Re Bulet to Albany dated 5/28/68; El Paso letter to the Director dated 6/6/68: El Paso letter to the Director dated 6/11/68.

Referenced Bureau letter instructed that detailed information, in form suitable for dissemination, should be submitted for each college and/or university where organized New Left groups are in existence or where there have been campus disturbances during the past year.

No information has been developed that there are any New Left groups or organizations active at the three colleges in the El Paso Division. These three colleges are the University of Texas at El Paso, El Paso, Texas (UTEP); Sul Ross College, Alpine, Texas; and Odessa Junior College, Odessa, Texas.

In view of the fact that there are no New Left organizations at any of the colleges, no LH is are being submitted.

As set forth in referenced El Paso letter dated 6/6/68, the only group that could even be possibly considered in this category is the Student Action Committee on Foreign Policy (SACFP) also known by the short name of Student Action Committee (SAC). This group, which is a duly-established student organization sanctioned by the University of Texas at El Paso, existed on campus during the 1966-1967 and 1967-1968 school years and was of minor significance

This group is not currently active and it is not known whether the group will be re-established at the beginning of the school year, 1968-1969. In any event, the group has not been involved in any disruptive activities or violence of any type, and there are no known subversives involved therein.

Regarding campus disruptive activities during the past year, there was only one minor incident which could not be attributed to any particular organized group on campus.

This incident involved the attempted disruption of an "All Comers" track meet held at UTEP on 4/17/68, by supporters of the Negro athletes who were dropped from the track team of UTEP for refusing to participate in an Easter Sunday track meet. This disruption consisted of a number of UTEP students, mainly females, who were attempting to prevent the finish of a relay race. One Negro male was escorted from the field but was allowed to return, and no further difficulty was encountered.

In the above-described incident, the UTEP administration took a firm stand that the Negro athletes would not be reinstated, that the dismissal from the team for refusing to participate in a regularly scheduled athletic event was made in accordance with long-standing precedent and that the players had violated the terms of their scholarships with the University. A similar track meet was held the following Saturday without any incident or further action on the part of the students involved on 4/17/68. There has been mo attempt on the part of any student groups to disrupt or take over the college campuses in the El Paso Division and the number of students involved in the track meet incident was very small.

EP 100-6075

Inasmuch as at the present time there are no "New Left" or militant organizations in existence on any of the college campuses in the El Paso Division, no known situations which would create violence, and no known subversives or Communist party members in attendance at any of these universities at the present time, the potential for violence on campuses for the forthcoming school year would necessarily be considered as negligible.

It must be recognized, however, that this situation could change with an influx of militants and/or subversives during the coming school year and El Paso will continue to be alert to the situation through established sources, military intelligence agencies, campus security officials, and public sources.

The El Paso Times, local El Paso daily newspaper, dated 4/14/68, page 1, Section E, contained an article indicating the following:

"Brigham Young University Wins Triangular Meet"

The University of Texas at El Paso (UTEP) was without the services of eight Negro athletes, including at the triangular meet with Brigham Young University, held 4/13/68. This group boycotted the meet and remained in El Paso. They claimed that there were beliefs at Brigham Young University that Negroes were inferior and disciples of the devil. As the enclosures indicate, former comedian DICK GREGORY and Professor militant from San Jose State College, San Jose, Calliornia, were at UTEP on 4/5, 6 and 7/68. It seems reasonable to onclude that these two had something to do with influencing the Negro athletes to refuse to participate in a track meet with Brigham Young University.

advised that most of these athletes have subsequently dropped out of UTP.

It should be noted that about 45 days ago in a lengthy interview in the El Paso Herald Post, local daily newspaper, and the Clympic games this fall.

No additional investigation has been conducted to get exact present circumstances of the individuals concerned to avoid any possibility of having the FBI connected with the proposed, anonymous letter. It is felt that if additional inquiry were made, even among established sources, the FBI would be connected with these anonymous letters, at least in the minds of the persons contacted. Obviously, in such a case, there would be considerable temptation on the part of those contacted to talk to others.

It is suggested that the following letter be sent to each of the following individuals by name:

and the other athletes involved, are not listed in the UTEP Student Directory and, therefore, no addresses for them are available. The suggested letter is as follows:

RP 100-6075

Dear Sir:

How are you getting along now? A few months ago, you had a privileged position as a student and a track star at UTEP. You had an opportunity to make yourself a prepared person - prepared to occupy a useful place in the community.

Then came the Brigham Young University Track Meet which you chose to boycott for cheap political reasons.

Was this smart or have you muffed your big opportunity?

What do you think of your advisers, were they looking out for you or for someone else?

A Concerned Alumnus

As instructed, the El Paso Office will take no action regarding this matter until approval has been received from the Bureau.

The April 18, 1968, edition of the El Paso Times, an El Paso daily newspaper, contained an article captioned, "Demonstrations Interrupt Neet; Cops Restore Order." This article reflected that at an all-comers track meet held at the University of Texas at El Paso (UTEP) on the evening of by "Black Power" student April 17, 1968, demonstrations advocates threatened to call a halt to the track meet. article stated that no violence occurred but that constant jeering by a group of about 35 militant Negroes took place and a few of them jumped on to the track to block some of The demonstration Wednesday night. School officials said that the athletes had disassociated themselves from the track team by their actions. track meet started with the usual field events without any incident. Then during the last leg of the 440 yard relay, a group of Negro students, mostly female, jumped on to the track from the bleachers, linked arms and prevented the finish of the race. Dr. Jimmy Walker, Dean . of Students, politely asked the group not to repeat their actions, stating, "You are putting yourselves in jeopardy." Following a loud and somewhat lengthy discussion, the students agreed to permit the running of the mile event without intervention. Following completion of the mile, the meet was temporarily suspended while the students jeered Walker's efforts to keep order. Walker's attempts to restrain the students were to no avail when the 120 yard high hurdle event took place. Negro girls, egged on by their male companions, again jumped on to the track and formed a cordon to block the runners. 100-4496

who up to this point had not brought uniformed police on to the field, warned the militant group that any further blocking of events would result in arrest. Some two dozen officers then marched on to the field and took up positions along the track, opposits the bleachers occupied by the Black Texas Department of Power advocates. With several Public Safety Patrolmen, six Sheriff's Deputies and City Police to assist the Campus Police, the 120 yard high hurdles and several other events were rerun, all without incident. As officials were setting up for the next event, & a Negro student, wearing a shirt with the New Mexico State University insignia, dared police to remove him from the field. Two of the Campus Police Officers promptly removed him from the field. As he was escorted out the gate, the crowd, joined by several white counterparts, raised particular objection to the action. A short while later, the student was permitted back on to the field, escorted by a coach and taken to the locker rooms. At this point, the "Black Power" students left the stadium and the last event was run.

AFRO-AMERICAN STUDENTS ASSOCIATION Also known as United Afro-American Students University of Texas at El Paso (UTEP) RACIAL MATTERS

On March 28, 1968, EP T-1, who has furnished reliable information in the past and who is in a position to be familiar With activities of Negro groups in the El Paso area, advised that letters have been recently sent out on the letterhead stationery of the University of Texas at El Paso, Texas, inviting various people to attend the Black Student Conference which we to be held April 5, 6 and 7, 1968, at UTEP and which was being sponsored by the United Afro-American Students. invitational letters reflected that Harry Edwards of San Jose. California, and comedian Dick Gregory would be featured speakers. It also reflected that Lee Evens, a track star from San Jose College at San Jose, California, would also be a would comment on the role of the black student and athlete in campus life. This letter of invitation was signed by the Publicity Chairman of the United Afro-American Students, one Willard Lewis. .

On April 5, 1968.

Texas, furnished a mimeographed copy of the scheduler events of the forthcoming Black Students Conference to be held at UTEP April 5 through 7, 1968. The highlights of this schedule of events are as follows:

Friday, April 5, from 7 to 9 p.m., registration and informal mixer

Saturday, April 6, 9 to 9:30 a.m., a talk by Alexander C. Sutton, Chairman, United Afro-American Students. 2:30 to 4:15 p.m., address by Dick Gregory. 6:00 to 7:30 p.m., a banquet

at the Desert Hills Notor Hotel, El Paso, Texas. 8:00 p.m., address by Harry Edwards.

Sunday, April 7, 9 to 9:30 a.m., address by Les Evans.

The schedule of events also noted participation by
who was identified as the
of the United Afro-American Students;
identified as a fine of the United Afro-American
Students; and
of the United Afro-American Students. The schedule of events
noted that all activities with the exception of the banquet
on Saturday night were to be held in various buildings on the
campus at UTEP.

On April 6, 1968, EP T-2, a representative of another Government agency which collects information of an intelligence nature, advised that the crowd of persons which attended the major events of the Black Students Conference at El Paso consisted of approximately 215 persons, with about 50% being Negroes. The speech given by the state of this conference began about 8:15 p.m. on April 6, 1958, and lasted until 9:42 p.m., when a question and arxive period started. This session lasted until 10:15 p.m., when the left the campus. The speech was not overly well received by the white persons in the audience and the Negroes applauded the most. It is not a spell binding speaker and at least one individual was seen leaving the audience before the end of the session.

On April 6, 1968, EP T-3, a representative of another agency which collects intelligence-type information, advised that the speech of comedian Dick Gregory given in connection with the Black Students Conference at UTEP on April 6, 1968, was held without incident. Approximately 135 to 140 persons was registered for the Black Students Conference, the majority being Negroes, with some out-of-town visitors. EP T-3 advised that as of 5 pm on Saturday, April 6, 1968, there had been no incidents at UTEP and everything second to be progressing peacefully and on schedule.

The April 7, 1968, edition of the El Paso Times one of the two major daily newspapers at El Paso. Texas. carried an article concerning the speakers at the Black Students Conference. The article was captioned, "Speakers Say System Eust Change." The article noted that Gregory in his speech said that if the young whites understood the system then things would be all right and that the system was perpetrated by the whites and that it is making the blacks the scapegoats of crime, illegitimacy, violence and poor culture. Gregory said that the whites should "gather around the television set and watch the Black Revolution and while they are watching, they should hold a copy of the Declaration or Independence and recite the part about whenever any form of government becomes destructive of inalienable rights, it is the right of the people to alter or to abolish that government." Gregory spoke briefly on the question of open housing and on the question of "black boys dating white girls." Gregory also made a statement which, according to the newspaper article, summed up his attitude on the Social Revolution. This statement was, "I am not mad at the whites, I am mad at the system."

The above article also noted that a Black Power advocate, in his speech said that Senator Robert Kennedy uses the "Novocain effect" on minority groups by telling the minority groups that progress is being made in charged the nation's universities civil rights. with exploiting black athletes and singled out the UTEP _____ as being one of the exploiters. talked about his advocacy of the boycott of the Olympic games and accused the Olympics as being a propaganda agency for the Central Intelligence Agency, and the U.S. Information Agency. further stated, "Americans have buried their last Dr. King. From now on it will be a life for a life. Americans can deal with me, Rap Brown, Stokely Carmichael and other black leaders. Forget about nonviolence." Edwards said that the assassination of Dr. King would not affect the black movement but would affect the racist movement. regards to this, he said "You will bury more but it will be leader for leader." continued talking Black Power and likened the local Mexican Americans in El Paso to the 🧐 Megroes in the South, saying that they were also being exploited.

The above article noted that Dr.

a black Associate Professor of Fine Arts at Arizona State
University, spoke on "Black Art."

entioned that
several well known art pieces were done by Negroes and
used as examples - the eagle on the Security Building in
Washington, D.C. and the CBS television eye.

On April 8, 1968, EP T-4, who has furnished reliable information in the past and who is in a position to be aware of activities on the campus at UTEP, advised that at UTEP, is the of the that they should kick out and blak out Airo-American Student Group. During the course of the out and kick out all of the white people in the group. EP T-4 also noted that was scheduled to make a speech to the group on Sunday morning, April 7, 1968, but that he canceled his speech. BP T-4 further advised that some of the Negro athletes gave a story to release to the press on the East and West Coasts. This story alleged that the wife of of UTEP, was promised a job by the Athletic Department but that she never did get the job. Because of this, the Negro athletes and possibly some of the white ones at UTEP plan to boycott the next track meet of UTEP. EP T-4 advised that at UTEP, got wind of this and that went in an hour after he and called off the learned of this press release. The black athletes then contacted press release. The athletes still have a "list of gripes" to present to the University officials. EP T-4 noted that according to the athletes who have been invited will not go to the Olympics.

On April 7, 1968,

El Paso International Airport, advised that
departed El Paso, Texas, at 2:25 p.m. via Continental Airlines
Flight 105 en route to Los Angeles, California, via Phoenix,
Arizona and Los Angeles, California.

further advised
that Dick Gregory departed El Paso at 4:55 p.m. en route to

The following is the situation in the El Paso Division at the end of the three-month period commencing 7/1/68:

1. At present, there is one organization which could be considered for a potential counterintelligence action, that being the organization known as the Student Action Committee on Foreign Policy (SACFP), also known by the short name of Student Action Committee (SAC). As set forth in the referenced El Paso letter, this group is a duly established student organization at the University of Texas at El Paso (UTEP) and is recognized as such by University authorities. Though the group cannot be considered as falling clearly within the "New Left" caption, its activities are beginning to be anti-Vietnam and anti-draft and there has been some talk of guiding the organization along the line of "New Left" activities.

There is no pending counterintelligence action at this time, however, the activities of the SACFP will be followed through established sources and informants and should any opportunity for a counterintelligence action present itself, the Bureau will be immediately advised so that authorization may be obtained for implementation of such 100-449698-1 action.

To date, there have been no tangible results from this program.

Since relet dealt more with racial matters the caption should refer to the racial Counterintelligence Program.

The Bureau does not feel that the proposed anonymous letters would be effective. The Bureau appreciates your suggestion and would be interested in counterintelligence measures to neutralize former comedian Dick Gregory.

NOTE:

El Paso suggested sending anonymous letters to
Negro athletes at the University of Texas at El Paso.
These athletes boycotted an athletic meet with Brigham Young
University, perhaps on the instigation of former comedian
and militant black nationalist, Dick Gregory who appeared
at the college. It is not believed that a single anonymous
letter noting that the athletes are no longer privileged students
would have any effect. This matter has been coordinated with
the Internal Security Section.

Re Bureau airtel to SAC, Albany dated 10/9/68.

Enclosed herewith for the Bureau is one duplicated copy of a six-page memorandum entitled "The Student As a Nigger" by JAY FARBER and signed by the Student Action Committee, RON VINCENT, President, Dr. EDWARD LEONARD, Spensor.

This was obtained on October 8 1968, by SA from
El Paso, who advised that this was being circulated at the University of Texas at El Pasc (UTEP). The number of copies in circulation is not known, but it is believed that the enclosed copy cannot be traced.

The Student Action Committee on Foreign Policy is a legitimate organization and recognized by the authorities at UTEP. RON VINCENT is a student there and President of the organization. Dr. LEONARD is on the faculty and is the Sponsor.

The Burcau has been advised regarding this organization by El Paso letter captioned STUDENT ACTION COMMITTEE ON FOREIGN POLICY (SACEP), UNIVERSITY OF TEXAS AT EL PASO (UTEP), IS - INFORMATION CONCERNING dated Cetober 29, 1968.

It is suggested that copies of the enclosed memorands be sent to the Editors of the El Paso Times and the El Paso Herald-Post, local newspapers in El Paso, Texas, to Mayor JUDSON WILLIAMS of El Paso, and to the Honorable FRANK C. ERWIN, JR., Chairman of the Board of Regents, University of Texas, Austin, Texas, 78705. The Board of Regents of the University of Texas at Austin, Texas, is the highest administrative authority of UTEP as well as the main university at Austin,

It is suggested that the following cover letter be sent with the enclosed memorandum to each of the above individuals by name:

Enclosed herewith is a letter now going the rounds at UTEP. As you can see, it is stupid, obscene and misses the whole point of a college education. It makes me wonder what kind of students we have now a days and especially how a professor can be mixed up in this. What kind of a teacher is this Doctor Leonard? Where is he trying to lead his students? Does this stuff help them to be good citizens?

Frankly, if many of our students and professors like this sort of thing, I am not only shocked, but not in the least interested in supporting the University of Texas at El Paso financially or any other way.

Signed: Indignant Grad.

As will be noted the enclosed memorandum is not as legible as it might be. The El Paso Office has made and retained two Xerox copies from the enclosed memorandum and they are even less legible. If the Bureau approves the above, it is suggested that the memorandum be sent to the FBI Laboratory with the request that five copies, as legible and authentic in appearance as possible, be made.

If the above is approved by the Bureau, the letters will be mailed promptly to the above individuals.

In the absence of individuals in the New Left area who have advocated or precipitated violence in the El Paso Division, action in this field is limited to the development of additional sources who may be in a position to exert a positive influence to guide students into legitimate, non-violent channels. The El Paso Office is alert to the development of additional individuals in this field.

legitimate non-violent channels. Each of these sources maintains contact with pertinent individual students. It is believed that this will tend to be disruptive of any future developments toward illegal and violent activities.

In connection with the last above-mentioned individual, it should be noted that he is developing a friendly, personal relationship with RON VINCENT, President of the Student Action Committee on Foreign Policy at UTEP, which is a legitimate organization and recognized by the authorities at UTEP. The Bureau has been advised regarding this organization by El Paso letter captioned "STUDENT ACTION COMMITTEE ON FOREIGN POLICY (SACFP), UNIVERSITY OF TEXAS AT EL PASO (UTEP), IS - INFORMATION CONCERNING" dated 10/29/68.

3. Tangible results:

As yet, no tangible results have been noted in regard to the obscene document, mentioned above.

It is felt that the above listed racial sources and informants have been able to exert some positive influence over key students in directing their activities into legitimate, non-violent channels. This judgment is made on the basis of the fact that no violent course has yet been taken by any of the students in the El Paso Division.

Students are niggers. When you get that straight, our schools begin to make sense. It's more important, though, to understand why they're niggers. If we follow that question seriously enough, it will lead us past the zone of scadenic bullship, where dedicated teachers pass their knowledge on to a new generation, and into the nirry-gritty of huran needs and hang-ups. And free there we can go to consider whether it might ever be possible for students to come up from slavery.

First let's see that's happening now. Let's look at the role students play in that we like to call education.

At Cal State L.A., where I teach, the students have spearate and unequal dining facilities. I I take them into the faculty dining room, my rolleagues get unconfortable, as though there were a bed small. If I eat in the student caferaria, I become known as the educational equivalent of a niggerlover. In at least one building there is an unwritten law tarring student-faculty loveraking. Fortunately this anti-miscepenation law, like its Southern counterpart, is not 100 percent effective.

Students at Cal State are politically disenfranchized. They are in an academic Lowndes County. Nost of them can vote in national elections—their average age is about 26—but they have no voice in the decision which affect their scademic lives. The students are, it is true, allowed to have a toy poverment run for the most park by Uncle Tens and concerned principally with trivia. The faculty and administrators decide what courses will be offered; the students get to choose their own Remocaning Queen. Considerally when student leaders get topping and rebellious, they're either ignored, put off with trivial concessions, or manocuvered expiritly out of position.

A student at Cal State is empected to know his place. He calls a faculty member "Sir" or "Dector" or "Professor" -- and he smiles and shuffles some as he stands cutcide the professor's office waiting for permission to enter. The faculty tell him what courses to take (in my department, English, even electives have to be approved by a faculty); they tell him what to read, what to write and, frequently where to set the margins on his typewriter. They tell him what's true and what isn't. Some teachers insist that they encourage dissent but they're almost always jiving and every student knows it. The "I tell can rive he wents to hear or he'll fail your ans out of the course.

When a reacher says "jump," students jump. I know of one professor who refused to take up class time for exams and required students to show up for tests at 6:30 in the morning. And they did, by God! Another, at each time, provides susver earlis to be filled out -- each one enclosed in a paper hay with a hole cut in the top to see through. Students stick their writing houds in the bags white taking the test. The testher fan't a provo; I wish he were. He does the provent chartestage. Another collected once cought a student reading during one of his Instead and three her book against the wail. Still enother lectures his students into a stupor and then screams at then in a rage when they fall assleep.

Just last week during the first resting of a class, one girl got up to leave after about ten minutes had gone by. The teacher rushed over, grabbed her by the arm, saying "This class is not insidead!" and led her back to her seat. On the same day another teacher began by informing his class bhat he does not like beards, mustaches, long heir on boys, or capri punts on girle, and will not tolerate any of that in his class. The class, incidentally, charicted mostly of high school teachers.

Even more discouraging than this Auschuitz approach to education is the fact that students take it. They haven't gone through 'walve years of public school for nothing. They've learned one thing and perhaps unly one thing diving those twalve years. They've forgotten their algebra. They're hopelessly vigue about chemestry and physics. They've grown to fear and resunt literature. They write like they've been lebetouized. But, Jesus, can they follow orders: Trashmen come up to me with an essay and ask if I want it folded, and whether their name should be in the upper right hand corner. And I that to cry and kiss them and corners their poor totured heads.

Students don't ask that orders make sense. They give up expecting things to make sense long before they leave elementary school. Things and true because the teacher says they're true. At a vary early age we all kern to accept "too truth," as did certain medieval churckeen. Outside of ades, things are true to your tongue, your fingers, your stomach, your heart. Inside class, things are true by reason by authority. And that's just fine because you don't care anyway. Hese Viedensyer tells you a noun is a person, place or thing. So let it ba. You don't give a rat's ase,

The impostant thing is to please her. Each in hindergertten you found out that teachers only love children who seemd in nice straight lines. And that a where it's been at ever since. Nothing charges except to get wome. School becomes more and ubre obviously a prison. Last year I spoke to a switch assembly at Hanual Arts High School and then couldn't get out of the god-dama school. I want there was NO MAY OUT. Locked doors. High faces: One of the impates was trying to make it over a fence when he saw we coming and froze in panic. For a moment I expected sirens, a rattle of builders and him clawing the fence.

Ther there's the inferous "code of dress." In some high schools, if your chire locks too short, you have to kneel before the principal, in a brief allegory of fellatio. If the hear doesn't reach the fleor, you go have to charge while he, presumably, jacks off, Boys in high shood can't be too sloppy and they can't even be too sharp. You'd think the school board would be delighted to see all the spades trooping to school in pointy shoes, suits, ites end stirgy brims. Uh-uh. They're too visible.

What school erounts, to, then, for white and block kids alike, is a 12-year course in how to be slaves. What else could explain what I see in a freshman class? They've got that elave mentality: obliging and ingratiating on the surface but hostile and resistent underneath.

As do black claves, students very in their awareness of what's going on. Some recognize their own put-on for what it is ond even let their rebellion break through to the surface now and then. Others- including must of the "gord students"have been more deeply brainweshed. They swallow the builshit with gready mouths. They honest-to-God believe in grades, in busy work, in Gazeral Education registements. They're like those old grey-heared house niggors you can still find in the South the don't see what all the fuse is about because her. Gearlie "greats as real good,"

College entrance requirements tend to favor the Tons and acreen out the rebels, of entirely, of courts, Same students at Cal State L.A. are expert con artists to know perfectly wall that's happening. They want the degree or the 2-5 and send their years on the old plentation alterentely laughing and cursing as many play the games, if their gos are strong enough, they cheat a lot. And, I course, exen the Tons are angry down deep somewhere. But it comes out in assive rather than active aggression. They're unexplainably think-witted and object to frequent spells of lawiness. They misroad simple questions. They rend their nights mechanically outlining history chapters while meticalously liling to comprehend a worll of what's in front of them.

se saddest cases sworg both black slaves and student slaves are the ones who was so thorogoly introjected their masters' values that their arger is all smed idward. At Cal State there are the kids for whom every low grade is orture, who stammer and shake when they speak to a professor, who go through an cotional crisic every time they're faces festcomed with fresh pimples; their swals boil sudibly across the room. If there really is a last Judgment, then we parents and teachers who created thes wrecks are going to burn in holl.

b students are niggers. It's time to find out why and to do this up have to the a long look at Hr. Charlie.

e teachers I know best are college professors. Outside the classroom and taken a group, their most striking characteristic is timidify. They're short on allo.

est look at their working conditions. At a time when even migrant workers have gun to fight and win, college professors are still afraid to mike more than a token effort to improve their pitiful economic status. In California state plieges the faculties are severed regularly and figourously by the Governor and Legislature and yet they still won't offer any solid resistance. They lie flat their stomachs with their pants down, numbling catch phrases like "professional ignity" and "meaningful dislogue."

rofessors were no différent when I was an undergraduate at UCA during the Carthy era, it was like a cattle stampede at they rushed to cop out. And in one recent years, I found that my being arrested in sit-ins brought from my clicagues not so much approval or condemnation as open-mouthed astonishment for could lose your job!"

w, of course, there's the Vietnemese war. It gets some opposition from a few achers. Some support it. But a vest number of professors who know perfectly all what's happening, are copping out again. And in the high schools, you can orget it. Stillness reighns.

m ust sure why teachers are so chickenchit. It could be that academic training self forces a split between thought and action. It might also be that the mured security of a teaching job attracts nime timid persons and, furthermore, that aching, Islie police work, public in persons the are uncure of themselves and sed usepons and the other expernal trappings of authority.

egeneral timidity which causes teachers to make niggers of their students uslly includes a more specific fear —fear of the students themselves. After 1, students are different, just like block people. You stend exposed in front them, knowing that their interests, their values and their language are different on yours. To make matters worse, you may suspect that you yourself are the most engating of persons. What then can protect you from their redicule secret Esspect for sutherity. That's what. It's the policiater's gun again. I white bases's pith heimst. So you fiscat that authority. You wither whisperers in a murderous glance. You crush objectors with endicion and heavey from.

teachers's fear is mined with an understandable need to be estained and to feel erieros a need which also makes him cling to his "white supremary." Ideally, eacher should minimize the distance between himself and his students. He uld encourage them not used to need him- oventually or even immediately. But o is rarely the case. Teachero melle themselves high prisets of arcons mysteries. y become mastero of mumbo-jumbo. Even a mere or less conselections teacher be forn between the need to give and the need to held back, tetuese the depire fees his students and the desire to held them in bradege to him. I can find other explanation that eccounts for the way my own subject, literature, as erally thught. Literature, which cuthe to be a course of joy, solace and ighterment, often becomes in the classroom nothing more than a source and isty - at best an erane for expantise, a ledger book for the ago. Literature chers, ofton afraid to join a real union, constheless may pratice the worst d of trade-unionism in the classicon; they do to literature what Decimoson s to sees in Vascor's "Noiszersinger." The evened purpose of Anglish departments to teach literature; too often their real function is to kill it.

cation. The less trained and the less socialezed a person is, the more la cation. The less trained and the less socialezed a person is, the more la ctitutes a sexual threat and the more he will be subjugated by institutions, has positivationies and schools. Many of limit us are more by new of the cerual rosis which makes the contration of legitum a deeply entrusched Southern folkesy, should recognize a similar pattern in education. There is a kind of castration t goes do in schools. It begins before school years with parents' first to the day then they hand you your destoral diploma with a bleading, ivoled fair of tosticles stepled to the partheent. It's not that esmality no place in the classrons. You'll find it there but only in cartain perverted withsted forms.

does see sho up in school? First of all, there's the sedo mesorhistic attouching between teachers and students. That's plenty serval, although price of enjoying is is to be emante of what's happening. In walks the other in his Try Largue equivalent of a notorcycle jacket. In walks the teacher a kind of intellectual rough traders and Flogs his students with grades, tests, recen and scotty superiority exilt until their very brains are eding. sairzering

Mat's missing, from hindergartem to Ereduces school, is boncen recognition of that's actually happening - turned-on suprenses of balry goodies underneath the petti-pants, the thinge and the finness. It's not that san needs to be pushed in shrool; sen is push enough. But we should led it be, where it is and like it is. I don't inslut that ladies in junior high school levingly caress their students' codes (searcisy maybe); however, it is reseccable to ask that he ledies deriffice don't, by exemple and stricture, teach their students to pretend that those cooks aren't there. As things about now, students are sychically eastrated or spayed -- and for the very soud reason that black men we esserted in Georgia; because they're a threat.

so you can add semual repression to the list of ceuses, along with vanity, fear and will to power, that turn the teacher into Ur. Gearlia. You sught also want to keep in wind that he was a nigger easy hirself and has never really getten wer it. And there are note causes, some of which are botter discribed in esiological than in psychological terms. Work them out, it's not hard. But in the scentific what we've got on our hands is a shale lot of niggers. And what. taken this particularly gran is that the student has less chance than themest fack man of getting out of his bag. other result of ctudent slavery is equally scrious. Stedants Con't get ensecipated en they graduate. As a matter of fact, we don't let than graduate until cy've demonstrated their willingness-cover 16 years-to remain slaves. And r important jobs, like teaching, we make them to through more years just to he sure. What I'm gesting forthistops at is that we're all neve or less niggore and aves, teachers and students althe. This is a fact you want to state with in ying to understand wider school phenomena, say, politics, in our country and other countries.

ucational oppression is thicker to fight than racial oppression. If you're black redol, they crust emiliastat you; they either have to including

you. But in high school or college they can just bounce you and the fold.

And they do. Rebel orugents and renegate faculty members set southered or ahot down with devactating commandy. In high school, it is usually the student sho gets it; in college it s more often the teacher. Others get tired of fighting and voluntarity leave the system. This may be a mistake though. Dropping out of college for a rebell is a little k like going North for a begre. You can't really get sway from it so you might so well stay and raise hell?

How do you raise hell? That's a whole other erticle. But just a start, why not stay with the analogy? What have black people done? They have, first of all, faced the fact of their slavery. They've atopped kidding themselves about an eventual reword in that Great Hutemarken Patch in the ely. They've expended, they've decided to get freedom now, and they've started taking it.

Students, like black people, have immoss thused power. They could, theoretically, invist on participating in their own education. They could make coadanic freedom bilatezal. They could teach their teachers to thrive on love and semiration, rather than fear and respect, and to lay down their teachers. Students could liseover consumity. And they could learn to dence by dencing on the IJM cards. They could make coloning books out of the catalogs and they could put the grading system in a museum. They could rame one set of walls and let like come slowing to into the classroom. They could rame enother set of walls and let ucation flow out and lised the street. They could turn the classroom into where it at an affield of action as Foter Harin describes it. And believe it or lot, they could study carnerly and learn prodigiously for the bast of all possible casens. Their own reasons.

They could. Theoretically. They have the power. But only in a very few places, dits herically, have they evently the to think about using \$1. For students, as for black people, the hardest bettle isn't with Mr. Charlie. It's with what his Charlie has done to your mind.
