He was advised of the reason for the inquiry. He was informed that it was not known for what purpose, or in connection with what information was desired whereupon Mr. Creech advised he had discussed the matter with the Post Office Inspector and felt positive that it was in connection with the instant case. belief that this inquiry was connected with this case was not made by this agent, but after further discussion with Mr. Creech he stated that it was his opinion that Beardstown, Ill., was a locality where all of the noises referred to in the form letters could be detected. Mr. Creech then stated that there was a loud, stationary siren on the City Hall and that this siren was of a deep tone and was sounded three times whenever there was a fire; further, that there was a second siren located at the City Square across from the Telephone Company which was a shrill siren used by the telephone operator to summon police, only at night when they could not be reached by telephone.

Mr. Creech further stated that possibly a siren might be used by a school and stated Chief of Police George Farrar would be able to advise agent relative thereto; further, that the citizenry of Beardstown maintained several churches, all of which had bells, and all of which could be heard from any one point. It was also ascertained from Mr. Creech that the C. B. & Q. R. R. runs directly through Beardstown, parallel to the main highway intersecting that village, and also that the village was accessible from the north and east only by crossing a bridge.

Relative to an airport in the vicinity of Beardstown, Mr. Creech stated there was none, however, that a man from Aronsville, Ill., owns a plane and might possibly fly over Beardstown. It was the opinion of Mr. Creech that the noise referred to as that of an airplane was probably that of a four cylinder outboard motorboat, he pointing out that these two noises were very similar.

Concerning any trouble had by Game Wardens with individuals violating the game laws, particularly those laws relative to the catching of fish, Mr. Creech stated that at all times net fishing and pole fishing out of season was troubling the State Game Wardens in the vicinity of Beardstown, Ill.

According to Mr. Creech, there is no other locality in the territory covered by him in which the sounds and noises set forth in the form letters referred to above may be heard. Mr. Creech's territory includes that portion of Illinois north of an imaginary line drawn between Hannibal, Mo. and Danville, Ill. and all of the State of Indiana, north of a line drawn from the State line of Indiana to Terre Haute, Ind., including Indianapolis and Elkhart, north to Lake Michigan and to Michigan City; further, Mr. Creech works upon special assignments throughout the United States, particularly in Wisconsin.

Mr. Creech, assuming that the referred to inquiry was made for the purpose of locating a house in which a kidnaped victim had been held, stated that same might possibly be a houseboat, and in this connection that there was such a houseboat located on the Illinois River near Beardstown, Ill., formerly owned by Frank MacKrlane, now deceased, which houseboat was a very elaborate affair and frequented by numerous Chicago hoodlums. This houseboat has its own lighting and water systems and is heated by modern stoves. Mr. Creech then stated that he felt that he should be supplied with additional information as to the nature of the case in question, inasmuch as through him, and only him, the hideout in the Dr. Barker kidnaping case in Peoria, Ill., was located, he feeling he could be of considerable assistance to the Division in any case where a hideout in his territory was sought.

Mr. L. W. Butler, Manager, Keiser-Van Leer Co., 505 N. East St., Bloomington, Illinois, was interviewed by Special Agent E. L. Damron of this office. Mr. Butler exhibited an invoice showing the receipt of two #524 Casco goggles with #6 Casco weld lens, the invoice being dated October 14, 1932. He stated that this invoice also contained a memorandum to the effect that one pair of these goggles was sold to the Hub Welding Company of Bloomington, but they had no record of the disposition of the remaining pair. Upon questioning his employees it was ascertained that it was believed the remaining pair was sold to an employee of the machine shops of the Alton Railway. These goggles were sold at retail and no record kept of the sale.

Mr. Butler stated further that by invoice dated August 18, 1935 they received eight additional pairs of these goggles, but the same are now in stock.

Mr. Sam W. Norris, of the Hub Welding Company, 512 S. Center St., Bloomington, stated to Agent Damron that during the Fall of 1932 he had the Keiser-Van Leer Company order a pair of these goggles for his partner, W. T. Wolcott, to be used by Mr. Wolcott in the business and over his usual glasses; that subsequently they received a pair of these goggles from the Keiser Van-Leer Company and Mr. Wolcott used them in his business, but about July, 1933 someone stole them from him while working in the machine shops of the Alton Railway; that they then obtained another pair from the Keiser-Van Leer Company, but a short time later Mr. Wolcott found the missing pair and they now have both pairs.

One pair of these goggles was, at the time of the interview, being used by an employee, and the goggles were examined by Agent Damron. Interview with Mr. W. T. Wolcott, 406 Howe Avenue, Normal, Illinois, disclosed that he still has the other pair of goggles, and neither of them has been out of his possession except for the six days that pair number one was missing. The second pair of goggles was located and examined at the Hub Welding Company.

Upon interviewing Chief of Police George W. Farrar of Beardstown, Ill. he stated that there was a loud, deep toned siren mounted on top of the fire station in Beardstown, which siren blows only when there is a fire and then it is blown in three long blasts. This siren is never sounded at any stated time.

Upon interviewing Robert Stinson, Fire Chief, Beardstown, he examined his records and advised that there was not a fire in Beardstown on January 28, 1934, however, on January 29, 1934 at 11:45 P. M. there was a fire, at which time the fire siren was blown in three blasts for the purpose of summoning all voluntary firemen. The Fire Department in Beardstown is a voluntary department, there being no paid officers.

Chief of Police Farrar further stated that there is a siren on the C. B. & Q. R. R. bridge across the Illinois River and also one on the wagon bridge crossing the Illinois River, which sirens are blown only to signal to boats which desire to have the draw in these bridges used to permit their passing under the bridge; that there is also a siren used by the police which is mounted in the City Square of Beardstown and operated by the local telephone operator. This siren is of the same tone as that used by the above referred to bridges and is sounded only at night when police officers are desired and cannot be reached by telephone. None of the last three mentioned sirens blow at any stated times and when the police siren is sounded it continues blowing until answered by some police officer.

Concerning a factory whistle, Chief Farrar stated that the C. B. & Q. R. R. have a large deep toned whistle which blows two times at 6:30 A. M. and one time at 7:00 A. M. every day except Sunday; further, that this whistle also blows at noon, 1:00 P. M. and 4:00 P. M. every day, except Sunday, the whistle being used for the purpose of informing the C. B. & Q. employees of the time of day. According to Chief Farrar there are no other whistles in Beardstown and he knows of no whistle which only blows during the morning of week days.

Referring to the bridge sirens, Agent interviewed Mr. Wesley Perry, head bridge tender on the wagon bridge, U. S. Highway 67, crossing the Illinois River between the points of Beardstown and Rushville, Ill. At which time he advised this siren was installed on March 4, 1934, prior to which time no siren was in use. Mr. Perry added that this siren sounds one blast when a boat coming down or going up the river is to stop. The draw bridge is then moved and the siren is sounded in two blasts to signal the boat to pass under the bridge. An examination of Mr. Perry's records concerning the number of boats and when they passed under the wagon bridge at Beardstown during the month of January, 1934 developed there was

not a single boat which necessitated the use of the draw bridge, and in any event there was no siren on this bridge at that time.

On interviewing Mr. E. A. Williams, Bridge Tender for the C. B. & Q. R. R. on the railway bridge crossing the Illinois River between Beardstown and Rushville, Ill., he advised that his bridge has been equipped with a siren for several years and that this siren was used to signal to pilots of boats whenever the draw bridge was opened. During the month of January, 1934 the C. B. & Q. draw bridge was opened for boats to pass up or down the river on the 9th, 11th, 18th, 19th, 16th, 20th, 23rd and 25th. The siren on this bridge is of a shrill tone and is sounded in four blasts when a boat is signaled to stop and await the moving of the draw bridge and after the bridge is moved the siren is sounded in one blast to signal the boat to pass through.

Concerning the ringing of church bells or school bells in Beardstown, Chief Farrar stated that there are no church bells in that city which are sounded on Saturday afternoons, however, there are a number of churches, all with bells, approximately six in number, which are sounded on every Sunday morning and all of these bells can be heard from any point where any one bell can be heard. These church bells are sounded at about 9:45 A. M. on Sunday for Sunday School and at 11:00 A. M. on Sunday for church.

Concerning the noise of a switching locomotive, Chief Farrar advised that Beardstown is a C. B. & Q. railway division point and that the roundhouse and yards are located about 1 1/2 miles away from the city proper; that there are three switch engines in use during the daytime and two switch engines in use during the night in the railroad yards. The Beardstown division is considered a coal hauling division and there are numerous freight trains passing through that city, however, it is impossible to hear switch engines in use from the city proper of Beardstown.

In this connection agent obtained from H. W. Shaw, station agent, C. B. & Q. R. R., the following schedule of trains which passed through Beardstown during the month of January, 1934:

Southbound daily Passenger trains

No. 52	St. Paul, Minn. to St. Louis, Mo.	2:20 A. M.

In addition to the above freight trains there are tri-weekly freights, which are locals and stop at all platforms.

The B. & O. R. R. also operates a line through Beardstown, Ill. and the schedule of that railroad during the month of January, 1934 is as follows:

Eastbound daily Passenger train

Chief Farrar then stated that there is no airplane landing field in the vicinity of Beardstown, Ill.; that Beardstown is not located on any regular air route and that no planes are usually heard or seen flying over or about Beardstown.

Chief Farrar stated that to his knowledge he had heard of no trouble occasioned by the Game Wardens of the State or the Government in connection with illegal fishing during the month of January, 1934.

When conducting investigation at Macomb, Ill., Chief of Police C. G. Paulsgrove and Detective (investigator) Paul Sakle of the Local Police Dept. were contacted at which time it was learned that Hemp & Co. has a small, shrill toned, siren which is used for the purpose of informing their employees of the time of day.

Agent interviewed Mr. C. R. Wright, manager of Hemp & Co., North White St., Macomb, Ill., who advised that the siren used by his company is sounded at 7:00 A. M., 12:00 noon, 3:00 P. M. and 4:00 P. M. daily, except Sunday. During agent's presence at Hemp & Co. this siren was heard, it being a very shrill tone and not large enough to be heard over several blocks from the plant, in fact this siren cannot be heard at the City Hall in Macomb, which is located approximately 12 to 15 blocks from the Hemp & Co. plant.

This is the only siren which blows at stated times in the City of Macomb, Ill. Mr. Wright was interviewed concerning the possibility of the sounding of this siren on January 28, 1934 and advised that he had no record of the siren being blown on that date.

Concerning any other sirens located in the city of Macomb, it was ascertained that the Fire Department had three movable, loud, deep toned sirens mounted on the three fire trucks, but that these sirens did not blow at any stated time and only when a fire was reported.

Fire Chief F. D. Wilson advised from his records that on January 28, 1934 there were three fires reported, one at 5:40 P. M., another at 5:30 P. M. and another at 9:00 P. M. The 5:40 and 5:30 fires were in the country east and north of Macomb and the 9:00 fire was in the city proper. According to Chief Wilson the sirens are very seldom used when going to a fire unless the fire truck must pass through a congested district.

Concerning the blowing of a factory whistle, it was ascertained that the Dickey plant west of the city proper of Macomb and the Buckeye Pottery plant both have whistles which blow at 7:00 A. M. in the morning and also at noon, but not in the evening. These whistles can be heard for quite some distance, however, the siren cannot be heard at such distance as can the whistles.

Concerning the ringing of church or school bells, the above named individuals all stated that no bells in Macomb, Ill., ever sounded on Saturday afternoon, however, there are several church bells which sound at about 9:00 A. M. and 11:00 A. M. on Sunday mornings. The above individuals insisted that should there be any occasion for a church bell to ring on Saturday afternoon they would most certainly have knowledge thereof.

In Macomb, Ill. the city reservoir, better known as the City Lake, is stocked with game fish. Mr. Alfred Rush is caretaker of this reservoir or lake and he advised he had not in many years had any trouble with anyone endeavoring to take fish from the lake.

The closest cities to Macomb, Ill. where street cars are operated are Quincy and Peoria, Illinois.

Ray Vail, the State Game Warden, at Macomb, according to information received from him by Mr. Eakle upon Agent's request, has had no trouble with children or anyone else catching fish illegally or out of season in the vicinity of Macomb.

Mr. Harry L. Clugston operates a private airport some three miles north of Macomb on U. S. Highway No. 67 and upon interviewing him he supplied the following log of planes in his possession and stored at his hangar:

Date	Hours in Air
1-15-34	5
18	1 - 40 min.
19	4 - 15 min.
20	4 - 40 min.
21	1 - 20 min.

2-4-34	2 - 35 min.
6	2 - 40 min.
11	2 - 20 min.
12	2
17	2

All of the above flying was in the immediate vicinity of Macomb, Ill. and was done by air students.

Concerning the noise of a switch engine in the vicinity of Macomb, Ill., the following train schedules were obtained from Mr. A. J. Peterson, C. B. & Q. station agent at that point:

Northbound daily		
No. 56	Passenger train	4:10 A. M.
70	Freight	5:05 A. M.

The Macomb railroad yards are located on the outskirts of the city limits about a mile from the Hemp & Co. factory and from 9:00 to 12:00 A. M. one switch engine is in use. From 12:00 to about 3:30 P. M. this switch engine is at Bushnell, Ill. and from 3:30 to about 5:00 P. M. is in use at Macomb, Illinois.

During agent's presence in Macomb, Chief of Police Roy Stine of Bushnell, Ill. was interviewed at which time he referred to the letter directed to the Division at St. Paul, Minn. by Mayor A. Brady on February 27, 1934 and advised that Bushnell had a small siren which sounded only when there was a fire and that the other noises set forth in the form letter were not to be heard in Bushnell. In view of this contact no further investigation was made at Bushnell, Ill.

In an effort to ascertain the identity of the individual Homer Wilson, aliases, "Big Homer", "Big Jim", "Big Moose", Charley Stone and Charley Potatoes, Chief of Detectives Fred Montgomery and Chief of Police Williams of Peoria, Ill. advised no such individual was known to them, that is the individual described in the reference report under the name of "Big Homer", however, Chief of Detectives Montgomery did recall having taken into custody one George Austin, alias Joknis, from East St. Louis, Ill. during the month of June, 1928 charged with auto larceny. Chief Montgomery stated he specifically recalls going to East St. Louis where

he obtained custody of George Austin. Chief of Detectives Montgomery expressed a belief that perhaps George Austin might be the individual known as "Big Homer", but insisted he had never heard of such an alias for Austin.

Through the assistance of the Superintendent of Identification, Peoria Police Dept., William F. Busch, a photograph of George Austin, alias Yoknis, Peoria PD #5128, was obtained from which it is noted that Austin was described on June 19, 1928 as follows:

Name	George Austin, alias Yoknis.
Age	32 (Born Chicago, Ill.)
Height	5' 8"
Weight	175
Build	Medium
Hair	Dark brown
Eyes	Brown
Complexion	Medium dark
Date of Arrest	[REDACTED]
Crime	[REDACTED]

A photograph of this George Austin was obtained from the Peoria Police Department and the same is herewith transmitted to the St. Paul Division office with their copies of this report. A request for the fingerprints of Austin has been made, however, to date said fingerprints have not been received at the St. Louis Division office.

The following criminal record of Austin was obtained from the Peoria, Ill. Identification Bureau:

[REDACTED]

[REDACTED]

Chief of Police Williams and Chief of Detectives Montgomery then advised that the only individual who, in their opinion, corresponded with the description of "Big Homer", as set forth in the reference re-

port, was one Opie Wilson who operates the Palace Arcade, a gambling establishment at Madison and Main Sts., Peoria. This individual is described as being fifty years of age, 5' 2" to 4" in height, weighing 225 pounds, hair gray, eyes light, criminal record none.

Chief of Police Williams and Chief of Detectives Montgomery advised Opie Wilson has never been arrested in Peoria or elsewhere, to their knowledge, however, it was well known in the past that his establishment was often frequented by John Klutas and Edward Boll when they were operating in the vicinity of Peoria.

On March 16, 1934 Special Agent J. M. Baker of this office interviewed Mr. Ross Saunders at the American Hotel, St. Louis, Mo., at which time Mr. Saunders stated he could not produce a photograph of "Big Homer" Wilson and that so far he had failed to obtain this photograph.

Upon contacting George W. Hartmann and Frank R. Hartmann, operating what is known as the Hartmann News Agency, room B-1, Central National Bank Bldg., Main and Adams St., Peoria, Ill., it was ascertained that this news agency has been handling the Minneapolis, Minn. Tribune newspaper for possibly the past ten years, receiving two copies thereof daily, which newspapers have been sold over a news stand to any individual who called for same. The Hartmann News Agency has no special customer for this particular paper and it is the only paper from the Twin Cities which has been handled by them.

Upon further inquiry Mr. George Hartmann stated he had sold a March 2, 1934 edition of the Minneapolis Tribune to an individual who inquired as to whether the Hartmann News Agency carried the Sunday edition of this paper and when this individual was advised in the affirmative he inquired as to whether said news agency ever handled the Journal and also inquired as to whether St. Paul papers were sold at said agency. Said individual was advised that the only paper which was handled by this agency was the Minneapolis, Minn. Tribune. On Monday, March 5, 1934, at about 5:30 P. M. this same individual called at said news stand and purchased a Sunday, March 4, 1934, copy of the Minneapolis Tribune. This purchase was made from Frank R. Hartmann.

Upon displaying the group photograph of Alvin Karpis, Volney Davis, Fred Barker, Arthur R. Barker and Harry Campbell, to Mr. Frank R. Hartmann, he stated that the picture of Alvin Karpis looked similar to the individual who had purchased the Sunday paper mentioned above, however, he added he did not observe this individual closely and could not state in fact whether he was identical with Alvin Karpis. This same

group photograph was shown to George Hartmann who was unable to even attempt an identification, adding he had only slightly noticed the individual who purchased the Friday edition of the Minneapolis Tribune, as reflected above.

Inasmuch as it was possible that Alvin Karpis was the individual who purchased the Sunday edition of the Minneapolis Tribune, agent maintained a surveillance of the news stand of Hartmann Bros. from 4:00 P. M. on March 5, 1934 to 3:00 P. M. and from 10:00 A. M. to 9:00 P. M. on March 7, 1934 for the purpose of observing any individual who might call for a Minneapolis or St. Paul newspaper. This surveillance was maintained without result inasmuch as no one called for the papers referred to.

Agent caused the Hartmann Brothers to examine the picture of Alvin Karpis, as well as the other photos appearing on the same panel, in detail, and requested that in the event anyone bearing a resemblance to these individuals called for a St. Paul or Minneapolis newspaper that the St. Louis Division office be advised immediately by telephone, the address and telephone number of said office being supplied both the Hartmann brothers.

UNDEVELOPED LEADS:

ST. LOUIS OFFICE at Peoria, Ill. will contact the Police Dept. for fingerprints of George Austin, alias Yoksis, and supply same to the St. Paul Division Office.

Further, Ross Saunders, American Hotel, St. Louis, will be contacted in the near future in an effort to obtain a photograph of "Big Homer" Wilson.

PENDING.

"The above individuals were taken to the County Jail at Sapulpa, Oklahoma; however, before any opportunity was had to question them, a large crowd had collected around the court house, and Sheriff Willis Strange of Creek County decided it would be best to remove at least five of the men to the State Penitentiary at McAlester, Oklahoma, for safe keeping. I accompanied Sheriff Strange, Captain Stewart, and others, to the McAlester Penitentiary with the following persons:

Glen Roy Wright
Charles Cotner
J. W. McAttee
Frank Downey
Ed Brodie

"I questioned Glen Roy Wright at length concerning his association with Harry Campbell, the Barkers, Alvin Karpis, and others of this gang; however, the only information which Wright would furnish was that he and Campbell had been associated together a great deal. He would make no statement as to where Harry Campbell was located at the present time; nor would he give any information regarding the Barkers or Alvin Karpis. Wright talked at length regarding various robberies which he had committed. He has now been removed to Stillwater, Oklahoma, where he is awaiting trial on a charge of robbery with firearms.

"I also interviewed Charles Cotner, but he stated he had no information regarding the Barkers or Karpis.

"J. W. McAttee, when interviewed, advised that he had never heard of Fred or Doc Barker, or Alvin Karpis. He stated that he had just arrived at the farm a day or so prior to the raid and was not acquainted with any of the men who were apprehended there.

"Ed Brodie and Frank Downey refused to furnish any information.

"I also interviewed Grace Cuckler and Winnie Morris. Winnie Morris admitted that she had been traveling around the country with Charles Dotner, and Grace Cuckler stated that she had been associated with Frank Downey. Both of these women professed not to know anything regarding the activities of their respective men companions.

"The following \$5.00 and \$10.00 bills were found in possession of Mrs. Grace Cuckler:

"In addition to the above currency, Wright had in his possession nine \$20.00 bills which have been determined to be counterfeit. The Secret Service Department at Oklahoma City, Oklahoma, has made an investigation, and a complaint was filed against Wright by Mr. Baker, an Operative in the United States Secret Service. The complaint was filed at Tulsa, Oklahoma, on March 30, 1934.

"At the State Penitentiary at McAlester, Oklahoma, Wright, Cotner, McAttee, Downey and Brodie were photographed and fingerprinted. Mr. R. A. Shackelford, Record Clerk at the Penitentiary, advised me that he would forward photographs of these parties to the Oklahoma City office. I secured copies of the fingerprints of all parties arrested at the farm of I. R. Brackett and forwarded same to the Division at Washington. I am attaching hereto, for the Oklahoma City files, copies of the fingerprints of Wright, Cotner, McAttee, Downey and Brodie.

"At the time of the raid, there were also recovered three stolen automobiles, as follows :

- (1) 1933 Chevrolet Sedan, Motor No. 3607351.
This car was stolen at Yale, Oklahoma.
No information was available as to the name of the owner or the date of the theft. This car is believed to have been in possession of Cotner.
- (2) Chevrolet Sedan, Motor No. 3621135.
This car was stolen at Sapulpa, Oklahoma, November 24, 1933; owner, J. H. Robson.
Glen Roy Wright admitted the theft of this car at Sapulpa.
- (3) 1933 V-8 Ford Truck.
I did not secure the motor number of this car as the information was not in possession of the sheriff's office, and I did not have an opportunity to examine the Ford truck. However, it has been definitely identified as being the property of the Ford Motor Company at Okmulgee, Oklahoma, and was taken in a hold-up January 18, 1934.

"A number of rifles and pistols were recovered; also, a shotgun and two Luuger pistols. These are in possession of the police

and sheriff at Sapulpa, Oklahoma.

Special Agent J. Massey Edgar conducted an investigation at news stands in Fort Smith, Arkansas, which will be listed hereafter, to ascertain whether anyone was calling for St. Paul or Minneapolis newspapers, and it was learned that none of the said news stands handle newspapers from either of the Twin Cities:

Ward Hotel Cigar Counter and News Stand, D. J. O'Leary, Manager.
Smoke Shop, Sixth and Garrison Ave., C. W. Price, Manager.
Merchants News Stand, Merchants National Bank Building, George Eldridge, Manager.
The Turf, Garrison Avenue, C. L. Kremrie, Manager.
Main Cigar Store, Main Hotel, Phil Moseley, Manager.
First National News Stand, First National Bank Building, S. B. Moular, Manager.

Mr. C. L. Kremrie, Manager of the Turf, informed Agent Edgar that on the night of March 19 a man was in his place and was served by one of the employees. This man had dark hair, was tall and slender, and was well over six feet in height; he was well dressed; had in his purse a large sum of money, apparently over \$200.00 and about \$500.00 in Travelers Checks; and had a bottle of whiskey. This man stated that he was going to catch the 8:00 o'clock train for Kansas City. Kremrie stated he was certain the man was well over six feet, but that he bears some resemblance to the photograph of Karpis, had a dark complexion and prominent teeth. Mr. Kremrie stated that if this person returns, he will notify Agent Edgar.

MEMORANDUM FOR THE DIRECTOR

In connection with the request made by Mr. Conroy of the Kansas City office concerning a comparison of the latent fingerprints found in the house occupied by Vernon C. Miller, 6612 Edgevale Road, Kansas City, transmitted to the Division by letter dated February 13, 1934 (Contrary to my statement to you, while Mr. Anderson was in Washington he stated that these prints had been located in the Kansas City file by him just prior to his coming to Washington and I was under the mistaken impression that the prints were received by the Division at about that time), I talked with Mr. Edwards and he advised that over 50 latent prints had been developed from the material submitted by the Kansas City office and each had to be compared with all of those in the single fingerprint files; that he had one man working constantly on this case and it would take approximately two months to complete same.

I requested that a progress report concerning this search be made and forwarded to Mr. Conroy. On February 21, 1934, a telegram was sent to the Kansas City office requesting to be advised why these prints had been held from June of 1933 until February of 1934 without submitting them to the Division, in reply to which the Kansas City office advised on February 21, 1934 that in the excitement in connection with this investigation, at a time shortly after the massacre happened, the submitting of these prints to the Division was overlooked, which oversight seems to have been continued until February 13, 1934.

The latent fingerprints were, of course, immediately compared with outstanding suspects in the Kansas City case and also suspects in the Bremer case, without success. Mr. Edwards, as stated above, will have a progress report prepared immediately and forward it to the Kansas City office.

Respectfully,

S. P. Conroy.

MEMORANDUM FOR MR. CLEGG.

Reference is made to Mr. Cowley's memorandum of March 13, 1934, addressed to the Director, in connection with the latent fingerprints submitted by the Kansas City Office found in the Miller house in Kansas City.

The last paragraph indicates that the remaining unidentified latent prints in connection with this case have been compared with suspects in the Bremer Case. Such a comparison has actually been made only with the outstanding Bremer Case suspects, particularly, known members of the Alvin Karpis Gang. Mr. Cowley was acquainted with this fact and he suggested it was desirable that the comparison be completed with all named suspects in the Bremer Case. This work will proceed, one employee being assigned to it exclusively in the Single Fingerprint Section. There remain of the Kansas City latent fingerprints approximately eight which afford good ridge detail and characteristics sufficient to be of value. There are to date 265 suspects listed in the Bremer Case and comparisons with all of these will be made. It is estimated comparisons between these remaining latent prints and the fingerprints of the suspects can be effected in approximately three weeks' time.

Respectfully,

E. P. Coffey.

Agent was advised by Betty Larson, address above, that Vivian O'Hara, [redacted] had not been at Betty's Place Roadhouse since July, 1933, and that she was probably at Addison, Wisconsin.

AT ADDISON, WISCONSIN

Agent made inquiries at the only two roadhouses to be found at Addison, at which places Vivian O'Hara was unknown.

With the purpose of locating George Larson, [redacted] agent examined the records of the Clerk of the United States District Court, 298 Government Building, which showed that George Larson had made bond on October 27, 1933; that at time he signed bond he gave his address as Sherwood Hotel, Green Bay, Wisconsin. His bond was signed by George I. Gruber, 239 N. 36th St, Milwaukee, Wisconsin.

Mr. George I. Gruber, 239 N. 36th St, advised agent that George Larson was not at Green Bay, Wisconsin, but was somewhere in Milwaukee; that he would locate Larson for agent. At a subsequent interview, Mr. Gruber stated it would probably take several days to locate Larson but that he was positive he could locate him.

UNDEVELOPED LEAD:

THE CHICAGO OFFICE at Milwaukee, Wisconsin will again contact George I. Gruber, 239 N. 36th and secure address of George Larson, and interview Larson as requested in reference letter. F. A. Fitzgerald, manager Fitzgerald News Agency, 21-4th. St., stated that he handles only one daily St. Paul Pioneer Press and one Minneapolis Journal and sells same only occasionally; that he has no regular customer for the papers; that he could not again identify any particular person who might have been a purchaser of the papers. He was shown photostatic copies of pictures of suspects in this case and failed to identify any of them as having purchased a St. Paul or Minneapolis paper at his stand.

Phillip Mittleman, Attendant Golden Gate News Agency, 8 - 3rd. St., stated that said news agency handles the Sunday Minneapolis Journal and the Sunday St. Paul Pioneer Express and the daily Minneapolis Tribune; that for the period Feb. 18 to Feb. 23, 1934, the same person called every day for the Minneapolis Tribune; that said person was a man, short of stature, about 5-5 in height, face weather beaten and burned, weight about 140 and wearing a camel's hair cap and a dark suit, black shoes and usually arrived between 11 A.M. and 1 P.M. for the paper, and arrived on foot and he did not notice an automobile in the vicinity at time of arrival of this person. Phillip Mittleman (on Feb. 27, 1934) was shown photostat of suspects and picked out the photo of suspect Fred Barker as resembling the person who called for the Tribune during the period Feb. 18 to Feb. 23, 1934 inclusive.

Special Agent in Charge R. E. Vetterli, Special Agent H. R. Philbrick and this Agent maintained a constant surveillance of news stand at 8 - 3rd. St. from Feb. 27, 1934 to March 3, 1934 and no person remotely resembling any of suspects called at said news stand. Investigation was immediately made at the principal hotels in San Francisco, including the Fairmont Hotel, the Mark Hopkins, Palace, Sir Francis Drake and the St. Francis Hotel, and the registers checked for registration of suspects under their names and known aliases and photostats of suspects exhibited to the clerks at the said hotels but no information was received that any of said suspects had registered or were known. Phillip Mittleman, 8 - 3rd. St., promised to immediately communicate with the San Francisco Division Office if suspects should again call at the news stand. Call has been again been made every day at 8 - 3rd. St., but no information has been received that any of suspects have appeared again.

Mrs. Mary Doyle, in charge Out of Town papers Department, Public Library, Civic Center, was shown photostats of suspects and after examination of same stated that she cannot recognize any of suspects as having called to read the St. Paul or Minneapolis papers.

Call was made at 706 Steiner St. and 1451 Steiner St., and information received that Mr. and Mrs. G. W. Johnson, Mrs. Rose Bryn and Mrs. Anne Gallows wife of Ted Bentz had resided at said places but had left some months prior without leaving a forwarding address.

Information was received through the San Francisco Postoffice Inspector that Anne Gallows had left a forwarding address from 1451 Steiner St., to 1245 - 66th. St., Los Angeles, and that Mr. and Mrs. G. W. Johnson left a forwarding address to 520 Taylor St., Apt. 204.

Mrs. A. DeSilva further stated that G. W. Johnson was employed as Assistant Engineer at the Clift Hotel, Geary and Taylor Streets.

Under date of March 22, 1934 a telegram was received from Special Agent in Charge C. C. Spears, Portland, Ore., which telegram stated that a new Lincoln Sedan, dark blue or black color, of Ted Bentz and party was probably using Indiana 1934 License #410864.

Special Agent H. R. Philbrick, of the San Francisco Office, on receipt of the telegram from Special Agent in Charge Spears immediately communicated with Mr. Stone of the Criminal Identification Unit of the State of California at Sacramento and Mr. Stone advised that he would put out an All-Points Bulletin for a pick-up on the Lincoln Sedan, bearing Indiana license, 1933, #410864, and would have the arresting officers advise the nearest office of the Division.

Special Agent H. R. Philbrick made investigation at Palo Alto, Calif., with the view of locating Howard Mulaney and ascertained that there is a Howard Mulaney residing in Palo Alto, who carries some kind of a State Constable's badge and who resides at 521 Fulton St., Palo Alto; that Mulaney hangs about the Texas restaurant in Palo Alto and has recently left town ostensibly for the purpose of looking over some mining property near Winnemucca, Nevada; that Mulaney is known to take long trips and to be gone for long periods of time but apparently has no occupation; that on the night of March 31 a Ford car bearing Michigan license, believed to be E3564, but not certain, was observed in front of the Mulaney residence; that the Palo Alto Police will maintain a lookout for the Lincoln Sedan with Ed and Ted Bentz and party and will keep Howard Mulaney under surveillance when he returns to Palo Alto.

On receipt of telegram of March 22, 1934 from W. A. Rorer, Inspector, St. Paul, Minn., the principal hotels of San Francisco were again checked and registers examined for one year last past, under the true names of suspects and all their aliases but no information was received of any of them having registered.

Special Agent Vernon E. Criss, San Francisco Office, ascertained from investigation that Auburn automobile, motor #BB1527, bearing 1933 California license #785762, was registered to one William B. Lohman, address William Taylor Hotel, San Francisco, Calif; that investigation at the William Taylor Hotel developed that a Mrs. William Lohman, address Chicago, Ill., accompanied by Mrs. T. C. Black-

burn, address 4214 North Lockwood Blvd., Toledo, Ohio, registered at said hotel on Oct. 25, 1933 and remained until Oct. 27, 1933. Pictures of suspects involved in this case were shown to the manager and the clerks of the William Taylor Hotel but they could not recognize any of them. A check at the California State Motor Vehicle Department developed that 1933 California license 785762 was issued on Oct. 9, 1933 to William C. Lohman, sole owner of Auburn auto, motor #BBL527, which was first sold on that date; that no 1934 license has been issued for said car and said car has not entered the State under another license.

A check at the Auburn automobile agency, 1625 Van Ness Ave., San Francisco, developed the information that the said Auburn Sedan had been sold by that concern on Oct. 9, 1933; that one Fred Thompson, manager of the Golden State Hotel, San Francisco, was the salesman and that one H. Warshawer had closed the deal; that records further reflect that a 1933 Dodge Sedan, motor #DP65846, had been turned in as part payment, which Dodge Sedan had been sold to Lloyd A. Hillman, a used car dealer, at 1640 Van Ness Ave., San Francisco; that all the records concerning the sale had been sent to the Auburn California Company, 343 Wilshire Blvd., Los Angeles, Calif. At the Lloyd K. Hillman Co., it was learned that Dodge Sedan, motor #65846, had been sold to one Dr. Paolo Mazzetti, 2051 Jefferson St., San Francisco, Calif.

In answer to request, Miss Ruth Assalena, National Auto Theft Bureau, Sacramento, Calif., advised that the records of the California State Motor Vehicle Department show as follows:

"On Aug. 22, 1933 the Montgomery Motor Co., 3212 West Jackson Blvd., Chicago, Ill., sold a Dodge Sedan, motor #DP65846, Serial 3639469, to William Lohman, 3453 West Jackson Blvd., Chicago, Ill., taking in trade a Dodge motor #DP58012, Bill of Sale on file; also on file is a 1933 Illinois facsimile certificate, #1237031, in Mr. William Lohman's hand, dated Aug. 23, 1933; wire from the Montgomery Motor Co., Chicago, Ill., to the San Francisco Division on Oct. 9, 'Lohman car bought Aug. 22, paid in full'. According to the Bill of Sale the car was purchased Aug. 22, 1933. On Oct. 7, 1933 William Lohman, 3453 West Jackson Blvd., Chicago, Ill., secured a 1933 Non-Resident Permit #124514, on the car which expired on Dec. 31, 1933. California address, General Delivery, San Francisco, Calif., and Illinois license #1237051. Bill of Sale on file showing sale by Mr. Lohman to the Auburn California Co., 1155 Van Ness Ave., San Francisco, on Oct. 9, 1933, who secured 1933 license #785759, as sole owner on Oct. 9, 1933. The Auburn California Co., sold the car to the Lloyd K. Hillman Co., 1640 Van Ness Ave., San Francisco, no date of sale given, who sold it on Oct. 14, 1933 under report of Sale #D358115, to Dr. Paolo Mazzetti, 2051 Jefferson St., San Francisco. Transfer made to Dr. Mazzetti on Oct. 28 with the legal owner as Lloyd K. Hillman, 507 South Flower St., Los Angeles."

Fred Thompson, 250 Taylor St., advised that he had sold a 12 cylinder Auburn Sport Sedan, having the body painted blue, top of the hood painted grey or brown, a gray canvas top and six wire wheels to a man whom he identified positively from pictures as Volney Davis, who was accompanied on two separate occasions by different men. Fred Thompson recognized the photograph of Fred Barker and Alvin Karpis but could not remember that they were the men who had accompanied Volney Davis at time of purchase of the car. Fred Thompson stated that these men came to the sales room on each occasion and thus he did not take them

to any hotel and does not remember any address mentioned by them; that the sale was consummated by the taking in of a Dodge Sedan, bearing Illinois license Plates, and a cash balance of some \$600, which was taken from a large roll of money in the possession of Davis.

Mrs. Fred Thompson also immediately recognized the picture of Volney Davis as being the man who had come to the Auburn California Auto sales room and purchased an Auburn Sedan through her husband; she stated that Davis came into the office where she was sitting, took off his hat, sat down and talked to her for a while.

Mr. H. Warshawer, sales manager, 1625 Van Ness Ave., stated that he has only a faint recollection of the above transaction and believed that Arthur Barker was one of the men as he particularly remembers the high forehead.

Special Agent V. E. Criss, at Sacramento, Calif., made lists of automobiles from the Middle West States entering the State of California during the period Feb. 11 to Feb. 19, 1934, showing license number, place of entry, make of car, in some instances the motor number of car, for reference purpose in case any car used by suspects was identified. Copies of said list are attached to this report as follows: 3 to the Division, 2 to St. Paul, 1 to Salt Lake City and 1 to the San Francisco copy.

Capt. Dulles, in charge Inspectors, San Francisco, Police Department, stated that a Mack Harris and Jack Harris, formerly of St. Paul, Minn., and friends of Gloomy Gus Schaffer, are now operating a beer joint at 74 Embarcadero, San Francisco, and that the place has the reputation of being a hangout for gangsters from out of town; that Jack Harris and Gloomy Gus Schaffer pulled a jewelry job in St. Paul some years ago and both served a term at the Minnesota State Penitentiary at Stillwater, Minn.

Capt. Trotter, in charge of Inspectors, Oakland Police Department, stated that within the past few days he has received an unconfirmed rumor that a number of gangsters are occupying an apartment in Oakland and have a number of machine guns with them; that he is endeavoring to confirm the rumor and will notify the San Francisco Division Office when he receives any information.

UNDEVELOPED LEADS: THE SAN FRANCISCO OFFICE, will make investigation at Grass Valley, Calif., with view of ascertaining if Ed or Ted Bantz have a mining claim in that region and if suspects and Ed and Ted Bantz can be located in that vicinity.

The San Francisco Office, at San Francisco, will make investigation at the several gambling houses in San Francisco, Oakland and vicinity and at the El Cerrito and Baden Baden dog tracks and Tanforan racetracks to see if suspects are known or have been spending money in amounts that call attention to them.

The San Francisco Office, will make other and further investigation to ascertain if suspects are in the San Francisco district.

THE CHICAGO OFFICE, will make investigation at the Montgomery Motor Co., 3212 West Jackson Blvd., Chicago, Ill., and obtain specimen of the handwriting of Alvin Karpis, alias William Lohman, if same has not heretofore been obtained, which probably can be had from the contract of purchase of Dodge Sedan, motor #DP65846.

Will also make investigation at 3453 West Jackson Blvd., Chicago, Ill., address given by Alvin Karpis at the time of purchase of Dodge Sedan.

THE LOS ANGELES OFFICE, will interview Mrs. Ann Gallows, 1845 - 66th St., Los Angeles, for information of the present location of Ted Bantz.

PENDING.

REFERENCE: Letters of Inspector W. A. Rorer at St. Paul, Minn., 2-12-34, and 3-19-34, and report of Special Agent H. E. Hollis, Oklahoma City, Okla., 3-19-34.

DETAILS: Henry Hull, Texas State Penitentiary Inmate #73166, was again interviewed by Special Agent H. E. Parker and this Agent at the Marlow State Prison Farm, near Richmond, Texas and he stated that he went to St. Paul, Minn., with Doc Barker and old man Barker on the promise of Doc Barker that he would furnish him with a job running whiskey from Canada at \$100 a week; that after arriving in St. Paul, Doc Barker just laughed and informed him they were not running whiskey, but since he, Hull, was with the gang he would have to stay with them. Hull stated he arrived in St. Paul about a week before the robbery of the Third Northwestern Bank in Minneapolis; that he was at the apartment with the Barker boys and their associates, and

heard them discussing the job; that they first intended taking him, Hull, in the job, but decided not to do so; that there were seven men who robbed that bank, and they were Lawrence DeVol, Doc Barker, Fred Barker, Jess Doyle, Bill Scott, Alvin Karpis, whom he knew only as "Ray", and Verne Miller, whom he knew only as "Verne" and supposed that he was Verne Sankey until he saw Miller's photograph in a newspaper. Hull stated that the money obtained on this bank job was divided seven ways at 906 or 926 Grand Avenue, St. Paul, by Verne Miller, Fred Barker and Lawrence DeVol; that Lawrence was caught by officers at this address and he had some sixteen or seventeen hundred dollars on him when arrested; that Verne Miller took the Liberty Bonds to Kansas City which came out of this bank job, but does not know where or who handled them in Kansas City.

Hull stated that he thought for some time that the man whom he knew only as "Verne", a member of the Barker gang, was Verne Sankey, because he never heard his surname, and supposed it was Sankey until he saw Verne Miller's photograph in the newspaper and recognized it as the person whom he knew only as "Verne" and thought was Verne Sankey.

Hull also stated that on the robbery of the Third Northwestern Bank robbery in December, 1932, Jess Doyle wore a chauffeur's cap, and drove one of the two cars used on the job; that two police officers were killed during this robbery, and he was in the apartment used by the Barkers at Cleveland and Marshall Avenue, in St. Paul, and heard an account of the robbery over the radio, also heard the members of the Barker gang discuss it later. Hull stated he understood from Doc Barker that the boys were "ribbed" to do this robbery by the man "Harry" in the State House at St. Paul, and by the man "Jack" who operates the Hollyhock roadhouse; that this job was pulled to put the "heat" on Mr. Meehan, City Manager, because they claimed they put Meehan in office and he double-crossed them and did not stay "hitched."

Hull stated that after the Barker gang pulled the robbery of the Third Northwestern Bank, in Minneapolis, they drove to St. Paul, Minn., in two cars, and near a park, which he thinks was Como Park, they had a flat tire and had to change cars and the money, which was in a sack and a suitcase, and while making the change some citizen in an automobile drove past them and tried to see their license number, and Doc Barker shot this man in the head, and later when they got to the apartment Verne Miller gave Doc Barker a cursing for shooting the man.

Hull stated that in addition to Lawrence DeVol being convicted of robbing the Third Northwestern Bank, in Minneapolis, Lawrence's two brothers, whose Christian names he does not know, were also convicted and given life sentences, but they were not implicated in the robbery and did not participate in same. Also, that Doc Barker stated to him, Hull, after Lawrence DeVol was arrested on this bank robbery, that if he, Barker, could get Lawrence out of the jail he would take him for a ride because Lawrence talked about the bank job in the pres-

43

ence of some woman. Hull stated that Harry Campbell was not with the Barker gang when he was with them, but he heard Doc and Fred Barker talk about Campbell, and when asked why Campbell was not with them, Doc Barker informed him, Hull, that they could not find him. Hull stated that he never heard any of the Barker gang mention they had stolen \$15,000 or any money from Lawrence DeVol, although they may have done so, but would not talk about it if they had; that Verna Miller owed Lawrence DeVol one or two thousand dollars at the time Lawrence was arrested by the officers.

Henry Hull also stated that while he was with the Barker gang in St. Paul he never heard them mention and never knew that Ed Bentz was ever connected with them. Also never heard or knew of a connection of theirs by the name of Doc or Jack Pfeiffer; that he never knew of a dentist being connected with the Barker gang; also does not know "Frisco Butch" Steinhardt, Leon Gleckman, Tom Banks, Harry Sawyer, Barney Berman, Isadore Blumenfeld, alias Kid Can or Jap Gleckman.

Hull stated that while he was with the Barker gang in Reno, Nevada, in January, 1933, he and Jess Doyle stayed two days at the Anderson Hotel, then moved to the Gibson Apartments at Second and Stevenson Streets; that the day after they moved from the Anderson Hotel, Jess Doyle came into the apartment and said "There is some 'Fuz' in town;" that when asked what he meant, Doyle stated "Federal officers;" that one of them was from Denver and he knew him. Hull stated that several days later the Barker gang went to the Anderson Hotel for purpose of taking the Federal men for a ride, but they had left town. He stated from what conversation he overheard between the Barkers and Jess Doyle, that shortly after the bank robbery in Minneapolis, Lawrence DeVol had expressed a trunk from St. Paul to Reno, and when arrested by officers in St. Paul, the express receipt was found on his person, and some officers went to Reno, Nevada, to watch for associates of DeVol on the bank job.

Hull stated that the Karpis-Barker gang have a connection in Coffeyville, and he does not know whether it is in South Coffeyville, Oklahoma or Coffeyville, Kansas; that he often heard the Barker boys mention the name of the man who is a very good friend of theirs, but he cannot recall the name of this man. Hull stated that the Barker boys wanted to send him down to stay with this man during the winter of 1932, and told him, Hull, that he could steal cigarettes with this man and make some money until Spring and until after they had had their vacation.

Hull stated that if the Karpis-Barker gang went to Reno, Nevada, after getting the Bremer ransom money, then the man Graham in Reno would probably be keeping the money for them, but if they stayed in St. Paul, then the man Jack who was proprietor of the Hollyhocks roadhouse, would keep the money for them.

Hull stated that he is confident that if the father of Doc and Fred Barker is not already with them, and if old man Barker is carefully watched he will sooner or later go direct to where Doc and Fred are located; that if old man Barker does leave his filling station near Miami, Okla., to join his own sons, Doc and Fred, he will not likely take any baggage.

Henry Hull stated he cannot furnish any further information about the Karpis-Barker gang, as he has not been connected with them since January, 1935.

With reference to Carol Tankersley, alias Carol Hamilton, ex-wife of Herman Barker, Mr. L. E. Hewitt, Superintendent of Mails, Galveston, Texas, advised they have no record of Carol Tankersley, alias Hamilton at Galveston Postoffice. Mr. F. H. Michaelis, General Delivery Clerk, Galveston Postoffice, advised that no mail is being received for or called for in the name of Carol Tankersley, or Carol Hamilton.

March 26, 1934

MORE POLITICAL PAROLES

Charges by the United States Department of Justice that Arthur R. Barker and Alvin Karpis were linked with the kidnaping of Edward G. Bremer of St. Louis in January add another indictment against the vicious, politically-controlled Oklahoma parole system. Both Barker and Karpis are on parole from the state penitentiary at McAlester. Barker served 10 years of a life sentence for murder and Karpis was released after serving part of a four-year sentence for burglary. Both were criminals to the core, and neither has shown any indication of a desire to reform since they were given their freedom.

Citizens of Oklahoma who pay taxes to maintain the police and sheriffs' forces, the courts and prisons, should be able to understand that a large part of the costs is directly attributable to such paroles as were given Barker and Karpis. Scores of criminals who have been through the courts and prisons of the state are operating in Tulsa's underworld. One Tulsa lawyer, playing politics with his friend, the governor, can undo the work of all our courts by obtaining paroles for criminals convicted in Tulsa.

The people should not only elect legislators pledged to take this power from the governor, but they should get after the political lawyer who, posing as a respectable citizen, conspires with criminals for their freedom and for continuation of their criminal careers.

With reference to Division letters of March 2 and March 27,1934, regarding the communication from I.L.Doherty of Killdeer, North Dakota, please be advised that the remarks of Mr.Doherty, in his letter to the Department, will be investigated at the earliest possible time.

The Division will note that Mr.Doherty's letter mentions a rumor concerning which he states he has no proof and that his purpose in writing the Department was to satisfy his curiosity. In view of the apparent character of his information, it was not deemed necessary to investigate it immediately.

This matter will be given investigative attention when there are other leads in that section of the district unless the Division otherwise instructs.

RE: ALVIN KARPIS with aliases et al.

KIDNAPING - S.L. File 7-27.

Dear Sir:

I respectfully invite your attention to my letter of March 27th, 1934, directed to Inspector W.A. Rorer at St. Paul, Minnesota, copy of which went forward to you, and I will ask the Division to give consideration to the advisability of detailing a suitable number of undercover agents to Reno, Nevada, for the purpose of determining if and when one or more of the subjects involved in this case return to Reno, and so that such agents may make arrangements for their apprehension.

While I am in no position to state whether or not the Division has definitely learned of the location of one or more of these subjects at any other place or places in the United States, it seems reasonable to believe that since they have been at, and are known in and about Reno, Nevada, that they will return there sooner or later. The question to be decided is whether or not the Division believes it profitable to detail undercover men to Reno, for that one purpose, and so place them that they may operate to the advantage of the Division.

MEMORANDUM FOR MR. CLEGG

With reference to your memorandum of March 28, advising me of your conversation with Mr. Brantley in connection with the publicity concerning the Barker-Karpis-Bremer case, I am thoroughly disgusted with the manner in which this matter has been handled in Oklahoma. Obviously, Mr. Brantley has not been able to make any real progress in this matter, and from the latest reports it would appear that Mr. Hallis is indulging in evasive tactics. I wish that you would immediately contact with Mr. Nathan at St. Paul and direct him to proceed at once to Oklahoma City, giving him the benefit of the background of this story to date, and instruct him that it is my desire that this matter be brought to a definite conclusion. We must ascertain the source of this publicity. It is obvious that it emanated either from St. Paul or from Oklahoma, and I want Mr. Nathan to give it his personal attention and to definitely ascertain the facts in the matter.

MEMORANDUM FOR THE DIRECTOR.

I telephoned Mr. Nathan about the publicity in the Barker-Karpis-Bremer case and advised him that in addition to the original plans which he had of making an investigation at Oklahoma City, he should determine how Bracewell in Saint Paul knew that the "heat was on Hollis" in Oklahoma City; who Hanson talked to; and to whom he gave the information about the identifications; why he gave information to Bracewell; and full details of the occasion which prompted numerous peace officers, newspaper men and a newspaper woman to accompany the Special Agent conducting the raid in Oklahoma, as was indicated by Bracewell and also that he should go by way of Topeka to interview Wentz Smith of the Kansas State Police as he appeared to have known about the identifications and from him information should be obtained as to the source of his information, as well as that known to George Stewart, a peace officer in Oklahoma.

I likewise told Mr. Nathan that an air mail letter would be forwarded to him at Oklahoma City today relative to an interview which he was conducting with Francis Kramer at New York based upon information furnished by Informant Alcorn, alias Korn, alias Kay.

Respectfully,

H. H. Clegg.

MEMORANDUM FOR THE ATTORNEY GENERAL

Reference is made to the kidnapping of Mr. Edward G. Bremer at St. Paul, Minnesota and recent items of publicity which have arisen relative to the investigative steps which have been taken in reaching a solution of this matter.

In this connection, it has been definitely determined that Mr. Edward G. Bremer personally gave out information to the press as to the type of wall paper which appeared on the walls of the room in which he was held captive. The definite identification of this wall paper, however, has subsequently been established by the Division and there has been no publicity brought to my attention relative to the identification of this wall paper. Its identification was effected by having a drawing made, based on Mr. Bremer's recollection of the wall paper pattern, following which investigation was made at the various wall paper manufacturing establishments in the United States and from one of the samples selected as being similar to the pattern prepared, Mr. Bremer has made definite identification.

The flash lights, which were used by the kidnapers, were located by Special Agents of the Division. They were photographed and the photographs were enlarged as an aid to effect identification of these flash lights. It became necessary to canvass manufacturers and wholesale dealers in these flash lights and in the conduct of this investigation, the photographs were exhibited to these manufacturers and dealers. It would appear logical that this information could have reached newspaper men through any one of the many contacts made in this connection. It is to be pointed out, however, that there has been no publicity as to the identity of the store where the flash lights were purchased or the identity of the saleslady who sold these flash lights to Alvin Karpis, one of the kidnapers. This information is known only to the Special Agents.

Concerning the publicity relative to the gasoline cans in which the reserve supply of gas was stored and placed in the automobile in which Mr. Bremer was returned, photographs and complete descriptive data relating to these cans were obtained and numerous inquiries were made of can manufacturers as well as many gasoline filling stations along the road known to have been followed by the kidnapers, in an effort to effect a

March 26, 1934.

positive identification of the kidnapers by photographs. The publicity relative to the fact that these cans have been found could have been based upon information furnished newspaper men by any one of the numerous operators of filling stations or dealers in this type of equipment.

Although mention was made of the fact that fingerprints were found on the cans and the flash lights, this could be a logical assumption on the part of newspaper men due to the necessity for some link to exist to show that the cans and flash lights had been in the possession of the kidnapers. Fingerprints would be the logical method of establishing such a connection; however, it is to be noted that although fingerprints were found on the gasoline cans, no fingerprints have been found on the flash lights, which shows that this portion of the published information is not based on fact.

The investigation of this matter is continuing in an effort to determine the source of the information which appeared in the newspapers. However, it is gratifying and significant to note that there has been no mention of the fact that a cap worn by one of the kidnapers has been identified and this cap was found in the kidnapers' car, which further tends to definitely establish the identity of the kidnapers. It would appear, if the information is based on data furnished by any employee of this Division, that the identity of the cap would have been an important element. Likewise a further fact, known to the Special Agents of this Division, is the identity of the saleslady selling the flash lights and the store where they were sold, which has not appeared in the press.

Although incorrect information has appeared as to identifying fingerprints on the flash lights, at the same time there has been no publicity concerning the definite identification of the wall paper pattern. Upon receipt of any additional information bearing on this publicity, I shall be glad to immediately advise you.

Respectfully,

J. Edgar Hoover

MEMORANDUM FOR THE DIRECTOR

Mr. Purvis called. He stated in answer to inquiry that the Special Agents assigned to Mr. Rorer's special detail had been working in his district until he telephoned Mr. Rorer and informed him that he thought the case would not be receiving proper supervision and might lead to duplication of effort unless Purvis could review and supervise their work as long as they remained in the Chicago territory. Mr. Rorer agreed this was the proper procedure and the Agents are working in the Chicago territory under Mr. Purvis' supervision exclusively on the Bremer case, the rough draft reports being mailed in to the Chicago Office for typing.

Mr. Purvis stated he had received a telegram from the Salt Lake City Office advising that it was unnecessary for Agent Newman to proceed to Denver to testify before the Boettcher Award Committee. I told him he might follow the suggestion of Mr. Dowd.

Dear Sir:

Re: Alvin Karpis with aliases, et al.
Edward George Bremer - Victim,
Kidnaping.

Confirming telegraphic communication from this office today in response to Division telegram of March 29th relative to the sentence of Alvin Karpis, this is to advise that Special Agent Earle M. Black examined the Criminal Appearance Docket at Henryetta, Oklahoma, which discloses that Alvin Karpis, alias George Haller, on September 17, 1931, upon plea of guilty to a charge of burglary, before Superior Court Judge J. H. Swann, sitting in the Henryetta Division of the Okmulgee County Superior Court, was sentenced to serve three years in the State Reformatory at Granite, Oklahoma and was paroled by Judge Swann from the bench on the same date to M. M. Alexander, his attorney, who was the former Judge of the District Court at Okmulgee, Oklahoma, there being no commitment of Alvin Karpis to the Reformatory.

Special Agent H. E. Hollis communicated by telephone with Mr. R. A. Shackelford, Record Clerk at the State Penitentiary, McAlester, Oklahoma, and made inquiry as to whether or not Alvin Karpis had ever been confined in that institution. Mr. Shackelford stated that he recently received a copy of the fingerprints of Alvin Karpis from the Department of Justice at Washington and, after receiving this, he searched through his fingerprint files and definitely determined that Alvin Karpis had not been confined in the State Penitentiary.

The information as to Alvin Karpis and others mentioned herein was developed as follows:

At Okmulgee, Oklahoma, Mr. Edgar Johnson, Court Clerk, who is the Clerk of the District, Superior and County Courts, Okmulgee, was interviewed. Mr. Johnson stated that J. H. Swann is the Judge of the Superior Court of the Okmulgee, Oklahoma district. Mr. Johnson stated that the records in connection with the trial of Alvin Karpis

Criminal Record

at Henryetta, Oklahoma (which is in Okmulgee County) are maintained in the office of the Deputy Court Clerk, Henryetta, and there is no record in this connection at the Court Clerk's office at Okmulgee.

Sheriff John Lenox, Okmulgee, produced his records and in Jail Record Book No. 1, Page 274, under date of June 12, 1931 appears this entry.

Alvin Karpis; charge burglary; sentenced three years; paroled September 17, 1931.

By reference to the Sheriff's Criminal Fee Record Book No. 9, for Okmulgee County, at Page 149, the following entry was shown:

State of Oklahoma versus Fred Barker, Sam Coker, Alvin Karpis, Joe Howard, J. L. Swanson, charge burglary. Warrant received June 12, 1931; returned found June 16, 1931.

Further, by reference to the Sheriff's Jail Record Book No. 1, Page 21, under date of June 12, 1931, the record shows that Fred Barker on a charge of burglary, made bond on July 3, 1931, but there is no further record as to Barker.

In the same book, Page 72, the record shows that Sam Coker, on a charge of burglary, was sentenced (date not shown) to serve thirty years in McAlester State Penitentiary and was sent there on June 19, 1931.

In the same book, Page 202, the record shows that Joe Howard, on a charge of burglary, made bond August 8, 1931, no further record being shown.

In the same book, Page 475, the record shows that J. F. Swanson was arrested June 11, 1931; charge investigation; released by the Sheriff, June 17, 1931.

The Sheriff's records contained no reference to George Haller.

At the Identification Bureau, Okmulgee Police Department, Mr. W. O. Greenhaw, after a search of the records, advised there is no record on file of George Haller, but the fingerprint records disclose that on June 10, 1931 Alvin Karpis, alias Alvin Karpis, alias R. E. Hamilton, alias George Dunn (with question mark notations after Dunn)

under Okmulgee Police Department No. 1609, was arrested by the Okmulgee Police on a charge of burglary (burglarizing Black's Jewelry Store, Henryetta, Oklahoma) and turned over to the County, fingerprints being forwarded to the Division on June 10, 1931. ✓

Under Okmulgee Police Department No. 293 records disclose that Fred Barker was arrested June 10, 1931 on a charge of burglary and turned over to the County. There is a previous card on Barker which shows his arrest December 19, 1925 at Okmulgee, Oklahoma; charge investigation - "turned over to Fort Smith, Arkansas authorities for burglary." ✓

Under Okmulgee Police Department No. 1610 records disclose that Joe Howard was arrested June 10, 1931 and turned over to the County, charge burglary. ✓

Under Okmulgee Police Department No. 1608 records disclose that Ralph Nelson, alias Sam Coker, was arrested June 10, 1931; charge burglary; turned over to the County. ✓

Under Okmulgee Police Department No. 1603 records disclose that Jasper T. Swanson was arrested June 11, 1931, charge investigation - burglary; turned over to the County. ✓

All of the above burglary charges were in connection with the burglarization of Black's Jewelry Store, Henryetta, Oklahoma.

Mr. Greenhaw stated that he has only one photograph of Ralph Nelson, alias Sam Coker, Joe Howard and J. T. Swanson, but that he will print additional copies and forward them to the Oklahoma City office.

Mr. E. J. Collyer, Deputy Court Clerk, Henryetta, Oklahoma, produced the Criminal Appearance Docket No. 3, and at Page 163, Case No. 2250, is shown the following entry:

State of Oklahoma versus Fred Barker; Alvin Karpis, alias George Haller; Sam Coker, alias Ralph Nelson; Joe Howard, alias Joe Woodruff, alias Joe Wilson; and J. L. Swanson; charge burglary; case filed July 8, 1931. ✓

The docket as to Alvin Karpis discloses the record as shown in the first part of this letter and in addition thereto shows that on September 30, 1931 a bench warrant was issued for Joe Howard and on October 5, 1931 for Fred Barker; bonds being furnished by both and on October 12, 1931, the defendants failing to appear, bonds were forfeited. ✓

On October 21, 1932 Entry of Cause was put on the Retired Docket (Mr. Collyer stating that this means that the case is not likely to be called for trial.) No further record is shown and nothing is shown as to Sam Coker alias Ralph Nelson, or J. L. Swanson. ✓

The records at Henryetta appeared incomplete, but in view of the fact that the Sheriff's record, Okmulgee, discloses that Sam Coker was sentenced to serve thirty years in the McAlester Penitentiary on a charge of burglary, being sent there on June 19, 1931, when an Agent is next at McAlester, Oklahoma, inquiry will be made to ascertain if Sam Coker is at present incarcerated at McAlester and, if so, he will be interviewed for any information he may be able to furnish relative to any of the Karpis-Barker gang; also at Fort Smith, Arkansas, effort will be made to obtain the disposition of the case against Fred Barker noted above.

RE: UNKNOWN SUBJECTS
ROY J. MARION - Victim
KIDNAPING.

While checking the hotels in San Francisco, in this case, it was ascertained from the register of the William Taylor Hotel, McAllister and Leavenworth Streets, that M.D. Lehman and wife, registration card No. 172, giving Reno, Nevada, as an address, registered in at said hotel at 10:21 P.M. on Oct. 7, 1933, and were assigned room 1132 at the rate of \$4.00 per day, and checked out on the evening of Nov. 9, 1933; that the registration card bears the notation, "Friends of J. McKay, Reno."

It was further ascertained, from registration card No. 171, that H. J. Marion, giving address Reno, Nevada, registered in at 10:21 P.M. on Oct. 7, 1933, and checked out on the evening of Oct. 9, 1933, and was assigned room 1139. The registration card of H. J. Marion bears the reference, "See card 172", and also bears notation, "Friend of J. McKay". The rate for said room was \$4.00 per day.

Tom Silk, now assistant manager Whitcomb Hotel, 1231 Market St., San Francisco, stated that he was night clerk at the William Taylor Hotel in October, 1933; that he has no distinct recollection of description of above persons; that he does have a recollection that they had no baggage; that he did not require them to pay in advance for the reason that they said they were friends of J. McKay of Reno, Nevada, who is a patron of the William Taylor Hotel and frequent visitor; that the above persons checked out on the evening of Nov. 9, 1933, and he is under the impression that they took a train for Reno at that time.

It is requested that the identity of M. D. Lehman and wife and H. J. Marion and wife be established, inasmuch as it is noted that

on the Registration card of the William Taylor Hotel, on Oct. 9, 1933,
that they are friends of J. McKay, who is a defendant, with William
Graham, on a mail fraud violation, in which case Ray J. Frisch, Victim,
a material witness, has disappeared.

Kidnapping

Dear Sir:

Your attention is invited to report of Special Agent in Charge C. E. Spears, Portland, dated March 22, 1934. You will note among the criminal associates of Ed. Bantz the names of Charles Leroy Kalso and Thomas Flanders. Kalso is listed as a brother-in-law and Flanders is thought to be or have been related to Bantz by marriage.

From time to time reports have come to this office that some of the associates of the Bantz brothers may be located at or in the vicinity of Grass Valley, California. It is now reported that Charles Leroy Kalso and Thomas Flanders are somewhere near Grass Valley at the present time; that they own, operate, or are interested in a gold mine at that point. If such is the fact, it is believed that this would serve as an excellent hideout for Bantz and his gang. You will also note that Ed and Ted Bantz are reported to be on the West Coast at the present time.

Enclosed herewith is photograph of Ted Bantz, also Thomas Spencer Flanders who is described as:

Age	25
Height	5 Ft. 9 in.
Weight	164 lb.
Hair	Brown
Eyes	Dark blue
Comp.	Medium
E. P. O.	22 10 25

Photograph of Kalso is not available. His Dallas P. B. number is 20084 and that office is herewith requested to obtain and furnish you with a copy of same.

It is requested that investigation in accordance with the above be conducted at as early a date as possible.

MEMORANDUM

Mr. Nathan called me from Oklahoma City this morning. He stated he had interviewed Agent Hansen relative to the "leak" in the Karpis-Barker-Bremer case, and he stated that he did not have the information until he returned to the office from the raids.

Mr. Nathan stated he had also talked to Agent Hollis, advising him that if he would give the full details now, nothing serious would happen, but that if after investigation we discovered that he had withheld some of the facts from us, the situation would be quite different. He further stated that he wanted to give him time to think over the matter before giving an answer.

Mr. Nathan said he had discussed with Mr. Brantley the matter of the policemen and newspaper reporters accompanying Agents on the raids. I mentioned to Mr. Nathan that I am considering sending a letter to all Agents in Charge, calling their attention to the provisions of the Manual and Rules and Regulations concerning publicity. Mr. Nathan suggested that in such a letter some provision be made covering informants.

MEMORANDUM FOR THE DIRECTOR.

Mr. Nathan called. He arrived in Kansas City this morning and proceeded to Topeka to interview Wentz Smith there. Smith stated that he had, he thought, received this information two or three weeks before it was published and believed that he received the information from Chief Deputy Anderson. Anderson was at that time endeavoring to deliver prisoners and he got in touch with Anderson enroute between Topeka and Columbus, Ohio. During this talk today between Wentz Smith and Chief Deputy Anderson, Anderson advised Smith that he had talked with both Hollis and an officer by the name of Stewart in Oklahoma. He was not sure whether it was Hollis or Stewart who had given him the information and he likewise was not sure whether they had told him about the identification of the Barker-Karpis gang or whether it was about the method by which the identification was made, namely by fingerprints. Mr. Nathan stated that this was about as definite as it was possible for him to obtain information from Smith but Anderson is to be in Oklahoma soon and he will interview Anderson in Oklahoma and get additional information.

Respectfully,

Examination by: C.A. Appel

March 28. A comparison of the photostatic copy of the letter of Mrs. Barker to the Warden, dated August 8, 1929, with the fingerprint cards described above does not indicate that any of these individuals are identical with the one writing the letter. There are insufficient specimens to make any real comparison. Some of the fingerprint cards are old. The characteristics of none of them appear to indicate similarities.

Dear Sir :

APR 5 - 1934

In my letter to you of March 19, 1934 with respect to certain articles appearing in newspapers concerning latent fingerprints which were found on gasoline cans during the investigation of this case, it will be observed from paragraph five, page six, that I stated that Agent Hollis is preparing a memorandum for me concerning the subject matter of this inquiry. The only portion of the memorandum which has been submitted to me by Agent Hollis that is not covered in my letter referred to is as follows :

"I also interviewed Jim Bracewell, Special Agent for the Great Lakes Pipe Line Company at Tulsa, Oklahoma. Bracewell was a member of the posse which conducted the raid near Mannford, Oklahoma, on March 15, 1934, and was around the court house at Sapulpa during the time the men arrested were being held there and also accompanied the officers to McAlester in transporting the prisoners to the State Penitentiary. I asked Bracewell whether or not he had heard any officers make a statement regarding fingerprints having been found in connection with the Bremer case, and he said that he had heard no such statement. He further advised me that he was one of the officers who assisted in the raid on the Cookson Hills several weeks ago and, while there, he heard officers discuss the fact that Fred Barker and Alvin Karpis had been identified in the Bremer case. He later heard something about fingerprints connected with the Bremer case. He believes this information was obtained in Kansas City, or possibly from Wint Smith of the Kansas State Highway Patrol. Mr. E. E. Kirkpatrick of Tulsa, Oklahoma was present when I talked with Jim Bracewell. Mr. Kirkpatrick, you will recall, is the person who paid the ransom in the Urschel case. Mr. Kirkpatrick stated that he was in Fort Worth, Texas, on March 15, 1934, and talked with officers Swinney and Weatherford

of the Fort Worth Police Department. These officers told Mr. Kirkpatrick that the fingerprints of Harry Campbell, or Wright, or some person connected with that gang, had been found on a car door or elsewhere. This discussion with reference to the fingerprints was in connection with the Bremer kidnaping case."

I am in receipt of a letter from E. N. Martel, International News representative at McAlester, Oklahoma in which he enclosed copies of some items sent out by him in respect to this matter. They are quoted below:

ROBBER SUSPECT DENIES HIS GUILT

Glen Roy Wright, Taken
in Raid, Given Hearing
at Stillwater

TULSA *WORLD'S OWN SERVICE*
7-576-1549

STILLWATER, March 17.—Glen Roy Wright of Tulsa, charged with robbery by firearms in the \$5,000 hijacking of cash receipts at the Stillwater monthly farmers' day auction here last October, plead not guilty when arraigned before Payne County Judge Henry W. Hoel Saturday afternoon.

Through a local attorney, L. T. Lewis, Wright entered a demurrer to the complaint and demanded a preliminary trial. Date for the preliminary hearing was set for March 27 in Judge Hoel's court.

Lewis maintains he doesn't know who had sought him to take over the defense for Wright, although he displayed a telegram with a Perry date line, instructing him to do so, which was signed "Wright."

FAILS TO IDENTIFY COTNER AS CAPTOR

MALESTER, March 17 (AP).—Failure of a farm youth to identify Charles Cotner as his captor on a wild flight from Chelsea, Okla., to Fort Smith, Ark., February 4, today saved him from trial at Claremore on a charge of murder.

The boy, Roy Dye, said after viewing the suspect that he was not the man who commandeered his car near Chelsea after shooting down Al P. Powell, deputy sheriff, and Eddie Clanton, the latter a member of the Cookson hills band of outlaws and his companion in a Chelsea burglary.

Major Wint Smith, head of the Kansas highway patrol, conferred with county officers at Claremore, who indicated that their case depended largely on the word of young Dye. Cotner is wanted in Galena and Baxter Springs, Kan., for bank robberies.

At Sapulpa, Creek county officers who staged the raid with outside aid, received word that a \$20 bill from a roll of \$180 taken from Wright was counterfeit, and were promised by the federal secret service that if state charges against him do not stick, he will be tried in federal court. Wright is a robbery and murder suspect.

BRACKETT ACCUSED AFTER RAID ON FARM

SAPULPA, March 17.—Ira Brackett, at whose farm home Glen Roy Wright and other accused desperadoes were arrested Thursday was arraigned before Justice of Peace Paul C. Davis this afternoon charged with harboring criminals.

The charge against Brackett was brought by Deputy Sheriff Wesley Gage of Creek county, one of the members of the raiding party. Brackett's bond was signed by Mary O'Doley, Sapulpa, and Wright, Alameda. Preliminary hearing was set for March 27.

Wright Delays Plea to Charge

TULSA TRIBUNE 3-17-34

Identified as Participant in Auction Robbery

STILLWATER, Ok., March 17.—(AP)—Glenn Roy Wright, the "prize catch" of Mannford raid, was arraigned here late Friday on a charge of robbery with firearms of a farmers' auction sale and requested 24 hours delay before entering his plea.

Hustled here from state's prison at McAlester, where four of the eight Mannford captives remained for safekeeping, Wright was identified by nine persons as one of the machine gun robbers who robbed the sale of its \$5,000 receipts.

Kansas officers questioned the four at McAlester—Charles Cotner, Ed Brophy, J. W. McAtee and Frank Downey—but declined to make public the results.

At Sapulpa, however, Major Wint Smith of the Kansas highway patrol, said earlier that Cotner, Downey, and the two women captured in the dawn raid near Mannford, would be extradited to Kansas.

He said Cotner and Grace Outler would be questioned concerning bank robberies at Galena and Baxter Springs, and the other woman, Winnie Morris, will be taken to Galena.

Downey, alias Peterson, will be taken to Wier, for questioning concerning a bank robbery there last August.

MALESTER, Ok., March 17.—(AP) Warden Sam Brown of the state penitentiary here today refused to deliver Charles Cotner and Frank Downing, captured with Glenn Roy Wright and five other robber suspects, to two officers from Kansas.

MONEY FOUND ON WRIGHT COUNTERFEIT

SAPULPA, Ok., March 17.—(AP)—Creek county officers today added counterfeiting to the list of crimes for which Glenn Roy Wright, arrested Thursday at Mannford, is wanted.

Sheriff Willis Strange received a telegram from federal secret service agent Osborne at Oklahoma City saying a 20 bill taken from Wright was suprious.

The money taken from Wright, who had \$180 in his possession when arrested, was declared one of the cleverest examples of counterfeiting ever seen here by officers.

Captain George Stewart of the Tulsa police department, and other officers who examined the money could not tell that it was bad until it had been examined by Oklahoma City federal experts.

Bremer Kidnaping Suspects Missed by Day in U. S. Raid

Fingerprints Believed Those
Of Karpis and Barker
Found; Eight Held.

Two men wanted in connection with the \$200,000 kidnaping of Edward G. Bremer, St. Paul banker, may have missed capture by less than 24 hours in the police and federal net which closed on six men and two women at Mannford Thursday, it was learned here Thursday night.

Fingerprints found in and around the little white farm house where the eight were captured were said to have been identified as those of Alvin Karpis and Arthur "Doc" Barker, wanted for questioning in the unsolved Bremer kidnaping at Minneapolis.

Paul Hansen, agent in charge of the division of investigation here in the absence of Dwight Brantley, denied that federal agents in the raid were working on the Bremer case. He admitted, however, he had communicated with Minneapolis federal agents.

"We are interested in all these criminals and a thorough investigation of all the persons captured Thursday certainly will be made," Hansen said.

Those arrested in the biggest bag of criminals in recent months were:

Glenn Roy Wright, 34 years old, wanted for murder at Picher and for robberies in Kansas, western Missouri and Nebraska.

Charles Cotner, 49 years old, suspected of the attempted kidnaping of Peggy Landon, daughter of Governor Alf M. Landon of Kansas, and wanted for a double murder at Chelsea, Okla., February 4.

Ed Brophy, 38 years old, alias Ed Brodie, who served a term in the state prison at McAlester under the name of Pat Collins.

Ira Brackett, 43 years old, at whose house the arrests were made.

J. W. McAtee, 38 years old, believed to be from Coffeyville, Kan., and for a time thought to be Harry Campbell, an outlaw.

Frank Downey, alias J. C. Johnson, 35 years old, who said he was "from Georgia."

Grace Cutler, 33 years old, of Vian, Okla., arrested in the company of Cotner.

Winnie Morris, 30 years old, who said her home was in England, Ark.

Five of the suspects, Wright, McAtee, Johnson, Briscoe and Cotner, were taken to the state prison at McAlester for safekeeping, while Brackett and the two women were held in the Creek county jail at Sapulpa.

MANNFORD, March 15.—Out-
laws lost another decision to the law
near here early today, this time a
bloodless one, when a posse of 29
city, state and federal officers
swooped down on an isolated farm
house seven miles west of here and
captured Glen Roy Wright and sev-
en companions without a struggle.

The raid, which climaxed 10 days
of work by N. E. Hollis of the in-

Stewart of the Tulsa police depart-
ment, who were aided by Oklaho-

WRIGHT TO STILLWATER

Governor—Murray early last
night by long-distance telephone
ordered prison officials at McAle-
ster to turn Glen Roy Wright and
J. W. McAtee, who first was be-
lieved to be Harry Campbell, to
the custody of Sheriff M. J. Brad-
ley of Payne county.

Wright and Campbell are
charged in Payne county warrants
with the robbery last fall of the
Stillwater sales day treasury of
about \$5,000 in cash. In view of
the identification of McAtee it is
probable that only Wright will be
returned to Stillwater tomorrow.

gasoline tin and a flashlight aban-
doned by the kidnapers, while not
arrested this morning, are known to
be associates of Wright, considered
by all to be the most dangerous of
those arrested today.

Wanted in Smith Slaying.

Wright has been sought for ques-
tioning for almost two years in con-
nection with the slaying of J. Kalle
Smith, Tulsa lawyer, believed to
have been "put on the spot" for the
alleged double cross of J. Harvey
Bailey, now serving a life sentence
at Leavenworth following his con-
viction in federal court at Oklahoma
City for the Urschel kidnaping.
Smith's bullet-riddled body was
found near Indian Hills Country
club. Harry Campbell, known inti-
mate of Wright's, also is sought in
connection with the Smith slaying.

The lonely farmhouse, lonely be-
cause it is at least two miles from
the nearest neighbor, is easily visible
from the state highway 33, being
about a quarter of a mile north of
the road. Sitting on a slight knoll, it
commands a view for several hun-
dreds of yards in every direction.

Paid \$10 Weekly Rent.

The farm of 160 acres, is owned by
Walter Brooks of Wetumka, who for
the past 18 months has rented it to
Ira Brackett whose wife rented
rooms to Wright and his companions
at "\$10 a week because it helped pay
our grocery bill."

Those arrested besides Wright in-
cluded Chester Cotner, Ed Brophy,
alias Pat Collins alias Alonzo Briscoe;
John McAtee, Coffeyville, Kan.;
Frank Downey, Brackett, Mrs. Grace
Cotner and Winnie Morris. Mrs.
Brackett was not arrested and yes-

children were still at their home.

and the two women arrested, all were taken to the state penitentiary at McAlester about 10 o'clock this morning by Sheriff Willis Strange of Creek county, Stewart Hollis and Floyd Sellers, Sapulpa policeman, and others who reached the penitentiary early this afternoon.

Officers Start Quiz

There, with the aid of state operatives from Oklahoma and Kansas, the arresting officers started the tedious task of questioning those arrested and checking up on their recent activities.

Wright had in his possession \$210 in new \$10 bills, while Mrs. Cucklin had \$86 in currency in her purse. Hollis scouted the possibility that any of the money might be connected with the Bremer job, in that the \$200,000 ransom paid for the banker's release was paid in worn money.

However it was believed that it might be possible to connect Wright with the robbery of an Atchison, Kan., bank Monday in which \$21,000 was obtained.

Brophy, who is about 35 years old, gave an alias when arrested, and was found to have served a term at the state penitentiary at McAlester from Garfield county on a charge of assault with intent to kill. He also had served a term in the Tulsa county jail for conjoint robbery. He is a tailor by trade. He also is wanted in Minneapolis for bank robbery, dispatches from there revealed.

Cotner Has Record

Cotner also has a prison record and has been known as a confederate of Ford Bradshaw, long sought Oklahoma desperado who was killed by an officer about 10 days ago near Arkoma. He also faces a murder charge in Rogers county in connection with the slaying in Chelsea last month of Eddie Clanton, said to have been an accomplice of Cotner and Bradshaw. Clanton's body was found in an alley there after the two had been surprised in the act of robbing a hardware store.

John McAtee, while having no criminal record at the state penitentiary, is believed to have been implicated in recent Kansas bank robberies. He left Coffeyville recently, owing considerable money and a car found in his possession this morning was identified as having been used in the Atchison bank robbery, Monday.

Suspected 90 Days

Although Mrs. Brackett insisted that the "boarders" had only been at the house for the past week, officers in that territory say that the house has been suspected as being a bandit hangout for the past 90 days.

Large purchases of groceries at Oilton, five miles west of the house, and at Mannford, seven miles east, by Brackett, and a large number of cars arriving at and leaving the house all hours of the day and night, first centered the attention of authorities on the obscure place.

Then not long ago two farmers living near by were cutting timber on the place, reported that

rapid-fire guns on the place. One of them took a sample of the bullets found on the range, located about a mile from the highway, to Jack Airy, chief of police at Drumright. The bullets were identified as having been fired from a machine gun.

Constantly Watched

Since that time the house has been constantly watched. It was noticed that no plans were made for breaking ground for spring crops; that the cattle feeding, which last year had occupied Brackett constantly, did not require so much of his time. Arrivals of cars were checked and license numbers noted.

With the co-operation of the department of justice, Operative Hollis and Captain Stewart of the Tulsa police department, this morning's raid was planned.

All officers who were to participate were informed and their parts were rehearsed carefully. Maps were drawn and the duty of each party and individual was carefully detailed.

Inclined to Wait

However it was not expected last night that the raid would be made today. It was known that Wright had been at the place and it was believed that Campbell and the Barker brothers also had been visitors there. Wanting the last three named for many jobs, federal operatives were inclined to wait until they were sure their prey would be there.

However, this morning at 2 o'clock a car drove up to the place and two men got out. Wright and Brophy had been seen to leave the place earlier and it was believed that possibly the Barkers had come in.

The raid was called and at dawn the officers mobilized at their designated places. Silently they crept up on the house from three sides, leaving the glass enclosed room occupied by Wright unprotected in that it was believed that a constant lookout was kept from his room.

House Surrounded

Stealing through the draw the heavily armed men had completely surrounded the house before any of its occupants knew what was going on.

Captain Stewart, Jim Bracewell of the Kansas state police department, Floyd Sellers of Sapulpa and United States Operative Hollis crashed into the front and rear doors at a given signal. Stewart and Hollis threw machine guns into Wright's stomach.

McAtee grabbed for a pistol but was persuaded by a posseman that such action would be fatal. Few words were spoken by either the raiders or the group arrested.

The interior of the shack offered

an odd contrast to its neat exterior. Rough walls, beds and clothing, furniture and guns and ammunition strewn all over the place. Two toy pistols were on a littered dresser. Dolls and other toys of the smaller Brackett girl cluttered every corner of the place.

In the toys was a story of money. Some expensive, some cheap and all were out of place in a house of its type.

Road maps of practically every state in the Union were found in various parts of the house and in the room occupied by Wright was a large wall highway map of the United States. It had been snatched from its hanging place and torn badly in the process.

Food for a Week

In the kitchen was food enough to last for at least a week. A 300-pound sack of flour, a stalk of bananas, about 30 pounds of coffee in five-pound cans, five-gallon can of lard, four sides of bacon, a case of eggs, a dozen loaves of bread and large quantities of beans, salt pork and other staples were cached about the kitchen and an untidy lean-to at the rear of the house.

Quantity of Chains

In the barn, which had been converted into a four-car garage, was a large quantity of heavy-duty chains. They were kept in what had been a corner. In a lean-to addition to the barn was found, after an all-day search, a new Ford V-8 truck. It had 2,989 miles on the speedometer. It had been concealed from view by the tunning arrangement of hay bales which completely obscured it but which could be removed or replaced in a very few minutes to permit egress to the hiding place.

In a corner and well hidden was found a cache containing three quarts of nitroglycerin.

The truck, believed to have been stolen recently, was equipped with a hand winch and heavy chains and long side-bars. Officers demonstrated the ease with which the group, equipped with the truck, might haul bank safes out and take them to a place where it would be safe to open them by explosives.

Raiders Take Rifles

The raiders took two automatic rifles, one submachine gun, three Longers, four shotguns, six .45 Colt automatics and more than 1,000 rounds of ammunition from the place. Cartridge boxes, old and weather-beaten, were common sights in the littered grounds of the little house.

A Chevrolet coupe, property of the Bracketts, was the only car left at the place yesterday. The raiding party had driven three others home, here to Sapulpa. Pauline Brackett, 14, daughter of the farmer, lamented the fact that the raiders had taken the key to the coupe. She couldn't give it to the Mannford high school or classes yesterday. Neither could the smaller sister, Edna, 12, who attended the district school about a mile away.

Creek County Sheriff Does

M'ALESTER, March 16.—(AP)—State's prison authorities engaged today in a study of fingerprints in an effort to learn more about the six men and two women captured near Mannford by a posse close on the trail of bandits and suspects sought for the \$200,000 kidnaping of Edward Bremer, St. Paul banker.

Five of the prisoners—Glen Roy Wright, Charles Cotner, Ed Brophy, J. W. McAtee and Frank Downey—were brought to the penitentiary here for safekeeping. The others—Ira Brackett, at whose home the arrests were made in a dawn raid yesterday, and the two women,

WAS NOT ALONZO BRISCOE

Ed Brophy, one of the men captured in Thursday's raid, hit on the name of a Tulsan when he gave an alias at the time of his arrest, it was revealed today. He first maintained he was Alonzo Briscoe, finally admitting his real name to be Brophy when questioned at McAlester. The real Alonzo Briscoe was formerly a tailor here and still lives in Tulsa.

Grace Cutler, 33, and Winnie Morris, 20—remained in the Creek County jail at Sapulpa. Two of the Bremer suspects, Ar-

thur (Doc) Barker and Alvin Karpis, were reported to have been in northeastern Oklahoma recently. Their fingerprints were found on a flash light and gasoline cans abandoned by the kidnapers in Minnesota.

Frank Downey was tentatively identified today as Frank (Nick) Peterson, wanted for an August, 1933, bank robbery at Wier, Kan., and for bank robberies in Kansas and Nebraska.

Wright and Cotner are wanted for murder and robberies. Cotner also is a suspect in the attempted

NO POLICE COMMISSIONS

There were no Tulsa police badges or commissions found in the raid near Mannford Thursday in which eight were arrested, Capt. George Stewart, Tulsa police, said today. Stewart said that a special officer's badge, such as can be bought at any novelty store, was found with the name "J. W. Pierce" on it.

kidnaping of Peggy Landon, daughter of Gov. Alf M. Landon of Kansas.

Brophy served a term in the Oklahoma prison under the name of Pat Collins. Little information was available about Brackett, McAtee or Downey.

The Cutler woman was in the company of Cotner. Officers declared that Winnie Morris, who said her home was at England, Ark., was not the girl with Ford Bradshaw, Cookson hills hoodlum, when he was slain at Arkoma, Ok., recently.

tiary to release Wright and McAtee for arraignment at Stillwater today on robbery charges in the \$5,000 holdup of a farmers' auction. Sheriff Bradley protested he was the only officer in the posse who held warrants for the two men.

In addition to many guns and equipment of criminals found in the

Mannford raid, officers late yesterday discovered a stolen truck, equipped with winch and skids on the farm. It had been concealed completely under bales of hay. Two quarts of nitroglycerin used in "blowing" safes were also discovered.

Mrs. Brackett intimated the men were allowed to stay at the farm because "they paid good money."

To preclude any possibility of escape, the five men brought here were held under special guard and were not permitted to talk to one another. Six steel barred doors and the prison walls were between them and liberty.

Sheriff Willis Strange at Sapulpa said McAtee would not be taken to Stillwater for trial.

Cotner will be turned to Kansas officers who accuse him of participation in bank robberies at Galena and Baxter Springs.

Grace Cutler, will be taken to Galena or Baxter Springs, to be questioned about bank robberies there.

Winnie Morris will be taken to Kansas, but Smith said he had not decided yet on what charge. The women waived extradition.

Grace Cutler was identified as a relative of J. A. McAtee, one of those captured, who will be sent to Noble county, Oklahoma, where he is wanted in connection with the kidnaping of a night marshal and the burglary of a grocery store at Billings. Ballistics tests showed a pistol taken with McAtee was used on that occasion, and Billings residents identified a large quantity of groceries confiscated at the Mannford farmhouse where the arrests took place.

Brackett will be charged with harboring criminals, according to Strange. No decision had been reached concerning the filing of charges against Brophy.

NOT BREMER HIDING PLACE BELIEF OF SHERIFF

Sheriff Willis Strange today said he was positive that the house near Mannford in which officers arrested eight outlaw suspects Thursday had not been used as the hiding place in which kidnapers held Edward G. Bremer, St. Paul, Minn., banker, as had been suspected.

Sheriff Strange pointed out that Bremer had said he could hear church bells and that none could be heard in the hide-out raided Thursday.

Strange revealed that the groceries found in the hide-out apparently were those taken from a store at Billings Tuesday night by outlaws who held up the night marshal there in the robbery. Strange pointed out that an auto similar to the ones used in the raid at Billings was found in a barn on the farm near Mannford.

WRIGHT TRYING TO MAKE STILLWATER BARGAIN

STILLWATER, March 18.—(AP)—Glenn Roy Wright was brought here secretly in the early morning hours today and held under heavy guard while county authorities prepared robbery with firearms charges.

Within a few minutes after he had arrived, nine persons, including George Flesner, chairman of the county commission, and Bob Parker, lumber company official, had identified him as one of the machine-gunners who staged a \$5,000 raid on a farm auction sale last summer.

It was expected Wright would be arraigned during the afternoon. It was reported he was trying to bargain with Sheriff Jim Bradley and County Attorney Guy Horton, offering to plead guilty in return for a recommendation for a life sentence. The death sentence is possible for armed robbery.

However, it was generally believed District Judge Freeman Miller would not be bound by any such recommendation, without hearing evidence from the score of persons held at gunpoint during the sales day robbery.

Should Wright plead guilty at arraignment, it was anticipated he would be taken at once before Judge Miller to re-enter his plea and receive sentence.

Suspect in Tulsa Murder, Pals To Face Probe

Paul Hansen, in charge of the department of justice investigation department here, said Thursday this office was represented in the Osage county raid, but declined to say any of the eight are wanted for a kidnaping.

"We want to question two or three of those fellows," said Hansen, "but I do not say it is in the Bremer or any other kidnaping."

The government was represented by H. E. Hollis, agent attached to the Tulsa office, he said.

MINNEAPOLIS, March 15.—(AP)—The Minneapolis Tribune Thursday said United States department of justice agents and an Oklahoma sheriff on the trail of suspects in the \$200,000 kidnaping of Edward G. Bremer, St. Paul banker, Thursday raided a remote Osage county farm house and seized six men and two women.

The men the officers had hoped to arrest were Alvin Karpis and Freddie Parker, who have been identified through fingerprints as members of the Bremer kidnaping mob, the Tribune said. Others sought with Parker and Karpis were Harry Campbell and "Doc" Barker.

Names of the men captured were telephoned immediately to department agents in St. Paul in an effort to establish identifications, the Tribune added.

The department of justice is trying to establish connections between the men arrested and Karpis and Barker on the assumption they were members of the same mob which has raided banks throughout the southwest and as far north as Minnesota and Wisconsin.

Both Parker and Karpis were known to have had connections with Twin Cities alcohol racketeers and were seen in St. Paul within the last two years.

George E. Anderson, a relative of Karpis, was found shot to death near Webster, Wis., while the men were being sought in connection with the slaying of J. Earle Smith, Tulsa attorney.

Fingerprints of Barker and Karpis were among those found on gasoline cans and a flashlight used during the Bremer kidnaping.

The gas cans were discovered on a roadside believed to have been the route taken in returning Bremer.

Barker and Karpis are wanted for murder at West Plains, Mo., another in West St. Paul. Six Are Captured in State Raid

MANNFORD, March 15.

(AP)—Glenn Roy Wright, 34 years old, wanted for killings in Tulsa and Ottawa counties, Oklahoma, and for bank robbery, was captured with seven companions in a surprise raid on a little white farm house in the southern edge of the Osage hills near here Thursday.

Twenty-eight officers, from three Oklahoma counties, from the federal department of justice, and from the Kansas highway patrol, participated in the captures, which were accomplished without firing a shot.

Wanted in Death Quis

With Wright was a man tentatively identified as J. W. McAtee of Coffeyville and Edna, Kan., but who officers said bore a strong resemblance to Harry Campbell, wanted with Wright for the Tulsa slaying, when J. Earle Smith, attorney for Harvey Baller, was taken for a "ride" in the summer of 1932.

Sapulpa officers, who have custody of the prisoners in the Creek county jail, began moving them to the state prison at McAlester for safekeeping Thursday noon.

A man who first gave his name as J. O. Cuckin, 48 years old, later was identified as Charles Cotner of Vian, wanted for the February 4 killing of Al Powell, deputy sheriff at Chelsea, and for the slaying of one of his own companions, Eddie Clayton, member of the Cuckson hills gang.

SAPULPA, March 14.—His twitching fingers curling the end of a newly lighted cigaret instead of the trigger of a submachine gun, Glen Roy Wright, who has been on the scout from authorities for the past 20 months, was far from being at ease in the jailor's office of the Creek county jail here this morning.

His hair, much grayer now than it was a few months ago, lousied about his care-worn face and his eyes, deep-set and hollow, accentuated the impression of nervousness that fatigue and a recent escape of a much-wanted outlaw gave him.

with the "Willow Oil" company safe robbery had Glen Roy submitted to authority; not since that time had the elusive freedom that all outlaws enjoy at times been interrupted by demands of police, but this morning he was at the end of his trail.

His hands shook visibly when he lighted his cigaret and he twitched nervously as he exhaled a cloud of smoke.

There isn't anything to be afraid of, Glen Roy replied to a question from the end of the trail, all there is to be afraid of is the law. I am not afraid of the law, but I am afraid of the law's consequences.

A smile crossed his face as he dragged on the fat-burner cigaret and, crossing his arms, much as his manacles would allow, he said:

"Well, there isn't any harm in some trouble if there hadn't been about 20 officers chasing me."

But snap—your life, your freedom, for 20 months you have been scuttling. You had a big supply of ammunition and plenty of money. Why did you hold up so much by? his questioner persisted.

There is no need in having any heroics about this arrest, I said, that's all. I had been mighty busy since I was arrested in Tulsa and it ended this morning. I came very near not going back to the house. I wish that I hadn't, Wright replied.

Wright said that he had been out of the state but seldom. Most of his time had been spent "right around here." He denied that he had ever been to Minneapolis. His knowledge of the Bremer kidnapping, he said, came only through the press.

He indicated that if the raiding party had been composed of eight men, rather than 28, that there might have been a far different story to tell.

"No, I am not yellow," he bristled when taunted about his giving up without burning powder, "but I said there were about 30 heavily armed men in that yard. Life is sweet whether it be spent in jail or at liberty, and in the spot I was in, there probably will be but little difference in jail and the uncertain liberty that was mine."

HAVE you anything to tell your family in Tulsa? Wright was asked as he was led toward the door.

"No—nothing, but here, give this jacket to my brother. The state will buy my clothes from now on," and Wright walked out of the jailor's office and started his trip for McAlester. He will remain there until he is brought to trial on one of the many charges he faces in Oklahoma and elsewhere.

It was back in 1916 that the Tulsa county sheriff's office first made the acquaintance of Glen Roy Wright. He was arrested at that time on a charge of burglary and larceny and given a two-year suspended sentence.

Five years later, on June 21, 1921, he was committed to the state penitentiary after having received a 10-year sentence for burglary. He escaped from the penitentiary on November 4, 1924, but was captured and served until released in 1928.

He was arrested on another burglary charge on May 10, 1933. He was evidently cleared as no disposition of the case is on record at the sheriff's office.

WRIGHT'S first crime of violence was recorded in 1917, while he was serving in the army. He was sentenced to a term in the army barracks for attacking a commissioned officer while carrying a concealed weapon, but the exact nature of his sentence is not on file.

Alonzo Brisco, alias Pat Collins, alias Ed Brophy, has been arrested only once by the Tulsa county sheriff's office. According to the files, he was arrested on September 13, 1932, on a charge of assault robbery and auto theft, but no disposition of

No history has been filed on Chester Cotner, John McAtee, Frank Downing, Grace Cucklin or Winnie Morris. It was pointed out, however, that these names may be aliases and the officers might discover something of their records, if any, when they are fingerprinted.

Raid On Creek County Bandit Hideout Nets Eight Prisoners

Outlaws Paid Farmer Well; Wanted Fresh Air, Quiet

Fresh air and the peace and quiet of country life were the motives that took four men and two women to a farm west of Mannford, they had told Mrs. Lula Brackett, 41 years old, at whose home the six were arrested in a raid by a large group of officers early yesterday morning.

"They all paid me \$10 a week for room and board," Mrs. Brackett said, in explanation of their presence.

"They never offered any excuse for wanting to stay out here except that the air was nice and it was quiet here."

"Times have been hard for us during the last year and when that kind of people drop in with the money to pay, their room rent has helped me pay my grocery bill."

She said that when the weather was fair the men would go out for target practice, and the women would get into their automobiles and go for drives.

"All they seemed to want," Mrs. Brackett continued, "was quiet, food and a bed to sleep in. One of the women had to leave her two pet dogs here when the officers took them away and I suppose we'll have to give them away."

Mrs. Brackett admitted that she had been keeping roomers like that for more than a year, since they moved to the place near Mannford from a farm at the edge of Sapulpa. Previously, the family has lived in Bryan county near Durant.

Brackett was taken to jail with the six roomers. The Bracketts have three daughters, Pauline, 14, who attends Mannford high school; Allene, 10, student in a nearby district school, and an elder girl in Oklahoma City.

While the early morning raid interrupted the girls' attendance at school yesterday, both said they planned to continue going to their classes.

Realizing that her husband might be jailed for a considerable period of time, Mrs. Brackett yesterday completed a deal with a neighbor to help her feed their 50 head of cattle, which stood in a nearby field, and to continue with the general farm work.

Merchants in Mannford had extended the Bracketts' credit and the farmer had been successful in borrowing funds from the bank to carry out his cattle feeding program.

Glen Roy Wright, Wanted at Miami on
Murder Charge, Is Captured

By JOHN H. BOOKER

MANNFORD, March 15.—In a surprise raid early today on a four-room house seven and a half miles west of here, just 200 yards off highway 83, officers arrested Glen Roy Wright, wanted at Tulsa for bond jumping, at Miami for murder and at Stillwater for robbery with firearms, and six of his companions.

Twenty-eight heavily-armed federal, county and city officers from Tulsa, Sapulpa and Stillwater formed the raiding party. They completely surrounded the house and approached from all directions shortly after daylight.

Occupants of the house were surprised and only one made a show of resistance.

Others arrested besides Wright were A. W. McAtee, J. D. Curklen, Alonzo Briscoe (alias Ed Brody), Ira Brackett, J. C. Johnson and a woman who says she is Cucklen's wife. Two other women at the place were not held.

Briscoe is wanted for questioning in connection with a \$2,000 bank robbery. Johnson is wanted for questioning about several robberies. All were taken to the Creek county jail at Sapulpa.

McAtee reached for a gun when officers entered but dropped it at a sharp command.

A large supply of guns and ammunition was found in the house and in the several outbuildings. It included two .401 automatic shotguns, two automatic pistols, one revolver, one .12 gauge shotgun and one .22 rifle.

A steel bullet-proof vest, a complete set of tools suitable for burglaries and a complete acetylene torch outfit also were found on the place. Three automobiles, two of them declared by officers to be stolen, were hidden in a large barn. One was a Chevrolet sedan (Oklahoma 1934 license No. 311,229), one a Buick touring car (Kansas 1933 license No. 5-8049), and an Oldsmobile touring car (Oklahoma 1933 license No. 487,887). Officers said they believed the Buick was used in a recent Kansas bank robbery.

The raiding officers were recruited from Creek and Payne counties and from Tulsa and were led by Sheriff Willis Strange and Under-sheriff Wesley Gage of Creek county; Sheriff J. M. Bradley of Payne county; H. E. Hollis, federal operative from Tulsa, and Capt. George Stewart of Tulsa police.

Under Arrest

GLEN ROY WRIGHT

Tulsa burglar suspect, bond jumper and wanted for robbery and murder elsewhere, who was captured early today near Mannford by a large posse of officers who arrested six men and one woman in a carefully planned sortie.

Wright Wanted Here on a Bond Jumping Charge

He Had Been Questioned Following Murder of Tulsa Attorney

Glen Roy Wright, arrested this morning in a raid near Mannford, was an associate of Harry Campbell, sought here for questioning in connection with the gangland murder of J. Earl Smith, attorney for the two in a burglary case, had himself been sought for jumping bond while awaiting trial here for burglary of the H. F. Wilcox Oil and Gas Co. in which a large amount of bonds were stolen.

John Evans, chief criminal deputy

sheriff, said today that the officers had never connected Wright with Smith's murder, but believe that Campbell was connected.

Wright was questioned by Evans at the time of the murder. Campbell had disappeared. When trial of the two on the burglary charge came up in district court, neither appeared.

Smith, who had also represented Harvey Bailey, kidnaper of Charles Urschel, Oklahoma City oil man, was slain two days after he had appeared for Bailey at a hearing in Fort Smith, Ark.

Wright and Campbell were known to have been running together for some time after the Smith murder.

ESCAPED OFFICERS

He escaped from a group of officers at Siloam Springs, Ark., last August, when Gene Johnson, another Tulsa outlaw, was slain. Wright was reported wounded at the time.

Wright and Johnson first came into prominence here in 1927 when they were accused of robbing R. B. Thompson, 2220 S. St. Louis av., of \$11,000 in money and jewelry.

Wright was convicted in the robbery and sentenced to 10 years at McAlester in March, 1927. He was apparently paroled. His next arrest came May 23, 1932, in the Wilcox burglary.

The criminal record of Wright includes a seven-year sentence for burglary back in 1921. He escaped from prison in 1924 and was caught in the next year. He was an inmate in the state tuberculosis hospital at Clinton at the time of his escape.

He was a steam fitter by trade.

WILL YIELD HIM

He was convicted June 8, 1931, here of burglarizing the home of L. R. Darrow, 405 E. Ninth st.

In 1924, his family appealed for clemency on the ground that he was tubercular. John Goldesberry, then county attorney, declined to approve the petition for parole.

It is doubtful that Wright will be brought here on the burglary charge. Evans said today that Tulsa county would yield him to either Payne county on the robbery charge, or Ottawa county on the murder charge.

MANNFORD, March 15.—

In a surprise raid early today on a four-room house seven and a half miles west of here, just 200 yards off highway 33, officers arrested Glen Roy Wright, wanted at Tulsa for bond jumping, at Miami for murder and at Stillwater for robbery with firearms.

Twenty-eight heavily-armed federal, county and city officers from Tulsa, Sapulpa and Stillwater formed the raiding party. They completely surrounded the house and approached from all directions shortly after daylight.

Seven companions including two women were arrested with Wright before they had a chance to open fire on the officers. Two attempts were made to start shooting from within the house, only to be quickly abandoned when those inside realized the strength of their captors.

Others arrested were: J. W. MATEE of Coffeyville and Edna, Kan., but whom officers said bore a striking resemblance to Harry Campbell, wanted for the

McAtee varied in physical build from the Harry Campbell last arrested three years ago, but walks with a limp, as does Campbell. No fingerprint identification had been made.

J. C. CUCKLIN, 49, whom Capt. George Stewart, of the Tulsa police, identified as Charles Cotner, wanted in connection with the recent killing of a companion, Eddie Clanton, during a Chelsea robbery attempt in which a night officer was also slain.

Briscoe said that he had been at the raided house a week.

A large supply of guns and ammunition was found in the house and in the several outbuildings. It included two .401 automatic rifles, two automatic pistols, one revolver, one .12 gauge shotgun and one .22 rifle.

Officers said they believed the Buick was used in a recent Kansas bank robbery.

Needles and equipment for hypodermic use were found in the house as well as a barrel of small nails, such as used by fleeing outlaws to throw onto roads behind them, preventing pursuit.

The raiding officers were recruited from Creek and Payne counties

and from Tulsa and were led by Sheriff Willis Starnes and Under-sheriff Wesley Gage of Creek county; Sheriff J. M. Bradley of Payne county; H. E. Hollis, federal operative from Tulsa, and Capt. George Stewart of Tulsa police.

When searched at Sapulpa Wright was found to possess \$180 in new \$20 bills and the Cutler woman had \$86.

Wright is wanted at Miami for the fatal shooting of William Witten, of Chickasha, Ok., an employee of an automobile convoy company who was killed during a robbery at Picher, near Miami, in May, 1933. In Stillwater Wright is wanted as a suspect in a \$5,000 farm auction raid.

CLUE TO BREMER CASE?

MINNEAPOLIS, March 15.—The Minneapolis Tribune today said that a United States department of justice agent on the trail of suspects in the Edward Bremer \$200,000 ransom kidnaping, aided officers in the Mannford, Ok., raid.

February 1 owing many bills and driving a sedan, license tag No. 5-6049, one of the seized cars.

The two short-lived moves to resist the raiders came while the circle of officers were closing in on the house.

H. E. Hollis, Tulsa federal operative, Captain Stewart, J. M. Braccwell, of Kansas state highway patrol, and Floyd Sellers, veteran of the recent Sapulpa bandit battle, broke through the front door of the house while their companions formed a cordon around the place.

McAtee reached for a pistol but dropped it quickly when officers surrounded him with drawn weapons. At the same time a Drum-right officer, looking through a window from outside, with a sub-machine gun ready, shouted:

"Drop it or I'll blow you out of that house."

Tulsa, Oklahoma - Tribune

Wright at Sapulpa said that just before the officers entered the house he saw a newsman and a girl reporter coming along the 200-yard driveway toward the house and attempted to fire at them but a little girl stood in his way. A moment later officers had him covered.

Shortly after noon today most of the men arrested started to the state penitentiary at McAlester closely guarded in four automobiles. They were being moved for safekeeping, officers said.

Brackett and one woman remain in the county jail.

A telegram from County Attorney Rolston, Jr., at Burlington, Kan., informed Sapulpa officers that a Kansas warrant is held for the man known as Alonzo Briscoe, charging bank robbery.

The raided house, officers de-

clared, is believed to have been a bandit arsenal for this part of the state and a sort of terminal for outlaw activities.

When taken into custody Wright was in a weakened condition showing he had not yet fully recovered from wounds received several months ago when he escaped a posse from Oklahoma and Arkansas that shot and killed a bank robber named Gene Johnson.

At the early hour of the raid several of the persons in the house were but half-clad.

Rocky, scrub oak covered knobs lay on three sides of the house and officers took posts there to prevent escape. To the southwest was open field through which the men would have to run to try to get away.

The entire operation—approach, arrest and search of the premises, occupied only 20 minutes, starting at 7:15 a. m.

At dawn officers from Tulsa met the Sapulpa delegation at Sand Springs, 12 miles west of Tulsa, then met Bristow, Drumright, Cushing and Stillwater officers in Mannford, Okla.

The sun was just over the horizon when they stopped their cars and converged upon the house.

The systematic, quiet approach to the house was held to have prevented a costly gun battle.

For the last two weeks Creek county officers have watched the place.

The attack is the second so far this year for Sapulpa and Creek county officers against gunmen. Only recently six men were killed in a battle between officers and outlaws at a house just north of Sapulpa.

Survivors of that fight were in today's raid.

Other officers who took the bandit stronghold this morning included:

Sheriff Willis Strange, Deputy Sheriff Wesley Gage, Deputy Sheriff Lee Snider, Chief of Police J. O. Edwards, City Patrolmen Floyd Sellers, Claude Johnson, Marvin Sellers and Jack Brumley, the latter another of the Brumley brothers, two of whom have already died in outlaw clashes. All are from Sapulpa.

C. C. Scott, Tilman Bocock, Gale Bocock and Sheriff Jim Bradley, all from Payne county.

Ben Crabtree, Roy Cox, Jack Ary and Hall Nose, all from Drumright.

T. C. Davis, Albert Randall, Bill Williams, C. W. Dulaney and Joe Bolen, a Frisco special officer, all from Bristow.

J. M. Bracewell and Roy Glazer, Kansas state highway patrolmen.

C. W. Wood, Kansas City, of the Burns detective agency, who participated in the questioning at the Sapulpa jail, said Briscoe was formerly a tailor at a downtown Tulsa clothing store for several years.

Cotner, Wood added, was wanted for bank robberies at Stuttgart, Ark., Galena, Kan., Baxter Springs, Kan., Poteau and Okmulgee.

John Baker, clerk of the Exchange National bank of Atchison, Kan., which was robbed of \$21,500 by four men the first of the week, was on the way to Oklahoma today with two Kansas state patrolmen to view members of a bandit gang arrested at Mannford.

Police Chief Linville, shot six times by the bandits, and Ed Iverson, bank employe who was slugged and injured in a fall from the robbers' car, are believed to be recovering.

Wright and Campbell are wanted in Kay county for robbery with firearms in connection with the shooting of the Cushing refinery at Blackwell.

A district court case is pending against Charles Davis of Ponca City, charged with harboring the two outlaws and Gene Johnson.

returned to Stillwater tomorrow.

gasoline tin and a flashlight aban-
doned by the kidnapers, while not
arrested this morning, are known to
be associates of Wright, considered
by all to be the most dangerous of
those arrested today.

Wanted in Smith Slaying.

Wright has been sought for ques-
tioning for almost two years in con-
nection with the slaying of J. Earle
Smith, Tulsa lawyer, believed to
have been "put on the spot" for the
alleged double cross of J. Harvey
Bailey, now serving a life sentence
at Leavenworth following his con-
viction in federal court at Oklahoma
City for the "Rachel" kidnaping.
Smith's bullet-riddled body was
found near Indian Hills Country
club. Harry Campbell, known inti-
mate of Wright's, also is sought in
connection with the Smith slaying.

The lonely farmhouse, lonely be-
cause it is at least two miles from
the nearest neighbor, is easily visible
from the state highway 33, being
about a quarter of a mile north of
the road. Sitting on a slight knoll, it
commands a view for several hun-
dreds of yards in every direction.

Paid \$10 Weekly Rent.

The farm of 160 acres, is owned by
Walter Brooks of Wetumka, who for
the past 18 months has rented it to
Ira Brackett whose wife rented
rooms to Wright and his companions
at \$10 a week because it helped pay
their grocery bill.

Those arrested besides Wright in-
cluded Chester Cotner, Ed Brophy,
alias Pat Collins alias Alonzo Brisco;
John McAtee, Coffeyville, Kan.;
Frank Downey, Brackett, Mrs. Grace
Cotner and Winnie Morris. Mrs.
Brackett was not arrested and yes-
terday afternoon she and her two
children were still at their farm
home.

With the exception of Brackett

and the two women arrested, all
were taken to the state penitentiary
at McAlester about 10 o'clock this
morning by Sheriff Willis Strange of
Creek county, Stewart Hollis and
Floyd Sellers, Sapulpa policeman,
and others who reached the peni-
tentiary early this afternoon.

Officers Start Quis.

There, with the aid of state oper-
atives from Oklahoma and Kansas,
the arresting officers started the
tedious task of questioning those ar-
rested and checking up on their re-
cent activities.

Wright had in his possession \$210
in new \$10 bills, while Mrs. Cuck-
lin had \$86 in currency in her purse.
Hollis scouted the possibility that
any of the money might be con-
nected with the Bremer job, in that
the \$200,000 ransom paid for the
banker's release was paid in worn
money.

However it was believed that it
might be possible to connect Wright
with the robbery of an Atchison,
Kan., bank Monday in which \$21,000
was obtained.

Brophy, who is about 55 years old,
gave an alias when arrested, and
was found to have served a term at
the state penitentiary at McAlester
from Garfield county on a charge of
assault with intent to kill. He also
had served a term in the Tulsa
county jail for conjoint robbery. He
is a tailor by trade. He also is want-
ed in Minneapolis for bank robbery,
dispatches from there revealed.

Cotner Has Record.

Cotner also has a prison record
and has been known as a confed-
erate of Ford Bradshaw, long sought
Oklahoma desperado who was killed
by an officer about 10 days ago near
Arkoma. He also faces a murder
charge in Rogers county in connec-
tion with the slaying in Chelsea last
month of Eddie Clanton, said to have
been an accomplice of Cotner and
Bradshaw. Clanton's body was
found in an alley there after the
two had been surprised in the act
of robbing a hardware store.

John McAtee, while having no
criminal record at the state peni-
tentiary, is believed to have been
implicated in recent Kansas bank
robberies. He left Coffeyville re-
cently, owing considerable money
and a car found in his possession
this morning was identified as hav-
ing been used in the Atchison bank
robbery, Monday.

Suspected 30 Days.

Although Mrs. Brackett insisted
that the "boarders" had only been
at the house for the past week, offi-
cers in that territory say that the
house has been suspected as being
a bandit hangout for the past 30
days.

Large purchases of groceries at
Dilton, five miles west of the house,
and at Mannford, seven miles east,
by Brackett, and a large number of
cars arriving at and leaving the
house all hours of the day and night,
first centered the attention of au-
thorities on the obscure place.

Tulsa Oklahoma - Daily World

3-16-34 7-576-1547

Then not long ago two farmers living near by who were cutting timber on the place, reported that men were "target shooting" with rapid-fire guns on the place. One of them took a sample of the bullets found on the range, located about a mile from the highway, to Jack Airy, chief of police at Drumright. The bullets were identified as having been fired from a machine gun.

Constantly Watched.

Since that time the house has been constantly watched. It was noticed that no plans were made for breaking ground for spring crops; that the cattle feeding, which last year had occupied Brackett constantly, did not require so much of his time. Arrivals of cars were checked and license numbers noted.

With the co-operation of the department of justice, Operative Hollis and Captain Stewart of the Tulsa police department, this morning's raid was planned.

All officers who were to participate were informed and their parts were rehearsed carefully. Maps were drawn and the duty of each party and individual was carefully detailed.

Inclined to Wait.

However it was not expected last night that the raid would be made today. It was known that Wright had been at the place and it was believed that Campbell and the Barker brothers also had been visitors there. Wanting the last three named for many jobs, federal operatives were inclined to wait until they were sure their prey would be there.

However, this morning at 2 o'clock a car drove up to the place and two men got out. Wright and Brophy had been seen to leave the place earlier and it was believed that possibly the Barkers had come in.

The raid was called and at dawn the officers mobilized at their designated places. Silently they crept up on the house from three sides, leaving the glass enclosed room occupied by Wright unprotected in that it was believed that a constant lookout was kept from his room.

House Surrounded.

Stealing through the draw the heavily armed men had completely surrounded the house before any of its occupants knew what was going on.

Captain Stewart, Jim Bracewell of the Kansas state police department; Floyd Sellers of Sapulpa and United States Operative Hollis crashed into the front and rear doors at a given signal. Stewart and Hollis threw machine guns into Wright's stomach.

McAtee grabbed for a pistol but was persuaded by a posseman that such action would be fatal. Few words were spoken by either the raiders or the group arrested.

The interior of the shack offered

an odd contrast to its neat exterior. Rough walls, dirty beds and clothing, furniture and guns and ammunition strewn all over the place. Two toy pistols were on a littered dresser. Dolls and other toys of the smaller Brackett girl cluttered up every corner of the place.

In the toys was a story of easy money. Some expensive, some cheap and all were out of place in a house of its type.

Road maps of practically every state in the Union were found in various parts of the house and in the room occupied by Wright was a large wall highway map of the United States. It had been snatched from its hanging place and torn badly in the process.

In the kitchen was food enough to last for at least a week. A 200-pound sack of flour, a stalk of bananas, about 20 pounds of coffee in five-pound cans; five-gallon can of lard; four sides of bacon; a case of eggs, a dozen loaves of bread and large quantities of beans, salt pork and other staples were cached about the kitchen and an untidy leanto at the rear of the house.

Quantity of Chains.

In the barn, which had been converted into a four-car garage, was a large quantity of heavy-duty chains. They were kept in what had been a corncrib. In a lean-to addition to the barn was found, after an all-day search, a new Ford V-8 truck. It had 2,989 miles on the speedometer. It had been concealed from view by the cunning arrangement of hay bales which completely obscured it but which could be removed or replaced in a very few minutes to permit egress to the hiding place.

In a corner and well hidden was found a cache containing three quarts of nitroglycerin.

The truck, believed to have been stolen recently, was equipped with a hand winch and heavy chains and long side-bars. Officers demonstrated the ease with which the group, equipped with the truck, might haul bank safes out and take them to a place where it would be safe to open them by explosives.

Raiders Take Rifles.

The raiders took two automatic rifles, one submachine gun, three Lugers, four shotguns, six .45 Colt automatics and more than 3,000 rounds of ammunition from the place. Cartridge boxes, old and weather-beaten, were common sights in the littered grounds of the little house.

A Chevrolet coupe, property of the Bracketts, was the only car left at the place yesterday. The raiding party had driven three others found there to Sapulpa. Pauline Brackett, 14, daughter of the farmer, lamented the fact that the raiders had taken the key to the coupe. She couldn't drive it to the Mannford high school for classes yesterday. Neither could her smaller sister, Allene, 10, attend the district school about a mile away. They had no transportation.

Raid On Creek County Bandit Hideout Nets Eight Prisoners

Outlaws Paid Farmer Well; Wanted Fresh Air, Quiet

Fresh air and the peace and quiet of country life were the motives that took four men and two women to a farm west of Mannford, they had told Mrs. Lula Brackett, 41 years old, at whose home the six were arrested in a raid by a large group of officers early yesterday morning.

"They all paid me \$10 a week for room and board," Mrs. Brackett said in explanation of their presence. "They never offered any excuse for wanting to stay out here except that the air was nice and it was quiet here."

"Times have been hard for us during the last year and when that kind of people drop in with the money to pay, their room rent has helped me pay my grocery bill."

She said that when the weather was fair the men would go out for target practice, and the women would get into their automobiles and go for drives.

"All they seemed to want," Mrs. Brackett continued, "was quiet, food and a bed to sleep in. One of the women had to leave her two pet dogs here when the officers took them away, and I suppose we'll have to give them away."

Mrs. Brackett admitted that she had been keeping roomers like that for more than a year, since they moved to the place near Mannford from a farm at the edge of Sapulpa. Previously, the family has lived in Bryan county near Durant.

Brackett was taken to jail with the six roomers. The Bracketts have three daughters, Pauline, 14, who attends Mannford high school; Allene, 10, student in a nearby district school, and an older girl in Oklahoma City.

While the early morning raid interrupted the girls' attendance at school yesterday, both said they planned to continue going to their classes.

Realizing that her husband might be jailed for a considerable period of time, Mrs. Brackett yesterday completed a deal with a neighbor to help her feed their 50 head of cattle, which stood in a nearby field, and to continue with the general farm work.

Merchants in Mannford had extended the Bracketts' credit and the farmer had been successful in borrowing funds from the bank to carry out his cattle feeding program.

Agents Raid Crime Center

SAPULPA, Okla., Mar. 15.—(UP) The kidnaping of Edward G. Bremer in St. Paul, the shady past of Harvey Bailey and the ramifications of Twin Cities alcohol rings were linked tonight with a raid on a farmhouse in the Osage foothills near Mannford in which eight persons were captured.

As an aftermath of the sortie federal agents and non-communicative state and county officers hoped to solve a series of crimes ranging from the \$200,000 Bremer abduction down to the \$40 looting of a country store at Billings, Okla.

In custody and safely behind walls of the state penitentiary at McAlester were Glenn Roy Wright, 34 years old, Alonzo Brisco, alias Ed Brophy, 38; Charles Cother, 35, Cookson Hills police character; Frank Downer and John McAtee.

Wright had been wanted since the summer of 1932 on a charge of murder in connection with the fatal ride that J. Earl Smith, attorney for the notorious Bailey, took at that time. Tulsa detectives believed Smith was slain because he tried to avoid defending Bailey in a bank robbery case.

It was understood all those held were being questioned for possible clues in the Bremer abduction. The links between the raid and the kidnaping appeared nebulous and based on circumstance and deduction.

H. E. Hollis, agent of the U. S.

Bureau of Investigation, participated in the raid.

It was learned from his chief, Paul Hansen, investigator in the bureau's office at Oklahoma City, that possibilities of Wright and Brisco being in touch with the Bremer kidnap gang were under examination.

"We're checking everybody in connection with that kidnaping just now in fact," Hansen said at Oklahoma City, "though I wouldn't say that any of those held are wanted for it."

Hansen denied that the raiders expected or hoped to find Alvin Karpis and Freddie Barker, suspects in the Bremer case, at the farm house where the group was captured.

Karpis and Wright, however, are known to have been associates. Both were understood to have been in touch with the gang of Bailey, one-time Twin Cities liquor figure and later a big-time bank robber. Bailey is now serving a life sentence—the second he has received—for participation in the \$200,000 Charles F. Urschel kidnaping at Oklahoma City.

MEMORANDUM FOR THE DIRECTOR.

While calling from Oklahoma City on another matter, Mr. Nathan advised that in connection with the interview that he is to have with prisoner Kramer at New York, he noted that informant Alcorn had requested that Kramer be interviewed under cover as a lawyer. Mr. Nathan is of the opinion that this is undesirable, stating that he did not think we could deceive the Warden. He also referred to the fact that the request was made that a relative of Kramer be present at the interview. He stated that he did not think this was advisable. Mr. Nathan stated that he would go to see Alcorn on his arrival at New York.

Respectfully,

Re: ALVIN KARPIS, with aliases,
et al. EDWARD GEORGE BREMER,
Victim. KIDNAPING.
St. Paul File 7-30

Dear Sir:

In confirmation of my telephone conversation of the 29th instant with Mr. H. H. Clegg, this is to advise that on the aforementioned date Mr. J. A. Bracewell, Special Agent, for the Great Lakes Pipe Line Company of Tulsa, Oklahoma and Kansas City, Missouri, called at the St. Paul office to talk generally in connection with the Barker-Karpis gang. He stated that he is in St. Paul on other business and has worked with agents from the Division and other peace officers for the past several years and is somewhat familiar with the criminal element of Missouri and Oklahoma.

During the course of our conversation he informed me that he was on the recent Oklahoma raid when Glenn Roy Wright and others were apprehended. I asked him if at the time of that raid, he knew that this Division had identified any of the kidnapers of Edward G. Bremer, and he stated that he knew that the Division had identified Arthur R. (Doc) Barker and Alvin Karpis. I asked him how he had secured that information prior to the raid and he stated that Special Agent Paul Hanson of the Oklahoma City office had told him. He said that on February 18, 1934, the day after the Cookson raid in Oklahoma, that he was talking to Agent Paul Hanson, but that he believes that Paul Hanson merely told him that the Division had "made Doc Barker and Karpis". He stated that he cannot recall whether Hanson told him just how the identification had been made.

At this point he stated that he understands that the Division is of the impression that Special Agent H. H. Hollis was responsible for the leak to the press on the aforementioned identification. He stated that he has known and worked with Hollis for

RECORDED
&

a long time and thinks very highly of him and does not believe that Hollis gave out the information. It was evident that he did not desire me to believe that Hollis was responsible for this newspaper leak and consequently I asked him whether he had the information prior to the Glenn Roy Wright raid. He stated that he believes he received the information concerning the positive identification prior to the Wright raid at Tulsa, Oklahoma from Mr. Wentz Smith of Topeka, Kansas and who is head of the Kansas State Police. He stated that it is his impression that Smith informed him that he had received the information from an agent from the Kansas City office.

He stated that there were three newspaper reporters who accompanied the police officers in the raid, which resulted in the arrest of Glenn Roy Wright and others; that one of these reporters was Mr. Voight of Tulsa, Oklahoma, one was a girl, and the other a man, the names of the last two being unknown to him.

He stated that shortly after this raid he was with Agent Hollis when Hollis received a telephone call from Voight and that he overheard Hollis' conversation; that it appeared that Voight was asking for information, which Hollis considered confidential, and that he remembers that Hollis informed Voight over the 'phone that he could not furnish him the information which Voight desired.

I asked Bracewell if, to his knowledge, anyone, on the Glenn Roy Wright raid, had knowledge of how "Doc" Barker and Karpis had been identified by the Division and he stated that a peace officer named George Stewart (or Stuart) knew of the manner of identification.

The above information was obtained in the morning and in the afternoon Mr. Bracewell was again interviewed, together with Mr. H. Nathan, Assistant Director.

Bracewell stated that sometime after the Wright raid that Mr. Mayer of the Tulsa World informed him that an Agent of this Division had questioned him as to the source of the newspaper story of the identification and merely advised that the Division suspected that Special Agent Hollis had given it to the newspaper.

Bracewell stated that since the Wright raid on one occasion he was at either the office or home of E. E. Kirkpatrick of Tulsa, at which time Special Agent Hollis entered on which occasion he asked Hollis if he was getting in any trouble over the newspaper leak, and that Hollis indicated that he was not. Bracewell stated emphatically that he is sure that Mr. Kirkpatrick knew of the identification of Barker and Karpis prior to the Wright raid; ~~that~~ he stated that he does not know where Kirkpatrick obtained the information. He stated that he is quite sure that Kirkpatrick did not obtain it from Wentz Smith. He stated that Kirkpatrick is a very close friend and admirer of Special Agent Hollis. Mr. Nathan asked Bracewell how he would consider getting to the bottom of this leak without injuring anyone and Bracewell stated that he would suggest that Mr. Nathan frankly discuss the matter with Agent Hollis with a view to determining from Hollis how the matter reached the press. Bracewell is of the opinion that Hollis did not give the information to the press; however, it is significant to note that according to Bracewell, Mr. E. E. Kirkpatrick, who maintains an office at Tulsa, had the information concerning the identification prior to the Wright raid and he could not explain where Kirkpatrick obtained it.

In discussing this matter over the telephone today with Mr. H. H. Clegg he read to me a paragraph from a letter from the Oklahoma City office in this matter in which, according to my recollection, referred to the fact that Mr. Bracewell had informed someone of the Oklahoma City office that he first obtained his information in this matter either from Texas or from Kansas City. From what Mr. Clegg read me, I am unable to determine who at the Oklahoma office secured this information concerning Bracewell. Mr. Bracewell stated that he is positive that when he was visiting with E. E. Kirkpatrick, at

- 4 -

which time Hollis was present, that Hollis asked Bracewell where he first obtained the information and that he told Hollis that he had received it from Mr. Wentz Smith. He stated that he is sure that this is the information that he furnished Hollis.

Mr. Bracewell stated that he is positive a George Stewart, aforementioned, who is connected with the Tulsa Police Department and on the Wright raid, had the information concerning the identification of Barker and Karpis at the time of the raid, but does not know where Stewart obtained the information.

From the above it appears probably that either Stewart or Kirkpatrick could have furnished the information to the press.

Mr. Nathan is being furnished with a copy of this letter.

Very truly yours,

W. A. RORER,
Inspector.

7.11 P.M. - From Chicago.

There are no through trains passing through Antioch. There are two freight trains, each of which goes in an opposite direction, in Antioch daily.

Mr. Horan stated that there is little activity in Antioch, Illinois during the winter months but a number of hoodlums frequent Antioch and adjoining territory during the summer. "Bugs" Moran, and Leo Mongoven, well known Chicago gangsters, own a home near Antioch. This place was formerly an old hotel but has been remodeled and affords somewhat of a refuge for gangsters during the summer months. "Bugs" Moran and Leo Mongoven are known to Mr. Horan. Prior to his appointment as Postmaster, Mr. Horan was engaged in the freight business. In connection therewith he frequently delivered freight to the Moran place. A description of the hideout was provided to Mr. Horan but he advised that same would not compare with the Moran place. Mr. Horan further stated that "Bugs" Moran and Mongoven have not been staying in Antioch since last Fall. The only individual present on the premises is a caretaker. It would have been impossible for strangers to have been staying at "Bugs" Moran's place without arousing suspicion and causing rumors among the Antioch population, according to Mr. Horan.

Photographs of Mrs. Arrie Barker, Fred Barker, Volney Davis, Arthur Barker, Harry Campbell and Alvin Karpis were exhibited to Mr. Horan. He was unable to remember having seen these individuals, although he remarked that the picture of Arthur Barker resembles an individual whom he saw in various taverns in the vicinity of Antioch prior to the repeal of prohibition. This individual was always alone and was alleged to have been handling liquor from Florida. No further information concerning this man could be developed.

E. Preenlee, Service Man, Illinois Bell Telephone Company, Antioch, Illinois, when interviewed was furnished with a description of the hideout but he was unable to supply any information of value to this inquiry. The territory assigned to him includes Antioch, Illinois, Russell, Illinois, Charnell Lake, Lake Marie and Lake Catherine.

S. Simonson, Village Marshall, Antioch, Illinois, was interviewed and advised that his duties include the reading of all water meters in Antioch and that in connection with said duties he entered each basement located in the town. Mr. Simonson stated that there are no basements in Antioch which would be suitable for living quarters. A description of the hideout was provided to Mr. Simonson and he stated that he is positive that a place answering said description is not located in Antioch. Photographs of the above mentioned suspects were exhibited to Mr. Simonson without result.

C. B. Schultis of C. E. Schultis and Son, Grocery Store, Antioch, Illinois, was interviewed. Photographs of the individuals listed above were shown to him, and he stated that the photograph of Alvin Karpis is the only picture that bears any resemblance to anyone he might have seen. No further information was available. Mr. Schultis was also furnished with a description of the hideout but he was unable to remember having seen a place resembling said description. According to Mr. Schultis, "Bugs Moran" and Leo Mongoven as well as one Mrs. Cassidy a sister of Mongoven, were formerly customers of the Schultis store. "Bugs" Moran's place is a three story building which was formerly a hotel. It was not believed by Mr. Schultis that the Moran place would answer the description of the hideout. He is also Secretary of the Antioch, Illinois Fire Department. At the request of the writer he furnished a list of the fire calls which were received in January, 1934. This list appears below:

Date:	Time:
1/7/34	4.50 P.M.
1/14/34	2.45 P.M.
1/15/34	8.25 P.M.
1/16/34	1.00 P.M.
1/21/34	4.00 P.M.
1/21/34	5.30 P.M.
1/27/34	11.50 A.M.
1/30/34	5.40 P.M.
1/31/34	5.40 P.M.
1/31/34	6.25 P.M.

Mr. Osborn further advised that he delivers mail to the "Bugs" Moran Home. He stated that with the sole exception of a caretaker, who is a local boy, there has been no one at the Moran place during the past winter. He further advised that the description of the "Bugs" Moran place does not correspond with the description of the hideout. The Moran place is built in the side of a hill. Prior to entering the first floor it is necessary to descend several steps after which it becomes necessary to walk about twenty steps farther before entering the lower floor. This floor is even with the street level and no additional descent is necessary in order to enter. The interior of the basement does not correspond with the hideout according to Mr. Osborn.

Photographs of Mrs. Arrie Barker, Fred Barker, Volney Davis, Arthur Barker, Harry Campbell and Alvin Karpis were shown to Mr. Osborn but he was unable to identify same. Said photographs were also exhibited to the following individuals with negative results:

Barrington, Illinois

BARRINGTON, ILLINOIS: It was learned through Postmaster E. J. Langdorf that the siren located here blows each Saturday at noon and for fires; that no factory whistles are heard here, the Jewel Tea Co. being located in the northern section of town, but this has no whistle, and the closest town at which a factory with a whistle is located is Algonquin, a distance of eight miles, which whistle can be heard only on exceptionally clear days; that there are six churches in town, one of which

the St. Paul Lutheran, rings its bell at 6 P.M. on Saturdays and all the rest ring at various times on Sunday mornings; that the mail plane to Madison and St. Paul flies directly overhead at 4.55 P.M. daily.

The town is served by the Chicago & Northwestern RR. which runs a suburban service to Chicago, and the Elgin, Joliet and Eastern Railroad, which is entirely freight. The following schedule of trains was ascertained for these railroads:

Only the trains marked "local" stop at Barrington. All of the above are freight trains.

It was ascertained through the station agents at both railroads that all trains on both lines blow their whistles several times at crossings before arriving at Barrington and that the whistles on all trains are ordinary train whistles.

H. W. Blood, Station Agent, E. J. & E. R.R. advised that a switch engine on his railroad moves cars from the Jewel Tea Co. to the main tracks from noon to 6.00 P.M. each day and that this engine has an ordinary train whistle which it blows at numerous instances while moving cars.

Postmaster Langdorf and rural carriers Charles Hutchinson, F.L. Bennett and S. L. Landwer, were exhibited pictures of the suspects in this case with negative results. The rural carriers at Barrington serve an area of approximately five square miles around the town, which includes the rural routes out of Lake Zurich, Ill. and the rural district to the south of Wauconda, Ill. They were questioned concerning any house which might answer the description of the hideout and as a result Carrier Landwer suggested the possibility of the cottage of one Frank Kazimour, located on the Fox River, on route 1, out of Barrington, which place is operated as a saloon. Agent accompanied Mr. Landwer to this place and on the pretext of looking for a good fishing location Agent and Landwer engaged a son of Kazimour in conversation and succeeded in viewing the basement. It was found to be approached by five cement steps from the outside but upon entering the basement was found to consist of only two rooms, one of which is used for a store room and the other being formerly used for a bar. The wall of the basement was found to be plain brick and the floors cement, and it did not appear that anyone could have stayed in this place for any length of time due to the dampness.

Paul Purcell, town marshal, and water meter reader, was interviewed. He had been previously interviewed by Agent in connection with case and advised that he had not thought of or discovered any probable places since he was last interviewed. He recognized none of the pictures of suspects as persons he has seen. In the absence of the fire chief, Mr. Purcell obtained, for Agent, a list of all fires at Barrington between the dates of January 17 and February 7, 1934. The dates and time of these fires are as follows: January 19th at 11.00 A.M. January 23rd at 9.30 P.M. January 31 at 9.30 A.M. Mr. Purcell advised that the siren sounded for each of these fires which was a long continuous blast.

Charles Miller, Town assessor, and confectionery store operator, was interviewed and he advised that through his duties as assessor he has been in and appraised practically 95 percent of the houses in and around Barrington. He stated that he knew no one house which would answer the description of the hideout house. He also failed to recognize the photographs of suspects as parties who had ever dealt at his store.

Agent also interviewed V. H. Lageschulte, a coal dealer, and Charles Wint, a coal truck driver, in order to ascertain if these parties had dealt with any strangers in a house of the hideout description, or had sold coal to anyone resembling suspects, but this was without result.

Inquiry was made at all grocery stores, filling stations and the drug store and pictures of suspects exhibited with no result.

AT ELA, ILL.

Inquiry was made by Agent of the operator of the only gasoline station and grocery store in the town, which consists of approximately ten houses. It was learned that no siren is located here or ordinarily heard; that no factory whistles are anywhere nearby; that no churches are closer than three miles, at Lake Zurich; that the closest railroad, the C. & N.W. is four miles distant. Photographs of suspects were exhibited with no results. All houses in this town were viewed by Agent and none appeared to hold any possibilities. There is no Post Office here.

LAKE ZURICH, ILL.

Agent was advised by Otto Frank, Postmaster, that no siren is located here; that only on infrequent intervals are the sirens from Barrington and Wauconda heard; that there are no factories or factory whistles here; that the bell of the Evangelical Church is the only one which rings here and this rings only three times on Sundays. It was determined that the only trains running through this town are freight trains over the E. J. & E. RR, and the schedule for these trains would differ only approximately 15 minutes from the schedule of those trains obtained at Barrington, listed

above.

John Gherke, who had been previously interviewed by Agents relative to the hideout was again contacted and he advised that he had not thought of or discovered any possible houses since the inquiry was made. He also failed to identify photographs of suspects as persons he has seen. Gherke is town marshal and water meter reader.

Inquiry was also made of grocery stores and all gasoline stations at Lake Zurich and photographs of suspects exhibited with negative results.

LONG GROVE, ILL.

Agent found this town to consist of approximately twenty houses, no Post Office being located here. E. B. Umbenstock, Fire Chief and garage operator was interviewed. He advised that the siren blows here daily at noon; that the only fire during the months of January and February, 1934, was on February 1 at 4.40 P.M. at which time the siren blew. He further advised that there is but one church here which church rings its bell on Sunday mornings only; that the nearest train line is the Soo Railroad, running entirely freights, at a distance of three and one half miles; that there are no factories anywhere near the town and no whistles are heard. Mr. Umbenstock claimed to be familiar with all houses in the vicinity and stated that he knew of no house in the vicinity which would in any way resemble the hideout. He also failed to identify the photographs of suspects as those of any persons he has seen.

VOLO, ILLINOIS It was ascertained through H. Michaelson, who conducts the general store there that there are no sirens, church bells or whistles located in this town and none are heard; that there is no railroad within five miles and no trains are ordinarily heard. He was exhibited photographs of suspects but failed to identify any of them as persons ever having dealt at his store. He further advised that there are no water meters contained in houses here and stated that he is familiar with all houses in the vicinity but that he knew of none which would possibly fit the description of the hideout. There is no Post Office here and by driving about town every house was viewed with none appearing prospective.

WAUCONDA, ILL. It was determined that the siren here blows only on Saturday at noon and for fires; that no factories are located here and no whistles are heard; that there are two churches, the Catholic and the Federated, neither of which rings a bell on Saturday afternoon; that the closest railroad is the E. J. & A. RR which is six miles distant and operates only freight trains. There is no mail delivery or rural routes out of here.

Phil Froelke, fire chief, was interviewed and he advised that the only fire within the period in question was on January 31, 1934; that this was a grass fire and according to the policy of his department no siren was blown for such fire. With reference to a siren, Mr. Froelke advised that a siren located at the Maier's Dairy Farm, two miles west of Wauconda, has a siren which blows at different times. Inquiry at Maier's Farm disclosed that this siren is blown daily at noon and on Sunday, but at no other times.

George Jenson, Town Marshall and water meter reader, stated that no houses which might answer the description of the hideout are located at Wauconda. He viewed the photographs of suspects but stated he could recall seeing no one resembling any of them.

The photographs of suspects were exhibited to attendants of all gasoline filling stations at Wauconda with negative results.

In conjunction with the investigation at the above group of towns the photographs of suspects were also exhibited to attendants of all gasoline filling stations encountered enroute between these towns, but at none of these were they identified as patrons at any time at any of the stations.
