MEMORANDUM

Mr. Hoover called from New Yrk City and stated that on the first page of the Washington Evening Star there appeared an article, entitled "Shearer Names Nine Senators as Red". Mr. Hoover further stated that Shearer is the man who testified before the Senate Committee on Ammunition; that Shearer stated that the Department of Justice has a list of the Senators who are "Red"; that also the Department of Justice tried to frame him in 1929. Mr. Hoover further stated that the same story also appears in the Times. Mr. Hoover instructed Mr. Quinn to have Mr. Tamm read the story in both the Washington Evening Star and the Washington Times, and give out from our files a summary on Shearer; that if a summary is not already prepared, a complete summary should be prepared on Shearer; that Shearer was investigated at the time of the Disarmament Conference, and at that time quite a long report was made on Shearer

Mr. Hoover also instructed Mr. Quinn to have Mr. Tamm find out whether the guns from Oklahoma have arrived, the two guns in the Kennamer Case.

Mr. Tolson stated that the Washington Times is carrying a story under the International News, with the date line at Kansas City, entitled, "Air Patrol to War on Outlaws"; that the story tells about the police of three states organizing an airplane patrol to run down bank robbers and escaped convicts; that there is not a word in the story about the Bureau. Mr. Tolson instructed Mr. Quinn to contact Mr. Brantley and Mr. Nathan and ascertain if we are in the picture, if not, why not. Mr. Quinn advised Mr. Tolson that nothing has been received at the Bureau regarding the matter.

Mr. Tolson advised that Mr. Hoover and himself were staying at the Hotel New Yorker.

RECORDED & INDEXED

Mr. Tolson asked Mr. Quinn if the form letter regarding the booklet was signed. Mr. Quinn advised Mr. Tolson that the typists are working on it at the present time; that they are being dated Tuesday and Wednesday and the rest of the week; that some of them were sent to Mr. Rex Collier. Mr. Tolson stated that our lists should include the member of Congress.

Mr. Tolson will call tomorrow morning.

MEMORANDUM FOR THE DIRECTOR

RE: Conversation with
Mr. Tolson

During a telephonic conversation with Mr. Tolson, Mr. Tolson asked me concerning the outcome of the meeting last night. I stated that it turned out fine. Mr. Buchholz didn't arrive, however, I stated that a vote was taken for WMAL to broadcast the first game, and a letter was to be sent out by Mr. Buchholz to Walter Winchell today. Mr. Richmond advised that nothing has been decided as to the diamond.

I further advised Mr. Tolson that the letters which were being prepared in regard to the new pamphlet "Training of Personnel" would probably be finished today.

I also stated that I had on my desk about ten or twelve letters from Mr. Edwards of the Identification Unit relative to the work of the Laboratory, addressed to various Universities, and would like his, Mr. Tolson's, advice concerning sending them out. Mr. Tolson stated that it would be all right to send them out.

I also advised Mr. Tolson that the Appropriations Bill was sent to the Vice President yesterday afternoon, and would probably reach the White House this morning.

Mr. Tolson asked me to see that Miss Canty was assigned to some other office just as soon as she finished the letters she was working on. I stated that she had been helping Mr. Backus.

Respectfully,

T. D. QUINN.

MEMORANDUM

Kindly be informed that Mr. Tolson telephoned from New York and stated that he desired Mr. Schilder to prepare a letter referring to his conversation with Mr. Courtney Ryley Cooper relative to the Miami situation, setting out in detail in the letter information concerning fingerprints received from that city, identifications made, etc.

Also desired letter be addressed to Mr. Cooper listing the editors of police organization magazines, as well as the names of officers of peace officers associations.

Desired letter to Mr. Cooper giving the complete criminal record of Keating and Holden, with particular reference as to whether there were any outstanding charges pending against these individuals for which they might be prosecuted after they have served their present sentence and if so the full details with regard to same should be given in the letter.

He stated that Mr. Hoover had spoken to Mr. Tamm relative to a memorandum regarding fugitive cases issued by the Bureau since the passage of the new fugitive law and wanted to know if this memorandum could not be expedited in order that it might be transmitted to Mr. Hoover as soon as possible.

Requested a check up be made through Mr. Glavin with regard to Special Agent Crowl; that is, whether he is available for transfer to headquarters at this time.

Mr. Tolson, also, mentioned the cleaning of the rifle range as well as the gun room. He suggested that I talk to Mr. Baughman about both of these matters. He further stated that the crime scene room should be thoroughly cleaned and that it should be fixed up in proper shape, suggesting that I talk with Mr. Coffey in this regard.

MEMORANDUM.

In talking with Mr. Tolson, who is in New York, by telephone, Mr. Clegg stated it had occurred to him, as a matter of convenience, we might make an arrangement as follows if agreeable:

Bill Smith is scheduled to speak before the schools in Ohio, and we can arrange for him to spend the balance of the week and all of next week there cleaning up Ohio and Kentucky, if it would be permissible for him to go to Columbus and make the talk on the Work and Functions instead of him, Mr. Clegg. Mr. Tolson inquired if Ohio and Kentucky on the schools were listed for Smith to handle, and Mr. Clegg replied that they were. Mr. Tolson stated he thought this arrangement would be all right, because he does not think that the Ohio meeting is of such great importance, and Mr. Clegg said that he did not either. Mr. Tolson stated that the Columbus affair on the 20th is merely a talk before the gathering. Mr. Clegg stated he has to go to West Virginia on Sunday and would like to be here for the closing days of these classes to talk with some of the men. Mr. Tolson said he thought this was a fine arrangement, and Mr. Clegg said he would tell Smith to go. Mr. Tolson suggested that Mr. Clegg call them on the phone and make sure they understand.

Mr. Tolson inquired with regard to Mr. Nathan's addresses, and Mr. Clegg said he had gone over the same and he and Mr. Quinn agree on about three minor suggestions. Mr. Tolson suggested that Mr. Clegg call Mr. Nathan in Chicago this morning and give him the suggestions, so that he can make the changes on the way out. Mr. Clegg said he would do this.

MEMORANDUM

MAR 23 1935

66-4760-7

The Director called from New York City this afternoon and talked to Mr. Quinn. Mr. Quinn stated that he was in receipt of a teletype message from Mr. Connelley, quote "Jodil reference conversation with Mr. McMahon with Mr. Tamm, have arrangements been made for appearance of Mrs. Cowley, Chicago coming week. Preparation for trial of Chase Case progressing satisfactorily" unquote. Mr. Quinn advised Mr. Hoover that Mr. Tamm has done nothing about having Mrs. Cowley in Chicago. Mr. Hoover stated that Mr. McMahon wants Mrs. Cowley and Mrs. Hollis on the front row dressed in mourning and weep profusely at a signal from him. Mr. Hoover stated that the Bureau has not approached Mrs. Cowley on the subject and that he feels reluctant in doing such a thing. Mr. Hoover instructed Mr. Quinn to advise Mr. Connelley to inform Mr. McMahon that Mrs. Cowley is not in Washington, but some where in the far west; that if Mr. McMahon wants to get in touch with Mrs. Cowley, he will have to do it himself; that we will have to do this without making Mr. McMahon angry. Mr. Hoover stated that he thinks Mrs. Cowley is in Salt Lake City with her father, and that he does not want to call her or have our Salt Lake City Office contact Mrs. Cowley. Mr. Quinn advised Mr. Hoover that he would get in touch with Mr. Connelley at once.

Mr. Quinn advised Mr. Hoover that the Bureau was in receipt of a telegram from the Chief of Detectives, Detroit, Michigan, quote "Preparing film on Merton Ward Goodrich for national distribution stop Request permission to state that it be shown under auspices of National Crime Commission. Rush answer" unquote. Mr. Quinn advised Mr. Hoover that this individual is wanted for murder; that there is a reward totalling three thousand dollars in the case. Mr. Quinn stated that he had prepared a telegram with Mr. Tolson's signature as follows: "In the absence of Mr. Hoover desire to inform you that your telegram even date relative Merton Ward Goodrich Case referred to Mr. Justin Miller, Chairman, Attorney General's Advisory Committee on Crime for appropriate action". Mr. Hoover advised Mr. Quinn to sign the wire himself as Acting Director, and also suggested the following phraseology for a telegram; "In the absence of Mr. Hoover, regret that no action can be taken upon request. Doubt, however, if it would be possible to have such action taken or no similar precedent has been set etc. (or something along that line.) Mr. Hoover asked if Goodrich was the subject of a rape case in Detroit, and Mr. Quinn stated that he was. Mr. Hoover also asked if we had any Federal charge against him and also whether the crime on which he was being held was before or after the Fugitive Act. Mr. Quinn stated that he was not sure, and would check up and find out. Mr. Hoover stated that if Goodrich is violating any Federal statute, he, Mr. Quinn might advise the Chief of Detectives that we can not have it done under the name of the Crime Commission, but it will be proper for him to state that this man is wanted

by the local authorities and the Federal Bureau of Investigation. Mr. Hoover stated that he did not want the Crime Committee brought into the matter; that he would like to keep them out of the picture as much as possible

Mr. Quinn advised the Director that the Laboratory report on the Kennamer case would be ready Tuesday. Mr. Hoover inquired if Mr. Appel was back yet and he was advised that he was not; whereupon he stated that he would like to know the contents of the report as soon as it was prepared as he might wish to transmit a copy of it to the State Bureau of Investigation, as the original request for the ballistics had come from the State Bureau, who in turn had advised Gilman of the result contained in the Bureau telegram, which was misunderstood by Gilman. Mr. Hoover stated that he had in mind having the Oklahoma City office advise the State Bureau of the laboratory findings, and let the State Bureau deal with Gilman, and if any publicity came out it would emanate from there. Mr. Hoover asked Mr. Quinn to check over the facts in this matter to ascertain definitely if the original request had come from the State Bureau.

With reference to the Sherrer case, Mr. Quinn advised Mr. Hoover that the memorandum on this case was all prepared. Mr. Hoover inquired if any reference had been found to the letter which Sherrer claims put him on the spot by the Bureau, and Mr. Quinn advised him that no reference had been found to this letter. Mr. Hoover stated that the papers were carrying the story containing a statement from Sherrer in which he claims that a letter was introduced by the Department of Justice, written by some man who claimed that Sherrer had threatened this man's life, and he, Mr. Hoover, would like to have Mr. Quinn check on this.

With reference to Mr. Stanley's call that an Agent confer with Mr. Garnett Monday morning, Mr. Hoover instructed Mr. Quinn to have an Agent see Mr. Garnett and to be sure that we do not get any of the gambling cases, but that if it had anything to do with the Munitions Investigation, we would probably have to go into it. Mr. Quinn advised Mr. Hoover that Mr. Garnett preferably wanted Agent Loebel, whereupon Mr. Hoover stated that Mr. Garnett could not have Agent Loebel, and that we would send someone else. Mr. Hoover instructed Mr. Quinn to have Mr. Keith see Mr. Garnett Monday morning and find out just what he wants; that if the Senatorial Committee is certifying someone down to Mr. Garnett for perjury or if it is in connection with any grand jury investigation, we, will of course, have to go into it; that Mr. Keith should take it, and then assign an Agent to it; that the Agent should work under us and not under Mr. Garnett.

Mr. Hoover stated that he had been advised that Mr. Brantley is in Washington; that Mr. Brantley should get out right away; that he does not want any delay on the matter in the southwest. Mr. Hoover instructed Mr. Quinn to advise Mr. Tamm that Mr. Brantley should understand that this is to be done vigorously and independently with our men; that we do not want to have anything to do with this man, Hamer, on the other hand, it should not be spread among the subordinates that Mr. Brantley had orders

not to deal with Hamer; that the situation in the southwest is very delicate and he did not want to have any conflict with Hamer, but at the same time we don't want to be working with him; that we will take anything he has but we are not going to give anything we have; that this has to be done very diplomatically; that he does not want Mr. Brantley submerged or pushed down by Gus Jones or Frank Blake because both are inclined to get around and do something next year; that the United States Attorney has nothing to do with the case until we get it cleaned up; that it should be done like Mr. Connalley in Chicago, as a special assignment, directly out of Washington.

Mr. Hoover advised that he is in room 3011, Hotel New Yorker.

Mr. Quinn advised Mr. Tolson that he had two appointments on which he had prepared telegrams, E. Russell Davids, Special Agent, and Adam M. Jankowski. Mr. Tolson stated that if they have been approved, they should be sent out.

With reference to the Air Patrol in the southwest, Mr. Tolson inquired of Mr. Quinn the outcome of his conversation with Mr. Nathan. Mr. Quinn stated that he talked to Mr. Little in the absence of Mr. Brantley and Mr. Little advised him, Mr. Quinn, that he knew nothing about the Air Patrol; that Mr. Little stated that he would ascertain the facts and submit same to the Bureau by air mail; that Mr. Nathan stated there was some talk several weeks ago about putting on such a test at Wichita, but nothing ever became of it; that if there is such an organization, he knows nothing about it; that he, too will also ascertain the facts and advise the Bureau.

Mr. Hoover advised Mr. Quinn to call Mr. Stanley and tell him that he is in New York City at the Hotel New Yorker; that he, Mr. Hoover will probably be there for several days.

Mr. Hoover advised Mr. Quinn that he had been thinking over the Detroit case, and instructed Mr. Quinn to see if there is some basis for us to get in on the case; that if there is some basis, he wanted to be advised before a wire is sent to the Chief of Detectives in Detroit; that if the crime occurred subsequent to the Fugitive Act, it would be within our jurisdiction. Mr. Quinn stated that he was not sure about the date, but that he thought it happened before the Fugitive Act. Mr. Hoover stated that he thought that Mr. Quinn should check up on this case and see if there was not some basis for the Bureau to get in on it; that if there were, Mr. Quinn should telephone the Chief of Detectives and explain to him that there is no National Crime Commission; that there is an advisory committee to the Attorney General but which deals with purely administrative matters; that we are, however, making the subject in this case a fugitive from justice under the Federal law and that the Chief of Detectives could state in his announcement that the man is being sought by the Detroit authorities and by the Federal Bureau of Investigation and any information obtained should be reported directly to either of these agencies. Mr. Hoover stated that he thought that

3/16/35

the Bureau should get into the case if possible and get an indictment against the subject as a fugitive under the Federal Fugitive Act. Mr. Quinn stated that he would look into the matter further before a reply was sent to the telegram from the Chief of Detectives. Mr. Hoover suggested that Mr. Quinn inquire of Mr. Tamm regarding the Federal Angle of this case as it was Mr. Hoover's recollection that Mr. Tamm had looked the matter up some time ago when the papers were playing the case up and inquiring why the Federal government had not taken a hand in it. Mr. Quinn stated that if they found out that it did happen before the Fugitive Act, they would prepare a wire along the lines indicated by the Director; and if any further question arose he, Mr. Quinn, would call the Director on it.

Mr. Hoover stated that if Mr. Waldrop or anyone asked what he was doing in New York, Mr. Quinn should evade any direct answer and if he were asked if the Director were up there on the raid matters being staged by the Treasury Department, Mr. Quinn should reply that he had no comment to make.

Memorandum of telephone conversation
Mr Hoover and Mr. Brantley. 3/16/35.

Mr. Hoover instructed Mr. Brantley that he should endeavor to handle the matter very delicately and carefully; particularly with reference to Hamer, who will probably want to dominate the scene; that Hamer is very suspicious and critical, but thoroughly fearless and honest according to Gus Jones' observations. Mr. Hoover stated that after Hamer learns that Mr. Brantley is on the same job he will undoubtedly seek Mr. Brantley out; that Mr. Brantley's position should be that we will take anything Hamer offers to give us, but we will not give him anything; that he should be handled with diplomacy; that this assignment should be handled in the same manner that the Dillinger and Bremer assignments in Chicago are being handled, as a special assignment out of Washington; further that Mr. Hoover desired the job to be done quietly and effectively without regard to local authorities, unless we need their assistance, but that Mr. Hoover desired to do the job without their aid if possible, due to the jealousy and dishonesty of the local agencies. Mr. Hoover also stated that he wanted the job done in a vigorous manner; that he did not want any delayed action; that Mr. Brantley had charge of the case and was not to take orders from any of the SACs in whose districts he might work; and that he should call on them any time for assistance when it was needed; that he should wire or phone in each day any of the developments.

Mr. Brantley stated that he thought they would be stationed at Dallas for the moment; that he would like to have Agent Frank Smith included in the squad. Mr. Hoover stated that it would be alright to include Agent Smith

3/16/35

in the squad, although he believed that Agent Smith was somewhat disposed to be of the typical Southwest type, fearless, honest and with much ability along the line of current cases, but somewhat slow in running down cases needing quick administrative action and ability; that Mr. Brantley should report to Washington any observations he made in respect to the men selected for the squad. Mr. Hoover further stated that he did not wish to have any of his comments and observations which he had spoken, repeated to any subordinates, as was the tendency on the part of some of the executive staff, advising him of the situation at Chicago where SAC Ladd had indiscreetly spoken of his part in the questioning of "Doc" Barker; that Mr. Brantley should not advise anyone of the conversations which he had with Washington, and it was not necessary for the agents to know what each other was doing when they were working on matters of a confidential character; that Mr. Hoover desired each agent to keep very close mouthed about the whole assignment and that they should not be allowed to talk over the case with agents in the Dallas and San Antonio office; that it was Mr. Brantley's job to contact the offices in those districts and advise them of any developments which he saw proper to advise; that Hamer should be watched very closely and that Mr. Brantley should see that the Bureau was given fair credit for its part in the case; that however, care should be exercised to prevent any open feud between Hamer and the Bureau, as he would be inclined to issue a statement stating that he was unable to secure any cooperation from the Federal Government and the Department of Justice.

Mr. Hoover inquired why Mr. Brantley had not known of the formation of the "Flying Squadron". Mr. Brantley advised that he had not deemed it of sufficient importance to advise the Bureau, as in his opinion it was merely an effort of Stanley Rogers to get his name in the paper; that he only had one old plane in which he had installed a radio and that the plan, if at all carried out, was merely in a formulative stage. Mr. Hoover stated that it had been given considerable publicity and that he considered it important that the Bureau get in on the formulative stages of any such activity; that the newspapers had reported that the squadron had two planes in Oklahoma and one at Kansas City. Mr. Brantley stated that he had not heard of these latter planes; that the one owned by Stanley Rogers was the only one he knew about. Mr. Hoover stated that if we did not get in at the start of such things they would be taking away the credit from our men and focusing public attention upon themselves; that he, Mr. Hoover, believed that we should get all the credit due us in the public eye and should endeavor to keep ourselves there by active participation in such projects which are worthy of consideration. Mr. Hoover stated that he thought there might be possibilities in the plan for such a squadron in the pursuit of bank robbers, fugitives, etc., and although it was uncertain where we would be able to get the planes, nevertheless we should be in on the plan and he was concerned about the report that we did not know anything about it; that he understood Rogers was very friendly toward the Bureau, and he did not understand why he, Rogers, had not consulted Mr. Brantley before starting on the plan. Mr. Brantley stated that Rogers

Memorandum of telephone conversation
Mr. Hoover and Mr. Brantley

3/16/35.

was in fact very friendly toward the Bureau; that he had sent a letter last fall, according to Mr. Brantley's recollection, to the effect that he was contemplating a plane service for his office but there was nothing in the letter about including four states. Mr. Hoover instructed Mr. Brantley that Mr. Little should be advised to ascertain what the details of the plan were and what had been done in this regard so the Bureau will be fully advised and will know what is going on, regardless whether or not we take a part in the plan; that it might be well for Mr. Brantley to get Rogers on the telephone and find out what it is all about. Mr. Hoover advised that all the New York papers are carrying a story concerning the plan; that due to the publicity, the other states will probably try a similar plan, and if it were recognized that the Bureau was helping to develop the present plan, the other states would probably look to the Bureau for advice if they chose a similar plan, and it would not be set down as purely an activity of the local authorities

The Director called from New York City this afternoon and talked to Mr. Quinn. Mr. Quinn stated that he was in receipt of a teletype message from Mr. Cunnally, quote "Until reference conversation with Mr. Hollahan with Mr. Quinn, some arrangements have been made for appearance of Mrs. Gouley, Chicago coming week. Preparation for trial of Chase had progressed satisfactorily." unquote. Mr. Quinn advised Mr. Hoover that Mr. Quinn has done nothing about having Mrs. Gouley in Chicago. With reference to the Sherr case, Mr. Quinn advised Mr. Hoover that the memorandum on this case was all prepared. Mr. Hoover inquired if any reference had been found to the letter which Sherr claims put him on the spot by the Bureau, and Mr. Quinn advised him that no reference had been found to this letter. Mr. Hoover stated that the papers were carrying the story containing a state-out from Sherr in which he claimed that a letter was introduced by the Department of Justice, written by some man who claimed that Sherr had threatened this man's life, and he, Mr. Hoover, would like to have Mr. Quinn check on this.

With reference to Mr. Stanley's call that an Agent confer with Mr. Garnett Monday morning, Mr. Hoover instructed Mr. Quinn to have an Agent see Mr. Garnett and to be sure that we do not get any of the gambling cases, but that if it had anything to do with the Emotions Investigation, we would probably have to go into it. Mr. Quinn advised Mr. Hoover that Mr. Garnett preferably wanted Agent Lechl, whereupon Mr. Hoover stated that Mr. Garnett could not have Agent Lechl, and that we would send someone else. Mr. Hoover instructed Mr. Quinn to have Mr. Keith see Mr. Garnett Monday morning and find out just what he wants; that if the Senatorial Committee is certifying someone down to Mr. Garnett for perjury or if it is in connection with any grand jury investigation, we will of course, have to go into it; that Mr. Keith should take it, and then assign an Agent to it; that the Agent should work under us and not under Mr. Garnett.

Mr. Hoover stated that he had been advised that Mr. Brantley is in Washington; that Mr. Brantley should get out right away; that he does not want any delay on the matter in the southwest. Mr. Hoover instructed Mr. Quinn to advise Mr. Tamm that Mr. Brantley should understand that this is to be done vigorously and independently with our men; that we do not want to have anything to do with this man, Bremer, on the other hand, it should not be spread among the subordinates that Mr. Brantley had orders

not to deal with Bremer; that the situation in the southwest is very delicate and he did want to have any conflict with Bremer, but at the same time we don't want to be working with him; that we will take anything he has but we are not going to give anything we have; that this has to be done very diplomatically; that he does not want Mr. Brentley submerged or pushed down by Gus Jones or Frank Blake because both are inclined to get around and do something next year; that the United States Attorney has nothing to do with the case until we get it cleaned up; that it should be done like Mr. Connelley in Chicago, as a special assignment, directly out of Washington.

Mr. Hoover advised that he is in room 3011, Hotel New Yorker.

per [unclear]
Mr. Quinn advised Mr. Tolson that he had two appointments on which he had prepared telegrams, E. Russell Davis, Special Agent, and Allen E. Janowski. Mr. Tolson stated that if they have been approved, they should be sent out.

With reference to the Air Patrol in the southwest, Mr. Tolson inquired of Mr. Quinn the outcome of his conversation with Mr. Nathan. Mr. Quinn stated that he talked to Mr. Little in the absence of Mr. Brentley and Mr. Little advised him, Mr. Quinn, that he knew nothing about the Air Patrol; that Mr. Little stated that he would ascertain the facts and submit same to the Bureau by air mail; that Mr. Nathan stated there was some talk several weeks ago about putting on such a test at Wichita, but nothing ever became of it; that if there is such an organization, he knows nothing about it; that he, too, will also ascertain the facts and advise the Bureau.

Mr. Hoover advised Mr. Quinn to call Mr. Stanley and tell him that he is in New York City at the Hotel New Yorker; that he, Mr. Hoover, will probably be there for several days.

per [unclear]
Mr. Hoover advised Mr. Quinn that he had been thinking over the Detroit case, and instructed Mr. Quinn to see if there is some basis for us to get in on the case; that if there is some basis, he wanted to be advised before a wire is sent to the Chief of Detectives in Detroit; that if the crime occurred subsequent to the Fugitive Act, it would be within our jurisdiction. Mr. Quinn stated that he was not sure about the date, but that he thought it happened before the Fugitive Act. Mr. Hoover stated that he thought that Mr. Quinn should check up on this case and see if there was not some basis for the Bureau to get in on it; that if there were, Mr. Quinn should telephone the Chief of Detectives and explain to him that there is no National Crime Commission; that there is an advisory committee to the Attorney General but which deals with purely administrative matters; that we are, however, making the subject in this case a fugitive from justice under the Federal law and that the Chief of Detectives could state in his announcement that the man is being sought by the Detroit authorities and by the Federal Bureau of Investigation and any information obtained should be reported directly to either of these agencies. Mr. Hoover stated that he thought that

3/16/35

the Bureau should get into the case if possible and get an indictment against the subject as a fugitive under the Federal Fugitive Act. Mr. Quinn stated that he would look into the matter further before a reply was sent to the telegram from the Chief of Detectives. Mr. Hoover suggested that Mr. Quinn inquire of Mr. Egan regarding the Federal Angle of this case as it was Mr. Hoover's recollection that Mr. Egan had looked the matter up some time ago when the papers were playing the case up and inquiring why the Federal government had not taken a hand in it. Mr. Quinn stated that if they found out that it did happen before the Fugitive Act, they would follow a wire along the lines indicated by the Director, and if any further question arose Mr. Quinn would call the Director on it.

Mr. Hoover stated that if Mr. Willrop or anyone asked what he was doing in New York, Mr. Quinn should evade any direct answer and if he were asked if the Director were up there on the raid matters being staged by the Treasury Department, Mr. Quinn should reply that he had no comment to make.

Memorandum of telephone conversation
Mr. Hoover and Mr. Brantley. 3/16/35.

Mr. Hoover instructed Mr. Brantley that he should endeavor to handle the matter very delicately and carefully; particularly with reference to Egan, who will probably want to dominate the scene; that Egan is very suspicious and critical, but thoroughly fearless and honest according to Gus Jones observations. Mr. Hoover stated that after Egan learns that Mr. Brantley is on the same job he will undoubtedly seek Mr. Brantley out; that Mr. Brantley's position should be that we will take anything Egan offers to give us, but we will not give him anything; that he should be handled with diplomacy; that this assignment should be handled in the same manner that the Billinger and Bremer assignments in Chicago are being handled, as a special assignment out of Washington; further that Mr. Hoover desired the job to be done quietly and effectively without regard to local authorities, unless we need their assistance, but that Mr. Hoover desired to do the job without their aid if possible, due to the jealousy and dishonesty of the local agencies. Mr. Hoover also stated that he wanted the job done in a vigorous manner; that he did not want any delayed action; that Mr. Brantley had determined the case had not to take orders from any of the SAs in those districts in night work; and that he should call on them any time for assistance when it was needed; that he should wire or phone in each day any of the developments.

Mr. Brantley stated that he thought they would be stationed at Dallas for the moment; that he would like to have Agent Frank Smith included in the squad. Mr. Hoover stated that it would be alright to include Agent Smith

Memorandum conversation
Mr. Brantley and Mr. Hoover

in the squad, although he believed that Agent Smith was somewhat disposed to be of the typical Southwest type, fearless, honest and with much ability along the line of current cases, but somewhat slow in running down cases needing quick administrative action and ability, that Mr. Brantley should report to Washington any observations he made in respect to the men selected for the squad. Mr. Hoover further stated that he did not wish to have any of his comments and observations which he had spoken, repeated to any subordinates, as was the tendency on the part of some of the executive staff, advising him of the situation at Chicago where SAC Ladd had indirectly spoken of his part in the questioning of "Doc" Barker; that Mr. Brantley should not advise anyone of the conversations which he had with Washington, and it was not necessary for the agents to know what each other was doing when they were working on matters of a confidential character; that Mr. Hoover desired each agent to keep very close mouthed about the whole assignment and that they should not be allowed to talk over the case with agents in the Dallas and San Antonio office; that it was Mr. Brantley's job to contact the offices in those districts and advise them of any developments which he saw proper to advise; that Hauer should be watched very closely and that Mr. Brantley should see that the Bureau was given fair credit for its part in the case; that however, care should be exercised to prevent any open feud between Hauer and the Bureau, as he would be inclined to issue a statement stating that he was unable to secure any cooperation from the Federal Government and the Department of Justice.

Mr. Hoover inquired why Mr. Brantley had not known of the formation of the "Flying Squadron". Mr. Brantley advised that he had not deemed it of sufficient importance to advise the Bureau, as in his opinion it was merely an effort of Stanley Rogers to get his name in the paper; that he only had one old plane in which he had installed a radio and that the plan, if at all carried out, was merely in a formulative stage. Mr. Hoover stated that it had been given considerable publicity and that he considered it important that the Bureau get in on the formulative stages of any such activity; that the newspapers had reported that the squadron had two planes in Oklahoma and one at Kansas City. Mr. Brantley stated that he had not heard of these latter planes; that the one owned by Stanley Rogers was the only one he knew about. Mr. Hoover stated that if we did not get in at the start of such things they would be taking away the credit from our men and focusing public attention upon themselves; that he, Mr. Hoover, believed that we should get all the credit due us in the public eye and should endeavor to keep ourselves there by active participation in such projects which are worthy of consideration. Mr. Hoover stated that he thought there might be possibilities in the plan for such a squadron in the pursuit of bank robbers, fugitives, etc., and although it was uncertain where we would be able to get the planes, nevertheless we should be in on the plan and he was concerned about the report that we did not know anything about it; that he understood Rogers was very friendly toward the Bureau, and he did not understand why he, Rogers, had not consulted Mr. Brantley before starting on the plan. Mr. Brantley stated that Rogers

-4-

was in fact very friendly toward the Bureau; that he had sent a letter last fall, according to Mr. Brantley's recollection, to the effect that he was contemplating a plane service for his office but there was nothing in the letter about including four states. Mr. Hoover instructed Mr. Brantley that Mr. Little should be advised to ascertain what the details of the plan were and what had been done in this regard so the Bureau will be fully advised and will know what is going on, regardless whether or not we take a part in the plan; that it might be well for Mr. Brantley to get Rogers on the telephone and find out what it is all about. Mr. Brantley advised that all the New York papers are carrying a story concerning the plan; that due to the publicity, the other states will probably try a similar plan, and if it were recognized that the Bureau was helping to develop the present plan, the other states would probably look to the Bureau for advice if they chose a similar plan, and it would not be set down as purely an activity of the local authorities.

MEMORANDUM

Mr. Quinn advised Mr. Hoover at New York, by telephone, that he had told Mr. Stanley this morning where Mr. Hoover is, and Mr. Stanley's words were: "What - - - are we going to do to get him out fishing".

Mr. Quinn advised that he had contacted Colonel Lincoln and Mr. Baker. He further stated that Mr. John Keith is out this morning - he had a bad cold - and so he had Agent Hickey, in charge of the office, go down to see Garnett, who told Hickey that the Senate Committee had certified to him a brief containing a possible perjury case; that he wanted a check-up made on Mr. L. R. Wilder, Chairman of the Executive Board of the Gulf Industries, and also Mr. Calvin, Secretary and Treasurer of the Metal Trades Department, American Federation of Labor; also, a sworn statement from Mr. [redacted] attorney-at-law in Washington, and a sworn statement from Mr. [redacted]

Mr. Hoover inquired if our investigation was limited just to these, and Mr. Quinn stated Yes - in other words, it seems as though on August 3, 1933, in response to an invitation to bid, Wilder makes the statement that Mr. Raven (?) professed to have a close friend here in Washington who could have the Naval Ship-building Program extended for a consideration, and have certain ships awarded to the Gulf Industries for constructions. Mr. Hoover stated what he has in mind is, when we investigate, we make an investigation, and as he understands this request it is merely desired that we see certain people, and no other persons. Mr. Quinn stated that we had not received the brief from the Committee. Mr. Hoover stated what he had in mind is he does not think that we should be restricted - if we are going to make an investigation, we should go into the matter, and not just see certain persons. Mr. Quinn stated he told Hickey to wait until we received certification from Mr. Stanley for the proceedings there, make a complete review of it, and then we would select an Agent to handle the same. Mr. Hoover said we will wait until we receive the brief, of course, and then see whether the things Garnett wants us to do would be entirely complete, and if so, all right; but if other things should be done we should inform him that the things he has requested are not complete and if we are to proceed in this matter, we are going to do it thoroughly, or not at all. five persons, and we find in reading the brief going into the matter that it will be necessary to interview nine persons to do it thoroughly, and we speak to Mr. Garnett, who says he does not want the other four interviewed, then we should decline to make the investigation; that the responsibility will be ours to do a thorough job and we are not going to "white-wash" it. Mr. Hoover specifically instructed that this matter be gone into very thoroughly, and if it be found that Garnett's request is not complete, he should be so advised and find out whether he wants to have a complete investigation made, and if not, we will not conduct the investigation at all.

Mr. Hoover inquired with regard to the Detroit situation, and Mr. Quinn advised we have been purposely keeping out of that, according to Mr. Tamm; however, that it did happen after the Federal statute was passed, so he contacted the Deputy Chief of Detectives out there Saturday afternoon and told him that we desired not to have that title used but that he could state that Goodrich's apprehension was desired by the Federal Bureau of Investigation. Mr. Quinn stated he further told him that Mr. Larson, the Agent in Charge at Detroit, would get in touch with him, and we would go along and do everything we possibly could. Mr. Hoover inquired whether we had taken steps to have the indictment returned on this man, and Mr. Quinn stated that Mr. Tamm talked to Larson on the subject Saturday afternoon, and arrangements have been made, he understands, to get an indictment and we are going to issue an I.O. Mr. Hoover instructed that this be done right away, and let no delay occur, in either the I.O. or the indictment, as we want to be thoroughly protected if we run across him.

Subsequent to the conversation with Mr. Hoover, Mr. Tolson advised Mr. Quinn by telephone, also from New York, that, with regard to the call from Mr. Maragon, it does not matter to us what radio station they use, although Archie McDonald is a good announcer, and WJSV is probably larger than WMAL, and that he would say WJSV, although it does not make a bit of difference. Mr. Tolson stated that Mr. Maragon may use our name in getting the radio stations to cooperate, so he thinks it is entirely up to Mr. Maragon. Mr. Quinn stated he would contact Mr. Maragon and tell him that in so far as we are concerned, it does not make any difference. Mr. Tolson stated that, of course, Mr. Hoover will not go on the air in this connection, under any circumstances, and Mr. Maragon should make the arrangements, himself.

Mr. Tolson requested Mr. Quinn to have Mr. Schilder write a letter to Mr. Walter Winchell, dealing with the receipt of fingerprints from Miami and the number identified, and any pertinent information that it is entirely proper to give out. Mr. Tolson stated we have been getting a lot

(Mr. Quinn)

of fingerprints of persons employed as entertainers, applicants for special police, guards, et cetera, and it is really an astounding record, and he requested that Mr. Schilder prepare a letter to Mr. Walter Winchell just summarizing the matter, so that Mr. Hoover can see the letter and sign it up there.

Mr. Tolson also requested Mr. Quinn to inquire of Mr. Richmond what success he had on the baseball permit - he was curious to know whether they told him we would be able to get the South Diamond on the Ellipse for our games this Summer. Mr. Tolson stated he would like to know the next time he talks with Mr. Quinn.

Mr. Quinn stated that Mr. Clegg desired to talk with Mr. Tolson about something, he didn't say what. He further stated that Mr. Clegg is now reviewing Mr. Nathan's talks, and there were only a couple of things which he, Mr. Quinn, thought should be left out. Mr. Tolson said to tell Mr. Clegg we should be sure these talks are all right, and that he, Mr. Clegg, should see them.

Mr. Quinn told Mr. Tolson he contacted Colonel Lincoln, Mr. Stanley and Mr. Baker. Mr. Tolson inquired whether Colonel Lincoln wanted to come over, and Mr. Quinn stated No - he would like Mr. Tolson to give him a call when he arrived back in the city, and that Mr. Baker said from reading the papers he could understand why Mr. Hoover is out of the city, with all this going on. Mr. Tolson said this was just as well.

Mr. Quinn stated he had ordered overtime in Mr. Renneberger's section, and inquired whether Mr. Tolson desired them to hold a meeting in his absence and consider the North Dakota-South Dakota proposition, and Mr. Tolson advised that he did, and desired that they reach a definite recommendation. Mr. Tolson inquired as to Mr. Renneberger's situation on the Manual, and Mr. Quinn advised that he sent Mrs. Henley down with Miss Wall this morning to start proofing it, and the general letter to go out is being typed. Mr. Tolson stated this was dictated last Thursday - that Mr. Clegg told him before he left town that that letter was dictated - and that surely they are not still transcribing it. Mr. Quinn stated that it was pretty lengthy, and Mr. Tolson said it will be eight or ten pages, but it should not take three or four days just to get it typed. Mr. Tolson said he would like Mr. Quinn to get this letter typed by five o'clock and go over it with the Executive Committee and make sure that everything in the letter is all right, because

(Mr. Quinn)

we do not want to issue any instructions to the field, and then have to countermand them.

Mr. Quinn stated that the Appropriations Bill, so far as he could find out this morning, is still on the Floor of the House. Mr. Tolson said he had been told it had reached final conference. Mr. Quinn repeated that it is still on the Floor, and Mr. Tolson said they may have some angle there, but he does not suppose we are connected with it, and Mr. Quinn stated we are not, so far as he knows, but he will follow it, and if anything does come up he would call Mr. Tolson. Mr. Tolson stated he did not think there will be any trouble.

Rotary Club

Mr. Tolson telephoned from New York City and talked to Mr. Quinn. Mr. Tolson stated that Mr. C. S. Baker, President of the George Washington Alumni Association, called him Saturday and expressed the desire to come in Monday and see Mr. Hoover with the President of the Rotarians; that they want to invite Mr. Hoover to make a speech sometime in April before a group of six or seven hundred. Mr. Tolson instructed Mr. Quinn to call Mr. Baker tomorrow and tell him that Mr. Tolson had asked him, Mr. Quinn, to call and say that unfortunately Mr. Hoover and Mr. Tolson would not be in Washington on Monday, and accordingly Mr. Baker may want to wait a day or two until Mr. Hoover and Mr. Tolson return to Washington; that he, Mr. Tolson, will be glad to call him and make an appointment for him to see Mr. Hoover.

2-1

Mr. Tolson further stated that on Saturday he talked to Colonel Lincoln, head of the Military Intelligence Division of the War Department; that he invited Colonel to come to the Bureau on Tuesday at 10:30 A.M. to see the Bureau and Mr. Hoover. Mr. Tolson instructed Mr. Quinn to call Colonel Lincoln tomorrow morning and tell him that Mr. Hoover does not expect to be in Washington on Tuesday morning; that Mr. Quinn should tell him that he would be very glad to show him through the Bureau if he wants to come over at that time; that if Colonel Lincoln wants to wait until Mr. Hoover and Mr. Tolson return, Mr. Tolson will be glad to call him earlier in the week. Mr. Tolson stated that he spoke to Colonel Lincoln about Mr. Hoover's commission, having in mind that Mr. Hoover might be able to get a colonelcy; that Colonel Lincoln seems to be very much perturbed because they were going in the Navy Intelligence; that Colonel Lincoln indicated that he wanted to talk to Mr. Hoover about it. Mr. Quinn assured Mr. Tolson that Colonel Lincoln would show through in the event he desires to visit the Bureau. *MAR 23 1935*

RECORDED & INDEXED

Mr. Tolson further advised Mr. Quinn that he had received some mail from Miss Gandy and that it was in terrible shape; that a return addressed envelope was not sent; that a lot of the mail was in very poor shape; that he is going to have to send it back with a note to Miss Gandy. Mr. Tolson stated that he was going to try to put it in the mail today, that it is being sent to Mr. Hoover with "Attention Miss Gandy". *66-4760-9*

With reference to the letters in Mr. Backus' office, Mr. Quinn inquired if they should be held up until he returns. Mr. Tolson stated that he should see them, and that probably Mr. Hoover will want to see them. Mr. Tolson inquired of Mr. Quinn if Miss Gandy signed the last group and he was advised that she did, whereupon Mr. Tolson stated that it would be all right for Miss Gandy to sign them and send them out, with the exception of those for the Attorney General's Advisory Committee and

the Executive Committee of the International Association which should be held for Mr. Hoover; that the one to Congressman Oliver and several similar ones Mr. Hoover might want to sign personally.

Mr. Quinn advised Mr. Tolson that he had not called Mr. Stanley but would do so.

Mr. Quinn advised Mr. Tolson that the dance was quite a success; that the only trouble was that there was too much of a crowd; that the Association made approximately one hundred and twenty five or one hundred and fifty dollars; that there was no excessive drinking and everything went off fine.

Mr. Tolson instructed Mr. Quinn to check up with Mr. Holtzoff the matter of pending bills in order that Mr. Quinn and Mr. Glavin might ascertain the present status of them; that there is a bill to permit the Bureau to pay the expenses in case of damage to a car and a bill pertaining to insurance which the Veterans Administration has been working on. Mr. Quinn advised Mr. Tolson that the Appropriation bill as far as he could find out was not signed yesterday.

1936

Mr. Tolson then talked with Mr. Tamm and inquired if he had found the letter in the Shearer case dated March 27, 1929. Mr. Tamm advised that they had found a memorandum prepared by Bardo, who is one of the officers of the Bethlehem Steel Co.; that this is undoubtedly the document referred to; that it was written in Bardo's handwriting and tells of a meeting in a hotel room and states that Shearer threatened to kill Wakefield (?); that this memorandum appeared to have been given to Mr. Whitley. Mr. Tolson then inquired about the letter which was referred to in the Washington Post article, dated March 27, 1929, which Shearer is supposed to have sent to Homer L. Ferguson, President of the Newport News Shipbuilding and Drydock Co. Mr. Tamm stated that they had not found this letter; that the only thing about the killing is the memorandum by Bardo. Mr. Tolson stated that the killing was only one angle to the matter; that the letter is supposed to contain a list of the fourteen Senators including the nine specifically mentioned as being opposed to the bill and are recorded as having past affiliations with the Communist party. Mr. Tamm stated that he would recheck this himself, personally today. Mr. Tolson stated that the article mentioned was the Washington Post of Saturday on Page 3; that the letter mentioned in this article appears to be the principal thing involved; that if the letter cannot be found it would possibly be a good thing to be able to state that no such letter appears in the files of the Department; that he is supposed to have produced the letter before the Committee. Mr. Tolson stated that he might call in later, but Mr. Tamm stated he would call Mr. Tolson after going through the file.

MEMORANDUM

Time 6:20 PM

Mr. Tamm telephoned Mr. Hoover and advised him that the letter written by Shearer to Ferguson had been found in the file; that it had not been found in the first instance due to the fact that Mr. Tamm had instructed Agent Richmond merely to find the statements threatening to kill Wakeman, and that the letter in question had contained no reference to this and had consequently been passed over. Mr. Tamm advised Mr. Hoover that this letter had been signed by Shearer and sent to Ferguson; that Bardo's memorandum is another document containing a conversation which he had with Shearer; that this memorandum is a photostatic copy of the memo which was given to Mr. Whitley in 1929, secured from the files of the Norfolk Shipbuilding Company; that these papers had been sent to the Assistant to the Attorney General O'Brian in 1929. Mr. Tamm advised that no inquiries had been received from the Department concerning this. Mr. Hoover stated that these papers should be kept together and the information summarized in a memorandum in case any inquiries come in concerning it. Mr. Hoover inquired if any reference was made to the Senators who were supposed to be Communists. Mr. Tamm stated that the letter contained the statement that there were twelve Senators who opposed the Cruiser bill, of which nine are recorded in the Department of Justice as having past affiliations with the Communist party, but the names of these Senators are not mentioned, however the newspaper clippings at that time pointed out the names of the twelve Senators who opposed the Cruiser bill.

Mr. Tamm advised Mr. Hoover that there was a story in the Washington Herald that SAC Guinane had announced an investigation would be undertaken into the sterilization of women on the West Coast; that he was trying to reach Mr. Guinane on the telephone to find out what this was all about. Mr. Hoover instructed Mr. Tamm to find out from Mr. Guinane the facts concerning this, and send him a memorandum on it to the Bureau.

Mr. Hoover stated that there was a statement in the papers today which quoted Mr. Harvey as saying what would be done with the boy who was taken into custody in the Hyde extortion case; and Mr. Hoover instructed Mr. Tamm to telephone Mr. Harvey and find out what the facts were in this case; that in cases of this kind the Bureau should first be contacted before a statement is issued.

Mr. Hoover inquired if Mr. Tamm had talked to Mr. Connelley about the matter of having Mrs. Cowley at the trial. Mr. Tamm advised that Mr. Connelley had told Mr. McMahon that Mrs. Cowley was in the West somewhere.

and that Mr. McMahon was very nice about the matter and stated that it did not make much difference anyway, and that Mr. Connelley had indicated that he had Mr. McMahon on very agreeable terms.

Mr. Tamm advised Mr. Hoover that the Washington papers were carrying statements to the effect that certain suspects who were questioned by the Treasury Department in Chicago in one of the raids, had furnished information as to the whereabouts of Alvin Karpis, but that Mr. Connelley had stated that this statement was entirely unfounded, and in his opinion was just an attempt to make headlines. Mr. Tamm stated that he had also learned from Mr. Connelley that so far none of the Bureau's informants had been picked up in any raids. Mr. Hoover instructed Mr. Tamm to watch this situation very closely.

Mr. Hoover stated that he had sent to Mr. Tamm a memorandum concerning the matter of a post office inspector covering ~~the~~ and that he would like to have Mr. Tamm send him a memorandum concerning this tomorrow; that Mr. Tamm should prepare a memorandum to the Attorney General concerning this with a copy of Mr. Stanley, reviewing the past difficulties and what Mr. Keenan is supposed to have arranged and then describe the recent situation, pointing out that the Bureau cannot work under such circumstances and inquire of the Attorney General if it would be possible to have the matter settled for once and for all to remove such obstacles; and that Mr. Tamm should read this memorandum to Mr. Hoover over the telephone after it had been prepared, and if it is alright it can be sent to Mr. Hoover at New York for his signature.

Mr. Tamm advised that Mr. Brantley is leaving at 6:00 PM tonight; that he has gone over the situation very carefully with him and advised him of the Director's wishes, particularly with reference to keeping close mouthed about the whole matter.

Mr. Hoover instructed Mr. Tamm to telephone Mr. Ladd at Chicago and have them advise Mr. Nathan to call Mr. Hoover at New York after Mr. Nathan has completed his investigation in Chicago and advise Mr. Hoover of the results.

Mr. Tamm advised Mr. Hoover of the information received from the Kansas City office relative to the air patrol being formed in Kansas and Oklahoma.

Mr. Tamm also advised Mr. Hoover of the information received from Mr. Ladd that the Treasury Department had a man in Chicago whose sole job is to contact newspaper men and stir up publicity regarding the work of the Treasury Department. Mr. Hoover stated that judging from the stories he had read that the Treasury Department is apparently doing the same thing all over the country and are coordinating their activity in regard to publicity.

Memorandum telephone conversation
Mr. Tamm and Mr. Hoover

3/17/35

Mr. Hoover instructed Mr. Tamm to advise Mr. Ladd to keep close watch of the matter in Chicago in order to learn of any pertinent information.

Mr. Tolson then talked to Mr. Tamm and asked Mr. Tamm to advise Mr. Quinn to check up on the following matters:

With regard to the manuals, Mr. Tolson wishes to have them speeded up in order that they will get out immediately and that overtime should be ordered if necessary.

Mr. Quinn should see that the general letter being prepared by Mr. Clegg regarding manual suggestions is gotten out immediately and this should be reviewed by everyone to see that it is alright.

Mr. Quinn should expedite the report on the advisability of having an office to cover the North and South Dakota Territory and that this matter should be taken up by the Executive Committee for a final decision before being submitted to the Director.

Mr. Nathan's talk has been sent in to Mr. Quinn to review and Mr. Tolson wishes to have Mr. Quinn and Mr. Clegg review this carefully to see that it is alright.

Mr. Hoover then talked to Mr. Tamm again and advised him that the mail which had been sent to him to sign had been received in terrible condition and that Mr. Quinn should take this matter up with Miss Gandy; that no return envelope had been sent to him to return the mail to Washington; that a letter had been addressed to Colonel Howe at the White House enclosing photostatic copies of a report on an association which Colonel Howe had been interested in and this letter with the copies referred had been sent up to be mailed in an envelope two inches too small; that a letter had been addressed to Mr. Brantley in care of Mr. Clegg and that he should have been addressed in care of the Chief Clerk's office; that this last error had occurred in Mr. Hoover's own office; and that Mr. Quinn should make arrangements to see that the mail in the future is sent up to Mr. Hoover in better form.

Mr. Hoover advised Mr. Tamm to watch things closely and inform him of any matters arising.

Mr. Tamm inquired if the Director would wish to send the Attorney General or Mr. Stanley the material in the Shearer matter. Mr. Hoover advised that he did not believe this should be done unless we were called upon to advise them.

Mr. Hoover stated that if nothing came up he would remain in New York for several more days.

MEMORANDUM FOR THE DIRECTOR

Re: Statements to Press by Mr. Guinane

I called Mr. Guinane in San Francisco this evening and advised him of the article in the Washington papers which quoted him as saying on behalf of the Federal Government, that a searching investigation would be launched into reports that young unmarried girls were being sterilized upon advice of county welfare officials. Mr. Guinane denied making any such statement. He advised that the Grand Jury of Contra Costa county were investigating sterilization and saw that one of the grand jurors called on him in an effort to enlist the aid of the Bureau. The juror was told that there was no evidence of a violation of the White Slave Traffic Act, so the Bureau could not go into it. Mr. Guinane stated that the Grand Jury gave this information to the newspapers and Yates of the Examiner called to inquire if an investigation was to be started. He was told that nothing could be done, but that if any definite indications arose that there was a violation of a Federal law, it would be investigated. Mr. Guinane stated he would get Yates to verify just what was told him in his conversation with Mr. Guinane.

Mr. Guinane advised that Mr. Olson, one of the grand jurors, contacted him with respect to procuring investigators to probe these charges; that he was advised that the Bureau could do nothing and that perhaps the State Bureau could be of assistance. Mr. Olson stated that this was the information he wanted; just who he should see.

I instructed Mr. Guinane to forward a letter to the Bureau as soon as possible setting forth his conversation with Yates; to forward tonight a telegraphic summary of the above facts including the conversation with Yates.

Mr. Tamm advised Mr. Hoover in New York, by telephone, that he had talked with Mr. Guinane last night about the sterilization statement, and he denies he made any such statement, and sent us a night letter last night stating that B. C. Yates of the San Francisco Examiner inquired if we were assisting in the investigation, to which Mr. Tamm definitely stated that we were not; that to his inquiry whether we intended to investigate the matter Mr. Tamm replied that no complaint had been made to this office, and no investigation would be made unless definite information was furnished this office indicating a violation of the WSTA. Mr. Tamm states he asked him to trace back on the matter in an effort to determine where the story emanated and try to stop that sort of thing out there, but Mr. Guinane states very emphatically he did not make any such statement.

Mr. Tamm advised Mr. Hoover further that one of the jurors on the County Grand Jury investigating alleged scandal on that matter, came to Mr. Guinane and asked if we would give them some assistance, and Mr. Guinane told him he could not and would not take any action unless they brought in prima facie evidence of a violation of the WSTA or some other Federal Statute within our jurisdiction; that Mr. Guinane made this very emphatic, and told them that if they wanted assistance in the investigation of local crimes, they should get in touch with the State Bureau in California. Mr. Tamm repeated that Mr. Guinane stated emphatically that he did not make any statement to the press that we were going to do this at all; in fact, the only man he talked to at all was Yates. Mr. Hoover inquired what paper it appeared in, and Mr. Tamm stated in the Herald - a Universal Service story. Mr. Hoover asked if it had appeared in any of the San Francisco papers, and Mr. Tamm stated that Mr. Guinane did not know if it did. Mr. Hoover said if it was carried as a San Francisco bulletin, Mr. Guinane should go to see the City Editor and tell him he would like to know what the article is predicated on, as it is an absolute lie. Mr. Tamm stated that Mr. Guinane said that Yates of the Examiner is the only one who asked him about it, and he is going to get in touch with Yates and get a story from him as to what he did with the information which he, Guinane, furnished Yates. Mr. Hoover stated that there must be some ambiguity upon the part of the SAC (Guinane) handling such matters, as he gets constantly quoted. Mr. Tamm remarked that it is strange that Guinane

is quoted all the time when he is not making statements, and the other SAC's do not have that difficulty, and along this line he talked with Mr. Harvey about the █████ case and he is absolutely innocent and has made no statements to anybody about anything, and says that the newspaper men attended the Commissioner's Hearing and that is where they got their information; that the Philadelphia papers did not quote him, but he pointed out that it is often a trick of the newspaper men to make a statement about him, and then follow it by information obtained from some other source and make it appear as though they were quoting him, and that he, Mr. Harvey, had not made any statements. Mr. Hoover remarked that this is possible, but not very probable.

Mr. Tamm advised the Director that, with regard to the Goodrich case in Detroit, he talked with Mr. Larson about the matter on Saturday afternoon and he said he had wanted to get into the case some time ago but that the City authorities - the police - had seemed somewhat reluctant to have us in the case. Mr. Larson, according to Mr. Tamm, went so far as to go to the District Attorney and ask him to see if the prosecuting attorney would not ask us to come into the case, but that the police seemed rather reluctant and this is the reason he has never gone ahead with it. Mr. Hoover inquired whether Mr. Larson had ever notified us of this, and Mr. Tamm stated he did not; that Mr. Larson says he thought it was purely a local offense, and Mr. Tamm inquired of him why he thought we should go into it, and Mr. Larson indicated that he just wanted to get into it and help them if he could. Mr. Hoover stated that the whole trouble is we have got to get into it now, and if we were in the position of specifically asking some months ago when this occurred whether we could be of assistance, and they told us no, we could very nicely say, about the criticism we have received from the press, that we had offered assistance but it had been declined, but as it is now, we do not know what Larson has said, and the matter is very vague as we cannot say that they refused to accept our aid, and it is this sort of thing which puts us in a very bad light. Mr. Tamm advised that Mr. Larson has an appointment with the Chief of Detectives this afternoon, to go over the whole thing, and will advise Mr. Tamm of the results. Mr. Hoover stated that Mr. Larson should get the indictment in the Federal Court against this man, and be thoroughly protected.

Mr. Tamm told Mr. Hoover that Mr. Whitley called this morning about stories in the New York Mirror to the effect that Federal Agents and police are investigating in the various Harlem night clubs, looking for Robinson disguised as a woman, which he, Mr. Tamm, presumes is predicated upon Winchell's broadcast last night, and says they know nothing about it and the police know nothing about it. Mr. Hoover said Mr. Tamm should tell Whitley to make no

comment to the press about the matter; that he, Mr. Hoover, was with Winchell at the broadcast and he had this item written up before Mr. Hoover got there, and wanted to know whether it was all right, et cetera, and Mr. Hoover told him that one guess is as good as another. Mr. Tamm stated that technically we are looking for him in New York. Mr. Hoover said what he had in mind was Winchell also had in the broadcast about Frank Wilson in New Orleans, and it might be well to have ourselves in the picture, even though there is nothing to it. Mr. Hoover stated he asked that he, Winchell, put in something about the Hamilton-Karpis-Robinson matter, which he did. Mr. Hoover stated he was trying to re-gain some of the publicity which we have lost during the past week. Mr. Hoover instructed Mr. Tamm to tell Mr. Whitley that, if any newspapers call, he should refuse to make any comment, and if any inquiries are made in Washington, Mr. Tamm should tell Colonel Gates or Mr. Suydam he does not know anything about that matter as Mr. Hoover is handling it, and is in New York, and let it stand at that. Mr. Hoover stated the paper was already printed and on the street with this story in it, and Winchell picked it off the second page.

Mr. Tamm advised Mr. Hoover further that Mr. Carusi called him this morning and referred to Shearer's statement, and wanted to know whether we had any lists of Communists in our files, and was told we did not. Mr. Carusi read to Mr. Tamm a newspaper clipping which quoted a high official of the Department of Justice who is supposed to have said the other day that we not only had no lists of Communists in the Department files but that there were no Federal Statutes penalizing such activities. Mr. Tamm told Mr. Carusi he did not know who the high Department of Justice official was, but it was very accurate, so far as he, Mr. Tamm, knew. Mr. Carusi announced he was the high Department of Justice official who made the statement. Mr. Tamm advised the Director we have a plant in New York City, using 12 men, 6 at a time, covering the Conrad woman, who is a friend of Gladys Sawyer; that she went to New York the other day; that Gladys Sawyer is the wife of Harry Sawyer; that Harry Sawyer is a friend of William Weiss or Weissman over around Newark, and we thought we might get a lead on Harry Sawyer, but it has not developed anything as yet. Mr. Hoover instructed that word be given to Whitley, if anything breaks on this, to advise Mr. Hoover at the Hotel New Yorker. Mr. Hoover stated he had not gone to the New York Office, but had been in touch, now and then, with it. He stated he did not desire to go to the office unless it was something absolutely necessary.

(Mr. Tamm)

Mr. Tamm stated that instructions have been issued to the New York Office that if they get any lead on Sawyer, not to go off prematurely and try to pick him up on the street, but to try to trail him back where he is, because that may lead to the capture of other members of the mob. Mr. Hoover said this is what he had in mind, because if we follow him, he may lead us to Karpis and the other crowd, because they may be hanging around New York.

Mr. Tamm advised Mr. Hoover that we have this morning a request from Bruce Nathan to be informed whether he should go along and conduct some additional minor investigations in connection with the State indictment of Adam Richetti for murder - the County Attorney has asked them for one or two items which are probably not in our files; namely, as to whether certain witnesses can testify as to the price of clothes that Floyd and Richetti had on a particular day. Mr. Hoover said he thought we should help on this, and Mr. Tamm said he did not see how we can avoid it because the police will not give them any help, and after all, we have a personal interest in the murder. Mr. Hoover stated it would react badly against us if they lose that case. Mr. Tamm stated he would instruct Nathan to go along with it.

Mr. Tamm stated to the Director that he talked with Mr. Ladd last night and told him to have Mr. Nathan call the Director as soon as he completes his inquiries there today.

MEMORANDUM

During a conversation with Mr. Tolson at Detroit Mr. Quinn advised him of the following:

Mr. Quinn stated Mr. Rex Collier was in and advised that the Boettcher case goes on next Saturday night; that Mr. Collier states Mr. Tolson has revised copies of this and the changes were made; that there were no changes in the body of it.

Mr. Quinn stated Mr. Maragon telephoned and wants Barry for a baseball game tomorrow afternoon. Mr. Tolson stated this would be all right but that Barry would have to make up the time.

Mr. Quinn stated Judge Holtzoff called and stated he had received the report from the Bureau of Standards; that Butler's contention was incorrect, the trouble was not in defective wiring but it was a poor job of wiring; that there are too many electrical attachments for the generator; that in this connection Butler's attorney conferred with Judge Holtzoff this morning and Butler has agreed to put on an oversized generator. Mr. Tolson stated that Butler would notify him when the generator was installed and then the matter would be handled direct with Butler and Judge Holtzoff could fade out of the picture.

Mr. Quinn advised of a conference with contractors in regard to the gymnasium and Mr. Tolson stated it would be Mr. Quinn's job, the only one for him to do, to get the gymnasium built.

Mr. Quinn also stated a letter had been received from Mr. Dunn at Los Angeles showing the motion pictures that had been exempt. Mr. Tolson said this matter could wait his return.

MEMORANDUM FOR THE DIRECTOR

RE: CANCELLATION OF TRAINING SCHOOL FOR AGENTS IN CHARGE; MR. BAUGHMAN'S ILLNESS, AND THE MARTIN MOONEY CASE.

At this time I called Mr. Tolson in New York City and talked with him regarding the following matters.

Mr. Tolson informed me that he had instructed Mr. Douglas last Saturday afternoon to cancel the training school for the Agents in Charge, but that in spite of this instruction Mr. Whitley had received a letter this morning directing him to report in Washington on January 27th. Mr. Tolson stated that he had advised Mr. Douglas of the Director's approval of the cancellation and had therefore told Mr. Douglas to ignore any letter to the contrary which might come through later. Mr. Tolson requested that I contact Mr. Douglas to determine the reason for this mistake and report back to him tomorrow.

Mr. Tolson then made an inquiry as to why Mr. Baughman, who was reported ill last Saturday and unable to accompany a training class to Quantico, was in the technical laboratory working and apparently well when Mr. Tolson went through with a group of visitors. I informed Mr. Tolson that I had seen Mr. Baughman when he came in last Saturday. At that time Mr. Baughman advised me that the doctor had ordered him to remain at home but that some important work needed his attention at the Bureau and he had disobeyed the doctor's instructions by coming in to attend to it.

I then advised Mr. Tolson that Martin Mooney had been in this morning and that I had allowed him to dictate a memorandum indicating the various materials needed for his new book. Mr. Mooney stated that he probably wouldn't need the material for a month and that he was leaving for New York in order to enter the tombs tomorrow or the next day. He also said he had received an advance royalty on his book in order to get unhampered publicity. I informed Mr. Tolson that Mr. Mooney had prepared two stories. One is entitled "The Back Door," and is claimed by Mr. Mooney to be the most vicious attack on the parole system that he has ever written. This story will precede the book in the form of a movie. The other story is entitled, "Bullets or Ballets," and will star Ed Robinson. I advised Mr. Tolson that Mr. Mooney had stated that it was agreed with Hearst that Mooney should come back here

RE: Conversation of Director with
Mr. Tamm.

With reference to the Middletown situation, Mr. Tamm advised Mr. Hoover that the letter was finished last night and was re-written this morning. Mr. Hoover stated that if he does not return to Washington before Mr. Nathan does, Mr. Nathan should look the letter over. Mr. Tamm stated that the Bureau was absolutely in the clear because [redacted] was drunk when the Agents went out there; that in the letter to the editor Mr. Tamm advised that the Agents were advised at the Court House that he was indisposed.

With reference to the report of Agent Larimer's investigation, Mr. Tamm advised that it was dated March 4, 1933; that the file reflect a notation on that report, one copy Colonel Schwarzkopf ~~March~~ 6, 1933 and in the memorandum, it showed that on May 2, 1933, Assistant Director Nathan proceeded to Trenton while enroute to Washington and in the absence of Colonel Schwarzkopf left with his assistant Major Shopel a copy of the reports submitted by Agent Larimer under date of March 4, 1933, so they evidently received two copies of the report, Mr. Tamm stated. Mr. Tamm stated that Mr. Tolson said last night that the investigation was in two phases, but the only other thing Mr. Tamm could find out was that subsequent to this report, was when Larimer was transferred to New York and Baird called him from Boston and told him that he had some additional information; that Agent Keith at that time interviewed Baird and Baird wanted twenty five hundred dollars before he would tell us anything; that we told Baird we would not give him twenty five hundred dollars; that he could give us the information for nothing or take it up with Schwarzkopf. Mr. Tamm stated that he could not find anything to show that this was referred to Schwarzkopf. Mr. Tamm advised further that Mr. Nathan was in New Jersey in November, 1933 at which time he talked to Schwarzkopf about this matter again. Mr. Hoover told Mr. Tamm to secure from Mr. Nathan the details of the two conversations he had with Schwarzkopf.

Mr. Tamm read to Mr. Hoover excerpts from several newspaper articles concerning impeachment proceedings against Governor Hoffman on Monday. Mr. Tamm read to Mr. Hoover an article concerning announcement made by Mr. Nathan relative to Alvin Karpis. Mr. Tamm stated that he believed that Mr. Nathan told Colonel Gates that he had no comment. Mr. Hoover instructed Mr. Tamm to have this verified; that nothing should be given to Colonel Gates or to Mr. Nathan.

and it was discovered that he had not been employed by anybody and was only attempting to make the headlines. Mr. Hoover advised that the subject be given a thorough talking to and made to understand the gravity of his acts.

Mr. Hoover requested Mr. Tamm to have a talk with Mr. Carusi on what he should explain was a confidential matter which Mr. Hoover had asked him, Mr. Tamm, to discuss with Mr. Carusi; that Mr. Hoover is disturbed over what appears to be a leak of information in the Department concerning the Weyerhaeuser case; to ask Mr. Carusi if it is possible if anyone but himself, the Attorney General, or Mr. McMahon could possibly have known that anything was impending in the case; that Mr. Hoover has been approached at Miami through the wires reaching there that the press boys at Washington have been told to stand by for an expected break in the Weyerhaeuser case; that this will result in front page publicity and will ruin any possibility of apprehending Mahan; that Mr. Hoover is very much concerned about it and to ask Mr. Carusi to check with Mr. Snyder and Colonel Gates to make certain that nothing has even remotely been said to the press indicating that something may break. Mr. Tamm stated that he had a request from Mr. McMahon to telephone him and Mr. Hoover instructed Mr. Tamm to mention the leak to Mr. McMahon also.

Mr. Tamm informed Mr. Hoover that Mr. McMahon wanted to ascertain if the Bureau wanted to have the provisional detention papers that have been drawn up forwarded to the United States Attorney. Mr. Hoover suggested that an effort be made to secure the papers and have them sent to Mr. Connelley by air mail to be delivered to the counsel. Mr. Tamm stated that he had told Mr. McMahon to hold the papers until tomorrow as he did not believe it would be necessary to have the provisional detention papers if Mahan was apprehended. Mr. Tamm stated that Mr. McMahon expressed concern about the leak of information and stated that he believed it did not come from his Division.

MEMORANDUM

The following is a verbatim transcription of a telephonic conversation between Mr. Tamm and Mr. Hoover:

Tamm:

Carusi telephoned me and asked me to come right around there and bring my hat & coat. I went around there, and the Attorney General said he had had a call from Chief Justice Hughes who asked that he come up to discuss a matter, and that he bring you (Hoover) along, and that in your absence, he wanted me to go up there with him. I went up to the Supreme Court Building, saw the Chief Justice with the Attorney General, and the story briefly is as follows: On Saturday February 8, 1936, there was found in the cafeteria of the Supreme Court Building a woman's pocketbook. It was turned over to the Captain of the Guard, and he opened the pocketbook for the purpose of ascertaining the identity of the owner. In the pocketbook there were found a number of typewritten letters. One of the letters was addressed "Charles Edward Hughes" with the salutation "Dear Charlie". It was signed [redacted], and then went on to say in reproaching terms that he had come clear up to Washington to hear the TVA decision on that Monday and was disappointed that it hadn't been handed down. The other letter, which was a long typewritten letter, was addressed to [redacted] and was signed "Charlie", evidently for Charles Evans Hughes, and went on to say that the TVA decision would be handed down in due course, and would be in favor of the power interests, that is, against the Government. It referred to each of the Justices by their first names, etc. In checking into the matter, they found that [redacted] who is supposed to be the correspondent in these matters, is a high official of the Commonwealth Southern Company, and of the Alabama Power Company, which are the power interests pushing the TVA suit. About an hour and a half after this happened, a woman walked into the office of the Captain of the Guard and asked for her pocketbook. She described it, they confronted her with these letters, and under pressure she claimed that she as a stenographer had had those letters dictated to her by [redacted] and that it was all a joke. This woman's name was found to be [redacted]. She, it turns out, was working temporarily as a stenographer or secretary to Mr. [redacted], who is [redacted] and [redacted] was [redacted] secretary. She admitted writing the letters, claiming that she wrote them at the dictation of [redacted] and that it was all a joke, and thereafter this man [redacted] came into the office of the Captain of the Guard and said that the thing was all a joke, and that he wished they would tear up the letters. Monday, [REDACTED] came back and asked them not to report this matter to the Chief Justice. Of course, it was reported to the Chief Justice on last Monday, which was the 10th, but Justice Hughes said in view of the fact that the case was pending, the only person to whom he could refer the matter for proper investigation was the Department of Justice; in view of the relationship of the Attorney General as opposing counsel to [REDACTED] he didn't want to do anything on it until the decision was handed down. The decision was handed down today, and he called the General this afternoon. He says that [REDACTED] is supposed to be a very high-class reputable attorney, and that certainly if he were honest and sincere in this matter, the first thing he would have done when this was brought to his attention was to come to the Chief Justice, and explain that he had nothing to do with it. [REDACTED] was occupying an office in the Supreme Court Building which had been supplied for him to do his work in the library, etc., but he never came near the Court about it. The officials at the Capitol haven't done much, but the Captain of the Guard up there has had a little discreet check made to see who this [REDACTED] woman is. She is a divorced woman from Birmingham * * *.

Hoover: What does the Chief Justice want?

Tamm: He wanted a complete investigation to see who wrote the letters, who dictated them and why, and a complete investigation into all the facts with criminal prosecution or disbarment proceedings if any attorney is involved. He says that * * *.

Hoover: The way it looks to me is that here is some individual who wanted to appear as a "big shot", and wanted to impress the other members of the company or the association as a "big shot", and he had this letter written using these familiarities, calling the Justices by their first names, and indicating that the decision was going to be against the Government, which everybody assumed that it was going to be. If it had come out that way, and the decision had been against the Government, and the letter hadn't been found, this fellow probably would have been in the position to get a nice slice of money out of these utility companies. It strikes me that what you ought to do is to get hold of this woman and get a sworn statement from her, advising her of her legal rights, of course. I would ask her what she wrote it on and where it was written, so that you can get the machine. What I would do is to get hold of her right away * * *

Tamm: Here is what I have done - I have taken the letters up to the Laboratory. You see, there are two originals of the letter signed "Charlie". One of them, after dictation, has had a number of penciled inter-lineations writt

2/17/36

on it.

Hoover: But the point that strikes me is there is not much use of wasting with Laboratory if we can get the woman to make the statement and if she will produce the typewriter. Of course, if she lies, our Laboratory can prove it, but my idea would be to get her and take a sworn statement from her, and then I would get hold of this fellow [REDACTED]

b7c-1 Tamm: Well, [REDACTED] is in Birmingham now. He was up here as a spectator in the Court on December 19, 1935, and from the information available now, he wasn't up here at any other time.

Hoover: Now where is [REDACTED]

Tamm: [REDACTED] is back in Birmingham also.

Hoover: Now my feeling about it is this: I think that we ought to send some damn good men down to Birmingham.

Tamm: Here is what I have done so far. We didn't get this until after five o'clock. I have sent Louis Loebel up to see Captain Crooks of the Guard at the Capitol, and to see United States Marshal Green of the Supreme Court, who has had his thumbs in it a couple of times, to get all the facts so that we can confront this woman with something tangible, and then get a sworn affidavit * * *

Hoover: Don't let that woman get out of Washington.

Tamm: You see, this happened last Saturday, and we don't know where this woman is at this time. They have had over a week since the matter was brought to the attention of the Chief Justice. She was working for the Resettlement Agency here a week ago, and there has been no indication that she has moved out.

Hoover: I would locate her and keep her under surveillance so that we won't lose track of her, until we get the facts to serve as a basis to question her. Now, when is Mr. Nathan going to be done at Buffalo.

Tamm: Nathan is leaving at eight o'clock, and will be there tomorrow, and he wants to come by New York on the way back * * * (record ran out).

b7c-1 The following is by dictation from Mr. Tamm: Mr. Hoover instructed that Mr. Whitley be brought down from New York to work on this matter with Mr. Loebel; that an immediate surveillance be placed on the [REDACTED] woman so that if she attempts to leave Washington we will know about it; that an immediate check be made at Birmingham

2/17/36

to ascertain whether [redacted] and [redacted] are there.

Miss Gandy took the telephone at this point, and Mr. Hoover said that when he talked to Washington on Saturday evening last, he forgot to have the charges reversed. He said that the operator down there said it was too late to have the matter reversed down there; that Mr. Quinn should take this matter up with the telephone company here in Washington and get the charges placed against the Bureau in Washington.

Mr. Hoover was advised of the call from Congressman Doughton of North Carolina concerning the speech, and he said he would be unable to make this speech, and said for the Congressman so to be notified.

Mr. Hoover was advised that the inquiry from Miss V. Cummings, writer for the Washington Post, concerning the number of women's fingerprints in the Identification Division was referred to Mr. Suydam.

Mr. Hoover was advised of the call from Dr. Corbett of New York, the call from Mr. Samford of Lubbock, Texas, the request of Colonel Gates for a copy of the November issue of the FBI Bulletin, the call from Francis Connor thanking the Director for the copy of the release on Robert Lee Cohen, the call from Captain Trevor from New York. Mr. Hoover instructed that Miss Gandy get in touch with Captain Trevor in New York and advise him that if the Captain wanted to talk with him, Mr. Hoover, he could be reached in Miami. He was further advised of the call from the Washington Daily News wanting additional information on the Robert Lee Cohen case, the personal call from "Turkey" the baseball mascot who, with [redacted] of his, wanted to see the office, the call from the Bureau of Prisons concerning the request of Mr. John Harling of the Milwaukee Leader to be placed on the list, the call from Mr. Gordon of the News stating that Karpis was supposed to have been at the Hamilton Hotel here in Washington (this was furnished to Mr. Hoover in detail by Mr. Tamm), the request of Mr. Francis Gray, general secretary of the Y at Saginaw, Michigan, to be remembered to Mr. Hoover. Mr. Hoover was furnished with his request, with the address of Mr. Manning Marcus here in Washington. He was advised of the fact that Special Agent J. J. Perkins died in Muskogee, Oklahoma, and that a wire had been sent to his wife, and that an Agent of the Oklahoma A. C. was being sent with the body from Muskogee to Boston, where it will be buried. Mr. Hoover was advised that the basketball team of the Bureau won the first half of the Community Center League, but lost a game to the YMCA at Baltimore.

Mr. Hoover was informed of the letters received from Congressmen McMillan and Gary thanking him and telling him what a wonderful time they had when they were visiting the Bureau, the letter from Jimmie Cochran written on the bottom of a letter from Mr. Marsh. Mr. Hoover requested that this letter be sent to him, whereupon he was advised of the situation with reference to getting mail down to him as soon as possible. He was advised of the letter from Miss LeHand at the White House.

Mr. Hoover said he would authorize, if necessary, the placing of the gymnasium equipment and supplies in rented space. Mr. Hoover was advised of the fall which Mr. Dickason of the Butte Office took, and of his being in the hospital, and he asked that the usual letter be prepared to Mr. Dickason telling him to take care of himself, etc.; of the Rex Collier matter; of the inquiry made upon the Attorney General by Mr. Everett Holmes for a comment upon the splendid work the "G-Men" are doing to use in introducing SAC Richmond at a banquet - negative comment by Mr. Hoover.

Mr. Tamm took the telephone here and advised Mr. Hoover of the proposed release of the information on the individuals in custody in Chicago. Mr. Hoover approved the release of this information, and cautioned that we should get at least 50% of the credit. He was advised that Mr. Whitley would be down tonight to work on the Supreme Court matter, and that the Birmingham Office is already conducting necessary investigation in that district.

X-press-tapping

Mr. Quinn then talked with Mr. Tolson and advised him that the resignations had been obtained without difficulty; of the situation with reference to the boy in whom SAC MacFarland is interested; of the situation with reference to the girl who was recently married, and who Mr. Edwards recommended be placed on probation, and Mr. Tolson instructed that her resignation be requested; of the situation concerning the physical condition of Willie Tucker. With reference to Willie Tucker, Mr. Hoover advised that his wife is the cook in his home, and he wanted the definite facts concerning the matter at once. Mr. Tolson instructed that the physical examinations on the other colored employees of the Bureau, particularly those in the Director's Office, be given without further delay.

36

Mr. Tamm later talked with Mr. Hoover and advised him of the favorable publicity resulting from our finding Robert Lee Cohen. Mr. Tamm advised Mr. Hoover of the request of the Tulsa Police Department for the Bureau to place a certain telephone tap in Tulsa, Oklahoma, and Mr. Hoover approved this, adding
