See answers embedded below.

[redacted] As evident from the below questions, there is still a need to get policy guidance out to the field on requesting disclosure of information from providers in exigent circumstances under 18 USC 2702. That was the objective of the draft EC on voluntary disclosure under exigent circumstances. What is the status of that EC--attached below.

Greetings,

In addition to the EC I forwarded to you yesterday, attached is a EC (with guidelines) delgating authority for use of WITT to UC level.

CELL-STD 000565

Previously a SC had to approve.

The guidelines establish the authority levels for various scenarios. This is as important if not more so that the delegation to the UC level instead of SC level.

Thanks for taking the time to get together on Monday and review potential area of compliance risk relative to the [redacted]

I've put together a summary of my notes and a little extra stuff in an attempt to describe these issues. I have included a couple of brackets requesting additional input and would appreciate if you would rank these issues in terms of priority or significance of risk. I welcome all comments.

I need to produce a Leading Risk Indicator Report by next Thursday Dec. 13. So anything you could provide prior to that date would be much appreciated.

Domestic Police Cooperation authority is [redacted]

62-3.3 Policy

(1) Upon receipt of requests for investigation from local or state law enforcement agencies involving matters in which there is no FBI jurisdictional interest, the FBI's cooperative role will be limited to the acquisition of records or information from the criminal files of local or state law enforcement agencies or records of nongovernmental organizations and concerns and other governmental agencies.

(a) Records or information are defined as material normally available to law enforcement agencies which can be obtained without a court order.
(b) When obtaining material outlined above, dissemination authority must be obtained from that agency providing the records/information, when appropriate.
(2) In addition to record gathering and dissemination noted above, the FBI can act in a liaison capacity between local and state law enforcement agencies to facilitate one agency handling the investigative requests of another.
(3) The FBI, on behalf of a local or state law enforcement agency, may verify the location of an individual. No interviews with subjects, suspects, or witnesses should be conducted by Bureau personnel. No extensive efforts are to be expended to locate individuals for interviews. FBI personnel are to merely verify their whereabouts, such as at a residence address or employment, etc.
(4) Domestic Police Cooperation matters received in the field should be opened on an individual case basis, the subject of the record indexed to the general indices, resulting disclosures recorded in accordance with Privacy Act requirements and maintained in accordance with existing instructions pertaining to the destruction of field office files and records, MAOP, Part II, 2-4.5.
(5) SACs may approve use of FBI resources on behalf of local and state agencies providing such action falls within the above guidelines. No communication need be forwarded to FBIHQ advising of the initiation of a Domestic Police Cooperation investigation.

(6) Name check requests for a review of pertinent information contained in our central records system received by FBIHQ from authorized state and local criminal justice agencies will be | processed by the|Executive Agencies Dissemination|Unit, Information|Management Division, in accordance with MAOP, Part II,9-3. Would you mind speaking to the AUSA directly. [redacted] I would think we could use a "search" or "seizure" warrant as long as we were careful on our verbage. I'll get the AUSA's contact info if you like.

Thanks,

Phone call w [redacted] on 8/10/10 @ 2:45

Called to let me know she'll be providing a spreadsheet w/ changes/mods for POs – some of the pricing we're using isn't the best pricing. They included GSA and Contract pricing and allowed us to use whatever was "cheapest." We used contract pricing not knowing there were two price lists. She calculates approximately [redacted] in changes – credits.

[redacted] is also working on one consolidated price list for the contract to avoid future confusion. She has suggested that we do a quote per order to ensure most up to date pricing [redacted] sees this as a potential administrative burden if pricing has already been established.

[redacted] also is under the impression that if the GSA contract pricing adjusts (something allowable under the GSA Contract vehicle) we would be able to take advantage of lower prices or pay more if prices went up. [redacted] informed her that that is NOT how FFP contracts work. Both parties will look into this before making final determinations. [redacted] needs to discuss w/ OGC the feasibility of having "2 contracts" under one and the ability to change pricing mid stream like that on an FFP contract.

[redacted] noted that each cost proposal on the TOs had lengthily conditions and assumptions [redacted] said these were inserted per the original contract. Reference 2.6 is from the original SOW for the contract.

I am inquiring as to how you would like me to proceed. I have a request from the OTD has worked for several years to upon acceptance of the attached NDA. Before an NDA must be signed. We can pursue this in two ways: 1. You or your SAC can submit the NDA to have them sign the enclosed NDA, one per individual, or I can travel and perform same. Wanted to run this by each of you. The attached documents are the requesting letter from and the actual FBI approved NDA.. The requestors are required to each sign an NDA and are specifically identified in the attached pdf file.

(U~~//FOUO//LES~~) Good day. I was notified by that the WITT , my unit manages the sign a nondisclosure agreement with the FBI. I can coordinate this requirement directly with I can provide you with the NDA and background information should your division want to lead the task.

(U~~//FOUO//LES~~ but is the result of several years effort The underlying point of the NDA is that the are Law Enforcement Sensitive, and we don't want such information released absent specific approval by the AD OTD. I've attached a copy of the NDA for your review, but it is not for dissemination outside the FBI.

<< File: NDA WITT 08282011.pdf >>

(U) As I said above, we can pursue this in one of two ways: 1) you or your SAC can submit the NDA, which my unit will prepare, to [redacted] and have them sign the NDA, or 2) I can communicate directly with [redacted] and perform same.

(U) Please advise how you would like me to proceed or, if I can answer any questions, please contact me.

Best regards,

I am inquiring as to how you would like me to proceed. I have requests from the OTD has worked for several years to upon acceptance of the attached NDA. Before an NDA must be signed. We can pursue this in two ways: 1. You or your SAC can submit the NDA to have them sign the enclosed NDA, one per individual, or I can travel and perform same. Wanted to run this by each of you. The attached documents are the requesting letter from and the actual FBI approved NDA.. The requestors are required to each sign an NDA and are specifically identified in the attached pdf file.

If I can answer any question feel free to contact me directly
