Brent H. Hughes, Visual Information Specialist, Exhibits Section, who was in charge of the packing and moving of the contents of former Director J. Edgar Hoover's office in May, 1972, advised that the material designated by Miss Helen W. Gandy to be retained by the FBI had been placed in storage in the Taylor Street warehouse in 1972 and was subsequently moved to storage in the General Accounting Office (GAO) Building and then to the Old Post Office Building. This quantity of material is presently located either in the Old Post Office Building or in the J. Edgar Hoover Building under the control of the Exhibits Section.

In April, 1976, G. S. McMichael prepared a memorandum recommending that the Exhibits Section review the list of awards that hung in the corridor of the former Director's office to determine whether or not they should be destroyed. Subsequently Director Kelley reviewed the list of awards and noted on a memorandum that he did not feel these items need to be retained. Consequently Hughes went to the Old Post Office and identified most of the awards, which were contained in 10 boxes, and brought the 10 boxes over to the Exhibits Section in the J. Edgar Hoover Building. These items were reviewed by Bob Hewitt of the Exhibits Section for possible salvage value before considering further disposition and a listing of each item with a description of its condition and possible salvage value was prepared. Some discrepancies were found in the listing of awards which had been possessed by Mr. McMichael, and Hughes believed these few discrepancies occurred because changes were frequently made in the awards to be displayed in the Director's suite by Miss Gandy without any related change being made in the inventory.

After these awards had been reviewed by Hewitt, another listing was prepared by Larry Massie and it was decided that none of the items should be disposed of until after a legal opinion had been obtained regarding ownership. The original cartons were destroyed because of their poor condition and the awards were reboxed in 18 cartons, which are presently stored in the Exhibits Section.

Hughes also has an inventory of items that were on display in Director Kelley's office in the Justice Building in 1975 prior to the move to the J. Edgar Hoover Building. This inventory includes 22 boxes of trophies and display items as well as other property, and all of this inventory is also in storage in the Exhibits Section.

## FEDERAL BUREAU OF INVESTIGATION

Date of transcription 10/7/76

F. Thomas Peyton, Visual Information Specialist, Exhibits Section, advised that the selection of items to be moved to former Director J. Edgar Hoover's house from his office following his death in May, 1972, and those items which were to be retained by the FBI was made by Miss Helen W. Gandy, former Administrative Assistant to Mr. Hoover. Peyton said that personnel from the Exhibits Section did the packing, and Bob Marsden and Tony Codi were responsible for moving the material.

He recalled that the material in FBI storage was moved from Taylor Street warehouse to the General Accounting Office (GAO) storage but he did not recall when this occurred or the reason for the move. This material was primarily for Peyton's use in building the new FBI tour route for the J. Edgar Hoover Building, which was under construction. He believed all of this material was moved into his space in the Old Post Office Building about November, 1973, and after it had been there for some time, a stockade was built in the warehouse area so that this material could be given appropriate security. Peyton said at one time consideration was given to establishing a room in the J. Edgar Hoover Building for display of the many items that are included in this material, but that this idea never materialized and consequently these items are still in storage in the Old Post Office Building.

He does not know of any movement of these items other than for official purposes in connection with his work, and he does not know of any items being added to or taken from this material other than for official purposes. Peyton believed that Ray Schaeffer helped move this material from GAO storage to the Old Post Office Building.

Miss Helen W. Gandy, Apartment 915, 4801 Connecticut Avenue, N.W., Washington, D. C., former executive assistant to former Director J. Edgar Hoover, FBI, furnished the following information:

Mr. Hoover died on May 2, 1972, and she believed that beginning the next day and for several days thereafter she was responsible for having the contents of Mr. Hoover's suite packed and moved out of his office so that his successor could take over this office space. She received assistance in this work from the staff in the Director's Office and from Tom Peyton and Brent Hughes of the Exhibits Section who brought in their employees to assist in the packing. She decided which items were Mr. Hoover's personal property that he would have wanted to keep himself and which items he would have considered to be FBI property or he would have wanted turned over to his successor as the property of the FBI. She made these decisions based upon her understanding of the wishes of Mr. Hoover. Miss Gandy said that the property that was left with the FBI included the official and confidential files about which she had previously been interviewed in 1975, and also included the newspaper clippings, editorials, editorial cartoons and photographs which constituted a history of the FBI. She commented that the newspaper clippings, editorials and editorial cartoons should be FBI property as they were used as reference material in the Director's Office. In addition, there were numerous awards, plaques and certificates which Mr. Hoover had received as head of the FBI and which she believed he would have wanted retained by the FBI as a part of the historical records. She said that some awards, plaques and cartoons had been taken to Mr. Hoover's home when he was alive and that she believed such items would have been personal property as he displayed them in his home.

She did not recall receiving any instructions as to which property should be sent to Mr. Hoover's house and which property should be retained by the FBI but made these decisions based on her understanding of Mr. Hoover's wishes. She was informed that included in the property in FBI storage were four stamp albums, and she stated she had no recollection of these stamp albums. She was also informed that Mr. Hoover's gray

hat was included among this property, and she did not recall leaving the hat. Shortly after the interview she telephonically contacted Inspector Devine and advised that the hat presumably had been left to James Crawford along with other clothing mentioned in Mr. Hoover's will.

The personal property of Mr. Hoover was all at his house when an inventory was made by appraisers for the District of Columbia in July, 1972. The only items that were in the house which were not included in the inventory for the appraisers were eight boxes of books and possibly interesting case write-ups in black binders which had been delivered to Mr. Hoover's house in error. She had packed these boxes with the books which had been in his conference room and subsequently discovered them at Mr. Hoover's house. She told the appraisers about them and said that the eight boxes were to go back to the FBI. She made a note on her calendar on July 17, 1972, showing "8 boxes to crime records." She believed that these boxes were picked up by SAC Robert Kunkel of the Washington Field Office and delivered to the former Crime Records Division at FBI Headquarters. She commented that Mr. Kunkel had picked up boxes of Mr. Hoover's personal papers for destruction at the Washington Field Office, and her calendar has the following notations relating to the removal of these personal papers:

5/25/72 - R. Kunkel - 6 boxes

5/31/72 - R. Kunkel - 6 boxes

7/3/72 - R. Kunkel - 8 boxes

7/14/72 - Finished disposal of personal papers

7/17/72 - R. Kunkel - 2 boxes - and 8 boxes to crime records (books)

Miss Gandy stated that she thought that a memorandum was prepared by Erma Metcalf, former administrative assistant to Mr. Hoover, about the inventory of Mr. Hoover's office and where everything went; however, she was not certain that this was done or if the memorandum ever went to file. She also thought that there may be a copy of the inventory of Mr. Hoover's office in the files containing his personal business data which are presently located at Mr. Hoover's house.

Miss Gandy volunteered that an article which appeared in the "Washington Star" about October 1, 1976, which reported that she had told House Committee representatives that editorial cartoons of Mr. Hoover's were hidden at the FBI to avoid paying estate taxes was untrue as she had

never made any such statement. She said the alleged tax conversation never occurred and that she never gave a thought to taxes while taking care of Mr. Hoover's property after his death and she knows nothing about taxes. She said the article also claimed that she was in her "60s" whereas she is age 79.

Miss Iona G. Swann (retired), 2600 Keating Street, Hillcrest Heights, Maryland, advised telephonically that she was formerly employed as librarian in the External Affairs Division at FBI Headquarters. She advised that following Mr. Hoover's death on May 2, 1972, the library received six or eight boxes of material from Mr. Hoover's residence. Delivery was made by FBI messengers and included were some books which had been autographed to J. Edgar Hoover, some interesting case write-ups, and possibly a copy of the Warren Commission report.

She did not personally review all of this material and it was stored on a continuing basis in the shipping boxes until removal from External Affairs space during December, 1973, when it was sent to Quantico, Virginia, along with other material which had been accumulated for possible consideration for retention and use by the library. Miss Swann did not recall the exact date of delivery but stated that it was a month or two following Mr. Hoover's death and definitely during the Summer of 1972.

Material had been sent from Mr. Hoover's residence pursuant to instructions of Miss Helen Gandy. After determining the general nature of the contents of these boxes she did not examine each one specifically in order to determine exact nature of the overall contents inasmuch as she was convinced there was not a great deal of material other than the autographed books, which would be of any significance to the Headquarters library.

Miss Sandy Coupe, Librarian, Quantico, Virginia, telephonically advised that she was employed in the library at Quantico at the time of Mr. Hoover's death during 1972. She was aware that some material, including books which had been autographed to J. Edgar Hoover as well as interesting case write-ups mounted in binders and other material of archival interest, had been sent to the Quantico library from External Affairs Division.

To the best of her recollection, some of this material was shipped to Quantico within a year following Mr. Hoover's death, and other material was delivered from Headquarters as late as August, 1976. The material was stored in the basement at Quantico until such time as it could be reviewed and placed in appropriate spots for use or storage. The material remained stored in shipping boxes until such time as it could be reviewed by library personnel, who then determined what use should be made of it. Some books were placed in a reference room while other material, such as interesting case write-ups, were placed in file cabinets and on shelves in storage space maintained in the basement of the Library Building. Miss Coupe had no idea how many boxes were involved overall because shipments were made at different times and concerned items which had been relocated due to loss of space by the library at FBI Headquarters.

Miss Coupe advised she could not furnish any additional information but was of the opinion that Mr. Clark S. Shoaff (retired), former librarian at Quantico, could furnish additional details. She stated he is presently employed at the Navy Federal Credit Union, Washington, D. C.

Mr. Clark S. Shoaff, presently employed as Employment Development Specialist, Navy Federal Credit Union, Navy Yard, telephonically advised that he was the original librarian at the FBI Academy, Quantico, Virginia, and served in that capacity until his retirement during July, 1976.

During December, 1973, a quantity of material was delivered to Quantico from FBI Headquarters when the library lost space and had to dispose of material which had been accumulated. This material was sent to Quantico for review and determination as to disposition for either research or archival purposes. Among this material were binders incorporating interesting case write-ups, as well as related data. Eventually a number of books were also forwarded to Washington by the J. Edgar Hoover Foundation, who had purchased the books from the Hoover estate. All of this material was placed in storage and he, along with other employees at Quantico, eventually went through all of the boxes to determine relativity and whether they should be placed on the shelves or in reference locations. After review it was determined that the boxes of interesting case write-ups were not determined to be of current interest and to the best of his knowledge they remain in basement storage space at Quantico. Some books which had been personally autographed to J. Edgar Hoover were placed on shelves in a reference room in the main library for research purposes.

Mr. Shoaff advised that he was not aware of the exact number of boxes containing interesting case write-ups which had been received inasmuch as this material had been comingled with other materials accumulated by External Affairs.

Robert B. Marsden, Printing and Space Management Section, Administrative Services Division, advised that he was in charge of assigning manpower to move the contents from the office suite of former Director J. Edgar Hoover shortly after Mr. Hoover's death, May 2, 1972, and for the storage of these items. The contents of the suite were moved either to Mr. Hoover's residence or to FBI storage space in a warehouse on Taylor Street in the District of Columbia. He exercised no judgment in determining which items would go to which location, but it was his general recollection that the boxes were marked for delivery to either Mr. Hoover's house or Taylor Street and employees made the deliveries as instructed. He is not aware of any items being misdirected to either place and has no knowledge that any boxes were ever delivered to Mr. Hoover's house and subsequently transferred to any FBI storage facility.

Marsden recalls that Mr. Hoover's desk and furniture from the conference room as well as 40-50 cartons were placed in storage at the Taylor Street warehouse. Sometime thereafter, believed to be a few months later, concern for the security of these items was expressed by former Associate Director Nicholas P. Callahan to Marsden and it was decided that the items from Hoover's office would be moved from Taylor Street storage to FBI storage in the General Accounting Office (GAO), 5th and H Streets, N.W., where FBI employees were on duty full time. He did not supervise this move, but gave instructions to Anthony A. Codi, warehouse foreman, to make this transfer.

Sometime later, perhaps one year, Marsden received a request from Tom Peyton of the Exhibits Section to move the items from Mr. Hoover's office to the Old Post Office Building, where Peyton was working on a new tour route for the J. Edgar Hoover Building which was nearing completion of construction. He does not know the date of this move; however, James Codi was in charge of storage at the GAO Building and may recall when this move occurred. He does not believe there was any record made of the move as work orders were never obtained for work in the Director's office and work orders are kept for only one year.

Anthony A. Codi, Warehouse Foreman, Printing and Space Management Section, Administrative Services Division, advised that he was responsible for maintaining FBI storage facilities in May, 1972, and recalls that property from former Director J. Edgar Hoover's office was placed in storage at Taylor Street warehouse in May, 1972, to be retained until the Exhibits Section wanted this material. He recalled that this material was moved from Taylor Street after a few months because of security problems and moved into storage at the General Accounting Office (GAO) Building. He believed it was about a year later when this material was moved from the GAO Building to the Old Post Office Building, where the Exhibits Section had obtained space to prepare a new tour route. He believed his instructions for moving this material came from either Robert Marsden or Tom Peyton.

Codi does not know of any material being added to or taken from the original shipment of items from Mr. Hoover's office in May, 1972.

James Codi, Warehouseman, Printing and Space Management Section, Administrative Services Division, advised that he was in charge of storage at Taylor Street warehouse and the General Accounting Office (GAO) Building from July, 1972, until February, 1975, when he moved to the J. Edgar Hoover Building and the other two facilities were closed.

Codi recalls receiving a substantial amount of furniture and boxes from former Director Hoover's office for storage at Taylor Street in May, 1972. He recalled that this material included two chairs, one red and one green; two or three wooden crates; and three skids of cardboard boxes. One skid contained 35-40 boxes; one skid contained 20-30 boxes; and one skid contained about five large crates or boxes. Codi recalled that these items were moved from Taylor Street about November, 1972, because the windows at Taylor Street were being popped out by vandals and security was better at the GAO Building. The total quantity of material from Hoover's office was moved to the GAO Building, where it was in storage until the Summer of 1973, and the total quantity of merchandise was then moved to the Old Post Office Building. He believed the instructions for the move came from Tom Peyton of the Exhibits Section.

Codi said that nothing was added to or taken from this total shipment during the time it was in storage and delivered to the Old Post Office Building.

Mrs. Kathryn F. Oyler, Secretary, Space Management Unit, Administrative Services Division, advised that she was former secretary to John P. Dunphy from 1966 to 1976. She recalled that Brent Hughes and personnel from his Unit packed the contents of former Director J. Edgar Hoover's office in May, 1972. Hughes and Tom Peyton were primarily responsible for packing and moving the contents of this office. She does not recall seeing any inventory for the items removed from former Director Hoover's office.

In 1973, Dunphy was in charge of the Building Unit, which moved to Room 331, Old Post Office Building, about April, 1974, and Tom Peyton, who was responsible for building the new tour route for the new J. Edgar Hoover Building, was downstairs in other space in the Old Post Office Building. She therefore believed that Peyton was in the Old Post Office Building for part of 1973, all of 1974, and that everyone from the Exhibits Section moved into the J. Edgar Hoover Building in July, 1975.

She recalled that editorial cartoons were frequently received from the Director's Office for mounting by the Exhibits Section. The only inventory of any items of which she is aware is one which she assisted Roy Rose of the Exhibits Section in making concerning contents of Director Kelley's office in May, 1975, prior to moving his office to the J. Edgar Hoover Building. This was an inventory of awards and trophies which were subsequently moved from the Director's Office, and she believes they are presently located in the Exhibits Section.

She also typed an inventory of items placed in various boxes, recorded the box number, and gave the inventory to Miss Helen W. Gandy. She does not know if this inventory record was retained in official records.

Miss Mooney stated that she kept a substantial volume of news clippings, editorials and photographs which were all included in the boxes packed at that time, and that the purpose for keeping these items, according to Miss Gandy, was to retain a "history of the FBI."

Mrs. Rita H. Manning, Research Unit, External Affairs Division, advised that she was employed in that Division at the time of Mr. Hoover's death on May 2, 1972. Although she did not work in the library at that time, she was in and out of that area on a daily basis and was aware of activities which took place.

She was aware of the delivery of a number of boxes from Mr. Hoover's residence a month or two following the death of Mr. Hoover, which boxes contained binders incorporating interesting case write-ups as well as some books. She was of the opinion that the contents included some books autographed to J. Edgar Hoover, some binders incorporating interesting case write-ups as well as other binders made up of glossy prints of editorial cartoons, and possibly a copy of the Warren Commission report. She further advised that these boxes were stored in the library with some of the books being placed on the library shelves and the remaining material continuing to be located in the boxes in which it had been shipped. Some of this material was subsequently routed to the library at Quantico, Virginia, during December, 1973, when the library lost some space, and the remainder, if any, was ultimately sent to Quantico during August, 1976, when space in the new building was turned over to the Office of Legal Counsel.

Although she is very much aware of the existence of the boxes of material which had come from Mr. Hoover's residence, she was not aware of the date of delivery, but felt that Miss Iona Swann (now retired), who was formerly librarian, could furnish more complete details.

Willdebrandt nor any other specialist The prosecution was carried on by Willdebrandt early employed as an investigator in the Department of Enforcement. Consider then, the fact that the investigator was a Willdebrandt County bar who know every case that sits on the side-lines.

There will be no missing witnesses, as was the case in the trial referred to, when Saul Grill was absent and a certificate stating that he had typhoid fever served as his proxy. The certificate could not testify in corroboration. It would be just like John Hoover, if a witness was reported to be sick in, say, Chicago, to look for him strutting in the lobby of the Pennsylvania hotel in New York City. He just does the unexpected and is usually correct.

There are a number of other indictments in the same group as was beaten by Friedman. No move has been made as yet to quash them and if they are tried, more facts may be brought to light, providing the legal array on the government side is equal to that of the defense. But, with no intention of belittling the work of prohibition officers, the outcome would be definite if Department of Justice men ever had obtained \$25,000 bribe money at the time of making arrests, marked for evidence. They did not fizzle in the Guggenheim whisky cases, the Cincinnati convictions and all others they were connected with.

It is known that a number of firms are now planning operations here, making preliminary plans for quotations and wires, rental of operating offices, employment of experienced managers and clerks and so on, so that not a day of the promised golden harvest will be lost when the "blue sky" regulation fails.

The activities of Einar Barfoid have been hotly criticised in circles other than the realm of bucketshop men, on the contention that he exercises individual discretion instead of being guided solely by rules of the bureau. A Pittsburgh bucketshop concern recently gained a license by court decision, over his ruling. While making the fight against Barfoid, this concern continued its business during the entire time litigation was in progress and court decision pending. A requirement that the broker applying for a license state, among numerous other things, his exact assets, was not to the liking of the broker. Barfoid, of course, maintains that he conducts the bureau as he is charged to conduct it. However, he has aroused the ire of a great many

Some New York men of unusual energy have been getting around the State permit ruling recently, exploiting curb stocks, listed and unlisted, in this city, by telephone. While solicitation of business is absolutely prohibited, these sharpshooters have been taking a chance and have been illegally making some money—for themselves. They live at the best hotels and do their work with the telephones in their rooms. Approximately from fifteen to twenty of these Wallingfords are said to be operating in Pittsburgh all the time. A request to show permits would be the signal for a hurried exodus by the whole mob. Of course the Pittsburgh public is being fleeced.

In a coming issue THE GRAPHIC will print a report on the movement, which the bucketshop men hope will disrupt the State Banking Commission's control of brokerage houses, regardless of the corrective intention behind it, as well as the legislative procedure in this connection.

Recognizing the financial news field as one to be seriously observed, an investigation will be made of the various radio stocks now being floated, riding on the flood of radio practicability, but some of them floated only for the returns that will ensue from stock selling. In such ventures, about two per cent only of the price of each share, finally filters into company operations. The bulk of the returns goes to the firm bringing out the stock issue, the wholesalers in different sections of the country and the brok-

## EDITORIAL

### A Sensational Trial—And Its Lesson

A trial in the Federal courts recently, deeply concerning a number of citizens, some prominent and some not so prominent except that they have plenty money, seems to have been slighted in the way of having recognition for its true importance.

There is no intention by THE GRAPHIC to dig up past history, nor to lean toward the sensational, either in news or editorials, unless it so happens that by doing so something of worth might be achieved.

The reference to this trial, ending in the acquittal of Maurice Friedman, indicted on many counts, is made because it shows plainly that disrespect of constitutional law will continue to increase unless there is an improvement in the manner of handling important cases.

Had the Department of Justice worked up the case in point, which involved a number of individuals and practically all the breweries hereabouts, the progress of the trial would have been different. This fact must be admitted. Moreover it must also be admitted that an oft-repeated demand for Department of Justice men to take charge of law violations in this city is the one thing necessary to a clean-up.

When the indictments in this case were being considered, they received the personal attention of Mrs. Willdebrandt, representing the attorney general's office. Mrs. Willdebrandt has all cases concerning prohibition in her charge in Washington and she came here especially for the noted bribery cases because of their great importance.

Unfortunately neither Mrs. Willdebrandt nor any other specialist came here to take part in the trial. The prosecution was carried on by a man who, while a lawyer, is regularly employed as an investigator in the Intelligence Unit of Prohibition Enforcement. Consider then, the proceedings of the trial, especially remarking that the investigator was up against two lawyers of the Allegheny County bar who know every trick of the game. Federal attorneys sat on the side-lines.

There was the alleged bribe money—\$25,000 in bills—marked for identification and lying on the table as exhibits. (By the way, who gets this tainted money?) Then there was the testimony of parties, of beautiful women, of luxurious quarters in a hotel, of drinking and carousing and, finally, of negotiations resulting in packages of greenbacks intended as bribes being slipped under pillows, to be found by the "brib-ee."

"Evidence of a sensational character was given," said one of the daily newspapers—and this was absolutely correct.

The point of all this is that had the case been prepared by Department of Justice men, trained in this work, who can make their evidence stick notwithstanding assaults made upon it, much more would have been elicited in the trial. It was worthy of attracting national attention as it was. Consider what would have been the result if the member of the Intelligence Unit who acted as trial lawyer would have had the assistance of able prosecuting attorneys, or, even, if those federal attorneys who were spectators had helped with the prosecution.

Much of the evidence fell down. It is one thing for certain events to take place; it is quite another to prove in court that they took place, especially when a defendant has able criminal lawyers looking after him. One way of making sure of proving facts in court is that they be prepared into a case by trained men. Real investigation takes only what is necessary to convict.

Prohibition enforcement officers are not, strictly speaking, trained men. Department of Justice men are. Enforcement men come from various walks of life into a new business, matching wits against really smart law-breakers.

The Department of Justice man will win. He'll do his duty, too, for he does not know who his partner really is or how he stands. There is never any danger of these men settling into what are known as "mobs," working in groups so long that they become mechanical and ineffective. And this danger does confront enforcement men, for they work in groups and become sort of settled.

There has been considerable agitation in Washington to have the Department of Justice take charge of enforcement. If it ever does, there will be a big change in many cities; this one in particular. It is not unusual that big bootleggers discuss this possibility and the sage remark is made by one of them, "Well, if they ever do, I'm retired for good." And the others nod their agreement with this declaration.

There may be something come out of the agitation for a change. John Hoover is now in charge of the Department of Justice. He is unlike the old-style, melodramatic "secret service" man—as much different from William J. Burns (retired) as day is from night. Hoover is a young man, but with plenty of experience. He has as large a capacity for work as is accredited to Will Hays, with tremendous dynamic force. No one would ever take this human dynamo for a detective and that's in his favor. But if ever John Hoover takes hold, pity the bootlegger or briber who is under fire. He's a real D. J. man!

## Erdemrendet Edgar E. Hoovernek

MOST kerül tárgyalás alá az a törvényjavaslat, amelyet Mead szenátor nyújtott be az Egyesült Államok kongresszusának, hogy Edgar J. Hoovert, a Federal Bureau of Investigation — mely F. B. I. néven inkább ismert — főnökét tüntessék ki érdemjellel. Mi reméljük, hogy ez a javaslat törvényerőre emelkedik, mert Mr. Hoover bőségesen reá szolgált az elismerésre, azért a dicséretreméltó tevékenységért, amelyet az F. B. I. az ő szakképzett vezetése alatt végez.

Tény az, hogy az Egyesült Államok megalakulása idején, 1776-ban és az utána következő időkben nem volt szükség F. B. I.-ra. Akkor semmi különleges rendőri intézkedések nem kellettek, mert mindent a falvakban a sheriffek, a városokban a rendes rendőrség megfelelően el tudták látni. Csak 1908 táján mutatkozott meg, hogy szükség van valamelyes egységes, szövetséges rendőri szervezetre is. Akkor szervezte meg az F. B. I.-t Bonaparte igazságügyminiszter. A következő 16 esztendőben azonban az új szervezet semmi különleges megemlékezésre méltó tevékenységet nem fejtett ki. 1924-ben Edgar J. Hoover került a hivatal élére és ő akkor szervezte át a hivatalt és tette azt, ami ma: hathatós nemzetvédelmi szervezetté, amely ily minőségében többször kitüntette magát. Az F. B. I. úgy békében, mint háborúban nagyszerű munkát végez és ezért minden elismerés kijár Edgar J. Hoovernek, aki hivatalát a kormányzás egyik legnélkülözhetlenebb ágazatává fejlesztette.

Bűnösök és bűnök üldözése terén az F. B. I. eredményeinek az ismertetése köteteket töltene meg. De miért részletke belemenni? Hiszen mindannyian emlékszünk Dillinger bandájára és arra a módra, hogy ezeket gyökeresen kiirtották, hála érte Edgar J. Hoover F. B. I.-ának. A háborúban Mr. Hoovernek és hivatalának tevékenysége fokozott jelentőséghez jutott. A nazi szabotőröknek most történt elfogatása, még mielőtt idejűk

lett volna piszkos munkájuk elvégzésére, minden dicséretet megérdemel, nem is szólva arról a nagyszerű és gyors akcióról, amellyel azokat a hundi tákat tették ártalmatlanokká, akik a szabotőrökkel szövetségben álltak, vagy meguk is szabotálók voltak.

Tegyük fel egy pillanatra, hogy nem lenne F. B. I. és a belépődött nazik hamis írsaikkal, megvesztegetésre szolgáló nagy őszeszek birtokában, elkítva robbanószerekkel és gyújtóbombákkal szétszóródhattak volna szabadon az országban és megkezdheték volna bűnös tevékenységüket. Mennyi emberélet és vagyon pusztulhatott volna ez által el. Nem csak ezt kerültük el, hanem a gazemberek és büntírsaik elfogatása egyben figyelmeztetésül szolgál a külső és belső ellenségeknek, hogy az F. B. I. szeme állandóan éberül reájuk szegődik.

Az F. B. I. ébersége és nagyszerű szervezetsége folytán megmentett emberlételek és megmaradt tulajdonok a győzelem-elérteft is siettetni fogják. És mi reánk amerikaiakra felemeljen hat az a tudat, hogy ez a föltöttünk éjjel-nappal örködő nagyszerűen irányított szervezet működését az amerikai törvények szelleméhez híven és emberséges módon végzi. Mily óriási a különbség a mi értelmesen vezetett, törvényes alapon működő F. B. I.-unk között és a totalitarius államok hasonló feladatokkal megbízott Gestapója és egyéb rendőri szervezeleik-brutális működése között. Hála Mr. Hoovernek, minden ártatlan ember, még ha idegen, vagy éppenséggel ellenséges idegen is, nyugodtan tarthatja sorsát a F. B. I. kezeiben, amely minden reájuk vonatkozó dolgokról tud és mig ez a tényleges ellenségeinkre és gazemberekre nézve nagyon kellemetlen, annál megnyugtatóbb ez a tudat minden törvénytisztelő és becsületes emberre, polgárra és nempolgárra egyaránt.

Francis J. Biddle igazságügyminiszter egy levelében, amelyet Van Nuys szenátornak írt, a kérdéscről többek között a következőket mondja:

„Levelet kaptam az igazságügyi bizottság hivatalnokától s a levélhez mellékelve volt a 2643-as számú törvényjavaslat, amit Mead szenátor nyújtott be Mr. Hoover kitüntetésére néve, amit a szabotőrök ártalmatlanná tételével és egyéb, a háborúval kapcsolatos tevékenységével, tesz indokolttá. Az elismerésnek a törvényjavaslatban megnyilatkozó különleges formája rendkívül tetszik nekem és bizonyos vagyok benne, hogy Mr. Hoover munkatársai az F. B. I.-nál és az igazságügyi departmენტben hasonlóan érznek.

Igen, Hoovert az öt megillető módon ki kell tüntetni, hogy ő és nagyszerű aszervezete tudják, hogy Amerika népe megfelelően értékeli az ő munkájukat.
