During the evening of 6/15/70, the source was able to obtain a small box that he observed on the literature table of Mary Markley Mall. This box contained approximately nine hundred, 3" x 5" cards that the source described as the entire list of all dues-paying MUC members. The cards contain name, address, and in most cases, the date dues were last paid (and on some, the amount of this payment). Further, many of the cards reflect the educational institution with which the individual is affiliated.

It should be emphasized that no one observed the source remove the box.

WFO is presently preparing on LEM incorporating the day to day events of the conference and the information that was found on the cards the source obtained. The LEM will show Los Angeles as its place of origin to further protect the source's identity, UACD.

The availability of this NUC membership, with financial records, offers several good possibilities for counter-intelligence programs. The decision as to whether counter-intelligence actions will be engaged in with this information will be left to the Eureau and Office of Origin.

April, 1970 -

AN OPEN LETTER TO SMC MEMBERS ON CAMPUS

In the next few weeks, the destiny of the SMC as the leading student organization in the U. S. will be decided! The student affiliates of the SMC in Washington, D. C. are at this moment breaking their ties with the YSA dominated national office. To long have the students been the unwitting pawns of both the liberal establishment and groups like the Young Socialist Alliance. Only by a complete break from the YSA's domination of our national office can we hope to properly direct the student power of the SMC against injustices in society and on campus rather than lending our implicit support to the formation of a socialist society in the U. S.

Those of you who attended our national conference in Cleveland last February are fully aware of the YSA domination mentioned. We would be remiss if we forgot that (a YSA member who never finished college) was forced upon us as the leader of the country's largest student organization. Who can forget the typically democratic vote (by YSA standards) which consisted of: "All in favor of "and "All opposed to "but the weak we so naive as to be rail-roaded by a close knit group of socialists who have no real effect on the current movement in America? The reason is that they organized for the conference and were in leadership positions in which they could control the elections. It is not that the student community is made up of poor losers, but rather that we have trouble sleeping with the realization that we are being used. How else are we being used? Here are some examples:

1) SMC national office staff are almost entirely nonstudents, college dropouts and YSA members. The YSA defends this by saying that the job requires "a level of maturity and experience" not common to college students "devoting their primary energies to learning about themselves and the world about them". (Sounds like parents, pigs, the entire establishment system, don't it!)

فلنعت للعالمان أمالك المائيل

1100- 449698-53

- 2) Our contributions to the national office are spent on such miscellaneous items as YSA salaries, equipment and supplies (which are available to the YSA but not the Washington Regional SMC).
- 3) College money was used to send of the YSA and SMC on a worldwide 'vacation" to strengthen YSA ties with socialist groups around the world (really relevant to our aims?).
- 4) The caste system allows student labor at the national office but not student participation.

Hoe do we propose to end the YSA domination? First, we are determined to retain the SMC as a leading voice in student and national affairs. It is our organization and was not created by the YSA. Second, we are calling for new regional elections to insure that students constitute a 90% majority of the SMC leadership (we will not be exclusive and will allow non-students into membership but must limit their leadership participation in order to insure that the SMC remains a student organization) Until plans for such new elections are formulated we request that all student contributions be fully utilized on the local level. This will have a twofold effect; it will strengthen SMC influence on local campuses and in local areas and at the same time will show the YSA that the students mean business. Money (or the lack of it) really talks, even to a socialist!

The change must be made! Change will be difficult but if we can't change and control our own organization, how can we ever hope to change society, much less control it?

We want to hear your suggestions, agreement, disagreement or apathy. There is work to be done and time is important. Write to

is requested to furnish the name of its leader and number of members, so that apportionment for the elections can be made before final exams.

PENDING COUNTER INTELLIGENCE ACTION

WFO has recently developed a close liaison with several WDC realty companies which has provided good coverage of commune type dwellings in the WDC area. This relationship has also provided WFO with two Bureau approved, sources one of which was converted from a PSI to Prob. The other source remains a CS. Another advantage this program has provided is the breaking up of certain communes when it was agreeable to the best interests of the realty company and the Bureau. Efforts to maintain this liaison and to expand it are continuing.

WFO has also developed a close confidential relationship with one of the administrators of the District of Columbia Welfare Office. This liaison was developed when it was learned that several of WFO's subjects are receiving welfare funds and food stamps. This source has provided valuable background and current whereabouts information on WFO subjects. This source has also been used on occasion to have subjects removed from the welfare roles when information concerning the person's lack of qualifications was confidentially provided to the welfare office. Care had been exercised that the Bureau would not appear to be the source of this information, and in no case was any material provided which could be used to embarrass the Bureau.

REC-57

WFO 100-47757

In an attempt to play upon the seemingly inherent paranoia of the new left community WFO Agents have pursued a program of intensive physical surveillance and interviews of persons with knowledge of new left activity. This program has enhanced the fear that many of the new left people have in those around them, and this fear has manifested itself in dissension and mistrust. This program has also provided benefits in that certain activities of WFO subjects have become more familiar to the case Agent handling that subject.

WFO has also increased its informant coverage in the new left field through an organized program of contacting returning servicemen and more mature college students. This program has produced tangible benefits by providing WFO with informant coverage in new and broader areas.

TANGIBLE RESULTS OF COUNTER INTELLIGENCE ACTION

As has already been indicated in the previous section, tangible benefits in the various programs undertaken by WFO have been evident through the closing of several of the communes in the area, the increased informant coverage, and the removal of WFO subjects from the District of Columbia welfare roles. The fact that no major new left group has made WDC its main base of operation has hampered the creation of a concerted action against any organization, but WFO will remain alert to any possibilities in this respect.

POTENTIAL COUNTER INTELLIGENCE ACTION

WFO has as a confidential source an experienced and able photographer who has in the past provided photographic coverage in many important areas. WFO is currently considering an idea whereby this person would be established in a free lance business making a documentary of the new left movement. Such a project would have many potential aspects which could be exploited as counter-intelligence measures against the New Left. The second purpose of this program would

WFO 100-47757

be to make the source better known and more accepted in the movement which could increase the source's value greatly. WFO intends to develope and present a plan for approval of this program within the coming period.

It is encouraging to see imaginative thought given to captioned program by personnel of your office; however, in this instance it is possible that if it ever became public knowledge that the Bureau was connected with such a letter as you propose that cries might erupt that the Bureau was infringing upon academic freedom and endeavoring to form political opinion. COUNTERINTELLIGENCE PROGRAM

(NEW LEFT)

On 8/3/70 WFO instituted a program whereby four to six Buagents regularly worked evening shifts in areas heavily traveled by the New Left community. The purpose of this work was the identification, and initial contact of potential security informants. At this time the full effects of these contacts have not yet been determined, however these Agents have made contact with six to ten individuals who may be able to be developed into sources who are in a position to help the Bureau in the New Left area. This program was not adopted as a substitute for similar individual action on the part of Buagents assigned to the New Left field, but has been and will continue to be operated in addition to the regular informant program. All WFO Agents assigned to the New Left area realize the importance of the informant coverage, and it was felt that the intensification of development as offered! by this program could serve to provide the additional coverage which will be needed during the coming months.

In an effort to develop counter intelligence programs suitable for the New Left field, WFO has considered the possibility of obtaining, through established sources, mailing lists of prominent alumni of the universities in WDC. After these lists have been secured it has been suggested that a letter be prepared setting forth the current status of New Left activities on that campus as well as an indication of the potential problems anticipated this coming year. The letter would be produced without any identification of the sender, and would be designed to arouse prominent alumni against the permissive attitude displayed by the administration of the universities. Great care would be taken to insure protection of the Bureau as the sender of any such letter.

🕨 Bureau - WFO

A plan of this nature could be easily adopted nation-wide, and could have great impact if used at universities where violence has already occurred. Fach office would have to tailor the letter to the particular university in its area. Emphasis would have to be placed on the violence which has already taken place, and on the rapid deterioration of the situation on many campuses. Those who receive the letter would be urged to take whatever action they deem appropriate, such as writing to the university administration or Board of Regents, to stem the growth of this problem on the campus of their alma mater.

WFO feels that this program might bring to bear the power of prominent alumi against the violence which destroys the prestige and academic standing of the universities and force the administration of each school to take a stand against those who are seriously harming the educational system of that institution.

Bureau permission is requested to continue to investigate the feasibility of a program such as that outlined. No activity along these lines will be engaged in without prior Bureau approval.

In preparing and distributing this material you should take all steps necessary to assure that the Bureau cannot be identified as the source of the pamphlet.

NOTE:

WFO has prepared a pamphlet entitled "The Rational Observer" (copy attached) which is described as an alternative American university newspaper. This pamphlet purported to be from a small group of students who take exception to the developments on the American campus and who are taking an opportunity to point out some of the inconsistencies and obvious dangers posed by the New Left on the campus. WFO intends to prepare this so that it cannot be traced to the Bureau and have it distributed on the campus through the use of a "cut-out." The pamphlet will bear an address which is a confidential mail box of the Washington Field Office which cannot be traced to the Bureau. Through this box it is hoped that WFO will be able to guage the attitude of the students to the publication and which they may receive correspondence from potential sources who may be in agreement with the sims and purposes of the publication.

THE RATIONAL OBSERVER

AN ALTERNATIVE AMERICAN UNIVERSITY CAMPUS NEWSPAPER

Issue #2

WHAT IS THE RATIONAL CBSERVER?

It is an attempt by a small, group of students, who love democracy, to preserve democracy and who believe that evil exposed is evil eliminated.

It is unfortunate we cannot identify ourselves for we take classes with some who do not believe in freedom and grade accordingly.

The purposes and aims of this paper are not to stifle dissent but to expose charlatans of the right, left and middle, whether they be in government, industry, clergy, labor or the academic world; to expose those who capitalize on legitimate dissent for their own selfish purposes or concede to pressure groups the rights of the orderly.

WILLIAM II. LEONHART

Bill -- Thanks for your criticism, but we think most of it was inundated in your tidal wave of intellectual egotism

MAO TSE-TUNG

The SDS and PLP revolutionaries take great pride in quoting their hero, Mao Esc-tung. We also will quote him: "The only way to settle questions of an ideological nature or controversial issue among the people is by the democratic method, the method of discussion, of criticism, or persuasion and education, and not by the method of coercion or repression."

"On the Correct Handling of Contradictions Among the People (February 27, 1957) First Pocket Ed., pp.56, p.11

WILL THE REAL MAO PLEASE STAND UP!!

The Greatest Contradiction

"We are advocates of the abolition of war, we do not want war; but war can only be abolished through war, and in order to get rid of the gun it is necessary to take up the gun."

DRUGS

If you must freak out on society don't turn on with drugs. Drugs offer only temporary relief. They are not the deus ex machina you seek. Turn to your rabbi, minister, priest, and yes, your parents, for help in solving your hang-ups.

President Williams: Don't turn your back on drug abuse at American University. It may come back to haunt you.

What's Wrong With Competition? Nothing. Only those who lack confidence in themselves fear it and flock together like sheep under a shepherd of cowardice.

"The New Right" Trades
Foresight for Hindsight

A recent issue of "The New Right," a publication of the National Youth Alliance, gave voice to Minutemen propaganda that attributed the relative racial calm during 1968 to a "communist plot." According to this sort of hairy-handed conservative thought process, communist and Black Power leaders decided that it was not going to be possible to provoke a full scale race war during 1968 and went fishing. This shrewd maneuver left the score open to the "hippies and unorganized rabble" to make a "token demonstration"! (It seems the Chicago demonstrations during the Democratic Convention did not measure up to Minutemen expectations.)

Elsewhere, "The New Right" quotes Robert DePugh, National Lead or of the Minutemen now in federal custody and charged with conspiracy to recruit money from banks. DePugh is attributed with saying that if the government were fighting communism as hard as they are fighting the Minutemen there would be no fighting in the streets. No mention was made of possible fighting in the hills.

Also contained in this issue was an interesting, objective appraisal of the District Attorney Jim Garrison probs. It is unfortunate that also set out was material from the scruffy Statecraft, a publication devoted more to sophomorish blandishments of hate rather than efforts to separate the trees of bigots from the forest of conservatives.

A real contribution was offered by the Mational Youth Alliance of Birmingham-Bloomfield NYA which will furnish free information concerning dangerous drugs.

However, if you insist on beating your head against the "Wall," the Patriotic Party and Mr. DePugh of Independence, Missouri, will send you for \$5 a one hour talk-tape entitled, "Campaign Promices vs. National Survival."

VIETNAM WAR

Many people from the entire political spectrum are against the war in Vietnam. Don't hesitate to question the motives of the SDS, the SMC-YSA and MOBE. Use your God-given intelligence. Remember, you will be faced with joining society upon completion of your academic training. Don't do anything in haste today which could cause you embarrassment tomorrow.

DO YOU SUFFER FROM ACEDIA?

The cure for this illness is a few ounces of intelligence generously mixed with ambition and perserverance.

Show me a person afraid to fail and I will show you a failure.

What To Do About Evil

If you recognize evil and want it climinated, call or write President Williams, your rabbi, minister or priest, the Bureau of Narcotics, the FBI or the Metropolitan Police Department. Without your assistance they are helpless.

SDS Peaceful Demonstration in Chicago, October 8-11, 1969

The SDS has been publishing much information about bringing the war home. It looks like they have taken the first step. Our reporters have learned the SDS in Washington, D.C. went to Chicago loaded down with steel helmets, baseball bats, lengths of chain and the will to use them.

THE "EAGLE"FLYS HIGH FOR THE NEW LEFT

Last week one of our reporters happened by chance to obtain a copy of the "Underground Press Directory," published by "Counterpoint, Box 396, Stevens Point, Wisconsin, 54468." It is interesting to note that our very own campus newspaper "The Eagle" had suddenly rated the notoricus and unbecoming title as a member of the "Underground Press."

All of us, as students of American University, pay for the "Eagle" (not altogether voluntarily), through our student activities fees. seems to us that campus newspapers which are funded by all the students are not meant to be political in nature but rather to report campus news. We can all voluntarily buy "The Evening: Star," "The Free Press," or whatever other presentation of the news we desire. Yet, those of us who may find disagreement with the editorializing of "The Eagle" wast pay for it.

We don't care whether campus newspapers are in support of the "left" or the "right." The fact remains that it is an organ of the student body and therefore should reflect the interests of all the students. Those who wish to buy "underground" newspapers

(continued Page 5)

"EAGLE"

can simply buy "Quicksilver Times" or "The Free Press" which are both distributed regularly on campus.

Last year an injunction was filed against the "Eagle," Perhaps, those who are interested enough can repeat this necessary step to force an objective investigation of the facts.

WHAT IS THE SMC?

The SMC is a YSA controlled organization. The YSA is the youth group of the Socialist Workers Party, a Trotshylle organization. The Trotskylles are Marxist revolutionaries who believe in the overthrow through the use of force and violence of the United States Government.

ReWFOlet, 7/28/69, in which WFO suggested holding in abeyance the publication of the "Chevara News" since the Students For A Democratic Society (SDS) had been relatively ineffective and to avoid any possibility of stimulating interest in New Left philosophy.

Since the beginning of the new school term. New Left activity on the campuses has begun and efforts by groups, such as the SMC, YSA, SDS, to recruit new members is evident.

In view of this, WFO is requesting Bureau permission to publish and distribute a newsletter conforming in essence with that previously described to the Bureau and maintaining relatively the same format; however, WFO would like to change the name from the Chevara News to the "Rational Observer".

POTENTIAL COUNTERINTELLIGENCE ACTION

Utilizing sources WFO contemplates the publication and distribution of anti-New Left literature attacking the New Left from the left as well as from the liberal and conservative positions.

Sources within the administrations of local universities, through public source information, will be kept up-to-date on the policies of prominent New Left organizations so they can make informed judgments to forestall and quell potential disruptive activities. Sources within the movement will attempt to capitalize on the political differences prevalent within the movement today.

Efforts also will be made to further the rive in the black-white movements.

PENDING COUNTERINTELLIGENCE ACTION

During a recent meeting of the National Mobilization Committee to End the War in Vietnam (NMC), the Black United Front (BUF) demanded a sum of money from the NMC for allowing the NMC to hold a demonstration in WDC on 11/14/69 - 11/15/69. BUF warned that if the money was not forthcoming, they would prevent the NMC from demonstrating.

WFO has suggested that through sources "the blackmail payment" be encouraged and if it comes about that friendly sources in the news media publish the facts causing a wider rift between the Black and New Left movements.

In addition, WFO has suggested that black groups throughout the nation, through sources, be made aware of the BUF demands on the NMC.

TANGIBLE RESULTS

Since the end of the last semester the SDS Chapters, at American University and Georgetown University were disbanded and although there is a chapter at George Washington University, it was relatively inaffective during the summer months.

The regional office of the SDS has completely changed and the new members thereof are weak individuals who have little or no control over the remaining SDS chapters.

The breaking up of the regional office ALD the chapters at American University and Georgetown University was the result of dissension caused by WFO sources.

POTENTIAL COUNTERINTELLIGENCE ACTION

WFO contemplates the utilization of sources to capitalize on the political differences which are now prevalent, particularly in the SDS, and other New Left organizations.

Sources will be encouraged to undertake leadership roles in the various factions and stimulate dissension among them.

If necessary, WFO will establish a leafleting program designed at stimulating conservative students on the campus to take action against the radical students.

The program will include leaflets attacking the SDS from the Left and leaflets relating the New Left movement to the Nazi movement.

Propaganda efforts will also be made to maintain the "separativeness" of the blacks and the whites and to stimulate political attacks by the blacks against the "lilly white" New Left groups.

PENDING COUNTERINTELLIGENCE ACTION

WFO has pending the publication of a New Left news letter designed to subtly highlight inconsistencies in polifical philosophies of the New Left movement, particularly the BDS.

WFO is holding the publication of this news letter in abeyance since activities on the part of the SDS in WDC have fallen off drastically.

WFO has been maintaining its contacts with its sources in the administration of the various universities and is attempting to convince through the sources the administration of these universities of the danger of being permissive relative to radical revolutionary groups on the campuses.

TANGIBLE RESULTS

The SDS Washington area regional office and the SDS chapters at American University and Georgetown University have been broken up. The chapter at George Washington University, although holding meetings on occasion, have not engaged in the usual protest activities.

This was accomplished by causing dissension among the SDS in the WDC area, utilizing sources well versed in the political differences of the New Left.

NOTE:

By reairtel WFO pointed out that who was of the American University SDS last year and now is currently on the Sccurity Index, has received commission following campletion of the had subsequently received an extended delay from call to active duty in order to attend the American University. WFO reported that an informant had stated that intends to teach school this fall at Federal City College and feels that he has precluded being called to active duty as a result of writing a letter to Army in which he praised Che Guevara Fidel Castro, and Cuba. WFO suggested this information be brought to the attention of Army so that could be called to active duty and thereby frustrate his attempt to avoid military service. Since Army will have all information available on we should make no recommendations in this regard.

This delay was effective until there was a notation that his military records had been flagged in accordance with Army Regulation 600-31, and that this flagging action is still pending.

The attached memo describes documents originated by the military leftwing Students for a Lemocratic Society (SDS), copies of which have been obtained by your Association from a highly reliable source within the past few days. As you will see, SDS this year plans to use the tranitional summer hiring of young people to invade industrial plants, offices, banks, stores, etc. for the purpose of disrupting operations and conducting propaganda campaigns among employees.

I believe the memo deserves your close attention.

The documents we have were prepared by and for the "New York Regional SIS" Work-In", involving SPS chapters on campuses in Greater New York and in New Jersey. Some of these students may well fan out into our area for summer employment.

More important, however, is the fact that there are numerous SES activists on Mid-Hudson campuses --- e.g., New Paltz State College and Vassar. They too are probably involved, since it seems clear that the "Work-In" is a national SDS project.

Because SDS is urging students to concentrate on seeking jobs with employers of about 400 or more, I am enclosing full copies of the documents along <u>with</u> the attached memo only to MHIA member companies of that size.

However, I will send full copies of the SDS documents immediately to any other member who asks for them --- and any member company planning to hire young people this summer is strongly urged to ask for them, It cannot safely be assumed that "Mork-In" activities in our area will ba-limited to larger employers.

FROM:

SUBJ: THE NEXT STUDENT PARTIEOROUND: YOUR PLANT _ _ THE TIME: THIS SUMMER.

Using the traditional summer hiring of young people as a vehicle, the militant left-wing Students for a Democratic Society (SDS), responsible for most of the violence and anarchy on the nation's campuses, are planning to invade industrial plants and other business organizations this summer for the purpose of disrupting operations and conducting intense propaganda campaigns among employees.

Two SDS documents, copies of which have been obtained by THE MED_HUDSON INDUSTRIAL ASSOCIATION through highly reliable channels, lay out the strategy for the Work_In" --- its purposes, and the means by which they will be accomplished.

I. A POSTER designed to recruit "Work-In" participants explains the project's aims. The poster can be summarized as follows:

Campus demonstrations against the Viet Nam war and the draft are growing but are having little effect because students are isolated from other Americans. To succeed in disrupting the American "war machine", students must form alliances, especially with workers in industrial plants, stores, banks, offices, etc. The SDS "Work-In" will be a concerted drive to place students in summer jobs in industry and business for the purpose of making direct contact with workers, selling them on "immediate U.S. withdrawal from Viet Nam", fighting "white racism" among them, and explaining to them that "there are students who support their struggles".

The poster lists co-ordinators for the "work-In" on various college campuses in Greater New York-New Jersey area, and gives the address of New York headquarters as 50 East 11 Street, NYC.

II. A "WORK-IN OWGANIZER'S MANUAL", according to its own cover page, is "intended to help work-In organizers in selecting and getting jobs. It also contains some pointers on approaches to the political issues that we will be raising and encountering at work".

The Manual is divided into 4 major parts:

Work-Iners to their local DIRECTORY OF MANUFACTURERS and to the Yellow Pages of the telephone book.

2.) MEAT JOPS 10 LOCK FOR - SDS puts the emphasis here on unskilled jobs in plants employing 400 or more. In unskilled jobs, the opportunities of 400 or more are preferred because the audience is greater; plants are more likely to have a sense of organization and lend themselves to make should attempt to get into plants where the employment is primarily white; Blacks should attempt to work with others of their race.

3.) HOV TO GET A JOB -

Second Se

(this part is MUST reading for employment managers)

SES tells a Mork-Iner in most cases NOT to admit he's a student; it may prevent his employment. Rather, he should say he's worked since graduating from high school and should have "a place or person who will say you worked there for the past 1-4 years". He should also indicate that the imaginary previous job involved heavy manual labor, showing he's not afraid to work.

This section gives the SDS job applicant many more suggestions on setting by the employment office than can be detailed in this memoral e.g., how to deal with draft status problems, aptitude tests, physical defects, loyalty caths, dress and behavior during the personnel interview.

primer on political agitation in this section. A few examples:
--- Don't be shocked by the racist remarks of white workers, by
pro-war talk, etc; if the workers understood racism, the
war, the capitalist class, middle class morality, we'd be

of Viet Nam and the other imperialist wars to their (the workers') war, that it is a war for the rich and the relationship of the relationship immediate demands, the fact that they and their sons die in the

war, that it is a war for the rich --- the CLASS perspective.

--- The boss is threatening the workers' job. They must be told
that as long as workers are divided by race, craft, union, sex,
it's easier for the boss to sit on them.

--- Pick out a few workers who might be more advanced than the rest; talk with them about students offering them assistance in any struggles coming up in the future, on picket lines, demonstrations, etc.

We need not belabor for readers of this memo the importance of taking every precaution to keep SDS agitators out of their employ. But the following point

Employees in industry and tusiness are, almost unanimously, loyal Americans who will quickly recognize the real source of the SNS propaganda line and will strongly resent being approached by it. If they are approached by it while at personnel processes allowed it to happen. At worst, the remifications may lead university and San Francisco State College.

The review is highly critical and points out that Marcuse attempts by his philosophy to weaken timoral alfibers and undermine faith in accepted values. WFO suggested that the article be copied, stamped to indicate that it is being distributed by the SDS and then distributed on local campuses by utilizing established sources. It is not felt that the benefits that could accrue from this would justify the use of established sources to distribute them.

Essays by a New Left Thinker

By REED J. IRVINE

AN FSSAY ON LIBERATION. By Herbert Marcuse, Beacon Press, 91 pages, \$5.95.

Herbert diarcuse is an aging professor of philosophy who is best known as one of the "deep thinkers" of the New Left. His writing is sufficiently turgid to be incomprehensible to the average undergraduate. This may account for his reputation for profundity. San Diego State College recently renewed Marcuse's contract despile the fact that he is beyond retirement age on the ground that he is indispensable. It anyone is interested in knowing what manner of intellectual meat is being served up on many college campuses today he should read this little essay by Marcuse. Anyone doing so will come away with a better understanding of why our college campuses are in such turmoil.

The key ingredient in Marcuse's philosophy is hatred of the liberal democracies and their economic systems based on free enterprist. He hates these societies for the perverse reason that they have been so successful in improving the standard of living of the masses. In doing so they have made a fool of one of Marcuse's heroes, Karl Morx. Marx, of course, predicted that the capitalist system would produce increasing misery for the workers and that this would eventually cause its collapse. Marcuse recognizes that the workers have done so well under the free enterprise system that they want no part of any Markian revolution. He says this would be "against the will and against the interests of the great majority of the people"

But Marcuse is what Eric Hoffer has only called "a soul engineer who ares it as his sacred duty to "operate on mankind with an ax." What does it matter it the majority is satisfied with the existing political and economic system?

According to Marcuse, "the general will is always wrong." If the masses cannot be relied upon to destroy the social order, then the intellectuals who know what is best for mankind will have to find others to help them accomplish this.

He sies the students and the Negroes as the best source of help in this ambitious task. In order to get people to want to destroy liberal institutions that have produced general affluence it will be necessary to induce them to reject traditional values. You must try to will reject conventional morality, who will "break with the familiar, the routine ways of seeing, hearing, feeling, understanding things."

Whether this is to be helped along by encouraging the use of drugs Marcuse does not any, but it is clear that he looks heneful to those children of the middle class who have demonstrated their break with conventional values by experimenting with sex, drugs and riots. The urban Negroes, on the other hand, are to be radicalized by the more traditional Marxion emphasis on their economic plight.

The goal of this great upheaval is the creation of "a society in which the abolition of poverty and toil terminates in a universe where the sensuous, the playful, the calm and the beautiful become forms of existence." Being neither an economist nor an engineer, Marcuse does not explain how he will simultaneously climinate both poverty and work, but he assures us that science has advenced to the point where this can be done. It is only the selfishness of the vested interests that stands in the way.

He does reveal that this will involve the elimination of private property and the institution of conomic central planning. He does not mention the fact that those countries that have taken that route have greatly diminished human freedom without eliminating either poverty or toil.

One can find some good advice in this essay. Marcuse tells us that a precondition of his revolution is a weakening of the economic stability and social cohesion of our system. He in effect warns us that the student demand for structural reform of the universities is only an excuse to revolutionize the curriculum and make it easier to radicalize the students. He stresses the important role that "moral fiber" plays in the functioning of any society, and he observes that a successful society must require general acceptance of its operative values. This is the point of the Marcusian attack: to weaken the moral fiber and undermine faith in accepted values. He is consident that this will enable his uppopular revolution to succeed. We have been warned, but will we lis-

During an AU SDS chapter meeting the question of whether demonstrations and confrontations are good was raised. The struggle of the movement which plays.a. revoluntionary role must always be linked closely with such actions. But we must be careful in determining their use. Our tactics must be in accordance with the situation.

If the question was whether a demonstration and a possible confrontation with the police was a good tactic for Election Day (the situation), such a question was a very valid one. But if the question was whether confrontations should be used as a tool . . . those who raised it don't know what a "revolution" is all about.

The following is submitted for the information of the Bureau and concerns the futile endeavors of representatives of the National Mobilization Committee (NMC) to obtain space at the Federal City College (FCC), Washington, D. C., for rallies during the days immediately preceding the Inauguration of President RICHARD M. NIXON.

It will be recalled that considerable publicity appeared in the local press to the effect that the FCC would be used as a base for meetings of various groups supporting protests scheduled for Saturday and Sunday preceding the inauguration on 1/20/69. Thereafter, various student groups at FCC made it known that, as negroes, they did not desire that blackstudent activity be associated with the militant actions of the NMC and it was announced that the FCC would not be available to the NMC.

The New York Office supplied information to WFO that a special emissary of the NMC was being dispatched to Washington to prevail upon FCC groups to change their stand. This information was received by WFO on 1/7/69 and was made available to an established and reliable source.

any encouragement or suggestions, immediately said he would see to it that the NMC would be unsuccessful in such endeavors.

As was evident in future moves of the NMC, the FCC was not involved and the various dissident groups had to seek other locations for meetings. $\frac{1}{2} \frac{1}{2} \frac{1$

A source of WFO who was a marshal and part of the NMC communication network advised WFO that the NMC communications broke down and did not operate the way they had it planned. The source stated that very confusing orders were issued and then countermanded, that NMC groups were dispatched to areas that had no relevance to the Inauguration activities.

The Bureau may wish to suggest to other field offices this technique in the event other offices encounter demonstrations in which the demonstrators use radios operated on the "citizen" band for communication.

-NOTE:

The NMC is sponsoring demonstrations at Washington, D. C., during the Presidential inaugural ceremonies. It affiliate, the WMC, is distributing a housing form to obtain housing for the demonstrators. WFO proposes that it reproduce this form, fill them in with fictitious names and addresses, and return them to the WMC. This same program was carried out at Chicago, Illinois, during the Democratic National Convention demonstrations and resulted in some confusion among the demonstrators as many of them made useless trips to locate nonexistent addresses.

Washington, D.C.

Dear

I have been meaning to write to you for some time now, but have delayed doing so until now in the hope that the situation would improve. Regretably, this has not occurred, and on the contrary, the situation has worsened considerably. The matter involves your son, and his activities in washington, D.C., in connection with a group called Students for a Democratic Society, and with other radical anti-war and anti-democratic groups.

Most likely you are aware of the fact has been an organizer and leader of the Students for a Democratic Society at Georgetown University and has now "graduated" to become a leader on the regional level for the Students for a Democratic Society. He, in company with three or four other former university students, are living in a community house at 1779 Lanier Place, N.W., Washington, D.C., and manages to be actively present at any and every wild type of demonstration going on in Washington. He tries to stir up people and to attack the Government, the war and just about any other issue that his organization can seize upon.

It is of some concern to me that is making a mess out of what started out to be a promising future. I am sure you will realize the sad consequences of a person bringing himself to the attention of the authorities as being a radical demonstrator and active leader of the Students for a Democratic Society. I have tried to point out to the ridiculous and dangerous situation in which he is involving himself, but unfortunately I have met with little or no success. As his father, perhaps you could speak with him and try to straighten him out before he mosses himself up completely. I hope and pray you will be successful in so doing.

STUDENTS FOR A DEMOCRATIC SOCIETY

The Students for a Depocratic Society (SDS), ac it is known today, came into being at a founding convention hold at Port Euron, Michigan, in June, 1962. The SDS is an association of young people on the left and has a current program of protesting the draft, promoting a campaign for youth to dovelop a conscientious objector status, denouncing United States intervention in the war in Vietnam and to "radically transform" the university community, and provide for its complete control by students. Gus Hall, General Secretary, Communist Party, USA, when interviewed by a representative of United Press International in San Francisco, Colifornia, on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965, SDS National Convention, an anti-communist provise was removed from the SDS constitution. In the October 7, 1966, issue of "Mow Loft Notes," the official publication of SDS, an SDS spokesman stated that there are some communists in SDS and they are welcome. The national headquarters of this organization as of April 18, 1967, was located in Room 206, 1608 West Madison Street, Chicago, Illinois.

Enclosed for the Bureau are two copies of a proposed leaflet to be distributed at American University (AU).

The source is well versed in the philosophy of the new left, particularly the CHE GUEVARA, MAO Tse-tung and CHOU En-lai theories of revolution.

The source contends, based on experience and knowledge of these philosophies, that the "theory of confrontation" utilized by the new left can in itself be a vehicle to discourage and destroy SDS chapters on campuses.

'A revolution is not a dinner party, or writing an essay, or painting a picture, or doing embroidery; it cannot be so refined, so leisurely and gentle, so temperate, kind, courteous, restrained and magnanimous. A revolution is an insurrection, an act of violence by which one class overthrows another."

Mao Tse-tung

(Quotations from Chairman Mao
Tse-tung. Foreign Language Press,
Peking, 1966, pp. 11-12)

"Today SDS is a mass radical and antiimperialist student movement. The critique we are developing of American corporate capitalism has brought us to advocate the necessity of an activist and revolutionary politics for the New Left."

SDS: An Introduction
Washington Regional Office p. 4

Since its inception the major effort of the SDS has been to build a radical movement in this country. A handful of people started building in that had little more than the memory of a vital radical force. Conditions in America and the hard work of radicals over the last eight years have given rise to a large student-based movement. The challenge at this juncture in movement history is to change the emphasis from building a radical movement to using the radical movement in the work of making a revolution."

Tom Bell, Bernardine Dohrn, Steve Halliwell Program Proposals, SDS National Convention East Lansing, Michigan, June 10-15, 1968

During an AU SDS chapter meeting the question of whether demonstrations and confrontations are good was raised. The struggle of the movement which plays a revolutionary role must always be linked closely with such actions. But we must be careful in determining their use. Our tactics must be in accordance with the situation.

If the question was whether a demonstration and a possible confrontation with the police was a good tactic for Election Day (the situation), such a question was a very valid one. But if the question was whether confrontations should be used as a tool . . . those who raised it don't know what a "revolution" is all about.

PROPOSAL: We should encourage individuals in the chapter to read New Left Notes, The Port of Huron Statement, S.D.S.:

An Introduction, and to go to the National Conventions so that they find where we are at.

COINTELPRO - NEW LEFT

Your review of this Program along with your analysis of the New Left has been carefully reviewed by the Bureau. Your analysis is excellent and shows that you have devoted a great deal of thought to problems created by the New Left, particularly, the problem of student agitation.

Your suggestion that anonymous mailing of literature and letters to the parents of SDS recruits and members be made has merit. In this connection, you should furnish the Bureau a proposed letter that can be sent to the parents of SDS members and recruits.

You should also formulate specific counterintelligence actions aimed at the New Left, particularly, SDS in colleges in the Washington, D. C., area. Bear in mind that ridicule can be a potent weapon against these groups and individuals.

COINTELPRO, - NEW LEFT

As you know, indications are that New Left agitators at American University in Washington, D. C., have made that school a major target for disruptive activities during the current school year. As a result, you should insure that we have adequate coverage of the activities to enable us to take appropriate action, not only in regard to disseminating information to all appropriate agencies and interested officials, but also to enable us to formulate specific programs aimed at neutralizing the planned disruptive activities of these agitators.

Counterintelligence Program and, in this regard, you should immediately submit to the Bureau your observations and specific recommendations as to how we can best achieve this goal. It should include your recommendations as to how most effective action can be taken through establishing and maintaining liaison with appropriate security officers at American University; with the Metropolitan Police Department and other local law enforcement groups with specific interest of a related nature; and observations as to utilization of all logical news media sources.

COINTELPRO - NEW LEFT

Reurlet 9/11/68.

Relet suggests that in view of recent discussions within the Washington, D C., chapter of SDS regarding establishment of SDS chapters in local high schools, information relating to the aims of SDS be made available to local high school principals.

It is felt that the above suggestion could create a source of possible embarrassment to the Bureau. Over the years the Bureau has not developed confidential sources at the high school level. As a result, there are no established sources at these institutions through which this material could be safely funneled. In addition, the attitudes of many high school principals toward the SDS are not known.

It would seem that with all the information appearing in the press concerning SDS, local principals would have been sufficiently stimulated to acquaint themselves with the nature of this group.

If, however, you obtain specific information that SDS will attempt to organize at a particular school, you may consider collecting public source material on the New Left and SDS which can be sent anonymously to the principal of that school. Prior to doing this, however, you should obtain Bureau authority.

RHH: jes ()

NOTE:

By relet, WFO advised that the SDS Chapter in Washington, D C., had discussed working in the D20 C20 area in high schools to build up chapters of that organization. WFO suggested disseminating public source material on the New Left to local high school principals.

The Bureau is aware that Students for a Democratic Society is planning to organize new SDS Chapters at local high schools.

More specifically, at a general meeting of the Washington, D.C. SDS Chapter, held August 7, 1968, at 1779

Tanier Place, N.W., Washington, D.C., it was discussed that were going to be working in the D.C. area this year as organizers to build new SDS chapters in high schools.

In view of the above it is suggested that WFO disseminate to local high school principals, pertinent information relating to the aims of the New Left which has been made available by the Director for public dissemination.

COINTELPRO - NEW LEFT

CONFIDENTI

Reurlet 8/29/68.

The printing of a pamphlet on a regular basis as outlined in relet could be of great value to the Bureau, particularly, in its investigation of the New Left and should be the ultimate goal in your proposal. It is felt, however, that the publication as outlined in relet is too ambitious and undertaking for the informant at the outset. You should consider initiating the publication as a one-page mimeograph or multilith flier which would be more within the realm of the informant's ability and financial capacity. In this way, he could use his first few editions to solicity funds and comments from the Now Left. Once established, he could then consider the more ambitious program as outlined in relet.

Bear in mind that the source should do nothing that would jeopardize his security or anything that would result in possible embarrassment to the Bureau. To initiate a publication on the scale you suggest might invite suspicion as to the source of the informant's finances. If, on the other hand, it is. initially published "on a shoestring" and with obvious amateurish touches, it would then be a more creditable operation which could thereafter develop into a more sophisticated undertaking. Using this limited operation at the outset, the source could proaden his base of operation beyond the New Left by developing additional contacts. Here again, if it is well received, it will be a compelling reason for expansion.

In order to protect the source, it is also deemed advisable for him to shoulder a majority of the work in publishing the flier from the outset.

You should discuss the above with submit your comments. Take no action to initiate this publication until receiving specific Bureau authority

COINTELPRO - NEW LEFT

ReBulet 7/26/68 captioned as above and WFOlet 7/15/68 captioned "STUDENTS FOR A DEMOCRATIC SOCIETY; IS - SDS: SEDITION."

Enclosed for Chicago, New York, Los Angeles and San Francisco is a copy of reBulet and for San Francisco a copy of reWFOlet.

The following are some observations made by WFO concerning the institution of a New Left publication. They are not all inclusive nor rigid.

The Publication of a Monthly Newsletter Entitled

PURPOSE AND AIMS

The purpose of this newsletter is to uncover domestic and foreign interests both legal and illegal concerned with the New Left and engaged in activities inimical to the best interest of the United States.

Its aim is to cause disruption among the New Left with the ultimate goal of frustrating their efforts to destroy democracy and neutralizing them.

PHYSICAL MAKEUP

The newsletter in its inception will consist of approximately four pages 8½ by 11 produced by an offset process done by a commercial house.

The first page would include a masthead with the name 'The Workshop" and its motto "Revolution is the Religion of the Masses with The Workshop for its Bible."

The masthead could possibly be designed as in attachment A or include symbols similar to those that appear in attachments B and C.

The masthead and the symbols utilized should imply the struggle of the races, the persecution of minorities, capitalism, imperialism, poverty, racism, unity of the minorities, anti-war sentiment and salvation in "CHE" GUEVARA and MAO Tse-tung.

6

2

Attachment A, in WFO's opinion, deports those issues capitalized upon by the New Levi.

LITERARY CONTRIBUTIONS

Articles included in the newsletter could generally follow the MAO-GUEVARA line emphasising the main issues of the New Left, i.e. racism, Vietnam war, Sino-Soviet rift, the draft, poverty, economic and physical imperialism, police brutality, freedom without license, legality of pot, anarchy, the destruction of the "establishment" and intellectualism.

The articles could be written by the Bureau, the source, members of the New Left or a combination of all or any interested. For example, literary assistance could be requested of the Institute for Policy Studies, a think factory for the New Left in the Washington, D. C., area.

WFO's thought was to have members of the "grass roots" of organizations having diverse political philosophies within the New Left submit articles on the same subject in an attempt to cause greater dissention among them.

Articles deriding leaders in the New Left for attempting to mold the "grass roots" in their image and to create a new "establishment" could be included. These would be in keeping with the anarchist approach, especially by the students in the SDS.

FINANCES

The cost for the publication using the offset process for a page 8½ by 11 would be approximately \$4 per hundred per page up to one hundred, \$4.90 per page up to 200, \$7.50 per page up to 500 and would become progressively less expensive.

A bulk mailing permit could be obtained from the U.S. Post Office which would cost approximately 3.6 cents per piece weighing approximately 2.6 ounces with a minimum number of 200 pieces. The possibility exists that the publication could qualify as a non-profit organization in which case the rates would even be lower.

3

TO HAR BOOK IN THE PROPERTY CONTRACTOR OF THE PROPERTY OF THE

WFO 100-47757

The source is not wealthy in his warights and therefore could not appear to finance this operation for any length of time on his own.

Consideration has been given to requesting donations in the publication in addition to requesting financial assistance from New Left organizations such as The Institute for Policy Studies.

DISTRIBUTION

The Bureau and field offices could furnish WFO with the names and addresses of those organizations, publications and individuals they feel should be recipients of the publication.

REQUEST OF THE BUREAU:

The Bureau is requested to further consider the publication of a monthly newsletter following the aforementioned pattern. WFO would welcome any suggestions and assistance concerning the development of this media which the Bureau could furnish.

LEADS:

Recipient offices are also requested to furnish suggestions to WFO for the development of this technique as set forth in reBulet.

sources, is currently in New Mexico with an individual who may be leader of a group of Mexican-Americans who claim U.S. Government property as their own. Also according to sources, plans to be in New York within 7 - 14 days, and will contact members of the Cuban delegation to the U.N. re travel of SDS members to Cuba. It is rumored that will travel with them to Cuba in September, 1968.

This office suggests that in view of the objectives of the program, the following suggestions be considered:

- (1) Maintain contact with Mississippi authorities to ascertain whether they may in future agree to extradite on the sodomy charge. If so, Federal fugitive process could be obtained and could be returned to Mississippi to serve his sentence.
- (2) Inform Mississippi authorities of the nature of present public activities in the D.C. area.
- (3) Confidentially advise D.C. Bar Association of the Mississippi charges on the pretext of inquiry into his status with D.C. Bar, with a view that they may take some type of action in connection with the Mississippi case.
- (4) Flant a letter to the editor in one of the college newspapers where may be active, exposing the Mississippi charges and commenting on his morals.

In addition, it is suggested that the list could be a basis for the formation of a publication which could be used for our purposes to develop a mailing list of militant individuals in the New Left who are presumably interested in revolution.

In addition, this medium could be used to publish disinformation for the purpose of capitalizing upon any existing differences among the various groups of the New Left.

It can further be utilized to emphasize the true nature of organizations such as the SDS which then could be disseminated to idealistic organizations and individuals who have a legitimate concern about such things as poverty, the Vietnam war, and prejudice and who may be susceptable to recruitment by organizations of the New Left.

STUDENTS FOR A DEMOCRATIC SOCIETY

The Students for a Democratic Society (SDS), as it is known today, came into being at a founding convention held at Port Huron, Michigan, in June, 1962. The SDS is an association of young people on the left and has a current program of protesting the draft, promoting a campaign for youth to develop a conscientious objector status, denouncing United States intervention in the war in Vietnam and to "radically transform" the university community, and provide for its complete control by students. Gus Hall, General Secretary, Communist Party, USA, when interviewed by a representative of United Press International in San Francisco, California, on May 14, 1965, described the SDS as a part of the "responsible left" which the Party has "going for us." At the June, 1965, SDS National Convention, an anti-communist proviso was removed from the SDS constitution. In the October 7, 1966, issue of "New Left Notes." the official publication of SDS. an SDS spokesman stated that there are some communists in SDS and they are welcome. has successfully penetrated the SDS at AU and an attempt is being made to elevate him to the regional level.

As the Bureau knows, the SDS local chapters and regional organizations are amorphous and membership varies depending upon the student's whims and the issues at hand. According to and and no membership records are maintained for the SDS Chapter of the AU.

WFO contemplates the use of its present sources to develop new ones and in addition, is reviewing discharges of local GIs for potential sources. WFO also combs local news media and University publications for possible sources.

Since students have, in some instances, legitimate complaints, and, in some, imaginary complaints, WFO contemplates that there will be additional demonstrations and rallies on AU campus during the forthcoming year. However, based on the past performances of the students and the administration of the school, WFO does not contemplate that there will be violence involved in these demonstrations and rallies but will remain alert for any indication of same and will handle appropriately.

Separate communications will be submitted to the Bureau under the above caption concerning other major colleges and/or universities in the Washington area.

Summary of Campus
Disruptive Activities

The following summary was derived from information furnished by the second and third sources mentioned in this communication.

In October, 1967, 62 students and professors walked out of the Metropolitan Methodist Church during the 75th Anniversary Convocation at the time an honorary degree was to be conferred on Ambassador Henry Cabot Lodge.

The group responsible for the walkout identified themselves as the AU Committee to End the War in Vietnam. They objected to Lodge since he represented the United States Administration and its policies in Vietnam. Among those who participated were.

There was no vidence involved.

On April 5, 1968, a demonstration was held on the AU campus subsequent to the death of Dr. Martin Luther King, Jr. Leaflets were distributed calling for a boycott of classes and condoning the looting and burning of stores by Negroes in WDC. In part the leaflet stated, "the Black people were only taking back from ghetto stores a faction of what this country has stolen from them". Two of the individuals distributing the leaflets were also asked to sign a petition requesting the cancellation of classes and classes were, in fact, cancelled at 12:00 noon that day.

At 12:30 p.m., speeches were made by various individuals calling for a student strike, espousing social revolution and opposition to the War in Vietnam. One of the speakers was . Among the approximately 300 individuals in the audience were

Posters appeared on the campus calling for a boycott of classes. The teach-in and the boycott were a "demonstration against the Vietnam War and the Draft". The demonstration disbanded without incident.

On May 2, 1968, about 75 to 100 Negro and white students, the preponderance of which were hippies, gathered at the Hughes-McDowell Lounge on the AU campus for the purpose of evaluating the student's position in relation to that of the University. Eight committies were established based on a plan utilized at Columbia University in New York City, which plan was introduced by

A letter was composed and was sent to the Dean of Men, the Dean of Women and the Dean of Students, which in essence demanded personal privacy for the students, access to their own personnel files, and control of the information contained therein, abolishment of all curfew regulations, abolishment of all mandatory University housing and a voice in all policies regarding academic action and faculty assignment and dismissal. The group decided they would give the Deans until 5:00 p.m., the following day to accede to all the demands or they would sit in.

suggested a "sit-in" but could not gather support and abandoned the idea. However, a few students did enter the Mary Graydon Center and sat outside the Dean's Office for a short period. Lacking support they left a short time later without incident.

A second meeting took place in which announced they would meet with the Deans on May 17, 1968, to discuss the demands. stated it would be necessary for the group to take militant action and confront the Deans with the demands. Also present at this second meeting was for the SDS. Is not a student at AU and during this meeting remained at side.

On May 17, 1968, a rally was held at the Woods Brown Outdoor Theater at AU with about 700 individuals in attendance including representatives of the faculty.

The corression of students in this company a fortunately had to reach the point of correct before enoughted as followed concerned with the university administration's dictatorial control of our, environment. We have no one to blame but ourselves. However, no matter the reason, we have reached the point where students must show their strength is order to make this university the institution of learning it was created to be. We have prepared a list of reasonable demands, which the administration cannot refuse to as upon, if it is true to the American University, the students of the American University, the faculty of the American University, and the American University as an American university. We therefore present our demands, accompanied by explanatory statements.

DEWAID (1): Safeguard of personal privacy.

STATEAENT: A room in the dormitory is private, open only to those invited by the inhabitants, other than legally authorized representatives of the law, operating under due process.

DEMAND (2): Access to our own personal files and control over the release of the information contained therein.

STATEMENT: We feel that any information gathered by any administrator of this university should not be released to any officials outside of the university community, without the consent of the student.

DEMAND (3): A voice in all policies regarding all academic action, faculty assign. it and dismissal.

We feel that this demand is self-explanatory.

DEMAND (4): Immediate cessation of curfew regulations.

STATEMENT: It is our belief that there should be a binding referendum held for won residents, concerning the immediate cessation of all curfew limitation in the women's dormitories.

DENTAL (T):

Albifite of the restment with a fry benefit,

STATEMENT:

If a student Were treated as a mature adult in the dormitory system, he would have less incentive to move off campus.

DEMAND (6):

We demand that all Greek organizations be allowed to run open houses at their discretion, and that those fraternity and screezy facilities within the campus environment be allowed to operate independent of university housing regulations and contract obligations.

STATEMENT:

We feel that the Greek system, as an integral part of the University Community, should be granted the right to control its own environment.

DEMAND (7):

A budget published in full by the university with total explanation of sources and expenditures.

STATEMENT:

We demand to have the budget in full, consisting of:

- A. Source and amount of all funds.
- B. Explanation of all expenditures.
- C. An explanation or justification of classified sources of revenue.

DEMAND (8):

An elected student ombudsman.

STATEMENT:

We suggest that a separate, elected office of student ombudsman be created, involving one man and a staff, to act as a liason between the student body and the administration, having no connection with the student governing body.

DEMAND (9):

A system of annual binding referenda. We feel that this demand is self-explanatory.

DEMAND (10):

Total severance between this university and the state. We feel that this demand is self-explanatory.

DEMAND (11):

A complete rundown of university personnel involved in government-related activities:

- A. Purpose of activity
- B. Finances of activity
- C. Who has access to published works by these people, where are these works, and how is the university benefitting by them?

STATEMENT:

We feel that all American University personnel involved in government-financed research should make public the value and findings of their research.

DEMAND (12):

A student elected resident advisor system.

STATEMENT:

We believe that students, being governed by the resident advisors, should have an active voice in their selection.

A splinter group of about 100 led by and then called for a meeting in front of kay Spiritual Life Center, on AU campus to discuss and establish tactics for the students' demands.

This meeting ended at 7:30 p.m., without incident and anything being accomplished by the group.

On May 20, 1968, leaflets were posted throughout the AU campus reporting that a student-faculty meeting would take place at 5:00 p.m., calling for a student briefing and rally at 4:45 p.m., and this leaflet was signed by At 4:45 p.m., the students had gathered and simultaneously Federal Narcotics Agents arrested a student for violation of narcotics law. STUDENT NONVIOLENT COORDINATING COMMITTEE

Literature distributed by the Student Nonviolent Coordinating Committee (SNCC), headquartered at 360-362 Nelson Street, S.W., Atlanta, Georgia, describes itself as not being a membership organization, but rather an agency attempting to stimulate and foster the growth of local protest movements. SNCC was born out of the sit-in movement which erupted across the South beginning on February 1, 1960. A conference at Raleigh, North Carolina, that Spring, brought together many of the demonstrating Southern students in a loose network of militant youth which was officially named SNCC in October, 1960.

A source has advised that in May, 1966, Stokely Carmichael was elected National Chairman by the Central Committee. In May, 1967, Carmichael was replaced as Chairman by H. Rap Brown, with Carmichael assuming the position of Recruiter and Organizer for the SNCC. In August, 1967, at the invitation of Fidel Castro, Carmichael participated in the Organization of Latin American Solidarity Conference which was held in Havana, Cuba. Subsequent thereto, Carmichael traveled to Hanoi and other sections of North Vietnam. He returned to the United States in December, 1967, at which time his passport was picked up because of travel to unauthorized countries.

A source advised that when Carmichael was elected Chairman of SNCC, the organization embarked on a program of eliminating Caucasians from its ranks. With the election of H. Rap Brown as Chairman in 1967, it embarked on a world-wide struggle for human rights and to take a firm stand against violations of these rights by the American Government and to strengthen its programs of opposition to the draft and to the United States involvement in Vietnam.

Literature distributed in February, 1968, identifies SNCC as an organization in the revolutionary vanguard. It advocates that to be successful it is necessary to develop a revolutionary ideology and revolutionary program.

On August 13, 1967, while addressing a group in the Watts area of Los Angeles, California, H. Rap Brown said "You better shape up America, or we'll burn you down." Later in February, 1968, in a publicized note Brown wrote, "America, if it takes my death to organize my people to revolt against you and to organize your jails to revolt against you and to organize your children, your God, your poor, your country, and to organize mankind to rejoice in your destruction and ruin, then here's my life."

WASHINGTON. D. C.

A Confidential Source, who is in a position to furnish reliable information concerning the activities at George Washington University (GWU), Washington, D. C., advised on July 2, 1968 that at present there is no chartered Students for a Democratic Society (SDS) or New Left organization at that university.

This source stated there are some students at GWU he considers to have radical leanings, who belong to no structured group and have no organizational affiliations. He estimated that there are possibly five to ten students at GWU suspected of being members of SDS, but emphasized that there is no available membership list, and that he is unable to identify GWU students actually in the New Left.

The source advised that in the past year there have been several student protests on GNU campus, but explained that these were not violent, not disruptive, and the presence of outside influence was not in evidence.

The source explained that during the past year, small groups of GNU students staged a protest on November 17, 1967 against recruitment on campus by the United States Defense Intelligence Agency, and on November 20 and 21, 1967 protested against recruitment on campus by the United States Marine Corps. On April 26, 1968, in conjunction with a nationwide student strike effort, a small group of GNU students boycotted classes that Friday and held a teach-in on campus. At the teach-in, according to the source, several students and professors aired their views on civil rights and the war in Vietnam.

SECURITY MATTER - STUDENTS FOR A DEMOCRATIC SOCIETY

Two "activist" groups are known to have been in existence at Georgetown University. advised on April 23, 1968, that a group known as the "Student Power Party" had been formed about February, 1968. According to a pamphlet which was handed out at that time, they claimed a membership of between five and fifty members. They described their goals as unification of the student government structure, student-faculty control of the university, educational reform and renovation and complete. student control of extracurricular life. stated that this group was now defunct for lack of support. On May 27, advised that any "activist" activity revolved around "GUCAP - Georgetown University Community Action Program. He described GUCAP as an amorphous group engaged in numerous legitimate programs: however, it is the "focal point" of campus agitators. Since it is not, per se, an "activist" group, any disruptive activities have been engaged in by individuals, not by the group.

1) False Allegations of Police Brutality

Demonstrations on campuses in the Washington Area have been very limited. In no instance where demonstrations had occurred were police called in.

WFO, however, will remain alert for an incident of undue provocation or violence used against police and false allegation of police brutality.

2) Immorality

No specific incidents of immoral activity have been reported to date, although sources stated members of the SDS have the general reputation of being immoral and are suspected of using narcotics and drugs.

Another source in the neighborhood of 1779 Lanier Place, N.W., stated that members of "Hippies" are constantly seen to enter and leave the above address at all hours of night and day.

3) Action by College Administrators

At Georgetown University (GU), WDC, on 5/23/68, a group of about 20 students staged a "sit-in" at one of the administration buildings to demand that the University provide classroom space for the "Poor People's University" to be held in conjunction with the Poor People's Campaign in WDC. According to the administration refused to discuss the matter with them, and they were ordered to leave before 6:00 p.m. or face arrest by the Metropolitan Police Department. The demonstrators dispersed quietly by 6:00 p.m. Persons demonstrating were not known to be associated with outside groups.

A source at Catholic University (CU) advised there have been no major incidents recently at CU and attributed this to the school's policy of taking a strong stand in this regard, including the use of municipal police, if necessary.

WFO will remain constantly alert for opportunities and indications to develop counterintelligence regarding the New Left and will be particularly alert for specific incidents which can be exploited for the disruption of the New Left.

WFO has several informants under development, who have already furnished invaluable information concerning participation of SDS members in the student agitation at American University in May, 1968. WFO was in a position to furnish proposed action of the SDS leaders to the Bureau, Secret Service, Military Intelligence and the Metropolitan Police Department.

WFO will give consideration to the use of all logical investigative techniques against SDS members, and SDS offices. Request for Bureau authority will be made in those instances requiring such authority.

The following are some suggested actions to disrupt the New Left:

Consideration will be given to furnishing information obtained from sources concerning SDS plans for action against colleges to administration officials of those colleges, as well as to the local police authorities in order that advanced preparations can be made by both for counteraction relative to SDS demands and actions.

There are no personal differences or existing animosities between SDS members in this area that are known to WFO informants. When information of this kind is developed, WFO informants will be encouraged to take advantage of this in an effort to disrupt and alienate SDS members from each other and from their groups.

WFO 100-47757

At the time of future SDS action on local college campuses, consideration should be given to the printing and distribution of a counter-type handbill, from a non-attributable source, which would tend to explain the true picture and expose the SDS and New Left participation in the matter.

It is suggested that the draft status of male activists be determined in an effort to learn if these individuals practice what they preach about the war. Such information might be useful in exposing certain individuals.

Information received concerning New Left members' use of narcotics or breaking any law, should be immediately furnished to Federal and local authorities for arrest, prosecution, and resultant publicity. This would expose individual members and tend to disrupt their group.

wro will furnish the Bureau all information obtained concerning the devious maneuvers and duplicity of individuals in the New Left for consideration of exposing them to public scrutiny through the cooperation of Bureau news media sources.
