for at least fifteen years. Subject originally came to Lake Arthur with a seismograph crew sponsored by the SHELL OIL COMPANY of Houston, Texas. The leader of this seismograph crew was Dr. LEBY who now lives in Houston. NUNEZ advised that the entire crew consisted of Germans who had come from Germany. According to NUNEZ, the subject is still employed by the SHELL OIL COMPANY at Houston, Texas and returns to Lake Arthur regularly to visit relatives of his wife and friends. NUNEZ stated subject has bought property at Lake Arthur. Subject is married to a native of Lake Arthur, Louisiana whose maiden name is MARGARET RIBBIE. Subject's wife travels with him, who, at the present time, is doing exploration work in southwestern Louisiana and Texas.

NUNEZ remembered the subject told him that he was naturalized more than ten years ago, either at Lake Charles or Opelousas, Louisiana. According to NUNEZ, subject went to Germany about six or eight years ago with his wife for a visit. They remained in Germany approximately two months. Subject has told NUNEZ that he has a sister and one or two brothers in Germany. One of his brothers was a commander of a submarine in World War I and later received employment in government service, and sometime this year has been taken back into the submarine service. Subject told NUNEZ that he received this information regarding his brother's recall from his mother who is in Switzerland. Upon subject's return from Germany he told NUNEZ that Germany was very well prepared for war and really had never stopped preparing since World War I, and he further stated that no country could defeat Germany at any time. Since the outbreak of the war, subject has told NUNEZ that HITLER is the cause of all the trouble and not the German people who were not in sympathy with him. He made the statement to NUNEZ that he, personally, would like to kill HITLER. NUNEZ has observed that the subject comments favorably on American victories and has never expressed hope for a German victory.

Regarding subject's background, subject has told NUNEZ that he came to this country when he was twelve or fourteen years of age and received his first employment in a hotel restaurant in New York City. While in New York he became interested in seismograph work and joined a crew of German citizens in exploration work in southwestern Louisiana. Subject has told NUNEZ that he intends to make his permanent home in Lake Arthur, Louisiana. He has never stated that he intended to return to Germany. NUNEZ did not know of any organizations the subject belong to nor was he acquainted with any literature or correspondence the subject received.

Mr. T. L. BROUSSARD, Lake Arthur Pharmacy, has known the subject for approximately fifteen years and stated the subject originally resided in Lake Arthur for two years and has returned intermittently. BROUSSARD was not acquainted with the subject's sympathies and general background. He remembered that the subject had returned to Germany about eight years ago for a visit.

Mr. PAUL GAITHE, grocer, advised that he was acquainted with the subject but not sufficiently to know the subject's sympathies or background.

N. O. file 100-12519

GAITHE remembered that while the subject's exploration crew was operating in the vicinity of Lake Arthur one of the members of that crew had told GAITHE that all of the data they obtained regarding oil deposits was forwarded to the office of the Seismograph Company in Germany.

Mr. EARL A. DOLAND, Lake Arthur Lumber Company, has known subject ten years but had no additional information to offer regarding his background or sympathies.

Mr. D. W. PRICE of the Price Fish Market, has known subject since 1936 as a companion on hunting trips. Subject has told PRICE that there should be no question in anyone's mind whether he liked Germany better than the United States, because if he liked Germany better than the United States he would be there now. Subject has expressed sympathies for his family, presently in Germany, but has not expressed sympathies for the nazi government. PRICE stated subject seems to be in close touch with his mother who is presently in Switzerland.

JAMES THACKSTON, Uneeda Cleaners, was also a companion of the subject's on hunting trips. THACKSTON advised subject has never made any comparison between German and United States Governments and has never discussed his background, including his trip to Germany eight years ago. THACKSTON remembered that subject's friendship with ADAM NUNEZ had provoked considerable comment in the community because NUNEZ is a very unscrupulous character who would be inclined to do almost anything for money. THACKSTON remembered that during a discussion in the tavern of LEO PLASANT of Lake Arthur certain individuals had made statements criticizing HITLER, at which time the subject stated: "If people knew HITLER better they would not say those things about him". THACKSTON believed that subject was probably slightly intoxicated at the time he made this statement.

Mrs. BEATRICE RAVEZ, Assistant Postmaster, remembered that about seven years ago subject's wife had sent some money to Germany. She also remembered that the subject, prior to the outbreak of the war, received regular letters from Germany and also packages, sometimes of substantial size. She did not remember the subject receiving any foreign mail since the outbreak of the war.

IVEY DUHON, City Marshal, Lake Arthur, has done some hunting with the subject but is not acquainted with the subject's background or sympathies.

ALMA BROUSSARD, VERA ELLIS DOLLAND, Miss MILLERED DINEYORE and Mr. LEO PLASANT were contacted for information regarding subject's background and sympathies with negative results.

AT JENNINGS, LOUISIANA

I. S. GOLDER of the I. S. GOLDER COMPANY, advised he has known subject for approximately twelve years when subject originally came to Lake Arthur with the Royal Dutch Exploration Crew headed by MARTIN LEISSNER. According to GOLDER, MARTIN LEISSNER is now retired and living at the Liberty Bell Tourist Court, Liberty, Texas. GOLDER considered the subject to be extremely honest, trustworthy, but has been unable to ascertain the sympathies of the subject because the subject refused to discuss the progress of the war.

Mr. LEWIS DELAUNAY, Deputy Sheriff, Jefferson Davis Parish, advised they had no record of the subject and had never received any complaints of un-Americanism on the part of the subject. DELAUNAY, however, advised he learned from a source he could not remember that the subject had a brother who was a former commander of a German submarine. He stated that he has personally met the subject several times but at the time of these meetings the discussions were confined to activities regarding oil. DELAUNAY also commented that subject's most frequent contact was ADAM NUNEZ, a man of very low character whose activities are questionable.

Miss RUBY EUCH, Local Board 1, Jefferson Davis Parish, advised the subject was registered at that Board and has Order No. 10040. He gives as his residence Lake Arthur, Louisiana. Background information contained in the file reflects that subject received eight years of elementary education and four years of high school training. At the present time he is Party Manager of a seismograph party and has had seventeen years of experience in this work. His employer is the SHELL OIL COMPANY, Post Office Box 2099, Houston, Texas. He married MARGARET RIETTE at Houston, Texas on August 26, 1930.

All of the individuals referred to above were asked whether they knew a MARIA KARCH whose visit to the United States subject sponsored in 1928. No individual recognized the name of MARIA KARCH.

The following description of the subject was obtained from ADAM NUNEZ and his Selective Service records:

Name	FRITZ LANG

Mrs. CHAPMAN pointed out that she and her family are decidedly French and that subject's family is German; however, she has never heard him make any statement which indicated he had any sympathy for the present German Government, or of his prejudice in any way towards the U. S. and the Allies. Mrs. CHAPMAN does not question subject's loyalty to this country.

Several attempts were made to locate and interview subject at Luston, Louisiana where he is presently employed by the Shell Oil Company and residing with Dr. TOUBERT at 109 South Jones Street.

A review of the file in this matter in the New Orleans Field Division reflects that the investigation in this case was originally predicated upon information that subject had sponsored a visit to this country in 1938 of one MARIA-MARCH, a German alien. Subsequent investigation indicated that subject had traveled extensively throughout Louisiana and his employers, fellow employees and acquaintances spoke very highly of him and have noted no un-American tendencies on his part.
