OO: NY/BQ

Specimens received: February 5, 1992

Specimens:

- Q69-Q70 Two bullets
- Q71-Q76 Six cartridge cases
- Q77 Metal fragment

Result of examination:

Specimens Q69 and Q70 are full metal jacketed bullets from the .380 Auto/9mm family. They have been fired from a barrel(s) rifled  which is the same as K6 (Laboratory number 91012020 S TL QY)  submitted by the New York division in the homicide of FRANCESCO OLIVERI. However, nothing was found to indicate that these bullets were fired from the barrel of K6.

Specimens Q71 through Q76 are .380 Auto caliber cartridge cases manufactured by Cascade Cartridge Company

Incorporated (CCI). These cartridge cases were identified as having been fired in the same firearm. Nothing was found to indicate that these cartridge cases were fired in K6.

Specimen Q77 is a bullet jacket fragment that bears very limited microscopic marks of value for identification purposes and was not associated with K6.

The submitted evidence will be returned to you under separate cover by Federal Express.
