MR. randoms: That is all.

MR. Definition That is all.

MR. FRI. ARICE C. BOLT, being first doly sworm by the Clerk, testified as follows:

MIRSC! ALMIKATION BY MR. DETINISHED

- Wr. Bolt, you are the fashier of the reoples davings Bank of Grand Haven? A Yes, sir.
- that is a Michigan banking scrporation, located in this
- 4 And were you such a shier on the 18th day of August, last year? A Yes, sir.
- Were you present in the bank at the time that the robbery occurred? A I was.
- 4 And where were you located in the bank the first you know enything about it? A I was standing at my deak, I had just finished a telephone call to the Beers Motor Company.
- Q That is you were standing in this front room here marked "Cushier's Office? A Right behind the desk.
- W Behind this deak? A Yee, sir.
- 4 and what was the first thing that occurred that you noticed?
- A The first thing I knew 3d bonts was around the corner of the door to my office and had a gun right in my middle.
- w Through this door? A Yes.
- When you may ad Bentz, how do you know it was ad Bentz?
- A That is the one I identified when the picture was shown to me.
- C You are not referring to this respondent? I am not referring to this man.
- as being id Bents? A Yes, sir.
- which any one also come into your office? A No. sir.
- Are you able to identify anyone saids from the one you say is Ad Bents? A No, the little fellow that has not yet been identified.

- c out you feel that if you saw his picture or saw him that you could identify him? A I feel responsibly ours I could.
- L aut you do not claim to be able to identify this respondent?
- A I never suw that man.
- & And you didn't see all four of them that day's
- A I did not, Three of them,
- So your failure to identify Mr. Theodore Bonts here is not because you don't remember or know what he looked like that day, but because you didn't see them all?
- A bidn't see them all.
- was taken away by these robbers? A 1 did.
- Liken and its value? A The each amounted to approximately

 43500, and there was seven Chicago, Kilwaukee, St. hand a

 4acific rational bonds taken; the current corket at the

 time was around twenty-five, therefore they had a value of
 a out (1750; and on the basis of those two figures the

 Amorican duraty Company of New York reimbursed us for those

 two amounts.
- Las there anything further token besides that?
- A fravolors' checks of the Pellon Bational bank and of the american Argress Company.
- & And go you know approximately the amount of those?
- A The American Express were a little over three thousand dollars, and the others, after sheeking up, were found to be a little below three thousand dollars, those of the Kellon National.
- w. Mr. Bolt, I show you here some American Express Company travelers' checks; I don't know what you call these after they are paid and cancelled as ordinary checks; do you call them wouthers then?

- arobably e-modiled vouchers,
- could tell that they are American Express Company travelers?
- A These have been poid by the American Express Company
- And can you identify those American Express Company Provalers' checks by their numbers and the list of numbers that you have, as to whether or not those are the American Express Company travalors' checks that were taken from your bank on the loth of August, 1935, by the bank robbers?
- A They are the ones that the American Express Company charges us with having in our possession at the time of the robbery.

 And from that record and the fact they were missing after the robbery, you know that these are American Express Company travelers' checks that were stolen from your bank on that may?

 A Yes, they show in our records.

MR. Directly There is quite a number, 1 don't tomet would proceed to mark these, that is, to mark each one of them, or put a rubber band eroundthem, or mark the whole bundle.

THE COURT: It seems to me that would do. (Dundle marked feoples' Exhibit 4)

ER. Diriming I ask to introduce this,

MR. FARBORS; I would like to cak that is elaised for them. is it elaised this respondent had these in his possession; are you going to prove that?

MR. DEFINITION I will say this, before I will offer them, I will proceed with some other fact, them I will clear the whole thing. For the purpose of identification mark this.

things were exched.

E3. LITELESS: On that ground we will eak they be recoived, and further, we will have a stipulation.

THE COURT: I understand you agree both of those should??

MR. D.THLIRS: They should be received in evidence.

LR. 14RJONS: Yes, as part of the property that was
stolen from the brak, as part of this robbery.

aigmed by Theodore B. Morton, Assistant Manager of the Travalers' Checks Bureau, and ask you if that is a letter you received from the Mollon Entional Bonk? A It is.

And that letter sets forth the numbers of the travalers' checks that you were supposed to have in your possession on the

date of the robbery, is theteorrect? A might.

ER. 1-RJOES: Is it you claim, Mr. Dethmers, you had

some arrangement with Mr. Osterhous, whereby it was not

point to be necessary to produce this witness to prove these

checks, is that right?

kR. Diffilial: it is the claim of the recopie that we had an agreement to this effect: Well I don't know as I should state this before the jury until I know that you are going to approve of it.

The Court You better not.

KR. FARSONS: Enform we go any further we will sattle that.

MR. DETHUERS: All right, I think that would be a good idea, to sattle that, not in the presence of the jury. I sak that the jury be excused. (Jury excused)

(Jury not present)

MR. DATEMINS: May it places the Court, the Leople have here a number of american Appress Company Spayalers' chocks, together with a letter from the American Express Company, setting forth the numbers of the American Express checks which this bank had at that tire; likewise a number of photostatic copies of Mellon Mational bank cheeks, together with a letter indicating the numbers of the Mellon Metional Bank shocks, tr velors' checks, that the bank had on that dots. Now the keeple claim that an agreement was entered into between myself as the prosecutor, and Mr. Osterhous as attorney for respondent, that it would not be necessary to obtain as witnesse the officials of the American Express Company, nor the Wellon. Estimand bank to come here and identify these checks as having been the checks that were allotted to the leoples Savings Bank of Grand Haven; nor to testify that these had been eashed and paid; and further that it would not be necessary for the People to bring here witnesses from the State of Indiana who had cashed a few of these checks and who identified this respondent as the person who cashed those checks. The understanding with Er. Osterhous was that the respondent would somit that he had so shed them, and although not part of the agreement, the understanding was that the fact that the respondent had those checks in his possession and had coshed them would be explained, and so with that understanding the Feople did not bring here witnesses from the Kellon National Bank of rittaburg, nor from the American Axpress Company of Chie:go, nor witnesses who enshed them, from indiana, although we have here now and brought in today one of the witnesses from Indiuna who eashed one of these shecks. That is the matter of agreement which we claim we had with Er. Osternous, and that I assumed would still be in force and effect.

Ad. radiodic: I probably would be bound in the trial of this case by any agreement which was had with Mr. Usturbous in connection with the proofs that might be introduced in lieu of the witnesses that the prosecutor mentioned, and I feel that under those circumstances I should not object to the tectionar relative to matters which would otherwise be incompetent.

Mil. DEFINERS: I will say this, your Honor, that it is a rather emborrassing thing for me to have to make my statement in general language here, what the agreement was without Mr. Osterhous present to corroborate it. I would much prefer if he could be reached, because sometimes we lawyers think we have agreements and what we have is misunderstandings. So if he same he reached I would like to have that done. I wouldn't want to assume the ros, oneibility of things on my soy-so.

Ed. Libbias 1 on perfectly willing the process of the statements to end the uncorner to the understanding he had with Mr. Osterhous.

The court, well of course the situ tion is this; ir. Ceterhous has withdrawn from this case; he is not connected with it at all, and agreements or anything class that you had with him are not binding on the respondent now, and ir. Formula is respondible for the conduct of the defense of this case now.

AIR. P.R.ONS: Well in view of the nature of the proof in question, that it consists of testimony of witnesses to identify purticular documents, and in view of the fact that it will be necessary for the isople to tak for a continuance if I refuse to live up to this agreement, and that a continuance may make it necessary for me to have at the trial, when resumed, sortain witnesses whose presence here is voluntary, I

feel that I should consent to the arrongement that Mr. Catarhous asso, I so someth to it.

The COUR: well you better talk it over with your client. We don't want any misunderstanding about these things afterwards or talk about them.

Ed. randing 1 will say, if the Court please, I will wrive the production of the witness from the Kellon Estional Bank. What else do you want me to wrive, Mr. Jethmersy You on introduce that letter in lieu of the witness.

MR. DelRicki: Ly understanding was that it would be agreed that these american express travelers' checks were the checks that were stolen from the heoples savings bonk of Grand Eavan, and that these photostatic copies are photostatic copies of Mellon Mational Bank checks that were stolen from the reoples cavings bank of Grand Haven on the day in question.

MA. 1-A:ONS; All right; it is so greed.
The Court: That is admitted is it, Mr. rarsons?
MA. rancons: Tes.

ER. DEFENDED: The agreement want further than that, but I am willing to stop at that point, because we have a witness here from Indiana.

THE COURT: Of course, you will have to go over this again before the Jury, but it is admitted?

MR. randONU; Tes.

(Recess)

KR. DETREENS: May it please the Court, I understand then that it is agreed that this bundle of American Express Company travelers' checks which have been marked reoples' Exhibit 4, and this bundle of Mellon Mational Bank trivelers' checks,

- 77 -

market temples' arbiblt 5, that it is admitted that the Travelors' charks contained in those two respective bundles and constituting those two respective exhibits, that those were travelors' checks or photostatic copies of travelors' checks in the passession of the scopies savings bank of Grand Havon, on august 10, 1905, and that they are checks or photostatic copies of the travelors' checks that were stoles from that bank on that day by the beak robbers who perpetrated the robbers of the bank on the lath day of August.

(3)

Mi. ralifili: That is admitted.

Md. PERMENI: You may take the witness.

the b ek door, with one hand, the other one had hold of a gun, opened the brok door, and showed me through it; from then on many things happened.

which one was that one, was that Doylet

(

- A That was the one that had his hand on my shoulder, in overalls.
- And the third, where did you see him? A The third one stood alongside of me, as I was lying down, efter I came out of the wall ofter three unsuccessful attempts to open the safe, after they ealled the eachier.

- whather he had an opportunity to see and get a good look at these bandits? A I don't know what all he saw.
- when they got outside you were mostly occupied with this man Doyle? A his was occupied with me, I was watching that gun he had alongside my ear pretty close, or in that neighborhood.
- well you didn't pay attention to the others? A I did not.
- And do you know where they went ? A No, for the reason the other three bendits went down the sidewalk towards Franklin Street, because they were meet for me, their disappearence depended upon what was going to happen next.
- this gun, you say the middle?
- A the first one, sd Bentz?

(

- G Yes. A I would say he would take me through the middle just as slick as a whistle.
- Then Doyle had a gun and was pointing it at your head?
- a Doyle had me on the shoulder and on my side; I made a good effective shield for him, coming out the back door, when we came out of the back door he showed me through. He saw kink, and I presume he saw him, it didn't take him but a second to bring his gun up past my ear.
- diseppeared down Franklin? A The three got out toward ??

 Franklin Street beyond the bushes, then there was an opportunity to take care of Doyle.
- Have you identified at any time the picture of this man ad Bentz? A I did.
- And Doyle of course you sew. Did you see the other employees of the bank lying on the floor? A Yes, I lay between

Miss Correll and Er. Welling, and I happened to jump over Er. welling to get over to the Wault, and Miss Keechke was lying alongside the grill.

- . And you didn't see at that time these four bandits?
- A 1 did not. I had seen enough.

(

- C This man id Bentz, how large a man was he as compared to this respondent?
- A He was a pretty good sized fellow when he ease in with a pair of jumpers on, we didn't know until afterwards he had a steel west on, that is what Doyle had; you can't tell a man's size some times; of course when they came in a ther hunched over he looked like a rather good sized man. I think if he wilked straight he would be in the neighborhood of a couple hundred pounds.
- Liow did he comp re with the first respondent?
- A bot a whole of a lot of difference, there is some difference, they weren't exactly the same build, not while he was going through the operations he was engaged in during the hold-up.

- And you did see that there were more than just those two, but not so as to identify them or tell what they looked like, or to be sure they were bandits? A That is right.
- . But you thought at that time that there were more than just

those two you had encountered? A Tes, sir.
ER. FAR-Ohn: That is all.

HI BLACT ALWELTION BY UH. DETRUMS:

MR. DSTREERS: I don't know whether to offer them er not; it is pretty remote.

MR. PARSONS: I don't think they have enything to show a some bearing on this robbery.

MR. DiThik (23; Sell at least for the time being I won't offer them, until I can find out more about them. You may take the witness.

CROSS SLAKIBATION BY MR. PARSONS!

- L Now Mr. Delitt, you are Chief of Police of the city of Grand Haven, are your A Yes, sir.
- 4 And you say this respondent told you that ad Bentz gave him these checks, these Mellon travelers' checks?
- A Yee, eir,
- Q And did he say what for, how he came to give them to him?
 What the reason west A why he claimed that id owed him some money.
 - these checks in payment of that? A Yes.
 - You are still looking for this man ad Bentz, one of the bandits in question, are you not? A Yes, sir.
 - thow did you happen to suspect the respondent here of being one of the robbers? Was it through these travelers! checks? A No, he was identified before any of these travelers' sheaks were returned.
 - 4. Bis pisture was identified by some of these witnesses who have testified, is that right? A Tes, sir,
 - And that was before snything about the travelers' checks some up?

- A That was before any of the travelers' shocks had been eached.
- Did they also identify the picture of \$d Bents at the same time, these same witnesses? A No. 1 think Mr. Bolt identified \$d Bents.
- the bandits after the robbery? A You mean at the robbery of the bank, the our that was taken at the bank?
- Q Well there were two care takenmere there not, in the got-away? A Tes.
- Q And have you interviewed the people whose cars were taken? A I interviewed one party whose our was taken.
- an effort to locate anybody that could identify any of the robbers, is that right? A Yes.
- And so far as you have been able to locate them, Mr. Welling, Mr. Fellegrom, and Miss Meschke, and Mr. Bugelski are the only people that identify this respondent, is that right?
- A Yes, sir, to my knowledge.

ER. DETHE IR3: What is that?

- A To my knowledge.

RR. D.FRWERS; I will say that if counsel issires, we can be we the witness go and get these. We would be glad to have them introduced.

17. 117.3083; well I don't think it is excessively important. They are general descriptions of the people, as to their height, weight, complexions and clothes they were wearing and so on, is that right?

- A Tes, sir.
- General descriptions of that kind are not of a great deal of value in identifying individuals of that general class are they? In other words, if you describe a man weighing two hundred pounds and six feet tall, light complexion, and at the time we ring a derby hat, that description might fit ten hundred men might it not? It isn't of very much value except as to specify the particular shape and features of the man, that is true, ien't it?
- A ho, I think the descriptions are very Valuable.
- well they can't describe featurest A Well, factal features may be hard to describe, but a man's height, and

color of his hair, and general complexion can be described vary easily.

KR. Parions: 4 think that is all, as placed activities by MR. paremers:

- and did you show them some pictures? A I did.
- C were they able to identify anybody? A They were not.
- 4 have you learned anything about that woman's condition or anything like that?
- A Tes, Er. Thompson told me-

THE COURT: Cojection will be nustained to what somebody told him.

t was she able to give you any description at all? A Mone.

The only thing that she saw was a gun about that long.

(indicating), and somebody got her by the arm and jerked her out of the ear.

MR. 1-MSUNG: 1 object to that as hearsey and ask it be stricken.

THE COURT: Objection sustained. It is stricken.

- was her husband able to give you any description?

- Q Did he make any statement to you concerning his brother

 id, in relation to this bank robbery here? A Yes, that

 id had got the checks, the Kellon Kational Bank thecks from

MR. D4FHM433: 1 think that is all.

MR. FARJONS: 1 think that is all.

MR. DITHMIRS: May it please the Court, the reople have endorsed on the information other witnesses, including the sheriff, Mr. Benjamin Rosenz, whose testimony will be

largely summittive, the same as Mr. Devitt's in substance,

I think. He is present in Court and san testify if counsel

for respondent wishes to call him. Then there is endersed
on the information the names of two other witnesses

concerning whose testimony we have made a stipulation for

the sale purpose of identifying these travelers' checks.

They are not present in Court; they are in littsburge.

MR. PARJONS; Matheson and McCoy?

MR. DIFFMIRS: No. Mr. McCoy is another witness whose testimony would have been to the same purpose and to the same effect, if we could obtain him, as Mr. Evans, but he is outside of the state and we are unable to obtain him; so that is the Peoples' case, and we rest.

THE COURT; All right, Mr. larsons, take the case. (Opening statement for the defense)

of the Jury: The defense in this ease will resolve itself simply into this, that it is the claim of the respondent that the respondent and the evidence will be introduced to establish that claim, that on that day in question he was, at the time of the robbery was being committed here, in the city of Chicago, at an apartment, which the witnesses will identify and testify to; that he was not in the city of Grand Haven but was in that place in the city of Chicago, and therefore could not have committed the robbery in question. I think that briefly, gentlemen, is the sum and substance of the defense, and to establish that defense the Respondent will produce witnesses who will testify here before you.

1 would like to c ll as the first witness, Er. Builey.

I would like to add to my opening statement one other thing, and that is that we will show not only that the respondent was in Chicago and therefore could not have committed the crime, but we expect to show by another witness who was present at the robbery and participated in it, that this respondent was not one of the ging, and had nothing to do with the robbery.

MR. LONNIE BAILEY, being first duly sworn by the Clerk, testified as follows:

MR. LAREONS: All right; that is all. Respondent

THE COURT: Anything further, Mr. Dethmers?

MR. MATHERERS: Tem, in reduttal we call Mr. Rosema.

(Here follows the reduttal testimony on behalf of the Leople)

REBUTTAL

badding Rodering being first duly sworn by the Deputy Clerk, testified as follows:

DIRECT LIMINATION BY MR. DETHERRS:

- and did you hear him testify that he had never seen this respondent Theodore Craig before yesterday?
- A Yes, sir.

A.

- G How do you remember when you had Mr. Sarl Doyle in custody in the county jail here, almost a year ago now?
- A Tos, sir.
- Q Or a year ago? A Yes, sir.
- at that the about this respondent Theodore Bentz?
- A 1 61d.
- and will you state to the jury what that was?

kR. iARSONS: Just a minute, I object to it; this isn't imposchment.

MR. DETHERRY It is for the sole purpose of imposchment.

MR. r. 150MB: IT isn't proper then.

THE COURT: You didn't call Mr. Doyle's attention to that yesterday, to that statement, or to that conversation.

MR. DEPHREEUS No. I didn't.

THE COURT: You didn't call Mr. Doyle's attention to that when he was on the stand yesterday, did you, to the conversation?

THE COURT: what is your objection to it?

ER. PERSONS: Well the witness Doyle wasn't asked

anything about it yesterday; he said he never saw this

man, that is a fact, but he wasn't asked about any conversation that he had with this witness, so this isn't proper rebuttal.

()

KR. DATUMERS: MY theory is that the witness in response to direct examination testified before this court he had never seen this respondent before. The purpose of this testimony is to show that by conversation, with this witness, or my purpose is by showing that conversation, to refute the statement of Mr. Doyle.

KR. FARSONS: Not proper impeachment. If he had asked Kr. Doyle if he had told this witness something, he might go into it.

THE COURT: Objection sustained to it.

ER. DETHERRY No further questions. The isople will rest your Honor.

ER. LARLONS: May it please the Court, I desire to request at this time that the Court instruct the jury as to the law relative to the right of the respondent not to testify in his own behalf, and the consideration or lock of consideration of that fact which the jury have a right to give; this instruction to be in such form as the Court feels it ought to be.

ER. DEFHECRE: and is it your request that that instruction be given at this time?

MR. 1ANGONS: No. in connection with the general instructions. I haven't submitted a formal request along that line.

(Arguments by counsel to the jury) (During arguments)

MR. FERGONS: I don't think there is any evidence

to the effect as to what Mr. bethmers is agruing end I want to object to that argument..

AR. Laffiking. The fact itself that he site here on trial is evidence of that.

THE COURT: Just a moment.

ER. FARSONS: I was that it be stricken out and the jury instructed to disregard it.

This COURT: I didn't get the argument prior to your objection. What was the nature of that organizate Mr.

What hat Market Well, your Homor, my argument
was this, that Mr. barsons raised the question that the
pictures which the witnesses had identified were not here
placed in evidence, and therefore there was some question
as to whether the pictures identified by the isoples'
witnesses were the pictures of this respondent. In answer
to that i stated that the significant fact remains that
after identification was made by pictures this respondent
was arrested, and such identification of the pictures
evidently led to the arrest of this Respondent.

ER. ARRONG: 1 object to that. There is no evidence of that fact.

fill COURT: Roll I think that is a legitimate argument. Tow may proceed.

(Arguments concluded)

CHARCE OF THE COURT

Centlemen, in this case the People claim that the
respices Savings Sank of Grand Haven, in this county, was
respond on the 16th of August, 1933; that is a matter
ordinarily that would have to be proven just like any
other part of the case. But so for as the rebbery is
concerned, a number of employees of the bank have
testified to it, and the respondent has brought here a witness
on the defense who has testified to it, and that
he took part in it, so the first question that the bank
was rebbed, we may say is both proven by the People and
admitted by the respondent. That is not a matter in
dispute. You have no objection to that statement, have
you, Er. Parsons?

ER: LARSONS: That is a correct statement, your Honor.

Thi CUUR: The respie further claim that on that dry four men entered the bank and took part in robbing the bank; and they claim that the respondent, kr. Theodore Craig or Theodore Bentz, as the name under which he is prosecuted here, who one of those four men. The People claim that this respondent was one of the four men that entered the bank and took part in robbing the bank on the lath day of august.

Now the respondent claims that he is not guilty;
he claims that he was not in the bank at that time or any other
time. He claims that on the day in question he was in
Chicogo and he claims that he has an aliti, that is, that he
was not there, but was in Chicago at the time the bank was
robbed, and has brought here witnesses to establish his claim
that he was not present.

For the law of this state provides that any person who with intent to commit the crime of largeny, that me no with intent to steal, shall throaten to kill, injure

or wound, or shall put in fear any person for the purpose of stealing from any building, bank, safe or other depository of money, bonds or other Valuables, or shall by intimidation, fear thre to compel or attempt to compel any person to disclose or surrender the means of opening any building, bank, safe, woult or any other depository of money, bonds or other valuables, or shall, whether he succeeds of fails in the perpetration of such largeny or felony, be guilty of a felony. So that law provides that if a person goes into a bank such as the institution here described, and by threats or putting anybody in fear in the bank, attempts to or does commit I receny in the bank, steal goods, the property of the bank, whether they succeed or not, if they just try it, then they are guilty of the crime that this respondent is accused of; whether they succeed or not.

.

Mar.

But in this case the recopie claim that the bank was actually robbed and the property was stolen, and they did succeed. How everybody that takes part in committing a crime, a felonly like this, that everybody who takes part in it is equally guilty. Every person concerned in the commission of an offense, whether he directly commits the act constituting the offense, or procures, counsels, side or abets in its commission, my hereafter be prosecuted, indicted and tried and on conviction punished as if he had directly committed the offense.

So under the taltimony in this case, if four men eleme into the bank, regardless of what part they took in it, if they were working together, four of them, then such one of those men are equally guilty of the crime here charged against the respondent.

The burden of proof in this case of course is

on the reciple, to prove that the respondent was there and took part in the robbing of this bank, and the burden of proof mound that the party having it, that is the reciple in this case, must prove their case. The reciple have made the accusation; the reciple must prove by evidence sufficient to remove a reasonable doubt, every essential element of the offense charged. The burden of so proving is on the People. The Respondent is not required to prove anything; he is not required to offer any testimony or any evidence.

Tou are instructed that the respondent in law
is presumed to be innecent and that it devolves, the burden
is upon the leagle to prove by evidence, to the entisfaction
of each of the jurore, beyond a reasonable doubt, that the
respondent committed the crime as charged in the information
and explained in these instructions, and if upon a view of
the whole case you have a reasonable doubt of the respondent's
guilt, you will give him the benefit thereof and acquit him.

But a reasonable doubt to authorize an acquittal on that ground must be a substantial doubt of the respondent's guilt, formed from a careful consideration of all the facts and directathed are proven in the case, and not a more possibility of the defendent's inaccense. The burden of proof is upon the legal in this case to show the guilt of the respondent, and all of the presumptions of the law, independent of the evidence, are in favor of his inaccense. The law presumes the respondent to be inaccent until he has been proven guilty beyond a reasonable doubt; and in this case the Court instructs you that if after you have considered all the evidence in the case you then have a reasonable doubt as to the guilt of the respondent, then the respondent is

entitled to the banefit of that doubt and you should acquit him. The burden of proof never shifts from the resple to the despondent, but it upon the resple throughout to establish every essential element of the offense.

How there are only two elements in this case; First, that the bank was robbed, which is admitted; and the second, that the Respondent was present and was one of the robbers. Now in this case the scople have offered here the testimony of three of the employees of the bank to the effect that they saw the respondent in the bank and that he was one of the robbers and that they positively identify him. They have also offered the testimony of a man working across the etroet in the Ecclellan Store; he testifies that he saw the respondent and the respondent is one of the men that took part in railing the bank. Mr. Dewitt, the Chief of Folice in this city has been colled to testify, and he testifies in substance that the respondent told him that the respondent's brother was in the bank, we one of the robbers, and that his brother was indebted to him and in order to pay him off, turned over to him some minoteen hundred or two thous no dollars in cash of this bank. Mr. Svans, from Hammond, Indiana, testifies he cashed one of the chacks in the store where he was employed in Hammond where he claims the respondent bought a hat.

Now the respondent here has offered the testimony of some six witnesses. He has offered the testimony of Er. Bailey, Er. Shugan, Er. knuth, to the effect that he was in Chicago at a cortain apartment on this day in question and was not here at all. Now it appears that these witnesses testified positively that he was there in Chicago, and they claim that before testifying that they talked or called up, one of them did, Ers. Rhoise or Rohrer, who has charge of the apartment.

of course, if they rely upon what she told them that is hearsay and should not be considered by you, because krs. Rhodes would be the only person who could testify as to what her records show; but of course, if they remember the matter distinctly and remember it independent of their discussion with her, if you find that they do have such memory, then of course their testimony may be considered by you, and if you find that their testimony as to the date rests entirely upon the information that they got from krs. Rhodes, then I would say to you that their testimony is of no value and should not be considered by you.

724

•

Now Er. Doyle, another witness, as you understand is imprisoned in the State arison in Jackson, one of the men admittedly who had port; took part in the robbing of this bank; he testifies here that this respondent wee not one of those that took part in the robbery. He refuses to give you the names of any of those that did take part in the robbery, and it would appear to me that his testimony is not entitled to great weight. However, his testimony is a matter for you to consider. You are to pass upon it; you are to give it such weight as you think it is entitledto, and regardless of what I think about it, doesn't have anything to do with it, you are the sole juages of what weight his testimony is to receive.

The testimony of Er. Dekoster of course has no bearing, as I see it, on the matter at all. He was in the bank, was acquainted with the people of the bank, and one day when he was in there, he was there to show in some way that he had a resemblance to one of the robbers, but that in no way connects this situation with this respondent.

Now besides the testimony of these witnesses, Wrs. Craim has baken the stand; she testifies that although she was not married to the respondent she lived in the same apartment with him at that time in the city of Chicago, that she was married to him later in Movember of that year, but in the month of August she was living with him and they were going to the Fair, they had come there from British Columbia, and she says she remembers they were living there on the leth of August. Now, gentlemen, those are the witnesses that testified on behalf of the respondent. Tou are to weight their testimony and consider what weight you think it is entitled to receive. You have these facts here that they testified to. Do they remember those things? Independent memory? If they do, are they telling the truth about it? These are matters for you to consider.

a de

Another matter that I am requested to charge you concerning is the fact that the respondent did not take the witness stand. I think perhaps it is unnecessary to say enything about that. I have told you that the People must establish the case and all of the elements of the case beyond a reasonable doubt, and that the respondent doesn't bive to prove enthing. A Men accused of crime comes into Court clothed with the prosumption of innocense; he doesn't have to grove a thing. He can testify, he has a right to take the witness stand and testify in his own behalf; he has a right not to take the witness stend and not to testify, and the jury have no right to consider why he did not take the stand. It is a matter that you are not to consider at all. You are to decide whether the reople, from the evidence, the evidence offered in this case, have est blished the guilt of the respondent beyond a reseasable doubt, and you are not to take into consideration the fact that the respondent did not take the stand.

1

ho informace can be relied or considered against him on that account; so I say to you, obey the law. Do not think about it, do not talk about it, why are Graig didn't take the witness stand. It isn't a matter for you to consider. The law forbids you to consider it; so you and I are sworn here to give this man an absolutely fair and impartial trial. without four or favor, from any source. Box let us do ; that; and under the law, the fact that he ham't taken the witness stand is not a matter to be considered by you at all. He inference may be drawn from his failure to take the stand; it is not a matter for you to consider at all or to woigh at all against him. It is a matter not to be considered in any ships, manner or form. The respondent is autitled to the independent judgment of each jurar, se have twelve jurges. The Prople must entirty each one of you titud at the bac, ser ent le tiuch eldanceser a bacyel aem eviewt or else the respondent is entitled to a verdict of acquittal. If any of you have a resenuals doubt of the respondent's guilt it is the duty of that jurar to wate not guilty.

the respondent's guilt and the other one joints to his innocesse, and if you have a re-somable doubt of which is true, then it is your duty to adopt that theory consistent with the respondent's innocesse. You are to decide the case here on the testimony produced here in open court and the instructions I have given you. A man would never have a fair trial if he was to be tried upon rumors on the street or the statements in the newspapers, however accurate they may be at times. The testimony or statements made in newspapers are not evidence. Here in the court room every witness has to appear and testify, and his testimony is sifted by

the examination of the attorneys and the cross examination of the other attorneys, and you are not to consider any testimony nor any facts nor anything you have heard or seen outside of what appoirs right here in the court foom. That is the right of the man on trial, and you are to accord that man, every man accused of crime, that right. So don't pay any attention to what has been said or written or that you have heard outside of the court room.

Also you are not to pay any attention to, nor consider whay may be the result of your verdict. You have nothing to do at all with the question of punishment. You have nothing to do with that. You are to determine whether the respondent is guilty. If he is guilty of the crime here charged against him and you so find from the evidence, then the question of what must be done about it and what punishment he must rucelyo, if any, is left entirely to the Judge. That is not one of your burdens. That is the load that he must carry and you connot assist him in it. So you simply and determine the question of whether he is guilty or not guilty. On the other hend, you are not to consider how people around the community will feel toward you if you should find him not guilty. You go into the jury room and study the question of whether he is guilty or not, and if you find from the evidence and beyond a reseasable doubt that the respondent took partand assisted in the rothing of this bank in question at the time and place here in question, then your verdict will be guilty; in accordance with the facts as you find them to be; and on the other hand, if you find in this case that the reople have failed to establish the respondent's guilt beyond a reasonable doubt, beyond all reasonable doubt, your verdict will be not guilty.

Fow an officer will be sworn and then you will go with the officer to dinner; your dinner will be paid for by the county, and you will stoy under the control of the officer until you have decided this case and brought in your verdict. The officer may be sworn.

(The officer was thereupon express the o'clock noon)

Just a word. The respondent will not need to be brought back here until the jury are ready to announce their verdict. That is why I had the officer sworm before dinner.

(The jury goes to dinner and thereafter return to the jury room)

(1:45 ±. N.)

THE COURT: I understood, gentlemen, there was some question you wanted to mak. That was it?

THE FOREMEN: The date of issue of these Mellon Mational Bank certificates is August 30, 1933. We couldn't understand why that should be August 30, 1933, when they were stolen august 18, 1933. We would like to have that explained.

THI COURT: Well probably there is no horm in my explaining that to you. It is admitted hore on the record by represent of the attorneys that those are the checks that work stolen, you see. That is part of the record here. Now those were checks of the Kellon Kational Bank, were they?

THE FURDIANT Yes.

THE COURT: Of source, I might just explain this much about a travelers wheek. You go to the bank and you buy the check, you buy those checks if you are soing traveling and you sign your name at the top of the check in the presence of the banker where you buy them, and then any time that you

want to each one of those checks you go-- you take the shock down when you went to e sh it, you take it and fill in the name of the man th t you -- fill in the name of the man you went to pay it to and then you sign your name at the bottom in the presence of the man that you are issuing the check to. and he looks to see if the name at the top corresponds with the signature you have given at the bottom. Now so much for a travelers' check in general. Of course, it is elaimed here by the reaple when those chacks were stalen that they were all blank, the date was blank and everything was blank. They were just travelers' checks. They are not supposed to go out of the bank until the banker that you buy them of sees you write your name on the top. You write your name in his presence, and you pay your money for the checks when you got them. Mos you take, when you want to pass them of course you must write the name on the bottom, and the man to whom you give the check is assumed than to see if the signature is the same as the one on top. Supposing they were stolen -- I am not saying they were -- suppose they were stolen on the lith of august. Of course they wouldn't date that check until they wented to pass it. Is that the idea of what you winted?

1

The Forestant: Judge, your Honor, I don't think you understand quite what we say. These checks are all marked, dated as august 30, 1933. All these kellon checks are marked august 30, 1933, and they were cashed at different times. We can't understand why they should be marked a date of issue August 50, 1933, before the date they were stolen.

THI COURT: It is agreed here on the record they were stolen august 18.

THE FOREMAN: Yes.

THE COURT: They are all dated August 30.
THE FOREX.E: The date of lange.

THE COURT: Yes, well maybe I can make that a little plainer. Of course, these checks never were issued at all, you understand that?

THE FORMER: I understand.

THE COURT: They never were issued at all by this bank. They never were issued at all by this bank. They were had possession of these checks filled the whole thing out, he filled the date out and he could put ony date in there he wanted to.

THE FORMAN: Judge, I would just like to show these to you, probably that would be plainer to you.

THE COURT: I think I know what it is, all right. (Foreman hands exhitits to court)

THE COURT: Is that typewritten on it? Soll. 1 want to make a little further statement about that. How you understand, gentlemen, there is no evidence here that this respondent, Er. Craig, passed any of these checks except that one check that Lr. Lyons said he passed, you understand that. There is no evidence hare that Er. Craig had possession of any of these checks except that one. These chacks were offered in evidence for the sole jurpose of showing the property, some of the property that was stolen from the bank. These checks were stolen from the bank, that is in evidence here, but that doesn't prove or doesn't show that this respondent stole them. It doesn't show that he dated and passed them. But it only is to show that property stolen from the benk, this is property of that benk. Now I am going to reopen this case for the purpose of letting -- 1 don't consider it very material, but inamuch as the question is asked, I think I was mist ken when I stated a while ago

that the man that passes the check puts in the date, but that ien't so I think. Thenever the check is bought in the bank, travilors' checks, and the man that buys them writes his name at the top, I think on that day the banker puts in the date, and they put in the same date on all of them. At any rate, you may call Mr. Bolt to the stand, Mr. Dethmers,

ER. DETHERES: Will you be sworn, Er. Bolt?
ER. PARSONS: He has been sworn.

ER. FREDERICE C. BOLT, recalled, testified as follows:
RI DIRECT SECRETION BY MR. DEFENCES:

- copy of a tellow Estimal Bank travelers' check, bearing number 1751292, payable to Rothschild and Hirsch, and this photostatic copy is one of a bundle that was recrived into evidence to reclice 'Exhibits 4 or 5, if you will check that up, and I show you or indicate to you that portion of this photostatic copy of such check which roads: 'Este of issue, laguest 30, 1953." I sak you this: at the time you receive such blank travelors' checks and received this particular blank travelors' check of which this is a photostatic copy, is such date of issue filled in when you receive such blank checker
- A Thoro is never any dute on it.
- business by the bink to some purchaser of trivalers' checks, when is that date of issue filled in?
- A There is a difference in proctice. Some put it in at the time they are solu, and others do not, leaving it for the maker to fill it in when he eashes it.

- 4 That has been the prectice of your bank?
- A would say uniformly do not date them. However, cortain tellers might and certain others might not.
- were in the pessession of the recopies savings Bank of Grand Haven on the 18th of August, 1933, that were stolen from the bank on that date by bank robbers, were the dates of issue or was the date of issue filled in an any of those blank travelers' checks?
- a bot on any of them.
- and so if this is, as agreed on the record, a photostatic copy of a travelers' check stolen from the keeples Savings. Bank on the leth day of August, then this date of issue as it appears on this check, August 30, 1933, was filled in at some tips after the time of the robberg?
- A Thut is correct.
- And that august 30, 1933, as it appears here, is not part of the printed form? A No, it is not.

MR. DOTHERSES: That is all.

MR. radold: No cross examination.

THE COLAT: Er. Dothmars, there is one other check there that the jurer shows me, with no date on it at all; it has evidently been cashed, but isn't dated. I think that is a different kind, the american.

JUNOR: American Apress.

(By Mr. Dethmers, resuming) I show you here an original american Axpress Travelers' check, bearing number M-9954756, which bears no dite whatsoever. I ask you that sime question relative to these travelers' checks. Is it usual to fill in that date at the time the bank sells those checks?

1

- isual to leave the banker or teller do it himself. That shows the organism with which those things are handled. They are taken ordinarily as money; a ten dollar sheek peases as a ten dollar bill; the mein thing being that the signature on the lower left hand corner empires with the upper left hand corner.
 - However, it is true that that date on those travelers' chacks never appears on them before at least the time of ouler A Mever.

MR. DECHRERS: Does that elser up the question? (No response)

MR. FARICES: No cross examination.

THE COULT: Now is there any other question, gentlemen? (No response) All right. (Jury retire to the Jury room.

(3:45 t. K. Jury report)

FOLSKAN: The verdict is "Guilty."

KA. DATECAL: May it please the Court, in this case in view of the verdict of the jury, the evidence as it developed before the jury in the trial of this case, the fact this case has already extended for some time and that the prisoner has been in the custody of the local officers for so great a length of time, I believe it would be wise that the sintence of the court be imposed upon the respondent. I so move the sentence be imposed upon the respondent at this time.

THE COURT: Any objection, Mr. itersons?

MR. iteration: No objection that I know of. I haven't any in behalf of the respondent.

TES COURT: Do you understand that, Mr. Bentz?

MR. BEFFZ: Your Honor, I have an objection.

THE COURT: Shat is your objection?

kR. RETA: I would like to talk to you first.

THE COURT: Well of course ordinarily I have tried to have a conversation with a man charged with crime, but here we have had a trial in open court. You and the sheriff together may step in, however, in the office. I would be glad to talk with you.

(Respondent and Court and officer step out)

1

.

THE COURT: You may stend up hers with the Sheriff.

Anything you want to say on the record, Mr. Craig, why
the santance of the Court should not be pronounced in
your case?

MR. BENTZ: what I have got to may is that I am injocant of this offende, and it will be on your conscience, boys, all your lives. I never robbed this bank, and it will be proven sooner or later. That is all I have to may.

to the jury, you had an opportunity to testify in this case; you didn't have to, and the jury didn't have any right to use any presumption og inst you because you didn't, and they probably didn't, but you saw fit to trust your case without denying that you were here. Now the law provides certain things for a man's protection. One is that the question of his guilt or innocense must be determined by 12 men, all men must agree upon your guilt or else here to twelve men. Your witnesses have all testified.

The witnesses for the people have testified.

l believe you had a feir trial by a jury of fair and honorable men. The testimony has convinced them and it has convinced me of your guilt beyond any doubt whatever. If I had a doubt of your guilt I would set the verdist maids and tell the jury I didn't believe you were guilty, and would set it eside, but I haven't any doubt of your guilt, and now as to what I should say to you I shall say very little. I do not believe that I ought to take advent se of you. You cannot talk back. You have nothing to say here, and I shall not take adventage of you. I believe in being a good sport on these matters. You boys with guns that so out and hold people up, you hadn't ought to sob when you get saught and get convicted, you shouldn't abb, you shouldn't whine like a child, you should take your medicine like men. That is my view point.

ER. BANTA: Judge, I never rebed this bank.

THE COURT: That is what you say, briefly,
but you haven't sween to it, and besides all that, I think we
are justified in helding you did. The jury believe you did.

Four people here looked you in the eye and tell you they saw
you there without any doubt. Anyway, the sentence of this
Court is that you be imprised in the branch of the Lichigan
State arisen at Marquette during the remainder of your life.
That is all.

MR. BATZ: Judge, couldn't you sont me to Jackson?
THI COURT: I am not going to do that.

duty fairly, and justice in his case. You stayed out a long time, that shows you have given earnest consideration to the

testimony in this case. The testimony seemed to me to
be very cle r and convincing, but you went over every phase
of it and considered every opportunity that there might
be a question of doubt, and you did the right thing. I
do not think you need worry a minute about this case.
After the testimony was in, from the matters that were
presented to me as to the history of this man, I don't think
you need to worry at all as to the possibility of his
being not guilty in this case.

Office Memorandum UNITED STATES GOVERNMEN KCWILA MR. ROSEN K. C. WEST Time of Call: 11:50 A TED CRAIM BENTZ Marquett Penitentiary #46144 BANK ROFSERY AND THE STATE OF THE This is for record purposes only. In comjection with the letter addressed by the subject to the Director on October 1, 1944, in accordance with your instructions, I phoned Assistant SAC Olden at Albany to determine whether Ted Bentz testified It Burlington, Verment during June of 1940 in connection with the prosecution of Clyde Hamilton Nimerick. While Bureau files showed Eddie Bentz testified at this trial, apparently for the defense, there was no indication Ted Bents did testify although a review of the files indicates he would probably have been in a position to testify to the friendship of Nimerick with Eddie Bents. ASAC Olsen said he would check into the matter immediately and call me back. At 12:10 P. M., ASAC Olsen phoned to advise he had talked with Agents who handled the case and also checked the Albany files and that Ted Bents was brought to Burlington, Vermont, on a writ of habeas corpus in connection with Nimerick's trial. Ted Bentz identified Nimerick as an individual he had seen in Portland, Maine, with Eddie Bents shortly before the pertinent robbery. Ted further told the Court how he had been in business and that Eddie Bents had asked him if he, Ted, would like to help knock off a bank . A said Olsen stated it was the consensus of opinion among the Agents who handled the case that this testimony, while pertinent and of value, was not indispensable,

DAY.

Memorandum UNITED STATES GOVERNMENT THE DIRECTOR October 12. 194 FROM subject: TED CRAIG BENTZ Marquette Penitentiary \$46144 BANK ROBBERY Reference is made to the attached letter addressed to you by captioned subject dated October 1, 1944, in which he requests you to write the Chairman of the Michigan Parole Board in his behalf. ENTZ' CLAINS It is noted Bentz' letter makes three general claims: A CONTRACTOR OF THE REAL PROPERTY. that he furnished information to Dureau Agents at Portland, Mains, which was directly responsible for our location of John Dillinger. that he voluntarily furnished important testimony in the "Limerick" case at Burlington, Vermont, during June, 1940. (3), that Bureau records prove he is innocent of the Grand Haven. Michigan bank robbery for which he was prosecuted in State Court and is presently serving time, since our records show he was in Chicago, Illinois, on August 18, 1933, when the robbery was committed. to bentz' clains As you know, Dillinger was located solely on the basis of information furnished our Chicago Office by-Mrs. Anna Sage. commonly referred to as "the woman in red." (62-29777-3233) While Bentz did furnish considerable information to former SAC C. D. McKean and other Agents of the Boston Office when questioned at Portland, Maine, which information be claimed to have obtained from his brother, the well-known bank robber, Eddie Bentz, (62-29777-2845), this played no actual part in Dillinger's apprehension. As a matter of fact, investigation proved at least some of the data furnished by Bentz was apparent; untrue. Tou will recall Agents spent considerable time looking for a "Buman Island", which Bentz described as being located in a body of water near Hammond, Indiana, which island is apparently non-existent. (62-29777-3104) No "Limerick" case was handled by the Bureau at Burlington, Vermont, during June, 1940. Tom/Limerick was killed at Alcatra Penitentiary on May 23, 1938, and Earl Limerick, his brother, 59 OCT 28 19

was sentenced to serve ten years in Nebraska Penitentiary during 1936 on State bank robbery charges. There is no indication either of the Limerick brothers was ever arrested in Vermont.

It appears Bentz is referring to testimony which he furnished at Burlington, Vermont during June of 1940 in connection with the prosecution of Clyde Hamilton Nimerick. The Albany Office has advised Ted Bentz was brought to Vermont to testify in this case on a writ of habeas corpus and that he identified Rimerick as an individual he had seen in Portland, Kains, with Eddie Bents shortly before the pertinent robbery. Ted further told how he had been in business and that Eddie Bents had asked him if he, Ted, would like to help knock off a bank. The Albany Office states this testimony was pertinent and of value but probably not indispensable.

(3) Our files fail to raflect Bentz! whereabouts on August 18, 1933, or to give any proof of his innocence of the State crime for which he is serving time. He has however, been trying to find out what our files show regarding his whereabouts on this date and get us to assist him in preparing an alibi since at least September 5, 1937, when he addressed a letter to former SAC [ckean. (91-1-900) At that time Bentz was advised by a letter over your signature that the Bureau is prohibited by Departmental regulation from furnishing any official information except at the specific request of the prosecutor interested in the case. The Alban, Office advises Bentz is very prolific in his correspondence and writes to everyone who might be able to help him. He continually corresponds and sends such things as Valentines to the U.S. Attorney in Vermont.

With reference to the robbery of the Peoples Savings Bank in Grand Haven, ilchigan, on August 18, 1933, for which Bentz is serving time, it appears that certain traveler's checks were found in his possession when he was arrested at Portland, Maine, by Bureau Agents which were traced directly to this robbery. The loot of the robbery was approximately \$23,000 in cash, \$6,300 in traveler's checks and \$1,000 worth of bonds. Bentz was turned over to local authorities after he established an alibi in connection with the robbery of the Caledonia National Bank, Danville, Vermont, (6/4/34), in connection with which Nimerick was sentenced to years.

RECOLLENDED ACTION

There is attached for your approval a letter instructing Grand Rapids to have an experienced Agent interview Bentz and straighten him out. Bentz will also be told that he knows information from our records can only be furnished to duly constituted law enforcement agencies.

Re: Ted Bents, #46144, Sent 9/25/34 Orize: Robbery Armed, Terms Mife.

Dear Mr. Hoovers

On two different occansions I helped out you and your department.

So now how about giving me a little help?

How did I help you? Tou recall when I was in custody of your agents in Portland, Maine, during July, 1934, they questioned me at length concerning certain people and things. They asked me about a certain party whom you wanted to catch despite anything. I did not even know the man, nor where he was. But I did know other facts which would, by logical thinking, bring your men close to where he could be found. I was talking to Chief McKean of the Boston territory of the F.B.I. and Mr. Keefs and Mr. Williams, agents. I told them it was my theory that the man they wanted could be found at a certain place in a certain district in Chicago. Having reached this conclusion, I explained why I thought he would be there.

Your men flew to Chicago, or telephoned; at any rate, the very next day you had your man. The woman in red took the rap for fingering him. But the truth of the matter is, your own agents located him merely by following my suggestions which was based upon my own theory only. I never met D in my life. By right I should have gotten a cut of that reward. However, I had no desire to become mentioned in connection therewith so said nothing. Honey isn't everything. I have no desire for it myself. It is merely useful to buy what one needs.

Well, anyway, the other occasion is when I voluntarily went to Burlington, Vermont, during June, 1940, to testify for the Government in the Limerick case. My testimony was important. In other words, I have cooperated with the Gov't., showed my desire to do my duty as a citisen. Bo I don't think it is asking too much to ask you to intercede for me with the Michigan Parole Board.

I have ten calendar years served, am eligible now for a parole under the new ten-year lifer law. You know I am innocent of the orime for which I stand convicted. Your records show it, show that I was in Chicago on Fiday August 18, 1933, when the Grand Haven, Mich., job was pulled by Edward Sents,

Earl Doyle, Lester Cillis, alias Baby Race Welson, Towny Carroll, alias Too Murray, and Charles Wisher, not mentioning the driver of the "get away" car whom Ed says was a fellow named "Preddie". I have two confessions, one from Ed and one from Earl Doyle, exonerating me. I have a good job offered me out in Neveda in the Mountains, and an executive police officer for an employer. So there is no reason why I can't make good. How about writing to the Michigan Parole Roard, Mr. A. Bose Pascoe, Chairman, on my behalf? I think your office owes we that much. I shall be very grateful for it.

Respectfully yours,

Ted Bents, #46144

P.S. While your men were in Chicago they investigated the fact that I claimed I was in Chicago, Illinois, all day during the 18th day of August, 1933, a Friday. When they returned to Portland, or got the report back, the F.B.I. agents verified that fact. That was the day the bank was robbed in Grand Haven, for which srime I stand convicted. I produced planty of alibi evidence proving my innocence. I never robbed a bank or snyone else in my life.

Federal Bureau of Investigation, Department of Justice, Washington, D. C.

Gentlemen:

I represent Theodore Craig Bentz, No. 46144, who was convicted of bank robbery before the Circuit Court for the County of Ottawa in Michigan in 1934. He has since that time been in prison.

We understand that the Federal Bureau of Investigation files contain certain evidence showing that Mr. Bentz could not have been in Grand Haven at the time the bank was robbed in 1932.

We are, at this time, attempting to secure his release either before the parole board or by moving for a new trial in Ottawa Circuit Court. Would it be possible for your Bureau to forward to us any pertinent information you might have relative to this case, particularly in so far as it might show that Mr. Bentz was not in Grand Haven the day the bank was robbed.

Thank you for your courtesy and consideration in this matter.

Very truly yours,

GRC/mr

I am in receipt of your letter of February Zh, 1951, wherein you advise you understand that the files of the Federal Bureau of Investigation contain certain evidence showing that your client, Mr. Theodore Craig Bentz, could not have been in Grand Haven at the time the Grand Haven, Michigan, bank was rebbed in 1932.

As you undoubtedly know, the information contained in the files of the Federal Bureau of Investigation is confidential in nature and cannot be divulged, under a regulation of the Attorney General. For your further information, the robbery of the Peoples Savings Bank, Grand Haven, Michigan occurred on August 18, 1933, and the Pederal Bank Robbery Statute was not passed until May 18, 1934. Since this Bureau had no investigative jurisdiction prior to the passage of the Federal Bank Robbery Statute, no investigation of the Grand Haven, Michigan, robbery was conducted by the Federal Bureau of Investigation.

Sincerely yours,
