SUBJECT: UNKNOWN SUBJECT;
NORTHWEST AIRLINES
FLIGHT #305,
PORTLAND TO SEATTLE,

CAA - HIJACKING; EXTORTION
OO: SEATTLE
BUfile 164-2111

On 11/30/71, the Bureau sent out a new artist's conception without glasses and requested we show it to witnesses. Subsequently I called [redacted] in Division 6, and told him witnesses [redacted] did not see subject's eyes; they saw him only with the dark glasses. I told him with regard to witness [redacted] that this witness thought the eyes were "good." This witness still maintains however, that the forehead should be slightly broader; the nose around the nostrils should be broadened and the cheeks were to flat and should be made rounder.

b6
b7C

[redacted] requested that we send him a teletype on this and also forward the artist's conception in which our witness had drawn in his suggested changes. This was done.

b6
b7C

[redacted] threw the following out for our guidance, instruction and consideration:

b6
b7C

1. He said in our initial teletype, page 5, we have one witness saying that the subject carried a dark colored attache case and a paper bag 4"x12"x18". He wonders if this paper bag could have contained a jump suit and a pair of boots.

2. In the same teletype, there was mention that a witness scuffled with the subject. I told him that I had already discussed this with the Agents involved and this was a wrong choice of words and that the word should have been "hassel" and that there was actually no scuffle and the witness had not had to separate the two, but merely stepped in to end an argument.

3. [redacted] wanted to know if we had enlisted hiking clubs and other outdoor groups to aid in [redacted]

Answered in Daily TT 11-30-71

5010-108

I told him that we had used only law enforcement personnel; that this was extremely rugged terrain and not the kind of territory you could lay off in a grid and search minutely at arm's length. He said to include in our next teletype something about the terrain. *Search*

4. He also said to include in our next teletype something about weather conditions in the drop area at the time the drop occurred. *Done 11-30-71*

5. He also wanted to know if we had given consideration to hiring a professional parachutist or make a simulated drop with a dummy and following it to the ground. He wondered if anything could be gained by such a maneuver. *W.D. On SAC*

I pointed out to him that anything we did by way of simulating the conditions would be a very broad approximation since we didn't know exactly where the plane was, assuming that the hijacker did go out at 8:12 PM, when they felt the "oscillation". Since this would vary with such factors as wind direction; which side of the flyway the plane happened to be on at the time, etc. He said he understands this but he would like us to think about it.

RE: SEARCH AREA

On 12/2/71, SA [redacted] Case Agent at Minneapolis, advised that [redacted] of Northwest Airlines had some additional information concerning a possible adjustment to the search area.

b6
b7C

On 12/2/71, [redacted] advised that the hijacked airplane was being flown on automatic pilot during most of the time it was in flight over the State of Washington and on down south.

b6
b7C

[redacted] advised that because it was automatic pilot the crew might not be able to detect a change in the attitude of the flight caused by a 180-pound man parachuting from the back stairway. However, he advised that he is examining the flight recorder with a microscope which he expects will reveal "little bobs" or anomalies where the automatic pilot has mechanically made an adjustment to maintain the level flight of the aircraft.

b6
b7C

He noted that there was a "little bob" at approximately 8:09 p.m. and based on that finding and the fact that the air stairs had gone down sometime earlier, [redacted] suggested that the search area probably should be extended to the north an additional three miles and to the south as far as the Columbia River. These extensions of the search area would be

THE ATTACHE CASE WHEN HE WAS MOVING TOWARDS THE AFT LAVATORY. HE WAS CARRYING THE CASE ON ITS SIDE IN HIS LEFT HAND WITH HIS RIGHT HAND IN THE CASE.

[] OBSERVED AT ONE TIME OR ANOTHER A GREEN SHOPPING TYPE BAG ON TOP OF ATTACHE CASE, SIZE OF BAG APPROXIMATELY THAT OF A DRESS SHIRT SIZE BAG FROM A CLOTHING STORE. HIJACKER WORE NON-LACE TYPE SHOES OF ANKLE LENGTH. THE HIJACKER DID NOT BRING FOOD ONTO THE PLANE OR EAT ANY FOOD EXCEPT FOR HAVING A DRINK OF LIQUOR.

b6
b7c

PRIOR TO TAKE OFF FROM SEATTLE AIRPORT, HIJACKER GAVE FOLLOWING INSTRUCTIONS TO PILOT:

"WE ARE GOING TO MEXICO CITY. FLAPS DOWN, YOU CAN TRIM THEM TO FIFTEEN, YOU CAN STOP ANYWHERE IN MEXICO TO REFUEL, BUT NOWHERE IN THE UNITED STATES, AFT DOOR TO BE OPEN, STAIRS DOWN, CABIN LIGHTS OUT, EVERYONE TO BE FORWARD OF FIRST CLASS CURTAIN, AND ALTITUDE UNDER TEN THOUSAND FEET." THERE WAS NO MENTION BY HIJACKER OF A HEADING OR AIR SPEED FOR FLIGHT.

HIS MIND AFTER AIRCRAFT TOOK OFF SHE WAS IN THE COCKPIT WITHIN FIVE MINUTES AFTER TAKE OFF AND RECALLS TEN MINUTES AFTER BEING IN COCKPIT THAT ONE OF THE COCKPIT CREW RECEIVED AN INTERPHONE CALL FROM HIJACKER ADVISING HE COULD NOT LOWER THE LADDER SO THE PILOT LEVELLED THE AIRCRAFT OFF AND REDUCED SPEED. SHE RECALLS SEEING THE RED LIGHT GO ON THE SECOND OFFICER'S PANEL INDICATING THE REAR LADDER HAD DROPPED AND WITHIN FIVE MINUTES OF THE FIRST CALL A SECOND CALL WAS RECEIVED BY ONE OF THE OFFICERS FROM HIJACKER WHICH WAS THE LAST COMMUNICATION WITH THE HIJACKER.

ON DECEMBER TWO LAST, INVESTIGATION AT PHILADELPHIA INTERNATIONAL AIRPORT REVEALED THAT THERE IS AN ACCESS PANEL IN THE REAR LADDER. WELL ON EITHER SIDE OF THE WELL ENABLING MECHANICS TO REACH EQUIPMENT BETWEEN WELL AND OUTER FUSELAGE OF THE SHIP IN THE TAIL. THIS PANEL CAN BE OPENED FROM INSIDE THE WELL AND THE FUSELAGE WITHOUT TOOLS. FACING THE REAR OF THE AIRCRAFT IT IS NOTED THAT THE AREA BEHIND THE PANEL ON THE LEFT SIDE OF THE WELL CONTAINS SUFFICIENT ROOM FOR TWO OR THREE MEN TO BE INSIDE. THE

Investigation in Clark and Cowlitz Counties on 12/3/71, consisted of the following:

[Redacted] mentioned in his interview at [Redacted] Illinois, were contacted and alibi furnished [Redacted] was verified. [Redacted]

Investigation vicinity [Redacted] reflected one woman, [Redacted] recalls a light plane landing with its landing lights on between 8:00 and 8:30 PM, on 11/24/71, remaining on the ground for approximately one half hour. However, she pointed out that she finds nothing suspicious in this since a number of planes land at both the Hahn and McClellan small air strips frequently, both day and night, and it is possible she may be confused on the exact time of the landing of the light plane which she has referred to as being 11/24/71.

Information developed by SA [Redacted] at Vancouver, Washington, reflects [Redacted] possible suspect in hijacking and memo to file will be furnished by SA [Redacted] on 12/6/71, with details.

Contact made with U.S. Weather Bureau, Portland, Oregon, to determine exact weather from 7,000 feet to ground level on 11/24/71, reflects generally conditions previously furnished to case agent, except that some of these winds both at 7,000 feet and on the surface could have been coming from 225 to 235 degrees, a general southeast wind. Further information concerning the wind and weather conditions being furnished in insert form concerning search in general.

He stated he felt the oscillation in the plane was probably the hijacker going on to the back stairs and that he probably sat on the stairs until he jumped over the Willamette Valley in Oregon.

b6
b7C

He further advised that in his opinion the hijacker kept the briefcase and other items he had with him in his possession until he landed and then burned them. It was pointed out to him that it was quite damp that night and this would be quite difficult to which he replied, if he were doing this he would have done this by using gasoline to start the fire. He also stated if this is not the case, "why haven't you not found the briefcase?"

[REDACTED] called from the Cleveland office.
He said that they have a suspect reported by a woman who
says it is [REDACTED] and are sending us and other
offices about a 7 page teletype. He also said that the
photos were being put on NW Flight 735 which would reach
Seattle at 5:25 PM today.

b6
b7c

I instructed SA [REDACTED] to meet the plane and
get the photos.

SA [] called from Minneapolis. He just finished a conference with NW Airlines people in regard to the possibility of an individual hiding behind one of the inspection panels inside the fuselage of the airplane. He has been told by NW people that this is virtuously impossible and that access is possible only to a contortionist unless the stairway is all the way down as it would be in the flight position.

b6
b7C

[] says he cannot find out from NW if they have actually inspected these areas in the plane and said the plane would be coming into Seattle as Flight 735 at 5:26PM, 12/4/71. It will be in Seattle overnight and we can arrange with NW to have it inspected at that time.

b6
b7C

RE: SUSPECT

b6

REX SHRODER called from the Bureau and referred to this teletype from Cleveland to several offices on this suspect. He said it was their thinking at the Bureau that if this suspect was a good one, that we shouldn't have to have all this collateral investigation conducted until we had shown the photo.

I told him that I agreed with him and He suggested we call Phoenix, Portland and Butte and tell them not to conduct their interviews until further advised by Seattle.

SHRODER also said if we got any kind of a break on this case, we should be sure and tell the Bureau so that they could prepare a national press release even before we file on anybody. I told him we would.

I called Phoenix and talked to the relief supervisor on the #2 Desk; to VINCE MC CARTHY at Butte and ASAC RUEHL at Portland and told them not to cover the lead in the above mentioned teletype until further advised by Seattle.

RE: SEARCH OF THE AIRCRAFT

On 12/2/71 SA [redacted] Philadelphia Division, advised that he had reinterviewed [redacted] earlier that day and in addition, [redacted] and SA [redacted] had gone to the airport at Philadelphia and looked over the after section of a Boeing 727 with the assistance of a mechanic.

b6
b7C

[redacted] advised that he has theorized, based on the information given by [redacted] that the hijacker might never have jumped from the aircraft. He said the hijacker is apparently an intelligent individual and his jumping under such unfavorable conditions was extremely dangerous.

b6
b7C

[redacted] advised that in inspecting the aircraft they found that, as you look toward the rear of the plane, the control handle which raises and lowers the air stairs is located on the left side of the aircraft. Right next to it, farther back, is a fairly large panel which hinges at the top with a locking latch at the bottom. The latch can be opened either from inside or outside.

b6
b7C

164-81-572

The purpose of the section is to permit inspection of the aircraft in the tail section. He said there is a similar inspection hatch on the right side of the aircraft. However, on the right side the compartment is small and contains

exhaust pipes which make it extremely hot in that area. However, on the left side there is plenty of space for a man to hide, and flying under 10,000 feet would not be uncomfortable. [redacted] suggestion was that the hijacker might have hidden in that compartment and when everyone had left the plane and the area he could leave the aircraft. ASAC BIBLER telephonically contacted the Las Vegas Office to inquire as to whether or not these compartments had been located and searched and the Minneapolis Office also was contacted to determine where the plane is now located so that a search can be made of those compartments in the event they have not already been searched either by the FBI at Reno or by the airlines own mechanics at any location.

SA CLOW was also advised this package contained photos of the flight path of captioned aircraft from Seattle to the California border. He was also advised that this package should be forwarded via United Airlines Flight 848 departing San Francisco at 9:45 PM, and arriving in Sacramento, California at 10:20 PM, the night of 12/2/71.

At 5:10 PM SA [redacted] telephonically contacted SA RON STAMP of the Sacramento Division and advised that a package would be forwarded via aforementioned routing, since there were no direct flights Seattle to Sacramento, during the PM of 12/2/71.

b6
b7C

SA STAMP advised that an Agent would meet United Airline Flight 848 at Sacramento.

At 7:10 PM, SA [redacted] gave aforementioned package to [redacted] Western Airlines Flight 641, who agreed to carry the package to San Francisco and turn it over to an Agent of the FBI at that point.

b6
b7C

At 7:45 PM, SA [redacted] telephonically contacted the Night Supervisor in San Francisco and furnished the name of [redacted] as the pilot who would carry the package to San Francisco and turn it over to the FBI there.

TO : SAC, SEATTLE (164-81)

DATE: 12/3/71

FROM : ASAC PAUL R. BIBLER

Sub: E Search.

SUBJECT: UNSUB, aka Dan Cooper;
NORTHWEST AIRLINES FLIGHT #305,
PORTLAND TO SEATTLE,
11/24/71
CAA - HIJACKING; EXTORTION
OO: SE

SA [redacted] called from Philadelphia 12/2/71. He is the Agent who has been interviewing [redacted] [redacted] has a theory based on the fact that [redacted] told him subject appeared to be quite intelligent and did not appear to be dressed for jumping. Theory is that subject did not leave the plane until after it landed in Reno. [redacted] got someone to take him through a 727 and there are two inspection panels in the extreme rear of the plane, which are not readily detectable. In fact, [redacted] did not even know about these areas. The one on the right of the stairway door in the rear of the plane, is untenable for very long because it is full of heat ducts and other materials.

b6
b7c

The one on the left has room for a man to stand along with the gear which subject had with him the other night. He would not freeze at below level, nor would he need oxygen at that level.

[redacted] is putting this in a teletype, however, I telephoned ASAC DULINSKY in Las Vegas and asked him to determine if FBI personnel or airline personnel in their processing, inspected this compartment in Reno on 11/24/71. I also called Minneapolis where I talked to the duty agent [redacted] and asked him to have Minneapolis determine if airline personnel had been in this compartment in instant plane since it had been returned to duty and whether it showed any signs of occupancy. I told him that if they could not see if that panel had been opened, to determine where the plane is now so that it can be inspected.

[redacted] U. S. Post
Office, 138 North 1st Avenue, Oakdale, California, was
interviewed at the Post Office on 11/29/71, and furnished
the following information:

b6
b7c

He recalls an envelope addressed to "Reno
Newspaper, Reno, Nevada" because of the unusual address,
the unusual handprinting, and the lack of a zip code on
the envelope. Although he does not recall precisely from
memory when the letter was observed by him, he advised
that if the postmark indicates a.m., it would have to have
been mailed in the main mail drop at the Oakdale Post
Office between 6:30 a.m. and approximately 11:30 a.m.
Saturday morning, 11/27/71. If the postmark indicates p.m.,

the letter could have been mailed at any of the varied mail drops within the postal carrier area of Oakdale or at the main Post Office anytime between the late afternoon hours on Friday and the late afternoon hours on Saturday. He advised the Oakdale Post Office is closed on Saturdays, but the front door is open for mail drop at 6:30 a.m. The mail deposited at other drop locations in Oakdale is not normally brought to the Post Office for cancellation until afternoon. On Saturday, 11/27/71, [] cancelled all the mail in the main drop and changed the cancellation stamp to p.m. at about 11:30 a.m. prior to going to lunch.

b6
b7C

From records, [] advised that a total of 2,267 individual pieces of mail were machine cancelled at Oakdale on 11/27/71, and about 1/3 of this or approximately 750 pieces would have been from the main Post Office mail drop. The remainder would have been brought in by the carriers during the day. [] had no knowledge of who might have mailed the letter and advised he knows of no one who might have observed the person who mailed the letter.

b6
b7C

[] the "Modesto Bee", who had a wire service copy of the letter, advised on 11/29/71, that the cutout printing comprising the contents of the letter came from the AAA final edition of the 11/26/71, "Modesto Bee". Comparison of letter spacings, type fonts, column marks, etc. correspond exactly with the printing in the letter. [] indicated that this edition is the Modesto home edition, first copies of which reach the retail box in front of the Modesto Bee Building in Modesto at 2:30 p.m. This edition reaches the Modesto newsboys and distributors about 4:30 p.m. This edition is not sent to the Oakdale area.

On 12/1/71, [redacted] Los Angeles, California, Area Code [redacted] telephonically advised that he had just received information over the wire datelined Mt. Vernon, Wa., wherein the Washington State Police had a high speed chase on I-5 and the individual, described as middle aged, wrecked his vehicle and was later captured on foot and booked in the Skagit County Jail pending the determination of his identity. In the vehicle they found "MONEY ALL OVER THE PLACE", some of which was foreign currency. [redacted] advised that he thought this could possibly be the hijacker, and that if any positive information was developed from this he would like to be called for the story.

On 12/4/71

called to suggest that there might be some possibility that a radio receiver was in the hijacker's attache case. This could be used in conjunction with a low frequency transmitter on the ground - to know when to drop. He said this would put one within a 3 mile radius from a 10,000 foot level jump on target.

b6
b7c

However, he noted too, that any transisterized receiver in use should be reflected in the plane instruments - so pilot should be able to tell that such was the case (transceiver in use)

SA [redacted] called from Philadelphia today. He is the one doing the interviews with [redacted]. So far, all the pictures shown to her, including [redacted] have been non-idents. They are sending us a teletype but he wanted us to know that and he also wanted us to know [redacted] wants to be thoroughly re-interviewed since she feels she can now recall things which she did not furnish previously. They are going to do this in the morning.

b6
b7C

He said that she told him that the subject told her he wanted to take off with the ladder down, the gear down and "we'll be flying with 15 degrees." She said the pilot told her to tell him that they could not take off with the ladder down and he muttered, "Yes you can, but that's alright, we can lower it later."

[redacted] told us he thought this was significant since this would indicate the subject knew a lot about airplanes, perhaps that he might have worked on the 727 at one time. He also thought it was significant that "we'll be flying with 15 degrees" since this is pilot talk, meaning 15 degrees of flaps. I asked him if [redacted] mentioned whether or not the subject gave instructions as to the course to fly. He said that the subject did not, that he did not give any headings, he did not outline any course, but simply said to take him to Mexico.

b6
b7C

They will be reinterviewing her tomorrow and furnish a teletype.

EARL J. COSSEY, 349 North 101st, Seattle, advised that the pilot chutes on both of the back pack parachutes which were furnished to the hijacker on 11/24/71, were white in color. He stated that also the back pack chute which was missing from the aircraft upon its arrival at Reno, Nevada, was white in color.

Concerning the chest pack parachutes, he stated that these parachutes are hand deployed and do not contain pilot chutes. The chest pack chute which was sewn up as a practice chute and which was missing from the airplane was also white in color.

FBI description of hijacker given

This drawing below of the hijacker was made by FBI artists during interviews with witnesses, primarily the aircraft crew. If a witness says of the drawing, "His lips look too thin," then changes are made.

Following is a word description of the hijacker. Special FBI agent Tom Manning said today he is particularly anxious to distribute picture and description in The Daily News' circulation area.

Race: White

Sex: Male

Age: Mid 40s

Height: 5' 10" to 6'

Weight: 170 to 180 pounds

Build: Average to well built

Complexion: Olive, Latin appearance, medium smooth

Hair: Dark brown or black, normal style, parted on left, combed back. Sideburns, low ear level

Eyes: Possibly brown. During latter part of flight put on dark,

wrap-around sunglasses with dark rims

Voice: Low, spoke intelligently; no particular accent, possibly from Midwest section of the U.S.

Characteristic: Heavy smoker of Raleigh filter tip cigarettes

Wearing Apparel: Black or brown suit; white shirt; narrow black tie; black dress suit; black rain-type overcoat or dark top coat; dark briefcase or attache case; carried paper bag 4"x12"x14"; brown shoes

Composite drawing of hijacker

have been hard to find.
Mrs.: He still is.

QUICK CHANGE

Builder: This is just the house for you sir - Tudor style.

Prospective buyer: Oh, I don't care for the Tudor style very much.

Builder: We can soon alter that for you, sir, Frank; bring your paint remover and take them oak beams off the ceiling. -Quote.

The Homemaker's Council will open the season's activities with its 'Kris Kringle' event, Saturday and Sunday in the Skamokawa Grange Hall. Home decorating ideas will be featured.

At 2 p.m. Dec. 11 the annual Children's Christmas program will be on stage at the old high school gym. The original production, "You are There Toyland Dec. 24, 1971," was written, produced and will be presented by Cathlamet Little Theatre members.

The audience may not recognize the actors since they will be costumed as various favorite toys and storybook characters. After the 45-minute production Santa Claus himself, as ever was, will hand out toys and treats to the youngsters. The Girl Scout Cadettes will also lend a helping hand for this show. Children of all ages are invited.

On 12/4/71, Supervisor PRICE called from the Bureau.

He referred to a UPI story to the effect that three different women had reported seeing or hearing a light plane near McClellan Air Field, Woodland, Washington, on the night of the hijacking.

He said Asst. Director BATES wanted to know what we were doing to resolve this if it had not already been resolved. He said we should send a teletype over the weekend.

After talking to SA MANNING, it was established that it had been resolved and that the [redacted] [redacted] said no plane had actually landed that night.

1. Line G-I-K-M represents the airplane's flight path as it approached the Portland (PDX) VOR.
2. The cabin pressure "bump" occurred at 0410 GMT, the time being recorded by the NWA Flight Operations Office (NWAFO) in Minneapolis. It is a virtual certainty that the pressure "bump" marks the time that the high-jacker (HJ) left the airplane. The airplane was at Point A at that time, thus the HJ's body would land at Point A if his 'chutes did not open (unlikely).
3. If it is assumed that the HJ was a highly expert parachutist, and would thus free-fall as far as practicable to insure the best accuracy of his touchdown point, he would land slightly to the NE of Point A due to his drifting with the wind from the point of 'chute opening.
4. If the HJ opened his 'chute as soon as he left the airplane, he would drift along the line A-B and would touch down at B. All lines parallel to A-B are lines along which the HJ would drift if he opened his 'chute relatively early.
5. The parallelogram indicated by C-D-F-E represents the boundaries of the probable touchdown area adjusted for possible time errors and for the above described wind drift. It is probably the most fruitful search area.
6. The earliest the HJ could have jumped is 0406, and this point is represented by Point G.
7. The crew believes the pressure "bump" occurred at 0410, but in any even are certain it occurred before 0415. If the HJ jumped at 0406 (unlikely) he would land on or near line G-H. If he jumped at 0415 he would land on or near line M-L.
8. Based on the above explanation of Figure 1, and on all the assumptions based in its preparation, the following are pertinent:
 - a. The most likely landing point for the HJ is at, or slightly NE of Point A.
 - b. His landing point is more likely to be in area C-D-F-E than any other.
 - c. It is possible his landing point could be anywhere within the area shown (G-H-N-M), but the probability goes down as the ends of this area are approached.

RE: SEARCH AREA

A facsimile copy of a memo prepared by [redacted] which was accompanied by a map, which is also a facsimile, were received at 6:05 PM, 12/4/71, from Minneapolis.

b6
b7c

The map shows the course of the aircraft from slightly north of the Kelso-Longview area to just south of Battle Ground and sets out the most likely area for the parachute drop according to [redacted] latest calculations as an area described by parallel lines C, D E & F. Generally speaking this would be an area between Pidgeon Springs and an area just north and east of Woodland.

b6
b7c

The above information was furnished on 12/6/71 by ASAC BIBLER to SA MANNING at which time SA MANNING advised that he is sure that the area now described has already been searched by helicopter and fixed wing aircraft and that much of it has been covered on the ground as well.

It is noted that on 12/2/71, [redacted] advised that after re-examining the flight recorder, he would suggest that the search area could be extended to the north an additional three miles, and to as south as the Columbia River. That information was furnished to SA MANNING and possibly included the area now described in the map prepared by [redacted]

b6
b7c

SA MANNING requested that to be sure that the area had been searched, that accopy of the map be forwarded to him for examination.

RE: SEARCH AREA

A facsimile copy of a memo prepared by [redacted] which was accompanied by a map, which is also a facsimile, were received at 6:05 PM, 12/4/71, from Minneapolis.

The map shows the course of the aircraft from slightly north of the Kelso-Longview area to just south of Battle Ground and sets out the most likely area for the parachute drop according to [redacted] latest calculations as an area described by parallel lines C, D E & F. Generally speaking this would be an area between Pidgeon Springs and an area just north and east of Woodland.

The above information was furnished on 12/6/71 by ASAC BIBLER to SA MANNING at which time SA MANNING advised that he is sure that the area now described has already been searched by helicopter and fixed wing aircraft and that much of it has been covered on the ground as well.

It is noted that on 12/2/71, [redacted] advised that after re-examining the flight recorder, he would suggest that the search area could be extended to the north an additional three miles, and to as south as the Columbia River. That information was furnished to SA MANNING and possibly included the area now described in the map prepared by [redacted]

SA MANNING requested that to be sure that the area had been searched, that a copy of the map be forwarded to him for examination.

RE: [redacted]

Re: Cleveland tel to Seattle, 12/3/71; Butte tel to Seattle, 12/3/71.

At 7:20 AM, SA [redacted] Division 6, Bureau, telephonically requested immediate reply on status of investigation concerning subject of referenced Cleveland teletype, [redacted]

SA [redacted] referred to instant case [redacted] and telephonically contacted SA's CHARLES FERRELL, [redacted] and ASAC BIBBLER regarding the matter.

Bureau was advised that photos were received at Seattle last night and will be shown to witnesses this date.

Minneapolis (SA ARTHUR SULLIVAN) was advised of Bureau interest and requested to show photographs to witnesses this date and immediately notify this office of results, with copy of that correspondence to be directed to Bureau. SA SULLIVAN advised he could not locate photographs and had no record of having received same.

Cleveland office (SA's THOMPSON and WAYNE TISHNER) advised that photos were sent to Minneapolis on Northwest Flight 125 at 2:10 PM 11/3/71.

Facsimiles of photos were sent to Portland and Philadelphia. and telephone calls made to those offices by SA [redacted], requesting they display photographs to witnesses this date and to notify Seattle and Bureau immediately of results. Portland will notify Eugene w/ facsimiles.

Butte Division was telephonically advised, re referenced communication, to discreetly determine if suspect [redacted] was physically present and accounted for [redacted] on the day of instant hijacking, and immediately notify Seattle of results of that investigation. Supvsr. WALTERS advised that RA at [redacted] would immediately be notified, and Seattle would receive results "by tonite".

During above communication with Bureau by telephone, [redacted] Division 6, further advised that Assistant Director BISHOP is very interested in this case and has advised him that Crime Records Division has agreed to immediately disseminate nationally any information concerning key suspect in this case. He further advised a report was being submitted from Bureau to Director this date and they will be interested in any information on any developments instantly.

b6
b7c

FBI, Portland advised telephonically that facimily photos of [redacted] being sent, that these are to be transmitted to Eugene and shown to pertinent witnesses.

b6
b7c

FBI, Philadelphia advised that facimily photos being sent of [redacted] to show to [redacted] stewardess. They called back, that girl had left for Minneapolis and to contact her there. Minneapolis advised and will contact.

How to Steal \$200,000

Or the Great Ransom-Hijacking

b6
b7c

Call me Michael Cooper, the newspapers are. I always wanted to commit the perfect crime. Now I've got \$200,000 tax free to prove it. That's alot of bread even after a three-way split.

I've been hatching this plot a long time--in fact ever since I got out of the Army. Returned to Portland, my home town. Couldn't find a job and I tried hard, real hard. But no one appreciated my ability. Now the whole world is appreciating my ability. There's no denying \$200,000.

Boarded this Boeing 727 November 24th at Portland. It was just what I wanted. Soon as I got on I handed this stewardess a note ordering her to stick close and if anything went wrong my briefcase would go off taking everyone with it. I had dynamite wired up in my case and I showed it to the broad to prove I was serious. Told her to tell the pilot to notify the airport in Seattle to have money ready when we arrived. And two sets of parachutes should be thrown in for good measure. I wasn't about to take chances. This was kind of a milk-run so chances were against an air-marshal being on board. This would be the first major heist in the Northwest ever. That Green Beret training in Viet Nam came in handy for something.

I stayed in the back close to this stewardess. Don't think anybody really knew what was coming off, except the crew. And they were very efficient and cooled it. They knew enough not to spook me. I had long before decided that my life and that of a few others were well worth the risk for all that money. Besides before I had *nothing* to show for my life, now I do. I grant you money isn't all, just 99% and besides someday I can make another mint off my memoirs.

Circling the area for two and a half hours, we finally settled down. They didn't fool me none. The old Northwest Airlines Inc. was probably recording the serial numbers, all 10,000 of them, because I wanted the money all in 20's. Maybe even a big outfit like that had trouble putting together \$200,000 at that time of night. Once on the ground I allowed the 36 passengers and two stewardesses to

Ordered to the plane to refuel and prepare for immediate take-off on schedule to Reno. There were official-looking gents all over the place, alot of them FBI men I imagine. Finally, this courier type guy boarded the plane and gave the small white pouch to the stewardess that I allowed to remain to be the interpreter. Oh, and last but not least the chutes. The dough seemed in order; it only weighed about 20 lbs.

We took off about 7:30. Right on schedule, my schedule. This is where the timing came in. Made the stewardess enter the captain's cockpit. Can you imagine, that fancy dame, when I first handed her the note and declared myself, actually thought I wanted a piece of her instead of the action. She got so she treated me with a little more respect, or should I say, fear. That's the way a man should treat a woman, under him. You give them much quarter and they'll stomp on you.

Well, back to that night. I got what little crew was left, four to be exact, up front. Oh, the instructions given to the crew upon taking off were to leave the flaps down at 15°, unlatch the passenger door, to level off at 7,000' and to not exceed 95 knots. They were also told the latitude-longitude course to take. I had everything thought out, needless to say. I've been around planes before and I've made drops before, plenty of them and not just in Viet Nam. Was a smoke fighter once. And I knew the drop-out area like the palm of my hand. For several weeks I practiced precision dropping at the Crechards Chute Landing Area in SW Washington. And for all you'll ever know I might have had kin or somebody in the area, might I not?

Well, back to the story because this is where the action got fierce. Figured I had 30 to 45 minutes before making the drop. Lots to do. Taking my hunting knife out I slashed up a secondary chute and strapped the money around my waist. Put my long flashlight and K rations about my person. Oh, and I had a 38 revolver which I never had to flash. And then the big job. To check out the main chute. That was awkward but I had been practicing that too trying to cut down my time. I had to rush that a little but that's the chances you take. Defused the dynamite, opened the door and tossed it out. Repacked the main chute, strapped it on my back, put the reserve chute on my chest which I learned afterwards had been sewn shut. That's a laugh. They must

take me for a complet idiot. Why the hell do you think I ordered two sets of chutes. I didn't take many chances, not many at all.

It wasn't a bad night for a drop--overcast but I would bail clear of that. Checking my time, I cleared the altitude and speed with the captain over the com-line. Everything was about right even though I missed the airport beam at Kalama because of poor visibility. I had to clear Lake Merwin. Clearing the clouds, I floated down. Heard later there were three military trail planes but they couldn't see me through the soup. I tugged and jerked the lines just right. Hit in a field. Thank God I didn't get hung up in a tree. Concealed both chutes. Then checked my reading. I knew pretty well where I was but confirmed it with my compass and county map. I just had 5 to 10 miles to go to get to my car. Reached it by early morning. Let me tell you that man cannot live by bread alone or by K rations for that matter.

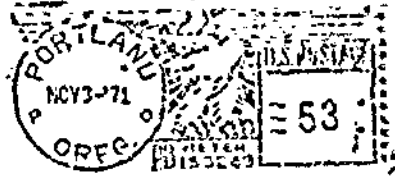

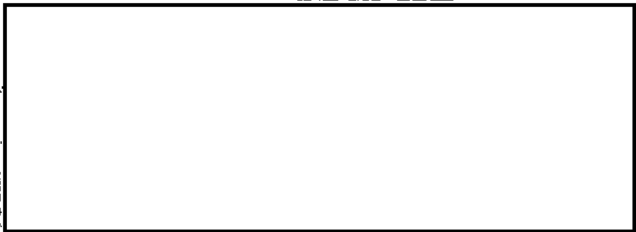

Heard later when they made a skidding, sparks-flying stop at Reno that they set dogs lose trying to spot me in the hangers and adjoining homes. Yes, they must have taken me for a fool. But I had it all planned out, all planned out. They underestimated me all the way. I dropped short of where they said I did. And by the time they find any traces of me, if they ever do, I'll be long gone. Might have holded up in Portland or Seattle or lit straight out for Canada. Odds are they'll never find me. Not if they're looking for a loish, Latin type man in a dark suit with sun glasses. Besides knowing alot of other things what's to stop me from being an expert at disguise!?! Nothing, I tell you.

Well, I could go on more but I've got things to do. Think I deserve a little rest and you can bet your stars it's going to be in style. Oh, don't believe that malarky at the start of my story about there being accomplices. Do you think I'd be crazy enough to deal anybody in on this, especially a blabby, spineless female. And if I found one I cared enough for to deal in, I wouldn't expose her to the risk. But from now on I won't have any trouble finding companionship if and when I ever need it. Yes, I'm a loner from the word go and that's the way I like it.

Right now I'm laying low. Don't even care if the magazine pays me for this

4.

article to show you how big hearted I am. Or maybe I made its printing conditional to a bank deposit in Switzerland. Who knows? Except me and I'm not telling until it's to my advantage. You can bet your damn britches on that. And if I have any good word for you, dear reader, it is to take heart and never give up for almost anyone with a little imagination and initiative and guts can find a silver lining. And then sit back and muse and laugh at the authorities as they muddle their way along. So good luck, God bless and may the winner take all.
