REPORT MADE AT DENVER	DATE WHEN MADE 3/31/53	PERIOD FOR WHICH MADE 2/16; 3/9, 16/53	REPORT MADE BY WILLIAM J. PEYTON, JR.
TITLE WELDON BRUCE DAYTON			CHARACTER OF CASE ESPIONAGE - R PERJURY

SYNOPSIS OF FACTS:

*See Denver
mail records
3/10/53
RJR*

Subject returned to Colorado from Boston on February 1, 1953, and continues as head of MIT Cosmic Ray Research work at Echo Lake, Colorado. During February, 1953, received mail addressed to Mrs. CAROL DAYTON, which was forwarded from Route 1, Ithaca, N. Y. Subject voluntarily appeared at Denver FBI office March 9, 1953, advising he has a divorce action in progress and is still seriously considering taking a position in India; claims he still has no information re: whereabouts of his wife and/or ALFRED SARANT.

Confidential Informant T-1, of known reliability, advised on February 16, 1953, that subject had returned to Idaho Springs, Colorado, from Boston, Massachusetts on February 1, 1953, and that subject was continuing as head of the Massachusetts Institute of Technology (MIT) phase of cosmic ray research operations at Echo Lake, Colorado. Informant stated that DAYTON is still residing at the same address in Idaho Springs and that subject did not inform T-1 of any pertinent information concerning his activities while in Boston or during his trip to and from Boston. T-1 advised subject is still very much interested in obtaining a physics research position at Bombay, India, beginning in the fall of 1953. Informant stated that subject will continue as head of the MIT phase of cosmic ray research at Echo Lake until at least the summer of 1953.

Confidential Informant T-2, of known reliability, advised that during February, 1953, informant observed a letter addressed to Mrs. CAROL DAYTON, which was forwarded to subject from Ithaca, New York, (Route #1). The letter was postmarked February 14, 1953, and bore the return address, "Ross and Wiggins, 114 N. Aurora Street, Ithaca, N.Y." (C)

On March 19, 1953, subject without solicitation voluntarily appeared at the Denver FBI Office to advise that he had dropped into the office to keep the FBI informed of his present activities. He stated he presently has a divorce action pending against CAROL DAYTON, and that he is still seriously considering taking a physics research position at Bombay, India, beginning in the fall of 1953. He stated he has received an informal offer of a position at the Tata Institute, Bombay, but the offer has not yet been officially confirmed. He indicated that meanwhile he will continue in his capacity at Echo Lake, Colorado. He further remarked

DN 65-757

that he has not yet applied for a passport in connection with the prospective job offer in India. Subject claims that he still has no information whatsoever concerning the whereabouts of CAROL DAYTON and/or ALFRED SARANT.

JUN 25 1953

Letter to Director, FBI
NY [REDACTED] b7d

[REDACTED] has stated that [REDACTED] or any other [REDACTED] has been shown the artist's drawing of "JOHN" and has said [REDACTED] has no idea who the subject may be. (u) b7d

[REDACTED] whose activities in Soviet espionage [REDACTED] activities, has been shown the artist's drawing with no success. [REDACTED] said that [REDACTED] during their period of activity [REDACTED] would frequently exchange information [REDACTED] said that [REDACTED] described both [REDACTED] when [REDACTED] was [REDACTED] said that from the descriptions [REDACTED] they both concluded that "JOHN" and "GEORGE" were not identical [REDACTED] (u) b7d

Relative to [REDACTED] knowledge of [REDACTED] [REDACTED] said that to the best of his knowledge and belief, [REDACTED] knew only [REDACTED]

[REDACTED] said that he was told by one or both [REDACTED] that [REDACTED] "GEORGE" once or twice. [REDACTED] doubts that [REDACTED] "JOHN" or any other [REDACTED] said that if [REDACTED] would have told him about it. (u) b7d

Bureau letter to Chicago and New York dated 12/2/52 pointed out the similarities between the subject in this case, and [REDACTED] Soviet agent also known [REDACTED] admitted former Soviet espionage agent. New York agrees that there is a strong likelihood that both [REDACTED] are one and the same. (u) b7d

65-61847-5X2

~~TOP SECRET~~

Letter to Director, FBI
NY [REDACTED] b7d

The report of SA HARRY A. WALKER, dated 2/26/53 at Chicago, Illinois, in the case entitled [REDACTED] was, ESPIONAGE-R" [REDACTED] reflects that the artist's drawing of the subject was shown [REDACTED] with negative results. (u) b7d

In summation [REDACTED] has been shown all available pictures in this office on three separate occasions and has been unable to recognize a photograph of the subject. All logical informants have been contacted, and they have not been able to make an identification. (u) b7d

Further action along the above lines does not seem to be destined to meet with any success. (u)

It is, of course, realized that a picture of "JOHN" might well have been among any of the groups of pictures shown [REDACTED] but a poor likeness which [REDACTED] was unable to recognize. The New York Office has no way of knowing if this occurred. (u) b7d

New York is aware of the importance and desirability of identifying the subject. However, all logical leads, available at this time, have been exhausted. (u)

WELDON BRUCE DAYTON

In this respect your attention is invited to the investigation which has been conducted relative to Weldon Bruce Dayton, a former close associate of Alfred Sarant at Cornell University, Ithaca, New York, and an alleged acquaintance of William Perl and Max Finestone who, like Sarant, were known or suspected members of the Rosenberg espionage network. It is of significance to note that although Dayton has denied knowing William Perl or having been in the apartment utilized by this espionage parallel at 65 Morton Street, Greenwich Village, New York, a number of witnesses have been developed who are in a position to prove such denials to be false.

RECORDED COPY FILED IN 65-59336

In view of the foregoing it would definitely appear that Dayton is attempting to withhold information concerning these matters by reason of his possible implication in the actual espionage activities of the Rosenberg network. It is therefore desired that consideration be given to developing any information reflecting the exact extent of Dayton's participation in the operations of this group during the course of your future investigation concerning Dayton.

From a review of the employment and occupation record of Dayton there is an indication that he may have been in a position to furnish information of value to the Rosenberg parallel by reason of his connection with the United States Navy at Mare Island, California; with the Office of Scientific Research and Development (OSRD) at the California Institute of Technology, Pasadena, California; and with the Nuclear Physics Department at Cornell University, Ithaca, New York.

It is therefore desired that an immediate investigation be conducted with the view of determining the exact nature of his work at each of the aforementioned places of employment in California, and particularly the extent of his connection with any classified project or material such as the JB-2 bomb.

61

~~TOP SECRET~~

Dependent upon the results of this check consideration will be given to having Dayton interviewed concerning any trips which he made East during the pertinent period as well as the identity of any person or persons he visited or contacted while on these trips, with particular regard to the possibility of his having been in contact with [REDACTED]

Re: Rep SA Edward J. Cahill dated 9-10-51 at New York in the above-captioned matter. In accordance with your request, you are authorized to make a copy of this report available to the United States Attorney, Southern District of New York, for his information and assistance in connection with the forthcoming prosecution of Perl. A review has been made of the content of refrep and there are being set forth hereinafter further comments and suggestions with respect to further investigative action to be taken on the basis of the information contained therein. (u)

With respect to the bank account of Perl at the Merchants National Bank, Hampton, Virginia, it is noted that on September 10, 1941, a check in the amount of \$25.00 was drawn payable to Joel Barr. In the event the photographic or recorded record at this bank includes the reverse side of instant check, it is desired that the Norfolk division determine the identity of the various endorsements appearing thereon. This information may be of assistance in developing the information as to the purpose for which instant check was drawn. (u)

In addition, this bank account reflected that a check dated July 2, 1942, was made payable to the Linguaphone Institute in the amount of \$53.50. An analysis of the endorsement appearing on this check should likewise be made in order to determine the exact location of this institute. Thereafter, an appropriate inquiry should be made at the Linguaphone Institute to determine the reason for Perl's issuance of this check. It is suggested that this check may have been issued as a payment for a home study course in some foreign language. (u)

This report also reflects the results of examination of the transcripts of Perl's bank accounts at various banks in Cleveland, Ohio. It is, however, not indicated as to whether

these banks customarily retain photographic or recordal copies of the various checks deposited and withdrawn from their customers' accounts. The Cleveland division should, therefore, make immediate inquiries along these lines and, if such records are maintained, should carefully examine same as to any deposits or withdrawal items of an unusual nature appearing in these accounts. It is particularly desired that this examination be made if possible as to the \$521.39 deposit item at the Cleveland Trust Company on October 7, 1944, and the \$695.00 deposit item to the joint (u) account of Perl and Henrietta Perl at the same bank on February 9, 1948.

The Cleveland division is requested to make a similar check concerning the \$200.00 deposit item at the Central National Bank, Cleveland, on June 11, 1948, in an effort to determine the source or payee as to the two \$100.00 checks involved. It is suggested, however, that these checks may possibly have been paid to Perl by either Columbia (u) University or Theodore Von Karman.

The transcript of the account of Perl at the Central National Bank of Cleveland sets forth that on July 15, 1948, a deposit in the amount of \$379.00 was made to this account. This deposit was indicated as consisting of a check in the amount of \$50.00 from the Fairchild Camera and Instrument Company, a salary check from the trustees at Columbia University, and the regular salary check to Perl from NACA. (u)

An appropriate check should be made at the Fairchild Camera and Instrument Company, which it is believed is located in New York City, to determine the purpose for which this check

65-59312-538

~~TOP SECRET~~

was issued to Perl. It is noted that the information concerning this transaction may afford additional proof indicating that Perl was in New York City over the July 4, 1948, holiday week-end. (U)

The New York office is similarly requested to ascertain through the appropriate official at Columbia University the exact amount of money paid to Perl for his services at that institution. At the time this information is secured, it should likewise be determined as to the exact dates and periods of his employment there for which such payments were made. (U)

It is noted for your information that an examination of the Federal income tax returns of subject Perl and his father, Abraham Mutterperl, reflects that, in their returns for the years 1948 and 1949, both claim Sarah Mutterperl, subject's mother, as a dependent. This fact has been pointed out to the Department for your attention. (U)

The investigation in this matter should be given prompt attention in view of the imminence of the Perl trial in the Southern District of New York. (U)

PURPOSE

To advise with reference to the attached memorandum dated November 26, 1951, authorizing an interview with Dr. Polykarp Kusch that William Perl, a known member of the Rosenberg espionage network, who is presently under a perjury indictment in the Southern District of New York, is suspected of having made available to this espionage parallel various classified (NACA) National Advisory Committee for Aeronautics reports on aeronautical matters. (u)

To inform that Perl received his Master's Degree in physics at Columbia University and was employed for a period of several years between 1946 and 1948 as an assistant to Dr. Theodore Von Karman in the Physics Department at Columbia University; further that the investigation determined that in August, 1950, he visited Dr. Kusch purportedly for the purpose of advising him as to the investigation being conducted concerning Perl by the FBI. (u)

DETAILS

As indicated in the attached memorandum dated November 26, 1951, it is recommended that the New York Office be authorized to interview Dr. Polykarp Kusch, who is head of the Science Department, Columbia University, concerning his knowledge of the activities of William Perl. (u)

As you are aware, William Perl was a known member of the Julius Rosenberg espionage network and he is presently under indictment in the Southern District of New York on the charge of perjury by reason of his having falsely testified concerning his acquaintance with Rosenberg, Morton Sabell, Helene Elitcher, and Michael and Anne Sidorovich. PERJURY

APPROPRIATE AGENCIES
AND FIELD OFFICES
ADVISED BY SLIP
DATE 5/31/51

A review has been made of the Bureau files in the above-captioned matter and the following leads requesting additional investigative attention are being set forth for your office as well as the other offices receiving copies of this letter. It will be noted that these leads are for the purpose of obtaining additional corroborative evidence for use in the forthcoming perjury trial against subject Perl, as well as to develop information as to the extent of Perl's espionage activities in behalf of the Rosenberg espionage network.

In the report of SA John P. Buscher dated at Washington, D. C., September 21, 1950, it is noted that on page 7 there is set forth a list of documents and secret reports which were made available to Perl by the National Advisory Committee for Aeronautics. It is particularly noted that on December 29, 1948, a confidential document entitled "Effects of Boundary Layer Control on Airplane Range" by L. E. Root of the Rand Corporation was made available to Perl. In this respect, you will recall Greenglass' statement that Rosenberg informed him on one occasion that he, Rosenberg, had knowledge of a secret project developed in upstate New York involving the construction of a sky platform which was described as

vehicle to be suspended in the atmosphere at a point where gravity ceases to exist. Inasmuch as this project has been identified as the highly secret "Rand Project," it is requested that the Washington Field office discuss this matter with an appropriate official of NACA to determine whether the aforementioned document may have had any pertinence to the previously described sky platform. (ibid 129, page 6)

On page 32 of the report of SA John B. O'Donoghue dated at Cleveland September 27, 1950, there is quoted a memorandum submitted by Perl on November 9, 1944, explaining his having exceeded the maximum amount of leave granted by a period of 8 days. It is noted that Perl claimed this excessive amount of leave was necessary by reason of his marriage and the ensuing difficulty he experienced in locating a suitable place to live. It is further noted that during an interview with Perl as reflected in the report of SA Vincent J. Cahill dated at New York December 15, 1950, Perl advised that during his period of leave between August 28 and September 2, 1944, he was busily engaged in the preparation of an apartment at 1516 East 120th Street, Cleveland, Ohio, in anticipation of the arrival of Henrietta Savidge. (ibid. 147, page 32; 187, page 38)

With respect to the above, it definitely appears that neither of his statements is true and that same were made by Perl in order to cover up his frequent trips to New York City in connection with his espionage activities. Inasmuch as some proof of the falsity of these statements may be necessary during the course of the forthcoming trial particularly with respect to Blitcher's testimony as to his September, 1944, dinner meeting with Perl in New York City, it is desired that the Cleveland office obtain detailed information concerning the places of residence of Perl in Cleveland during 1944. As to each of his places of residence, the date of rental, the date of occupancy, and the date of expiration of lease or departure should be ascertained. With respect to the apartment at 1516 East 120th Street, appropriate inquiry should be made for the purpose of developing any information concerning the redecorating of this apartment which may have been done by Perl prior to his occupancy.

The above information as to Perl's date of occupancy of various apartments in Cleveland during 1944 may also prove to be of some value in further developing evidence as to the close contact and association that existed between Norton Sobell and Perl. You will recall that in May, 1944, Sobell, in executing a U. S. Navy form at General Electric, Schenectady, New York, gave as a reference William Mutterperl, whose address was set forth as 16808 Madison Avenue, Cleveland, Ohio. It has been determined through the Bureau's investigation that, during the year 1944, Perl resided at the following 3 different addresses: 11703 Madison Avenue, 16808 Madison Avenue, 1516 East 120th Street. The exact date of Perl's occupancy of the apartment at 16808 Madison Avenue might serve to show the very current nature of Perl's contact with Sobell at the time Sobell executed the Navy form.

(ibid 231)

On page 33 of the report of SA John R. O'Donoghue dated at Cleveland September 27, 1950, there was set forth a memorandum submitted by Abe Silverstein dated February 23, 1945, recommending a promotion for Perl. This memorandum described Perl's duties as theoretical and applied research relating to the problems of jet propulsion. It was specifically mentioned in this memorandum that Perl had prepared papers in the field of potential flow among which were listed the following:

(g) "Some Effects of Compressibility of the Flow through Fans and Turbines"

(h) "A General Representation of Axial Flow Fans and Turbines."

b1

b1 [REDACTED] 6

The report of SA Maurice W. Corcoran dated at New York 10-26-50 sets forth the results of a physical surveillance on Perl. It was noted on page 54 of this report that Perl was observed on September 13, 1950, leaving the home of his parents with miscellaneous pieces of baggage and proceeding directly to the Pupin Laboratory at Columbia University. Further, that he was later observed taking this baggage to the address 610 West 110th Street, New York City.

(ibid 114, page 64)

*Corcoran
p. 447*

Inasmuch as a search of the residence of Perl at the time of his arrest failed to reveal any papers or documents of pertinence to his possible espionage activities, it is suggested for the consideration of the New York office that Perl may have retained certain of his personal and confidential scientific papers at the Pupin Laboratory, the contents of which may be readily ascertained through an appropriate discreet source.

On page 57 of SA Corcoran's report, the contents of a postal card sent by Perl to his sister, Mrs. Anne Blum, on 11-27-39 were set out as follows:

"I am writing to a friend of mine with this mail to arrange having it typed. He's a classmate and has done this sort of thing before. Would you mind lending your typewriter if need be?"

(ibid 164, page 52)

From other correspondence of Perl, it is possible he may have been referring to his thesis containing various mathematical equations. However, as you are aware, Perl was, at the time of this communication, stationed at the NACA Laboratory, Langley Field, Virginia, and, according to Max Elitcher, was known to have maintained correspondence with Sobell. It is particularly noted that in Perl's subsequent letter to Mrs. Blum on February 4, 1940, he makes specific reference to a friend, "Sobell," who is believed to be Morton Sobell.

*covered,
per. 447*
In view of the foregoing, it is requested that the New York office reinterview Mrs. Blum on the basis of Perl's card of November 27, 1939, to definitely establish the nature of the copy work to which she understood Perl was referring and whether anyone actually did borrow or contact her with view of borrowing her typewriter.

On page 60 of this report, Perl's letter to his sister, Mrs. Blum, dated October 3, 1944, was quoted. It is noted that this letter contains the following information:

"A friend of mine just quit his \$2600.00 a year job to go back to school and study radio." (ibid 164, page 60)

There is little question but that Perl was making reference to Sobell, inasmuch as Sobell is known to have resigned his position with the Bureau of Ordnance on October 1, 1944, and according to Elitcher was earning \$2600.00 at the time. In addition, it is known that Sobell thereafter continued his studies at the University of Michigan, taking courses in radio engineering.

This letter which is included in the prosecutive summary prepared in this case is considered of importance by reason of its corroborative value to Elitcher's testimony indicating that he, Elitcher, while living with Sobell in Washington, D. C., had observed correspondence between Perl and Sobell. It is believed that this letter provides rather conclusive proof of the close contact which was maintained between the two in that Perl

*Conceded
per 447*
although stationed at Langley Field, Virginia, was cognizant of Sobell's resignation from the Bureau of Ordnance in Washington, D. C., within a period of 3 days from the time that this resignation was actually effective. The New York office should therefore determine whether the United States Attorney is desirous of having appropriate Bureau of Ordnance records verifying the date of Sobell's resignation and the amount of his salary, as well as University of Michigan records reflecting Sobell's study of radio engineering in that institution, available for the forthcoming Perl trial. In the event such testimony is desired, immediate steps should be taken to determine the identity and address of proper officials who could introduce such records, so that this information can be made available to the United States Attorney for his assistance in the issuance of a subpoena duces tecum.

In the case entitled "Nathan Sussman, was; Espionage - R," NY file 65-15399, the report of SA Bert S. Taylor dated at New York May 2, 1951, sets forth the results of an interview with subject Sussman in March, 1951. It is noted that on page 4 of this report, Sussman is indicated as having stated that he recalled that Morton Sobell, William Danziger, Max Elitcher, and William Perl were all members of the YCL group which he joined at CCNY. Further, according to Sussman, that these meetings were held at the Karl Marx House on the CCNY campus on a weekly or semimonthly basis. (100-331124-46)

On page 10 of this report, it was mentioned that Stanley Robert Rich, upon interview on September 5, 1950, advised that he had become a member of the Steinmetz Club at CCNY, which group became affiliated with the YCL. He further recalled his attendance at closed meetings of the YCL, which meetings were likewise attended by Julius Rosenberg, Sobell, Elitcher, Danziger, and Sussman. (100-337124-46)

*Conceded
per 447*
The testimony of Sussman as to Perl's alleged YCL activities should be immediately brought to the attention of the United States Attorney for his possible use in connection with the forthcoming perjury trial. However, as you are aware, the probative weight of Sussman's testimony in this regard might be somewhat weakened if the government is unable to corroborate this testimony through Elitcher, Rich and Danziger, who were alleged to have been members of the same YCL group at CCNY.

A review of the results of the interview of Rich on August 28, 1950, reflected that Rich admitted knowing William Perl at CCNY and considered him to be sympathetic with the Communist cause. Rich stated, however, that he could not recall any definite association between Perl and the YCL at CCNY. It was Rich's recollection that Perl would have known Danziger, Sobell, and Elitcher, who were classmates in that institution. On the basis of the recent statement by Sussman, the Boston division is being requested to recontact Rich in an effort to determine whether he is able to recall additional details concerning the YCL group at CCNY and the alleged connection of Perl with that group.

You are also aware that Elitcher, when interviewed on September 13, 1950, advised that the name of Steinmetz Club sounded familiar to him but he had no recollection that it was a club on the CCNY campus during the last two years of his attendance at that school. Elitcher stated that the Steinmetz Club was probably the YCL Unit at CCNY and that it was his recollection that around January, 1938, he had been solicited to join the YCL by either Rosenberg or Rich. He claimed, however, that he did not recall whether he actually joined this club but he remembered attending several meetings of the YCL where there were about 12 persons in attendance, among whom he knew were more than a few engineers who had graduated from CCNY.

Further, it will be recalled that Danziger, upon interview on October 25, 1950, flatly denied that he had ever been a member of the YCL or the Steinmetz Club at CCNY or any group or unit affiliated with the CP.

It is requested that the New York office, on the basis of the additional information obtained through the recent interview with Sussman, again interrogate Elitcher as well as Danziger in an effort to determine whether they might recall additional details to that previously furnished by them which might corroborate the allegation as to Perl's connection with the YCL at CCNY. For the information of the New York office, the Bureau's Legal Attache in Paris, France, is being requested to reinterview Samuel Perl. The purpose of this reinterview is to specifically question him con-

covered
ser 447

cerning his being present at the dinner party at the Bird-in-Hand restaurant in New York City in September, 1944, which affair was attended by Rosenberg, Max and Helene Elitcher, Ruth Alscher, and his brother, William. He is further to be questioned concerning the subsequent visit by this group at the apartment of Joel Barr's parents and the apartment of Al Sarant. Perl is likewise to be interrogated concerning his whereabouts during the period of his furlough from Camp Breckenridge, Kentucky, during the period from July 22 to August 4, 1944, as well as to his whereabouts during the period from September 9 to September 14, 1944, when, according to the Army records, he was to transfer from Camp Breckenridge, Kentucky, to Fort Leonard Wood, Missouri.

The above investigation should be given the immediate attention of your office as well as the other offices receiving copies of this letter, in view of the imminence of the Perl trial which is expected to be held in New York during June, 1951.

FILE NO. 65-1743

REPORT MADE AT CINCINNATI, OHIO	DATE WHEN MADE 5/27/51	PERIOD FOR WHICH MADE 5/11/51	REPORT MADE BY FRANCIS E. MURPHY	MJS
TITLE WILLIAM PERL, was.			CHARACTER OF CASE ESPIONAGE - R	

ADMINISTRATIVE

SYNOPSIS OF FACTS:

GEORGE PAGE, Engineer, Curtiss-Wright Corp., North American Aircraft, Columbus, Ohio, advised he first heard of a unit similar to TG-100 being tested on a Ryan Aircraft plane in San Diego, Cal. in late 1943 or early 1944. PAGE explained that Curtiss-Wright Corp. worked with TG-100 in Columbus, Ohio, in early 1946, and abandoned project as unsuccessful. PAGE recalled that turbo-unit used at Columbus had General Electric Serial No. 6 or 7. PAGE advised that a Mr. SALMON was probably in charge of the turbo-unit tests made at Ryan Aircraft in San Diego, Cal. in 1943 or 1944.

- P -

DETAILS:

AT COLUMBUS, OHIO

Mr. GEORGE PAGE, Engineer, Curtiss-Wright Corporation, is still in the employ of that company and is working in Columbus, Ohio. Since his return from England he has been working at the North American Aircraft Plant for Curtiss-Wright and will continue on this work until North American Aircraft has completely absorbed all of the Curtiss-Wright work. According to PAGE, he should be in Columbus until the fall of 1951.

PAGE explained that he first heard of a turbo-prop unit such as the TG-100 in late 1943 or early 1944. He said that he had heard that such a unit was the subject of tests on an aircraft at San Diego, California.

STAT. **TOP SECRET**

CI file #65-1743

He recalled that the turbo-unit work was being done at the Ryan Aircraft Plant in that California city. PAGE said that he was in St. Louis, Missouri, when he learned this information and thought it was common knowledge in the industry that such experiments were going on in California. PAGE was quite certain that this turbo-prop unit was identical with the TC-100.

Mr. PAGE advised the Curtiss-Wright plants did not work on the TG-100 until early 1946. He stated that Curtiss-Wright had anticipated that they would work on the project much sooner but the General Electric Company was greatly delayed in shipping the TG-100. He said they had planned to work on it at St. Louis, Missouri, however, the St. Louis plant closed in June of 1945 and operations were moved to Buffalo, New York. PAGE recalled that while in Buffalo he made a plane trip to Schenectady, New York, attempting to expedite the delivery of the TG-100. He said that the Buffalo Plant closed late in 1945, and the operations were moved to Columbus, Ohio. It was, according to PAGE, early in 1946 that the TG-100 unit arrived in Columbus. He said that experiments and tests were then started by installing the unit on one side of a C-46, twin engine cargo-type plane. He stated the experiments and tests were not successful and the plane was never flown for a test. PAGE recalled that the serial number of the TG-100 unit that was used in the tests was either #6 or #7, which indicated to him that several units had been previously manufactured by the General Electric Company. He said the TG-100 was the only unit he, personally, had ever worked with. PAGE could not recall anything concerning the use of the TG-100 in a high altitude jet fighter plane, known as the XP-51.

PAGE was asked if he knew any aero engineers in the Ryan Aircraft Plant who would have knowledge of the turbo tests supposedly conducted on a Ryan plane during 1943 or 1944. PAGE said he thought the Chief Engineer was a man named --- SALMON at that particular time but did not know if he was still with the Ryan concern.

CI file #65-1743

LEAD PAGE

SAN DIEGO OFFICE

AT SAN DIEGO, CALIFORNIA

Will contact the Ryan Aircraft Company and attempt to locate the Mr. _____ SALMON mentioned by GEORGE PAGE, and, after a thorough check of the office indices, consider the advisability of interviewing him concerning his knowledge of the history of the turbo-unit TG-100, which may possibly have been tested in a Ryan plane during 1943 or early 1944.

Will, if it is determined that SALMON is now in employment elsewhere, set out appropriate leads so that he may be located and interviewed.

CINCINNATI OFFICE

AT WRIGHT-PATTERSON AIR FORCE BASE
DAYTON, OHIO

Will contact Colonel PAUL NAY at the Power Plant Laboratory to determine if in May, 1944, either Bell Aircraft or the Curtiss-Wright Corporation had classified information concerning the TG-100 or the I-40.

Will also contact the appropriate officer at the Aircraft Projects Section to determine if either Bell Aircraft or the Curtiss-Wright Corporation had classified information regarding the XP-81 as of May, 1944.

Perl was born October 1, 1918, and attended College of the City of New York; obtained a Bachelor of Electrical Engineering degree in 1938 and a Masters degree in 1939. He was a classmate of Julius Rosenberg, executed Soviet agent, and Morton Sobell, convicted espionage agent. Perl was employed as an aeronautical engineer by National Advisory Committee for Aeronautics, 1939-50, with the exception of a two-year leave of absence 1946-48 when he obtained a Ph.D degree.

Perl was interviewed in connection with the Rosenberg case and admitted having been contacted by Vivian Glassman who offered him \$2,000 and instructions on fleeing the United States. He refused to accept the money. In testimony before a Federal grand jury, Southern District of New York 9-11-50, he denied knowing Rosenberg, Sobell and others. He was convicted on two counts of perjury in May, 1953, and on June 5, 1953, was sentenced to five years on each count concurrently. Perl has refused to reveal his part in the Rosenberg ring. // U

Branigan

Office Memorandum • UNITED STATES GOVERNMENT

~~TOP SECRET~~

TO : DIRECTOR, FBI (65-59312)

DATE: 9/29/55

FROM : SAC, NEW YORK (65-15387)

SUBJECT: WILLIAM PERL, was
ESPIONAGE - R

Re SAC letter 55-30, 4/12/55.

WILLIAM PERL was convicted of two counts of perjury on May 22, 1953, in the United States District Court, Southern District of New York, to wit; denying before a Federal Grand Jury that he was acquainted with JULIUS ROSENBERG and MORTON SOBELL. He is currently serving a five-year sentence, at US Penitentiary, Terre Haute, Indiana.

JULIUS and ETHEL ROSENBERG and MORTON SOBELL were convicted 3/29/51 in the USDC, SDNY, of conspiracy to commit espionage on behalf of the Soviet Union. On 4/5/51 JULIUS and ETHEL ROSENBERG were sentenced to death and MORTON SOBELL to thirty years imprisonment. JULIUS and ETHEL ROSENBERG were legally executed 6/19/53 at Sing Sing Prison, Ossining, New York, and MORTON SOBELL is currently serving his sentence at the US Penitentiary, Alcatraz, California.

On 7/26/50, subject voluntarily furnished a statement to the Cleveland office. A portion of this statement reflected that on 7/23/50 one VIVIAN GLASSMAN of New York City, visited PERL in his apartment at Cleveland, Ohio, and explained in writing that she had been instructed by a stranger to speak to an aeronautical engineer in Cleveland, and to give this engineer money and instructions to leave the country. PERL recalled the name JULIUS ROSENBERG was written on the paper but stated he couldn't recall other pertinent details, and had destroyed the papers. PERL stated he asked her to leave.

VIVIAN GLASSMAN on 3/3/50, stated that she had gone to Cleveland under the name Mrs. M. GOLDBERG and had furnished PERL with instructions to leave the country and offered him \$2000, which he refused. She stated that an unknown stranger had asked her to contact an aeronautical engineer in Cleveland and PERL was the one she knew.

REBEL GLASSMAN has admitted being acquainted with JULIUS and ETHEL ROSENBERG. Subject and VIVIAN GLASSMAN have since refused to cooperate with the Bureau.

In accordance with memorandum to all Supervisors in the Domestic Intelligence Division dated April 13, 1956, consideration has been given to the possibility of use of the terms of the Immunity Act in connection with the investigation of persons involved in the Rosenberg espionage ring. By letter to Mr. Tompkins dated September 3, 1954, his attention was called to the Rosenberg espionage ring and it was suggested he might wish to consider utilizing the terms of this bill in connection with this ring. (U)

In connection with this review, it is believed Vivian Glassman Pataki and William Perl could possibly furnish information concerning the operations of the Rosenberg apparatus. Pataki was utilized as a courier to contact Perl in Cleveland, Ohio, and furnish him with money and instructions on how to flee the U.S. She has admitted making this trip to Cleveland upon instructions of an unknown man. She has refused to identify this person and has refused to make any attempt of an identification. She was formerly the fiancée of Joel Barr, member of the Rosenberg ring who left the United States in 1948. She was a close associate of Alfred Sarant who fled the U.S. in 1950 after preliminary questioning by Bureau Agents. She was also a close friend of Julius and Ethel Rosenberg. (U)

b1

He could furnish us with information concerning his espionage operations and his method of transmitting his information to Rosenberg. Glassman, it is believed, would be able to furnish information concerning the activities of Barr, Sarant and the Rosenbergs. (U)

It is felt since this matter has been called to the attention of the Department prior to this time that it is not necessary at this time to furnish information about specific cases to the Department. (U)

ACTION: None; for your information.

[REDACTED]

Reference is made to the report of SA JOHN W. LEWIS, New York, dated June 26, 1950, in the case captioned "DAVID GREENGLASS, was, Espionage - R," On Page 32 of this report it is reflected that GREENGLASS advised that his wife had come to Albuquerque to live in about February 1945. She had difficulty in finding a place to live and for a time shortly after her arrival in Albuquerque she resided on Coal Street, Albuquerque, with the wife of a friend of DAVII's, whose last name was SPINDEL. GREENGLASS further advised that while his wife was living at Albuquerque, he bought a car in partnership with SPINDEL and a tall red-headed fellow, whose name he could not recall. He believes that this car was a Dodge and the car was registered to WILLIAM SPINDEL.

When interviewed on June 16, 1950, Mrs. RUTH GREENGLASS stated that no one visited her while she was in Albuquerque other than wives of G.I.s who were stationed at the Army Base with her husband and people that she worked with. She named some of her visitors as SPINDEL GORMAN, CHARLIE SCHRODER, BAUMGARTEN, and

~~TOP SECRET~~

an individual named "SPARKIE" or "SPARKY."

On Page 76 of referenced report it is noticed that in a list of names which had appeared in a small telephone notebook, which was found in GREENGLASS' apartment, was the name WILLIAM SPINDEL, 613 West Coal, Albuquerque, New Mexico.

On Page 50 and 51 of referenced report it is reported that a letter from T-5, D. GREENGLASS, Santa Fe, New Mexico, to Mrs. R. GREENGLASS, New York City, dated October 4, 1944, stated as follows:

"Well, today I worked kinda hard and am pretty tired, but instead of taking this leisurely I am going to dinner with HY and BILL at EMANUEL and ETHEL's home (you know the nice people I met). I hope that they have something good to eat since I am quite hungry."

It is suggested that the "BILL" mentioned in this letter may be identical with WILLIAM SPINDEL and it appears that SPINDEL and GREENGLASS may have been acquainted as early as October 4, 1944.

On Page 52 of this report, it is stated that a letter from T-5, D. GREENGLASS to Mrs. R. GREENGLASS, dated January 28, 1945, stated as follows:

"I was over to BILL's house last night for supper and this morning for breakfast -- besides this HY and I have not had much social activity - - - BILL's wife is a very nice woman, pretty, and husky voice and about as sloppy-dressed as BILL so that they make a good couple. Make no mistake about it, she has brains too. You'll meet her."

SARAH LEW SPINDEL applied for a job at the University of California, Los Alamos, New Mexico, on December 12, 1944, giving as her address 824 North Fifth Street, Albuquerque, New Mexico.

It appears from the last letter quoted above that DAVID GREENGLASS may have been at the SPINDEL home for supper and breakfast in Albuquerque, New Mexico, January 27, 28, 1945. GREENGLASS mentions BILL in this letter and states that his wife will meet BILL's wife. This letter might be interpreted to mean that Mrs. GREENGLASS had already met BILL. WILLIAM SPINDEL was on leave from the Los Alamos Project from October 15, 1944, to November 4, 1944. As his home was in Brooklyn, New York, it is probable that he made a trip to Brooklyn at that time, as he had known DAVID GREENGLASS prior to that time at Los Alamos. He may have met RUTH GREENGLASS in Brooklyn during this furlough.

~~TOP SECRET~~

[REDACTED]

[REDACTED]

In further support of the theory that Mrs. GREENGLASS may have contacted WILLIAM SPINDEL, in addition to her husband when she came to Albuquerque in the latter part of November 1944. it is pointed out that on December 11, 1944, WILLIAM SPINDEL wrote a letter to Brooklyn College in an attempt to obtain his B.A. Degree. It appears that SPINDEL's purpose in trying to get his degree at that time was to be able to obtain a white badge at Los Alamos which would entitle him to attend colloquium meetings at Los Alamos at which meetings highly classified subjects concerning the over-all work at Los Alamos Project were discussed. It may be significant that WILLIAM SPINDEL attempted to obtain additional access to classified information at this particular time.

JULIUS ROSENBERG, et al.
ESPIONAGE - R

There are set forth hereinafter the following questions which should be included among those asked of Julius Rosenberg in the event he desires to cooperate.

- (1) Identify for us by name the persons in your network from whom you received information on behalf of the Russians.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

David Greenglass also stated that Rosenberg told him he was obtaining information from a scientist who was being paid \$200 per day as a consultant on the construction of the Aswan Dam in Egypt. (This is possibly Willicia Perl, who worked as an assistant to Professor Von Karman, who was employed on that project.)

[REDACTED] advised that Rosenberg [REDACTED] were two espionage units operating in New York City and that he

65-58236

SERIALIZED	FILED
JUN 23 1953	
FBI - NEW YORK	

headed one unit and the other unit was headed by two men, one of whom left the United States prior to Rosenberg's arrest (believed to be Joel Barr), and the other one fled since Rosenberg's arrest (believed to be Alfred Sarant).

Rosenberg also [REDACTED] of a young couple in the midwest who he set up in business as a cover but actually acted as a go-between in his microfilm transmission (believed to refer to Michael and Anne Sidorovich).

b7d

(2) What type of information was furnished to you by your sub-agents and identify these sub-agents.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED] b1

[REDACTED]

David Greenglass advised that Rosenberg informed him of contacts that he had in up-state New York, Ohio, and a contact in General Electric in Schenectady, who furnished information to the Russians. He also mentioned a contact in up-state New York who worked on jet aircraft.

Greenglass also described information Rosenberg had obtained concerning the "sky platform" which he had received from one of his contacts in up-state New York. (Investigation reflected that three separate projects similar to this were operated by the Army, Navy and Air Force, exploring the possibility of a guided missile similar to a sky platform and this was known as the Satellite Vehicle Program.)

Greenglass also said that Rosenberg told him he had received the mathematics for the nuclear energy for the propulsion of aircraft (NEPA).

[REDACTED] Rosenberg [REDACTED]
[REDACTED] received "terrific information" from Perl, including information on NEPA.

b7d

(3) Did you photograph the materials received from sub-agents; where was this photographic work done and did other people assist in this work, and who were they?

[REDACTED] b1
[REDACTED]
Ruth and David Greenglass have advised that Rosenberg told them he had two apartments in New York City, one in the Greenwich Village section (tentatively identified as 65 Morton Street, New York City), and another in the vicinity of 12th Street and Avenue B, New York City (which apartment has not been located to date).

Concerning 65 Morton Street, this apartment was occupied intermittently from 1944 to 1949 by Alfred Sarant, William Perl, Joel Barr, and Maxwell Finestone.

[REDACTED] Julius Rosenberg [REDACTED]
[REDACTED] photographing material obtained by William Perl from Columbia University. This photographing was performed in the Julius Rosenberg apartment on the weekend of July 4, 1949, and Rosenberg was assisted by three other men, believed to be Perl, Sidorovich, and Maxwell Finestone. b7d

(4) What expert photographic equipment did you use in your work and where did you get it?

[REDACTED] b1
[REDACTED]
Rosenberg [REDACTED] had a Leica camera and \$7,000 in his apartment on June 16, 1950, when the FBI invited him to their office for interview and that following his departure Ethel Rosenberg removed the money and the camera in a shopping bag to the apartment of a Communist Party member residing in Knickerbocker Village. b7d

(5)

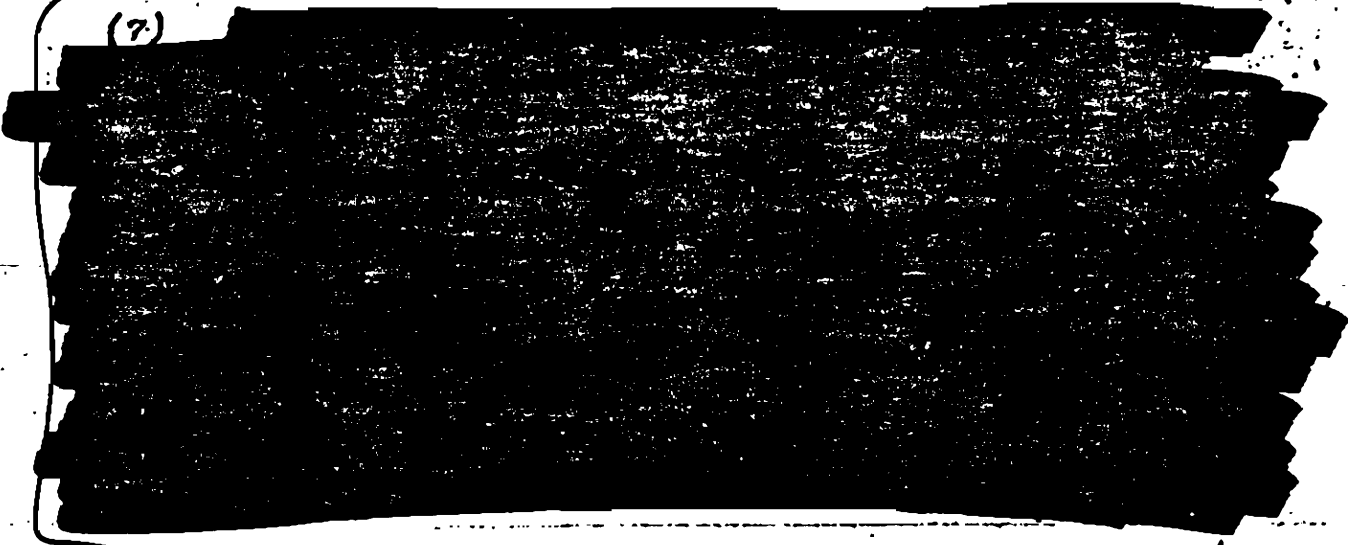

b1

(G) [REDACTED] b1
The Greenglasses advised that Rosenberg furnished \$150 to Ruth in November, 1944, to finance her trip to New Mexico; \$200 in September, 1945 when David was on furlough in New York City; \$1,000 in May, 1950, and \$4,000 in June, 1950, to finance their flight. David also advised that he borrowed from Julius Rosenberg sums of money totaling approximately \$1,000 during the period 1946-1950. Greenglass considered this blackmail and felt that Rosenberg considered it the same way. This totals \$6,350.

Greenglass also told that Rosenberg offered to send him to the University of Chicago or the Massachusetts Institute of Technology to study nuclear physics at Russian expense. He also informed Greenglass he had young men attending engineering schools and he intended to use them after their graduation as sources of technical information.

(7)

b1

(8)

Greenglass testified that during his furlough in January, 1945, one night Rosenberg took him to a certain location on the east side of New York City where he introduced Greenglass to a man in a car. Rosenberg left and Greenglass and the unidentified man rode around for about fifteen minutes during which time this man questioned him about Los Alamos. Greenglass has not been able to identify this contact. b1

Greenglass also testified that during this same furlough Rosenberg described to him an atomic bomb, which Greenglass realized later was the Hiroshima type bomb.

(9)

Has your wife cognizant of your activities?

 b1
Rosenberg 
when the FBI agents invited him to their office for interview he refused permission for a search of his apartment because he had \$7,000 and a Leica camera concealed in a phonograph in the bedroom. On his departure from the apartment Ethel removed the money and the camera, placed them in a shopping bag and delivered them to a reliable Communist residing in Knickerbocker Village. (This person has not been identified to date.)

b7d

(10) Did you know Harry Gold?

NOTE: Gold has identified Julius Rosenberg as being a man with a cigar whom he observed at a prearranged emergency meeting place in Elmhurst, Long Island, on the first Sunday in February, 1950. Gold was to meet a Russian contact unknown to him who was to be identified through a cigar in his mouth at this place. No contact was made.

Greenglass advised that Julius Rosenberg came to his apartment on the morning of May 23, 1950, with a copy of the New York "Herald-Tribune" containing a picture of Harry Gold and informed him that Gold was the man who had contacted him in New Mexico and that he, Greenglass, would have to flee the country.

(11) What were your relations with Jacob Golos and Elizabeth Bentley?

NOTE: Bentley has advised that Golos obtained information from an engineer named Julius who lived in Knickerbocker Village and who was the leader of a cell of Communist engineers turned over to Golos in December, 1942 for espionage purposes. Bentley saw Julius twice at a distance and described him as being 5'10" or 5'11" tall, slim, and wore glasses. This description fits Rosenberg.

Max Fitcher said that Sobell informed him Rosenberg had talked on the phone with Bentley but had never met her.

Greenglass stated Rosenberg told him he knew Golos and that Bentley probably knew him.

MEMO:

RE: JULIUS ROSENBERG
ESPIONAGE - R

I called Inspector BELMONT of the Bureau at 1:15 today, to ascertain whether there had been any developments with regard to ourtel of the fifteenth instant. He advised that the Bureau was preparing a memorandum for the department with regard to this matter, and would send it over today, and that probably Monday a decision would be reached. U

I pointed out that we ^{had} set forth the recommendations of the New York Office with regard to proceeding against the subject, and it was our belief that we should first attempt to break him on an interview in order to obtain his story as to his implications in espionage AS SET OUT IN OURTEL 7-15-50 U

I suggested that the Bureau might desire to call to the department's attention, the possibility of filing on the subject in Santa Fe, on a conspiracy charge. I told him that we would not place out-going stops, in view of their ineffective nature, and he agreed. I also advised him that we have not observed the subject today, with respect to the \$4,000 which DAVID GREENGLASS had said that he hid in the flu of the fireplace in his apartment. U

I pointed out to Mr. BELMONT that RUTH advised us that she had removed this \$4,000 prior to the search of her apartment by Bureau Agents, and had given the money to LOUIS ABLE, in an envelope, to keep for her. She did this just prior to going to the hospital, and she stated that, after DAVID was arrested by the Bureau, she told ABLE to take the \$4,000 and give it to O. JOHN ROGGE, to retain him as an attorney. U

I explained to Mr. BELMONT that we were not conducting a neighborhood investigation, at this point, in the vicinity of 12th Street and Avenue B, to locate ROSENBERG'S covert apartment, inasmuch as we do not desire our investigation to become known to ROSENBERG through some contact that might be made on a neighborhood investigation. MEMO:
NY 100-268

[REDACTED]

[REDACTED]

[REDACTED]

Bureau letter instructed the New York Office to reinstitute investigation of BERNARD SCHUSTER and submit a well organized summary report correlating all pertinent details available to date. The file in this matter should be exhaustively reviewed and analyzed, together with any other information developed through a search of the indices and all leads should be set forth in the summary report. U

Bureau letter continues that the New York Office should immediately furnish photographs of SCHUSTER and MAE MILLER to the Philadelphia Office to be displayed to HARRY GOLD. In addition New York should display these photographs to DAVID and RUTH GREENGLASS, MAX ELITCHER and others interviewed in connection with the Rosenberg Case. In regard to the latter case, Bureau letter indicated that it was possible that MAE MILLER may have succeeded SCHUSTER in contacting ROSENBERG as she succeeded him in contacting BROTHMAN. U

Bureau letter related that this matter was of paramount importance and must be given immediate and continuous investigative and supervisory attention. U
