Mess Proposed for Making Secret Contact

Adolf Bremer issued an ultimatum to the kidnapers of his son, Edward G. Bremer, last night, giving them three more days in which to contact with him for the return of his boy. He said he would pay the ransom if the kidnapers would release his boy in that time. He will throw the weight of his position into the scales.

Democrats and other politicians are all over the radio today, saying that they will help from the side of the government. The writer of the article says that he is a close personal friend of President Hoover. He says that he has written a letter to the president and that he will give it to him as soon as possible.

It is believed that the police and federal authorities have given him "a limited time" to attempt to negotiate the release of his son in his own way, Mr. Bremer said.

He warned the kidnapers that his telephone is being watched, and suggested that they have his son write to some friend elsewhere in the United States to make contact. He promised complete secrecy in the dealings, "on my word of honor," and declared, should this suggestion be followed, he "will have no interest in any activity after my son is returned." This was interpreted to mean he would "hand off any search for kidnapers if his son was released. But
