WINCHELL SAID:

Cairo, Egypt, will soon announce that it has signed trade agreements with Rumania, Russia and Red China. Cotton for oil and a slap in the face for us.

COMMENT:

Since February, 1953, we have been closely following indications of a possible rapprochement between Russia and the Arab States, including Egypt. It has been observed that Russia has given support to the Arab States in the UN and has taken advantage of U.S. support for Israel (bitter enemy of the Arabs) to ingratiate herself with the Arab bloc. In spite of this and the new Egyptian-Russian trade agreements, however, there still have been no clear signs that the Egyptian Government will align itself with the Soviet and satellite nations.

WINCHELL SAID:

On 5/10/55, Ashley J. AAG Tompkins was advised by Bureau memo 5/11/55. However, by memo 5/13/55 Liaison advised that [redacted] stated it now appears a passport will be issued over her protest.

Washington. A Congressional committee now has testimony linking 2 prominent newspapermen to the CP.

COMMENT:

In the Spring of 1953 the Bureau had the NYO conduct inquiries into the extent of Communist infiltration of "The New York Times," "The New York Herald Tribune," Time Incorporated, and the Associated Press. This inquiry revealed that several individuals with Communist sympathies were either associated with or formerly associated with these publications. It is not known specifically which of these individuals, if any, are referred to by Winchell.

COMMENT:

\* We have no information regarding this.

WINCHELL SAID:

Winchell gave a long commentary concerning the present international situation and charged that the present situation is the direct result of wishful thinking on the part of the "so-called experts." Winchell referred to a statement by former Prime Minister Winston Churchill at Fulton, Missouri, to the effect that "a Red is never more dangerous than when he offers to shake hands." Winchell commented that each time Moscow exhibited what appeared to be a change in policy there immediately followed a military conflict. As examples, he stated that when the Reds lifted the Berlin blockade "they gave you the Korean war." When an armistice was signed in Korea "they immediately attacked in Indo-China." The civil war in Viet Nam, followed a cease fire in Indo-China. "Now they want to form a neutral block out of your allies." Winchell concluded this commentary by pointing out "that a bully never attacks a stronger guy."

COMMENT:

# PATENT IS ISSUED ON FIRST REACTOR

Fermi-Szilard Invention Gets  
Recognition—A. E. C.  
Holds Ownership

Special to The New York Times.  
WASHINGTON, May 18—A historic patent, covering the first nuclear reactor, or atomic pile, has been issued by the United States Patent Office.

The inventors were Enrico Fermi, the Italian-born physicist who died last November, and Prof. Leo Szilard, of the University of Chicago. The patent is owned by the Atomic Energy Commission.

Roland A. Anderson, patent counsel to the commission, classed the patent in importance with those issued to Eli Whitney for the cotton gin, to Samuel F. B. Morse for the telegraph and to Alexander Graham Bell for the telephone.

Licenses will be issued under the patent (No. 2,708,656), but applicants will have to meet the other requirements for the civilian atomic industry prescribed by the commission on April 12. Various improvements in nuclear reactors have been made since the basic invention covered by the Fermi-Szilard patent.

The patent discloses the method by which the inventors achieved their self-sustaining chain reaction. They and their co-workers succeeded in starting the reaction—which made the atomic bomb possible—on Dec. 2, 1942, in a pile at the University of Chicago.

The patent also describes an air-cooled reactor such as X-10, which has been in operation at the Oak Ridge national laboratory since 1943 and is now used for isotope production.

Issuance of the patent establishes the priority of the Fermi-Szilard invention and protects the Government's interests.

Dr. Fermi, who came to the United States as a "self-imported exile" from Fascist Italy in 1939, joined the Columbia University faculty as Professor of Physics. In 1940, he was one of seven scientists who obtained an early patent in the atomic energy field.

Professor Szilard served on atomic energy projects at Columbia from 1940 to 1942 and later at the University of Chicago, where he has been Professor of Biophysics.

The Consolidated Edison Company of New York is the only applicant for a license to build and operate a nuclear power plant entirely with private capital.

RE: WALTER WINCHELL

WINCHELL SAID:

Stockholm: There is another international struggle going on in the Kremlin. General Zhukov's star is rising like a comet. He is our President's only admirer. Bulganin is losing strength. Molotov may get a very low card.

COMMENT:

For your information.

WINCHELL SAID:

A wolf pack of Red submarines is following our fleet. They are reported clumsy enough to be laughable because of our new detection gadgets.

COMMENT:

For your information.

WINCHELL SAID:

Red China and the Arab League have a new secret deal on; the Arabs to fight for Red China's admission to the UN, Red China to help them against Israel.

COMMENT:

Security agencies reporting foreign intelligence have not supplied Bureau with any information to corroborate this statement. The Arab's enmity against Israel is well known.

WINCHELL SAID:

The Red Chinese have promised Japan to release 1,200 Japanese prisoners. Radio Peking only last week called Japan an American colony. Now it is praising the Japanese as Asiatics. The big idea is to "Woo" Japan away from us.

COMMENT:

For your information.

WINCHELL SAID:

Senator Langer, Republican, North Dakota, is a member of the Senate Committee on Constitutional Rights. Mr. Langer will be the guest of honor of the Emergency Civil Liberties Committee in Philadelphia on June 12. Many members of the Communist Party have been invited.

COMMENT:

Bureau furnished details of above by Philadelphia air-tel 5-27-55 which included report on activities of Communist Party of Eastern Pennsylvania and Delaware in connection with Communist Party backing of meeting. Information furnished by Bureau memorandum to Attorney General, Deputy Attorney General Rogers, and Assistant Attorney General Tompkins 6-2-55. Bd

WINCHELL SAID:

Winchell gave long commentary on return of 4 American prisoners from Red China wherein he stated "Our President does not go along with the Pollysanna Politicians of the press who are calling return of our men a complete about face by Reds. Official figure is 65 and unofficial number is over 500 Americans behind Red Chinese bars. Lets suppose the late Al Capone kidnapped 565 children and returned 4. Can you imagine G-man Hoover bailing that as a triumph for law and order and assuring you that the gangster had a change of heart. That is how ridiculous the Pollysanna over here are. Red China is holding the Americans for diplomatic ransom.... to lift the blockade of China through a cease fire." sf

COMMENT:

For your information.

WINCHELL SAID:

The Internal Security Committee this week heard two New York newspaper men in closed secret sessions. One admitted former membership in the Communist Party when he was confronted with facts. The second, a television commentator here in New York not only admitted being a party member but that he was a Russian spy not too many years ago.
