1 June - T

Don phoned that she wd not be in until tom - she wanted to take care of some bus affairs - she sd she had been much comforted by all the expressions of sympathy she had recd - the off sent a beautiful display of red & white flowers - an informal serv was held in which people who had known her serv spoke a few words about him

Don told me that her sister - in-law who was going to have a baby wanted her to llcft the other child, & inquired whether I cd change my vacation dates - she wants to go on 24 June, which wd interfere w/ our planned family reunion

I had very little wh to do all day - I finished all my final entries for May - then whed on my list of expenditures

At lunch time I saw a film made in Canada for the firm which constructed housing for the Alyeska project in Alaska - it had some beautiful

secretary

"I've left eating my lunch at my desk!"

After trying to reach her several times during the day I finally got through to her when she got home - I told her I would not have to change my vacation plans - she said they would be better for her anyway & we both thought that fact might be able to come thru & it would not be a concern for Edna - they'd have to pay my fare both ways - actually, I think the Te work trip might be rather hard on me & if I can get permission from the Te to go, I will take 5 days or so - I'm thinking of taking one when starting the 14th - the firm, of course, will be

her plans to take a seminar in Ariz. a time after Paul's wedding & then help Marilyn O'Hare catalog files in Tapes

When I got home I phoned Bob & Chr - thought they would be going to the Te to register their child for the summer trip & we take a message to registration workers that all conflicts would prevent me from going on the trip, but Bob said they were not going to send the children - he did not say why not

were Mrs. Harrison's brother, Lawrence,
Anita Harrison, & we picked up
Don Jackson, who is living in a
commune on Bush St. - we left
the city about 10:30.

I stayed awake until we got on
highway 5, then slept for a while.

I had been a little worried because
I knew Dave was exceeding his 50 mph
limit & was not surprised when
a CHP officer stopped him & gave
him a ticket for driving 70 - he
& Don argued w/ the officer, who

(over) C-1-A-1 (49)

threatened to arrest him for interfering
w/ an officer, but he let us go and I -
afterwards I told Dave & Don that
even if Dave was not doing 70,
he was going faster than 30, &
we were lucky not to have had
an accident - they still saw
their revolutionary purpose for a
more worthy purpose

I got some more sleep - we
stopped twice, once to get to the
road and the second time to
get gas - I gave Dave \$10 - the
others bought snacks & soft drinks -
I ate my sandwich, orange & veg
juice, & got a Pepsi Col

I saw Dave give Anita a \$5
bill when she asked for money -
I wondered how Dave managed being
communal as I had id all in poli-

At the meantime those going on the trip loaded the buses but they two were left a long time - 3 cars, incl. a van, were coming down from the Puller in S.F. I were here late in evening - some members, such as Carl Hall, had to get back & intended to go back in those vehicles - it developed that Dave was have to take the car of the Puller. offenses, incl. threatening an adult &
damaging property & hadly had had a
bad fight w/ John Cordell - (Van had

he advised me to write Pat up - he
sd the Harrisens made up deficits in

funds were touchy & "diplomacy" was
needed to handle them

are being renovated w/ the plan to sell

C.J. asked me about my plans to go

this regard - he left his job w/ the
arbitration service & is taking w/ Dave
Garrison a construction job - he makes
almost as much money & likes the atmos-
phere better - besides the skills he is
learning will be more useful in the p.l.

Finally 2 cars arrived from SF w/ the
Public. Trip - Beth Chastain, was in one,
told me that she had made a wrong turn
ing.

About the time the van arrived so did
the guy woman, Helise & Jackson, w/ the 2
child - the final arrangement was for Howard
Jackson to help drive someone else's car,
& Dave the Helise & the children besides
me & ~~the~~ brother in - how whom he went
after - units were on the trip

The buses, which had been waiting for
the Publications stop, prepared to let us

so - he did not keep his speed down
to 50, & Helise even spoke to him once

Dave was authoritative & the officer did
not touch him.

About a hundred miles from SF Dave
got the brother - in - law drive.

We got 3 more worth of gas, for which
I pd on Discover.

Had the alarm set for 7⁰⁰

At the same time & made yesterday's final entry
hadn't called until about 9⁰⁰ - she
and she & her guests planned to visit
Christown & to go Sanschite on the ferry -
we arranged to meet about 11⁰⁰ at old
St. Mary's Ch

I listed expenditures for the party who
dined

I left the apt about 11⁰⁰, went to
Petruccio & bought a bottle of good Cely
wine to take to Lou

I took the Divisadero bus, then the
the Sacramento bus to Christown - I
thought St. Mary's Ch was on the Chinese
park & playground & walked around. I
found ~~the~~ park - I didn't see her &
thing at my map discovered that St.
Mary's Ch was about 2 blocks away - I
walked to it but Lou was not there
either - I was afraid that there was
some misunderstanding - I went back
to the park, didn't see Lou, & put it to
the ch - Had the paper & drank
dunkin' which I had put in my
thermos - Lou paid me a little of 12⁰⁰

Lor's visitors were Mary, her sister,
Russell, Mary's husband, their son Michael,
& Michael's girl friend, Joyce. They had
all spent several days at Ross Landing of
Borloughs, Carmel & had gone to the Monterey
Peninsula.

They were late because Lor had not
been able to convince them, partly the young
ones, how long everything takes in the city.
We waited for some time for Michael
& Joyce who were riding the outside
elevator at the Fairmont. Mary & Russell
waited on the corner for them & Lor & I
ate cheese & salmon sandwiches, grapes
& pananos which she had brought & drank
some wine - the others joined us & had
some lunch - then they walked around
Chinatown while Lor & I talked & went
over to Portsmouth Square.

Lor told me Michael & Joyce were
very ~~young~~ in their attitudes &
really prejudiced - Michael is 22,
has been studying law.

Then we got to again, we took the
cable car to the Embarcadero & took
the ferry to Sausalito - the weather was
lovely but the fog began to come in -

Worked all morning putting the security agreement from the Key Cds into the ATS computer & Dr. had read a print-out of what we had done yesterday & found that putting the formatting signals in was too much for her so she decided we should put it in in unformatted mode - This means watching every line to see that it was entered correctly & I feel it was more nerve - I was shaking than when I had done yesterday

I planned to look for my checks - up of my eyes by Dr. Tornambe & found that he did not get away until late - my appointment was at 1:45 but the doctor had told me to come earlier so that my pupils could be dilated - I arrived at the medical clinic about 12:45 & the nurse took care of me - I ate my lunch while I waited

Dr. Tornambe again checked me thoroughly & found no problem - he thought it was unnecessary to get my glasses changed, as I have 20-20 vision w/ these - my left eye is weaker but the other makes up for it - Dr.

I had hoped to be able to type
straight ahead all day on the Venezuela
contract & to finish it but problems
& interferences arose all day. Phil
Beinell wanted a contract put on
ATS today - I told him he'd have to
find somebody else to do it, or ask
Halbreath to give him priority -
otherwise I'd have to go to Betty
Uair for a resol. - He got that
written to do it but didn't have
it ready for her to start until mid-
day - some ^{more} changes had to be made
on Phil's contract & the page nos. for
the index put in ¹⁵ ticks. I
didn't have time to do these - I
did an express print - out ordered!!
started just by noon & spent nearly
an hr on the job.

A new off. & shopping ctr called
"Archer Plaza" has just been opened
off Rincon Annex, & I'm eating my
lunch on the 3rd & E steps. I went down
to see the festivities (Hello I go)

had been giving away free bellows & there may have been refreshments at the Del Monte site, but I was too late to get anything.

When I got back to the off I find Maggie wanted a change made in her Eng. litch doc & a copy ordered - Marie, who has been extremely helpful, offered what to do, but neither she nor I could make out how to change the form so as to get what Maggie wanted - she decided to have it typed in by Brenda.

The sys. was down for about half an hr preventing me from finishing Saltbreath's doc - I had five or six jobs to go - I ordered a print - out of what I had done - I had encountered several inconsistencies in capitalization & format, as well as odd workage, not all of it a result of translation.

3/8 After leaving the off, I took the bus to the SF Coop & I got a shopping cart, as it will be useful to bring produce home from the Hayes St. coop but mainly to take laundry back & forth.

The pl. - not the pains & disappointment
these that we had here - no one gave me a
moment's concern - my people this dis-
prove the div. of my sin - nothing to
celebrate on this day of a pain - some that you
out to be traitors, others will seem to go out &
be traitors.

decision in Th - Israel invaded Uganda today.
in 5th officials celebrated this in Congreg Ch!
relig judges all kinds of evil deeds - in truth

tells of God - relig has done nothing for Amer. -
almost harder for a white person (or that) to later
see than camel to go through the eye of a
needle - white here & go respectable here - do
not break anyone else's heart

Relationship bet husband & wife would last -
spoke of women who left child - but child know
they don't stand alone - kept Jack Arnold's record
clean - don't ask who has been a traitor, as
he never lied to you

None else can have them but night - people
build alliances but drop you like a hot potato -
some say "Don't worry" - that's doctor of
my sin - in pl environment, effort made the
self.

Georgia Leary had been dispensing water from a tank provided for our use, as the city water supply was sufficient for normal needs this year - I relieved her for about an hour & poured water continuously - people had to bring their own cups

At 7:30 we went inside the TC again for housing instructions - Liz Davis explained the new system which was necessitated by having so few householders in the Valley any more - buses & a few private cars were used to transport people to Wetherdowns, Hansen Valley's, Edith Boyer's, Juncos at the ranch, Barbara Cordell's & Alice Dyrohem's, Blain James, Helen's & the off. camp, West House, Jerry Curtis, Pat Drummet's, Edith Cordell's, Edith House, Pat Swartz's & a few smaller homes - people had been given tags to indicate whether people had a bed or were to sleep on the floor - I had no further from city to go through for my housing at Peter's house I was to have a bed, Helen's small had the other bed in the room

Peter was tied up in a job until about 10:30 - by the time she returned saw other people had been assigned to her home, among them the Mercers - I gave up my bed & slept on the floor - two people were put out

some of his activities in the Communist

by the FBI just before coming out to the U.S.
Everybody was very cozy & understanding.
I went to bed about 11:00 - I heard
Warren talking constantly in her sleep for
about an hour - she finally layed into
me & I went to sleep & slept soundly
all night, getting up only once.

Bob & I talked about how fascism might come to this city - I told him what circumstances in my opinion might cause it to be imposed & how a leader could come forward

Ray is living in East Horse - he spoke almost tearfully of what great power he has - his statements: "before the Morning Star was, I was" & "I am Universal Mind" much impressed him

Chris is enrolled in the degree program for registered nurses at Santa Rosa Jr. Coll. & struggling w/ her required Eng course - she had never liked to write - I had her show me what she had written for the class & I gave her some suggestions

At the end of Phil Beemel gave me the portion of the draft contract Kate had done for him - it concerned a nuclear power installation - he wanted a double - speed draft which presents probs in print but worse, the order of his sections was not consecutive & they had to be inserted in the proper places, & the material was very long - he wants an offpress print - out ton

16 July - F

Spent most of the day on the computer w/ more revisions of Hilda's & Hallbrechts docs

I have not felt well all wk, have had much trouble w/ allergies which came on me Sat, tho it was better today. X Doc was still working on her rpts - she had acted somewhat distant all day but I thought her mood was prob caused by her dislike of doing the rpts - I had made sev mistakes or omissions, since the Hilda & Hallbr. g's were complicated but had corrected them all - another little point arose concerning the Hilda docs & I made a mild inquiry as to whether it had to be done today - it was about 4¹⁵ - this set off a diatribe from her - she complained about my lack of diligence recently, implied that my efficiency let down at the beginning of the wk at the end - she I did not have

much sympathy" w/ my need for
more rest - if the work comes in
it has to be done - if I didn't do
my share, "In the end we'll have
to do it" - she thought I was bored w/ the
work & speculated that it might not be
as exciting as my efforts in fine city
& different from teaching

I was quite shocked & the venomous
nature of her remarks had tried not to
respond much, except to say that I had
not felt well (I didn't say anything
about her heavy smoking which she
she knew prevents me from recover-
ing from my respiratory prob) - I
it is this what

The case of the conversion on the Miller
job, went to the bathroom to prepare for
being

When I returned, Doris immediately apologized
for what she had said - she had known
she had made a mist. as soon as
the words were out of her mouth - she
did not, however, withdraw her state-
ments, beyond saying that there are

of my work closely

Dor spent 7 hrs going over the ^{departmental}
invoices from the computer center

I spent seven hrs on the ATS,
finishing Maggie's security agreement
doc by feeding key cards prepared by
Betty Barclay into the computer -
it was affecting wk - making
additions & rearranging lines
required constant attention

I ate lunch at my desk - then
took the bus up to the Staley co & pd
my bill, then went to J & E to
pay that bill - the company now
has a secur. system & requires
employees to show badges - I was

I called Antonio's from sister's place - had not seen her at the TC for long time & someone told me she was ill - I spoke to her sister, Lucille Lewis who sd no one else had been in to see her - I sd how she was - Lucille arranged for a sister who is not in the TC to take her in that sd she was at home now - Lucille told me she had seen ill for 2 mos & was still weak

Sloner opened, explaining the proj in gen - John Stewart who had been wkd on the contract negotiations & people from the division involved gave details - a rpr from the graphics area had pictures & diagrams to display - the project, to build a whole city of refineries, infra-structure, pipes, harbors, a training center, desalting twin plants, is estimated to cost \$25 billion & require 20 yrs - the working force will be built in from other ctry (from Pakistan & Yemen mainly) & first Saudi Arabia has few trained personnel but Opec is expected to train replacements for all functions - the Saudis were very apprehensive that they wd be overcharged

I do not have the means of checking - a

J came on the podium during testimonials about 9.00, then left

Norm took an offering

J referred to 3 rich young men who kidnapped 26 child. & busdriver - newsmen, neighbors say how good they were- they're misunderstood (ironically) - if it's poor black, poor white, they're hoodlums - rich child. are always very nice - they won't serve any time, because money buys anything in this city.

Someone downstairs now who got in trouble, came for help - he was not inclined to give it

The Cleaver trial today shows our power

J: I know that some don't want to go to the p.l. - we'll give you a church and you can come and have church & sing to yourselves - don't want to force anybody to go when they don't want to go - if you work for us while you're here, when the situation gets bad, come to us and we'll take you in - if you haven't worked for us, keep running

J took offering by sum

Two films on "People's China" shown - had a white narrator - first was "People's Communes," the second "People's Army." One or both I have seen before - J. said they have anti-revolutionary commentary but to us they don't look bad. - Amer. breeds alienation & suffering - the child gone from here 3 weeks has been out shooting cocaine - we're programmed by TV - I will take my chances on soc. - I would be glad to give up a few individ. indulgences to live where there is no crime-

relationships in this country based ~~on~~ on sex are superficial - none last - the poor have no chance - you wdr 't have anything if it weren't for this grp - as Mao sd, the people are God - Christianity has been arnd for 2000 yrs and has done nothing for anyone

Quest. period - Indian woman tells of pol. sci. class at Laney where they had trble keeping their ethnic class - she asks if we'll have an oppor. to go to China & Cuba - J. says soc. ctys arrange scholarships for youth - but the imp. thing now is survival - we'll have time later for travel, now we must wk - we're facing genocide - now we must wk to save our child.

Quest. by Joicy Clark: will there be any more exposure of Watergate? - J: they're not going to expose corruption - they are investigating who's screwing who - while big business buys congressmen, nothing is done to reform the tax structure - the rich screwing the poor is what I care about - to a question on deferring the implementation of capital punishment, J sd: yes, until the elections are over - the people are going back to relig. - you can't get people away from relig. - relig. is the worst disease there is - the city is full of mad dogs - I've got people in here who believe in capital punishment

There's no use going down the tubes for a bunch of stupid people - he referred to spoiled children - our child. will be destroyed: shooting coke, snatching purses, breaking car windows - getting a Baptist for pres., we should get out of here - only a robot can keep from getting mad - not one of those three yng men will go to the gas chamber

the center of this motion, the hot word
which we revolve (in regard to his mind) -
there's racism even here - you like to get
into white neighborhoods, get out of mixed phs -
do you see enough white boys? - you like
to be mixed and white universities - do
not going to live here - if I have to stay here
I need you dissidents, white, you'll see me
die - I trust more but ours - black school,
trying to sell up to the sky - you want to

I would see up to the rights committee -
tell of our child, stealing from parents -
some of you afraid to take your child from
your school, in this city - you're taking
risk in going to school - I offer you a school
people chained to the book & doors - if any child
of mine that is attached to this school - let
turn my back on him - if you turn
leave you, you will do need to turn out -
be emphasized unity in a new police force
"Why do you like to give a school to

not assigned Patricia to anyone in particular -
Paul is in Fred Shuler's custody

impressed w/ Jo's gift but wonders why
