Re: WD6DVI/WA6DTJ/WB6MID

Dear Marshall:

At Tom Adams request, I am enclosing the materials which we recently obtained from FCC files pursuant to the Freedom of Information Act. As you will see, there are a number of items which were never meant to be seen by persons outside the Commission.

The inquiry from Barry Goldwater was quite pro forma: a mimeographed slip from a member of his staff to the Commission enclosing the letter of a constituent, Mr. O'Toole.

It is my conclusion from reading all of the enclosed documents and from conversations with Commission staff members, that the Commission intends to pursue continued business communications by American Amateur Radio Stations on behalf of the People's Temple. The Commission has not yet moved to institute proceedings for revocation of the license of WD6DVI, but I suspect that this action may be forthcoming if the business communications are not discontinued.

If I can be of further help, please don't hesitate to call.

Sincerely,

James M. Weitzman

The station is carrying on business communications. It was cited for this in the Form 793 mailed May 24, 1977, by the Douglas monitoring station. In his reply to that notice, the licensee questions the interpretation of Section 97.114(c) of the Rules. The intercept contained in the Memorandum from Douglas dated October 28, 1977, indicates that the station was carrying on the same type of communication on September 11, 1977.

The station was operated on an unauthorized frequency on September 11, 1977. The licensee admits to having committed this violation.

The station was not under the direct control of a licensed amateur on April 22, 27, 28, and 29, 1977, and on May 3, 1977. This violation was charged on the Form 793 dated May 9, 1977, issued by the San Francisco district office. In his response to that notice the licensee does not admit to committing the violation; however, in his reply to the Form 793 mailed May 24, 1977, he does make the statement that the station was not under the direct supervision or control of a licensed operator on the dates listed above. Note that the allegation in the notice issued by San Francisco refers to a two-month period prior to inspection and is apparently based on the statements of a person present at the station on May 3, 1977.

The San Francisco district office located and identified the station on May 3, 1977, at 6:10 p.m. at 1859 Geary Blvd., San Francisco, California. While the direction-finding effort was being conducted, monitoring of the station was coordinated with the monitoring net. The communications monitored at this time are included in the violation notice mailed on May 24, 1977, by the Douglas monitoring station. A more complete transcript is included in the Memorandum dated October 28, 1977, from the Douglas monitoring station. It should be noted that the intercept for the other days included on the Form 793 mailed on May 24, 1977, was included based solely on content of communications. There is no probative evidence to indicate that the communications represented by this intercept were actually transmitted by the licensee. In his response to the Form 793 the licensee takes no responsibility for the communications on those days stating only that his station was not under the control of a licensed amateur. He makes no admission as to whether his station was operated on those frequencies at those times.

The San Francisco office conducted an inspection on May 9, 1977. The inspection was prearranged, therefore, the inspection engineers did not perform any preinspection monitoring, assuming it would be fruitless. The station transmitter, at the time of inspection was determined to have input power to the final stage in excess of the 1000 watt maximum. As indicated, there is no evidence that the transmitter was operated at that power.

Mr. Benjamin F. Bowers
Box 4571
San Francisco, CA 94101

To the licensee of Amateur radio station WAGDTJ:

This letter is a Notice of Apparent Liability to Monetary Forfeiture under Section 510 of the Communications Act of 1934, as amended.

You appear to have incurred liability of \$50 for the repeated violation described below:

Failure to identify subject radio station as required in Section 97.57(a) of the Commission's Rules.
(See Section 1.80(c)(2) of the Commission's Rules.)

These violations occurred on April 22, 27 and 28 and May 11, 1977 and February 26, 1978, as you were notified in Official Notices of Violation mailed on May 24, 1977 and March 7, 1978.

Your reply to this forfeiture notice must be made within thirty days from the date on which it is mailed. The enclosed form, describing the procedures available to you in this matter, should be completed and returned to the Commission in the enclosed addressed envelope.

Sincerely yours,
Morris J. DePont

NATURE OF ACTIVITY: Possible misuse of Amateur Radio Service - Peoples Temple, San Francisco, California

REMARKS:

On or about April 12, 1977, Assistant Engineer in Charge, Philip M. Kane received a telephone call from the informant, Ricardo J. Alfaro, 1812 Webster Street, San Francisco, CA concerning a possible misuse of the Amateur Radio Service. According to the informant, licensee of amateur radio station W6FWX, he was receiving a very strong radio signal at his station location. According to the informant, he had reason to believe that an unidentified amateur radio station was being operated from the Peoples Temple, 1859 Geary Blvd., San Francisco, CA 94115. Because of the priority of other duties an immediate investigation was not conducted into this matter.

Subsequently, this office was advised by the Livermore monitoring station (Monitoring Case #77-R-71) that unidentified amateur radio stations were transmitting on 14.346 and 14.257 MHz. According to the FCC Monitoring Branch, the stations were not identifying their transmissions, apparently using coded messages, and all bearing information indicated the source of the transmissions were northeast of the City of San Francisco--Concord, Napa, Vallejo, CA. On April 25, 1977 three investigative vehicles were sent into the area indicated above. During the course of the investigation radio contact was continuously maintained with the Livermore monitoring station. No radio activity was observed. Once again, on April 26, 1977 Investigators James Walker, Donald Browne and S. Marti-Volkoff went to the area of Concord, California in order to locate the source of the unauthorized transmissions. At that time the Livermore monitoring station obtained a number of rough bearings indicating that the station was in a general northwesterly direction from Livermore. Unfortunately the investigators were unable to observe the signals at Concord, California.

The matter was discussed with Chief, Investigative Branch, James Wells on numerous occasions and the District Office was advised to coordinate their search through the Livermore monitoring station. Subsequently, it was decided by the San Francisco District Office to pursue the lead which had been received on April 12, 1977 concerning the possible misuse of the Amateur Radio Service. On May 3, 1977 Investigators David Doon and S. Marti-Volkoff conducted a monitoring surveillance in the vicinity of the Peoples Temple, 1859 Geary Blvd. San Francisco, CA. At approximately 6:10 PM-PDT the station was observed operating on a frequency of 14.2567 MHz. Signal strength runs and directional bearings indicated that the radio signals were emanating from the Peoples Temple. At 6:15 PM-PDT Investigator S. Marti-Volkoff called Livermore monitoring station

and advised that a radio station inspection would be attempted at 6:20 PM-PDT on that date. Subsequently, the investigators attempted an inspection but were denied entry into the guarded compound. After 12 minutes the investigators were escorted by Mr. Eugene Chaikin and Ms. Maria Katsaris to the second floor where the radio equipment was installed. The radio transmitting equipment was warm to the touch and Maria Katsaris freely admitted to operating the radio-transmitter prior to the arrival of the Commission's investigators. According to Mr. Chaikin the station was licensed to Mr. Benjamin F. Bowers, licensee of amateur radio station WA6DTJ - Advance Class, P.O. Box 434, Redwood Valley, CA 94570. Ms. Katsaris stated that she had operated the radio station for approximately two months prior to the inspection without a licensed amateur operator present as Controlling Operator at all times of operation. Further, according to Mr. Chaikin, Mr. Bowers received a telephone call at the same time the Commission's investigators appeared at the front door and was called away on urgent business.

Subsequently, Investigators David Doon and Philip M. Kane conducted an inspection of the amateur radio station on May 9, 1977 in the presence of the licensee, Benjamin F. Bowers. As a result of the inspection an FCC Form 793 dated May 20, 1977 was sent to the licensee for various infractions: specifically Section 97.67A, 97.79B and Section 97.103. The licensee, by undated letter admitted to the infractions and indicated that corrective steps were being initiated to comply with the Commission's Rules and Regulations. The Violation File, FO-981 was sent to headquarters on June 20, 1977. For your information, the San Francisco Chronicle has been running numerous articles concerning the Peoples Temple. Apparently there is ample evidence to indicate that the Temple Leader, Jim Jones is in possible violation of various State Laws. This office has conducted the investigation primarily as an inquiry into the use of amateur radio transmission equipments. According to various law enforcement agencies in San Francisco there exists a strong possibility that the Peoples Temple may be engaged in nefarious acts on an international level. According to local sources the Peoples Temple continues to use coded transmissions to cover up alleged illegal activities.

Honorable Barry Goldwater
United States Senate
Washington, DC 20510

Dear Senator Goldwater:

This is in reference to your correspondence dated October 14, 1977, concerning a letter you received from Mr. Lawrence F. O'Toole, in which Mr. O'Toole was complaining about questionable activities by an amateur radio net.

The stations of the group in question have been detected and monitored by the FCC monitoring network, and have been pinpointed by radio direction finding fixes as being located in Guyana and in the San Francisco Bay area. As a result of the monitoring network's action, the station in the Bay area was inspected by FCC personnel, and the Guyanan stations' activity was notified to the Guyanan Administration.

Further, Notices of Violation have been issued to the United States station — the W4CUI/D/OKI and the W60MS/OKJ are legally Guyanan stations outside this Commission's jurisdiction — and administrative procedures are currently being followed in pursuing a cessation of the net's questionable operation. You may wish to follow-up with Society and Special Radio Services Bureau at a later date concerning the action against the United States station.

I trust the above has been helpful. If I can be of further assistance, please call on me.

Sincerely yours,

C. Phyll Horne

The Honorable Barry Goldwater
Senator from the state of Arizona
The Senate of the United States
Washington, DC 20520

Dear Barry,

I am writing as a concerned amateur to call your attention to a SS3 net of questionable nature currently operating nightly around 14,350 KHz. The group, which identifies itself as either a missionary net or an agricultural project incorporates basically three stations signing amateur call signs W6S DFN, W6S MIB/SRI, and W6S MME/SRS. I have also heard operation in either Spanish or Portuguese as early as 1800 EDT. Although I do not understand either language (beyond the fundamentals needed to request a station to QSY), voice characteristics generally coincide with the later, English, sessions.

This group is misrepresenting itself. Its dialog and general attitude appears to be more interested in either a membership brainwashing campaign or perhaps revolutionary activity. In either case, the operation is a radical departure from the amateur norm.

In the last two evening sessions, participant responses to some deliberate QRM-ing indicated a supposedly high-level US government approval of their activities. One party went so far as to state that President Carter was fully aware of the group. Last evening, one participant (a YL) stated to her father via phone patch that he could not come down to visit her in late September because the government (US or Guyana?) has established a policy suggesting that "no one go down there until December or January", due to harassment the group is receiving here in the States.

The groups' antics, which include some attempts at cryptography, certainly do not belong to the amateur fraternity. Participant usage of ham procedure and jargon indicates only the most vague familiarity. One frequent participant from W6S MME/SRS made the following statement at the end of his "final": "I love you and will be 73-ing you and standing by". The pervading pre-occupation with membership (and un-named opposition) personality analyses and counter-attacks to adverse "publicity" (including mention of libel suits) is radical to amateur radio operation to say the least.

ESA. 32

In consideration of Third Party traffic agreements with Guyana, the "net's" apparent ignorance of fundamental amateur practices, and the potential impact of this activity on the up-coming WARC, I would recommend a discrete inquiry into the true nature of this operation.

I have written a similar letter to ARRL, as League CO's could serve as effective monitors. My purpose in writing to you is threefold: first, since the group mentioned approval of our government, including the President and this activity somehow seems to involve some government policy (ours or Guyana's) the existence of such an organization and its effect on national interest should be documented; second, as a Senator, any inquiry you choose to make will have a much greater effect on any government agency than I could hope to achieve.

I have been monitoring this group at least three to four nights a week for the past eight weeks; it is my belief that the activity is neither a hoax nor legitimate amateur activity. Propagation conditions between California and Guyana have been too erratic and QRM too severe, and participant dedication too dogged to be for fun. I do intend to continue monitoring this net in attempts to decipher its real motivation. Any information you could furnish would be greatly appreciated.

73,

Lawrence F. O'Toole

The station is carrying on business communications. It was cited for this in the Form 793 mailed May 24, 1977, by the Douglas monitoring station. In his reply to that notice, the licensee questions the interpretation of Section 97.114(c) of the Rules. The intercept contained in the Memorandum from Douglas dated October 28, 1977, indicates that the station was carrying on the same type of communication on September 11, 1977.

The station was operated on an unauthorized frequency on September 11, 1977. The licensee admits to having committed this violation.

The station was not under the direct control of a licensed amateur on April 22, 27, 28, and 29, 1977, and on May 3, 1977. This violation was charged on the Form 793 dated May 9, 1977, issued by the San Francisco district office. In his response to that notice the licensee does not admit to committing the violation; however, in his reply to the Form 793 mailed May 24, 1977, he does make the statement that the station was not under the direct supervision or control of a licensed operator on the dates listed above. Note that the allegation in the notice issued by San Francisco refers to a two-month period prior to inspection and is apparently based on the statements of a person present at the station on May 3, 1977.

The San Francisco district office located and identified the station on May 3, 1977, at 6:10 p.m. at 1859 Garry Blvd., San Francisco, California. While the direction-finding effort was being conducted, monitoring of the station was coordinated with the monitoring net. The communications monitored at this time are included in the violation notice mailed on May 24, 1977, by the Douglas monitoring station. A more complete transcript is included in the Memorandum dated October 28, 1977, from the Douglas monitoring station. It should be noted that the intercept for the other days included on the Form 793 mailed on May 24, 1977, was included based solely on content of communications. There is no probative evidence to indicate that the communications represented by this intercept were actually transmitted by the licensee. In his response to the Form 793 the licensee takes no responsibility for the communications on those days stating only that his station was not under the control of a licensed amateur. He makes no admission as to whether his station was operated on those frequencies at those times.

The San Francisco office conducted an inspection on May 9, 1977. The inspection was prearranged, therefore, the inspection engineers did not perform any preinspection monitoring, assuming it would be fruitless. The station transmitter, at the time of inspection was determined to have input power to the final stage in excess of the 1000 watt maximum. As indicated, there is no evidence that the transmitter was operated at that power.

9. VIOLATION(S) NON-COMPLIANCE WITH FCC RULES Part 97

- Section 97.67(a) - At the time of inspection, the DC power input to the final amplifier stage of the Henry 3-K transmitter was measured at 1920 watts under peak modulation, whereas the Rules specify a maximum power input of 1000 watts.
- Section 97.79(b) - The Station was operated at 1859 Geary Boulevard, San Francisco, Ca. for approximately two months prior to inspection without a licensed amateur operator present as control operator at all times of operation.
- Section 97.103 - The station log required by this section was not available for inspection as required. Since the station was operated by personnel and operators other than the station licensee, specific entries were required by Section 97.103(b) for signatures of control operators and notations of third-party traffic.

Dear F.C.C.:

This is a written response to an official notice of violation sent 20 May 1977 and issued by Phillip M. Kane.

With regard to violation of section 97.67(a):

The Henry J-KA is no longer used. Output is now limited to that of a Yaesu FT-101 B alone (130 watts).

With regard to violation of section 97.79(b):

There is now a licensed amateur operator present as control operator at all times.

With regard to violation of section 97.103:

The station log is now kept in accordance with section 97.103 and is available for inspection. It will be kept consistently and is kept in a secure place.

Respectfully,

Dear F.C.C.

This is a written response to an official notice of violation sent May 1, 1978 and issued by William R. Turner, and to another official notice of violation sent May 9, 1978 and issued William R. Turner.

With regards to the violation of May 1, 1978, I can only say once again that I had simply not been acting responsibly as I should have been.

With regards to the violations of May 3, 1978, I am forced to see that I cannot exercise the level of control that a control operator must exercise in a situation like I was in. To that end I am enclosing my current license. I am shocked and embarrassed that this has happened and I apologize for the obvious trouble I have caused you .

You may return my license when and if you see fit. Once again I offer my apologies.

Sincerely,

B. Bowers

Dear Lewny,

Here is some information from my files.

The nature of the traffic on 20 meters between W6GMID/8R3 and W6GDV1 is "business" albeit under the guise of medical, airplane and agricultural project.

It is hard commercial traffic at times (prices, amounts and manufacture of items purchased and shipped to Guyana) Much of the traffic is cryptic business affairs and not personal communication.

It takes a few nights of monitoring to understand this. One hour or one night ~~not~~ taken out of context will not show this. This is far from the principles of Part 97.1a, b, c of the rules and the international 3rd party agreement.

**Voices From
Guyana Back
Rev. Jones**

S.F. Chronicle

About a dozen persons, all of them claiming to be members of the Rev. Jim Jones' People's Temple project in Guyana, South America, called San Francisco on shortwave radio yesterday to claim their happiness with the controversial minister.

The event took place in the offices of attorney Charles Garry, the San Francisco counsel for the Rev. Mr. Jones.

Last week about 25 persons with relatives living with the Rev. Mr. Jones in Guyana appeared at the San Francisco temple at 1659 Geary and demanded they be allowed to visit their kin at his project, named Jonestown.

The group accused the Rev. Mr. Jones of "human rights" violations including prohibition of telephone calls, personal visits and the censorship of mail.

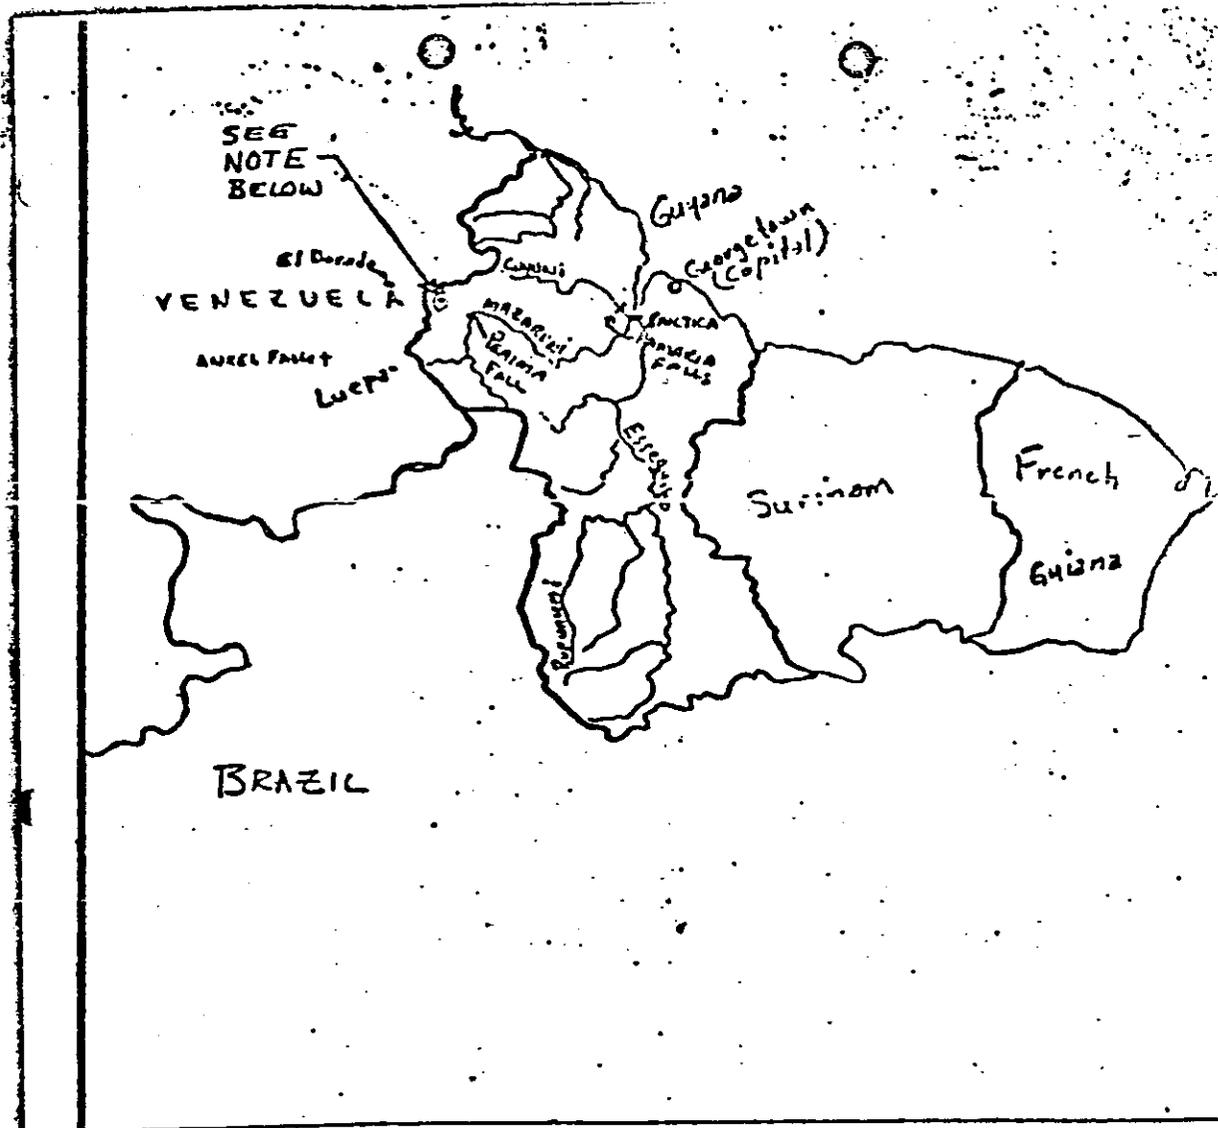

Garry, at the time, called the charges "bull—."

Yesterday's press conference consisted of Jonestonians, included the voices of several teenagers, who denounced their parents and praised their leader.

Another voice, identified as that of Marle Katsaris, 25, whose Ukiah father, Steven A. Katsaris, has helped form Concerned Parents to fight the Rev. Mr. Jones, said, "I can come and go as I please. I want no part of my father. Leave me alone."

The Guyana mission regularly keeps in touch with the San Francisco Temple by shortwave radio.

TEMPLE RADIO MAKES FRIENDS WORLD-WIDE

THE SUN REPORTER, Thursday, February 23, 1978

Peoples Temple Takes To The Air

Rev. Jim Jones, at the Peoples Temple Agricultural Project in Guyana, South America, has initiated a remarkable new project using the temple's ham radio. In just the last few weeks Rev. Jones and a crew of experienced radio operators have made more than 2,000 contacts of friendship and goodwill, to ham radio operators throughout the United States and in other countries.

The purpose of the contacts is to strengthen friendly ties between the United States and Guyana and support Carter's Administration in furnishing needed economic assistance to this newly emerged nation, which is a leader in the Caribbean area of the hemisphere.

Jones has spearheaded this new effort with great energy and persistence. "Radio operators can make wonderful ambassadors," he notes, and "the response has been amazing." The temple has been deeply gratified to find a widespread understanding of the need for nonintervention, mutual coexistence, and aid to America's neighbors to the south.

The agricultural project was begun four years ago, for the joint purpose of providing a

wholesome alternative lifestyle for troubled young persons and to produce food and agricultural technology that can help solve world food problems. The radio is being used extensively as an extension of these humanitarian efforts. Many times the temple has been able to relay requests for medical assistance and other needed help.

One situation involved a child in a neighboring country who was critically ill and needed a

medication that could not be obtained there. Rev. Jones had hundreds of contacts made over the radio, over an area ranging thousands of miles, until the rare medication could be located.

Another remarkable set of contacts involved the delivery of a baby in Jonestown by the doctor there. The baby was a breech birth, and the mother was hemorrhaging. Eleven doctors were called in for consultation over the radio.

The medical complications were handled in an expert manner, and both mother and child are doing very well.

Copies of radio identification numbers the temple has contacted from its Guyanese station are being forwarded to President Carter and many U.S. congressional representatives. The temple is proud to do its part in furthering goodwill for the United States in this part of the world. It has made known its support for the Guyanese policy of nonalignment.

Long-Distance Caesarean

Washington

Dr. Albert Greenfield helped deliver twins by Caesarean section this week, although the patient was more than 2000 miles away in a village in the jungles of Guyana.

Greenfield, an obstetrician, was at home in suburban Bethesda, Md., on Monday night when a neighbor, who is a ham radio operator, said a doctor at the Mission Village clinic in Guyana needed help because a storm prevented the woman from being flown to a hospital. The two doctors began the long-distance consultation. Greenfield said the next day he was told the mother and babies were doing well.

A POTOMAC DOCTOR HELPS DELIVER TWINS 2,000 MILES AWAY

RICHARD HAYMAN

By Mary Ann Kuhn
Washington Star Staff Writer

Dr. Albert A. Greenfield, an obstetrician, was about to retire for the night. He sat in his pajamas in a small room off his bedroom in Potomac, flipping through a medical journal on pediatric and adolescent gynecology.

Two blocks away, his friend, Richard W. Hayman, was turning the dials of his ham radio. He had just been talking to someone in Japan because he is planning a trip there in May.

More than 2,000 thousand miles away in the jungles of Guyana, a country in the northeast corner of South America, a woman two weeks overdue in her seventh pregnancy had been in labor more than 14 hours and was experiencing serious complications.

She couldn't be flown to the nearest hospital, one hour away, because a storm and ground fog prevented planes from taking off at the small airstrip seven miles away. The field is illuminated only by kerosene lamps.

IN THE NEXT few moments, the lives of the Maryland men and the Guyana woman became involved in an unusual medical drama. By the time it was over, the Potomac men had played a major role in the woman's delivery of identical twin girls, one weighing 6 pounds 4 ounces, the other 6 pounds 2 ounces.

At 10 o'clock Monday night, as Hayman was fiddling with the dials on his ham radio in his home at 3903 Colebrook Ave., he picked up an emergency call.

"I heard a doctor on one of the stations with an urgent plea to be connected with an obstetrician," said Hayman, who is vice president of

Hayman Cash Register Co. "He had a woman in South America who was expecting twins. I responded because I felt I could contact an obstetrician."

"I called Dr. Greenfield and I told him I had a medical mission in South America and a pregnant woman who needed medical advice," he said in an interview yesterday. "I asked him if he would help out."

For the next 45 minutes, Greenfield, 40, talked from the phone in his home at 2 Colebrook Court to the doctor in Guyana, giving him instructions on how to perform a Caesarean section on the woman. By using a special apparatus, Hayman was able to "patch" Greenfield's telephone into his ham radio so that the two doctors could carry on a two-way conversation.

WHILE GREENFIELD talked, thousands of ham radio operators here and in other parts of the country tuned in and listened.

One man said that after listening to the instructions he personally thought he could perform the surgery, said Hayman, who has been a ham operator for 20 years. His call letters are K3DML.

"The doctor in the jungle had made a diagnosis of twins by placing his hands on the woman's abdomen," said Greenfield.

"One of the twins was in a head down or vertex position and the other was in a breach or bottom down position."

"I talked him through the entire operation," said Greenfield, an obstetrician for the past 12 years. "I sure was nervous. I wanted to be sure I gave him every detail. I was oversimplifying things."

"After each detail, I'd say, 'Do you follow me?' and he'd say either 'Yes, go on to the next step,' or he'd say, 'Could you repeat that.'"

BY 11 P.M. MONDAY, Greenfield had finished giving instructions for the delivery as well as post-operative orders.

"That was a first for me," said the doctor. "That was the longest-distance consultation I ever had. It was a very novel and thrilling experience."

"We were waiting on pins and needles to hear from the doctor in Guyana."

"Al (Dr. Greenfield) expressed doubt to me personally whether any of them — the mother and twins —

would survive," said Hayman.

On Tuesday night, almost 24 hours later, Hayman and Greenfield called the doctor to find out the results of the operation. Because he was out on another medical emergency, the two Potomac men talked to a woman ham operator there who told them the operation had been successful. She also told them that the facility where the operation took place was called Mission Village in northwest Guyana. It has a medical clinic, an orphanage and an agricultural project, where most of the people are U.S. volunteers. She identified the man who performed the Caesarean, as Dr. Larry Schacht.

"THE OPERATION was very successful, thanks to your help," the woman operator said in a taped recording of the radio conversation which Hayman made.

"This is Dr. Greenfield," said the doctor. "How is the mother?"

"The mother is doing fine," said the woman. "She lost about two pints of blood and she is a little weak, but doing very well. And the babies are extremely healthy."

"Have the babies' lungs been listened to and if so are they clean?" asked Greenfield.

"Roger."
"Were there any mechanical problems doing the actual procedure?" asked Greenfield.

"The procedure went very well thanks to your clear explanation and outlining of the procedures. It went very well. Everybody just followed your blueprint and everything went just fine."

"This is Doctor Greenfield again. I forgot what I was going to say...."

SAFEGUARDING HEALTH — People's Temple nurses Hattie Newell, foreground, and Chris Rice, standing, prepare to examine

Loretta Coomer as part of the church's new health program.

Temple's medical staff begin physical exams

The Peoples Temple team of medical personnel, whose members are in various stages of training and who work in hospitals and care facilities in the community, are giving routine physical examinations at a new office in Redwood Valley.

The service is provided free of charge to the many hundreds of members in Peoples Temple, who are then referred to local doctors if health problems are discovered.

"We do not make any sort of diagnosis if we find that someone has health troubles," said Larry Schacht, a four year medical student. "Our only

them which local doctor they prefer, and we encourage them to make an appointment and to tell the doctor to call us if he so desires."

The Temple medical staff is interested in finding particular health patterns so that the members can take steps through their personal doctors to head-off serious health afflictions by preventative therapy. Members are advised to see their doctor at least once a year and preferably semi-annually for seniors.

"Our pastor, Jim Jones, insists that all of our members get regular exams, with the church paying the cost for members

highest regard for the outstanding medical community in this area, and we want all of our people to benefit from it."

The diet consists mostly of rice, purchased in the Guyana capital of Georgetown because the farm is not expected to be self-sufficient for another three years, she said.

She said that on the occasion of visits from outsiders whom Jones wished to impress, church members are treated to meat and vegetables. Other trusted followers she claimed were drilled to give optimistic opinions about life at the mission, called Jonestown.

Jones, who often went to elaborate lengths to protect his public image in San Francisco, has remained at the mission, refusing even to venture into Georgetown, she reported.

Among his concerns has been a pending child custody case in the Guyana capital.

She said the 1100 followers were told to drink a bitter brown liquid potion, after which they supposedly would fall asleep and then be shot by Jones' guards. The rehearsal went as far as having the community drink a phony potion before Jones called it off, Layton added.

Layton said she was able to leave Guyana by wangling a trip to Georgetown. After several days she secretly arranged with American consular officials to obtain an emergency passport and flew to New York on May 13. She is now living in San Francisco.

"Everyone there wants to leave, I'm sure of it," she said. "But you never get a chance to be alone. Everyone is told to spy on other people."

Inside Peoples Temple

By Marshall Kilduff and Phil Tracy

"... Jim Jones is one the state's most politically potent leaders. But who is he? And what's going on behind his church's locked doors?..."

For Rosalynn Carter, it was the last stop in an early September campaign tour that had taken her over half of California, a state where her husband Jimmy was weak. So Rosalynn gamely encouraged the crowd of 750 that had gathered for the grand opening of the San Francisco Democratic party headquarters in a seedy downtown storefront. She smiled bravely despite the heat.

Mrs. Carter finished her little pep talk to mild applause. Several other Democratic bigwigs got polite receptions, too. Only one speaker aroused the crowd; he was the Reverend Jim Jones, the founding pastor of Peoples Temple, a small community church located in the city's Fillmore section. Jones spoke briefly and avoided endorsing Carter directly. But his words were met with what seemed like a wall-pounding outpour. A minute and a half later the cheers died down.

"It was embarrassing," said a rally organizer. "The wife of a guy who was going to the White House was shown up by somebody named Jones."

If Rosalynn Carter was surprised, she shouldn't have been. The crowd belonged to Jones. Some 600 of the 750 stenographers were delivered in temple buses an hour and a half before the rally. The organizer, who had called Jones for help, remembered how gratified she'd be when she first saw the Jones followers spilling out the buses. "You would have seen it—old ladies onutches, whole families, little kids, blacks, whites. Made to order," said the organizer, who had correctly feared that about Jones Mrs. Carter might have used a half-empty room.

"Then we noticed things like the dyguards," she continued. "Jones had

his own security force (with him), and the Secret Service guys were having fits," she said. "They wanted to know who all these black guys were, standing outside with their arms folded."

The next morning more than 100 letters arrived. "They were really all the same," she said. "Thanks for the rally, and, say, that Jim Jones was so inspirational. Look, we never get mail, so we notice one letter, but 100?" She added, "They had to be mailed before the rally to arrive the next day."

But what surprised that organizer was really not that special. She just got a look at some of the methods Jim Jones has used to make himself one of the most politically potent religious leaders in the history of the state.

Jim Jones counts among his friends several of California's well-known public officials. San Francisco mayor George Moscone has made several visits to Jones's San Francisco temple, on Geary Street, as have the city's district attorney Joe Freitas and sheriff Richard Hongisto. And Governor Jerry Brown has visited at least once. Also, Los Angeles mayor Tom Bradley has been a guest at Jones's Los Angeles temple. Lieutenant Governor Mervyn Dymally went so far as to visit Jones's 27,000-acre agricultural station in Guyana, South America, and he pronounced himself impressed. What's more, when Walter Mondale came campaigning for the vice-presidency in San Francisco last fall, Jim Jones was one of the few people invited aboard his chartered jet for a private visit. Last December Jones was appointed to head the city's Housing Authority Commission.

The source of Jones's political clout is not very difficult to divine. As one politically astute executive puts it: "He controls votes." And voters. During San Francisco's run-off election for mayor in December of 1975, some 150 temple

members walked precincts to get out the vote for George Moscone, who won by a slim 4,000 votes. "They're well-dressed, polite and they're all registered to vote," said one Moscone campaign official.

Can you win office in San Francisco without Jones? "In a tight race like the ones that George or Freitas or Hongisto had, forget it without Jones," said State Assemblyman Willie Brown, who describes himself as an admirer of Jones's.

Jones, who has several adopted children of differing racial backgrounds, is more than a political force. He and his church are noted for social and medical programs, which are centered in his three-story structure on Geary Street. Temple members support and staff a free diagnostic and outpatient clinic, a physical therapy facility, a drug program that claims to have rehabilitated some 300 addicts and a legal aid program for about 200 people a month. In addition, the temple's free dining hall is said to feed more indigents than the city's venerable St. Anthony's dining room. And temple spokesmen say that these services to the needy are financed internally, without a cent of government or foundation money.

Jones and his temple are also applauded for their ardent support of a free press. Last September Jones and his followers participated in a widely publicized demonstration in support of the four Fresno newsmen who went to jail rather than reveal their confidential news sources. The temple also contributed \$4,400 to twelve California newspapers—including the San Francisco Chronicle—for use "in the defense of a free press," and once gave \$4,000 to the defense of Los Angeles Times reporter Bill Farr, who also went to jail for refusing to name a news source.

In addition, at Jones's direction the temple makes regular contributions to

San Francisco Chronicle Reporter Marshall Kilduff and New West contributing host Phil Tracy were assisted by freelance woman George Ahneman.

The holy host: At a 1976 temple lunch, Reverend Jones sat between two friends, S.F. mayor Moscone (left) and Lieutenant Governor Dymally.

several community groups, including the Telegraph Hill Neighborhood Center and Health Clinic, the NAACP, the ACLU and the farmworkers' union. When a local pet clinic was in trouble, Peoples Temple provided the money needed to keep it open. The temple has also set up a fund for the widows of slain policemen, and the congregation runs an escort service for senior citizens.

To many, the Reverend Jim Jones is the epitome of a selfless Christian.

The reverend was born James Thurman Jones, and grew up in the Indiana town of Lynn. While attending Butler University in Indianapolis, where he received his degree in education, Jones opened his first temple (in downtown Indianapolis). Although he had no formal training as a minister and was not affiliated with any church, his temple grew. It featured an active social program, including a "free" restaurant for the down-and-out. And the congregation was integrated, a courageous commitment in the years before Martin Luther King became a national figure—particularly in Indianapolis, once the site of the Ku Klux Klan's national office.

Then at around Christmas of 1961,

according to a former associate named Ross Case, Jones had a vision. He saw Indianapolis being consumed in a holocaust, presumably a nuclear explosion. Fortunately for him, *Esquire* had just run an article on the nine safest spots in the event of nuclear war. Eureka, California, was called the safest location; another safe area was Belo Horizonte, Brazil. Jones headed for Belo Horizonte, and Case went to Northern California.

Jones eventually returned and visited Case in Ukiah. Jones liked California, and twelve years ago this month, he and his wife Marceline incorporated Peoples Temple in California; Jones and some 100 faithful settled in Redwood Valley, a hamlet outside Ukiah.

Jones's congregation grew, and he soon became a political force in Mendocino County. In off-year elections, where the total vote was around 2,500, Jones could control 300 to 400 ballots, or nearly 16 percent of the vote. "I could show anybody the tallies by precinct and pick out the Jones vote," says Al Barbero, county supervisor from Redwood Valley.

Then, in 1970, Jones started holding services in San Francisco; one year later he bought the Geary Street temple. And later that same year, he expanded to Los

Angeles by taking over a synagogue on South Alvarado Street.

One success followed another, and his flock grew to an estimated 20,000. Jones's California mission seemed blessed.

Although Jones's name is well-known, especially among the politicians and the powerful, he remains surrounded by mystery. For example, his Peoples Temple has two sets of locked doors, guards patrolling the aisles during services and a policy of barring passersby from dropping by unannounced on Sunday mornings. His bimonthly newspaper, *Peoples Forum*, regularly exalts socialism, praises Huey Newton and Angela Davis and forecasts a government takeover by American Nazis. And though Jones is a white fundamentalist minister, his congregation is roughly 80 percent to 90 percent black.

How does Jones manage to appeal to so many kinds of people? Where does he get the money to operate his church's programs, or maintain his fleet of buses, or support his agricultural outpost in Guyana? Why does he surround himself with bodyguards—as many as fifteen at a time? And above all, what is going on behind the locked and guarded doors of Peoples Temple?

Ten Who Quit the Temple Speak Out

Beginning two months ago, when it became known that *New West* was researching an article on Peoples Temple, the magazine, its editors and advertisers were subjected to a bizarre letter-and-telephone campaign. At its height, our editorial offices in San Francisco and Los Angeles were each receiving as many as 50 phone calls and 70 letters a day. The great majority of the letters and calls came from temple members and

supporters, as well as such prominent Californians as Lieutenant Governor Mervyn Dymally, Delancey Street founder John Maher, San Francisco businessman Cyril Magnin, and savings and loan executive Anthony Frank. The messages were much the same: We hear *New West* is going to attack Jim Jones in print; don't do that. He's a good man who does good works.

The flood of calls and letters attracted

wide attention, which, in turn, prompted newsman Bill Barnes to report the campaign in the San Francisco *Examiner*. The *Examiner* also reported an unconfirmed break-in one week later at our San Francisco office.

After the Barnes article, we began getting phone calls from former temple members. At first, while insisting on anonymity, the callers volunteered "background" about Jim Jones's "cruel-

screamed,' said a member. 'And he still held that snake there' . . ."

were donations from other temple members. Walt is uncertain how much of the approximate total of \$2,000 a month of county funds earmarked for the upkeep of his boys actually ended up in his hands; his wife kept the books. But, he claimed, "it was very inadequate."

After the Joneses were granted their own license in 1975, the checks from the Alameda County Probation Department (which placed the boys in the home) were made out to him and his wife. "But still the church requested that we turn over what remained of the funds," says Walt Jones. "Approximately \$900 to \$1,000 [per month] were turned over to the church." And he added, "I do remember that there were times when all of the checks were signed over to the church."

Laura Cornelious of Oakland

Laura Cornelious was one of the privates in the Peoples Temple's army. She was in the temple about five years before leaving in 1975—just one of dozens of elderly black grandmothers who attend each meeting of the San Francisco Housing Authority Commission that Jim Jones chairs.

The first thing that bothered her was the constant requests for money. "After I was in some time," she says, "it was made known to us that we were supposed to pay 25 percent of our earnings [the usual sum, according to practically all the former members that we interviewed]." It was called "the commitment." For those who could not meet the commitment, she says, there were alternatives, like baking cakes to sell at Sunday services—or donating their jewelry. "He said that we didn't need the watches—my best watch," she recalls sadly. "He said we didn't need homes—give the homes, furs, all of the best things you own."

Some blacks gave out of fear—fear that they could end up in concentration camps. The money was needed, she was told, "to build up this other place [Guyana—the 'promised land'], so we would have someplace to go whenever they [the fascists in this country] were going to destroy us like they did the Jews. [Jones said] that they would put [black people] in concentration camps, and that they would do us like the Jews . . . in the gas ovens."

Laura Cornelious was also bothered by the frisking of temple members (but never dignitaries) before each service. "You even were asked to raise up on your

toes [to check] your shoes."

The final straw, she says, came the night Jones brought a snake into the services. "Vivola . . . she was up in age, in her eighties, and she was so afraid of snakes and he held the snake close to her [chest] and she just sat there and screamed. And he still held it there."

Grace Stoen of San Francisco

Grace Stoen was a leader among the temple hierarchy, though she was never a true believer. Her husband Tim was the temple's top attorney, and one of its first prominent converts. Later, while still a church insider, he became an

assistant D.A. of Mendocino County, and then an assistant D.A. under San Francisco D.A. Joe Freitas. Tim resigned to go to Jones's Guyana retreat in April of this year.

Grace agreed to join the temple when she married Tim in 1970, and gradually she acquired enormous authority. She was head counselor, and at the Wednesday night family meetings, she would pass to Jones the names of the members to be disciplined.

She was also the record keeper for seven temple businesses. She paid out from \$30,000 to \$50,000 per month for the auto and bus garage bills, and also doled out the slim temple wages. And she was one of several church notaries. She kept a notary book, a kind of log of documents that she officially witnessed: pages of entries including power-of-attorney statements, deeds of trust, guardianship papers, and so on,

signed by temple members and officials.

She recalled why Jones decided to aim for Los Angeles and San Francisco. "Jim would say, 'If we stay here in the valley, we're wasted. We could make it to the big time in San Francisco.'"

And expanding to Los Angeles, Jones told his aides, "was worth \$15,000 to \$25,000 a weekend."

During the expansion in 1972, members would pile into the buses at 5 p.m. on a Friday night in Redwood Valley, stop at the San Francisco temple for a meeting that might last until midnight and then drive through the night to arrive in Los Angeles Saturday in time for six-hour services. On Sunday, church would start at 11 a.m. and end at 5 p.m. Then, the Redwood Valley members would pile back on the buses for the long trip home; they would arrive by daybreak Monday.

Some of the inner circle, like Grace Stoen, rode on Jim's own bus, number seven. "The last two seats and the whole back seat were taken out and a door put across it," she said. "Inside there was a refrigerator, a sink, a bed and a plate of steel in the back so nobody could ever shoot Jim. The money was kept back there in a compartment." According to attendance slips she collected, the other 43-seat buses sometimes held 70 to 80 riders.

Jones's goal in San Francisco, Grace said, was to become a political force. His first move was to ingratiate himself with fellow liberal and leftist figures—D.A. Freitas, Sheriff Hongisto, Police Chief Charles Gain, Dennis Barks, Angela Davis.

Sometimes Jones nearly tripped up. Once, said Grace, when Freitas and his wife dropped in unexpectedly, temple aides quickly pulled them into a side room and sent word to Jones in the upstairs meeting hall. Just in time. The pastor was wrapped up in one of his "silly little things," said Grace. "He was having everybody shout 'Shit! Shit! Shit!' to teach them not to be so hypocritical." When Freitas was shown in, everyone just laughed at the puzzled district attorney. (D.A. Freitas confirms making an unexpected visit to the temple, but does not recall anyone using the word *shit*.)

Jones became impatient at the pace of his success. Eventually Mayor Moscone placed Jones on the Housing Authority Commission, and then intervened to assure him the chairmanship.

Strangely, as Jones's successes mounted, so did the pressures inside his

1968 because her husband had a liver ailment. She had hoped Jones might be the healer to save him.

On one of the trips to services in Redwood Valley, Matabile noticed Jones's aides taking some children aside and asking, "What color house did my friend have, things like that," she says. "Then during the services, Jim called [one woman] out and told her the answers that the children had given as though no one had told him."

She became skeptical of Jones after that, and remained skeptical when her husband's health did not improve; the cancer "cures" Jones was performing seemed phony to her. Yet eventually she moved to Ukiah and ran a rest home for temple members at Jim's suggestion.

One summer she was talked into taking a three-week temple "vacation" through the South and East. "Everybody paid \$200 to go on the trip, but I told them I wasn't able to do so," she added.

The temple buses were loaded up in San Francisco, and more members were packed aboard in Los Angeles. "It was terrible. It was overcrowded. There were people sitting on the floor, in the luggage rack, and sometimes people [were] underneath in the compartment where they put the bags," she said. "I saw some things that really put me wise to everything," she added. "I saw how they treated the old people." The bathrooms were frequently stopped up. For food, sometimes a cold can of beans was opened and passed around.

"I decided to leave the church when I got back. I said when I get through telling people about this trip, ain't nobody going to want to go no more. [But] as soon as we arrived back, Jim said, '... don't say nothing.'" She left the church in silence.

Wayne Pietila of Petaluma And Jim and Terri Cobb of San Francisco

Wayne Pietila and Jim Cobb guarded the cancers. "If anyone tried to touch them, we were supposed to eat the cancers or demolish the guy," said Cobb, who is six-feet, two-inches tall. Pietila was licensed by the Mendocino County Sheriff's Department to carry a concealed weapon; reportedly he was one of several Jones aides with such a permit.

It was during the Redwood Valley healing sessions in 1970, when nervous hope for relief from the pains of age spread among the congregation, that Cobb and Pietila would guard the cancers. Finally Jones would ask for someone who believed herself to be suffering from cancer. That was the signal for Cobb's sister, Terri, to slip into a side restroom and show out whomever might be

there. Then Jones's wife Marelene and a trembling excited old woman would disappear into the stall for a moment. Marelene would emerge holding a foul-smelling scrap of something cupped in a napkin—a cancer "passed." Marelene and the old woman would return to the main room to screams, applause, a thunder of music. Jim Jones had healed again.

But one time, Terri got a chance to look into the "cancer bag." "It was full of napkins and small bits of meat, individually wrapped. They looked like chicken gizzards. I was shocked."

Wayne Pietila recalled another healing incident. On the eve of a trip to Seattle in 1970 or 1971, as Jones was leaving his house, a shot cracked out and he fell. "There was blood all around and people [were] screaming and crying, just hysterical." Jones was lifted to his feet and helped to his house. A few minutes

later, Jones walked out of the house with a clean shirt on. "He said he'd healed himself," Pietila said. "He used [the incident] for his preaching during the whole Seattle trip."

Micki Touchette of San Francisco

The Touchette family followed Jones to California in 1970. They lived in Stockton for a while, then moved up to Redwood Valley, where they bought a house and converted it into a home for emotionally disturbed boys.

During 1972 and 1973 Micki and other temple members were expected to travel to Los Angeles services every other weekend. One of her jobs was to count the money after offerings. Micki, a junior-college graduate, had the combination to the temple's Los Angeles safe. She says, "It was very simple to take in \$15,000 in a

week. ... and this was [four] years ago. [The] ... larger offerings, Jones] ... we've only collected \$500 or \$700 ... if we would have [in reality] ... and."

In ... to attending Wednesday night family meetings and weekend services, Micki also was part of letter-writing efforts directed by church officials. "We'd write various politicians throughout the state, throughout the country, in praise of something that they had done. I wrote Nixon, wrote [funny]; I remember writing the chief of the San Francisco Police Department," she said. Micki, who lived in temple houses apart from her parents, would often be handed a sheet listing the points she would have to include in the letter. "It would tell you how and what to say and you'd word it yourself." She says she also would regularly use aliases she made up.

When Micki left the church in 1973 along with seven other young people, including Terri and Jim Cobb and Wayne Pietila, none warned their parents or other relatives. "We felt that our parents, our families, ... would just fight us and try to make us stay." Furthermore, they were all frightened. "At one point we had been told that any college student who was going to leave the church would be killed ... not by Jones, but by some of his followers." Both Terri and Cobb recall the statement being made—by Jones.

Walter Jones of San Francisco

When Walt Jones, who never believed in the church, followed his wife Carol to Redwood Valley in 1974, Jim Jones asked them to take over a home for emotionally disturbed boys. The home belonged to Charles and Joyce Touchette. Micki Touchette's parents, Walt says he was told that the Touchettes were in Guyana, and that the people who had replaced them, Rick and Carol Stah had done such a poor job that "the car home, at that time, was under surveillance of the authorities because of the poor conditions. Some of the boys had scabies due to the filth."

In 1974 and early 1975, before Walt and his wife were granted a license to run the home, county checks (of approximately \$325 to \$350 per month for each child) for the upkeep of the boys were made out to the Touchettes and cashed by a church member who had the power of attorney. "The checks," says Walt, "were turned over to someone in charge of all the funds [for the church care homes] at the time. [The temple] allotted us what they felt were sufficient funds for the home and supplied us with foodstuffs and various articles of clothing." Jones says the food was mostly canned staples, and the cloth

screamed,' said a member. 'And he still held that snake there' . . ."

were donations from other temple members. Walt is uncertain how much of the approximate total of \$2,000 a month of county funds earmarked for the upkeep of his boys actually ended up in his hands; his wife kept the books. But, he claimed, "it was very inadequate."

After the Joneses were granted their own license in 1975, the checks from the Alameda County Probation Department (which placed the boys in the home) were made out to him and his wife. "But still the church requested that we turn over what remained of the funds," says Walt Jones. "Approximately \$900 to \$1,000 [per month] were turned over to the church." And he added, "I do remember that there were times when all of the checks were signed over to the church."

Laura Cornelious of Oakland

Laura Cornelious was one of the privates in the Peoples Temple's army. She was in the temple about five years before leaving in 1975—just one of dozens of elderly black grandmothers who attend each meeting of the San Francisco Housing Authority Commission that Jim Jones chairs.

The first thing that bothered her was the constant requests for money. "After I was in some time," she says, "it was made known to us that we were supposed to pay 25 percent of our earnings [the usual sum, according to practically all the former members that we interviewed]. It was called 'the commitment.' For those who could not meet the commitment, she says, there were alternatives, like baking cakes to sell at Sunday services—or donating their jewelry. "He said that we didn't need the watches—my best watch," she recalls sadly. "He said we didn't need homes—give the homes, furs, all of the best things you own."

Some blacks gave out of fear—fear that they could end up in concentration camps. The money was needed, she was told, "to build up this other place [Guyana—the 'promised land'], so we would have someplace to go whenever they [the fascists in this country] were going to destroy us like they did the Jews. [Jones said] that they would put [black people] in concentration camps, and that they would do us like the Jews . . . in the gas ovens."

Laura Cornelious was also bothered by the frisking of temple members (but never dignitaries) before each service. "You even were asked to raise up on your

toes [to check] your shoes."

The final straw, she says, came the night Jones brought a snake into the services. "Viola . . . she was up in age, in her eighties, and she was so afraid of snakes and he held the snake close to her [chest] and she just sat there and screamed. And he still held it there."

Grace Stoen of San Francisco

Grace Stoen was a leader among the temple hierarchy, though she was never a true believer. Her husband Tim was the temple's top attorney, and one of its first prominent converts. Later, while still a church insider, he became an

temple. "We were going to more and more meetings," said Stoen. "[And] if anyone was getting too much sleep—say, six hours a night—they were in trouble." On one occasion, she said, a man was vomited and urinated on.

In July of 1976, after a three-week

temple bus trip, her morale was ebbing lower, her friends were muttering about her, and there were rumors that Jones was unhappy with a number of members. "I packed my things and left [without telling Tim]. I couldn't trust him. He'd tell Jim."

She drove to Lake Tahoe and spent the July fourth weekend lying on a warm beach. She dug her toes in the sand, stretched her arms and tried to relax. "But every time I turned over I looked around to see if any of the temple members had tracked me down."

Why Jim Jones Should Be Investigated

It is literally impossible to guess how much money and property people gave Jim Jones in the twelve years since he moved his Peoples Temple to California. Some, like Laura Cornelius, gave small things like watches or rings. Others, like Walt Jones, sold their homes and gave the proceeds to the temple.

According to nearly all the former temple members that we have spoken with, extensive, continuous pressure was put on members to deed their homes to the temple. Many complied. A brief reading of the records on file at the Mendocino County recorder's office shows that some 30 pieces of property were transferred from individuals to the temple during the years 1968 to 1976. Nearly all these parcels were recorded as gifts.

Interestingly, several of the "gifts" were signed or recorded improperly. The deed to a piece of property signed by Grace and Timothy Stoen was notarized on June 20, 1976. Grace Stoen told *New West* that on that date, when she was supposed to be in Mendocino signing the deed before a temple notary, she and several hundred temple members were in New York City. Grace Stoen said she signed the deed under pressure from her husband, Tim, months before it was notarized. And similar irregularities appear on a deed the Meriles turned over to the temple. A thorough investigation of the circumstances surrounding the transfers of the properties is clearly required.

In the last few issues of *Peoples Forum*, the temple newspaper, there are several references to the claim that 130 disturbed or incorrigible youths were being sent to the temple's Guyana mission. A church spokesman confirmed that these youngsters were released to the temple by "federal courts, state courts, probation departments" and other agencies. An article in the July issue of the temple newspaper on the Guyana mission's youth program reports that, "In certain cases when a young person is testing the environment... physical discipline has

produced the necessary change." The article goes on to describe a "wrestling match" that sounds all too similar to the "boxing matches" some former temple members described. If there is even the slightest chance of mistreatment of the 130 youths the temple claims to have under its guidance in Guyana, a complete investigation by both state and federal authorities would be required.

An investigation of the "care homes" run by the temple or temple members in Redwood Valley may also be in order. Both Walt Jones and Micki Touchette have stated that anywhere from \$800 to \$1,000 of the monthly funds provided by the state for the care of the six boys in the Touchette home were actually funneled to the temple. If those figures are accurate, as much as \$38,000 to \$48,000 may have been channeled into the church's coffers during the four years the Touchette home was open. It is known that at least two other "care homes" for boys were run by the church or its members. In addition, at least six residential homes licensed by Mendocino County were owned or operated by the temple. They housed from six to fourteen senior citizens each, and the county provided upwards of \$325 per month per individual. An investigation should be launched immediately to determine if any of the money paid for the care of the elderly actually went to the temple.

Files at the Mendocino County recorder's office show that the temple has sold off a number of its properties. The Redwood Valley temple itself is currently for sale for an estimated \$225,000. The Los Angeles temple is also for sale. The three Mendocino "care homes" that are still operating are up for sale. Several former temple members believe Jones and a few hundred of his closest followers may be planning to leave for Guyana no later than September of this year. The ex-members we interviewed had the ability to walk away from the temple once they found the courage to do it. Whether the church will permit

these who move to Guyana the option of ever leaving is questionable.

Jones has been in Guyana for the last three weeks and was unavailable to us as this magazine article went to press. In a phone interview, two spokesmen for the temple, Mike Prokes and Gene Chaikin, denied all of the allegations made by the former temple members we interviewed. Specifically, they denied any harassment, coercion or physical abuse of temple members. They denied that the church attempted to force members to donate their property or homes. They also denied that Jones faked beatings. They confirmed that the temple's churches and property in Redwood Valley and Los Angeles are for sale, but went on to deny that Jones's closest followers are planning to relocate in Guyana any time soon.

Finally, something must be said about the numerous public officials and political figures who openly courted and befriended Jim Jones. While it appears that none of the public officials from Governor Brown on down knew about the inner world of Peoples Temple, they have left the impression that they used Jones to deliver votes at election time and never asked any questions. They never asked about the bodyguards. Never asked about the church's locked doors. Never asked why Jones's followers were so obsessively protective of him. And apparently, some never asked because they didn't want to know.

The story of Jim Jones and his Peoples Temple is not over. In fact, it has only begun to be told. If there is any solace to be gained from the tale of exploitation and human foible told by the former temple members in these pages, it is that even such a power as Jim Jones cannot always contain his followers. Those who left had nowhere to go and every reason to fear pursuit. Yet they persevered. If Jones is ever to be stripped of his power it will not be because of vendetta or persecution, but rather because of the courage of those people who stepped forward and spoke out.

Guyana Mission

Peoples Temple Exodus Speeding

By Marshall Kilduff

Controversial Peoples Temple stepped up the pace of its exodus from San Francisco to the Guyana jungle where it appears unlikely the church will maintain its powerful political and social base here.

Investigators from the district attorney's office, who have been keeping tabs on the church's activities, learned yesterday that more than 200 church members have left the Bay Area aboard temple buses for Miami, where they board flights for Guyana.

That South American country is becoming the new home for the reticent chapel and its leader, Rev. Jim Jones, according to a half-hour interview conducted by The Honolulu Advertiser with former members.

Signs of the church's shift to Guyana include reports of late-night departures of temple buses from the rear parking lot of the temple at 1809 Geary boulevard, cries of chapel members abruptly quitting their jobs and special operations being made to ship belongings overseas.

Such developments lend credence to earlier reports that the shuttered Fillmore district church is considering such a departure.

Jones, a Disciples of Christ minister who has strong political connections with state and local liberal politicians, has been the focus of a series of bizarre charges.

In a News West magazine story published last month, Jones was charged with beating his followers, maintaining discipline, faking medical healings to win new recruits and acquiring large sums of money and property from members.

Though such notoriety may be a factor in a stepped-up pace of the church's departure, former members indicated that Jones started to move to Guyana about six months ago.

At that time, vehicles with two or three families and a rental trailer filled with suitcases were dispatched from San Francisco to Miami.

The families were told to stay in cheap motels, often sneaking eight or ten people in a room, until church officials made arrangements for flights and boat trips to the church's agricultural mission.

The numbers involved in such a movement have grown to the point where a representative of Dutch Antillean Airlines confirmed yesterday that 25 members of the church took a flight to Guyana last Saturday.

There also were small bits of personal evidence that the exodus was under way. Lalora Towne, a chambermaid for 15 years at the Carlton Hotel at 1075 Sutter street, phoned her supervisor at midnight last Thursday to say she had to leave town immediately. Two of her friends confirmed she was a member of Peoples Temple.

Another woman, a nurse with a Fillmore district podiatrist, said she has to leave her job "to take care of some business back east." Her employer said she was a member of the church.

District Attorney investigators also have received a report that 20 to 40 members of the church who live in an apartment at 1029 Geary boulevard have left for Guyana.

There was also plainer evidence that the church was planning a major move from the San Francisco area.

An open air construction area in the rear of the temple has been set up to nail together plywood shipping crates apparently for transporting goods to Guyana.

Two weeks ago, two flatbed trailers were loaded with the crates which were stencilled with the Guyana address of the church mission. The trailers, which are registered to church member Leon...

In addition the church purchased 200 55-gallon metal drums for \$249 from the Bedini's Drum Co. of 1212 Thomas avenue, San Francisco.

According to Ernie Bedini, church member Norman Jones said the drums were to be used for shipping food and clothing overseas.

Bedini said the church purchased rubber baskets for barrels so that the contents of drums could be pressurized and sealed tight against the effects of tropical humidity during shipment.

Bedini said James took 20 of the barrels, and on inspection yesterday, several dozen were scattered around the plywood center assembly area.

District attorney investigators said yesterday they have interviewed between 50 to 60 former members of the church in the past two and half weeks.

It was from such interviews that the investigators have had their estimation of more than 200 members being sent to Guyana.

Charles Garry, the attorney representing the church, said the departures were explained to temple members as "not unusual."

"You know they have a mission down there, and people have come and go between the two places."

Garry said he had been invited by the church to visit the mission farm.

Former members of the church have described the mission as a down-to-dark hardship which Jones passed off as "Promised Land" to his followers.

The Guyanese government granted him several thousand acres in the wilderness area along the Venezuelan border. The government has been told to dub the mission "Jones-town" in honor of its creator.

Don Swinney, whose parents pressured the church into returning him from the Guyana outpost in January of 1978, said he was worked hard and treated poorly.

"If they thought you didn't do enough work, they wouldn't feed you," he said.

He said he was put to work digging ditches and gardening. He lost 30 pounds during his year's stay at the farm, Swinney said.

Other former members said the mission was also a hard learning experience for church members who knew little about farming, carpentry, plumbing or electricity.

Walt Jones, Jr. was sent for a two-month stay in March and April of 1978 to help straighten out the hapless church newcomers.

"The sanitation system was backing up and they had just burned out a \$6000 GMC diesel," he said.

The church had also bought a \$15,000 sawmill but ordered the wrong saw blades which wore out right away, Jones said.

"The place had possibilities. It wasn't so bad even though it rained quite a bit of the time and there were mosquitoes and flies," Jones said.

When he was there, there were 30 people, mostly adult men assigned to do the physical work of setting up the settlement.

Church publications state there are now 130 people, and 20 to 30 are juveniles who have been sent there to keep them out of further trouble with the law back home.

But former church members claim most of the children cited in such temple press releases were abused by their parents and became troublemakers while growing up in church surroundings.

...That's what made it so hard for us to leave. We had nowhere to go and nothing to fall back on," Mertle said.

The church has reported publicly that its yearly budget is \$600,000. The temple is not required to report its finances to either the Internal Revenue Service or state officials.

But such expenditures did not match the enormous sums that accumulated, according to former members.

"It (the money) became almost a joke with Jim," said one woman who was a top adviser and notary who witnessed scores of church legal documents.

"We used to wonder what to do with it all. But we never spent it on much," she said.

Questions about the temple's finances were raised in earlier press investigations of Jones, a Disciples of Christ minister who moved to Redwood Valley from Indianapolis with a group of about 100 followers in 1965.

Jones reportedly built a large following, especially among inner-city blacks in San Francisco and Los Angeles, with his abilities as a faith-healer who proclaimed a vision of an integrated and socialist society.

Former members said Jones ordered beatings of his followers to maintain discipline, faked the healings and devoted most of his time to collecting money and cultivating politicians.

Church spokesmen claim Jones built up a 2,000-member congregation in the state, but former members said the true figure was closer to 300.

This lower number of serious followers along with the fact that many of them are elderly and on small incomes have suggested to observers that the church could not have accumulated very much money.

But those members interviewed said the temple used a variety of techniques to father money from its followers and to raise substantial sums beyond its membership.

Members were asked to contribute a quarter of their income within several months of joining the church. This portion was raised to a third and finally 40 per cent for some, former members have said.

Other members lived in communes set up in the Ukiah, Redwood Valley and San Francisco areas.

Jackie Swinney, a former member who headed commune finances, said the living arrangements were designed so that members turned over checks and received living expenses in return.

"We were clearing \$8000 to \$10,000 per month when we were just in Redwood City," she said.

The church is believed to have at least 12 such communes, many with up to 100 people each, scattered through the Fillmore district here.

Swinney also supervised the money-counters who toted up the receipts during marathon weekend services that Jones held in Redwood Valley, San Francisco and Los Angeles.

"On a good day in Los Angeles during 1973 and 1974, we'd handle \$20,000 to \$25,000," she said.

"San Francisco was sometimes as good. It was all small bills and change. Now and then we'd have some jewelry, too," Swinney added.

"We had a series of banks we used from Ukiah to Lakeport," said one woman who frequently handled the bank deposits.

Sandy Parks, a former member who worked in the church's legal and financial office, said that temple leaders were careful to spread their money among the accounts so as to avoid a large sum in one or two that bank or government officials would judge as suspicious.

Parks also said she typed up, "maybe 50" applications from church members seeking to cash in their life insurance policies.

Deanna Mertle and her husband Elmer ran the church publications. It was their job, they said, to study financial mailings from other faith leaders and recommend a monthly newsletter.

Deanna Mertle

"The church is believed to have at least 12 such communes, many with up to 100 people each, scattered through the Fillmore district here."

Aside from such routine methods, there were larger sums that accrued to the church through property transfers.

Between 1967 and 1974, present the church or its officials were involved in 22 recorded real estate transactions, many of these amounted to gifts of property to the church.

The church has reportedly been pulling out of the Ukiah area and has paid out some \$100,000 in legal fees.

Deanna Mertle

The Edwards couple left San Francisco last spring on 14 days' notice, their family told the Chronicle, and the two are expected to be in Guyana with the church.

Thus, their property was left in their absence. Temple secretary Jean F. Brown had the help of an attorney and signed documents prepared by the lawyer Gene Chaikin.

But the average temple member is not in any position to contribute to the church such wealth, members claim. One example is Jesse Boyd, an elderly black woman who lives in a two-bedroom apartment run by the San Francisco Housing Authority at Ellis street.

She pays a quarter of her income of \$471 per month as rent and paid another quarter to the church until she left in January of this year.

In her 64 years as a follower of Jones, she signed checks payable to the church totaling \$119. These checks were deposited into four different church bank accounts: Bank of America, Bank of America, Wells Fargo, all in Utah, and the Bank of Montreal in San Francisco.

She also baked seven or eight cakes every week. "I might all the fixings myself, but the church would take it to the Safeway or Albert's and sell each one for \$5."

"I can't tell you how much I have given in little bits of money," she said.

Temple spokesmen contend that such contributions go toward a wide array of free church services such as local medical care and counseling.

Jones himself has stated the Guyana mission has cost his church upwards of \$1 million since the first established settlement in 1972.

The Guyana outpost, to which Jones has retreated since the controversy began about a year ago, apparently has been the destination of much of the church's money.

Five members confirmed that temple leaders were regularly dispatched with cash to Guyana banks, pay the bills and often to bury

On several occasions these couriers carried as much as \$50,000, according to former members.

Dan Phillips, who went with Jones and about a dozen top church leaders to Guyana on the temple's first visit in December of 1972, said a large sum was transferred at that time.

"Each of us had \$500 on us in cash. There was also a bank draft for \$250,000 from Barclay's of Canada to deposit in the bank's branch in Georgetown, the capital of Guyana."

Church Denies 'Exodus'

Peoples Temple acknowledged yesterday that "nearly a thousand" of its members are at the church's farm project in Guyana but refused to describe the departure of such numbers as a "mass exodus."

The response followed a Chronicle story earlier this week that claimed possibly 400 of the church's members were leaving the Guyana area as part of a temple plan to shift its affairs to the South American country.

The church press release stated: "For the last two years we have provided our members with the opportunity to reside at our agricultural project."

"Even though there are nearly a thousand there now, and more want to go, we are absolutely not pulling out of San Francisco or California," the statement said.

The church said that San Francisco "will continue to remain our 'home base'" and called news accounts of its inner workings "biased and sensationalistic reporting."

The church has said it has 9000 members in Northern California and 20,000 statewide, although former members of the church believe the temple has about 3500 serious followers.

Temple's Jungle Outpost

Stories of Hard Life

By Marshall Hall SAT AUG 20 1977

The new home for nearly a thousand members of the Peoples Temple in the jungle of the South American country of Guyana mounts to a grueling work camp, according to former church members who have visited the outpost.

Since 1973 church members have worked dawn-to-dark days to hack away vegetation, prepare roadbed and build primitive facilities in preparation for large numbers of Temple followers who are leaving San Francisco for the small colony, former members said.

Discipline is strict, and workers caught breaking rules or not performing chores have had their heads shaved and been denied meals for up to three days, according to one of the former members who visited the Guyana outpost in late June.

At that time, 150 people were at the colony, working 16-hour days and living in military-style barracks with 30 to 40 beds in a room and hot-water wash-up facilities.

In Georgetown, the capital of Guyana, church members who are sailing for a boat or plane trip to the mission are required to sleep in or near to a room in a two-story residence owned by the church and not also beg for food from city merchants to supplement regular meals, the former members said.

This Spartan regimen is considerably at odds with press releases issued by the controversial church, according to its own accounts, the temple's mission is a novel experiment in agriculture as well as a means for delinquent youths aiming for a new start.

But in interviews with five former church members who have visited the outpost, and others familiar with temple workings, the church's leader, the Rev. Jim Jones, of his own special reasons for sending the jungle mission.

Jones had conceived of the colony as a refuge and a world of his own, free from the perils of big city life, these sources recalled.

He had also predicted to his followers that America would be heavily damaged by either a nuclear attack or a race war in which blacks would be killed or imprisoned, former members said.

Jones claims 20,000 followers in California, but ex-members say there are about 3500 serious believers. Approximately 50 per cent of the temple is black.

The church has come under press and official scrutiny after news accounts that Jones faked cancer diagnoses, ordered beatings of members and acquired large sums of money from followers.

He moved from Indianapolis to Redwood Valley in Mendocino county in 1965 and eventually shifted the center of his operations to the Fillmore district in San Francisco by 1973.

Jones and a group of about a dozen top aides first visited Guyana in December of 1973, according to Dan Phillips, a former church member who was in the party.

According to Phillips and others, Jones had singled out Guyana, a relatively poor and backward country with a population of about 800,000, for four specific reasons:

The country was English-speaking from its days as the colony of British Guiana; the majority of the population was black and thus his church members might feel more at ease; the country was fairly close to the United States; and finally, the government was socialist, which appealed to Jones' political beliefs.

By early 1974, Jones and the Guyana government had agreed the temple could develop up to 27,000 acres in the thinly populated northwest, near the Venezuelan border. The mission would only be allowed several thousand acres at the start though, according to Guyanese government officials.

The first few years of the mission were spent in long series of trial-and-error experiments, according to Phillips.

A 16000 GMC diesel generator burned out, because the novice settlers misunderstood wiring instructions. A \$15000 sawmill came equipped with wrong blades which wore out quickly. Then the heavy rains washed away the inch and a half of fragile topsoil that the newcomers exposed when they cleared the land.

The weather was sometimes hot and moist, but the temperature usually remained between 73

and 80 degrees. There were mosquitoes and some snakes and monkeys which bothered the church members at first.

"Another problem was the Amer Indians who lived in the area," said one member. "We needed security guards in the jungle because those people would try and swipe everything we had."

According to the former members, life at the outpost was much like the temple life that they came to reject back in California.

After a work day that began at 6 a.m. and ended at 10 p.m., there might be three- and four-hour "catharsis" sessions during which individuals would be ridiculed for doubting the progress of the mission or failing in their assignments.

A rule-breaker might have his hair shaved off, be made to wear a yellow hardhat as a badge of dishonor and be told not to speak for several days.

In other cases, if clothing or tools were lost or damaged, a member would be fined the replacement cost of such items.

Because no one had any money, a member would be denied his or her daily meals, which the church computed as costing \$1, until the debt was repaid.

One youth, Tommy D. ... who was 15 or 16, was forced to dig a latrine from 10 p.m. until 6 a.m. because mission supervisors discovered he had stolen some aluminum roofing sheets to make a small hut for himself outside the outpost area, according to a former mem-

E-5A-70

... who said he witnessed punishment.

Jones himself visited the city frequently, but spent most of his time in Georgetown, dealing with government officials and supervising the arrival of followers from California.

Temple members were dispatched to Guyana in secret style designed to disguise the fact they were leaving San Francisco where the church had gained a reputation as a strong political force.

Followers traveled to Miami, New York in buses owned by the church or in private vehicles. Temple members were instructed not to tell even their families who did not belong to the church where they were going or why, former members said.

Once on the East Coast, they flew to Georgetown and stayed at the church residence at 41 Lama Gardens.

As soon as the Jones followers stepped off their plane, temple aides would take their passports and money, a move that eliminated off anyone from leaving without church approval.

According to the former members interviewed, about a dozen followers have asked to return from Guyana. The church has in most cases agreed, though some aides resisted the idea and demanded the returning members discuss life at the mission.

For the most part, the church sends its members to Guyana for long-term stays and there is little turnover. However, upper-level church aides visit the mission frequently to relay strategy, money and materials.

At intervals when large numbers of temple members flew in, the church residence would be crowded to the point of ten or more people sleeping in a room.

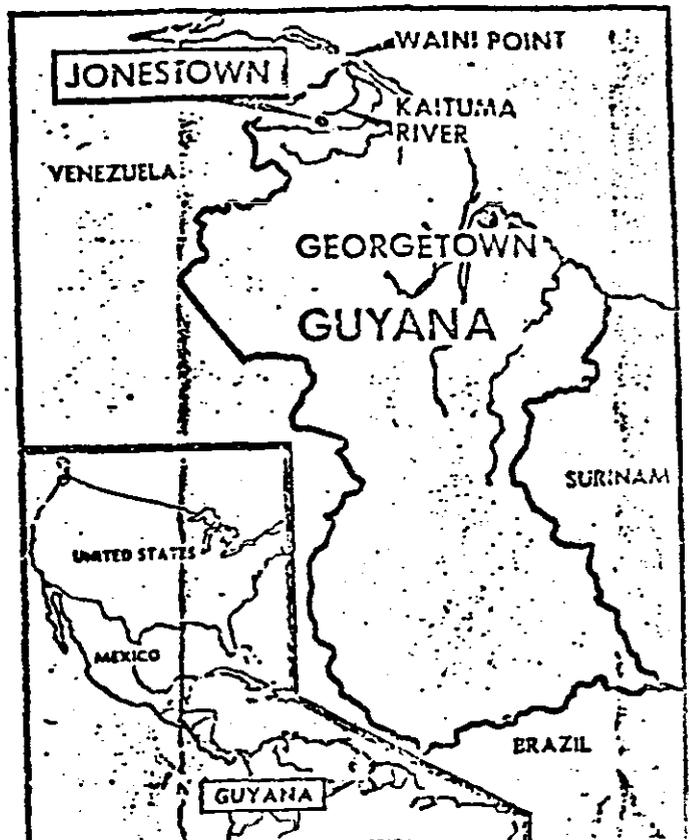

Members would be expected to "procure," or buy, food from Georgetown shopkeepers, under the guise the donated commodities would be sent to the mission in the north. In fact, the food went to provide for the temple members in Georgetown with only a portion of the supplies ending up at the settlement, two former members said.

The trip from Georgetown was made either by plane or boat. The 150-mile flight from the capital to Port Kaituma could be made in two hours. A church truck then transported the travelers about eight miles to the mission, which government officials have christened Jonestown.

By sea, the journey took 22 to 23 hours. Members would board the Cudjoe in Georgetown, head north up the coast to Waini Point, run up the Kaituma river past Amer villages and step ashore at Port Kaituma, where a church vehicle would meet them.

Relations between Jones and the Guyanese government are unclear, though the church has sought to impress officials with the progress of the mission.

Guyanese embassy officials in Washington and those in Georgetown have indicated they are following news accounts of the charges made against Jones in California, but these representatives have not commented further.

Attached is a complaint by WB6MID/8R3 submitted by his lawyer concerning refusal of the Maritime Mobile Net to accept phone patch traffic, etc.

Maybe this complaint has not filtered down from Investigations branch. It would appear that there is not much for us to do as it would appear that the net can refuse to accept traffic from a station regardless of any question of the legality of the calling station.

If you desire coverage on the complaint, please advise.

Re: Peoples Temple

Dear Mr. Young:

This confirms our telephone conversations of June 26 and June 28, 1978, in which I informed you that as of Saturday, June 24, transmissions emanating from WB6 MID/8R3 in Jonestown, Guyana, have been obstructed. You informed me at that time that both stations in Guyana, 1) WB6 MID/8R3, Jonestown, and 2) WB6 MNH/8R1, Georgetown are in fact legitimate operating stations in good standing and since they are not within the borders of the United States, they are not within the jurisdiction of the Federal Communications Commission (F.C.C.).

Since our conversations of June 26, I have received further clarification of the nature of the interference. Each time amateur radio station WB6 MID/8R3 has tried to utilize services of the Maritime Mobile Net (14,313 Kilohertz) for phone-patch traffic, the operator has been denied service. He has been informed each time by a man who called himself a "Net Coordinator" that the Net could not and would not help him because they had been informed by the F.C.C. that WB6 MID/8R3 was operating illegally. They were further informed that a letter would be forthcoming from the F.C.C. verifying this.

You further informed me that no such interference was authorized by the F.C.C. and that the interference was not caused by the F.C.C.

My clients (Peoples Temple), operators of these Guyanese stations, are participants in a church Agricultural and Medical mission. They have used the Maritime Mobile Net over the past several years in locating and contacting medical doctors to assist them in medical emergencies. There are no telephones available into this remote South American jungle region. The health and safety of well over 1,000 mission residents and the success of their medical outreach program to the entire northwest region of Guyana are seriously jeopardized by being deprived of this vital amateur radio service. It is the only means of communication for emergency, life and death medical traffic.

Mr, Jeff Young

p.2

June 29, 1978

We would appreciate your informing the members of the Maritime Mobile Net that stations WB6 MID/8R3 and WB6 MNH/8R1 are in fact legally operating stations and also convey this to the Net Coordinators who are selecting out and blocking their phone-patch requests so they will understand that they have been misinformed about the status of the two stations.

Please be informed that Peoples Temple is hereby registering a complaint with the F.C.C. for these interferences with their transmissions.

Yours truly,

Marshall R. Bentzman

RE: File - 1110

Thank you for your letter, dated, April 20th, 1978.

Recently, returned from Georgetown, R. Guyana to meet with Members of this Society. While there; the Minister of Health, Dr. Hamilton Greene, made arrangements to fly me into the remote Jungle area to meet with, Laurence Schact, M.D. at Mission Village, Jonesville, Guyana. Dr. Schact is the only Physician at the Mission; he has a Free Medical Clinic, and a twenty-bed Hospital, Staffed by two RNs and a Medical Technologist. Due to the remote area he has to depend on Amateur Radio Communications whenever; an emergency Medical situation is needed for Consultations. The Trustee of WB6MID/BR3 located at the Mission is the ARS Operator. Many lives have been saved by Consultations with Specialist Physicians via 'Patch'. While there, I inspected the Station and found that they kept a Log & that the Trustee was present at all times for third-party communications. However, their sister Station: WA6DTJ located in the Bay Area of San Francisco was rather 'sloppy'. I heard him 10KHz out of the band. I would not respond to him. This has caused many adverse complaints reflecting on: WB6MID/BR3.

Also, I found that the Mission Project was Legal and Bishop Jones was very much upset and has ordered all operators of the Station to adhere to FCC Regulations.

Most Sincerely,

Walter H. Thain

W DS RR HV GAVE THE TAPES BY THE LAST TWO NIGHT DO U WANT MORE ALERTS

DO U WA YES, CONTINUE ALERTS, AS FREQUENT AS YOU FEEL NECESSARY
 NECESSARY... IF YOU SEE TO BE GETTING THE SIGNAL REAL GOOD
 YOU CAN SAMPLE SOME OF THE MORE DENSE STATION BE BE TIC
 AND IS THEY HEARING GOOD TO THEM DO FOR ALERT... WOULD LIVE
 TO GOOD THESE COME ON A BIR HEAD IF WE WOULD... NEED A LOT
 OF CONSIDER TO GO FOR REVOCATION WA-01400MI WH

W DS RR MY REASON TO BEL THAT FEMALE OPERATOR IS NOT LOCATED
 AT WDCOMI QTH BECAUSE WALE SEE WICE COMES TAKE FREQ
 V LV THE WDCOMI IS JUST A T ABOUT SKIPPING US SI-2 AT TIMES
 AND REC MY BURE 050
 W DS RR KEEP A REC UP TO NIGHT ABOUT 0500 WDCOMI DROPS OUT WE
 MIGHT GET A CHANCE TO GET BETTER REC

LV W WA IF I REMEMBER CORRECTLY WE HAS SAVE PEOPLE
 LAST YEAR WHEN WHERE WE WORKED THIS CASE, PEOPLES TEMPLE
 IS IN REDWOOD CITY, AND FOR THIS FREQ YOU ARE RIGHT ON THE

V FE 2000 AND IS...
V DS 222
OK I GETTING HER A LITTLE...

DS W FE ARE THERE THREE STING INVOLVED TOWARDS LIKE BEE AND A MALE
VOICE TALKING MEDICAL TERMS TALKING TO MARINA OR MOTHER AND THATS
SHE SAYS I CANT GET I HAVE A PROBLEM ON THE MALE HAVEN'T GOTTEN AN ID
YET BUT BEE ONLY FROM BEE OFF BEE HE ON 107/287 BEE SA 25000 X
V DS BEE SPI IS BEING DELAYED BY BEE TO WOODVI
V FE BEE AND IS WOODVI NAME MARINA ?
V DS BEE

OK I GETTING HER A LITTLE BETTER NOW BUT STILL NO "WILLS" BUT PRETTY
SOON I THINK

V DS BEE STARTS STARTING TO DROP ABOUT MR NOW

BEE
DS W BEE 107/287 ON WVI BUT ONE DOWN IN NOISE .

V DS BEE ARE U MR ANY BETTER NOW THEN WHEN WE ALERTED

V DS BEE CANT ON ST 2500. NOT HEARING ANY ONE NOW. AT TIMES
CAN PICK HER OUT BRIEFLY. CANT SE // CANT TELL HER FROM THE
OTHER WOMAN.

V DS BEE KEEP A REC UP UNTILL U LOSE THEM

VA V GI STO I BEE ??? X

BE V HA BA X

DS W FE SPI LOST BOTH FEMALE BUT MALE ON 107/287 STILL SA
CONNA REST IN UNWHAILE NOW
FE V DS BEE THATS ALL I GOT MR TO OK TUN FOR THE BEE TIME ON WITH U
TOMORROW NIGHT

V FE BEE WHAT TIME DO THEY USUALLY COME ON THE AIR I HAVE
THE FIVE TOMORROW ALSO SO I CAN GET POWER SET UP AND BE WAITING

V DS BEE ANY WHERE BETWEEN 2200 AND 2300 GMT

V FE BEE I PUT EM UP SOON AS I GET IN THEN

V DS BEE WOULD APPRECIATE

DS W BEE WHAT U NEED ON WVI ? / 2500

V DS BEE WILL GET EM TOMORROW NIGHT 287 TUN FOR THE TIME

DS W FE THINK MAYBE NEED SOME MORE GOOD BEE ON WVI DS IS THE BEE

V DS BEE THINK WE HV ENOUGH TO NIGHT WUREE WILL HV BETTER SHOT
TOMORROW EVE THERE ALOT STRONGER THEN

E.S.A. 107

BEE BEE WDS DID YOU NOTICE THAT WHEN THE FEMALE WAS ON THAT WHEN
WHEN THE MALE CAME AND IDENT THAT HIS MOTHERS VOICE SOUNDED MORE
OFF BEE FROM HER LIKE MARY TWO DIFFERENT STATION

V FE BEE I GOT MY BEE ON 14744.11 287 AND DOUBLE BEE OFF ON BEE

V DS BEE MISSED IT. WAS IT THE BEE OR THE WVI WHERE THIS TAKES
PLACE?

V DS BEE SPI THIS WAS BEARLY WHEN THE ALERT WAS ON IN ALL MOST
THAT THERE IS TWO DIFFERENT STATION IDENTIFY WOODVI GOING TO

W 22 200 I GOT HIM RIGHT ON 147A.11 W4Z AND COULD BESS DIFF ON 220
W 22 200 MISSED IT. WAS IT THE 220 OR THE DMI WHERE THIS TAKES
PLACE?
W 22 200 THIS WAS READY WHEN THE ALERT WAS ON IN ALL MOST
THAT THERE IS TWO DIFFERENT STATIONS IDENTIFYING W05DVI GOING TO
LOOK FURTHER

W 22 200 I CONFUSED YOU I THOUGHT THAT YOU WERE ASKING
W 22 200 DURING THE ALERT THE FEMALE WAS TALKING AND WOULD IDENT
BUT EVERY TIME IN A WHILE A MALE WOULD COME ON AND IDENT
AND IT SOUNDED MORE OFF FROM THE FEMALE LIKE TWO DIFFERENT STATIONS
BOTH IDENTIFYING W05DVI
W 22 200 I HEARD THE W05DVI IN CALIF COP
W 22 200

W 22 200 WHEN W05DVI WAS TALKING I HAD HER AT 17A AND THE MALE I TALKING
ABOUT I NEVER GOT TO HIM HE ON 177 DEC AND FROM WAS COMPLETELY DIFFERENT
W 22 200 THAT WAS PROBABLY W05DVI/200 HE YES NEVER IDENTIFIED BUREAU
BUT HE IS ALWAYS IN THERE
W 22 200 I WAS WORRIED FOR HIM BY SO WHAT WE LOOKING AT
IS W05DVI/200 AND W05DVI/200 AND W05DVI ANY OTHER
W 22 200 POSSIBLE W05DVI NOT SURE THOUGH GOING TO LOOK A LITTLE FURTHER
THOUGH LIKE IS SAID ABOVE THE TWO STATIONS SOUND DIFFERENT
WHEN THEY IDENTIFY BUT THEY BOTH IDENTIFY W05DVI
W 22 200 YES I WRITE IT DOWN
W 22 200

W 22 200 GETTING 124/124 200 GOING TO ON THE MALE FEMALE
STILL TOO NEAR FOR POINT AS YET -- HEARD X SHE IDENTIFIED WITH
A PORTABLE 11 WHILE ADD X

W 22 200 A PORTABLE 11
W 22 200 STATIC PORTABLE

W 22 200 THAT COULD BE WHY NO ONE HEARD MUCH ON HER
W 22 200 WILL KEEP A LISTEN FOR THAT NEVER HEARD THAT BEFORE MAYBE SOMEONE

W 22 200 JUST TO MAKE SURE I GOT THE RIGHT W 22 200 SUBJECTS THEY
TALKING ABOUT DOCTORS AND JUST SAID SOMETHING TO THE EFFECT THAT
IT WAS ALL HEALING BUT ONE SPOT KXK

AS FAR AS THE WIFE GOES UNABLE TO TELL ---

W 22 200 W05DVI EX

W 22 200 PSE NOTE THE NEW BRNO ON HIM 200 NOT THE OLD BRNO
GIVEN A EARLIER BY THE IX OF OUR OWN XTRS KX

W 22 200
W 22 200 I BELIEVE THAT THE FEMALE IS W05DVI 200 THE IDENT ASK
PORTABLE PORTABLE 200

W 22 200 SI 200 THAT PRETTY CLOSE TO ELEVEN STATIC WIPED OUT THE
LAST THREE DIGITS CAN'T SEE IF CAN GET A "HULL" ON HER AS SOON
AS CAN GET THE OLD ANTIQUER TO COOPERATE AGAIN KX

W 22 200 DID YOU GET ONE ON THE MALE

MAY 9 1978

Mr. Ben Sowers
Box 3371
San Francisco, California 94101

Dear Mr. Sowers:

On May 24, 1977, the Commission mailed you an Official Notice of Violation (FCC Form 713), notifying you that your Amateur radio station WAG2PT had been operated on various dates in April and May, 1977, in violation of the following Sections of the Commission's Rules: 97.57(a) (station identification); 97.114(c) (business communications); 97.121 (false call sign), and 97.123 (operator identification).

At the time, you had located your station in the People's Temple facilities in San Francisco, California, and had permitted it to be operated by members of People's Temple to communicate with their missionary outpost in Guyana.

In your reply to the Commission's notice, you indicated what action you had taken to prevent any recurrence of the violations. Your reply also requested an interpretation of Section 97.114(c) as it relates to the communications between People's Temple, a non-profit charitable organization, and its missionary outpost.

Section 97.114(c) provides as follows:

§97.114 Third party traffic.

The transmission or delivery of the following amateur radio-communication is prohibited:

- (a) International third party traffic except with countries which have assented thereto.
- (b) Third party traffic involving material compensation, either tangible or intangible, direct or indirect, to a third party, a station licensee, a control operator, or any other person.

ES: A-125

- (c) Except for an emergency communication as defined in this part, third party traffic consisting of business communications on behalf of any party. For the purpose of this section business communication shall mean any transmission or communication the purpose of which is to facilitate the regular business or commercial affairs of any party.

In adopting this rule, the Commission gave consideration to what types of third party communications should be permitted. The Commission believed "that the best solution lies between the extremes of prohibiting entirely third party communication and permitting unlimited third party operations. To prohibit entirely third party traffic would tend to stifle one of the basic purposes of the Amateur Radio Service which is to provide a voluntary non-commercial radio service. But to allow all third party communications would tend to cause increased congestion in the Amateur bands." (In the Matter of Inquiry Into the Extent to Which Amateur Stations Should be Used on Behalf of Non-Amateur Organizations, p. 493. Docket No. 19245 (FCC 72-395), 37 F.C.C. Reports, p. 492). Thus, the Commission limited the prohibition on third party traffic to business communications which "facilitate the regular business or commercial affairs of any party. (Emphasis supplied.)

By letter dated November 28, 1973, the Commission issued a declaratory ruling on Section 97.114 in response to an inquiry from Mr. Orris L. Wertz, Trustee, Trinity Radio Station, WBEU, 6-1995 Trinity College, Deerfield, Illinois 60015. (FCC 73-1241/97246). In its letter, the Commission stated, in part:

Under these rules personal and emergency third party communications are permitted. In addition, third party traffic on behalf of an organization is permitted to the extent it does not involve the regular business or commercial affairs of the organization, or during emergencies. Organizational third party traffic involving regular business or commercial affairs is, however, prohibited. Under these rules an organization like the Red Cross is allowed to use Amateur radio to coordinate disaster activities but not for its day-to-day functions.

ESA 126

The rules adopted in Docket 19245 were written, among other reasons, so as to preclude non-amateur communications and

re: 1110/77-R-71

Dear Mr. Horne:

This is just a note to thank you for your prompt and informative reply to my request for information on F.C.C. action on the violative activities of amateur radio stations WA6DTJ, WB6MID/8R1 and WB6MNH/8R3.

Your time, attention, and consideration to this matter is most gratefully appreciated!

Sincerely,

Dear Dr. Ore:

In reference to your letter of April 18, 1973, I can tell you that the Commission is very conscious of the operation of amateur radio stations WAGDTJ, WBGHD/SR1, and WBGWV/SR3. WBGHD/SR1 and WBGWV/SR3 are Guyanan stations outside this Commission's jurisdiction, however.

Because of the large number of complaints, such as yours, received concerning this activity, the FCC's monitoring network is routinely following the activities of WAGDTJ. We have, however, been unsuccessful in establishing probative evidence of recent alleged wrongdoing by WAGDTJ, the United States station involved. Safety and Special Radio Service Bureau of the Commission has past violative activity of this station under consideration at this time.

Your concern over the poor image of United States amateur radio operations generated by this activity is appreciated.

I hope the above has been helpful. If I can be of further assistance, please call on me.

Sincerely yours,

C. Phyll Horne

Dear Mr. Horne:

I believe it would not be unreasonable to assume that you and your department are aware of the questionable activities of amateur radio stations WA6DTJ, WB6MID/8R1, WB6MNH/8R3, the operators of these stations, and the highly irregular type of third party traffic conducted by these stations.

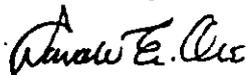

The cryptic nature of some of these communications leads to question, but the offensive language and overt disregard for rules and regulations in terms of station identification, out-of-band operations, and threats to other persons makes this individual wonder why the primary United States licenses of these operators are not withdrawn.

As an individual amateur radio operator with profound respect for not only the rules and regulations of the Federal Communications Commission, but also the rules of the International Telecommunications Union, I wish to personally and strongly protest the operations of the above mentioned stations as being illegal, and detrimental to the international image of amateur radio stations licensed by the Federal Communications Commission.

Thank you for your consideration of this serious matter.

Sincerely,

 Attention: David Doons

For over one year now while operating, or attempting to operate on 20 meters, I have observed a station identifying itself as WA6D15 operating on what appears to be nearly a full-time schedule to some station(s), passing messages and traffic not normally associated with amateur radio.

I have observed this station on all parts of the phone portion of 20 meters; sometimes above 14300 KHz, and last night at approximately 14230 KHz.

To any casual observer, it would appear to be a business communications net. Since I been an involuntary observer, it appears to be somehow church-oriented, though in my opinion still not a normal, or favorable, activity for amateur radio.

I have just recently moved back to the Fox Plaza, at 1390 Market St., and I believe I must be less than one mile from this station. Whenever it is operating, I am aware of it if I am anywhere on 20 meters, including the CW portion of the band.

This station does not regularly identify itself, and it was only when I called "CQ" relatively close to it last night while running approximately 850 watts D.C. input, that the station identified itself in recent memory, asking me to please move from that frequency, since he was there first.

Due to my close proximity to this station, I have finally been moved to write this letter from some degree of frustration; doubtless more so than those other amateurs who may have observed this activity, but from a greater distance. I am all too aware of the heavy workload the Commission has these days, and other more pressing matters, but I felt I should express my disapproval of this activity within the amateur service.

Dear Dr. Thain:

This refers to your letter of April 7, 1978, concerning the status of Guyanan Amateur Radio Station WB6JID/SR3.

As my letter of November 14, 1977, stated, we must assume WB6JID/SR3 to be a legitimate Guyanan station, clearly outside this Commission's jurisdiction.

I am not aware of any reason why emergency medical traffic, for which no remuneration is received, should not be permitted between U.S. Amateurs and WB6JID/SR3.

I hope the above will be helpful. If I can be of additional assistance please call on me.

FCC CLARIFIES AMATEUR RADIO TELEPHONE INTERCONNECTION

The Commission today clarified misunderstandings on third party traffic in the Amateur Radio Service including "autopatch" and "reverse autopatch."

(Autopatch and reverse autopatch involve interconnection of an Amateur station, usually using repeaters, with the public switched telephone network. Autopatching involves an Amateur operator transferring a telephone call over Amateur frequencies. In reverse autopatching, a telephone call is placed to an Amateur repeater station that then relays it to another Amateur station.)

The FCC said although there were no regulations in Part 97 of its Rules dealing specifically with telephone interconnection, Amateurs should be aware of the following factors involving such operations.

Section 97.79(d) states that "the licensee of an Amateur station may permit any third party to participate in Amateur radio communication from his station, provided that a control operator is present and continuously monitors and supervises the radio communications to insure compliance with the rules."

The Commission noted that this clearly prohibited autopatching and reverse autopatching through automatically controlled repeater stations and required a control operator to be on duty at all times during these operations. Furthermore, it said, all calls not initiated at an Amateur station had to be screened by the control operator before being placed on the air.

(over)

ESA 136

It also pointed out that Section 97.114 prohibited Amateur licensees from transmitting or delivering third party traffic "involving material compensation, either tangible or intangible, direct or indirect, to a third party, a station licensee, a control operator, or any other person" or delivering third party traffic consisting of business communications on behalf of any party.

It defined business communications as "any transmission or communication, the purpose of which is to facilitate the regular business or commercial affairs of any party." This section, the FCC said, drew a clear distinction between the Amateur service and those where commercial messages were permitted, and it made no distinction between profitmaking and charitable organizations.

Section 97.1 lists the principles that express the fundamental purposes of the Amateur service, including advancement of the radio art and communications skills, emergency communications capability, increasing the number of skilled operators and technicians and enhancing international goodwill, the FCC said.

Section 97.3 defines the Amateur Radio Service as: "A radio communication service of self-training, intercommunication, and technical investigation carried on by Amateur radio operators."

However, the operations that are the subject of this notice do not appear to be consistent with these sections, it said.

The FCC said the rapidly increasing role of unlicensed third parties in Amateur communications did not fall within any of the purposes of the service. On the contrary, it emphasized, the present use of telephone interconnection at Amateur stations to facilitate third party communication was becoming increasingly similar to the situation in the Personal and Business Radio Services.

The Commission added that since telephone interconnect equipment came under its telephone terminal equipment registration program, only registered devices could be connected directly to the telephone network with standard plugs and telephone company-installed jacks. It said connecting a registered device to the telephone network required notifying the telephone company and giving the make, model number, FCC registration number and ringer equivalence number of the device.

Dear F.C.C.:

This is a written response to an official notice of violation sent March 7, 1978, and issued by Harry E. Johnston.

I regularly use a timer to assure proper identification but occasionally I become absorbed in what I'm doing at the time and forget. This was one of those times. I can only say that I am aware of the regulation and that I will be more diligent to assure my compliance.

Sincerely,

Honorable Barry Goldwater

Dear Senator Goldwater:

This is in reference to your correspondence dated October 14, 1977, concerning a letter you received from Mr. Lawrence F. O'Toole, in which Mr. O'Toole was complaining about questionable activities by an amateur radio net.

The stations of the group in question have been detected and monitored by the FCC monitoring network, and have been pinpointed by radio direction finding fixes as being located in Guyana and in the San Francisco Bay area. As a result of the monitoring network's action, the station in the Bay area was inspected by FCC personnel, and the Guyanese stations' activity was notified to the Guyanese Administration.

Further, Notices of Violation have been issued to the United States station — the W6GUD/OH1 and the W6GUE/OH3 are legally Guyanese stations outside this Commission's jurisdiction — and administrative procedures are currently being followed in pursuing a cessation of the net's questionable operation. You may wish to follow-up with Safety and Special Radio Services Bureau at a later date concerning the action against the United States station.

I trust the above has been helpful. If I can be of further assistance, please call on me.

Sincerely yours,

C. Phyll Horne

The Honorable Barry Goldwater
Senator from the state of Arizona
The Senate of the United States
Washington, DC 20510

Dear Barry,

I am writing as a concerned amateur to call your attention to a SSB net of questionable nature currently operating nightly around 14,350 kHz. The group, which identifies itself as either a missionary net or an agricultural project incorporates basically three stations signing amateur call signs W4S DTJ, W4S MID/GR1, and W4S LKH/GR3. I have also heard operation in either Spanish or Portuguese as early as 1800 EDT. Although I do not understand either language (beyond the fundamentals needed to request a station to QSY 1), voice characteristics generally coincide with the later, English, sessions.

This group is misrepresenting itself. Its dialog and general attitude appears to be more interested in either a membership brainwashing campaign or perhaps revolutionary activity. In either case, the operation is a radical departure from the amateur norm.

In the last two evening sessions, participant responses to some deliberate QRM-ing indicated a supposedly high-level US government approval of their activities. One party went so far as to state that President Carter was fully aware of the group. Last evening, one participant (a YL) stated to her father via phone patch that he could not come down to visit her in late September because the government (US or Guyana?) has established a policy suggesting that "no one go down there until December or January", due to harassment the group is receiving here in the States.

The groups' antics, which include some attempts at cryptography, certainly do not belong to the amateur fraternity. Participant usage of ham procedure and jargon indicates only the most vague familiarity. One frequent participant from W4S LKH/GR3 made the following statement at the end of his "QTime": "I love you and will be 75-ing you and standing by". The pervading pre-occupation with membership (and un-named opposition) personality analyses and counter-attacks to adverse "publicity" (including mention of libel suits) is radical to amateur radio operation to say the least.

ESA-175

In consideration of Third Party traffic agreements with Guyana, the "net's" apparent ignorance of fundamental amateur practices, and the potential impact of this activity on the up-coming WARC, I would recommend a discrete inquiry into the true nature of this operation.

I have written a similar letter to AREL, as League CO's could serve as effective monitors. My purpose in writing to you is twofold: first, since the group mentioned approval of our government, including the President and this activity somehow seems to involve some government policy (ours or Guyana's) the existence of such an organization and its effect on national interest should be documented; second, as a Senator, any inquiry you choose to make will have a much greater effect on any government agency than I could hope to achieve.

I have been monitoring this group at least three to four nights a week for the past eight weeks; it is my belief that the activity is neither a hoax nor legitimate amateur activity. Propagation conditions between California and Guyana have been too erratic and QRM too severe, and participant dedication too dogged to be for fun. I do intend to continue monitoring this net in attempts to decipher its real motivation. Any information you could furnish would be greatly appreciated.

73,

Lawrence P. O'Toole

The facts set forth herein indicate that you have violated the requirements of law or treaty. This Notice is issued in accordance with Section 1.89 of the Commission's Rules.

1. Within 10 days from receipt of this Notice, a written reply in **DIPLICATE** shall be addressed to "Federal Communications Commission" and **SENT TO THE ADDRESS SHOWN ON THE FACE HEREOF AT THE TOP OF THE PAGE. DO NOT** address your reply to an individual.

2. **MAKE CERTAIN THAT YOUR ANSWER:**

- a. Fully explains each violation.
- b. Specifically describes the action taken to correct and to prevent continuation or recurrence of each violation.
- c. Is identified as a reply to this Notice. Include the *call sign* of your station so that your answer may be properly associated with the station file.
- d. Does not refer to a reply to another notice, but is complete in itself.
- e. Is dated and is signed by the licensee or, if appropriate, an officer of the licensee.
- f. Includes all the information requested above in addition to any other information requested in Items 3 and 4, below.

3. **CHANGE OF ADDRESS:**

If the address appearing in Block 1 on the face of this Notice is not your correct address for receipt of mail, include the correct address in your letter of reply to this Notice.

4. If an "X" appears in the box preceding any of the following instructions, comply with the instruction(s) so indicated and submit the information together with the above described letter.

- b. State the name of the person who operated the transmitter at the time of the violation. Does this person hold an operator license or permit issued by the Federal Communications Commission?
- c. A second copy of this notice is enclosed for the operator to answer the following questions thereon. That copy must then be submitted with the letter of reply described in Item 2 above from the person addressed on the face of this notice. **RETAIN THE ORIGINAL OF THIS NOTICE.**

I, the undersigned, was the operator on duty at the time of the violation noted hereon and hereby acknowledge this NOTICE. I hold FCC-issued Radio Operator (Not Station) License or Permit as follows (if none, so state): _____

Number (if unnumbered, so state): _____

Issuance date: _____ Birth date: _____

Name (print): _____

Address: _____

Signature: _____

**NOTICE REQUIRED BY THE PRIVACY ACT OF 1974, P.L.
93-579, DECEMBER 31, 1974, 5 U.S.C. 552a(e)(3):**

The staff will use all relevant and material information before it, including the information disclosed in your reply, to determine what if any enforcement action is required to ensure current and future Rule compliance.

Willful or repeated Rule violation or failure to reply may result in a monetary forfeiture of license revocation.

Dear F.C.C.

This is a written response to an official notice of violation sent September 22, 1977, and issued by Harry E. Johnston.

With regard to the violation September 12, 1977 I can only say this must have occurred due to a habit I have developed of shifting frequency by kilohertz (ie Let's move up 50 kilohertz) instead of actual frequency when working another station.

I have now seen that this is not a good operating procedure since I must have mistook my actual frequency and then called for a frequency shift by kilohertz which took us far out of the band.

I will change this operating procedure and use FREQUENCY from now on and be extra careful to remain within the band.

Very truly yours,

Ben Bowers

WA V DS REF 77-R-71 THIS INTERCEPT WAS HEARD AT APPROXIMATELY 0310G
15 SEPT 1977

THIS WAS HEARD JUST PRIOR TO MARIA (8, GUYANA) . MARIA COULD NOT
BE HEARD ONLY THE RELAY FROM HER.

THE GOVERNMENT LEAVES IT UP TO THE PROJECT WHO COMES IN AND IT
WOULD CAUSE SOME UPSET WITH THE PROJECT IF COMES EARLY, SO
IT WILL NOT BE POSSIBLE AND AM MARIA WE DIDN'T COPY THE REST OF WHAT
SHE SAID.

FATHER: MARIA I'M GOING TO BE IN WASHINGTON NEXT THURSDAY , I'M
GOING TO ASK THE GOVERNMENT IF IT'S OK FOR ME TO COME DOWN. I DON'T
SEE WHY I SHOULD ASK THEM HOWEVER BECAUSE I'M FREE TO TRAVEL WHERE-
EVER I WANT TO GO. I WOULD LIKE TO HAVE YOU COME IN TO GEORGETOWN
AND SEE ME. YOU ARE MY DAUGHTER AND WE ARE FAMILY AND I WOULD
LIKE TO TALK TO YOU, I DON'T WANT TO COME OUT TO THE PROJECT
BUT I DON'T SEE WHERE THAT WOULD INTERFER WITH YOU COMING IN TO
SEE ME OVER.

MARIA: SHE'S ASKING . SHE SAYS SHE WILL NOT BE HERE THAT PARTICULAR
DAY THAT YOU ARE COMING, WHY THAT PARTICULAR DAY, SHE WANTS TO
KNOW.

FATHER: BECAUSE THE FOLLOWING WEEK WHEN I COME BACK , MARIA I'M
GOING TO GO TO THE HOSPITAL FOR EXTENSIVE SURGERY OVER.

MARIA: WHAT'S WRONG WITH HIM?

FATHER: SHE KNOWS WHAT'S WRONG WITH ME AND I DON'T WANT HER PLAYING
THIS CAT AND MOUSE GAME , SHE HAS KNOWN ABOUT IT BEFORE
MARIA.

MARIA: SHE SAYS SHE ISN'T PLAYING ANY CAT AND MOUSE GAME (QRM)

FATHER: CALL ME ON THE TELEPHONE OVER.

MARIA: SHE SAYS WHAT YOU NEED TO KNOW, SHE'S ALREADY TOLD YOU
ON THE TELEPHONE.

FATHER: I CAN'T UNDERSTAND WHY SHE WON'T MEET ME IN GEORGETOWN OVER.

MARIA: SHE'S GOING (QRM) WITH HER BOYFRIEND TO VENEZUELA, SHE
WON'T BE HERE.

FATHER: DO YOU COPY MARIA, I'LL MEET YOU IN VENEZUELA, I DON'T HAVE
TO MEET YOU IN GUYANA.

MARIA: (QRM)

FATHER: I'D LIKE TO MEET HIM TOO OVER.

FATHER: I WON'T TAKE TOO MUCH OF YOUR TIME OVER.

MARIA: YOU'LL CALL HIM WHEN YOU CAN SEE HIM , IS THERE MORE TO THAT.

FATHER: I'LL GO TO THE GUYANESE EMBASSY THERE AND SEE IF IT'S
OK FOR ME TO JOIN YOU THERE IN GUYANA IF THERE IS NO (QRM) I WILL
BE DOWN. I DON'T NEED TO SEE THE PROJECT, I NEED TO SEE MY CHILD.

... THE RESISTANCE THAT'S PUT IN FRONT OF ME WHY I CAN'T GO
DOWN THERE . I'M BEGINNING TO GET EXTREMELY ANXIOUS AS TO WHY
MY DAUGHTER DOESN'T WANT TO SEE ME , THERE'S NO COMPREHENSIBLE
REASON IN MY MIND WHY I COULDN'T SEE HER IN VENEZUELA OR WHY
I COULDN'T SEE HER IN GEORGETOWN. THE ONLY THING THAT COMES
TO MY MIND IS THAT SHE WOULD NOT BE PERMITTED BY SOMEONE WITHIN THE
CHURCH TO MEET WITH HER FATHER, IN WHICH CASE I'M NOW
DESPERATE . I'LL TAKE WHATEVER LEGAL MEANS THERE ARE TO BE ABLE TO COME

WA V DS FYI REF 77-R-71

ABOUT TWO WEEKS AGO I HEARD A TALK SHOW ON KNBR SAN FRANCISCO CONCERNING THE PEOPLES TEMPLE. TWO INVESTIGATIVE REPORTERS ONE FROM THE SAN FRANCISCO CHRONICLE AND THE OTHER WAS FROM THE US MAGAZINE, THEY WERE ASKIGEEEEE ASKING ABOUT 5 MILLION DOLLARS THAT THIS CHURCH HAS COLLECTED AND WANTED TO KNOW WHAT HAPPENED TO IT. ALSO IT WAS BROUGHT OUT ON THE PROGRAM ABOUT PUBLIC WHIPPINGS OF CHILDREN IN THE CHURCH. MOST OF THE PROGRAM TIME WAS USED BY MEMBERS OF THE PEOPLES TEMPLE CALLING IN TO WAIST TIME AND SAY HOW GOOD THE CHURCH WAS BUT NONE WOULD ANSWER ANY QUESTIONS. TONITE I HEARD A MAN WHO WAS IDENTIFIED SEVERAL MONTHS AGO WHILE WE WORKED ON THE CASE AS "MR HILL" ONE OF THE LEADERS, TALKING ABOUT AN ARREST WARRANT AND SOMETHING ILLEGAL THAT THEY HAD DONE, ALSO TALK OF EXTRADITION IT APPEARED THAT MR HILL HAD BEEN SHOT AT AND HARRASSED. DURING THE CASE THERE WERE SEVERAL CASES WHERE PEOPLE HAD RELATIVES END UP ON THE FARM IN GUYANA AND THEY HAD TROUBLE COMMUNICATING WITH THEM AND GETTING INFORMATION ON THESE RELATIVES. THERE WAS TALK OF A SIMILAR CASE TONIGHT .

WA TIME AND SIGN PLEASE WA-9632GMT WH

V DS 0633 GMT HJ

V WA ROG TU, MAKES IT AN OFFICIAL OBSERVATION. WILL ATTACH IT TO CURRENT CASEDATA. I CAN REALIZE THIS GROUP SEEMS VERY OFFEEEE OFFENSIVE, VERY MUCH LIKE THE CHURCH OF SCIENTOLOGY, WHICH USE THE DESIGNATION OF "CHOOEEEE "CHURCH" AS A SHELTER WORD TO COVER UNTAXABLE FUNDS. IT IS NATURAL THAT I SHOULD WARN YOU AND THE REST OF THE NET, THAT WE ARE NOT ALLOWED TO APPROACH THIS CASE FROM THE FEEE VIEW POINT THAT THIS IS A BAD "CHURCH" AND SHOULD GET IT'S DUE, ONLY A A ONLY AS TOHWETHER THEY ARE VIOL

1. ANYWAY YOU'LL BE VERY PLEASED WITH THE TV REPORT, I'M PLEASED WITH IT BECAUSE IT'S THE ONLY PAPER THAT DIDN'T CREDIT THE ALLEGATIONS
1. WAGDTJ HE MENTIONED THEM STRAIGHT ON TO THE CONSPIRACY AND
2. YES COPY
1. YOU'LL BE VERY PLEASED WITH THE PEOPLE'S WORLD ACCOUNT.
2. I'M NOT SURPRISED
1. ROGER ROGER THEY GAVE NO CREDIT TO THE ALLEGATIONS, THEY JUST BANGED ON THE CONSPIRACY ALL THE WAY THRU NAMING NAMES FOR ONCE OVER
2. COPY
1. WELL ROGER ROGER, WELL AS SOON AS THEY BOTHER TO CONTINUE WITH THEIR SUIT A COUNTER SUIT ON OUR PART WILL BE IN ORDER AND THAT IS CERTAINLY NOT OUT OF THE QUESTION.
1. ROGER ROGER BUT DO YOU KNOW HE ACTUALLY MENTIONED THIS IS THE ONLY PRESS THAT MENTIONED (LAST NAME) GRACA, THAT IS BUT HE MENTIONED ALL THE OTHERS TOO, HE MENTIONED THEM BY NAME. OUR COUNSOLER MENTIONED THEM BY NAME AND NOT ONE PRESS PICKED IT UP.
- (CONTINUED ON)
1. THE MAIL YOU HAVE WAS WRITTEN RIGHT AFTER THE SEVEN DAY SEIGE, BUT THE NEXT TIME SOMEONE ARRIVES YOU'LL HAVE A PRETTY GOOD UNDERSTANDING OF WHAT'S GOING ON.
- (CONTINUED)
2. WE SAY MILLIONS OF DOLLARS IT LOOKED LIKE POURED INTO, WE KNOW \$ 25,000 POURED INTO THE CONSPIRACY BY ONE PERSON ALONE, BECAUSE WE HAVE DIRECT PROOF FROM IN THIS COUNTRY.
1. ROGER ROGER GO AHEAD
2. YOU'LL BE INTERESTED TO KNOW THE GUYANA NEWS SERVICE, DO YOU COPY SENT OUT AN ARTICLE TO THE CARRIBEAN DEALING WITH THE CONSPIRATORS AND
- GOING FURTHER INTO ONE OF THE OIL COMPANIES AND THE CONNECTIONS AND THE MONEY AND THE ATTEMPTED ASSINATION OF SOMEONE HERE, THAT YOU'LL KNOW THE CONSPIRACY HAS BEEN SET BACK HERE AND IT IS GOOD, IT WAS AN ORDEAL I WOULDN'T WANT TO REPEAT IT, BUT YOU WOULD HAVE BEEN PROUD OF YOUR FRIENDS THE 700 PLUS, YOU WOULD HAVE BEEN PROUD OF THEM AS THEY WERE PREPARED TO LAY THEIR LIVES DOWN FOR WHAT THEY BELIEVED. DO YOU COPY?
1. YES AND I BELIEVE THAT ANYTHING THAT HAPPENS NOW CAN ONLY UNIFY US OVER.
2. I'M ASSURED OF IT, I'M ASSURED OF IT, BECAUSE IT LOOKED LIKE EVERYONE AT THE WAS GONE AND THEY WERE AND THEY DID SOME COINCIDENTIAL THINGS WITH SOMEBODY PRESENT THAT WAS SIMPERTHETIC TO THE CONSPIRACY, BUT THAT PERSON HAS SINCE BEEN REMOVED BY THE EMANENCE OF PROPALD AND WILLIAMS AND MILLER, THEY CAN TELL YOU ABOUT THAT.
- (CONT)
2. TODAY THE GUYANA NEWS SERVICE SENT OUT THE TRUE STORY AND THEY NAMED NAMES, THE OIL COMPANY AND SO FORTH.
- (CONT)
- WAGDTJ ALSO MENTIONED THAT THREE STOP WATCHES HAD BEEN SENT TO THE

Dear F.C.C.:

This is a written response to an official notice of violation sent May 24, 1977, and issued by Harry E. Johnston.

With regard to the violations observed on April 22, 1977; April 27, 1977; April 28, 1977; April 29, 1977 and May 3, 1977; please be advised that the station was not under the direct supervision of a control operator at all times. This situation has now been corrected by taking the following steps:

1. The radio room, where all equipment is located, has been locked.
2. A control operator is present at all times when the equipment is operated. The control operator will be responsible that no such further violations take place.

With regard to the transmission of May 11, 1977, the undersigned would appreciate some clarification of the term "business". These conversations relate to a non-profit, charitable organization communicating with a missionary outpost in the interior of South America with no other means of telecommunicating to the outside world. I would make every effort to conform to established guidelines, but I remain unsure of the limit in this context and would appreciate your furnishing me some examples or illustrations so that I might better understand the existing limits.

I was contacted by the Field Engineer in San Francisco

Federal Communications
Commission

JUN 7 1977

concerning several violations that primarily resulted from lack of supervision. Corrections have been made along the lines that were suggested. The transmission of May 11 was subsequent to their visit and resulted from my difficulty in discerning business.

Very truly yours,

Ben Bowers : 6-3-77

Ben Bowers

P.S.

I am enclosing some material about the organization I have been assisting. Its Pastor, Rev. Jim Jones, has recently been given the "Freedom of the Press" award from the National Newspaper Publishers Assn. on their 150th anniversary.

P.P.S. The church and its branches has been commended by the denomination with which it has been affiliated, the Disciples of Christ, which have counted among their members Lyndon Baines Johnson, Clarence Kelley, and numerous congressional people and government officials Mrs. Carter and President Carter have written encouraging letters concerning its work. Mrs. Carter dined with Reverend Jones last fall and has since been very supportive of the church and its programs, both in the United States and overseas.

S. MARTY MARTI-BOLKOFF LOCATED AND IDENTIFIED THE SOURCE OF RADIO
TRANSMISSION ON 14.256 MHZ REGARDING THE INSTANT CASE. THE STATION
WAS LOCATED AT APPROXIMATELY 6PM PDT AND CONFIRMATION BEARINGS
INDICATED THAT THE SIGNALS WERE EMANATING FOR THE PEOPLES TEMPLE
CHURCH, 1859 GEARY BLVD, SAN FRANCISCO CA. SIMULTANEOUS INSPECTIONS
WERE CONDUCTED BY ENGINEERS DONALD BROWNE AND PHILLIP M. KANE
AT THE PEOPLES TEMPLE CHURCH COMPOUND, REDWOOD VALLEY, CA AT
6:20PM PDT. THE INVESTIGATING ENGINEERS AT SAN FRANCISCO,
WERE NOT PERMITTED ENTRY FOR 12 MINUTES THERE BE ENABLING THE

ALLEGED AMATEUR OPERATOR IN CONTROL OF THE STATION TO LEAVE
THE PREMISES. ACCORDING TO ONE MARIA KATSARIS THE OPERATOR ON
DUTY AT THE STATION WAS BENJAMIN BOWERS, LICENSEE OF AMATEUR RADIO
STATION WB6 JHA. MARIA KATSARIS READILY ADMITTED OPERATING THE STATION
AND STATED THAT BEN BOWERS UNEXPECTEDLY HAD BEEN CALLED AWAY AT THE
TIME OF THE INVESTIGATORS INITIAL ATTEMPT TO INSPECT THE STATION.
AT THE TIME OF VISUAL INSPECTIONS OF THE STATION, THE EQUIPMENT
HAD BEEN TURNED OFF. VERBAL STATEMENT BY MARIA KATSARIS CONCERNING
OPERATION OF THE STATION FROM THAT LOCATION. EQUIPMENT PHOTOGRAPHS
INCLUDED A YAESU FT-101-B FEEDING A HERNY 3-K LINEAR AMPLIFIER.
TRANSMITTER SETTINGS WERE RECORDED AND A RE-INSPECTION IS PLANNED
TO DETERMINE OPERATING PARAMETERS OF THE STATION. ALTHOUGH THERE
WAS NO EVIDENCE OF OPERATION AT THE REDWOOD VALLEY LOCATION,
ENGINEERS DONALD BROWNE AND PHILLIP M. KANE ATTEMPTED AND INSPECTION
IN ORDER TO DETERMINE STATUS OF STATION HAS THERE HAD BEEN
EVIDENCE OF PRIOR OPERATION FROM THAT LOCATION; THEY WERE REFUSED
PERMISSION TO INSPECT. NO OFFICIAL CORRESPONDENCE IS PLANNED
