Rememo of SA [REDACTED] dated 12/15/54, captioned
as above.

Reference memorandum sets forth a survey of the office building located at 160 Fifth Avenue, wherein in Room 911, the headquarters of the subject organization is located, for the purpose of developing a highly confidential source. On 12/14/54, Assistant Director ALAN H. BELMONT approved the utilization of the source with which contact was made on 12/15/54 and assigned symbol number [REDACTED]

Regular contact has been made with [REDACTED] since then, through whom the development of [REDACTED] was made possible. He is reliable and fully cooperative. With his assistance it is proposed that [REDACTED] be recontacted.

The doors of the building are locked at 9 PM after which time no one can gain admittance. Any tenants who arrives prior to that time must leave the building at 10 PM, unless specific arrangements were made with [REDACTED]. The [REDACTED] ordinarily remains on the first floor and he will be instructed to do so; guard the entrance and admit no one. Indices contain no references on [REDACTED] the [REDACTED] who has been previously described by [REDACTED] as being thoroughly reliable and in his employ for approximately 10 years.

[REDACTED] and [REDACTED] regularly occupy the ELF office. They will be surveilled away from the office and kept under surveillance until it is obvious that they do not contemplate return to it.

Re: airtel, 12/17/53 concerning effects of [redacted]
stored at the [redacted] NYC. U

It will be recalled that [redacted]
resided at the [redacted] NYC, from [redacted] 1945, to
[redacted] 1947. Among the telephone calls charged to her at
[redacted] was one to the [redacted] NYC. U

Inquiry at the [redacted] in July, 1950,
disclosed that [redacted] maintained personal effects in
storage at the warehouse. U

[redacted] then an official at the [redacted]
extended his cooperation on July 26, 1950, and
Special Agents of the NYO examined the material in the
warehouse. At that time photographs were made of material
considered pertinent. U

On 3/15/56 the material stored by [redacted] was
again examined through the cooperation of [redacted]. U

Concerning the possible attitude of [redacted]
officials should disclosure be made that such
cooperation was extended by [redacted] employees, the following
is noted: U

In 1954, in another case associated with the NOCASE,
the same type of cooperation (examination of the stored effects
of another subject) was requested of another warehouse in NYC.
On that occasion an official of that warehouse refused to
extend cooperation citing the legal duty to their depositor,
and the adverse effect to the warehouse if such an examination
possibly became known to the depositor or to the public,
despite assurances that any cooperation would be most confidential.

On this occasion the warehouse suggested that a
subpoena be served on it, if the stored articles were to be
examined. U

[REDACTED] was recontacted on 6/6/57 and advised that from a review of photographs taken by the informant the following changes were noted in the room indicating that someone has returned to the room since the last contact with the informant on 5/22/57. The changes noted, all of which were on the work bench, are as follows: 44

A book was moved from the table to the top of the speaker adjacent to the Hallicrafter set. A safety match box which was on the work bench was moved. An adhesive tape box and self-retracting measuring rule were moved from the left to the right side of the table. Cellophane envelopes have now been placed on top of a Saran Wrap box whereas they were previously underneath the Saran Wrap box. A pair of scissors has been moved from its previous location five or six inches to the left on the work bench. A small box containing color slides was missing. Informant was unable to definitely check photographs but from a recollection it appears that the coat which hung on the closet door has been removed. 44

A check of the Hallicrafter radio set revealed that it is an SX71 set with serial number AB475506, also bearing the number 31A430. The speaker, which has been placed on top of the Hallicrafter set, bears the serial number 671742 and also bears the number NC373. It was noted that an aerial is attached to the Hallicrafter set and runs out of the window. 44
