BACKGROUND:

CARTHA D. DELOACH

During February and March, 1962, at the request of NBC officials, you recorded two 5-minute programs concerning the crime rate increase and the Lindbergh kidnaping for use on captioned program. Shortly thereafter, NBC reported that the response to these broadcasts had been tremendous, that NBC officials were most enthusiastic concerning them and were desirous of having similar broadcasts on a regular basis if at all possible. The Director approved that we go ahead and cooperate with NBC.

Since that time, "Monitor" has used two programs concerning the FBI every week. "Know Your FBI" is 5 minutes in length and features NBC Announcer Russ Ward and you discussing some phase of the Bureau's work. We also furnish material for "National Alert," which is about 3 minutes in length and is recorded by an NBC announcer in New York and publicizes badly wanted Bureau fugitives. To date, there have been 103 "Know Your FBI" and 133 "National Alert" programs.

BENEFITS TO THE BUREAU:

"Monitor" is the highest rated radio program in the Nation with an estimated 14 million listeners through NBC's 192 affiliated stations all over the country. This is a prestige program and no doubt we are getting exceptional "mileage" from whatever material we place on it. In almost three years, we have never received a critical comment concerning our "Monitor" programs. On the contrary, they have been enthusiastically received and NBC officials have continually reiterated their desire that these programs continue. In 1962, representatives of NBC affiliated stations selected "Know Your FBI" as an outstanding program and, as a result, NBC officials presented the Director with a plaque.

In March, 1963, we began furnishing the field copies of all scripts used on "Monitor." With this material available, it was felt that radio and television appearances by the field would be encouraged. Since that time, there has been a marked increase in the number of radio and television programs by Special Agents in Charge (SACs) and Assistant Special Agents in Charge: in 1962, there were 1,024 radio, 220 television appearances; in 1963, 1,680 radio, 353 television appearances; during the first 9 months of 1964, there were 2,121 radio, 357 television appearances. The final figure for 1964 will, no doubt, far exceed those of prior years.

M. A. Jones to DeLoach
Re: LETTER OF APPRECIATION

A major factor in this increase is certainly due to the large number of "Monitor" scripts furnished to all offices, and this is indicated by the many SACs, who have stated they find this material invaluable and use it continually.

OBSERVATIONS:

Our participation in "Monitor" has been successful in every way and of incalculable benefit to the Bureau. It is felt, therefore, that an appropriate letter of appreciation over the Director's signature should be sent to Honorable Robert W. Sarnoff, Chairman of the Board, National Broadcasting Company, Inc., mentioning the fine cooperation we have received from William K. McDaniel, NBC Executive Vice President; Robert Wogan, Vice President in Charge of Programs; and NBC Announcer Russ Ward.

RECOMMENDATION:

That the attached letter be sent.

Dear Boss,

Thanks very much for the Incentive Award. If there were any way I could show my appreciation to you over and above enjoyable hard work, I would certainly like to do so. After all, I'm merely the fellow who holds the coat while you do the fighting and the face to face encounters.

Controversy causes increase of work and sometimes anxiety and apprehension. To fight on your team, however, not only gives the assurance of right making might, but also the comfortable security of being led by a man who can well handle himself. Your handling of the King interview was superb.

I'm very grateful you have led us successfully once again through a trial period. I realize that although our enemies have once again turned tail and headed for the bushes, we still must remain on the alert for constant further attacks. You have my pledge in this regard.

Sincerely,

DeLoach

PERSONAL ATTENTION

Dear Mr. DeLoach:

Your space was found to be secure, well arranged, neatly maintained and adequate, with the exception of the offices occupied by the Uniform Crime Reporting Section in the Old Post Office Building. I am aware that arrangements have been completed for that section to move into new quarters in the same building in the near future. At that time, the crowded and otherwise undesirable conditions now existing should be alleviated. Close contact should be continued with representatives of the General Services Administration to insure that there is no unnecessary delay in making the new space available and also to have the deficient lighting in five of the rooms occupied by the Division corrected as soon as possible. The minor housekeeping delinquencies detected by the Inspector should be promptly rectified.

The emphasis which has been placed on fugitive publicity continues to result in positive benefits, as evidenced by the success attained in the Top

Ten Fugitive Program since the last inspection. Careful selection of fugitives for this program is necessary to sustain our fine accomplishments to date. The improved format and other innovations your Division initiated in connection with the Law Enforcement Bulletin are in keeping with my desire to maintain this publication's status as the foremost law enforcement journal in the country. You should promptly implement the Inspector's recommendation regarding a staggered schedule of field submissions to enhance the timeliness of same.

It is a source of satisfaction that an ever-increasing number of people are being conducted on Bureau tours. The many complimentary letters received regarding our tours attest the quality attraction this has become. In view of the tremendous public relations value of Bureau tours, it is apparent that your Division must continue to assiduously monitor each tour leader on a sufficiently frequent basis to detect and promptly correct any weaknesses.

I was pleased to observe that the Correspondence and Tours Section's average daily production of dictated mail has increased since the last inspection. While the accuracy rate is certainly favorable, even greater attention must be devoted to further reduction of errors since the public expects nothing short of absolute accuracy in correspondence from the FBI. You must constantly stress to employees that this correspondence must be handled strictly in accordance with Bureau policy and that employees must anticipate possible embarrassment which can result from any inaccuracies in replies to correspondence from outside sources.

It is gratifying to note that major revisions to improve the quality of crime reporting have been implemented by the Uniform Crime Reporting Section. We cannot become complacent in this area of our responsibilities. The auto theft survey conducted by this section which was the basis for changes in ignition systems in all 1965 model Buicks and Chevrolets and the article on "Crime's Cost to Industry" are good examples of worthy accomplishments. The new program for following up on known criminal offenders has already produced valuable data which was not previously available. This latter program should be afforded close attention to assure that its full potential is realized. You should attempt implementation of the Inspector's suggestion regarding the obtaining of dispositions of arrests to further enhance the usefulness of data being compiled under this program.

The large volume of official information being disseminated to the White House is, of course, of great value to the President. You and your entire staff must afford these memoranda the closest scrutiny to preclude potential

Mr. Cartha D. DeLoach

embarrassment to the Bureau as a result of any incorrect, incomplete or improper summarization of information available in Bureau files.

Supervisory and administrative assignments were observed to be equitably shared. Continue to insure that all voluntary overtime is essential, productive and equitably shared. I was pleased to note the Inspector observed that the morale of your Division appeared to be very high.

The inspection survey revealed the stenographic and typing production was above the Seat of Government average. While the production attained during this inspection was slightly lower than during the last inspection, it is encouraging to note a marked improvement in the number of retyped pages, the latter now being below the Seat of Government average.

The personnel assigned to the Crime Records Division was deemed by the Inspector to be adequate and not excessive. As you are aware, manpower continues to be critical in the Bureau and the test for justification of each position is that it is essential to the proper discharge of Division responsibilities rather than merely desirable.

The extremely effective liaison program of your Division with key figures in Government, industry and in other circles has been absolutely vital in promoting the best interests of the Bureau. I am fully aware of the outstanding leadership you have afforded the Division in spearheading its accomplishments. The valuable services rendered to the Bureau resulting from highly cooperative contacts in the news media field are to a great extent due to the alertness and aggressiveness which you and your associates have displayed. In order for the Bureau to continue to fully and effectively discharge its many critical and sensitive responsibilities, we must be constantly alert not only to maintain but to expand and further improve upon currently available sources. We cannot afford any slackening in our efforts to justify and maintain the full confidence of the general public.

You and your Number One Man should carefully review the findings in the inspection report and work papers left with you. Within thirty days of receipt of this letter you should advise of the corrective action taken.

NOTE: Based on memo, W. M. Felt to Mr. Tolson, captioned, "Inspection - Crime Records Division, Inspector W. Mark Flet, 11/24/64 - 12/8/64, dated 12/21/64, WMF:wmj;

4 new training films pertaining to arrest procedures, interview techniques, burglary investigations and police record systems currently being made - release date about April, 1965.

Active program of research projects has resulted in number of publications and accomplishments; 126 articles over Director's by-line published since last inspection, as well as 138 statements (feature articles in "Harvard Business Review" and "Syracuse Law Review" included). Reprints distributed in volume, where feasible; 90 new reprints processed since last inspection. Child molester poster distribution now exceeds 30 million (used widely on television programs throughout country); fold-over poster "What Young People Should Know About Communism" given wide distribution during heavy spring and fall rushes of students on FBI tours; booklet "The FBI - Guardian of Civil Rights" deemed valuable and timely.

FBI Law Enforcement Bulletin (LEB) circulation increased by nearly 4000 since last inspection; now totals 50,500 for all-time high; 13 to 15,000 copies of Director's introductory comments reprinted and distributed each month. In July, 1963, LEB format improved by change to glossy paper and other innovations to give bulletin modern magazine makeup; additional changes pending to further improve format; project underway to provide monthly feature on vital legal decisions. Changes in keeping with maintaining LEB status as foremost law enforcement journal. Each field office now responsible for submission 3 proposed articles annually, due by February 20 each year. Inspector ^{and} recommends (Assistant Director concurs) in interest of increasing timeliness of articles/enhancing more continuous flow of submissions, three deadline dates be established throughout year; number of submissions per field office would remain unchanged, however, field offices would forward articles on schedules established by dividing offices into convenient geographic groupings. Inspector urged every effort be extended to reduce errors to absolute minimum consistent with sustained production.

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

New record established in 1963 for individuals conducted on Bureau tours (531, 388 visitors handled for increase of 40, 477 over 1962); projection for 1964 nearly 600, 000 - for new all-time high. New exhibits since last inspection deemed interesting and informative; Division has continuing program to up date exhibits; numerous favorable comments and communications attest high quality of tours. Numerous tours monitored during inspection - presentation excellent. Inspector instructed that in view of public relations value, close observation of tour leaders be continued to immediately detect and correct any weaknesses.

Uniform Crime Reporting (UCR) engaged primarily in publication of annual Uniform Crime Report bulletin and periodic supplementary releases on crime data. Major revisions in crime reporting approved in April, 1963 by Committee on UCR implemented by Section resulting in improvement of descriptions of criminal acts involved and in facility in detecting improper reporting. Number of contributions approximately same as during period last inspection (8500); Section engaged in project to increase submissions from small cities and county agencies.

Follow-up on known offenders (FUKO) program inaugurated in January, 1963, to make available for first time substantially detailed data on known offenders, including their criminal histories, recidivism rates, mobility factors and eventually precise data to permit logical analysis of success or failure of specific court action and/or correctional treatment. Approximately 110, 000 criminals processed to date and 130, 000 anticipated by January, 1965; UCR bulletin for 1964 will include analyses to date from program (first analysis in UCR bulletin for 1963). Preliminary data developed thus far documents Director's position of many years concerning wide abuse of leniency by chronic offenders. Data developed under program regarding narcotics offenders furnished Congressional (McClellan) Committee and highlighted in report of that committee as first time such information available. Inspector's suggestion that disposition of charges be obtained from agency submitting the fingerprint record to further enhance usefulness of program deemed by Division to have merit and implementation will be exploited.

UCR currently conducting original survey as pilot program with 22 police departments in Metropolitan Washington, D. C., area to establish mobility factors (percentage of total arrests compared with crimes committed within jurisdiction). Since last inspection, UCR Section prepared article "Crime's Cost to Industry"; published by National Association of Manufacturers. Auto Theft Survey (one of five major articles and five editorials prepared by Section and published in LEB since last inspection) was basis for General Motors Corporation changing ignition systems on all 1965 models Buicks and Chevrolets.

White House liaison assumed by Division in November, 1963; in excess 1600 special memoranda prepared for dissemination since that time. Inspector instructed

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

that closest attention be afforded White House requests to preclude any incorrect, incomplete or improper summarization of information available in Bureau files.

Division effectively implementing Bureau's psychological warfare campaign against subversive elements via cautious use of reliable and highly placed news contacts; since last inspection 131 items utilized; Inspector urged continuation on a highly discreet and extremely selective basis.

ADMINISTRATIVE OPERATIONS VERY GOOD

Division consists of Front Office (to which Assistant Director and 3 other supervisory Agents assigned) and 3 Sections, namely, Crime Research Section, Correspondence and Tours Section and Uniform Crime Reporting Section. Supervisory and administrative assignments equitably shared.

Division stenographic and typing production at 3.40 pages per hour over Seat of Government (SOG) average of 2.88. (Division stenographic average 3.43 pages per hour and typing average 3.30 pages per hour as compared with SOG averages of 2.72 and 3.23, respectively.) Stenographic retypes at 5.7% and typists retypes at 2.3% below SOG averages of 8.34% and 5.18% for stenographers and typists respectively. Combined stenographic and typing production decreased slightly since last inspection (In C&T Section only) from 3.49 pages per hour, however, improvement noted in retypes of both stenographers and typists since last inspection averages of 8.45% and 2.94%. Inspector urged every effort be made to maintain production at highest level consistent with minimum errors.

Since 5/1/63, 49 suggestions submitted effecting monetary savings and/or employee time, of which 25 adopted and 1 still pending during inspection; Inspector urged continued emphasis on employee suggestions to insure initiative and constructive attitude at all times encouraged. Odd-hour shifts justified. Inspector instructed that upon occupancy of new space (about January, 1965) by UCR Section, necessary steps be taken to dispatch bulk mail to outside agencies directly from Old Post Office Building, rather than dispatching through Bureau mail room, to eliminate handling by Bureau Courier Service.

Division supervises Bureau speech program which should reach about 8000 in 1964 - new all time high; Division personnel handling substantial number of speeches of specialized nature or in metropolitan area, including radio and television appearances. Inspector ordered continued emphasis of radio and television appearances in supervision of field speech program to provide maximum audience exposure. Inspector also urged continued publicizing of National Academy feature articles and photographs to pertinent local and foreign news outlets.

Memorandum to Mr. Tolson
Re: Inspection - Crime Records Division

Inspector recommended (Assistant Director concurs) making copies of current illustrated summary Tour Guide available to all Divisions as ready reference to assist all Special Agent tour leaders to maintain knowledgeability of tour exhibits.

Minor errors in Number One Registers detected; none affecting fringe benefits; closer attention to accuracy ordered.

PERSONNEL MATERS VERY GOOD

As of 12/1/64, 37 Special Agents and 140 clerical personnel assigned to Crime Records Division (excluding 2 individuals on maternity leave). Agent and clerical complements adequate at this time - not excessive.

Voluntary overtime for 3-month period August - October, 1964, averaged 2'42"; deemed essential, productive and equitably shared; Inspector ordered reduction consistent with full discharge of responsibilities. No employees on probation; no Agents overweight; training programs effective. Since last inspection 28 incentive awards, 24 Outstanding performance ratings and 216 letters of commendation received by Division personnel. Morale appears very high.

CONTACTS EXCELLENT

Assistant Director maintains close and extremely effective personal liaison with President, leading figures in private industry and on Congressional Appropriations, Judicial, Post Office and Civil Service Committees and top-level national officials of American Legion; effective liaison maintained by Division with highly placed as well as working level representatives of news media; vital services and fine support rendered Director and Bureau as result of active, aggressive and extensive liaison program spearheaded by Assistant Director.

Bureau and Division speech programs show more public appearances in 1964 than 1963; emphasis being placed at all times on quality audiences, with particular stress on radio and television appearances to afford maximum exposure of Bureau's responsibilities and accomplishments. Assistant Director spearheads Bureau speech program as evidenced by 24 major speaking engagements in past year before top personnel of highly influential groups (1500 executives of National Association of Manufacturers in December, 1964; 500 prominent news media representatives at NBC affiliates convention in June, 1964; 350 banking leaders in April, 1964, and the like).

Dear Boss:

Again you have demonstrated your great kindness and thoughtfulness. I am deeply grateful for the Outstanding efficiency rating and, of course, the accompanying check.

I guess all of us have a degree of pride in knowing that you take cognizance of the way we handle our responsibilities. I pay a great deal of attention to this because of the very touchy and sensitive matters that you have entrusted to me over the years. Admittedly, there are times when I feel that perhaps the job is not being done to your satisfaction. I have come to realize, however, that you call "a spade a spade" and that you never fail to let us know when you think something is wrong.

I would like to refer once again to the touchy and sensitive responsibilities I handle for you. There are opportunities presented, both on the Hill and at the White House, in perhaps which a less than forceful personality or determination might make for a more popular position. I don't believe, however, that I could ever reconcile myself to an act of disloyalty towards you or to coming away from a fight knowing that I had failed to live up to your expectations.

As you will recall, the Director permitted me to make arrangements for the Bureau's participation in captioned telecast. The invitation was extended on behalf of the combined television networks in the United States and was designed as the inaugural telecast employing the World's first commercial communications satellite, the "Early Bird." Our segment of the show consisted of a "live" depiction of the use of the satellite in law enforcement work, and we participated jointly with Scotland Yard and the Royal Canadian Mounted Police.

This international exchange program had an audience estimated at 300 million in North America and Europe. It provided an excellent opportunity to demonstrate a phase of the Bureau's work and we are already receiving indications of the interest it provoked in behalf of the FBI. Much publicity has appeared in the newspapers containing references to our part in the show.

The local staff of the American Broadcasting Company had the primary responsibility for producing our portion of the show. This staff did everything possible to insure that the FBI would be depicted in the most favorable light and they apparently spared no money, no equipment and no manpower in achieving this result, and top officials worked very closely with me on this project. Attached are two letters over the Director's signature directed to

[redacted] of the Washington branch of the American Broadcasting Company, and [redacted] one of the company's Directors who performed in that capacity on Sunday, May 2, 1965, for our part of the show. DeLoach to Mohr memo, 5-3-65
RE: FBI Participation in "Early Bird" Telecast
Sunday, May 2, 1965

During the planning of this telecast and throughout its presentation, I was materially assisted by a number of the personnel from the Crime Records Division. SA [] was my liaison with members of the American Broadcasting Company in working out many of the intricate details connected with this presentation. His contributions aided me materially in the success of this project. It is recommended that he be commended by the Director for his efforts.

b6

On Saturday and Sunday it was necessary to call upon other members of the Crime Records Division for assistance. Personnel from the Crime Research and Correspondence and Tours Sections responded enthusiastically and helped contribute to the smooth and professional manner in which the FBI's portion of the show was presented to North America and Western Europe. I have attached a list of this personnel and I recommend that they be commended by letters to their respective Section Chiefs from the Director.

RECOMMENDATIONS:

(1) That the attached letters of appreciation from the Director to Messrs. [] be forwarded.

Wm G. J.

(2) That the Administrative Division prepare letters to Mr. [] and to Section Chiefs Jones and Morrell commending the personnel from their sections who participated in this telecast.

Dear Boss:

Thank you so much for spending time this morning with Brother Bernardine and the St. John's Cadets, including my son. They were thrilled with your warmth, personality and gracious hospitality.

I am certain that the advice you gave these youngsters will be put to good usage and remembered all of their lives. Although I fully intended to drag them out of your office within a three-minute period of time in order to conserve your hectic schedule, I am deeply grateful for the personal interest you took in this matter.

DeLoach, Callahan D.

As you know, the FBI received outstanding national acclaim and attention from the various news media as a result of the major press release pertaining to the car theft ring apprehensions last Saturday morning. You have noted that several of the supervisors in this Section were of great assistance in the handling of this matter.

Special Agent Lawrence J. Heim was on weekend duty in your office and supervised the preparation of the press release. This was a highly involved matter involving some 125 cars and 19 subjects. Speed, accuracy and material of a newsworthy nature were, of course, the primary consideration. In addition to preparing the press release, Mr. Heim was in constant liaison with the General Investigative Division and the pertinent field offices. He worked closely with the General Investigative Division and the pertinent offices as the arrests were made and, of course, got the release in final form for release to the press. He released the approved statement to the wire services and, throughout the weekend, handled inquiries from news media across the country.

Participating in the final preparation of the release as the arrests were made and in the dissemination of the material to the wire services and the handling of subsequent requests for information were Special Agents Thomas B. Coll and Donald G. Hanning of this Section.

All of the supervisors were at the office very early Saturday morning.

ENCLOSURE
The wide response to this release (sample clipping attached) is a testimonial of the skill, accuracy and good judgment of these three Agents. They all did a very fine job indeed.

FBI Smashes U.S.-Wide Ring Of Auto Thieves

15 Seized, 125 Cars
Recovered After
Year-Long Probe

By MIRIAM OTTENBERG
Star Staff Writer

The FBI yesterday smashed an interstate auto theft ring which had masked the true identity of the cars with stolen serial number plates.

Fifteen men were arrested in a series of raids climaxing a year-long coast-to-coast FBI investigation. Two others had been arrested earlier and two more were listed as fugitives.

The 19 were named in sealed indictments returned Nov. 12 by the U.S. District Court in Chicago, charging violation or conspiracy to violate federal law against interstate transportation of stolen cars. Two indictments containing 40 counts were made public with the arrests.

More than 125 late-model cars valued in excess of \$500,000 were recovered in the course of the FBI's investigation.

The ring's method of operation added to the complexity of the investigation and forced the FBI to resort to its laboratories and scientific crime detection to determine the true ownership of the stolen cars.

Ring Adds Confusion

FBI Director J. Edgar Hoover said the men were charged with stealing late model cars and affixing serial number plates stolen from other cars of the same type.

Bogus titles or bills of sale with fictitious sales information, bearing the serial numbers from the stolen serial plates, were prepared. Then the cars were sold.

Although most of the cars were stolen in the Chicago area, they turned up in more than a score of states from New York to California and Wisconsin to Mississippi.

The reason they were so hard to trace, it was explained, was that gang members didn't always steal a car to remove the wanted serial number. Thus, the serial number plate might be lifted, the car left with its owner who would be unaware of the loss.

Then a stolen car would get a serial number stolen from another car, but would not be identified because there was no

record that a car bearing that serial number was missing.

The ring was described as the biggest interstate stolen car combine uncovered in recent years. Although it was considered unorganized and not all the members even knew each other, all of them were said to be "in cahoots".

At various times, they allegedly played different roles, stealing cars or serial numbers, acting as "fences" for other car thieves, preparing the phony sales documents or peddling the cars through legitimate new and used car channels.

A number of car salesmen were caught in the roundup, along with a long-time Chicago mobster, a policeman, a naval hospital corpsman and a printer.

The roundups began at 4 a.m. when Robert David, 44, was arrested as he left the discotheque which he and his brothers manage in Calumet Park, Ill. A brother, Orland David, was arrested at about the same time at his home in Frankfort, Ill.

Later in the morning, their 76-year-old father, Herman David, was taken into custody at his home in Dolton, Ill. The elder David was said to be the central

figure in the car theft ring. He was convicted four times between 1938 and 1957 on federal liquor law violations. At the time of yesterday's arrest, he was free on \$25,000 bond on an interstate fraudulent check charge.

Others Caught in Raid

Among others caught in the round-up were:

Kenneth D. Nash, 45, a Gary, Ind., policeman and operator of a drive-in restaurant, who was arrested in uniform as he went off patrol duty.

William McGurk, 40, a chief hospital corpsman at the Oak Knoll Naval Hospital in Oakland, Calif., who was arrested at the hospital. McGurk was a factory worker in Gary before his recent return to duty and the indictment charges law violations in Gary.

James Ray Cobb, 40, a printing company employee in Griffith, Ind., already under \$10,000 bond on a September charge of violating the Selective Service Act by photographing and making a plate to print draft cards.

FBI offices in Chicago, Indianapolis, Cleveland, San Francisco and Birmingham were involved in the roundup.

MEMORANDUM FOR MR. TOLSON

Cartha DeLoach

On December 7, 1965, I saw Assistant to the Director DeLoach, who desired to express his appreciation for the assignment to which he had been named.

I told Mr. DeLoach that his new position was going to be a real challenge, and I expected him to really supervise the operations of the Domestic Intelligence Division, the General Investigative Division, the Special Investigative Division, and the Crime Records Division. I stated that I did not want him to be a mere figurehead in over-all charge of these Divisions, but I wanted him to get his toes into the actual operation of the Divisions so that he would know what is going on and what comes in and what goes out together with the formulation of sound policies and procedures.

I suggested to Mr. DeLoach that he should arrange to at least meet with the Assistant Directors of these Divisions once a week and more often in situations where there is some "hot" case breaking. I also suggested that he endeavor to meet with the Supervisory staff of each of these Divisions once a month so that the Supervisors may feel closer to the over-all operations of the Bureau and realize and understand that they are an integral part of the team.

I stressed to Mr. DeLoach the imperative necessity of looking after details, because without this effort, the work of the Bureau could flounder considerably.

PERSONAL ATTENTION

Mr. Cartha D. DeLoach
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. DeLoach:

A careful review has been made of the findings of the recent inspection of the Crime Records Division and the various operations have been rated as follows: Specific Division Operations and Contacts - Excellent; Physical Condition and Maintenance, Administrative Operations and Personnel Matters - Very Good.

Division space in the Justice Building and Old Post Office Building was found to be well arranged, secure and efficiently utilized. The new space acquired in the Old Post Office Building since the last inspection has provided a marked improvement in working conditions. Minor housekeeping deficiencies and potential safety hazards which were called to your attention should be promptly corrected.

I was pleased to learn that division programs continue to result in an extremely favorable portrayal of the Bureau's operations in the various news media. Your imaginative and enthusiastic approach to this very important phase of the Bureau's work must be continued by the new division head.

The fact that the apprehension of seven of the nineteen "Top Ten" fugitives since the last inspection was directly attributable to fugitive publicity emanating from the division is a noteworthy accomplishment. This important program benefits the general public, clearly depicts the outstanding cooperation extended by the Bureau to other law enforcement agencies throughout the country, and further emphasizes the Bureau's position of leadership in law enforcement. Fugitive publicity must continue to be afforded aggressive attention.

You can take pride in the fact that during the past year the division has been able to successfully fulfill its obligations in the crime research field

which produced many tangible results while simultaneously handling a tremendous influx of expedite name checks for the White House. I expect this fine record to be continued under the new Assistant Director.

I note with pleasure that both accuracy and production records compiled by the Correspondence and Tours Section have increased materially since the last inspection. While this is gratifying, the very nature of this work dictates that even greater efforts be expended toward the objective of producing completely error-free correspondence to the general public and outside sources, who expect nothing short of perfection from the Bureau. Also, I am extremely concerned about any delay in handling correspondence. It is true that the volume of correspondence is heavy and may vary from day to day, but despite this, I will not tolerate delays and the division must devise tight administrative controls and procedures which will obtain the desired results. The cross-indexing recommended by the Inspector in the Special Correspondents' List should help to eliminate delay and error.

The record number of individuals who availed themselves of our tour facilities during the past eleven months clearly shows that a tour of the FBI continues to be a prime tourist attraction in Washington with definite appeal to all segments of the public. Our tours should be the subject of constant evaluation and analysis regarding subject matter and presentation in order to insure that this tremendous public relations potential will be fully exploited.

I am extremely interested in the early establishment of a National Crime Information Center and the development of a practical computer system for use as a base for an eventual nationwide system. I note that you have formulated plans and that aggressive action is being taken toward making this program operational as soon as possible. This program must receive vigorous attention to insure that we will assume a position of leadership in this new, highly specialized area of law enforcement.

Supervisory and administrative assignments were observed to be equitably shared. Stenographic and typing production was above and the retype percentage below the Seat of Government averages. This production average, however, was less than that achieved at the time of the last inspection and resulted from the below-average level attained by stenographers in the Correspondence and Tours Section. The Inspector's instructions for improvement in this section must be followed closely.

Mr. Cartha D. DeLoach

The wholehearted participation of Crime Records Division personnel in the Bureau's suggestion program is indicative of a healthy interest in improving our operations and is certainly in accordance with my desires. Your alertness in eliminating three positions in the Correspondence and Tours Section, resulting in savings, is creditable. Your plan to have experienced clerical employees handle part of the name check work load now handled by Agents should be fully explored by the division. The potential for savings here is substantial.

The voluntary overtime being performed by the division appears to be productive, equitably shared and essential. Training programs are well organized and effective. I was pleased to note that the Inspector found the morale of the staff to be very high.

Your outstanding success in developing top-quality contacts in Government, private industry and other fields, is most commendable. It is obvious from the ever-increasing requests for our services by the White House staff that the faith and confidence placed in the Bureau far surpasses that placed in any other Government agency. You can take considerable pride in the fact that your liaison with high White House officials and the expedite service the division has been able to provide have been major factors in the continued trust in and reliance on the Bureau. This, together with the top-level liaison you have maintained with Congress, has resulted in the Bureau's interests being promoted to the fullest extent in both the executive and legislative branches of the Government. The substantial increase in contacts developed in the field, which program, of course, is a responsibility of the division, is most gratifying and is a program which should be constantly followed to insure that all offices are participating to the fullest extent.

After your review, these findings should be immediately referred to Assistant Director Wick for careful study and review by him and his Number One Man. Within thirty days of receipt of this letter Mr. Wick should advise of the corrective action taken.

Sincerely yours,

John Edgar Hoover
Director

INSPECTION - CRIME RECORDS DIVISION

INSPECTOR R. C. HALSTEAD

12/6 - 17/65

SYNOPSIS

Officials: At time of inspection, Cartha D. DeLoach was Assistant Director in Charge of the division since 1/28/59. Robert E. Wick was Number One Man and had so served since 9/11/59. Last inspection: 11/24/64 - 12/8/64.

Physical Condition and Maintenance - Very Good (Last Inspection - Very Good). Space in Justice and Old Post Office (OPO) Buildings well arranged, secure, adequate and fully utilized. Move by Uniform Crime Reporting Section in OPO has alleviated congested situation. New tour exhibits established, old ones refurbished and 2 additional exhibits in preparation. Need still exists (detected last inspection) for improved light level in Room 5625. Potential physical hazards and several minor housekeeping delinquencies detected. Instructions issued to immediately correct delinquencies. Old Xerox copy records and copies of supply requisition forms retained ordered destroyed.

Specific Division Operations - Excellent (Last Inspection - Excellent). Programs of division result in extremely favorable portrayal of Bureau's operations in all media. "Top Ten" Program highly effective. 7 of 19 "Top Ten" fugitives apprehended since last inspection attributable to fugitive publicity. Television program, "The FBI," widely accepted. Radio, television, magazines, trade journals and newspapers exploited as outlets for fugitive publicity and informative data regarding Bureau. Imaginative research program produced data regarding 75 articles and 238 statements by Director since last inspection which were widely publicized in national publications. Research assistance to outside writers resulted in many favorable articles as well as 2 major books regarding Bureau. Format of Law Enforcement Bulletin further improved - circulation at all-time high - 53,500. Director's introductory remarks widely publicized. Four new police training films produced and distributed to field 4/65. Tremendous influx of expedite name checks for White House (6,000 since 1/1/65) handled without any additional personnel. Economies effected by careful selection of additional approved Bureau speakers to reduce travel costs in field. Production and accuracy of Correspondence and Tours Section improved since last inspection. Tours monitored - presentation excellent - exhibits highly effective. Statistical contributors to Uniform Crime Reports (UCR) increased to 8,700 (last inspection 8500). Establishment of automated National Crime Information Center aggressively pursued. Re: Inspection - Crime Records Division

operational at earliest possible date. Follow-up on Known Offenders Program progressing satisfactorily. Estimate one year to complete processing backlog. Streamlining suggestions made regarding UCR operations.

Administrative Operations - Very Good (Last Inspection - Very Good). Supervisory and administrative assignments equitably shared. Steno and typing production above Seat of Government (SOG) average; percentage of retypes below average. Since 7/1/64, 54 suggestions submitted; 24 adopted and 1 still pending. Savings in excess of \$12,000 achieved in division by eliminating 3 GS-4 positions. Plan by division to transfer work from Agents to Review Analysts has merit, should be fully developed and put into effect if feasible. Minor errors detected in Time and Attendance records - none affecting fringe benefits - and 2 outdated forms in use by division ordered updated. Inspector suggested working hours of 2 correspondence units be changed from 9:00 AM - 5:30 PM to 8:00 AM - 4:30 PM to expedite flow of mail (approved). Inspector proposed occupational addresses of close contacts of Director be cross-indexed in Special Correspondents' List (this will eliminate delay such as recently occurred in connection with acknowledgment of calendar sent Director). Division has eliminated some publications from tour route and all publications made unavailable during peak rush periods, thereby reducing volume of printing being produced; very favorable. Field speeches, supervised in division, reached new all-time high in 1964 and on way to establishing new high in 1965.

Personnel Matters - Very Good (Last Inspection - Very Good). 38 Special Agents and 160 clerical personnel assigned (this is one over authorized Agent quota but approved by the Director temporarily for as long as it is necessary for Inspector E. C. Kemper to remain in Hollywood). Staff adequate but not excessive. Voluntary overtime productive, equitably shared and essential. No employees on probation; no Agents or male clerks overweight. Training programs effective. 36 incentive awards since last inspection. Morale very high.

Contacts - Excellent (Last Inspection - Excellent). Highly effective, top-quality contacts continue to be developed by division. Assistant to the Director DeLoach's close personal contact with the White House has strengthened trust and confidence in Director and Bureau. Unique contacts with Congress have been of continuing benefit to Bureau in legislative matters. Increased high-level contacts with news media have resulted in extremely effective press coverage. Very close liaison continues with National American Legion through personal participation by Assistant to the Director DeLoach in top-level Legion activities. Substantial increase noted in SAC contacts - program supervised by division. Assistant to the Director DeLoach continues to handle numerous speaking engagements before top-level groups. Close liaison contact with television representatives has contributed to success of television program "The FBI."

RECOMMENDATIONS:

1. Immediately prior to the inspection Cartha D. DeLoach was designated by the Director to be Assistant to the Director effective 12/31/65.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

DETAILS

PHYSICAL CONDITION AND MAINTENANCE VERY GOOD

Division space in Justice and OPO Buildings well arranged, secure, adequate and fully utilized. Move by Uniform Crime Reporting (UCR) Section in January, 1965, from third to sixth floor, OPO, alleviated congestion. Programs being handled in UCR Section intimately connected with Voucher-Statistical Section of Administrative Division as data developed is stored in computer complex physically located in Identification Building. Current space limitations prevent more expeditious handling if the 2 sections were contiguous or under same roof. No change has occurred in space allotted in Justice Building except storage space obtained for reprint material in sub-basement. Move of this reprint material from 8th floor will be accomplished following installation of lights and wire enclosure in newly acquired storage area.

Eight new tour exhibits established, old ones refurbished since last inspection with 2 additional exhibits (extortion and bank robbery matters) in preparation. Installation of lighted exit signs and washable wall coverings and rearrangement of unit in laboratory are additional improvements made along tour route. One Agent secured new holster in accordance with Inspector's instructions.

Apparent need still exists (detected on last inspection) for improved light level in Room 5625, used by outside newsmen and where extensive proofreading is performed. Potential physical hazards detected consisting of damaged, worn and disintegrated floor tile, faulty light switches and loose telephone wire in OPO and broken bench leg and loose metal moulding in tour space, Justice Building. Old Xerox copy records and copies of supply requisition forms being retained OPO ordered destroyed. Several minor housekeeping delinquencies noted. Instructions issued to immediately correct delinquencies and to follow closely those matters which must be handled by General Services Administration, particularly those which constitute physical hazards, to insure remedial action is taken as promptly as possible.

SPECIFIC DIVISION OPERATIONS EXCELLENT

Dynamic programs in effect which result in extremely favorable portrayal of Bureau's operations in all forms of news media. "Top Ten" Program continues to be highly effective. 19 "Top Ten" fugitives apprehended since last inspection 7 directly attributable to fugitive publicity. Replacements for "Top Ten" selected judiciously to insure continued national interest.

to the

Re: Inspection - Crime Records Division

Yard and Royal Canadian Mounted Police. Resultant capture of badly wanted RCMP fugitive by Bureau Agents created an inestimable amount of favorable publicity to Bureau as well as effectively highlighting our leadership in police cooperation matters.

Radio television trade journals as well as magazines and newspapers being fully exploited as fugitive publicity weapons. Assistant to the Director currently participates in national weekly radio programs carried by American Broadcasting Company and the National Alcoa Radio Series. He also represents Bureau in weekly programs of an informative nature carried by local stations WINX and WOOK. Quality radio scripts are created and distributed for use by field. In addition, items of interest are made available to influential broadcasters who have been developed as friends and supporters of the Bureau.

Weekly television show "The FBI" which entails exhaustive research as well as full-time representation by division representative as technical director, has been very well received. Interest this program has stimulated is revealed by fact the show currently being carried in Japan.

In April, 1965, 4 new police training films were completed and distributed to field. They concern arrest procedures, interview techniques, burglary investigation and police record systems and many favorable comments were received.

Research programs resulted in production of data for 75 articles and 238 statements by Director which were widely distributed in such publications as "Look," "Parade," "Christian Science Monitor," "Kansas Law Review" and "U. S. News and World Report." Also provided research assistance for 2 major books highly complimentary regarding Bureau by Andrew Tully and David Sentner in addition to assisting numerous other prominent writers who were engaged in writing concerning Bureau's operations.

Tremendous influx of White House expedite name checks (approximately 6000 received since 1/1/65), indicative of high degree of confidence placed in Bureau. Division able to handle these name checks expeditiously without increasing number of personnel. Exploring possibility of utilizing experienced clerical personnel for position as Reviewer Analyst to relieve Agent supervisors of significant part of the name check load. Instructed to fully develop this plan, and if feasible, place into effect soon as possible.

Some 100 additional Bureau speakers in field carefully selected and approved (primarily Senior Resident Agents) since last inspection. This resulted in considerable economies by reducing travel cost in reaching key groups in outlying

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

areas. Instructed to be highly selective in designating additional speakers to insure continued excellence of speech program.

Circulation of Law Enforcement Bulletin at all-time high - 53,500. Format further improved and Director's introductory remarks publicized extensively. The Investigator continues to retain its high quality and wide appeal to both Agent and clerical personnel. New booklets such as "99 Facts About the FBI" and "How Bonding Companies Can Help the FBI" prepared since last inspection and appear to be most effective.

Library operating efficiently and services widely utilized by Bureau personnel and National Academy. Suggestion made to revise filing procedures so that most commonly used reference books will be more readily available.

Average number of correspondence items handled by the Correspondence and Tours Section increased from 5100 per month at time of last inspection to 6557 currently. Accuracy rate increased from 99.22% last inspection to 99.93% this inspection. Instructed to make every effort to continue this excellent record and strive to reduce errors to absolute minimum.

588,252 individuals accommodated on FBI tours first 11 months of 1965, an all-time record. Several tours monitored, presentations excellent - exhibits highly effective. Instructed to constantly evaluate in order to insure continued excellence.

Statistical contributors to UCR program increased to approximately 8700 (last inspection 8500). Project continuing to increase contributors from all city and county agencies. Follow up on Known Offenders Program progressing satisfactorily. Project undertaken to process backlog of records. Estimate one year to complete. Establishment of National Crime Information Center (NCIC) aggressively pursued. Bids received for computer equipment to handle initial program. Systems and design studies underway. Appropriate research and training of key personnel in progress. Instructed to give close attention to make program operational at earliest date possible.

To streamline UCR operations Inspector recommended (1) utilizing double-pedestal rotor file desk in lieu of three 4-drawer filing cabinets for active statistical files, (2) eliminating the hand-stamping of instructions for punching by Statistical Section of approximately 7800 monthly return "A" forms and substituting one cover instruction for all such forms, and (3) exploring possibility of obtaining automatic stuffing and sealing machine to replace manual operations.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

ADMINISTRATIVE OPERATIONS -. VERY GOOD

Division consists of Front Office (to which Assistant Director, Number One Man, and 2 other supervisory Agents assigned) and 3 Sections, namely Crime Research Section, Correspondence and Tours Section and Uniform Crime Reporting Section. Inspector, who is assigned to Front Office, is presently in California on special assignment. Supervisory and administrative assignments equitably shared.

Division stenographic and typing production at 3.32 pages per hour above Seat of Government average of 2.98 (Division stenographic average 3.26 pages per hour and typing average 5.46 pages per hour as compared with SOG averages of 2.85 and 3.25 respectively). Stenographic retypes at 2.97% and typists retypes at 2.85% below SOG averages of 5.63% and 5.75% for stenographers and typists respectively. Although combined stenographic-typist production during period of survey exceeded SOG average the Division average was less than at time of last inspection (3.32 vs. 3.43). Stenographers in Correspondence and Tours Section adversely affected over-all Division average as substantially below production level achieved at last inspection (2.8 vs. 3.38). Typists exceeded Division retype level at time of last inspection (2.85% vs. 2.3%). Inspector issued instructions to closely follow stenographic production in Correspondence and Tours Section and typists in Division so that higher level of performance may be attained.

During period 7/1/64 to 6/30/65, Division submitted 22 suggestions, 8 of which were adopted. From 7/1/65 to 12/1/65, 32 suggestions were submitted, 16 being adopted and 1 pending final action. Those adopted resulted in improvement in Division's over-all efficiency. The 7 existing odd-hour shifts are justified. Since last inspection 3 GS-4 positions in Correspondence and Tours Section eliminated resulting in annual savings of in excess of \$12,000. Consideration being given by Division to establishment of 2 GS-8 Review Analyst positions in order to transfer significant portions of work in handling White House name check requests from Agent personnel to qualified, competent clerical employees. Plan has merit; therefore, instructions issued to fully develop and if feasible put into effect as soon as possible.

Flow of work expedited and working conditions improved in Uniform Crime Reporting Section with addition of 8 rotor files since last inspection. Tour leaders are thoroughly trained in precautionary measures designed to prevent accidents to touring public and such accidents being held to minimum. Inspector recommended certain magazines in Bureau Library be purged and rearranged to make room for the volumes now being filed on the tops of racks. Crime Research Section instructed to destroy the unused cross-index for Special Mailing List. 2 outdated forms in use by Division ordered updated as soon as possible.

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

A suggestion proposed (Assistant to the Director concurs) that 2 correspondence units in Correspondence and Tours Section change their schedule of working hours from 9:00 AM - 5:30 PM to 8:00 AM - 4:30 PM in order to even off flow of mail during the early morning hours which should result in greater efficiency and accuracy (approved). Suggestion proposed (Assistant to the Director concurs) that occupational addresses of close associates of the Director be cross-indexed in the Special Correspondents' List to expedite acknowledgment, insure proper acknowledgment and to have this information available to all divisions. Minor errors and omissions noted in Time and Attendance records detected - none affecting fringe benefits. Tour training class of 30 young men recently completed. Previous instructions re cutting back on reprint material being implemented. Some publications previously available to touring public eliminated where overlap or duplication existed and all publications unavailable during peak rush periods. This procedure should be continued as assists in reducing volume of printing.

Division continues to supervise Bureau speech program which reached 8,594 in field in calendar year 1964 - new all-time high. 8,198 field speeches have been handled during first 10 months of calendar year 1965.

PERSONNEL MATTERS VERY GOOD

As of 12/3/65, 38 Special Agents and 160 clerical personnel assigned to Division (SAC T. E. Bishop, Richmond, ordered in as Division #1 Man - to report 1/3/65). Agent and clerical staff adequate - not excessive (Director has approved that division operate one over authorized quota of 37 so long as Inspector E. C. Kemper remains on special assignment in Hollywood). Voluntary overtime for 3-month period August - October, 1965, averaged 2'30" which appears essential, equitably shared and productive. No employees on probation; no Agents or male clerical personnel overweight. Training programs effective. Since last inspection there were 36 incentive awards, including 13 outstanding ratings. Morale very high.

CONTACTS EXCELLENT

Highly effective, top-quality contacts continue to be developed by the division all of which are of far-reaching benefit to the Bureau. Assistant to the Director's close personal contact with the White House on practically a daily basis has greatly strengthened the trust and confidence in the Bureau's operations. The unique liaison with the White House, together with added top-level contacts developed in Congress, has effectively protected the Bureau's interests and increased the esteem in which the Bureau and the Director are held by the Executive and Legislative Branches of the Government. Through carefully developed contacts, recently enacted legislation providing penalties for the assassination of the President

Memo for Mr. Tolson
Re: Inspection - Crime Records Division

the FBI was specifically designated as having investigative responsibility. This is a most unique occurrence and only through extremely high-level legislative contacts of this Division could such have been accomplished. Contacts continue to be established by this Division with highly placed individuals in the news media on a nationwide basis and this has resulted in exceptionally effective press coverage, all of which continually increases the tremendous esteem in which the Bureau and Director are held by the public. Very close liaison continues with the National American Legion through the personal participation of the Assistant to the Director in top-level Legion activities. Stress continues on the field to insure that quality SAC contacts are maintained; an increase of thirty such contacts noted since the last inspection. In the confidential psychological warfare campaign against communism and other subversive elements, this Division has contributed extensively to the campaign by utilizing key press contacts and has been primarily responsible for its success. Assistant to the Director continues to handle many speeches before top-level groups. The success of the current television series "The FBI" is the result, to a great extent, of the close liaison contacts developed over a lengthy period of time by this Division with the various elements of the television medium.

CARTHA D. DE LOACH
ASSISTANT TO THE DIRECTOR - INVESTIGATIVE

Mr. DeLoach, during the first nine months of this rating period, was Assistant Director in charge of the Crime Records Division and, in view of his outstanding services in this capacity, was appointed Assistant to the Director on December 31, 1965, where he has continued to perform in such an exceptional manner that an Outstanding rating is merited for the period April 1, 1965, to March 31, 1966.

As Assistant to the Director, Mr. DeLoach has been delegated the responsibility for coordinating the work of the Bureau in a wide variety of matters of a criminal, civil, applicant, internal security and espionage nature, as well as crime research matters, special tours and projects, preparation and distribution of the FBI Law Enforcement Bulletin and Uniform Crime Reports, and other related programs such as the "Ten Most Wanted Fugitives." Activities in these fields have continued to increase, resulting in even greater burdens being placed on our top-level executive staff. Mr. DeLoach has shouldered a major share of these obligations and has displayed unusual talents in every area, meeting new challenges head on and with superior ability. He maintains a continuous review of programs and procedures and keeps the Director and me immediately apprised of developments in important matters, relieving us of as many decisions as possible.

An indefatigable worker, Mr. DeLoach has the capability and imagination to handle all assignments in a superb fashion. He presents a splendid appearance and is unusually effective in his personal contacts. He represents the Bureau in inter-Departmental and inter-Government committees and conferences of a policy-making nature, as well as contacts with highly placed officials, with great finesse. He is greatly respected throughout the FBI and by his personal contacts.

A sincere, dedicated career employee, Mr. DeLoach's services have been of inestimable value during the past year and definitely warrant this Outstanding rating.

Dear Boss:

Thanks so much for the outstanding efficiency report. What with educational bills, doctor's bills, income taxes, et cetera, the extra money will certainly come in most handy. More than that, however, I am very grateful for your continued faith and confidence in me.

The little recognitions along life's way certainly serve to do away with the hard knocks, sacrifices, and hard work, although I must admit that I am so deeply appreciative and enthused over my current assignment that, despite the discouragements that often come up in tough cases, I can hardly wait to sink my teeth into the new challenges we face every day.

You have been very good to me for many years and I will never be anything but a loyal, devoted employee to you and the Bureau.

Sincerely,

Deke DeLoach

Assistant to the Director DeLoach called last night from London (via the cost-free defense telephone facilities), at which time he inquired as to various matters presently pending.

He was briefed on pertinent matters, such as the fact that the FBI was deleted from the agencies to be supervised by the watch-dog committee proposed by the Senate Foreign Relations Committee; and also concerning the Hollenbaugh kidnaping and murder case, as well as other pertinent matters.

Mr. DeLoach advised he was going to Paris this morning and would be in care of the Legat in Paris. He will continue to keep in touch via defense telephone facilities.

Dear Boss:

Thank you for the "Outstanding" performance rating. The honor of receiving such a rating from you is greatly appreciated. The financial advantages of such a rating will be promptly spent to take care of expenses incurred putting children through college.

While I know that the rating was based on a period other than the present time, I hope that current-day challenges will cause you to believe that I merit such a rating. It bothers me a great deal personally when I cannot achieve immediate success in matters under my supervision.

I can only assure you that if successful accomplishments are based on hard work and loyalty then most certainly something will be forthcoming in the near future.

Sincerely,

SUBJECT: THE AMERICAN LEGION NATIONAL CONVENTION
BOSTON, MASSACHUSETTS
AUGUST 24-31, 1967

NATIONAL PUBLIC RELATIONS COMMISSION:

Speakers: Joseph McLaughlin, The Boston Herald Traveller, Lamont Thompson, General Manager, WBZ-TV, Boston, Massachusetts, Richard Valeriani, White House Correspondent, NBC, Raymond J. McHugh, General Manager, Copley News Service and other news media representatives. The Legion's Public Relations program for 1966-67 was well within the budget requirements and all projects were handled satisfactorily. Press, television and radio handling at the Convention achieved above-average results. Thirty-two of thirty-five members of the Public Relations Commission consisting of newspaper, radio, television and various personalities in industry attended the Public Relations Commission meetings and the Convention. All were assigned specific duties in connection with the Convention.

The Fourth Estate Award was given to The St. Louis Globe-Democrat. Richard Amberg, Publisher accepted the Award and specifically commended the FBI in his response in accepting the award. Amberg was most grateful to the Director for his help in his paper receiving this award.

RESOLUTIONS:

RECORDED-11

444 504-216

Eleven resolutions concerning the Bureau were consolidated into three strong, excellent ones. These were passed unanimously. One commends the Director on 50 years of outstanding service to our Nation. A second resolution commends the Bureau for vigorously pursuing the fight against crime. The final resolution commends the Director and the FBI for the development of the National Crime Information Center and labeled this as "essential to the effective performance of the nation's law enforcement network in securing the public from unrestrained lawless attacks, and apprehending those responsible for flouting our code of law." resolutions will be put in formal certificate form and copies of them will be forwarded to the Director as soon as they are received from the American Legion after processing. The resolutions received good publicity as exemplified by the attached newspaper clippings.

Other resolutions of possible interest to the Bureau were passed. One was critical of the Supreme Court decisions while another one was most critical of Stokley Carmichael and called upon the Justice Department to vigorously press prosecution of Carmichael for treason or other laws of the land which he has possibly violated. A strong resolution was passed condemning the Students For a Democratic Society.

NATIONAL AMERICANISM COMMISSION:

SA Hanning is a member of this Commission and sat with them during their deliberations August 24-31, 1967. Approximately 90 resolutions were acted upon. Many of these were the resolutions mentioned above concerning the Director. When read on the floor of the Convention, the one concerning the Director's 50 years of service received generous and spontaneous applause. During the Americanism Meeting on Sunday, August 31st, [redacted] of Baton Rouge, Louisiana, who is known as an extreme right-winger and a few others expressed mild concern and puzzlement concerning the Director's stand in testimony concerning riots. SA Hanning took the floor and strongly explained the Director's position and the current situation. All members were satisfied and expressed continued admiration and respect for the Director and his position in this field. I later went before the same group and answered questions for a brief period.

NEW NATIONAL COMMANDER:

William E. Galbraith of Beemer, Nebraska, was unanimously elected as the new National Commander for the Legion year 1967-68. Galbraith is a rancher, is personally known to me and is a great admirer of the Director and a strong supporter of the Bureau. He will make an excellent Commander. There is no derogatory information concerning him and a letter of congratulations under the Director's signature has already been sent to him.

DeLoach to Tolson Memo

RE: THE AMERICAN LEGION NATIONAL CONVENTION

MISCELLANEOUS:

Of possible pertinent interest to the Director are the following highlights: On Tuesday, August 29th, the Attorney General accepted the Legion Distinguished Service Medal in behalf of his father. His short acceptance remarks were only mediocre; he is not a forceful speaker and his remarks received no publicity. Later that same day, Secretary of State Rusk gave the keynote speech. He was substituting for the Vice President who was forced to cancel out due to the death of his brother. His speech was more or less impromptu and received polite but no enthusiastic applause. General Wallace M. Greene, Jr., Commandant, U. S. Marine Corps, gave a very dynamic speech which was well received by the Legionnaires in attendance at the Convention. General Greene urged support by the Legion and the general public of our fight in Vietnam, urged a step-up of bombings and other steps necessary to bring the war to a rapid conclusion. Since this is the over-whelming feeling of practically all Legionnaires, his talk was enthusiastically received.

Representative Gerald Ford, Republican floor leader in the House also addressed the Convention and called upon all Americans to do everything possible to end the Vietnam war quickly, successfully, and honorably. Senator John Stennis, Democrat of Mississippi, also addressed the Convention and urged a step-up in our activities in Vietnam to end the war as soon as possible. Both were received well by the Convention.

RECOMMENDATIONS:

^{THOMAS L.} 1. SA Hanning, a member of the Americanism Commission and SA Coll, who assisted me in a myriad of duties handled their assignments in a splendid manner. They worked long and arduous hours through the entire weekend the Convention was in progress. It is recommended they be commended.

2. Special Agent in Charge James L. Handley of the Boston Office and SA Thomas L. McEnaney spent as much time as possible in assisting us during the Convention. They worked tiresomely despite the many burdens pressed upon them. Recommend they be commended.

Suggest DeLoach

also be commended.

Legion Resolve Urges Stepped-Up Bombing of North Vietnam

The American Legion's Committee on National Security today proposed that the full membership of the country's largest veterans organization reiterate its strong support of the U.S. struggle in Vietnam.

In a resolution offered to the National Convention, the committee also called for repeated and intensified bombing of all hostile installations and air fields in North Vietnam.

The resolve regarding Vietnam further urged that our military commanders be promptly given whatever men, material and authority are required to bring the war to a speedy and successful conclusion.

On the subject of riots which the Security Committee deemed "of equal grave moment" as the Vietnam situation, it was proposed that the Convention condemn violence as "unlawful and in violation of our constitutional rights."

The resolve urged that the full powers and force of our local, state and federal authorities be brought to bear in treating such acts of rioting, insurrection and violence, and that those responsible and involved in the riots be prosecuted to the fullest extent of the law.

Commenting on the "alarming spread of crime" in the nation, the Committee called for the public, as well as all members of the Legion, to make every effort to support equal law enforcement for all people;

And further "to refrain from repetition of unfounded charges tending to create unwarranted disrespect for the profession of law enforcement and to cooperate in reporting crime, assisting

police and as witnesses when needed."

The resolution also called for a reversal of "the present trend in U.S. Supreme Court decisions, which restrict police in cases involving confessions, arrests, habeas corpus, wire-tapping and bail procedure."

The resolve lauded the Federal Bureau of Investigation and its director, J. Edgar Hoover, for development of the National Crime Information Center—a computerized law enforcement information system—for the rapid dissemination of vital information on crime and criminals.

It labeled this speedy dissemination of crime information as "essential to the effective performance of the nation's law enforcement network in securing the public from unrestrained lawless attacks, and apprehending those responsible for flouting our code of law."

In its overall conclusions, the Committee said "we must not forget that the Soviet Union and Communist China have for many years carried on a state of undeclared war against the free nations of the world with the avowed purpose of infiltrating and dominating their governments."

"Any policy or strategy adopted by the free nations will eventually contribute to their own destruction if it is not based on the firm and continuing belief that the Soviet Union and Communist China mean what they say when they boast that they will bury those who oppose them."

"Of equal grave moment to the security of our nation," the conclusion stated, "is the prevalence of unrest, organized lawless demonstrations and riots in the cities of our nation."

"Respect for law and order are not mere catchwords. The preservation of law and order is as vital to the nation as the continuing flow of blood through the veins is to an individual."

"No one of us can escape this responsibility. Let us bulwark the law enforcement agencies of our government—local, state and national—with our unstinting support."

"Let those who incite or participate in riotous strife and insurrection be held responsible for their acts in the courts of the land."

INSTRUCTIONS TO EMPLOYING AGENCY

1. **Who must file.**—All employees not excluded by law or regulation from insurance coverage, including those who have previously waived coverage, are required to complete and file Standard Form 176-T. Employees who are in the service on February 14, 1968, as well as those who are appointed after that date but before April 14, 1968, must file the form.
2. **Automatic cancellation of previously filed waivers.**—All "Waivers of Life Insurance Coverage" (SF 53) on file are automatically canceled as of the first day of the first pay period beginning on or after February 14, 1968. Payroll offices are to begin regular insurance deductions on the automatic cancellation date for employees who do not file a new waiver, i.e., those who do not check box C of SF 176-T, on or before that date.
3. **Employees failing to file.**—If an employee does not return a completed SF 176-T, contact him and urge him to do so even if he does not want optional insurance (he will, of course, be automatically covered for regular insurance). If he still fails to file SF 176-T by April 14, 1968, or 31 days after appointment, whichever is later, file one for him as of that date: mark box B, and note in the space provided for his signature "employee contacted—failed to elect optional insurance." See note 2 below.
4. **Review of completed forms.**—(a) Review both copies of the SF 176-T for legibility, completeness, and consistency. Reconcile with the employee any obvious major

discrepancy such as a mark in more than one box.
(b) If the employee marked box A or box C, make sure the Statistical Stub is complete. Then detach and mail stubs, in a bundle, weekly to:

Office of Federal Employees' Group Life Insurance
(Statistical Study)
4 East 24th Street
New York, New York 10010

- (c) If the employee marked box B, detach and destroy the stub.
5. **Date of receipt and effective date.**—(a) Stamp date of receipt by employing office in the space provided for this purpose on both the Original and the Duplicate.
(b) The effective date is determined from the table below.
 6. **Disposition of forms.**—(a) File the Original SF 176-T in the official personnel folder in all cases.
(b) Any necessary payroll change, with effective date, may be posted in the space reserved on the Duplicate for employing office.
(c) The Duplicate may be destroyed, if no payroll action is required, or after the requirements of the agency's payroll system have been met.
 7. **Use of SF 176-T.**—SF 176-T "Election, Declination, or Waiver of Life Insurance Coverage" should not be used after the initial filing period (after April 14, 1968). A revised edition will be available for use after that date.

TABLE OF EFFECTIVE DATES

DATE SF 176-T RECEIVED BY EMPLOYING OFFICE	EMPLOYEE'S DECISION	EFFECTIVE DATE (IF NO WAIVER, SF 53, IN EFFECT)	
		OF DECISION	OF DEDUCTIONS
On or before February 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective February 14, 1968.	Deductions begin 1st day of 1st pay period beginning on or after February 14, 1968.
	Declines optional (but not regular) (box B).	Declination effective February 14, 1968.	
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which February 14, 1968 falls.	Deductions stop last day of pay period in which February 14, 1968 falls.
After February 14 but not later than April 14, 1968.	Elects optional (in addition to regular) (box A).	Coverage effective on date of receipt.	Deductions begin 1st day of 1st pay period beginning on or after date of receipt.
	Declines optional (but not regular) (box B).	Declination effective on date of receipt, but employee loses automatic optional protection on February 14, 1968.	
	Cancels previously elected optional (but not regular) (box B).	Cancellation effective last day of pay period in which received.	Deductions for optional stop last day of pay period in which received.
	Waives regular (so ineligible for optional) (box C).	Waiver effective last day of pay period in which received.	Deductions stop last day of pay period in which received.

- NOTES: 1. Because regular insurance coverage and deductions are automatic unless waived (by checking box C), A and B elections do not affect regular insurance effective dates.
2. An employee for whom the agency files SF 176-T because he failed to file is deemed to have declined optional, but not regular, insurance.
3. An employee with an uncanceled waiver (SF 53) on file cannot be insured any earlier than the first day he is in duty and pay status in a pay period beginning on or after February 14, 1968; filing of an SF 176-T before that date will not cancel an SF 53 any earlier. Deductions begin the day he becomes insured.
4. The effective date of regular (and optional) insurance coverage for an employee who has been on leave without pay for more than 1 year is the first day he is in pay and duty status. Deductions are effective the same day.

Dear Boss:

About the only thing that can make my spirits rise in this world of discouraging political "Bobby-news" is recognition from a person I admire and respect very highly. You certainly gave me this needed "boost" in the form of an Outstanding efficiency award.

It is rather difficult to control emotional feelings these days, however, I wanted you to know that I am very grateful to you personally, not only for the recognition but for the fact that your strong hand still guides the destiny of the FBI. To be told by you that I am playing a small part in being of assistance is even finer than the cash involved, despite the many needy drains that a man with seven children always has to face!

Thanks again for your kindness. I am very appreciative.

Sincerely,

Cartha D. DeLoach

ASSISTANT TO THE DIRECTOR - INVESTIGATIVE

As Assistant to the Director, Mr. DeLoach has under his immediate supervision and direction the Domestic Intelligence, General Investigative, Crime Records and Special Investigative Divisions and in this capacity has earned the rating of Outstanding for the period April 1, 1967, to March 31, 1968.

Mr. DeLoach has been delegated the responsibility for coordinating the work of the Bureau in a wide variety of matters of a criminal, civil, applicant, internal security and espionage nature, as well as crime research matters, special tours and projects, preparation and distribution of the FBI Law Enforcement Bulletin and Uniform Crime Reports, and other related programs such as the "Ten Most Wanted Fugitives." Mr. DeLoach has demonstrated unusual insight into every phase of these matters and has exhibited superior qualities of leadership, integrity and extremely broad vision in the discharge of his responsibilities. Dear Boss:

Thanks very much for the meritorious award in connection with the case involving James Earl Ray. Quite naturally, I am pleased to receive your commendation in this connection.

In the many years I have been privileged to work with the Bureau, I can't recall another case that better exemplifies the tremendous teamwork and spirit which highlighted this case. Agents in many offices, the Laboratory, the Identification Division, and of course the men of the General Investigative Division, all worked tirelessly with one goal in mind----that of solving this case and bringing further credit to you and to the FBI. I heard no grumbling whatsoever concerning long hours and sacrifice. To the contrary, it was a labor of love with optimism throughout.

I have never been more proud of our organization and am indeed grateful for the recognition as being part of the team.

Sincerely,

DeLoach

You approved a memorandum dated 9/5/68, prepared by the Administrative Division, which requested I furnish comments regarding allegations that Hoffa's teamsters framed me with a blonde, liquor, and lavish hotel accommodations, with unseen cameras and tape recordings.

My comments are simply this: I have been happily married for 23 years; I have a wife and 7 children, and consequently many responsibilities; I have never been compromised by a blonde, liquor or hotel facilities of any kind-----and neither am I susceptible to being trapped with a blonde, liquor, or lavish hotel facilities.

While I resent the allegations against my character, I nevertheless must consider the source, inasmuch as this appears to be a continuing campaign on the part of former SA [redacted], who remembers well the fact that I was the assistant counsel at the hearings afforded him by the Civil Service Commission. I also testified against [redacted] at these hearings. I will welcome an investigation into my moral character at any time.

Dear Mr. Hoover:

In 1958 I served on Freedoms Foundation National and School Awards Jury at Valley Forge, Pennsylvania. The purpose of this letter is to inquire about Mr. C. D. DeLoach, who also served on that jury. At that time he was Vice Commander of the American Legion and his address was 107 Morningside Drive, Alexandria, Virginia. I understood that he was in your department, perhaps an assistant director. I was very much impressed with Mr. DeLoach and would like to know where he is at this time. If he is still with your department or if you know of his location would you please pass this letter or a copy thereof on to him with a request that he write to me.

I want to take this opportunity to again congratulate you on the great service you have and are rendering to the United States of America. Your service has never been more needed than now. I wish you continued success as Director of the Federal Bureau of Investigation.

DATE: October 7, 1968

FROM : C. D. DeLOACH

SUBJECT: DR. M. NOEL STOW
OPHTHALMOLOGIST
OPHTHALMIC RESEARCH FOUNDATION

Dr. M. Noel Stow is an extremely reputable Ophthalmologist with offices in Washington, D. C. Along with a number of other FBI employees, I have requested him to check my eyes on an annual basis. He is a graduate of Emory University, Atlanta, Georgia. I have known him not only through professional practices here in Washington but I have also known him and his family in my home State of Georgia.

Dr. Stow has become quite wealthy as a result of his medical practice, therefore, he is able to devote part of his time to charitable and professional activities. He has recently become Director of the Ophthalmic Research Foundation and plans to devote 50% of his time in the future to this Foundation.

Dr. Stow called me on Sunday evening, October 6, 1968, and indicated he would very much appreciate my consideration of an invitation to be an Honorary Member of the Board of Directors of the Ophthalmic Research Foundation. He stated there would be no work involved and he has asked a number of his patients, whom he has known over a long period of years, to accept appointments of this nature. He stressed the fact that this would not interfere with my responsibilities here at FBI Headquarters in any manner. I told him I would have to check and call him back.

There is no derogatory information on either Dr. Stow or the Ophthalmic Research Foundation. There would be no publicity involved in my becoming an Honorary Member of the Board of Directors of this Foundation.

ACTION:

If there are no objections, I will call Dr. Stow back and tell him that I will be glad to serve as an Honorary Member of the Board of Directors of this Foundation.

Pursuant to the Director's desires we schedule Assistants to the Director and Assistant Directors for their periodic physical examinations at the U. S. Naval Hospital, Bethesda, when Congress is not in session. Congress is not now in session and accordingly we are scheduling such officials at this time. In Mr. DeLoach's case, he had his last examination 3-28-68 and would not be due for his next annual examination until 3-28-69. His office advised due to his commitments Mr. DeLoach would prefer taking his annual physical examination after the first of the new year. Accordingly it is recommended that this be permitted since the new examination at this time would only be about 7 months from the date of his last one.

Dear Boss:

The years come and go, but the thrill of receiving an "Outstanding" annual rating never fails to bring with it a feeling of pride and appreciation.

The past year has been a tough one-----but a rewarding one. The King case, the [] case, and others were great challenges, but never have I seen the FBI team any better. The numerous opportunities to converse with you in these matters were a source of great delight to me. Your support and defense when Ramsey Clark attempted to insult and berate the Bureau and me in the King case were matters of great personal pride and will not be forgotten.

DATE: 5-13-69

FROM : J. B. Adams

SUBJECT: ANNUAL LEAVE SCHEDULE
EXECUTIVES CONFERENCE

Attached is the annual leave schedule for the members of the Execu-
tives Conference, revised as of this date.

Included in this schedule are five days of official duty for Mr. DeLoach in connection with the American Legion's National Convention at Atlanta Georgia. The five days are August 20, 21, 22, 25, and 26.

Also included are four days of official duty for Mr. Casper in connection with the International Association of Chiefs of Police Convention (IACP) at Miami Beach, Florida, September 29 through October 2. Mr. Casper also has commitments involving official duty from June 9 through 11 (Texas Police Association Convention, Brownsville, Texas); June 23 through 26 (New Jersey State Chiefs of Police Annual Conference, Spring Lake, New Jersey); and July 14 through 16 (FBI National Academy Section III Retraining Session, Miami Beach, Florida).

No Assistant Directors have leave scheduled for the periods their respective Assistant to the Director will be on leave. However, a previously approved commitment of Mr. Casper to appear at the FBI National Academy Section III Retraining Session in Miami Beach, July 14 through 16, occurs during the period of annual leave scheduled by Assistant to the Director Mohr. Therefore, it is suggested that Inspector T. J. Jenkins, Number 1 Man of the Training Division, be designated for the Miami Beach commitment in lieu of Assistant Director Casper.

This schedule is submitted for the information and approval of the Director in order that the members of the Conference may be advised.

Any annual leave requested in addition or as an amendment to that listed on the attached schedule will be submitted by the requesting member by individual memorandum for the approval of the Director and Mr. Tolson.

In accordance with Mr. Tolson's instructions, SA Gunn and Bishop telephonically reached SA [] in California at approximately 1 p.m. EST. Both Gunn and Bishop emphatically and without equivocation impressed upon [] that absolutely no scripts would be approved at the Bureau henceforth, which contain any killings, murders, extreme acts of violence or which reflect violence in any form directed toward a woman. He was advised that Mr. Hoover and Mr. Tolson are adamant on this matter and that the FBI would not hesitate to withdraw its cooperation in connection with the production of this show if the Director's instructions are not carried out to the letter. [] was also informed that he was to make this crystal clear to all those associated with the production of the program.

b6

Bishop also advised [] that the former was going to contact [] the producer of the show and the man who is responsible for all scripts on the show, and that the above instructions of the Director would be forcibly brought to [] attention.

[] was reached telephonically at the Warner Brothers lot at approximately 2:05 p.m. EST. He, like [] was emphatically and without equivocation advised of the Director's instructions and feelings in this matter. He was told in unmistakable terms that absolutely no further scripts would be approved which contain murders, killings, violence of any type toward women, or any extreme acts of violence of any kind. [] was told that if the Director's instructions are not carried out, the Bureau would not hesitate to withdraw its cooperation from the production of the show. [] was not at all argumentative in his attitude, stated that he completely understood the Director's instructions and that he would be in touch with Quinn Martin, the Executive Producer of the television series.

SUBJECT: ARTICLE IN LOS ANGELES TIMES
CONCERNING DIRECTOR'S BIRTHDAY

I received a call from Ron Ostrow, Los Angeles Times, at 4:45 p.m., 12/29/69. He stated my name had been given to him, along with several other officials in the FBI who might be considered for the Directorship of the FBI once the Director retired.

I interrupted Mr. Ostrow to inform him that the Director had no intention of retiring, was in good health, and that any question of this nature was strictly a moot one. I further told him that I had at no time expressed an interest in the Directorship of the FBI and that this fact stood for the future, as well as for the past. I furthermore told him it was embarrassing for my name to be mentioned and that I wanted him to know, point-blank, of my feelings in the matter.

Mr. Ostrow next informed me that he planned to write an article stating that I had received "feelers" from several sources in private industry, inasmuch as I would be eligible for retirement sometime next year. I told Mr. Ostrow that any "feelers" I had received over the years had been promptly brought to the Director's attention and were a matter of record.

He asked if I had received such an offer from the Pepsi-Cola Company. I told him I had, approximately 3½ to 4 years ago, and had promptly prepared a memorandum to the Director concerning the fact that I was turning down such an offer. Mr. Ostrow replied that he would include my statements in his article.

He stated also that a number of other names of officials in the Bureau would be mentioned as possible successors. I reiterated that it was somewhat ridiculous to be writing such an article and that I would hope, once and for all, that such articles would cease. I stated, frankly, I am getting a little sick and tired of my name being mentioned in any connection whatsoever.

Mr. Tolson

Mr. Ostrow brought up the New York Times article of Sunday, 12/28/69, and asked if I had any comment concerning this article. I told him I had none whatsoever and, frankly, the FBI would not comment on any of Wicker's work because of his usual notorious inaccuracies.

Mr. Ostrow asked if he could quote me on that. I said not only could he quote me, but also he should feel free to quote the Director on it.

Mr. Ostrow inquired as to the number of children I had and was advised I had seven and contribute partially to the support of two grandchildren at the present time. I stated my [redacted] was in the military service. He told me it must be a pretty tough job financially to support such a crew. I agreed with this, but stated we have been able to get along well over the years and have no apologies to make to anyone.

I stated that the security of the FBI position and the general all-around good reputation it afforded had been several of the things which had caused me to remain on the job this long and basically represented the reasons why I intended remaining as long as the Director wanted me to.

He expressed appreciation and then hung up.

Mr. Bishop submitted a memorandum on 12/17/69 concerning an earlier contact by Mr. Ostrow regarding his desire to write a story on the possible retirement of the Director (copy attached).

SUBJECT: AMERICAN LEGION MATTERS
Attempts of Los Angeles Times

I received a call at approximately 5 p.m., 3/12/70, from [] who is a personal friend of mine at American Legion Headquarters, Washington, D.C. [] told me that the Los Angeles Times had made a long distance call from its Washington bureau to [] Bismarck, North Dakota, in an attempt to dig up what [] termed "garbage" in an effort to embarrass me personally. [] stated he thought [] had handled the matter properly; however, he thought he should let me know about the situation right away so that I could get in touch with [] if believed necessary.

*P3
I talked to [] who is a former National Adjutant of the American Legion. [] told me that at approximately 3 p.m. today he received a call from one [] of the Washington, D.C. bureau of the Los Angeles Times. [] according to [] told him he understood I had great influence in the American Legion and that I had been responsible for kicking [] out of his job as National Adjutant. [] denied this and stated it was not true. (As a member of the National Commander's Advisory Committee, I was one of thirteen individuals who voted to replace [] with the current Adjutant, [] inasmuch as [] is a more efficient individual and [] was not doing a good job.)

*P2
[] the Los Angeles Times representative, next told [] he understood that, while [] was National Adjutant, I had incurred a bill of approximately \$900, as a result of a trip overseas, and had later refused to pay this bill. [] told [] that his facts were incorrect, inasmuch as he recalled this matter and I had completely paid this bill.

Mr. Tolson

The truth of the matter is that the Director approved my taking a trip with National Commander Eldon James, a prominent lawyer from Hampton, Virginia, in May of 1966. In my memorandum to the Director requesting approval for this trip, I pointed out that the Legion would pay my expenses, inasmuch as I was serving as National Chairman of Public Relations during the trip; however, I would personally pay my wife's expenses out of my own pocket.

The bill for my wife's expenses amounted to approximately \$933. The Legion had approved my paying this bill off in small amounts each month. I faithfully paid every month on this bill until approximately \$300 was left, at which time the entire balance was paid in full. I have cancelled checks in my possession to prove complete payment of this bill. There was never any dissension whatsoever or failure to promptly pay a monthly installment.

I asked [] if the Los Angeles Times reporter had asked him any additional questions. He replied in the negative but stated he had been led to believe that the Los Angeles Times was carrying on a series of articles about the Director and the men around him. b6

[] then volunteered that he had received a call in December, 1968, from an individual who asked him the same questions. He stated this individual had posed as a newspaper reporter and had given him the name of [] told [] at the time that he had gotten [] name from a former Special Agent of the FBI whose name was Lee R. Pennington. [] stated he knew Pennington well and that Pennington had volunteered considerable information to him.

On the occasion of the call today, 3/12/70, [] (the Los Angeles Times reporter) advised [] he had talked with two former Bureau employees (presumably [] and Pennington) and had also talked with a third former employee who disliked me because I had kept him from advancing and had been tough on him in the FBI.

This memorandum is written strictly for record purposes, inasmuch as it appears the Los Angeles Times, through the actions

SUBJECT: ATTEMPTS OF LOS ANGELES TIMES
TO EMBARRASS FBI PERSONNEL

Reference is made to my memorandum of 3/12/70 reflecting that the Los Angeles Times (Reporter [redacted] who wrote the highly biased and distorted series regarding the FBI's investigation of a Klan case in Mississippi) had called Bismarck, North Dakota to question a former American Legion official relative to what he alleged was my failure to pay a \$930.70 obligation owed the Legion in 1966.

b6

The allegation, as usual, was false, as indicated in referenced memorandum. This false allegation was apparently turned over to the Los Angeles Times by former Agent [redacted] (dismissed with prejudice), who in turn had received the information from Lee Pennington. On the 3/12/70 memorandum the Director noted, "Remove Pennington from all mailing lists."

For record purposes, there is attached a signed affidavit executed by the Assistant Executive Director and the Fiscal Supervisor, American Legion Headquarters, Indianapolis, Indiana, certifying that this bill was paid in full. I possess the cancelled checks to back up this affidavit.

ACTION:

That this memorandum and its attachment be made a part of Bureau files.

Dear Boss:

Thanks for the Outstanding efficiency report. I appreciate very much the fact that you feel my services warranted such consideration. I would be the first to admit, however, that there are times when I feel that my over-all supervision of investigative activities, particularly in the slow-moving major cases, warrants anything but outstanding notice. The marvelous teamwork and coordination always seem to pull us through however.

I wish to also thank you for the many opportunities given me during the past year to talk personally with you concerning the many problems that we face from an investigative standpoint.

Your instructions and guidance not only give tremendous encouragement but always prove that you are never too busy to offer advice and counsel.

Sincerely,

Deke DeLoach

"I am completely dissatisfied at manner in which prepared memo to A. G. re President's concern over our intelligence that I want Liaison with White House in all matters to be handled by Haynes in Domestic Int. Division."

There are also attached a copy of a memorandum from Jones to Bishop dated November 5, 1969, and a copy of a memorandum to the Attorney General which was prepared by Mr. on November 6, 1969. You made a hand-written note on the Jones to Bishop memorandum, on page 2, as follows:

Dear Mr. DeLoach:

As a result of the failure of supervisory personnel in the Special Investigative Division to make a proper determination in the listing of certain cases subject to reimbursement by the Department, a misunderstanding developed causing embarrassment to the Bureau. This certainly could have been avoided had the responsible personnel been more diligent and had there been proper coordination between the Divisions involved.

On a memorandum dated 4/29/70 concerning the Inter-departmental Information Unit (IDIU), the Director noted, "In view of absence of DeLoach, Sullivan, Rosen & Gale during this most critical period I am designating Casper to act as Assistant to the Director in charge of these Divisions."

The Director approved my attending meetings of the National Executive Committee, The American Legion, in Indianapolis, Indiana, for one and one-half days beginning Tuesday, May 5, 1970. Mr. Rosen, whose leave was approved, was not to take his two days of leave until my return. Mr. Sullivan will be back in the office as of Monday, May 4, 1970. The Director approved his attending meetings of NATO security agencies during this week. Mr. Gale's annual leave ends as of Friday, May 1, 1970. Consequently, it can be seen that I requested one and one-half days official absence only with the knowledge that these men would be here at FBI Headquarters. Mr. Gale is the only one absent at this time on annual leave.

I have never deserted my post at any time when needed. To the contrary, I give up ample leave each year simply because I feel that my responsibilities demand my presence in the office. I work every Saturday and many Sundays. It is most unusual for me to get a good night's sleep because of telephone calls from the office. My home life with a large family has been sacrificed on many occasions. In a number of instances I have handled important assignments for the Director when my children were in the hospital---or my wife was ill.

In brief, my entire FBI career has been one of relegating everything but my official duties to a second place position. My job comes first. During major cases, [] Martin Luther King assassination, et al., my overtime has been astronomical and many nights I have slept on the couch in my office.

Re: Interdepartmental Information Unit (IDIU)

I regret that the Director felt that the men under my supervision, and I, had abandoned our duties at a critical time. My trip to Indianapolis has been cancelled. Those matters which required my presence will be handled by telephone. I will be here in the office.

Finally, I have no desire to accomplish anything in the Bureau except continuation of a good job in the assignment currently being handled. I'm very grateful for the many commendations received and for outstanding efficiency reports during the past eleven years. My devotion and loyalty have been established during twenty-eight years.

✓
There is no reason
for you to cancel trip
to Indianapolis. What
I am seeking is a real
continuity of responsibility
during such crises as is
arising. Sullivan & Gale will
not be up to date on matters
in their divisions. Rosen's
change of leave bore no in-
dication of reason for it. The
new above situation is
scheduled to be from
May 1-3 & no doubt oper-

for sometime. By having
a paper trail I will know you
can brief him as he calls

you are away. I shall

Dear Mr. Hoover:

Cartha "Deke" DeLoach was your personal representative in Columbus, Ohio last Saturday, April 25th, speaking at the Franklin University commencement exercises.

He did a most creditable job, not only as your personal representative, but for the Bureau as a whole. During the course of his very fine remarks he referred to you in a most commendatory fashion, and enhanced your image, as well as that of the Bureau, before the Central Ohio community.

As a Member of Congress, I am sensitive about public officials from Washington making appearances in my district, and I must say Deputy Director DeLoach made a most favorable impression, and I will be happy to have him appear there at any time as your representative.

The Director kindly indicated there was no need to cancel the one and one-half day trip to Indianapolis. I will, of course, abide by instructions, however, my plans for Indianapolis were already totally cancelled prior to the time the Director's notation was received back in my office. Instructions have already been given for another ranking Legion member to handle my responsibilities. There will be no embarrassment. What needed to be accomplished, Legion-wise, will still be accomplished.

I will be in the office not only throughout the weekend as usual, but also all of next week. If the Director wishes me to brief Mr. Casper, or anyone else, this will of course be done.

I regret that this matter has arisen. I could never, under any circumstances, shirk my responsibilities.

Reference is made to the memorandum from Mr. DeLoach and me to you under date of 4/24/70 the third recommendation of which recommended that a separate memorandum be sent through containing recommendations for disciplinary action in connection with the above matter.

In the attached memorandum from Mr. Cleveland to Mr. Gale dated 4/24/70 with regard to that Division's responsibilities in connection with this matter it is indicated that Division should have made a determination on 2/17/70 as to whether they should or should not be counting the Pardon Attorney-type cases as Departmental Applicant Type cases. For their failure to do so Mr. Gale recommends censure for himself and Section Chief William V. Cleveland and Mr. DeLoach concurs in this recommendation.

The Administrative Division has not maintained statistics with regard to the handling of this type of case, i. e. DAPLI as this is done in the Special Investigative Division. This is the first year in which the issue of reimbursement for such matters in excess of the number estimated has been raised.

The Administrative Division prepared and forwarded to the Assistant Attorney General for Administration by memorandum of 4/15/70 a voucher covering reimbursement in the total amount of \$284,480 for 68 professional and 332 non-professional investigations. These 400 cases represented in this billing were in excess of the 3570 cases for which provision had previously been made in our budget request for the fiscal year 1970. The voucher was prepared on the basis of a listing of 400 cases furnished by the Special Investigative Division. Included in this listing were 28 investigations conducted for the Pardon Attorney under the caption "application for pardon after completion of sentence." The significance of the inclusion of these cases in the listing furnished was not readily apparent to those responsible for the preparation of the voucher, i. e. Special Agent Supervisor Daniel J. Green and Assistant Director N. P. Callahan and they did not challenge the inclusion of these cases in the listing.

Had Callahan and Green who were handling this matter questioned the inclusion of the 28 cases referred to from the Pardon Attorney before executing the voucher the misunderstanding which has occurred might have been avoided and it is regretted by them that the significance of these items was not recognized at the time but this in no way relieves them of their responsibility in this matter.

Reference is made to Tavel to Mohr memorandum dated 6/1/70, entitled as above.

The Director's questions regarding Inspector Sizoo being away from the city, and the handling of a teletype, are being answered in a separate memorandum.

This memorandum is being written simply for the purpose of stating that in my own case I did not tell the switchboard I was going to play golf at Kenwood Country Club. The switchboard was advised that I was going to the Kenwood Country Club for dinner. Golf was not mentioned. (I have not played golf for a considerable length of time.) I was available and could have been reached without a moment's hesitation.

RETIREMENT INFORMATION

Name: **Cartha D. DeLoach**Date: **6-11-70**

APPLICATION

- ☐ The "Application for Retirement" will be forwarded by the Bureau to the Civil Service Commission (CSC) for approval.
- ☒ The enclosed "Application for Retirement" should be executed (or changed as indicated below) and promptly returned to the Bureau for forwarding to the Civil Service Commission (CSC) for approval. The information sheet attached to the application is for your records and you should detach it before sending in the application.

DEPOSIT OR REDEPOSIT

Making either a deposit or redeposit is optional. Such amounts are paid directly by you to CSC; therefore, it is possible that you have already made the deposit or redeposit indicated below without the Bureau's knowledge, having dealt directly with CSC. If so, you may ignore this matter now. If not, after a review of the approximate annuity figures shown below, should you decide to make a deposit or redeposit, you should request Bureau to forward Standard Form 2803 to you. Return this form to the Bureau.

- ☐ Not applicable.
- ☒ The deposit you may owe is a payment to the retirement fund to cover a period of service during which no retirement deductions were withheld from salary. Credit is given for service not covered by deductions; however, if the deposit is not paid, your annuity will be reduced each year by 10% of the amount due as deposit. The amount you may owe is approximately \$_____.
- ☐ The redeposit you may owe is a payment to the retirement fund to cover a period of service for which retirement deductions were withheld from your salary but later refunded to you following your separation from civilian employment. No credit is allowed in the computation of annuity for the period of service covered by the refund unless redeposit is made. The amount you may owe is approximately \$_____.

ANNUITY

Annuities are computed on full months of service. The estimated annuity below is based on your ☒ Bureau service, including 1 year, 9 months, 11 days of accrued sick leave, ☐ other civilian Government service and/or ☐ military service known to us, totalling 32 years, 9 months, 9 days. CSC makes the official computations and determines whether prior service is creditable, advising you direct the exact amount of your annuity. The figures below are only estimates, and they do not take account of deduction for health insurance coverage. You should receive the first annuity check about 2 months after separating from the Bureau's rolls.

SEPARATION FROM ROLLS

Since you ☐ will cease active duty ☐ ceased active duty on 7-20-70 your annuity will commence 8-1-70 immediately following the ☐ cease active duty date or ☒ expiration of current accrued annual leave on 7-31-70 earned through 7-24-70. Item B4 on application ☐ changed to ☒ should be changed to close of business 7-31-70. If annual leave was or will be used by you subsequent to _____, this date will change and the Bureau should be immediately advised.

- ☐ If retirement is for disability, separation takes effect after the approval of CSC is received by the Bureau or after the expiration of any accrued sick leave, whichever occurs later. Under Internal Revenue Service regulations, some sick pay and disability income is not taxable; thus, you may be able to exclude from Federal income tax liability all or a part of the payments you receive for sick leave used prior to the date your annuity commenced, as well as for annuity received as a disability annuitant. Any such exemption would terminate when you reach normal retirement age. Thereafter, this annuity would be Federal income tax-free until you had drawn as annuity an amount equal to the retirement deductions from your salary while you were working. CSC will advise you of this amount.
- ☒ If retirement is not for disability, the "sick pay" exclusion is not permissible. Once you have received in annuity as much as was deducted from your salary for retirement purposes, you are subject to Federal Income Tax on the rest. CSC will advise how much was deducted. Only if you were incapacitated and were granted extended sick and/or annual leave for sick leave exceeding thirty calendar days prior to separation for retirement might you qualify for a "sick pay" exclusion for the leave period.
- ☒ Questions you may have as an annuitant regarding your income tax liability or privileges can be answered by the Internal Revenue Service.
- ☒ You should send CSC over your signature any change in address, setting out your CSA (retirement) number.
- ☒ You will receive a lump-sum payment for your accumulated annual leave in the approximate amount of \$ 4,575. A deduction for Federal income tax has been made from this estimate.

FEDERAL EMPLOYEES' GROUP LIFE INSURANCE

- ☐ Records show you elected Optional Insurance of \$10,000 and have Regular Insurance of \$_____.
- ☒ Records show you declined Optional Insurance but are covered by Regular Insurance of \$ 38,000.
- ☒ Records show you waived both Regular and Optional Insurance.

You may continue your group life insurance coverage following retirement or convert it to an individual life insurance policy without being required to undergo a physical examination. Conversion to an individual life insurance policy necessitates paying the usual premium for a person of your age and class of risk. If you decide to convert, the Bureau should be immediately advised. Otherwise, SF-56, "Agency Certification of Insurance Status," will be forwarded to CSC and a copy sent to you. If you elect to continue Regular Insurance coverage, such protection will continue premium free until you reach age 65. At that time coverage will be reduced 75% (at 2% per month) by the time you reach age 68 years and 2 months. The remaining 25% is also premium free for the remainder of life. Optional Insurance of \$10,000, if continued after retirement, will be at full premium cost until you reach age 65. Thereafter, it is cost free for the remainder of life and commencing at age 65 it will be reduced 75% at the same rate as Regular Insurance. The premium cost of Optional Insurance varies as to age, beginning at \$2.82 monthly for persons under age 35 and ranging to \$41.17 monthly for persons age 60 or over. Optional Insurance may be continued after retirement if you continue to pay for it until age 65 provided you keep Regular Insurance. If you retain the Optional Insurance, CSC will deduct the cost from your annuity. You must have had Optional Insurance for all of your service during which it was available or for 12 years immediately before your retirement. Optional Insurance may be converted to an individual policy if you are not eligible to continue it or, if you do not wish Optional Insurance to be continued, you may waive coverage at any time by notifying CSC and still keep your Regular Insurance. Following retirement, double indemnity benefits concerning accidental death and dismemberment no longer exist for either Regular or Optional Insurance.

Note: If the annuity of an insured retired employee is terminated under any applicable law or regulation, his regular and/or optional life insurance coverage stops on the date of such termination, with no conversion rights thereafter.

DESIGNATION OF BENEFICIARY, STANDARD FORM 54, FEDERAL EMPLOYEES' GROUP LIFE INSURANCE

Designation filed:

- ☒ No. Beneficiary will be in order of precedence used by United States Government, i.e., (1) widow or widower, (2) children, (3) parents, etc.

- ☐ Yes; beneficiary designated as _____
This designation is being forwarded to CSC and it will remain valid unless changed or canceled. Contact CSC for any change desired following retirement.

FEDERAL EMPLOYEES HEALTH BENEFITS PROGRAM

- ☐ Records show you elected not to enroll.
- ☒ Records show you enrolled in the following plan:
- ☐ Government-wide Service Benefit Plan (Blue Cross - Blue Shield)
 - ☐ Government-wide Indemnity Benefit Plan (Aetna Life Insurance Company)
 - ☐ Comprehensive Medical Plan
 - ☒ Special Agents Mutual Benefit Association (SAMBA)

Note: The life insurance you have under this plan will continue in force until 1-10 or 7-10 coinciding with or next following the date of your retirement. If you desire to continue the protection beyond this time, you may do so without a physical examination. You may elect to continue up to age 70 at group rates 50% of your SAMBA Life Insurance. If you presently carry \$3,000 you may continue \$1,500 at a cost of \$3.25 semiannually. If you presently carry

Present Coverage	Amount You Can Continue	Semiannual Cost
7,000	3,500	\$12.25
10,000	5,000	20.00
12,000	6,000	25.75
15,000	7,500	33.50
20,000	10,000	48.00
30,000	15,000	75.00

The 50% of your SAMBA Life Insurance that cannot be continued with SAMBA may be converted to a regular policy with Prudential. At age 70, your coverage will terminate and you may then convert the amount of life insurance carried with SAMBA to a regular policy with The Prudential Insurance Company of America.

Your desire in respect to SAMBA Life Insurance at retirement should be communicated in writing to SAMBA, Suite 750, 1325 G Street, Northwest, Washington, D. C. 20005. If you have Dependents Group Life Insurance this will continue until the next semi-annual premium is due (1-10 or 7-10), with a 31-day grace period. You may continue \$1,000 coverage on your wife at a cost of \$2.25 semiannually until you reach age 70. The \$1,000 that cannot be continued with SAMBA may be converted to a regular policy with The Prudential Insurance Company of America without a medical examination. The premium will be the same as if your spouse applied for an individual policy at that time. You may make the necessary conversion arrangement through the nearest Prudential Office. The life insurance of your children cannot be converted.

Unless you cancel your present enrollment, you will remain under your health benefit plan after retirement, and your enrollment will be transferred to CSC. The cost of your share of the plan will be deducted from your annuity by CSC.

Enrollment of an employee who dies while he is enrolled "for self and family" continues for his family if at least one family member is entitled to an annuity as the survivor. If the survivor annuitant is the only eligible family member, the retirement system will automatically change the enrollment to "self only."

The original of Standard Form 2810, "Notice of Change in Health Benefits Enrollment," will be forwarded to you by the Bureau at a later date.

SPECIAL ACCIDENT AND TRAVEL INSURANCE (SATI)

If you are a member of SATI upon retirement, you cannot continue the Long Term Disability, Pension Supplement and the In-Hospital Income Plan. You may continue the Accidental Death, Dismemberment and Permanent Total Disability Plan and the Accident Medical Expense Plan at the same rates and amounts to age 60. You may also continue the coverage on your spouse to age 60 and your children to age 18 (or up to age 23 if a full-time student.) Upon attainment of age 60 you may only continue the Accidental Death and Dismemberment Plan but not the Permanent Total Disability portion to a maximum of \$25,000 on you and your spouse to age 75. The cost will be 19¢ per month per thousand. The Accident Medical Expense Plan cannot be continued after age 60. If you retire due to disability, you should contact Wright and Company, 1001 Connecticut Avenue, N. W., Washington, D. C. 20036.

Dear DeLoach:

I have your letter of June 4, 1970, concerning your retirement from the FBI, which we discussed yesterday. I want in this way to reiterate my regret at your pending departure from our organization.

Your accomplishments in many posts of considerable authority and responsibility are known throughout the Bureau. I appreciate most sincerely all the help you have given me over the years, and know the depth of the devotion to duty which has characterized your performance.

It is gratifying to note that you will continue to maintain a close interest in FBI affairs. I hope that Mrs. DeLoach and you will find the years ahead to be abundantly happy and rewarding.

Honorable John Edgar Hoover
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

Thank you for seeing me this afternoon. *Clark*
In accordance with our conversation, I herewith
submit my request for retirement, effective (business
permitting) on July 20, 1970.

This has not been an easy decision. No
active career covering over twenty-eight years can
be brought to a close without agonizing deliberation.
Yet in my own mind----bolstered by considerable
thought and prayer----and with the faith and confi-
dence of my wife and children, the decision can hope-
fully be a wise one for the future. Your thoughtful
understanding of my situation certainly made things
much easier.

I am grateful for the many commendations,
incentive awards and outstanding efficiency reports
you have afforded me. All of them, throughout the
years, have been carefully preserved and will, again
and again, be looked at in the years to come. The
recent commendations you have given me for super-
vising a number of major cases have been particularly
gratifying.

REC-138

No one, particularly those who have shared
these great experiences, actually ever leaves this
organization. In their hearts they still continue to
enjoy the fortunes of success, and despair when the
going is rough. This will be true in my case. Your
leadership and the training given me over the years
are obviously the reasons why a good business oppor-
tunity has been given to me.

Thank you for understanding my reason for
requesting retirement and for indicating your approval
of the same.

Sincerely,

Cartha D. DeLoach

On the morning of 6-5-70, Bishop received a telephone call from the above captioned individual who advised that he had received a "tip" from an unnamed Senator's office to the effect that Mr. DeLoach has "resigned" from the Bureau effective sometime in July. Norden asked for confirmation of this information. He was advised that a check would be made. Norden called back about an hour later and advised Bishop that he had now been informed that members of the local Washington Press had information to the effect that Mr. DeLoach had retired. After checking with you, Bishop advised Norden that you (Mr. DeLoach) had submitted your request for retirement from the FBI effective July 20, 1970. It was pointed out to Norden that this would be a "retirement" and not a "resignation."

Mr. D. Cartha De Loach
Federal Bureau of Investigation
Washington, D. C.

Dear Deke:

The New York Times yesterday told us that one of the best friends we have had for more than twenty years in the Bureau will be leaving his important post in government.

This is a deep disappointment. It is equalled only by our happiness for you that you are going on to other challenges. I have no idea of your new assignment at Pepsi Cola, but if it concerns human relations and touches in any way on the problems that we have handled in ADL these many years, Pepsi Cola is lucky indeed.

Your understanding of the struggle of minorities in this country for a place in the sun helped make your agency one of our most reliable sources of strength. I am sure you will be hearing from Dave Brody, and from others in ADL -- and so, while this speaks for all of us, it particularly speaks for me.

With every best wish and with the certainty that your new role will not mean the end of our friendship,

Sincerely,

Arnold Forster

Mr. Cartha D. DeLoach
Assistant to the Director
Federal Bureau of Investigation
Ninth and Pennsylvania Avenue, N. W.
Washington, D. C.

Dear Deke:

As my letter to Mr. Kendall states, I have mixed feelings about your departure from the FBI. Although the Bureau is always receptive to those seeking help on matters within its jurisdiction, it is reassuring to know that the person to whom one talks has a record of friendly concern as well as official effectiveness. The unassuming manner in which you have operated in your important office through the years has set an example that many good men will want to follow.

Best of luck and much satisfaction from your new duties.

Sincerely yours,

Clarence Mitchell

Dear Deke:

I read of your retirement with a very personal pain. Not only is the Federal Government losing the services of a truly great American, but someone for whom I have the greatest personal respect and admiration.

I want to thank you for your sensitivity and cordiality toward me over the past year. I cannot adequately express to you how supportive it was to me in this very difficult job. I can only say that it is men like you who reinforce persons like myself who feel strongly that, in spite of its imperfection, this is a great society more than worth fighting to preserve.

I hope I will have an opportunity to convey my gratitude to you in person before your departure.

Sincerely,

Dear Deke:

The local press carried a notice over the last weekend of your intention to retire next month.

I read this notice with considerable regret. Possibly you do not remember, but several years ago (at the time Ed Mason was a special agent in charge at Cincinnati) you, I, Ed Mason, and one or two of my colleagues had lunch together. The impression you made on us was deep and long lasting. Your dedication to the cause of the FBI was easily apparent.

The loss to the Bureau by your retirement will be great. I know that you have given considerable thought to your decision, but as a concerned citizen I hope that you will reconsider.

My colleagues join me in sending kindest regards and best wishes.

Sincerely,

J. Arthur Buhr

SUBJECT: NEWSPAPER PUBLICITY REGARDING
PENDING RETIREMENT OF
C. D. DELOACH, Assistant to the Director

I have not talked to any outsiders, particularly newspaper people, regarding my request for retirement. Nevertheless, the word seems to be getting around. The Evening Star called me this morning and asked if I had requested retirement and, if so, what I planned to do in the future. I simply responded by stating that I was leaving for financial reasons, after being in the FBI for 28½ years. I praised the Director and indicated appreciation for his leadership. I made no comment concerning the company I was joining.

I was pressed for further details and advised that I frankly could give no further facts at this time. I was advised that this made no difference, inasmuch as they had information in their morgue; furthermore, I was a personal friend of many of the reporters at the Evening Star.

I also have received inquiries from the Atlanta Journal, which stated they had picked up this information on the Hill. To be specific, they stated some Senator's office had furnished them this information and inasmuch as I was a native of Georgia they planned to write an article. I gave them the same information as furnished the Evening Star, and stated no further details were available.

The Los Angeles Times has called me and I have not returned the call.

As I mentioned to the Director yesterday, I do not want publicity concerning this matter and have done nothing to stir up such requests myself.

SUBJECT: INQUIRY FROM
SAVANNAH MORNING NEWS

I received a call at 4 p.m. this afternoon from Joe Ledlie, of the Savannah Morning News, Savannah, Georgia. This is the area in which I was born and reared.

Ledlie told me his paper had received a tip from a local source that I was being separated from the FBI because of my southern background. He asked if I could talk to him, off the record, and give him the answer to this.

I told Ledlie there was no need to talk off the record; that he could place my answer squarely on the front page if he so desired. I then told him his tip was absolutely erroneous, asinine, and without any foundation whatsoever in fact. I stated the Director has always insisted upon merit and that no action, as long as I had known the Director or had been employed by the FBI, had been based upon race, creed or color.

I also told Ledlie, for his information, that he might like to know I had received a number of personal letters in connection with my retirement, and among them were letters from the Anti-Defamation League of B'nai B'rith, the National Association for the Advancement of Colored People, and the Community Relations Service of the Department of Justice, extending gratitude for cooperation and friendship over a long period of time. Copies of the letters in question are attached.

Captioned individual came to my office 7/1/70 and asked to see me. He identified himself as a "fellow Georgian," from Macon, Georgia, and stated he was a reporter. Upon seeing him he additionally stated he was with the New York Times and that he wanted to discuss several "old, vague rumors" he had heard in gossip sessions with associates. At this point I asked Inspector Donahoe to sit in on the meeting as a witness.

Mr. Rugaber stated that I was considered to be controversial among his associates because I was close to the Director--- that the Director was considered to be staunchly conservative and constantly talking about the dangers of communism. I asked Rugaber what was wrong with such a philosophy and if this was all he had to complain about. He replied that he had a number of other minor allegations which concerned me personally. I stated that, with reference to his "staunch conservative" charge, while there was nothing wrong, he should know that the Director in my opinion had always been strictly a moderate, and that I likewise had followed and believed in his policies----contrary to what the columnists Evans and Novak had printed in their column.

Rugaber stated that as it may, my representation of the Director had caused me to have personal enemies on the outside. I replied that everyone who tries to do their job satisfactorily cannot possibly please every single person, and that frankly in some instances an individual's stature was determined by who called him an "S.O.B."

Rugaber asked if my wife had owned one percent in a business office building in Arlington, Virginia in which the FBI had once rented space. I told him that Fairfax County records would reflect that my wife did possess a minor one percent

ownership in one building; that, however, the FBI had never occupied space in this building. Rugaber stated he had checked General Services Administration records that afternoon and had found this to be true, i.e., there had never been any FBI occupancy. I told him, knowing that he undoubtedly had the information anyhow, that the return on this investment paid \$83.34 per month, and that I was using this to supplement my pay check in paying heavy college expenses for my children. Rugaber stated I should forget his question; that there was nothing wrong with this.

Rugaber next stated he understood that I had been a member of the Board of Directors of a small savings and loan bank for a brief period of time. I stated this was true; however, my membership had been quite brief and that I had resigned simply because I did not have the time to attend meetings once each month. He asked if there had been any defalcations or embezzlements while I had been on the Board. I replied in the negative, stating that absolutely nothing had come up and that the Board was composed of some of the most prominent members of the business community, including Herbert Blunck and Wayne Parrish.

The next allegation was typical of the preceding two vague questions. Rugaber asked if I knew Victor Frenkil, the contractor of the FBI Academy. He was told that I knew him slightly as a result of making a speech in Baltimore, Maryland, some years ago. Rugaber was told that I had not seen Frenkil for approximately two years and that he was no personal friend of mine. He was additionally told that Frenkil had never asked me for any favors and that I had never been of assistance to him in any manner. Rugaber stated this answer "shot down" the latest "rumor" he had heard.

Rugaber stated he had one more bit of gossip he wanted to ask me about. He added that I had probably gathered by this time that all of these allegations were based upon an old anonymous letter which several reporters had told him he should

Mr. Tolson

disregard, inasmuch as it had obviously been written by a disgruntled ex-agent who had either been fired, or else felt he had been mistreated while in the FBI. I told Rugaber the Director and I had both been well aware of a concerted and prolonged "smear attack" by a well known newspaper, but that apparently this paper had hit a dead end and had given up in its attempts. Rugaber admitted that the allegations were vague and, in view of my answers, apparently had no basis in fact. He claimed that he wasn't interested in any "smear" and that he would be stupid to write an article based upon false allegations.

Rugaber then asked me his final question. He inquired if I had a wealthy friend in Miami Beach, Florida, who had been of financial assistance to my family and to me personally. I asked him whom he meant. He named Mr. Maurice Gusman. I told him that the record was quite clear with respect to Mr. Gusman. I stated that Mr. Gusman was a banker with an unblemished reputation, whom I had known for twenty-seven years. I stated Mr. Gusman had been quite close to me and my family; had stayed in my home on numerous occasions, yet the fact remained there had never been any business transactions between us which had not been a matter of record and which had always been completely satisfied in every respect.

Rugaber quite apologetically stated he had no further questions and that he appreciated my forthrightness. He stated he was completely satisfied and that he was sorry he had taken so much time. He added that "he guessed no one could attain high rank within the FBI without someone shooting at him."

Before leaving he stated he wanted to ask one final question, "Would I ever consider returning to Government service?" I told him that my immediate aim was to wind up my affairs in my present job in good order, and that afterwards I wanted to do the best job possible in my new assignment; therefore his question was moot. I added that once I got started in my new job I doubted seriously that circumstances, financial or otherwise, would allow a return to Government service. Rugaber then left.

At the conclusion of his training school, Mr. Clegg advised he presented a good youthful appearance, talked with a southern accent, was a little slow in absorbing the course material at the outset of the course, but later had absorbed the material in a satisfactory manner, he was sincere, conscientious, reliable, very enthusiastic, and he definitely needed contacts to round him out and with a little more than average supervision he should develop into a good Agent.

On 3-30-43, he was assigned to the Norfolk Division.

His SAC advised he presented a neat appearance, was very personable, was above average in aggressiveness and resourcefulness, accomplished a good volume, was very interested in his work, and for an Agent of his experience exhibited a good knowledge of the Bureau's jurisdiction and functions. He was a good dictator, made good contacts, possessed energy and force, and should develop into a better than average Special Agent.

On 8-1-43, he was transferred to the Cleveland Division.

Effective 1-16-44, he was reallocated to Grade CAF-10, \$3500 per annum. On 2-16-44, he was designated Resident Agent at Akron, Ohio.

His SACs advised he was industrious, interested in his work, learned quickly, profited by his mistakes, possessed judgment and initiative, presented a neat appearance, performed an above-average volume, presented an aggressive, forceful manner, had confidence in himself, handled firearms well, and was temperamentally suited for dangerous assignments, had operated very capably on physical surveillances, was considered a capable witness and his contacts with law enforcement officers and business men had been good. He accepted willingly and discharged responsibility with less than average supervision, was considered a good dictator, he had spent five months on technical surveillances and had performed in a very efficient fashion and he was progressing satisfactorily.

On 4-13-44, due to his age the Bureau advised they could no longer request further occupational deferment in his case, at which time he applied for a commission in the Navy. On 8-21-44, he was advised the Bureau could not assist him in obtaining his commission. He was placed on Military Leave without pay on 11-2-44.

On his cease duty efficiency rating SAC Fletcher rated him VERY GOOD and advised he presented a good personal appearance, had exhibited the proper amount of initiative, resourcefulness, force and aggressiveness, exercised good judgment, was rated a very good dictator, the only criticism was that he was hard to understand sometimes due to his southern accent. He was considered a capable witness, handled firearms in a proficient manner, operated on physical surveillances in a very good manner, his reports were well organized and logical and contained less than average amount of error, and he organized and initiated investigations, accepted and discharged responsibility with practically no supervision.

He returned to duty at the Cleveland Division from Military Leave without pay on 4-1-46, during which time he progressed in salary from \$3500 per annum in Grade CAF-10, to \$4080 in Grade CAF-10, due to a basic increase in pay effective 7-1-45 and a promotion under the provisions of the Uniform Promotion Act effective 7-2-45.

On 5-13-46, he was designated Resident Agent at Akron, Ohio.

In April-May, 1946, he attended In-Service Training.

On 6-18-46, SAC O'Connor rated him EXCELLENT and advised he had displayed a very fine attitude, being definitely interested, resourceful, ambitious, conscientious and aggressive, he exercised very good judgment, was extremely cooperative, he had above average proficiency in the use of firearms, his reports reflected good working knowledge of the Manuals and policies of the Bureau, his paper work required a minimum amount of supervision, and reflected above-average volume of production. He could get along extremely well with police officers and businessmen and had their confidence and cooperation. Due to the basic increase in pay effective 7-1-46, his salary was increased to \$4651.20 per annum in Grade CAF-10, and on 7-14-46, he was reallocated to Grade CAF-11, \$4902 per annum.

During an Inspection of the Cleveland Office in November, 1946, Inspector McKee advised he made a good appearance, impressed one as being intelligent, interested and alive, and his prospects for development were very good.

On 12-16-46, his SAC was advised he was an approved Bureau speaker.

On 1-24-47 SAC Richardson rated him EXCELLENT and said he had an excellent attitude, was aggressive and ambitious, very cooperative, was an excellent investigator, his reports required a minimum amount of supervision, reflected careful thought and skill in preparation, he did an above-average volume, he was very effective in his contacts, his performance of his own work definitely indicated he had latent supervisory ability.

On 2-3-47 he was reallocated to Grade CAF-12, \$5905.20 per annum.

On 2-27-47 by a letter from the Director, he was commended for the excellent work performed by him in connection with the Far Credit Act case involving one Harry David Bechtel.

On 3-31-47 SAC Richardson rated him VERY GOOD and said that the comments contained in the special efficiency rating of 1-24-47 still held true and in addition he was considered a competent Bureau witness, and had performed satisfactorily on physical surveillances.

On 5-28-47 Agent DeLoach while driving a Bureau car was involved in an accident with one [redacted] b6 [redacted] about two miles east of Wellington, Ohio. The accident resulted in damage to the Bureau car estimated at \$230 and damage to [redacted] car consisted of a bent tail pipe only. An attempt was made to collect the cost of the Bureau car from the third person. However, subsequently, the Department informed the Bureau that it was their opinion that Agent DeLoach was guilty of contributory negligence in the captioned accident, and therefore, a suit against the third party was not warranted, and this case should be considered as closed.

On 7-14-47 SAC Richardson rated him EXCELLENT and said he was one of the very best police contacts in the area. It was noted that the Akron Police Department had exhibited the most cooperative spirit during recent months and the Chief of Police had nominated five of his police officers for attendance at the FBI National Academy, one was to be in attendance at the next session and three had already graduated, this fine record was attributable in a large measure to the work of Agent DeLoach. He was untiring in his efforts to do a good job and the results, as a whole, reflected an above-average performance; his reports were carefully prepared, reflecting good organization and skillful investigation; he did an above-average volume of work and was diligent in meeting office and Bureau deadlines. While he had had no opportunity to demonstrate supervisory ability, the administration of his cases by him reflected that he possessed latent ability. With the enthusiasm for the work possessed by him, it was felt that he would continue to develop.

On 7-14-47 he was transferred to the Security Division at the Seat of Government.

On 11-22-47 Mr. Keay rated him EXCELLENT ~~SECRET~~ Te was a very conscientious and thorough

Agent; he had taken hold of his work well and had made excellent progress as a Supervisor. His paper work had been very satisfactory and he had organized his work well. His outstanding characteristic was his excellent attitude; he showed an intense interest in the Bureau's work and made a serious approach to it and he produced an excellent volume of work. He presented an excellent appearance, always dressed neatly and it was thought that he would make a very favorable impression on persons outside the Bureau. He had a very pleasant personality, showed enthusiasm at all times and cooperated well. It was thought he had considerable supervisory ability.

During an Inspection of the Security Division in February, 1948, the Inspector (G. L. Carroll) said that he made a good appearance, handled himself well during an interview and had a pleasant personality. He appeared interested in the Bureau's work and indicated that in the future he would like to be considered for training as a Firearms Instructor and a Police Instructor. He appeared to be intelligent and conscientious; his prospects for the future appeared to be good and his rating in dictation ability by the stenographers was Very Good.

On 3/31/48 Mr. Keay rated him EXCELLENT and said he was a conscientious, sincere, and capable Agent. He showed commendable initiative and intense interest and had demonstrated that he was ambitious to progress in the Bureau. His paper work had been very satisfactory and he was an excellent dictator. He was rated excellent on his field work during the year and he had indicated that he had both administrative and executive ability. He made an excellent appearance and made a favorable impression on persons outside the Bureau; he was enthusiastic, had a pleasant personality, and got along well with other personnel.

In March, 1948, Mr. Keay submitted his name with respect to Supervisors from the Atomic Energy Liaison Section who appeared to be prospects for long range development as Special Agents in Charge or Assistant Special Agents in Charge.

On a special efficiency report in March, 1948, Mr. Wall rated him EXCELLENT and said his work had been exceptionally good in every respect; he was conscientious, loyal and had an excellent attitude. He made a fine personal appearance, was friendly and cooperative and was well liked by his fellow employees.

On 7/11/48, his salary was increased to \$6235.20 per annum due to an increase in basic pay, and on 8/8/48, he was afforded a UPA promotion to \$6474.60 per annum.

By memorandum dated 11/24/48, initialled by Mr. Ladd, Mr. Keay recommended that this agent be reallocated to grade CAF-13. It was pointed out that, although he would not normally be eligible for reallocation, he was handling liaison work with the Central Intelligence Agency and the Navy Department, and the other liaison agents were in grade 13. He was considered for reallocation on 11/30/48; however, it was recommended that no further action be taken at that time inasmuch as he had not been a Special Agent for ten years, had been assigned to administrative supervisory duties only since July, 1947, and had received a rating of only VERY GOOD on his 1947 annual efficiency report.

On 1/23/49 he received a meritorious increase to \$6714 per annum in Grade CAF-12, for his outstanding liaison work.

He attended an In-Service Training Course at the Seat of Government from February 7 to February 18, 1949, during which time he was afforded training in inspection procedures, and it was believed that he was well qualified to assist on inspections.

He had indicated administrative and executive ability. He made a favorable impression and had an enthusiastic and pleasant personality.

During an Inspection of the Security Division in June, 1949, Inspector Gurnea said he presented an excellent, businesslike appearance and had an above average personality. He expressed himself very well and conducted an above average interview. He impressed the Inspector as being very familiar with the Bureau's liaison problems and obviously protected the Bureau's interests when contacting other agencies. He stated he had no respect whatsoever for CIA which he contacts regularly; however, he had been successful in developing informants within the organization. Summarily, the Inspector was rather impressed with this Supervisor, and it was believed he was ASAC material and capable of continuing to advance himself in the Bureau's service.

[redacted] as well as doing other miscellaneous liaison tasks. He was highly praised for his handling of this situation and it was commented that he paid close attention to details and had a deep sense of responsibility. He had been successful in maintaining friendship with the highest officials of the agencies with which he had worked on a liaison basis. He had made excellent progress in the knowledge of Bureau policies and was a valuable liaison man. He indicated he was desirous of progressing in the Bureau's service, was available for transfer wherever his services were needed, and undoubtedly could handle any of the Bureau's assignments. He made a good appearance at all times, had a rather enthusiastic, pleasant personality and as noted by the comments above, he made a good impression on persons outside the Bureau. He had administrative and executive ability.

By letter dated 5-9-50, Alva J. Russell, Prosecuting Attorney for Summit County, Akron, Ohio, expressed appreciation to the Bureau for its apprehension of [redacted], Unlawful Flight to Avoid Prosecution (Burglary). Prosecuting Attorney Russell indicated that he desired to give special recognition to three Agents for their untiring efforts in the [redacted] case. One of these was Agent DeLoach, however, SAC Abbaticchio advised the Bureau on 5-29-50 that the file of the Cleveland Office reflected that the only work done by Agent DeLoach was to take the original complaint.

b7C

On 7-18-50 Mr. Keay advised he was presently assigned to the Liaison Unit of the Correlation-Liaison Section and conducted liaison with the Office of Naval Intelligence and the Central Intelligence Agency. He had received ratings of Excellent for the past three years, was in good physical condition and was available for transfer wherever his services were needed. He received a meritorious increase in pay on 1-3-49 for the excellent results obtained through his liaison. He had been commended on several occasions and Mr. Keay recommended that he be promoted to Grade GS-13 because of his three years as a supervisor and because of his excellent performance.

On 9-17-50 he was reallocated to Grade GS-13, \$7600 per annum.

By memorandum dated 10-18-50 the Director indicated that he had received a very favorable impression of Mr. C. D. DeLoach, the Liaison Agent assigned to CIA, when he saw him (DeLoach) at a luncheon on 10-17-50 with General Smith and Mr. William Jackson of the CIA. The Director said Mr. DeLoach handled himself in a most mature and excellent manner. He was well informed on the various problems which had arisen in the past. General Smith seemed to like Mr. DeLoach and it was apparent that Mr. DeLoach had established a most cordial relationship.

~~SECRET~~

~~SECRET~~

By letter dated 10/27/50 he was commended for the excellent manner in which he handled the recent inquiry received from General W. B. Smith of the Central Intelligence Agency relative to the interrogation of aliens domestically by that agency.

During an inspection of the Security Division in November, 1950, Inspector Harbo said he was intelligent and was ambitious to progress in the Bureau's service. It was believed he was definitely above average and could handle the position of ASAC in a small office.

On 11/26/50 he received a meritorious increase to \$7800 per annum in GS-13, in view of outstanding services performed by him in connection with his contacts with other Governmental agencies and coverage of confidential security matters of particular interest to the Bureau.

His overtime for October, 1950, was 30 minutes; November, 2 hours 8 minutes; and December, 1 hour 55 minutes.

On 3/31/51 Inspector Keay rated him SATISFACTORY and said during the past year he had been assigned in a liaison capacity with the Central Intelligence Agency, Navy Department, and the Marine Corps, and he was a well seasoned Agent in this type of work. He was one of the better liaison representatives in the Bureau and he had been unusually successful in becoming close to the top officials of the other governmental agencies. He had been commended highly by officials with whom he was in contact and his assignment at the Central Intelligence Agency was most difficult because of the number of basically unfriendly individuals who worked there. He had outstanding initiative, made excellent suggestions, had an outstanding knowledge of Bureau policies and procedures, and had administrative and executive ability. He was definitely in the upper third of the Satisfactory rating. On 4/15/51 he was reallocated to Grade GS-14, \$8800 per annum.

On 4/26/51 Mr. Ladd submitted his name for consideration on a long-range basis for development.

By letter dated 5/29/51 he was commended for the arrangements made by him relative to the use of Naval medical facilities in several of the field divisions in connection with physical examinations for the Bureau's agent personnel on a courtesy basis..

On 6/22/51 the Director saw him on his return from the European Attaches Conference in Frankfort, Germany.

By letter dated 6/26/51 he was commended for the excellent manner in which he carried out his assignment relative to the recent intelligence conference in Europe.

On 7/8/51 he received a basic salary increase to \$9600 per annum in GS-14.

By letter dated 10/10/51 he was advised that he was being designated an Inspector effective 10/14/51, with no change in grade or salary.

~~SECRET~~

~~SECRET~~

By letter dated 11-8-51 he was commended for the excellent fashion in which he assisted in the preparation of the Central Intelligence Agency brief.

On 12-7-51 Inspector Keay rated him SATISFACTORY and said he was an aggressive, alert, ambitious, and dependable Supervisor. He had administrative and executive ability and an excellent all-round knowledge of Bureau procedures.

On 12-10-51 he was transferred to the Training and Inspection Division as an Inspector.

On 1-23-52 Mr. Clegg submitted his name for consideration on a long-range basis for development.

On 2-10-52 Inspector Mason rated him SATISFACTORY and said since his arrival in the Training and Inspection Division, he had been engaged full time in Seat of Government surveys, recheck inspections at the Bureau and had performed a considerable amount of travel in connection with special inquiries, operating under specific orders of the Director. He had definite executive ability and his performance thus far had been entirely satisfactory.

During an Inspection of the Training and Inspection Division in February, 1952, Inspector Harbo said he was above average in appearance and personality. He displayed tact, enthusiasm and ambition during the interview.

By memorandum dated 3-15-52 the SAC at Savannah advised that he had heard many very favorable comments on the talks given by Mr. DeLoach before the Municipal Association of South Carolina and the Executive Group of the South Carolina Law Enforcement Officers Association at Columbia. The audience was composed of municipal executives and police executives from principal cities throughout South Carolina. It was felt that the presence of Mr. DeLoach did a great deal to enhance the Bureau's public relations in that area.

On 3-31-52 Inspector Mason rated him SATISFACTORY and said during a portion of the rating period he was assigned to Liaison duties with the Central Intelligence Agency and discharged his responsibilities in a highly satisfactory way. He was unusually successful in becoming close to top officials in the Government agencies he handled and was, therefore, in a position to dominate the situation in connection with problems arising. As an Inspector, his work had been very well handled. Mr. DeLoach's output had been characterized by unusually prompt handling. When he was given an assignment he forthwith tackled it and pursued it tenaciously until the objective was attained and normally this point was reached in a shorter space of time than would be expected from the average employee. In all respects the services of DeLoach had been highly satisfactory. He was ambitious and was possessed of talent which would undoubtedly help him reach his ambitions. He had all of the qualities needed for success as an executive and he was a distinct asset to the Training and Inspection Division.

~~SECRET~~

~~SECRET~~

His daily average overtime for February, 1952 was 3 hours 6 minutes and for March was 57 minutes. ||||

By memorandum dated 4-4-52, Inspector Stein advised that this Agent arrived in the midst of the completed Buffalo inspection and aided in setting up of the inspection of the New Haven Office, which had recently been completed. He rapidly familiarized himself with the administrative details of the inspection, reviewed memoranda and case write-ups submitted by Agents or Aides, and did a good job. He took an active interest in the Security work to aid him in future inspections. It was believed that he was qualified at the present time to start out inspections on his own in smaller offices.

By memorandum dated 5/9/52 Mr. Clegg advised that during the month of March, 1952, Inspector DeLoach erroneously neglected to record overtime on three occasions. In the future, he would use more care. With this additional overtime recorded, he averaged 1 hour 21 minutes per day during the month of March, 1952.

On 7-10-52 the Director saw Inspector DeLoach and said he was leaving to inspect the New Orleans and Mobile Offices and this would be his first inspection on his own. The Director outlined to him the general objectives of inspections and the need for thoroughness and fairness. DeLoach also informed the Director that his family was thoroughly in accord with the necessity for his travel and he wanted the Director to know he would be available for assignment to any place at any time.

By letter dated 8-6-52 he was advised the Bureau was very much displeased at the manner in which he reported certain inequalities in the sharing of overtime by some of the Agents of the Mobile Office. The information which he furnished by telephone indicated that the SAC had not called these inequalities to the attention of the Agents involved. The SAC had advised that he had done so, and it appeared that he did not ascertain the full facts with respect to this situation during the inspection. Information furnished by him by telephone, therefore, was incomplete and inaccurate. It appeared that he did not specifically obtain from the SAC information as to whether he had discussed the inequalities in overtime with the Agents involved and that he did not locate additional memoranda addressed to all the Agents of the office concerning overtime. It was of paramount importance that an Inspector be accurate in all reports submitted to the Bureau. The Bureau was embarrassed by his failure to ascertain all the facts and report them fully to the Bureau in his preliminary report made by telephone and it was mandatory that these fundamental and elementary requirements be met at all times in the future.

His overtime for August, 1952, was 5 hours 08 minutes.

On 10-12-52 he received a Uniform Promotion to \$9800 per annum in GS-14.

On 10-26-52 he was reallocated to Grade GS-15, \$10,800 per annum.

~~SECRET~~

By letter dated 12/29/52 he was COMMEDED for his effective on-the-spot supervision of the location and apprehension of [redacted] and another subject of an Interstate Transportation of Stolen Motor Vehicle case.

By letter dated 3/5/53 he was advised that the Bureau was very much concerned over the fact that he spent last week end in Washington without prior Bureau authority and while Special Agents assigned to him were in Boston without the supervision of an Inspector. The Bureau was fully aware that it was necessary for him to take a train from Savannah to Washington on Friday, February 27th, inasmuch as there were no available air accommodations, and the Bureau understood that he did not plan in advance to remain over in Washington. However, he stayed in Washington from 9:30 a.m., Saturday, February 28th, until 4:50 a.m., Monday, March 2, 1953, without the Bureau's being aware of his location and presuming that he was in Boston. Although he had secured permission to proceed to Georgia, he had no authority to spend two days in Washington under the circumstances.

By letter dated 3/9/53 he was COMMEDED for his fine on-the-spot supervision of the apprehension of [redacted] I. O. Fugitive and subject of an Unlawful Flight to Avoid Confinement - Armed Robbery case. b6 b7C

During the Inspection of the Training and Inspection Division in March, 1953, Mr. Clegg stated during the past several months he had been engaged exclusively in field inspection assignments, each of which had been handled adequately and he had done a thorough, conscientious job. He had shown a great deal of initiative in taking the leadership of dangerous assignments which had arisen during the course of his field inspections. He had learned quickly as an Inspector, he showed above average intelligence, and in all respects his services were entirely satisfactory.

By letter dated 3/27/53 he was COMMEDED for the splendid work which he did in identifying a female clerical employee of the Chicago Office who admitted having advised an unauthorized individual that certain information was contained in the files of the Chicago Office.

On 3/31/53 Assistant Director Clegg rated him SATISFACTORY and said his services had been quite satisfactory, he had progressed immensely and he had demonstrated his capability to handle some of the more involved and complex inspections. He had already inspected some of the larger offices such as Boston and Cleveland and he had handled several complex special inquiries involving personnel situations or unusual departures from Bureau regulations. He had the ability to report his work clearly and concisely and his paper work was generally very well prepared. His work appeared to be accurate, comprehensive and thorough. He had progressed in a highly satisfactory fashion as a field inspector and it was believed that despite the already rapid progress noticed in the past, he would continue to progress even more and would become more valuable to the Bureau in the future. He was an excellent dictator.

~~SECRET~~

His daily average overtime for March, 1953 was 6 hours 1 minute. His daily average overtime for April, 1953 was 2 hours 25 minutes.

By letter dated 5/29/53 he was CENSURED in connection with an inquiry made by him concerning allegations of improper activities on the part of agents of the Atlanta Division during their investigation of an Interstate Transportation of Stolen Property Act case in which [redacted] was a suspect, it had been noted that a memorandum submitted by him covering the results of his inquiry was inadequate in that there were certain deficiencies in the presentation and previous questions were not completely resolved by him. Consequently, it was necessary for the Bureau to have additional inquiries made in order to secure full details as to the search of [redacted] car, why the agents requested [redacted] permission to search the suspect's home when Bureau instructions stated that a wife can not grant such authority for her husband, why the social security card was taken from [redacted] why his handwriting specimens were not sent to the Laboratory and what was meant by a statement in his memorandum to the effect that a police sergeant had been instructed by a police detective to give the Bureau Agents all assistance in the case including "taking him upstairs if necessary." It was also necessary to subsequently ascertain whether Mrs. [redacted] had executed a waiver of search for the premises and whether the suspect had been asked to execute such a waiver as well as several other unanswered questions which became apparent when the facts were reviewed at the Bureau. These omissions on his part caused an unnecessary delay in the final handling of this matter and also necessitated additional work which should have been completed by him. b6 b7C

By memorandum dated 6/8/53 from Mr. Clegg to Mr. Tolson, he advised that following the Detroit inspection, Inspector DeLoach recommended a letter of commendation for the meritorious work performed in Detroit by Inspector's Aide [redacted] of the Chicago Division. DeLoach dictated 15 Inspector's aides personnel write-ups on Sunday 5/17/53, in Birmingham, Alabama. They were transcribed by Birmingham stenographer Tuesday, 5/19/53. At this time a letter of commendation was attached to the personnel write-up on [redacted] however, the letter of commendation was left undated. Mr. Tolson noted on the yellow copy of the letter of commendation, "Why the delay in handling this?" DeLoach dictated on the Detroit inspection all day Saturday and Sunday May 16 and 17, 1953. There were 26 case write-ups to dictate upon, in addition to the synopsis memorandum to Mr. Tolson and the letter concerning the inspection to the Special Agent in Charge. Letters of censure and letters of commendation were left undated so that the date could be placed thereon when they were forwarded from the Bureau to the designated employees. In view of the necessity of dictating a 34-page report regarding the mishandling of a case entitled "[redacted] Interstate Transportation of Stolen Property" in Atlanta, and in view of the necessity of investigating an anonymous letter incident in the Birmingham Division, DeLoach did not finish dictation of the Detroit inspection until Wednesday, 5/27/53. The Detroit report was completely correlated and mailed to the Bureau as of the night of Thursday, 5/28/53.

~~SECRET~~

Mr. Clegg had issued instructions to all Inspectors that they should not report inspection work on a piecemeal basis. The complete results, for purposes of proper coordination must be sent into the Bureau all at one time. There was therefore a necessity for delaying the forwarding of the Detroit inspection until all matters had been completed. No administrative action was taken against Mr. DeLoach in connection with this delay in view of the circumstances.

By letter dated 7-9-53 he was CENSURED in connection with the inspection of the Birmingham Office. He included in the administrative data under the caption of Plant Informants a reference to those facilities deemed vital by the Special Agent in Charge. In connection with these facilities he reported a failure to indicate the identity of the interested agency and the agency having security responsibility. Inasmuch as these facilities were declared vital by the Special Agent in Charge, it was not possible or practical to endeavor to show the responsible agency. As he knew, these plants were selected by the Special Agent in Charge on the basis of potential value of the plants in connection with any possible future national emergency. It was essential that Inspectors be meticulously accurate in presenting their findings, in offering constructive criticism, and in issuing instructions to Special Agents in Charge. It was realized that this error was primarily attributable to a Special Agent who assisted him on the inspection; however, inasmuch as he was in charge of the inspection he must bear the responsibility of any errors resulting.

By letter dated 7-29-53 he was COMMENDED inasmuch as he devoted three hours of his time on Sunday prior to changing trains for a quick check of certain matters in the New Orleans Office. The Director stated in his note that he was very glad to have Inspector DeLoach's views concerning the administration of the New Orleans Division and further that he hoped that he would be constantly alert to provide the Director with his frank observations concerning any and all phases of the Bureau's work whenever occasions presented themselves.

On August 31, 1953, the Director saw him, at which time Mr. DeLoach stated he had a personal problem which he wanted to advise the Director of, although he was not making any specific request. He stated that as an Inspector he had been on the road for extended periods of time and that his wife had been in ill health, having lost considerable weight; and his latest child, who was 17 months old, practically did not know him because of his long absences from the city. He was hopeful that if there was any work to which he might be assigned that would keep him at one place for a while he might be considered for it. The Director inquired as to whether he wished to be considered for the position of SAC in one of the field offices because if he did the Director would endeavor to make the assignment upon the next vacancy. The Director pointed out, however, that this would necessitate his moving from Washington

to whatever field office in which there might be a vacancy. Mr. DeLoach said he had bought a home in Washington and he would suffer a financial loss if he endeavored to sell it at that time. The Director told him that, consequently, the Director assumed he did not wish for an assignment to the field as an SAC at that time but that his problem would be kept in mind and if there were any special assignments at Washington to which he might be detailed that would enable him to be in this area for some little while, his case would be given careful consideration. His attitude was excellent and he was merely endeavoring to set forth a personal problem which was confronting him.

On 10-19-53 he was transferred to Mr. Tolson's Office and on his transfer report Mr. Mason rated him SATISFACTORY and remarked that during the rating period he had served as Inspector in charge of various inspections of field divisions and he had inspected several of the larger field divisions; he also conducted an inspection of the Records and Communications Division. He assisted in the training of a new Inspector. He conducted several inquiries involving rather delicate investigations and handled such with dispatch, effectiveness and efficiency. In a summary of his career in the Training and Inspection Division, it was commented, among other things, that he very rapidly and with vigor assumed his responsibilities and embarked upon a period of reorientation as to field techniques and operations, many of which had never previously come to his personal attention. He discharged his assignments with intelligence, good judgment and vigor. The mistakes he had made in judgment had been relatively minor in that they did not seriously jeopardize his very favorable performance. He made an above average personal appearance, had an excellent personality and in all respects fulfilled each of those points expected by the public of an FBI representative. He was available for special and general assignment, although he preferred duty in Washington, D. C. He was equipped mentally, physically and through experience to handle personally matters of great delicacy involving the Bureau's relations within or without the organization. He was competent, capable, conscientious and as an Inspector had contributed greatly to the success of the Inspection Program during his service in that Division.

By letter dated 10-23-53 he was COMMENDED and the Director stated that he felt that Mr. DeLoach represented the Bureau most creditably at the convention of the Georgia Peace Officers Association. It was evident that Mr. DeLoach was aware of the importance of full cooperation between the Bureau and state and local law enforcement agencies, and he discharged his responsibilities admirably in further promoting friendly relations with these groups and also in explaining the Bureau's position in regard to certain investigative matters under its jurisdiction.

On 12-23-53 Mr. Mohr rated him SATISFACTORY and pointed out that he had taken over the work formerly handled by Mr. Trotter and also assisted Mr. Trotter in the handling of the review of memoranda and correspondence from the investiga-

tive divisions. He had entered upon his new duties with enthusiasm and thus far had handled his work in an excellent manner. He had demonstrated a considerable amount of initiative in the handling of his work and in his review of memoranda and mail had exhibited excellent insight into the Bureau's work and his judgment had been very sound. He was regarded as an excellent employee.

By letter dated 1-29-54 he was awarded his Ten-Year Service Award Key.

On his 1954 annual report Mr. Mohr rated him SATISFACTORY and said he handled all of the various duties in Mr. Tolson's office in an above average manner. He showed an excellent aptitude for handling all of the various problems that came up in connection with his work, was enthusiastic, energetic and industrious. Based on the work in that office, as well as his previous work in the Training and Inspection Division he was entitled to a rating of excellent. He had had considerable ability along executive and administrative lines. He was extremely loyal to the Director and the Bureau and it was felt he had excellent potentialities for further advancing in the Bureau's service.

On 3-15-54 he was transferred to the Records and Communications Division as #2 Man to Mr. Nichols.

On 4-25-54 he received a Uniform Promotion to \$11,050 in Grade GS-15.

By letter dated 9-9-54 he was COMMENDED for the excellent fashion in which he discharged his assignment during the convention of the American Legion.

Memorandum from Nichols to Mr. Tolson dated 9-8-54 which was prepared by Mr. DeLoach set forth certain information in regard to the inquiry as to just what was being done regarding contacting organizations holding conventions in D. C. to take FBI tours? This memo set forth steps which had been taken in this regard and stated that it was not felt we were suffering from a public relations standpoint from failure to contact convention committees relative to our tours; that if desired we would, of course, issue blanket invitations to all groups. Mr. Tolson noted, "We certainly should have contacted this particular group." (Referring to the International Society of Clinical Pathologists). The Director noted, "No one suggested that we issue any 'blanket invitations'." All I have asked is to have intelligents selective invitations issued. If Nichols' office can't or won't do this then transfer the project to Harbo's Office."

In a Memorandum dated 9-24-54 to Mr. Tolson, Mr. Nichols advised that he had reviewed the tour situation, particularly with reference to inviting convention delegates and he had gone over with Messrs. DeLoach and McGuire the memorandum of 9-8-54, which the Director mentioned to Mr. Nichols last Monday. Certainly Mr. DeLoach was not too selective in his use of language. After talking to him, Mr. Nichols stated he was certain that he did

not intend to convey the impression which was conveyed. He fully recognizes the necessity of the use of proper phraseology. It was Mr. Nichols personal opinion that his phraseology was thoughtless and did not in any way reflect his real attitude, which he considered excellent.

By letter dated 10-15-54 he was CENSURED inasmuch as it had come to the attention of the Bureau that he reviewed and approved for transmittal a letter dated 10-1-54, to [redacted] Des Moines, Iowa, acknowledging receipt of certain material [redacted] had furnished the Bureau with his letter of 9-24-54. He had advised that in his review of this communication he missed the complete significance of [redacted] letter of 9-24-54, and that the reply to him was obviously in error. It was fundamental that the Bureau always welcomed data furnished to it by citizens and acknowledgments of communications with which information was furnished the Bureau should be completely responsive. b6

During an inspection of the Records and Communications Division in November, 1954 Inspector Brown stated he was aggressive, decisive, and energetic. He had definite ideas and had no hesitancy in expressing himself. Given an assignment, he went directly toward his objective. Inspector Brown considered him qualified for his present position, and capable of further advancement.

He was a growing man who had taken hold of his responsibilities with dispatch exhibiting judgment and initiative. He possessed the ability to get things done. There was no reason why he should not continue to develop having the capability of assuming additional responsibility. He was available for special and general assignment.

His daily average overtime for March, 1955 was 2 hours 53 minutes.

By letter dated 4-8-55 Honorable Daniel A. Reed, House of Representatives, Washington, D. He was specifically instructed on the evening of 5-10-55 that this memorandum was to be submitted by 9:00 a.m. on 5-11-55. Addington Wagner, advised this employee that he had been appointed as a General Member of the National Distinguished Guests Committee of the American Legion. In a memorandum to Mr. Tolson dated 12-29-55, Mr. Nichols noted that this Committee picked the speakers and guests to appear at the annual Legion convention which consisted of between 40 and 50 members. It was practically unheard of for an individual member of the Legion to be appointed to two National Committees in one year although Mr. DeLoach had previously been appointed as Vice Chairman of the Subversive Activities Committee of the Legion. Mr. Nichols thought that this reflected very favorably upon the caliber of Mr. DeLoach's liaison with the Legion. The Director noted, "OK".

By letter dated 1-4-56 he was CENSURED for his inadequate handling of a request for a tour of the Bureau on 12-23-55, for one [redacted] and his family and it was evident that he exercised extremely poor judgment in this matter. At the time he decided that [redacted] would be restricted to viewing exhibits only, he should have insured that he was in possession of all the facts relating to this matter. As a result of his failure to determine the extent of instructions issued previously, [redacted] and his family were left waiting on the fourth floor for some FBI representative to join them and no such contact was made. By letter dated 1-5-56 Mr. DeLoach expressed regret for the above criticism. b6

By letter dated 1-12-56 he was COMMENDED for the impressive statistics regarding the number of visitors and tours handled at the Bureau during 1955. By memorandum dated 1-31-58 the Director advised that he saw this agent on 1-28-58 when he called to discuss a personal matter with the Director. He advised that he had been contacted by Governor Craig of Indiana, former Secretary of Defense Louis Johnson, and several other prominent persons who had been quite active and prominent in American Legion affairs for some years. These gentlemen were concerned that the Legion might fall more and more into the hands of individuals who may not have the best interests of the Legion at heart. They also inquired whether he would be willing to consider being advanced by them as a candidate for the National Commandership of the American Legion. He observed that he would have to resign from the Bureau for at least two years if he acceded to this request. He also observed that the National Commander of the American Legion received a salary of \$44,000 a year. The Director advised him that this was a matter for his personal decision but that it seemed to him that DeLoach should face reality and realize that even though his candidacy might be successful, the Director doubted very much whether politics could be excluded from American Legion affairs any more than they could be excluded from the affairs of other organizations of all types. DeLoach indicated that he intended to turn down the offer which had been extended to him but that he wanted the Director to know of it. The Director observed that he thought ^{this} was a wise decision for he certainly had a good future in the Bureau.

The Honorable J. Edgar Hoover
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Boss:

Please forgive my rudeness at not writing sooner to thank you for your many kindnesses on July 20, 1970, the date of my departure. The gold cuff links, the gold buttons for a sport coat, and particularly the mounted gold badge, which I treasured and carried for so many years, were all deeply appreciated and will be coveted forever.

Barbara, the children and I have moved into a new home in Greenwich, Connecticut and, of course, are finding plenty of work to do before becoming settled -- particularly yard work.

I reported to work as of Monday, August 3, 1970, and have since been in the "learning stage." My new associates are high type friendly people who take pride in their work and company. The parent company, PepsiCo, Inc., with whom I am affiliated, is a fast growing outfit whose successes have become phenomenal.

Your words of advice and encouragement on the day I left were gratefully received. I will continue to support you and the FBI whenever the opportunity presents itself. In the meantime, let me wish you the best of health and continued success.

One final thing, as a retiring employee, I've had the usual requests for interviews and feature stories from "The Baltimore Sun," "SE" magazine, "Meet the Press," et al, but have indicated unavailability. I do not want to become involved in such matters.

Sincerely,

Deke DeLoach

My dear Senator:

I have your letter of October 6, 1970,
 in which you request my participation relative to the
 preparation of a documentary on the life of the late
 Attorney General, Robert F. Kennedy.

While I would like to be of assistance,
 I must of necessity indicate that any contacts I had
 with Mr. Kennedy came about through my official
 employment with the Federal Bureau of Investigation.
 Consequently, those experiences are part of the files
 of the FBI and, therefore, not available to me in
 retirement status. I therefore could be of little or
 no assistance in this regard.

Sincerely,

Dear Mr. DeLoach:

As you may know, an oral history program on the life of Robert F. Kennedy has been established and is being administered by a special staff of the John F. Kennedy Library. The program is developing a valuable source of information for historians, political scientists, biographers and other scholars interested in Robert Kennedy's career and in the events in which he played a part.

We are, of course, interested in thoroughly documenting Bob's role as Attorney General. We would consider your participation of great value, and hope that we can count on your cooperation.

The coordinator of the program is James A. Oesterle. He or a member of his staff will follow up on this request to provide you with more information and to arrange for the interview. I know they will be happy to answer any questions you may have about the interviewing process.

I would appreciate hearing from you as to whether or not you are willing to be interviewed for the program. Thank you for your cooperation.

Sincerely,

Ed Kennedy

CONFIDENTIAL

Honorable J. Edgar Hoover

Washington, D. C. 20535

RE: YABMUR

Dear Mr. Hoover:

Mr. Alex Seton, who operates a newly established public relations firm in New York City, called by my office at 11:00 a.m. today. Mr. Seton has been previously employed by the American Broadcasting Company in New York City, and most recently was an executive with the Deegan-Raymond public relations firm in New York City. In connection with the latter firm, he was assigned the public relations account with the United Mine Workers (UMW) in Washington, D. C. As a result, he came to know Tony Boyle, President, UMW, quite well. When Mr. Boyle and the UMW decided not to renew their contract with the Deegan-Raymond firm, Mr. Seton decided to leave the Deegan-Raymond firm and set up a business of his own. He was promised the public relations account by Mr. Boyle.

While with the Deegan-Raymond firm, Mr. Seton also did considerable business with the National Alliance of Businessmen (NAB) in Washington, D. C. He traveled with Paul Kayser, a former vice president of my company, PepsiCo, Inc., who was temporarily assigned as President of the NAB. As you may recall, Donald M. Kendall, President and Chief Executive Officer, PepsiCo, Inc., was Chairman of the Board of the NAB for one year, March, 1969, to March, 1970.

Mr. Seton's declared purpose for visiting me was to return equipment, such as a typewriter, radio, etc., which was purchased through PepsiCo, Inc., for his usage when handling public relations for the NAB. While in my office, he asked me if I could discuss the Yablonski case. He very pointedly indicated that he would now have the public relations account for the UMW and he desired to raise the image of this organization as much as possible in the United States. He specifically inquired as to whether or not I felt the American public believed that the top hierarchy with UMW was responsible for the Yablonski murders.

I told Mr. Seton that I felt certain he could find the answers to these questions through evidence given out not only during the Federal arraignment of the Yablonski subjects but additionally from state court records in Pennsylvania. I stated that I was in no position to be of assistance to him inasmuch as such information that I possessed was of a confidential nature as a result of my previous FBI employment. I did tell him that I thought he had a most difficult task to perform if he planned to raise the image of the UMW.

The above facts are being made available simply for record purposes.

I trust that all is well with you and Mr. Tolson, and I do hope that you will let me know any time I can be of assistance.

Sincerely,

A handwritten signature in cursive script, appearing to read "C. D. DeLoach".

Dear DeLoach:

You will recall that Southeastern University, which is located in Washington, D. C., is a four-year resident college accredited by the accrediting commission for business schools as a senior college of business. We continue to enjoy a close friendly working relationship with this school which always has had a conservative administration.

The J. Edgar Hoover Foundation first issued a scholarship grant to Southeastern in 1968 in the amount of \$1,500. This was subsequently raised to \$3,000 in 1969, and \$3,500 in 1970. It is suggested that the Board of Directors of the Foundation give consideration to increasing its scholarship grant to Southeastern in 1971.

Sincerely,

J. Edgar Hoover

Mr. Tolson has inquired as to the manner of selecting recipients of the J. Edgar Hoover Foundation Scholarship Grants. To be eligible for consideration, an individual must be an FBI employee, have completed one year of FBI service and one year of study at Southeastern University with a quality point index of 2.50 or higher. Applicants must furnish a statement of need for financial assistance and an autobiographical sketch outlining college and high school extracurricular activities, military experience, organizational affiliations, and hobbies. The Scholarship Committee makes the selections, however, in each instance, Dr. John P. Maurer, President of the University, informally checks with me to insure the FBI employees selected are in good standing with the Bureau, appear to be career-minded, and are working towards the Special Agent position or other responsible assignments. Dr. Maurer wants to insure that any employee selected will be a credit to the FBI as well as Southeastern University.

Southeastern University is a local night school accredited by the accreditation commission for business schools as a senior college of business. It is a four-year resident college with an enrollment of over 500. A number of FBI employees have attended Southeastern at night over the years since it is conveniently located in the down town YMCA Building with an Alexandria Branch at the Francis C. Hammond High School. Another factor is that tuition is lower than that of the major colleges in this area. There are approximately 250 Special Agents on the rolls today who have graduated from Southeastern as well as approximately 50 clerical employees. With Bureau approval, I serve on the Board of Trustees having been asked to serve in that position in view of the close ties existing between Southeastern and the FBI. This school has always had a conservative administration and faculty oriented toward the business community.

EX-112 11-16-32 94-410-3-92
The J. Edgar Hoover Foundation made its first scholarship grant to Southeastern in 1968 in the amount of \$1500. This was raised to \$3000 in 1969, and \$3500 in 1970.

Mr. C. D. DeLoach, former Assistant to the Director, called from Purchase, New York, where he is now Vice President of PepsiCo.

DeLoach advised he wanted to inform us regarding the actions of above subject in case they had not previously come to our attention. He said Don Kendall, President of PepsiCo, had received a letter from [redacted], a political writer for "Izvestia," the largest evening newspaper in the Soviet Union. Kendall had met him while visiting in Moscow with then Vice President Nixon, some years ago.

[redacted], in his letter, indicated he would be in the United States from December 15 to 20, 1970, and sought an interview with Kendall. He was to be accompanied, if interview was granted, by [redacted] Washington representative of "Izvestia." He said he was seeking interviews with other prominent Americans.

DeLoach said he did not yet know if Kendall would grant the interview, but wanted the Bureau to know in case we had any specific interest in the interview. I thanked him and told him the Bureau would not want to inject itself into the interview.

Bureau files indicate [] is characterized by foreign intelligence agencies as a KGB officer and [] is also reported to be a suspected Soviet intelligence agent. State Department has advised us [] is coming here to study internal problems in the U.S. and how they are being resolved. He is said to be a more balanced reporter than most Soviet writers. On this trip he hopes to obtain interviews with George Romney, Secretary of Housing and Urban Development; Herbert Klein of the White House staff; Governor Rockefeller of New York; and Mayors Lindsay, Daley and Alioto, of New York City, Chicago, and San Francisco, respectively. 65-54745-15

Dear Boss:

I have your letter of November 17, 1970, written to me in my capacity as Secretary to the Board of Directors, The J. Edgar Hoover Foundation, which suggests that the Board give consideration to increasing a scholarship grant to Southeastern University in 1971. 10

You may rest assured that your suggestion will be placed high on the agenda for the next meeting of the Board of Directors. The Board has been most enthusiastic in the past relative to grants to Southeastern University and has been particularly gratified over the personal response received not only from the President of the University but from the students who received the scholarship assistance.

It was kind of you to bring this to my attention.

In accordance with Mr. Tolson's instructions, Bishop telephonically advised Mr. DeLoach of a question received by the Bureau from Jack Nelson, reporter for the "Los Angeles Times," and the reply which was given to Nelson to the question. The question and answer are as follows:

5. We are informed that Cartha DeLoach, former assistant to the Director of the FBI, gave assistance on scripts for the show. Was he paid either by the producer or by the FBI Recreation Association fund? Who replaced him in that role after he retired from the FBI this past summer?

ANSWER: Former Assistant to the Director DeLoach retired from the FBI in July, 1970. He was, in fact, responsible for reviewing scripts for "The FBI" television series--which responsibility now is handled by Assistant Director Thomas E. Bishop. *LO*

To the FBI's knowledge, Mr. DeLoach received no payments of any kind from the producer of the television series. Mr. DeLoach did not receive any payments from the FBI Recreation Association in connection with "The FBI" show.

Mr. DeLoach stated that he had not been contacted by Nelson concerning this matter, that the reply furnished to Nelson by the Bureau was entirely accurate, and that Mr. DeLoach received no payments of any kind from either the producer of the FBI television show or the FBI Recreation Association in connection with the show.

Mr. DeLoach thanked Bishop for notifying him of the above matter and stated he would, of course, immediately advise the Bureau of any contact Nelson might make with him concerning a possible story on the FBI or the Director.

The Man Closest To FBI's Chief

By RONALD D. CLARK

Beacon Journal Metropolitan Editor

Few men know more about the FBI than Cartha "Deke" DeLoach.

And seldom has anyone been closer to the FBI's director, J. Edgar Hoover.

For those reasons, the Beacon Journal sought an interview with DeLoach, 50, when he was in Akron recently.

DeLoach retired last July after 28 years with the FBI, beginning as an

CARTHA DeLOACH

agent in the Cleveland-Akron area in 1942.

HE BECAME assistant director in charge of investigative activity in 1955, and served as acting director when Hoover was away.

Though he had been mentioned as a possible successor to the 76-year-old Hoover, DeLoach stepped out and took a job as vice president of PepsiCo Inc.

The question-and-answer interview follows:

Why did you retire? Did you believe you wouldn't be succeeding Hoover?

Frankly, I retired to try to better things for my family. I have a large family—seven children. My retire-

ment was strictly for financial considerations.

How much longer do you expect Hoover to serve as FBI chief?

As long as he can continue to do a good job and as long as remains satisfactory, I think stay on.

There are some who think should step aside for a young man.

Well, here again I think it entirely upon his health and ability to carry out the real bading conditions of the job. It is up to the President and Hoover.

Do you think the service in the past?

I certainly do not see any ration or breakdown.

Should there be a specific limit on the terms of future FBI directors?

It depends upon the man and the job he is doing. Why remove an experienced person when he is doing a very satisfactory job for his country?

How about a few questions concerning Kent State?

I would like to point out that when the FBI made its investigation, I was still in charge of FBI investigative activities. I am not at liberty to divulge the results of those investigations or what is in FBI files.

Justice Department statements about the Kent shootings?

No, I don't take issue with the findings of the Justice Department because the Justice Department findings were based on the FBI investigative reports. So far as I know, so far as I recall, the Justice Department decisions in the matter were based upon facts in the reports we submitted.

(The Justice Department concluded that the shootings "were not necessary and not in order." It also advised Ohio officials that six Guardsmen could be criminally charged.)

Can you place the KSU investigation in its historical perspective? Was it the largest of its sort ever carried out — in terms of manpower or other measurements?

I could not answer. Each FBI case is a case within itself. No one man ever handles a single case, and no one office ever handles a single case. For instance, the Martin Luther King assassination. It took us several weeks to solve the case. And in solving it we had almost every division of the FBI working on that case. So I can't say that Kent State was the biggest responsibility we've ever had. When you go back over the years, the cases I've seen, hundreds and hundreds of agents have been involved in various cases. The King case is a good example.

(Director Hoover has reported that the cost of the Kent State investigation, which produced reports containing over 8,000 pages, was \$274,100. A peak of 302 special agents were assigned to the case, and 6,316 hours of overtime were worked.)

Ramsey Clark, the former U. S. Attorney General, made the claim that the FBI lacks diversity, that its agents come primarily from the small segment of Americans whose racial background and ideology fit Hoover's concept of a loyal, reliable citizen. What's your reaction to that charge?

To my knowledge, the last survey I recall showed the FBI agents come from 625 different colleges and universities. There is considerable diversity within the FBI. It would have to be so because of the background of each individual agent. You have every race represented. You have almost, to my knowledge, every religion represented.

How many black FBI agents are there?

No one can say that a qualified black agent has been turned down for a job with the FBI. It's just not possible. We have a number of very fine black agents. I don't know how many there are at the present time, to tell you the truth.

What was the truth regarding the

dispute between Hoover and Bobby Kennedy over authorization for wiretaps? Did Kennedy know of them while they were going on and did he specifically request the one on Martin Luther King?

Well, I am in a retired status. I do not have files available to recheck the facts. I'll simply make this statement that the FBI as long as I can recall, and I am sure it is still the principle, did not wiretap or utilize any hearing devices unless they had the authority of the attorney general.

Do you see anything good in the activities or work of the Black Panthers?

I know of nothing good about any organization that is attempting to promote anarchy, and attempting to tear down our rule of law.

Do you feel, then, that the country would be better rid of militant organizations, such as the Black Panthers, or the SDS or the Revolutionary Action Movement?

I think that the judicial process of our country has taken care of that situation. A militant organization usually dies by its own hand. In other words, those who practice revolution, those who practice killing, burning, arson and false propaganda usually dissipate themselves. You can see that happening in our society today, to a great extent.

How extensive are FBI files and dossiers? There are some who believe the FBI probably has a file on anyone who has ever engaged in any type of extremist activity.

That's laughable. It has come up time after time after time. But the FBI files strictly are based upon legislation as handed down by the Congress and the will of the people. The people, of course, are responsible through the Congress for the legislation. The FBI opens a file only when there is a potential criminal violation committed or when a request is made on the part of the Congress, on the part of the White House, on the part of each administration to investigate individuals for appointments. The FBI could not possibly — considering manpower, considering expense involved — could not possibly open files on everyone. It is silly. It is ridiculous.

Then you don't see the FBI as contributing anything to a police state in this country?

The greatest accomplishment of the FBI is being a federal investigative force within a democratic framework and not violating the civil liberties of individuals. And when there have been mistakes made — and of course we are human and mistakes are made — they have been seized upon immediately. Personnel have been disciplined and corrective action has been taken.

No, I don't look upon the FBI to become a repressive force by any stretch of the imagination, because it's just physically impossible. There are too many checks and balances on the FBI. And the minute the FBI steps out of bounds — WHAM!

Would you feel the same way, or make the same statement, after Mr. Hoover leaves?

I think that most important appointments to the FBI should be chosen very carefully; and that the FBI should strictly stay out of the political realm. If the FBI is allowed to come under the control of politics or be administered by political supervision, then the previous investigations in files could be used for political blackmail and for many reasons. I don't think that this should ever happen. I think the government and the administration in force at any time has got to be very careful as to who should be appointed so that those files should be used only by the FBI and the Department of Justice in carrying out of judicial and legislative responsibilities.

Do I gather then that you feel the successor to Hoover should be someone within the FBI?

Someone in the department, or someone who has left within the past five or ten years, who is familiar with the procedures and who is dedicated to the procedures, and particularly the protection of civil liberties and the sanctity of the files.

Are there areas where you would like to see FBI power expanded?

No. To the contrary, I don't think the FBI jurisdiction should be expanded. When you have a large unwieldy organization, as the FBI could become, you could have more instances of misconduct, more instances of lack of supervision, and therefore a less efficient organization. There have been many recommendations that the FBI become more or less a police state agency, and this should never happen. This should never happen!

What can the average individual do to help fight crime?

He can do a great deal. He can see to it that his local and state governments respect the responsibilities of law enforcement; that his police officers are given proper salaries; that police officers are very carefully chosen. They can see that their police and fire departments have proper equipment, because you get exactly what you pay for. There's no doubt about it.

A CONFIDENTIAL LETTER TO CHIEF EXECUTIVES

230 PARK AVENUE, NEW YORK 10017

New York. February 24, 1971.
Volume VII. Number 8.
(In Two Sections)

Dear Sir:

COMPANY PRESIDENTS HAVE STAKE IN GOVERNMENT REVENUE CRISIS. Estimated \$14 billion spending increase planned by state, local governments this year. Nixon's \$229 billion fiscal 1972-73 budget calls for \$16.5 billion additional Federal expenditures. Corporate chief executives must convince Nixon Administration U.S. unable to afford "guns and butter" economy. Press for cutbacks in national defense budget, government payrolls. Urge end to unions' tax-exempt status. Private sector unable to sustain public sector at current rate of expansion. Increased taxes mean less jobs, depressed profits. Corporations, individuals now generate two-thirds of total \$285 billion Federal, state, local government revenues. No longer able to shoulder political programs promoted by "free loaders" like N.Y. Gov. Nelson Rockefeller, N.Y.C. Mayor "Hollywood John" Lindsay, Pittsburgh Mayor Peter Flaherty, San Francisco Mayor Joseph Alioto, Boston Mayor Kevin White.

Economy in government sole alternative to national bankruptcy. Current revenue crisis must force end to public sector's "free load" thinking. Future tax increases must come from privileged sectors of U.S. economy. E.g., tax-exempt foundations; industries with government subsidies (oil, minerals, agriculture); tax-free organizations. Shift of public sector's financial burdens from state, local levels to Federal government no solution. Federal government now accounts for over three-fifths (62%) of total revenue collections. Vs. 50% prior to World War II.

GAF'S JESSE WERNER MAKES CRITICAL BLUNDER. In proposal to acquire Cadence Industries' Perfect Photo division. Dissident stockholders to use acquisition agreement as evidence of GAF chief executive's questionable business judgment. \$15 million (plus liabilities) high price to pay for business worth estimated \$5 million. Jesse duped by Perfect Photo's 1970 turnaround after serious loss in 1969. Acquisition of "cut-rate" film processing labs won't help GAF's need to develop quality image in battle against Kodak.

STOCK LOAN CRUCIAL IN GEISMAR SUIT AGAINST REEVES. Reeves Telecom chairman Hazard Reeves holds notes for \$310,000 from former president Dick Geismar for personal sale of 20,000 Telecom shares at \$18 a share (stock now 3 1/8). Geismar's complaint demands return of notes plus \$50,000 downpayment. \$9-million-plus suit claims \$318,750 severance pay, \$350,000 compensation for worthless stock options (30,000 at \$23.125 a share), \$8 million for libel. Look for Dick to drop charges of libel, loss of options in return for cancellation of stock purchase, payment of severance.

CIGARET COMPANIES EYE POTENTIAL IN LEGALIZED MARIJUANA. National marijuana lobby makes progress toward legalization. Cigaret manufacturers make money accidentally from periphery businesses. E.g., Brown & Williamson's roll-your-own Laredo brand, American Brands' La Croix Wheat Straw, Riz La Croix cigaret papers. Industry can expect help from 18-year-old voters if legalization put to test in national ref-

OPPORTUNITY. Division general manager for New York Stock Exchange-listed company. Operations executive with consumer marketing experience preferred. Annual division volume \$8 million. Salary: \$35,000 plus options. . . . Director new product development for diversified multi-million dollar public company headquartered in N.Y.C. Executive responsible for creation, development of new products in consumer field. Salary: \$40,000 plus equity participation. . . . Write to Bernard P. Gallagher, 230 Park Avenue, New York, N.Y. 10017. In confidence.

"SALESMAN JERRY" FINKELSTEIN ON SPOT. Struthers Wells Corp. chairman privately persuades N.Y.C. Mayor "Hollywood John" Lindsay to abandon Republican party. Declare as Democrat. Jerry not in position to endorse Lindsay programs publicly due to job as head of N.Y.C. Democrats. National Democratic party chairman Larry O'Brien non-committal. Lindsay uses threat of party label change in strategy against Nixon administration. Finkelstein more loyal to party members than to Struthers Wells stockholders. Hired former LBJ press secretary George Reedy to head Struthers Wells R&D operation (George now with Woodrow Wilson International Center for Scholars). Listens to acquisition offers from former JFK appointments secretary Ken O'Donnell (Ken owns management consultant business in Boston).

WOMEN EXECUTIVES PRIME CANDIDATES FOR CORPORATE DIRECTORSHIPS. Particularly in consumer companies like General Electric, Procter & Gamble, Colgate-Palmolive. Minority stockholders expected to pressure corporate chief executives for female representation at board level in upcoming annual meetings. Women own over 50% of stock in public corporations. Houston Post chairman Oveta Culp Hobby director of General Foods, Mutual of New York. Among women executives qualified to serve as corporate directors of public companies: Beech Air Craft president Olive Beech, Dell Publishing president Helen Meyer, Maidenform president Beatrice Coleman, Trenton Trust Co. chairman Mary Roebling, columnist Sylvia Porter, Washington Post president Kay Graham.

AIRCO'S GEORGE DILLON ON BORROWED TIME. Air Reduction president reports 10% drop in net income from continuing operations in past year. Takes \$10.5 million loss on discontinued operations. 1970 net income down 61% to \$7.8 million on \$436 million sales. Southern Natural Gas Co. major stockholder (owns 345,200 shares of 11.3 million outstanding). Represented on Airco board by Southern Natural Gas president John Shaw Jr. Airco Temescal division president Hugh Smith holds 104,442 shares vs. Dillon's 11,000 shares. Airco ripe for acquisition. Company leading manufacturer of industrial gases, ferroalloys. Ohio Medical Products division makes anesthetic agents, medical gases, respirators for hospital use. Current market price Airco stock 23 1/4. Near book value \$22 per share.

ACTIVITY. Look for Nixon to appoint PepsiCo v-p C.D. "Deke" Deloache to succeed FBI chief Hoover. Deloache Hoover's former chief of staff. Offered PepsiCo job by Nixon crony & PepsiCo chairman "Frostbite Don" Kendall. . . . Earthquake to depress real estate values in Los Angeles area. Result in slowdown of California population's growth rate. . . . Nixon lawyer's lawyer. Runs country like law firm. Voters uncertain whether they are plaintiffs or defendants. . . . As predicted (GPR Feb. 10, 1971), Chase Manhattan president Herb Patterson announces new bank subsidiary in sub-urb. Garden City, L.I., location to be opposed by Long Island Trust Co. chairman Fred Hainfeld in Albany, Washington.

Very truly yours,

The Gallagher Presidents' Report, Inc.

Dear Mr. Hoover:

Although I'm certain you are deluged with mail from friends and supporters at this particular time, I did want to send you a copy of the PepsiCo annual report.

This was my first attempt in putting out a report of this nature in private industry. Quite naturally, I hoped to produce something different from what had been disseminated in prior years. The end result represents the values that accrue to any city, San Francisco in this instance, where our products and services are offered.

I'm rather proud of this report and hope you enjoy looking at it.

Mr. DeLoach called Bishop at 6:15 p.m., 5/12/71, to advise that he had been contacted by Richard Berlin of the Hearst Corporation on 5/12/71, who stated that he would like very much to have DeLoach sit down with one of the top writers of the Hearst Corporation for an in-depth discussion of the wiretap situation. He indicated that he was interested in finding out all that was possible concerning Bureau policy on wiretapping and electronic surveillance and that the interest of the Hearst Corporation was based on the recent criticism of the FBI, the Attorney General and the Department of Justice over wiretapping and electronic surveillance procedures. Mr. Berlin indicated that, following the discussion with Mr. DeLoach, an article would be prepared to be carried in Hearst newspapers throughout the country.

DeLoach indicated that he was not too enthusiastic about doing this, stating that he had been away from the FBI for almost a year and there possibly could have been some changes in our procedures since his departure. Bishop mentioned to DeLoach the fact that there had been requests from Capitol Hill for various and sundry Congressional committees to look into the matter of wiretaps and electronic surveillance, although it is not yet known if any of these committees will hold hearings. DeLoach stated he felt, in view of this, it would not be appropriate for him to discuss this matter with one of Hearst's writers for an article because, he stated, the possibility exists that he himself could be subpoenaed before one of these committees. Therefore, he advised, he will inform Mr. Berlin that he does not think it would be appropriate for him to discuss this matter with a Hearst writer. Bishop told him that it was up to him, but DeLoach stated that he felt it would be best if he did not discuss this topic.

MEMORANDUM FOR THE ATTORNEY GENERAL

PERS. REC. UNIT

Last evening former President Lyndon B. Johnson called me by long distance from his ranch home. He stated that he had just finished reading the article appearing in Newsweek for May 10, 1971, concerning me and containing an alleged statement by former President Johnson. He stated he was outraged at this statement attributed to him and which appears on page 32 of the May 10th issue of Newsweek reading as follows: "One insider says that Lyndon Johnson asked him (Hoover) to quit in favor of his then key-aide, Carlton DeLoach, but when Hoover resisted, LBJ gave up and shrugged to friends: 'I'd rather have the s.o.b. inside the tent p---ing out than outside the tent p---ing in.'" The former President stated that this is an absolute lie; that he had never had any thought at any time while he was President of replacing me with Mr. DeLoach nor anyone else and that he had made no such statement as attributed to him to anyone.

I told the former President that I knew what he said was true, but that he must realize that Newsweek is owned by Mrs. Graham, who owns the Washington Post and has the television outlet for CBS, all three of which media have been consistently attacking me for some years and that not only did I not believe the statement attributed to former President Johnson in the current article in Newsweek, but there were many other statements contained in that article which clearly indicate that it was a hatchet job and that he, former President Johnson, should not be concerned about the statement attributed to him because I knew when I read it that it was a lie.

Mrs. Lyndon Johnson also talked to me from the ranch last night and expressed similar feelings toward me as the former President had in making the call.

Respectfully,
J. EDGAR HOOVER

SUBJECT: CARTHA D. DE LOACH
RETIRED ASSISTANT TO THE DIRECTOR

Mr. DeLoach called Bishop on the morning of 5/14/71, and stated that the Jack Anderson column about the authorship by Mr. Hoover of 3 books has been brought to his attention. He stated that he realizes that this column is completely false. He stated that to his personal knowledge, no money whatsoever was received by Mr. Hoover from either "A Study of Communism" or "J. Edgar Hoover on Communism," and that all the proceeds of these 2 books went to the FBI Recreation Association. DeLoach stated he handled the details concerning these 2 books and knows this for a fact and would be willing to write a letter to Anderson concerning this matter or, if necessary, to testify to this at any court proceedings or before any Congressional committee.

Mr. DeLoach stated that he has no information concerning the disposition of the proceeds from "Masters of Deceit" because this book was written prior to his being in an assignment where he would know this, although he does have certain information in his possession concerning the disposition of the movie rights to this book.

Mr. DeLoach was thanked for calling and he was advised that his call would be brought to Mr. Hoover's attention.

By letter dated 6/9/71 (attached) SAC New Haven recommended captioned individual, former Assistant to the Director, be approved as an SAC Contact of the New Haven Office. SAC concluded his letter stating "The items 'A' through 'F' are thoroughly known to the Bureau and recorded there and are not being set out. As to Item 'G' I recommend he be designated an SAC Contact of the New Haven Office." With regard to this last paragraph the Director asked "What is he talking about?"

Part 2, Section 6 of the Manual of Instructions specifically sets out the procedure to be followed for a Field Office requesting an individual be approved as an SAC Contact. The information concerning the individual is set forth in a letter to the Bureau and if approved one copy of the letter is returned to the Field Office stamped "Approved." According to the Manual of Instructions the incoming letter from the Field must set out specifically information concerning the individual under alphabetical headings as follows:

- a. Description of proposed SAC Contact
- b. Services this contact can provide
- c. Past relations with field office
- d. Thumbnail sketch of known history
- e. Results of Identification Division check
- f. Derogatory information
- g. Recommendation of SAC

C

The above are the alphabetical headings referred to by SAC New Haven about which the Director made inquiry. The SAC apparently feels that the Items A through F are not necessary to set forth in the case of Mr. DeLoach, and with regard to Item G he recommends he be designated as an SAC Contact of the New Haven Office.

Dear Mr. Hoover:

I have, on a number of occasions, had a cordial exchange of correspondence with you.

I have not in the past told you much about my background. I will say solely for the purpose of identifying myself a little more clearly that I worked for the federal government more than 40 years following service in the Navy during World War I; I am a member of the Georgia Bar; being an attorney qualified me for legal positions and I retired from the government service as a Chief Member of the Board of Veterans Appeals; I have been a member of The American Legion more than 50 years; I have been a member of the Elks 49 years; a member of the Masons 44 years; I am a member of the Veterans of World War I; I belong to Sigma Delta Kappa Legal Fraternity; other organizations of which I am or have been a member are federal employee and retired employee associations; Veterans of Foreign Wars; State Bar of Georgia, etc.

You, no doubt, have seen the attached column. I concur in all the good things said about you. However, the time of your departure should be left to your own good judgement in which I have the greatest confidence.

With all good wishes, I remain

Sincerely,

Exit Open For Hoover?

WASHINGTON — A year or so ago, the conservative right wing went into full flap over Mr. Justice Douglas. The object was to impeach the gentleman and, if viewed solely on its merits, the object was splendid. But a few conservative tacticians, wiser than their eager brothers, privately offered some sage advice: Lay off.

The advice proved unavailing, but the point was sound. Whatever else may be said of him, Bill Douglas is a fighter. He would never quit under fire. The same advice might be offered today to professional critics of J. Edgar Hoover. The F.B.I. director ought to retire. If he were left alone for a while, he might do precisely that. But Hoover is tough; he is stubborn; he is proud; and he will die with his boots on before he lets it be said that the likes of Ramsey Clark hounded him out of his office.

Surely these elementary observations must have been pressed upon the scholars, lawyers, bleeding-hearts and weep-easies who convened at Princeton last weekend. Considering the respectable setting and sponsorship, one might have supposed that this "conference on the F.B.I." would exhibit at least the surface aspects of objectivity. Not so. This was a hanging jury. The conferees proposed to hustle old man Hoover to the gallows; they succeeded only in confounding themselves.

The Princeton consistory, according to Duane Lockhard, chairman of the university's department of politics, was sponsored chiefly by an "anonymous New York couple," who put up \$20,000. The left-lib Field and New World Foundations threw in \$5,000 apiece. A \$30,000 kitty emits a loud meow, and 55 cats came clawing.

In the van were members of the self-anointed "Committee for Public Justice," a marshmallow concoction cooked up a year ago by former Attorney General Clark, whose backbone Hoover once compared unfavorably to warm macaroni.

Trailing behind the committee's executive council were a ragtag band of professional Hoover haters — Robert Sherrill of the Nation magazine, Fred J. Cook, I. F. Stone and Walter Pincus. Other participants and paper-readers included a platoon of professors, attorneys, and disgruntled former agents of the F.B.I. This was a hatchet job, done by experts. The "anonymous couple," hiding in ambush, doubtless got their dirty money's worth. But will they get the old man? No, ϵ , Hoover will not budge.

And this is a pity. There is no man in public life, since the death of Harry Byrd, whom I have held in greater admiration than J. Edgar Hoover. He is the incorruptible head of an incorruptible bureau. To glance through his last annual report, released just a few weeks ago, is to share his pride in those "high standards of professional excellence and personal integrity" that he has exemplified all these years.

Yet there comes a time, all the same, when the swiftest runner outruns his fame, when there is nothing more to be gained and only luster to be lost. Hoover, at 76, has reached this point in his great career. He has won every accolade worth winning, including the enmity of the Princeton jackals. He has given his bureau every last ounce of dedication, leadership and inspiration. In the F.B.I., he has forged a superlative instrument for responsible law enforcement. What else remains?

These have not been happy times lately for the director. Recent months have produced a spate of resignations and forced transfers that have hinted of sagging morale within the bureau. Cartha D. DeLoach, once his No. 3 man, left in June of last year after 28 years with the bureau. The departure last month of William C. Sullivan has caused acute dismay among friends of the F.B.I., for Sullivan, a 30-year veteran, was highly regarded. It has been a painful thing to be forced to take sides.

The director understandably will disdain the voices of the liberal left. But he should know of the increasing concern on the conservative right. We want him to go, when he goes, with trumpets and laurels. He is risking the loss of them now.

Dear Boss:

I felt a tremendous surge of pride as I heard the news about the FBI's handling of the two recent "skyjackings" in the New York area. Many of my associates in the business world made very fine comments about this activity.

John Malone obviously handled the direction of the Agent personnel and the press in a skillful fashion. He and all of the Agents involved in these matters acted in a courageous, efficient manner that reflected the highest credit upon you and the FBI as a whole. Both of those cases represented positive investigative and public relations efforts of the highest order.

I wanted to congratulate you and the Bureau for this outstanding work.

C.D. DeLoach 5- [Signature]

On the afternoon of February 18th, John Armstrong, CBS News, Washington, D. C., contacted my office and spoke to Bland. Armstrong referred to a story concerning William Loeb, well-known newspaperman in New Hampshire, and former Assistant to the Director DeLoach concerning the question of wiretapping by the Department of Justice in the Hoffa matter. Armstrong said that it had been reported that some type of a money offer had been made to DeLoach for the Director if information would be supplied indicating that the Department of Justice under Attorney General Kennedy was involved in wiretapping in the Hoffa case. He said that he was familiar with the fact that affidavits by Loeb and DeLoach had been filed in U. S. District Court, Chattanooga, Tennessee, in early 1967. Armstrong asked for any comments the FBI might desire to make concerning this matter. He was advised that the FBI would have no comment.

DC Subsequently, late on the afternoon of February 18th, William Gailbraith of CBS News contacted my office and said that it was his understanding that former Assistant to the Director DeLoach had written two memoranda to Mr. Hoover concerning the reported offer of William Loeb of money in exchange for information concerning wiretapping. Gailbraith said that he wanted to make a specific request for copies of these two memoranda. He said that it was his understanding these memoranda were included in the files of the FBI. Gailbraith was advised that no information and/or memoranda would be furnished to him from the FBI's files, and that he was to clearly understand that this was not to be taken to infer that we do or do not have memoranda as requested by him.

Dear Mr. Demaris:

I have your letter of February 24, 1972, requesting an interview for the purpose of discussing an oral biography you are doing on the Honorable J. Edgar Hoover.

While I agree that Mr. Hoover's background is worthy of great attention by the American public, it has always been my understanding that Mr. Hoover has no interest in such a project. Along with this fact, my present travel and office schedule is simply not conducive to conduct of a lengthy interview.

I regret my inability to cooperate but trust that you will understand the situation.

Sincerely yours,

Dear Mr. DeLoach:

I am currently interviewing persons acquainted with Mr. J. Edgar Hoover for an oral biography of his life and times to be published by Farrar, Straus & Giroux in 1974, the year of his fiftieth anniversary as FBI director.

In terms of research, this is an enormously ambitious undertaking, one involving a complexity of data, but one that is uniquely suited to the new technique of oral history which aims to preserve the history of the recent past by collecting the thoughts and reminiscences of those who helped shape that history. Please be assured that this will be a definitive study, with the only bias being toward excellence.

All interviews will be transcribed and donated in bound volumes to the national archives for later use by historians. Naturally all restrictions of a confidential nature will be honored with a time seal.

I hope you will consent to an interview, at a time and place of your choosing, which can be arranged by mail or telephone--please call collect: (805) 687-3806. Thank you.

Sincerely yours,

Mr. Morgan called me at home on Sunday with the request that the following information be relayed to the Director. Morgan advised that he was leaving shortly for Dallas.

Morgan stated that he had conferred with Congressman [redacted] concerning the tax evasion and perjury charges which have been brought against the Congressman. By previous memorandum it was pointed out that a member of the firm of Welch and Morgan, one Charles McNelis, was to defend [redacted]. Morgan advised that he told [redacted] that his law firm would have absolutely nothing to do with [redacted] defense unless the attacks on the Director and the Bureau by [redacted] are stopped. [redacted] agreed but according to Morgan he insisted he has proof of some of the allegations he has made which proof involves Cartha DeLoach, Roy Cohn, Louis B. Nichols, and Lewis S. Rosenstiel, formerly of Schenley Industries. Morgan told [redacted] he was not interested in this and [redacted] his conditions would remain unchanged.

Mr. Cartha D. DeLoach, with PepsiCo, called me this morning and advised that he had heard that Jerry Daunt had submitted his application for retirement and he had always regarded Daunt as a valuable man. Since he had a vacancy for an assistant in his office, he has discussed the matter with Daunt since his retirement request and Daunt has indicated a willingness to go with PepsiCo. Mr. DeLoach said he needs somebody to appear before regulatory agencies in Washington and to appear before state legislative bodies which are considering legislation detrimental to the best interests of PepsiCo. He feels that Daunt is well qualified to handle such an assignment.

I told Mr. DeLoach very fran'ly that I thought Mr. Daunt had treated the Bureau shabbily in the manner in which he had submitted his retirement request, that the request in itself was very perfunctory and that he knew we were in the process of setting up a new division and the least he could have done was to stay and help get the division well on the road to success before applying for retirement.

Mr. DeLoach said he was sorry to hear that and he was not aware of this fact before he talked to Daunt and he had already made a firm commitment.

Mr. DeLoach reiterated that he is 100% on the side of the Director and the FBI and any time he can be of service or assistance that all we have to do is call upon him.

The foregoing is submitted for record purposes.

Dear Pat:

Just a note of congratulations from one Navy man to another. I know now that the FBI will be in shipshape and will have smooth sailing. The President's Physical Fitness Council has always been pleased with the FBI's physical fitness program. You are one of the few agencies that has an active program.

I have enjoyed meeting several of your personnel over the last few years; among them are Deke DeLoach and Don Hanning. I met both while vacationing in Acapulco at the Las Brisas Hotel. You will have to give that a try sometime; it's great. Don has kept me supplied with good speech material for my talks to young people. I also had the pleasure of talking at the FBI Communion Breakfast last December.

Best of luck in your new job.

Rectal examination reveals the prostate to be grade 1 size and consistency with no suspicious fixation or nodularity. Just lateral to the base on the right is a rounded, movable mass which is non tender and well encapsulated which probably represents a cystic seminal vesicle. The left seminal vesicle is palpable though neither indurated nor tender. The left vesicle is enlarged 3 x.

Impressions: 1) Normal prostate
2) Cystic seminal vesicles, bilateral, most marked on the right.

Recommend: Re-check in 3 months.

RADIOGRAPHIC REPORT	FILM NO. DATE OF REPORT 10-22-53

Re-examination of the chest by means of stereo views and comparison with the previous films reveals the density to be located in the right base and somewhat anteriorly. This appears to lie in the major lobar septum between the middle and lower lobes and may represent an area of pleural thickening. The possibility of a parenchymatous lesion still must be considered and a repeat X-ray in approximately one month for comparison with all the previous films would in this particular case be warranted.

recheck 1 month.

2/6/56 CHEST: There is a slight increased density superimposed on the anterior portion of the heart on the left lateral view. On the PA view this presents as slightly increased markings showing the heart. There are some slight increased markings in the left 5th anterior interspace also. These findings are minimal and equivocal. IMPRESSION: The impression is that of slightly accentuated markings in the lingula. On the lateral view, we get the impression that there is slight narrowing of the main stem bronchus on the left. However, this may be an artefact. Suggest stereoscopic views. GLL/hcb

Dear Mr. DeLoach:

In reviewing the results of your recent physical examination, there are two minor abnormalities I wish to call to your attention. First, you have a moderate hearing loss for high tones, bilaterally. As long as this is not causing you difficulties, I do not think anything further need be done. Secondly, you have a moderate elevation of your serum cholesterol (298 mg%, upper limits of normal is 250 mg%). I advise that you attempt to follow a diet, low in saturated fat, and am enclosing a booklet describing such a diet.

There were no other significant abnormalities noted.

I am enclosing a copy of the physical examination report for your personal records.

Sincerely,

[Redacted Signature]

Two weeks ago DeLoach lunched with L. Patrick Gray, the new FBI director.

"He's a different individual — he will not be another Hoover," DeLoach said, describing Gray as "religious, sincere, a disciplined Naval Academy graduate and a family man."

WHILE DELOACH will not comment on any expected policy changes the new director has not announced publicly, he is in favor of

CARTHA DEKLE DELOACH
Could have succeeded Hoover

some which he has, including the addition of women agents.

"We sometimes used secretaries as agents and they did fine work, especially in espionage and extortion cases," he said.

"After the case was over, they were secretaries again. Mr. Hoover felt women were not equipped for the arduous physical stresses — such as lying for hours in a cold ditch holding a gun, watching a suspect."

An hour with DeLoach leaves a listener regretting he probably is much too busy to write about his cliff-hanging cases.

HE GIVES agents the credit for solving such famous cases as the Jack Yablonski murder and the coffin-kidnaping of Barbara Jane Mackle. But in each DeLoach was the strategist, sitting in his office

with open lines, giving orders and making decisions for all the agents.

The search for the slayers of Yablonski, Pennsylvania mine workers leader and his wife and daughter, is one of his favorites.

"You make your own breaks," he said. "We had learned the murderers had first sat outside Yablonski's house drinking beer. Although heavy snow had fallen and several days had passed, the agents dug up the cans — and found fingerprints intact. Then FBI scuba divers found one of the weapons in deep water under a bridge, and Navy divers found another."

"ONE OF THE TOUGHEST cases was the assassination of Dr. Martin Luther King," DeLoach said, beginning a story that ranged over three nations and two continents, after a search among the FBI's 200 million sets of prints for identity of the one left on a rifle by James Earl Ray.

"Prints still have to be checked manually," he said. "The patterns are too diverse to be compared by computers."

That case "broke" on a homely note. DeLoach, after days on duty, was at home making breakfast pancakes for the children when the U.S. embassy in London called. Ray had been apprehended.

One of DeLoach's most challenging cases was the kidnaping of Miss Mackle, the Florida girl who was buried alive in a coffin in 1968.

"WE KNEW SHE WAS buried in a coffin, somewhere in a wide area. We knew the batteries would last only so long to keep her breathing. We had to find her before they failed."

When an agent finally detected the spot and the girl was found alive, DeLoach said her first words were a bonus added to his delight.

"It couldn't have been a better speech if I'd written it myself," he said. "It ended with — and I knew when they opened the coffin an FBI agent would be standing there."

DeLoach said he does not find private business dull in contrast with past adventures.

"There still is a crisis every minute," he grinned. "And the paycheck is better."

FBI's Former No. 2 Man Recalls Hoover's Iron Rule, Famous Cases

By DOROTHY MADLEE

Sentinel Staff

Fear, respect and a genius for timing and public relations were the keys to the late J. Edgar Hoover's power, says the man who could have become the FBI director's successor.

Cartha Dekle "Deke" DeLoach, who as the FBI's No. 2 man was in charge of all FBI investigative operations until he resigned two years ago, is visiting Walt Disney World this week with his attractive auburn-haired wife and three of their seven children.

"MR. HOOVER held the FBI in the palm of his hand," DeLoach said. "He passed personally every disciplinary case among the then 8,000 agents and 16,000 employees."

"He held absolute dominion over his men and their families. I had to call and brief him on all decisions I made in major cases."

"He was acutely aware that if public confidence in the FBI should dry up, our sources of information would dry up, too. Any action that embarrassed him or the service was a cardinal sin."

An infraction, or an error in judgment, such as a false arrest, might be punished by probation — without fringe benefits or pay raises — or a transfer to "a doghouse office."

DeLoach declined to name the cities most disliked by FBI agents.

DeLOACH, a Georgia native and graduate of Stetson University, joined the FBI in 1942. In 1959 he was named assistant director, in line for the top spot in the event of Hoover's death or retirement.

Now a pleasant-mannered, handsome man of 52, DeLoach smiles as he tells of a two hour, 47 minute conference in Hoover's office in July, 1970.

DeLoach had decided to accept his present job as vice president in charge of corporate affairs for the massive PepsiCo Corp.

"MR. HOOVER listened in his normal aloof, courteous manner," DeLoach recalled. "I explained at length that I had decided to take a position offered for several years by my old friend Donald M. Kendall, chairman of the board of PepsiCo."

"It took Don six years, but he got this man," I said. "Mr. Hoover seemed finally to accept my decision. Then, as I was leaving, he spoke."

"Well, Deke, if you ever decide to leave the FBI, be sure and talk it over with me first," he said.

"BUT — that's what I've been doing for two hours and 47 minutes," I replied.

"I thought you were the one man who wouldn't leave me," he said. He pouted for six weeks — wouldn't speak to me or route my mail — but later we became friends again. We had lunch together in New York a week before he died on May 2."

FBI's Former No. 2 Man Recalls Hoover's Iron Rule, Famous Cases

By DOROTHY MADLEE

Sentinel Staff

Fear, respect and a genius for timing and public relations were the keys to the late J. Edgar Hoover's power, says the man who could have become the FBI director's successor. Cartha Dekle "Deke" DeLoach, who as the FBI's No. 2 man was in charge of all FBI investigative operations until he resigned two years ago, is visiting Walt Disney World this week with his attractive auburn-haired wife and three of their seven children.

"MR. HOOVER held the FBI in the palm of his hand," DeLoach said. "He passed personally every disciplinary case among the then 8,000 agents and 16,000 employees."

"He held absolute dominion over his men and their families. I had to call and brief him on all decisions I made in major cases."

"He was acutely aware that, if public confidence in the FBI should dry up, our sources of information would dry up, too. Any action that embarrassed him or the service was a cardinal sin."

An infraction, or an error in judgment such as a false arrest, might be punished by probation — without fringe benefits or pay raises — or a transfer to "a doghouse office."

DeLoach declined to name the cities most disliked by FBI agents.

DeLOACH, a Georgia native and graduate of Stetson University, joined the FBI in 1942. In 1959 he was named assistant director, in line for the top spot in the event of Hoover's death or retirement.

Now a pleasant-mannered, handsome man of 52, DeLoach smiles as he tells of a two hour, 47 minute conference in Hoover's office in July, 1970.

DeLoach had decided to accept his present job as vice president in charge of corporate affairs for the massive Pepsico Corp.

"MR. HOOVER listened in his normal aloof, courteous manner," DeLoach recalled. "I explained at length that I had decided to take a position offered for several years by my old friend Donald M. Kendall, chairman of the board of Pepsico."

"It took Don six years, but he got his man," I said. "Mr. Hoover seemed finally to accept my decision. Then, as I was leaving, he spoke."

"Well, Deke, if you ever decide to leave the FBI, be sure and talk it over with me first," he said.

"BUT — that's what I've been doing for two hours and 47 minutes," I replied.

"I thought you were the one man who wouldn't leave me," he said. He pouted for six weeks — wouldn't speak to me or route my mail — but later we became friends again. We had lunch together in New York a week before he died on May 2."

Two weeks ago DeLoach lunched with L. Patrick Gray, the new FBI director.

"He's a different individual — he will not be another Hoover," DeLoach said, describing Gray as "religious, sincere, a disciplined Naval Academy graduate and a family man."

WHILE DELOACH will not comment on any expected policy changes the new director has not announced publicly, he is in favor of

CARTHA DEKLE DELOACH
... Could have succeeded Hoover

some which he has, including the addition of women agents.

"We sometimes used secretaries as agents and they did fine work, especially in espionage and extortion cases," he said.

"After the case was over, they were secretaries again. Mr. Hoover felt women were not equipped for the arduous physical stresses — such as lying for hours in a cold ditch holding a gun, watching a suspect."

An hour with DeLoach leaves a listener regretting he probably is much too busy to write about his cliff-hanging cases.

HE GIVES agents the credit for solving such famous cases as the Jock Yablonski murder and the kidnapping of Barbara Jane Mackle. But in each DeLoach was the strategist, sitting in his office

with open lines, giving orders and making decisions for all the agents.

The search for the slayers of Yablonski, Pennsylvania mine workers leader and his wife and daughter, is one of his favorites.

"You make your own breaks," he said. "We had learned the murderers had first sat outside Yablonski's house drinking beer. Although heavy snow had fallen and several days had passed, the agents dug up the cans — and found fingerprints intact. Then FBI scuba divers found one of the weapons in deep water under a bridge, and Navy divers found another."

"ONE OF THE TOUGHEST cases was the assassination of Dr. Martin Luther King," DeLoach said, beginning a story that ranged over three nations and two continents, after a search among the FBI's 200 million sets of prints for identity of the one left on a rifle by James Earl Ray. "Prints still have to be checked manually," he said. "The patterns are too diverse to be compared by computers."

That case "broke" on a homely note, DeLoach, after days on duty, was at home making breakfast pancakes for the children when the U.S. embassy in London called. Ray had been apprehended.

One of DeLoach's most challenging cases was the kidnapping of Miss Mackle, the Florida girl who was buried alive in a coffin in 1968.

"WE KNEW SHE WAS buried in a coffin, somewhere in a wide area. We knew the batteries would last only so long to keep her breathing. We had to find her before they failed."

When an agent finally detected the spot and the girl was found alive, DeLoach said her first words were a bonus added to his delight.

"It couldn't have been a better speech if I'd written it myself," he said. "It ended with — and I knew when they opened the coffin an FBI agent would be standing there."

DeLoach said he does not find private business dull in contrast with past adventures.

"There still is a crisis every minute," he grinned. "And the paycheck is better."

Dear Deke:

I have been carrying your letter with me for quite a few days and just want you to know that I appreciate very much your writing to me.

This is a magnificent organization of men and women, and I am just delighted to know that I will have your support in the days that lie ahead.

With regard to Don Whitehead's request for cooperation on a biography of Mr. Hoover, it is my understanding that Clyde Tolson felt only that Mr. Hoover's estate should be settled before papers from the estate could be made available to Mr. Whitehead, and consequently, that no work on a biography should be done now. I am informed that Mr. Whitehead had agreed to hold the project in abeyance pending action on the estate. If positions have changed, I am not aware of it. I believe, as you do, that a good, up-to-date biography of Mr. Hoover would be of value to America in presenting a true picture of one of its greatest citizens.

Honorable L. Patrick Gray
Acting Director
Federal Bureau of Investigation
Washington, D. C. 20535

Dear Pat:

Cartha D. DeLoach

I have wanted to drop you a note since our discussion on June 21, 1972, and the delightful dinner that evening with Dick and Marnie Kleindienst and our wives.

First, let me reiterate my statement made to you personally. I will be very happy to support you in any manner that I can. You obviously have an uphill struggle. I would have supported you regardless of whether or not we had personally conferred. The future of the FBI demands that all of those whose lives have been a part of the organization now either put up or shut up. The many fine people in the FBI deserve every bit of help they can receive.

I was quite disappointed to receive a note from Don Whitehead indicating that Clyde Tolson felt that cooperation should not be extended in the preparation of a book regarding Mr. Hoover's career. I feel very strongly that the true, factual story should be available on all high school and college library shelves. Otherwise, students of the present and future will have very little to choose from except outdated material or the poisonous creations of the Turners, Cooks, et al.

With reference to the latter "ax grinders," I was confronted recently by a reporter in Orlando, Florida, who was familiar with the bad utterances about the FBI, but apparently knew nothing good about the organization. I wasted approximately two hours of valuable vacation time trying to straighten her out, only to find several days later that the

very distortions I had tried to explain were picked up and used out of context by the Associated Press. I hope that by this time you have seen the entire article. It was some better. I mention this, not in any manner of an apology, but rather to prevent any incident which might have a bearing on our future friendship and relations. I would not want this to happen.

You will receive, in the near future, a box of one dozen Surlyn long-distance golf balls. This is a new product just going on the market. Our Wilson Division guarantees ten yards further distance than any ball on the market. They are also cut-resistant. I have sent Dick Kleindienst some, consequently, would hate for him to have an edge on you in future matches.

While law enforcement has nothing to do with my present responsibilities, I still enjoy having association with the profession. The Westchester County District Attorney's Office will have a meeting on organized crime at the facilities of our world headquarters in the near future. For the third time, a six-week police school will be held here early next year. Permission for all of these events is granted only with the understanding that the FBI either supervises or is a part of such proceedings. I always clear such matters with John Malone or Charlie Weeks.

Please call me any time I can be of assistance. I am always available to be of service to you and/or the FBI.

Sincerely,

Cartha D. DeLoach

You asked that you be supplied the facts on Mr. Tolson's refusal to cooperate on a biography of Mr. Hoover, and on Mr. DeLoach's statement to the press, both mentioned in Mr. DeLoach's letter of 7/17/72.

1. According to the attached memoranda, Mr. Tolson originally was favorably disposed toward cooperating with Mr. Whitehead on a biography, but changed his mind, indicating that he questioned the propriety of cooperating while Mr. Hoover's estate was still open. Our memoranda do not indicate that Mr. Tolson's decision is final, but only that he had doubts about the timing. It may be that there has been a more recent decision by Mr. Tolson of which we are not aware.

2. Attached is a copy of the UPI item about Mr. DeLoach's comments on the Bureau. We do not have a copy of the complete story he refers to in the letter.

3. Attached is a draft of a reply to Mr. DeLoach's letter. It does not mention the UPI story, as your guidance is required as to the proper response.

DON WHITEHEAD;
PROPOSED BIOGRAPHY
OF J. EDGAR HOOVER

Don Whitehead, author of "The FBI Story" and of "Attack on Terror: The FBI Against the Ku Klux Klan in Mississippi," telephoned today from his home in Tennessee to express his interest in writing a biography of the late Director J. Edgar Hoover. Mr. Whitehead said that he would not consider undertaking such a book without the FBI's approval; that, as was the case with his previous two books concerning the FBI, he would want the biography to be absolutely authentic--which would be possible only if the Bureau lent its cooperation in providing him background data concerning important incidents and events from Mr. Hoover's 48-year tenure as Director, as well as furnishing him the identities of persons close to Mr. Hoover over the years whom he should interview. Mr. Whitehead expressed the opinion that if an authentic biography of Mr. Hoover is to be written, it should be started while background data concerning him still is accessible and while numerous persons familiar with various phases of his life remain alive and available for interview.

Mr. Whitehead is, of course, extremely well known as a friend and supporter of the FBI. His book "The FBI Story," published in 1956, was a long-time best seller and, in 1959, was made into a movie. Mr. Whitehead was a war correspondent in North Africa and Europe during World War II and was awarded the Medal of Freedom in 1945 for his European combat reporting. He has won two Pulitzer Prizes--the first for his reporting on the Korean War in 1950, and the second for his coverage of President-elect Eisenhower's journey to Korea in 1952.

RECOMMENDATION:

That consideration be given to the Bureau's extending its cooperation to Mr. Whitehead in a biography on J. Edgar Hoover; and that this memorandum be returned to the Crime Records Division so that Mr. Whitehead can be appropriately advised.

DON WHITEHEAD
PROPOSED BIOGRAPHY
OF J. EDGAR HOOVER

By memorandum dated May 8, 1972, and captioned as above, I advised you that Don Whitehead, author of "The FBI Story," had telephoned from his home in Tennessee to express his interest in writing a biography of the late Director Hoover. My memorandum recommended--and it was approved--that consideration be given to the Bureau's extending its cooperation to Mr. Whitehead in this proposed biography.

RECENT DEVELOPMENT:

Mr. Whitehead arrived at the Bureau last Thursday, May 18, to discuss preliminary plans for researching and writing this biography. Among the Bureau officials with whom he conferred were Messrs. T. E. Bishop and J. P. Mohr. In addition, arrangements were made for Mr. Whitehead to see retired Associate Director Clyde Tolson, who had expressed a favorable attitude toward Mr. Whitehead's proposal to author Mr. Hoover's biography when he (Mr. Tolson) was contacted regarding this project earlier this month.

During Mr. Whitehead's visit with him on May 18, Mr. Tolson stated that as executor of Mr. Hoover's estate, he strongly questioned the propriety of his cooperating in any manner in a biography concerning Mr. Hoover prior to the time the late Director's will had been probated and proceeds of his estate distributed. Mr. Tolson noted that many months undoubtedly will elapse before these matters have been resolved; and during this period, he felt it would be improper for him to answer questions or otherwise furnish information orally to Mr. Whitehead--nor could he make available to Mr. Whitehead any papers which he (Mr. Tolson) felt belonged to the estate.

Following his interview with Mr. Tolson, Mr. Whitehead expressed the view that it would be best to hold in abeyance work on Mr. Hoover's biography in the hope that personal papers from the late Director's estate will become available at a future date and that more active cooperation of Mr. Tolson may then be obtained.

RE: DON WHITEHEAD PROPOSED BIOGRAPHY OF J. EDGAR HOOVER

Mr. Whitehead left Washington on Friday, May 19th. He telephoned from his home in Tennessee on Sunday night to reiterate his conviction that work on Mr. Hoover's biography should temporarily be held in abeyance. He expressed his continuing interest in authoring this biography at a future date.

RECOMMENDATION:

For information. Mr. Whitehead's interest in writing this biography should be kept in mind after final legal work on Mr. Hoover's estate has been completed.

★ Girls' State Okays Prostitution

The California Girls State mock legislature has approved a "bill" legalizing prostitution.

Gov. Sandra Dorsey, 17, of Sacramento, signed the measure in the closing session yesterday of the week-long session. The meeting was attended by 540 high school juniors from throughout the state.

The proposal calls for legalized prostitution with licensing and medical supervision.

Other bills approved by the girls were ones abolishing the winner-take-all primary system, requiring ethnic studies in secondary schools and allowing women to use Miss, Mrs. or Ms. on legal documents.—UPI

★ Hoover's Doghouse

A former FBI executive says J. Edgar Hoover, the late director, disciplined FBI agents who embarrassed him or the service by transferring them to so-called "doghouse" offices or placing them on probation.

Hoover held "absolute dominion over his men and their families," passing personally on every disciplinary case among 8,000 FBI agents and 216,000 employees, Cartha D. (Deke) DeLoach, a former special assistant to Hoover, said, confirming what Hoover's critics have contended.

Agents brought on Hoover's wrath, DeLoach said, through such actions as making a false arrest or other error in judgment. Those placed on probation also faced suspension of fringe benefits and pay raises, DeLoach said.

DeLoach, who retired from the FBI two years ago, declined to name the cities FBI agents considered "doghouse offices." He said Hoover believed that "any action that embarrassed him or the service was a cardinal sin."—AP

★ Yablonski Suspect in Danger?

Annette Gilly, who has pleaded guilty to murder in the Yablonski family slayings, may have to be moved for security reasons from the Pennsylvania farm where she is staying.

The Pittsburgh Post-Gazette says special prosecutor Richard Sprague has confirmed that news reports of Mrs. Gilly's whereabouts have caused the federal government to be concerned for her safety.

Mrs. Gilly is being kept under guard on a Fayette County farm in southwestern Pennsylvania at a cost to the federal government that would amount to about \$200,000 a year. Mrs. Gilly has turned state's evidence in the December 1969 slayings of United Mine Workers Insurgent Joseph A. Yablonski, his wife and daughter.—AP

Situational Ethics

Means — Chaos,

Says Legion Voice

By DAVE MACK

Cartha D. DeLoach, national chairman of the American Legion Public Relations Commission, was in Binghamton today to tell Legionnaires and their kin from throughout New York State to "stand up and be counted . . . again."

He arrived at the Veterans Memorial Arena in downtown Binghamton, replete with sheriff's cruiser escort and honor escort, prepared to tell the Legionnaires that the American economy and American honor and integrity are in perilous shape.

DeLoach, who forgoes Cartha for the nickname "Deke," is vice president for corporate affairs of PepsiCo, Inc., at Pepsi's worldwide headquarters in Purchase.

He went to the soft drink firm from the FBI, where he was assistant to the late J. Edgar Hoover, former director of the Bureau.

THAT JOB, he said, gave him a certain amount of insight into national policy and performance, and he has found that in recent years, our commitments overseas have been ignored while our bal-

ance of payments went to blazes.

And, he said, Americans are falling prey to a weakness of moral fibre to which he attached three names, all of them presumably synonymous: permissiveness, the theory of relativism, and situational ethics.

"What do we mean by this? Well, what I'm talking about is the logic that some people use in thinking that they can do anything if they think it to be all right. There is disregard for law and order," DeLoach said.

"We must observe law and order. This is no standard of conduct for the United States to maintain if we wish to maintain a free society."

ASKED WHAT the result of situational ethics is if that policy is carried to its ultimate end, DeLoach replied: "Anarchy."

He said he planned no com-

ment on Watergate or the recently revealed bugging of presidential conferences and telephone conversations in his speech, and declined to make any comment on either issue to reporters.

Regarding the position of the FBI in the scandals that have ripped the federal government in recent months, DeLoach said he does not feel that the image of the FBI has been tarnished.

"I think it's unfortunate that the FBI has been saddled with this situation.

"But, we have very strong people in the bureau. They will continue to function, regardless of who the new director is," DeLoach said.

HE SAID THE STRENGTH that will carry the bureau through any crises it may face was instilled by Hoover, who he said did an excellent job of encouraging the right spirit of law enforcement in his people.

He said Hoover was meticulous in attention to details of the law, and insisted on having the approval of the attorney general in any use of wiretapping.

Hoover, DeLoach said, would never have thought of making use of an unauthorized or illegal wiretap, and he instilled the same concern for the letter of the law in the thousands of employees of the FBI.

Former Assistant to the Director C. D. "Deke" DeLoach telephonically contacted the writer at 10:45 AM this date to advise that he was departing this afternoon for Argentina in connection with the captioned kidnapping. DeLoach further advised that a demand of a million dollar ransom has been made of Pepsi Cola in Argentina and the demand was recorded and cautioned that no notification to police or other authorities should be given.

DeLoach further advised that PEPSICO in Purchase, New York, has made no press release on this matter up to this point and did not know if and when this would be done. DeLoach further pointed out that PEPSICO has roughly a \$43,000,000 operation in Buenos Aires and they, of course, are anxious to secure the return of the manager safely by payment of the million ransom.

The purpose of DeLoach's call was to ascertain if it would be all right for him to contact our Legal Attache John J. Wachter, whom he knows, upon his arrival in Buenos Aires for the purpose of seeking guidance with respect to the habits of the country in the event it might be of assistance to him in connection with his visit but definitely not to involve the Bureau in this matter in Argentina indicating he was aware of the delicate nature of the situation in that country, but was not familiar at all with its customs, procedures and the like.

I have discussed this matter with Assistant Director Miller of the Intelligence Division and concur with him that we permit DeLoach to make contact with Wachter merely on a courtesy basis to steer him to the proper State Department officials with whom he should work in connection with this matter in Argentina and under no circumstances for Wachter to become involved in this matter himself.

Mr. Clarence M. Kelley
Director
Federal Bureau of Investigation
Washington, D. C. 20535

Dear Clarence:

I noted with some great degree of satisfaction your forthright statement on July 26, 1973, defending Mr. Hoover's administration of the FBI during his later years. I feel rather personal about the matter inasmuch as a slap at Mr. Hoover can also be taken as criticism of those of us who stood with him at that time.

In my almost twenty-nine years of service I cannot recall a single instance of an FBI representative deliberately shirking his duty in an investigation. It is preposterous to think that Mr. Hoover would have failed his trust because of friendship or petty desire.

Please also accept my congratulations on your appointment of Nick Callahan as Associate Director. Nick is a rock of loyalty and fine dedication. He is a "team man" with an excellent image.

DATE: 8/13/73

FROM : J. E. Herington

SUBJECT: WATERGATE

Committee

Cartha D. DeLoach

This morning at approximately 10 a. m. former Assistant to the Director Deke DeLoach called me and said that he had been contacted by Dan Thomasson of Scripps-Howard here in Washington, who said that he was part of a three-man investigating team made up of himself, a representative from the "Chicago Tribune" and a representative of Hearst Publications. DeLoach said they wanted to talk to him about the alleged use of the FBI for political purposes by the Johnson Administration. DeLoach said that although he hesitated to do so, he scheduled an appointment with them for 2 p. m. this afternoon. At 4:15 p. m. DeLoach called me again and said that he had talked to the three representatives in his office for about 25 minutes. He said he did not recall the names of the representatives of the "Chicago Tribune" or Hearst Publications.

DeLoach said they began the conversation by claiming that they knew that former Assistant to the Director William C. Sullivan had given John Dean memoranda he had typed himself alleging FBI political assistance to the Johnson Administration and that these memoranda had been turned over to the Ervin Committee. The reporters claimed that they had not seen copies of the memoranda. DeLoach said that although they made this disclaimer their line of questioning tended to indicate they knew what was in the memoranda and he did not know whether they had obtained this information from Sullivan, Dean or possibly former SA Harold P. Leinbaugh who now works in the White House or from some other source.

The reporters wanted to know if DeLoach had headed up a task force of FBI representatives at the Democratic National Convention in 1963 and he told them that he had gone to the Convention and that his purpose there was to assist in connection with Presidential security, working in conjunction with the Secret Service. In response to questioning he told them we had not usurped the work of the Secret Service but had been an adjunct to them in

furnishing security-type information, and in response to another question denied that any wiretapping or bugging had been used. They asked him why he had a private line from the White House and told them quite frankly that the President had tried to call him one evening and his daughter had been on the line for 18 1/2 minutes and the President ordered a private line be put in at once, which was done. He told them that his contacts with the President were as an official of the FBI who had the liaison responsibility with the White House and that most of his conversations with President Johnson involved civil disturbances, the progress of investigations regarding White House appointments and other official matters. He told them that he was not a social acquaintance of President Johnson, had not been invited to his daughters' weddings, and that his relationship was in connection with official business. He denied that any request had ever been made for assistance for political purposes and told them that if such a request had been made, Mr. Hoover and he also would have resigned.

They asked his affiliation with Nixon, Ehrlichman and Haldeman and he replied that he had met Ehrlichman once but had never met Haldeman. He told them that as far as he knew Nixon had never requested the FBI to do any FBI/political spying. They asked him if Sullivan had taken the wiretap records of the 17 individuals that ended up in the Ehrlichman safe from the Director's safe and DeLoach replied that he didn't know where Sullivan had obtained the records from. DeLoach told them that he knew nothing whatsoever about the 17 wiretaps.

They asked him specifically if he could comment on Sullivan's allegations claiming President Johnson had used the FBI for political purposes and he told them that the allegations were not true.

They asked him about his work for Nixon's last Presidential campaign and he told them of several activities he was involved in. *

DeLoach noted that Scripps-Howard, Hearst Publications and the "Chicago Tribune" have all been strong Nixon supporters. He did not know how they got put on to this line of questioning but he felt the purpose of their inquiries was to try to take some of the heat off the Nixon Administration by alleging other Administrations had also used the FBI politically.

SUBPOENA BY SELECT
COMMITTEE ON PRESIDENTIAL
CAMPAIGN ACTIVITIES

REC-8, EXT-4

Mr. Cartha D. DeLoach advised this Bureau that he has received a subpoena calling for his appearance before the Select Committee on Presidential Campaign Activities at 4:00 p.m. on October 3, 1973. Mr. DeLoach advised that he is aware of Attorney General Orders which require the prior approval of the Attorney General or his delegate for former employees to testify concerning material contained in the files of the Department of Justice or information relating to such material.

I understand that you have been designated by the Attorney General to handle the details concerning this matter. We request that you recommend to the Attorney General that Mr. DeLoach be instructed pursuant to Attorney General Order 501-73 that in responding to the subpoena he should not provide testimony concerning electronic surveillance matters because such matters relate to the national security interest. We recommend that Mr. DeLoach be authorized to testify in executive session concerning such other matters as may be within the jurisdiction of the Select Committee on Presidential Campaign Activities. In that regard we recommend that an appropriate attorney be designated to appear with Mr. DeLoach, not to act as his counsel but to represent the interests of the United States.

The FBI has not advised Mr. DeLoach concerning any limitations which should be imposed on his testimony. We request that such discussions with Mr. DeLoach concerning these matters as may appear to be necessary be conducted by an attorney of the Department of Justice representing the Attorney General.

The Attorney General

NOTE:

Mr. DeLoach was subpoenaed to appear before the Select Committee and requested advice as to what information he could furnish and whether he should have counsel from the Department of Justice.

On the evening of October 1, 1973, Mintz met with Assistant Attorney General Dixon, Gary Baise, Associate Deputy Attorney General, Leon Ulman, of the Office of Legal Counsel of the Department, and Harland Leathers and Irving Goldbloom of the Civil Division of the Department, concerning the questions of providing Mr. DeLoach with counsel and whether executive privilege should be claimed concerning his testimony. It was determined that the FBI should make recommendations to the Deputy Attorney General who would then make recommendations to the Attorney General concerning handling of this matter. On the morning of October 2, 1973, Mintz discussed this matter with Assistant Director Miller and Supervisor Thomas J. Smith of the Intelligence Division and it was determined that we should recommend Mr. DeLoach's testimony be limited only by prohibiting testimony concerning electronic surveillance matters. Following discussion with Mr. Callahan and Director Kelley on October 2, 1973, Mintz discussed this matter with Gary Baise, Associate Deputy Attorney General, who agreed to our proposal and requested this letter be prepared immediately.

Baise advised that the Attorney General had designated the Deputy Attorney General to handle this matter when it was discussed at a conference at 9:00 a.m. on October 2, 1973. Baise advised that there is a conference scheduled at 4:00 p.m. on October 2, 1973, at which time the Deputy Attorney General must furnish his report and recommendations to the Attorney General.

Cartha D. DeLoach

Dear Clarence:

I am long overdue in writing a letter to you regarding several matters.

First, my three hour testimony before the Watergate Committee. Senator Howard Baker (R-Tenn.), vice-chairman of the committee, and former special agent Don Sanders, now minority counsel, and a stenotypist were all that were present. The testimony was under oath and in executive session. The questioning was largely based upon five rambling memoranda furnished by former employee W. C. Sullivan to the White House allegedly at the request of Counsel John Dean. There was some semblance of truth to Sullivan's claims... enough to give rise to legitimate questions. For the most part, however, the allegations were obviously self-serving for Sullivan's insatiable desires at the time. I still am at a loss to understand how personal ambition can cause a person to try and wreak such harm on an organization he swore to uphold and protect for so many years.

REC-143

77-338728-550

Senator Baker was most thorough, courteous, and polite. Sanders was out to do his job. Following the advice and instructions of the then Deputy Attorney General Ruckelshaus, I attempted to answer every question with blunt honesty. Regulation #1622 was utilized only once, then pertaining to the usage of an electronic surveillance as authorized by the late former Attorney General Robert F. Kennedy. As you might anticipate, I could not confirm Sullivan's allegations that the FBI had been used as a 'political tool' by several administrations. To the contrary, the official color of every activity and the insistence that White House orders emanate from the President personally, not subordinates, was brought out. As you may readily understand, I am not at liberty to deal in specifics inasmuch as the testimony was in executive session. Otherwise, I would report to you in full detail.

Senator Baker, at the conclusion of the session, expressed appreciation and stated for the record that I had served as a forthright, excellent, witness. He added commendatory remarks for twenty-eight years of FBI service, and afterwards advised that no further testimony would be needed.

I mention this matter simply to bring my own personal appreciation to your attention. Both you and Nick Callahan most promptly called this matter to the attention of the Attorney General's office. Bill Ruckelshaus gave me very good advice and counsel. The Bureau stood back of me.

Secondly, the matter of a Pepsi-Cola employee being kidnapped in Argentina. In your absence, I discussed this matter with Nick Callahan telephonically. As a result, Legal Attache John Wachter, strictly consistent with the prescribed responsibilities of his office, rendered invaluable advice and counsel. Available facts have determined a possibility of the alleged victim's involvement. As a result, my company has refused to pay any ransom. Chairman Kendall and I are most grateful for the FBI's excellent assistance.

Thirdly, while perhaps presumptuous, I want to congratulate you upon the superb choices you have made in putting together a team at FBI Headquarters. Callahan, Miller, Jenkins, Frank, Jamieson, Adams, and Quinn, among others, are all top notch men of great loyalty and capability. You have obviously brought stability and hope to a fine group. Although "outside," I can't help but feel most happy about the Bureau's continued prestige and higher stock with the American public. You're certainly off to a fine start.

I would like to reiterate my offer to be of assistance to you personally or to the FBI at any time.

Best wishes and kind regards,

Sincerely,

Cartha D. DeLoach

[redacted] advised that Mr. Ackerman made routine inquiries concerning The American Legion's relationship with the White House including the appearances of Presidents at Legion functions and Legion resolutions supporting positions of various Administrations; however, in Mr. [redacted] opinion, the primary purpose of the interview was to determine whether The American Legion had hired buses to bring Legionnaires to Washington, D. Mr. [redacted] advised Mr. Ackerman that The American Legion had not brought any Legionnaires to the Capitol during the funeral and he also checked with neighboring departments and determined that they too had not sent any Legionnaires to Washington for the funeral.

Dear Clarence:

Yesterday I had the privilege of introducing Assistant Director John Malone to a large gathering of security officers, former Agents, and corporate heads at the annual seminar scheduled by the Westchester County Association in Tarrytown, New York. My purpose for being there was simply in the category of being a member of the board of directors of the Westchester County Association.

John spoke to approximately 200 of the above-named individuals and did an outstanding job. I am certain that the Bureau gained in reputation and prestige as a result of John's appearance.

It gives me a very warm feeling indeed to participate in such matters and to see the constant respect enjoyed by the FBI as a result of appearances such as the one made by John on this occasion.

I also wanted to take this opportunity to congratulate you and the Bureau on your recent successes in kidnapping cases. I am certain that the one in San Francisco will be handled in the same manner as the successful conclusion you have shown in recent cases.

17 WIRETAPS OPERATED FOR
THE WHITE HOUSE BY THE FBI
BETWEEN MAY, 1969, AND FEBRUARY, 1971

On June 14, 1974, the Deputy Attorney General advised Associate Director Nicholas P. Callahan that he had received information from Morton Halperin's attorney that he, the attorney, had noticed, in reviewing documents pertaining to the electronic surveillance on Halperin, that FBI logs indicated Halperin's telephone had been overheard on May 9, 10, and 11, 1969, whereas the Attorney General's approval for the electronic surveillance was dated May 12, 1969. The Deputy Attorney General requested clarification on this matter.

Interviews of present and past FBI employees who may be knowledgeable concerning this matter have been conducted. Attached are interview forms on the following individuals: Mr. John P. Mohr, former Assistant to the Director; Miss Helen Gandy, former Executive Assistant to the Director; Mr. William C. Sullivan, former Assistant Director and Assistant to the Director; Mr. Cartha D. DeLoach, former Assistant to the Director; Supervisor Courtland J. Jones, Washington Field Office, FBI; Supervisor James J. Gaffney, Washington Field Office, FBI; Mr. Ernest H. Belter, retired FBI Agent; Mrs. [redacted] Administrative Assistant to the Director; Miss [redacted] Administrative Assistant to the Director; and Miss [redacted] Administrative Assistant in the Office of the Director.

Our files contain a memorandum for the Attorney General dated May 12, 1969, captioned "Colonel Alexander M. Haig Technical Surveillance Request." This memorandum stated

The Attorney General

Haig came to the FBI on May 10, 1969, (Other information in our files indicates Haig talked to Mr. William C. Sullivan regarding the matter.) and stated a request was being made "on the highest authority" which involved a matter of most grave and serious consequence to our national security. The memorandum indicated Haig requested telephone surveillance be placed on Daniel Ira Davidson, Morton H. Halperin, Colonel Robert Pursley, and Helmut Sonnenfeldt. Approval for these electronic surveillances was obtained from Attorney General John Mitchell on May 12, 1969, and his signature and the date appear on page two of the memorandum.

We have no correspondence in our files showing any instructions to our Washington Field Office to place an electronic surveillance on Halperin on May 9, 1969, May 12, 1969, or any other date. As indicated in the attached interview of Mr. William C. Sullivan on June 15, 1974, he advised he had not instructed the Washington Field Office to institute an electronic surveillance on Halperin on May 9, 1969, either on his own authority or anyone else's. He was shown FBI logs showing an electronic surveillance on Halperin for the dates of May 9, 10, and 11, 1969. He stated he could furnish no information which would shed any light on how the coverage on Halperin could have been in effect for the above dates when the Attorney General's authority was not obtained until May 12, 1969. He stated his normal procedure was to telephonically contact Supervisor Courtland J. Jones of our Washington Field Office and to instruct him to initiate coverage. He stated he assumed this procedure was followed when he was advised the Attorney General had approved the coverage on May 12, 1969. He indicated that, although he probably had seen the logs on Halperin dated May 9, 10, and 11, 1969, he could not state on what date or dates he may have seen them. He acknowledged his handwriting appears on the May 10, 1969, log. He advised that in reviewing mail, he frequently read the contents thereof without paying particular attention to the dates.

As indicated in the attached interview of Supervisor Courtland J. Jones of our Washington Field Office, he advised that, to the best of his recollection, he received a telephone call from William C. Sullivan who related he was calling Jones because the Bureau wanted some special coverage conducted on

The Attorney General

the "highest authority." He stated Mr. Sullivan furnished him the names of several individuals on whom this coverage should be instituted, but Jones cannot recall the identities of these individuals. Jones is unable to recall the date or day of the week on which the call was received, but believes it was received sometime during the afternoon. He stated he presently has no written record regarding the above conversation with Mr. Sullivan. He advised that Mr. Sullivan's instructions were relayed to Supervisor Ernest H. Belter of the Washington Field Office.

As indicated in the attached interview of Ernest H. Belter, now retired, Belter advised that, while he has no clear recollection as to the specific time or date, sometime probably in the Spring of 1969 he was instructed by Supervisor Courtland J. Jones to effect electronic surveillances on Morton Halperin, a man named Sonnenfeldt, and a man named Davidson. He believes there was a fourth person named, but does not at this time recall the identity of the individual. He stated that, while he is unable to specifically recall the date or time he received his instructions from Supervisor Jones, he believes this initial request could well have been on a Friday, but reiterated he has no record to substantiate his belief. He does know that, after receiving the instruction from Supervisor Jones, he initiated the necessary action to effect a contact with the phone company. It is Mr. Belter's recollection that on the same afternoon positive information was received on the Halperin line.

Our records indicate that Mr. Hoover had dinner with President Richard Nixon and Attorney General John Mitchell on April 25, 1969, at Camp David, Maryland. Our records further indicate that Dr. Henry Kissinger met with Mr. Hoover at FBI Headquarters on the afternoon of May 5, 1969. As indicated in the attached interview of Mr. William C. Sullivan on June 18, 1974, he recalls being shown a memorandum by Mr. Hoover pertaining to a Camp David meeting, date unrecalled by Mr. Sullivan. According to Mr. Sullivan, the memorandum indicated that at the Camp David meeting President Nixon was disturbed about White House leaks of information and indicated something had to be done about it. According to Sullivan, the memorandum indicated Mr. Hoover told President Nixon he would do something

The Attorney General

about the White House leaks, but Mr. Sullivan indicated there was no reference in the memorandum to possible utilization of electronic surveillances. Mr. Sullivan stated that in this meeting with Mr. Hoover, Mr. Hoover did not ask him to do anything regarding the White House leaks.

Mr. Sullivan recalled seeing a memorandum regarding a meeting between Dr. Kissinger and Mr. Hoover in early May, 1969, but he could not recall whether the memorandum he saw had to do with the May 5, 1969, meeting. He recalled that the memorandum indicated Dr. Kissinger made a request of Mr. Hoover that certain wiretaps be put on to counteract White House leaks of information. Mr. Sullivan did not recall the names of any individuals mentioned. It is Mr. Sullivan's recollection that the memorandum showed that Mr. Hoover had told Dr. Kissinger that the FBI could initiate the wiretaps requested and that it would be done. Mr. Sullivan stated he has no recollection of having received any request from Mr. Hoover for any necessary action based on information set forth in the memorandum.

As indicated in the attached interviews of Mr. John P. Mohr, Miss Helen Gandy, Mrs. [REDACTED] Miss [REDACTED] and Miss [REDACTED] these individuals were unable to furnish any information regarding the memoranda referred to by Mr. Sullivan regarding the Camp David meeting and Dr. Kissinger's meeting with Mr. Hoover on May 5, 1969. Mrs. [REDACTED] [REDACTED] were the employees who handled all of Mr. Hoover's dictation. b6

CURRENT FBI ANALYSIS

Essentially, it appears that two basic questions should be answered concerning the 17 wiretaps placed between May, 1969, and February, 1971, in connection with leaks of highly sensitive national security information from the White House. The best way to resolve the questions would be to produce unassailable documentary evidence. However, an exhaustive search of FBI records has been made, and the documents needed to provide the solution cannot be located.

The Attorney General

Therefore, since the best evidence, i.e., complete documentation, cannot be located, we feel that a professional analysis of the available facts is the next best way of helping to resolve the issues. Our analysis does not cover the basic issue of whether the wiretaps were properly and legally placed, based on the constitutional powers of the President and the state of the law at the time. Our previous legal analysis has fully convinced us that the wiretaps were legal.

Our professional analysis then is concerned with (1) the issue of who actually initiated the wiretaps; that is, who actually suggested, requested, or ordered the installation and use of the wiretaps; and (2) the issue of why the Morton Halperin wiretap was evidently installed on May 9, 1969, whereas the Attorney General authorization was not effective prior to May 12, 1969.

First, and foremost, all available FBI records available for analysis and review are the records recovered from the White House May 12, 1973, after they had been turned over to former Assistant Attorney General Robert C. Mardian by former Assistant to the Director William C. Sullivan in the Summer of 1971. The FBI has no record of what records were turned over to Mr. Mardian by Mr. Sullivan; therefore, we have no way of knowing whether we did, in fact, retrieve all of the records originally turned over to Mr. Mardian. This is mentioned, not in any sense as an accusation that some of these records may have been removed prior to their return to FBI control, but only as one of the many unknown factors in trying to arrive at a logical conclusion as to the facts.

All of those records retrieved from the White House have been carefully reviewed, and it is not possible to establish with any degree of certainty the role Dr. Kissinger played in the initiation of the wiretaps. The initial document recording the request by the White House for the wiretaps states that the request was made personally by then Colonel Alexander M. Haig of Dr. Kissinger's Office, and Colonel Haig stated this request was being made on "the highest authority." This immediately

The Attorney General

suggests that the President, not Dr. Kissinger, was the initiator of the request.

One memorandum, a personal memorandum from Mr. Sullivan to Mr. Hoover, dated May 20, 1969, records that Dr. Kissinger reviewed logs of the first four wiretaps in Sullivan's office and told Sullivan that he (Kissinger) wanted the coverage to continue for a while longer on the first four names, to which would be added new ones. This memorandum also recorded that Dr. Kissinger stated "It is clear that I don't have anybody in my office that I can trust except Colonel Haig."

We understand that Dr. Kissinger has indicated he attended a meeting between the President, Attorney General, and J. Edgar Hoover on May 9, 1969, or previous to that time, concerning the very serious matter of leaks of national security information from the White House. Supposedly, the matter of wiretaps was discussed at that meeting, perhaps with Mr. Hoover suggesting this technique as one means of discovering the source of the leaks. We know that no such meeting occurred on May 9, 1969, since the President and Dr. Kissinger were in Key Biscayne, Florida, on that date while Mr. Hoover was in Washington.

A review of Mr. Hoover's appointment book and logs of his telephone calls and personal meetings in his office (copies attached hereto) reveals that Mr. Hoover had dinner with the President and the Attorney General at Camp David on April 25, 1969. There is no information available to indicate Dr. Kissinger was present, although he may well have been.

Mr. Hoover's daily log reveals the President telephoned him at his home at 6:55 p.m., May 2, 1969. Subsequently, at 12:05 p.m., May 5, 1969, Colonel Haig of Dr. Kissinger's Office called and left a message, since the Director was out at the time. At 1:12 p.m. Colonel Haig called the Director's telephone room and confirmed an appointment for Dr. Kissinger. At 3:55 p.m. and 4:10 p.m., Dr. Kissinger's Office called to advise that

The Attorney General

Dr. Kissinger would be a little late. At 4:27 p.m. Dr. Kissinger met with Mr. Hoover, and at 4:43 p.m. Mr. Hoover attempted to reach Assistant Director William C. Sullivan.

The events surrounding the meeting at Camp David on April 25, 1969, and Dr. Kissinger's visit to Mr. Hoover's office on May 5, 1969, following a telephone call from the President on May 2, 1969, tend to support the theory that Mr. Hoover had possibly discussed the very serious matter of White House leaks with the President, the Attorney General, and Dr. Kissinger. Such being the case, the matter of wiretaps being a valuable tool in the investigative effort to pinpoint the source of the leaks logically would have come up. We know that the then Attorney General John N. Mitchell had been somewhat critical of the restrictive attitude of former Attorney General Ramsey Clark concerning the use of wiretaps. We feel, therefore, that Mr. Mitchell would have certainly been amenable to the suggestion for use of wiretaps.

Mr. Hoover's attitude respecting the use of wiretaps has traditionally been a negative one. FBI records are replete with evidence of his repugnance for use of wiretaps, and it is, therefore, highly unlikely that he would have initiated a suggestion for their use in this case. We think, however, if the President and the Attorney General had voiced an opinion that wiretaps were in order, Mr. Hoover would not have opposed them in any way. In absence of any documentary evidence, however, the FBI cannot supply facts concerning the conversations that might have taken place where Mr. Hoover took part concerning the suggestion, proposal, or recommendation that wiretaps be used.

With respect to specific documentation regarding Mr. Hoover's meeting with the President and Mr. Mitchell at Camp David on April 25, 1969, and his subsequent meeting with Dr. Kissinger on May 5, 1969, an effort was made to determine if Mr. Hoover had made any record of these meetings. Mr. Hoover's personal Executive Assistant of many years, Miss Helen W. Gandy, felt in her own mind that Mr. Hoover would have dictated a record of those two meetings since he always carefully recorded important meetings and discussions. She does not now recall that he did prepare such records. Upon interview, as related above, secretarial personnel could not recall preparing memoranda relating to these two meetings.

The Attorney General

Since Mr. W. C. Sullivan played a key role in this matter, he has been interviewed at length concerning his recollection of the sequence of events and the facts surrounding the use of wiretaps in this case. Results of his interviews are attached.

Mr. Sullivan advised that he did not instruct the Washington Field Office to initiate electronic surveillance coverage on Halperin on May 9, 1969, either on his own authority or anyone else's. He stated his normal procedure was to telephonically contact a specific supervisor in the Washington Field Office and instruct him to initiate coverage after specific authorization had been obtained.

However, logs of the wiretap on Morton H. Halperin reveal the first call monitored was at 6:20 p.m., May 9, 1969. This fact then raises the second important question; i.e., "when was the wiretap (at least on Halperin) actually requested, and who authorized it?"

Washington Field Office personnel were interviewed at length, and pertinent Agents were unable to recall sufficient facts to resolve the question. The coordinating supervisor, who does recall having been instructed by W. C. Sullivan to have the first wiretaps installed, cannot now recall the date or the identities of those wiretapped. He thought Mr. Sullivan furnished him the names of several individuals on whom coverage was to be instituted but could not recall identities of those individuals. As a matter of record, however, the other three wiretaps (besides Halperin) were not monitored prior to May 13, 1969, even if they were installed prior thereto.

The Special Agent who handled the technical work could recall only that the request came possibly on a Friday and that he worked late that evening to insure that the correct line was being monitored so that he would not have to come in the next day. He does not recall the day of the month, but May 9, 1969, was on Friday.

While it is recorded that the first wiretap, the Halperin wiretap, was initiated on May 9, 1969, the question as to who ordered (or requested) it is still unresolved. We do know, however, that on May 9, 1969, a series of telephonic

The Attorney General

discussions took place between Mr. Hoover and Dr. Kissinger concerning the seriousness of the leaks, and specifically about a leak appearing in a New York Times article by William Beecher on May 9, 1969. Dr. Kissinger declared that this particular leak was extraordinarily damaging and used secret information. Dr. Kissinger asked that the FBI use whatever resources were needed to find out who was responsible.

Mr. Hoover posed the problem to his executive staff and through appropriate contacts information was developed concerning three possible suspects in connection with the leaks. These suspects were (Morton) Halperin, (Lawrence?) Eagleburger, and Ivan Selin. All three were connected with the National Security Council, and all three were acquainted with William Beecher, author of The New York Times article referred to by Dr. Kissinger.

Halperin and Selin had reportedly gone to school, possibly at the same time as Beecher, at Harvard University. Beecher reportedly had a roommate at Harvard undergraduate school who was then (in May, 1969) a staff member of the National Security Council. This information was telephoned to Dr. Kissinger by Mr. Hoover at about 5:05 p.m., May 9, 1969. Insofar as Mr. Hoover and the FBI were concerned at that point, Halperin, Eagleburger, and Selin were all good possibilities as suspects in the leaks. However, and this is a most significant point, only Halperin was targeted for a wiretap. We cannot conceive of Mr. Hoover or anyone else in the FBI making a unilateral decision to wiretap Halperin to the exclusion of the other two logical suspects.

This leads to a somewhat logical conclusion that during the discussion between Mr. Hoover and Dr. Kissinger beginning at 5:05 p.m., Dr. Kissinger made the decision to wiretap Halperin but not the other two. If such were the case, Mr. Hoover would have immediately instructed (probably W. C. Sullivan) to institute the wiretap on Halperin, and this would account for the Washington Field Office Agent's recollection of staying late to have the wiretap installed and working so he would not have to come in on Saturday, possibly May 10, 1969.

The Attorney General

The Director's daily log does not show that Mr. Hoover made a call to Sullivan following the 5:05 p.m. call to Dr. Kissinger. However, if Mr. Hoover used his direct line to Sullivan, such call would probably not have been logged.

The records retrieved from the White House reveal that on May 10, 1969, Mr. Sullivan tried to contact Mr. Hoover at his home and, being unsuccessful, left a message with Miss Gandy for Mr. Hoover. Sullivan related that Colonel Haig had visited him on the morning of May 10, 1969, and made certain requests concerning a colonel at the Pentagon. Sullivan said that he did not want to move on this until he had gotten Mr. Hoover's approval, and "they" did not want anything in writing.

This record supports the theory that as of May 10, 1969, not all of the original four wiretap requests had been previously requested since it would appear that the colonel in the Pentagon referred to above was probably Colonel Robert Pursley, one of the four initially wiretapped in this case.

We can offer no explanation as to the reason why the memorandum to the Attorney General dated May 12, 1969, in which the first four wiretaps were requested and approved did not set forth the fact that one of the wiretaps had already been initiated on May 9, 1969. If the theory is correct that Dr. Kissinger made the request for the wiretap during the conversation at 5:05 p.m. on May 9, 1969, it would have been logical under the circumstances to state in the memorandum that the request had been made for the wiretap on Halperin on May 9, 1969, and that, because of the urgency and source of the request, it had been initiated on the basis of expected authorization by the Attorney General on the following workday (Monday, May 12, 1969).

It can be speculated also that when the request was made late in the day (Friday) May 9, 1969, Sullivan had no reasonable expectation that the installation could be made prior to May 12, 1969, since it would be difficult to get the installation made on the evening of May 9, 1969, or during the weekend. This does not account for failure of the May 12, 1969, memorandum to state that the Halperin request was made

The Attorney General

May 9, 1969, instead of May 10, 1969, as set forth. However, in the haste to get the memorandum to the Attorney General, a shortcut in the administrative language could have occurred. In other words, in the preparation of the memorandum, it would have been much simpler to set forth that all of the wiretaps were requested by Colonel Haig on May 10, 1969, than to go into the more complicated details of one being requested May 9, 1969, by Kissinger and the others on May 10, 1969, by Colonel Haig.

The only other possibility is that Colonel Haig and W. C. Sullivan independently worked out the details early on May 9, 1969, and Sullivan bypassed Mr. Hoover on the Halperin request on May 9, 1969, ordering it without advance clearance from either Mr. Hoover or the Attorney General.

In any of these considerations, it must be remembered that, according to Sullivan's first memorandum on the subject dated May 11, 1969, he wrote that Colonel Haig had stressed that the matter was so sensitive that it demanded handling on a need-to-know basis, with no record being maintained. He said in fact, that if possible it would be desirable to have the matter handled without going to the Department of Justice; although Sullivan was told that the Attorney General was aware in general terms of the main elements of the security problem.

Here we have a request for a reversal of our normal operating procedures relating to wiretaps. Ordinarily, the FBI initiates the request for the wiretap. It is the FBI seeking authority under constitutional power of the President to install the wiretap, and the Attorney General, acting for the President, grants or denies that authority.

But in the case of the wiretaps in question, these were being requested from authority higher than the Attorney General; i.e., being requested in the name and office of the Presidency, which is the source of authority.

The Attorney General

It can, therefore, be stated that these wiretaps for and on behalf of the White House required no additional authorization or approval of the Attorney General. Therefore, the various memoranda to the Attorney General were merely a device to insure that the FBI was not acting unilaterally. Can the President instruct the Director of the FBI to install a national security wiretap without consulting the Attorney General? Our answer was that we believed he had the authority and we acted on that belief.

Many of the nagging questions could undoubtedly be answered, at least in part, if records could be located of Mr. Hoover's visit to Camp David, his telephone conversation with the President on May 2, 1969, and his meeting with Dr. Kissinger on May 5, 1969. We have not located these records. However, as noted in the attached report of interviews of Mr. Sullivan, he recalls reading memoranda relating to a Camp David meeting probably on April 25, 1969, and a meeting with Dr. Kissinger probably on May 5, 1969.

Mr. Sullivan recalls that subsequent to Mr. Hoover's meeting with the President at Camp David on April 25, 1969, Mr. Hoover showed him a memorandum he prepared concerning the meeting and told Sullivan that this memorandum would never leave his (Hoover's) office. According to Sullivan, this memorandum dealt with three main topics: (1) Then Deputy Attorney General Richard Kleindienst was pressing Mr. Hoover to testify before Congress on the FBI's electronic surveillance activities in general. Mr. Hoover was very much opposed. (2) The matter of the White House leaks was discussed, and the FBI was urged to do something about the problem. Mr. Hoover promised that the FBI would do something. (3) Criticism of Mr. Hoover was discussed, although Mr. Sullivan does not recall the nature of the criticism.

Sullivan also recalls that after Mr. Hoover's meeting with Dr. Kissinger on May 5, 1969, he saw a memorandum concerning the meeting with Dr. Kissinger. Sullivan said this memorandum recorded the fact that Dr. Kissinger had requested Mr. Hoover to utilize certain wiretaps in an effort to stop the leaks. However, Sullivan could not recall the names of any individuals mentioned.

The Attorney General

Unfortunately, Mr. Hoover's daily log does not show that Mr. Sullivan was in Mr. Hoover's office anytime between April 25, 1969, and May 31, 1969. However, in light of Mr. Sullivan's statement, the possibility should be considered that the daily log is not infallible.

Sullivan's recollection of the subject matter of the two memoranda described above is somewhat supportive of Dr. Kissinger's reported recollection of discussions prior to May 9, 1969, concerning the use of wiretaps in efforts to stop the leaks.

All of the evidence we have developed points to the fact that there was active collaboration between White House and FBI officials, including the President, Dr. Kissinger and then Colonel Haig, Mr. Hoover, Mr. Sullivan, and other FBI representatives in the attempt to identify and plug the leaks of extremely sensitive national security information. The White House obviously realized that in order to detect these leaks, which were coming from the very highest levels in the White House, extraordinary measures were necessary to prevent our investigative efforts from being exposed and neutralized. This factor, which in itself was a major problem, had to be considered along with the politically explosive factor of public reaction and opinion if the use of wiretaps against White House personnel and others were to be exposed.

By the same token, Mr. Hoover's reluctance to use wiretaps and his longstanding policy of requiring prior Attorney General authorization before wiretaps were used, may have been an annoyance to those in the White House who felt they were an important investigative tool. Couple this with W. C. Sullivan's personal philosophy that Mr. Hoover's wiretap policy was too restrictive and add the ingredient of the White House supporting his philosophy, rather than the restrictive Hoover policy, and the problems of misunderstanding and administrative mishandling are created. This entire analysis is dependent on the simple premise that the wiretaps were legal and proper and that whether Kissinger or the President or J. Edgar Hoover initiated them is irrelevant so long as the President approved of their use and/or was aware in advance of their proposed use and authorized them. We believe that Presidential approval was granted in advance, regardless of how it may have been expressed or given.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription June 17, 1974

Mr. Cartha D. DeLoach, 96 Perkins Road, who is a former Assistant to the Director of the Federal Bureau of Investigation, was interviewed by Inspector James J. Dunn, Jr., and Inspector Gerald D. Coakley regarding his recollection of the circumstances surrounding the initiation of electronic surveillance (ELSUR) coverage on Morton Halperin in May, 1969. The identities of Inspectors Dunn and Coakley as members of the Inspection Division, FBI Headquarters, were made known to Mr. DeLoach at the outset of the interview.

A copy of a memorandum from W. C. Sullivan to Mr. C. D. DeLoach dated May 11, 1969, and captioned "Colonel Alexander M. Haig, Technical Surveillance Request," together with a copy of a memorandum for the Attorney General dated May 12, 1969, captioned "Colonel Alexander M. Haig, Technical Surveillance Request," were shown to Mr. DeLoach. The May 12, 1969, memorandum indicated that on May 10, 1969, Colonel Haig, who was assigned to the staff of Dr. Henry A. Kissinger, had come to the Bureau and requested that a telephone surveillance be placed on four individuals including Morton Halperin.

He stated he has no recollection of having issued instructions to the Washington Field Office of the FBI to initiate ELSUR coverage on Morton Halperin or any other individual. He stated that in his capacity as Assistant to the Director of the FBI, he had occasion to review correspondence dealing with electronic surveillance coverage. He stated that if he received any correspondence indicating that an ELSUR had been approved by the Attorney General, he would route the mail back to the FBI Headquarters Division which had initiated the request.

Mr. DeLoach was shown copies of ELSUR logs dated May 9, 10, and 11, 1969, which set forth results of the ELSUR coverage on Morton Halperin. He stated that he had not seen these logs or any other logs pertaining to the ELSUR coverage on Halperin.

He stated he was aware of the concern expressed by the White House over leaks based on memoranda prepared by Mr. Hoover; however, he stated that the results of the ELSUR coverage based on the White House request

Our files contain a memorandum for the Attorney General dated May 12, 1969, captioned "Colonel Alexander M. Haig, Technical Surveillance Request." This memorandum stated Haig came to the FBI on May 10, 1969, (Other information in our files indicates Haig talked to Mr. William C. Sullivan regarding the matter.) and stated a request was being made "on the highest authority" which involved a matter of most grave and serious consequence to our national security. The memorandum indicated Haig requested telephone surveillance be placed on Daniel Ira Davidson, Morton H. Halperin, Colonel Robert Pursley, and Haimut Sonnenfeldt. Approval for these electronic surveillances was obtained from Attorney General John Mitchell on May 12, 1969, and his signature and the date appear on page two of the memorandum.

We have no correspondence in our files showing any instructions to our Washington Field Office to place an electronic surveillance on Halperin on May 9, 1969, May 12, 1969, or any other date. As indicated in the attached interview of Mr. William C. Sullivan on June 15, 1974, he advised he had not instructed the Washington Field Office to institute an electronic surveillance on Halperin on May 9, 1969, either on his own authority or anyone else's. He was shown FBI logs showing an electronic surveillance on Halperin for the dates of May 9, 10, and 11, 1969. He stated he could furnish no information which would shed any light on how the coverage on Halperin could have been in effect for the above dates when the Attorney General's authority was not obtained until May 12, 1969. He stated his normal procedure was to telephonically contact Supervisor [redacted] of our Washington Field Office and to instruct him to initiate coverage. He stated he assumed this procedure was followed when he was advised the Attorney General had approved the coverage on May 12, 1969. He indicated that, although he probably had seen the logs on Halperin dated May 9, 10, and 11, 1969, he could not state on what date or dates he may have seen them. He acknowledged his handwriting appears on the May 10, 1969, log. He advised that in reviewing mail, he frequently read the contents thereof without paying particular attention to the dates.

The Attorney General

As indicated in the attached interview of Supervisor [redacted] of our Washington Field Office, he advised that, to the best of his recollection, he received a telephone call from William C. Sullivan who related he was calling [redacted] because the Bureau wanted some special coverage conducted on the "highest authority." He stated Mr. Sullivan furnished him the names of several individuals on whom this coverage should be instituted, but [redacted] cannot recall the identities of these individuals. [redacted] is unable to recall the date or day of the week on which the call was received, but believes it was received sometime during the afternoon. He stated he presently has no written record regarding the above conversation with Mr. Sullivan. He advised that Mr. Sullivan's instructions were relayed to Supervisor Ernest H. Belter of the Washington Field Office.

b6

As indicated in the attached interview of Ernest H. Belter, now retired, Belter advised that, while he has no clear recollection as to the specific time or date, sometime probably in the Spring of 1969 he was instructed by Supervisor [redacted] to effect electronic surveillances on Morton Halperin, a man named Sonnenfeldt, and a man named Davidson. He believes there was a fourth person named, but does not at this time recall the identity of the individual. He stated that, while he is unable to specifically recall the date or time he received his instructions from Supervisor [redacted], he believes this initial request could well have been on a Friday, but reiterated he has no record to substantiate his belief. He does know that, after receiving the instruction from Supervisor [redacted], he initiated the necessary action to effect a contact with the phone company. It is Mr. Belter's recollection that on the same afternoon positive information was received on the Halperin line.

b6

In the attached interview of Mr. William C. Sullivan on June 18, 1974, he recalls being shown a memorandum by Mr. J. Edgar Hoover pertaining to a Camp David meeting. Mr. Sullivan does not recall the date this occurred. According to Mr. Sullivan, the memorandum indicated that at the Camp David meeting President Nixon was disturbed about White House leaks of information and indicated something had to be done about it. According to Sullivan, the memorandum indicated Mr. Hoover told President Nixon he would do something

The Attorney General

about the White House leaks, but Mr. Sullivan indicated there was no reference in the memorandum to possible utilization of electronic surveillances. Mr. Sullivan stated that in this meeting with Mr. Hoover, Mr. Hoover did not ask him to do anything regarding the White House leaks.

Concerning the meeting at Camp David referred to by Mr. Sullivan, Mr. Hoover's appointment book contains an entry showing that Mr. Hoover had dinner with the President and The Attorney General at Camp David on Friday, April 25, 1969. The appointment book contains no other clarifying information. A copy of the pertinent page of the appointment book is attached hereto.

Mr. Sullivan also recalled, during his interview on June 18, 1974, having seen a memorandum regarding a meeting between Dr. Kissinger and Mr. Hoover in early May, 1969. He recalled that the memorandum indicated Dr. Kissinger made a request of Mr. Hoover that certain wiretaps be put on to counteract White House leaks of information. Mr. Sullivan did not recall the names of any individuals mentioned. It is Mr. Sullivan's recollection that the memorandum showed that Mr. Hoover had told Dr. Kissinger that the FBI could initiate the wiretaps requested and that it would be done. Mr. Sullivan stated he has no recollection of having received any request from Mr. Hoover for any necessary action based on information set forth in the memorandum.

Concerning the meeting between Mr. Hoover and Dr. Kissinger in early May, 1969, Mr. Hoover's daily logs of telephone calls and personal meetings contain an entry showing that Dr. Kissinger met Mr. Hoover in Mr. Hoover's office at 4:27 p.m., May 5, 1969. No other such meetings were recorded during early May, 1969. The daily logs also show that the President telephoned Mr. Hoover at his home at 6:55 p.m., May 2, 1969. The logs show contacts between Dr. Kissinger's office and Mr. Hoover's office during the day May 5, 1969, in connection with an appointment for Dr. Kissinger. The logs also record that immediately following the meeting between Mr. Hoover and Dr. Kissinger at 4:27 p.m., May 5, 1969, Mr. Hoover attempted unsuccessfully to telephone Assistant Director W. C. Sullivan at 4:43 p.m.

The Attorney General

As indicated in the attached interviews of Mr. John P. Mohr, Miss Helen Gandy, Mrs. [redacted] Miss [redacted] and Miss [redacted], these individuals were unable to furnish any information regarding the memoranda referred to by Mr. Sullivan regarding the Camp David meeting and Dr. Kissinger's meeting with Mr. Hoover on May 5, 1969. Mrs. [redacted] Miss [redacted] and Miss [redacted] were the employees who handled all of Mr. Hoover's dictation.

b6

An exhaustive search was made of all FBI records in an effort to locate the two memoranda referred to by Mr. Sullivan concerning the Camp David meeting and the meeting between Mr. Hoover and Dr. Kissinger in early May, 1969. However, no trace of these documents could be found. Documents such as these, if related to the use of wiretaps concerning the White House leaks at that point in time should have been filed along with similar documents, such as the five memoranda prepared by Mr. Hoover on May 9, 1969, concerning his exchange of telephone conversations with Dr. Kissinger on that date. The May 9, 1969, memoranda were among those turned over to Mr. Sullivan's care by Mr. Hoover and which were subsequently turned over by Mr. Sullivan to Mr. Robert C. Mardian, former Assistant Attorney General, in the Summer of 1971.

The May 9, 1969, memoranda, with other related documents, were recovered by the FBI from the White House May 12, 1973, where they had been in the custody of Mr. John D. Ehrlichman. The two memoranda referred to by Mr. Sullivan, concerning the Camp David meeting and the early May, 1969, meeting between Mr. Hoover and Dr. Kissinger, were not among the documents recovered and inventoried on May 12, 1973. The FBI has no inventory or record of documents turned over to Mr. Sullivan by Mr. Hoover, nor do we have an inventory or record of documents turned over to Mr. Mardian by Mr. Sullivan.

With respect to the date and time of installation of the first four wiretaps installed in connection with this case, the only available records we could check which could establish this are the logs of the wiretaps. These show that the wiretap on Morton H. Halperin could not have been installed later than 6:20 p.m., May 9, 1969. The wiretap on Ira Davidson could not have been installed later than May 13, 1969, although the time of day is not known. The first recorded time

The Attorney General

of day is 9:30 a.m., May 14, 1969. The wiretap on Robert Pursley could not have been installed later than 6:05 p.m., May 13, 1969. The wiretap on Helmut Sonnenfeldt could not have been installed later than May 13, 1969, although the time of day is not known. The first recorded time of day is 11:01 a.m. on May 14, 1969.

A thorough review has been made of all pertinent FBI records and interviews have been conducted of current and former FBI personnel who would have been knowledgeable concerning the matter. However, no information has been located which would explain the fact that the wiretap was installed on Morton H. Halperin on May 9, 1969, whereas the record states it was not authorized until May 12, 1969.

The memorandum of Mr. Hoover dated May 9, 1969, at 5:05 p.m., revealed that Mr. Hoover gave Dr. Kissinger the names of (Morton) Halperin, (Lawrence) Eagleburger, and Ivan Selin. Mr. Hoover indicated that, based on contacts the FBI had made, leaks to William Beecher as reported in his article in the New York Times on May 9, 1969, could have come and probably did come from a staff member of the National Security Council. Mr. Hoover told Dr. Kissinger that Beecher, while at undergraduate school at Harvard University, reportedly had a roommate who was then a staff member of the National Security Council.

Mr. Hoover told Dr. Kissinger that Halperin, Eagleburger and Selin were all acquainted with Beecher. Wiretaps were never installed on either Eagleburger or Selin. This particular memorandum is the only document closely related to the time the Halperin wiretap began to log conversations at 6:40 p.m., May 9, 1969. It does not, however, discuss in any way the matter of wiretaps.

The Director's daily log of telephone calls and personal meetings does not show that Mr. Hoover made a call to Mr. Sullivan following the 5:05 p.m. telephone call on May 9, 1969. However, if Mr. Hoover used his direct line to Mr. Sullivan, such call would probably not have been logged.

The Attorney General

The Director's daily logs of telephone calls and personal meetings do not show that Mr. Sullivan was in Mr. Hoover's office any time between April 25, 1969, and May 31, 1969. However, in light of Mr. Sullivan's statement concerning having seen memoranda relating to Mr. Hoover's Camp David meeting and his meeting with Dr. Kissinger in early May, 1969, the daily logs should not be considered infallible.

DeLoach DC.

Mr. DeLoach called the writer this morning at 10 AM to report the fact that he had received a call from J. Bromley Smith who was Foreign Affairs Advisor during the Johnson Administration. Smith advised DeLoach that he had received a call from ~~Ron Kessler~~, Washington Post Reporter and Kessler told him that DeLoach's testimony in executive session before the Watergate Committee had been leaked to the Washington Post. Kessler indicated that the testimony included the fact that President Johnson had used the FBI for personal intelligence reasons. He indicated that President Johnson had instructed the FBI and DeLoach had carried out the errands and responsibility to find out if Vice President Agnew had called, while he was making a campaign trip in 1968, Clare Chenault in Washington concerning the South Vietnamese situation on the war. Kessler told Smith that the FBI had put a surveillance on Chenault and put a wiretap on as a result of Agnew's call. He, DeLoach thinks Kessler is lying indicating that in DeLoach's testimony it reflected the name of J. Bromley Smith and DeLoach said he did not mention Bromley Smith in the testimony. DeLoach didn't recall whether the Bureau's files reflect this that the President did call either Mr. Hoover or DeLoach that the National Security Agency had received a call that the Ambassador of the United States in Vietnam that Chenault had called him and urged him to keep the South Vietnamese from going to the peace talks until after the election of Nixon and Humphrey. She told him it would be a feather in Nixon's cap if the South Vietnamese did not go to Paris peace talks until after the election. Actually Kessler's entire pitch was that President Johnson was using the FBI for personal intelligence and DeLoach did not think there was a leak in his testimony before the Watergate Committee because the only people there were the Republican Minority Counsel, Senator Baker and the stenotypist and he dictated the complete details of this because he checked with Ruckelshaus and he approved DeLoach appearing. DeLoach indicated in his testimony he did not indicate that Agnew called Mrs. Chenault from Albuquerque since the facts as he recalled them was that Agnew did not make any calls; his personal staff made the calls, none of them to Mrs. Chenault, some to New York. No wiretaps placed on Agnew or Nixon just the toll calls from Albuquerque back to Washington. Miss Gandy's files may or may not reflect this information.

DeLoach said he did not intend to answer *phone* calls from Kessler and if stopped on the street by a reporter he would say no comment. He indicated his secretary advised him that Kessler had called him at 10 AM. DeLoach said that Kessler had called Bromley Smith early this morning and Smith refused to make any comment saying it was a classified matter he refused to comment.

It is true that we all are spending considerable time

Mr. Clarence M. Kelley
Director
Federal Bureau of Investigation
9th Street & Pennsylvania Avenue, N. W.
Washington, D. C. 20535

Dear Clarence:

I have had an opportunity to review a copy of your remarks made before the Pittsburgh Chapter of the Former Special Agents of the FBI on June 10, 1975.

I wanted to applaud your excellent and courageous statements, particularly those on pages five and eleven. Your reference to condemnation of the FBI for activities and techniques of years ago--as in the Counter Intelligence Program, without considering basic objectives to halt violence and protect the innocent--was certainly most timely and a statement that should be utilized in defense of the Bureau by every ex-Agent.

Although my past is continually rising up and striking me in the face (just as today I have been subpoenaed to give a deposition at the American Civil Liberties Union offices in a case involving Morton Halperin vs. Henry Kissinger) I find that a brief recital of the facts, germane to the case involved, usually clarifies an issue without further difficulty. While I hope that the American public will eventually cause the current era of "condemnation" to cease and desist and let all of us get on with our work, I nevertheless wanted to take a moment to write and express gratitude for your fine comments in Pittsburgh.

With kindest regards,

Sincerely,

Cartha D. DeLoach

BEFORE THE

PITTSBURGH CHAPTER OF THE
FORMER SPECIAL AGENTS OF THE
FEDERAL BUREAU OF INVESTIGATION

PITTSBURGH, PENNSYLVANIA

JUNE 10, 1975

ENCLOSURE

67-338721-556

I am privileged to be your guest this evening,
and I truly appreciate your kind invitation.

I feel I am among friends and kindred spirits.

There are people here in whose lives the FBI
has played a vitally important role, as it has in mine.

You know the FBI.

You know that it has foibles and idiosyncrasies,
just as any big, robust organization has. But you know
also that when these foibles and idiosyncrasies are swept
aside, the indisputable truth remains that the FBI in which
you served has for decades excelled as an investigative agency.

You know that Fidelity, Bravery and Integrity are not merely words on the FBI seal. You know from personal experience that the FBI in which you served in fact practiced those principles.

And though the FBI occasionally is being chewed up in the public forum these days, I'm here to tell you the FBI still practices the principles of Fidelity, Bravery and Integrity.

Those principles are the enduring bedrock upon which the FBI has been built, by people such as you. And no tempests of ill-founded criticism, no matter how viciously they may rage, can destroy that tradition.

Skepticism and cynicism seem to be in vogue today where government is concerned. And perhaps the skeptics and cynics would scoff at the mention of Fidelity, Bravery and Integrity in the same breath with a government agency -- particularly an agency charged with intelligence responsibility.

And in this climate of suspicion of government, the FBI is under the most intense scrutiny it has ever experienced.

No less than nine Congressional committees and subcommittees have expressed keen interest recently in the FBI's operations.

Last month we received an average of 57 requests each work day for records from FBI files under the Freedom of Information Act alone.

Now aside from the problems of trying to preserve the confidentiality of our files in order to function effectively as a law enforcement agency, I have no apprehensions about this surge of interest in the FBI's operations.

We fully intend to open all the doors it is possible to open to facilitate legitimate inquiry into our agency's work.

The FBI has always served the people, and the people have a right to know what we are up to.

And I am confident that when all the questions are resolved, when all the resounding rhetoric has echoed its last, and the facts are made known, the FBI will emerge exactly as you and I know it -- an agency that does in fact practice the principles of Fidelity, Bravery and Integrity.

That may sound sentimental or naive; but I don't believe sentimentality or naivety has biased my judgment.

But what about these idealistic words, Fidelity, Bravery and Integrity? Well this is how I perceive their relevancy to the FBI's role in our society today.

I maintain that the FBI practices fidelity to the law -- laws governing its operations, laws it is charged with enforcing.

You know from your own experience that from the moment a new FBI Agent enters training, the Agent is taught to adhere not only to the letter, but to the spirit, of the law. You know, also, there were administrative penalties for failure to do so, inadvertently or not.

An example that comes to mind is our insistence on advising suspects of their rights long before the Miranda Decision -- a practice for which the late Supreme Court Justice Warren commended us.

Fidelity, as translated into terms of tradition, means also fidelity to our country, the people we serve, fidelity to humanitarian principles.

Some say we show fidelity to the wrong laws, that we support our country when our country is wrong. They say the FBI's fidelity is not to all the people, that it favors a select few.

They say our interpretation of fidelity to humanity and humanitarian principles is boiler plate and bureaucratic, oblivious to the urgent wants and views of the people.

Well, perhaps fidelity cannot always be clearly defined and assessed to everyone's satisfaction.

But I say our fidelity should be judged, insofar as this can be accomplished, by applying the permanent benchmarks of laws and court interpretations of them.

It is patently unfair to judge us by faddish standards, transitory trends and the changing seasons of fashionable opinions.

Honest and fair judgments of our fidelity must be based on solid, enduring truths and timeless principles.

We happily submit to judgments on that basis, and are optimistic of the outcome.

But to condemn the FBI for activities and techniques of years ago -- as in the counterintelligence programs -- without considering our basic objectives -- to halt violence and to protect the innocent -- is to condemn us without a fair hearing of all the factors, without a showing that our intent was wrong.

If there is a malicious or Machiavellian motive behind any investigative policy of the FBI, I certainly am not aware of it.

I do not believe our Bureau in the past, present or future has, or will, violate its commitment to fidelity as good, honest people interpret it.

Surely, we may err. Surely, on occasion our performance may not seem up to standard. Never, however, shall we compromise fidelity to escape criticism or avoid confrontation. Never shall we defer to an easier course because the hard but proper one is fraught with public relations problems.

And I sincerely believe that the history of this organization, examined objectively and honestly, supports characterization of the FBI as an agency devoted to true fidelity.

The second word in our FBI acronym -- Bravery -- needs no apology.

Never in my career have I heard the bravery of our Agents challenged. Even when we have come under withering fire from our critics there have been no justifiable slurs on the bravery of the men and women of the FBI. It has been demonstrated time and time again, well documented and firmly established.

From 1966 through 1974, FBI Agents have found themselves fighting for their lives and, in some cases the lives of innocent bystanders, in 147 gun battles. Twenty Agents were wounded and five were killed.

Last year 143 FBI Agents were assaulted while performing official duties. The year before, 173 were assaulted.

Permit me to turn now to the principle of Integrity.
Integrity means many things.

But to me integrity means, above all else,
honesty -- honesty beyond mere truthfulness.

We in the FBI could answer the many inquiries we have received recently literally and truthfully, but not necessarily be completely honest. The point is, we do not do so. We have not hedged. We've engaged in no games of semantics and literal interpretation.

For example, in our responses to inquiries regarding the FBI's counterintelligence programs, we have given more than was asked, knowing that we were exposing our chests for our critics' harpoons.

Sure enough, the harpoons rained down upon us.

Nevertheless, in accordance with the principles of integrity, we have honestly and fully answered all questions as they have arisen, and we have provided more than was demanded.

Another aspect of integrity, as it relates to the FBI, is dedication -- long an FBI tradition and a potent force in the Bureau today.

One of the vitally important things the FBI has done magnificently through the years is to recruit outstanding personnel.

The FBI would never have achieved excellence in fulfilling its myriad responsibilities without dedicated, intellectually qualified people -- people with conscience and character, people who understand and subscribe to the highest ethics and morality.

In the final analysis, it is the Agent who knocks on doors, interviews people and reviews endless records, the Agent who chases down and places the handcuffs on the kidnaper and bank robber, who has given substance to the FBI's tradition of excellence.

And though the Agent remains anonymous as far as the public is concerned, though the Agent rarely receives public accolades, it is the dedicated Agent who enables the FBI to excel.

We know that integrity must be demonstrated. We can proclaim our integrity from the rooftops, but unless we manifest integrity in our performance, we are as sounding brass or a tinkling cymbal.

Fully realizing the need to assure that our performance remains top flight, we have in the past several months engaged in many studies of our operations and have made some beneficial changes.

In our management-by-objectives program, we establish priorities for each fiscal year. In the 1976

fiscal year, for example, we are targeting organized crime to reduce its impact on the American people. We are also going to hammer away at white-collar crimes.

We are beefing up our efforts in fulfilling various other investigative responsibilities and providing cooperative services to other law enforcement agencies.

We have revamped our executive advancement policies as a result of extensive study and refinement of our career development program.

The new system is designed to provide clearcut career avenues for exceptionally able and competent employees so they may advance to supervisory positions.

As you well know, the FBI is first and foremost an investigative agency. Studies are underway to evaluate the effectiveness of our investigations. These studies focus on ways to streamline and make more effective our investigative efforts in areas such as major cases. The team concept is one of the things we are examining. The Atlanta and Philadelphia offices are serving as pilot offices in this study.

Also, we are taking a good look at the possibility of providing computer service to field offices to help fill their investigative and computer needs. This would be accomplished through decentralized computer centers.

Although in the final analysis, sustained integrity in any organization must come from within the people who make it function, the value of a just disciplinary and inspection system has been well demonstrated. Such a system continues in the FBI.

The vital nature of the FBI's responsibilities does not permit us to make any assumptions regarding integrity. And I feel we must keep our agency wieldy.

And one of the key responsibilities of leadership is to perpetuate and stimulate integrity. From integrity flows many beneficial things.

Let me cite an example.

During my twelve-year sabbatical with the Kansas City Police Department I found a coterie of fine people. I continuously reminded them of my pride in their integrity and performance, and it was gratifying to see their own pride burgeon.

Their pride seemed to act as a catalyst. Pride was demonstrated in their work. Among other things, they more readily accepted change. I don't mean change for the sake of change, nor change that compromises principle; but change for the betterment of the organization, change to make us more facile, more capable of overcoming problems rather than building around them.

In closing let me emphasize that the FBI continues to serve the American people with Fidelity, Bravery and Integrity, always our hallmarks.

Some scoff. Some vilify. But fair-minded people will agree that the FBI has served this nation well and continues to do so.

I want you to know that as Director I am proud of my associates. I consider them loyal to the traditions of efficiency and professionalism you and others like you established years ago.

We may be maligned, misunderstood and occasionally victimized by grandstanders and demagogues. And though we may never be universally loved, no one can dispute the FBI's achievements as an investigative agency. These achievements were made possible by legions of men and women -- people like you -- who exemplified Fidelity, Bravery and Integrity.

And I am confident that, as former Agents and friends, you share my pride in the FBI of today. Your support in the past is most appreciated. And I'm certain our performance in the future will be such that you will not hesitate to continue to support us.

Thank you.

**U. S. SENATE SELECT COMMITTEE
ON INTELLIGENCE ACTIVITIES (SSC)**

Mr. Cartha D. DeLoach, former Assistant to the Director, was deposed by and furnished information to the SSC on November 25 and 26, 1975. He was represented by personal counsel during these interviews. He has advised this Bureau that his busy personal schedule precludes his furnishing us the details of the interviews, either in written or oral form. In this regard, he indicated that he has found annoying the considerable demands placed on his time by the SSC resulting from the interviews as well as his appearance at public hearings of the SSC. DeLoach did, however, voluntarily furnish this Bureau the following observations about the interviews which I thought would be of interest to you.

DeLoach described the interview of him on November 26, 1975, as a "star chamber proceeding." A total of eight SSC Staff personnel plus one senator participated in the questioning of him. DeLoach particularly found Staff Member [] to be "extremely vicious" in his questioning and DeLoach also used the terms "accusatory" and "denunciatory" in describing [] manner. As an example, DeLoach advised that [] told him that the FBI disclosed, by way of reference, the one-time existence of a particular memorandum from DeLoach to Mr. J. P. Mohr, another former FBI official. [] told DeLoach that the SSC had been trying to obtain a copy of the memorandum from the FBI but that the FBI had been unable to locate it although exhaustive efforts had been made to find it.

SENATE SELECT COMMITTEE

At 11:15 a.m. on November 12, 1975, Cartha DeLoach, former Assistant to the Director, telephonically advised me that he was interviewed under oath by [] of the Senate Select Committee on November 11, 1975. He advised that he was represented by [] an attorney in the Washington law firm of Edward Morgan. The testimony was recorded by a stenographer and principally dealt with general guidelines Mr. DeLoach used in briefing various Attorneys General concerning FBI work. They also inquired concerning the Counterintelligence Program in that they asked him if he had ever briefed Ramsey Clark regarding the Counterintelligence Program. Mr. DeLoach described that portion of the interview as a "political tug of war" in which [] attempted to have him say that Ramsey Clark had not been briefed, and [] attempted to have him say that Ramsey Clark had been briefed.

b6
b7C

Mr. DeLoach said that he testified that he had briefed Ramsey Clark regarding the Counterintelligence Program and also briefed Clark regarding wiretaps and microphones at Clark's specific request. Mr. DeLoach was asked whether he had written a memorandum regarding that briefing, but he could not recall specifically whether the memorandum was prepared. He did say that it was the practice for a memorandum to be prepared recounting conversations with Department officials. The Committee representatives then advised Mr. DeLoach that they had asked for such documentation from the Bureau, but a memorandum indicating DeLoach had briefed Ramsey Clark regarding the Counterintelligence Program was not received among the documents furnished by the Bureau. Mr. DeLoach requested me to advise the Bureau that in ^{his} view if such a memorandum can be located, it should be forwarded to the Committee.

Memorandum to Mr. Adams
Re: Senate Select Committee

Mr. DeLoach was asked whether anyone from the Bureau had alerted him to the possibility that he would be asked concerning briefing Ramsey Clark and whether anyone had suggested to him what his response should be. He denied that such was the case, but did say that he had received a telephone call from Assistant Director Wannall asking him the question whether DeLoach had briefed any Attorneys General regarding the Counterintelligence Program.

Mr. DeLoach was requested by the Committee to return on Tuesday, November 18, 1975, at 2:30 p.m. for additional interview at which time the subject will be the Southern Christian Leadership Conference and Martin Luther King.

Mr. DeLoach said that a Mr. [] of the Committee's staff described a memorandum which he claimed that DeLoach had prepared regarding Jack Anderson and the Warren Commission. Mr. DeLoach said that he could not recall such a memorandum.

b6
b7c

Mr. DeLoach requested that the Bureau make available a Bureau representative for consultation at 2:30 p.m. on November 18, 1975. Mr. DeLoach said he made this request because he was uncertain as to the scope of the testimony he might be asked to give regarding Martin Luther King. In response to his question, I told Mr. DeLoach that information concerning certain confidential sources involved in the origination of the investigation of Martin Luther King has not been discussed with the Committee staff, but limited discussion has been had with Chairman Frank Church. I told Mr. DeLoach that inquiries concerning the informants involved in the basic information in that case should not be answered due to the sensitivity of the information.

RECOMMENDATIONS:

1. That the Intelligence Division determine whether there is a memorandum describing a briefing of Ramsey Clark by Mr. DeLoach concerning the Counterintelligence Program.

RECOMMENDATIONS (CONT'D)

2. That the above-described memorandum be made available to the Committee with such excisions as may be necessary.

3. In response to the specific request of Mr. DeLoach, a Bureau representative familiar with the King matter should be available for consultation at the time of Mr. DeLoach's testimony on November 18, 1975.

SAC James O. Mr. Mohr subsequently contacted Assistant Director John A. Mintz of this Division concerning this matter.

Mr. DeLoach telephonically contacted SA [redacted] of this Division on 11/10/75 and advised him he had been notified of the Senate Select Committee's request that he be interviewed and informed SA [redacted] that he had retained Attorney [redacted] of the firm Welch and Morgan to represent him. Information has been received from a former Bureau official that Pearson, President, PepsiCo, Inc., will lead a group of approximately 40 to 50 Food Chain executives, with wives, to Israel for one week beginning 3/27/76 as guests of the Israeli Government. Pearson, shortly after sending letters to individuals connected with the trip, received two calls on the same date, the second of which consisted of a twice repeated threat to "kill Pearson's family" if he went on the trip. Details of this threat were reportedly furnished the New York Office.

SAC, New York, insure that information concerning the threat to kill Pearson's family has been made available to local authorities.

Legat, Tel Aviv, notify appropriate Israeli authorities in order that they will be aware of this matter.

Dear "Mooshe":

Andy Pearson, President, PepsiCo, Inc., and one of my two Bosses, will lead a group of approximately forty to fifty Food Chain heads, with wives, to Israel for one week beginning March 27, 1976. The Israeli Government will play host to this group with tours, accommodations, et cetera. The group will, however, pay their own transportation. Andy Pearson was invited by Milton Perlmutter, Super Markets General Corporation, to organize and coordinate this trip.

To get to the point--Andy recently sent out approximately one-hundred letters to the above-mentioned invitees in connection with this trip. Shortly thereafter two calls were received on the same date, obviously from the same man, emanating from the New York area. The second call consisted of a twice repeated threat to "kill Pearson's family" if he goes on the trip. Full details were, of course, furnished in view of the possible violation of the extortion statutes. b6

DeLoach, Cartha D - National

I understand you have already accepted an invitation to be the guest of the Missouri group at The American Legion's banquet for members of Congress on March 2, 1976. I would like to take this means of extending you another very cordial invitation closely related to that affair.

For many years, it has been my custom to host a small cocktail-buffet gathering for some of the people attending the Legion's Mid-Winter Conference in Washington, D. C. My guests have usually consisted of a select group of Legion officials and some Bureau people. All of the past affairs have proved to be congenial and thoroughly enjoyable.

This year, I have asked Jim Adams, Nick Callahan, and a few of the men from the External Affairs Division to join me in Suite D-700 of the Sheraton Park Hotel at 7 p. m., Monday, March 1st. I would be delighted if you could be with us for a completely informal evening of relaxation bolstered by plenty of good food and drink.

2 - Mr. S. F. Phillips

SENSTUDY 75

PURPOSE: To advise of latest effort by Senate Select Committee (SSC) Staff to interview Cartha DeLoach and SSC's abandonment of interview.

DETAILS: Memorandum from Mr. N. P. Callahan to Mr. Mintz 3/18/76 recited information former Assistant to the Director DeLoach furnished Mr. Callahan concerning efforts of SSC Staff Member [redacted] to have DeLoach appear in Washington, D. C., for additional testimony; and that DeLoach, through his attorney, was resisting such appearance.

b6
b7C

DeLoach telephoned the writer at 9:00 a.m., 5/10/76, made reference to the [redacted] attempt to get DeLoach back to Washington, D. C., for testimony on the President Kennedy assassination, and furnished the following information updating the situation. On 5/6/76, [redacted] contacted DeLoach's attorney, [redacted] and asked if DeLoach would agree to a Staff interview, not under oath, in DeLoach's office in New York City on 5/10/76. [redacted] agreed to this with understanding the interview would last no longer than one hour. On the evening of 5/9/76, [redacted] called [redacted] and said that, because time is so short, they were cancelling the interview and would not again pursue the matter of getting either testimony or information through staff interview from DeLoach. DeLoach also added that, when [redacted] made the first contact 5/6/76, it was indicated by him that, if DeLoach did not agree, he might be subpoenaed by Senator Schweiker.

RECOMMENDATION: None. For information.

Dear Clarence:

Recently it became necessary for me to make an emergency trip to San Juan, Puerto Rico to handle a very sensitive matter for my company. It involved a very large embezzlement which was apparently initiated by the president of one of our subsidiaries.

REC-137 67-338728-539

From the outset, we have had the wholehearted cooperation of the FBI in an ongoing investigation of this situation. During my brief visit to your San Juan Office, I was assisted in every way by two of your men, Special Agent [redacted] and [redacted]. To me, both epitomized the best of the Bureau in the manner in which they handled various aspects of the case while I was there, and I wanted to take this means of bringing their performance to your personal attention.

I sincerely appreciate the help extended Pepsico thus far by the FBI and especially the efforts on our behalf made by Messrs. [redacted]

SYNOPSIS AND DETAILS:

At 11:25 a.m. on June 10, 1977, Cartha DeLoach, former Assistant to the Director, telephonically advised me that he was in Washington, D.C., on June 6, 1977, to meet with of the Department of Justice for an interview. Mr. DeLoach said that he was interviewed for approximately two hours and then at 1:30 p.m. on the same date he appeared before the Federal Grand Jury in Washington. During his interview and during his Grand Jury testimony, "break-ins," "suicide taps," and "mikes." He said he stated that he had no recollection he had done so during his tenure as Assistant to the Director and he did not know of any such approvals given by anyone else during that time. He was asked for his opinion as to whether Mr. Hoover had obtained authority for surreptitious entries and he replied that he believed that Mr. Hoover would have obtained authority from the Congress, from the Attorney General, the National Security Council, and from the President of the United States. He suggested that they check the hearings before the Appropriations Committees where Mr. Hoover testified and, at times, would testify off the record. He said he did not accompany Mr. Hoover to the White House or to the testimony but that he did have lunch with Mr. Hoover and the Attorney General from time to time.

Mr. DeLoach said that he offered the opinion that the authority granted through the years for such activities may have been the basis for the belief of Agents who engaged in such activities that their actions were lawful. He said that William Rogers authorized the FBI to install microphones when he was the Deputy Attorney General and that Nicholas Katzenbach authorized the FBI to install such devices without prior authority any time he was unavailable and he would approve them upon his return.

Re: Cartha DeLoach

In his appearance before the Grand Jury, he said he was asked whether he personally installed any wiretaps, microphones, or had opened mail which he answered in the negative. He said that throughout his testimony he constantly referred to the fact that the Agents, acting without guidance from the Congress, were acting on "probable cause" and he repeatedly stated his belief that Mr. Hoover had sought higher authority for such activities in order to protect the Bureau and his own good name.

Dear Clarence:

Please find enclosed a letter dated August 16, 1977, from [redacted] of The Claxton Bank, Claxton, Georgia. Claxton is my home town. I have been on the Board of Directors of this small bank for many years. [redacted] writes to me because he knows of my previous FBI employment.

In the enclosure, [redacted] recommends one [redacted]. While I do not know Mr. [redacted] personally, I note that he is a graduate of the University of South Carolina, Columbia, South Carolina, having received a B.S. Degree in Criminal Justice and also a Masters Degree majoring in that category. I also note that he was on the Dean's List and that he received his degree cum laude.

Although I do not know Mr. [redacted] I am aware of the fact that [redacted] is a very fine banker whose reputation is above reproach. I am certain that, because of his great respect for the FBI, he would not have recommended someone unless this person deserves consideration.

I would personally appreciate any attention that could be paid to Mr. [redacted] application.

With kindest regards,

Sincerely,

PURPOSE:

The purpose of this memorandum is to advise that former Assistant to the Director C. D. DeLoach has requested a copy of memorandum he wrote on December 2, 1964, and to recommend that the attached copy of that memorandum be furnished to him.

DETAILS:

Former Assistant to the Director C. D. DeLoach has telephonically requested a copy of a memorandum which he wrote on December 2, 1964, reporting a meeting in the Director's Office between the then-Director Hoover and Martin Luther King--which meeting was also attended by Walter Fauntroy, [redacted] and Ralph Abernathy. (The memorandum is serial 634 of Bufile 100-106670.) Mr. DeLoach pointed out that extensive reference to this memorandum (including a number of direct quotations from it) is made on pages 164-167 of Book III of the Final Report of the Senate Select Intelligence Committee (published in 1976); and the Committee's report clearly indicates that at least two of the witnesses before the Committee (Ralph Abernathy and [redacted]) had full access to his December 2, 1964, memorandum.

Review of the attached copy of Mr. DeLoach's December 2, 1974, memorandum reflects that it is strictly an account of Martin Luther King's visit with Mr. Hoover and that it does not allude to information which Bufiles contain concerning Dr. King or the other participants in the meeting. Furthermore, as noted above, the meeting between Dr. King and Mr. Hoover was not of a confidential nature--it was attended by four other persons (including Mr. DeLoach) any of whom was free to tell outsiders what had transpired; and Dr. King met with representatives of the press immediately after his session with Mr. Hoover. Furthermore, Mr. Hoover later discussed his meeting with Dr. King with news media.

Dear Judge Webster:

Permit me to take this means of extending you my warmest congratulations on your assumption of the position of Director of the FBI. You have some very heavy responsibilities which I am certain you will handle expertly and this will benefit our country greatly. I want to assure you that I am always ready to be of assistance to you if you should need me now or in the future. You need only call on me.

I am a former Assistant to the Director who retired in 1970 to become Vice President of Corporate Affairs of PepsiCo, Inc. Our company is a multi-national organization which operates in approximately 140 countries. In this particular respect, we have an abiding concern regarding terrorism both domestically and abroad. The corporate duties of our top executives necessitates their continual travel in and out of many potentially dangerous countries.

Because of the great interest we have in the protection of these individuals, I would like to respectfully ask that you give your permission for Mr. James O. Ingram, Deputy Assistant Director of the Criminal Investigative Division, to visit our World Headquarters at Purchase, New York for the purpose of conducting one of his seminars on the protection of the business executive. I understand his presentation is an excellent one and we would be most grateful if you will agree to let him share his expertise with our people. If agreeable with you, we would like to have Mr. Ingram visit us on May 15 or May 16, 1978. He will be speaking to between 200 and 300 executive personnel.

Dear Judge Webster:

I thought you would like to know that on Thursday, May 18, 1978, Deputy Assistant Director James O. Ingram made an excellent talk on terrorism to an attentive and very interested, standing-room-only group at our World Headquarters. Those in attendance included a number of executives from neighboring corporations to whom we had extended an invitation, as well as a number of ranking FBI officials from the New York, New Rochelle and New Haven Offices.

It was a pleasure to have Mr. Ingram with us, and I thank you sincerely for your kindness in permitting him to make this talk to our people. His remarks were very informative and timely, and they provoked an unusually large number of questions from the audience. I believe he was well pleased with his reception and I know we were delighted to have him as our guest.

Again, I am most appreciative of your courtesy in making this presentation possible.

With highest esteem,

The Honorable William H. Webster
Director

Dear Bill:

DeLoach, Cartha D. Ekle

PepsiCo and the Pepsi-Cola Bottlers Association have created a new series of political education seminars for Pepsi-Cola Bottlers. These seminars are held in Washington, D. C. and involve approximately 25 Bottlers. The curriculum consists of political lectures, films, work sessions and discussions of key soft drink issues. Two Senators and four Congressmen are lecturing to this group. In addition, the program includes actual visits to Capitol Hill for personal discussions with Senators and Representatives. Dick Leshner, President of the U. S. Chamber of Commerce, will appear before them.

Our next seminar is being scheduled for April 22-24 at the Madison Hotel. I am no doubt being very presumptuous, but I would deeply appreciate it if you could spend 15 or so minutes with the participants of this seminar, the Pepsi-Cola Bottlers Association Board of Directors, on April 22nd at any time convenient to you. I will bring them to your office or any other location satisfactory to you.

The PCBA Board is made up of outstanding, wealthy individuals from many different communities across the nation. Many of these men are well known civic leaders who are keenly aware of the importance of political involvement. All participants would find meeting with you a valuable learning experience, as did the Bottlers you were most gracious to see at our first seminar in October, 1979.

I hope we will have the pleasure of meeting with you and I look forward to hearing from you.

Sincerely,

Gentlemen:

The Socialist Workers Party (SWP), its youth group, and several of its members filed suit for damages and injunctive relief in 1973. Damages were sought from three Special Agents, the FBI, and others. It is a pleasure to notify you that the individual liability of the three Special Agents - Arthur Greene, and John Malone - was resolved when the claims against them were dismissed at the beginning of the trial.

b6

The trial began in early April and the presentation of evidence concluded at the end of June. A decision is not expected until the end of this year and you will be notified when it is received.

Judge Webster was required to remove himself from any involvement in the case as Director because he was a member of a three-judge panel which had ruled on an earlier appeal in the same case. The litigation became my responsibility, and, with necessary assistance from several Divisions, a task force was formed in September, 1980, which included one former Special Agent.

John P. Thomas, who retired from the Intelligence Division a few months before the task force was formed, became a key member of it. His knowledge of Bureau policy, practices, and personnel was invaluable to the rest of the Bureau team

and to the other Government attorneys. Many of you recall John as a dedicated and tireless employee. Retirement did not change him. The FBI is certainly indebted to him for his efforts.

Many other former Special Agents were involved in trial preparation, including:

Leo E. Conroy

Cartha D. De Loach

Arthur J. Greene

Declan J. Hughes

William K. Lambie

John F. Malone

Norman H. McCabe

Thomas J. McNiff

Donald E. Roney

Joseph A. Sizoo

W. Raymond Wannall

Thornton M. Wood

J. Walter Yeagley

As the plaintiffs' case progressed into and through its second month, it became obvious that several of the FBI's witnesses were no longer required. The time and effort of those willing and prepared to serve is nevertheless appreciated.

b6

Society of Former Special Agents of the
Federal Bureau of Investigation, Inc.

Joseph Sizoo, Norman McCabe and Arthur Greene testified primarily about surreptitious entries. On the day they testified, a veteran court observer told one of the FBI attorneys: "You should have kept them till last; they're awfully good witnesses." He was equally complimentary after the testimony of all the former Special Agents.

Ray Wannall testified as a former Assistant Director of the Intelligence Division about the Bureau's authority and use of various investigative techniques, particularly COINTELPRO. In his concluding statement, the trial judge specifically mentioned the COINTELPRO presentation as one which was: "developed in really a very sophisticated way with a great sense of the nuances, the subtleties that are involved in these very complicated legal matters." Ray Wannall spent a great deal of time on behalf of the FBI both on and off the witness stand and deserves special recognition.

[redacted] was called as a witness by the SWP. Although it was more than fifteen years since [redacted] served as Case Agent for the investigation, his memory was so keen and the reasonableness of his actions so apparent that his testimony served more to buttress our case than to weaken it, even though he was testifying as plaintiffs' witness. [redacted] agreed to return during the Government's case and was equally effective.

b6
b7C

The testimony of [redacted] also went a long way toward establishing the propriety which has always characterized the manner in which we have handled informants.

This letter would be incomplete without mention of a "non-Bureau" witness. Former Attorney General Herbert Brownell testified unequivocally that officials outside the FBI were aware of surreptitious entries during his years as Attorney General and that they were authorized.

Society of Former Special Agents of the
Federal Bureau of Investigation, Inc.

The testimony of those involved in events being litigated is required for the successful defense of this type of civil action. Most of the events being questioned in the SWP and similar civil actions happened several years ago and it undoubtedly will be necessary to again call upon your membership for assistance. With your continued cooperation, the likelihood that the FBI will prevail is greatly increased. The men and women of the FBI recognize and appreciate the efforts of the members of your organization who helped in this lawsuit.

Sincerely yours,

ABC SMEARS J. EDGAR HOOVER

The FBI and its leadership is not and should not be exempt from critical examination by the media, any more than any other government agency. However, any government agency or official that is subject to such scrutiny is entitled to have the facts presented accurately and fairly.

The smear-style journalism which has been so thoroughly exposed in the case of the CBS News attack on Gen. William C. Westmoreland has also been at work on J. Edgar Hoover and the FBI. We have shown in previous issues how eagerly the media picked up and amplified the false charge that the FBI had smeared the late Jean Seberg and ruined her life. We have shown how CBS News persisted in disseminating that smear as late as November 1981, over a year after it had been presented with the evidence developed by AIM that showed that the story was false. At the July 15 meeting between the top officials of AIM and CBS, Robert Chandler and Roger Colloff, both vice presidents of CBS News, insisted that CBS News had done nothing wrong in ignoring that evidence.

This propensity to smear the FBI was again demonstrated on June 3, 1982, when ABC News aired a one-hour "Close-Up" on J. Edgar Hoover, the man whose name was synonymous with the FBI until his death ten years ago.

Those who grew up thinking of J. Edgar Hoover and his 'G-Men' as heroes who were defending decent citizens against criminals and the country against subversion had some difficulty recognizing the description of Hoover that Marshall Frady painted at the outset. "Who was this man," asked Frady, "who came to command such reverence, such dread?" Frady told his audience that J. Edgar Hoover's ambition "was to control American society itself." "In the end," he said, "it's a story of how a secret police power came to grow within democratic institutions. And it remains of the highest importance to ask, how did it happen?"

What followed was a collection of anecdotal criticisms of Hoover and the FBI by a few individuals who harbored grudges against him. The tone and quality of this appraisal is illustrated by Frady's incredible raising of the question of whether Hoover was a homosexual.

Early in the program he said: "Hoover stayed with his mother until he was 43, when she died. He never married... He spent almost all his time with Associate Director Clyde Tolson. But the rumors Hoover was a homosexual are discounted by friends and even enemies." Why then, did ABC bring it up? They were obviously reaching, since Hoover spent 50 years in public life, in a field where temptations are ever-present, and no breath of scandal ever touched his personal life. An honest portrait of the man would have emphasized that point. ABC News chose the low road of bringing up a rumor that was discounted even by the man's enemies.

Was Hoover a Bigot?

"During most of his reign it (the FBI) remained virtually all white, all male, all Christian," Frady declared early in the program, implying that J. Edgar Hoover was a bigot and discriminated against minorities. Frady omits facts which show the man in an entirely different light. He failed to mention that J. Edgar Hoover had been vigorously opposed to the relocation of all persons of Japanese descent from the West Coast in 1942, an action pressed by Franklin D. Roosevelt and Earl Warren.

Nor did Frady mention that in 1959 the B'nai B'rith effectively buried the anti-Jewish charge against Hoover. Philip Klutznick, the president of B'nai B'rith gave Hoover and the FBI high marks for their "deep concern" and for their assistance in "reducing the threat of continued bigot-inspired violence."

The charge that Hoover was guilty of racism is equally erroneous. In fact, when Hoover was first made Assistant Director of the FBI during the administration of President Warren G. Harding, he immediately turned his attention to the terrorist activities of the Ku Klux Klan, something his predecessors had carefully avoided.

In one early case, in Louisiana, two men, Watt Daniels and T.F. Richards, had been kidnapped by the Klan because they had been alleged to be witnesses to a KKK beating. Released with a warning to remain silent, they nevertheless told friends that they recognized the kidnapers. A week later, as they returned from a

baseball game and a barbecue, they were seized by armed men wearing white hoods. This was the last time they were seen. Working with local authorities, a group of Bureau of Investigation (BI) agents selected for their trustworthiness by Hoover began an investigation. Eventually, Imperial Kleagle Edward Y. Clarke was indicted. Under Hoover's orders, the Bureau moved into Georgia, uncovering the then common practice of "selling" Negro prisoners on road gangs to local farmers. Conviction of one farmer who had killed 12 Negroes in order to hide the evidence broke the back of that practice.

In 1944, long before the growth of the civil rights movement, Hoover had directed the FBI to investigate the death of Robert Hall, a 30 year old Negro who had been beaten by the sheriff and his deputies in Newton, Georgia. Working against the hostility of the community and the local police, the FBI built up a case which showed that Hall had been beaten to death in violation of a Federal law which prohibits anyone "acting under the color law" to deprive any person willfully of his rights, privileges and immunities under the Constitution. The sheriff and two deputies were indicted on evidence provided by the FBI and convicted.

Referring to the Hall case, Hoover said: "We can have the Constitution, the best laws in the land, and the most honest reviews by the courts—but unless the law enforcement profession is steeped in the democratic tradition, maintains the highest in ethics, and makes its work a career of honor, civil liberties will continually—and without end—be violated." It is incredible that a man such as J. Edgar Hoover, who led the battle against the racism and bigotry of the Ku Klux Klan, a host of neo-Nazi groups in the years before and during World War II—and who opposed the relocation of Japanese-Americans which was supported by such current heroes of the media as Franklin Roosevelt and Earl Warren—can be portrayed as a "bigot."

Hoover did insist that the same high standards he set for FBI employees be applied to all regardless of race, sex or political connections. Once when he was pressed by Attorney General Ramsey Clark to lower entrance requirements as part of an affirmative action program, Hoover said, "I won't appoint a man to the FBI because his uncle is a powerful senator. And I won't appoint a Negro just because he's a Negro. There are Negroes now in the FBI and they got their jobs like everyone else—by careful examination of their qualifications, the same examination that any other applicant receives. There has been no case of a Negro who was qualified being turned down. There never will be. But I do not intend at this time or any other time to bring into the FBI any man, regardless of his race or creed, if he does not measure up to the FBI's standards." To ABC News that seems to add up to prejudice and bigotry.

Why the FBI Bugged King

The program's main effort to show Hoover's racial prejudice relates to the case of the Rev. Martin Luther King, Jr., and the FBI's decision to tap his telephone. Former Attorney General Clark states on the program: "At a subjective level at least, Mr. Hoover had deep racial prejudices. In his role in the investigation of

Martin Luther King speaks volumes. Here was the non-violent prophet of social changes—what more could a country ask for, you know—and subjected to the most vicious sort of investigation. In large part because the man deeply offended Mr. Hoover at a personal level."

Frady declares, "Though the wiretaps and bugs produced no direct evidence of any Communist influence on King, they did provide Hoover with a different possibility—to sabotage King personally. The tapes from that FBI surveillance indicated a highly active sex life by King ..."

What Frady did not tell the viewer was that the FBI had legitimate cause for concern about Dr. King's association with known Communists. The story begins on January 8, 1962, when Hoover sent a letter to Attorney General Robert F. Kennedy stating that the Bureau had learned that Stanley D. Levison, a member of the Communist Party, USA, was a close friend of King. A reliable informant, Hoover said, had reported on January 4 that Isadore Wofsy, a high-ranking Communist leader, had said that Levison had written a major speech that King delivered to the AFL-CIO convention in Miami Beach on December 11, 1961. By March 1958, it had been known that Levison was reviewing the book manuscript and helped in the drafting and publication of King's book, *Stride Toward Freedom*. Levison took charge of administering contributions flowing to the Southern Christian Leadership Conference (SCLC). King also trusted Levison's judgment regarding SCLC employees. By the fall of 1961, Levison had brought onto the staff Jack O'Dell, also a known Communist, to assist with SCLC administrative work in New York.

In his important book on this subject, *The FBI and Martin Luther King, Jr., From Solo to Memphis*, David Garrqo says, "The true source of FBI information about Levison was an operation that had been one of the most carefully guarded secrets in FBI history. The operation began in the early 1950s and lasted until 1981. Its code name is 'Solo.' 'Solo' stands not for one person, but for a team of two brothers whose accomplishments over 28 years of activity may well make them the most successful double agents in U.S. history. Jack and Morris Childs, for 25 years, would be working for the FBI ... They came to be the crucial link by which Soviet funds approximating one million dollars a year were channeled secretly to the American Communist Party. As such the brothers not only came to know the most confidential details of the Soviet Union-Communist Party, USA connection but also have substantial entree with those in Moscow who supplied the cash. Jack Childs had regular contact with Levison in the 1953-55 period. He gave the FBI an account of Levison's activities ... According to some FBI agents, Jack Childs told the FBI that Levison reportedly had been an important secret financial benefactor of the Communist Party since perhaps 1945 or 1946. Levison was reputed to have played a central role in establishing businesses whose real purpose was to earn or perhaps launder money needed by the Communist Party."

Beginning in 1953 or early 1954, Jack Childs told the FBI that Levison was assisting Communist Party financial

chiefs William Weiner, Lem Harris, Jack Kling and Isadore Wofsy in acquiring and managing the Communist Party's secret monies. In February, 1954, Jack Childs told the FBI that Levison was now the interim chief administrator of the party's most secret funds, and was Childs's nominal boss. Professor Garrow declares that, "All available evidence indicates that Levison had been closely involved in Communist Party financial activities between 1952 and 1955 ... the reports from Childs to the FBI ... were in all likelihood quite accurate."

Garrow points out in his book that there was no evidence after 1955 that Levison remained active in the Communist Party. While he does not personally believe that Levison went underground and was acting as a Soviet agent in his cultivation of King, he recognizes that this was a possibility. It was a possibility that the FBI took seriously. The ABC program mentioned Levison and the information the Childs brothers had supplied about him but they used Garrow on the program to discount this. Garrow said that the FBI had only a hypothesis that Levison still had communist ties in 1962 and misled Robert Kennedy in not telling him this. While Garrow does not feel that ABC misrepresented his views, he acknowledged to AIM that the FBI could not have prudently ignored the possibility that Levison in 1962 was a covert communist agent. He agreed that Kennedy would doubtless have approved the taps on King knowing that it was a possibility but not a proven fact that Levison was still a communist. ABC implied that the real reason for surveillance of King was Hoover's alleged racial prejudice. Garrow said in his book: "The truth of the matter is that the origins of the King investigation lay in an honestly held FBI belief that Stanley Levison was a conscious and active agent of the Soviet Union."

Kennedy Cautions King

After reading Hoover's January 8, 1962 letter, Attorney General Robert Kennedy asked his administrative assistant, John Seigenthaler, to meet with King to warn him. King replied that he did not question the motives of those who sought to assist him. Another FBI report went to Kennedy on February 14, pointing out that Jack O'Dell, the young man whom Levison had hired for SCLC's New York office, had a long record of Communist Party ties.

On April 30, Levison was subpoenaed by the U.S. Senate Internal Security Subcommittee, where he was represented by radical attorney William Kunstler. Committee counsel J.G. Sourwine declared, "The Committee... has received information that you have been a party to and are aware of certain financial dealings of the Communist Party." Levison took the Fifth Amendment. Senator James Eastland asked, "Isn't it true that you are a spy for the Communist apparatus in this country? Isn't it true that you have gotten funds from the Soviet Union and given them to the Communist Party, USA?" Levison again took the Fifth Amendment.

When King was asked about O'Dell, he denied that O'Dell had been acting as SCLC executive director. This response, according to Professor Garrow, contained "much overstatement and some inaccuracy." Then, King

said that he had accepted O'Dell's resignation. Professor Garrow notes that "The resignation was more fiction than fact, as King's own message and appointment books for late 1962 and the first half of 1963 reflect."

Despite warnings from the highest levels of the Kennedy Administration, King maintained his close contacts with the two identified Communists—Levison and O'Dell. King would not see FBI officials to discuss the matter. In late January, at Attorney General Robert Kennedy's suggestion, his deputy, Burke Marshall, once more suggested to King that continued association with Levison and O'Dell was unwise. In mid-March, Robert Kennedy was informed that Levison and O'Dell were writing an article under King's name for "The Nation" magazine. On June 22, Marshall once again spoke to King urging that his relationship with Levison and O'Dell should be ended. President John F. Kennedy himself met with King. He asked King, "You've read about Profumo in the papers?" King said he had. Kennedy went on, "That was an example of friendship and loyalty carried too far. Macmillan is likely to lose his government because he has been loyal to his friend. You must take care not to lose your cause for the same reason." President Kennedy then named Levison and O'Dell. "They're Communists," he said, "You've got to get rid of them."

King Ignores Kennedy Advice

King told the President that he agreed with him about O'Dell, but he said he would need proof that Levison was a communist, something the President could not provide without exposing the FBI's source. Within a week it was revealed in the press that although King had said that O'Dell had not been with his organization—the Southern Christian Leadership Conference—since December 1, 1962, O'Dell was still on the SCLC payroll. This story discussed O'Dell's communist ties and an allegation that he was a secret member of the national committee of the Communist Party.

The Justice Department promptly contacted King, who even while denying that any ties with O'Dell had continued, sent a letter to O'Dell telling him that his "temporary resignation" was being made permanent. King still refused to break with Levison, however. He and Levison worked out a solution. They would in the future communicate only through a third party. They selected for that role another Levison protégé, Clarence B. Jones.

Three weeks after King made O'Dell's "temporary resignation" permanent, his New York office confirmed to the UPI that O'Dell was still the administrator of that office. In Atlanta, King hastily called a press conference to deny that he was still employing O'Dell, whereupon the New York office promptly reversed itself and told the press that O'Dell was no longer with them. However, King's contacts with both O'Dell and Levison continued. It was against this background that on October 10, 1963, the FBI obtained Robert Kennedy's agreement that taps should be placed on King's phones.

Robert Kennedy was as suspicious of King as was J. Edgar Hoover. He said: "The reason that President Kennedy and I and the Department of Justice were so

reserved about him... which I'm sure he felt. I mean, I never really had any conversations with him over the period other than what he should be doing in connection with the Communists. We never wanted to get very close to him just because of these contacts and connections that he had, which we felt were damaging to the civil rights movement and because we were so intimately involved in the struggle for civil rights, it also damaged us. It damaged what we were trying to do."

Deputy Attorney General Burke Marshall said in an interview in 1970: "The reason that he (Kennedy) approved the tap (on King)... is that after the third time or the fourth time, or whatever it was, when the President had talked to him and I'd talked to him and Bob Kennedy had talked to him and I talked to him again which was in June of 1963, right after the legislation was introduced and tried to impress upon him the seriousness of this... there was a report in that... they (Levison and King) were back in touch with each other as if nothing had happened. And that's what decided him to do it, that there didn't seem to be any other course of action then."

Did Levison and O'Dell radicalize Martin Luther King? Here the evidence is strong. King told his staff in 1967: "For the last twelve years we have been in a reform movement... But after Selma and the Voting Rights bill (in 1965) we moved into a new era, which must be an era of revolution. I think we must see the great distinction here between a reform movement and a revolutionary movement." The latter would "raise certain basic questions about the whole society... this means a revolution of values and of other things... The whole structure of American life must be changed." In 1968, King declared, "We are engaged in the class struggle... Truly America is much sicker than I realized when I first began working in 1955."

Whatever the merits of Martin Luther King, the fact remains that the FBI taps on King were instituted for valid and legitimate national security reasons—and were fully supported by President John F. Kennedy himself. For ABC to imply a personal motive of bigotry on the part of J. Edgar Hoover in this connection is to fly in the face of all available evidence and to engage in nothing short of character assassination.

COINTELPRO

When it comes to a discussion of the FBI's "COINTELPRO" program—the secret counter-intelligence program directed against subversive and extremist elements and agents of hostile foreign powers—Mr. Frady again presents a largely one-sided report. He shows former Attorney General Ramsey Clark saying that this program involved "deliberate activities of disruption, interference with the lives and rights of people in the United States."

The program, considered controversial by many in retrospect, lasted from 1956 to 1971 and, covering different periods of time, targeted the Communist Party, USA; the Ku Klux Klan; the domestic Nazi groups and other racist organizations; Black extremist groups; the Trotskyite Socialist Worker's Party; and the radical core

of the New Left. It dealt, in addition, with certain espionage operations and hostile foreign-based intelligence service. Writing in *Policy Review* (Fall, 1981), David Martin notes that, "It was an activist program which involved not only the gathering of intelligence, but also infiltration plus a variety of stratagems aimed at the disruption and exposure of targeted organizations and the 'neutralization' of targeted individuals—that is, rendering them politically ineffective."

Critics in 1982 forget the atmosphere of growing political and racial violence which rocked the country at that time.

The FBI was reacting not to differences of political opinion, as Mr. Frady implies, but to growing violence. During the 1960s there were over 300 arsons or attempted arsons, 14 destructive bombings, 9 persons killed, and almost 600 injured on America's college campuses alone. In the 1968-69 school year, damage on college campuses exceeded \$3 million and in the next year mounted to over \$9.5 million. FBI Director Clarence Kelly, in 1973, noted that, "In this atmosphere of lawlessness in the cities, mobs overturned vehicles, set fires, and damaged public and private property. There were threats to sabotage power plants, to disrupt transportation and communication facilities. Intelligence sources informed the FBI of plans that were discussed to poison public water supplies. At this time of national crisis, the Government would have been derelict in its duty had it not taken measures to protect the fabric of our society... Because of the violent actions of the leadership of the New Left, FBI officials concluded that some additional effort must be made to neutralize and disrupt this revolutionary movement. This effort was called the 'Counterintelligence Program—New Left.'"

A Cruel Caricature

J. Edgar Hoover, in his many years as head of the FBI, made many mistakes—as any human being would. Yet, the ABC program discussed only Mr. Hoover's alleged errors and it was wrong about many of them. In some areas, where honorable and thoughtful men and women can sincerely disagree, the program's host, Marshall Frady, makes it clear that, in his view, there is only one proper conclusion, one which is hostile to J. Edgar Hoover.

ABC News has given its viewers not a portrait of J. Edgar Hoover and the FBI, but a cruel caricature.

NOTES FROM THE EDITOR'S CUFF

By Reed Irvine

August-II 1982

ON JUNE 3, 1982, TEN YEARS AFTER J. EDGAR HOOVER DIED, ABC NEWS DID A PROFILE OF the man who headed the FBI for nearly 50 years. Hoover and the FBI came in for a great deal of criticism after Hoover died. A lot of that criticism was unfair and ill-founded. ABC had an opportunity to correct the errors and set the record straight. Instead, it chose to pass up that opportunity and pile on new false charges and innuendo.

THERE WERE AT LEAST TWO MAJOR FALSEHOODS ABOUT HOOVER AND THE FBI THAT HAVE BEEN exposed in recent years. One of them is the charge that in 1972 the FBI planted a smear of the actress Jean Seberg in the press, causing her untold grief and suffering. Accuracy in Media exposed the falsity of that charge in 1980, but despite our best efforts, the correction never overtook the lie. The ABC program on Hoover would have been an excellent occasion to tell the story straight on nationwide television. It is interesting that the Seberg case was not even mentioned. I understand that this was because the people that put the program together were warned that if they brought up the Seberg matter they would be obliged to take account of the evidence exonerating the FBI which AIM had put into the public record. I have no doubt that they would have hit Hoover with the Seberg case if they could have used it to make him look bad. They couldn't do that, thanks to the work we did on this case, and so they chose to avoid it.

THE OTHER MAJOR FALSEHOOD IS THAT THE FBI SURVEILLANCE OF MARTIN LUTHER KING, JR. was motivated by Hoover's alleged racism. We discuss this at length in this AIM Report. ABC could have made a fascinating documentary or segment based on David J. Garrow's book, The FBI and Martin Luther King, Jr., From "Solo" to Memphis. This was published last year in hardback, and it will soon be available in paperback. Read what we say about it in this Report. The ABC program on Hoover used an interview with David Garrow, but it fell far short of telling the story in a comprehensible way. Garrow was brought on immediately after former Attorney General Ramsey Clark was shown suggesting that King's phones were tapped because of racial prejudice on the part of Hoover. Garrow then explains that the taps were put on King because of allegations that one of his close advisers had Communist ties. Without mentioning that these ties were to the top leaders of the Communist Party and that there was no evidence that the individual had broken with the Communists, Garrow is shown turning the argument around. He said the Bureau had no direct evidence that the adviser still maintained those ties. Therefore, he argued, "Mr. Hoover did not tell the Kennedy brothers the whole truth, and what he told them was, in its essence, very misleading." Garrow told me that this was an accurate representation of what he told ABC News, but he conceded that the FBI would have been negligent if it had not assumed, on the basis of the evidence available, that King's adviser remained dedicated to the Communist cause. Garrow's story deserved a more complete presentation. Instead, ABC left the impression that Ramsey Clark was right. That is not the impression conveyed by Garrow's excellent book.

ONE OF THE SERIOUS CHARGES MADE BY ABC WAS THAT J. EDGAR HOOVER HAD MISHANDLED THE case of the eight Nazi saboteurs who landed here in 1942. They charged that Hoover had rushed to publicize the case, damaging the chances of capturing their contacts. They even said that the saboteurs were not caught by the FBI. A comment prepared by the Society of Former Special Agents of the FBI points out that President Roosevelt had instructed Hoover to announce the arrests as soon as the saboteurs were caught in order to discourage further actions of that type. The FBI arrested all eight within two weeks of their landing.

ABC SHOWED CONGRESSMAN DON EDWARDS SAYING: "MR. HOOVER WOULD GO TO THE APPROPRIATIONS Committee every year and show...that for every dollar spent on the FBI, the FBI got back \$1.15 or \$1.20 or whatever the figure might be. And the subcommittee started to wonder about these figures...and so we asked the General Accounting Office to audit those statistics...and the General Accounting Office found out that the statistics really didn't hold water." The GAO report Edwards was referring to was an analysis of the data for the fiscal year ending July 1976, four years after J. Edgar Hoover's death.

ABC NEWS STARTED OFF CHARGING THAT HOOVER'S AMBITION WAS "TO CONTROL AMERICAN society itself." They ignored the evidence that refuted this. In the early days of the Nixon administration a plan was devised to get around existing restraints on the collection of domestic intelligence. It was called the Huston Plan. It was scuttled when Hoover opposed it, saying that the FBI would not undertake any investigative step bordering on unconstitutional or illegal action without the prior approval of the Attorney General in each individual instance. ABC did not mention that. Ironically, ABC made considerable use of a taped interview that they obtained from the estate of a former Assistant Director of the FBI, William Sullivan, who was a principal author of the Huston Plan. Sullivan's hatred of Hoover is said to have stemmed from Hoover's torpedoing the Huston Plan. Sullivan, who authored and promoted many of the abuses for which the FBI has been criticized, was presented as a "good guy" by ABC to attack the "bad guy," J. Edgar Hoover.

WHEN ABC PERSONNEL SOUGHT THE HELP OF THE SOCIETY OF FORMER SPECIAL AGENTS IN making the program on Hoover, they assured them that the program would be an objective and balanced evaluation of Hoover's leadership of the FBI. Interviewing the president of the society, Mr. Joseph Sizoo, ABC's Patricia Lynch was interested only in critical comments on Hoover or cases of conflict with him. Lynch explained that she already had a surplus of favorable references to Mr. Hoover. If she had such comments, she didn't use them. We counted 21 interviews in the program, including the Sullivan tapes. Only three of them, occupying a total of 11 lines in the ABC transcript, were favorable to J. Edgar Hoover. W. Richard Glavin, a former Assistant Director of the FBI whose interview was not used by ABC, wrote to thank ABC for not associating him with the program. He said: "The program had one purpose only, to destroy the image of a great and dedicated American....Deliberately and viciously smearing a public servant, for no useful purpose, who can no longer defend himself, reaches the depth of degradation in media news coverage."

We urge you to write to the sponsors of this program to let them know what you think of their association with it. The following are the addresses of the sponsors.

Dear Deke:

Thank you for your letter of May 24, 1985, and

From a review of his resume, [redacted] appears
to be a talented young man. Unfortunately, he is beyond the
maximum age limit established by the Attorney General for
entry on duty as an Agent, and we at the Bureau do not have
the authority to waive this age requirement. We do, on very
infrequent occasions, request exceptions to the age limit from
the Department of Justice; however, such requests are only
sought under certain conditions. Although his background is
impressive, the circumstances in Mr. [redacted] case simply do
not meet the established criteria for requesting an age waiver.

Although I am unable to respond favorably concerning
Mr. [redacted] prospects of becoming an Agent, I certainly
appreciate your taking time from your busy schedule to bring

From the comments in your letter, it sounds like

Mr. John Edgar Hoover
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Boss:

I plan to give a small, stag dinner party on Wednesday night, September 28th, at Billy Martin's Carriage House (the Cognac Room), for the new American Legion National Commander, John Davis. It would certainly give me a great deal of pleasure if you and Mr. Tolson could attend.

No Locality

There will be approximately ten people at the dinner, including Senators Karl Mundt and George Murphy. Davis has been extremely cooperative and helpful to us for many years and, as National Commander, he will be of considerable assistance.

I know how difficult it is for you to attend social functions; however, we would all feel very honored if you could find it possible to be there.

Sincerely,

C. D. DeLoach

CORRESPONDENCE
FBI/DOJ

Mr. DeLOACH, who retired from the FBI as Assistant to the Director in the early 1970s, brought the original information in this matter to the attention of the FBI. A boat captain friend of Mr. DeLOACH's mentioned to him that a person on Hilton Head Island had made several approaches to him which appeared to be an invitation to participate in bringing drugs into the United States. Mr. DeLOACH immediately contacted the Senior Resident Agent in Beaufort, South Carolina, and arranged a meeting with the subsequent Cooperating Witness (CW). As a respected leader in his community he offered encouragement to the CW (and his wife) to participate fully in the ensuing major investigation. His support continued in many other ways including discreetly placing us in contact with a cooperative realtor to arrange property rentals, opening the bank, of which he is chairman of the board, after hours for the counting and storage of large sums of money, and hosting a "Job Well Done" function on the day of the initial arrests for all participants for the FBI and other local and Federal law enforcement agencies.

This case only typifies Mr. DeLOACH's continuing support and interest in the welfare of the FBI and exemplifies "Once an agent, always an agent."

Dear Mr. DeLoach:

My associates in Columbia have advised me of the role you played in bringing about a successful drug investigation in your area, and they join me in thanking you for your valuable assistance.

You encouraged a friend of yours who had been approached to transport drugs into the United States on his boat to cooperate fully with the FBI in the ensuing major investigation. As the case progressed, you continued to offer your support in many other ways, including discreetly placing our Agents in contact with a cooperative realtor to arrange property rentals and arranging to open the bank after hours where you are chairman of the board for the purpose of counting and storing large sums of money to be used during this operation. Then on the day of the initial arrests in the case, you generously hosted a "Job Well Done" function for all in the FBI and other local and Federal law enforcement agencies who participated in this important investigation. I know this meant a great deal to our Agents, and we very much appreciate your continued interest in the FBI's effective pursuit of its mandated responsibilities. Accomplishments to date include the seizure of over a half ton of cocaine, over \$662,000 in cash, a half-million-dollar residence, several boats and cars, and the arrest of nine subjects, including several from Colombia, South America.

In light of the above, you have our deepest thanks for a "Job Well Done."

Sincerely yours,
William S. Sessions

Dear Mr. DeLoach:

I received your letter of September 8th and am sorry you were unable to be with us to celebrate the 25th Anniversary of the "FBI, Washington" radio series. It was an enormous success, and I think you would have particularly enjoyed renewing old acquaintances from the days of the Crime Records Division. I do, however, understand perfectly the demands on one's time, but I hope there will be other opportunities for you to visit us at FBI Headquarters.

John Otto relayed to me what a pleasure it was for him to be with you and the other representatives of the J. Edgar Hoover Foundation who attended the opening ceremonies of the new J. Edgar Hoover Room at the Masonic Temple here in Washington. The Foundation can take pride in this further tribute to a great American.

Thank you for your hospitable invitation to visit Hilton Head. It would be most relaxing, I am sure, and I hope I can find time to take you up on your offer at some later date.

With best regards,

Sincerely yours,

Re: CARTHA D. DE LOACH
FORMER ASSOCIATE DIRECTOR
REQUEST FOR BUREAU SPEAKER

This afternoon I received a telephone call from former Associate to the Director, Mr. Cartha D. DeLoach. Mr. DeLoach advised me that on Wednesday, 28 April 2004, @ 10 AM, a delegation of civic and business leaders, including the mayor, from Hilton Head Island, S.C., would be in Washington and have expressed a desire to visit FBIHQ. Specifically, they have asked to meet with Bureau experts who could brief them regarding the modern FBI, and FBI counter terrorism efforts. Mr. DeLoach indicated to me that this group has between 45 minutes to 1-hour for this purpose.

I told Mr. DeLoach that I would pass this along and that I was very optimistic that we could help him in this instance.

For your information, Mr. DeLoach, who was the third ranking official in the FBI at the time of his 1970 retirement, and a protégé of former President Lyndon Johnson, has consistently assisted the FBI in retirement. Some years back he played a major role in assisting FBI Columbia take down one of the largest drug operations in South Carolina history. Further, he has steadfastly assisted OPA for many, many years by making numerous televised appearances on behalf of the FBI when asked to do so.

In recognition of Mr. DeLoach's past (and current) support of the FBI, your schedule permitting, I would like to request that you meet with this group to discuss today's FBI. I know it would mean a great deal to Mr. DeLoach, and would doubtless assist FBI Columbia. He has assured me that these individuals are prominent both in their community and in the State of South Carolina.

With your permission I will also arrange for a speaker from CTD, who could brief them on the FBI's counter terrorism.

Thank you, for your consideration.

Respectfully,
