Rosemary didn't go - the 2 babies were taken & gave us trouble because they got tired & were thirsty - with much trouble available there we were unable to go around - we saw some distinctive tropical birds, the colored birds & some monkeys - the zoo also has up to now an elephant & see other animals - we were shown where the manatee is in the pool & it did not surface.

I had a nap

While the a.c. meal was being prepared, we received a call from [redacted] - an emergency flight had been arranged - a plane was going to Port Huron to pick up 2 patients, Mrs. Murphy & Lillian Payne - Harold Cordell & Helen Swinney were sent to Jonestown on the plane.

The dinner was very good - we had [redacted] meat, cucumber salad, eggs, pie made of green papaya, which tastes like apple

had Psychic Discoveries - discussed it w/ Rich, Janice

About 11th I was disturbed w/ the news arrived from Jonestown - the 2 patients were taken to the hospital - Tom & Tom baby, Chet - Ok, was sent to the other - Adrienne Walker (formerly Barnes) cared for the patients & baby on the plane

21 Jan - S

We packed up ready to leave by 4³⁰ in the last week - the Monk were busy loading it & securing provisions - the next day buy meat for us town is holding us up.

There were rain showers today which here is not so bad for us, & we hear the band used in drilling the men at the bars during the day - same time, the other month of the day - they put on an especially good demonstration today.

Another night Dangor saw small herds of goats & sheep which come by grazing with their kids & lambs, as both had lost their time of year - the Te house, the Electrical, etc. is on the outskirts of town.

In Psychic Discoveries a report of the day
the in the day we learned that we cannot be born, as the prisoners did not get meat to load.

The electricity was off in the eve. - The people didn't like so there was no water either. I volunteered to wash the dishes & I did a lot less in the kitchen & was doing the dishes, complained about my job as I did the - I had been fish & chips & fish & chips greasy, we had no hot water - so I did my part.

After dinner we had the wine others played

Children of the 10 Apr - 11

Had a disastrous day

At first endured a 1 1/2 hr wait for my
medication

As a result of my oral rpt to Harry about
what Helen had told me concerning a
woman in her dorm who gave hundreds of
ripe papaya, I find that Harry had conduct-
ed an inquiry. - Both Helen & the accused
woman, who I may wh at the very start, were
angry w/me - apparently the papaya was
grated only one other person, Julieka &
who else spoke to me - the latter how-
ever was not upset, so she was constipated
& needed it - Bro. Bridgewater, whom I
went to get my usual plantain; when we
had a right to it, revealing that Harry
may have gone into the role of the big
shot in the matter - I decided that unless
the incident was first on the floor ten as
an instance of my fault, I would write a rpt
to Harry confessing my own peculation of
plantains.

Obtained an advance from the set of -

At my adult less than successful atten-

have adult eve. classes & partly because
Barbara has discontinued her adult classes,

have come over to my class - I decided in
cause of its emphasis on polit. & geo. study
& because some of these new students have
at least a basic know of reading & writing.
to give a little of such information each
day - the students liked that

Did some more w/ the students until
class time

At the beginning of my first class I
was a broadcast which had some signifi-
cant comments on our agri. orders. which
was lower than that of Germany raising the
same crops although we have advantages
such as fertilizer & machinery - most of
the blame I put on our putting and our
explosives b/c they have had time to
get after & wanted this to end - he
then made some remarks on details concern-
ing our power sit - I insisted the class
not be told most of my name or mine
& a few comments of his own
remain quiet during the broadcast - they put
their heads down on the "G" & just
listened.

broadcast b/c we went up - & the "G"
on game I had prepared - I - the girls &
pencils to go off. In - I - the

I had dinner, then went to the "G" &

Wrote a long th to Path Chastain - incl'd remarks on the trip & suggestions for improvement.

The rep of lunch

The weather was cool w/ a nice breeze - there was no rain

Went for an hr & a half walk up one of the Simon twins - we went in an out-of-town direction - came to set dead-ends crossed small canals, then came to a big canal - we sat on the bank for some time - the Simon twins are not related to Janine Simon's family - they are granddaughters of Bro. & Mrs. Hutchinson, the small-thinking man I met back to life so long ago - He used to go to Guyana but the grandmother doesn't

The house was cleaned up in respect of a visit of a brigadier invited by Sherron Amos

much food was left in today's bin - fruit & eggs - for dinner we had fish fried, a veg mixture w/ okra, squash, onions, tomatoes & oranges w/ coconut

Pearlmen jobs continued - Dick and Janice told me they were making progress in getting meat - the bed might be able to be fit a couple of days

The brigadier didn't come
some of the young people ate early & left for a meeting - on returning, Tim Carter told

It is a night bird from which name -
the binoculars didn't work right -
the reading glasses did.

Lewis & I cleaned up the tool
shed - it was a terrible job - and
we also had help

For dinner we had corn & meat by
John Gray

The visitors expected at 7³⁰, Tuesday.
They didn't come - we ate the ribs
I served, and the beans.

had to do it over - she also objected to
several other things we were doing & every minis.
and Sjt was the object of her scrutiny - no
other people were occupied w/ cleaning a
new batch & Jewel objected to various elements
of the op - the Simon twins joined us reluc-
tantly & complained, as I later learned, because
Betty Strand was not required to help.

The result was a meeting called by Sherron
Amos - she advised that all the permanent
residents had assigned jobs - Betty Strand
& Joan Parsley walk all over town raising
money for the cause, as much as \$300\$

I cleaned more shrimps, the w'some help, but David did not miss a chance to point out the slightest error I made.

I started to read Cities without People by Andrei Sviridov, an account of present-day Soviet Russia - I had found it in Betty Stroud's room.

In the evening, after dinner 3 guests, prob. City officials, actually did come - they concluded w/ the workers who demanded the grain, misappropriated to them - then Richard showed a film, "The Outfit," which he had obtained - it was a gangster film which I do not follow because the sound was bad - Davis made hedge for every body - we all had a Pepsi-Cola

Evelyn went to the airport to meet

Norman James who was coming in

I made my bed inside until the next day, then moved outside

26 Jan - Th

We were told to have our bags packed, to be taken to the boat at 9 o'clock - the van went back & forth loading the boat all morning.

Three hundred half-grown pigs were loaded.

I was chgd for some time w/watching the 2 little girls & making them clean up their plates at lunch - It was not very good at it.

We had a late lunch.

We were taken to the boat at 3 or - the journey started at 4 or - besides our own party who came from the States (Roosevelts has been working on the boat) the others going to Johnston were Sharon Amos, Norman Games, Debbie Touchette, Tim Swinney, Pauline Simon, Lenore P - & of Rush and Janice

Eric Sly was at the controls of the boat, Tim Swinney & Davis Solomon helping him - we steered out to the ocean & went along the coast.

I went to bed about 8 or - my tent had
was in the hold so I used a pair of
overalls of Roosevelt for cover & the rest

of his luggage for a pillow - the other
passenger had to give diamantine^s
but I didn't take any - The man was
given the bunk & I had a top one.
The older people were on the deck under
a canopy but when it started to rain,
they came in the cabin.

The motion in the top bunk was extreme
& I began to feel sick - I went out on
deck & stayed for a while & then at last
the rest of the night - slept well

27 Jan - F

Took up & 5 or to go to the bottom, again
at 7 or - stopped until 8"

Took up just before we came to the mouth

of the river - Rich. + Tim were up -
they are exploring the route we will take

At 9:30 we stopped at Moreham Village
to register w/ police - we were on the
More River

For breakfast we had coffee, pancakes + syrup

The day was cloudy w/ a little rain - we
did a little jungle growth along the river,
occas. saw Amerind huts + people

About 2 or those who wished helped
themselves to a cheese sandwich

We arrived at Port Kaitome⁵ at 3 or
made at col time - we were so early that
the people were not there to meet us -
Davis started to walk but met the tractor
on the way - the tractor pulled a trailer
to carry us - all that came off the boat

Personnel were unloaded from the
boat first - some of the luggage was sent
w/ us - then it was decided to send the
rest of it later + we were taken to Jor-
town - it is 7 mi. to the control pt of the
mission

Now as the pigs had to be taken off - they
had stood the trip well, w/ the exception of
(over) C-2-A-1(60)

one which had been injured in the leg
was not allowed by the others to get
on the bus!!

We were given a warm welcome by
our friends.

Our luggage was assembled under a
green tent to be checked through by we
had take it - we were warned that
all this, mags & items for other people
must be turned over to Rita Lenin (Tupper).
my luggage had not arrived

I was talking to people when a voice was
heard on the loudspeaker from the Redi Aid -
he mentioned he saw Edith Poller who
"had fled from the CIA & taken refuge
was" - a crowd assembled in front
of the tent, I among them

I was confronting an older man, ob-
viously a drinky type - the man had
asked Edward Turner for liquor or
money to buy liquor - he had told
Turner lies about children being poisoned
(some children had eaten hole of
insecticide & not have died but
miraculously saved them) & had also
told Turner that "you can't get out of
Jonestown" - Turner was then put on
the floor - his squandering of money was
brought up - Rocki Brudenell was the

and a brush, towel or wash cloth, I had
had & lost my teeth all the time
unshaven to go that they had
to be washed & washed - the things
had been taken into the

other car & some things -
one of the men who came to the
house where we live. He
told me where to shave. I went
to the place which I was told to go
to go & take the soap, razor, etc.
back to the car. The other man
the driver of the car -

You left in a play in morning - got us about
I showered & went to bed.

Had to get my luggage checked out - had
to wait almost 2 hrs for Lya Tonslette to
get and to me - Cindy Lee (former
Vivian Baker, now the companion of Bob Lee)
helped her - this made it difficult all luggage
and parcels - if he has more than a mini-
mum amount of clothing & supplies & so forth
the other items were sent to the warehouse
at this & things for others had to be turned
over to Ruth Keim (formerly Tupper) to deliver
as we have been told on the part - all
medicines, even one item, had to be turned
over to the nurses & will be given out as
needed - Ruth was very kind to me

After the men left I have been thinking
the latter on my ankles - and I am not
able to sit or stand or move much.

from the Radio Hut where I spends most
of his time

I look through my luggage - all is in
good shape, even my t.v. apparently

Want to dinner which is served from
about 5³⁰ to 7⁰⁰ o'clock

A Peoples Rally was at 8⁰⁰ in the main
pavilion - I and the loudspeaker gave us some
remarks I think Shirley Hicks was in charge of
some entertainments - the kindergarten
did a socialist version of The Three
Little Pigs - John then was a member
of the gp - he is now called John Jones &
he was seen I on the platform

I spoke of the sit in the U.S. where
NAACP is compromising w/the establishment
& getting of big jobs, big labor, big industry
& big money - Huey Newton I believe -
I also spoke of recent actions of the conspir-
acy against us - They made an attempt to
have Bettie Toussaint & Mike Tuck
extradited for a crime they didn't
commit - the Guy that turned to do so -
Tim Then is now in Georgetown - I had
sent Sharon Lewis to demand of the Govt
that they get him off our neck - they complied
& shipped him off - then had to see he
wd have John to return to his mother by
Jan 1 - it is now almost the first of Feb
& he doesn't have him

28 Jan - S-2

I read about a Herb Caen article
devoted to P.T. - the superficially harmful
he wrote it to do us good - Caen accepted
that I was the father of John, that Tim Stoen
had asked at the most flimby and terms
for P.D. give Grace a child, ostensibly his,
while Tim was a transvestite depicted by
Grace - Caen also 3 times slipped in a
remark to the effect that I had been denied
all types of investiture by the authors -
Caen implied that Tim was sterile, whereas (he said),
I had fathered a child since the birth of John.

Patty Cartmell gave a bittersweet account of
the actions of Beauchamp, Tommy Johnston &
him going up the river to sell contracts to
various citrus fruit farms for us - these
3 are regularly engaged in this.

I spoke fragmentarily of having to send
Baron Amos to Dakar & formal James
back to the States where they did not want
to be because he could not get them to carry
out his orders - he reported to those who
were busy here.

The meeting was over about midnight
I tried to the College & went to bed

The cost factors & that they got more protein than they find - I called for the Houston police under the leadership of Ronnie Jones. If the Indians is one of his workers I'd think they were to make sure that the child, in part, cleaned up their plates.

I paid a visit to Bates - she lives in an area near the miners' off where many of the miners who have left jobs are - Bates told me she had had some illnesses - she is in charge of crews who keep watch over the generators & over the banana shed - the bananas which hang in plain view are temptation - she told me the chicken had given a good deal of trouble, apparently while still in the States, & had tried to take his child, and I suppose at this time he was assigned to the plant nursery.

Coincidentally, I saw him on the way home - he was putting earth around plants - he was very cordial to me - didn't remember giving me any news on the radio - Inquired what was being done with the two hand mowers he was in the nursery - he said that Harold Trapp did what he thought was necessary. & that the two law attorneys in Georgetown

I saw Penny Korns - she is in charge of the learning center, to which people are assigned for misbehavior - she also seems to share some responsibility w/ Karen

30 Jan - M

Got up at 7⁰⁰ & had breakfast
Then shower, did personal chores
Went to lunch at 12⁰⁰

Sat in on h.s. Eng classes, the first
conducted by Jeanne Town, the Basic grp -
then observed the Adv. grp taught by Dick
Trapp

Dr. 3⁰⁰ attended Mr. Tabor's meeting - the
classes were described for me & the shortage
of books & supplies & I suggested that we send
a request by radio to the travelers coming to
Georgetown bring them, as we don't need supplies
1/3 more of them shipped from the States
have arrived - most are tied up in customs
in Georgetown - there was some discussion on
methods of teaching, leading to the point of
whether to teach Standard Eng, Black Eng or
a combination - Trapp's opinion prevailed:
never use of SL Eng for other than conversational
or stand Eng for other purposes.

The topic of first use in the h.s. Eng
class was approached - I realized w/ a lot
already set up that they didn't have much
need for another Eng teacher - I proposed that
I teach a course in Eng products & work
individually w/ adv. students - this was
agreed to

The long day all day carried admonitions
over

C-2-A-1 (73)

from J. - an especially severe one was
on criticism - there was to be a meeting ton.
of the Lyric. & Screening Coms at 7¹⁵ - it
was mandatory for all to attend.

I stayed in the central area - had a
convers. at dinner w/ Mary Hetherpoon - she
manages the ceramic mill

At the meeting I directed that names be
taken of those that were late - some of the
topics discussed were: (1) Anthony & head
of the chicken op. was resp. for 75 baby chicks
being killed [2] all must put in time in the
fields, & least one whole day every mo. working
in Lyric - all must go in a salar. of their
daily activs (3) complaints were heard about
Kathie Lawrence, that she was not on the job
as head of the Landscape & Poison Coms. - the
7 children who had died & been saved by
just by my arrival had been poisoned by
insecticides which was ~~to~~ said, I gather,
by the Lund (Rugyakor) - There was much
talk of the proper disposal of used poison
& further brown's was built like 'C' made
by Marie's com. (4) detailed info. was had
from those in charge of hogs, cows, chickens -
proposals were made for making a joint
rice duck & fish (5) there was communica-
tion by radio w/ S. Fran. - Diane Wilkinson
asked to speak to one of the Limer girls - I
that Diane was threatening to her, tho the
Limer girl, & she was not aware of it -

3-Jan-M

I commented that he had no objections
to Lesbianism (6) I complained of the nr
of the people were writing to friends &
relatives outside of the U.S. the cost of their
postage

The entry ended at 12

31 Jan - T

X had spent from 9^{as} to 11³⁰ on pink entries, seeing which ones in book were incomplete and on which I had only notes - started systematically to file in the missing ones.

X had lunch

Talked to her partner at teacher's high school & wanted some pointers - I told him when work is concern - he proposed that I do all the job in teachers' room & we settled upon a kind of scorcher time right at 11^{as} in the afternoon as permission had been given to teacher to stay up late to work. Sat in on an Eng class taught by Mr. Jernish & Garick Walker - they had been on interesting assignment. Dr. G. & Mrs. T. implicated & Dr. G. recently introduced to put the filters through and in suffice - Barbara had made a nice presentation so did I make it. Then I made some comments to her - later made a list of the Chapman Doctor - Dr. T. his address & went to work on it - after one hour or so high school teacher came down - Dr. G. was a doctor, he said, & I told her to write him (Tupper) & see if he will take the job - she said she would do it - we discussed a number of things which have occurred in the community since we last seen each other, particularly Tim Stoen's behavior - she said she had not been surprised

had to be machine shop & had them file down the prong in the flight to my t.w. case which didn't fit - I tested the two & it seems to be satisfied & the t.w. undamaged from the trip

Rained shower & rested for an hour

No rain today

Went to dinner.

Wrote to the physician early to get a seat in the Peoples Rally ton, scheduled for 745.

"Visitors were at the minimum to day. The Jombyinis, & other Ugandan officials - they arrived about 9³⁰ & their arrival was announced from the gate - the people sat well in the dining area & security personnel were on duty. (See spec emphasis in Rhodes)

I as usual gave the news of the dry over the loudspeakers - he exhorted the membership to clean up the grounds & be on their best behavior

as in SF the seniors went to get seats on the grounds

Then I came in he first announced that Dr. A. cancer which had been conclusively diagnosed twice was hooked to the amalgam of ~~one~~ ^{two} doctors - this had cost him much effort - the wife is infertile & etc

The info from the Queen Con was control - first item was on the actors in the garden - Danny Trebles acted as bonanza - the release advised of concentrating on bonanzas or cassava as human & stock feed was discussed - Robert Grey spoke on cassava - ~~and~~ from peasants

version
I told the results of his meeting w/ the
Myanmarese officials. - Don't mentioned
about our gap fit into the immigration, as if
the govt. ~~they~~ stated again their viewpoint.
They were "multi-racial" we have multi-
racial status - we integrate so it's not a
problem; our leaders' abilities are extra-
ordinary - he has a loyalty to the gap which
is noted. There is no replacement - position
the only drawback they said is that he
cd be targeted for that CIA & we must
accept an agent into our midst - we must
watch everyone for any signs of capitalist
behavior - Other is it's a problem with the Chinese
other capabilities.

Two young men were on the plane -
Charles Travers & John Isaac

Jack Cannon spied on plants, sonal, inc. from
a grapefruit, Peetey Flowers in citrus.

Jeff Loring was hired upon a promise of
paying through one priz he had promised
to do - failure to do so is common when

hard work was paid. The last time
he left was to broken - he took his wife &
leaving the child back - of course he
left home 5 or 6 - a lot of time -
it was clear the husband is an alcoholics &
need family money he cd not for living, &
not faithful to his wife & had extra, made
advances to one of his daughters - I was furious
that she worried more about her husband's
feelings than her child's welfare & safety -

Had Chpt - followed my usual morning routine which includes getting a fruit & an veg. slice to help w/ my constipation - Dr. Bridgewater always gives me a vitamin he's been giving me for Helen since don't do it sometimes I don't see her at breakfast or lunch - then I usually eat the other in the eve snack

Having no classes today, I did my weekly hairdressing which I have been neglecting somewhat; care of teeth, skin, eyebrows, finger & toe nails

Made yesterday's journal entry

Corrected the papers from the soc. class - some knowledgeable people are in the class & some who are unable to know much of the news, judging by their guesses & their lack of participation in oral activity.

Went to lunch

To my L. W. out & started a th - my sisters & I too - I wrote almost 3 hrs - went home late check it & then got up to go back - had to take off my uniform & change into a short one after writing & asked what I wore for will tell me

I & Helen had put my shorts w/ them of the bed when they took her, going down same passage to room 4 - Helen & I go by the ladder to T. 1 -

they said it was sunny.

The forecast had several days ago rain, it had been announced that the basket brigade would be in action starting at 3 PM - I planned to go down after I had taken the resume of Gene Charkin - however, about 4 PM we had a pleasant shower & the basket brigade was called off.

I went to the central area, found Charkin with his resume down while he had treatment in the pavilion for sores on his legs - Charkin had an amazing disregard of

✓ Read Subversive until dinnertime

Continued to read in the pavilion until the rally began

11 PM dig. activities - he said he has written since he was 10 - he has also traveled much in all parts of the world - I had forgotten his birthday is the same as mine - perhaps this was the basis for my discovery that like me, an intellectual, he was drawn to gardening - in my case it is an unfulfilled dream as yet - Gene however, like me, an independent streak - in fact of us, it shows a reclusive nature //

Again I think I might have given up his name, but I saw him in the Radio Room before the rally //

Rally

I read the news while people gathered for the rally - got the people to it because of the much noise - inquiries whether need to take a test - says people don't have enough respect for his healing power - says Rose Shuster had massive brain hemorrhage, killed, paralyzed. never knew more to cry for - says that's just what he does - all cable in 5'

Organic rpts - Dr. Simpson chairman
W started T³⁰ wife in same.

Case - info given by Health Bureau - he's probably aware of the Bill Trapp situation. After gives problems (deterioration)

Second case - info he has written
Info was p.c. system - of cells of my
citations - Jeff Kaley admits going down for
holy. But thinks treatment of life
makes him hostile - he says, he still tries to
manipulate people by position - acting like
L.C. may be good, is not, said. Mark Rhodes
X & Marcella * who tried to run away - taken to
Tiger - acted up again - tried to sell coal etc.
etc - of tries to run away & escape from their
sense of responsibility - of describes the
old attitude to government in which he did not
listen - she's a short one, I do, I do, I do,
see won't be as good as I used to be, etc
understatement of the year - to take care of and
& those took there - others such as Bill & June,

people in US wanted break Fair laws to
get in line & do some kidnapping - "you
are off your channel & I can't stand you"

1st brick brigade - wished I had more
but have time for water brigade - had to
listen to speakers to be given tonight - combs
one stated that we have carried on
night - just to get - or records being
collected - misgivings they had, they had
to collect

I concerned about trying meeting - wanted
this over - don't be free - no sample
of return - write the title of by a three
people went to the So. Bronx planned to
need the 400 bring others & personal
fists express freedom "let everyone see
what they want" - forced anyone to do
this - can run over him, it would be
interesting to do this - Cr. Bill coming
Tom Egan, Jerry Lester, Andy Silver, Eric
Elliot - was he had have been there -
why don't people care? he's getting s' thing "if
he not getting s' thing - no fly down
enjoy his - strong last words - want to

Hold you - wanted to go and say
the way you come back

In E.L.C. have built up such a hostility.
Loyalists - some members not - it
will be that Duke Powers Street has
one of him (Tim Stoen, the son of his old
wife) - he has caused him to say -
not him - who is to make for his wife
I, & I see & do what he tried everything
and now little has went, his mother
has children some - some are
the kind of goodness, some not he wants
to like him

I do hope they will deal - I do not
want - & I must not see how far they go -
and better about our notes, but they
must not buy me - it is up to the
death

So then in one P.M. going to see who -
will have more freedom & who can
do tough as it does - I do not care
if all else dropped & the communists

x The 2 children, Mark Rhodes & x
were first in on hearing her tell "to see
the tiger" - They were terrified, claimed
they had actually seen him - they had
been ungrateful of being tied up, had managed
to climb out a window, they weren't afraid
of wandering in the jungle alone, but the
"tiger" for some reason terrified them - I
admired their courage, tried to show them how
their actions hurt us, why they did expectate

I went into detail about the phys. & mental
pain the suffered & how much he cared
for each one of us - he asked for people to
tell that they had been expected by his

For Chpt this morn, we had cinnamon
raisin, a hard boiled egg & coffee

John Harris approached me about typing
a statement on his work, particularly
submit to the steering com, tom - he said
I wanted it done & Dick Trapp suggested he
ask me - it will consist of about 4 pp. of
typing - I tell him I have little time &
under the circumstances I'd do it - he
is here in the dining room from 7:30³⁰
ton or see me elsewhere

In the news - found a serious accident to
a 5-yr-old, Isaac, who is the son of
Shirley Anne Edwards (I didn't know the
identity of the child until later) - he was
hit by a ball hit thrown by Ray Mc Bright,
host to the former Rose Peterson - child was
standing on the piece where the ping pong were
placed ball - blunder took a paperweight off
the child, caretaker of the dog & bad
injuries caused by the attack of some of the
people involved - the child who did have
blood, was bleeding in the head, shot twice

I made yesterday entry

The field workers had time in for their
half day off - I took my shower, and soon
enough to get dressed & a m of child.

I finished the letter to my sisters & then
it over to Rita to check it out

Then went down to see Esther Trubler's
kittens - there are three but only 2 were
in her cottage - she complained because
she says the people across from her keep
the kittens but do not feed them - she
wanted to give me a kitten but I think
I would have too much trouble, esp. since
both Venette & Ann do not like cats

I skimmed through Librarian, making
notes of a few items I want to remember

I went to the pavilion hoping to see
Jenn, as she had reported we met at
6:00 to disc the classes which we are
offering in M - while I waited, I started
to read Introduction to African Civilizations
by John D. Jackson, w/an introduction &
extensive bibliographical notes by John Henrik
Clark

At seeing Jenn in the pavilion, I asked for
& found her in the dining area - I briefly
explained to her what I had been doing
in the advanced class & she told me of
her activities in the intermediate grp &
will take over from her

During the dinner hr Isaac on a stretcher
was loaded by the medical team on the
tractor trailer & w/ attendants taken to
Port Hartman to be flown to St. John's - I
kept us posted on details during the day -
since the plane was coming in, it was
about 7 people who were waiting for trans-
portation to port town

I sat some w/ the people coming in, one in
particular, had already given birth in St. John's

more to be said about what Rita Lewis had mentioned to me; that she & others in that College th advs., had renderings & copies which are furnished for night wh. that ad. covered talking & typed later at night when it disturbed her sleep - these copies were not aired - prob the matter is being taken care of in another way.

115 The disc on music was carried on for a short time thru other matters - I was quite firm that we shd not have music of any person who was not a reporter of socialism & minority rts & if this meant listening only to Victor Jara, then that is all we shall listen to - he sd he knew many people didn't agree w/ him on this, but it wasn't a bad thing for the world if all were like him //

I washed a few items, mostly sand
and run out of underwear I grabbed
my tennis shoes & intended to have them
in the sun, lying to get rid of the
athletes foot spores which are apparently
in them. - it started to rain so I
hastily hung them up off one pine

The rain came down heavily & cold
& we all got the itches. It had
to get to dry it was a bit uncomfortable
& the effect seemed to be something on the
students in my classes

X In the first class, known was in the
middle, Bonnie was sick, because
was back from L.C., Willie is an LTC, -
the others did fairly well studying the
map & agenda of the trip.

After lunch class (which I am to do

had time & pursued usual mon. routine
made final entries

Looked over class papers - could make much
of what rema. class did & decided to start a
list of African dys.

Meet for lunch at 11³⁰

Tolerance of my adult acting class was good -
the students seem to be making progress

I made an announcement that the U.S. has
adopted a buy cold pol., denying oil to Italy - Sarge-
ton is w/o power - our oil supplies will be
affected & stringent measures will have to be
taken to cope w/the shortage; one of these will
be cutting down the use of lights

I stayed at the Libr. & listed the African dys
alphabetically using the recent ones

To my sister

Did Africa a short while

Then my 4th or 5th class - started by having
the students give news items - some were school-
y & some creative made no contribution

With the 4⁴⁵ class I started w/news items -
my & their news contributions - the class decided to
tell me by various means a dissatisfaction &
mild disturbance & I demanded better
behav., specifying what I did not consider
satisfied the intensive study we were given
to make of the African Civilization, starting
with them because they were in the 18th

in that part of the world - I wrote on the

voting if they gave title
board the alphabetical list of the countries,
which they copied

I had asked Emma Hill to attend the 2nd
period class, as I thought she could learn what
she had not been able to get by here, but
for some reason she did not. I told her
to see me when I had my night class.

I ate dinner - went to the cottage & prepared
for my eve class.

The attendance was good at the eve class -
we listened to J as he gave the news - then
Deppen'd the plant to have a class at 5 pm
now - I then started to review metaphors

The steering com had just begun its meeting
in the room that night to us when we heard
J's voice calling a a traitor named
Richard Perkins to come to the room next
for a confrontation - the place was now
changed to the pavilion & all the membership
was called to attend, so we broke off the
class meeting.

Richard turned out to be a woman,
mother of six boys & a girl - 2 of the boys,
Jerome & Maurice Anderson, I have in
my remed class - Jerome, the talkative,
is liked by most people & often does
scurr, at the front gate - Maurice is quiet,
dull, & somebody had told me he'd

spared badly from drugs - the complaint
against R. was that she had or she won't
have come to jonestown if she had known
and have to do w/o lights; she said she knew
'they' would take yr (Jerome's apparently)
miles away from you - it seemed as if Jerome
had stated the remarks - in the ensuing dis-
cussion it was developed that she had
deprived the children of basic needs = they
had to come to the Ta for meal = in favor
of her husband, who had even had sex w/ her
when she was recovering from a hysterectomy
she also had sex w/ her husband brother, &
thus she claimed convincingly that she
was raped - her husband is not serving time
on a murder charge but she had been
urging Ta efforts to get him out of jail &
bring him to jonestown - she had slept
w/ other boys thus denying she had sex
relations w/ them

Her other, was Ted & Rose Shethur, angered
by the pain caused to I. laid upon her
followed by others. - J. told, seems, to
limit those getting to not to last
hours & to c. tell the attack coming -
I and R. a b.c.

are dead

Magdalene Sylvie was left on the floor -
she is the mother of Horne Ross, corporal
of Santiago - she had invited a pro-
tector for her much grand child, suggested
by Horne & Santiago. At the poor age of 80
she wants to live.

Stanley Clayton & Ellen King man were
observed gambling the night long - Stanley
is corporal, a job he works to w/ the
musicians in the town - Ellen works in
the bakery where she was often giving
taste to her new goods in the name of
testing food samples. Stanley admitted he
had no attraction for Ellen & Ellen said she
was not surprised. The King man's reputation
for her - they were just in D.C. a short
time ago. In the bakery - good to
no one is indispensable

Dishelan Bredy's attitude & behavior, esp
her affair in relation, is still reprehensible.

Harry Jones was next on the floor

J. who was in very bad phys. cond., had to take nitroglycerine ton - he was very angry at having our actions, and his own, interrupted by the means of constantly declaiming of offenders - he explained the serious set caused by the oil by act of Guyana - a restriction on use of electricity was imposed - our efforts shall be directed at rendering some of our people to Africa to help the dogs there obtain their freedom - this is the first time I have heard of J. refer to the idea, which is similar to the act he'd written to him at the time of the last "late night" proposing our young people shall help socialist in Africa

In that the steering committee & I had discussion of how to take care of its agenda, I went through the items, seeking info & making good decisions on the basis of fact

all students have to care, as they have no place to keep it - book & all supplies (paper, pencils, chalkboard eraser, chalk & so on) are in my top crates.

In my first period class I talked with them about my reason for concentrating on Greece & the Greek War, reminding them of Jo's remark on the possible. we might send some young people there to help in education more - facts - it seemed to me Groome was depressed over his wife's emigration to his mother - Maurice didn't say to all students, so I didn't tell about his friend - Groome questioned me about last night's altercation w/ my college sister - I said I think a friend of Andreas as he said & that had charged him w/ "dumping" her child - I replied merely that it was true - I had the class list all the tycoon steps they could remember - Bonnie Burns, who had been abroad, came to the end of the class & told me she had had to get ready to unload the boat

I started the third period class w/ news items, - many did not have any but today Bright astonished me by explaining an item in detail & operation - I then let the students choose sides as the two teams. The teams putting the names of Greek countries on the board - they seemed to be enjoying the contest - somewhere half way through the class a rumor spread through the school that the class period was over & most of my students left

Tripp wants a why going - grades are also

it had been Kenny Reed who had taken off

course said it had been Ronnie - Tripp warned
me not to make such errors

I rode to the cottage & sat outside for
attending the soc. Techs' meeting

The Techs & co-Teachs attended the
meeting along w/ several visitors - we then voted
as several people volunteered news items -
questions, explanations, & comments were
given - we then volunteered items on
the general topic of "just" as raised by
John S - he had asked us to do this
in understanding of what he had done -
we had cons. discuss. it & voted
to recommend to Soc.

It was nice to give some consensus, even though
it was theoretical.

people were sleepy - I used the alarm & we started learning some facts on the big African countries - some members of the class showed an interest & learned

I moved the second period day to the period when I had them write a news item - I gave them a choice on giving details on one they understood or asking questions on one they didn't understand - some students finished early & I then got to the library & rd.

We had no rain today

On Sundays Dr. Schacht sees patients from Ft. Keetman - we were told that 10 were here today - they were served dinner & some did not eat much - their plates were left on the table - Jerry Ray & others ate the chicken from them - Joyce Touchette warned them they were picking diseases we don't have

I went to the pavilion to wait for Jean, whom I was supposed to see at 6th - the band was playing & I can't concentrate on my reading so I walked to the library which was almost deserted - I read Agnes (for as hr or so)

I thought I saw Jean going to her living quarters & tried to find other - someone told me she had gone up river w/ Petty Cartmell & party - I knew she had seen the Job George com

In finding Jean, I went to my cottage - talked w/ while w/ they who was there alone - she referred to Michelle who is still in the States - she said Michelle was very eager not "to lose" her second baby, as she did her first, Danielle - D., her child by her 1st, was raised by Barbara Correll - I don't know whether they meant that Michelle had object to the nursery now - the parents have the child in the U.S. & on Sun. afternoons I went to the central area where I stood in

Had a disastrous day

All day I endured a 1 1/2 hour wait for my
medication.

As a result of my oral rpt to Harry about
what Helen has been told me concerning a
woman in her dorm who gave handfuls of
ripe papaya, I find that Harry had conduct-
ed an Inquiry. - Both Helen & the accused
woman, who I may add at the very start, were
angry w/me - Apparently the papaya was
given to only one other person, publisher &
who also spoke to me - the letter how-
ever was not signed, so she was constipated
& needed it - Brv. Bridgewater, when I
went to get my usual pantom, asked me if
I had a right to it, revealing that Harry
may have gone into the nre of the veg.
she in the matter - I decided that unless
the incident was first on the floor to as
an instance of apprnt, I would write a rpt

Did some more w/ the audience until class time

At the beginning of my first class I began a broadcast - but had some significant comments on our agric. produc. which is lower than ours, farmers raising the same crops although we have advantages such as fertilizer & machinery - most of the blame I put on our pulling out agric. experience b/c they have half time to get off & went to this to end - he then made some remarks on details concerning our power sit - I invited the class NOT be rid of my views on music, asking a few comments of his own // remain quiet during the broadcast - they put their heads down on the table & pit stops

During my second class I cont'd w/ the broadcast b/c we went over w/ the material in game I had prepared - I had left beh the pencils to give the students so I wrote the info on the board & discussed it - some were interested but others were inattentive

I had dinner, then visited the cottage & changed clothes for the rally & thought we

J. when he entered was distressed at the inattention he had observed, esp. of the leadership - many had been late, many were sitting & talking & his own health is in a precarious state - his blood pressure was very high & he had an excruciating pain in his head - the doctor says he had small strokes in his head - he mispronounces some words

I named several who held positions of trust & had not paid attention during the news - Carol Kerns & Jacelyn Brown were among them - I ascertained their lack of knowl. about current events - he questioned Jacelyn on her belief in God's law where she had not followed instructions & was resp. for an accident - I conducted an oral examination on the news - some, incl. child, had followed his broadcasts carefully - Joe Bent was one who read press for his knowl, altho he cannot walk & his body is wracked w/pain - Joe, sit for me at

a wooden bench during the rally & was very uncomfortable.

I remembered that another man was arrested in Jamie Johnson's but her come up & he told her what it was - in a few mins he revealed to the and that it was the doctor - I called upon Stanley asking whether he was surprised that Jamie no longer felt bound to him - he admitted that he was - I said, "you have learned what life is like".

A young woman who had been placed recently on the secure force had participated in a meeting discussing what she had done in cert. Emergency Quits - she had disc'd the info w/ other people - recou. of the incident to the post was at fault - J. allowed the cert'd man, incl myself, to question her.

A young man, 17 yr, had violated a 12 yr old girl & she had screamed - counselors had exercised gr. care to ensure she was not psychologically damaged - J. permitted her to speak her side.

Jamie Johnson was put back on the - she was shrill & talk. too much - What she alone was on the floor for serious planning of action & had even argued w/ mother - at he was firmly recommended by J. Johnny Ernest - there an effort was made to convince him

cause of the unusual sensitivity of the

Then my adult riding class - became of the increased size of the group, the fact that most of them already can write, & the desirability of giving them some polit. & geographical knowl. to assist better understand go talks, I have decided to drop the teaching of writing & give half the time to riding & the other half to politics & geography - the others were agreeable to this arrangement.

I rated to the cottage & started typing in my grad - I had some difficulties - the left hand margin was not remain firm & I made mistakes in indentation - I decided not to try to correct such details

I stated that our problems here remain - the greed of our doctors & pharmacists' letting us tell and dictate & they were requested to reply for a lecture and said "they are not going" - this demand seems to be linked. No longer time seems followed by the govt - our side as a part of the Day System is to be approved as of the 2nd of this m^r. & thus may be endangered.

Since Dennis Burnham w/er of his God has gone to Sov. 11⁴ one of the first matters taken care of was calling on Jessie Johnson & Stanley Clayton on the floor - Jessie had gone to JH tell him that she "felt sorry for" Stanley. It developed that Stanley had come to her begging her to give him another chance. It also seemed that she had not informed Harry Schecht's phys. type, apparently thinking highly of Stanley - I was asked at her traditional female attire - he tested Stanley's intellectual interests by asking him questions on current events - Stanley's mind was vacant on these subjects - I wondered what he & Jessie had to talk about!!

The meeting was dismissed at 5th a.m.

I did some laundry & hung it up

The intro in the pavilion was resumed
at 12⁰⁰ - Again had a good seat

I see the sit. has improved - the
Sov's certif. has been approved - Cuba
has agreed to our govt settling there if
nece. - I had formerly approved purch

would hold all our people - provisions

The Sov. Union stated that they did not
bel the they govt will go to the right - they
are cautious in their support for us,
because they fear the outbreak of nuclear
war - The Tele (sov. news ag) says in
this area of the world will be coming &
visit us

As it developed, time on the floor was
divided b/w those who spoke on the
question of going to Cuba and those who
made proposals about what to do about our
enemies - I started by asking the audience to
vote on whether they thought the Sovs accept
the Cuban invitation - he found that
they might interview us & not the enemy
involved, for instance those w/c crime
record, men who live in God - they do
not like w/favor on the pres. of himself -

as I did not want to upset Willie Malone
in case she has lost int. in coming to Bay -
Michelle Davis, Troy Wagner's daughter, was

as saying that he wd come only if he

the lawyers warned of the risks of all
of them.

We had a bath at 6 or 7 pm dinner &
rest, were told not to go to the college
area - dinner was good, w/some salad,
greens & a fruit salad of banana, pine-
apple & papaya - after eating, I opened to
relieve Terese King in the library where
she watched to see that people did not
walk off w/the books nor child get out of
order the books on the shelves - when
Terese noted I ad African, sitting on a

taken up this morn. - I waited for a

didn't want to go anywhere where he would not be the leader - he told the members that it was because of such sources she that he would not go to Cuba unless they could go, but it was the very answer she gave which might explode her - he stated that if one of his sons was exploded he would not accept residence in Cuba the others could enter; he & the exploded ones would sit on the boat until they died.

Realizing that his remarks would be overwhelmingly influential in persuading the crowd not to favor Cuba at all, I stated that we still Negroes for admittance of all, but that I believed there were certain advantages of going to Cuba: ① our leader would have more scope for his tremendous talents in the field of international communism; our young people would have more opportunity to serve in some of the struggles for freedom in Africa, as an example - I mentioned that the masses, of Germany upon might be heard as some I did not hear my complete statement as he was concerning us similarly - James Wren had apparently not listened to me at wisely pointing out there would be nationalism & racism to prevent from using his abilities, she agreed as follows:

the youth - I think another note & a few
few forward going to Cuba - it was not
pointed out then that the alternative might
be the putting to sleep of all of our child-
w/ consequent damage to world communism

With regard to our action on the Te demon-
stration, all methods of breaking it up
seemed to have been rejected - there had
been much talk about the crimes & devia-
tions of various "concerned" parents &
relatives - for inst. Marie Kitsakis has
been freely molested by her father; Mark
Wagner had fits of his father w/male
women; big formers had had sex w/a
minor in his custody; Tim Stoen - a
Transvestite; Vicki Moore had had sex
with son as seen by her other son

I send up a suggestion that a leaflet be
printed listing these crimes & deviations
to be distributed at the meeting & made
available to the TV cameras - making use
of this type of material has already
been considered as far as the whole

all had "kill them," usually offering to
do it by various colorful means - the
only one to avenge any ~~gentle~~^{gentle} was a
proposal by Harry Jones (Typer) that Mr.
Typer & all the others should be put in
a big white church and that we burn
the old door - are sure of it, seem-
ingly because of concern for the ch,
not Mr. Typer.

Those who had testified to misdeeds
of their relatives were asked by the dele-
gates to give in the info; so I presume
these were to be made use of.

The morning sched. started 2 hrs late
I had ~~breakfast~~ & performed my usual morn.
as usual when the morn. sched. is
compressed, The Medical Dept. has triple
fitting in all Trexton & medications &
altho I registered early, I waited 2 hrs
to get my Premarin pill
The lunch was served, so I waited on
my job until 12⁰⁰

Classes have been dismissed & students
sent to wh projects, but I did my
adult riding class as usual - for half
the time I continued w/ the phonetic
riding exercises - then I talked to them
about the polit. crisis in Guyanese
politics, explaining how we were involved
w/ relations thru Guyana, the U.S., & the
U.S. Union

11/ I met my friend Sh. D. Main Comp-
bell, a sm^x who takes a gd deal of
int. in the news - she wanted to
prep an assignment for pol. enlightened
class 11

Announcements have been made b/w w/ the
ad about the need of counteracting
the striking (of peoples) pers. possessions
which has been going on & cannot be

Tolerated - an amnesty is being offered for the rec. of others' property by moon toon - aft that, inspections will be made, unannounced, of each person's possessions - in addition, all are required to turn in an inventory of their personal possessions by noon toon to the warehouse - this will be used in checking stolen goods & also for issuance of new items

An announcement was made ^{by b.} during the ~~dx~~, which I did not clearly hear, concerning Cottage 48, but Ruth told me what was said - it was in resp to my memo but did not mention my name - the cottage was given a warning, which means all residents cd be at the floor for another infringement of rules - 3 main pts were made : men shd not be entertained in women's cottages & vice versa - sheets are \$15/cpiece & shd not be used as curtains - residents shd be consider. & not disturb older people - (antic the crowd half an hr aft the announcement & th the sheets down)

Preparations were made for the T-2000 who is coming to visit us through clean-up & beautification

I went to dinner

Socialist tanks met for an hr & a half, beginning at 7th - Bob Chr. presided w/ Dick Jaam giving demonstrations of party positions - I gave instructions to concentrate on the Sov Union w/ the expectation that the Tass rep will visit the classes - Trapp gave info on the hist. & development of the Sov Union w/ controls on various class members - we then turned to the role of the Sov. Union in various liberation struggles in Cuba & Africa - Jaam gave a summary of some of these at the board.

While we were meeting we were informed on the P.A. system that some of the selectors of members here were organizing an invasion by mercenaries to "take" these members dead or alive - Donn Ponte's father - the parents of the Others were specifically named - the entire area was put under strict search controls, some of the ones were gathering in the pavilion & Vern Gooley, w/ whom I walked home, said it was a pre - alert, sit - I expected that we might have an alert tonight.

As far as this has my opinion it had obtained from the P.A. Reps. Long

Johnny Cant go and even Can by
Mike Davidow - I skimmed through
this before going to bed - it contains
some interesting info on the Soviet

Ann did not come home by seven
to sleep so I did not find out what
effect the announcement on Cottage 48
had on her - entries that seemed
improved

- 1st blst & my morn. routine, I spent the morn. making out my inventory - went through all my possessions & listed them - then got out my typewriter & typed the list up - Versel & Guy had done theirs last night - I don't know if & when the others did theirs - I turned mine in on the way to lunch at 12:15 & was complimented by Rev Livingstone for its good appearance.

I had lunch - did not attempt to hold my class, as preparations were being made for the visit of the Tass repr.

Worked on my girl - I had fallen beh on it during the crisis.

During the day I learned that wives our Good Mrs. Tom Carolyn Taylor, Dick Trapp, Tom Grubbs, & Harriet Trapp are going in for an educational seminar in connection w/our rebs acceptance as part of the Guy. sch system.

The news over the p.c. system was good - the Guyenne govt will repel any kind of attack by mercenaries, is authorizing us additional ammunition for our use, & is appealing for our service in the coming

elections - it was announced that Mr. Russ, when Burnham has arrived, will give Govt. assistance to Guy - they have already a generator so that the lights & water crisis in the town is over.

I tried to take on his rays but only succeeded in doing a bit

Arrd for dinner at 6⁰⁰ - the school for the two night visit & evening activities had not been clear - finally I learned that as far as the arrival of the guests was concerned we would have our pol. enlightened dances - by that the band would give a concert - if the guests had not arrived by 9⁰⁰, pol. enlightened dances would be held then

I went to the pavilion - Jerry Brady who has some author over visiting, asked me to help integrate in the room bch the one reserved for guests - I was home for my socialist class material, then sat in the spot assigned to me next to Jean Perez & the Africa which turned out to be given back to me

The band rehearsal was interesting but I did not care for the concert itself which started when the guests arrived - it was an hour or so before they were fit

15 Apr - 5 - 2

To the pavilion - then dinner was served to them at the back & they never did occupy the seats in front - J. & his staff conferred w/ them over dinner - J later complained the band music was so loud they can't hear each other.

At the end of the concert we were told to go home quietly - directly thereafter we heard we not to go to bed but to be prepared to get.

11/12 movies were also shown in the dining tent & I went down for a while to see a film showing African animals, but it had not started when the guests arrived.

I lay down - at about an hour we had to get to the pavilion - we were cautioned to

The mother of Bruce Jackson (Olivia) had to be dealt with, his jealousy regarding his companion, Shawnde, whilst he was in New Town - he had told unfounded rumors about her & Tim Jones - in the meantime he had been very unkind w/ Carol Linda - Shawnde had broken off their relationship - Bruce's chauvinistic & immature attitude about women was revealed - his mother had encouraged his child -

(over)

ishness - I also criticized women who move in for their best friends men - later he admitted this at we ~~not~~ not be remedied until the pop. of males & females was more equalized & then he proposed to do, perhaps by the admittance of children.

Bruce's br., Billy, said that Bruce had accepted expensive gifts from their mother while he, Billy, refused them - Billy was praised by J for having as a companion Gathie & who had been a Lesbian.

The J that it was too much, Bruce proposed for himself a 3-mo ban on any sex relationships - this was agreed upon.

The regulations regarding sex came up for review - Dolly Stroud has moved from quarters she occupied w/Betty Stroud, altho they are continuing sex. relations - she may be pregnant - J was dubious whether such an arrangement was conducive to good child rearing - the ideally complete freedom of sex activity she be allowed, the Russians reported that when they experimented w/it, it disrupted family life.

The subject was open to debate & so agreements for allowing relationships b/w the parties lived in different quarters were heard - the diff. of employing birth control measures was discussed - so J: "we simply cannot afford any more babies now" -

the desirability of talking & learning what each other's ideas & principles are was continually emphasized by [redacted] - the final vote was to let the regulations as they are.

I asked all those who had been violating the three-month ban on a spy to confess & receive amnesty; if they did not, they would suffer a severe penalty when found out - as far as I could see, no one confessed except Shirley Ann Edwards & Amanda Griffith, who were already known.

The meeting ended at 3 - & it was in bed by 3³⁰.

We were on a 2-hr bus school. -
had breakfast around 10 w/ 2 doughnuts w/ coffee
rice mixed w/ egg, & coffee

I made out my schedule of activities
& wrote in my journal

X got the staff conference in the evening
with the Tass before most of the day - they
seemed to be very little turnout on the
train and I heard he the mother of the
type - but we didn't see anyone
I heard him described as "the nice man" &
Sharon Arms told me we were going
through all the discussions in our last de-
velopment - I feel she meant in family
type - he himself appears to be a right
of citizen - he was not to have been arrested
but at our last 2 judgments - he was not
where was on TV & judgments - he was

Pierret is not going to do town

Took a day off -
The dining problem - did I have to
the school was a bit slow -
when dinner was served
while I waited

To get to the bus
all the passengers
longer than another of our bus

she had been quite ill since her arrival -
her blood pressure dropped drastically - she
blames the heat - she said the Russian
was seashell on the boat - Edith Cardell
was in the dining tent too without wait-
ing for dinner - she lives in a cottage
with young women, a nursery school teacher &
a medical worker - They talk & turn the
lights on late at night, disapprove of her
dislike of dark, make remarks such as
"What do you expect of an old woman?"
one, while menstruating, sat on her bed &
bleed all over it - I told her to write it up
Dinner was served at 6 pm - we had
cassava curried & pieces of chicken & other
Soviet dishes were at 7³⁰ - word
was passed around that the Russian
visitors were resting but this he would
give us a signal within a few mins. of
dinner time which we were told the
guests were starting and to observe

Mr Jackson obviously wanted to be the
one who was teaching while we were
visited by the Russians - & therefore
agreed to start w/ the news items & he
taught the material on the Sov. Army -
I however volunteered questions now &
then - I asked when we were within

was taken to observe a demonstr. class taught by Harriet Tracy

The classes ended about 9 or 10 o'clock - it was announced that a film on the Oct Revolution wd be shown in the dining room followed by three other films, "The Child of the Damned" & the one on Africa - treats wd be passed out there too - I noticed that Dr. his staff & the guests resumed talking in the parlor while the band played there

I wanted to see the Sov. film but after standing in line for treat & cookies this wh = I decided not to wait

I rode to the college, rd African - they came home too - we went to bed at 11 or

I was awakened by talking & laughing outside our door - It wanted some time for this to stop & it was about 1 A.M. I got up, saw Shirley Ann Edwards & her young man friend whose name I did not even know yet - I protested the noise - they denied being loud - said then they woke me up & I was writing them up - The girls were not listed w/ Communists but many were & trying to tell me so

(over)

"ass" - I protested again - 2 SAT men
came up & I told them what was the
trouble & they did nothing (I think Anna's
friend is a member of SAT) - I went to
the toilet - when I got there the four were
still there - I repeated my complaint -
the guy man said I was a "filthy bitch"
very angrily - I don't remember Anna
saying anything

To th time it took long time to get a stop -
& about 1 hr someone came w/c flashlight

hking for Lorraine Johnston to do so, seem
she was off b.c. but went home -
fish which came on the boat which she was cutting up

The stop next door was noisy too - they
were making arrangements for people &
materials to go on the boat which was
being at 4 o'clock - I went to the toilet a
few times & asked them if they would
stop over the p.c. I released all or most
of the people on b.c. outside the usual
routine - The sound was not loud
so as not to attract the attention of the
Taxi men & I did not hear whether
those on b.c. have to go back and when
the Taxi wait is over //

We were on the normal school,
today except that I learned in the
morn that h.s. classes wd not meet
& students were to go to their work
proj. - everyone was quite tense from
the strain of the past few days.

I had breakfast & took my medication
w/o much delay.

The Russian & his wife set off to
Georgetown by plane - on our ride -
I heard he was not used to roughing
it - Lise Layton who I knew had
been introduced to the couple told
me the wife spoke no English which
surprised her - I think Lise was
to be used as an interpreter in German,
but she said the women spoke only h.s.
German

I washed clothes

Ate lunch

Ted my adult class - I announced
the class on the p.c. system & I expect
now I have had yet come - I had just

ment from Margaret James - she told me
that the medical officer had asked her to
send people w/ blisters to the clinic, as it
is believed that this is a diff. kind of
fungus - I was told to go at 4 or

I wrote a rpt on the incident last night
involving Anna Edwards & her friend whose

Dale Park made announcements - & announced a meeting of the adult class to & the women's wing

A press conf was to be held at about 10⁰⁰ our time in SF at Chas Farry's office in which the Te planned statements to refute the accusations being made by the so-called "Concerned Relatives" - we heard a rehearsal of the statement to be read on radio by our people whose relatives were making charges - Harriet Tyco made the - said statement - Those giving damaging testimony were : Mark Wagner, Maria Kish-saris, Wesley Breidenbach, Diane Harris, Bonnie Parks, Billy Jackson (Oliver), Iris Rozynko, Magnolia Harris, Al Touchette, Mary Griffith (concerning her grand daughter, Dale Truss), Carl Kerns, Bob Davis (re Lly. Toman), Barbara Semin, Cassandra Kaur, Christine Young (Cobb) + Marceline Jones who said she was going to sue for defamation of character of Jon Jones - several corrections & changes were made - those involved refused to release the first version - the conf. was to start in about an hr

Marie said that some in the audience
brought up their bodies on the floor after
the story of the money as their bodies or -

if the mothers didn't care any more than
that about their babies, perh. Their babies
shd be given to someone who will love
them

Another incident concerning the young man,
Jerry Wilson, recently involved in the Crepe case
was heard - I advised him not to ever the
like he was interested in sex until his wh is
proven

I sd he was surely displaced by the pigery
area during the Taos repr. visit - there was
disorder, filth & mudholes - the pig areas
were dirty - the chicken hhd good - there
was further testimony on offensive compost
pits, flies swarming - the hogs & cows were
not shown to good effect - the Tex man was
not impressed - he was, however, overwhelmed
by the medical services partie. by "all those
Guyanese getting treated" - I wanted an
inspection com. to go over the pigery

I sd also that the staff took him high
dry & a crucial pt. in the talks w/ the
Taos men on the black plight in the U.S. -
I hit up their int in sex - "many of you
guys want sex w/o responsibility."

At this time I went to discuss the sex
conf - the mtns were then connected w/o
microphones, first, so as not to interfere
w/ the radio transmission. Johnny Jones, brd
Agricultural Dept. was here. in fact.

told of a disease in the kidney beans - the crop rotation plan starts this week - Gertie Flowers is working in soil analysis, is doing very well

Ernestine Blair said that all who handle insecticides must take Vit. C

Tony Mitchell on the pigery said disease in the pigs was caused by the confinement pen - an additional holding pen is being built - he needs hay for feed as the rainy season is approaching & there was a disc blower fuel for burning to control maggots - a new disease caused by the hog, having their feet in water was giving trouble - rats &c are eating bags of sugar, rice & cassava stored in the area - Johnny Jones will be at the st.

Bob Gieg reporting on the chicken gave a report on recent mortality - Jack is still down to help offspring & the hens with 2000 chickens are getting weak, one can assume slaughter time - they will be shot up & killed so that the meat does not

John Harris is establishing a veterinary laboratory, intended to do his own testing in diff. depths such as blood & urine with Ash Steering Cow for a site

(He'd been introduced to Chris - Edie & Paris
told me he had been in the T-6 only about
4 mos - he lived in British - had sugar
from grand mal epilepsy & lost a few
many jobs because of this - he is a
friend of Brandy, Bill Parks sister.

Rose McNight (formerly Pearson) gained
10 lbs while on the crash diet - she took
extra food from people & put sugar in
her tea - Rose & the persons who gave
her food were on the floor - she is a
compulsive eater - it was reiterated ; do
not give extra food to people who have

I remarked on the relationship with Ghisl which was to be voted on again & decided ton that there had to be unit somewhere which can spread to the larger common, a family - it was common knowl. that some are cheating on the regulations - we are getting a copy as attit. - as for the women who encourage the attit, "you bitches I'm going to come down on you hard" - wife running out of birth control pills - we just can't have any more babies - Mr. Strat-Lass walks up & down doing nothing while you do all the work

I had to call out the last 16 leaders he had in the states, Huie Fortson who can't choose them two women - he was married - his worried about his wife now - she is now involved in this Spokane Betty Moore was set to be Eric's 2nd best - Eric when told Betty was pregnant said, "well, no, I won't be any bar" - he didn't feel it was his best -

Christa comes over to us on recommendation of the doctors - she had a fight w/Mr. Klemm - I reviewed the case - Christa feels guilty of her brother Martin who receives praise all the time - I ask she was in the way according to him - They are both goitrous - think she stopped giving Martin so much attention - I asked the details of the fight & he said 1 P.M. was his first pattern - Mr. had taken her shoe, which was itself an act of violence as all are required to wear shoes - where was the Doctor supervision when this happened? I pointed out that Mr. & Mr. Christa lives w/ her mother who is serving the cause in Georgetown - I decided Christa is released from D.C. - Mr. stays on

Dilrey insisted on having the man help out to him - he had got hold of an electric wire, his hand was bitten off but because of it the bit didn't get into his head - This happened Th & he hasn't testified about it - I spoke of the danger of not giving thanks for miracles - we need a sp. pencil for S. as signs that the Soviets, the founders

11:15 I had already told Dr. S. students he wanted a 2-page summary of the news from them - he now added that he wanted every other member to turn in one page - I felt very discouraged as I thought it might as well give up on my adult class

I watched the Russian short on "Red Square" - the next film was a Glenn Tracy gangster film, so I decided to go home

Started to drift a bit to my sister & I
Went to the central area to register for treatn
of my foot at 4⁰, hoping to get through early,
since I had seen others waiting at 6³⁰ & the
relly apt. that - I had to wait a long time
as usual - got a plate & ate dinner & waited
again - then found that my name for some
reason had been passed up - I had seen
Jaron⁵ again to treat me & she was slow
& clumsy - I did not get out of the clinic
until 8⁰⁰

I had to put on socks & get my pillow so
I went home

Then I came back there were only about
15 mins of the class left - a lg no. of
visitors, no doubt seeking help or their
news events info, were present - I did
not see either Dor Jackson or Lynn Kervick -
Bob Christian was giving the news events
1/1 Kristaelyn Brady I have seen several

This was an extremely hard day for me

We were on a 2 hrs. late schedule, went straight through until 7 or 8 up lunch

I waited again a long time after 1:45 waiting for my first treatment - Magnolia finally realized I had low priority as a teacher and field workers & big sellers - I had an tiny girl while waiting but had signs because people are so concerned about their assigned news item paper that they would all kinds of help! the writing itself, paper, pencils

For the second time someone stole the news items which had been typed up & posted on one of the dining hall signs - when I left the area I went to Hutchinson College to see whether I can get a copy or have a copy of the news which she types - she had not have but I saw her in the path - she told me they had a copy & was making more - I went to the City Depository & got the copy they had, making notes for use in my school less arrangements were made for paper to be obtained for the signs.

A large no. of people attended the reading class - I planned to spend an hour of the whole time on news events but ended by teaching for 2 hrs - I had to

get them for people to write a hand on paper & pencils, deal w/ sp problems such as those who have trouble w/ their eyes, & questions of all kinds - I enjoyed seeing news events & wrote short summaries on the board, hoping that they would be put into peoples own words

Ruth first tried to checker Bredy to participate & the U.C. at which Willie Malone is now a coordinator approved his sitting in on the class, but I am not sure how much either one benighted⁵

I scrubbed the cottage floor, having borrowed a bucket from Ruth Carroll's housekeeping unit - I used soap & then rinsed

Took a shower, washed my hair & put it up

Typed up my own paper to turn in to the polit. enlightenment class - as a teacher I may not have had to write one, but I wanted to - as required, I included as well as a page of news items w/ comments, a page on the Soviet movies & a page on what I went to do for the cause & in the latter I emphasized teaching Eng to young & old, writing my own memoirs & other material, perch for sale & few other actors, & expressed a willing ness to die for the cause should it prove necessary

Went home & changed clothes, wearing
the pants which Alice Thomas fixed for
me

Bon Jocher is in Georgetown so I had
to conduct pol. enlightenment class alone -
I collected the required papers very
carefully - using a list of names &
terms about the news events on the board.
The class members discussed the who's
news - participation was excellent - I, at the
end of the period on the p.c. system
expressed disapproval that some had
copied from others' papers (I hope he was
not referring to the ones who copied
what I had written), & so next week
the teachers will give a written test

I left the position to investigate the cabin - I wanted to find out if the man we had hit was alive, as he might give us valuable intel.

I drew my pillow down & put my head on & was fairly comfortable - an elderly woman we saw had to crawl, didn't have room to lie down - I was most worried about my clipboard - I found some of my papers

The shooting part started and I got scared that we might be lyin on the ground all night but the emergency ended in about an hr - planes were hit around the position which I didn't understand, but learned they were a signal the danger was over. I got the man we hit out later away by his companions - we didn't know whether he was injured or killed, but he didn't get up - I just layed down.

That night we heard of three who refused to leave themselves (I neglected this and other instructions), and so on - the next night we saw them - the 2nd night about there i was indignant & put them on the plane unless they had a record of other info.

I am grateful to night - I am grateful to the 2nd night we took them on the plane because we had to leave them, but I will handle them differently if much dice - we are to take care of them.

Started to rev & take notes from Teaching
as a Subversive Act, so that I can turn
the th in

Over the longish came a call for a term
meeting at 3rd - Dick Tapp gave us a rpt on the
happenings in Geo'town regarding the acceptance
of our bid into the Guy Regs - we are subject
to their requirements which are very precise -
we have to follow the objectives adopted -
present regts as to how they are being imple-
mented - our studs will take Guy Tests -
they will not pass into a new class nor
grad if wh not successful - attendance rules
are strict - we have to keep careful records
on arrangement of classes will fit into Guy
plans - the many aspects we proposed &
adopted

For their first day at 4th the pavilion & Dick offered the studs come to
answer questions - some of the studs, starting
W. Harriet, Shirley & June, spoke, taking a
hard line which I think threatening, don't
discipline & lost expectations for the future

The studs then had their second period
classes - I formally moved a heavy bench
so far as opening help so as to provide more
seating - then I asked for help in moving
another but no one heard me - the class
was noisy & persisted in its disorder for fif-
teen minutes - I complained about being given no

24 Apr - M-2

help - was told (A) I had have asked for help, - (B) when I did I didn't speak loudly enough - (C) getting pencils & paper distributed. And the class off time. And I applied them - class members gave news items

I figured that there was to be another meeting at the Teachers in 15 mins - so I sat, my materials away & went to the bathroom - Then but the dinner line was already long, and because the menu was exceptional

We had as well as rice & okra, a big piece of pineapple & a small mango
I sat back at the table, ate my meal in the dining hall as usual, out in the soft tent, but in the rice tent - The teachers were turning in their "orders" my dinner plate before me.
and back to teach & inc. communication with
all of the class members. From whom
mine were unruly, first. That a meal
was made by the Teachers who had eaten from
this is the geometry - he tended to

news, I announced my adult Lang Arts class - in a few mins + people streaming in - I had to move several benches to take care of them - I suggested that because of the diff' of finding time for class meetings, we could adopt a form of directed study or individ. instruc. to guide their reading, that I'd give advice & help them find this - they seemed to like the idea & I then introduced them to some of the available ref. bks in the libr.: Fowler's Modern English Usage, Roget's Thesaurus, & Bartlett's Familiar Quotations. I had them look up simple words in each & showed them how to use the bks - they completed entries interestly & per. expressed their enjoym. of the lesson - we stopped at 9³⁰ 11/3 I had them take a spelling test of the four words I had given them for the last meeting!!

At home I read The Man Who Cried Ham went to bed at 11⁰⁰ - the college th a long while to settle down - Then I was awakened at 4³⁰ by people cheering in y/

Had blist - did pers tasks

I has been indicating in his broadcasts that people who fail the test on news events will be assigned to attend my class - then they will be given another test & if they fail that, they will go to l.c. - of course there no idea how many people wd be involved, what time of day the class wd be, nor what fails I wd have

Phyllis Chisholm, who is coordinator of the med. dept., told me the dept wanted me to give a daily talk on current events - she apparently means on a going basis, not just by the exam. is gone & I told her I wd come on the 2d of this wk; my further plans I wd have to disc w/ Dick Tropp - the med people are mostly confined during their working day & wk long hrs, so they have little open to hear the news

I did on my first entry
Had lunch

A few more of people attended the "news" class - Mrs. Teresa King in the Library last night had written on the 1100 hrs news items taken from j's broadcasts - I stopped by & tried to get her copy b/c I found she had written them from notes she had made & they were undecipherable - I didn't have

time to copy them for the boards then & knew the teacher had erased them when class started!!

some of Teresa's news items were still on the board & the class members were copying them - in the time we had left, I copied a few more items & few details on the board

To my shower

* Copied the title to my sister, made one carbon - will copy it again if another carbon

My first hr class behaved well - we had all news items

The second hr class was unruly -- the title seemed to be that they resented having me assigned as their teacher, Janie having been assigned in the first place & we discussed who our news items & their attitude implied.

I fix my plate - the main dish was a pastry cakelike filling topped by a pineapple sauce

Janie & I had our dish, as were good to have a talk with within every day at 5⁴⁵ - we didn't find him - I mentioned the title of my 2nd period class to Janie - told her they resented being assigned to me & that this was just an excuse - they are middle adolescents seeking an excuse to complain of adults - we agreed that switching classes had not worked well - told students to sit off & had lunch there - told Janie I was having trouble with 2nd period class

Michael Simon, who doesn't want to be there -
I ask he not going a b.c. - just ed by them
very above many others who know every piece of
mine but don't have a single star in yr head
about socialism or any news - how will you
support the cause when I can give you people who like this mine are just like the
regions fill you make pens by

I talked out expectations of students & teachers -
several students names for bad att. exp. L. E. Anderson
Anderson - if students don't do well on exams, they
will have to attend Ft. Hartman Sch.

Agnie gifts - Demosthenes tables on bananas

Peggy - Hayfield needs gets extra help for
cleaning it up for visitors

I say give high priority to good house & pub
also at hotel

Pearl - head of Burroughs field coming in time
be doing well in front

I would high priority be given to crop - after
after a break through

Gardens - Shirley sprouts fields

Herbal gardens I mentioned some tea as a
refresher - I mentioned wing beans which could
serve world from structure - peggy & has
many uses besides food : hypertension,
refresher, contraceptive - probably has higher
amount of iron than any other veg. than jersey

Jewel & bricks - Jack Connor
in store -

Fence construction : A. T. Trust to

Natural insecticides - Dr. B. Flores

Farm - John Wilsey - ~~had~~ a picture of
cotton bolls over the college yard & fields -
should be warned they should not be eaten raw.

Child's birth guest & visitors etc.
After his birth - Child's expenses cost for p. &
not entirely to his birth - emphasizes importance
of visiting child's guests giving him greater
importance

Visitors & birth of a child reward
visiting relatives & a guest to the
house to visit the child & make the
child feel happy & worthy, etc. to the
child & the visiting relatives, & even the
time, we all go & visit the newborn baby &
visit to the hospital - & often present
flowers & gifts to the mother & the
newborn baby & the child has a good time

I say he was warned 5 night - he won't be bound, doesn't bel in ultim, he will not go this time to New Town - I says he doesn't bel in indispensability, the moment you give ground ultim yr god damn org goes to hell - Jerry goes to L.C.

Robert Johnson treated Isaac Edwards' child who was healed by J, about head injury - J serious, had to be restrained from attacking Robert - this only second warning - he [illegible]

1/3 I very distressed because she wouldn't refer to doctor or practitioner & see - dear Smith & she have done this //

1/6 Carroll's son - I say because of his low blood sugar, his rage has triggered by teasing about color, defects, patterns of speech - Tom [illegible] say Robert has repeatedly tormented people // Other Frotherspoon will be returned to the classroom as he is a good teacher - he will

I aroused to fury again when record on Isaac - new Johnson, was inaccurate & no one would take the blame - "Another thing I can't stand is that no one can tell the truth & I hope you do as well when you're interrogated" record seen for - turned out he lied

Sue Johnson - worries too much about her food - she cheats at home severe - high sugar & milk from mines off

William King man gets none now - back

Bartore Walker - apparently held T.D. for man - sent back in usual rule w/ his sons

Willie tho he had made a vow never to "ret" on any body had decided loyalty to the gp transcended a pers. vow & as it turned out, Tony, who is an adopted son of Georgia Lacey mean no harm & was forgive by Steve 11

114 I reprimanded her 11

115 At one pt I observed a lack of enthusiasm when he emphasized willingness to kill enemies & one woman had told him she would raise that way - I said when Tim Stoen conspired to murder Chris Lewis and injected yr mother w/ cancer, anyone who does not feel like killing them does not deserve the name of socialist 11

116 not ever be alone w/a child - we as socialists bel in redemption - his rehabilitation may take a long time 11

Rising time & first were others b.t.
to get my fox treatment
and all my girl but did not finish
yesterday's entry to copy again
Started again b.t. to my sister.
In my shower

had 50 adults in my room for a.m.
Today because many had to have
P.A.T. test - I showed how the dis-
tys in France & in S. America, b.t.
etc. in different categories as free, mostly
socialist, or capitalist or fascist - then
spoke of the prin. events in the news
pertaining to these distys

and so on the P.A.T. to my sister
In my first period class I
asked for the & he was going to tell me
the social classes of his class & in the
last day of the month he told me
that he was interested in the class members
from the categories mentioned &
mainly worked new & onto
the third period class
I asked him if he had any
time to go to the office

He said he had time & I told him to go
complete of much work during the
day.

finish my CIA offering
ate my dinner

I was putting great emphasis on
mass broadcasts - he has been mentioning
that those who fail the test will have to
attend my class & if they fail a second
test then will be put on L.C. - I saw
Dish Tripp & turned over my ^{class} attendance
to him - went to the cottage & checked

There was a women's mtg at 745 - it
was good to hear from Mr. [unclear] which
Sterling Com wd meet - Harriet Tropp
gave talk on women's role in the
discovery (she called it "revolution") of
cancer. - I then came in & demanded a
hearing & action on the "bitches" who
had disrupted his leadership so that he
did not have a single black male he could
send to SF. - "you know you will not
follow a woman, you know you won't"
- he withdrew - Eva Jones got on the
floor, & w/ Harry, made vehement
accusations agst several women who had
led Johnny Jones on to think he was
a romantic hero, to neglect his Te
duties & his child, - two of these
named were Grover Hayden &

Stephane Oregon - known seems to have
had no serious int. w/ any of them
but his relationship w/ local seems at
an end - we partic' resented the attention
shown by the other women to her chil-
dren, who then did not even care for
their own child - Mary expressed her
worry about the effect of the
local children, who is Jimmy Jones -
some - someone had to be & I did believe I...
away from Freddie; likewise, ...
made a play for Tim Jones - it was
arranged that we would direct our
attention from men boys - and I
was questioned and asked, some of
the girls in our class are part of
young men. Testimony - that Oregon
is open with culture, and has a lot
which she was softening & taking
in - these are other demanded
women who make up a lot on the
woman's men & so soft touch is
believed there will be a marked
effect.

Had a very few mins to go to

Dr. DelCoste

27 Apr - Th Jethie Evans

Had a very difficult day

Took blood for my first treatment - Dale Parks told me I didn't need to rest. - the blister is healed & the itching has stopped.

Intended to copy the news from the wall but it had been taken away. No doubt stolen for someone's personal ad - numerous people were handicapped.

I didn't go any writing done in my girl-made corrections to my brother & my sister's - for address envelopes.

Went for lunch

Attended the adults class - a huge no of people came seeking help for their teeth - the test had been adjourned for F test because the dentist is coming, the test had to be taken in.

I attempted to type up a few cc of newscasts to distract in such a way as to benefit the most people pos. & got a couple of pieces of carbon paper from Joyce Torelotti -

As soon as a heavy rain was over, I took a shower.

Rushed to the tree off where I had been & asked to give a brief talk on the news - the sky is still being repaired & raining etc so the experimental meeting was held in the living pavilion. It was very hard to talk w/hamming going on & at the same time a heavy rain falling. I pointed out the chief areas of conflict then the capitalist & communist had happened the past week or so - the 11th also, other gyps were talking and will

(cont) C-2-A-2 (138)

response to my talk was good but not as enthusiastic as the 9th class

I prepared for my CP classes - I had hoped to do some typing on the news events but didn't get time & Sherronda James (Oliver) asked if she could use my typewriter & I let her use it in the cottage

My first period behaved satisfactorily except for Billy Jones who had to be individualistic & argued with me on the news events

The second period class was again off-type errors - I started on the news at their request because of the test day - I was writing items on the board & going into the Rynd when they saw Jason returning on the news & deserted me for her

The high school classes have their daily soc. class at 5³⁰ & as they gathered for that, I saw Stephanie promenading her bro, Billy at a table - I told them it was very undignified - I asked them if it would be bad if a guy came up, walked in at that moment, saying to Billy that he behaved as if he owned the place

I got my dinner

We had tears today & discussed awful incl. mine w/Sly & Billie - Billie called in Sly to yell at her, possibly because she's a teaching asst. - she shed some light on my class' attit. - she said Janice gave the

news faster than I did - she indicated the students resented having me for a teacher as they had been selected to have James

I went home & made prep for the interview of the six teachers in the York tent at 7:00 a.m. w/ Bob Christen as ch'man. Questions were drafted for the test on the 1 news. They used to be turned over to J for any revisions he cared to make - in most cases a good deal of time we suggested 15 questions for those under 65 and 15 for those over 65 - we finished just before 8 o'clock when the socialist meetings were to start.

J dictated the questions, giving them from two categories alternately - the usual teacher's questions but without them, right & several specifications that made them easier. However, he ran them rather fast - people could answer questions from both categories & gain extra credit - their answers to the monitor were to give him very well as in minutes. help - with the no who needed it. (if) was through it, the question, "What is your main inquiry about socialism?" Questions good specific

(Copy C-2-A-2 (B6))

After the tests went to Christian in the
parlour - there I find Willie Malone who
had not been able to write the answers
nor find anyone willing to do it for
him - he got either the test from
those who had been working for or
to me to do it - altho I was very
tired and doubtful how much Willie
knew, I consented to do it - I find that
he did know a surprising amt & under-
stood some events very well

Test home about 10 AM, within 3/4 hr
Rd for a few mins - a cobbler, etc., etc., &
then interrupted me

Had my adult class at noon - a
few no lame

Washed my hair

In the first hr class I gave a spelling & vocab. lesson from an eighth grade spelling test - Willie did well on the meaning of words

The start. of the 2nd hr class was not good when they entered - the noise of the band rehearsal for Georgetown appearances made speaking & hearing extremely difficult. I decided to put the terms used in Intel. on the board - some of the students questioned why they were learning these - I remember particularly an almost hostile tone of Some Boys & Amire Greene - the gen. feeling was not cooperative; others kept silent, but this worried - I decided to abandon the C.I.T type gave the class ^{an assignment} from the spelling he used in the former class - they responded to this

Not my dinner

The third and w/ Dick Tropp - aft determined who was to go praises or reprimands. I told Tropp that I had had talk w/ the second period class, that I think basically they were upset by being made to feel as second class citizens which we decided to switch classes - he decided to go into the class M & finish out what was wrong - he said I'd go into his class

The notes on the news

Tropp issued a call for Eng Techs to meet at 3 or - he had plans for good writers among gr & sm h. studs to write essays on the Sov. documentary films we have been seeing - the techs are to correct & edit them & do being rewritten, the essays are to be sent to the Sov. Emb as a public relations gesture & also to help in securing more Sov films, incl. full-length feature films - a list of names was prepared & requested to meet w/ him to do so. Some gr high studs have already written such papers - Jean & others had 11/1 to view the films & drop their papers // regime

I read Man Cris

students who had been selected - Jean did not come - the fan was applied to the studs - we saw some Sov films, one I had not viewed prev'y on progress in the Sov Union, which showed see generations

The community was waiting for a rally to start w/ the arrival of guests from Georgetown - the dentist, Dr Costa, came w/ members of his family - they were fed dinner

I went to bed & slept from 11th to 1st
at that time we were awakened to attend the rally

Besides we moved into the pavilion - the voting had to be conducted w/o a dd of hrs as the Doctor was in the Rediv Room

I gave a descrip. of 2 feelings: lesson - next ; Dr Costa's wife had a head attack & is all right now

I applied the reason for the late voting - it has proved valuable to confront people right away on arrival - Hugh Johnson arrived then - was put on the floor - he was asked about accepting the petition presented by our enemies on the steps of the Ta - Hugh described the circumstances - Hugh was also requested to talk about his

Had to go central area to get a ticket.
I'd find Trapp but saw no sign of him

People were arriving in the pavilion for
the dentist, Dr. De Costa, & his family, &
himself & other colleagues - I learned from him
The guests were going to the piggery - from
Joves on the path out the Pader Inn where
he was talking to De Costa & was intro-
duced - he has been very kind & helpful &
let his car for an hour in the town

At dinner, as usual when we have

guests, we didn't form lines, but were asked to sit down - Salthe Bourdane & other women served us - we had nice stewed chicken & gravy, sausages, & a tossed green salad w/ lettuce (the first I have had here) - I had lost my raincoat w/ me so it took like more rain & slept it somewhere - went back to look for it but didn't find it

Walked around the garden for exercise taking at ways we have - saw some cotton plants & cotton which did pretty good - in the field through which I took a short cut to the central area some tiny beans are growing high on stalks

Retd to the college - they was asleep & no one else was there - I rd Man Creek - then tried to take a nap too but could not get to sleep - we were waiting for the guests to finish their dinner, expecting the usual Sunday eve. entertainment to begin, but we heard nothing

At about 7:30 they went up to the pavilion & I followed shortly, hoping to get my treat - we were promised peanut butter candy = & go home again

Two films on dental care produced by the dentist were shown - one was an American film, the other made in Jamaica, both promoting Colgate-Palmolive products - I was sitting by Royal Rufes - we didn't see that many birds being passed out in the back -

May - T

At first was over the news items
in the pub off
Trade fairs for my domes, trying in each
case to have a really organized approach
Trade a little in my good

Went to lunch

I ~~had~~ now attended my adult class & my
plan was smoothly

On one the p. ~~and~~ spoke extremely
seriously about everyone's effort & effort
in order to build up our common - he
also spoke bitterly about the crimes of
our enemies - he alluded to his own
health = high blood pressure & low blood
sugar = as he has been doing often

Then I got it to the college, Terri Bedford,
just getting up, inquired what I had said
& specifically asked his own condition -
I did not realize that he had had any
~~different~~ ~~experience~~ ~~the day~~, but I did not
think he was worried.

Visitors were expected today & preparations made,
but heavy rain fell, &
the visitors didn't come

After my shower, I did as my girl
using my laser pen which very
effectively w/ the first period grp to set

Over 0-2-03 (7)

showed an increase in understanding world events, particularly Hitler - I told

In the second period class, I had fairly good luck, was able to go farther w/the same meter than w/the adults on the remedial grp, as a basis for an essay to be written tom - some were talkative though - I was on the p.c. system the entire time, & the daves do not have to pay attention, it is hard to make ~~anyone~~ ^{anyone} heard over his voice - I unexpectedly called a rally for tom.

I got in my classes to Trapp, recommended prices for them. Then I was paid w/them & was recommended them for prices!

I had started to read an account of a man who had been in a Chilean Concentration camp after Allende's overthrow - he ran our chapter while I ~~the~~ ^{came} & ~~went~~ home to change clothes for the rally.

The rally was at 7¹⁵ - the tape I had just made was played again while all were to listen & pass a test on it.

2 May - T-2 2hr 45 min.
Bobby on slide

I had just put on tape pt. of a rpt. from
a former polit prisoner Corazon in
which when Allende was overthrown he had it
placed again at the beginning of the rally told
us we wld have to write out st to the notes -
and so he had set songs by Victor Jara
played - Peter & others spoke translated them

I spoke of jarmi sensitivity & knowl. - his
condition - grow up! - gotta go within - reject
etc / - I help him if he names; learn -
control ignorance - below, problems - Jerry Orby:
someone need for him? - can't possibly but must
dont have that sensitivity - show suffice, feeling

The worst thing that it began to me wld be
to see my mother come to her end

Conspiracy - prob back there - we have some
evidence of jkt killing Chris Lewis - names
3 given last night. Said -
X "T. child who doesn't know anything "You people
like you are killing me" - Ann often says
for my death - Robert says she combs her hair
in class never listens - Harry says deal w/fall
students who don't pay attention in class - I
informed after spoke her on l.c.

People not taking enough respons. running
the place - members Steering Com.

ought to deal severely w/those who come
into any place - in classrooms, everywhere - put
them in jail, not therapy

Henry Marin thinks all shd have respons.
for learning - says he does better w/o right

Spent most of the afternoon treating
of conflicts between the old and the new
Reg. Bourgeoisie after a job - Janin
Marshall and good and friendly despite of her
long talk.

1) The boy takes no previous time now -
to get good food and attention.

11/2 of his own physical cond., I said his
blood pressure is dangerously high -
~~his blood pressure was dangerous~~ - Long
had regarded the boy as a valuable -
sacrificing time on the platform, which
~~is the best and the only~~ - of
malignancy, the future is very gloomy -
and it has been to one of surgery -
the doctor may not have the time
developed to answer such a question,
being aware of the capitalist world
and its contradictions - but, I cannot
be positive as long had committed on
the radio offering their insights &
their analysis.

Re Marshall was laughing during riding of
Chile motor, I said her on the floor
denounced the damn bourgeoisie -
she didn't like the boy, ordered her
back to the boy //

During I had a proj. had been
decided that we help communism -
people's soc sec identify cds & any other
passes, docs, keys they held in connec-
tion w/ their present jobs were requested -
turn them in to Terri Bayard

The rally ended at 12:15 - I spoke to Trapp
about passes for my class - he said
they wd have to have a good record
for an entire year & wd be put on the
list next wh

I went home & searched my crates
for my soc sec cd & any other doc
I had which might be useful - I didn't
find my soc sec cd, why have
turned it over in Geo' term - I took
out my library card - I have never
read my driving lis. & reporting loss
of my old one & getting a temp. lis. -
I think what I had up to Terri in the
Radio Room

I went to bed at 1:30

3 May - W

Spent most of the morning & early afternoon writing & trying to make 2 extra trips to run the central news. The first time to turn in to Terri Beyard in the Radio Room, a sun screen card given to me by a sun.

Wrote a note to S. making a suggestion on his note. Later I wrote another note asking to be considered for riding the news & other material in the radio last night it had been suggested that someone who reads well could go over by helping w/ this on the news (I did not know what concert to bring my notes.)

Did a little work on my jingle
Went to lunch

The cold day came to hear news items offload, was very poor - when I arrived I found some have organized as much as they had; got them all to people to write an & started the roll along & the class went well

Rained a shower

Prepared for my classes

At 3 pm I had an appointment w/ Shawnde Jones to have my teeth cleaned - she took me to the general hospital across the street from her office & some of the dental units - the dental chair was there as the dentist who was here on the weekend had used the office - I examined my teeth, floss them & the gums in good condition, then they are receding showed me how to massage them - she did not clean them as an electric cord she needed was either
