This is a summary of information obtained from a review of all references to the subject contained in Bureau files except main file references. All references containing data identical or probably identical with the subject have been included except those listed at the end of this summary as not being reviewed. No interpretation or alteration of the facts set forth in the original material has been made except as set forth in footnotes.

It will be noted that the serial number of each reference is contained in a "source block," setting forth in each instance, a description of the serial and the original source of the information reported therein. The number appearing in parentheses beneath each source block is the page number of the search slip where the reference is listed. The term "SI" preceding a reference indicates that the serial so designated contains the same information as the foregoing serial. Unless there is a statement to the contrary, such information is taken from the same source.

Information from outside agencies has been given a security classification, the same as the incoming communication. Information taken from mail origination within the Bureau and its field offices has not been classified regardless of whether the original communication shows a security classification.

THIS SUMMARY HAS BEEN PREPARED FOR USE AT THE SEAL OF GOVERNMENT AND MAY CONTAIN INFORMATION NOT SUITABLE FOR DISSEMINATION.

The book "One World or None" was prepared by the Federation of American Scientists in the early part of 1946. This book contains articles by E. U. Condon, Albert Einstein and thirteen other individuals. The purpose of this book was to give the general informed picture of all ramifications of the subject of atomic energy, and warned the public that world control of the atomic bomb was an essential of human survival and hence the responsibility of every citizen. 12 The "Daily Worker" for March 11, 1946, reported that it was
13 announced on March 10, 1946 that the American Birobidjan Committee and
14 the Icor Association for Jewish Colonization in the Soviet Union had
15 merged into one organization to be known temporarily as the American
16 Birobidjan Committee. This announcement was made at the closing session
17 of a two day conference of the two groups in the Assembly Hall of Hunter
18 College, New York. Professor Albert Einstein was named as honorary
19 president of the new organization. The delegates were told that the
20 merger was effected because both the Committee and the Association were
21 working to aid Jews living in Birobidjan, the Jewish autonomous region
22 of the Soviet Republic.

[REDACTED] advised that on March 25, 1946, he was invited to attend a dinner at the Mayflower Hotel as a guest of the Washington Representative of Metro-Goldwyn-Mayer. Others present included Robert Considine, who was writing a story for M.G.M. to be made into a movie captioned "The Beginning Or The End". The dinner was being held so that Considine could obtain the scientists view point on atomic energy. Edward Uhler Condon was present and related the entire background on atomic energy, commencing with the details of the occasion when Alex Sacks, New York economist brought Albert Einstein's letter to the attention of the late President Roosevelt.

The "Daily Worker" of March 27, 1946, carried an article entitled "Black Book of Nazi Crime Opens in London Tonight". This article stated in part that world famous scientist Albert Einstein, one of the sponsors of the Garden event, said at his home, Princeton, New Jersey, on the previous day, that "The Black Book is one of the most important documents of modern times."

"Compiled as a united project by the World Jewish Congress, the Soviet Jewish Anti-Fascist Committee, Yiddish Ligi of Palestine and the American Committee of Jewish Writers, Artists and Scientists, the Black Book is one of the damning indictments of modern day - a record of the heinous crimes of Nazism against the millions of Jews who were tortured and murdered under the seal of the Swastika."

[redacted] advised that the presentation of the "Black Book" was made at the mass meeting in Madison Square Garden on March 27, 1946. (Meeting of the American Committee of Jewish Artists, Writers and Scientists, Inc.) According to informant there were about 10 thousand persons present, and Rabbi Stephen S. Wise acted as chairman for the meeting.

Informant advised that Albert Einstein was to be the main speaker of the evening but sent his message by telephone from Princeton, New Jersey and it was read to the audience by Sam Jaffee. Einstein's message stated that the "Black Book" was intended as an indictment of a nation (Germany) which performed such bestiality against the people, and that the indictment of the Nazi criminals should serve as an example to the rest of the world what happens to a nation that ignores justice and humanity and leads to militarism. Einstein said that the protection of human beings was more important than the sovereignty of the state.

During his Abwehr activities in Portugal from 1940 to 1945, Paul Fidremuc, although working as an independent agent for Abwehr HQ Berlin, maintained close contact with the Chief of KO Portugal Obst. Lt. Von Karsthoff, frequently assisting him in an advisory capacity. Fidremuc was interested in obtaining reliable intelligence from the United States to substantiate or to elaborate on the report of his agents in England and the Near East. Von Karsthoff obliged him by showing him or discussing with him the reports of his agent in the United States, whose name, as Fidremuc found out in the course of his discussions, was Kaul. (X) m

While interned in CIE 76 United States Zone of Germany in the Spring of 1946, Fidremuc made the acquaintance of a Dr. Kaul, a fellow internee, whom Fidremuc, from information learned in the course of conversation with him, suspected to be identical with the Abwehr agent Kaul. (X) m

During their conversations Dr. Kaul told Fidremuc and others that the Gestapo had furnished him with dollars to live for sometime in Costa Rica. He further stated that he had excellent connections with Professor Einstein and his laboratory. He had in his possession a letter signed by Professor Einstein and addressed to the American authorities responsible for his United States interment, recommending his release. (X) m

This reference consists of an undated memorandum with an attached note to Clyde Tolson, FBI, Washington, D. C., which states, "Dear Clyde. This may be of interest". At the bottom of the note appears the typewritten name John A. Clements.

This memorandum is captioned "Anna M. Rosenberg". This memorandum sets out brief summaries of the Communist character and significance of four organizations of which the name of Anna Rosenberg was publicly recorded as having been affiliated with.

Included in the summaries was a summary on the "National Citizens Political Action Committee". It was stated that Anna Rosenberg was Vice-Chairman of the National Citizens Political Action Committee for the organization's dinner affair of April 12, 1946.

This summary stated further that the more notorious pro-Communists who were also listed on the April 12, program of the NC-PAC included Albert Einstein and fifteen other individuals.

The above-mentioned note was undated and the name John A. Clements was not further identified in this reference.

16 The "Daily Worker" of April 18, 1946, carried
17 an article entitled "Einstein Urges Jews Aid Soviet Relief."
18 This article stated that Albert Einstein the previous week
19 had urged American Jews to continue the shipment of relief
20 supplies to the Soviet Union.

21 "Soviet Jews, together with all the Soviet people,
22 now are engaged in the greatest reconstruction effort in the
23 history of mankind," explained the world renowned Jewish
24 physicist and mathematician. "They need our continued help,"
25 Einstein declared in a letter to two thousand American Jewish
26 organizations urging the participation in the fifth annual
27 conference of the Jewish Council for Russian Relief. The
28 article stated further that the conference was to be held on
29 May 12, 1946, in the Hotel Astor, New York.

The "Newark Evening News" for April 29, 1946, contained an article entitled "Einstein, a Sponsor of Friendship Unity." The article stated that Professor Albert Einstein of Princeton University, and Louis Adamic, author, had agreed to become sponsors of the New Jersey regional office of the National Council of American-Soviet Friendship. According to the article, this was announced by Miss Reva Finkel, regional secretary. The article further stated that the National Council would inaugurate the opening of the regional office at 310 Washington Street, with a dinner at the Robert Treat Hotel on May 5. The dinner was to be preceded by an all-day conference of organizations interested in the promotion of better relations between the United States and the Soviet Union. (page 11)

The following article appeared in the "Newark Sunday Call" on April 28, 1946:

"Soviet Journalists to Speak in Russo-American Fete Here.

"The visiting delegation of Russian writers — Ilya Ehrenburg, Konstantia Simonov and Major General Kimhail Galaktionov will be among the speakers at a dinner sponsored by the National Council for Soviet-American Friendship, May 5, in Robert Treat Hotel. The dinner will mark the opening of the New Jersey regional office at 310 Washington Street, Newark.

"The principal speaker will be Representative Charles R. Savage, Washington Democrat. Reverend W. Ellis Davies, pastor of the First Unitarian church of Orange will also talk. Richard M. Morford, national executive secretary, will be chairman. Reva Finkel is regional secretary, assigned to New Jersey.

"The Russian writers are in this country at the invitation of the American Society of Newspaper Editors.

"Preceding the dinner will be a conference of organizations to set up a concerted program for establishment of better relations between the United States and Russia. The conference will discuss formation of community groups, publicity and educational work.

"Some of these sponsors are Dr. A. W. Wolfson, Dr. Rita S. Finkler, Dr. Max Danzig, Dr. Eugene V. Parsonnet, Father K. Untermann, and Morris H. Cohn of Newark, Professor Albert Einstein, Dr. E.A. Love,...." (page 11)

12 In May, 1946, The Students for Federal World
13 Government sponsored a mass meeting of 5,000 students
14 and adults, (city and state not given), at which time Dr.
15 Albert Einstein, noted mathematician, spoke by radio from
16 his home and said:

17
18 "It is no exaggeration to say the solution of the
19 real problem (world peace) is linked solely to an agreement
20 on a grand scale between this country and Russia.
21

22 "There was no need to accept Fascist Argentina
23 in the United Nations. There was no need to manufacture
24 new atomic bombs without letup, nor was it necessary to
25 delay proposed measures against Franco Spain."
26

27 The Students for Federal World Government was
28 an organization founded by a group of war veterans studying
29 at Northwestern University, Evanston, Illinois.

16 The November 8, 1943, issue of the "Capital Times"
17 in Madison, Wisconsin, daily newspaper, in an article stated
18 that a chapter of the Council of American-Soviet Friendship
19 was established in Madison, Wisconsin, and its initial activities
20 were to commemorate the celebration of Russia's 26th Anniversary
21 as of August 9, 1943. Mr. and Mrs. Karl Paul Link were listed
22 as two of several sponsors of this organization.

23 The May 11, 1946, issue of the "Wisconsin State
24 Journal", a Madison, Wisconsin, daily newspaper, contained an
25 article entitled "Who's Un-American?" written by Elizabeth
26 Feldman Link.

27
28 This article which was set out in detail in this
29 reference, stated in part that under no plausible interpre-
30 tation of the English language or American law, could the
31 National Council of American-Soviet Friendship be regarded
32 as engaging in "Un-American propaganda activities".

33
34 The article stated further that the national
35 sponsors of the National Council of American-Soviet Friendship
36 had included such individuals as Albert Einstein, Leopold
37 Stokowski and other outstanding Americans.

13 The "New York Times" newspaper on May 12, 1946, contained
14 an article reflecting that Vasili Kozaniyev, Acting Consul General,
15 Soviet Consulate in New York City, spoke at a rally of the Jewish
16 Council for Russian Relief held May 12, 1946 at the Hotel Astor.
17 According to the article, Kozaniyev stated that a firm and continuing
18 friendship between the United States and the Soviet Union was the
19 strongest guarantee for lasting peace. He expressed his thanks
20 for past and future aid for the rehabilitation of devastated areas of
21 the Soviet Union and pointed out that radical supplies, foods, and
22 clothing sent through Russian Relief served as personal messengers of
23 friendship from Americans to Russians. The newspaper article went on
24 to state that the record of the Soviet Union against discrimination
25 was praised by Rabbi Stephen Wise and messengers in support of the aims
26 of the Jewish Council were sent to the meeting by Mayor O'Dwyer of
27 New York, James Roosevelt, Sidney Hillman, and Professor Albert
28 Einstein.

b2b7D [redacted] furnished to the Bureau "A Report to the Executive Committee" dated July 7, 1946, which was a report of six months of National Committee on Atomic Information Activity, written by Daniel Melcher, Director.

Under the heading "Finances this report stated that as of June 30, the NCAI had check book balance totaling \$60,256.94; further that only five weeks earlier the NCAI had been several thousand dollars in the red, but the staff though unpaid for two pay periods, showed extraordinary confidence that things would work out, and kept on the job.

The report stated further that the NCAI had Professor Einstein and his cohorts to thank for the success of the fund raising drive; further that he had early expressed interest in the work and had accepted membership on the Scientific Consultant's Panel; that when Mr. Einstein was approached by Mr. Cran and Melcher in May for further backing he didn't even wait to hear what they wanted. He said:

"Don't explain to me. I know what it is. You need money. You should get it, too. I have read all your material and I don't think there is any other cause more important. What help you want I will gladly give."

Under the heading "Activities to Date" this report stated that leading scientists in the field had lent their names in support by serving on the Scientific Consultant's Panel one of whom was Professor Einstein.

On June 3, 1946, the NCAI issued a newsletter asking for greater support. Included in this letter was a copy of a telegram signed by Einstein on May 23, 1946, to several hundred prominent Americans asking them to give financial support to Scientific groups who were endeavoring to educate the citizens of this country to the significance of Atomic Energy. (Source not clearly indicated).

b2b7D [redacted] advised on July 18 and 22, 1946, that the Executive Committee of the NCAI had decided the new Director should be appointed to replace Daniel Melcher and that the real reason for this decision was his alleged Communistic tendencies, particularly regarding publications. The informant stated Melcher made a secret visit to Dr. Albert Einstein accusing members of the NCAI of "red-baiting". He also prevailed on Mrs. Edward Hugh Condon, wife of the Director of the Bureau of Standards to write a letter to Dr. Einstein, following the same theory.

On May 24, 1946, [REDACTED] reported that 180,000 people attended a demonstration at Madison Square Garden, New York City, for the Jewish Blackbook Committee, (date of demonstration not given).

At this meeting a letter from Albert Einstein was read by Sam Jaffe, an actor. The letter stated that the "Blackbook" was the Jewish indictment against the Nazi cannibals, and that it should serve as a warning to the Jewish masses to be on guard against the repetition of such atrocities.

12 A telegram was received by [REDACTED]
13 [REDACTED] Oakland, California, from Albert Einstein,
14 soliciting a contribution from her for the Emergency Committee
15 of Atomic Scientists, Princeton, New Jersey, (date not indicated).
16

17 It was reported that [REDACTED] was not acquainted with
18 Albert Einstein and that [REDACTED] husband was dead, but during
19 his lifetime he had no known contacts with any branch of science
20 or with Einstein, and [REDACTED] was at a loss as to the source
21 from which her name was obtained by Einstein or the association he
22 represented.
23

24 The San Francisco Office was also informed by [REDACTED]
25 [REDACTED] of the Manhattan Engineer District, Berkeley, Califor-
26 nia, that a similar telegram from Albert Einstein solicited a
27 contribution from [REDACTED]
28 Berkeley, California, who advised [REDACTED]
29 of the Radiation Laboratory, University of California, concerning
30 the receipt of this request.
31

32 The San Francisco Office suggested that the Newark
33 Office institute an investigation of the Emergency Committee of
34 Atomic Scientists to determine whether that organization was
35 Communist infiltrated and dominated, and whether Albert Einstein
36 was actually the guiding force behind the organization or whether
37 his name was being used as a respectable front by those who were
38 actually running the organization.
39

40 Information contained in paragraphs one and two above
41 including a copy of the telegram mentioned in paragraph one
42 was furnished to [REDACTED] U.S.
43 Engineers Office, Manhattan District, Washington Liaison Office,
44 Post Office Box 2610, Washington, D.C. by Memorandum dated June

12 This reference is a circular on the letterhead of the
13 "Students for Federal World Government", 626 $\frac{1}{2}$ Library Place,
14 Evanston, Illinois, dated May 17, 1946. According to this
15 circular the above organization was sponsoring a free "Memorial
16 Eve Peace Rally" on May 29th at 8:00 p.m. in the Chicago
17 Stadium at which time five world renowned men were to speak on the
18 theme "Tomorrows World Today". These speakers included Albert
19 Einstein, one of the world's foremost scientists. The circular
20 stated that due to ill health Dr. Einstein would broadcast his
21 message from home to the Rally on a coast to coast radio hookup.
22

23 This circular also contained an appeal for financial aid
24 for the rally and was signed by R. L. Whitehouse.

12 By memorandum dated July 1, 1947 the Denver Office
13 forwarded to the Bureau newspaper articles written by Dr.
14 Walter Orr Roberts which appeared in the "Denver Post".
15 Included in this material was an article captioned "Armies
16 and Oceans Offer Little Security in Atomic Age--Roberts".

17
18 This article stated in part that Dr. Albert
19 Einstein, one of the great scientists of our age tells us
20 in effect that a state of emergency exists; further that in
21 a recent message he said "a new type of thinking is essential
22 if mankind is to survive and move to higher levels". The
23 article stated further that Dr. Einstein had agreed to head
24 up the "Emergency Committee of Atomic Scientists" to raise
25 a fund of \$200,000 to sponsor a great national campaign for
26 public education on the violent issues of atomic energy.
27

28 This article stated further that Dr. Einstein explained
29 why he and the other scientists had acted to raise a large fund to
30 meet the "present crisis;" further that he said "as scientists
31 who work in the interests of our country at a time of national
32 peril, and who presided at the birth of the atomic age, we have
33 this overwhelming responsibility to mankind. As citizens, we
34 saw that the people were wholly unaware of the supreme impli-
35 cations of this new hour, mainly because of the necessities of
36 military security. We are not men of action, the consideration
37 of these factors forced us out of inaction."

38 Under the sub-heading "Speak Bravely, Says Einstein"
39 this article stated further that Dr. Einstein had specifically
40 appealed for financial aid; further that money could be sent
41 directly to Dr. Albert Einstein, Emergency Committee of Atomic
42 Scientists, Princeton, New Jersey. Further that gifts ranging
43 from \$1 to \$10,000 had been sent in to Dr. Einstein; together
44 with Dr. Einstein on the Emergency Committee for Leading
45 Scientists of the Atomic Energy Field was Dr. Hans Bethe, Dr.
46 Edward Condon, Dr. Leo Szilard and Dr. Harold Urey.
47
48

49 This article stated further that Dr. Einstein wrote
50 "Science has brought forth this danger but the real problem is
51 in the minds and hearts of men. We will not change the hearts
52 of other men by mechanisms, but by changing our hearts and
53 speaking bravely. When we are clear in our heart and mind-only
54 then shall we find courage to surmount the fear which haunts the
55 world."

The files of the Washington Field Office contained the following information regarding Dr. Albert Einstein, Princeton University. In 1940, he was listed as a member of the National Federation of Constitutional Liberties. In 1942, he was on the National Advisory Council of the Women's International League for Peace and Freedom, and in 1943, he was a sponsor of the National Council of American-Soviet Friendship, Incorporated. In 1944, his name appeared as a member of the Advisory Board of the Japanese-American Committee for Democracy, and in the same year he was listed as a member of the United American Spanish Aid Committee. The name of Albert Einstein with the address 112 Morocco Street, Princeton, New Jersey, was found in the personal address book of [REDACTED] subject in the case entitled [REDACTED] b7c

Informant provided the Bureau with a prepared statement written by Michael Armand concerning the Federation of American Scientists and the NWAF with particular reference to Daniel Melcher's Communist sympathies. The following is taken from this statement:

My most serious disagreement with Mr. Melcher and the great indication of his objections to me came on the

occasion of the interview with Albert Einstein. On the night of June 11, before I was to go on the 12th to Princeton, I learned that Mr. Melcher planned to accompany me to Princeton, and to stay through the interview with Einstein. I had learned also that he was to help me write my article. I was opposed to this, first on the grounds of technique as this is not the way in which the best interviews are written. On the trip he went with me but he did not get to stay throughout the interview although he attempted to do so; neither did he assist me in writing the interview because I repeatedly told him to leave. On the 13th late at night, about 1 A. M., when I returned to the hotel with the first draft of the interview he returned and made several notes and attempted to argue with me about what should be in it. His points were without exception along Communistic lines, and they were mainly: (1) that we ought to get Einstein to be more explicit about getting up the secret, and (2) we ought to take out the references to world government. (It should be noted that Communists are carrying on a bitter campaign against world government proponents.)"

"Melcher's tactics are quite unsavory which further bolsters my opinion of his sympathies. At Princeton he took a letter addressed to Mr. Einstein before Einstein had ever seen it because it contained proofs of a forthcoming magazine article critical of United States policy, the article by Cord Meyer, Jr., Mr. Melcher planned to reprint. (The files of the Washington Field Office failed to reflect any information concerning Cord Meyer, Jr.)"

Informant advised as a result of a letter supposedly signed by members of the Board of the Federation of American Scientists regarding the work of Daniel Melcher, a letter dated July 1, 1946, was sent by Ralph McDonald, Chairman of the National Committee on Atomic Information, to the Administrative Committee of the Federation of American Scientists. This letter was set out in this reference. The following is quoted from this letter:

Many many imprudent actions are arently decided upon without consultation with any of leaders or members of the Committee, Mr. Melcher had created difficult situations. One such incident was a visit on July 10, by Mr. Melcher to Dr. Einstein without consultation with any responsible officer of the Committee or of the Federation at which time Mr. Melcher was reported to have upset Dr. Einstein with complaints of non-secution of the WAI. This visit might have had serious consequences if it had not been for the good fortune that Doctors Urey, Szilard and Hirschmann and I were at Princeton and saw Dr. Einstein the next day. I felt at that time, and Dr. Urey emphatically agreed that the surreptitious action of Mr. Melcher was a real reason for our asking for his resignation."

The files of the Washington Field Office reflected that [REDACTED] b7C

[REDACTED] He was assigned to of Dr. Einstein of Princeton, New Jersey, and filed his intention to become a United States citizen September 1, 1947.

The following is also quoted from the above-referenced letter:

"...There is a further question as to whether or not Mr. Melcher may have given the Philadelphia scientists some commitment on his own account without authorization of the Executive Committee since one of the Philadelphia scientists wrote a letter to Professor Einstein protesting that the WAI had gone back on its promise to contribute \$10,000 toward the film. No such promise was ever made unless it was made by Mr. Melcher wholly without authorization."

There are extremely confidential sources, for example, a memo dated July 4 and July 9, 1946, written by Daniel Melcher to Dr. Ralph M. Gold, Chairman of the National Committee on Atomic Information, were obtained and set out in this reference. In the memorandum dated July 9, 1946, Melcher stated that he didn't know whether the Committee fully realized the results of

its order to suspend all activity for the following four weeks, but he set out a list of a few. Included in the list of results set out were the following:

"....Urey, Bethe, Szilard and Einstein may still state to go forward with it as long as the status of their committee remains in doubt. The next executive meeting of the NSAI will come too late.

"(5) We invite the risk of having Einstein withdraw from all cooperation with a committee that doesn't seem to know its own mind."

For announcements in the Washington daily newspapers and [redacted] it was learned that the National Committee on Atomic Energy and the several sponsoring organizations planned to sponsor an Institute of Atomic Energy on July 15 and 16, 1946, in the Department of Interior Auditorium in Washington, D. C. Both of

these meetings were attended by a Bureau Agent. The sessions of the Institute were held on Monday, July 15, 1946, and the program for these meetings reflected a comment on the first page of the program by Albert Einstein:

"Our world faces a crisis as yet unperceived by those possessing the power to make great decisions for good or evil. The unleashed power of the atom has opened a new thing save our modes of thinking and ~~we thus~~ drift toward unparalleled catastrophe. The scientists who released this immense power have overwhelming responsibility in this world life and death struggle to harness the atom for the benefit of mankind and not for humanities destruction... We need... to let the people know that a new type of thinking is essential if mankind is to survive and move toward higher levels."

The names of the individuals on the Scientific Panel of the program included Albert Einstein.

On July 16, 1946, Dr. Ralph Moench, Chairman, National Committee on Atomic Information, acted as chairman for the Institute's session. Dr. Moench stated, "Concerning revenue, the Committee receives voluntary contributions from certain of the sponsoring organizations. It receives a small portion of its income from the sale of its publication and it receives the majority of its revenue by means of voluntary contributions from interested individuals. Dr. Albert Einstein, the well known physicist, headed an emergency committee on atomic scientists which made an appeal to the public for revenue to sponsor the work of the National Committee. To date over \$70,000 have been produced through the appeal of this emergency committee."

A decoded copy of a radiogram from Buenos Aires dated July 23, 1946 advised that Dr. Enrique Gaviola, engineer, scientist and director of Cordova Astronomical Observatory had attacked the United States policy on Atom research, claiming the right of scientists who developed the Atom Bomb was infringed in that free international exchange of information was not being permitted. Gaviola reputedly worked with Einstein and suggested use of oil to diminish heat in operation of Cyclotrons, and was credited with vast knowledge of Atomic Energy.

As of August, 1946, one of the most recent publications of the Americans United for World Government, Incorporated was a pamphlet entitled "Toward the Rule of Law -- The World Court -- United States Acceptance of Compulsory Jurisdiction" which was edited by Robert G. Wilson, an attorney who, according to a woman employee of the Washington Chapter of the Americans United for World Government, devoted considerable work to the preparation of the pamphlet. This pamphlet listed the individuals who endorsed the statement which urged acceptance of compulsory jurisdiction of the world court. This list contained the name of Albert Einstein, scientist.

In June, 1946 the Newark Field Division initiated an investigation to determine whether or not the Emergency Committee of Atomic Scientists was communistically infiltrated and dominated and whether or not Albert Einstein was the actual force behind the organization or whether his name was being used as a respectable front for other persons.

It was noted that the Emergency Committee of Atomic Scientists was incorporated on August 12, 1946, at Trenton, New Jersey.

Concerning the incorporation the following information was obtained from the "Newark Evening News" of August 22, 1946:

"National Experts Organize Group including Einstein, Dedicate Self to Research and to Public".

A group of aged scientists who have a working knowledge of atomic energy today formed the International Council of Atomic Scientists, Inc., by filing incorporation papers with the Secretary of State here. Among them is Albert Einstein of Princeton.

"The Committee is a non-profit corporation created to research and furthering the use of atomic power for the best interest of the people of the United States. In the charter its officers and trustees are barred from receiving any salary or other pay, although the Committee is empowered to employ and pay clerical and other services which it might require".

Principal office of this Committee is at 115 Mercer Street, Princeton, which also is given as Einstein's address.

Albert Einstein was one of the National Sponsors of the Committee for Foreign Correspondence (CFFC) according to an announcement of the Northern California Association of Scientists (NCAS). (Date of information not given.)

At a press conference held by the CFFC in Berkeley, California, on June 17, 1946, it was decided that the purpose of this organization was to promote and exchange technical information between scientists in this country and scientists in foreign countries; to solicit their opinions as to methods of control of atomic energy, methods of establishing a durable peace and a return to the pre-war, free exchange of information in the field of pure science.

14 The September 14, 1946, issue of the "Daily Worker"
15 American" reflected that a one hundred-one "Crucifixion"
16 lynching" would be in in Washington, D. C., with a relay
17 on September 22. The announcement of this and the one by
18 Paul Robeson. The article stated that in the afternoon of
19 September 22, delegations would be expected to arrive at
20 government officials in an attempt to obtain definite promises
21 to stop lynching.

22
23 A pamphlet entitled, "American Lynching: The Facts and
24 was published by the organization of the "Daily Worker"
25 quarters at 2035 M. Street N. W., Washington, D. C., and at
26 26th Street New York. The pamphlet was distributed to

34 We, the undersigned, hereby affirm that
35 lawless violence, called lynching, is a crime against
36 Washington, D. C., the National Capital. We demand that
37 From all over the land, we will "sit around a table"
38 responsible for the lynching and that the government take
39 action to stop it. We are the citizens of the new United States

of Detroit, Michigan, furnished a circular captioned "American Crusade to End Lynching." It was a call to the American people to join the pilgrimage to Washington, D. C., on September 23, 1946, for immediate action to end lynchings. It bore the signatures of individuals who it stated were "morally indignant over this lawless violence (lynchings)." The name of Albert Einstein appeared on this list of signers.

12 This reference is a letter dated September 1, 1954, to the letterhead
13 of the Committee to Fight Racial Injustices and Persecution, 1000 Madison
14 and was received from [REDACTED] 62,670

15
16 This letter stated in part that September 1, 1954, marked the
17 51st anniversary of the signing of the Emancipation Proclamation, and
18 D. C. would be the scene of a National Assembly where a real action program
19 100-day campaign would be initiated.

20
21 This letter stated further that the National Crusade was being called
22 by such outstanding personalities as Albert Einstein, Paul Robeson and others,
23 which in itself emphasized the importance of eliminating prejudice in
24 our nation.

Members of the Emergency Committee of Atomic Scientists were, A. Einstein, H.A. Bethe, T.R. Hogness, I. Seillard, H.C. Urey, and V. Weisskopf. Its office was located at 625 Madison Avenue, New York City. (Source not stated)

62167D According to [REDACTED] memoranda sent to member associations from the Executive Committee of the Federation of American Scientists, Washington, D.C., concerning the activities of the Federation of American Scientists included the following statements:

"As usual we are out of money. The delegates who came recently to assist us will have to be repaid by their own groups until our situation is considerably improved. Sometime ago the NCAI initiated a fund-raising campaign through the Harold Oram Agency with the assistance of Einstein and other prominent scientists. They got off to a good start and clearly indicated that funds for the Federation could be raised from the same sources. The Administrative Committee voted to make a similar contract with Oram."

A press release sent out June 17, 1946 by the Federation of American Scientists stated that the formation of a Committee for Foreign Correspondence through which American Scientists were urged to write to other scientists throughout the world, was announced that day at the headquarters of the Federation of American Scientists. Basic purpose of the work of the Committee for Foreign Correspondence was to re-establish contacts between Americans and their acquaintances among foreign scientists.

This press release stated that among the internationally known scientists who were sponsors of the Committee, were Dr. J. R. Oppenheimer, former head of the Los Alamos Laboratory; Albert Einstein, of the Institute for Advance Study at Princeton, New Jersey; Dr. Harlow Shapley, head of the Harvard Observatory, and others.

13 Report of Special Agent [REDACTED], dated
14 October 2, 1946, at Newark, entitled "Emergency Committee
15 of Atomic Scientists (Princeton, New Jersey), Internal
16 Security-R", reflected that Albert Einstein (Princeton,
17 New Jersey) was principal trustee and sponsor of that
18 organization. This report also reflected that this organiza-
19 tion was incorporated August 12, 1946, at Trenton, New Jersey,
20 and the purpose of the Emergency Committee of Atomic
21 Scientists was to advance the use of Atomic Energy in ways
22 beneficial to mankind, to diffuse knowledge and information
23 about Atomic Energy and to promote the general understanding
24 of its consequences to society and to the people of the
25 United States, in order that an informed citizenry might
26 intelligently determine its policy and shape its action
27 to serve its own and mankind's best interest.

12 The "People's Voice" issue of October 5, 1946, page 17,
13 contained an article by Arthur D. Kahn, captioned "Jewish Vet
14 Speaks to Negroes." The article indicated that although Albert
15 Einstein and Paul Robeson were co-chairmen of the American
16 Crusade to End Lynching very few Jewish people appeared in
17 Washington to assist at the mass meeting. He said that the Jews
18 should have played a much larger part in the Crusade.

12 On October 15, 1946 Frederick Waltman published an
13 article in the "New York World Telegram" regarding the National
14 Council of American-Soviet Friendship which stated that in a
15 statement "last Wednesday" the C.A.S.F. went to bat for the Ukrain-
16 ian delegates to the American Slav Congress who had been re-
17 quested by the Department of Justice to register as foreign
18 agents.
19

20 The article stated that Rev. William Howard Melish,
21 Chairman of the Council declared that "by no stretch of the
22 imagination can these Ukrainians warrant such classification"
23 and that the next day the USSR ordered them back home. to avoid
24 registering.
25

26 Mr. Waltman further set out a list of the sponsors
27 for the C.A.S.F. This list included the name of Albert Einstein.

13 Review", published by the Intelligence Division, War Department,
14 Washington, D. C., appeared an article entitled "Brazilian
15 Government Recruits German Scientists." According to the article,
16 the Brazilian Government had set up an office in Berlin, Germany
17 to recruit German scientists for work in Brazil. The first
18 scientist to be recruited under this program was Dr. Hans W.
19 Zocher, a physical chemist, formerly a professor at the University
20 of Prague, Czechoslovakia. Dr. Zocher had been recommended by
21 prominent American scientists as one who "had remained loyal to
22 Democratic principles" and also as being technically competent.
23 Dr. Albert Einstein was among those who had recommended Dr. Zocher.

[REDACTED] Newport Beach, California, advised on September 18, 1946, that [REDACTED] claimed to be a scientist and a movie writer. He also claimed to be very friendly with Albert Einstein and stated that he expected Einstein to visit him on his boat at Newport Beach, California.

On October 31, 1946, [REDACTED] was interviewed by an agent of the San Diego Field Office. At that time [REDACTED] advised that he was working on experiments in connection with the third dimensional camera. He added that he had contact with Einstein's son-in-law whose name he could not think of, and that his son-in-law would come to help him continue the experiments. (It was noted that [REDACTED] who came to the United States from Russia, was reported to be a chronic and psychopathic liar.)

Albert Einstein was listed as a sponsor of The Committee for Foreign Correspondence, Berkeley, California, which is affiliated with the Federation of American Scientists. As its name implies, its purpose was to exchange correspondence with scientists of foreign countries to solicit opinions as to methods of control of atomic energy. (Source and date not given.)

- "1. Atomic Bombs can now be made cheaply and in large number. They will become more destructive.
- "2. There is no military defense against the Atomic Bomb and none can be expected.
- "3. Other nations can rediscover our secret processes by themselves.
- "4. Preparedness against Atomic Warfare is futile, and if attempted will ruin the structure of our social order.
- "5. If war breaks out, Atomic Bombs will be used and they will surely destroy our civilization.
- "6. There is no solution to this problem except International Control of Atomic Energy, and ultimately, the elimination of war."

14 Emergency Committee of Atomic Scientists (date not stated).
15 This group, headed by Dr. Albert Einstein, was opening a cam-
16 paign for \$1,000,000 for the purpose of educating the public to
17 the realization of the peril of atomic bombs and to the fact that
18 the only solution was an international atomic authority and
19 ultimately the elimination of war. Dr. Einstein was named as
20 President of the committee. The campaign was launched formally
21 with a press conference and radio appeals by Drs. Einstein and
22 Urey and later a luncheon attended by invited guests from all
23 sections of the country. The Committee was to maintain its main

12 From an article in the New York "Herald Tribune"
13 of December 8, 1946, by Science Editor, John J. O'Neill, it
14 was ascertained that Dr. Harry Grundfest attended a luncheon
15 under the auspices of the American-Russian Institute on
16 November 30, 1946, in New York City. Grundfest apparently
17 asked a rigged question of speaker, Professor Alexander A.
18 Mikhailov of the Moscow University, in which the latter could
19 give an answer of the type most likely to advance the reputa-
20 tion of Soviet scientists and the attitude of that government
21 towards scientists. The question asked by Grundfest dealt
22 with the question as to whether there was any truth to the
23 story that the teaching and use of the relativity theory had
24 been banned in Russia because of the Jewish origin of its
25 founder, Dr. Albert Einstein.

[REDACTED] b7C, D

It was noted that Dr. Albert Einstein, the famous scientist, was in the lobby of the Princeton Inn when [REDACTED] arrived there on December 8, but [REDACTED] advised that Einstein had no connections with the Conference of business economists. He said that Einstein and four other individuals had been in a private conference at the Inn on that date. b7C, D

13 On December 12, 1946, a greetings and farewell
14 meeting was sponsored by the American Committee for Yugoslav
15 Relief, Inc. at Manhattan Center, 8th Avenue and 34th Street,
16 New York City. The general theme of the meeting was a plea
17 for understanding between the United States and Yugoslavia
18 and the continuation of aid to the suffering in Yugoslavia
19 and criticism of the State Department for using food for politi-
20 cal purposes. At this meeting Johannes Steel (not identified)
21 presented five plaques to Sava Kosanovich, the Yugoslav
22 Ambassador, for orphans homes bearing the names of Wendell
23 Wilkie, Mary McLeod Bethune, Albert Einstein, the late Senator
24 George Norris and Dwight D. Eisenhower.

12 In the Army "Weekly Intelligence Summary # 95", cover-
13 ing the period from December 6 to 13, 1946, appeared an article
14 concerning the Emergency Committee of Atomic Scientists. It
15 stated that its leader and chief spokesman was Professor Albert
16 Einstein, "who in the past has been used by various Communist
17 Front organizations as a 'big name' 'innocent' sponsor."

18
19 The following is quoted from the article:

20
21 "In 1932 he was reported to have been a delegate to
22 the World Congress Against War held in Amsterdam. This was the
23 forerunner of the American League for Peace and Democracy.
24 About this same time he was reported to have written an article
25 for a Communist propaganda magazine, 'Disarm'. In 1935 the
26 Progressive Press stated Dr. Einstein had paid the tuition of
27 a student to the Communist Commonwealth College, Mena, Arkansas.
28 In December 1937, he was reported to be a member of the Advisory
29 Committee of the North American Committee to Aid Spanish Democra-
30 cy. The 'Daily Worker' of one October 1938, listed Professor
31 Albert Einstein as a member of the Friends of the Abraham Lincoln
32 Brigade. On 31 December 1938 he was listed as a sponsor of a
33 New Year's Ball held under the auspices of the Non-Sectarian
34 Committee for Political Refugees, an organization affiliated
35 with the International Labor Defense. In December 1939 he was
36 associated with the German-American Relief Committee for Victims
37 of Fascism, affiliated with the North American Committee to
38 Aid Spanish Democracy. In June 1943, Dr. Einstein was connect-
39 ed with the National Council for Soviet American Friendship
40 and at the same time belonged to 'the Chicago Society for American
41 Soviet Relations, an affiliate of the former organization. In
42 December 1943, he was active in the Reichstag Fire Trial
43 Anniversary Committee in New York City which glorified the
44 achievements of George Dimitroff, Head of the Comintern. In
45 September 1946, Dr. Einstein was reported as connected with the
46 American Committee for the Protection of the Foreign Born. All
47 of these organizations and affairs are Communist controlled and
48 Communist Front organizations."

It was reported that [REDACTED] that at the "Pro out" Conference of Progressives held in Chicago there were a number of individuals who were proposed as possible sponsors or backers for the meeting which was to be held by the Conference of Progressives in mid January at Washington, D. C., to whom the Communists could look for support in the formation of this nationwide front organization. [REDACTED]

b7D,
C

Indicated that such well known names as Albert Einstein, Harlow Shapley, Elliot Roosevelt, Mary McCloud Bethune and Marshall Field, were among those listed as proposed supporters of the meeting scheduled by the Conference of Progressives, all of whom had been active in Communist infiltrated organizations or pro-Russian functions.

In the latter part of 1946 or in the first part of 1947, the Jewish Council of Russian Relief changed its name to the American Jewish Council to Aid Russian Rehabilitation, Incorporated, with offices at 40 East 26th Street, New York City. This organization was regarded as the exclusive agency for the shipment of rehabilitation supplies embarked to the USSR by American Jewish agencies. The 1947 campaign for funds was carried on to help rehabilitate Jewish war orphans and to aid the Jewish Council in "strengthening the ties of friendship between the American people and the Soviet Union" through a campaign of rehabilitation. Professor Albert Einstein was one of the honorary presidents of this organization.

12 In the Weekly Intelligence Summary, covering the period from
13 December 27, 1946 to January 3, 1947, appeared an article entitled
14 "Council Against Intolerance Shows Its Intolerance." According to this
15 article the Council Against Intolerance in America was selling seals
16 to support its so-called activity against intolerance and bigotry.
17 During the week of December 27, this Council sent a telegram to President
18 Truman protesting against the granting of permanent residence and
19 citizenship to German scientists now working for the United States Army.
20 Included among the signers of the telegram was Albert Einstein.
21 Albert Einstein had previously been shown as having long records of
22 pro-Communist activity.

23 The Council Against Intolerance in America, was an active
24 sponsor in March 1943 of a rally of the Abraham Lincoln Brigade in
25 New York City, which had been reported as a Communist organization.

26 The above information is evaluated in this report as having
27 been received from a completely reliable source whose information was
28 confirmed by other sources.

In the Army's "Weekly Intelligence Summary" report, No. 99, for the period of January 3-10, 1947, appeared an article entitled "Einstein Praises Communist Party in France." The article reported that Professor Albert Einstein during the week of January 3-10, 1947, declared himself strongly in favor of the Communist Party of France and its program. It also stated that Einstein had often been found among the ranks of "deluded liberals" who front for the Communists.

The article mentioned that a statement of Einstein's appeared in the French Communist newspaper "Ce Soir", published in Paris, in which Einstein criticized various activities of the U.S.

The above information is evaluated in this report as having been received from a usually reliable source whose information was probably true.

meeting of
the Provisional Board of Directors of the Association of
Scientists for Atomic Education (ASAE) held in Washington.
D. C. on January 11-12, 1947.

At this meeting E. E. Minett, representative of the
Southern Council of the ASAE reported on the present state
of the Association of Scientists for Atomic Education--National
Committee of Atomic Information--Emergency Committee of Atomic
Scientists relations, and mentioned that McDonald (not identified)
had sent a request to Einstein for a three-way meeting, perhaps
as early as February 23 (year not given), to work out their
relationships more closely.

A Summary of Intelligence furnished the Baltimore Field Division, by Headquarters, Second Army, Fort George G. Meade, Maryland, dated February 13, 1948, reported that in February, 1947, the United World Federalists (UWF) was formed by merging the World Federalists, Americans United for World Government, Student Federalists, World Republicans in Massachusetts, Committee for World Federation and World Citizens of Georgia. This meant a group of some 18,000 members with the goal of world federal government. It had the blessing of Dr. Albert Einstein, Communist adherent.

It was also reported in the Summary that the world government movement had grown ever since Clarence Stratt (not identified) originated his "union" outline in 1933, which was incorporated as the Federal Union in 1939 to attain world order. This same "idea" in 1942 became the business of Louis Dolivet, Communist agent in the Free World Association, which in 1945 was consolidated with the Americans United for World Government.

This reference is a letter from the Department of State to the Director dated March 12, 1947, enclosing an undated report which was an account of the Congress of the League against Cruelties and Oppression in the Colonies which was held at Brussels between February 10 and 11, 1947. The following is quoted from this report:

"The 'Presidency of Honour' of this Congress was composed of: Professor Albert Einstein (Berlin); George Lansbury, M. P. (England); Madame Sin Yat Sen (Canton)."

This report stated that the League Against Cruelties and Oppression in the Colonies was an offspring of the Workers International Relief and hence of the Comintern which was the parent of the W.I.R.

12 The Atomic Energy Commission advised by letter *OK to*
13 dated April 11, 1947, that Dr. Bernstein had recently
14 corresponded with Dr. Albert Einstein, requesting information
15 concerning the application of beryllium as a possible source *release*
16 of atomic energy. Apparently Dr. Bernstein was prompted to *per*
17 this action after learning of an article that had appeared *Energy*
18 in the "Bulletin-de la Societe Chimique-de France" concerning
19 a discovery by a Russian Scientist named G.I. Djounkovsky
20 of a procedure for the isolation of beryllium from the ore
21 by a much cheaper and better process as has been the case
22 to the present."

23
24 By letter dated April 30, 1947, the above information
25 was referred to the New York Office.
26

27 Dr. Einstein referred Dr. Bernstein's inquiry to
28 Dr. Wigner, an associate of Dr. Einstein. Bernstein then
29 corresponded with Dr. Wigner and requested information as
30 to whether the beryllium isolated by Dr. Djounkovsky's
31 procedure, could be applied, in one way or another to the
32 production of atomic bombs. The Atomic Energy Commission
33 advised that certain phases of the metallurgy concerning
34 the beryllium metal was considered restricted information
35 by the Commission. Dr. Wigner's answer to Bernstein was
36 evasive and noncommittal. Both Dr. Einstein and Dr. Wigner
37 were at that time located at Princeton University.

12 The New York "World Telegram" for February 24, 1947,
13 contained an article concerning Gerhart Eisler and the Joint
14 Anti-Fascist Refugee Committee. The writer of this article
15 Frederick Woltman, a staff writer, stated that JAFRC had
16 flourished on the backing of prominent Americans which had
17 included Rita Hayworth, Albert Einstein, and others.

(page 8)

21 The New York "Journal American" of April 8, 1947,
22 contained an article by Howard Rushmore in which he mentioned
23 that during the previous three years, prominent persons had
24 sponsored the JAFRC including Rita Hayworth, Albert Einstein,
25 and others. This article stated further that none of those
26 persons endorsed the stand of the JAFRC Executive Board which re-
27 fused to let the House Committee on Un-American Activities
28 examine the books and records of the "Red Front" organization.

12 The "Times-Herald" for February 14, 1946, (a pencil
13 notation indicated that this should be 1947) carried an article
14 concerning the campaign of the Emergency Committee of Atomic
15 Scientists to raise one million dollars to divulge information
16 concerning atomic energy which the American Government was
17 trying to keep secret as a safeguard against international
18 trouble. According to the article, the headquarters of the
19 organization was to be located at Princeton, New Jersey, and it
20 also reflected that this Committee disseminated a form letter
21 in which it solicited these funds.
22

23
24 In view of the Bureau's jurisdiction in the guarding
25 of the atomic energy secrets, it was suggested that a member of
26 the Atomic Energy Section personally discuss the program of the
27 Emergency Committee of Atomic Scientists, Incorporated, with a
28 member of the Atomic Energy Commission at which time it should
29 be suggested that a member of the Commission who was acquainted
30 with Einstein be directed to discuss this Committee with Einstein.
31 It was further suggested that this individual ascertain from
32 Einstein just how far his Committee intended to go in divulging
33 information concerning atomic energy, in order that some opinion
34 might be reached as to whether or not these activities by the
35 Committee violated deeper provisions of the Atomic Energy Act.

13 Reference was made to a memorandum from Mr. J.C.
14 Strickland to Mr. D.M. Ladd, dated March 4, 1947, in which
15 it was recommended that information concerning the Emergency
16 Committee of Atomic Scientists, Incorporated be furnished the
17 Atomic Energy Commission and requesting that it be determined
18 whether a member of the Atomic Energy Commission might inter-
19 view Dr. Albert Einstein as to the true purposes of the organi-
20 zation.

21
22 On March 7, 1947, a letter directed to the Atomic
23 Energy Commission was personally delivered to [REDACTED]
24 [REDACTED] AEC. [REDACTED] was given every opportunity
25 b7c to offer to interview Einstein by a member of the Atomic Energy
26 Commission, however, no such offer was made. This could be
27 explained by the facts obtained that the Manhattan Engineering
28 District had never had any close contact with Einstein. Although
29 nuclear research directed toward the discovery of the atomic
30 bomb was based in part on Einstein's work, he did not contribute
31 anything during the period of the development of the bomb. He
32 was not a consultant to MED nor was he at the time a consultant
33 to the AEC. No one in the AEC had any occasion to speak with
34 Einstein in the regular course of their duties.

Los Angeles, California made available a printed letter bearing the letterhead "The Lutheran Research Society, Official Organ- The Eleventh Hour, Box 3381, Jefferson Station, Detroit 14, Michigan; dated June-July, 1947; addressed to "Dear Christian Friends"; and signed by Lawrence Reilly (Director).

This letter reviewed current news. One item reported that some American scientists put in a good word for the Soviet spies apprehended in the Canadian Gouzenko espionage investigation. It quoted a statement from the "Sessional Paper" of the Canadian Parliament, # 208, March 18, 1947. The statement included a list of scientists who took part in an organized campaign on Professor Israel Halperin's behalf. The name of Albert Einstein appeared on the list.

The "Oregon Journal" of March 20, 1947, gave publicity to a speech being sponsored by the "Association of Portland Scientists", honoring Dr. Leo Szilard, trustee of the "Emergency Committee of Atomic Scientists" and director of Biophysics and Radio Biology, University of Chicago. This article further set forth that the "Emergency Committee of Atomic Scientists" headed by Dr. Albert Einstein was the parent organization for the "Association of Portland Scientists".

Reference was made to Dr. Leo Szilard in the "Congressional Record" entitled "Hearings before the Committee on Military Affairs, House of Representatives, 78th Congress, First Session on H. R. 4250" entitled "An Account for the Development and Control of Atomic Energy." The first general witness called before the Committee was Dr. Leo Szilard, on October 18, 1945. In this hearing Dr. Szilard stated in part that in October, 1939, he and Professor E. J. Wigner approached Professor Albert Einstein to obtain his help in order to convey to President Roosevelt the need for government activity in the field of atomic research; further that Dr. Alexander Sachs of New York with whom Szilard and Wigner consulted, took Dr. Einstein's letter to President Roosevelt which resulted in the beginning of a research for the development of the atom bomb.

12 By letter dated March 27, 1947, Glenn H. Bethel of the
13 Liaison Office, Ottawa, Canada, forwarded to the Bureau copies of
14 a list setting forth the names of individuals and organizations
15 which made representations to the Canadian Government in connection
16 with persons accused in the Canadian Espionage Case.

17
18 Particular attention was invited to page 2, section B,
19 setting forth the names of persons in the United States who made
20 representations in favor of Israel Halperin. This list of persons
21 made representations in favor of Professor Israel Halperin after
22 charges were made but before a decision was handed down. All
23 were scientists and appeared to have taken part in an organized
24 campaign on Professor Halperin's behalf. The name of Albert
25 Einstein appeared on this list.

13 The Washington Field Division reported (date not
14 stated) that it was in receipt of information from [REDACTED]
15 that the Emergency Committee of Atomic Scientists, Incorporated
16 sent letters to the Argentine, French and Soviet Embassies. 62,
17 These communications were signed by Albert Einstein, Chairman. 67D
18 It was reported that Einstein's communications indicated that
19 through the release of atomic energy, our generation had brought
20 into the world the most revolutionary force since prehistoric
21 man's discovery of fire.

22
23 He indicated that the scientists recognized the
24 inescapable responsibility to carry to their fellow citizens
25 the simple facts on atomic energy and its implications in
26 society. It indicated that one of the basic principles of the
27 organization was that their only hope for security with reference
28 to the atomic bomb-atomic energy was to have an informed citizenry.
29 The communication ended by indicating that the organization
30 needed one million dollars for this task and consequently it was
31 calling upon the recipient for donations.

32
33 The headquarters for the organization was listed
34 at Room 28, 90 Nassau Street, Princeton, New Jersey.

35
36 The following individuals were listed as officers:
37 ... Einstein, H. C. Urey, Hans A. Hogness, Philip M. Morse,
38 Linus Pauling, Leo Szilard and V. F. Weisskopf.

12 In April 1947, a letter published by the Northern
13 California Association of Scientists for Atomic Education
14 (NCASAE) contained an article regarding the Committee for Foreign
15 Correspondence. The article stated that the Emergency Committee
16 of Atomic Scientists, headed by Professor Albert Einstein, made
17 a grant of \$5,000 to the Committee for Foreign Correspondence
18 which would enable it to carry on its work on a much larger
19 scale.
20

21 The article further reported that during the past year
22 the Committee had sent over 10,000 pamphlets on international
23 control of atomic energy to scientists in sixty nations. Of
24 these, more than a hundred letters and packages of literature
25 had been sent to individual scientists and to scientific societies
26 in the Soviet Union.

13 On a circular letter dated April, 1947, bearing the
14 heading "Committee for Foreign Correspondence, Association of
15 Scientists for Atomic Education, Inc., Box 615, Berkeley,
16 California," Albert Einstein, of the Institute for Advanced
17 Study, Princeton, New Jersey, was listed as one of the national
18 sponsors of the association.

19
20 The letter explained the purposes of the Federation
21 of American Scientists and the above mentioned Committee. It
22 also stated that they had received financial assistance from
23 the Einstein Emergency Committee of Atomic Scientists to expand
24 the Committee's activities.

It was reported in Mr. Westbrook Pegler's column in the November 1, 1950 issue of the "New York Journal American" that Doctor Kathryn McHale was a participant in a national conference on the German problem held in New York, New York, in March of 1947. He further reported that many of the sponsors of this conference were members of the Society for the Prevention of World War III.

The "New York Times" in its issue of February 4, 1947, Page 10, contained the following relating to the National Conference on the German problem.

"Pointing out that twice within a generation, the American people have had to defend themselves against a predatory and ruthless Germany! Mrs. Franklin D. Roosevelt and Edgar Ansel Mowrer, newspaperman, invited 500 prominent Americans yesterday to attend a conference on the German problem at the Waldorf-Astoria Hotel on March 6. The letters were sent on behalf of the newly formed committee of the National Conference on the German Problem, 515 Madison Avenue.

"The letters urged Americans to 're-examine the German problem and support the implementation of those principles which were originally established by the Allies to prevent the resurgence of a strong Germany'.

"Among other members of the sponsoring committee are Doctor Albert Einstein, Representative Helen Gahagan Douglas, Henry Morgenthau, Jr.,"

In its issue of March 7, 1947, on Page 11, the "New York Times" reported as follows concerning the National Conference on the German Problem held at New York on March 6, 1947:

"A National conference on the problem of Germany, convoked by Mrs. Franklin D. Roosevelt and Edgar Ansel Mowrer, framed yesterday a program to implement the Yalta and Potsdam agreements. It will be sent to the American delegation at the the Moscow Conference and to the United States Government.

"The conference met all day at the Waldorf-Astoria Hotel, concluding with a dinner. Seventy-five persons, many of

On April 11, 1947, Mr. Fred G. Cole, Research Director and David McCoy, Publicity Director for the "World Republic" dropped in at the Bureau to see Special Agent [REDACTED]. They pointed out that they wanted the FBI to have full information concerning their organization and claimed that from time to time they would send to the Director any publicity or other data which they thought would be of interest to the Bureau. b7c

Cole and McCoy pointed out that they had had as speakers at their meetings such individuals as Professor Einstein and Senator Claude Pepper and others. Cole made available to Special Agent [REDACTED] a mimeographed statement of the beliefs of the organization as well as its bylaws which were filed with this reference. b7c

On April 14, 1947, the "Washington Star" contained an article entitled "Sinatra in Group Honored for Advancing Democracy." The article contained the names of individuals honored by the Council Against Intolerance for "Advancing the Cause of Democracy During 1946." Those cited received statuettes at a dinner sponsored by the organization in commemoration of the 20th anniversary of the birth of Thomas Jefferson. These individuals were chosen in a nation-wide poll conducted by the Council among five hundred newspaper editors and 1,500 civic organizations. The Council said similar awards would be made later that month to Dr. Albert Einstein and others.

On April 22, 1947 the "Daily Worker" carried an article under the caption "Einstein Says Liberation of Colonies Urgent Need", which stated that Professor Albert Einstein the day before declared that "no reliable and lasting peace will be possible" without the political and economic emancipation of the "now subdued and exploited" African and colonial peoples. According to the article, Einstein termed it as "one of the most urgent needs in our times".

The article further stated that Einstein's statement was contained in a message of greetings to Dr. Max Yergan, Executive Director of the Council on African Affairs, which was to hold a rally the following Friday evening in the 21st Regiment Armory, 34th Street and Park Avenue.

According to the article, Professor Einstein told Dr. Yergan he found it "heartening" that the Council was laboring for African and colonial welfare and independence, and "trying to make the people conscious of the basic requirement".

"...The new wave of anti-Semitism, which recently broke out in Russia and the countries behind the Iron Curtain has now affected two other faithful friends of Russia. As we learned today, the Roumanian Communist Foreign Minister and former Dictator of that country, Mrs. Ann Pauker, has fallen into disfavor. The same fate befell the physicist, Dr. Albert Einstein, who immigrated from Germany to America, whom "Pravda" in its April 20, 1927, issue designated as the 'faithful friend of Soviet Russia', and who recently sponsored the 1st Communist 'Peace Congress' in Warsaw and in the Waldorf Astoria Hotel in New York with his name. In spite of this, in the course of the present anti-Jewish attitude in Russia (as the scientific periodical 'Science' reports) the theories of Einstein are no longer being taught."

as set out in the report of Special Agent dated October 10, 1946, at Los Angeles, furnished information concerning newspaper articles reflecting the activities of Robert W. Kenny. According to informant, the Los Angeles "Herald Express" of November 30, 1947, carried an article datelined Moscow, April 30, which stated in part that Robert Walker Kenny in commenting on the mention of the "California Prosecutor, Kenny" by Pravda as an American friend of Russia, declared that "I am greatly honored to be in the company of Albert Einstein and others. I imagine Vishinsky is responsible for my inclusion. I saw him frequently at Lake Success and he remarked that we were both in the same position. Vishinsky is also a former prosecutor."

11 The "New York Times" of May 1, 1947, carried an
12 article entitled "Pravda Calls Rise in U.S. Friends Soviet
13 Blessing on Eve of May Day".
14

15 This article stated in part that counting the bles-
16 sings of the Soviet Union on the eve of the May Day celebra-
17 tion, an article in "Pravda", Communist Party newspaper, said
18 that day that not the least of these was its growing number
19 of "sincere friends" in the United States. "Pravda" stated
20 further that identified as "sincere friends" were the Attorney
21 General of California, Kenny, Johannes Steel, the famous radio
22 commentator, Professor Ralph Perry, Joseph E. Davies, former
23 ambassador to the Soviet Union, Albert Einstein and Paul Robe-
24 son.
25

26 The article stated further that at Princeton, Doctor
27 Albert Einstein said he had no comment to make on the "Pravda"
28 article.

15 This reference is a letter dated May 6, 1947,
16 addressed to the FBI, Washington, D. C., and signed [REDACTED]
17 [REDACTED] enclosing a letter dated May 1, 1947, to [REDACTED] 67C D
18 [REDACTED]
19 [REDACTED]
20 [REDACTED]

21
22 In this letter, [REDACTED] asked [REDACTED] to read 67K.D
23 a brief note about "World Republic", a group of World War II
24 veterans who were actively engaged in a vigorous educational
25 peace program.
26

27 This letter stated that the World Republic was
28 getting new members daily from all walks of life -- men and
29 women who were convinced that a democratic federation of all
30 nations could be formed successfully just as our thirteen
31 colonies federated into the United States. The letter stated
32 further that Dr. Albert Einstein and five other individuals
33 were a few of the outstanding Americans who endorsed this
34 movement.

12 In a weekly intelligence summary covering the period
13 April 25 to May 2, 1947, appeared an article entitled "Communist
14 Press Highlights". According to this article, "Irova was crowing
15 about the "growing strength of Communism around the world". It
16 listed as a special friend who had "warm sympathy toward the
17 Soviet Union" Albert Einstein.

18
19 The above information is evaluated in this report as
20 having been received from a usually reliable source whose in-
21 formation was probably true.
22

23 The above summary was submitted
24 as an enclosure to a letter from
25 the War Department to the Bureau
26 dated May 2, 1947.

12 The "Daily Mirror" of March 5, 1947, carried an article
13 entitled, "Stalin's Friends". This article stated in part,
14 that Stalin had dared to list the Americans who love him and
15 his way of life, for all Americans to know who the favorites
16 of the Czar were.

17
18 This Article stated further, that among those praised
19 by "Pravda" were, Albert Einstein, who was given refuge in this
20 country from Nazi Germany, Joseph E. Davies, former Ambassador
21 and author of the unbelievable propagandistic "Mission to
22 Moscow", Elliot Roosevelt and others.

On page 29 of "Newsweek" for May 12, 1947, appeared the photographs of eleven individuals. These photographs included those of Albert Einstein and Elliott Roosevelt. Underneath the photographs appeared the following: "Pravda is gratified: Russia has so many warm friends in the United States".

On pages 29 and 30 appeared comments regarding favorable remarks made of these individuals in "Pravda". Concerning Albert Einstein named in "Pravda" as an American friend, the following appeared: "affiliated with American Committee for Peace Through World Cooperation, Congress of American Soviet Friendship, Friends of Abraham Lincoln Brigade, International Labor Defense, Joint Anti-Fascist Refugee Committee, League of American Writers, Medical Bureau and North American Committee to Aid Spanish Democracy, National Council of American Soviet Friendship, National Federation for Constitutional Liberties, Soviet Russia Today, The Spanish Refugee Relief Campaign, and the American Committee for the Protection of Foreign Born."

Memorandum 5-21-47 to Mr. J. C. Strickland from Mr. L. Whitson enclosing a photostatic copy of pages 29 and 30 of "Newsweek" for May 12, 1947.

The "Liberty" Magazine of June 21, 1947, carries an article entitled "Reds in Our Atom-Bomb Plants" by Representative J. Parnell Thomas.

In this article, Thomas mentioned among other things, the Federation of American Scientists and the Committee on Atomic Information, both of which were known to the Bureau as to some extent Communist infiltrated. By inference, Thomas placed in the same category the Emergency Committee of Atomic Scientists, Incorporated, headed by Dr. Albert Einstein. The Bureau at that time, had no information concerning any Communist participation in this group.

On September 23, 1947, the Bureau received from the State Department a letter dated July 14, 1947, addressed to the Secretary of State, Washington, D.C., and signed by Lawrence A. Steinhardt captioned "World Youth Festival - Press Conference". In this letter Steinhardt stated that he was transmitting a report by Frank J. Lewand, Cultural Officer, on a press conference called by the Preparatory Committee of the World Youth Festival, July 12, 1947 which took place at the Narodni Club, Praha.

The letter stated further that those present included some sixty representatives of local newspapers and agencies, several delegates, members of the Preparatory Committee led by Mrs. Kitty Hookham, General Secretary, and a few translators.

A member of the audience inquired about the invitations extended to Albert Einstein, Igor Stravinsky, John Steinbeck and Paul Robeson. The letter stated further that although the presence of these personalities as well publicized in the material first released by the Committee, Mrs. Hookham remarked that it was doubtful whether Mr. Einstein would really come and made no mention of the rest.
