With respect to general criminal and organized crime investigations, a search of our records has shown that until 1965 a number of surreptitious entries were made in connection with microphone installations, and authority for these installations was granted by FBI Headquarters. There are no written guidelines or policy memoranda governing approval for these entries.

In March, 1965, the Director advised the Attorney General that with respect to installation of microphones in these cases the Director would "forward to you from time to time request for microphones where deemed imperative for your consideration and approval or disapproval."

From August, 1965, until June, 1969, there were no surreptitious entries in connection with microphone installations in criminal and organized crime investigations. Beginning in June, 1969, and continuing to the present, entries have been made in connection with microphone installations pursuant to Title III of the Omnibus Crime Control and Safe Streets Act of 1968.

All entries made under Title III have been for the purpose of installing electronic devices to intercept oral communications. No entries have been made prior to the issuance of a court order. The Title III process is a joint effort between the local United States Attorneys, or Strike Force Attorneys, and FBI personnel. All procedures relative to installation are prescribed by law and are monitored by the local United States or Strike Force Attorney.

Requests for authority to conduct entries were made by field offices and approved or disapproved at FBI Headquarters on an individual case basis. At the field office level, the authority making the request was the Special Agent in Charge (SAC) or some other individual designated by the SAC to handle such matters. Requests and approvals between the field and Headquarters were handled telephonically; however, as a control device, a memorandum was prepared at both levels. In the field office, the SAC maintained this memorandum in his office safe until the next annual office inspection. Following review of these memoranda by the Inspector - to insure the field office was acting with Bureau authority in conducting entries - the memoranda were destroyed.

Requests to conduct entries were received at FBI Headquarters on the Deputy Assistant Director (Inspector) level of the Intelligence Division. The field office making a request was required to completely justify the need for an entry, and assure the action could be conducted with full security. Usually, on receipt of a request to conduct an entry, the Deputy Assistant Director would advise the field office that unless instructions were received to the contrary, the requested entry could be effected.

Although we have located no policy memoranda dealing with actions to be taken at FBI Headquarters with respect to approvals to conduct entries, it is the present understanding that on receipt of a request from the field, a memorandum was prepared outlining the facts of the request for approval of the Director, or Associate Director, FBI.

This memorandum was handled under a "Do Not File" procedure, was informative in nature, and was not intended by its author to be retained permanently. Following a period of time, the memorandum was destroyed.

In certain instances, technical guidance and equipment were needed by field offices to obtain information held by the target of a surreptitious entry. In these matters, the support of the FBI's Laboratory Division was solicited by the investigative Divisions of FBI Headquarters. Officials currently assigned within the Laboratory Division have advised there are no written instructions in that Division in support of any type of investigative activity relating to surreptitious entry. Standing oral instructions with regard to approval of surreptitious entry have been that personnel of the Laboratory will provide such support as is requested (manpower, technical guidance, and/or equipment) in those operations approved by the Headquarters investigative Division. These oral instructions apply equally to operations with or without a warrant, including feasibility surveys and any other circumstance wherein surreptitious entry is concerned.

Item 21

Item 21 asks for a list of instances since 1970 when Attorney General permission for the installation of listening devices was denied, and whether entries were made in those instances.

Since 1970, there were no instances in the above matters where surreptitious entry or break-in was effected for surveys or installation prior or subsequent to the Attorney General's denial of permission for installation of the electronic surveillance.

With respect to general criminal and organized crime matters, all requests since 1970 to the Attorney General for the installation of electronic devices have been in the form of Title III applications. These applications are reviewed for sufficiency of probable cause and are either authorized or returned for further development of probable cause. We do not have an accurate record of instances since 1970 when the Attorney General denied permission for installation of listening devices in criminal investigations. On numerous occasions, Title III applications sent to the Department have remained for many weeks with no action being taken, thereby negating the recency of the probable cause and requiring the submission of a new affidavit updating the previous information, or targeting new individuals and locations. No entries into premises are made, however, prior to the decision of the Attorney General and the obtaining of an appropriate court order.

Item 22

Item 22 asks for a list of all surveys made since 1970 which did not result in the Bureau's requesting permission of the Attorney General to install or activate a microphone or other electronic listening device.

There is no central index or document listing feasibility surveys conducted involving physical entry or trespass which did not result in the Bureau's requesting permission of the Attorney General to install or activate a warrantless microphone or other warrantless electronic device. This statistic can be developed only by review of individual cases in those matters most likely to have been targets of electronic surveillance. This would entail review of literally hundreds of case files at FBI Headquarters. In many cases, this Headquarter's file review would not indicate whether entry or trespass was effected in the conduct of a survey. It would be necessary in a number of cases, therefore, to review field office files (and in some cases to interview personnel) to learn which cases fit into the above category.

With respect to Title III surveillances, no pre-court order surveys have been conducted in relation to microphone installations. Where microphones have been installed, the initial entries were not conducted until issuance of a court order. If the microphone installation was subsequently determined to be not feasible, the installation was not made.

TECHNICAL COVERAGE

Allegations made by defense attorneys relative to technical coverage in this Bureau in current prosecutions of Communist functionaries under the Smith Act of 1940 make it advisable, I believe, to review carefully our policies in that field with a view to insuring that sound practices are adhered to.

Use of wire tapping by this Bureau, as you know, has been carefully restricted to major crimes such as kidnapping, where the life and safety of a victim may be at stake, and to investigations essential to the national security involving such crimes as espionage and sabotage. Prior to utilizing this medium, specific approval has been secured in each instance from the Attorney General. It has been employed solely as an investigative technique and not for the purpose of procuring evidence to be used in prosecutions. Extensive precautions have been exercised to prevent public divulgence of material so obtained.

Since the decision of the United States Circuit Court of Appeals in the case of the United States v. Coplon, it is rapidly becoming the practice of defense attorneys in security-type cases to argue that the prosecution is predicated in part upon evidence obtained as a result of wire tapping. Such claims are accompanied by demands that all communications referring to relevant wire taps be made available for inspection. Manifestly, this Bureau cannot comply with these requests without disclosing a great mass of data, frequently relating to highly confidential matters, with the likelihood of compromising cases of vital importance to the protection of the United States.

Without legislation nullifying the effect of Section 605 of the Communications Act of 1934, as interpreted by the courts, continued use of wire tapping in any form, however limited, evinces these issues. This is true notwithstanding the fact that they are predicated upon Presidential authority and have the approval of responsible Government officials. Allegations will be made that this Bureau is engaging in illegal practices.

The Attorney General

Officials authorizing wire tapping will be condemned for condoning these practices. FBI representatives may incur citations for contempt of court by declining to produce wire tap information and prosecutions may be dismissed if such information is not produced.

The FBI today has the gravest responsibility for protection of the national security of our country. To execute these responsibilities properly requires the employment of the entire resources of the FBI. Experience has demonstrated clearly that the use of wire tapping is a valuable and highly productive technique in intelligence coverage of matters relating to espionage, sabotage and related security fields. Wire tapping produces information which normally cannot be obtained through other channels.

In view of the issues continually arising from the use of wire tapping, even on the highly restrictive basis employed by this Bureau, I desire to be advised whether you consider that we should continue to employ this technique as at present, or discontinue it entirely.

As you are aware, this Bureau has also employed the use of ~~microphone~~ installations on a highly restrictive basis, chiefly to obtain intelligence information. The information obtained from microphones, as in the case of wire taps, is not admissible in evidence. In certain instances it has been possible to install microphones without trespass, as reflected by opinions rendered in the past by the Department on this subject matter. In these instances the information obtained, of course, is treated as evidence and therefore is not regarded as purely intelligence information.

As you know, in a number of instances it has not been possible to install microphones without trespass. In such instances the information received therefrom is of an intelligence nature only. Here again, as in the use of wire taps, experience has shown us that intelligence information highly pertinent to the defense and welfare of this nation is derived through the use of microphones.

The Attorney General

The issue, therefore, is the same as to the advisability of their continued use. I would like to have a definite opinion from you as to whether, in view of the highly productive intelligence information gathered from these sources, we should continue to utilize this technique on the present highly restricted basis, or whether we should cease the use of microphone coverage entirely in view of the issues currently being raised.

CC - Mr. A. Douitt Vanach
Deputy Attorney General

RE: TECHNICAL AND MICROPHONE
SURVEILLANCES

Effective immediately authorization will not be granted to install any microphone surveillance involving a trespass, and if any such type of installation is now being utilized, it should be discontinued at once and the Bureau advised.

In addition, when submitting a summary report in any type of case which contains information received from a telephone, microphone or other technical surveillance utilized by the Bureau or any other Federal Agency (when known), it must be accompanied by a cover letter pointing out to the Bureau that such information is contained in the report.

I want it thoroughly understood that the handling of these surveillances must be personally supervised by you and Bureau requirements closely followed at all times.

Very truly yours,

John Edgar Hoover

Director

MEMORANDUM FOR THE DIRECTOR'S FILES

On June 6, 1952, I saw the Attorney General and during my discussion with him, I briefed him as to the procedure which the Bureau follows with reference to the installation of technical surveillances, pointing out to him that there were no surveillances of this type established without obtaining approval from him for the same and that we endeavored to confine the requests for such authority to cases involving espionage, sabotage, kidnapping and a few major criminal cases, such as in the Civil Rights Cases in Florida, and the Brink's robbery case in Boston. The Attorney General stated that he approved of the procedure followed.

I then called his attention to the fact that the Department had, a few months ago, ruled that it could not approve the installation of any microphones where trespass was involved. I told the Attorney General that such installations had been utilized on a very limited basis by the FBI and only in cases which directly affected the internal security of the United States, wherein information could be obtained which would enable the FBI to take the necessary precautionary measures for internal security. I told the Attorney General that following this ruling by the Department, we discontinued some of the microphone installations which had been established, where it had been necessary to commit technical trespass. The Attorney General stated that he thought that it was entirely proper for installations of microphones to be made in any case where elements were at work against the security of the United States and he told me that in such instances where I felt that there was need to install microphones, even though trespass might be committed, that he would leave it to my judgment as to the steps to take. I told the Attorney General that this authority would only be used in extreme cases and only in cases involving the internal security of the United States.

MEMORANDUM FOR THE ATTORNEY GENERAL

With reference to the proper controls over wiretapping and the installation of microphones, you will recall that I advised you that back under the administration of Attorney General Clark I recommended that all Government agencies refrain from wiretapping unless there was specific approval in each instance by the Attorney General who is the chief law officer of the Government. I repeated the same recommendation to each successive Attorney General following the administration of Attorney General Clark.

I have always felt that there was a very lax control in the handling of wiretapping by Government agencies. I am the only head of a Government investigative agency who does not have the authority to authorize a wiretap, but under the system which I personally set up. Therefore, requests for wiretaps are sent by me to the Attorney General for his approval or disapproval. I know that no such system is followed in other branches of the Government and, in fact, in many instances subordinates quite far down the line of authority tap telephones without the specific approval of the head of the agency and certainly without specific approval of the cabinet officer in charge of the department.

I still feel quite strongly that no Government agency should tap a telephone unless it is specifically approved in each instance by the Attorney General. This would certainly circumscribe promiscuous wiretapping on the part of Government agencies and would centralize in one place, the Attorney General's office, a record of any phone taps which have been placed by a Government agency.

As you are aware, in the case of the FBI we do not request phone taps except in cases involving kidnapping and espionage. This has been predicated upon my theory that when the life of an individual or the life of the Nation is in peril a phone tap is justified for intelligence purposes as any information obtained over a phone tap cannot be used in the trial of a criminal case.

In line with your suggestion this morning, I have already set up the procedure similar to requesting of authority for phone taps to be utilized in requesting authority for the placement of microphones. In other words, I shall forward to you from time to time request for authority to install microphones where deemed imperative for your consideration and approval or disapproval. Furthermore, I have instructed that, where you have approved either a phone tap or the installation of a microphone, you be advised when such is discontinued if in less than six months and, if not discontinued in less than six months, that a new request be submitted by me to you for extension of the telephone tap or microphone installation.

The following is being set out to advise you of Bureau policy both current and past with respect to the installation of microphone surveillances.

Prior to 3/30/65 microphones were installed and activated on FBIHQ authority. Between 3/30/65 and 9/74, it was Bureau policy to approve a survey for the feasibility of installation of a microphone surveillance at FBIHQ level. This approval included authority for the necessary trespass, provided security of the operation could be assured. In certain instances FBIHQ also authorized the installation, but not the activation, of listening devices during the initial survey. This was done in order to limit the trespass as well as to minimize the risk involved in placing the microphone. Under this procedure, a request from the field was evaluated at various supervisory levels at FBIHQ and authority was given provided security was assured. In the event the field was authorized to place a microphone during the initial survey, no authority was given for the activation of the device. The field was instructed to await subsequent approval by the Attorney General.

WITH RESPECT TO INTELLIGENCE ACTIVITIES (HSC)

RE: HSC REQUEST DATED OCTOBER 15, 1975,
CONCERNING WARRANTLESS ELECTRONIC
SURVEILLANCES AND SURREPTITIOUS ENTRIES

The HSC, in a letter dated October 15, 1975, to Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, U. S. Department of Justice, Washington, D. C., requested, among other things, the following:

1. A list of all warrantless wiretaps against domestic targets conducted between 1970 and 1975.
2. A list of all other warrantless electronic surveillances conducted against domestic targets between 1970 and 1975.
3. A list of all break-ins conducted by the FBI between 1970 and 1975.
4. A list of all other trespasses conducted by the FBI between 1970 and 1975.

Pursuant to instructions received from Mr. Steven Blackhurst, Assistant Special Counsel for Intelligence Coordination, Department of Justice, these questions are being answered in the form of lists which identify targets in generic terms. The lists, which are believed responsive to these queries, are attached hereto.

1. Telephone Surveillances on Domestic Targets January 1, 1970, through June 30, 1975.

SUBJECT: SURREPTITIOUS ENTRIES

ALL 6X7X101

To advise of a 1/19/76 conversation of *[redacted]* Intelligence Division (INTD), and Mr. William L. Gardner, Departmental Attorney, Civil Rights Division, concerning Mr. Gardner's pending review of files in the New York Office (NYO).

Mr. Gardner was advised that his contemplated review of files at NYO was the subject of some concern on the part of Special Agents (SAs) connected with the investigation. Although the Department had indicated their purpose was to determine if any of the entries constitute a violation of Title 18, U.S.C., Sections 241 and 242, concern remained as to the purpose of reviewing the field office files.

Mr. Gardner advised that the Attorney General, at the outset of Departmental inquiries into electronic surveillance, surreptitious entries, etc., had expressed his wish to have the Civil Rights Division conduct necessary inquiries. Mr. J. Stanley Pottinger, Assistant Attorney General in charge of the Civil Rights Division, instructed Mr. Gardner to examine in as much depth as possible the files and records relating to the entries. At the conclusion of the file review, if further investigation is warranted, such a determination will be made and presented to Mr. Pottinger.

At the present time, said Mr. Gardner, his inquiry is "purely a file review," and he has no intention of conducting interviews or discussing the specific case with case Agent or others involved in the matter.

Mr. Gardner said he felt review of the field office files is necessary to give him a more complete picture of entry activity. He feels that only by this review will he be able to provide a complete assessment as requested by the Attorney General.

Re: Surreptitious Entries

Mr. Gardner advised he had absolutely no objection to advising those Agents who are connected with the file in question that the file is being reviewed by him and telling them the purpose of the review. In fact, Mr. Gardner said he would prefer that the Agents be made aware in order to avoid undue apprehension on their part.

Re: SURREPTITIOUS ENTRIES

Mr. Gardner recently reviewed the above Pittsburgh file at FBIHQ with the guidance of Supervisor [REDACTED]. In view of [REDACTED] familiarity with the file, and his previous coordination with Mr. Gardner, it is being suggested that he travel to the Pittsburgh Office on January 28, 1976, one day in advance of Gardner's visit there, to conduct a review of the field file [REDACTED]. [REDACTED] review will serve to insure against possible disclosure of the identities of sensitive sources mentioned in the file [REDACTED] and will additionally assist in resolving any questions which might arise during the review. Further [REDACTED] presence should aid in relieving whatever anxieties or concerns which might surface on the part of field office personnel.

Mr. Gardner has expressed no objection to our contemplated prior review of the Pittsburgh file by Supervisor [REDACTED]. Mr. Gardner has been advised that he will be made aware during his review of the nature and reason for any deletions or excisions.

Finally, since Mr. Gardner has expressed his intention not to conduct personnel interviews at this time, or to discuss the case with either case Agent or others involved in the investigation, it is believed Supervisor [REDACTED] presence at Pittsburgh would assist in the Department's review.

RECOMMENDATIONS:

1. That Supervisor [REDACTED] CI-1 Section, INTD, be authorized to travel to the Pittsburgh Office on January 28, 1976, in connection with review of Pittsburgh file 105-7733 by the Civil Rights Division, and further, that [REDACTED] remain with the Department's representative during the interview.

2. If approved, the attached airtel, advising Pittsburgh of the review, be sent.

SURREPTITIOUS ENTRIES

Reference is made to your memorandum dated January 20, 1976, your reference JSP:WLG:vap, captioned as above.

The following concerns Item 1 of your memorandum; Items 2 - 14 will be answered by separate communication.

You requested that I inquire of all present Bureau personnel at the level of Special Agent in Charge (SAC) or higher in the field and Section Chief or higher at FBI Headquarters concerning "their complete and thorough knowledge of any and all break-ins or surreptitious entries performed by Bureau Agents or by others with prior or subsequent knowledge by your Agents since January 1, 1966." You also requested that these Bureau officials respond to this inquiry with personal communications rather than by letterhead memoranda.

Before initiating this inquiry, I would appreciate having your advice on exactly what information should be provided to each Bureau official contacted concerning the purpose of the Department's investigation and the possible consequences arising from the responses of these officials to this inquiry.

In your memorandum dated January 20, 1976, you stated that the inquiry was made in order to fully respond to the Attorney General regarding the scope of the Bureau's use of break-ins or surreptitious entries. Your memorandum dated August 19, 1975, indicates that the Department was conducting inquiry to determine whether any of the surreptitious entries conducted under the authority of the FBI constitute violations of Title 18, United States Code, Sections 241 and 242. If the Department is currently contemplating possible criminal prosecution of FBI personnel involved in surreptitious entries, I believe, in the interest of fairness, we should advise our officials that this is the purpose of the Department's current inquiry.

It also appears that disclosure of the identities of FBI personnel involved in surreptitious entries could result in civil litigations in which our personnel would be defendants. If you agree that such civil litigation is a significant possibility, then I believe that we should so advise the FBI officials to whom we direct this inquiry. In that connection, I would appreciate a statement from you regarding the position of the Department of Justice on providing representation for FBI personnel in civil litigations arising out of surreptitious entries made in the scope of FBI employment in order that this information may also be furnished to personnel concerned.

With due regard for the effect of this inquiry on morale in the FBI, I would, of course, like to advise our personnel as fully and as appropriately as possible, and your advice is solicited in furtherance of that objective.

Director Sec'y _____

To advise the Legal Counsel Division (LCD) of the attached request of the Civil Rights Division for information relating to captioned activities, and to solicit LCD observations with respect to the Department's request in paragraph 3, page 1, of that request.

The Department's request asks for "personal communications" from Bureau personnel of SAC level or higher in the field, and Section Chief level or higher at Headquarters, concerning "their complete and full knowledge of any and all break-ins or surreptitious entries performed by Bureau agents or by others with prior or subsequent knowledge by...agents, since January 1, 1966."

Since the outset of the Civil Rights Division's inquiry into matters involving surreptitious entry, we have furnished information developed at FBIHQ (and in the New York Office as a result of the General Accounting Office audit there) about those instances of entry activity of which Intelligence Division (INTD) supervisory personnel are aware. Our knowledge of entries conducted by the FBI stems from a survey conducted of INTD personnel in approximately June, 1975. Since then, we have discovered additional entries as a result of file reviews at FBIHQ in connection with unrelated matters. We have advised the Civil Rights Division of each instance of newly-discovered entry activity.

The attached request of the Department recognizes our efforts in furnishing whatever new information has come to our attention; however, we are now being requested to conduct a Headquarters- and field-wide survey of higher level, Bureau supervisory personnel. It is being recommended that

To advise of the 1/20/76 request (copy attached) of the Civil Rights Division for information and access for review of certain files concerning surreptitious entries; to identify case files requested for review; and to offer observations regarding the requests.

The Civil Rights Division has conducted a number of file reviews at FBI Headquarters (FBIHQ) concerning matters wherein surreptitious entries were conducted. The Department has advised the purpose of the review is to determine if any of the entries constitute a violation of Title 18, U.S. Code, Sections 241 and 242. In addition to FBIHQ files, Mr. William L. Gardner, Departmental Attorney, has recently begun to review files in the New York Office (NYO). Mr. Gardner is expected to conduct reviews in several other field offices, including Pittsburgh, San Antonio, San Francisco, and Washington Field.

The 1/20/76 request seeks to review a number of files, both at FBIHQ and in the field. The pertinent files, corresponding to the item number noted on the Departmental request, are identified as follows:

JUNE

SUBJECT: SURREPTITIOUS ENTRIES

M. J. Hall

PURPOSE: To obtain approval for memorandum to the Assistant Attorney General, Civil Rights Division, requesting his advice on information to be furnished to those Bureau officials who will be asked to state their knowledge of any surreptitious entries conducted since 1-1-66.

BACKGROUND: By memorandum dated 1-21-76 from F. J. Cassidy to Mr. W. R. Wannall, the Intelligence Division (INTD) asked that the Legal Counsel Division furnish its observations regarding a request from the Department that the Bureau contact its personnel at the level of SAC or higher in the field or Section Chief or higher at FBIHQ for their complete and full knowledge of any surreptitious entries since 1-1-66. That memorandum noted that we have previously furnished information to the Civil Rights Division of the Department regarding surreptitious entries. Information previously furnished derived from a survey conducted of INTD personnel in June, 1975, and from subsequent file reviews in connection with unrelated matters. Legal Counsel Division was requested to comment with respect to what direction we should take in soliciting information from our personnel and what counsel, if any, should be afforded them in connection with their responses.

OBSERVATIONS: In view of the nature of the proposed inquiry, it is believed that fairness requires that we fully inform personnel concerned of the purpose of the inquiry and of the possible consequences of their response. Concerning the purpose of the inquiry, the Department's memorandum dated 1-20-76 states that the information was needed "in order fully to respond to the Attorney General regarding the scope of the Bureau's use of break-ins or surreptitious entries."

Memorandum to Mr. J. B. Adams
Re: Surreptitious Entries

By memorandum dated 8-19-75, however, the Department made it clear that it was attempting to determine whether the surreptitious entries involved violations of Title 18, U. S. Code, Sections 241 and 242. Section 241 concerns conspiracy against the rights of citizens and carries criminal penalties of a fine of not more than \$10,000 or imprisonment of not more than 10 years, or both. If death results, the penalty is imprisonment for any term of years or for life. Section 242 concerns deprivation of rights under color of law and carries criminal penalties of a fine of not more than \$1,000 or imprisonment of not more than 1 year, or both. If death results, imprisonment for any term of years or life.

The attached memorandum to the Assistant Attorney General, Civil Rights Division, requests clarification of the purpose of the inquiry and requests that if the Department is currently contemplating possible criminal prosecution of FBI personnel involved in surreptitious entries, then appropriate personnel should be so advised. Attached memorandum also states our belief that personnel to whom we address this inquiry should be advised of the possibility of civil litigation growing out of disclosure of participation in surreptitious entries. In that regard, the Assistant Attorney General is requested to provide a statement regarding the Department's position on providing representation for FBI personnel in civil litigations arising out of surreptitious entries in order that appropriate personnel may be informed.

RECOMMENDATION:

That the attached memorandum to Assistant Attorney General, Civil Rights Division, be approved and sent.

To advise of a 2/10/76 conversation between [REDACTED] Intelligence Division (INTD), and Departmental Attorney William L. Gardner, Civil Rights Division, concerning surreptitious entries. *CAJ*

Since June, 1975, the Civil Rights Division has been conducting inquiries into investigative matters of the FBI wherein surreptitious entries were conducted. On the basis of surveys at FBIHQ, we have located and furnished to the Department information relating to entries conducted by the FBI to collect information, or in connection with installation of electronic surveillance. Subsequent to our submission of memoranda to the Civil Rights Division reporting these instances of surreptitious entry, we have discovered several instances of entry not previously reported to the Department. Our discoveries have been made in connection with file reviews in Freedom of Information and Privacy Act matters, as well as during normal record reviews. *4/2/76*

On 12/1/75, we furnished the Department a memorandum outlining details of an entry into the Fair Play for Cuba Committee (FPCC) headquarters in New York City. The entry took place on 10/27/63, prior to the Department's cutoff date of 1/1/66; however, it was felt we should advise them of our discovery.

On 2/10/76, Mr. Gardner reiterated the Department's interest in our reporting of entries occurring subsequent to 1/1/66. He noted the likelihood of our discovering during file reviews additional instances of surreptitious entry prior to 1/1/66; however, he advised it was not necessary to bring these instances to the attention of the Department. *62-117166-X80*

SURREPTITIOUS ENTRIES

JUNE

As you are aware, the Civil Rights Division, Department of Justice, has been conducting inquiries into investigative matters of the FBI where surreptitious entries were effected to collect information, or install electronic surveillances.

In connection with a matter unrelated to the Departmental inquiry above, the Fair Play for Cuba Committee (FPCC) file (FBIHQ 97-4196; New York 97-1792) was reviewed at Headquarters, and it was determined that a surreptitious entry was conducted on 10/27/63.

The Headquarters' file shows that samples of FPCC stationery, an envelope, a membership card, and a foreign mailing list were obtained as a result of the entry (New York letter and letterhead memorandum, 11/27/63, "FPCC, RA-CUBA, IS-CUBA, IS-C, IS-SWP").

New York airtel 10/28/63, captioned as the 11/27/63 letter, disclosed that in addition to the stationery and mailing list, the entry resulted in the obtaining of approximately 100 photographs of data pertaining to the current finances and general activities of the FPCC.

In a memorandum of 1/20/76, the Civil Rights Division has asked for "a written inventory of the precise information obtained as a result of this entry (10/27/63), and (a statement as to whether or not) any or all of such information was forwarded to the Warren Commission."

INFORMATIVE NOTE

Date 2/24/76

In a memorandum of 1/20/76 (copy attached), AAG, Civil Rights Division asked that FBIHQ inquire of Bureau officials on the level of SAC or higher in field, and Section Chief and higher at FBIHQ, as to their full and complete knowledge of surreptitious entries conducted by the FBI since 1/1/66.

In a memorandum of 2/5/76, prepared by Legal Counsel Division, we asked the AAG, Civil Rights Division, what information should be provided each Bureau official contacted concerning the purpose of the inquiry, and the possible consequences to those officials, including the possibility of civil litigation, and advice of rights.

Attached is response of AAG, Civil Rights Division, to our 2/5/76 memorandum.

Intelligence Division and Legal Counsel Division will coordinate preparation of necessary survey of field and FBIHQ officials.

ReBuairtel, ^{NY 3822} 2/18/76, wherein the Bureau at the behest of the Civil Rights Division, Department of Justice, requested certain information concerning a surreptitious entry made in connection with the investigation of the Fair Play for Cuba Committee (FPCC) on 10/27/63.

Comprehensive review of NY file 97-1792 (FPCC main case file) failed to reveal any information concerning a request from the Warren Commission for information concerning this entry, nor was there any indication that information secured at that time was furnished to the Warren Commission. The Bureau is cognizant of the fact that requests of this kind normally would have been channeled through FBIHQ and it would seem if any requests had been received, these records would be most likely to be found in the FBIHQ files.

Concerning the surreptitious entry of 10/27/63, a review of this file reflects that 14 photos of FPCC telephone directory were taken, 16 photos of FPCC foreign mailing list were taken, and 14 photos bearing on FPCC finances were taken. In addition, numerous photos of correspondence to and from persons seeking literature, information, and the like re FPCC were secured. One of these inquiries concerned correspondence re LEE HARVEY OSWALD

PURPOSE:

To advise of the January 20, 1976, request of the Civil Rights Division for information concerning surreptitious entries conducted by the FBI; to summarize exchanges of memoranda between Legal Counsel Division and the Civil Rights Division; to obtain approval to send attached airtel to all field offices.

SYNOPSIS:

The Civil Rights Division has requested that Headquarters inquire of Bureau personnel at certain levels in the field and at Headquarters for their knowledge of entries by the FBI or others with FBI knowledge since January 1, 1966. In an exchange of memoranda, our Legal Counsel Division and the Civil Rights Division examined questions of the rights of Bureau personnel vis-a-vis the Departmental inquiry, the issue of criminal and civil litigation which might arise out of the inquiry, and Department's position with respect to representation of Bureau personnel in the event of litigation. Memorandum and attached airtel are to survey FBIHQ and field offices pursuant to Departmental request.

Memorandum to Mr. J. B. Adams
Re: SURREPTITIOUS ENTRIES
66-8160

DETAILS:

In a memorandum of January 20, 1976, the Department's Civil Rights Division, which has at the instruction of the Attorney General been conducting an inquiry into investigative matters of the FBI which involved surreptitious entry, requested that Headquarters inquire of SAC level and higher in the field, and Section Chief and higher at Headquarters, for their knowledge of surreptitious entries made by the FBI, or others with FBI knowledge, since January 1, 1966. (Copy of request attached).

In a memorandum of February 5, our Legal Counsel Division solicited the Department's position with respect to what information our personnel might be given as to the purpose of the Civil Rights Division's inquiry; whether our personnel should be advised as to the possibilities of civil litigation arising from the inquiry; and what the Department's position is with respect to representation of Bureau personnel should they become defendants in civil litigation. (Copy of memorandum attached).

In their response of February 24, the Civil Rights Division advised they were not currently contemplating criminal prosecution of Bureau personnel and that their present posture was investigative only. It was their opinion that no Miranda situation existed, therefore, Bureau personnel required no advice of rights. Further, the Civil Rights Division indicated it would expect Bureau personnel to furnish whatever information they might have with respect to surreptitious entries; however, the Department assumed our officials would have the right not to furnish information if they felt it would tend to implicate them criminally. In addition, the Department felt there was no significant possibility of civil litigation, and that no official in the Department would be in a position to make a judgment on representation of Bureau personnel until all facts were available in a particular case. (Copy of memorandum attached).

Memorandum to Mr. J. B. Adams
Re: SURREPTITIOUS ENTRIES
66-8160

Civil Rights Division has asked that personnel submit "personal communications" in response to their inquiry. The field is being asked to submit nitels, and Headquarters personnel are being asked to submit memoranda. At Headquarters, for instance, a memorandum from Section Chief to Assistant Director, or higher as appropriate, would satisfy the "personal communications" requirement. All responses are to be phrased in the first person.

Attached for recipients are copies of two memoranda: Bulet to Assistant Attorney General (AAG), Civil Rights Division, February 5, 1976, and the AAG, Civil Rights Division, response thereto dated February 24, 1976, both captioned as above.

For several months, the AAG, Civil Rights Division, Department of Justice, has been conducting an inquiry at the instruction of the Attorney General into FBI investigative matters which involved surreptitious entries. The Civil Rights Division has advised that the purpose of the inquiry is to determine if any of the entries conducted under authority of the FBI constitute a violation of Title 18, U.S. Code, Sections 241 and 242. Section 241 concerns conspiracy against the rights of citizens and carries criminal penalties of a fine of not more than \$10,000 or imprisonment of not more than 10 years, or both. If death results, the penalty is imprisonment for any term of years or for life. Section 242 concerns deprivation of rights under color of law and carries criminal penalties of a fine of not more than \$1,000 or imprisonment of not more than 1 year, or both. If death results, imprisonment for any term of years or life.

In a request of January 20, 1976, the Civil Rights Division asked that FBIHQ inquire "of all present Bureau personnel at the level of SAC or higher in the field and Section Chief or higher in Headquarters, their complete and full knowledge of any and all break-ins or surreptitious

entries performed by Bureau agents or by others with prior or subsequent knowledge by your agents, since January 1, 1966." The officials cited are asked in this request to provide "personal communications" in response to the inquiry. The "personal communications" will be forwarded to the Department as received.

Field personnel at the level of SAC and higher should promptly sunitel their response under the caption "Request of the Assistant Attorney General, Civil Rights Division, For Information Concerning Surreptitious Entries." Response should be based on your knowledge of entry activity, including entries in connection with installation of electronic surveillance, feasibility surveys, and entries to collect information, i.e. "bag jobs." You should respond with your recollections, however incomplete.

You should use the following in responding to this inquiry, and responses should be in the first person:

1. If no knowledge, or no knowledge independent of that gained as a result of your office's recent responses to FBIHQ requests for information about certain surreptitious entries, so state.
2. If you have knowledge and believe your response would tend to implicate you criminally, you appear to have the right not to provide such information (see paragraph 2, page 2, AAG memorandum of February 24, 1976). If you choose to exercise this alternative, you should so advise.
3. If you have pertinent information you should submit whatever details are recalled, including pertinent dates, targets, and file number(s) where information might be located. For instance, if you recall an entry, the date and place of that entry, and the case Agent or Field Supervisor handling the case,

Airtel to Albany
Re: Surreptitious Entries

but not the subject of the entry, you should make an effort to identify the case through the case Agent or Supervisor. If those sources are unavailable, you should report what information you do have. As another example, if you have a vague recollection of an entry, but do not recall a date or target of entry, you should provide what information you do have. As a final example, if you recall an office handling a case where a surreptitious entry was made, but you do not recall the case, case Agent, Supervisor, or pertinent dates, furnish what information you do recall.

You should make a reasonable effort to obtain information about entry activity which you might recall; however, you are not expected to initiate a wide-ranging inquiry. Where an extensive effort appears necessary, you should furnish what information you do have together with observations as to the extent of research needed to identify additional facts about the entry.

Where information about surreptitious entries has been furnished previously in connection with recent requests of FBIHQ, it need not be repeated in response to this request.

New York and Los Angeles personnel should respond with individual nitels showing the title of the official responding.

Reference is made to our memorandum of December 1, 1975, regarding the October 27, 1963, entry into New York offices of the Fair Play for Cuba Committee (FPCC), and to your memorandum of January 20, 1976, in which you request a written inventory of the information obtained from the entry and a statement as to whether or not any or all of that information was forwarded to the Warren Commission.

We have enclosed for your information one copy each of two communications from our New York Office which show what information was obtained as a result of the October 27, 1963, entry. These documents are New York memorandum of November 27, 1963, and New York airtel of March 2, 1976.

In addition, we have enclosed one copy each of two memoranda: memorandum of W. R. Wannall to W. C. Sullivan, dated November 25, 1963, and an FBI memorandum to the Attorney General, dated November 11, 1963.

The Wannall to Sullivan memorandum of November 25 shows that, following disclosure of Lee Harvey Oswald's connection with the assassination of President Kennedy, our New York Office conducted a review of material obtained as a result of the October 27, 1963, entry into New York FPCC offices and located an undated letter from Oswald to Vincent Lee, then director of the FPCC.

In our memorandum to the Attorney General on November 26, we furnished a summary of background information concerning the FPCC, and on page 3 described the undated letter of Oswald to Vincent Lee which was obtained as a result

of the October 27, 1963, surreptitious entry. The Attorney General was not advised in this memorandum as to the source of the Oswald letter, and there is no indication in the FPCC file at FBI Headquarters that the Department disseminated this information to the Warren Commission. (XU)

In connection with the investigation concerning the assassination of President Kennedy, Agents of our New York Office contacted Vincent T. Lee for any information he might provide relating to Oswald's contacts with the FPCC. On December 6, 1963, Mr. Lee furnished miscellaneous items of correspondence sent to the FPCC by Oswald, including six handwritten letters signed by Oswald. These letters concerned Oswald's efforts to establish an FPCC unit in New Orleans.

On April 14, 1964, Mr. Wesley J. Liebeler of the President's Commission asked the FBI to furnish to the Commission the original material given the Bureau by Vincent T. Lee. Liebeler indicated that he expected to subpoena Lee and would want him to initial the material sent by Oswald to the FPCC. This material was to be made a permanent exhibit of the Commission's inquiry.

Material made available to the Bureau by Vincent T. Lee on December 6, 1963, including the undated Oswald to Lee letter which came to our attention as a result of the October 27, 1963, surreptitious entry, was furnished to the President's Commission as enclosures to an FBI memorandum of April 15, 1964.

FAIR PLAY FOR CUBA COMMITTEE

The April 6, 1960, edition of "The New York Times" newspaper contained a full-page advertisement captioned "What Is Really Happening In Cuba," placed by the Fair Play for Cuba Committee (FPCC). This advertisement announced the formation of the FPCC in New York City and declared the FPCC intended to promulgate "the truth about revolutionary Cuba" to neutralize the distorted American press.

"The New York Times" edition of January 11, 1961, reported that at a hearing conducted before the United States Senate Internal Security Subcommittee on January 10, 1961, Dr. CHARLES A. SANTOS-BUCH identified himself and ROBERT TABER as organizers of the FPCC. He also testified he and TABER obtained funds from the Cuban Government which were applied toward the cost of the afore-mentioned advertisement.

On May 16, 1963, a source advised that during the first two years of the FPCC's existence there was a struggle between Communist Party (CP) and Socialist Workers Party (SWP) elements to exert their power within the FPCC and thereby influence FPCC policy. However, during the past year this source observed there has been a successful effort by FPCC leadership to minimize the role of these and other organizations in the FPCC so that today their influence is negligible.

On May 20, 1963, a second source advised that the National Headquarters of the FPCC is located in Room 329 at 799 Broadway, New York City. According to this source, the position of National Office Director was created in the Fall of 1962 and was filled by VINCENT "TED" LEE, who now formulates FPCC policy. This source observed LEE has followed a course of entertaining and accepting the cooperation of many other organizations including the CP and the SWP when he has felt it would be to his personal benefit as well as the FPCC's. However, LEE has indicated to this source he has no intention of permitting FPCC policy to be determined by any other organization. LEE feels the FPCC should advocate resumption of diplomatic relations between Cuba and the United States and support the right of Cubans to manage their revolution without interference from other nations, but not support the Cuban revolution per se.

The CP and the SWP have been designated pursuant to Executive Order 10450.

Reference my memo 11/23/63 summarizing results of our investigation concerning Fair Play for Cuba Committee (FPCC). Director has inquired whether following items relating to connection of Lee Harvey Oswald with FPCC have been brought to the attention of the Department:

(1) Information concerning Oswald's arrest for distribution of FPCC literature by New Orleans Police Department at New Orleans and subsequent FBI interview of him;

(2) Information developed by New York Office concerning a letter sent by Oswald to leader of FPCC at New York City.

The information regarding Oswald's arrest by the New Orleans Police Department and our interview of him was sent to the Department on 11/8/63 in a report under the "Fair Play for Cuba Committee" caption. This report set forth results of investigation by New Orleans Office concerning possible FPCC activities there, which inquiries proved negative.

MEMBER OF SUBJECT ORGANIZATION

With regard to letter sent by Oswald to FPCC leader at New York City (Vincent Lee), following is noted: On 10/27/63 New York Office through an anonymous source contact developed voluminous data regarding files of FPCC headquarters. Review of this material has as yet not been completed; however, immediately upon disclosure of Oswald's reported connection with the assassination of the President, New York Office undertook to review this material specifically to ascertain if Oswald's name may have been mentioned therein. On evening of 11/22/63 (date of President's assassination) New York Office advised that its review had located the letter from Oswald to Lee.

in a public session of the Subcommittee on January 10, 1931, and his testimony regarding the IPCC and the involvement of Taber was widely publicized in the press. The Registration Section of the Department solicited Euck's registration under the provisions of the Foreign Agents Registration Act of 1938, as amended, and on January 11, 1931, he filed a Registration Statement and listed his foreign principal as the "Revolutionary Provisional Government of Cuba, Habana, Cuba."

In addition to Euck's registration, the registration of the IPCC, with headquarters at New York City, was also solicited by the Registration Section. In a letter dated February 16, 1931, addressed to this Bureau by the Internal Security Division, we were advised that Stanley Saulkner, an attorney representing the IPCC, advised the Registration Section by letter dated February 8, 1931, that the IPCC would not register. At that time, the Internal Security Division advised this Bureau that it considered the unsupported testimony of Euck insufficient to warrant prosecution.

revealed that CP, USA, and SWP influence and control of various local chapters of the FPCC were most pronounced; however, there has been no clear-cut evidence to show CP, USA, and SWP influence and control with respect to the national headquarters of the FPCC. S

The FPCC received a great deal of support at the outset and in April, 1961, it claimed to have a membership of 6,000 with 21 chapters in United States cities as well as "Student Councils" at more than 40 university campuses in the United States and Canada. As the true tenor of the Castro regime became apparent, the FPCC lost some of its support.

Our New York City Office received information that sometime prior to October 27, 1963, Lee M. Oswald wrote a letter to Vincent Lee in New York City. At the time he wrote the letter, Oswald apparently was in New Orleans, Louisiana. From the contents of the letter, it was apparent that Oswald had received some previous advice from Lee concerning efforts on Oswald's part to start a New Orleans chapter of the FPCC. In his letter, Oswald mentioned opening an office; running off 2,000 circulars (apparently in connection with the FPCC); issuing membership cards; and collecting dues. Oswald ended his letter by stating, "Please feel free to give advice and any other help."

Our investigation of the FPCC has been most extensive and has spanned more than three and one-half years. The results have been set forth in over 300 communications, copies of which have been furnished to the Department in order that appropriate action might be taken to curtail the activities of this group. Our investigation is continuing and, as in the past, we will bring significant developments to your attention.

Re: Surreptitious Entries
66-8160

DETAILS:

For some months the Civil Rights Division of the Department has been conducting an inquiry into investigative matters of the FBI where surreptitious entries were conducted. Included in this inquiry is a review of certain files at FBIHQ, one of which is the "Technical Surveillances-General" file.

The "Technical Surveillances-General" file consists of memoranda and other documents relating to the policy and procedures concerning the Bureau's use of electronic surveillances. The C. D. Brennan to Mr. W. C. Sullivan memorandum of June 23, 1969, is a summary of the Bureau's policy on wiretaps and microphone surveillances under Attorneys General Kennedy, Katzenbach, and Clark.

Mr. Gardner has indicated that this Brennan to Sullivan memorandum is significant to his inquiry and, because it is rather lengthy, he would appreciate being furnished a copy thereof.

SURREPTITIOUS ENTRIES.

IN CONNECTION WITH RECENT RECORDS REVIEW IN THE NEW YORK OFFICE IN RESPONSE TO A CIVIL SUIT FILED BY THE SOCIALIST WORKERS PARTY (SWP), CERTAIN DOCUMENTS WERE LOCATED WHICH RELATE TO SURREPTITIOUS ENTRY ACTIVITY OF THE NEW YORK OFFICE OVER A PERIOD OF YEARS, BEGINNING IN THE 1940'S AND CONTINUING THROUGH 1975. THESE DOCUMENTS ARE SAID TO SHOW SUCH INFORMATION AS REQUESTS FOR AUTHORITY TO CONDUCT ENTRIES, NEW YORK OFFICE AND HEADQUARTERS' APPROVALS, TARGETS OF ENTRY, AND PERSONNEL INVOLVED IN ENTRIES.

AS YOU ARE AWARE, THE DEPARTMENT'S CIVIL RIGHTS DIVISION IS CURRENTLY MAKING AN INQUIRY INTO INVESTIGATIVE MATTERS OF THE FBI WHICH INVOLVED SURREPTITIOUS ENTRY. THIS INQUIRY IS CONCERNED WITH ENTRIES WHICH OCCURRED SUBSEQUENT TO JANUARY 1, 1966. IN THIS REGARD, NEW YORK HAS ALREADY FURNISHED CONSIDERABLE INFORMATION IN RESPONSE TO HEADQUARTERS' REQUESTS, SOME OF WHICH IT IS UNDERSTOOD, CAME FROM THE DOCUMENTS IN QUESTION.

INFORMATION RELATING TO THE SOCIALIST WORKERS PARTY SUIT HAS BEEN EXTRACTED FROM THESE DOCUMENTS, AS HAS INFORMATION CONCERNING SWP/YOUNG SOCIALIST ALLIANCE ENTRIES OCCURRING SUBSEQUENT TO JANUARY 1, 1966. THE LATTER INFORMATION WAS FURNISHED TO HEADQUARTERS IN RESPONSE TO BUREAU TELETYPES OF SEPTEMBER 11 AND 16, 1975, ENTITLED "REQUEST OF THE ATTORNEY GENERAL FOR INFORMATION CONCERNING SURREPTITIOUS ENTRIES."

ALTHOUGH MANY OF THE ENTRY ACTIONS NOTED IN THE DOCUMENTS IN QUESTION MAY HAVE ALREADY BEEN BROUGHT TO THE ATTENTION OF THE CIVIL RIGHTS DIVISION, IT IS NECESSARY THAT THIS MATERIAL BE REVIEWED TO INSURE OUR FULL COMPLIANCE WITH THE DEPARTMENT'S INQUIRY.

ACCORDINGLY, NEW YORK IS INSTRUCTED TO REVIEW THOSE DOCUMENTS WHICH RELATE TO SURREPTITIOUS ENTRIES PERFORMED SINCE JANUARY 1, 1966. YOU SHOULD FURNISH INFORMATION TO IDENTIFY THE ACTIVITY: TARGET, PURPOSE OF ENTRY, DATE OF ENTRY, BRIEF SUMMARY OF INFORMATION OBTAINED (SUBSCRIBERS' LISTS, ORGANIZATIONAL OR FINANCIAL DATA, MONTHLY REPORTS, ETC.), IDENTITIES OF AUTHORITIES APPROVING THE ENTRY AND FILE NUMBER OF TARGETS CASE.

PAGE THREE 66-8160

WHERE NEW YORK HAS PREVIOUSLY FURNISHED INFORMATION IN RESPONSE TO THE CIVIL RIGHTS DIVISION'S INQUIRY, IT IS SUFFICIENT IN THESE INSTANCES TO FURNISH ONLY THE IDENTITY OF THE TARGET AND DATE OF ENTRY. THE REMAINDER OF THE INFORMATION IS AVAILABLE AT FBIHQ. RESOLVE ANY QUESTION IN FAVOR OF FURNISHING THE INFORMATION TO HEADQUARTERS.

HANDLE PROMPTLY. SUNITEL RESPONSE ATTENTION: INTD, IS-3 SECTION.

NOTE:

In connection with the SWP/YSA civil suit, the New York Office caused a search of their records and located a number of volumes of material relating to surreptitious entries conducted by the office. These records date from the 1940's through 1975 and therefore fall within the period of time of interest to the Civil Rights Division.

The New York Office has reviewed portions of the above material which deal with matters relating to the civil suit. We do not know what additional information concerning entries remains to be reviewed in this material, and what information since January 1, 1966, should be furnished to the Department in connection with their inquiry.

We are asking New York to review the material in question to extract information falling within the perimeters of the Departmental inquiry.

SYNOPSIS:

Departmental Attorney William L. Gardner, Civil Rights Division, continues his review of files at Headquarters and in the field regarding matters involving surreptitious entry. Mr. Gardner has recently requested to review current sections of two additional Headquarters files: "Microphone Surveillances," and "Special and Unusual Investigative Techniques." The former file appears to have documents pertinent to the Civil Rights Division's inquiry, while the latter seems to have only one memorandum relative to that inquiry. Notwithstanding, Mr. Gardner indicates he wishes to review the latter file. In addition, he has asked that a copy of five documents, three of which are exchanges of communications between Bureau and Department in connection with this inquiry but are not available to Mr. Gardner, be furnished to him. Finally, Mr. Gardner has indicated he would like to have limited access review of the "Official and Confidential" (O & C) files, perhaps the index only.

Memorandum to Mr. T. W. Leavitt
Re: Surreptitious Entries
66-8160

On 3/25/76, Mr. Gardner advised that in addition to files he has recently reviewed at FBIHQ, he would like to review current sections of two files: JUNE 66-5815, "Microphone Surveillances," and 66-16339, "Special and Unusual Investigative Techniques." The former file deals with equipment and equipment specifications, administration of microphone surveillances, subjects of microphone surveillances, and policy briefs concerning microphone surveillances. The latter file concerns the use of various investigative techniques such as use of helicopters and other aircraft, police investigative techniques, raid and arrest techniques, and miscellaneous methods of automobile, facial and baggage identification methods.

File 66-5815 JUNE, in dealing with microphone surveillance matters, examines in several documents the question of trespass in connection with installation of electronic surveillances. This is pertinent to the Civil Rights Division's inquiry as it reflects past Bureau policy on this question.

With the exception of one document (Serial 400) file 105-16339 appears to have no bearing on the subject of the Civil Rights Division's inquiry. The exception is a "yellow" of the January, 1967, Hoover to Messrs. Tolson and DeLoach memorandum where Mr. Hoover stated that requests were continuing to come to him for the use of "black bag techniques," and that he would no longer approve such activity. A copy of this memorandum has been furnished to the Civil Rights Division in an earlier memorandum concerning surreptitious entries. Mr. Gardner was advised of the existence of this document; however, he indicated he wished to review the file himself.

In addition to the above files, Mr. Gardner has requested that he be furnished a copy of the following documents (copies attached), which are located in JUNE sections of 66-8160:

1. FBI memorandum to The Attorney General, "Surreptitious Entries," dated 9/11/75. (Memorandum furnished previously.)

CONTINUED - OVER

Memorandum to Mr. T. W. Leavitt
Re: Surreptitious Entries
66-8160

2. Memorandum Mr. W. R. Wannall to Mr. J. B. Adams, "Unconsented Warrantless Physical Entries Conducted by the FBI," dated 8/26/75.

3. Enclosure to memorandum #2, above, entitled "Presidential Authority to Authorize Unusual Investigative Techniques in Foreign Intelligence Investigations," date unknown. (This enclosure, according to records in 66-8160, was furnished on 6/30/75 to the Attorney General, and on 8/26/75 to Jack Fuller, Special Assistant to the Attorney General.)

4. Memorandum of the Attorney General to Director, FBI, "Surreptitious Entries," dated 10/24/75.

5. FBI memorandum to The Attorney General, "Surreptitious Entries," dated 10/31/75. (Memorandum furnished previously.)

Items 1, 4, and 5 are exchanges of communications between the Bureau and Department in connection with the latter's inquiry into the surreptitious entry question. They are not available to Mr. Gardner and he has requested a copy of each. Item 2 has not been furnished previously; however, its enclosure, item 3, has.

Finally, Mr. Gardner has asked for access review of the O & C files. It is his intention to satisfy the Civil Rights Division's inquiry that whatever information contained in those files, pertaining to surreptitious entry, is reviewed. He was advised that to the writer's knowledge, only one document ("Black Bag Jobs," Sullivan to DeLoach memorandum of July 19, 1966) is in the O & C files which relates to entries. Mr. Gardner indicated a review of the files' index may suffice for purposes of his review.

On 4/5/76, subsequent to his oral request of 3/25/76, Mr. Gardner furnished his written request for the material outlined above (copy of request attached).
