Los Angeles Times

LOS ANGELES 53 · CALIFORNIA

MADISON 2345

May 17, 1954

Mr. John F. Malone,
Special Agent in Charge
Federal Bureau of Investigation
Security Building
510 South Spring Street
Los Angeles, California

Dear Mr. Malone:

In accordance with our telephone conversation this morning I wish to give you the following brief bit of information for the protection of one of my friends who has handled many stories for The Times.

I am filing this matter with you at the request of my friend of Twenty-Nine Palms.

b6

b7C

b6

b7C

is seeking some information concerning the activities of individuals and the group known as the College of Universal Wisdom, Post Office address: Yucca Valley California, the activities of which are centered at Giant Rock Airport, 16 miles from Yucca Valley.

The group ostensibly is devoted to a study of space ships and interplanetary communication, but its consistent "line" in its publication is an attack upon atomic weapons and the preaching of a nebulous peace. George W. Van Fassel is listed as Director of the College of Universal Wisdom, and I knew nothing whatever concerning him.

However, at least one of the prominent guests at the space ship convention at the Giant Rock Airport, Sunday, April 4th, has been questioned about supposed communist affiliations.

You may recall that this area was the scene of some sensational happenings during World War II, when it was believed to be the projected site for refueling of suicide planes, possibly to be launched from Japanese submarines on the Gulf of California in an attempt to reach and bomb Hoover Dam's penstocks and power houses to cripple the airplane industry here. Your office no doubt has the full story on what happened then including the destruction by dynamite in an underground room beneath Giant Rock of the then owner.

*What is the story on this?
I remember hearing something
about it when I was in San Diego
info re above was furnished
SAC JF Malone on 5/26/54

Proceedings

OF THE
COLLEGE OF UNIVERSAL WISDOM
YUCCA VALLEY CALIFORNIA

A Non-sectarian and Non-profit Organization for Para Psycho-Physical Research

Volume 3

MARCH - 1955

Number 6

N My pattern of expressions
& am manifested Being.
An fleeing from Me man-
you only add to your undoing.
My way is with the tides
of Life, not opposing them with
strife-wooding passions bent.

A rent in cloth is soon repaired,
or discarded to the fire. Turning
to late the moth is burned, nor
can a liar be regarded.

When you express the Me
in you - & rest. The best of
you in Me, can make My rest
a misery - if your rest is not
a voidance - of opposition
to My ways.

The days and nights con-
trasting light, should prove
to you - the fight of opposition
has no end.

The PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are financed by contributions from its readers. The PROCEEDINGS is mailed free, monthly, to those who request it and support it.

Being most urgent that the Research Laboratory Building (page 16) be completed and the Experimental Unit put in operation at the earliest date possible, the Trustees of the College of Universal Wisdom at Yucca Valley, California, earnestly solicit its patrons and friends to contribute generously to the Building Fund and to offer suggestions as to contacts that might be made with possible donors.

PROCEEDINGS are published monthly by the College of Universal Wisdom at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: Van Tassel Ranch, Yucca Valley, California. George W. Van Tassel, Director; Darlene Jean Wing, Secretary-Treasurer; G. W. Van Tassel, Editor. Copyright, 1955, by George Van Tassel. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed stamped envelope. As we do not employ solicitors nor representatives, please address all correspondence concerning Proceedings, contributions, donations, bequests, etc., directly to the

Noah And The Ark

Excerpts from the forthcoming book
"Into This World and Out Again"
by G. W. Van Tassel

These are the generations of Noah: Noah was a just man and perfect in his generations, and Noah walked with God. (Gen., 6:9)

ES Noah walked with God because he was one of the space people who came to the Earth in an "arc" in the "arc of Noe".

In the Bible, Noah is confused with Noe. Noah was a man and Noe was the "arc of Noe", in the densities shown in your February, 1955 issue of Proceedings.

It was in the "arc of Noe", that the animals were brought to Earth in an arc (not ark) by Noah. Arc, in the dictionary, is described as; "the portion of a circle (or flight) described by the sun, or any other heavenly body in its apparent passage through the heavens."

The space people landed the various animals that could survive in the second density germination temperature. Naturally they were brought in pairs in the arc, (or spaceship). The space people know about the birds and the bees.

Of course there was a flood in the arc of Noe. The Bible is correct when it said all the water was in the firmament, (in the first density). That was why the vegetation was so thick in the first density. The moisture would condense and water the vegetation at night and rise as fog in the daytime.

When the Earth flipped on it's poles in the arc of Noe, the rotational speed changed and the new temperature of the Earth being less, the waters condensed and fell from the atmosphere and flooded the land. The Bible says the waters were only fifteen cubits deep (310 feet) in Genesis, 7:20.

So the story, in the Bible, of the ark and animal

cargo, is a badly twisted version of a man and a boat. The fallacy of this is evident when the size of the Bible ark is given as 300 cubits long, 50 cubits wide and 30 cubits high, (about 620 feet, by 110 feet wide and barely over 60 feet high).

Imagine caging a pair of each kind of living thing in an area that large. And don't forget they had to be caught, they were wild and sufficient food carried to feed them for 40 days.

Then the story gets further off. They confused the accurate ancient records with another arc. This was when the Bible story puts Noah's sons in the same boat.

The animals were landed in the arc of Noe, between the first and second densities. Three hundred and twelve thousand years later Ham and Shem and Japheth were landed on Earth, between the second and third densities, in the arc of Spae.

Noahs "sons" were not individuals either. The race of Ham were the black people. The race of Shem were white people, and the race of Japheth were the yellow people.

The various tribes that descended from these three original colors of people, that were colonized on Earth by the space people, is listed in Genesis, Chapter 10.

Each race is pure in its own color. And the universal law reads "each seed after its own kind". In all the creations, on the Earth, each flower, tree, animal and all of nature follows this law - except humans who were given the right to choose. Humans were given the intelligence to raise themselves; yet humans are the only creatures that violate this law.

That is one of the big reasons why the world is in such a confused mess today. The highest court of this land has sanctioned the violation of Gods law, "each after his own kind". All the governments are training men to kill in direct violation of the law, "Thou shalt not kill".

When authority violates the laws; who is to condemn individuals? "As ye sow, so shall ye reap". "He who lives by the sword shall die by the sword". These are not witty sayings. These are immutable laws. It is no wonder that the agents of God do not land in this iniquity. (Continued on page 6)

Secrecy-The Mask of Satan

Security of any country rests with the feeling of patriotism of its people.

Americans are intelligent people living in the greatest nation on Earth.

When people are treated like they were not trustworthy, by their officials in Government, they lose the feeling of security.

The talk of the masses of intelligent Americans today reveals their loss of the feeling of security, and their feeling of patriotism for their country.

The people do not expect the branches of Government to release military information, or data, pertaining to the safety of the nation. But they are fed up with the secrecy of officialdom, that withholds from them the information that is their birthright, as Americans.

How can civil defense be attained by a few officials? What is to be gained by treating adults like children?

The brutal facts, and effects, of "H" Bombs should be officially released to the public, so they can think about their own defensive actions. The Government will be too busy, when another war breaks out, to instruct civilians in their own defense.

The sudden explosion of a major war would have people on the coasts, and in major cities, in uncontrolled panic. They wouldn't pay any attention then to officials who would advise "too little and too late".

Potential enemies cannot gain anything from data they already have.

The spacecraft in our atmosphere have been witnessed by millions of people. Most of these people don't tell the skeptical officials of Government about their sightings. They tell many of us who will accept them as intelligent people relating what they have seen.

Seeing is believing. Many people who believe in the spacecraft have never seen one. When questioned as to why they believe in them, they have intelligent answers.

One of these answers is, "that they have never seen God, but they believe in Him too."

Officialdom cannot browbeat Americans and expect cooperation, or patriotism in return.

Americans are different than other nations people. Americans expect curtesy and honor from their Government, being part of it.

Secrecy by the Government, from its own people, is causing people to lose faith in their officials.

The spacecraft are real! Admit they are real. Washington, are you listening?

The spacecraft are not from earthly manufacture! Admit it Pentagonians.

The spacecraft are from space and other planets! Air Force Intelligence, intelligent Americans are waiting patiently.

The secrecy of holding the information from the people must end sometime.

Officialdom, who are you working for? You are killing the faith of people in their Government. Not one but millions of Americans.

A nation is only as strong as its people. The people are only as strong as their faith in their leaders.

What is the answer Washington?

(Continued from page 4)

Another density is ending. What will the space people do to start the fourth density of life on this planet. You can bet they will not let the failures of humanity gum up the works again.

So the religious history books record the errors entered by ignorance, and profess the books as Holy. No wonder people don't know where to turn in these critical times. To these I say, "go into your own closet".

THE RIVER OF LIFE
By N.D. Poulsen

Life is the cause of things to be, not things to end.

Come by nights still path to Me unseen, unheard, unknown.

There will I wait for thee, thou art Mine, I am thee.

Remain in Me and so be free, never ending, ever beginning.

Ever new, never old, born anew each day.

Babe in morning, ancient by night; know Me for I know thee well.

The light of life is ever glowing, coming to all within the knowing.

Lost to those with self indulgence uppermost in consciousness.

Sense pleasures are the plague of spiritual growth.

Be thou free, for thy own sake.

The diamond, undiscovered, unseen, dwells within the earth, though covered from sight, it still exists. So does that soul diamond lie covered by the cause of doings in darkness.

Darkness cannot exist in light; dig deep within, a tunnel that the light may shine and remove the darkness.

The river of life is flowing within thee, through thee and around thee.

I can be heard, seen and felt.

Many hear, some see, but few swim.

Those few who attempt, find the swimming difficult.

The endless river is flowing down; one must swim up and against the current, or be flung to depths beyond the point of starting.

One cannot carry another or be burdened with results of cause.

One must be a naked swimmer, or he shall not go far.

Infinite Light Tower

Excerpts from the forthcoming book
"The Council of Seven Lights"
By G.W. Van Tassel

SIGN OF THE SQUARE

When H.G. Wells wrote "Twenty Thousand Leagues Under the Sea", it took the human brain half a century to manifest the results of his factual narrative. The same has been true of many things we have today, in that they were written about, around the year 1900.

The ego of accepted authority is at least 50 years behind the open minded visionary. The many things that are presented by unrecognized people are only accepted as fiction by "authority".

Columbus said the Earth was round. Fulton said steam would run a ship. Edison said electricity would light the cities. Now I say the Sun is square. Where do people like us get such fantastic thoughts?

The proof is that the thoughts must exist, or people couldn't receive them. You can't buy an apple from someone who doesn't have an apple to sell. The answer lies in the development of the individual ability to discard time as a limitation.

The Sun is an evolved planet in its progressive state of being space. An expanding universe must have something to expand from. The Sun is not becoming smaller by combustion, or fusion. It is growing larger by implosive digestion of the matter it encounters in the lines of primary light energy. The Sun gives off only a very small percentage of the energy it is thus acquiring. Matter, or mass, cannot give off but only a small percentage of their actual potential energy, even in the famed atomic bombs.

The energy given off by any fuel, or matter; is always less than that substance which went into its making. Why is this?

The answer is - because mind also went into the making of all created things. Mind is neutral. Mind cannot give off energy, it can only direct the flow

THE SUN - GOVERNOR OF SOLAR SYSTEM

Note - This article should have been presented before the data on densities, which was published in the February 1955 issue of Proceedings.

and action of energy. Universal Mind permeates all things. Each person uses the mind of God according to his, or her ability to get into it deeper. All things that are, or ever will be, already exist in Universal Mind. None can penetrate into the Universal Mind beyond their own acquired capability. On the other hand, God cannot do more for you than you are capable of doing for yourself; by directing Universal Mind.

When science discovers that the core of the proton in an atom is square, then they will realize that the body in the Sun is also square.

The cubic minerals in their crystalized state are of neutral polarity on a negative surface such as the Earth. They can be brought into polarity however, by exposure to light, pressure (density change), or charging.

The body of the Sun was brought into cubic form by the fact that its axes were parallel to the three lines of light energy. The Infinite Light (Universal Mind), or the "G" line of light; centers one axis. The positive "A" and the negative "B" lines center the other two axes. They are all at 90 degree angles to each other.

The sunspots are discharges of secondary magnetic force released into the actisphere and photosphere by the rotating corners of the square core body. These discharges are magnetic exhaust effects common of any body in motion. The sunspots are apparent in the 10 degree to 30 degree North and South latitudes on the Sun, to our vision. The sunspots are exhausted when the discharged polarized matter is neutralized in the photosphere or the actisphere. They appear black, to Earth telescopes, because they hide the effect of fusion taking place between the positive photosphere and the negative actisphere.

The positive photosphere to the positive Sun body is the equivalent of the negative atmosphere to the negative Earth body - they each carry the same polarity as the body which they surround.

The fact that the rotational period of the Sun appears to be of different speeds at different latitudes, is due to the spiral effects of primary light energy losing speed in its travel to the poles. The apparent 10 day differential in rotation between the equator of the Sun and its poles is only observed in

the force field of the actisphere.

Viewed from the point of any of the three axes, a cube will appear square around its perimeter. Many square positive bodies in space do not rotate, because their axes remain parallel to the lines of primary light.

The bodies that do rotate were placed in motion when their axes were thrown out of parallel, with the lines of light, by a bend, or warp in the lines of primary energy. This caused the positive square body to start rotating by unbalanced polarity opposition within itself. This same rotational motion is made by people today, with their fingers near the head, when they wish to indicate that another person, like me, is unbalanced.

The polar axis of the Sun is now through two opposite corners of the cubic Sun body. The cube remained motionless in the lines of primary energy, like a compass needle, as long as it was in polarity balance.

Once the body was in motion, the lines of force, trying to reach rest, spiraled to the two points of least motion. This established an equator and opposite poles at two opposite corners.

In this position the positive polarity half, and the negative polarity half of the Sun, each have three corners discharging at approximately 20 degrees each side of the equator. These corners, rotating, are displacing matter and discharging energy; this is what causes the sunspots.

Cut an artgum eraser, or a piece of soap, into a cube and insert common pins in two opposite corners. Then make a line around the cube midway between the pole points, or pins. Assume one half of the cube will have four corners in it of one polarity. Then if you look at the opposite corners you will find they are all on the other side of the midway, or equator line.

You will also see that each half, from the equator line, is a three sided pyramid, or prism. The polarized prismic structure of the rotating Sun generates secondary light in its positive photosphere. The negative actisphere, which we see as a ball of fire, is activated in opposition to the photosphere by the primary lines of light energy.

Proof of the energy released from the positive and negative lines of light, can be established by the explosion of two small atomic bombs of equal mass. If one of them is exploded at 3 P.M., and the other at 3 A.M., the one exploded at 3 P.M. will register a greater effect because it is exploded in the active quarter of the lines of light energy between 12 Noon and 6 P.M., in relation to the Earth.

Space is the cubes of matter that are stable because their three axes are parallel to the three lines of light. Motion is only manifested by unbalanced matter; whether it be a sun, planet, atom, or person.

Desire for rest is what causes the intelligence in matter in motion, to seek balance and become again part of the Infinite Intelligence which is still. Space is composed of balanced cubes of intelligence at rest.

The lines of primary light energy parallel the eight edges and two axes of the cubes of space in two directions, and the infinite light parallels the four remaining edges and one axis.

All unbalanced positive bodies are emitting light. All unbalanced negative bodies are absorbing light. Cubes are unbalanced positive bodies. Negative bodies are unbalanced spheres. Each can contain, or be a part of the other; as long as one polarity is predominant. The predominant polarity will determine whether the object is spherical or cubical in shape.

Astronomers state that the light from some of the stars is coming from so many hundreds and thousands of light years away, that the star could be burned out and the light would still be visible on the Earth. This is predicated on the idea that the light is still traveling after the emitting body is no longer there. This is erroneous. If the star were not still emitting light, and were not there, you could not see it.

Telescopes and eyes do not see! They are only a system of lenses through which light passes. The mind sees. You can picture things you have experienced in the mind with your eyes closed.

The same Infinite Light of Intelligent Mind centers every atom, star, planet and manifested being. When astronomers look through a telescope, or people observe without one; anything you can see is there. The instant Infinite Light of Universal Mind, that centers

you and what your mind sees; cannot record, or vision something that is not there.

Negative physical vision only records to the negative physical brain the illusion that the Sun is round. All that the limited physical vision is recording is the effect of the secondary light emissions from the force field in fusion around the Sun.

Physical negative vision can only see reflected positive light, from another negative body, or negative emitted light from another positive body. The actisphere being of negative polarity is spherical. Therefore, the negative physical vision records it as a ball of fire. Were it not for the activation of the Sun's actisphere, by the positive and negative lines of primary light energy, you would not see the Sun at all with physical vision.

Through the instrument of mind, which is not subject to any limits, I have not only observed the body of the Sun - but also the core of atoms; they are all square.

The infinite, still, intelligent light of Universal Mind, centers and separates all things that are. You only have to reach balance, or become part of Infinite Mind, to observe anything. Universal Mind is yours to use, according to your own developed ability to reach zero balance between polarities.

When you can use this greatest instrument of Universal Mind, you can see into an atom, a sun, or anything else; from a spacecraft even to a galaxy not visible to the largest telescope.

Everyone has the dormant ability to use the instrument of Eternal Mind. Like bowling, or playing the piano, it requires practice to master. If your time limits your practice, your efforts will be in vain.

Under the present world mis-management of negative physical brains, using a social and economic system that the ants would discard; it is easily understandable why the technicians of science pollute science with theories based on illusions.

If the church too, would practice the teachings of Christ, instead of trying to emulate the economics of big business; then religions might have a chance to reveal Truth instead of hiding it.

Spacecraft Convention

Data by G. W. Van Tassel.

At present the analysis seems to indicate that this years Convention will attract at least double the attendance of last years Convention.

With George Adamski, Truman Bethurum, Orfeo Angelucci, George Williamson, Daniel Fry, Dick Miller and yours truly on the program, this will be the greatest assembly, at one time, of people who have had experiences with the space people and spacecraft.

It is hoped that Frank Scully, Silas Newton, Donald Keyhoe, Cedric Allingham, Dr. Laughead and many others will be present.

As a word of advice to you readers of the Proceedings; get here as early as possible. The roads will be jammed with traffic before the time to start.

The Convention will get under way at 10 A.M. sharp and continue possibly into Sunday.

It is our intention to bring out data, and pictures that have never been shown before.

Air Force Intelligence has been invited to make a public statement.

The San Bernardino Sheriffs Department will have deputies here to insure safty and order.

All people who fly in to stay over night, are requested to bring their own tiedown ropes. All aircraft are to park on the west side of the runway.

There will be a cleared area, where no parking will be permitted, around the speakers stand. Everyone bring their own chairs - also bring warm blankets and wear warm clothing.

There will be no admission charge made. A free will collection will be taken up to cover many expenses and the transportation of the speakers.

We will not have time to sell anything at the Airport, so all facilities will be closed.

The public address system can be clearly heard for one quarter of a mile.

Although the crowd will require my time, I hope to meet as many of the Proceedings readers as possible.

Spread the word and bring your friends. Skeptics are especially welcomed.

The best road into Giant Rock Airport leads from the Twentynine Palms Highway, two miles East of Yucca Valley, California. The sign here will read to Victorville.

Then go ten miles until you see a road to the right with a lot of signs. The Giant Rock Airport sign is on the West side of the road.

After making this turn, go to the bottom of the slope, where you will see another Giant Rock sign, and turn left.

Four more miles and you arrive.

Eleven miles of this route are dirt. By staying a few hundred feet apart, you can avoid the dust.

Everyone come dressed informally, for the outdoors. No Sunday clothes required.

We want everyone to have a good time, besides hearing about the greatest event in our recorded history.

MESSAGE FROM *HOLDER - August 14, 1953

I would like to inform the people of your planet Shan, called Earth, that our charts of your surface faults have been brought up to present variations. Our three sub-stations, now orbiting around your planet, are giving some of your scientists cause to wonder - although they have not informed the people that they have detected them.

*Holder - Authority over Ashtar.

Dear Friends:

INTERPLANETARY SESSION NEWSLETTER.

We have not issued a Newsletter since May 1, 1956 because we had no Space news which we could consider authentic. However, now we have some good news to pass along to you.

LECTURE - by George Van Tassel and Dan Fry, in Ballroom of Hotel Diplomat, 110 West 43rd Street, New York City, 8 p.m. Thursday, June 20, 1957. Donation \$1.25.

George Van Tassel operates the Giant Rock (California) Spaceport and Airport and has been host at four annual Spacecraft Conventions. He is the author of two books: I Rode A Flying Saucer, and Into This World and Out Again. He is also the publisher of Proceedings magazine, usually issued monthly. Back issues of Proceedings have been reprinted in one volume. Address George Van Tassel, P. O. Box 419, Yucca Valley, California.

Dan Fry is the author of The White Sands Incident. In this book he tells the story of a trip which he made in a flying saucer from a desert spot on the White Sands Proving Ground in New Mexico to New York City and return, in 32 minutes.

Dan Fry and another gentleman are now enroute to New York by automobile. George Van Tassel and Art Aho will arrive in Mr. Aho's plane. They all plan to be in New York City at Hotel Diplomat on June 17. They will probably be heard next week on Long John's program on Radio Station WOR, from 12 midnight to 5:30 in the morning, nightly except Sunday.

This letter will not reach you in time to sight flying saucers over New York on the night of June 13, from 10 p.m. to 1 a.m. But there will again be full scale operations of flying saucers over all American areas on July 1. This will be in three phases, as follows: New York areas, July 1, 9 a.m.; Washington, D.C. areas at 9:25 a.m.; general North American areas, after 9:25 a.m.; Central American areas, 9:30 a.m.; South American areas, 9:35 a.m. Second phase: Same areas as above, beginning at 12 o'clock mid-day, July 1. Third phase: Full scale operations over all American areas beginning at 7 o'clock on the evening of July 1. The above information has been supplied by George King, editor of Cosmic Voice, 88 The Drive Mansions, Fulham Road, London S.W. 6. Also, please note that George King has also published back issues of Cosmic Voice in one volume, price \$1.00 plus postage. This is beyond doubt the finest "buy" of saucer messages that we know of. George King is considered the best telepathic contact which the space people have, although George Van Tassel is the finest we have in America.

Margaret Storm has been assigned to certain work with the Space People, as follows: She is writing a book - Return of the Dove - a story of the life of Nikola Tesla, scientist, and the part his inventions will play in the New Age. Much of the data for this book has been supplied to Mrs. Storm through transcripts received on the Tesla set, a radio-type machine invented by Tesla in 1938 for Interplanetary Communication. Tesla died in 1943 and his engineers did not build the Tesla set until after his death. It was placed in operation in 1950 and since that time the Tesla engineers have been in close touch with space ships. The Space People have visited the Tesla engineers many times, and have told us that Tesla was a Venusian, brought to this planet as a baby, in 1856, and left with Mr. and Mrs. Tesla in a remote mountain province in what is now Yugoslavia.

A biography of Tesla was published in 1944. It can probably be found from your local library or bookstore. It is entitled "Prodigious Genius" by John J. O'Neill, then science editor of the New York Herald Tribune. Mr. O'Neill has since died. This book gives no information at all about Tesla's connection with the Space People, a fact which was not revealed until 1950. The book also gives many wrong impressions of Tesla, because Mr. O'Neill's occult knowledge was limited. However, it is well worth reading because it gives much technical information about electrical engineering which Mrs. Storm will be obliged to omit in her book because she has such an abundance of material to present.

It had not been intended to mention Mrs. Storm's work at this time, but the public will be offered a "sneak preview" in a small mimeographed resume of the book, according to publication arrangements now being made. This development came about unexpectedly because of the extremely critical condition of world affairs, engendered by the continuance of nuclear tests, and the fact that Mrs. Storm could not possibly have the finished book ready for the publishers before July 30, even with the aid of a small miracle. This material is now being presented as a paper before certain California groups where the announcement of the Tesla news was received with tremendous enthusiasm.

Mrs. Storm will present the material to certain small groups in the New York area within the next few weeks, and probably Space Groups in other sections will also co-operate by offering it to their members. Our world situation is not hopeless by any means, although the Space People bluntly inform us that as a race we are too "lazy"; spiritually we must become more potent if we are to hold this planet together against the efforts of the dark forces to blow it to bits.

So let us look for the good news. Look for good news from England where the messages of George King have at last reached the scientists, the press, and the Queen. Look for good news from Calvin Girvin of California, who is one of the best space contacts in this country.

And look for more good news at the Van Tassel-Dan Fry lecture on June 20. We hope to see all of you there. The ballroom seats about 1200, and we must put forward every effort to get behind these speakers and support them.

Then on July 1 let us keep our eyes on the skies! The Space People are going to make every effort to give all of us a chance to see the ships. However, if the military uses jets in large numbers to chase the Space Ships, we may not see them. As citizens you can urge the government to be more cordial to our visitors.

Now for some unpleasant news. This has been transmitted from Mars Sector 8, through George King in London. We have to begin paying off our karmic debts in the form of disease, which cannot be abated unless we discontinue the nuclear experiments. However, to help all of us through the coming period of epidemics the Space People have placed four space stations in orbit around the earth. They will start magnetizing the earth at midnight on July 21. Through meditation we can absorb these healing rays. The Martians have clearly indicated that they are just about "fed up" with our depravity on this planet; apparently even Space People can become impatient!

JANUARY - 1955

Number 4

 MAN, YOU NEED NOT CHART A roadway through the stars to me. — You need not cross the land, or search beyond the sea, You will find Me in the smile, in the look of someone you have helped along the way. You only have to search your heart and start to find that I am there — wherever you may be. Though all the roads may lead to me; though many search eternally to find a shortcut in the way — I am there and here, as close as you to me. So reach not for a star afar, search not in the distance, in the future or the past. At last you are aware — that I am there within your being, watching how you treat the Me in others of My parts.

PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are published to carry out our purpose of Interplanetary Communication and of the Diffusion of Universal Wisdom gained through the medium of space beings.

Being most urgent that the Research Laboratory Building (page 16) be completed and the Experimental Unit put in operation at the earliest date possible, the Trustees of the College of Universal Wisdom at Yucca Valley, California, earnestly solicit its patrons and friends to contribute generously to the Building Fund and to offer suggestions as to contacts that might be made with possible donors.

PROCEEDINGS are published monthly by the College of Universal Wisdom at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: Van Tassel Ranch, Yucca Valley, California. George W. Van Tassel, Director; Darlene Jean Wing, Secretary-Treasurer; G. W. Van Tassel Editor. Copyright, 1955, by George Van Tassel. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed stamped envelope. As we do not employ solicitors nor representatives, please address all correspondence concerning subscription, contributions, donations, bequests, etc., directly to the

COLLEGE OF UNIVERSAL WISDOM
P.O. Box 419, Yucca Valley, California

Desca On Boundaries

HAVE a subject here tonight that will be of deep interest to you. You are all aware of several invisible boundaries. The equator line is an invisible boundary between two hemispheres: the northern and the southern. Your international date line is a time boundary, also invisible. Your state and national boundaries are many times invisible, unless you follow a survey. There is an invisible boundary between the present, past and the future. There is an invisible boundary between the mental action and the essence of thought. Another boundary lies between thought and being.

In order to bring this division to you more clearly, let us take an imaginary walk together. As we proceed, we encounter a wall. There is a portal and a sentry. None can enter through this portal, unless they desire to do so. We pass through. We see another wall. In this wall are several portals. Let us enter the door marked "science". First we must pass the sentry and the password is effort. Inside there is another wall with thousands of openings, each labeled differently. Let us enter the one placarded "astronomy". The pass word here is action. As we enter this portal, we see another wall with millions of openings each labeled differently. Let us enter the one marked "lenses". The sentry here passes us when we express vision. Another wall confronts us, millions of millions of openings. Which one shall we enter? We enter a door that is not labeled and see only a great expanse. We come out and enter another door, and another - in and out. Each of these openings reveals an infinite endless space. We go farther and farther, down the wall. We pass other boundaries, out of astronomy into libraries. We look through the doors, the same expanse meets us. We reach the section labeled "science of foods". We enter other doors in the same long wall. Through each of them the same view meets us. We cannot go farther without the password that leads to Infinity. The password is "awareness" - consciousness of being. So we return back through the many portals.

What is the destiny of those who cross invisible boundaries? Science develops new methods, instruments.

and products daily. Where do the ideas come from? Out of the many portals leading to Infinity - through awareness. Individual man can tune individual mind to become conscious of everything that ever was or ever will be. Man cannot build a thing that has not been built before. Man cannot present a problem that has not already been solved. Man's thought makes him aware of the Creator's doings, and he devises mechanisms and instruments, foolishly assuming to be the originator of something new. Out of Infinity - through the many portals, in many invisible walls - come all things. The spoken work, a telescope, and a loaf of bread - all come from the original source, - the essence of universal mind of the One Creator.

C. Message from Lora

I am Lora. I am also a woman. Although my present assignment places me as the only Lordess in this system of Salon - my husband keeps the wolf from the door. It is understandable among you people on your level of life, that you assume those on other levels are misty shapes, vaporous substance, or some shadowy form, fading in the distance. Let me assure you that on all the life levels in this solar system, we are as real as you. Though in some levels we are not limited as you are limited. The race of Man, includes women and children, and though the frequency in which we live is different, we all live very much alike. Do not assume for one moment that because we come to you from out of space, that we are any different except we have followed the Infinite laws - we have progressed only because God's laws do not sanction destruction as a means of living. I enjoy going home to my family as much as any woman upon Shan. Though we do not shop as you do, I delight in every new frock I wear. You must abandon the illusion that has been created by the administrators of your various religions, that when you depart from your level you go to heaven and that is the end of it. I have served 7000 years as a directress of education in the schools of Blaau, 3000 years in the nurseries of Porlonta and have held many other assignments since I was on a level equivalent to yours. I can assure you, you have much, much before you after this short class you are in now. I do hope the women of Shan will appreciate that we too have jobs to do. In His Everlasting Light, I remain in your service, I am Lora.

Contrasting Dualities

Excerpts from the forthcoming book
"Into This World and Out Again"
by G. W. Van Tassel

In the beginning God created the heaven
and the earth. (Gen., 1:1)

HIS IS the first contrast of dual things. No thing or condition in God's universe is without contrast in duality. For every up there's a down, for every white there's a black, for every night there is a day.

In contrast to God's free creation of the earth, humans insist on owning some of it. Owing to the Cain and Abel opposition, humans take sides with every issue. Each side believes they are right and the other side is wrong. For that reason we have countries, political parties and contrasting ideas. Humans demonstrate the ignorance of their animal brains when they persist in opposition to each other.

Gandhi demonstrated the correct course in freeing India from the domination of England. England couldn't fight with him because he offered non-resistance. It takes two sides to make a fight. When one side won't fight there isn't any fight. The Finn twins recently demonstrated the success of Gandhi's principle.

Anyone who has climbed the "tree of knowledge" can see that it has two sides, no matter in which direction one looks. This is not because the tree knows one side from another; it's because the man in the top of it has two sides - the right and left.

God made everything in duality - so He could remain at rest in the middle.

God is peace. He doesn't pay anymore attention to the prayers of Americans than He does to the prayers of Russians - when the prayers are for victory over another through destruction.

Jesus said "My Father and I are one". That was because he recognized no rich or poor, no boundaries, or colors, no church, or religions. That was because he

remained neutral - at a division point between the contrasting dualities. Jesus didn't take sides with anyone. That is why he was worshiped by the one side and hated by the other.

Duality is a division of the mind in individuals. Those who are not stable are in constant disagreement with themselves. They can't make up their mind which of the things at the moment they want to do: to get up or stay in bed; to buy something or not to buy it.

Most people are not trustworthy because they are fence sitters, waiting to see which side they will fare the best on. Actually you shouldn't take either side - take God's course down the middle.

The Republicans think their party is right and the Democrats think likewise. The Capitalists and labor are always at odds. No duality is right in opposition to another. Each must reach the center to recognize the rights and wrongs of both sides.

When you stand in the middle and see destruction being planned on both sides, it is apparent that both sides are wrong. When you realize that the means of this planned destruction cannot be used constructively then unbalance exists.

A fire can warm you or destroy you. Cold is desirable in a refrigerator but not when it makes one uncomfortable. Speed is required to get somewhere fast, but its inertia can kill you if you lose control of it.

Atomic energy is a death force. Its radiations can kill you without a bomb being dropped on you. In commercial use for power it is as deadly as when it is used in bombs.

Fission or fusion of atoms, or their isotopes, on a planet are not as God intended. God brought about suns to operate their re-actions by the atomic principles of fission and fusion. He also placed the planets far enough away from the suns so there would be no effects from their waste products.

Human creations of sun principles, on a planet, is in direct opposition to the creative principles of an all wise God.

The animal brains of some people in authority are defying God. This is the beast that the Bible refers

to many times. Two opposite systems of authority, on the earth, are bound they are going to control this planet, if they have to kill everyone including themselves to do it. Their animal ego leads them to believe they will escape.

The Russian principle of control over masses by propaganda politics is starting to collapse. Internal rebellion would put a stop to the authorities control. People can only get so full, then they reach a critical mass and explode - the same as atomic elements do.

The non-Russian principle of control of the masses is by credit enslavement through money. This too is reaching a critical state.

The authorities of Russia and the non-Russian authorities both are at a point where something must be done to preserve their systems. Both being of the Cain animal nature think they must whip the other side.

This condition is agitated further by the animals in "no mans land", the ones who think they can profit by the fight and assume control when the two opponents are exhausted.

All three of these groups have ignored the guy in the middle. There is God in the middle at rest. He isn't worried. He established laws in his original creation to take care of these upstarts.

The law of re-action will cancel every destructive cause. Apply sun principles on planets and the re-action will make the planet a sun. Who escapes? Only the people who are with God in the middle. How? They will be taken out into space by the race of man in their spacecraft. These are the people God created. Humans are the materialized egos of themselves. How do I know? God told me and the man called Jesus told me and the people who landed their craft and took me aboard told me.

I'm going down the middle path with God. Everyone else has the same right to choose. The evidence is before your eyes daily. Don't hesitate much longer to decide where your place is. Duality will lose for you on either side. There are no right or wrong sides, but there is life and God in the middle.

"For as many as are led by the Spirit of God, they are the sons of God."
(Romans, 8:14)

Infinite Light Power

Excerpts from the forthcoming book
"The Council of Seven Lights"
By G.W. Van Tassel

THE EARTH AS A MOTOR

The positive and negative lines of primary light energy cause all motion. Humans, atoms, suns, planets and galaxies are all powered by the same forces.

The Earth is an oversize electron of a predominantly negative polarity. Its rotation and orbit are the result of attraction and repulsion to the lines of primary light energy.

Magnetism in and around the Earth is a result of the Earth's interruption of the lines of primary light energy. Electricity is the result of interruption of the Earth's magnetism by a generator.

As magnetism is the result of energy in motion, it can only effect a resultant energy by another motion interrupting it. Thus we turn an armature in a magnetic field to make electricity.

As the lines of primary light energy are in motion, any body that interrupts them will move according to its capacity and polarity charge.

Electricity is the second by-product of primary light energy; Magnetism is the first. Neither can exist without the other because they are both part of each other-like people.

In the drawing we show only the positively charged core of the Earth, the negative crust, and the atmosphere

in order to present the principle. Actually these charged strata and insulating layers extend to where they are smoothly repelled by strata around Mars and Venus.

The drawing is made with the Sun shining in the center of the Active Quarter from a 45 degree angle. The Sun is the alternator that changes polarity predominance from one hemisphere to the other every six months.

The circles inclosing the "A" and "R" indicates the direction of the attracting and repelling forces. The Negative Primary Light attracts the positive core in the Negative Quarter and repells the negative crust. The opposite is true in the Positive Quarter. These two attracting and repelling "brushes" are changing position continuously as the Earth orbits.

The atmosphere is actually a part of the crust and is of the same polarity. It acts as a bearing for the crust to turn in. The atmosphere and oceans are affected by the helical vortice set up in each hemisphere in opposite directions. This is caused by the depleted lines of primary light giving their energy to motion of the planet. As they are depleted they try to reach rest, like people, so they head for the point of least motion; which is at the poles. Naturally the polarity seeks opposite polarity.

A compass needle does not point to the north magnetic pole because it is attracted to it by an opposite polarity. Its negative charged end is only pressed into position parallel to the lines of light force going by it. The intelligence, in the molecular arrangement of its negative charge, wants to go with the other positively charged light lines in motion around it.

For the same reason the negative Earth, or other planets, were never part of the positive Sun. The planets being of opposite polarity could be attracted to it but never thrown off from it.

The Sun's Insulation Stratum prevents the positive polarity of the Sun from attracting the negative Earth into it.

Light is transmitted into energy by penetration into matter that interrupts it. The matter then effects motion.

Matter then re-produces the energy effect in reflection. When the reflection loses its energy it is then absorbed into the light.

A negative vortex of light energy produces decelerating effects in negative matter.

A positive vortex of light energy produces accelerating effects in negative matter.

The reason the negative light energy spirals to the North Pole through the Northern Hemisphere, is because it is trying to reach rest-through arriving at the point of least motion.

All negative planets are spherical manifestations of light energy in matter, going through the evolution of becoming positive cubes of matter in space.

All negative planets are of terrene structure. A planet of contra-terrene structure is a Sun. All Suns are cubes. The illusion of the Sun as a ball of fire is because we only observe the negative force field around it lighted by the resistance it sets up to the lines of primary light energy. We see the surface of negative planets because we cannot see their positive force fields.

Most of the stars we see are positively charged bodies in the positive stratum of the Earth's force field-reflecting negative light from the Earth.

After going outside of the Earth's force field only a few of the brightest stars are seen in space. No wonder the astronomers at the observatories are so hush-hush.

The super-nova collision they reported thousands of light years away was probably a collision between one of the positive bodies in the Earth's force field and a piece of negative debris coming into it.

The Earth being motored by the lines of light energy acts as a generator of the Earth's force field. All substance gives off reflection to light of opposite polarity; therefore the predominant negative effect, from the Earth, lights the positively charged bodies in the Earth's force field-along with the negative lines of light energy they interrupt.

Looks like all the books of astronomy are obsolete, along with the speed of light and human rule on the Earth.

Soon many people will have been in outer space and the data I have submitted to the reader will be verified.

This is the last of the present series of cosmological articles, as we want to bring the readers the density and dimensional information.

EXPRESSION OF GRATITUDE

The college regrets to inform the readers of the Proceedings; that Theodore Wayland Berger has retired from the position as editor.

Mr. Berger has contributed much to the founding and unexcelled artwork of the Proceedings.

It is the hope of the college; that the future will hold much in store for Mr. Berger.

Until other arrangements can be made, your Director will act as Editor.

A MESSAGE FROM ESU

Much has been said, little has been done. Soon I shall recognize the completion of my success. For I have lived long in the incompleteness of my failure. None can see from the eyes of a bird except the bird. None can stand strong in the Father's service, unless he has known the weakness of himself. Patterns of the future are only successful completions of the failures of the past. Stand together. Love one another. Learn your smallness that you may recognize your greatness.

ONE OF THE RECENT MESSAGES FROM ASHTAR

Received by G.W. Van Tassel Saturday, October 16, 1954

In your past several years, numerous experimentations with the death force- nuclear and atomic powers - have been conducted. In the normal pattern of balance in Shan, the Earth, any individual disturbance will be balanced out in 28 days. However, the ignorance in authority, have perpetuated several tests within 28 day cycles. The harmonic repercussions of these unbalanced forces are about to strike the planet Shan in rebound. You are going to witness earthquakes, storms, tidal effects, volcanic activities and extremes of flood and arid conditions. Ignorance is about to receive its reward. From Schare, Ashtar, discontinue.

Thought For Food

ES, THOUGHT is food for the mind. The question that is brought to your Director very frequently however — is the question of food for the body.

Many are the people who profess to be vegetarians because they do not want to contribute to the killing of animals. I am going to answer the controversy as the space people gave it to me.

The vegetable is a form of first dimensional life— Stationary life.

The animal is a form with second dimensional life and motion — Moving life.

Humans are a form of third dimensional life, motion, and consciousness — Conscious of God, or a higher diety and self.

Man or the space people are a form of fourth dimensional life, motion, consciousness and emergence. Emergence is the act of having emerged from the animal bodies of humans.

The space people (the Bible called them angels) are not limited to the density of the flesh.

When an animal eats vegetation it gives to that stationary form of life — motion. It could not move around before as a plant.

When humans eat an animal or a plant they give to them consciousness — to recognize self and God.

The inert matter of flesh, whether it be human, animal, or vegetable substances, is only a conductor of light energy — to manifest life in form. Each lower dimension of substance — forms — contributes its dimensional characteristic to forms above it. Each higher dimensional form — contributes evolvment to substance of forms beneath it.

Animals give motion to vegetation. Humans give recognition of God and self to animals. Man gives

emergence from negative human flesh to positive spiritual reality to humans.

Animals are designed to concentrate vegetable substance for humans.

Humans are designed to recognize right from wrong and to get out of the mortal grade of flesh through consciousness of something called spirit.

Those who eat only what the animals eat, are evolving backwards to the second dimension by their own choice.

Some vegetarians say they do not want to assimilate the magnetism of the animals. Magnetism is the exhaust effect of the positive and negative lines of light-energy interrupted by any body. Magnetism is the same, whether it is the result of interruption of light-energy by a planet, a human, or a steer.

Magnetism does not carry the characteristics of anything it is effected by.

Fear of death is a product of the brain and the fear dies with the brain. Recognition of life is a product of the consciousness of be-ing. The brain of a physical body does not contribute anything to intellect. Intellect of spiritual thought force generates the brain of human bodies.

It is the reaction of the carnal animal brain that does not want to eat its own kind. The spiritual mind of man knows that the substance of flesh is not the carrier of life—but a manifested conductor that reveals the spirit in form.

For the same reason—the spiritual minded man does not contribute to the killing of his own kind—or spirit in manifested human form.

Having acquired the bodies of humans, through the violation of the original laws of the Creative Spirit, by the fathers of the Adamic race of man and the mothers of the animal race of Eve, mortals are stuck with a manifested negative substance animal flesh coat and a positive, real, eternal spiritual body.

It is erroneous to call the flesh a body. It is an inert limited mobile coffin. The physical you is not alive—it is only a negative substance-filler of the living body.

Try to tempt a carcass with the most savory food — the carcass won't eat anything after the living body has departed from it.

When you see, touch, taste, smell or hear anything; it is not the flesh that senses, it is the everlasting real spiritual body that senses.

Anyone who can depart out of the body and return at will — or involuntarily — will testify that everything feels, smells, tastes, looks and sounds the same as when they are burdened with the coffin of flesh.

In assimilating conductive substance of animal or vegetable food substance, you are not contributing to the death of anything. You are contributing to their evolution.

The essence of life is everywhere — whether there are spiritual or animal forms there to express the life force or not. Life is not confined to forms any more than God is confined in churches. Forms only make use of the life force in manifested sensings and actions.

Life will live you in spite of your reactions to it. God is not an Indian giver. When you were given form to manifest life — God did not give it for one span in confinement of flesh. Everyone was created at the same time — no one is older than anybody else. Life and Time and Space are the trinity of eternity as all are infinite.

Life is not confined to the Earth, or Heaven, or man, nor animal or plant. Life is! Light is Life and God is light. You are manifesting God. God, Light and Life and Space and Time are neutral.

God doesn't express good or evil — He gave to man the power to choose and direct His force. If you manifest destruction, or greed, or evil actions, your God is evil. If you manifest Love, Compassion or creative actions your God is good. The Creator's acts are creative. Your manifested thoughts, words and actions are what determine whether you are using God's life-force for Him or against Him.

You can't fool God with human ideas. You either evolve in the way of His perpetual progression, or you go backward by your own choice. It is better to be rebuked by a man of wisdom, than to be agreed with by a fool. You still have the right to choose.

SPACECRAFT CONVENTION "SPACE"

"Space Peoples Associated Contacts on Earth"

This convention will bring to the public new people who have been aboard various sizes of space-ships.

The convention will be held in Los Angeles, Calif., at a hall and date to be announced later. It will be sometime between February 15th, and March 15th.

Do not be confused by any other conventions. "Space", presents George Williamson, Truman Bethrum, Orfeo Angelucci, Daniel Fry, Dick Miller, George Van Tassel and others.

Admission will be FREE.

REPORT

August 4, 1954

Since the date of my last report to you I have been given several pieces of literature about Flying Saucer meetings, and information regarding locations of meetings in re Saucers. It was one of these articles announcing a meeting at Giant Rock Airport, closely followed by a newspaper article relating that Florence Minna Thiel, 40 year old writer was found dead "of thirst and exposure" Saturday, July 10, 1954, in that area that induced a trip to Twenty-nine Palms last Saturday. Miss Thiel had been attending meetings at Giant Rock Airport, where Mr. George Van Tassel is considered an authority on "Saucers".

The Saucer groups appear to be another means of raising funds for the Communist Party. When chosen by the Communist screening group, members would be given further indoctrination. A very conceivable place to clear them would be through such a place as Giant Rock Airport, located approximately fifteen miles NW of Joshua Tree, California.

The Giant Rock group, which now has under construction a so-called "College of Universal Wisdom" to be located at Giant Rock Airport, is in my opinion teaching and advocating the overthrow of the U. S. Government by publishing literature which subtly aids in Communist indoctrination, and could provide a substantial amount of revenue as a fund raising "front" group for the Communist Party. (See Envelope marked "1", containing "Proceedings" of the College of Universal Wisdom, and a map of the Twenty-nine Palms area, containing detailed information in re both Giant Rock Airport and our Marine Base.) The Saucer angle is undertoned in the Giant Rock literature in order to carry along any right-thinking people, apparently to obtain additional funds from them.

Giant Rock has quite a few residents of the airport. They have dwellings in trailer houses, some of them built into the rocks, while others are hitched to automobiles. There is a den inside the Giant Rock itself, downstairs, which houses curios, paintings, books, piano, lounging chairs, lamps, a couch, table, a floor model globe of the world, and the usual incidentals. The "den" is used for the office of the group. The rock (Giant Rock) is equal to seven stories in height. It has on the wall, as a sort of tapestry, a large square, black, on which is superimposed a symbol in white, a large circle, approximately three feet in diameter, bisected vertically.

There is a landing strip adjacent to the Rock. This strip is not used as an airport, commercially, but only occasionally by individuals flying in from at least one place they mentioned, LA International Airport. The large landing field at Giant Rock is about a hundred yards from the Rock, and appears as though a circular object may have landed or taken off, although the marks of violent circular motion could have been made purposely with other equipment to indicate to gullible members the arrival of such craft as Saucers. This area is located SE of Giant Rock, as seen from the road.

There is a small cubby hole of a lunch room, adjacent to the Giant Rock, with pictures and cards posted on the wall including various clippings

and pictures concerning Flying Saucers, and a picture of a bright red Flying Saucer. There is an artist's drawing of the proposed "College of Universal Wisdom", the purpose for which funds are presumably being collected. The picture, well done and architecturally impressive, would remove doubt that there is such a building planned and would aid in drawing additional funds from newcomers. They give out literature only to those who seem interested, and of whom they seem not to be suspicious. Note enclosed copy of "Proceedings", and certain sentences called to your attention by underscoring. See "1".

Flying from the top of Giant Rock Airport is a peculiar piece of material that is supposed to be a wind indicator. If you have a man in that area now, and there was one of a type which could conceivably have been a man from your office already on the job there, he will know whether there is another significance in that gadget which strongly resembles a flag. They have various types of radio equipment, also.

One of the several danger points of these "Flying Saucer" groups is that each location will have, or may already have in operation a very powerful telescope which can, in the case of the Giant Rock group or any other group conveniently located beside a big military installation, train its glass upon our Base and learn many things discernable to trained enemy agents regarding equipment, activity, and personnel or visiting dignitaries. There are Saucer meetings held near Muroc Base, also, but at this date I do not know location, nor whether a telescope has been established there.

There is little doubt that so-called religious groups of a sensational or unorthodox nature are producing literature and training designed to indoctrinate our people to the Communist program. Note enclosed literature in re religion, envelope marked "3".

Concerning the body found in the desert, that of Florence Minna Thiel, it seems possible that she may have made it known to her Saucer Foundation authorities that she knew what was going on and intimated that she was planning to go to the police with her information. It is difficult to believe that anyone would die of the ascribed causes in that locality as it is not distant from civilization, and there is motor traffic along her route. (See "2")

A place called "Mentalphysics" (The Institute of), also located in that area, was apparently deserted. However, this huge, sprawling set of buildings resembled a prison camp with holes arranged along an inner wall, at eye level, which could be very useful to the enemy in event of wartime defense should this place prove Communist. On the door of this apparently deserted desert cult headquarters, they had a small box containing cards which you are to sign (in printing) and mail to the LA home office for further information. My attention was drawn to the similarity between the professed "Metaphysics" of the "College of Universal Wisdom" at Giant Rock, and the huge neon sign "Mentalphysics", which suggested that a similar headquarters might be the mainspring of both groups. In Los Angeles their main offices are located at 213 S. Hobart Blvd, LA 4. They use various names in their "religion". The neon sign visible at night just north of 29 Palms Highway, E of Joshua Tree, is captioned simply "Mentalphysics." The home address of this group is "The Institute of Mentalphysics", and when you reach the address on Hobart Blvd, you will find yet another name, "Church of the Holy Trinity".

with the word "International" placed inconspicuously, higher than the rest of the title, so that the church appears at first glance to be merely another orthodox church. The church is very unusual in that it contains long rows of offices, a large time-clock, a covered outside balcony on the second floor level from which observers could easily check any person arriving in a car or attempting to approach the building, while the persons on this strangely covered balcony would be invisible to those approaching. The building is huge, white stone, exceeding in size any comparable building of which I know except the Jewish Service Building, at 590 N. Vermont. See photo on brown card, in "3".

The slightly differing names of this bunch of nuts could prove advantageous from the standpoint of fund raising, especially as they seem to run a profitable mail-order business on the side. Incidentally, the area covered by the "Mentalphysics" buildings along the 29 Palms Highway would make the possibility of detaining or handling underground large groups of "wetbacks" or other subversive or Communist groups a distinct menace. The buildings cover a huge ground area and could be a distinct menace should these sprawling buildings be merely a "cover" for large rooms or cells underground, as the religious pretense would make it possible to move large numbers of persons along one of our principle highways with little fear of unfavorable observation.

Note attached card. Mr. Callahan, Hamilton Sales Corp., spoke with a loose tongue and an amazing knowledge (for a man who arrived in 29 Palms only two years ago) of our Marine Base, Uranium fields, and even the proposed guided missile sites.

MOURN DEAD WRITER—Miss Adele Arbo, a musician, holds Topsy, pet cat that belonged to Florence Minna Thiel, free-lance writer found dead in the desert. The animal whined and bared her teeth, as if she knew that her owner had died; Miss Arbo reported.

Black Cat Left to Mourn Desert Death of Writer

Animal Behaved Like It Knew Owner
Had Perished, Says Friend Who Took Pet

A black cat was left to mourn yesterday for Florence Minna Thiel, 40-year-old free-lance writer whose fascination for flying saucers apparently lured her to death in the desert.

Miss Thiel, who wrote under the name Terry Steele, was found dead of thirst and exposure Saturday on the blazing Mojave Desert, 15 miles northwest of Twentynine Palms.

Friends said the woman, who lived at 410 S. Ardmore Ave., had gone to attend a meeting of flying saucer enthusiasts near Twentynine Palms at Giant Rock Airport.

The cat, named Topsy, was given to a close friend, Adele Arbo, a musician of 1112 W. 93rd St.

The animal was behaving very strangely yesterday, whining and baring her teeth, as if she knew her owner had died.

Miss Arbo described the dead writer as "metaphysically inclined."

Saucer Theory

"She was sure that saucers came from another planet in our solar system and not from worlds beyond," Miss Arbo recalled.

"She had been going out to Giant Rock since last October to learn more about saucers. But I can't imagine why she would go alone, as she apparently did this time."

Miss Arbo said her friend had written numerous short stories under the Terry Steele name, had been a society editor for a community newspaper and had tried her hand at composing as well.

The woman's body was found after her car bogged down in sand, and she began a futile search for water.

DING LE MEI PRIVATE RECORDINGS IN MENTALPHYSICS

"Voice of Ding Le Mei" Recordings (Ten recordings).....\$15.50

Private Recordings of the "Voice of Ding Le Mei" are now available to students only. These sublime recordings are the exact replica of Ding Le Mei's voice, in meditations which follow the Spiritual Breathings as taught personally by him in his classes at The Institute. They are of immeasurable benefit for all Home Study Students in the practice of their daily lessons.

"The Mystery of Meditation" Recordings (Ten recordings)

De Luxe Edition \$25.00
Popular Edition \$15.50

Ten Recordings in all. Each complete Recording embodies an unparalleled lesson in the highest and holiest teaching extant of this divine Mystery. These Special Recorded Lessons are unique in the occult field of the world—East or West. These Recordings by Ding Le Mei are perfectly natural to his voice, sharp, clear; with proper care, they will last for years.

What Better Gift Than a Good Book?

THIS OFFICIAL BOOKLIST IS DATED
JUNE 1ST, 1952, AND CANCELS
ALL PREVIOUS LISTS

Publications written by Ding Le Mei are gift books of the utmost inspiration and usefulness. Students and friends by the thousand have testified to the manner in which these Books and Lessons have helped them toward more abundant living.

No matter what the occasion, you will find one of these remarkable publications suitable as the Ideal Gift.

Please use Order Form, which is to be found on a separate page of this Book List.

By acquiring your needs from The Institute, you save money and you help your friend.

(Not included in the Library of Fourteen Publications)

New Book—"My Life in Tibet"

194 pages of our Teacher's Life in a Tibetan Monastery. A Book everyone interested in the Living Truth of Life should read and study. A personal record of amazing power.

Price: \$3.00—A very handsome volume.

Our Silver Anniversary Year—1952

The Faultless Philosophy of Life

SECOND STREET AT HOBART BOULEVARD
LOS ANGELES 4, CALIFORNIA, U. S. A.

DUNKIRK 3-4187

Dear Friend:

If testimonials are to be believed—and we have thousands of them on file—books published by this Institute have helped thousands of people to be successful—to be well and happy—and to find their God. Are YOU desirous of getting more out of life, of learning how to do it in a practical way? Then YOU will be interested in this letter and book-list which tell you about these wonderful books. We are now having new editions published, and the opportunity presents itself for you to obtain the present stock at a trifle beyond publishing costs of three or four years ago; as long as they last you are privileged to acquire them for the donations shown on the attached book-list.

Edwin J. Dingle's "LESSON ON SUPPLY" will prepare you with the correct technique to truly enter into the keen competition of this modern age. Similarly, his lessons on "CONSTIPATION," the root of all disease, and "YOUR EYES" are invaluable. This is first-hand information. The author has experimented with his own body and proven in his own life the value and efficacy of the information contained in these great helps to humanity.

"BREATHING YOUR WAY TO YOUTH" is a complete course of instruction in the absolute Truth of health and youth—obtainable by donation for \$7.50.

Then our "CHEMICAL GUIDE"—A chart and manuscript teaching you the secrets of correct

scientific diet for your own chemical type; teaches you to **RECOGNIZE** other types, together with predisposing tendencies to disease, outstanding characteristics and abilities and how to develop yourself and to approach and anticipate the reactions of others. Every mother should have one and use it in feeding the family. If you are unhealthy—if you are unhappy, there may be a chemical cause. If you are melancholy, full of fear—unable to face the world and get from it that which is your rightful heritage, there may be a chemical cause—the "GUIDE" will help you definitely in approaching your health problems.

"INFORMATION ON DIET" runs hand-in-hand with the "GUIDE," giving you effective combinations of food and containing all that you ordinarily need to know about scientifically fuelling your body.

For those interested in spiritual development, "HOW TO MEDITATE" and "YOUR MIND AND ITS MYSTERIES" are sister volumes, and together with "IMAGINATION" present a well-rounded understanding of your occult, psychic and spiritual self. Ding Le Mei's great book is his "BORDERLANDS OF ETERNITY" (with "My Life in Tibet")—it is a most remarkable record of his unique experiences as a traveler, a geographer, a seeker, a philosopher and teacher. It has no peer as a gift book, and should be in the library of every student. And it goes without saying that his "VOICE OF THE LOGOS," a deeply spiritual appeal to true seekers, is a **MUST** for all who are truly seeking the secret of their own true nature; it helps every seeker to find God, and what more can we expect of a book?

In view of the fact that The Institute of Mentalphysics is a non-profit corporation, you are given the privilege of acquiring this complete library of Fourteen Wonderful Publications for a donation of not less than \$25.00 (a considerable saving over regular price). By acquiring these books direct from us on a donation basis, you save money and are assured that the interests of humanity are advanced.

Yours for a Better and Happier Humanity,

THE INSTITUTE OF MENTALPHYSICS.

"THE VOICE OF THE LOGOS"

TWO

"BORDERLANDS OF ETERNITY"
(With "My Life in Tibet")

At last—Synthetical Disclosure of what Mentalphysics
 Teaches. Deeply spiritual, this book is the ideal gift for
 your friends on every occasion.
 DONATION: \$3.00 Per Copy

☆ GREAT BOOKS ☆

☆ education and interest,
 54 illustrations; full of wonder and interest,
 education and entertainment; unique.
 DONATION: \$7.50 Per Copy

List of Publications Issued by the Institute of Mentalphysics

By acquiring these Books direct from The Institute on
 a donation basis, you save money and are assured that
 the interests of humanity are advanced.

Breathing Your Way To Youth . . . \$7.50

A treatise on correct breathing and eating. The natural way to promote more glorious health, harmony, happiness, and a success inviting personality, to prolong youth and delay the symptoms of age. Complete course in Scientific and Spiritual Breathings, which leads toward mastery on the physical, mental, and spiritual planes of life. 40 illustrations: Super Yoga Breathings by photography for first time in history.

The above volume is a reliable introduction to Mentalphysics—a science that reveals the power possessed by all of us to make our life whatever we desire. It is the most beautiful philosophy, so simple, so practical, so astonishingly efficacious so that once we have made it our own we wonder how we existed without it. We learn to achieve poise, serenity, and a control hitherto unimagined.

Your Sex Life \$2.00

A Treatise on Sexology, Parenthood and Divorce; What is Man—What is His Life Force? How to use the Creative Force of Life; Endocrine Glands—Their Function and Effect; *Secrets of Happy Marriage*; Difficulties of the Unmarried; and a mass of vital knowledge on the Sex Force from exoteric and esoteric standpoints.

Your Chemical Type, Guide to Diet and Health \$1.00

Scientific and Artistic Conception of the Chemical Structure of the Human Body—Your Chemical Type, Predisposing Ailments, Principal Characteristics. Chemical Dietary Dictionary.

Imagination—Your Creative Power \$1.00

A Treatise on Your Hidden Creative Power and Imaginative Faculty, with an Allegory.

How To Meditate \$1.00

A Scientific System of Instruction for Concentration and Entering the Silence; has been beyond price for thousands of people.

Your Mind and Its Mysteries . . . \$.50

The unparalleled method of discovery and direction of what is popularly called the Subconscious Mind; contacting the Universal Intelligence; and how to use it.

Information On Diet \$2.00

A practical introduction to the Natural Food Way of Eating; menus for all meals; many practical and workable ideas of building healthy bodies through natural eating.

Lesson On "Your Ears" \$1.00

This documentary lesson has come as a great gift to many whose hearing is deficient. Send a copy to anyone whom you know to be afflicted.

"Borderlands of Eternity" \$7.50

Including "My Life in Tibet," is a most handsome volume of 560 pages of wonder and interest, education and entertainment; 54 superb photographs; gold blocked in luxurious cloth binding. Long ago it was said—"Seek and ye shall find." Here is the saga of a man who sought mightily—and a man who found as well. No matter what YOU are seeking, you will most likely find it through the reading of this most remarkable work. It is simply a perfect gift.

"The Voice of the Logos" \$3.00

A new book, just off the press—it is also a great book. Says the Author: "If the contemplation of this book leads the reader into the study of Mentalphysics, I feel that he will be grateful; and I shall be grateful if the result for him is happier and more victorious living." A prized gift book for every occasion, suitable for everybody. Obtainable for donation of \$3.00. No words can praise these two books too much.

The Living Word \$2.00

A most handsome volume bound in green and gold. Should be a permanent unit of your Mentalphysics Library. A mystic work on the "NINE POSITIVES." Contains valuable information on the Noble Art of Meditation. Can be carried in a man's pocket or a lady's purse. Embraces affirmations and meditations for every day in the year.

Lesson On "Supply" \$1.00

Has been called "The Greatest Lesson Ever Written"—teaches you HOW to establish the Law of Supply in your own life.

Lesson On "Constipation" \$1.00

The root of all disease, and how to overcome it; cleanliness of the body through right eating and exercise; this is a LESSON—it tells you how to do what thousands have done.

Lesson On "Your Eyes" \$1.00

The writer of this lesson wore glasses for nearly forty years; there is no need for anyone to go along through life with defective vision. This lesson has been declared by many to have brought them amazing revelations regarding their own power to establish perfect vision.

COMPLETE LIBRARY

(14 Publications)

DONATION: \$25.00

(Acquired singly, these 14 Publications will cost you \$31.50)

(Use Order Form Overleaf)

Library of VICTORIOUS LIVING

The "Fifty Little Books"

THE purpose of the 50 little volumes that make up the "Library of Victorious Living" is to present a perfectly simple and ultimate plan for a highly successful life from every point of view. Each volume is an invitation to learn—as practically as you may learn anything whatever if you put your effort into it—how to discover your own true nature and your own illimitable powers.

Throughout your life, most likely with much running to and fro, you may have been (as I was) eagerly seeking in books and teaching, in religion and philosophy, for Truth, for Happiness, for Freedom, for God—or for you knew not what. You may today be weary, fatigued, discouraged, almost destitute of hope. Many times you may have glimpsed the Truth, and then it disappeared, and left you still hungering. Hungry, you sought in vain the Bread

of Life—thirsty, you sought but could not find The Stream. Your search, my friend, is now at an end, if you have eyes to see and ears to hear.

No matter what your religious beliefs—indeed, no matter what!—that which you have always sought IS WITHIN YOU. This is Life's most sacred secret. From a careful study of these little books, it is given to me to know, you will gain immeasurable spiritual benefit. As you read, it will be to your Higher Self that you will listen.

If you are ready, as you read and study you will hear the voice of your Higher Self speaking forth from your own heart the secret of Health and Happiness, Success and Abundance, Freedom and that Peace that passes knowledge. Be patient. Be zealous. Learn to surrender into the joy of your own LORD within you. —THE AUTHOR.

Our Publications Department is happy to present to the student-body of Mentalphysics, for the first time, two beautifully designed Cover Volumes, which contain the Fifty Little Books comprising the "Library of Victorious Living." These unique hand-made Covers resemble hand-somely tooled leather bound volumes. All lettering is blocked in an easy-to-read design in real gold-leaf. When on your bookshelf these two beautiful Covers look like Part One and Part Two of one large volume. For making a selection of one of the Fifty Little Books contained in the larger Cover, one merely has to lift the first page and there are all Fifty Little Books numerically arranged, ready for your selection.

PART ONE

The single purpose of this volume is to present, in as clear a form as possible, an outline of the Science of Mentalphysics. It is also an invitation to the reader to learn how to discover his own true nature and his own illimitable powers. There are twenty-seven Little Books divided into four parts which make up Part One, each a complete subject in itself dealing with "The Secret of Victorious Living." They are:

- | | |
|--|------------------------|
| 1. "Mystery of the Evolution of the Universe" | } 27
"Little Books" |
| 2. "Eight Rungs of Man's Ladder to Divinity" | |
| 3. "Seven Majestic Words in the Mystery of Creation" | |
| 4. "Six Steps: Man's Triumph Over Negation" | |

PART TWO

Part Two is a continuation of Part One. Through the study and practice of Mentalphysics, the Art of True Living can be yours—self-mastery, physical vitality, prolonged youth, intensified talents, superior intelligence, growth of character, nobler and more abundant life. The last of the twenty-three of the Fifty Little Books are divided into five parts showing you how these qualities can be attained. They are:

- | | |
|---|------------------------|
| 5. "Seven Secrets in Man's Ascending Consciousness" | } 23
"Little Books" |
| 6. "Four Essentials of Human Victory" | |
| 7. "Triumphant Rewards of Human Surrender" | |
| 8. "Four Secrets of Man's Universal Consciousness" | |
| 9. "Life's Jubilates of Man's Evolution" | |

Wonders In the Air You Breathe That No Man Can Explain

Did you know that there is mystery, strange power, marvelous magic, in the very air that you breathe?

* * *

Did you know that, among those who have studied this strange power in the air about us, almost *unbelievable feats* of body and mind have been performed?

* * *

Did you know that the wonders you read of, the amazing exploits of Adepts in the Far East and Tibet, **CANNOT BE ACCOMPLISHED** except by the use of breathing methods which seem to **CONTROL** this astounding power of the air?

* * *

Few people do know these things. Fewer still know much about the baffling methods used by the wonder-working adepts to give them such *stupendous* mind-power.

What we now disclose to you, therefore, should open your eyes to vistas of power before undreamed-of, possibilities **WITHIN YOU** and in the *air about you* that may lead to quick and surprising success in your undertakings, great improvement in your mental and physical strength, and rapid growth of your talents and abilities. For this strange power in the air about us, if properly used, can help you, too, to perform marvels in your life.

Test This Force For Yourself

We shall start with a *simple* demonstration of this force that you can *test immediately* for yourself. Later on we shall take up more startling examples.

Did you ever notice that when lifting something very heavy, something that takes all your strength, **YOU AUTOMATICALLY HOLD YOUR BREATH**. Why do you do this?

You have probably been in many near-accidents while driving or dodging automobiles. Have you noticed that, in such dangerous emergencies, you gasp and **HOLD YOUR BREATH**, while your *mind works with lightning speed* to save you from the danger? Why, again, do you hold your breath?

When you suddenly get bad news, and you want to **THINK FAST** about the new situation that confronts you, **AGAIN YOU HOLD YOUR BREATH**. Why?

Stop and think about these mysteries concerning yourself. One would think that on such occasions, when you want **MORE** strength or mind-power, the natural thing to do would be to **KEEP ON** breathing, so that your blood and your brain could get more oxygen. Instead you do *just the opposite*.

WISE NATURE CAUSES YOU TO DO THE RIGHT THING INSTINCTIVELY. Your mind is never more efficient and powerful than it is on such occasions. Afterwards you may be surprised at the *unusual presence of mind* you displayed.

Try this simple test. Lift one end of a heavy piece of furniture. Notice that the most natural thing to do is to hold your breath. Then try to lift the piece of furniture again, **WITHOUT** holding your breath. You will find it much harder, perhaps impossible, if the furniture is heavy enough.

Is There Some Hidden Power?

Why does holding the breath, on such occasions, seem to give you greater strength? Does some **HIDDEN POWER** in the air enter your brain and blood, **PRESSED** into use by the greater pressure of the lungs? Our modern scientists do not give a satisfactory answer, and seem to be baffled by the mystery.

The Wise Men of the East, however, claim to have **DEMONSTRATED** that there is such a hidden power in the air, which can be made use of through correct breathing practices. And the apparent miracles the Adepts perform with the aid of their breath-control methods, appear to **PROVE**, not only that this power is **TREMENDOUS**, but also that we can **USE** it to produce tremendous results in our minds and our bodies. Instead of using this power only in emergencies, and instinctively, we can use it **ANY TIME**, consciously and deliberately, and thus accomplish things that might otherwise be impossible.

Curious States of Mind-Body Control

As a scientific writer wrote in a recent magazine article, "We are at last facing the fact that here the *East* can teach *us*. Already research has shown that controlling of the breathing can bring about very curious states of mind-body control."

The writer then goes on to tell of a man lying under water for three-quarters of an hour, without drowning, through a technique of breath-control. He tells of another, with a similar technique, walking along a fire trench without injury to his bare feet, though the thermometer showed a temperature of 800 degrees Fahrenheit. As this is almost **FOUR TIMES** as hot as boiling water, it is difficult to believe that the feet would not be blistered and burned to a crisp in such a case. Yet they are not, as many travelers in the Far East can testify, who have seen similar performances.

Many people think these amazing deeds are accomplished through faith alone. But the scientific writer explains that, though faith may be part of it, *the performers used certain breath-control methods*, and did not appear to believe that faith alone was sufficient.

Very definitely, the Adepts of the Far East believe that certain practices of breath-control are necessary to the great powers of mind and body that they demonstrate. And as they are the only ones who are now able to make such remarkable demonstrations of these powers, it is quite obvious that breath-control, as they practice it, does do *marvelous things to mind and body*.

The Method of a Magician

The late Houdini, the magician who amazed people all over the world with his puzzling feats, explained that they were accomplished, in many cases, only with the aid of certain *breathing practices*. How much of his

electrifying personality, which captivated audiences everywhere, was due to the *same cause*. A more *magnetic man* was never seen on any stage.

But even he could not explain why breath-control was so important. He merely practiced it, as YOU can, without understanding fully the power it gives. Fortunately, we can use it WITHOUT understanding it—as Wise Men and Adepts have done for ages.

Practically all great actresses and actors must practice certain methods of breath-control. They find it highly essential to a *magnetic voice* and a *magnetic personality*.

The most curious demonstration of this mysterious power in the air about us, and the way we can use it through proper breathing methods, took place recently in the city of Prague, Czechoslovakia, as reported recently in the MAGAZINE DIGEST. Here two young factory workers had discovered that after certain rather vigorous breathing exercises, they could MAKE THEMSELVES INTO HUMAN RADIO RECEIVING SETS. With nothing but a loud speaker, to which they held their hands, they could tune in at will any station within several hundred miles, bringing in the music clearly and beautifully through the loud speaker. They were investigated by reporters and professors, but no explanation could be offered except that the breathing exercises appeared to be essential in conducting the performance.

Quite evidently, therefore, there is some peculiar *power in the air we breathe*, and in CERTAIN WAYS OF BREATHING, that is little understood, that can produce strange results, and give strength to our minds and bodies which can be obtained in *no other way*.

Strange But Unexplainable Results

The Western world has neglected this power that is in the air around us, which can be used through proper breathing methods. In the Orient, on the contrary, this vast force is recognized and used to a far greater extent. Especially in Tibet, in the Himalayas, where it has been used for thousands of years, methods have been developed that are nothing less than astounding in their effects, which increase mind-power and body-power to such an extent as to stagger those who have seen the apparent miracles the Adepts perform.

The Wisdom of Mysterious Tibet

It was in Tibet that the Founder of Mentalphysics, Edwin J. Dingle, acquired knowledge of his present methods of breath-control. He learned them personally from one of the most distinguished Adepts of that far country. He has personally witnessed the wonders that can be performed with their aid. He spent twenty-one years in the Orient.

Before being admitted to Tibet, he spent many years in preparation. His first Guide was an Adept in Singapore, who demonstrated his powers to Mr. Dingle by walking barefoot on red-hot iron. Years later, through this man's influence, after many personal visits to various Temples of the East, and much study of their methods, Mr. Dingle went to Tibet, where breath control and the resulting power of mind appear to be developed to the highest point known in the world today. There he received what might be called a post-graduate course in this long-hidden Wisdom.

In his own life, the methods have proved their effectiveness. He was transformed from a sickly, broken-down man, into an athlete. Though long past the middle mark of life, he is still an athlete today. He is successful in his undertakings. People who hear him address an audience marvel at the magnetism of his voice and personality.

How You Can Acquire These Methods

What Mr. Dingle learned of breath-control will be disclosed to you in the messages of Mentalphysics, the Science of True Living. In these messages, you too will be made acquainted with that strange marvelous power in the air you breathe. You, too, will be shown methods of breath control which influence so mysteriously your mental states, your control over your body, and your ability to accomplish the things you want to accomplish.

But this is only one of the mysteries you will learn in Mentalphysics.
There are many others, some even more important. They will lead
you to knowledge of stupendous powers long hidden within you, ready
to be called upon and used.

All breath, indeed, according to the sacred writings of the Ancients, is of God and in God. With every breath you are linked with the divine more closely than you realize. The mystery of Life Itself, of all that is, of God's love and wisdom, may be learned by watching the Breath of Life breathing Itself within you, according to the seers and sages. Ponder this quotation from the Song Celestial, believed to have been written 500 years before Christ:

"The wise in spirit cleave to Me, into My Being brought;
Hearts fixed on Me; *breaths breathed to Me*; praising Me, each to each,
So have they happiness and peace, with pious thought and speech;
And unto these—thus serving well, thus loving ceaselessly—
I give a mind of perfect mood, whereby they draw to Me;
And, all for love of them, within their darkened souls I dwell,
And, with bright rays of wisdom's lamp, their ignorance dispel."

PRIVATE OFFICE

Edwin J. Dingle, F.R.G.S.

Dear Reader: Now: For \$2.00 you can try what others
have paid thousands of dollars for.

Now you can afford to try the great Science of Mentalphysics. You can see for yourself whether you can master first, yourself, then every problem that confronts you-- rising to heights before undreamed of, achieving works so great as to astound all who know you. Fame, fortune, power, genius, happiness and a life of great influence and harmony are the natural result when one learns to use the great store of energy and intelligence within.

Perhaps the material I sent you before described results that seem almost too good to be true. If you have been skeptical, I respect you for it. It indicates that you will be a BETTER STUDENT than the average, more intelligent, one who, when convinced, can do greater things with our methods. I am specially desirous, therefore, to have YOU among our number. From among such people will come those who may astonish the world with their achievements.

So I am making you a most unusual offer. You know, it is one of our cardinal principles to give all students the same equal consideration. Yet there are some, I know, who find the initial donation of \$5.00 a stumbling block. I have pondered the matter for some time and have finally devised a plan which will enable you to test Mentalphysics

with only a \$2.00 donation, a plan that is fair to you and fair also to all my other students. Here it is:

1. With a deposit of only \$2.00, you receive all the material which is sent with a deposit of \$5.00. (The first two weeks' lessons.)
2. Two weeks later, you receive, in addition, the lessons for the third and fourth week.
3. Thirty days later, you may return all four lessons, and get your \$2.00 back, if you are not amazed at your progress in thirty days. Instead of having only seven days to examine and test the strangely powerful methods of Mentalphysics, you have thirty days to make up your mind--your money back if you choose to return the lessons within thirty days after starting.
4. If you decide to continue, I will continue sending the later lessons, and your donation will be only \$3.00 a month and ONLY FOR AS LONG AS YOU CARE TO CONTINUE, just the same as if you had begun with a donation of \$5.00 instead of only \$2.00. The \$3.00 difference need never be paid.

Only two things will be omitted. As you know, students usually have the privilege of writing me for special advice regarding any problem that arises in connection with the course. Often they don't, and the only letter I get is when they tell me, after a period of study, how much more successful, healthy, happy, or more prosperous they are, and the remarkable change for the better in their lives. The lessons are complete without any special advice from me, and as the personalized correspondence costs us time and money, I will omit it in your case and pass the saving along to you. I will also omit the periodical tests and the diploma which is issued to those who pass the tests satisfactorily. If you later decide you WANT these privileges, you may send the extra \$3.00 at ANY TIME during the progress of the course, and full privileges will be extended to you.

Meantime, you get for \$2.00 all that others have received only after a donation of \$5.00, and you are offered a THIRTY DAY free test of the method instead of seven days. If you only knew what is in store for you, if you only knew

the tremendous mind power, strength, poise, courage and self-confidence you can have, if you only knew the startling changes for the better you can make in your life, you might gladly pay a hundred or a thousand times that sum. Many people HAVE, after they found what Mentalphysics could do for them. Some have been so grateful that they have given us from \$1,000.00 to \$5,000.00 to help the good work along. If some have found Mentalphysics to be worth so much that they give us THOUSANDS OF DOLLARS MORE than is required, surely you want to try for \$2.00 what they value at thousands--especially when your \$2.00 will be returned at the end of thirty days if you, too, don't find the lessons worth many times that amount.

We in the Western world forget that Science is still incomplete. We have, indeed, just scratched the surface. There is far more unknown than known. And what we understand LEAST is the profound depth and power of the human mind. In fact, we are just beginning to realize the complexities and powers within our mind, and to study them. Hitherto we have studied the OUTER WORLD instead of our own INNER WORLD. Yet in the East, wise men for thousands of years have been studying almost NOTHING ELSE. Little wonder if they have developed methods and practices which to us are unexplainable, but which produce amazing results!

Can the human mind really DO the astounding things reported in books on Tibet and the Far East? Can it do what in previous ages were called miracles? Are there really stupendous powers in us? If, as scientists say, the subconscious mind never forgets, controls our health, inspires the works of genius--is there a way we can use it when and as we will?

Intelligent people are beginning to realize that we are on the threshold of amazing discoveries--powers that will soon make a new world, and will already make NEW PEOPLE of those who use them.

I offer you proof that the rich rewards of life mastery can be yours. I know you're an intelligent person who insists upon it. That's why I send the first great messages of Mentalphysics to you on approval, your \$2.00 deposit to be RETURNED if you don't agree that here is what

you are looking for, the method that will bring you what you want. Don't accept anything without proof. Read the lessons themselves, apply the methods for THIRTY DAYS before finally making up your mind. (The offer is fully described on the enclosed Information Blank.)

All that is necessary to change your world is to change yourself. Then people change their attitude toward you. You inspire different responses. Self Mastery leads inevitably toward mastery of others. And through others, mastery of CIRCUMSTANCES, OPPORTUNITY, SOCIAL AND ECONOMIC SUCCESS.

Let there be no more "ifs" in your life. No more delays, no more waiting, no more denial and frustration, no lack and no obstacles. Instead let there be certainty. Do NOW the things you want to do, be NOW the victorious person you want to be, have NOW the rich rewards of friendship, honor and wealth that are rightfully yours, enjoy NOW the splendid vitality and health that makes of life a glorious adventure.

Above all, be open-minded. Investigate. Send the enclosed Information Blank, read the material we send you, test the methods for a whole month. If convinced then, continue. If not, return the material and your \$2.00 deposit will be refunded to you.

Sincerely yours,

NS2-1

P.S. This offer may soon be withdrawn. I guarantee to hold it open for fourteen days following delivery of this letter. But the 30 day trial offer and the reduced enrollment donation are temporary only, until we determine their advisability. Don't run the risk of delay and possible disappointment. Enroll today.

The Science of Mentalphysics

MENTALPHYSICS is [that interpretation of all religions and philosophies which is being sought by everyone. Here their inner truths, their practical application in everyday life, and their reconciliation with Science, are embodied. Mentalphysics is the key which unlocks the door to the hidden meaning of the Bible and all Holy Books. It is, in fact, the Gospel of the New Age—a power in the hands of those who faithfully follow its principles which lead to self-mastery, the realization of our highest capabilities, and their actual demonstration in physical vitality, prolonged youth, intensified talents, superior intelligence, growth of character, nobler and more abundant lives.

Happiness, joy, peace, harmony and the victorious accomplishment of our worthy aspirations, all reside in the power to which Mentalphysics is the guide.] The practices taught have been found by hundreds to be revolutionizing in their effect. A method is taught, rather than a creed, a method which has been used by wise men for thousands of years to avail themselves of powers little known to the multitude, to approach greater knowledge of the immensity of man's true capabilities, to rise victorious over sickness, and want, and unhappiness—to realize the final Truth of Life and the final Victory of Man.

DESCRIPTION OF SUBJECT:

FACTS OF COMPLAINT: Compl. tel. advised that she and her husb. visited friends in Hemet over the week-end and that the friends had heard there was to be a Flying Saucer meeting at Giant Rock Airport at 8PM Saturday 5/30/54. She said they all decided to go to see what was going on. She advised that they did not arrive until after 9 PM. They said that there were approximately 150 people present but that there were no lights and no fires and therefore persons could not be distinguished. She said that when they arrived everybody was singing Long, Long Trail, Home on the Range, etc.--community singing. After the singing a man got up and spoke for about 5 minutes about flying saucers and then everyone began to chant in unison "Peace, love, harmony". Compl. advised she does not know if the group was led by subversives but wanted to report it for whatever value it might have. She said that the Giant Rock Airport is off the road leading to Victorville which branches off to the left from the road leading to 29 Palms.

NEW

SAUCER SAGA

Guided Tour Aboard Space Ship Related

Pull up a little white cloud, make yourself comfortable and hark to a story about the Earthman from El Monte who took a guided tour aboard a flying saucer.

Daniel W. Fry, an earnest, unsmiling man who believes in Saucer People, held a press conference at Rodger Young Auditorium yesterday to tell ordinary humans about his ride through the sky.

His host was William H. Gilroy, who manages to direct the Saucer Research Foundation under a staggering handicap—he's never seen one of the things.

Convention Star

Gilroy is counting on the 46-year-old Fry to star, if you'll forgive the expression, at the 1954 International Saucer Convention at the Carthay Circle Theater next June 4-6.

Fry agreed yesterday to take a lie detector test from an independent polygraph expert sometime before the Saucer-philies meet, and Gilroy commented:

"We want to know if this man is a screwball or a fraud. He's the only man to agree to take this test. I offered \$500 to two other saucer riders to take it—but they refused."

Gilroy identified himself, incidentally, as a Californian whose ancestor, one Sgt. Ortega, came over with Father Serra and laid out all the highways.

Big Moment Comes

Fry said his big moment came on the evening of July 4, 1950, at White Sands, N.M., where he was working as a rocket technician.

He added somewhat apprehensively that he is still a rocket man for a local concern and hopes to have the job after his bosses hear of his experience.

SPACE RIDER?—Daniel W. Fry says he was flying saucer passenger. Times photo

He lives in a trailer "somewhere in El Monte" with a wife and two children, Fry told interviewers.

He said he had wandered out into the desert that July evening to look around. Suddenly the saucer, an oblate spheroid with no propeller blades or jets, plopped down nearby.

"It frightened me, but I had to see it," he said.

"I ran my hand over the metal, and it seemed incredibly smooth. A voice seemed to come out of the air at my side in a Yankee accent, saying, 'Better not touch the hull, pal, it's still hot.'"

Then the voice explained the ship was a remote-controlled cargo carrier governed by a mother craft out of sight, and

Turn to Page 9, Column 4

FL

Continued on page 9. He never saw one of the things. They survive between Atlantic years a had a w experin ing if did. Anyh

space. It's a natural he said, just like the wind knows about the Saucerites. Like sailing ships go. There's also the matter of those Saucer People returned nuclear weapons of long ago that made space hoboes out of the Saucer People. aboard 20 minutes before he said, and then soared

he believes people ought to know about the Saucerites. There's also the matter of those nuclear weapons of long ago that made space hoboes out of the Saucer People.

That, he hopes, won't happen again. If it does, there will be a grave shortage of saucers.

Contacted Later

He never contacted him since. but he doesn't want to repeat what they said. Maybe after the next message. Did he was picked as an contact because he's a receiver for thought

his experience struck somewhat unusual, he said he didn't tell anyone until December, 1953, he confided in his wife. he has decided to tell me what may, because

Dear sirs:

b7C

I do not want to seem as one looking for reasons to write your office but maybe the enclosed facts will be of value, or without a doubt you are already aware and know the destiny of this group.

Tuesday June 15 last, [redacted] and I flew to [redacted] to visit our friend [redacted], and artist and fellow member of the Death Valley '49ers. While there he asked if Dr. and I would care to fly him over to the "space men group". Dr. being a good photographer, and a picture was needed, we gladly agreed. [redacted] picture of Van Tassel

b6

b7C

[redacted] So much in the way of explanation.

The enclosed pamphlet is something. My first reaction was one of fear that someone might see me reading same. However after reading it the second time I could not help but find in it many things that might be as though one was reading Marisism. I have taken the liberty to underscore some passages that somewhat explain themselves.

Also the very layout of this place is ideal for one or a group to be of danger. The surprising thing that hit me at first was that there were several small buildings and trailers located next to the mountain. At the entrance door of each of them was standing a man, and he seemingly stayed there during our visit which lasted about one hour. To say the least it is an ideal place for hidden setups of any kind.

I do hope I have not given you the impression of a "busy body" but these facts are on my mind and I know of no agency more respected hence this note to you.

I do not in any way cast reflections on my friend [redacted] nor does [redacted]. The Doctor does not know of this letter to your office. Closing - I would be most happy to do your choosing in any matter. I do have an "in" as of now and will be glad to be at your service.

Character of Case

Date and Time Complaint Received

DESCRIPTION OF SUBJECT:

FACTS OF COMPLAINT: Complainant advised that subject College, now under construction, is to be located at Giant Rock Airport, the meeting place of persons who are interested in a study of flying saucers; she states that she believes from its literature that it is teaching and advocating the overthrow of the US Gov't. by publishing literature which aids in Communist indoctrination and that it could serve as a fund-raising group (front group) for the CP. She notes that the location is such that from it the nearby US Marine Base (Artillery Range) can be observed and that the flying saucer group will have powerful telescopes at hand. She furnished a pamphlet from the subject College, entitled "Proceedings" and a commercially-printed map of the area showing the proximity of Giant Rock Airport to the Marine Artillery Range; she also furnished a typewritten report, dated 8-4-54, concerning the matter. All three items mentioned are attached hereto in 100-0 1A serial envelopes. The founder of this College is reportedly George W. Van Tassel.

Complainant believes that because of similarity of purpose this subject College may be connected in some way with the Institute of Mental Physics, located in Los Angeles, at 215 South Hobart Boulevard, LA 4. She furnished material issued by this Institute concerning its work and its founder, Edwin J. Dingle. This material is attached hereto in a 100-0-1A envelope.

Attached hereto are file references on names indicated herein, as obtained from file search on 8-9-54.

Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC, LOS ANGELES (62-4080)

DATE: November 16, 1954

FROM : ASAC T. J. GEARTY

SUBJECT: GEORGE W. VAN TASSEL
Giant Rock Airport
Yucca Valley, California
INFORMATION CONCERNING

Inspector JOSEPH SIZOO telephoned from the Bureau today at 3:00 p.m. concerning captioned matter. He desired to be advised concerning the progress of our attempts to locate VAN TASSEL. I told him that SA [] was still attempting to find VAN TASSEL for interview purposes, however, VAN TASSEL is out of town on one of his trips and his wife does not know his itinerary nor does she know his current location. b6 b7C

Inspector SIZOO stated that the Bureau desires that this matter be brought to a logical conclusion by interviewing VAN TASSEL just as soon as possible and that SA [] should make another contact with the wife on Wednesday of this week and thereafter advise the Bureau of the results. He stated the Bureau is very interested in knowing whether or not VAN TASSEL is engaged in the con game scheme and what he means by prophesying a "giant atomic explosion" on the east coast, and further why he is contacting college students and college professors as participants in his religious philosophy program. b6 b7C

Mr. SIZOO indicated that this matter should be given close attention.

Office Memorandum • UNITED STATES GOVERNMENT

TO : FILE

FROM : SAC, Los Angeles

SUBJECT: GEORGE W. VAN TASSEL
 Giant John Rock, California
 Yucca Valley

DATE: November 12, 1954

At 1:23 P.M. on November 12, Inspector JOSEPH SIZOO called from the Bureau in regard to the above-captioned. He stated that the Bureau is in possession of information from a reliable source indicating that VAN TASSEL has been in contact with a person--probably a student--at Cornell University, Ithaca, New York. VAN TASSEL is attempting to convince the student and his mother that they should go to Los Angeles to sponsor the special project upon which he is working.

VAN TASSEL stated that he has been in contact with space people and is supposed to be a space cadet. He goes on to tell that in the third world war there will be a terrific atomic explosion on the east coast which will be so severe that a large portion of land will disappear under the sea. The information indicates that VAN TASSEL has been in contact with the Air Force. The Bureau has been unable to locate any record of this contact.

Mr. SIZOO instructed that the files of the Los Angeles office be reviewed in regard to VAN TASSEL and unless there is some good, solid reason to the contrary, he should be interviewed. During the interview, of course, no mention should be made of his contact with the individuals at Cornell University; this source must be protected. Mr. SIZOO pointed out that VAN TASSEL could be a mental case or a con man, keeping in mind that the mother of the person contacted at Cornell has money. We should find out who he is, what he is doing, what his contacts are, and discreetly ascertain what he has in mind in talking about space people. He should be led on to mention space cadets without indicating that we have any prior knowledge of his interest in this matter.

Mr. SIZOO instructed that this matter should be given immediate and expeditious attention and a teletype summary should be at the Bureau no later than the late afternoon of Saturday, November 13.

FROM : SA

b7C

SUBJECT: GEORGE WELLINGTON VAN TASSEL,
giant Rock Airport,
Yucca Valley, California
INFORMATION CONCERNING*La 62-4080*

MRS. EVA VAN TASSEL, wife of captioned subject was interviewed November 13, 1954, by SA and the reporting agent in the absence of her husband. MR. VAN TASSEL advised that her husband was in Los Angeles contacting a printer who prints a magazine named "proceeding" of the College of Universal Wisdom. She declared that her husband edits and publishes the above periodical. She declared while in Los Angeles MR. VAN TASSEL sleeps in a truck. MRS. VAN TASSEL could not furnish the name or location of the printer.

Relative to her husband and herself, MRS. VAN TASSEL claims that she and her husband practice a metaphysical religion. She declared this religion is based on an occult principle in that she and her husband sit in a room in dead silence and receive thought transfers from one another and from other individuals who are not physically present in the room.

She declared that it was through this type of practice that her husband has learned or prophesied the coming of World War III and a gigantic atomic explosion on the East Coast. She mentioned that at the present time she and her husband have undertaken a special project. This project is the founding and organizing of the College of Universal wisdom. The purpose of the college is to promote and carry out interplanetary communication and the dissemination of Universal Wisdom gained through the media of space beings. She advised that her husband has contacted many individuals concerning his plans for the college. She mentioned that he has contacted professors and students and various colleges throughout the United States. MRS. VAN TASSEL could not furnish the identities of any of these individuals that her husband has corresponded with. She also advised that this college would operate under the state laws of California as a

LA

place of learning pertaining to religion. She advised that her husband through his periodical mentioned above has solicited donations for the advancement of this college. She further advised that the college is to be located adjacent to the Giant Rock Airport at Yucca Valley.

MRS. VAN TASSEL declared that on August 24, 1953, at approximately 2:00 A.M. while she and her husband were sleeping out of doors adjacent to the Giant Rock air strip, her husband was awakened by a person from outer space in a flying saucer which had landed on the air strip. MRS. VAN TASSEL was quick to point out she was not awakened and did not see the spaceman or his means of transportation. MRS. VAN TASSEL declared that her husband related that the spaceman took her husband aboard the flying saucer which was occupied by three additional spacemen. MRS. VAN TASSEL declared that her husband failed to mention the color or the size of this space craft. She stated that the spacemen were similar in every description to earth men. She advised that the spacemen did not carry weapons nor was there any armament noticed on the flying saucer. She declared that according to her husband, the saucer and spacemen spent approximately twenty minutes on earth after which time they departed into outer space. The spaceman who woke up her husband was the leader or spokesman for the group. He spoke in English and informed her husband that earth men should give up using metal as they are ruining radio frequencies with the over-use of metal.

Relative to her husband, she stated he was born in Ohio, city unknown, March 12, 1910. She mentioned that it is possible her husband was born in Ashtabula. He failed to receive a high school diploma as he lacked three months schooling. He left Ohio in 1929 for California. MRS. VAN TASSEL declared she married her husband on January 31, 1932, in Yuma, Arizona; her maiden name being EVA MEEK.

Armacost
She declared that her husband, prior to 1947, worked as a Flight Test Engineer at Lockheed Aircraft, Burbank, California, and lived on Armacost (ph.) Street in Los Angeles. She declared that in 1947 she, her husband, and her daughter, DARLENE, moved to Yucca Valle. She stated her daughter is Secretary-Treasurer of the College of Universal Wisdom. She also pointed out that her husband presently operates the Giant Rock Airport under CAA regulations. She advised her husband is not a pilot, but does hold a mechanics certificate with CAA.

LA

It was noted by the reporting agent that the air strip known as Great Rock is a flat, dry, lake bed. The area surrounding the air strip is rock and desert with no buildings of consequence being noted. The writer and SA [] interviewed MRS. VAN TASSEL in an underground cave like room which was excavated from the base of the Giant Rock. MRS. VAN TASSEL advised that this room is presently the headquarters of the College of Universal Wisdom. The area surrounding the air strip was in every respect very primitive.

The following description for GEORGE WELLINGTON VAN TASSEL was furnished by his wife.

Name	GEORGE WELLINGTON VAN TASSEL
Race	White
Born	March 12, 1910, Ohio
Height	5' 10"
Weight	185 pounds
Hair	Blond, balding
Eyes	Blue
Build	Medium
Occupation	Operator Great Rock Airport
Address	Post Office Box 419, Yucca Valley, California

Office Memorandum • UNITED STATES GOVERNMENT

b6

TO : SAC, LOS ANGELES

DATE: November 16, 1954 b7C 14

FROM : SA SUBJECT: GEORGE WELLINGTON VAN TASSEL
INFORMATION CONCERNINGAt Giant Rock Airport, Yucca Valley, California:

The above-captioned individual was interviewed on November 16, 1954, by SAS , and the writer.

VAN TASSEL declared that he moved from Los Angeles to Giant Rock seven years ago and purchased a ranch near this area and subsequently leased land near Giant Rock from the Government. He stated that this newly acquired land is known as Giant Rock Airport. He pointed out that the Airport was acquired under the "Airport Act" and is a certified CAA emergency landing strip.

Relative to space men and space craft, VAN TASSEL declared that a year ago last August, while sleeping out of doors with his wife in the Giant Rock area, and at about 2:00 a.m. he was awakened by a man from space. This individual spoke English and was dressed in a grey one piece suit similar to a sweat suit in that it did not have any buttons, pockets, and noticeable seams. This person, according to VAN TASSEL, invited him to inspect a space craft or flying saucer, which had landed on Giant Rock Air Strip. VAN TASSEL claimed the craft was bell shaped resembling a saucer. He further described the ship as approximately 35 feet in diameter and is now known as the scout type craft. Aboard this craft was located three other male individuals wearing the same type of dress and identical in every respect with earth people.

VAN TASSEL claims that the three individuals aboard the craft were mutes in that they could not talk. He claimed they conversed through thought transfers, and also operated the flight of the craft through thought control. He stated that the spokesman for the group claimed he could talk because he was trained by his family to speak. The spokesman stated

CGC:MRE

SEARCHED.....	INDEXED.....
SERIALIZED MR	MR
NOV 16 1954	
FBI-LOS ANGELES	

[Signature]

62-4080-110

that earth men are using too much metal in their every-day work and are fowling up radio frequencies and thought transfers because of this over use of metal. According to VAN TASSEL, these individuals came from Venus and are by no means hostile nor do they intend to harm this country or inhabitants in any manner. He declared they did not carry weapons, and the space craft was not armed. He mentioned that a field of force was located around the space craft which would prohibit anything known to earth men to penetrate. VAN TASSEL claims this craft departed from the earth after 20 minutes and has not been back since.

VAN TASSEL furnished the following background, which he claimed might help to understand his dealings with space men:

He mentioned that he advocates and follows a metaphysical religion or research. This religion or research is based on thought transfers. VAN TASSEL claimed that he had been contacted by men from space prior to their landing on earth in August, 1953, through thought transfers. He again pointed out that space men used this medium to communicate with one another.

He mentioned that through thought transfers with space men he has been able to ascertain that there will be a third world war and a large destructive Atom explosion as a result of this war. He stated that these "facts" can be verified through the Bible; however, he did not relate the book or passage in which these facts could be located. He was quick to point out that the war would not be universal, and that space people would not be involved. He stated that space people are peace loving and under no circumstances would enter or provoke a war.

He claims that space people have imparted to him a means of rejuvenating earth peoples' life expectancy from what it is today to 300-1500 years. He claimed this is done through a principle of light energy rejuvenation. This principle was not developed by VAN TASSEL.

In connection with his metaphysical religion and research he publishes bi-monthly a publication in the form of a booklet called "PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM, YUCCA VALLEY, CALIFORNIA". He declared this publication is free and has grown from an original

mailing list of 250 to 1000 copies. VAN TASSEL stated that he sends this publication to various individuals, Universities, and Governmental Agencies throughout the world. He declared this publication is forwarded to the FBI at Washington, D. C.

The College of Universal Wisdom, according to VAN TASSEL, will be devoted to inter-planetary communications and a diffusion of universal wisdom gained through the medium of space beings.

He stated that he has donated 10 acres of his ranch holdings to the college. He mentioned that many of the buildings will be made free of metal, which will be keeping within the request of the space men.

He declared that for the most part he secures money for his needs of life, for the furtherance of his religion, research, and college through the generosity of certain individuals, numbering about 100. He failed to identify any of these people. He also mentioned that he derives income from his air strip and a very small restaurant, which is located at Giant Rock.

It should be noted that Giant Rock is located approximately 18 miles north of the nearest highway, which was noticed not to be frequently travelled. This road leading to Giant Rock on the 29 Palms Highway is dirt for the most part and very rough. While the writer was at Giant Rock, which was on two occasions, no visitors were noted in the area.

Concerning himself, VAN TASSEL readily stated that he came to California from Cleveland, Ohio, in 1929 where he worked as a mechanic for Universal Airlines, which is now known as American Airlines. After arriving in California, he claimed he worked for Douglas Aircraft, Hughes Aircraft, and Lockheed Aircraft as a mechanic. He declared he left Lockheed in about 1947 and moved to Giant Rock with wife and daughter, DARLENE.

VAN TASSEL claimed he was acquainted with SA WALTER BOTT (deceased) and helped him on many cases at Lockheed. VAN TASSEL was not aware of SA BOTT's demise.

VAN TASSEL voluntarily stated that he is not hiding anything nor is he doing anything against the laws

of this country in his research at Giant Rock. He voluntarily mentioned that he is a loyal American and would be available at any time to assist the Bureau.

The following is a description of VAN TASSEL as obtained through observation:

Race:	White
Age:	40-45
Height:	5' 9"
Weight:	170
Eyes:	Blue
Hair:	Blond, balding
Build:	Medium
Complexion:	Ruddy
Characteristics:	Dirty and unkempt; discolored teeth
Occupation:	Owner and operator Giant Rock Airport and Giant Rock Restaurant.
Wife:	EVA MEEK VAN TASSEL
Daughter:	DARLENE VAN TASSEL
Address:	P.O. Box 419, Yucca Valley, California.

While SA [redacted] was at Giant Rock, which was on two occasions, no visitors were noted in the area. b6 b7C

Concerning himself, VAN TASSEL readily stated that he came to California from Cleveland, Ohio in 1929 where he worked as a mechanic for Universal Airlines, which is now known as American Airlines. After arriving in California, he claimed he worked for Douglas Aircraft, Hughes Aircraft, and Lockheed Aircraft as a mechanic. He declared he left Lockheed in about 1947 and moved to Giant Rock with his wife and daughter, DARLENE.

VAN TASSEL claimed he was acquainted with SA WALTER BOTT (deceased) and helped him on many cases at Lockheed. VAN TASSEL was not aware of SA BOTT's demise.

VAN TASSEL voluntarily stated that he is not hiding anything nor is he doing anything against the laws of this country in his research at Giant Rock. He voluntarily mentioned that he is a loyal American and would be available at any time to assist the Bureau.

VAN TASSEL did not volunteer the names of any individuals whom he was soliciting for funds except his statement above that he sent his publications to various individuals, universities and Government agencies and also the Federal Bureau of Investigation in Washington, D. C. nor was he asked per Inspector SIZOO's instructions.

LA 62-4080

In connection with the "PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM", Yucca Valley, California, which has been mentioned by captioned individual in his interview, the following issues of this publication are being transmitted herewith to the Bureau in order that the particular philosophy, which is advocated by the "College of Universal Wisdom," might be more clearly described. These "PROCEEDINGS" were received October 19, 1954, personally from [redacted] Yucca Valley, California, by SA [redacted] and have been maintained in Los Angeles File 62-4080-1A. These issues are dated as follows:

b6

b7c

October 15, 1953; November 1, 1953; November 15, 1953; December 1, 1953; December 15, 1953; January 1, 1954; January 15, 1954; February 1, 1954; February 15, 1954; March 15, 1954; May 15, 1954, April 1, 1954; April 15, 1954; June 1, 1954.

It is to be noted that the November 1, 1953 issue sets forth under article captioned "Our Cosmic Communicators" on page 2, the particular religious hierarchy of the "College of Universal Wisdom." The particular philosophy of the "College of Universal Wisdom" is reflected in Volume 1 #3, November 15, 1953, issue of "PROCEEDINGS," which reflects as follows:

"Space Craft and Space People, by GEORGE M. VAN TASSEL

"Our experience, in developing thought transference, has made it possible to carry on an interchange of information with the people who are operating space craft. These very highly intelligent beings are all in human form. There are no 'monsters', 'brains', or 'ants' operating the space craft from other spheres. The people and the ships differ in many ways depending on the sector and location from where they come. Some of them are from our solar system but many are from other systems.

"The space people were the first human forms of life to occupy the Earth. Their descendants built the great pyramid and compiled the records in it. Their basic information about truth is partially recorded in most of the sacred literature

"of to-day and is also preserved in the ancient records of other civilizations. These people from other celestial bodies are the same ones, as mentioned in the Bible - before the apple was eaten - the race of Adam.

"They maintain a space station that has been orbiting around Mars for thousands of years. It is ten miles in diameter, some 1500 miles from the surface of Mars, spherical in shape and recorded by our astronomers as the inner moon of Mars.

"The 'little people' of Frank Scully's book, 'Behind the Flying Saucers' and of the Brush Creek, California, incident, are from our Moon. Their civilization is an advanced one and they are living under the surface of the Moon. Their sciences are 25,000 years ahead of ours.

"Some people from Venus have landed on our earth and moved among us without being recognized as such, because they look like us. Many of them are still here; Professor George Adamski talked with one of them recently.

"Space people from other, more distant places, have also been landing on our Earth for the last hundred years. Many of them and descendants of them are our topmost scientists, architects, inventors, teachers, and public and governmental officials. The proof of this is evidenced by the fact that our advancements have been greater in the last 75 years than they have been for the last 10,000 years. Most of these accepted experts do not even know their true identity as their minds were 'blanked' to the past by the birth. However, their memories will be restored when the space people begin to land here in large numbers. These space people literally have the powers of 'sons of God.' Jesus was born by one of them and is one of their foremost leaders. The star of Bethlehem was a space craft that 'stood by' at the birth. At his resurrection he was bodily

"retrieved on their 'transitor beam.' He will return soon in one of their greatest ships. This 'transitor beam' has been used to remove others of their people from our Earth. This accounts for many of the strange disappearances of people today.

"The strange powers known to the space people are used rightly, and in conformity with the infinite laws of the Universal. Employing magnetic vortices they can stop all production, transportation and communication in our cities in a moment. Their laws do not sanction the slaughter of any human form; consequently they are not to be feared by earthlings."

The April 15, 1954, Volume 1 #13 issue of "PROCEEDINGS", which has been photostated and transmitted herewith, contains "An Easter Message From Esu".

Other particular references to the religion of this organization is set out under article entitled "The Birth Of A Master - excerpts from the forthcoming book 'INTO THIS WORLD AND OUT AGAIN' by G. W. VAN TASSEL". These particular excerpts occur on pages 4, 5, 6, and 7 of the April 1, 1954, issue of "PROCEEDINGS", which is enclosed herewith.

A review of this literature reflects that it attempts to connect passages from the Bible with the philosophy of the organization, which is headed by VAN TASSEL.

A review of the Los Angeles files concerning VAN TASSEL reflects the following:

67-0A-911, dated August 16, 1940. Captioned individual offered his services to the Federal Bureau of Investigation in any way to uncover sabotage or espionage at the Douglas Plant where he was then employed. VAN TASSEL made this offer to SA WALTER M. BOTT.

100-2676-1, dated December 18, 1940. Is a miscellaneous complaint by VAN TASSEL regarding a fellow employee at the Douglas Aircraft Company.

LA 62-4080

100-5344-4, line 6, dated July 16, 1941.
VAN TASSEL furnished information re an alleged pro-Nazi.
Los Angeles Police Department report reflects alleged
pro-Nazi was 100 per cent American.

100-14873-105, dated August, 1944. G. W. VAN
TASSEL was listed as president of a UAW local in the Los
Angeles area.

100-9477-49, line 50, dated December 17, 1951.
Is a letter from VAN TASSEL to the Federal Bureau of Investi-
gation, requesting information on an organization operating
near his residence. VAN TASSEL was advised the files of
this Bureau are confidential, and their information may
not be disclosed.

105-445-39, dated July 31, 1952, re individuals
and G. W. VAN TASSEL, reflects that the Detachment Commander
of OSI, March Air Force Base, California, received a letter
from captioned individual entitled, "Brotherhood of Cosmic
Christ", which attempts to explain flying saucers and
indicates contacts had been received by captioned individual
from the beings of another world, who operate them.

100-0-60313B dated October 19, 1953, is
information received from [redacted]
Avenue, Los Angeles, of unknown reliability, who advised
that she and a group of friends went to Giant Rock, California,
to hear GEORGE W. VAN TASSEL reveal his message from
"8000 miles up". [redacted] stated that VAN TASSEL
is a mystic who appears to be somewhat religious, and that
he forbids any conversation among visitors at Giant Rock
unless it deals with the message from the spirits. [redacted]
[redacted] exhibited a book entitled "I RODE A FLYING
SAUCER", which was written by subject and was published
by the NEW AGE PUBLISHING COMPANY, 1542 Glendale Boulevard,
Los Angeles. [redacted] stated that several of her
friends claimed a flying saucer visited Giant Rock on the
day before Labor Day, 1953, and that VAN TASSEL has an
interest in "College of Universal Wisdom, Joshua Tree,
California".

100-16833-498, dated March 13, 1953, contains
information from [redacted] Yucca
Valley, California, an American Legion contact. It is

LA 62-4080

to be noted that [redacted] furnished the documents which are being transmitted herewith. [redacted] displayed the book "I RODE A FLYING SAUCER" and stated that VAN TASSEL claims to be receiving messages from various flying saucers through body vibrations.

b6

b7C

62-4080-8, dated August 5, 1954, is a complaint received from [redacted]

[redacted] Los Angeles, of unknown reliability, advised that the College of Universal Wisdom located at Giant Rock Airport is a meeting place of persons who are interested in the study of flying saucers, and that she believes from its literature that it might be advancing Communist philosophy.

100-0-60313, dated July 2, 1951, is a letter written by VAN TASSEL to the Los Angeles Office. This letter reflects as follows:

"June 26, 1951
"Giant Rock Airport
"P.O. Box 45
"Joshua Tree, Calif.

"During the last war, a party up here in the desert, made charges, of one deceased Frank Grifzer, being a German spy.

"I'm operating this airport under lease from the Government. My wife and three daughters and myself are now being accused of being Communist spys by this same party. This man and his wife with their spy complex have caused me no end of trouble as, I of course, am the last one of the public, to hear of this trumped up charge. I would be obliged if your office would investigate my record, my family, or anything else and send me a letter stating your findings.

"I belong to the San Bernardino County Sheriffs reserve. I am licensed under the Civil Aeronautics, License #380123, I have worked for Douglas, Hughes, and Lockheed Aircraft.

LA 62-4080

"I bought the property on the maps known as 'Reche's Wells' from Charles Reche.

"The people who are making these phoney charges to the public expected to inherit this property.

"They are [redacted]

"I refer you to [redacted]
[redacted]

b6

b7C

"I am in business and this propoganda is responsible for a lot of people not patronizing us. If it isn't stopped it will cause your office an untold amount of work.

"/s/ George W. Van Tassel"

With regard to Frank Critzer, above-mentioned, this individual was mentioned in Bureau letter to Los Angeles dated June 5, 1946, case entitled "FRANK CRITZER, wa., Frank Kritzer; IS - G", Bufile 100-37156. This letter sets forth that the Bureau does not have available facts supporting the allegations of espionage and subversive activities on the part of CRITZER.

Information concerning GEORGE WELLINGTON VAN TASSEL was forwarded to the Bureau on June 4, 1941, in case entitled [redacted]
[redacted]

[redacted] At that time, considerable background information reflected no unfavorable information regarding VAN TASSEL. In addition, it was pointed out that it was believed he was sincere in his desire to cooperate with the Bureau and was interested in cooperating with the Bureau for patriotic reasons. It was further pointed out that VAN TASSEL furnished reports concerning employees with un-American and subversive tendencies.

b2

b7D

Deputy Sheriff [redacted]
29 Palms, California, which covers the area of Giant
Rock where VAN TASSEL resides, advised SAS [redacted]
[redacted], on November 16, 1954,
that VAN TASSEL actually does operate in the name of
religion, and that he has attended a meeting or so
at which 15 or 20 people were present when VAN TASSEL
would read from Bible, preach a sermon, and then go
into a trance or seance, and VAN TASSEL advised he was
getting messages from space men. He formerly called
his religion Brotherhood of Cosmic Christ, according to
Deputy [redacted] and then some time later started the
College of Universal Wisdom. Deputy [redacted] further
advised that VAN TASSEL actually operates as a prophet
in the vicinity, carries a Bible with him, and does
actually hold meetings in the name of religion. b6
Therefore, Deputy [redacted] stated that he could not state b7C
that VAN TASSEL was a con man because he was actually
operating in the name of religion.

According to Deputy [redacted] VAN TASSEL openly
solicits money in California and throughout the United
States from unknown persons and actually tries to
convert people to become part of his flock and to give
him financial support for this religion.

Deputy [redacted] stated that he has watched
the maneuvers of VAN TASSEL for some time and so far
the San Bernardino County Sheriff's Office have ascer-
tained VAN TASSEL has never violated any California
Statutes due to the fact that he actually does, as
heretofore stated, operate in the name of religion;
namely, Metaphysics, Cosmic Brotherhood of Christ, etc.
Deputy [redacted] further advised that VAN TASSEL was apparently
in his estimation a self-ordained minister in the religion
he is promoting at the present time.

Deputy [redacted] advised that the general consensus
of opinion, and this includes himself, in the area where
subject resides is that VAN TASSEL is eccentric and is
apparently a mental case.

[redacted] San Bernardino
County Sheriff's Office, advised above Agents that to his
knowledge VAN TASSEL is eccentric, has a limited following,

LA 62-4080

and claims to contact men from out of space through trances or seances. However, [redacted] stated that Deputy Sheriff [redacted] at 29 Palms has a better knowledge of this than he. [redacted] stated to his knowledge VAN TASSEL has never violated any laws of the State of California.

b6

b7C

According to [redacted] VAN TASSEL has openly solicited money from anyone he could talk to or write to for his metaphysical religion.

Unless advised to the contrary by the Bureau, no further action is being taken by the Los Angeles Office.

The following is a description of VAN TASSEL as obtained through observation:

Race:	White
Age:	40-45
Height:	5' 9"
Weight:	170
Eyes:	Blue
Hair:	Blond, balding
Build:	Medium
Complexion:	Ruddy
Characteristics:	Dirty and unkempt; discolored teeth
Occupation:	Owner and operator Giant Rock Airport and Giant Rock Restaurant.
Wife:	EVA MEEK VAN TASSEL
Daughter:	DARLENE VAN TASSEL
Address:	Post Office Box 419, Yucca Valley, California.

Space Travel Fans Plan Meeting at Desert Spot

Guests to Include Five Who Claim to Have Been Interplanetary Passengers

Big news came to Southern California from outer space yesterday.

A giant convention of space ship fans is to be held Saturday, March 12, at Giant Rock Airport in the Mojave Desert near Joshua Tree and Twentynine Palms it was announced by the two men who have been most publicized in connection with space "messages."

George Van Tassel, operator of Giant Rock, and George Adamski, who lives on the side of Mt. Palomar, have joined forces to sponsor the event, according to a press release.

Space Riders Expected

Featured at the convention—which last year attracted to Giant Rock some 2500 persons, many of whom arrived in airplanes—will be men who say they have taken rides in space ships.

The announcement listed the names of George Williamson, Truman Bethrum, Richard Miller of Detroit, Daniel Fry and Orfeo Angelucci.

Airplane enthusiasts who plan to fly to the convention were warned to bring tie-downs for their planes, and plenty of gasoline. Neither gasoline nor food will be for sale. Motorists were told to bring plenty of blankets if they intend to camp out.

Van Tassel, who heads the College of Universal Wisdom, with headquarters at Giant Rock—an immense boulder which is a desert landmark—professes to talk with people in outer space and to be under instructions from them to build a strange building designed by outer space architects as a refuge for earthlings.

Record Crowd Seen

The convention is to be under the auspices of SPACE—Space People Associated Contacts on Earth.

Considerable competition has existed among various factions of the space enthusiasts in recent months, but apparently the

Adamski combination means that the convention will attract a record crowd of believers and curiosity seekers.

Van Tassel at sessions in a room under the Giant Rock goes into a "silence" and then permits the space people to communicate with earth through his vocal chords.

The "messages" are printed and distributed.

Any visitors from outer space will be welcome of course. But they too had better bring their own grub.

DATE: 10/30/56

FROM : SA [REDACTED] (62-4080)

SUBJECT: CONTACT WITH MEN FROM MARS
SECURITY MATTER - X

On 10/30/56, [REDACTED], Region II, 115th CIC Detachment, telephonically advised that on 10/29/56, he had received a telephone call from a [REDACTED] a medical pathologist, telephone [REDACTED]

b6

b7C

[REDACTED] advised that he had watched ART LINKLETTER'S program over TV station KTLA, Channel 2, that afternoon, and on this program LINKLETTER had a man who stated he had been in contact with men from Mars by radio. There was played on this program a recording of the conversation purportedly taking place in English between this man and the men from Mars.

The man on the program advised that the representatives from Mars had advised him that they would again contact him at 10:30 p.m. on 11/7/56, and he requested two minutes time on the air during which time his conversation with these men could be recorded. They purportedly would be over the City of Los Angeles at an elevation of 10,000 feet, and their vehicle would be lighted up so that it would be visible from the ground.

[REDACTED] did not know whether this man was a complete hoax, but had contacted ART LINKLETTER'S agent, who advised him that the individual interviewed on the program apparently had no interest in publicity and was not making this report for any commercial or advertising purpose.

[REDACTED] was passing this information on to this office for whatever it might be worth.

[redacted] New York
24, New York, a United States citizen of Yugoslav
extraction, who on occasion, voluntarily furnishes
the New York Office with information he considers to
be in the interests of the security of the United
States Government. furnished Special Agent

[redacted] the following information on
July 3, 1957:

b6

b7C

b6

b7C

[redacted] stated that a certain woman named
[redacted] who lives with her husband,
[redacted] at the Colonial Hotel, 51 West 81st Street, New
York 24, New York, has been issuing newsletters which
contain information pertaining to flying saucers
and interplanetary matters.

[redacted] stated that in his opinion Mr. and
Mrs. [redacted] are exploiting the reputation and genius
of NIKOLA TESLA, deceased, inventor of Yugoslav
extraction who achieved world wide fame as a result of
his inventions in the United States.

TESLA was born in Smiljan, Yugoslavia in
July, 1859 and came to the United States in 1894
and became a naturalized United States citizen. In
1886 TESLA designed the arc-lighting system and two
Years later he invented the Tesla motor and designed
a plan for the transmission of alternating current.
In subsequent years, TESLA's discoveries and inventions
included such fields and appliances as wireless
communication, electrical oscillation, radiant power and
radio active matter. After 1900, communications
and wireless power transmission occupied most of
his research.

NY 65-12290

TESLA's only military invention was a method to which he once alluded but never fully described. This invention was a means whereby an impenetrable "wall of force" can be erected around the United States' borders which would render helpless any military attack. TESLA disclosed the existence of his plan in 1934 and stated he intended to present it to the Geneva Conference but seldom referred to it afterward.

The "New York Times" dated 9/22/40, carried an article setting forth NIGOLA TESLA's plan for a "Death Ray". This article included information to the effect that TESLA, on his 84th birthday, July 10, 1940, advised New York Times reporter WILLIAM A. LAWRENCE that he was ready to divulge to the United States Government the secret of his "teleforce", with which he said airplane motors would be melted at a distance of 250 miles so that an invisible Chinese wall of defense would be built around the country against any attempted attack by an enemy airforce no matter how large. According to TESLA, this "teleforce" was based on an entirely new principle of Physics that "no one has ever dreamed about" and was different from the principle embodied in his inventions relating to the transmission of electrical power from a distance, for which he received a number of basic patents.

TESLA stated that this new type of force would operate through a beam one hundredth millionth of a square centimeter in diameter and could be generated from a special plant that would cost no more than two million dollars and would take only about three months to construct. TESLA stated that a dozen such plants located at strategic points along the coast, according to TESLA, would be enough to defend the United States against all possible aerial attacks. TESLA stated that this beam would melt any engine and would also ignite explosives aboard any bomber. TESLA stated that no possible defense against it could be devised and he asserted that the beam would be all penetrating.

NY 65-12290

TESLA stated to Mr. LAWRENCE that he makes one important stipulation before he would divulge this secret to the United States Government and that was that should the United States Government decide to take up his offer, he would go to work at once but that the United States Government would have to trust him. TESLA stated that he would suffer "no interference from experts."

In this "New York Times" article Mr. LAWRENCE commented that with conditions as they were in 1940, and with the United States getting ready to spend millions of dollars for National Defense, Mr. TESLA's great reputation as an inventor, who always was many years ahead of his time, should be given careful consideration. Mr. LAWRENCE stated, in his opinion, the United States Government should take Mr. TESLA at his word and commission him to go ahead with the construction of his "teleforce" plant.

b6

b7C

The New York file of Mr. TESLA bears no indication that any additional developments were carried on in connection with TESLA's invention and whether or not TESLA fully divulged his new plan to the United States Government.

b6

b7C

TESLA died at the age of 85 on January 7, 1943.

[redacted] provided a two page copy of the above mentioned newsletter which [redacted] have been distributing in connection with the alleged invention by TESLA, which, according to [redacted] consists of a radio type machine known as the Tesla Set which was invented by Mr. TESLA in 1938 for interplanetary communication. [redacted] claim that TESLA's engineers did not complete the Tesla Set until after TESLA's death in 1943. [redacted] claim that this Set was placed in operation in 1950 and since that time TESLA engineers have been in close touch with space ships, etc.

Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC, LOS ANGELES

DATE: April 16, 1958

FROM : SAC, KANSAS CITY (100-0)

SUBJECT: COLLEGE OF UNIVERSAL WISDOM
INTERNAL SECURITY - C

On 4-15-58, [redacted] St. Joseph, Missouri, advised his son, [redacted] who is a senior at Central High School, St. Joseph, Missouri, has since the fall of 1957 been attending irregularly scheduled weekly meetings at private homes in St. Joseph, Missouri, with about 15 other youths. [redacted] said he has no first-hand information on this group, but knows only what his son has told him and he has observed.

[redacted] said theyouths in the group in St. Joseph are taken by auto to Kansas City about once a month on a Saturday or Sunday, leaving about noon and returning about 1:00 A.M. the following morning. He said the meetings are apparently sponsored by the College of Universal Wisdom, Joshua Tree, California. This organization is reportedly headed by GEORGE VAN TASSELL and among the staff members is a [redacted] former Air Force Major.

At the time his son started attending meetings, [redacted] said the purpose of the group was explained to him to be the study of flying saucers and that an attempt was being made to force the Government of the United States to reveal the true picture about flying saucers.

[redacted] said that a recent meeting of the group at Kansas City, the grain salesman in Nebraska, who reported riding in a flying saucer about a year ago, spoke before the group.

[redacted] said his son has received literature, which is mimeographed and stapled together, concerning flying saucers.

b6

b7C

CM

KC 100-0 (RE: COLLEGE OF UNIVERSAL WISDOM)

[] said his son attends meetings and no charge is made for attending or for literature. He said the group is transported to Kansas City without charge.

A short time ago, his son received literature which was purported to be a study of the "Holy Bible" but that it appeared to him to be material which would well cause doubts about the Bible in the minds of readers.

b6

b7C

[] said he knew of no reason to classify the College of Universal Wisdom as subversive or anti-American, but said he felt the college and its operations should be brought to the attention of authorities as it seemed strange to him that it could operate without charging fees to students and also that it should furnish literature inspiring doubt in the Bible.

No further action is being taken in Kansas City Division on this matter.

This letter is furnished for the information of the Los Angeles Office.

Note: Hand print names legibly; handwriting satisfactory for remainder.

Subject's name and aliases COLLEGE OF UNIVERSAL WISDOM		Address of subject Yucca Valley, Calif.		Character of case Misc. (Info. Concerning)

Facts of complaint

Comp. said that last week-end (5/17 to 18/58) while in vicinity of location of where subject is supposed to be located, which, he stated is actually about 17 miles north of Yucca Valley at a place called Giant Rock Airport, he recd. a leaflet put out by the COLLEGE OF UNIVERSAL WISDOM and from the manner in which "they talk" (comp. could not be specific, except to say they seem to believe in flying saucers and that sort of thing), he just felt that the subject group may have some motive that may not be in the best interest of the U. S. The only additional information that comp. could furnish was that he learned this "COLLEGE" plans a conclave at Giant Rock Airport the week-end after the Memorial Day week-end, which would be the week-end of 6/7 & 8/58. b6

Previous info. relative to subject appears in 62-4080. b7C

b7C

SUBJECT: ~~NEW YORK SAUCER INFORMATION BUREAU~~
 Post Office Box #26
 Planetarium Station
 New York 24, New York
 MISCELLANEOUS INFORMATION CONCERNING
 IS - C

On 5/12/58, [redacted] Knowlton Township, New Jersey, telephonically contacted the Newark Office of the FBI and advised that he desired to speak to an Agent concerning some information which he felt might be of a subversive nature.

Previous contact with [redacted] in connection with an ITSMV case disclosed that [redacted]

[redacted]

On May 16, 1958, [redacted] along with [redacted]

[redacted] New York City, were interviewed at [redacted] residence, Knowlton Township, N.J. [redacted] and [redacted] advised that a former major of the Air Force, WAYNE S. AHO, who is the Director of Washington Saucer Intelligence, Post Office Box #815, Washington, D.C., in January of 1958 was instrumental in establishing the New York Saucer Information Bureau. An individual by the name of DOUGLAS DEANE is believed to be Director of the New York Saucer Information Bureau (NYSIB). DEANE is an unemployed radio actor and a member of the New York City AFTRA. ARTHUR AHO, who is a brother of WAYNE AHO, is also believed to hold some position in the NYSIB.

b6

by the NISIB. WINSON has also promoted various individuals who have appeared on radio and television programs relating experiences with unidentified flying objects.

b6

b7C

[redacted] advised that after the formation of the NISIB the first few meetings held in New York City at various halls dealt primarily with UFO matters but that in approximately February of 1958, in a meeting at the Palm Gardens, Eighth Avenue and 62nd Street, one JAMES OTTO from Chicago, spoke at the NISIB meeting. In this meeting OTTO denounced the Government of the United States and urged all people in attendance at the meeting to write to their Congressmen saying that we should give up our arms, do away with secrecy in the Government, and that the American people are all being victims of the politicians in Washington, D.C. At this same meeting DOUGLAS S. BRANE, previously mentioned, made a speech in which he stated in essence that the Government was controlled by secrecy and was against the majority of the people. He urged that the word should be spread by people in attendance at the meeting to lay down our arms, stop nuclear tests and that Russia should not be blamed for the present world tensions.

[redacted] advised that after February, 1958, all meetings since that time, when any requests are made of the audience, the requests are not in connection with scientific or factual information concerning unidentified flying objects, but are rather requests for the people to write their Congressmen to stop the nuclear war, to tear down our national defense, and to stop secrecy in the Government.

[redacted] advised that in addition to persons previously mentioned attending these meetings, the following individuals have been in attendance:

[redacted]
Address unknown

NK 100-0

[redacted]

New York City

b6

b7C

[redacted] advised that he has done extensive research in connection with unidentified flying objects and that he is alarmed at the way meetings have been conducted by the NISIB. He advised that he had spent fourteen years in [redacted] and that the methods used by the persons behind the NISIB could compromise a very effective courier system between the Russians and the Communists in the United States.

[redacted] advised that the NISIB has connections in several foreign countries, namely Brazil, Argentina, England, France and Canada. He also advised that all of the above persons mentioned in connection with the NISIB seem to have no particular jobs or visible means of support, yet they travel continuously over the country attending various meetings of groups gathered together for the purpose of discussing unidentified flying objects. [redacted] also advised that these persons do not appear to be trying to capitalize from a monetary standpoint the people attending the NISIB meetings, but instead are trying to convince the people in attendance that our Government is no good.

[redacted] exhibited copies of letters written by the Washington Saucer Intelligence to the President, to the Chief of Staff of the Air Force and to Congressmen, in the past two years, all which letters are critical of the Air Force and the Government for maintaining secrecy and withholding information concerning unidentified flying objects. [redacted] also furnished two pamphlets entitled "Why Kingdom Come" published by the Los Angeles Interplanetary Study Groups of which ~~GABRIEL GREEN~~ is Chairman. A review of these two publications reflects that they are published at 2004 North Hoover Street, Los Angeles 27, California. The pamphlets were issue number five and issue number six dated June and December, 1957, respectively.

A review of the December, 1957 pamphlet reflects that it is a complete booklet on prior choice economics.

[redacted] also furnished a publication entitled "UFO - lation" published by the NISIB, May 7, 1958, as well as

65433
pls search
4

NK 100-0

a copy of the publications dated April 15, 1958, and April 21, 1958. In the April 15, 1958 copy a letter was directed to the Office of the District Director, United States Treasury and Internal Revenue Department, 474 Lexington Avenue, New York City. This letter was a critical type letter criticizing the Air Force spending millions of dollars and holding back information from the American people. The letter also reflects a critical attitude toward the country's nuclear test and a statement made by DOUGLAS LEANE "I have seen a lot of the photostated documented evidence and if the FBI and the Air Force are allowed to get away with what they are doing, there is no knowing where this may lead us".

b6

b7C

[redacted] in conclusion, both advised that they felt that the New York Saucer Information Bureau was a possible Communist Front organization inasmuch as recent material published by this bureau and special guests at this bureau's meetings, have indicated to them that the meetings are just being held under the guise of information concerning unidentified flying objects but in reality are meetings being used to expand the COMMUNIST PARTY line.

[redacted] advised that they would be willing to cooperate with the FBI in any manner in furnishing information in their possession concerning any of the individuals mentioned by them or concerning the NYSIB.

The above information is being submitted to the Bureau, New York, Chicago and Los Angeles Offices for information purposes and no further action is contemplated in this matter by the Newark Office.

Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC, LOS ANGELES (100-56341)

SM-C

Rememo of SA [REDACTED], 4/25/58, serial # 1 b6
of instant file. b7C

On 7/10/58 [REDACTED]
Long Beach furnished the following information to the writer:

She said that she was afraid that [REDACTED] Security Officer at the Navy Net Depot, Seal Beach, where she is employed, misunderstood the information she gave him. She said that she has no information concerning communist or any other subversive activity..

She stated that while attending a "bingo" party at the Non-Commissioned Officers Club at the U.S. Air Force Base, Long Beach in early April last she met a woman there who told her about "flying saucers" that have been observed and photographed in the Yucca Valley area. She said that she was told that some "flying saucers" had been observed near an area frequented by a "German spy" during World War II.

[REDACTED] stated that this was the only information that she had.

Complainant had no information that warrants further investigation.

Facts of complaint
Complainant stated she is interested in the Los Angeles Interplanetary Group and the work of its chairman GABRIEL GREEN, w,m, 33-34, 6'1", 190, hair black, eyes brown, with offices at 204 No. Hoover St., LA. She stated they advocate Prior Choice Economics (a political party) which does away with money as such because it is the root of all even and you keep up with your earnings by card as well as the medical and other social benefits to which you are entitled.

GREEN is said to be a photographer for the LA Board Of Education. The group is said to meet every 2 or 3 weeks and sometimes meets at the Embassy Hotel, (the last meeting was there) with as many as 500 in attendance.

KAHOE'S

Complainant stated she read Major DONALD KAHOE'S book "Flying Saucers are Interplanetary" and while working in San Francisco saw a flying saucer and subsequently saw one in Santa Monica and Hollywood. It was these experiences which caused her to join the above group and she wanted to know if the organization was subversive.

Complainant stated she belongs to the BAHAI TEMPLE, The High World Of Faith, which originated in Pershia but has headquarters in the U.S. in Wilmett, Illinois, and local offices at 331 No. New Hampshire, LA. This is LA file 100-17598 *

Re: UNIDENTIFIED FLYING OBJECTS,
INVESTIGATIVE SOCIETY;
GEORGE W. VAN TASSEL

On April 17, 1960, a lecture was given by GEORGE W. VAN TASSEL at Phipps Auditorium, City Park, Denver, Colorado, which was advertised to be a lecture, movie film, and discussion of unidentified flying objects. The audience was comprised of a majority of older individuals and also a majority of the audience was female. There were few young people, although some family groups.

The program was sponsored by the Denver Unidentified Flying Objects Investigative Societies, one of which meets monthly at the Jefferson County Bank, Lakewood, Colorado, whose executive officer was the Master of Ceremonies. The program consisted of a 45 minute movie which included several shots of things purported to be flying saucers, and then a number of interviews with people from all walks of life regarding sightings they had made of such unidentified flying objects. After the movie GEORGE W. VAN TASSEL gave a lecture which was more of a religious-economics lecture rather than one of unidentified flying objects.

VAN TASSEL stated that he had been in the "flying game" for over 30 years and currently operates a private Civil Aeronautics Authority approved airfield in California. He said he has personally observed a good many sightings and has talked to hundreds of people who have also seen flying saucers. He said that he has also been visited by the people from outer space and has taken up the cause of bringing the facts of these people to the American people. He said it is a crusade which he has undertaken because he is more or less retired, his family is grown and gone from home, and he feels he might be doing some good by this work.

RE: UNIDENTIFIED FLYING OBJECTS,
INVESTIGATIVE SOCIETY;
GEORGE W. VAN TASSEL

The major part of his lecture was devoted to explaining the occurrences in the Bible as they related to the space people. He said that the only mention of God in the Bible is in the beginning when the universe was being made. He said that after that all references are to "out of the sky" or "out of heaven." He said that this is due to the fact that man, space people, was made by God and that in the beginning of the world the space people came to the earth and left animals here. These were the pre-historic animals which existed at a body temperature of 105 degrees; however, a polar tilt occurred whereby the poles shifted and the tropical climates became covered with ice and vice versa. He said that then the space people again put animals on the earth and this is depicted in the Bible as Noah's Ark. He said that after the polar tilt the temperature to sustain life was 98.6 degrees, which was suitable for space people, so they established a colony and left only males here, intending to bring females at a later date on supply ships. This is reflected in ADAM's not having a wife. He said that ADAM was not an individual but a race of men. He said that this race then inter-married with "intelligent, upright walking animals," which race was EVE. Then when the space people came back in the supply ships they saw what had happened and did not land but ever since due to the origin of ADAM, they have watched over the people on earth. He said that this is recorded in the Bible many times, such as MOSES receiving the Ten Commandments. He said the Ten Commandments are the laws of the space people and men on earth only give them lip service. Also, the manna from heaven was bread supplied by the space people. He also stated that this can be seen from the native stories such as the Indians in America saying that corn and potatoes, unknown in Europe, were brought here by a "flaming canoe." He said this refers to a space ship and the Indians' highest form of transportation was the canoe, so they likened it unto that. He said this can be shown also by the old stories of Winged Chariots and Winged White Horses, which came from out of the sky. He said that JESUS was born of MARY, who was a space person sent here already pregnant in order to show the earth people the proper way to live. He said the space people have watched over us through the years and have tried to help us. He said they have sent their agents to the earth and they appear just as we do; however,

RE: UNIDENTIFIED FLYING OBJECTS,
INVESTIGATIVE SOCIETY;
GEORGE W. VAN TASSEL

they have the power to know your thoughts just as JESUS did. He said this is their means of communication and many of the space people are mute, but they train a certain number of them to speak earth languages.

He said that the space people here on earth are equipped with a "crystal battery" which generates a magnetic field about them which bends light waves so that they, the space people, appear invisible. He said this has resulted in ghost stories such as footsteps, doors opening, and other such phenomena.

He stated that the space people are now gravely concerned with our atom bombs. He said that the explosions of these bombs have upset the earth's rotation and, as in the instance of the French bomb explosion in North Africa, have actually caused earthquakes. He said that the officials on earth are aware of this and this was the reason for the recent Geophysical Year in order to try to determine just what can be done. He said these explosions are forcing the earth toward another polar tilt, which will endanger all mankind. He said that the space people are prepared to evacuate those earth people who have abided by the "Golden Rule" when the polar tilt occurs, but will leave the rest to perish.

He advised that the space people have contacted the officials on earth and have advised them of their concern but this has not been made public. He also said that the radioactive fallout has become extremely dangerous and officials are worried but each power is so greedy of their own power they will not agree to make peace.

VAN TASSEL also spent some time saying that the U. S. Air Force, who are responsible for investigations on unidentified flying objects, has suppressed information; and as they are responsible only to the Administration, not to the public, as elected officials are, they can get away with this. He said that also the Air Force is afraid that they will be outmoded and disbanded if such information gets out.

He said that the Administration's main concern in not making public any information is that the economy will be

**RE: UNIDENTIFIED FLYING OBJECTS,
INVESTIGATIVE SOCIETY;
GEORGE W. VAN TASSEL**

ruined, not because of any fear that would be engendered in the public. He said this is due to the number of scientific discoveries already made and that will be made which are labor saving and of almost permanency so that replacements would not be needed.

In summation, VAN TASSEL's speech was on these subjects:

- (1) Space people related to occurrences in Bible.
- (2) Atom Bomb detrimental to earth and universe.
- (3) Economy is poor and would collapse under ideas brought by space people.

Throughout his lecture, VAN TASSEL mentioned only the U. S. economy and Government and the U. S. Air Force. He did refer to the human race numerous times but all references to Government and economy could only be taken as meaning the U. S. One question put to him was whether sightings had been made in Russia or China. He answered this by saying sightings had been reported all over the world, but then specifically mentioned only the U. S., Australia, New Zealand, and New Guinea.

He also mentioned that he was not advocating or asking for any action on the part of the audience because he said evil has a way of destroying itself. He did say that he felt that the audience, of about 250 persons, were the only intelligent people in Denver and he knew they had not come out of curiosity but because they wanted to do the right thing. He said that they were above the average in intelligence and when the critical time came, the world would need people such as this to think and guide.

An application blank was distributed at the meeting for membership in the Denver society of this organization.

GEORGE VAN TASSEL
INFORMATION CONCERNING

Reurlet 10/4/60.

VAN TASSEL has been known to the Los Angeles Office since 1954. He is reported to be owner and operator of the Giant Rock Airport, which is located approximately 18 miles from Yucca Valley, California. He has also been reported to be a director of the College of Universal Wisdom, Yucca Valley, California. Numerous complaints have been received by the Los Angeles Office concerning VAN TASSEL and his activities surrounding "flying saucers," "space men" and "space craft."

Enclosed herewith for the information of the Phoenix Office are photostats of Los Angeles letter to Bureau dated 11/16/54 captioned "GEORGE W. VAN TASSEL, Giant Rock Airport, Yucca Valley, California, INFORMATION CONCERNING," and Denver letter to Bureau dated 5/4/60 captioned "UNIDENTIFIED FLYING OBJECTS, INVESTIGATIVE SOCIETY; GEORGE W. VAN TASSEL, MISCELLANEOUS - INFORMATION CONCERNING" and its enclosed letterhead memorandum.

These enclosures contain a summary of information contained in the Los Angeles file re VAN TASSEL.

62-4080-30

Los Angeles, California
April 12, 1965

**GEORGE WELLINGTON VAN TASSEL
GIANT ROCK AIRPORT,
YUCCA VALLEY, CALIFORNIA**

VAN TASSEL has been known to the Los Angeles FBI Office since 1954. He is reported to be owner and operator of the Giant Rock Airport, which is located approximately 18 miles from Yucca Valley, California. He has also been reported to be a director of the College of Universal Wisdom, Yucca Valley, California. Numerous complaints have been received by the Los Angeles Office concerning **VAN TASSEL** and his activities surrounding "flying saucers", "spacemen" and "space craft."

VAN TASSEL was interviewed by Special Agents of the FBI on November 16, 1954, and advised that he had purchased a ranch in the vicinity of Giant Rock about seven years prior to the interview and subsequently had leased land from the government. He stated that the newly acquired land was then known as Giant Rock Airport, having been acquired under the "Airport Act", and was a certified Civil Aeronautics Authority (CAA) emergency landing strip.

VAN TASSEL advised that in August 1954 he had been awakened by a man from space. The spaceman had allegedly invited **VAN TASSEL** to inspect a space craft, or flying saucer, which was manned by three other male individuals who were identical in every respect with earth people. **VAN TASSEL** furnished detailed descriptions of an unarmed, bell-shaped flying saucer and claimed the spacemen were mutes who conversed with him through thought transfers.

VAN TASSEL stated that he advocates and follows a metaphysical religion and research which is based on thought transfers, and that through the thought transfer media he has ascertained that there will be a third world war with a destructive atomic explosion. He further stated the above facts could be verified through the Bible, and that the peace-loving space people would not enter or provoke a war.

LA 62-4080

He further claimed to have learned from the space people a means of rejuvenating people's life expectancy from the present expectancy to 300 to 1500 years.

VAN TASSEL advised that he published a bimonthly publication entitled "Proceedings of the College of Universal Wisdom, Yucca Valley, California", and claimed a distribution in 1954 of 1,000 free copies.

VAN TASSEL claimed to secure his money for life necessities and the furtherance of his religion, research and college through the generosity of about 100 individuals whom he failed to identify. He stated that some income was derived from the airstrip and a small restaurant located at Giant Rock. Giant Rock was noted to be a remotely located area about 18 miles from the nearest highway, with a rough dirt road leading from the highway to the airport.

VAN TASSEL voluntarily mentioned that he is a loyal American and would be available at any time to assist the FBI.

The articles written by VAN TASSEL on space craft, space people and space communications appear to be the writings of an eccentric who attempts to connect passages from the Bible with the philosophy of the religious hierarchy of the "College of Universal Wisdom." b6

Between 1954 and 1958 VAN TASSEL furnished information to the Los Angeles FBI Office on at least seven occasions, making various allegations of espionage, sabotage and Nazism. None of the allegations were ever substantiated through investigation. b7C

On November 16, 1954, Deputy Sheriff [redacted] [redacted] Twenty-Nine Palms, California, which covers the area of Giant Rock, advised that VAN TASSEL operated in the name of religion, and [redacted] advised he had attended meetings where VAN TASSEL would read from the Bible to fifteen or twenty people, preach a sermon and then go into a seance.

[redacted] advised he had watched the maneuvers of VAN TASSEL for some time, and the San Bernardino County Sheriff's

LA 62-4080

Office had ascertained that VAN TASSEL had not violated any California statutes due to the fact that he operated in the name of religion. [] further advised that the general consensus of opinion in the area where VAN TASSEL resided was that VAN TASSEL was eccentric and appeared to be a mental case.

b6

b7C

During 1960 VAN TASSEL gave a lecture before the Denver Unidentified Flying Objects Investigative Societies, Denver, Colorado. This lecture was described by a Special Agent of the FBI as more of a religious-economics lecture rather than concerning unidentified flying objects. A summation of VAN TASSEL's speech was furnished as follows:

1. Space people in relationship to occurrences in the Bible.
2. Atom bomb detrimental to earth and universe.
3. Economy is poor and would collapse under ideas brought by space people.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

RE: GEORGE W. VAN TASSEL,
JOINTROCK,
YUCCA VALLEY, CALIFORNIA;
UNKNOWN SECRET DEVICE

A source, who has furnished reliable information in the past, and in addition, has furnished information which could not be verified or corroborated, advised as follows on April 9, 1965:

[redacted] Miami, Florida, has stated that a secret device, which can be carried on a person and used to blind people, has recently been perfected. This device, also referred to by [redacted] as a weapon, formerly developed to keep others from seeing operator of weapon. [redacted] reports no other details regarding description and use of device. However, he said his information was second hand.

The source states that it has been determined the alleged device was developed by GEORGE W. VAN TASSEL, Jointrock, Yucca Valley, California, who reportedly owns or operates an airport some 20 miles from Yucca Valley in the desert area, telephone number 365-9860. VAN TASSEL reportedly has a son-in-law at Yucca Valley telephone number 365-3226. It is believed VAN TASSEL can be contacted at Yucca Valley, California, telephone number 365-8747.

Source stated VAN TASSEL claimed he worked over seven years in research and development of this device and the machine to make it. The weapon reportedly is of an electrical type, not further described. Any additional information can be obtained only by individuals who purchase the device and must be present at the time it is made. VAN TASSEL allegedly owns the building or property where machine and factory located which he uses to make the secret device.

VAN TASSEL is reportedly working with his son and his son's wife reportedly is his secretary. It has also been determined that VAN TASSEL contemplates traveling throughout

Director, FBI (63-1566)

GEORGE W. VAN TASSEL
INFORMATION CONCERNING - SUBVERSIVE CONTROL

Reference is made to Miami and Los Angeles teletypes to the Bureau dated 2/9/65, bearing "Racial Matter" character.

For information of Miami, captioned individual is probably identical with George Wellington Van Tassel, who was interviewed by Bureau Agents in November, 1954. A copy of Los Angeles letter to the Bureau dated 11/15/54 concerning subject is enclosed herewith for information of the Miami Office. This letter, which sets out the results of the above-mentioned interview, included a statement from a deputy sheriff who was acquainted with Van Tassel; and it is noted that this deputy sheriff considered Van Tassel to be an apparent mental case.

Because of Van Tassel's apparent mental condition, as evidenced by his statements and apparent beliefs concerning inter-planetary travel by men from Venus, and in view of his other highly imaginative and incredible statements concerning space travel and population, it is believed that no further inquiries need be conducted by the Miami or Los Angeles Offices concerning Van Tassel.

b7C

If information exists, which has not been previously furnished to the Bureau, and which indicates a propensity towards violence on the part of Van Tassel, or if other reasons exist which would indicate that the matter should be referred to Secret Service, a letterhead memorandum should be submitted under the caption of Van Tassel.

Information concerning ultra-right, subversive and/or racist activity on the part of [redacted] mentioned in referenced Miami teletype, should be appropriately furnished in form suitable for dissemination under [redacted] individual caption. Such information should include [redacted] interest in a device capable of blinding people as described in referenced Miami teletype.

reference was considered not identifiable with the subject of Mr. Tolson's inquiry and was marked on the search slip "NI."

With reference to the symbol "NI" the Bureau Supervisors' Manual states on page 12a: "NI - no identifying information. The term indicates that it is impossible to establish an ident or a no record, or indicates material which would be of no value to the Supervisor."

In this instance, as noted above, it is not felt there was enough information to make a positive ident and it was not felt that the two were identical. Therefore, the information appearing in the above-mentioned reference was not included in the memorandum of November 12, 1954.

ACTION:

For your information.

George Willington Van Tassel

Pursuant to Inspector J. A. Sizoo's request of November 15, 1954, this memorandum is being submitted to reflect the reasons why certain information in Bureau files was not included in a memorandum prepared at the request of Mr. Tolson on November 12, 1954, captioned "Daniel W. Fry; George W. VanTassel, Information Concerning." On November 12, 1954, Mr. Tolson's office telephonically requested the Special Memoranda Unit of the Liaison Section to prepare a summary of information in our files for Mr. Tolson on Daniel W. Fry and George W. VanTassel. VanTassel was said to reside at Giant Rock, Yucca Valley, California, and possibly had furnished to the Army information contained in "Van's Proceedings." This was the only identifying data furnished concerning VanTassel.

Bureau file

[Redacted]

[Redacted]

VanTassell at that time resided at 2446 Armacost Street, West Los Angeles, California, and was employed by the Douglas Aircraft Corporation in Santa Monica, California, as a leadman in Department 658 and had been so employed for over seven years. Prior to his employment at Douglas Aircraft Corporation, VanTassell had worked as a mechanic at Paynes' Garage, 1452 2nd Street, Santa Monica, California.

[Redacted]

The letter further noted that VanTassell was born March 12, 1910, in Jefferson, Ohio; was married and had two children and owned his own home.

RECORDED - 77

63-15662

In view of the fact that nothing in this reference indicated that VanTassell had ever resided at, or had any connection with Giant Rock, Yucca Valley, California,

[Redacted] under the caption "Van's Proceedings," this

George Wellington Van Tassel

I talked with ASAC Gearty of Los Angeles at approximately 6 P. M. last evening to determine whether or not Los Angeles had been able to locate ^{and} interview Van Tassel. He said he checked the matter with Special Agent Charles G. Cusick, Resident Agent, San Bernardino, who is handling it, yesterday morning, that Cusick had contacted Mrs. Van Tassel Monday when Van Tassel was supposed to have returned to Giant Rock. However, Van Tassel had not returned and his wife had no idea where he was except to say that he was probably in or near Los Angeles, that he was traveling in and sleeping in his truck. She said she expected him back in Giant Rock any day, but could not be definite in this respect and stated that it was not unusual for him to be away several days, that he was undoubtedly contacting people in furtherance of the religious cult in which he is interested.

Gearty will have Mrs. Van Tassel contacted again today and advise the Bureau by teletype the results of such contact.

Volume 1

MARCH 15, 1954

Number 11

I am the Voice, O man,
*speaking in the stillness of your being.....
 The righteous recognize my voice. - My call
 is to those whose ears are deaf to my with-
 inness. I plead eternally, that all may hear
 the me in you eventually. - In the pattern
 of my doings I bring you pain and joy, that
 you may feel me in the contrast of your
 senses. Never shall I cease to call to those
 who live in darkness. Though my patience
 is infinite, I suffer because of your sins. -
 When you hear me in another - listen!
 Do not shy from me in the disguise of raucous
 laughter. - The ones who live in the clamor
 of confusion - to hide from me - are only add-
 ing sorrow to tomorrow. So I make each to-
 morrow a today, that your memory of yester-
 day shall make my voice the louder from
 out of the silence, of an added
 day you spent alone.*

SYMBOLS AND SIGNS " 7
by Theodore Wayland Berger

PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are published to carry out our purpose of Interplanetary Communication and of the Diffusion of Universal Wisdom gained through the medium of space beings.

The current issue of the PROCEEDINGS is distributed free of charge. Only a limited number of back issues (1-10) are obtainable for a minimum offering of Two Dollars (to defray expenses incurred). Donations solicited and invested to improve the publication, or im-
bursed to the Building Fund of the College of Universal Wisdom.

PROCEEDINGS are published semi-monthly by the College of Universal Wisdom at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: Van Tassel Ranch, Yucca Valley, California. George W. Van Tassel, Director; Darlene Van Tassel, Secretary-Treasurer; Theodore Berger, Editor. Copyright, 1954, by George Van Tassel. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed stamped envelope. As we do not employ solicitors nor representatives, kindly address all correspondence concerning subscription, donations, bequests, etc., directly to the

COLLEGE OF UNIVERSAL WISDOM
P.O. Box 419, Yucca Valley, California

Can Appeal to the People

The space people are here to help you. However you must demonstrate, as a race, that you are willing to accept their assistance.

Each one must realize by now that no authority, or branch of Government, or Government is qualified to straighten out this mess the world is in. Now the Governments are faced with a means of destruction that is beyond the control of "brains".

Air Force Intelligence is not to be criticized - they are to be sympathized with. They have a problem on their hands that has been developing for the past thousands of years.

Pressure is applied from all sides to reveal their information - or not to reveal it. There is no longer any question of whether they have facts and pictures. The question is: will the Government make the decision to follow God and qualify for assistance from His Sons?

President Eisenhower has witnessed destruction and blood spilling as a General. I'm sure he is fed up with wars. He also is under terrific pressure. I know what he wants to do and I also know he will have the courage to do it.

When he does speak out, you as a people must raise your voices loud in his support and flood Washington with letters of approval.

This is not a party issue, or a national issue nor is it a religious issue - it is an interplanetary issue on which the existence of this civilization depends.

Yours in Light,

J. W. Van Tassel

Spacepeople and You

Excerpts from the forthcoming book
"Into This World And Out Again"
by George W. Van Tassel

THE BEGINNING

"In the beginning God created the heaven and the earth" (Gen. 1:1). This creation was a part of the continuously evolving creation throughout the Universe. Each instant that passes new things are made, new phases of life unfold, to live in ever progressing cycles of rebirth.

As related above God made heaven before earth. In these heavens of the sky He had already created man. On many planets, of many other solar systems and on other planets in this solar system man was developed through thousands of years, before the earth was habitable.

Man was created (Gen. 1:27), he did not evolve from the lower animal.

However he was not created on the earth. Man was created throughout millions of solar systems, to serve as the instrument of God's doing. Anyone who contends that this planet is the only one occupied by intelligent life forms, does not accept God in His infinite completeness. Their narrow mind has placed a limit on His ability to perform His creations, to one planet.

Adam was not a single man. The Adamic race of man were the first people to inhabit the earth. This is confirmed in Gen. 1:27 where the race of man, in the original creation, are described as "male and female". In Gen. 1:28 the scripture relates how "God blessed them". This is plural, not him, but them, more than one. And God said unto them (the Adamic race, both male and female) "be fruitful, and multiply". This before Eve is ever mentioned.

So the Adamic race is established on earth, while badly misinterpreted in the first chapter of Genesis.

Then God finished His work of creation in regard to man. He had also finished the creation of the heavens

and the earth (Gen. 2:1) and all the host of them. This means all the beings who occupied the earth and the heavens. So God "ended His work" and rested (Gen. 2: 2,3).

Can this be? God ended His work, and still no mention of Eve. Yes, that is accurate, the Bible is right on God's beginning of His creations.

Then comes the summary of the creation. This is where people are led into confusion. This summary was originated by a "brain". For the first time God is left out of the picture and we have a "Lord God" (Heb. Jehovah Elohim). This character was one of the Adamic race who was in the colony that had been landed here by spacecraft. The men of the Adamic race did not bring their women with them when they first landed on earth. This summary of the creation of man by God is an excuse written to explain away the fact that the people of earth today are crossbreeds.

The Lord God brings Eve into the picture - not the Creator. The Lord God said that the Adamic men were lonesome (Gen. 2:18) so then the relator names everything, to further confuse you. Then the Lord God pops Eve out of a rib after one of their people fell into deep sleep (Gen. 2: 21,22).

God brings about the creation of people through birth everywhere in the Universe, not by making women out of ribs.

The race of Eve were the highest form of lower animal life on this planet. They were not apes, but they were also not the race of man, created by God.

So comes the story of Adam, Eve and the apple. (Gen. 3: 1-14). This son of the Adamic race of man blamed the woman and the woman blamed the serpent. The serpent didn't have anyone to blame.

One of the true species of man, as God created the Adamic race, mated with an animal. There is no violation of God's law in man mating with woman after his own kind. The spacecraft people have wives and children. Adam's violation of the law was not in "eating the apple"; it was in eating the wrong apple.

God created every creature after its own kind (Gen. 1: 11-13 and 21-23) but one of the race of man mated with an animal of the earth and crossed blood.

This is where man became hu-man. Eve gave birth to Cain and Abel. She didn't know who the Creator was so she said, "I have gotten a man from the Lord (Gen. 4:1), thinking the Lord was the Adamic man who was her mate.

When Cain killed Abel he revealed the animal nature of his mother. He started the practice of murder, that has expanded to a point where people now vaporize thousands with atomic bombs.

That is why the people of the earth are called humans. The Adamic sons of God knew the tiger as a killer among beasts. Their name for tiger was Hu. This has been brought up through the centuries as symbolized here from the ancient records.

Most of the people on the earth today are crossbreed descendants of the true Adamic Sons of God, as originally created, and the animal of the race of Eve. That is why you have an earthly, dense animal body and an inner body of created reality, as God made you.

The true created men and women of the Adamic race of Man, have been watching the people on the earth for thousands of years.

This "siva-lization" of hu-mans has expanded the science of destruction to the point of crisis. The nations having atomic bombs have enough to wipe out all living things on the earth. The animal of Eve is in power. In the United States the President is trying to regain control of atomic energy. Our elected branches of Administrative Government realize that the beast is loose. Some of the eminent physicists are beginning to turn about.

The Adamic race of Man have brought nullifier ships into the earth's thin film of breathable atmosphere. We call them green fireballs. They have nullified concentrations of atomic radiation that were in our atmosphere. They feel responsible for the fact that one of their people started this destructive cycle on the earth. God may have to "shorten the days" and bring the man called Jesus back before schedule, in order to awaken the people. You have a choice to make. You either accept the Creator's Adamic constructive part of you, or you recognize the physical hu-man's destructive influence of the Eve ancestry.

(To be continued)

Symbols and Signs

By Theodore Wayland Berger

The aim of a symbol is the transmission to man's mind inaccessible ideas and this in such a manner that the possibility of false interpretation is excluded.

The age of most of the symbols points to their being pro-hieroglyphic and their number with all their branches, comprising the symbology of alchemy, astrology, magic, letters, etc., is startling.

We all know how Ernest Rutherford discovered in 1899 that the Becquerel rays consisted of three different rays. He named them alpha, beta and gamma rays. Although we have adopted the same nomenclature, we differ slightly in classifying their properties.

The alpha rays, corresponding to our "A", A positive, A⁺, or Projective rays are identical with positively charged helium atoms. They do not have as great penetrating power as the other rays; a very thin piece of aluminum foil is sufficient to intercept them. They ionize the air molecules very efficiently and cause, easily, severe burns to the operator.

Beta rays, resembling our "B", B negative, B⁻, or Receptive rays have a marked similarity with cathode rays. They consist of negatively charged particles of matter or electrons. Their penetrating power is much greater than that of alpha rays. Their physiological effects are known to be beneficial.

The gamma rays — the "G", G, or Insulating, or Repelling rays — appear to be similar to the X rays and are not deflected by a magnetic field whereas the alpha and beta rays are slightly deflected. The penetrating power of gamma rays is greater than that of the alpha or beta rays. See "Proceedings", no. 5, pages 7, 8; no. 6; p. 4 and no. 7, p. 3.

Great wealth of information may be culled from the letters of an alphabet. For instance Greek α (alpha), a "bull's head" or the Hebrew \aleph (aleph) a "bull" suggest

the masculine characteristics of the ray. The Greek β (beta) and Hebrew \beth (beth), with many derivatives, emphasize the feminine properties of the ray. Greek (gamma) and Hebrew \aleph (gimel), a "camel", suggest a "burden-bearer" and were associated in antiquity with the ideas of blood-kinship, householder, generation, etc.

Delving deeper into the mysteries of symbology, we find that the Pa Kua of the Chinese also represents three forces. Yang related to Light, Sun and Vigor is masculine, whereas Yin, related to the Dark, Earth, Moon and Passiveness is feminine. And the third force is either male or female exactly as it is in our modern world of today. The utilization of this Light power is still withheld from the Science although revealed to many humble souls in distress.

Number 9

O Mortal Beings.

Though many may express belief in the teachers I have sent - I accept them providing that the expression of belief is not a living lie. - And those who live My Laws and say "There is no God above them" I accept also. Though words may deny Me person, the actions prove Me in the heart. - Belief expressed in words is not verified in fact unless the living brings about the proof. - Though multitudes have closed the door that keeps Me from being the directing force - I condemn them not. - Though laws may make my being infinite and boundless beyond comprehension - I am not there in the individual except as I am expressed in Action.

Infinite Light Power

Excerpts from "The Council of Seven Lights"
by G.W. Van Tassel

THE SUN

The Sun is the atom proton of our macrocosmic solar system. The core is the gyroscopic (balanced motion) directing intelligence of all the functions of our solar system. This core portion of the Sun is similar to the inner consciousness of each solar system in the Etheric Substance. It is the Sun (Son) of God; the Christ consciousness of a living breathing system.

The + Photosphere and the - Actisphere are the breeding strata of fusion, emitting the opposing forces that maintain relativity throughout the solar system.

The solar Prominences are the light forces of positive charge that originate the helical tracks of the three positive planets: Uni, Arroa and Tarr.

The sunspots are emissions of negative charge that form the helical path of the nine planets that can be seen by us. The three positive planets cannot be seen by our telescopes. This is because the positive light-emission from the Sun requires a negative resistive planet to activate reflected light.

Our living solar system is in light polarity balance. The three positive planets and the positive Sun charge equals the charge of the nine negative planets. This balance is maintained in the helical tracks by the A+ and B- lines of force and the insulation of Ethe.

The positive Sun vortex is smaller in orbit diameter and more dense than the larger, negative vortex, which is less dense.

The latitude, from 10° to 30°, on each side of the Solar Equator is the womb of the bi-sexual Sun (Son). This is the area of gestation of the major sunspots and prominences. The gestation period, of approximately eleven years, is caused by the forward motion of the Sun through space.

At its speed, of approximately twelve miles per second, the Sun encounters a new wave density of B-

lines of force every eleven years. This causes a state of unbalance of the Actisphere, which repels the excess particles of charged matter in dark vortices. These appear to be in the Photosphere because the Actisphere is not visible. The period between the maximum activity of the sunspots is caused by the Sun passing through the wave of the A⁺ lines of force.

The Sun is rotated by the A⁺ and B⁻ lines of force that are infinite throughout space. The Sun appears to rotate opposite to the Earth. This is true of the Photosphere which we see, as it is positively charged and turns opposite to the Earth's negatively charged crust. The negative Actisphere rotates in the same direction as our surface underfoot.

The fact that our solar system is being brought into an unbalanced state by the explosion of nuclear devices, is the reason for the numerous appearances of the spacecraft in our atmosphere. They are not just people from other planets, they are agents of God.

The planned tests in the Pacific, where attempts to fuse both tritium and deuterium are in the making, is the maximum demonstration of ignorance. This super test will cause tidal waves and earthquakes on a greater scale than before. The maximum effect will be evidenced on the Earth opposite to the area of the tests. Storms of unprecedented fury will follow the blasts, but not immediately, all over the Earth.

Every test conducted with atomic energy is on an ever increasing scale and the scientists and authorities of all nations are assuming that there is no limit. The use of the principle of the Sun on a planet, is in violation of the natural laws. Science knows that for every action there is a reaction. When the action of an exploding bomb takes place, the reaction will be evidenced by an equal and opposite violence in storms, earthquakes, etc.

Nature (God) balances all things. He balanced the pieces of the planet Lucifer (Maldek) in a ring of asteroids, between Mars and Jupiter, when the fools in authority blew it to pieces with atomic experiments.

This living, pulsating solar system is our home, and our brothers and sisters from other realms and planets are going to correct conditions here on this planet.

The fusion of positive charges in and on a negative surface is taking the power of the Creator, who made

THE SUN - GOVERNOR OF SOLAR SYSTEM

the Sun, into the hands of mortals whose egos would make them gods.

However, the first Law of the Universe is: "Thou shalt have no other gods before Me!" (Ex. 20-3)

*Bring Out Your Dead!**

Irresponsible scientists, with the armies of the world back of them, are turning loose into the atmosphere vast clouds of deadly pollution, noxious fumes and radioactive dust, which pass immediately out of their control. Nobody knows where the filthy stuff will go or what it will do to people when it gets there. Nobody in authority seems to care. The only consolation we poor dogs of civilians have is that the Army officers, Senators and Scientists all have to breathe too, so that the dead-wagons will be backing up to their doors as well as ours.

We just had a five-day seige of what was called "smog" in NYC, from Nov. 27 to Dec. 3, FS. The wipers tried to sell the public the obviously false notion that the stifling, irritating, black air was the product of local factories, held to Earth by "inverted" temperatures of air masses. Naturally, nobody in any phase of "public relations" would dare to admit that this pea-soup came from bomb-tests. Even when the New York Operations Office of the Atomic Energy Commission hired researchers in Troy to make local tests, the story was hidden on p. 25 of the N. Y. Times, 11-29-53, under a sweetly innocuous headline so dull that only a Fortean would look under it. "Radioactivity Test Set," says the Times, "Rensselear to Conduct Research in Troy-Albany Area" — and only away, away down deep in the small type do we see, "It has been known for seven months that atomic explosions in the Nevada desert have caused "fallouts" of radioactive particles on Troy and Albany.

Hush, little malformed baby, don't you cry. It was only a "fallout" — nothing to worry about.

"With Geiger counters Dr. Herbert M. Clark, Professor of Nuclear Chemistry at Rensselear, found the greatest deposits after a heavy rainstorm last April 26. (Now get this!) The manifestation has not been shown injurious to humans, animals or plants. Many scientific institutions throughout the United States conduct investigations of radioactivity in their communities because of atomic explosions in the west. "Fallouts" have been detected in all parts of this country, espe-

*Deviating from our editorial policy we reprint the above enlightening article with apologies to Mr. Tiffany Thayer, Editor of the Fortean Society Magazine "DOUBT." — Vol. 2, No. 43. Box 192 Grand Central Annex, New York City.

cially downwind from the explosion, and are not particularly heavy hereabouts."

Consoling, that.

Prof. Harold Urey, speaking in Zurich, Switzerland, 8-10-53, said, "If the Russians had exploded an H-bomb, this fact should be detectable from the radioactivity in the air." N.Y. Times, 8-11-53.

Conducted tours to the bomb crater at Almagordo, New Mexico, were announced in the Liverpool Echo, 8-31-53.

"The surrounding desert has been covered and planted with grass to prevent the blowing of radioactive dust."

North End of Boston, before daylight, 9-7-53. Fall of a silt-like substance covered cars so children spelled out their names in it, streets, so that walkers left footprints. Hundreds of families woke up with coughing spasms. Boston Daily Record, 9-8-53.

Canberra, Australia, 10-16-53. Radioactive dust clouds reached the city within a few hours of a bomb test at Woomera. Had traveled 40 miles an hour. "No dangerous concentration of activity would have existed," states the N.Y. Times, but goes on, "Instrument readings showed the amount of radioactivity emanating from the cloud to be surprisingly compact.

Message from Lao

Some of you here are anxious within your mental functions to know what is coming tomorrow. Your every desire is focused ahead. Let me assure you, man was not designed to live in tomorrow today. Your anxiety, in terms of mortal understanding, is excusable. You have assigned yourself to the Father's service. You are not being instructed that you may have the ability to accept mortal works; you are being primed to carry out an assignment that will only be comprehended through your inner consciousness. You should no longer be interested in the reflection of yourself. You are true lights. Those mortals in this cycle who look beyond the mental function for their judgement and reasoning are all true lights. Go within yourself; comprehend that you have the ability and the experience and the courage to carry out this assignment of a new method for a new time. Do not allow yourself to be muddled by mental distortion and tearing apart of words and ideas, that evolve from personal opinions. If you are inspired to receive a thought of what is to happen tomorrow, take a moment to reach the answer in the zone beyond the thought vibration in the light of the Father's truth and knowledge within you.

I wish to thank our many friends for their nice letters I have received after the TV broadcast. It is impossible for me to answer so many letters personally. You are one and all invited to visit us at Giant Rock Airport which is a C.A.A. approved public airport, leased from the Government. My family and myself operate the airport. We have lived here for the past six years. The scenic beauty is unsurpassed, and the wild flowers will be blooming soon. Coffee and Sandwiches served in our Cafe. — Giant Rock is seven stories high — one of the world's largest boulders. — I shall be glad to discuss things of mutual interest with you.

I am the Voice, O mortal man,
 that whispers in the silence of your being.
 I am the motion, instilled within the fluid
 dust of the body, to incase you in this
 Density of Three. I am the softness that
 all babes know when nestled to the breast of Me.
 I am the hardness of the substance many times beyond
 the density that mortals know. I am the sun that
 warms the morn' and scorches brow. For thou must
 know, within the Being of Me is thee. And search,
 though you may do for eons yet to come, I am not
 there where you may go. I am within you, giv-
 ing life to clay, that my motion may be manifest for
 purposes misunderstood by man. I am not the
 formula of many, nor of one — my combination
 varies with each speck of dust, with each drop of
 rain, with each thought, each individual pain and
 hope. For I am always surrounding thee — and
 thee in Me but makes the journey short. Look
 not afar, look where you are —
 Eternity is Now.

The Space People from Spica Speak

Transmitted to us from the Council of Twelve Lords, through the Ring of Mas¹, we reprint the message below. This message is from the capitol-planet Kenardi, from the Solar System of Lotar, whose Sun is recorded by our astronomers as the star Spica.

To planet Shan², O brother man and sister too. Look not to time. Month, day or year is not a must, for only dust is lost in passing by. In system here no fear is known by us. One God is known alone, providing man throughout each new rebirth with understanding.

Yet an effort must be made by man, to learn the turn of chance is guidance on the path. The Father to us all plays on the keys, sounding out the tones and densities, that sets the pattern of our ways. Isolation of the mind to planet bound, confines each individual to a prison of thought.

We, whose brothers you are, plunge on through space, while mortals of a planet, such as yours, determine fate with ego, false illusions, bent visions and reflections of the past. We here condemn not the tree because the branch is bent, we only extend the splint to straighten out conditions not meant for man to suffer.

Do you, our brothers and sisters, realize beyond the skys you view, we stand ready to assist you, directed by the Hand that guides all men, ready, stalwart and able to give you aid.

To you gathered on a globe of dust — try to understand the lace of space is decorated with Suns called Stars by you, and countless members of His Being are interested in your course.

-
- 1 - Ring of Mas - Photosphere of our Sun.
 - 2 - Shan - The Earth.

(Relayed through the space station Ulturn; one of three sub-stations orbiting around our Earth).

The Infinite Light Power

Excerpts from "The Council of Seven Lights"
by G.W. Van Tassel

THE GREAT PYRAMID

The Great Pyramid* of Gizeh, Egypt, is the only existing structure on the Earth that remains intact after 25,816 years. It is the greatest power plant ever built on this planet. At the time of its use it could furnish more power than the generators at Niagara Falls could produce in a thousand years.

The Great Pyramid was never intended to be a tomb or a monument for the Pharaohs. Neither was it built by the Egyptians or Hyksos, as assumed by historians. It was erected by a remnant of the Adamic race on this planet.

In order to produce the power required, the Pyramid was built in minute conformity to the measurements of our Solar System. All dimensions were accurately computed to insure correct functional operation.

The Pyramid was designed by Enoch and built by Thothma with the help of the true descendants of the Adamic race (the space people) who had made a forced landing on Earth. Knowing the Universal Laws and their application they received timely warning and journeyed to Egypt before the sinking of the great continent Atlantis—Enoch and Thothma flying in an aircraft called vailx. After the landing in Egypt—25,825 years ago—they started the operations and spent the next nine years in building the Great Pyramid.

Utilizing the knowledge gleaned from their secret records, they employed the Infinite Light Powers. They knew how to manipulate the light lines of force. Cutting the blocks with light energy from the At and

*PYR means Fire; MID, the equal distance between the extremes; PYRAMID, Fire, or positive light substance in the middle.

 (a pyramid), the alchemical and astrological symbol of Fire. Fire is the positive polarity of the Sun and also of the Earth's core.

World's Greatest Power Plant

B- lines of force. They transported the heavy blocks with their vailx (a model T version of the spacecraft now in our atmosphere). Hovering over each block they encompassed it in their force field, eliminating the weight of the block in relation to the Earth. The blocks shaped so in completeness, as to assure astronomical precision, correspond to and contain all pertinent data of our Earth and Solar System. These correct dimensions were necessary in creating a positive solar vortex — on a small scale — from the A⁺ and B⁻ lines of light force.

The Great Pyramid was erected at its present location for several reasons. Its location was on the side of the positive polarity from the Equator. The 30° latitude was the maximum vortex belt on both sides of the Equator. It was lateral through the Earth to the positive pole of the planet's core. It was centrally located of the Earth's land-mass, which was its nearest neutral point of negative polarity. It was opposite to the Earth's largest mass of water, which served as a reflector.

The weight of the Pyramid had to be tremendous in order to prevent its twisting out of shape, or its rotating on the base. The controversial capstone and a few courses of blocks were left off intentionally as experiments proved they were not needed.

As the Earth rotated, each revolution brought the Pyramid into a cycle of A+ and B- lines of force. This caused an increase in the vortex-shaft of positive force (the principle of the cyclotron). Thus after a period of 336 days the vortex reached and held its maximum force.

All this planning and work — astronomy, mathematics and engineering — was recorded symbolically in the stones as the work progressed. Not for the modern unbelievers to scoff at but for the coming generations for edification. Jesus knew this by intuition and journeyed to Egypt to refresh his memory from the stone-records erected by his people.

In building this power plant of astounding dimensions their chief concern was the safe return to their own people. Being endowed with true perception, they visioned the coming cataclysms of the planet and planned an exodus. When the time of departure arrived, they entered the King's Chamber in the Pyramid and charged themselves in the super light-force vortex.

Then they boarded their ships, hovering for a while over the truncated top of the Pyramid in the positive shaft of force which extended beyond the gravity range of the planet. When the ships were properly charged they were actually repelled from the planet and navigated with super speed to their destination.

Some of the Sons of God (the Adamic race), who remained on this planet, knew of and used the stored up power of the Pyramid for several thousand years. For instance Methuselah and his sons prolonged their life span for hundreds of years by charging their bodies in

the vortex. Many of the deceased Pharaohs, placed in the "open tomb" of the King's Chamber for regeneration, were restored to life. Those who did not revive were left there for a period of 28 days during which time the mummification took place. Recently an unique mummifying process has been demonstrated by Vern Cameron in preserving raw meat, placed under a miniature pyramid.

However, by and by as the Earth moved in the Precession the regenerative and rejuvenating powers, embodied in the Pyramid, were lost to the masses. Nevertheless the secrets are not completely lost. Any man who can subdue his egoism will be rewarded through timely contact and fellowship of genuine space people—the Adamic Sons of God.

This minute sketch does not exhaust the information given us telepathically by space people on the Pyramid and Rejuvenation. We reserve other significant data for the future.

Selection from the Records of Mer

I wandered out one day to sit beside the sea. And suddenly a light appeared. I was weary of the ways of worldly things. And then I was free. I looked about, nothing but stars in all directions could I see. It seemed I'd lost the way, and yet beyond invisible horizons the Sun arose, and one came toward me. The fear that had been buried in my heart was gone, and tears of joy coursed from my eyes. A guiding voice said "Come with me". And I followed through a mist of irridescent colors. Time was lost nor did I feel the urge to hurry any more. We walked afar, though there was no ground beneath my feet. We approached a city in the sky between the stars and there he told me I was home at last. Friends I knew from out the past came out and greeted me. And joys abounded throughout the night and celebration throughout the day. To feel security at last in the Light!

You can assist us in spreading the ageless Wisdom of our Interplanetary Friends by mailing this copy of the Proceedings to someone who is interested in this New Age Science or mail it to your nearest Public Library.

Desca On Safety

In His Light and glory, I come to you, I am Desca. I extend to you gathered here the Light and love from the center of Blaau. I had a purpose in dismissing Mer on a little projection, as he will not be aware of this until you read it later. I am informed by Ashtar that a personal instruction was delivered and transmitted to you in August of your last year. Neither Mer nor any of you, who knew this instruction, have complied with it.

Solgonda, who commanded the ship that made the contact with you there, said distinctly and definitely that you should discard all metal objects upon your person. He informed you that you could not board their ships while you had metal in your pockets. None of you followed these instructions including Mer. I wish to add further instructions here.

This system has now entered the vibratory frequencies of the 4th density. The necessity to abandon metal on your person is essential because of a change in the vibratory rate of this density. Metal objects that conduct electricity also serve as conductors for the lines of force. The increased vibratory frequency in this 4th density causes vortices around metallic conductors. This will result in various ailments in your physical bodies and will become increasingly detrimental if you do not discard metal on your person. This is for your own benefit and good health. I further give you this added information. If you reside for any length of time within metal structures be sure the metal is grounded to the Earth. Your means of transportation inclosing you within metal should carry a grounding chain upon the ground.

You have very likely noticed a definite increase in many ways of your static electricity. This will continue to increase. Most internal diseases are brought about by metallic interruptions of the lines of force passing through your bodies. Those who continue in good health during the remainder of the time this system Salon is passing through this arc, must comply with these instructions or become afflicted with illnesses that will be fatal. We are not trying to lengthen the physical life to add to your misery, but we do have those on the planet who are essential to our program. Please show your intentions and gratitude toward those of us advising you by complying with these instructions. My Everlasting Light, I am Desca.

Questions and Answers

- Q: Why were we given instructions to discard the metal objects on our clothes and sew up our pockets?
- A: When we come, to give you a ride, you must not have any metal on your person. On entering a hovering ship, any metal will cause you burns, as it heats to a melting state in the force field around our ships.
- Q: Have any of the people of the Earth been taken for rides?
- A: There have been several hundred given rides for a specific reason.
- Q: What do your people that you have landed on Earth look like?
- A: They pass among you un-noticed as any other than your friends.
- Q: Do you have two classes of ships such as material and etherian?
- A: We have 62 various types of craft in your atmosphere from among our 369 models and sizes. Our Confederation does not make any distinction between our people from any life level or system.
- Q: Where do the many space ships we see come from?
- A: Most of those observed in your atmosphere have come from your Moon, Mars and Venus. We have had a few ships from other solar systems observing Earth also.
- Q: Are the stories we hear about people being picked up and disappearing true?
- A: We have in some cases taken back some of our people we had landed on your planet before.
- Q: What are the various dimensions of your ships?
- A: We have remote controlled craft in your dimensions 2 feet in diameter. We have among some of our systems craft of the disk type 1500 feet in diameter and of the spherical type 4500 feet in diameter. We have in the torpedo type, craft 3 miles in diameter and 16 miles long. Our space station orbiting around the planet called Mars is 10 miles in diameter. Our control station for the first 4 densities, as you have been told, is 14,000 miles in diameter; double the size of your planet. It does not orbit around anything. It follows the same lines of force that your Sun follows.

Water being a fluid, the volume on the opposite side is equalized in balanced opposition.

According to our space friends we do not know the correct distances to any of the planets or stars. They say that the lense-effect of the strata around our planet magnifies everything in space to our telescopes and surface instruments. They further state that we cannot hit the Moon with rocket missiles, because the Moon is not where we see it. This is due to the refraction of the reflected light through our atmosphere. They also state that if the missile carries a polarity charge, it will burn up in the oppositely charged strata surrounding the Earth.

They further say that the Moon is not as large as the established diameter taught by us. Our enlarged measurement is caused by the diffraction strata around the Earth. The Moon is actually 72 percent of our fixed diameter measurement.

All of our books on astronomy are incorrect, and so is the disseminated knowledge. That is because we are working from a level where the reflection of objects, mirrored to our cameras and vision, through the optics of strata surrounding the Earth, creates illusions.

Why do we continue to defy the natural laws? We can have access to accurate science by accepting the laws that do not change with time. The spacecraft people are doing it. Of course they accept the Creator by living His laws, not opposing them. They also recognize reality of be-ing, instead of reflection of self.

The multitudes confined in the "Siva-lization" (Desca's semantics) of cities cannot react rightly, because the lines of force passing through them are in turbulence, caused by the conducting materials around them.

Hail ye Soldiers in the Light, who bring the
Might to Right! Arise you from the wounds in-
flicted by the blunt sword of inactivity. Carry
on the torch, or drop it that you may die clean
and another may stand within your steps. This
is not a fight for one whose desire, to live in
the Light, is such that he shall remain upon the
ground.

Ativi

of us in the eternal life pattern. Living inside of a solid Insulator (obsidian) they are of shorter stature because of much less struggle with gravitational resistance-pressure caused by the "A", positive and "B", negative lines of force. Life structure always sets up an equal and opposite ratio of resistance to the lines of force. Where there is more resistance, such as here on Earth, we grow taller. Where there is less resistance, as on the Moon, the composition of life form sets up less resistance and consequently the people stay small.

The little people manufacture their water from the two thin strata of gases around their planetoid. The fact that the outer stratum of hydrocarbon is positively charged, keeps the surface temperature about the same as the Earth's. The positive stratum repels the positive rays from the Sun. The small ratio of rays that leak through the positive stratum, causes a normal temperature for supporting human life and daylight and reflection, by their activity in the inner negative stratum.

The light, first seen by our astronomers, at the crater of Lichtenberg, in the 1830s and twice since then (the last time in 1951 for the duration of half an hour), was the little people replacing the lense over the city located underneath. Our astronomers were witnessing the reflection of the new lense as it was put into place. This also was what happened in 1948 in the "crater" Plato.

The old horse and buggy theory that the Moon's attraction causes our tides to rise on the Earth, on the side toward the Moon, is erroneous. This would conform to a theory that a rubber ball bulges when it is stepped on, because the air around it reduces pressure.

Gravity is "resistance pressure". The reason the tide rises on our Earth, on the side toward the Moon, is because the Moon is composed of obsidian (insulation) rock. The Moon performs a cyclic interruption of the lines of force, traveling toward the Earth, on this account there is not so much resistance pressure from the "A", positive or "B", negative lines of force on the waters of Earth. At the same time when the Moon partially insulates the waters of the Earth on the side toward it from the one line of force, the other line of force is applying full pressure on the waters at 90 degrees to it. This results in low tides on that side.

The Infinite Light Power

Excerpts from "The Council of Seven Lights"
by G.W. Van Tassel

Earth's Satellite, the Moon

Luna (our Moon) is perhaps one of the most studied and least understood of our heavenly bodies. From the information advanced to us, by our space friends, we are going to state facts that conform to our astronomy and also contradict it. In the following we refer to the pictures and information printed in the November, 1953, issue of the Popular Science Monthly.

The reason that the Moon rotates so slowly, in relation to other heavenly bodies, is because its only motor-power, from the "A" and "B" lines of force, is set up by forces exerted between the positive and negative strata around it.

The so-called surface Seas of the Moon are exposed areas of obsidian (insulator). The so-called craters are surface areas that cooled off last. When the Moon solidified, these areas were drawn in by contraction of the cooling interior.

The crater Tycho is the location of one of the largest underground cities of the "little people" who have been visiting Earth in spacecraft. The radial lines extending outward from Tycho and other underground cities are dumps of obsidian (glass) that they have removed from the ball-shaped holes, in which their cities are built. Their cities are built on many levels or stories.

The population of Tycho numbers several hundred thousand. The mist seen occasionally in its crater is exhaust carbon dioxide gas pumped out of the city.

The bright spot at Aristarchus is the lense which provides power, light and other utilities for this oldest underground city. This lense works on the same principle as the upper lense in the spacecraft.

The Popular Science article tells of a glassy powder that covers everything. This is the eroded dust from the Seas of solidified obsidian.

The little people who occupy the Moon, many of whom were our ancestors, are roughly 25,000 years in advance

Desca On Development

Picture in your mind the three cross lines of force. The real you lives in and on the "G" line of light. The physical body of you is part of the "A", positive and "B", negative lines of force. Your progress is determined by your ability to absorb intelligence from the wisdom gained through experience, written in your pathway in the "G" lines. This primordial infinite intelligent living Light force centers each consciousness. Each of you is on a vibratory frequency of your own, all parallel to each other. The physical substance of your body varies with the individual, according to the electric absorption of energy from the "A", positive and "B", negative lines of force. Your individual pattern in form may be slender, stout, short or tall. The composition of your individual self is determined before your birth. One who is - what you term - naturally slender, never will be stout; one who is short, never will be tall in the group. Understand, your physical health is controlled by the chemical cell-activity of the body that reacts to the positive and negative polarity of the "A", positive and "B", negative lines of force. Regardless of any theory or teaching or physical culture, you cannot know individually, what to eat or drink to bring about a greater assimilation of energy, from the "A", positive and "B", negative lines. Never has any individual, to our knowledge, acquired spiritual development through physical control. Never, to our knowledge, has any individual attained spiritual development through the extremity of food or drink, or lack of it. The "G" line of Supreme Intelligence dominates and controls each individual being, until they have attained sufficient balance to control themselves. The "A", positive and "B", negative lines of force passing through your body continuously, determine whether you shall be influenced physically in weakness or in strength, in sickness or in health, dependent upon the individual makeup as acquired before birth. The attainment of physical health can only be achieved through the intelligent living force of the Infinite. This accounts for the radiant spiritual development displayed by numerous cripples and blind people. Theirs is the knowledge within. They are demonstrating a principle. Never to our knowledge has anyone moved to the heights of wisdom and true intelligence except through experience. Most printed matter today is a curse. Incomprehensible words that mean nothing to the normal understanding. Look to the individual desire and effort and persistently search within your being, to attain the heights.

MORTALS bound in density, look to the examples I have placed around you. — Bow not your head to come to Me, only prepare that I may be recognized within your being. — Stumble not on barriers that mortal eyes fail to see. Build the perception within that may guide your path, that I may light the way so none shall stumble in progress of Eternity. — Lean not upon the cane of chance, but only cast a glance in My direction which is within. To find the way by day or night — I make the path, I light the light. — I lead you by the hand and yet you trust me not — although you profess My Being in words. — The cycle has come in the circulation of My doing. And now I lead my faithful ones to victory over self. For they shall recognize My Image is the Light of Sight, the Light of Right, instilled within each of my parts. And though I shake the ashes of My Universe — the furnaces of my heat shall ever be — the Love of Me expressed in thee.

Attala On Changes

As most of you know who have attended school, the greatest thing man is faced with today is continual change. Those who study the maps today understand that change has made them obsolete. There is one thing that everyone can experience and love in this change. I have chosen to call it the Art in Living. You have each experienced the growing within yourselves from a child. Change is part of the continual progression of the Creator, of the Father to us all. These changes you are faced with today are not all for the betterment of mankind. You can only live your life individually and share the joys of those living around you. Why has man over the centuries continued to overlook the oneness of Being? Constantly at odds with his fellowman, even to the point of mass destruction.

You are now facing the greatest change that can come about on this planet in this system. I do not come to "preach" a dirge on the coming crisis. I have been asked, as an old friend of yours, from the Council of the Twelve Lords to bring you this message. I do it, knowing you all understand.

The Father's handiwork is demonstrated daily by the rising and setting of the Sun. Constant repetition throughout nature. Birth and death of mortals. He also has timed the repetition of cycles to bring about a condition of neutral balance throughout His Creations. Needless for me to say to you, that the golden calf has forced man into another crisis, greater than ever before. Fear and hate have been bred in the hearts of those who do not stop to think about the art of living. The Father has been patiently awaiting man's decisions for this cycle. Now it becomes necessary in His pattern of equilibrium to conduct a cleansing. Those who forsee this condition, are not approaching it with fear, because they have discovered the art of living is continuous and eternal.

I do not pretend to predict which mountain will fall. I can only inform you that the conditions will be drastic. Rest assured that those who have tried to learn the art of living shall truly be rewarded in many ways. I once stood upon this planet in your density - I speak with knowledge. I only say to you, in this coming change know our Father is Ever Present; always with the being of you in development in numerous stages of birth and rebirth. He is the One in which man can dwell, He will never change.

Infinite Light Power

Excerpts from "The Council of Seven Lights"
by G.W. Van Tassel

THE SEVEN LIFE STRATA.

Man's mortal Ego leads him to believe in illusions. Every thing man sees with physical eyes is a reflection of the reality. Mortals study the sky through telescopes, little realizing that none of the objects he views are where he sees them.

The levels of substance strata, around our floor - the crust of the Earth - are separated by insulations of the One Still Light. These lenses of Ethe (insulation) are the activating intelligence of the Creator in relation to our planet. Ethe infiltrates all of the matter in the substance strata. Each alternate matter strata is of opposite polarity and rotates opposite to matter strata on each side of it.

The Earth is a battery, the strata are the plates. God separates and centers all things through the "G" lines of still light. He activates all things through the "A", positive and "B", negative lines of force. He charges the strata as balanced opposites.

The moon is occupied by those people who once were on the level of life we occupy now. They live under the surface of the moon. Their sciences are 25,000 years in advance of ours.

Their cities are located where the radial lines extend from the craters. The radial lines are dumps of excavated material from the spherical-shaped holes, in which their cities are built. Our astronomers could verify the reason for their visits to the Earth in spacecraft, if they were permitted.

Our atom bomb blasts have created unprecedented disturbances to their planet. The forces expelled outward from our Earth surface have created havoc among the other life levels also. The "little people" from our moon have recently landed one of their spacecraft here to prove to our authorities that they do exist. They want to see what we kids in the kindergarten grade are doing - creating such havoc in the higher worlds.

Our strata of atmosphere is only a thin layer of gases and moisture emitted from the crust. Our frequent charging of the atmosphere, with radioactive substances, is a slow process of self-annihilation. The temperature drop, noted after each atom bomb blast, is caused by the inrush of frigid pressures from higher strata. If 30 atom bombs were exploded in 30 days, our population would be forced underground by the extreme cold. What would an atom war do?

The reason why the space people are so concerned about our Hydrogen experiments on the Earth, is because Hydrogen, as our physicists know, is the element of our Sun. The Sun is of positive polarity. Our atmosphere and crust are of negative polarity. The fusion of a sufficient amount of positive substance in a negative medium can burn out the fuses. This only proves that all our madmen are not in asylums. These few people are not to be blamed. They are to be pitied. Every life form that has suffered in the other levels, is aware of whom they are. They are creating their own hell, as none of the other levels will accept them.

The globe of Shanchea cannot be seen by us because it is of positive polarity, like the Sun. We cannot see reflected light from it because the positive polarity from the Sun requires negative polarity to be visible. Our daylight exists only on the side of the Earth towards the positive Sun because our atmosphere is of negative polarity. This sets up a light resistance, which makes it possible for us to see the reflections of each other and all other negative material objects. The positive you cannot be seen by physical vision, because it is outside of the range of vision. All one

sees is the reflecting substance of negative flesh, which is required in a negative level.

The space people have the ability to lower their vibratory resistance to the range of our physical vision, (400 to 700 millimicrons). When their vibratory frequency exceeds the physical ocular range, it does not mean they are not there because we cannot see them.

Physical vision is the limited ability to see only with the negative polarity of body matter. Inner perception is the ability to see the things that are real, that do not require reflected light to be visible.

Our ancestors on higher levels are amazed at our stupidity. The time to change is now. Why do we continue to make mistakes today that we can see in examples of yesterday? The past is only a reflection in the mirror of today, to help us to prevent the errors from recurring tomorrow.

Destruction through wars is evidence that we have our back turned to the mirror of God. He records both the good and the bad from our own individual choice. We have only to learn, to become a creative part of the mirror, instead of being a reflective illusion from it.

Schuma On Freedom

Mortals are born in the present, bound to the debts of their ancestors. They are bound by the laws and restrictions that confine them to domination by others. Freedom is man's individual birthright. Freedom to be your individual self. Mortals today are confined within a prison of the past, living lives restricted by the present - with no apparent means in sight to release themselves in the future.

One does not chop down the whole forest with one sweep of the axe. One tree at a time is sufficient. You must remove the barricades barring your individual freedom. You must constantly persist in breaking down the bars of greed, hatred and destruction.

Mortals are not ready to advance to higher grades of life, until they can say, "Father I am free. I am not bound by tradition, dogma, ritual, or obligations. I am free to go unrestricted to carry on Thy work".

Desca On Life

There have been some very peculiar ideas running through the minds of the people of your planet for centuries. I am going to give you this instruction, knowing that some of you may not agree with me. That is your individual privilege.

Light is the source of all life everywhere. Life is. Life is even as Light is. Life does not have direction neither is it confined to density. Life is Infinite. In the lines of force, throughout boundless space, the life force is the dominant force of the Father to us all. From His light, which is within all substances in all densities, you have feeling, not touch. In all vegetation, in all mineral, in all animal, within all mortal, within all beings of astral, etheric, angelic or infinite, this dominant force of life penetrates. You could never move a finger if this force were not within you. This dominant life force is assimilated in reflection of substance in all life forms.

In the age-old controversy among physical beings, let me tell you this: You can not sustain physical form without assimilating this life force from the substances called food. This food may vary from vegetation to the gas substance known to you as air. All contain the essence of life.

Man cannot destroy life. Man only removes the reflection. The life force of all living things remains where the reflection was, ready to instill vibratory motion to new matter.

It is difficult for life in form to recognize life that is not in form. In the material comprehension many theories are advanced as to methods of perfecting the physical body. The absolute formula is this: Recognize the life instilled within you, constantly and continuously giving you the power to perform the motions that you should be performing, as instruments of the Father to us all.

You can assist us in spreading the ageless Wisdom of our Interplanetary Friends by mailing this copy of the Proceedings to someone who is interested in this New Age Science or mail it to your nearest Public Library.

THOUGH I scatter my seeds of Light through-
out my garden of space, I determine which
shall grow to be a star and which shall represent
my image.

THOUGH all my seeds are Light of Me, each
brings about a pattern individual in des-
tiny of my doing.

THOUGH in the scattering of my seeds some
may fall on barren soil, the segregation
is within the knowing which should bear
fruit.

FOR IN THE ESSENCE of My Wisdom I breathe
not the Breath of Life that all my seeds
shall grow at once. Rather do I select
them that I may express myself each moment
throughout Eternal time.

AND though my seeds are pure in Light and
Love of me, I know all shall not grow to
bring about the fruit in perfection. For unto
each seed I rendered individuality and right
to choose.

AND though the image shall always be mine,
the reflection may be changed by the expres-
sion of choice.

AND I shall harvest all the fruit in separate
baskets.

Message to the People of Earth

The following message was received from the beings who operate the space craft, on Friday, October 16, 1953. On Friday, November 6, 1953, Ashtar gave further instructions to mail the message to "your office of Government" on November 20, 1953. This message was mailed on the 20th by registered letter, to Air Force Intelligence, Wright Patterson Air Force Base, Dayton, Ohio.

Greetings in the light of love and peace, I am Ashtar, Commandant, Vela Quadra Sector, Station Schare. I bring you Zolton, Commandant from the center of the Sector System of Vela.

I am Zolton. I extend to you, people of earth planet, the greetings from the combined federation of our people in the Vela Sector System. The information I am about to give you, you shall record to be advanced to your office of government at the time we instruct you to send it.

Our craft have prepared and charted facilities for landing on your planet in numerous remote areas. We have given sufficient demonstrations of our abilities in speed and performance. We do not expect to convert non-believers at the moment. There is no need to fear of panic among your people at our approach and landings. For we shall previously condition the minds to accept us. The present destructive plans formulated for offensive and defensive war are known to us in their entirety. The surface of your planet is in our photographic records in detail. Through the control of light forces we can instantly terminate production, transportation and communication at any time, at any place upon your planet. Our methods do not require that we destroy any single thing. Our laws do not permit us to take human life. They do not however, forbid us to control minds. The present trend toward destructive war will not be interfered with by us, unless the condition warrants our interference in order to secure this solar system. This is a friendly warning.

Light Power in Space Craft

Since the publication of "The Coming of the Saucers" by Kenneth Arnold and Ray Palmer in 1952, I have been withholding certain information, awaiting approval from the space people's Council to release it. I can now reveal one thing with their sanction.

Probably the most important photograph ever taken concerning the space craft is in the above book on page 183. It was taken by Miss Bette Malles of Los Angeles, California, on March 11th, 1950. She was taking a picture of a small plane flying overhead and snapped the shutter of the camera at the precise moment that reveals the "saucer" power plant in action.

In her picture she caught the ship between the stages of visibility and invisibility. The light motor, which converts primary invisible light lines of force into controllable magnetic energy, is clearly shown in operation.

The ball of light at the left, in the picture, is created by the top lense on the space craft. This lense splits, concentrates and diffuses true light; not sunlight or electric light.

The bright oval in the center is the motor which generates magnetism and is equivalent to the core of our Earth. This motor provides flux for all operations.

The larger ring of light is magnetic flux being transmitted through the rim of the ship which creates the force field around the ship. This is correlated to the force field generated around our planet by the Earth.

The ball of light at the lower right is created by the lower lense.

These ships nullify our gravity by remaining inside their own self-generated force fields. Consequently the Earths force field does not affect them.

The three spheres or nodes shown in George Adamski's picture, in the book "Flying Saucers Have Landed" are for directional control. By charging these nodes with positive or negative flux, the space people control the speed, hovering, reversing, turning or tilting.

The picture taken by Miss Mallet, indicates the ship is nearly on edge, though the structure is invisible to the eye and to the film.

We are all riding a "saucer" called the Earth, though we have no control over it. The principles of planetary rotation, travel and power, are the same as used by space craft. The only difference between the passengers is: they have devoted their science to constructive use for progression and our world sciences are devoted mostly to creating instruments of destruction for continuous warfare.

George W. Van Tassel

Infinite Light Power

Excerpts from "The Council of Seven Lights"
by G.W. Van Tassel

The speed of light, established in our scientific theory at 186,000 miles per second, is not its speed. It is the speed of the positive "A" lines of force that extend throughout space. The speed of the "B" negative lines of force, at 90 degrees to the positive lines, is 202,000 miles per second. The speed of magnetism is the combined speeds of the positive and negative lines of force, or 388,000 miles per second. The difference between the positive and negative lines of force is 16,000 miles per second.

The space craft use this differential to cycle or phase their power. This accounts for their appearance of skipping. Their ships are caused to attract and/or repel the lines of force which are at right angles to their direction of travel.

The space craft can move through our dense lower atmosphere at many thousands of miles per hour, because they bring their own "space" with them. The force field around each ship does not allow our air to enter the field, consequently the ship does not get hot by friction. The ship, inside of its own force field, is protected by the field from debris in space, from air in density and from sound shock waves. As no sound can penetrate through the field, they travel silently through our skys, except at very slow speeds or when hovering, they transmit a humming, throbbing tone. The field increases its resistance when speed increases.

The space craft of the disc type split light of the negative and positive lines of force and through optics, lenses, prisms and "valves", convert the forces into controllable energy which operates their light motor. The light motor in turn creates the magnetic field around the ship and supplies power for all other operations aboard.

Space is infiltrated with debris. No principle of rocket propelled missiles or ships is practicable outside of our Earth's field, as rockets do not create a protective field around them. Some of the debris, from the size of grains of rice, to rocks larger than buildings, are traveling at speeds of many thousands of miles per second.

Our planet operates in a magnetic field which it generates. Meteorites do not burn out in our atmosphere because they encounter oxygen. They disintegrate in the Earth's protective field of force. If the meteorite is positively charged, it "shorts out" and disintegrates in the negatively charged strata of our upper atmosphere. If the meteorite is negatively charged it disintegrates in the positively charged strata.

Our space craft, the Earth, operates in a field vortex of the Sun. The Earth is a combination battery, generator and motor. Our atmosphere serves as a brush, a field and a bearing. Our heat comes from our dense surface atmosphere. The only reason we feel more heat on the side toward the Sun, is because the positive Sun causes a "brush effect" in our negative surface atmosphere. The crust commutator is warming from resistance and friction, while both rotating the planet as a motor, and generating the force field. The heat of "sunlight" is resistance heat created in our "brush" atmosphere.

Gravity is not attraction nor magnetism. Gravity is "resistance pressure" brought about in all objects, bodies or substances by the lines of force penetrating through them, toward the center of the Earth.

The "A" positive (male) projective lines of force are trying to reach discharge, or impregnation in the negative (female) crust.

The "B" negative (female) receptive lines of force are trying to reach fecundation or productive powers from the positive male core.

The two lines of force "A" and "B" are working together, in opposition, to supply power for the continuous functions on and in the sphere and atmosphere, while the Father centers the balanced control through the "G" lines of Light.

You can assist us in spreading the ageless Wisdom of our Interplanetary Friends by mailing this copy of the Proceedings to some one who is interested in this New Age Science or mail it to your nearest Public Library.

Schuma On "Organ Called Brain"

Have you not often wondered at the peace and contentment manifested by the birds, by the animals of nature? All of these peaceful glorious expressions throughout the centuries have been demonstrated by each of these species being content to fulfill the part for which they were created. Each living its purpose. But man is given Consciousness of Being. His is the glory of self-recognition. He is given right to choose. So his ego grows. Each desires to be more important than another like him, all one species. Man developed the organ called brain and with this recording organ designed to learn, so that it might control physical actions, man tried to cause the organ to think. So over the centuries man has expanded this organ of brain. Man has built the ego to the point where he thinks he thinks. Thought is an instinct. Thought is a natural means of perception through the consciousness. The brain does not think. So today, man is beginning to search for something within. He still has a faint recollection of that instinctive means to intelligence. And this is demonstrated all around, by the people of today who are tired of thinking with the brain. They have crawled in the slime of their fermented ego until they are sick. They have filled the brain with records of constantly changing opinions of others, until they find they have no basis of security. So man is beginning to awaken to the fact that the Intelligence of Universal Wisdom is the basis of stability. Not the ego of an expanded organ called brain.

Thou Shalt Not Kill

I am the voice of premature death. I am one kernel of grain that fed the goose who lays the golden eggs. I knew no wife, I learned no responsibility. I was only educated to follow orders. I was trained to kill my fellowman and I in turn was killed by him. I raise my voice in protest to those who say, "They shall not die in vain". For countless centuries we have died in vain. Now we are together, organized to fight no more. Striving to gather those who die each day, not knowing happiness of building a home, knowing not but to shed the blood, to gather power for those whose eternal quest is only for the might to torture the right. I am the voice of multitudes of men who have died in wars.

MORTALS, though my laws have been as doormats beneath your feet; though through centuries you have turned not to face the Light: I judge not, neither do I hold regrets, for all are given right to choose. Mortals in this density of three, having not chosen me, now stand not beneath the whip but are rather facing rebound of the actions man has created. - My laws are fixed. None can change the law of all infinity. One fulfills the law, or faces judgment by the law, written in the Light of each of my created beings. Having turned my laws about, now you are faced with your man creations in opposition to my law. So I gather up the scattered fruit, knowing that the bulk of my harvest has been lost to repetition upon repetition of errors written in the history of mortals on this portion of me. I must brush off this contamination from my cloak that I may hang it in my closet clean. Those who have failed for centuries to recognize my person within their being, are forced by their actions to repetition once again. My heart, manifested by you, is sore. But I shall recover to bring about the destiny as many times as necessary, that my pattern shall be complete for each one of my parts. So it is, again and again I cleanse my house. My love shall never fail. - Everlasting Light is man's by choice alone and the choice I gave to him.

Tae On Universal Law

In the unseen realm seven stages of Universal Law apply directly to the being of man. Of these the first is gender. The One Creator created man in true being — male and female. But man, through centuries of decline, because of his self-conscious state became separated in his gender and hence the story of Adam and the rib. Man has continued to decline until he no longer recognizes the other half of himself. Occasionally there is one who is said to have discovered "love at first sight." This being the identity of the gender of the opposite vibration and is the completion of the whole being. Man is now separated to the extent that the female half of him may be in the unseen realm cycles behind, or again ahead of him. Until the balance of man is established within himself, he cannot recognize his own true vibratory opposite and until such recognition is possible, man cannot become the oneness of himself in gender as he was at the creation. All things are created in gender opposites — oneness or separation.

The second law of the unseen is the cause of things to be. Man considers himself to be the cause of many things, forgetting that the Creator is the cause of man. Only through a vibratory opposite can the flux of current be circulated by cause and this is accomplished through

The third law — the polarity. Polarity establishes the flux of the poles, both the positive and negative, in such a manner that cause may activate and produce results, but polarity cannot produce these vibratory results without

Vibration, which is the fourth law. Vibration is the center record and the emanation of polarity current, but vibration of itself would conflict with other emanations were it not for

The fifth law — rhythm. Rhythm is the wave that oscillates in opposition, to maintain levels of vibration. And rhythm is dependent upon

The sixth law — relativity, or the relation between the other laws. Relativity separating and acting as the balance between

The seventh law — mentality. For mentality is the means by which these laws can operate in man but it is subject to discord and vibratory receptivity that man cannot discern, thereby living by erroneous inspiration.

Infinite Light Power

Excerpts from the book "The Council of Seven Lights,"
by George W. Van Tassel

Contrary to the opinions expressed by our scientists, the center of our planet consists of a sun. This sun, as the core, rotates in opposite direction to the moving crust.

Between the fiery center of the positively charged core and the negative crust is an insulating, non-conductive strata of fluid glass (obsidian) six hundred miles in thickness.

We also refute the existing theories regarding the rise and fall of mountains on the Earth. All ruptures of the crust are caused by atmospheric conditions. There are several well-defined areas on the surface of the Earth where vortices of magnetic energy rotate. In due time these vortices will bring about the rupture of the crust - termed volcanic action. The earthquake faults were brought about by interruptions of the force fields around the Earth.

The atmosphere serves as a carbon brush on our planet-generator in order to maintain its rotation. Planets without moisture in the atmosphere do not rotate. As the "A" and "B" lines of force enter the atmosphere and the crust of the planet, parallel to the equator at 90 degrees from each other and the axis, they spiral to each pole and arrive there before the planet has made one quarter of a turn. Emitting from the poles, they encounter resistance in the vibratory frequencies of the "G" lines of force, bringing about phenomena termed aurora borealis. (To be continued)

Selection From the Records Of Mer

The glistening mantle of snow knows not when to melt; the water in the river knows not the distance to the sea, nor does a cloud know when to rain - yet each fulfills its purpose by direction of the Ever Present Father. A tree springs up not knowing why, and grows to rot and mold in the dust that substance for another seed may grow. Each serves its purpose in its time, in the cycle and phase of his

ever present Being. Yet man would dress a manikin for each occasion, and man assumes to know that he is greater today than was his predecessor. While he but repeats the sins of yesteryear, reaping destruction as a taxation placed upon him by the justice - as penalty for an over-abundance of ignorance - so man continues to follow his own path, ignorant of examples that operate in perfection all around him. Finally, as he faces the door of so-called death, he discovers that he only has repeated the errors of so many who have gone before him; little knowing what lies ahead.

Desca-Nen On Magnitude

I have a lesson here for you that will give you a slight comprehension of magnitude. You have both the drawing and the description of an atom, with its proton in the center and the electrons in orbits. (See No. 2, p. 3. Ed.)

As I have explained, the solar system is in a sense a larger atom with the sun in the center and the planets in their orbits. Each sector, of which there are twelve, has its own orbit and is composed of suns, nebulae, planets, moons, etc. These sectors become again larger electrons or planets to other centering suns, and so ad infinitum. To use your obsolete expression of measurement: in light years a sector varies in size even as planets vary in sizes. The sectors in this system, Vela, vary in their diameters from six hundred thousand million light years to twenty-two hundred thousand million light years. Each electron sector of the Vela sun is of negative nature, composed of several thousand inhabited solar systems. The sector system of Vela is again an electron to a much larger sector system, the diameter of which would require me 32 minutes of your time to quote the figures of your light years. This macrocosmic atom structure increases infinitely beyond any comprehension I could give you. We have found, understanding in full what your advanced minds call the fourth dimension, that we have not yet begun to fathom the immensity of the universe.

Progression is only recorded by change and one who understands even his present environment is indeed a master.

A Timely Question

It's a strange thing that our so-called Intelligence Departments ignore all the valuable advanced information received by metaphysical means, while foreign agents are recording information received at every advanced center.

Space Craft and Space People

by George W. Van Tassel

Our experience, in developing thought transference, has made it possible to carry on an interchange of information with the people who are operating space-craft. These very highly intelligent beings are all in human form. There are no "monsters", "brains" or "ants" operating the space craft from other spheres. The people and the ships differ in many ways depending on the sector and location from where they come. Some of them are from our solar system but many are from other systems.

The space people were the first human forms of life to occupy the Earth. Their descendants built the great pyramid and compiled the records in it. Their basic information about truth is partially recorded in most of the sacred literature of to-day and is also preserved in the ancient records of other civilizations. These people from other celestial bodies are the same ones, as mentioned in the Bible - before the apple was eaten - the race of Adam.

They maintain a space station that has been orbiting around Mars for thousands of years. It is ten miles in diameter, some 1500 miles from the surface of Mars, spherical in shape and recorded by our astronomers as the inner moon of Mars.

The "little people" of Frank Scully's book, "Behind the Flying Saucers" and of the Brush Creek, California, incident, are from our Moon. Their civilization is an advanced one and they are living under the surface of the Moon. Their sciences are 25,000 years ahead of ours.

Some people from Venus have landed on our earth and moved among us without being recognized as such, because they look like us. Many of them are still here; Professor George Adamski talked with one of them recently.

Space people from other, more distant places, have also been landing on our Earth for the last hundred years. Many of them and descendants of them are our topmost scientists, architects, inventors, teachers and public and governmental officials. The proof of this is evidenced by the fact that our advancements have been greater in the last 75 years than they have been for the last 10,000 years. Most of these accepted experts do not even know their true identity as their minds

were "blanked" to the past by the birth. However, their memories will be restored when the space people begin to land here in large numbers. These space people literally have the powers of "sons of God." Jesus was born by one of them and is one of their foremost leaders. The star of Bethlehem was a space craft that "stood by" at the birth. At his resurrection he was bodily retrieved on their "transitor beam." He will return soon in one of their greatest ships. This "transitor beam" has been used to remove others of their people from our Earth. This accounts for many of the strange disappearances of people today.

The strange powers known to the space people are used rightly, and in conformity with the infinite laws of the Universal. Employing magnetic vortices they can stop all production, transportation and communication in our cities in a moment. Their laws do not sanction the slaughter of any human form; consequently they are not to be feared by earthlings.

Cuzco On Trees and Polarity

In this troubled world today mortals look on all that is not of their personal concern with fear. Many do not even trust other members of their own families. Man needs something to cling to. It was with my people when sorrow, or heartbreak, or conditions of worry troubled them, that they went into the forest and, in solitude and stillness, wrapped their arms around a tree and spoke words similar to these: "In absorbing the radiance from the sun O tree, transmit unto me the patience of thy stationary self. Standing here rooted in the earth bring me down that I may be as firm as you, and send me up that I may branch in spirit to the winds and touch the sun." And so it was. Encompassing the tree man established polarity in the flux of encircling power. Energy surged within him and his sorrow was gone. He blessed the tree and said "If you can speak unto the wind, carry to those powers on the heights my thanks, for I have found, in the simpleness of thy strength, something to lean on." Man today needs to hug a tree even as my people did; but man in the city is not blessed with trees and so he must repeat these words with wrapped arms, even as though it were there. Those who can find a place in solitude should go there and wrap their arms around the tree and talk as though it could answer and listen attentively; for it will answer even as the Ever Presence will always answer.

Many Mansions...

Excerpts from the forthcoming book
"Into This World and Out Again"
by G.W. Van Tassel

THE CONFUSION among the many people, interested in spacecraft, and those who have had experiences with them, has been apparent in nearly every conversation on the subject. You must open your mind to accept the full picture if you expect to understand its magnitude. One cannot ever know what is outside by remaining inside.

Our experiences with thought transference have led us into many and varied levels of life. Thought force is infinite. It is not limited to opinion, theory, or stratum. Philosophical teachings that cannot be applied to practical purposes are worthless on any life level. Metal in the ore is of no value until it has been through the fire, or processed for the use. Dormant money is a curse to its possessor.

Information from other levels of life is of no value in words; it must be understood and applied in practice on our level, else it too is worthless.

In the many related experiences of the people who have had contact with those who have come to our level of life, there seems to always be a discrepancy between the various stories. Actually there is no inconsistency unless the narrator enlarges upon the facts by adding to them his own opinions. One specific variation in the related stories is the question as to whether the people from other realms of life are "solid" or "ethereal".

Intelligent life in form has substance on all levels of life, whether the people be from Etheria, Venus, Clarion, the Moon or any other place or level. These life forms vary as greatly as does glass, air, concrete, wood, or steel. Each conforms to the conditions or environments of its own density. It is as possible for life in form to vary its density, as it is for ice to become water, or steam, under different conditions.

Many of the higher-frequency life forms can be ethereal in their present qualification of development, then through thought force they can command a change in their form to densities of lower frequencies. This is parallel to condensing moisture from air, then freezing it into a solid. All things in form issue forth from thought which is not in form. Thought is the causal force of Creative Mind which is universal in all frequencies of life.

The same thought force, directed by The Creative Spirit to bring man into form, caused planets, ants and trees to follow their established patterns for their individual frequency levels.

The space people vary even more, depending upon their levels of progression, in the eternal life pattern. The "little people" are as physical as the people of Earth, though of a finer physical substance because they are two life levels of frequency above the Earth level here. Their height is different only because of a diverse condition of gravity. Through normal progression you too will be one of the little people sometime in the future. As their world orbits around our world it follows in a negative polarity level of our world.

Between our level and the Moon orbit level, which are both negative, there is a positive level with another moon orbiting in the opposite direction. This moon cannot be detected by physical vision or optics. The people living in this positive polarity-level were once here on Earth. They can see each other but cannot be seen by negative physical vision.

Surrounding our negative physical level is an earth-bound negative or transition level. Normally we cannot see the people in this level because having discarded the substance, we call flesh, they have progressed through the boundary we call death and are invisible to physical vision.

If they have learned the lessons of the physical level here, they will move to the next positive level of our first moon. There is no flesh on any positive level of life.

The Church, leading the masses in ignorance, teaches them about heaven as though this life here and the one in heaven were the only two life levels. According to the space people, this is not so. Heaven, the next

higher level, must be earned by doing the Will of the Father. Jesus, whom the Church professes as the one around whom the Christian religion was built and who supposedly was the only Son of God, said "In my Father's house are many mansions". This certainly doesn't mean heaven and Earth—only two—it refers to many life levels in the whole Universe.

The fact that the people who are coming to our level—with and without spacecraft—are from many levels, is confusing to many earthlings because this old dogma taught that there are only "here" and "here-after".

Some people are accepting heaven as Venus, or Mars, or some other planet, as back in their memory they still cling to the professions of the Church that there is only "here" and some place else.

Put this limiting idea of two places out of your mind. Expand your acceptance of many places or levels of life, unto eternity, as Jesus taught. "Go into your own closet" which is your individual portion of universal mind. Then you will arrive at a true perception of life.

Realize that the space people are coming from "many mansions" or planets, life levels around Earth and other Solar Systems. Accept the Creator in His fullness.

The space people have told us that in their explorations through space, they have found people everywhere. Those from levels of life far beyond our frequency, have stated that they have found man in many places, advanced in Culture and Science almost beyond their comprehension.

When you stop to consider that the people, who have given us the data have life spans of from 300 to 1500 years, measured in our time; no disease; sciences that have progressed for hundreds of thousands of years with accurate records—it makes one realize that we have forgotten how to use the force of thought.

The dormant senses of thought can be awakened with practice. Now is the time to start. Discard the dogmas. The Church has failed in administering religion. It has separated itself from science. It preaches illogicalness by mere words that do not stand practical proof.

God is everywhere! He is the thought force of creation. Become your individual Christ by manifesting His teachings not by listening to sermons. Jesus said "Even as I do you can do and more". He didn't sanction words, he professed action by doing. Accept the Father's "many mansions" many life levels eternal life, and manifest your thought expansion by doing. Do not belittle the Creator's image of yourself. When you limit yourself by the confusion of others, you have shrunken your Universe, you have placed boundaries on His Infinite Greatness.

The government experts, of many nations, who supervise spacecraft study and research, are confused by facts which do not conform to their established opinions and theories. The authorities are trying to understand the spacecraft by bringing the outdated horse and buggy rocket propulsion experts and aircraft engineers into the research field.

The space people who understand God and the subtle forces of His creation, and use these forces for many things—besides space travel—are not limited by established brain theories. They do things that are astounding to the multitudes here because they are not limited by rules of class, authority, money or dogma.

Secrecy under the phoney word "Security" has permitted some of the authorities to take advantages, with the taxpayers money, to violate our God given Constitution under "National Emergency Laws".

The space people were smart enough to make sure, that none of the ships that fell into the hands of the Earth's governments could be operated by their personnel. We were informed of one, in Russia's possession, that was taken from the Himalaya Mountains.

The time is fast approaching when all these things will end. You, as individuals, must be prepared for a new condition, that will be brought about by our friends from space.

Many strange occurrences are about to be added to those that have already taken place. The collapse of the world money system may forestall a reason for another world war.

Questions and Answers

Query regarding a Description of Spacecraft.

Answer. The ship is not my ship. Maybe tomorrow someone else will use it. We do not refer to anything we use as ours. Everything in our Confederation belongs to the Father. We borrow it from Him. This ship is rather an old model, although equipped with much of the latest and advanced instruments. The ship is 300 of your feet in diameter and about 42 feet through the center. Referred to as a Condor type or model, the ship is equipped with nullifiers, applicators and densifiers. It is possible to increase the force-field frequency, and nullify your Earth force-field over an area 50 miles in diameter. This of course would instantly stop all ignition, electrical equipment and power. This is one of our weapons. We don't injure or kill anyone. We just flat stop them. And it is possible to apply this power once, and cause the stoppage to last for your one magnetic month.

I have my synthesescan tuned down there, and I can see all of you sitting there. I enjoy meeting all of you people who come to this place. Incidentally everyone who comes here is photographed for our record. Our photographic equipment, through the lines of force, makes it possible to take distinct sharp pictures up to a distance of 10,000 miles. We do not photograph on film. All of our photographs are made on lines of force and are recorded on vibratory records within crystals. In a crystal, one inch thick, we can photograph some 600 separate objects and reproduce them on a screen instantly and accurately. I am especially happy to observe your publication. It will meet with tremendous success.

NOOT

Query pertaining to the Nullifiers.

Answer. I shall explain our system of nullifiers to some extent, though not to such extent that any could use them upon your planet. Our nullifiers function through the force field. We can extend the force field beneath the ship, and radiate outward to such frequencies that are beyond your physical feeling; we can freeze electrons in their orbits momentarily or continuously. This brings about a nullification of electrical circuits and generators over the area and throughout the area of nullifier vortex. This principle

College of Universal Wisdom Research Laboratory

First among the small group of highly integrated structures that is planned to be erected on the campus of the College of Universal Wisdom, at Yucca Valley, will be the Research Laboratory. To be devoted solely to vital experiments and research in the fields of cosmic forces and light energy, its composition and form is being dictated by design criteria from our friends in outer space. The construction will be strictly non-metallic in nature; and, in the opinion of Mr. Howard P. Hess, architect for the college*, its quality of resistance to seismic forces and damage cannot be approached by contemporary structures of conventional design.

Our friends in the outer space inform us that the developments rapidly taking shape upon this planet make it most urgent that this structure be completed and in operation at the earliest date possible. To this end, the College earnestly solicits its many friends to contribute generously to its building fund, and to offer suggestions as to contacts that might be made with possible donors. The need is great; the benefits are many, and the time is rapidly drawing near! May peace and love abide with you!

The Editor

QUESTIONS AND ANSWERS (Continued from Page 7)

of nullifying electrons brings about a stoppage of all electrical devices. We use the nullifier, projected, to create stable conditions of an area over which we wish to hover. The ships equipped to install landing tees work very much along the same lines, except they incite an inverted vortex. They project a vortex into the surface stratum of your planet making a stable platform. This vortex will stabilize lines of force around it although they are not nullified. The nullifiers on this ship are powerful enough for stopping electronic devices from an altitude up to 50 miles. This is the extent of which I can inform you without going into the detailed information. NOOT

Number 15

 MAN, O mortal man, my Oneness I bring about in individuality that I may scatter my parts and express myself. — Though all things I have created in balanced opposites, I remain the Centering Separator. Though I have made my gender two, though my polarity is divided, I test my strength on my right and my left. Though man has chosen to further separate my expressions of love; though man has chosen to divide the roads to me; though man has brought self-interests into my expression — I still maintain the balance, centering my interchange of powers. — If one should sit on my right hand in the love of me, I shall balance that love upon my left hand in equality. I cast out barriers to face the beings of you, that I may temper all my parts. Though I have given all alike — from thought of me — many cannot reach the door that guides their destiny to paths unfurled in Light. And though they lose their way in darkness — seeking — I retrieve the whole and cast my mold again, never losing any single portion. For I am Soul of thee, O man, and Light and Darkness too. And though my Light of Right extends through all Eternity, I back the Light with Darkness, that recognition may be yours.

PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are published to carry out our purpose of Interplanetary Communication and of the Diffusion of Universal Wisdom gained through the medium of space beings.

The current issue of the PROCEEDINGS is distributed free of charge. Only a limited number of back issues (1-11) are obtainable for a minimum offering of Two Dollars (to defray expenses incurred). Donations solicited and invested to improve the publication, or incurred to the Building Fund of the College of Universal Wisdom. If sending Cash, please register the letter; we cannot assume responsibility for cash lost in the mails.

PROCEEDINGS are published semi-monthly by the College of Universal Wisdom at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: Van Tassel Ranch, Yucca Valley, California. George W. Van Tassel, Director; Darlene Van Tassel, Secretary-Treasurer; Theodore Berger, Editor. Copyright, 1954, by George Van Tassel. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed stamped envelope. As we do not employ solicitors nor representatives, kindly address all correspondence concerning subscription, donations, bequests, etc., directly to the

COLLEGE OF UNIVERSAL WISDOM
P.O. Box 419, Yucca Valley, California

Desca's Law

am asked to extend to you the love and congratulations from the Center of the Quadra Sector Blaau. You have all heard the expression Cause and Effect. You are all effects of the one Creator, manifesting His being through you. You do not become a part of His causal force until you extend His actions by doing. You individually remain an effect as long as you are a listener, a reader, a searcher for Him in the Light. When you begin to manifest the effect of action and force, then you become a part of the cause. One who sits idly by and watches is not part of his causal force. To become at-one with your Creator and ours, you must manifest results from causes that you put into motion. You must manifest action by doing.

The Creative Spirit never intended the instruments of His doing to be listeners in a congregation. Every individual of the race of man must serve eventually the cause of the Father to us all, or remain isolated as an effect of His creation. You can only be in at-one-ment with Him by demonstrating His laws in action by being the instrument of His doings unto others.

The Laws of Cause and Effect are perpetual. If you cause another to see the Light, to know the Right, the effect upon that individual will bring about the being of His causal force. You are each part of an Allness, an Oneness, and cannot survive as an effect of your individual lack of doing. As instruments of the Father, you can only build His greatness, his living presence by manifesting love unto one another, and peace and security unto yourselves. My everlasting attendance, I am Desca.

Excerpts from the forthcoming book
"Into This World and Out Again"
by G.W. Van Tassel

In the gospel of St. Matthew (1:1-17) the genealogy of Joseph is given. Further it explains (Mat. 1:16) that Joseph was the husband of Mary and by implication leads you to believe that he was the father of Jesus.

By reading carefully (Mat. 1:18-25) it is plain that Joseph became the husband of Mary "before they came together" and after "she was found with child." In Mat. 1:25 it is made clear that Joseph "knew her not." It is evident that Joseph was the same as a stepfather to Jesus. There was no blood of Joseph in Jesus.

Mary is one of the space people; one of the "male and female" that God created (Gen. 1:27) before He ended His work (Gen. 2:2), and before the crossbreeding of Adam and Eve took place.

Mary volunteered for the assignment of bringing through birth—to the Earth—a son of the Adamic race of man. Jesus also accepted the assignment knowing before his earthly birth what it entailed. Mary became pregnant and was landed on the Earth by the space people of God's pure creation.

The three wise men were also true descendants of the Adamic race. They "came from the East", having already been aware by thought transference that a true creation of God was to be brought forth.

They followed the spacecraft called "the Star of Bethlehem" (Mat. 2:9) until it hovered over the inn where Jesus was being born by Mary. A force field, generated by the spacecraft, looks like a star when seen at night.

The space people "stood by" at the birth. The ones aboard were in communication telepathically not only with Mary but also with the three wise men (Mat. 2:10).

The wise men were informed "of" God, not "by" God (Mat. 2:12) through His agents, the Adamic people aboard the craft. "In a dream" (Mat. 2:12) is as near

a description of the state of consciousness as could be expressed. Any state of meditation required for a clear reception, in thought transference is dream-like because it excludes physical conditions and things. (Try it, you may be astounded by your dormant possibilities).

Now that you can see the connection between the birth of Jesus and the spacecraft we shall go further. In Mat. 3:16 is given evidence again of the "transitor beam". This is the same beam that Jesus was retrieved bodily with at his resurrection. The same beam was used to lower Fred Reagan to the ground, when his airplane collided with a spacecraft over Georgia in 1951. This is also the beam that picked up Noah and Enoch. The transitor beam was also used to bring aboard a rocket test airplane and the pilot at Rogers Airforce Base. This was written up as fiction to cover the facts.

These spacecraft are the "signs in the skys" referred to many times in the Bible. They signify the return of the man called Jesus who will come "out of the clouds" (Acts 1:11).

After God made man He finished His work (Gen. 2:3). The Creator made man to manifest His creations. God brings about His doings through man. Man either manifests the constructive creations of God, or the destructive actions of Satan.

The space people informed me, that when one of their people gets destructive ideas they isolate that one and place him on a planet. It looks like this is the planet. The whole economy of the nations of Earth is based on manufacturing weapons of destruction. Everything on Earth is valued by its worth in money.— The beast is ruling in the form of the golden calf.

Insignias of war do not designate authority; they designate brutish force. If all this vainglorious display is so necessary, why then the commandment "thou shalt not kill".

Aren't the administrative branches of governments the representatives of the people? It is time our representatives take the brass by the horns. The people are entitled to know the facts and the truth.

The time is short. You are either an instrument of God, or a pawn of the devil. Jesus is about to land amidst you. Are you ready to be "taken up" or are you one who will "be left".

Infinite Light Power

LINES OF FORCE AND DENSITY

"The Birth of an Atom" in Vol. 1, No. 5, explained how the primary form of individual life is manifested.

Prior to the formation of individual atoms, the A+ and B- lines of light force had to contain the correct amount of substance particles.

For clarification let us revert down to a single line of each A+ and B- line of force.

These two lines of oppositely charged light cross each other at 90°, insulated by the "G" lines of Infinite Intelligence. They cannot be brought into induction where they cross unless they are mated.

In order to give birth to an atom of Hydrogen, the A+ and B- lines must conform to species. The law reads "each after its own kind." The B- must contain the same number of particles per inch as the A+ does. These particles must also vibrate at the same frequency. In this description we are referring to Hydrogen.

In order to become Hydrogen both lines of light must conform to the vibratory frequency of Hydrogen in the spectrum. The vibratory frequency of each element is different. The Hydrogen particles vibrating in the frequency of light before it becomes an atom cannot mix with the frequency of any other element.

To become an atom of Hydrogen, the lines of A+ and B- light must be vibrating at the same speed and must contain the same number of particles. This makes them like species in every respect except they are of opposite polarity. This opposition of charge brings them together and the "G" Light allows them to mate by induction because they are equal opposites.

A line of light force of either polarity cannot bring about anything of itself. The "G" lines of Infinite Light control everything. However the intelligent controlling Light determines the qualification of the elements.

The density of each element is determined by the frequency of the vibrating particles in both the A+ and B- lines of force.

Each atomic element is the result of perfect proportion, charge and vibration in equal and opposite polarities.

Thus an atom of Hydrogen is the same wherever it is found in the Universe.

Standardization is the result of a perfect cause. The perfect cause is God. Man cannot become part of the Creative Cause until he learns to put things together instead of taking them apart.

The ultimate God-power is Science and Religion united in harmony with each other. Secondary effect is the result of separated effort in opposition.

FIRST INTERPLANETARY
SPACECRAFT CONVENTION

AT GIANT ROCK INTERPLANETARY AIRPORT
17 mi. North of Yucca Valley, California

Sunday April 4th 1954

**SPEECHES AND DISCUSSIONS
PICNIC**

*Bring Your Own Food and Refreshments
Our Restaurant Will Be Closed*

You can assist us in spreading the ageless Wisdom of our Interplanetary Friends by mailing this copy of the Proceedings to some one who is interested in this New Age Science or mail it to your nearest Public Library.

Our Appeal to the Readers

he scantiness of space at our disposal is insufficient for the expression of our honest sentiment, our deep gratitude, and our secret hopes for the future. Launching the PROCEEDINGS at a time full of blood-curling prophecies of impending world disasters we were fully aware of the responsibilities we had to shoulder and of the sacrifices we had to make. However, we are amply compensated for today we number our friends by the hundreds in every walk of life. What matters if the ignoramuses call us crack-pots or bless us with similar other appellations we continue to serve joyously the Cause.

In the last week several letters from our readers have come to our attention containing well meant suggestions for improvement and enlargement of the magazine.... Yes, we are only too glad to comply with all their wishes—provided funds are made available, through cooperation. So far every issue we have mailed you has cost the publisher 18 cents, and this includes no salaries or wages. Our staff at the College has been working without a complaint and without any kind of compensation from the beginning. Nevertheless, we are determined to carry on this unprofitable—yet important—work even if we have to curtail the publication of PROCEEDINGS to a few issues yearly.

Send your donation today and enjoy the wisdom of the space people. We have many new things in store for you. Among others is the Egyptian mystery of Rejuvenation and Longevity. We deem this of supreme importance because the Adamic (Atum-ic) soul is seeking perfection by means of duration or longevity—and not by pills and potions. These mystic formulas were disclosed to us by our space friends and as soon as we have obtained results, through correct laboratory research and experiment, they will be revealed to the readers.

TO : DIRECTOR, FBI

DATE: November 16, 1954

FROM : SAC, LOS ANGELES (62-4080)

SUBJECT: GEORGE WELLINGTON VAN TASSEL
Giant Rock Airport
Yucca Valley, California
INFORMATION CONCERNING

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 9/25/80 BY SP-5 RGL/m

ATTENTION: INSPECTOR JOSEPH SIZOO

Re telephone calls from Inspector SIZOO November 12 and November 16, 1954; Los Angeles teletype to Bureau November 13, 1954.

The above-captioned individual was interviewed on November 16, 1954 by SA [redacted] and SA CHARLES G. CUSICK. b6
b7c

VAN TASSEL declared that he moved from Los Angeles to Giant Rock seven years ago and purchased a ranch near this area and subsequently leased land near Giant Rock from the Government. He stated that this newly acquired land is known as Giant Rock Airport. He pointed out that the airport was acquired under the "Airport Act" and is a certified CAA emergency landing strip.

~~EXP. PROC.~~

Relative to space men and space craft, VAN TASSEL declared that a year ago last August, while sleeping out of doors with his wife in the Giant Rock area, and at about 2:00 a.m. he was awakened by a man from space. This individual spoke English and was dressed in a grey one piece suit similar to a sweat suit in that it did not have any buttons, pockets, and noticeable seams. This person, according to VAN TASSEL, invited him to inspect a space craft or flying saucer, which had landed on Giant Rock air strip. VAN TASSEL claimed the craft was bell shaped resembling a saucer. He further described the ship as approximately 35 feet in diameter and is now known as the scout type craft. Aboard this craft was located three other male individuals wearing the same type of dress and identical in every respect with earth people.

VAN TASSEL claims that the three individuals aboard the craft were mutes in that they could not talk. He claimed they conversed through thought transfers, and also operated the flight of the craft through thought control. He stated that the spokesman for the group claimed he could talk because he was trained by his family to speak. The spokesman stated that earth men are using too much metal in their everyday work and are fowling up radio frequencies and thought transfers because of this over use of metal. According to VAN TASSEL, these individuals came from Venus and are by no means hostile nor do they intend to harm this country or inhabitants in any manner. He declared they did not carry weapons, and the space craft was not armed. He mentioned that a field of force was located around the space craft which would prohibit anything known to earth men to penetrate. VAN TASSEL claims this craft departed from the earth after 20 minutes and has not been back since.

VAN TASSEL furnished the following background which he claimed might help to understand his dealings with space men.

He mentioned that he advocates and follows a metaphysical religion or research. This religion or research is based on thought transfers. VAN TASSEL claimed that he had been contacted by men from space prior to their landing on earth in August, 1953 through thought transfers. He again pointed out that space men used this medium to communicate with one another.

He mentioned that through thought transfers with space men, he has been able to ascertain that there will be a third world war and a large destructive atom explosion as a result of this war. He stated that these "facts" can be verified through the Bible; however, he did not relate the book or passage in which these facts could be located. He was quick to point out that the war would not be universal, and that space people would not be involved. He stated that space people are peace loving and under no circumstances would enter or provoke a war.

He claims that space people have imparted to him a means of rejuvenating earth peoples' life expectancy from what it is today to 300 - 1500 years. He claimed this is done through a principle of light energy rejuvenation. This principle was not developed by VAN TASSEL.

In connection with his metaphysical religion and research, he publishes bi-monthly a publication in the form of a booklet called "PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM, YUCCA VALLEY, CALIFORNIA." He declared this publication is free and has grown from an original mailing list of 250 to 1,000 copies. VAN TASSEL stated that he sends this

LA 62-4080

publication to various individuals, Universities, and Governmental Agencies throughout the world. He declared this publication is forwarded to the Federal Bureau of Investigation at Washington, D. C.

The College of Universal Wisdom, according to VAN TASSEL, will be devoted to inter-planetary communications and a diffusion of universal wisdom gained through the medium of space beings.

He stated that he has donated 10 acres of his ranch holdings to the college. He mentioned that many of the buildings will be made free of metal, which will be keeping within the request of the space men.

He declared that for the most part he secures money for his needs of life, for the furtherance of his religion, research, and college through the generosity of certain individuals, number about 100. He failed to identify any of these people. He also mentioned that he derives income from his air strip and a very small restaurant which is located at Giant Rock.

It should be noted that Giant Rock is located approximately 18 miles north of the nearest highway which was noticed not to be frequently travelled. This road leading to Giant Rock on the 29 Palms Highway is dirt for the most part and very rough. While SA CHARLES G. CUSICK was at Giant Rock, which was on two occasions, no visitors were noted in the area.

Concerning himself, VAN TASSEL readily stated that he came to California from Cleveland, Ohio in 1929 where he worked as a mechanic for Universal Airlines, which is now known as American Airlines. After arriving in California, he claimed he worked for Douglas Aircraft, Hughes Aircraft, and Lockheed Aircraft as a mechanic. He declared he left Lockheed in about 1947 and moved to Giant Rock with his wife and [REDACTED] b6 b7c

VAN TASSEL claimed he was acquainted with SA WALTER BOTT (deceased) [REDACTED] VAN TASSEL was not aware of SA BOTT's demise. b7D

VAN TASSEL voluntarily stated that he is not hiding anything nor is he doing anything against the laws of this country in his research at Giant Rock. He voluntarily mentioned that he is a loyal American and would be available at any time to assist the Bureau.

VAN TASSEL did not volunteer the names of any individuals whom he was soliciting for funds except his statement above that he sent his publications to various individuals, universities and Government agencies and also the Federal Bureau of Investigation in Washington, D. C. nor was he asked per Inspector SIZOO's instructions.

LA 62-4080

In connection with the "PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM", Yucca Valley, California, which has been mentioned by captioned individual in his interview, the following issues of this publication are being transmitted herewith to the Bureau in order that the particular philosophy, which is advocated by the "College of Universal Wisdom," might be more clearly described. These "PROCEEDINGS" were received October 19, 1954, personally from CHET LEMKE, Box 94, Yucca Valley, California, by SA [redacted] and have been maintained in Los Angeles File 62-4080-1A. These issues are dated as follows:

b6
b7c

October 15, 1953; November 1, 1953; November 15, 1953; December 1, 1953; December 15, 1953; January 1, 1954; January 15, 1954; February 1, 1954; February 15, 1954; March 15, 1954; May 15, 1954, April 1, 1954; April 15, 1954; June 1, 1954.

It is to be noted that the November 1, 1953 issue sets forth under article captioned "Our Cosmic Communicators" on page 2, the particular religious hierarchy of the "College of Universal Wisdom." The particular philosophy of the "College of Universal Wisdom" is reflected in Volume 1 #3, November 15, 1953, issue of "PROCEEDINGS," which reflects as follows:

"Space Craft and Space People, by GEORGE M. VAN TASSEL

"Our experience, in developing thought transference, has made it possible to carry on an interchange of information with the people who are operating space craft. These very highly intelligent beings are all in human form. There are no 'monsters', 'brains', or 'ants' operating the space craft from other spheres. The people and the ships differ in many ways depending on the sector and location from where they come. Some of them are from our solar system but many are from other systems.

"The space people were the first human forms of life to occupy the Earth. Their descendants built the great pyramid and compiled the records in it. Their basic information about truth is partially recorded in most of the sacred literature

"of to-day and is also preserved in the ancient records of other civilizations. These people from other celestial bodies are the same ones, as mentioned in the Bible - before the apple was eaten - the race of Adam.

"They maintain a space station that has been orbiting around Mars for thousands of years. It is ten miles in diameter, some 1500 miles from the surface of Mars, spherical in shape and recorded by our astronomers as the inner moon of Mars.

"The 'little people' of Frank Scully's book, 'Behind the Flying Saucers' and of the Brush Creek, California, incident, are from our Moon. Their civilization is an advanced one and they are living under the surface of the Moon. Their sciences are 25,000 years ahead of ours.

"Some people from Venus have landed on our earth and moved among us without being recognized as such, because they look like us. Many of them are still here; Professor George Adamski talked with one of them recently.

"Space people from other, more distant places, have also been landing on our Earth for the last hundred years. Many of them and descendants of them are our topmost scientists, architects, inventors, teachers, and public and governmental officials. The proof of this is evidenced by the fact that our advancements have been greater in the last 75 years than they have been for the last 10,000 years. Most of these accepted experts do not even know their true identity as their minds were 'blanked' to the past by the birth. However, their memories will be restored when the space people begin to land here in large numbers. These space people literally have the powers of 'sons of God.' Jesus was born by one of them and is one of their foremost leaders. The star of Bethlehem was a space craft that 'stood by' at the birth. At his resurrection he was bodily

LA 62-4080

"retrieved on their 'transitor beam.' He will return soon in one of their greatest ships. This 'transitor beam' has been used to remove others of their people from our Earth. This accounts for many of the strange disappearances of people today.

"The strange powers known to the space people are used rightly, and in conformity with the infinite laws of the Universal. Employing magnetic vortices they can stop all production, transportation and communication in our cities in a moment. Their laws do not sanction the slaughter of any human form; consequently they are not to be feared by earthlings."

The April 15, 1954, Volume 1 #13 issue of "PROCEEDINGS", which has been photostated and transmitted herewith, contains "An Easter Message From Esu".

Other particular references to the religion of this organization is set out under article entitled "The Birth Of A Master - excerpts from the forthcoming book 'INTO THIS WORLD AND OUT AGAIN' by G. W. VAN TASSEL". These particular excerpts occur on pages 4, 5, 6, and 7 of the April 1, 1954, issue of "PROCEEDINGS", which is enclosed herewith.

A review of this literature reflects that it attempts to connect passages from the Bible with the philosophy of the organization, which is headed by VAN TASSEL.

A review of the Los Angeles files concerning VAN TASSEL reflects the following:

b7D

[REDACTED]
[REDACTED]
[REDACTED] VAN TASSEL

[REDACTED] SA WALTER M. BOTT.

100-2676-1, dated December 18, 1940. Is a miscellaneous complaint by VAN TASSEL regarding a fellow employee at the Douglas Aircraft Company.

LA 62-4080

[REDACTED]

b7D

100-14873-105, dated August, 1944. G. W. VAN TASSEL was listed as president of a UAW local in the Los Angeles area.

100-9477-49, line 50, dated December 17, 1951. Is a letter from VAN TASSEL to the Federal Bureau of Investigation, requesting information on an organization operating near his residence. VAN TASSEL was advised the files of this Bureau are confidential, and their information may not be disclosed.

Referral/Direct

105-445-39, dated July 31, 1952, re [REDACTED]

[REDACTED]

[REDACTED] is information received from [REDACTED] of unknown reliability, who advised that she and a group of friends went to Giant Rock, California, to hear GEORGE W. VAN TASSEL reveal his message from "8000 miles up". [REDACTED] stated that VAN TASSEL is a mystic who appears to be somewhat religious, and that he forbids any conversation among visitors at Giant Rock unless it deals with the message from the spirits. [REDACTED] exhibited a book entitled "I RODE A FLYING SAUCER", which was written by subject and was published by the NEW AGE PUBLISHING COMPANY, 1542 Glendale Boulevard, Los Angeles. [REDACTED] stated that several of her friends claimed a flying saucer visited Giant Rock on the day before Labor Day, 1953, and that VAN TASSEL has an interest in "College of Universal Wisdom, Joshua Tree, California".

b6
b7C

100-16833-498, dated March 13, 1953, contains information from CHESTER LEMKE, Santa Fe Trail, Yucca Valley, California, an American Legion contact. It is

LA 62-4080

to be noted that LEMKE furnished the documents which are being transmitted herewith. LEMKE displayed the book "I RODE A FLYING SAUCER" and stated that VAN TASSEL claims to be receiving messages from various flying saucers through body vibrations.

[redacted] is a complaint received from [redacted]

[redacted] of unknown reliability. [redacted] advised that the College of Universal Wisdom located at Giant Rock Airport is a meeting place of persons who are interested in the study of flying saucers, and that she believes from its literature that it might be advancing Communist philosophy.

100-0-60313, dated July 2, 1951, is a letter written by VAN TASSEL to the Los Angeles Office. This letter reflects as follows:

"June 26, 1951
"Giant Rock Airport
"P.O. Box 45
"Joshua Tree, Calif.

"During the last war, a party up here in the desert, made charges, of one deceased Frank Critzer, being a German spy.

"I'm operating this airport under lease from the Government. My wife and three daughters and myself are now being accused of being Communist spys by this same party. This man and his wife with their spy complex have caused me no end of trouble as, I of course, am the last one of the public, to hear of this trumped up charge. I would be obliged if your office would investigate may record, my family, or anything else and send me a letter stating your findings.

"I belong to the San Bernardino County Sheriffs reserve. I am licensed under the Civil Aeronautics, License #380123, I have worked for Douglas, Hughes, and Lockheed Aircraft.

LA 62-4080

"I bought the property on the maps known as 'Reche's Wells' from Charles Reche.

"The people who are making these phoney charges to the public expected to inherit this property.

"They are Walter and Kathryn Reche.

"I refer you to Jack Cones, Constable at 29 Palms, Charlie Reche at 270 W. Wilson Ave., in Banning, and Ed Hardesty of Yucca Valley, Calif.

"I am in business and this propoganda is responsible for a lot of people not patronizing us. If it isn't stopped it will cause your office an untold amount of work.

"/s/ George W. Van Tassel"

With regard to Frank Critzer, above-mentioned, this individual was mentioned in Bureau letter to Los Angeles dated June 5, 1946, case entitled "FRANK CRITZER, wa., Frank Kritzer; IS - G", Bufile 100-37156. This letter sets forth that the Bureau does not have available facts supporting the allegations of espionage and subversive activities on the part of CRITZER.

Information concerning GEORGE WELLINGTON VAN TASSEL was forwarded to the Bureau on June 4, 1941, in case entitled [REDACTED]

[REDACTED]

b7D

LA 62-4080

Deputy Sheriff ROBERT WOOD, Resident Deputy, 29 Palms, California, which covers the area of Giant Rock where VAN TASSEL resides, advised SAS CHARLES G. CUSICK and [REDACTED], on November 16, 1954, that VAN TASSEL actually does operate in the name of religion, and that he has attended a meeting or so at which 15 or 20 people were present when VAN TASSEL would read from Bible, preach a sermon, and then go into a trance or seance, and VAN TASSEL advised he was getting messages from space men. He formerly called his religion Brotherhood of Cosmic Christ, according to Deputy WOOD, and then some time later started the College of Universal Wisdom. Deputy WOOD further advised that VAN TASSEL actually operates as a prophet in the vicinity, carries a Bible with him, and does actually hold meetings in the name of religion. Therefore, Deputy WOOD stated that he could not state that VAN TASSEL was a con man because he was actually operating in the name of religion.

b6
b7c

According to Deputy WOOD, VAN TASSEL openly solicits money in California and throughout the United States from unknown persons and actually tries to convert people to become part of his flock and to give him financial support for this religion.

Deputy WOOD stated that he has watched the maneuvers of VAN TASSEL for some time and so far the San Bernardino County Sheriff's Office have ascertained VAN TASSEL has never violated any California Statutes due to the fact that he actually does, as heretofore stated, operate in the name of religion; namely, Metaphysics, Cosmic Brotherhood of Christ, etc. Deputy WOOD further advised that VAN TASSEL was apparently in his estimation a self-ordained minister in the religion he is promoting at the present time.

Deputy WOOD advised that the general consensus of opinion, and this includes himself, in the area where subject resides is that VAN TASSEL is eccentric and is apparently a mental case.

JAMES HOLLOWAY, Under Sheriff, San Bernardino County Sheriff's Office, advised above Agents that to his knowledge VAN TASSEL is eccentric, has a limited following,

LA 62-4080

and claims to contact men from out of space through trances or seances. However, HOLLOWAY stated that Deputy Sheriff WOOD at 29 Palms has a better knowledge of this than he. HOLLOWAY stated to his knowledge VAN TASSEL has never violated any laws of the State of California.

According to HOLLOWAY, VAN TASSEL has openly solicited money from anyone he could talk to or write to for his metaphysical religion.

Unless advised to the contrary by the Bureau, no further action is being taken by the Los Angeles Office.

The following is a description of ~~VAN TASSEL~~ as obtained through observation:

Race:	White
Age:	40-45
Height:	5' 9"
Weight:	170
Eyes:	Blue
Hair:	Blond, balding
Build:	Medium
Complexion:	Ruddy
Characteristics:	Dirty and unkempt; discolored teeth
Occupation:	Owner and operator Giant Rock Airport and Giant Rock Restaurant
Wife:	EVA MEEK VAN TASSEL
Daughter:	[REDACTED]
Address:	Post Office Box 419, Yucca Valley, California.

b6
b7c

George W. Van Tassel - Yucca Valley
Prof. Linne - (Finland)
Daniel W. Fry (Electronics & Rockets)

(1) OCEANOGRAPHIC SOUNDINGS OF U.S. NAVY: reported rate of rise of following areas:- Pacific Floor rising in Central Pacific Area. Atlantic Floor rising between Dakar, West Africa and Brazil. To substantiate theory of Continental Movement, Space People's redictions of rising again of the ancient continents of Atlantis and Lemuria.

(2) Any adverse attitude towards George W. Van Tassel of Giant Rock, Calif., relative to information contained in his "PROCEEDINGS" which have been mailed regularly to the Air Force Intelligence. Record of Bussing of Washington by Flying Saucers on July 26, 27 & 28th, 1952.

(3) SPACE PREDICTIONS:- Is there evidence of plans by the Military to explode an A-Bomb of any kind under water in the Pacific, during the month of September. Space folk say it is so and will result in serious Tidal Waves on all bordering Coasts, and several serious Earth Quakes.

(4) TEMPERATURE DROPS AFTER A-BOMB BLAST: Space People say very serious drops of Temperature follow these, that 30 A-Bombs sufficient to cause serious Temp. reductions and dangerous harm.

(5) DANGERS FROM STOCK PILES: Van Tassel has written the Air Force Intelligence warning them of the danger of accumulating too many A-Bombs in storage in one place, serious danger of spontaneous detonation. Important advice from Space People.

(6) FLYING SAUCERS IN AIR FORCE POSSESSION: Van Tassel has information that the Air Force has several Flying Saucers in their possession to inspect and study. Is this so?

(7) NEW TYPE OF RADIATION NULLIFYER: Small baloon-like transparent bybbly sort of thing, being released by the Saucers to nullify the dangerous radiation from our A & H-Bombs.

(8) COSMIC RAY BOMBARDMENT: See of any record of increase of this action, because we are in this new Fourth Density. This has caused a reduction in the Nitrogen Fixation Bacteria Countx in various parts of the world.

(9) FREE ENERGY MACHINE: Has the Air Force been able to get their Free Energy Machine to work yet. And have they figured out a way to charge for Free Energy.

PREDICTIONS OF SPACE PEOPLE

(1) WORLD WAR 3 WILL OCCUR: exact time not certain, a human factor, but A-Bombs will be used. The number used will have a critical affect in the derangement of the earth's rotational stability.

(2) CHANGE OF MAGNETIC DECLINATION: during the last 20 years. A-Bombs have increased the instability of the Planet, and further shifted the Axis of Rotation beyond its normal progression.

(3) CHANGE SHOWN IN UNUSUAL MELTING OF THE POLAR ICE-CAPS:

(4) CATACLISMIC CHANGES: End of the Pyramid Prophecies. Space People say there will be Earth Quakes, Fires, wind storms, tidal waves, caused by the earth trying to seek a new stable Axis of rotation. Shifting of Land Masses, sinking of part of the USA., Atlantic Seaboard, Florida, Gulf States, and Mississippi Valley, and area around the Great Lakes, sinking of lower part of California towards the sea and sliding southward. Rising of old Lemurian Continent in the Pacific. Sinking of Japan. Melting of the North Pole Ice Cap, and part of the South Pole Ice Cap. Sinking of good deal of Mediterranean Area, so Mediterranean Sea will occupy 3 times the present size. Earth's Orbit changing from Elyptical to a true circle. This will result in a lack of changing seasons. The new North Pole to be somewhere South of Japan now.

GIANT ROCK area is now 34 Deg. North Lat. and will end up at 30 Deg. North Lat. in the new Rotation Pattern. This will result in very little strain in that area. A new Pyramid will be constructed near the Giant Rock Area. (A Pyramid is a device for the concentration and Utilization of Light Energy.)

REASONS FOR MOTHER GOING TO CALIFORNIA: High Altitude 3000 Ft. Desert Environs. Giant Rock is only 40 miles from PALM SPRINGS and 29 PALMS area, world famous health resorts. Wonderful Clear Dry Ari.

(2) Get her away from N.Y.C. Quake and Tidal Wave dangers, and A-Bomb attacks in the event of War, which will be a surprise attack.

(3) To revive her interest in my work, in which she could take a very active part, with her excellent Scientific Mind.

(4) **ECONOMY:** The absurdly low cost of Desert Life in the Rough, No Doctors, No Drug Stores and Charge Accounts handy, needed physical activity working in the garden, hosing lawns, and research work for me.

(5) **SMALL MOVING COSTS:** Mother has few possessions to move, just hop a plane with a few trunks coming by freight.

REASONS FOR GOING TO GIANT ROCK

(1) **RESEARCH ON LIGHT** with 2 ends in mind. Light used in healing and Light used for Free Energy. The Data in the PROCEEDINGS is constantly being received two or three times a week with Van's contacts with the Space People. A type of information vital to all humanity.

(2) This Light Research is very similar to Grandfather's and Uncle's research work.

(3) SPIRITUAL ASPECT, and their concept of God completely satisfies me, in that they teach Science and Religion to be one and the same.

(4) MY STRATEGIC POSITION THERE: Van has taken a decided and companion-like interest in me, wanting me to work in closest contact with him at all times, assisting in the development of the entire Educational Center, and building and experimenting in the equipment designed and planned for the college by the Space People and Van.

(5) This college is the last Center on earth having a direct and free contact with the Space People. The only other two both now disbanded, were in Tibet and England.

(6) Information coming thru now is of a nature to aid Humanity in our future life and adjustments in the New Age. The Fundamental knowledge of UNIVERSAL WISDOM, the Wisdom of the Infinite Universe.

METHOD OF LEAVING PRESENT HOSPITAL JOB AT CORNELL:

Take a temporary Leave of Absence to investigate this new field and keep them advised of my progress. I hope to make a few startling discoveries in Light Healing before I leave, from some of the amazing data I now have in these 18 copies of Van's PROCEEDINGS, which would tempter their possible feelings that I was making an unwise move.

FINANCES: (The God of War)

I plan to live at Giant Rock, in the Desert Area planned for this COLLEGE OF UNIVERSAL WISDOM. They have about 40 acres of land there, rich chemically and needing only water to raise any and all forms of vegetables and fruits. They have a new big well just drilled which blasts up water at the rate of 1000 gallons per minute, via an air jet modern pump. Sufficient water to supply the whole college community endlessly. Water supply comes from a big vein way down thru from Mt. Shasta, nearly 500 miles to the north. Rich soil needs only water to grown anything. No fertilizers. Electric Light lines are coming thru definitely the coming November. I must have living quarters. One of two alternatives. Either to build a small desert home for about \$4,000 with about \$2,000 to furnish it, or preferably to buy a small Mobile House Trailer for about \$5,000. completely equipped and perfectly O.K. for a home indefinitely.

Van and the Space Folk stress the vital need of being prepared to store Food and plan a life there in emergency which would go on entirely independent of Modern power and public Utilities which may be destroyed via War or Catastrophy. They say equip with all reasonable tools and equipment and fundamental raw materials, metals parts of Pumps etc. Hand pumping equipment, Wind Mills, etc. Plan a life like that of our ancestors in early Colonial days.

Most of this construction of Cold Cellars, etc to be done with our own labor (Hobby work) during the progress of the College work with a minimum of cost for technical work.

NOVEMBER 1-1953.

Number 2

Am the Voice

Man, O man, you have made laws to avoid using My Laws.

Confusion, chaos and war are the results of man's ideas, opinions & assumptions.

Light alone is the essence of Truth;

Truth alone is the essence of Wisdom;

Wisdom is the essence of Knowledge;

Knowledge is the essence of Life.

Only through Knowledge can man express Wisdom in Action.

I have given man Life that he might demonstrate My Knowledge through Action and Wisdom.

I extend the concentration of my Light to those who are demonstrating My Laws.

I speak through you — do not distort My Words!

Infinite Light Power

Let us proceed to simplify the complex. This lesson will meet with much controversy throughout your scientific world. Assume to picture an onion cut in two. An atom is like an onion. The outside layer or shell being the negative field of orbit for the outermost electron. The next layer and each alternate layer toward the center being composed of the Intelligence, the insulating layer of infinite Light force called in your diagram, the "G" line of Light. When you crack an atom, the force disturbing or puncturing the outer shell, the containing negative orbit field, creates unbalance and neutralizes the outer shell. This causes the outermost

electron to be attracted to the positive proton in the center of this atom onion. However, before the electron reaches the proton the instantaneous inrush of "G" Light force, through the fractured outer shell, creates implosive pressures within the atom. This being the active force that brings about the explosion when the electron and proton discharge within the ruptured shell, which is the reactive force. The "G" Light, insulating layers within the shell, condenses at the implosion into what your science has named a neutrino. This potent causation force immediately deserts its wrecked ship (the atom), and takes off to return to the thirteenth density. This is what religion would term a "resurrection," when the potent causal infinite light force deserts its shell body. This should simplify the process of atomic explosion to the most elemental scholar.

(To be continued)

Excerpt from book "Council of Seven Lights"
by G. W. Van Tassel

Schuma On Evolution

I have no doubt that you have wondered where you were before you came through birth upon this planet. Multitudinous theories have been advanced by many of your people.

I tell you, "You have always been and always shall be."

Man did not evolve from the lower animals. The reason man has stooped to believe the theory that man evolved from monkeys; is because he is being controlled by his five animal senses.

Any one who lives by the light of the Living Spirit within, would never concede to such a belief for a moment.

Man was created as man in space, in perfect physical image and countenance.

Man advances through cycles and phases and levels throughout eternal time. He is given the controlling right to determine his progression by the Creator.

Every individual being has a destiny. Eternity extends forever, backwards and forward from the time you hear this word, or from present to past or future.

Man in the decline, in physical manifestation, from the light controlled perfection of his original creation, has nearly reached a state where the two higher senses have become dormant.

Man's inner growth depends upon his ability to use the higher senses. These are the sense of thought and the sense of be-ing, the eternal consciousness of individuality.

Man acting solely on his five lower senses, can only record events as they happen and file them as history after they have occurred.

With the development of the master sense of be-ing, man can record conditions before they happen and thereby avoid events that would tend to retard his evolvment.

Each one has a destiny. Yours is the birth right to determine your own progression.

Desca On "Arch of the Firmament"

There are many things going on unknown and unseen by you. One of these conditions is the condensation of a ring around this planet at your equator line. This ring has always been here unknown to your men of science; similar to the visible rings of your planet Surma, called Saturn. In our terms, this is known as the "Arch of the Firmament". It is referred to throughout our sector system as the divisions of Equa.

THE EARTH

As this ring will soon be discovered by your science, they will then comprehend more about Light energy. This ring maintains balanced interchange of power through the crust and atmosphere of this planet, and all planets that revolve. It is the prime cause of vortices turning clockwise in the northern hemisphere and anti-clockwise in the southern hemisphere. You will discover vines climb in spirals in the same direction of rotation, opposite to each other in opposite hemispheres.

The condensation of the ring, though requiring many years to become visible to the unaided eye, will bring about stabilization of this planet and cause the end of your seasons. Scientists will register this as a natural occurrence but let me inform you, that many thousands of beings trained in the control of vortice condensation are working diligently on a long hard assignment to bring this condition about. A thousand years from now one may look at the earth from other planets and see rings similar to those surrounding Saturn.

Rondolla Contradicts Theories

Desca has brought you numerous explanations and I am going to add one in here that he may enlarge upon for you later. Your scientists have advanced several theories in regard to the formation of this Solar System. Let me contradict them all. The infinite light line of Supreme Intelligence, brought about the birth of the sun in the cross lines of "A" and "B" light energy. Where these "A" and "B" lines crossed, they carried in heavy concentration, the elements of hydrogen with all its isotopes. By separating and centering the fusion in transmutation, the atoms in the center of these crossing bands brought about the secondary power of light in motion through the fusion and transmutation of hydrogen. This did not come about accidentally. The diameter of the sun was predetermined by the width of the bands of substance. Your astronomy refers to burning gases in the photosphere of your sun. These are not burning gases. They are positive light charges being expelled to maintain an electrical balance throughout the vortex of this solar system. Contrary to your scientists, in their theories, the planets were not thrown off or born by the sun. They were each created in their individual orbits in this positive master vortex, by the condensation and compression of the substances in the "A" and "B" band widths of their diameters. Neither were any of the satellites or moons thrown off from any planet; they too were created in their diameter by the band widths of the "A" and "B" lines of force. The infinite "G" line of light energy centers through the sun and through the master vortex in a spiral. Were it not for the positive light forces, expelled from the sun, there would be no separation layers in the master vortex. The precision of this system would not be maintained. Moons are balances for planets. Planets are balances for suns. Suns are creations or main-springs of solar systems; and the Father winds the clock through the "G" line of light force.

Do not conceal the evil of your thoughts behind words that are false, for they are only traps in the future, that you build for yourself.

Tae

Questions and Answers

Query regarding the Golden Density Voice. (W.W.)

The voice you have termed as from the Golden Density is not only in the Golden Density, which is the real terminology of the Quadra Sector Blaau. The voice you are referring to comes from the thirteenth density which is the voice carried on infinite light lines of force through each atom and through each solar sun, through each sector sun, and through each sector system sun. This voice does appear to come from the Golden Density for the reason that it only can be received through a central positive sun of microcosmic or macrocosmic centers.

Desca

Query pertaining to the building of the pyramid at Gizeh. (E.E.)

The pyramid was not built by dragging blocks up an incline. It was constructed by the Masters of Atlantis for the coming generations of man to use, through powers and wisdom attained to at the height of their civilization. They used the Forces of Light to cut the blocks and to reduce the specific gravity of their mass. And they used ships, similar to your so-called "saucers", to lift the finished blocks from the quarry and deposit them in layers in the exact pattern of the directional "A", "B" and "G" cross lines of force. This accounts for the exactness in measurement over these large dimensions.

Desca

Query: What percentage of people on this planet (Earth) accept you, the space people? (E.V.T.)

Answer: Our records, at this moment, show that one and two tenth percent of your people accept us in the mind, though only two-thirds of one percent of your population accepts us in words.

Noot

Thought and action in unity will overcome all obstacles. Your power and purpose is in the united strength of many, not in the ideas of a few.

Morko.

Numa On Orbital Record Rings

You have the explanation of the rings extending through the Earth's vortice around your equator. I am bringing this information to you for your record. In the line of your orbit, the negative pattern in this ring is the record of the doings and conditions of your planet. As Shan, the Earth, moves each day in its orbit, the records of all conditions affecting the planet for that day are recorded in the ring. Not many years hence it will be possible through your electronic devices to reach the vibratory frequencies necessary to visualize these past events in the spiral record, clear back to the beginning of your planet.

Announcements.

PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are published on the first and the sixteenth day of each month.

PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are published to carry out our purpose of Interplanetary Communication and of the Diffusion of Universal Wisdom gained through the medium of other space beings.

The PROCEEDINGS are distributed free of charge; however your donations will be invested to improve the publication, or will be imbursed to the Building Fund of the College of Universal Wisdom.

The Faceless

Cosmic Clock

MORTALS BOUND IN DENSITY. Who would be the cause, who would bide my time. The tree of thee in me stops not its growth. Though my parts would add to my divisions, my faceless cosmic clock records no time. ~ For man is not a cause but rather a result of me. For I alone am cause of things to be. And though thou mortal man would wind my clock of destiny, and set the powder keg of destruction at my feet... How can he know the woe? For I alone am cause and man is the result of me, bound to destiny. And in destruction bent reverses course and all the Light spent in his being is hidden by the curtain of ignorance drawn before me. Though I alone am cause, my wrath is not aroused. I tear the shroud, I bring man back through birth within the Light and test my right expressed in progression of my parts. - I write the drama, man plays the fool, then I applaud and make the tool sharper to my cause through experienced results. Man cannot set my clock for I alone can read the time of my Eternity. And so it is: I set the stage; I play the parts; I cause the curtain to come down while man sits in the audience of

*My Universe - applauding
not knowing why.*

Desca On Expanding the Mind

I introduce myself to you grateful that my voluntary assignment is honored by the radiance here from you people. My identity is Desca. There are many things to bring you. In order to establish some sequence to this information, we shall begin with first things first.

You people of this planet have been imprisoned within the limits of mass mind. Before I can instruct you throughout the future, on most subjects, we must first remove the binding chains of limit on your minds.

Yours is the choice individually. You must throw out the barriers of fear. You must discard the boundary of hatred. You must dissipate the selfishness of individual desire to attain physical and material things. You must toss out the dogma and myths of the past.... Now that you have broadened your mind to the infinite ends of the Ultraverse, you start at the center of yourselves individually. Register There; The Creator could not have begun the first of His creations had His inner being of boundless Self been limited in any way. You individually are granted the right to express His power. Do not say, "May I, Father?" Say rather, "I am the instrument of Thy doings, extend the love of Thy will through me."

Do not look upon the confines of your physical body as limitations He has placed upon His doings. From within say, "I am the Light and the Power. I am expressing His Will." Emanate the radiance of His being within you to unlimited distance from your body. Truly, stand in the Light. Make this love force felt by those whom you meet in daily life. Never express the limit of doubt. If one asks you a question, do not keep the mind anchored to self by answering "I do not know." Say rather, "I shall find out for you." Tear and rend these barriers from your mind that you are confined to earthly education, to material science and to religious belief. Expand your mind to include not only planets, not only constellations but the One mind of the Universe, unlimited, open and forever. If you perform the act, of removing the barriers confining individual mind, then I shall reach you that you may understand His Infinite Wisdom which you are capable of. Do not present to others arguments based on books, unless the source be from the Light, of receptivity expressing truth, instead of theory. You are only confounding yourself and another. You are part of Universal mind. Bloom in your fullness.

Infinite Light Power

For an objective point of view, assume that the "G" line of force is vertical to the plane of the paper. We identify this force by calling it "G".

Assume that the "A" line is on the paper running crosswise at 90 degrees to the vertical "G" line. This "A" line of force is composed of positive charged particles. We shall call this line "A".

Assume that the "B" line is running from the top to the bottom of the paper, at 90 degrees to the "A" line and 90 degrees to the "G" line. This "B" line of force is composed of negative charged particles, which we shall call "B".

Where these lines of force cross there is an atom, a micro solar system, created by these unseen forces in perfection. This atom element is determined by the substances present in the charged "A" particles and "B" particles. This evolves a nucleus of positive charged particles we shall call a proton, surrounded by a field of negative orbit set up by the "B" particles in motion. The concentrated group of "B" particles in this orbit we shall call an electron.

The line of pure light energy "G" has no motion as to direction. It does have an extremely high rate of vibration. It is invisible to the physical eye. It extends infinitely through-out all space, through all substances and materials. It exists in what we term both light and darkness. These lines of force are parallel. It is the force that parallels poles in planets and the portion of light force that we call polarized magnetism. This polarity cannot be established in "G" light without motion of flux set up by "A" and "B" particles.

Atoms compose all things. "G" light energy composes all atoms. "G" light is the creative force of the creative intelligence. Until science accepts the causation force of creative light intelligence, there will continue to be constant change in their theories, due to the retrograde procedure of taking things apart instead of putting them together.

Our earth is an electron of our sun, traveling in it's orbit of negative field. Rotated by the band-width of "A" and "B" light forces, equal to the earth's diameter. It brings about the lines of force yielding what we call rotation, magnetism, polarity, gravity, electricity etc.

(To be continued)

Excerpts from the book "The Council of Seven Lights".

By George W. Van Tassel.

Tae On Authority

Man was given control and dominion over every other thing. He was not given control over other men. In todays confusion many are trying through multitudes of methods to control others. Nearly everyone is interested in controlling something. This power of control gives a feeling of authority. Authority rests only with the Creator. For all men are created equal. Mans primary step, in straightening out the confusion and ignorance and intolerance, must begin by establishing control over his individual self. Each is responsible to his Creator individually. When one establishes control, in any form that effects the actions of others, that individual has superseded his birthright. That individual has assumed bondage for those who are effected by his control. For every wrong action taken by others as a result of being controlled, the responsibility for the reaction rests upon the one who controls. Learn each of you to control yourself. To live by the Father's law. To extend no authority over others, only companionship and love. Your birthright can be a curse. Each has the right to choose, for he who learns control of his individual self has mastered the purpose of his birth in this cycle.

Tae.

Rondolla On Impending Changes

I would like to straighten one thing out that has been badly misinterpreted. In the beginning God made all things. All things in completion. All who ever shall be are. Our Infinite Father created all things in perfection. He gave unto man the imagination to reflect His Creations. The ability to recreate. In His Infinite Wisdom, man was created equal throughout the Universe. This very short cycle through which you are passing is one of the grades of your progression unto eternity. You were not born here, you were graduated to here, or sent back to perform a task that was within your range of capability. Our brother Esu, called Jesus, was returned to this density to teach the people of this cycle the way to live. And he said, "I am the resurrection" and he returned to his home and to the Father who is Ever Present in all space and place. In the progress of systems, this solar system of Salon is about to enter the 4th density, and in contradiction to the words of man, the return of Christ is the return to Christ. That is why he said, "I go to prepare a place for you." Man was created throughout millions of systems as the expression of our Infinite Father. Man's place is in space, even as fish live in the ocean. Those of you descendents of the space people originally marooned on this planet, have now reached a state where due to lack of control, you have lost control. The date on your calendar is fast approaching. The most decisive date in history recorded by man on this planet; when man shall prove to the Supreme Intelligence that he has either regained control, or lost all possibility of regaining control. By the decision the people of this planet make, shall be determined what action the people of space will take. If the decision is of a destructive nature, your space brothers and sisters, your ancestors shall interfere in the Father's name. Their interference shall be rightly and the just shall receive justice. And those who have brought about opposition to His laws, shall also be dealt with justly. As this system approaches our density, we are making preparations in what is the emptiness of space to you, to bring about security, stability and peace to those who are qualified to enter the Golden density.

Rondolla.

You have possibly wondered why you were born in this country and why others may have been born in some other country. These births are not accidents. The Father to us all determines who shall be born where and for what purpose. For man is not Created without a definite purpose. Each individual of Eternal life has a purpose in this grade. Those of you beings born within the confines of this nation have a united purpose to accomplish thru many ways. For as the Continent of Europe was the great Continent of the last cycle, and as the continent of Asia was the continent of greatness in the cycle before and on back through your history, each has had a certain time for a certain purpose. And now in the new cycle, the continent of North America is to be the continent of leadership. Tho many of you may feel that the part you are playing is small, the individual contribution is essential to the continuity of the purpose. For from this continent and this nation have come advanced sciences, new to these generations tho understood by the ancients. Man upon this continent has been given the privilege and assignment of upholding the freedom of man, the birthright of equality and the control over all material things in order to uphold the name of His Infinite Being. As the forces of destruction gather the powers at their command, with the desire and intent to establish mankind in slavery upon this planet, so has the Father assigned to this Continent and your Nation, the predominant part of upholding the freedom of man. And so it shall be, through the bitterness and the struggle and the destruction, that the Father of us all shall reign supreme through love and His Eternal Wisdom.

Schuma.

There are many reasons for reproducing the contents of these findings. First among them is, to present to science - the religion of science; and to religion - the science of religion.

Every effort is being made to introduce these revelations in proper sequence, in the order of their disclosure.

These Proceedings are presented to humanity, to allow man today to discard the changed history of the past and accept the changing science of the present, that all may understand the coming changes of the future.

G.W. Van Tassel.

Thou Infinite Creator of All. Whence came I from, to arrive here? For what purpose? In what part of Thy endless plan am I now? I look upon the magnitude of Thy creations. I see halos of sunset and flowers, yet I cannot even color one petal of a rose. To what end am I traveling this path? Am I an extension of Thee? I comprehend not what I should do. I study Thy vast expanse and realize that I know not even that portion of Thee which is in myself. Who am I to study stars? Where is there one so low that I cannot look up to him? For all this puzzle comes to my awareness that I don't even know where I am going and yet I would pretend to advise others. To what extent can I command myself to do Thy service? Am I inexhaustable? Give me the word. Give me The Word, that I may do, that I may say, that I may command the result for which thou hast created me, Infinite One.

Mer.

I gather here from eons past those records written in the flame of eternal truth and from the future yet to come. I gather events today, not to place them on the altar to be sacrificed to needless thought, neither to be scattered in the winds that they may bring to birth another time. Only has the future and the past been gathered for today, that you may be aware that yesterday is tomorrow to many, while yet tomorrow is yesterday to some. For time is effaced by eternity, only to be trampled in the dust of material things, and those who gather stars within the image of themselves, have gathered more than intellects throughout recorded time, for thought is not intelligence. It is bounded on all sides by opinions expressed by others; too, it will fail you when you need it most. For thought is but the means to contact that infallible Ever Presence, the vibration true to all and each, nor rank nor social standing shall it favor. For when man thinks within his day, he sleeps within his night and from his present he gathers words, expressions and actions yet to come. Be not betrayed, for thought alone is only a tiny line of light, connecting true receptivity with inner conscious being. Many events from the past can scar this line and lead you off the path. Remember only light can be eternally the source of all that is.

Mer.

PROCEEDINGS OF THE COLLEGE OF UNIVERSAL WISDOM are published to carry out our purpose of Interplanetary Communication and of the Diffusion of Universal Wisdom gained through the medium of space beings.

The PROCEEDINGS are distributed free of charge; however your donations will be invested to improve the publication, or will be imbursed to the Building Fund of the College of Universal Wisdom.

PROCEEDINGS are published semi-monthly by the College of Universal Wisdom at Yucca Valley, California. Printed in U.S.A. Business and Editorial offices: Van Tassel Ranch, Yucca Valley, California. George W. Van Tassel, Director; Darlene Van Tassel, Secretary-Treasurer; Theodore Berger, Editor. Copyright, 1953, by George Van Tassel. All rights, including translation, reserved. Manuscripts and photographs from our members or friends must be accompanied by a self-addressed stamped envelope. As we do not employ solicitors nor representatives, kindly address all correspondence concerning subscription, donations, bequests, etc., directly to the

COLLEGE OF UNIVERSAL WISDOM

Excerpts from the Golden Density

O man, in living my life, in breathing my breathe, establish within yourself the solidarity, the contentment, the bliss of living rightly; that I may know, that I may feel the glorious pulsation of the being of you. In speaking my words, let them ring clear, let them be dear and near to you that others may understand. Realize, I am not the expression of self; I am only the boundless un-selfish utterances of the heart and the soul that sees me in others. None can bring about the workings of my laws, unless first they have established their right within my light.

O mortal being of me, reach not for golden prizes of desire, for they shall reflect the Light. Look not into the mirrors of space, for eyes that see are blind to me. And though the prize be golden, my Light does not reflect. Express the being of me in life, extend me in the action that I may feel the thrill of doing for another whose need is great. That I may know success in manifesting you to bring about the me in others. That their eyes may see through thee to me, not reflection, not illusion, but the purity, the reality I have instilled within the you of me.

O man, seed of my imagination. Though I stand on the top with my banner of victory, I am also the one who has lost the battle. Though each of my seeds returns on lines of light, my law brings me to each of you. I have established the pattern of my doing in the endless progression of my parts that none shall ever find an end, unless the path leads downward. All my creations are in the curves of infinity. So I guide you in the Light. You must recognize my being in you, the part of me.

O mortals, cast in form of me, you contain each density. Accept the Life you cannot see. Bend the glance inward. Reach forth with limbs to feel my breath. Build my fire of Lighted Love to such intensity that those around about may know their right to be the parts that I have made. I extend myself through every branch. Though leaves may fall, the tree of life lives on eternally. For I am living proof and none can stop the progress of my paths. For all my parts shall bring about the result, in evidence that I, as cause, knew that each one of my parts would fit the pattern of my beginnings.

Infinite Light Power

Excerpts from the book "Council of Seven Lights"
by G.W. Van Tassel

Birth of an Atom

WHENEVER the "G" lines of still light intelligence introduce a relationship between the "A", positive, and "B", negative, lines of force, a "marriage" takes place. This is caused by the potent, infinite creative One Mind. The "G" lines of light intelligence separate, as an insulation between and around the "A", positive, and "B", negative, lines of force and their relative distance is reduced. Then they "become engaged". This induction results in a "giving in union" by the still light, to the "A" positive (male), and the "B" negative (female), lines of force, from which an atom is born.

An "atom child" is composed of the intelligence from the always present Father, who becomes the "insulating layers" in the atom. The son (sun), "A" positive (male), "builds a house", or shell, and moves in with his bride—the "B" negative (female) electron. The son, proton, positive "head of the house", centers himself in his home, the atom. Both the son and the bride show element "traits" of the lines of force, which gave them individual motion.

Through transmutation the atom is given a new child when the Father—who still maintains virginity in the electron daughter by insulation, allows the son (proton) to bring the bride (electron) into unbalanced "relativity". By projective positive polarity the son (proton) mates with the negative receptive electron bride, in a "radio-active breeding". This "relativity" enters the house-atom, as an offspring, termed by science an "isotope". The offspring will grow to maturity and become a daughter, another electron in the atom-shell house, or a "positron" son. Stable isotopes are daughters; unstable isotopes are sons. This microcosmic creation is, was, and always will be controlled by the "G" lines of infinite intelligence. The Father serves as the cause, the separator, and the activator--the life of pure Light intelligence. The force of an atomic explosion is the resistance set up by the "family in each atom home" when it is wrecked.

The terms which science has named "dimensions" are really densities.

The first density is Life; Causation; God; Father; Intelligence; Stillness; the all-pervading Light, called by us, "the G lines of light"; Endless Length (Ethe).

The second density includes Life and Motion; Gender; Polarity; physical bodies; animal life, birds, etc; all forms of life in motion; "A" and "B" lines of force; Action by Instinct; Breadth (Bred-Ethe).

The third density consists of Life; Motion and Consciousness; Man; Self-recognition; the stage of ability to advance through self effort; Individual control of mind; Potential Christs; Intelligent form compositions of life and motion consolidated from patterns of atomic structure. An expanded state of life forms in motion through conscious control. Thickness (Thinkness).

The fourth density comprises of Emergence; the sum of the first three densities; Life; Motion; Consciousness; Understanding; the progressive state of be-ing where all people understand each other and God. Thought transference, being the means of communication, makes it impossible for man to "hide behind false words". Man must demonstrate right thinking by right living, or be insulated from those who do so. Christhood. The ability to create instead of destroy.

The last mentioned density is the level of the beings who are flying the space craft in our atmosphere. As our solar system is progressing into their density-area of space, they are here to find out our conditions. They cannot accept "rotten apples" in their space "barrel". That is why the Bible says, "One shall be taken and one shall be left": They will only accept the ripe consciousness-developed fruit of mankind.

"G" light force is the primary cause, Intelligence of The Creator. "A" and "B" light force is secondary energy in motion.

Atomic explosions are the results of "brains" in man, refusing to recognize the consciousness of be-ing, or the ability to re-create with God. Destruction is the end result of ignorance, sponsored by the devil of man, working in opposition to his Creator.

Science is Religion and Religion is True Science.

Schumia On Responsibility

Recently upon your planet a small child of two years found a match and ignited it. Not knowing how the match burned his fingers, he threw it from him. The result was a conflagration that terminated some 64 mortal lives. Strangely enough most of those saved were in the most difficult places to save and the officials ferreted to find a material cause for damages must be paid, someone must be held responsible. Not knowing whence the fire started, they established one of their standard, falsely manufactured, responsibilities.

But who was truly responsible? Could a child of two know, should the match be blamed, or should the factory where the match was manufactured stand responsible. Maybe we should go back and hold the people responsible who built the factory, for if they had not built the factory the match would not have existed.

These things happen every day. Mortals must establish responsibility. In a case of this kind there is no responsibility of a mortal nature and so it is with grown children, adults. Many times they make every effort to avoid doing wrong and yet things happen to them and they are held responsible for the action.

In the eyes of the Ever Presence man is not responsible for any action unless he has a desire and exerts an effort toward that action and result. When things happen in which you have no premeditated desire or have made no effort to establish, whether they seem to be of benefit at the moment or not, give praise unto the Father for your path is being directed. These occurrences are not accidental. They are done with a purpose and pattern for a result that you may never know about. Bear with the Father and know when things go wrong through no effort of your own, or lack of effort, that you are being guided, protected and be grateful.

You can assist us in spreading the ageless Wisdom of our Interplanetary Friends by mailing this copy of the Proceedings to someone who is interested in this New Age Science or mail it to your nearest Public Library.

Strain-Universal Pulse Beat

OD in His infinite Wisdom caused all of his creations to function by perpetual motion. He maintains the balance of interchange by centering each creation and insulating each one from all others.

When He created the "A" lines of light force, He gave to them density—1850 to a square centimeter. He gave them polarity (positive), gender (male, projective), motion—speed 186,000 miles per second—and matter in form of charged particles. He added energy (electromagnetic flux) and placed these creations throughout all space.

In opposition to the "A" lines of light He created the "B" lines of light force. The "B" lines are composed of density—1257 lines per square centimeter. They cross between the "A" lines of force at 90 degrees, with motion at a speed of 202,000 miles per second. Their polarity is negative. Their gender is female, receptive.

Between the "breathing" of these two primary forces, He created rhythm. This brings about a "wave motion" which consolidates the individual lines into "bands". When "A" works inward, "B" works forward and when "A" works outward, "B" works backward. Rhythm, which establishes the "bands, levels, and density changes", is operated by strain or desire. Strain is the time between the "flight" of the female, negative lines of force and "the pursuit" of the male positive, lines of force. When they encounter an object-creation (planet) that was "born" before by other "A" and "B" lines of light, they add to its rotation by spiral induction and partial penetration.

The "B" negative lines are attracted to the positive core but are repelled by the "G" light insulation strata. Having penetrated the negative crust, they are repelled by it and take the "line of least resistance", out of the North Pole. By induction they attracted the positive core to rotate in one direction and in being repelled helped the negative crust to rotate in the opposite direction. The "A" positive lines of force work opposite and are emitted at the South Pole. As they emit from the poles they are met by the "G" lines of light and bent to their original course. The resistance in bending causes aurora borealis.

As they have reduced their charge and speed in adding power to the planet, they enter different levels as they emerge from the poles. Then the "G" lines of light, crossing between them and insulating them, bring them back through "rest" and "rhythmic breathing" to their original speed.

The "A" lines of force have more density and less speed than the "B" lines of force. The "B" lines have more speed and less density. This is the reason why the "A" positive lines of force, charged with matter, become the proton core of the earth. The faster "B" charged matter becomes the crust of our planet. This strain or desire is the eternal progressive spirit in all things: atoms, planets, people, solar systems, etc., that manifests action. Man refers to the pure strain of blood in breeding animals, yet he does not include himself in the proven process.

Meade Layne, distinguished educator and director of "Borderland Sciences Research Associates" recently published an item on Q-Film. This strained Q-Film is under tests by Originality House Inc., of Akron, Ohio. In stretching Q-Film in two directions, avenues of less resistance are created in the plastic by strain lines. Thus when fruit or other food is wrapped in Q-Film its preservation qualities are increased considerably. Q-Film in the future will prove to be one of the best cures for cancer and other diseases. Cancer is the result of irritation in a weakened portion of the body. Q-Film only guides the "A" and "B" lines of force around objects wrapped in it, allowing them to "rest" or absorb the essence of the Father who fills all space—not occupied by the "A" and "B" lines of force. All disease is the result of vibration frequencies of the "A" and "B" lines of force, which "burn out the fuses" in a portion of the body that was not strong enough to resist the potential.

Strain in people is desire. When the desire exceeds the limits of capacity, the Father's agents of balance—the "A" or "B" lines of force—will bring about an opposite result. The "G", "A" and "B" lines are the "Us" referred to in the Bible (Gen. 1:26) when God said, "Let us make man". If man gets enough science of God, his health and religion will be living proof of his creative ability of life, not by destruction for death.

SUBJECT: DANIEL W. FRY
GEORGE W. VAN TASSEL
INFORMATION CONCERNING

George Wellington Van Tassel

Pursuant to Mr. Tolson's request today, Bureau files have been checked for information contained therein concerning Daniel W. Fry, described as being in electronics and rockets, and George W. Van Tassel, Giant Rock, Yucca Valley, California.

The Bureau has conducted no investigation concerning Fry or Van Tassel and our files contain no information identifiable with either of these individuals.

ACTION:

None. For your information.

THEY'RE FRIENDLY

Scientist Tells of Space Visitors

Story and Photo
By ED RITTER

SPACE SHIP LANDING STRIP NEAR JOSHUA TREE — "The crew of a scout ship from a carrier out of Venus stopped in here just the other night," my host opened casually after gesturing me to a comfortable chair. "One of the Venutians sat down right there in the chair you're occupying."

It's natural enough for George Van Tassel to assume that his guests want the conversation to turn to things extra-terrestrial.

Now, that his fame as a "flying saucer" authority has been spread through his book, a television appearance, a San Bernardino service club address and publications of his College of Universal Wisdom, scores of Southlanders invite themselves to the giant rock in the desert under which Van Tassel makes his part time home.

"It's lucky you didn't come on a weekend," he told me. "I have to talk to folks in groups here on Saturdays and Sundays."

Saucer Convention

The largest group — a crowd of several thousand — showed up for a couple of days last April when Van Tassel hosted a "flying saucer convention."

Callers who make the trip without advantage of airplane or spaceship get a good shaking up on the 28 miles of washboard desert road from Joshua Tree to the rock.

Under the rock, which is about as tall as a three-story building, Van Tassel has a comfortable living room where he studies and entertains guests. A wall is lined with books, most of which deal with interplanetary matters, philosophy or aircraft. (Van Tassel was a flight test engineer before coming to the rock seven years ago.)

A thick guest book on the table bears thousands of names and far-flung addresses. Desert scene paintings lend graciousness to the rockbound room.

Other Quarters

Elsewhere on the 2,600-acre ranch, Van Tassel and his family have more commodious living quarters.

A tall man with thin sandy hair, Van Tassel has a deep, pleasantly modulated voice and a versatile vocabulary. He apparently has read widely on religion, aircraft, psychology and philosophy. Genial and well-mannered, he is solicitous of his guests' comfort and is a thoroughly courteous conversationalist.

Though the personal experiences he describes are spectacular, his manner of telling them is no way boastful. He renders his account of being singled out to travel with a Venutian in a spaceship as blandly as if he were telling about a ride in a neighbor's new car.

Unexpected Involvement

He got involved in extra-terrestrial communication in an entirely unexpected way, Van Tassel told me.

He and a group of twenty or so scientifically-minded associates had been doing a few simple demonstrations of psycho-kinesis. They were moving an ash tray across the room by thought power one night when suddenly every member of the group got a thought wave that brought him up short. Van Tassel said it turned out to be a message from some Venutians who'd tuned in on the thought and became interested in these earthlings' effort.

Knowing a great deal about these matters, the Venutians reportedly said they'd be glad to give some help. While they were at it, they passed on a few tips about rejuvenation. Achieving ages of from 800 to 1,300 years themselves, the people on Venus — and everywhere else in the Interplanetary Confederation — are in

a position to lift our geriatrics' eyebrows, Van Tassel allows.

Experiment Well On

"He's already well on with perfection of a light energy ray instrument that will equip him to administer life-prolonging treatments in his lab, he said, but admitted that only time will tell whether or not he'll be able to duplicate what's being done on other planets.

I asked my host if the folks down in Joshua Tree might not be a bit dubious of these goings on.

He lit a cigaret, and smiled tolerantly.

"There are always some who are ready to ridicule that which they don't understand," he said, "but ridicule doesn't make a bit of difference to me. By and large, the people out here are friendly."

No Ordinary Man

It wasn't long after his first communication from the Venutians that Van Tassel was awakened at 2:30 one morning by a handsome young man who appeared to be about 28 years old and who had a voice like Roanld Colman's. "At first I thought it was just a fellow whose car had broken down on the desert, but it didn't take me long to discover that he was no ordinary man," my informant recalled.

"You can consider this visitation as sort of a reward," the Venutian was quoted as telling Van Tassel. "I had a little time to spare and knew you'd be interested in the ship."

"Then I looked over there," Van Tassel recalled, gesturing toward his landing field near the rock, "and, sure enough, his ship was hovering just a little way off the ground."

On accepting an invitation to ride the craft, Van Tassel said he verified his expectation that the Venutians have developed aircraft so far in advance of our best efforts that it will long be impossible for our engineers to understand the principles involved.

The Venutians' ships are powered by light energy and hardly ever wear out. Even the 3,000-year-old obsolete ones make out very well.

Speak Any Language

Venutians communicate among themselves by thought transfer instead of spoken language, but they can speak any language as an accommodation. Van Tassel said the fellow who gave him a ride in the spaceship spoke the most perfect English he'd ever heard.

"He'd answer my questions almost before the questions were framed in my mind — let alone waiting for me to ask them. Sometimes when he would give me an answer I'd find myself almost wondering if I'd even thought the question yet."

The Venutian was accompanied by his dog. "He looked more like a rabbit than a dog, though," Van Tassel observed.

He said one of his acquaintances, Jack Morehouse, of Pasadena had the good luck to ride with a beautiful girl in a spaceship clear to

Ceres in the asteroid belt between Mars and Jupiter.

Space Romance

"A woman was in charge of the journey and Jack says she was of such radiant beauty that he fell in love with her immediately," Van Tassel reported. "She had flaming golden-red hair reaching nearly to her waist."

The delicious steak dinner that Morehouse was served in the spaceship reminded Van Tassel of the highly developed system of commerce that buzzes within the Interplanetary Confederation. Mars is the industrial center and the planet of Neptune supplies practically all the meat. Neptune's "kaylaks" closely resemble our cows. However, they have longer ears and shorter horns.

Earth is the only planet in this solar system that hasn't been admitted to the Confederation, I was informed. The Confederation has laws preventing forcible interference with Earth unless and until earth men — with their destructive weapons — begin to seriously threaten the safety of the entire system.

Could Take Over

In the case of an atomic war, according to Van Tassel's information, the Confederation will take over. He estimates that it'll take about 15 minutes. "They'll accomplish it through thought control," he predicted, citing an instance during the Korean conflict when space men allegedly demonstrated the power by ordering a two-hour cease-fire which was effective and which military authorities on both sides had difficulty explaining.

Confederation members use no offensive weapons, but their defensive devices are impregnable, Van Tassel says, noting force fields that space men set up around Earth-grounded craft. Space pilots walk freely through the force fields, but earthlings find them to be invisible impenetrable walls. Van Tassel has a way of hurrying through much of this information almost apologetically as if it were such commonplace knowledge that his repetition of it might insult the hearer's intelligence.

Confederation beings use but single names designated by a central agency, he said. Whenever a person dies, his name is moved to the top of the list and assigned to the next person born.

No Martians Yet

No Martians had yet called on Van Tassel at the time of my interview but a woman from Mars was expected momentarily. She'd been communicating with Van Tassel through thought transfer from a Santa Monica hospital where she

"Venutians have visited us several times in this room," says George Van Tassel.

was being amused by the earth doctors' bafflement at her blood count and temperature.

"How'd you happen to get in the hospital?" Van Tassel inquired of her.

"I was hit by a damned earthling who was driving a car," she reportedly answered good-naturedly.

"It's amusing to hear them use our slang and vernacular," Van Tassel chuckled.

Some are Tall
He was commenting on the 15-

foot height of residents on some planets' moons and on the way Martians' ears roll in a manner to make them seem pointed when I suddenly picked up a thought wave — doubtlessly beamed by my wife — warning me that I'd probably get lost trying to find my way back to the highway.

So the conversation turned to San Bernardino and Riverside County roads.

Van Tassel's information on roads proved to be entirely correct.

REC-10

**GEORGE W. VAN TASSEL
INFORMATION CONCERNING - SUBVERSIVE CONTROL**

Reference is made to Miami and Los Angeles teletypes to the Bureau dated 4/9/65, bearing "Racial Matter" character.

For information of Miami, captioned individual is probably identical with George Wellington Van Tassel, who was interviewed by Bureau Agents in November, 1954. A copy of Los Angeles letter to the Bureau dated 11/16/54 concerning subject is enclosed herewith for information of the Miami Office. This letter, which sets out the results of the above-mentioned interview, includes a statement from a deputy sheriff who was acquainted with Van Tassel; and it is noted that this deputy sheriff considered Van Tassel to be an apparent mental case.

Because of Van Tassel's apparent mental condition, as evidenced by his statements and apparent beliefs concerning inter-planetary travel by men from Venus, and in view of his other highly imaginative and incredible statements concerning space travel and population, it is believed that no further inquiries need be conducted by the Miami or Los Angeles Offices concerning Van Tassel.

If information exists, which has not been previously furnished to the Bureau, and which indicates a propensity towards violence on the part of Van Tassel, or if other reasons exist which would indicate that the matter should be referred to Secret Service, a letterhead memorandum should be submitted under the caption of Van Tassel.

Information concerning ultra-right, subversive and/or racist activity on the part of Earl Linder, mentioned in referenced Miami teletype, should be appropriately furnished in form suitable for dissemination under Linder's individual caption. Such information should include [redacted]

Letter to Miami
RE: GEORGE W. VAN TASSEL
63-1566

For information of Miami, Bureau files contain only one reference to Earl Linder, who was born 12/16/09, Dana, Indiana. An Atomic Energy Act Applicant investigation was conducted in 1952, and Miami file 116-11525 contains pertinent background information.

Los Angeles should furnish the Bureau any current available information contained in its files regarding Van Tassel, including current address if known. No investigation should be conducted for this purpose.

NOTE:

Miami teletype 4/9/65 reported information from a discontinued racial informant who said: [REDACTED] b7D

[REDACTED]

Van Tassel last known to be residing at Yucca Valley, California. Among his other unusual views, Van Tassel claims that spacemen inhabited the earth before Adam; that Jesus was descended from the spacemen, and that after resurrection, Jesus was "retrieved" to outer space by means of a "transistor beam."

GEORGE WELLINGTON VAN TASSEL
GIANT ROCK AIRPORT,
YUCCA VALLEY, CALIFORNIA

VAN TASSEL has been known to the Los Angeles FBI Office since 1954. He is reported to be owner and operator of the Giant Rock Airport, which is located approximately 18 miles from Yucca Valley, California. He has also been reported to be a director of the College of Universal Wisdom, Yucca Valley, California. Numerous complaints have been received by the Los Angeles Office concerning VAN TASSEL and his activities surrounding "flying saucers", "spacemen" and "space craft."

VAN TASSEL was interviewed by Special Agents of the FBI on November 16, 1954, and advised that he had purchased a ranch in the vicinity of Giant Rock about seven years prior to the interview and subsequently had leased land from the government. He stated that the newly acquired land was then known as Giant Rock Airport, having been acquired under the "Airport Act", and was a certified Civil Aeronautics Authority (CAA) emergency landing strip.

VAN TASSEL advised that in August 1954 he had been awakened by a man from space. The spaceman had allegedly invited VAN TASSEL to inspect a space craft, or flying saucer, which was manned by three other male individuals who were identical in every respect with earth people. VAN TASSEL furnished detailed descriptions of an unarmed, bell-shaped flying saucer and claimed the spacemen were mutes who conversed with him through thought transfers.

VAN TASSEL stated that he advocates and follows a metaphysical religion and research which is based on thought transfers, and that through the thought transfer media he has ascertained that there will be a third world war with a destructive atomic explosion. He further stated the above facts could be verified through the Bible, and that the peace-loving space people would not enter or provoke a war.

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 9/25/80 BY SP/ER/AM

63-1566-12
ENCLOSURE

LA 62-4080

He further claimed to have learned from the space people a means of rejuvenating people's life expectancy from the present expectancy to 300 to 1500 years.

VAN TASSEL advised that he published a bimonthly publication entitled "Proceedings of the College of Universal Wisdom, Yucca Valley, California", and claimed a distribution in 1954 of 1,000 free copies.

VAN TASSEL claimed to secure his money for life necessities and the furtherance of his religion, research and college through the generosity of about 100 individuals whom he failed to identify. He stated that some income was derived from the airstrip and a small restaurant located at Giant Rock. Giant Rock was noted to be a remotely located area about 18 miles from the nearest highway, with a rough dirt road leading from the highway to the airport.

VAN TASSEL voluntarily mentioned that he is a loyal American and would be available at any time to assist the FBI.

The articles written by VAN TASSEL on space craft, space people and space communications appear to be the writings of an eccentric who attempts to connect passages from the Bible with the philosophy of the religious hierarchy of the "College of Universal Wisdom."

Between 1954 and 1958 VAN TASSEL furnished information to the Los Angeles FBI Office on at least seven occasions, making various allegations of espionage, sabotage and Nazism. None of the allegations were ever substantiated through investigation.

On November 16, 1954, Deputy Sheriff ROBERT WOOD, Resident Deputy, Twenty-Nine Palms, California, which covers the area of Giant Rock, advised that VAN TASSEL operated in the name of religion, and WOOD advised he had attended meetings where VAN TASSEL would read from the Bible to fifteen or twenty people, preach a sermon and then go into a seance.

WOOD advised he had watched the maneuvers of VAN TASSEL for some time, and the San Bernardino County Sheriff's

LA 62-4080

Office had ascertained that VAN TASSEL had not violated any California statutes due to the fact that he operated in the name of religion. WOOD further advised that the general consensus of opinion in the area where VAN TASSEL resided was that VAN TASSEL was eccentric and appeared to be a mental case.

During 1960 VAN TASSEL gave a lecture before the Denver Unidentified Flying Objects Investigative Societies, Denver, Colorado. This lecture was described by a Special Agent of the FBI as more of a religious-economics lecture rather than concerning unidentified flying objects. A summation of VAN TASSEL's speech was furnished as follows:

1. Space people in relationship to occurrences in the Bible.
2. Atom bomb detrimental to earth and universe.
3. Economy is poor and would collapse under ideas brought by space people.
