Miscellaneous

On January 4, 1978, Doctor MARGARET MEAD, Anthropologist, 211 Central Park West, New York City (NYC), New York (NY), advised she had married the applicant, who was then a British subject, in 1936, at Singapore and they subsequently divorced in the Autumn of 1950. She said she obtained the divorce through her attorney in Mexico. At the time of the interview, she said she did not recall the specific date or the exact town in Mexico where she had obtained the divorce.

MEAD stated that between approximately 1936 and 1938, she and the applicant had been involved in Anthropological Research in Bali and subsequently in New Guinea. She said they returned to Bali for a short period in 1939 and in February or March, 1939 they returned to the United States because they could foresee the forthcoming invasion by the Japanese. They returned to the United States and she and her husband became involved in the Committee for Natural Morale which concerned itself with the study and interests of Psychological Warfare and Intelligence matters. She said in the Spring of 1944, the applicant was associated with the Office of Strategic Services (OSS) and was assigned overseas to Ceylon and India and later on behind the enemy lines in Burma. He returned to the United States in the early part of Autumn, 1945. She stated she personally had taught Anglo-American Relations to the OSS. MEAD stated she brought out these points because she wished to stress her former husband is a loyal and responsible citizen. She stated to the best of her recollection, he became naturalized after his second marriage. She still maintains a close association with her former husband, both personally and professionally and she considers him a very stable, responsible, conscientious and dedicated individual. She has never known or heard of anything regarding her former husband which would cause her to doubt his moral character, reputation, loyalty or integrity. She recommended him for any position of trust and confidence in the United States government and she did so without any reservations.

IT SEEMS HARD TO BELIEVE THAT THIS 9-MONTH PERIOD OF STUDY [redacted] WHICH TOOK PLACE SOME FIFTY-SIX YEARS AGO COULD POSSIBLY HAVE AN EFFECT ON A 73-YEAR-OLD APPLICANT'S SUITABILITY FOR EMPLOYMENT IN 1978.

EXPERIENCE INDICATES THAT SUCH RECORDS WOULD HAVE BEEN DESTROYED IN THE INTERIM. MOREOVER, THE UNIVERSITY OF GENEVA HAS ALREADY INDICATED THEIR FILES CONTAIN NO RECORD OF APPLICANT.
