"I am a confirmed and committed Socialist. I am confirmed and committed to JIM JONES as well I have been for years and I always will be, however, years ago when I joined this group I was a passivist. I really believed that we could effect meaningful social change using Democratic practices. I no longer believe that's true. Now I think the only way in the words of MAO to change society is through the barrel of a gun and I'm committed to that principle as well. It's only JIM's guidance that has stopped me from acting out in this way because I see no other use or meaning for my life. In the past I've done a number of things for the Socialist cause that are not acceptable to the society or could not be construed in any way as being legal, but these are not considerations of mine. The only consideration I have is the advancement of the Socialist cause."

"My name is JEAN FORESTER BROWN. I believe in JIM JONES. I believe in Socialism, but I do not believe that it is possible any longer in this country to effect change and to bring about Socialism without violent revolt, and I am pledged by everything that I hold dear that I will give my life in a violent overthrow of this Government, and if it comes to it, I will stick a grenade or a bomb in my body and go to the Senate or the Congress of this country and blow myself and this Government up. I am committed to this Socialist revolution and the violent manner against the better judgment of my pastor who has cautioned me against it but I can do no other."

"This is JUNE CRY™. For years I have been a Socialist. I believe in Socialism as the only way, the only way to effect a change in this country is to go about it through violent means. We have reached a point where passivism does not work. If I have the chance and I will take it any time I can, I will do anything I can to blow up any part of this Government. I will take part or conspire in any thing I can to destroy this Government. I will assassinate President CARTER. I will do what I can to destroy the Senate or any part of this Government that continues this terrible course of events existing now in this country. The only thing that has kept me from going ahead and doing this is my pastor, JIM JONES. I thank him for keeping my temper under control and one of these days if I didn't have him I would let loose and do what I had had in my mind for years."

"This is BONNIE BECK and I think that it's about time that we face up to the reality that I've sat here for years and I've watched JIM talk about being a passivist and turning the other cheek and trying to educate the people and and show kindness and all its gotten me is sick. I think it's about time that I get on with what I know has to be done. I mean in a way CUSTER had the right idea. You kill them to save them. And my choice at this point is to get rid of the mother fuckers. They're doing nothing but causing people to die. They're causing them to starve. They're causing them to be sick and I think the best thing right now is to get rid of their ass. I see no other alternative. Everything that he's spoken about is fine and good but nothing happens. All's that happens to good people is they get sicker, they get poorer and the mother fuckers get rewarded so fuck them all. I'm ready to off them and I don't care what anybody says. They've had it in my book."

"This is HARRIET TROPP and I've done alot of thinking in the past few weeks and I just thought I should make a few things clear. Number one, I've been a member of the People's Temple for seven years and I have seen JIM JONES give his life to the ideals of peaceful change within the system to bring about a more just society. I fully have supported everything

SF 89-250
DRH:jmr

he has ever done. I believe in him. I believe in his sincerity and I stand committed to what he believes in, his ideals, and his actions, I have no disagreement with him whatsoever. However, I know that my commitment has always been a more militant one, in the sense that he knows how to convince me not to participate in violent activities or to commit really anti-social acts. And I've been relunctantly convinced because I could see the pragmaticism of his point of view. However, what is sincere for him, what is a sincere belief in passivism for him, has always been play acting for me because I am basically a very violent person. And a person who believes in the destruction of this society, in the overthrow of this Government by violent means, and the reinstitution of a completely different economic system and I believe in killing representatives of this Government and of the establishment, the law enforcement. I will do so. The point of time has come into my life where I can no longer maintain myself in a passivistic organization such as People's Temple under the guidance of a person like JIM JONES who believes in non-violent change. And I've decided that I will in the future work out my political beliefs which are for me, Communist, although Reverend JONES is not a Communist and I will do so, I will take my Communist ideology into the streets with violent activity and destroy, kill, maim, or blow up anything and everything that I feel will be a valid way of protesting the system, which includes law enforcement, PG&E, you know power stations, things like that which I have long planned on doing and have plans to do but I have been prevented from doing this by JIM JONES' teachings."

"Hello. My name is RICHARD D. TROPP. All I want to say is I've been a member of People's Temple for many years and JIM JONES is a very compassionate man, but even he is this kind of person and he is very committed to human ideals, I feel he is going about it in entirely the wrong way. Things are not moving fast enough. We got to get some guns. I believe it's true that revolution comes out of the barrel of a gun. And these mother fucking people who have been ripping off poor people and have been fucking over the world. I got myself together a bunch of people and we're going to do something about it. We're not going to sit around here and talk theory and bull shit about this and that. We're going to get ourselves some of

these big wigs. I seen hotels, I know it's easy to get into these hotels and these convention rooms. Get some guns, get some bombs. We can get this place blown up. We can get these places all blown up. We can get of things done. We better get started on it. And I'm planning on taking action very soon. Don't know where but I cannot stay any longer a passivist. Any longer anybody that's non-violent. This is just completely ridiculous. It's not doing anybody any good. It's the kind of thing, okay you know we're just spinning our wheels. We got to get something done so I think we're going to have to kill some of these people, from the President on down, I mean the Senators, the Congressmen, get some of these corporation heads, board of directos. Right in there at the very top level. Create havoc, terrorism. I think with a bunch of people we can get some people together. I got some contacts with the underground movement, terrorists, NWLF and they said right on we're going to tear it up. So we going to get it together right away."

Voices terminate and the rest of the tape is blank. Side two contains telephone call from what appears to be a female complaining to a People's Temple male concerning excessive and unjust use of her aunt's funds. Side two also contains some short phone calls and one call from LEE to JIM JONES about DENNIS (apparently DENNIS BANKS) and Treasury investigations.

October 25, 1975 M.J.P." C.R.L. appears to be CHRISTINE LUCIENTE (phonetic)

THe tape consits of a group inquiry into the reasons why CHRISTINE stole money. Much of the conversation is inaudible due to a crying baby and the general quality of the recording.

Much of the discussion concerns how much money is missing and how to prevent future thefts.

This recording appears to be a continuance of the tape numbered 1B98-1, and the majority of the information contained thereon appears to be coded. Decoders available at this time have not proven valuable in determining the meaning of the statements and comments on this tape.

During the latter portions of the tape, an unidentified narrator explains that an important statement was received from Guyana on November 13, 1978. This was on frequency 7101 on the 40 meter band on stations WB6 MID portable 8R3 and WB6 MNH, portable 8R1. The narrator states that "Communique Number 1" begins with a renouncing of charges of the Concerned Relatives Group. The statement allows that a conspiracy by outside forces is underway and civil suits are forthcoming. The sender of the message from Guyana sets forth conditions under which the upcoming visit from Congressman RYAN will be acceptable to the residents of Jonestown:

1. RYAN and his staff will be accompanied by other Congressmen or representatives of third world countries.

2. MEL GREEN (phonetic), Citizens Commission Inquiry (CCI), will also come along.

3. No media or members of "Concerned Relatives" will participate.

The sender of the message acknowledges that RYAN had previously refused these conditions. The residents of Jonestown had signed a statement refusing to see RYAN and members of his party. The sender put RYAN and members of his group on "official notice" that they (residents of Jonestown) will be seeking protection of the Guyana police in the event attempts are made to enter the Jonestown community.

People's Temple members charge that RYAN and those with him are planning to "misportray" Jonestown. People's Temple residents reject any charges that they are being held against their will, and feel that they are a model community project.

On March 19, 1979, Special Agent [redacted] reviewed the tape numbered 1B62 #53. This tape was found to contain the following:

Side One - A statement by HARRIET TROPP (phonetic) with a reference to Mr. GARRY's office. This statement discussed concerned relatives and citizens hiring mercenaries to enter Guyana. TROPP asserts that armed agents entered Guyana and attempted, unsuccessfully, to assassinate JIM JONES and others. TROPP mentions a forthcoming trip of a group of relatives from the United States to Guyana within three to four weeks of this transmission, which is an international phone patch.

TROPP states that their ultimate commitment is that they (the members of the People's Temple) will not submit quietly to interminable plotting and persecution by the politically motivated conspiracy and they will resist, actively, putting their lives on the line.

TROPP then introduced members of People's Temple who made various statements to their respective family members in the United States. Each statement expressed a desire to be left alone and to allow them to remain in Guyana without harassment. Background sounds indicate much coaching in these statements by Ms. TROPP and a male voice which may be JIM JONES. These speakers included MARK WAGNER, age 16, MARIA KATSARIS, age 24, WESLEY BRIEDENBACH, age 18, and LEANN HARRIS, age 21.

CHARLES GARRY, attorney who just returned from Guyana, is being interviewed by unknown male (likely over the radio) on Thanksgiving night. GARRY describes Guyana as "Paradise". GARRY states the area has 800 members of the church, People's Temple, and they have set up 80-90 cottages. GARRY states he was there for three days. Describes Guyana as an agricultural project. He claims they have a medical center there equal to the Mayo Clinic. According to GARRY, senior citizen cottages are around the medical center. States there's a medical team of about 18 and one doctor.

GARRY states the people there were very antagonistic to the allegations being made about People's Temple. GARRY states he saw no evidence of any of the people being beaten over there (referring to Guyana).

GARRY states that JONES is not coming back (to the U.S.) because of one of JONES' children and wouldn't elaborate on the matter.

Radio Announcer: (478-3456 San Francisco), (832-9707 East Bay),(272-1233 San Jose), (453-6523 Marin). Radio announcer says his name is RON OWENS on KJEO and states he has a call on San Francisco line:

Caller identifies himself as "TIM" and asks what arrangements they have made in Guyana to educate their children. GARRY states they have 15 teachers and educators in Guyana.

Caller, identified as "MARLENE" on San Jose line, inquires regarding jurisdiction problem and GARRY says that this country (U.S.) would have no jurisdiction over JONES. GARRY admits JONES paid for his trip to Guyana.

GARRY talks about HUEY NEWTON and states he feels he'll be acquitted.

Unknown female who states she is an ex-People's Temple member and inquires how to be in contact with her family, which is now in Guyana. She advises her mail has been censored. GARRY states that if she would contact his (GARRY's) office, he'd make arrangements for her to speak to her family by radio. Female caller comments that that is a lie, that once one is out of the church one can't communicate with members of the church. She states her father in Guyana has wanted to leave but unable to do so. She advises when she was in the church that JONES used to threaten to kill members if they didn't do what he said. This individual is placed on hold for another party to talk to her privately.

Unknown female who states her son MARK (16 years of age) was with JONES without her permission. She advises she too feels that the mail there is censored and her son hadn't received her letters. GARRY states that this lady should contact his office and he'd arrange for her to talk to her son via radio. GARRY states that mail there is not censored and that the people can leave there anytime they want.

Another caller, sounds female, inquires about old man (100 plus) as to whether it was voluntary that he is with JONES and also inquired if children there work. GARRY comments that the children there do all the things that children do.

SALLY (LNU) calls and inquires about the Ku Klux Klan and what can be done to get them out of the border patrol business. GARRY comments he really doesn't know. They discuss the Ku Klux Klan for a while.

Discussion occurs regarding "gag order" and how much the people should have a right to know. GARRY states the media should be given a free hand and write what they want.

Side B of tape number 27 was found to be blank.
