contact SA [] to ensure all potential threat information would be properly responded to and disseminated to USSS.

Austin FIG coordinated with El Paso, Dallas, and Houston Divisions FIG's regarding caption matter, established adhoc collection requirements, and notification protocols.

All threat information was shared with local partners and any classified information related to this event, was shared with the appropriately cleared law enforcement individuals. SA [] SABT [] and the Central Texas Joint Terrorism Task Force (CTXJTTF) established an Threat Information Sharing Group (TISG) to process any potential threat intelligence developed. The intent of the TISC is to CTXJTTF and/or local law enforcement will quickly react to persons/situations of interest that developed as a result of the TISC analysis.

Operations/Training:

N/A, The unexpected passing of Lady Bird Johnson, did not afford the opportunity for pre-event training. The USSS has had an established funeral plan and updating this plan annually with Federal, State, and local agencies. Federal, State, and local agencies followed established HAZMAT/WMD/Terrorism training SOP's.

SA [] coordinated, produced, and published a Concept of Operations Plan (COP). SABT [] coordinated, produced, and published a WMD/EOD Plan

Law Enforcement/Public Coordination:

FBI attended all planning/coordination meetings with Federal, State, local governments, law enforcement, and security. SA [] and SABT [] established a decentralized Joint Hazardous Assessment Team (JHAT) and conducted planning/coordination liaison in preparation for the event.

Law Enforcement/Public Coordination:

FBI attended all planning/coordination meetings with Federal, State, local governments, and law enforcement. Austin participated and manned Joint Operations Center. In addition, FBI planned, established, and managed a JHAT throughout the CLB J events. SA [] and SABT [] were in attendance for security sweeps and funeral services.

Logistics:

N/A

Communications:

The City of Austin Office of Emergency Management coordinated, established a communication plan, complete with frequencies, and a telephone contact roster. Each federal agency utilized their own radio communication nets and since a local law enforcement office and/or JTTF TFO were embedded with federal agencies, a link to Austin communication net was established.

Since all JHAT members utilized different radio systems, JHAT members recommended setting up a radio communication net for only JHAT operations and not to rely on cellular communication. The JHAT did not encounter any cellular communication issues, but felt that relying on cellular communication during an actual incident, could be problematic.

Re: 300A-HQ-C1434728-SA, 07/12/2007

Details: Request SAC San Antonio and Special Events Management Unit (SEMU) to designate the captioned matter as a Special Event Readiness Level (SERL) IV event for further interagency coordination between Federal, State and local offices due to the national and international interest, very high domestic public interest, the potential for anti-war, anti-government, anti-Bush administration protests, counter-protests, anarchist activity and a venue for extremist activities.

The following is a list of known United States Secret Service (USSS) Protectees scheduled to attend the viewing and funeral services:

First Lady, Laura Bush
Former President, William J. Clinton
Former First Lady, Hillary Clinton
Former First Lady, Barbara Bush
Former President, Jimmy Carter
Former First Lady, Rosalynn Carter

The CTXJTTF feels that extra attention should be exercised concerning captioned matter for the following reasons: 1) the viewing and funeral of Former First Lady Claudia Alta 'Lady Bird' Johnson will attract a high amount of media coverage, 2) the occurrence of a viewing and funeral for a former first lady by virtue of its profile, represents an attractive target for terrorist attack given high profile individuals in attendance and national/international media coverage, 3) should violations of Title 18 United States Code (USC) Statue 1751 occur, FBI access and detailed knowledge of subject event will assist in a proper investigation.

All of these factors combine to make subject event a target of opportunity for extremists and/or terrorist.

Special Agent (SA) [redacted] has coordinated with the USSS and advised the FBI is available to provide any and all support necessary to the USSS. USSS is leading all coordination activities of subject event.

b6

SA [redacted] has brief members of the CTXJTTF regarding captioned matter and requested special attention be paid to any information gained through their Threat Assessments, Preliminary Investigations, Full Investigations and Confidential Human Sources that produce a nexus to the location, surrounding communities, individuals, units and/or

Subject: Radio Communications Plan for Ladybird Johnson Funeral
Importance: High

Attached is the Communications Plan (ICS205) for the Ladybird Johnson Funeral.

The plan for Days 2 & 3 (Friday and Saturday) is rather straightforward and similar to other pre-planned events. Channels have been reserved and agencies are asked to move or patch event-related communications to the assigned Talkgroups.

b6
b7C
b7D
b7E
b2

The plan for Day 4 (Sunday) is more complex. The funeral procession will move from Austin to the LBJ Ranch.

[Redacted]

[Redacted] Thus, all motorcade units should be able to communicate along the route.

Because field units will be changing from one channel to another, it is extremely important they know where the channels are in their radios before they begin the trip. A specific instruction sheet has been included for these personnel. Please make sure they are properly trained before the Sunday motorcade.

A large team of communications "Techies" from [Redacted] [Redacted] has been working since last night to design this part of the system, prepare the needed equipment, and get the needed components in-place. We suspect that there may be changes needed as the event evolves later this week. We will keep you advised of any changes.

Please distribute this plan to all appropriate personnel.

Thanks!

Motorcades

Supporting Motorcades

The current President and several former First Families may attend a private reception at the LBJ Library. They are not expected to attend any of the services in Austin.

- Former First Families will require a marked lead and follow with one uniformed officer in each. It is possible that some First Families will combine their motorcades into a common body routed to the same destination. These dignitaries will likely arrive via private transport to an FBO at ABIA on the morning of Day Two or Three and then depart to ABIA at the conclusion of the reception.

Hearse & Minor Cortège Motorcade

The hearse and cortège requires various movements which should involve Austin Police Motor Units if available, based on time of day, notification advance, and prior assignment:

- From the point of death (or arrival into Austin Metro) to Weed Corley Fish South Congress
- Weed Corley Fish South Congress to Weed Corley Fish North Lamar
- Weed Corley Fish North Lamar to Wildflower Center
- Wildflower Center to LBJ Library
- LBJ Library to Riverbend Centre
- Riverbend Centre to LBJ Library

Military Protocol Vehicle

One non-caged unit should be available starting day two to escort the Military Attaché from site to site in advance of the motorcade (will need emergency lights and siren).

Funeral Motorcade (Cortege)

Additional Cortege Support

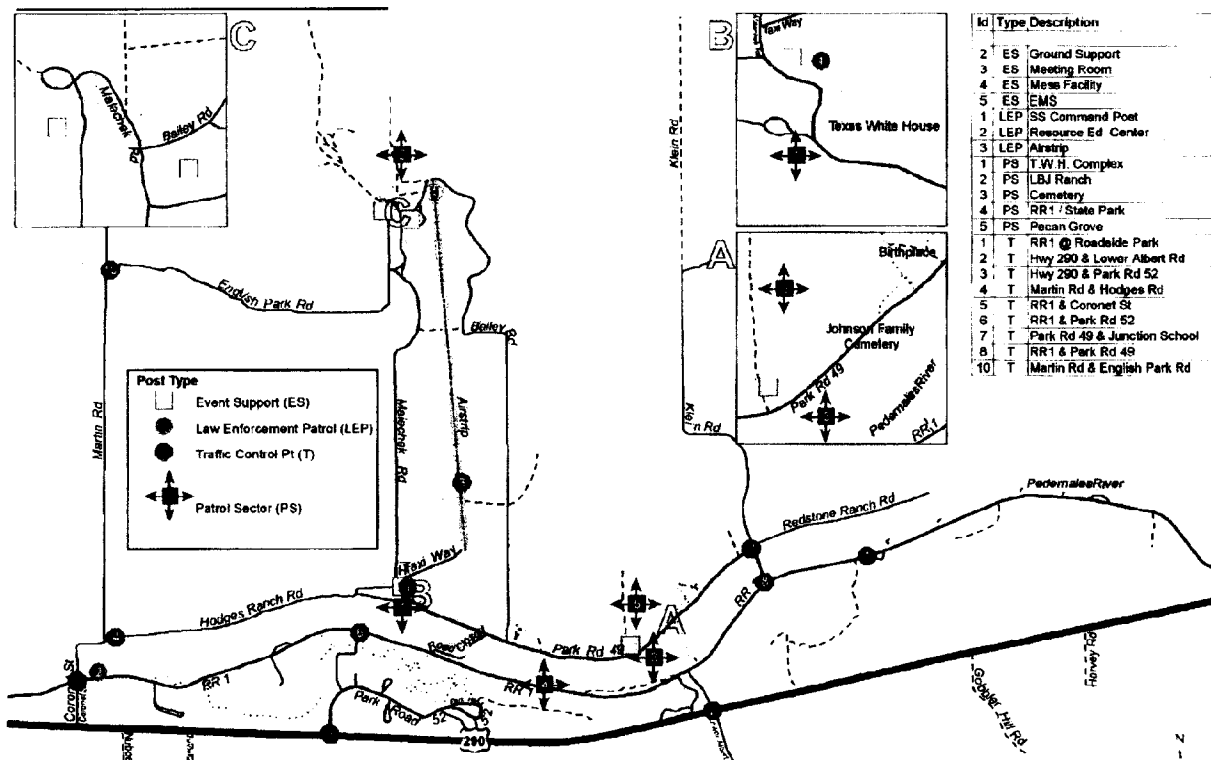

Austin/Travis County EMS will provide one ambulance for the cortege and one ambulance for the Ranch House. The cortege ambulance will depart with the motors after a short break at the State pool (on Ranch Road One). The Ranch Ambulance will stage on the gravel drive adjacent to the residence (closest to the tool shed) beginning at approximately 9:00am on Day Four and depart at the conclusion of the funeral service.

Fleet operations will include one or two fuel vehicles (which will be pre-staged at the State pool on Ranch Road One) and a motorcycle trailer which will follow the cortege at a discreet distance.

APD Aviation shall over fly the route with either a fixed-wing or rotary aircraft.

LBJ Ranch Site Control

The Special Events Supervisor and two motor officers will depart for Ranch Road One by 7:00am to work in conjunction with Gillespie County and DPS to secure Coronet Street & Ranch Road One for the procession and the pool area for motor use.

LBJ Library Lot 38

All funeral escort vehicles will stage in the LBJ Library Lot 38 (immediately to the East of the Library) by 8:15am on Day Four. The motorcade will be lined up for exit and a final briefing will be offered. The package consists of an unmarked APD Lead, hearse, and sixteen to seventeen family sedans. *No motor unit may participate in the motorcade who has not participated in APD sponsored escort training.* Those motor units showing up who have not been to training may post on the route, but may not join the procession.

Operations

Several agencies will provide marked support cars and motorcycles. The family currently expects approximately sixteen vehicles in the procession in addition to the escort vehicles. The motorcade will depart onto Red River Street Southbound to 11th Street, turn Westbound on 11th to Congress Avenue, and then turn Southbound on Congress Avenue. As the motorcade precedes Southbound down Congress Avenue from the Capitol large crowds lining both sides and extending into a lane of the street are possible. The motorcade will proceed down the centerline to Cesar Chavez and turn Westbound to Mopac/Loop 1. Turning Southbound on Mopac the procession will operate from the center lane to the US Highway 290 exit, at which point we will precede Westbound on Hwy 290. Approximately 35 miles west after joining US Hwy 281 the motorcade will make a sharp left in Johnson City back onto Hwy 290 from Hwy 281. From the time the procession turns onto Hwy 281 we expect crowds to grow. When the motorcade makes the left into Johnson City, expect there to be minimal travel room consisting of a single lane. In Johnson City we will turn left onto Avenue F, right on Ladybird Lane, drive past LBJ's boyhood home, right on Avenue H, and then return to Hwy 290. Approximately 15 miles past Johnson City the motorcade will enter Stonewall Texas and then immediately turn right onto Coronet Street (crossing Ranch Road 1 and into the ranch). The Roadway at the LBJ Ranch is narrow and parking/maneuvering room is extremely limited. Only the APD EPU Vehicle will enter from RR1, with *all other APD support vehicles continuing on to the LBJ Pool & Tennis Courts parking lot (posted by an APD Officer) to the immediate right*. APD Motor Units may acquire fuel at this location from a COA Mobil Fuel Vehicle. Restrooms will be available. The Johnson family will provide a boxed lunch to everyone present. After a short delay the Motorcade Escort will return to the city in one group. The Motorcade Escort will exit W/B (left) on RR1 approximately ½ mile past the pool & tennis courts and turn left onto Hwy 290.

Congress Avenue

If available, Officers should be utilized to assist with crowd control on Congress Avenue between 11th Street and the Congress Bridge. Intersection control should be off-set one block in each direction. Although there are no plans to use either the Honor Guard or the Pipes and Drums unit (all honors are handled through Military Guard), Congress Avenue provides an ideal placement along the processional route for any agency's Honor Guard.

Speeds, Times, and Traffic Control

The family desires the cortege to move at the speed limit whenever possible. Approximate travel times are:

- Departure 9:00am
 - From Sawyer Ranch Road to 281, 20 minutes at speed limit
 - From 281 to 290 split, 8 minutes at speed limit
 - From 290 split 12 minutes at speed limit
- Arrive 10:35am

SUBJECT: Final Tribute Operations Plan

EVENT SUMMARY

Lady Bird Johnson was born December 12, 1912. She will lie in repose for approximately 22 hours in The Great Hall (4th Floor) of the LBJ Library. Several thousand members of the general public are expected to attend the viewing. At the conclusion of the repose there will be a public service in the Riverbend Church (4214 Capital of Texas Highway North, Austin, Texas; Ph. No. 327-3540). Lady Bird will be buried in the Johnson Family Cemetery on the LBJ Ranch.

Schedule

The *Final Tribute* schedule assumes a **four-day program**. The start date will be four days prior to the desired end date. Therefore, this does not assume that Mrs. Johnson will be interred four days from her death. Events such as UT home football games, Graduation, and national holidays could delay the start of Day One. Once the official clock starts, it will continue for four consecutive days. It is possible that approximately seven to eight days could pass between the actual notification of death and the service at the Johnson Ranch.

Day Zero – Day One:

- Notification of Lady Bird Johnson's death.
- The Thomson Conference Center parking lot (lot 40) should be immediately closed. A commissioned officer should be posted at the entrance 24 hours a day until approximately 9:00 a.m. on Day Four when the ceremonial cortege departs LBJ Library for the Johnson Family Cemetery. The lot will be reserved for law enforcement, EMS and AFD equipment and vehicles participating in the Final Tribute.
