These items are submitted in cooperation with the Vallejo Police Department. The original of items 2, 3, and 4 were examined by local police for latent fingerprints. Item 1 has not been examined and it is requested that it be processed for latent prints.

The ciphers enclosed with Items 2 - 4 were submitted by the Vallejo Police Department to the Navy Department, but were not examined by cryptographer.

Request that ciphers enclosed with Items 2 - 4 be examined to determine significance, if any. In this regard, police officials are of opinion that the letters were written by person responsible for the murder of the three and the wounding of the fourth victim. They have no idea as to the significance of the ciphers. It is further requested that letters and ciphers be compared with other threatening letters submitted to the FBI Laboratory.

All items should be returned to Sacramento, for return to the Vallejo Police Department, upon completion of examination.

No active investigation is being conducted by Sacramento, and none is requested of San Francisco.

Remarks:

The items submitted with reairtel have been received and designated Q16 through Q18 as indicated above.

You did not request any specific document examinations of these items; however, they were examined for watermarks and indented writing but none were found. It is noted that the typewriting on Q16 and Q17 contains numerous defects which would be of value in identifying a suspect machine; however, this typewriting is too limited to classify with any degree of accuracy. No further document examinations regarding these items are being conducted without a specific request.

Q16 through Q18 were photographed and are being forwarded to San Francisco per your request under separate cover.

The results of the cryptographic and fingerprint examinations are also being furnished separately.

No Laboratory report is attached.

Special Agent in Charge

Cryptogram Deciphered By Teacher

Vallejo Police Certain Killer Wrote Messages

The cipher sent to the Times-Herald by a man who claims he murdered three people in Vallejo apparently has been broken. It spells out a chilling message of killing for thrills. Police are convinced the cipher translation is accurate and that the author is indeed the

killer, Donald S. Harden, a Salinas high school teacher of history and economics and an amateur cryptographer said he and his wife broke the cipher after about 29 hours of work. "As you can see," Harden said of the cryptogram, "his spelling is rather poor and in some places he had made errors in the use of his own cipher.

These errors Harden said, showed in incomprehensible groupings of letters, but the writer's message was fairly clear.

Harden's translation of the cryptogram, with possible meanings of unintelligible words added in parentheses, reads:

"I LIKE KILLING PEOPLE BECAUSE IT IS SO MUCH FUN. IT IS MORE FUN THAN KILLING WILD GAME IN THE FOREST BECAUSE MAN IS THE MOST HONEST (man-try?) ANIMAL OF ALL TO KILL SOMETHING EVERY DAY. YOU A THRILLING EXPERIENCE IT IS EVEN BETTER THAN GETTING YOUR (thrills) WITH A GIRL. THE BEST PART OF IT I ATHAES (is that) WHEN I DIE I WILL BE REBORN IN PARADISE AND ALL THE I HAVE KILLED WILL BECOME MY SLAVES I WILL NOT GIVE YOU MY NAME BECAUSE YOU WILL TRS (try) TO SLOW (slow) DOWN OR ATOP (stop) MY COLLECTING OF SLAVES FOR MY AFTERLIFE EBEO. BRET EMETH HPITI."

PUZZLING WORDS

There is no ready explanation for the last four words although possibly they have something to do with a signature.

Det. Sgt. John Lynch, who with Det. Sgt. Ed Hunt is in charge of the murder cryptogram case, said, "There is no doubt in my mind that this is a true translation of the cipher and that the murderer wrote it. You can almost check the cipher against itself.

"I think perhaps the man's

DECODED

From PAGE ONE

name is in the cryptogram, possibly in the last four words.

Lynch talked to Harden and said, "I'm convinced he has it solved." He said he would talk to him again today. Meanwhile, Lynch has Harden's work sheets and is studying and comparing them with the three-part cryptogram and the translation.

In numbered letters delivered Aug. 2 to the Times-Herald, San Francisco Examiner and San Francisco Chronicle, the writer said he had killed two teenagers last December on Lake Herman Road and a young woman July 4 at Blue Rock Springs park.

THREE LETTERS

With each of the letters, postmarked July 31 in San Francisco, the writer included a different cryptogram with instructions to publish them on page 1 or he would go on another killing spree. The Vallejo Times-Chronicle and the San Francisco Chronicle published the cryptograms. The Examiner did not publish them until two days later. The newspaper got a second letter from the writer charging the editors for not having printed his message.

Harden said the writer tried to make the cipher more unbreakable by using 13 different symbols for "e," the most commonly used letter in the language.

He said that in an obvious attempt to throw cryptanalysts off the track, the writer used a backward "q" 16 times in an effort to make the analyst think it stood for "e." Harden said he at first thought it did.

TELLS CLUES

The Salinas school teacher said he broke the code by looking for four-letter patterns which would fit with the word "kill."

"We felt that 'kill' would be used more than once," he said. Actually, the writer used "kill" once, "killing" twice and "thrilling" and "killed" once each.

Lynch said he would devote more time to the cipher and its translation and would confer with Harden again.

Re **UNKNOWN SUBJECT;
Vallejo Times Herald
Vallejo, California
EXTORTION**

FBI File No.

Lab. No. **CR-13408 KJ**

Specimens received **8/8/69**

- Qc7 Photocopy of cipher accompanying the Qc5 and Qc6 letter.**
- Qc11 Photocopy of cipher accompanying the Qc9 and Qc10 letter.**
- Qc15 Photocopy of cipher accompanying the Qc13 and Qc14 letter.**

Result of examination:

Qc15, Qc11, and Qc7, in that order, constitute a message encrypted with a uniliteral, substitution cryptosystem with variants. The message reads:

"I like killing people because it is so much fun. It is more fun than killing wild game in the forest because man is the most dangerous animal of all. To kill something gives me the most thrilling experience. It is even better than getting your rocks off with a girl. The best part of it is that when I die I will be reborn in paradise and all the (word missing) I have killed will become my slaves. I will not give you my name because you will try to slow down or stop my collecting of slaves for my afterlife (remainder of message garbled).

The specimens and results of the document and fingerprint examinations are being furnished separately.

For the information of Boston, on Christmas, 1968, a young boy and girl parked in a lovers' lane area of Vallejo, California, were shot and killed.

On July 4, 1969, another young couple parked in a lovers' lane area near Vallejo were attacked. The girl was shot and killed and the boy shot but is still alive in critical condition.

During August, 1969, several anonymous letters were sent to newspapers in Vallejo and San Francisco, California, confessing the killings and relating surrounding events and enclosing cyphers, which the anonymous writer demanded be printed in the newspapers on threat of further killings.

On the weekend of September 20 - 21, 1969, another young couple were attacked in the nearby Lake Berryessa area. The girl was stabbed to death and the boy stabbed but is still alive, although in critical condition.

In the Vallejo killings, as well as the Lake Berryessa killing, the unknown subject called local authorities to report the assaults. Investigating officers believe that the same person is responsible for all of these killings and assaults. A description, along with an artist's conception of unsub has been published in local newspapers and received wide publication in this area.

On October 6, 1969, Mr. [REDACTED] officer of the Bank of America, NT & SA, Springstowne Branch, Vallejo, California, received Identification Order Number [REDACTED] on [REDACTED]. He noted similarity in physical description, as well as facial features.

Re Bureau letter to Sacramento, 8/21/69 and Sacramento airtel to San Francisco, 10/7/69.

Enclosed for the Bureau are two copies of undated and unsigned letter and envelope, which envelope is addressed to "S.F. Chronicle, San Fran., Calif. Please Rush To Editor", postmarked San Francisco, California, 10/13/69.

Enclosed for Sacramento is one copy each of above described letter and envelope and one copy of San Francisco Police Department wanted flyer #87-69.

For information of the Bureau and Sacramento, Inspector [redacted] San Francisco Police Department, advised on 10/17/69 that above described letter and envelope were received by the "San Francisco Chronicle", a San Francisco daily newspaper and furnished to the San Francisco Police Department. Inspector [redacted] stated that latent prints were obtained from the letter and as soon as photographic copies of same can be reproduced, they will be furnished to this office with a request that they be searched through the latent and single fingerprint files of the FBI.

b7c Inspector [redacted] advised that investigation is currently being conducted by Napa, Vallejo and San Francisco Police Departments concerning captioned matter and that he believes UNSUB may have military background inasmuch as UNSUB used bayonet and two separate 9 mm weapons and one of surviving victims observed UNSUB to be wearing military-type boots. Further, Inspector [redacted] related that the enclosed letter from UNSUB, identifying himself as Zodiac and stating he was responsible for the killing of cab driver, enclosed a blood stained piece of material alleged to have been taken from victim's shirt. [redacted] stated he had definitely established that material did in fact come from victim's shirt and laboratory examination indicated handwriting is same as that in prior letters written in Napa County on 9/27/69.

The enclosed letter and envelope are being furnished to the laboratory for examination and comparison with material previously submitted by Sacramento Division in this matter.

Copies of the letter and envelope and wanted flyer are being furnished to Sacramento Division for information and any action deemed advisable.

b7c San Francisco Division will maintain close contact with Inspector [redacted] Homicide Division, San Francisco Police Department, to furnish laboratory and latent fingerprint examinations requested.

Qc19 Photocopy of envelope postmarked "San Francisco Calif. JB PM 19 OCT. 1969" bearing hand printed address "S. F. Chronicle San Fran. Calif. Please Rush To Editor"

Qc20 Photocopy of accompanying hand printed letter beginning "This is the Zodiac speaking..." and ending "...kiddies as they come bouncing out."

Results of examination:

It could not be determined whether the questioned hand printing on Q1 through Qc6, Qc8 through Qc10, Qc12 through Qc14, Qc19 and Qc20, was prepared by one or more persons, because the photocopies of these specimens do not show sufficient detail for a satisfactory examination; however, characteristics were noted which indicate that these specimens were probably prepared by one person.

Qc7, Qc11, and Qc15 are photocopies of ciphers and are not comparable with the questioned hand printing in this matter. Qc16 and Qc17 are typewritten. Q18 is a key for the decryption of the ciphers in this matter and is not comparable with the questioned hand printing.

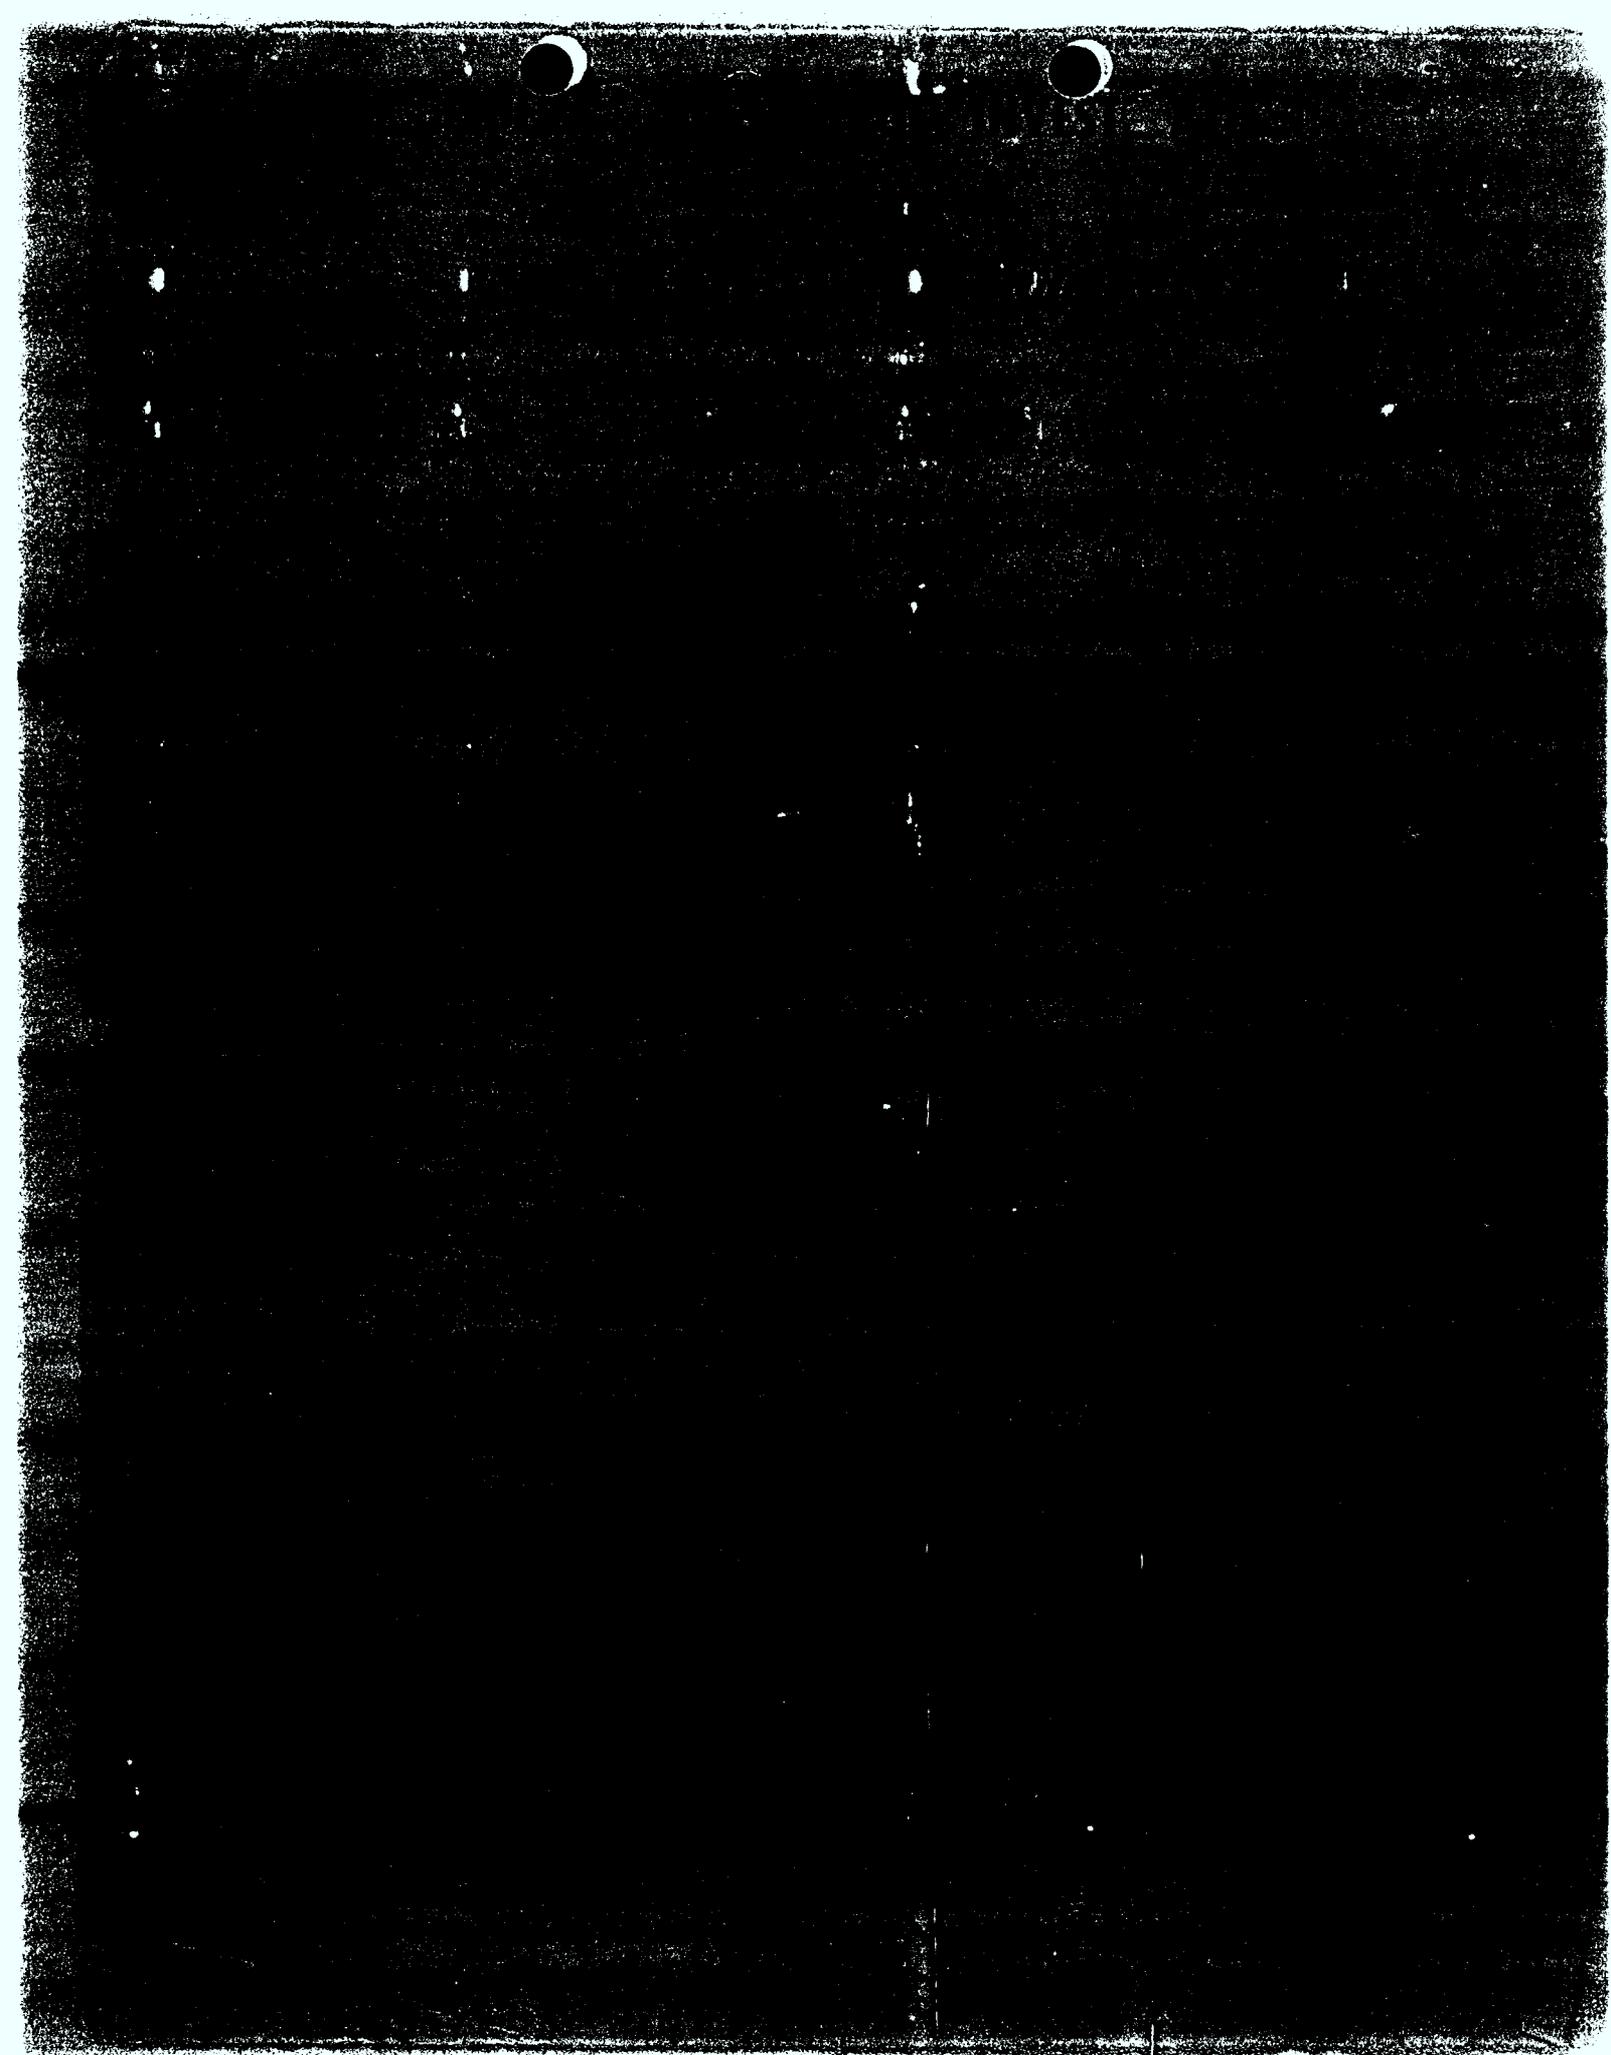

Qc19 and Qc20 are retained.

Examination requested: Document - Cryptanalysis
Specimens received: May 7, 1982

Specimen:

K1 Two sets of photocopies of one hundred and nineteen pages of material relating to [redacted] and the ZODIAC

Result of examination:

Specimen K1 has been analyzed to determine if the "solutions" offered by [redacted] to the disappearance of JOAN WEBSTER are valid. (Much of K1 concerns analysis of the ZODIAC communications.) Most of [redacted] theories are based on conjecture and numerous assumptions. Some assumptions are possibly correct. However, [redacted] selectively dissects the literature (often misquoting material) and presents results only if they corroborate the overall theme of his solution. Thus, on a cryptanalytic, mathematical, and technical basis, the Laboratory contends that the results are forced and inconsistent.

b7c

Unless investigative techniques validate the hypotheses proposed by [redacted] no further [redacted] communications will be analyzed or evaluated.
