RACIAL MATTER

DATE: October 12, 1963

[Handwritten notes and signatures]

2:45 PM

[Signature]

The Laboratory received a radiogram from Atlanta at 8:40 PM, October 11, 1963, requesting two tape recorders and two dial recorders.

At 10:01 PM, October 11, 1963, SA *[Redacted]* Night Supervisor in Laboratory, called the New York Office to determine whether New York had two Magnecord tape recorders complete and two 6-A dial recorders complete that could be released to send to Atlanta.

At 10:20 PM, October 11, 1963, SA *[Redacted]* Night Supervisor in New York Office, called the Laboratory and advised that the equipment Atlanta requested is available. He was instructed to forward the recorders immediately by the most expeditious means to Atlanta Office.

RECOMMENDATION: None. For information only.

On 10-8-63 [REDACTED]

[REDACTED] called SAC Faisst and inquired as to whether they could get together somewhere outside of the FBI Office.

In accordance with Bureau instructions, SAC Faisst told [REDACTED] that the Bureau had been working with other agencies and it did not appear feasible to have any clandestine meetings with anyone. [REDACTED] was told that if he desired to have a meeting he should drop by the FBI Office.

[REDACTED] stated he felt that it would be detrimental to the case if he were observed by anyone in the FBI Office. SAC Faisst told [REDACTED] he did not agree with this observation and reminded [REDACTED] that the FBI had had the same trouble as the Birmingham Police Department and Jefferson County Sheriff's Office in endeavoring to get in touch with him the night the Alabama Highway Patrol (AHP) picked up a number of suspects and that each time an inquiry was made the reply was made that [REDACTED] was unavailable.

[REDACTED] stated that he was unavailable because he was busy and said, "I have no apology to make concerning any of my actions." [REDACTED] was informed that he had injected the word "apology" into the conversation and an apology had not been requested. [REDACTED] agreed.

[REDACTED] stated he did not advise the FBI of the identity of suspects he had picked up because he had not been informed of those suspects in which we had an interest. He

The NATIONAL STATES RIGHTS PARTY is reported not actively holding meetings or organizing in any group activities in the Knoxville Division. There are some members of this organization who appear to be the only "card holding" members residing in Knoxville and LaFollette, Tennessee, and vicinity. The known members of this organization were interviewed and furnished no pertinent information relating to bombing matters at Birmingham, Alabama, and listed no individuals who could be considered as suspects. The following were interviewed:

During investigation of instant case, 52 individuals at Chattanooga and vicinity have been interviewed, whose names or similar names have previously been reported as members or past members of DK, KKKK, Inc., Chattanooga, Tennessee. Of this number, 37 have admitted membership. Six additional ones have admitted membership but not active and not sure if their names continue to be on current membership of DK, KKKK, Inc. In addition to these 43 individuals, four others have refused to be interviewed and

[REDACTED] A total of 46 present and past members were interviewed. One recently active member presently in the hospital with cancer not interviewed. Six others with similar names were interviewed; all denied membership, and it was not possible to establish if they were or were not present or past members. No pertinent information re bombing matters at Birmingham, Alabama, or suspects developed.

The overall results of these interviews is that members, leaders, and the organization as a whole opposes violence, describes their organization as a political and religious organization, but very definitely opposed to integration; however, any action in opposition to integration to be accomplished by legal means and principally by voting. Of those who were not belligerent, they advised generally that if they had information regarding persons responsible for the bombing matter, instant case, they would report same to the FBI or to some law enforcement agency. However, almost without exception, all reported the DK, KKKK, Inc., as a secret, fraternal organization, and they would not furnish information regarding other members and activities where no violation of the law existed.

LAVI

On the night of 9/29/63 the Alabama Highway Patrol arrested Robert E. Chambliss and Charles Arnie Cagle allegedly in connection with the recent bombing of the 16th Street Baptist Church in Birmingham. On 9/30/63 the Director brought this matter to the attention of the Attorney General. He pointed out that information had been received that the Alabama Highway Patrol had very little substantial evidence regarding the two individuals.

There is attached for your information a copy of a memorandum prepared for the Attorney General by Burke Marshall, Assistant Attorney General of the Civil Rights Division, under date of 10/4/63.

[REDACTED]

It is noted the Bureau had received similar information to the effect that [REDACTED] had no basis for arresting Chambliss and Cagle except that he found out that the FBI was questioning numerous Klan members and wanted to jump the gun and therefore picked them up. As a matter of fact, it was more than 48 hours later that there was any indication as to what they were going to be charged with and they finally came up with the possession of dynamite charge.

**Q4 Accompanying one-page typewritten letter beginning
[redacted] We see that you are..."
and ending "...GRAND DRAGON OF INDIANA"**

Result of examination:

It was concluded that specimens Q3 and Q4 were typed on the same typewriter as used to prepare specimens Qc1 and Qc2, previously submitted.

Evidence in this case has previously been searched in the appropriate sections of the Anonymous Letter File without effecting an identification.

It was further concluded that the typewriter used to prepare specimens Qc1 through Q4 in this case was not used in the preparation of Q11 and Q12 in the case entitled "BAPBOMB" or in the preparation of specimens [redacted] in the case entitled "Unsub; [redacted] VICTIM; Indianapolis Recorder Newspaper - VICTIM; EXTORTION - RACIAL MATTERS."

The five-cent stamp on specimen Q3 was torn from a sheet of stamps. No watermarks or other identifying characteristics were observed on specimens Q3 and Q4.

The typewriting on specimens Qc1 through Q4 most closely resembles the laboratory's standards for Underwood Distinctive pica type having a horizontal spacing of ten letters to the inch.

Q3 and Q4 are returned herewith. Representative photographs have been made.

MR. TOLSON:

Mr. Rosen, who is in Birmingham, furnished the attached information this morning setting forth his analysis of the bombing investigation there.

In view of his finding that there is substantial work remaining to be done; the heavy overtime by the agents assigned to the special investigation; and the importance of this case, I agree with his recommendation that the investigation continue as is, with a further re-examination in ten days.

Mr. Rosen went to Birmingham under instructions to go into this investigation thoroughly, including personnel. He finds that the investigation is well organized and being handled with competence by SAC Moore. In view of this, if the Director desires, Mr. Rosen will return to Washington.

10. No one office has furnished an excessive amount of personnel which could unduly affect the work of the office from which they have reported. One office, namely Little Rock, has furnished as many as five. This includes the SAC. The balance range from one to four in number. This is not an excessive drain of agent personnel from the contributing offices.

11. The entire investigation is being directed toward bringing as much pressure as possible on all prime suspects developed and being developed. This is accomplished through interviews and reinterviews; through constant harassment tactics; through the use of technical equipment wherever possible; through surveillances; through examination by the use of the polygraph; through information developed as a result of contacts with sources of information in a position to furnish information which may be pertinent to any facet of the investigation; and through saturation and redirection techniques.

12. Concurrent with the above action, extensive liaison is maintained with persons and organizations who are in a position to furnish information.

13. All paper work in the preparation of reports and memoranda is maintained in a current status.

14. Circumstantial evidence and possible witnesses are being lined up in the event it becomes desirable to present any phase of this investigation for possible grand jury action.

15. There is a total of 34 Special Agents and 8 clerical employees presently on special assignment. The overtime for the agents on special assignment at Birmingham ranges from an average low of 6 hours and 38 minutes per day, to a high of 9 hours per day.

RECOMMENDATION:

On the basis of the enthusiasm, pressure, and attitude of the personnel on this assignment, I recommend there be no reduction or addition in manpower at this time; that present pressure points and procedures which have been discussed with SACs Moore and Faisst be continued for the time being, to be re-evaluated in ten days, at which time a recommendation should be submitted to the Director concerning the manpower situation and direction of the investigation. This will depend upon developments during the interim.

Assistant Director Rosen called from Birmingham. He had been going over this case with SAC Moore and the Agents assigned to the case until midnight last night, pinpointing what each Agent is doing and the potential in the case. He is continuing today and will have another conference of all Agents on the case tonight.

He said the Agents are covering 80 to 100 leads a day, in addition to an analytical conference each night. Agents are averaging about 7 hours overtime a day on this special. Each Agent has an assignment to cover immediately in the event there is additional violence or bombings.

He said it is clear that the work is well organized and that much is being done in the way of checking out and applying pressure points to get cooperation from suspects and their associates. In other words, this is a hard-hitting investigation with no holds barred. He said he was impressed with the enthusiasm of all of the Agents assigned to the case.

Mr. Rosen is continuing his examination, looking toward further methods of applying pressure to get results. SAC Moore has been considering the possibility of a Federal Grand Jury in the future if it appears that this will be helpful. Mr. Rosen is checking into the personnel situation and whether this is the best interests of the Bureau to release personnel now or in the near future. He will report further.

POLYGRAPH INTERVIEWS

Bureau authority for use of polygraph interview was granted for each interview listed below by Assistant Director AL ROSEN in telephone conversations with SAC ROY K. MOORE. Polygraph examinations were all given by SA [REDACTED]. Consent forms were signed in each instance before the interviews and for two interviews involving juveniles parental contents were also obtained. The consent forms, charts, and questions are being retained in the Birmingham file. The charts of the following persons indicated truthful answers and that they had no knowledge of the persons who committed the bombing of the 16th Street Baptist Church on September 15, 1963, or other recent bombings in the Birmingham area, except as noted:

On September 25, 1963, [REDACTED] while being interviewed stated that he had not violated any law and that he would be glad to take the polygraph examination. However, [REDACTED] later said that he would not take the polygraph examination.

On October 1, 1963, [REDACTED] stated that he would not take the polygraph examination and that if the interviewing agents could not believe him, that there was no use for him to take this examination.

[REDACTED] stated that the only way he will take the polygraph examination is if he is arrested or charged with having committed any of the recent bombings in Birmingham; that if this action is taken the polygraph would show that he is innocent; and that in this event he would sue the Government for false arrest since the Government had to approve his arrest in the first place in connection with the bombings.

[REDACTED] then said that he would take the polygraph examination if the FBI would get Reverend F. L. SHUTTLESWORTH, Reverend MARTIN LUTHER KING, and Attorney A. D. SHORES and have them take the polygraph examination with him at the same time as him and before television cameras on a nation-wide hookup.

advised that he did not desire to take a polygraph examination since he did not believe in taking such an examination and further that he did not desire to be photographed since he did not want his photograph in the files of the FBI inasmuch as he had never been fingerprinted.

SOURCES OF DYNAMITE

Date 9/19/63

A crime scene search was conducted at the Alabaster Lime Company, Verlie, Alabama, in connection with the breaking and entering of a power house located on a rock road on the Western edge of the lime company, and the attempted breaking and entering of a second power house located approximately one hundred yards to the South of the first mentioned power house on the same lot.

The first power house did not have a padlock as should have been the case. Soil samples from a pallet and from the floor of the interior of this power house were obtained for possible future comparison.

An examination of the second power house revealed tool marks on the hasp portion, and the cylinder block portion of the padlock to the door of this second power house. These tool marks appear to be similar to those that would be made with some type of sawing instrument such as a hacksaw. This padlock is being retained for possible future spectographic comparison examination.

At a point approximately twenty feet, Southwest, of the second power house on the extension of the rock road running past, a ballpoint pen, black with silver trim, bearing the lettering Southern Screw Company, Statesville, North Carolina, was found.

Fingerprint examination of the doors to both power houses, the remaining padlock, and the pen did not develop any latents of value. Dirt samples from the area immediately adjacent to the door of the second power house were obtained for possible future comparison examination. Photographs of the two buildings were obtained. No other evidence of value was located.

Subsequently, CHAMBLISS, HALL and CAGLE were booked for illegal transportation and possession of dynamite; were tried in Birmingham Recorders Court, were found guilty and given the maximum sentence of six months and a \$300 fine. These cases are presently on appeal and all are out on bond. In connection with the investigation of this matter, according to State officials, CAGLE directed them to a field in Gardendale where he had placed the dynamite. State authorities advised they located a case of Monobel B Dynamite at one area in this field and 2½ sticks of dynamite in a paper sack in another area.
