Concuring what to do about Tim Stoen.

I see the achilles heel of Stoen is his drunk sarcasm and desire to be around anyone who might have power. I remember when we came to us in Redwood Valley he was willing to risk his image with you and slab to a reporter because he flattered him. When he met bones brother he couldn't be himself but had to show his medals around - did the same with me - Tim hated the motorfucker and would participate in whatever way I could be useful. The natural way for him to go would be at some fancy function and one of Finkle friends might pass him a poisoned cigarette.

Tim Stone Situation

20-12-74

To Dad:

I think that the reason for Tim Stones' action to black mail the cause is that he sold out before he left Sonostown and now he had to proclaim what he would have been given by the Capitalist, and being that he still was caring for Grace more than the cause he thought that if he sold out with the that she would take him back. but it didn't work that way and he has no money to go anywhere because if he stays there too much longer he knows that since he killed Teddy Bear he would be next so the only thing that he could do was to try to black mail us. I feel that we should ignore him because the M.F. is already losing his mind or he wouldn't have come up with this shit from the gate. so without or letters or anything else he will get so paranoid about killing Teddy until his own conscious will fuck him up. IF we do anything to help this action the law will try to hold us responsible. so I say fuck him wait it out and be ready for action.

Dad - Comrade Leader *Marijane Wheeler*

My suggestion about Tim Stoen
concerned the group you mentioned.
I remembered you saying they offered
all their help before. I think they
should be contacted & should pay a visit
to Stoen. He is spineless himself & would
know they have no fear of what will be
done to him so can't be manipulated. They are the
only outside people I'd trust in the U.S. If
they won't do it, they could give us a
lead on a reliable paid assassin. Both
sides can play that game & it would
be justified that Stoen die by the hand
of a Capitalist & mercenary-type. Our money
would be best spent on this than trying to
keep his mouth shut. I do think all potential
targets, our members, be removed from the
situation especially Marijane. I think they
also want to "worry you to death" Grace
always played on your heart trouble
& is increasing pressure on you. Once
we get our people out whatever they print
won't probably change to many minds
about us those with a Socialist Consci-

BB-31-a-274

...
success would still see the conspiracy
use against us just justify their feelings
& others are indifferent & our people are no
they can't touch us legally & if they come
in fighting we'll be ready to fight to the
death. The reason I was thinking of a paid
assassin is he would hardly be able to
turn traitor or states evidence if he had
the "cases" behind him, he wouldn't
talk & if they know we'll go to these
vergits Grace & others might take a second
thought, it would be a convenient
accident but they would know we must
be direct & decisive with these people.
They have accused us of everything
under the sun & should be dealt w/ in
in the ultimate revolutionary manner.

I would be very willing to cooperate
in any plan to this end. I have often
been dubious in the group, caused
problems & been an ass but I believe
in the revolutionary principle of communism
& when the shit comes down
I'm ready to fight. I would be willing
to return to the states to help bring

To Dad

From: Jim Dugho

In this specific case dealing with Tim Stoen
there seems to be but two real choices
open for us. One is to ignore him and
the other is to teach him a lesson.

To ignore him will do nothing but
cause him to want to follow through
with his plans. I think that he has no
true realization of what we will do. A person
who has never suffered does not look for
suffering. Also he does not think that we will
go very far on the other hand he may get worried
but I do not think that this will stop him.

To teach him a lesson on the other hand
whether it be killing him or just kicking him
around a bit ~~as~~ will have a definite effect
upon ~~the traitor~~ as well as him. A
strange accident will scare all the traitors.

To kill him however, I believe is a little ~~bit~~
too far if we are to get our people out ~~the~~
This is what the enemy wants. However, to
beat the living shit out of him would have
3 positive points. It ~~too~~ would certainly scare
him enough to want to leave us alone. Fear of
~~death~~ ~~will~~ drive a person to extreme positions.
of much more so than money or reputation.
It would also scare the traitors who would
certainly find out. This is the one who they

were afraid of. We can send them someone
else to be afraid of. In addition it will
prove to the traitor that we are willing to
do some things.

To have him have a mysterious accident
would prove the same result also. I
would like to see his broken foot on a
hill or him have a heart attack
or have his gas filled house blow
up when he turns on the lighter
to have his car catch on fire and burn up.
None of these would cause him being
hurt but these would be a great possibility.

Personally, I would love to go
back to see to it that this happened.
I could push him down a flight of stairs
that would kill him.

What I think is best is that he has
a strange accident one day and when
he drags his lone body home I don't pre-
dict out of him and destroy his house.
This would give him something to think
about and would let him know that we
could kill him without any chance
of it being traced to us.

I thought it wastime I wrote & let you know where my heads at & where I want it to be. You have made reference to me at times & I went to explain how I analyze & evaluate that, when I first hear something that sounds like me ~~me~~ I at first almost don't hear it, not wanting to recognize myself. I think what a bitch or that's really selfish I up with it do that or I'm not like that. The "shoe" doesn't seem to fit. I rationalize that is the offenses are similar my motives are better or slightly different so it's not so bad as "that person" later still I compare myself with this "person" & see more of myself & the situations become more familiar & clearer. The next step is to evaluate if I can slide by & not face any consequence. This works for about a week. Then I begin to evaluate if I want to take steps to change myself do I want to change out of fear, intimidation, that mercury time is running out, or from guilt or from a socialist consciousness. I battle this out for weeks. Then its how much do I want to give up, what action would make me feel less guilty & produce more of a communist consciousness, and what would keep me off the floor. The major fear is a loss of subtle image which is funny because people see you for what you are anyway. I know though that the best way to change & growth is to smash the facade of ego. So a true communist consciousness can grow. Then there is no need to "protect" the make-believe Socialists. I know the trouble I have caused you & the family in the past & recently. I do get very selfish & self-centered & have acted out badly. That side of me I even defend I would rather lie to you about my feelings. I feel we have always communicated through an invisible medium. I would voice my discontent to others it would get to you & come back to me in placating me. This upset me because it wasn't direct & I became very hostile. You have however given me chances to grow by giving me warning pretty directly & time to make changes. I have a long long way to go I realize. My worst fault besides thinking I'm good looking most of the time is opening my mouth at the wrong time. I know I criticized too much & cause division. It is really counter-revolutionary & I will learn to control this. I would like to offer positive criticism & some

Solutions for more efficiency. Sometimes I question procedures because I am looking for easier & faster ways of doing things. Other times I am frustrated & hostile because time & energy is needlessly wasted. I would like to maintain a discipline of not speaking in the fields about anything but principle or work & gratitude or singing socialist songs. This is harder than silence for me because I must think & evaluate what I say more. I will do this for no less than 3 weeks because it takes that long to break old habits & establish new ones. I will be turning in extra things that I have to the warehouse as soon as I can get things together by Sunday night or Monday morning. I tend to give up the fight in degrees sort of as the ship is sinking & lighter the loads. I feel terrible about what we put you through and I respect you as my leader. I don't want to follow you because of emotional dependence however or because of intimidation. I want to follow you because I see your commitment to a communist principle. What you have accomplished can't be compared to anyone there is no doubt, only hope & an help in some small way to build a collective community. Although I believe in only using as much force as necessary to produce change & will defend our homeland to the death whenever necessary. I have no sympathy for the capitalist class & could easily use violence at any moment. I am not a pacifist when it comes to a fight.

justice for Chris' death. ^{Marcia Wheeler (2)}
If someone could infiltrate their group "turn traitor"
and leak some of their plans it would be
ideal but they would be very wary right
now about that. I would be a likely candidate
for this because I have been seen as a traitor
so to speak for years. They wouldn't know I've
been here & would think I just wanted my
children back. I don't believe Tim S. needs
the money as you say it's a small amount,
he can get money from rich parents or
practicing law etc, he made it low enough
to be a possibility but not enough to
sustain him for long. He wants some
ego satisfaction to make him feel more
equal to you if you give in to his demand.
Also they know these blows one after the
other can throw you into insulin reaction
stroke or heart attacks. They know they
can't reach you physically so they want to
weaken you through emotional torment
& anxiety for the family. This
would be a slower killer than the
assassins they try to send in, that
hasn't worked. So they're going at it

BB-31-E-286

.....

this way. They have stepped this up since
the last physical attempt. We must get
our people out so we can stop this
psychological warfare. Grace + the
Murtles would work this way, Tim is
too sheepish alone + they would just
turn over the information if they
just wanted to get you legally. It is
much more valuable as a psychological
weapon this way. They may
draw this threat out for awhile to get
the full effect. The one that threatened
Grace's life could have been sent
by them so it looks more like things
are coming from all directions causing
even more worry. Someone who doesn't
seem connected to them would be more
of a threat than if they said it because
they can't get directly involved in that
kind of threat. It is mind warfare
now + we need to put them on "pins +
needles" through an outside organization
that is known for its intimidation + decisiveness
+ will make them nervous.

The Stein Suggestion is

- ① Just tell him NO and nothing more about the tribe - this will leave the pressure of decision on him and if we [redacted] compromise with him fast there is not too much we can do without violence.
- ② He only asked for a small amount of money which seems like one of his weird quirks or just an arbitrary amount because his aim could be to just cost us time and production on top of what the rest of the conspiracy is doing. They may want to attack us on so many fronts so to divide our forces into so many areas that it will wear us down so they can hit us with something real big at the right time.

③ If Stein says to do what [redacted]

we'll know his best bet
is to do it before we all
get here so I don't think
it will be long before we
get more pressure from him

④ Almost all educated profession
als are most afraid of physical
violence and since Chis is in

push more - We need to show
we have more Chis Lewis's

see them up.

⑤ The enemies all know I left

don't know I'm back so I
could go among them to get

kill any of them or all of
them if circumstances permit.

)
from Leon Jackson.

Dear Dad,

Now that it has become absolutely clear that our man in will go to any means to attain their ends, we must weigh the risk that is run by letting them survive against the risk of destroying them.

Now that one option has given in the battle we should all consider it our only reasonable option to be willing to lay down our lives when strategy demands.

I have concluded that our son in his weak, sick, sellout mentality is calling our bluff. We must not allow him to win.

I believe that no choice is left us but to take his life or that of one of the other main conspirators.

I am sure that when one of them is picked off the others will panic.

BB- 31-a - 291

I do not believe that this can be done until our people are ready to risk their lives to bring it about. In other words those who cannot stand up under such pressure must be evacuated now and brought over here. Those who are able to stand can remain with a plan of escape when the moment dictates.

I don't believe that we can depend upon anyone but ourselves to carry out this plan of attack (the paper its an should be
eaten at once after read

I believe that some of us from here must go in on this mission with a well laid plan as well as a well laid plan of either escape and/or Revolutionary Suicide as a last end.

I think that all the weapons transportation money and plan of attack or orders should be waiting for him when he gets to the United States.
I suggest a bomb as the weapon.

07-31-a-292

The plan should not be revealed until the day it is to occur. And either his escape or suicide shall be finalized that same day. The bomb should be put into a capsule or ten car that can be thrown through the window of their car. While it is moving, this will give the person a jump on his getaway and in heavy traffic they could also be in an unmarked car moving along aside them. This will allow them to make good their getaway.

They could also move along side the cars and fire on them with a high caliber pistol ^{magnem} with a silencer in heavy traffic. Possibly nobody will even notice the incident if the cover the pistol with a cloth or something. One agrees with a disguise could ride around them all day and they would never know it.

BB-31-a-293

The person executing the plan should move in after the area and move of the enemy has been well checked out. They should move in quickly strike quickly and be on a plane to a well protected place within the same hour.

If they are caught they should be ready to take arsenic pill and give up the ghost, or some other drug. If the person is caught the evacuation plan should be implemented at once.

Thank you Dad,

Don Jackson

P.S. If the incident goes unseen and there is no witnesses then the person should remain in the city and go underground. A second car should possibly be in the area to investigate if there are any witnesses.

Respect Head:-

First of all I want to thank you for our lovely candy. I had stop eating candy about 1923 as it made me fat. But this is so nice, I eat it now.

I also would like to get my hands on Tim Stone, for all the grief he has put you thru. Also what happens to our Chico.

Tim does not need no mercy of no kind, he should go live in Chico, & never know who did it. Please Head, do not give Tim one penny, you are the only Head I had & still have. Please fit him

learn the hard way.

I hope we can get some garlic
soon, so I can get back on job.

I am now making fillings
so they can be sold.

I like rice & Etas better than
noodles. I am on a saltfree
diet now to get the swelling in
legs, which are better & don't
pull me on it, & before I met you,
I was on it from 1952 until about
3 years ago. I give up lunch, so you
can have things you need. I am
losing weight also.

Thanks Ned for everything.

Because of my past involvement with the Myrdles
girl, and the fact that I almost destroyed this
whole cause and especially the hell I put you through,
the least I could do would be to give my life for
this cause. It would be easy to write you that I'd
be willing to do so dramatic thing to help save the
cause, but all I'm going to say is if anything
goes down please count me in. If there is any-
thing you need me to do please count me as very
willing. If I can really be a help I'm ready.

Captain Davis
Thank You Dad.

Jim: I think we should have another person to step in and take on the image of Chris Lewis, possibly Jim Mc Sloane - Let him go with a couple of others and shake up the Merthles and Tim Stoen, Gary Lambros and others, if they feel secure in the fact that Chris is no longer around they need to know that there are others who aren't afraid. If they do anything to prevent the rest of the people from getting here I think the rest of us should return and make arrangements to meet with all of the traitors possibly at the church and let us all be bombed. First all of their throats could be worked on -

Dear Dad,

I am really sick of Tim Stone and all the other traders of this cause. I ^{really} agree with you when you say they are all pids. These people should be dealt with.

I remember the story of the assassination of President Kennedy. I could be wrong, or I could have this story mixed up with another story. If I'm not mistaken ^{off} the witnesses of the incident were killed, but the way they died appeared to be ^{due to} health problems or accidents.

I think some died of heart attacks, strokes, cancer, and some died in their sleep. There were so many ways these people were killed. If I'm not mistaken they were injected.

I wish that I had kept the article so I could express what I'm talking about better. If this plan could be used I suggest all the traders be killed like that.

get rid of Chris there is know bout that Tim is a test of Chris.
So he liges heard the CIA to Blank mile use for so little of money
if we give in to him he will know don't come back for much more
me I would not give him a God dam thing he is trying to intimidate
use they are trying to see how weak we are and if the CIA would
not let are people go in the states they should be comdeded a not
to die for what is ONLY Right Shit you only live ones. if we gave
Tim STONE the money am shure the CIA CAN have it all played to turn
it around and say we try to Blank mile Tim STONE for so much money
we can not allow we Salt to have to pay somone?

AND A NOTICE WAY.

Tim STONE I wood have him killed to the sens that it wood look
like he commited suicide, when you were taken about how Tim

preaded up and down the streets like a women people that dress
up like a women wen they get prashed on some people wood call
this person a lonnotiek some lony commed suicide
and they reat these wead letters before they vannish from
the earth but the reading wood be in his own had reading
A somy letter of his mento) state of affairs and then kill him
know body is to be found. you can say that he killed his Salt
because he could not relate to his wife grace STONE have Tim
STONE to reat this so the CIA CAN think that Tim STONE commided
suicide over his wife then make that will nock of some
of the prachee of us when the News paper ask grace STONE
about her husben death because he was not her men a not to relate
to his wife sexually so he commided suicide.

Re: Jan Brown's poisoning

What's interesting about Jan B.
getting poisoned is that this
is now, the 2nd time.

The first time was the night
that fat - John Smith came
to the SF Temple & the police
came to our gate w/ a "Search
warrant" or something like that.
They came in to look for him,
but he had been hidden away.

That night, when Jan B. was
taking him to the SF terminal
to get him on a plane back to
LA she became "high" and
started hallucinating. She was
really sick for several hours.

We never knew from what
she got sick, but I feel it

I told Sean at the time that
I thought it was Lilly.

She is crazy too; & it would
be conceivable for her to
slip this shit to Roger so
close and not get noticed.

I may be very paranoid,
but she would be an
interesting inside link for
the ~~Conspiracy~~ to pull info-
mation from.

P: Stoen confrontation

When Tom and I met Stoen it was underneath the street in the parking lot down at the Court house.

He was exceedingly Cold & Calculative. His appearance was odd, for example his face was tight and make-up looking - had a transparent type glow to it.

His hair had been dyed darker & was longer & thick. It was combed straight back & was ~~very~~ real split looking, as tho it had had a lot of former treatment done on it.

When we approached him he was startled at first & stopped, but when he realized who we were he was mean. He told us to leave him alone →
