Dossier furnished by the Department of the Army, which consists of a personal history questionnaire executed by RUDOLPH and the results of the investigation conducted by the Office of the Military Government of the United States in Germany.

According to the questionnaire RUDOLPH was born November 9, 1906 at Stepfershausen/Thuringia, Germany, is a German citizen, married and the father of one daughter. RUDOLPH and his family have recently moved from the military reservation at Ft. Bliss, Texas, where they resided for the past year and a half, to San Diego, California in connection with his official business as a liaison representative with the Solar Aircraft Corporation.

*Okay to

per Army*

RUDOLPH indicates that he attended secondary school at Stepfershausen and attended the Technical School at the University of Berlin, from which he was graduated as a mechanical engineer, and the Institute of Dr. ISIE, in Berlin, where he studied higher mathematics for half a year.

RUDOLPH states that he has a fluent command of both German and English. It is indicated that he received scholarships to study both at the Government school at Schmalkalden and the Technical School at the University of Berlin. In addition he states that he participated in rocket research and development since 1930 and from 1932 to 1934 conducted independent activity in rocket development.

He states that he was a member of various professional engineering societies in Germany, which he states he joined to broaden his technical knowledge and advises that he has published articles on jig and tool design, welding, forging and related subjects, between the years 1930 and 1935 for the Home Study School in Berlin. He indicated that he has been granted patents on "Process and devices for the rapid and continued uniform combustion of liquid fuels for rocket and aircraft. He states that these patents were declared secret and taken over by the German War Department in 1934 or 1935. It was indicated that RUDOLPH lost his papers concerning these patents during the war and cannot remember their numbers.

RUDOLPH lists his employment as that of a development and production engineer and states that from May, 1924 until December, 1934 he was employed by various private firms in Germany as a designer of special tools and devices. It is indicated that from December, 1934 until the end of the war in Germany in 1945 he was employed by the German War Department at various plants engaged in research and development of rockets and guided missiles.

RUDOLPH states in the questionnaire that he served in the German army from March to May, 1937 and from March to May, 1938 in a machine gun company of the Infantry. He states that he never engaged in any campaigns or operations and was never a member of any organization affiliated with the military. It also indicated that he was separated from the army on each occasion at the termination of his course of instruction.

Under the heading of political affiliations RUDOLPH lists the following organizations of which he was a member in Germany:

NSDAP. 1931-1945. Member. Participation in party meetings, sometimes processions. Only occasional participation after 1932.

SA - Reserve. 1932. Member. Normal service.

NS-Kraftfahr-Korps. 1933-1934. Oberscharfuehrer. Normal service, sports, motor sports.

NS-Bund Deutscher Technik, Reichskolonialbund, Deutsche Arbeitsfront, NS-Volkswohlfahrt, Dates I cannot remember, no activities.

Reasons for joining the NSDAP: Until 1930 I sympathized with the social-democratic party, voted for it and was a member of a socialdemocratic union (Bund Techn. Agst. u. Beamt.) After 1930 the economical situation became so serious that it appeared to me to be headed for catastrophe (I really became unemployed in 1932) The great amount of unemployment caused the expansion of national soc. and communistic parties. Frightened that the latter one would become the government I joined the NSDAP (a legally reg. society) to help, I believed in the preservation of the western culture.

The following affidavit was exucted by RUDOLPH at Ft. Bliss, Texas on May 14, 1947 to explain the above memberships:

- \*A) 1) From summer 1931 to the end of the war member of the NSDAP. Participation in the weekly party meetings and sometimes in the processions; occasional distribution of ballots up to the end of 1932. Only occasional participation thereafter.
- 2) Member of the SA-Reserve and participation in the normal SA-Reserve service during 1932.

*okay to  
release  
per Army*

3) From about summer 1933 to fall 1934 member of the NSKK (NS-Kraftfahr-Korps). Last rank: Oberscharfuehrer. Participation in the normal weekly service, sports, motorsports.

4) Member of : NSBDT (NS-Bund Deutscher Technik), Reichskolonialbund, DAF (Deutsche Arbeitsfront), NSV (NS-Volkswohlfahrt), I can not remember the dates. No activities except payment of the monthly fee of membership.

I did not participate in any violent action nor have I had any profit from my membership.

B) Reasons for joining the NSDAP:

Until about 1930 I sympathized with the socialdemocratic party, voted for it and was a member of a socialdemocratic union, the "bund Technischer Angestellter und Beamter - Butab."

After 1930 the economic situation became more and more serious and in 1931 appeared to me to be headed for catastrophe. I had to visualize myself as unemployed and that really occurred in 1932.

The great amount of unemployment caused the expansion of both the nationalsocialistic and the communistic parties. To me it appeared that the latter one of these organizations would become the government.

After a thorough consideration I decided to join the nationalsocialistic party (a legally registered society) in order to help in the preservation of the western culture.

In the years immediately following it did not turn out that my decision had been wrong from a business standpoint. Most that happened seemed reasonable. At the end of 1934 I obtained a job.

During the last few years political developments became more and more serious, but I could not foresee this result when I entered the party.

I, the undersigned, hereby swear (or affirm) that the above statement and data are true and correct.

RUDOLPH states that he resided in Germany continuously from 1930 to 1945 and he never traveled outside of the country. He states that he was never arrested and had no connection with the German government.

The following is RUDOLPH's stated reason why he desires to immigrate to the United States:

*okay to release per Army*

"I believe that the United States as the greatest and most powerful country is the only one that will preserve the western culture and the peace of the world, so giving the people freedom and weal. Further I believe, that the United States with its sence for technical progress will guarantee the research and development of rocketry. I would like to co-operate in the above named tasks for the future, particularly as I have a contract with the United States Government.

RUDOLPH indicated that he will maintain contact with an uncle and a friend who remained in Germany and that at some subsequent date he will seek visas for his wife, MARIEA, age 43, and his daughter, MARIANNE, age 10.

The Office of the Military Government of the United States reported that on the basis of available records RUDOLPH has no existing connection with the former German government and these records do not indicate any possible future participation in any German government not now in existence.

The records of the NSDAP as compiled in Berlin revealed that ARTHUR RUDOLPH was a member of the Party from June 1, 1931. Applicant has been employed by U. S. Government from November, 1945, to present. G-2 file for applicant contains information furnished by [redacted] Redstone Arsenal, Huntsville, Alabama, on March 30, 1953, to an agent of CIC. [redacted] was reported as saying, "RUDOLPH was a loyal member of the National Socialist German Labor Party and is the type of person who would not stop at anything if it might further his ambitions. He had the reputation of being a person who, in his enthusiasm for the Nazi Regime, could be dangerous to a fellow employee who did not guard his language." [redacted] concluded interview by stating RUDOLPH had none of the characteristics considered detrimental to his being placed in a position of trust and confidence, and recommended him for such assignment. On May 21, 1962 [redacted] advised he did not mean to infer RUDOLPH was an ardent member of the NSDAP at all, but he was an overly ambitious individual, overly conscientious and would report infractions by any fellow employee to proper officials. [redacted] stated he has highest personal respect for RUDOLPH and knows of no more loyal American. (S-1)
